Calf brings record price

Livestock show auction tops \$50,000

By ED TODD Staff Writer

Paul Perry's 1,235-pound grand champion calf, an exotic breed, was auctioned off for \$2.50 a pound Tuesday to set a record in steer bidding at the annual Midland County Livestock

And premium sale of 127 calves, swine and sheep "will definitely go to \$50,000, for sure," and well exceeded last year's premium sale of \$43,806.60, said Jo Stewart, secretary of the sponsoring Midland County Livestock

Perry's medium heavy-weight steer, a Maine-Anjou-Durham (Shorthorn) from Nebraska, was purchased by The First National Bank of Midland at \$2.50 per pound for \$3,087.50,

a record sale at the auction. The speckled roan steer marked Perry's first championship in showing cattle.

Last year's top bidding on the grand-prize calf was \$1.50 a pound; the top bid in 1978 was \$1.49.

The reserve grand champion calf, a black heavy-weight (1,420-pound) Maine-Anjou-Angus from Iowa and exhibited by Paula McBryde, 16, was purchased by Commercial Bank & Trust Co. for \$1,775 at \$1.25 per

Perry, a 17-year-old Future Farmers of America senior at Midland's Robert E. Lee High School, said he was surprised his steer, tabbed "Strawberry," won the show's top

Prisoners walk away from Big Spring prison

BIG SPRING - Two prisoners at ment agencies in the area, he added. the minimum security federal prison... As to what direction the two men here walked off the premises early this morning, and area law enforcement officers still are seeking the two men, according to a spokesman at the

Missing are Jorge Carillo-Collaco, 19, of Juarez, Mexico, and Alfonso Navarro-Lujan, 23, of Mexico.

Jerry Edwards, assistant superintendent at the prison, said both men had been sentenced to serve 179 days in the minimum security prison located at the vacated Webb Air Force Base. The prisoners had served about a month of their sentence, he said, and would have been released April

Both men are illegal aliens and had been convicted of a charge of illegal entry into the U.S., he said.

The men were last seen at the prison during a 12:30 a.m. check today, but were discovered missing about 3 a.m., said Edwards. A teletype mes-sage has been sent to law enforceheaded, Edwards said he has no

"They may have had connections somewhere in the state and went back to work," he theorized:

This isn't the first time a prisoner has escaped from the Big Spring facility, the assistant said. "This is a rather typical pattern with aliens. They aren't going to do more on their time when they can get out and go back to work.'

However, prisoners are screened before being sent to the minimum security prison, Edwards said, in an effort to eliminate sending prisoners whom they know will leave.

The Big Spring federal prison is an "open camp with no fences," Edwards said. Not counting the two men who left today, it has 207 prisoners.

"The population (of prisoners) eventually will be 400, and it should reach that number sometime this summer," Edwards said.

"Yeah, really didn't (expect to win)." said the reticent and lanky FFA'er. "Kind of surprised me, too, that that black one over there didn't

The "black one" was Miss McBryde's exotic calf, "Mr. Magoo." And the show's cattle judge, Fred Wilkinson, had pondered for about 20 minutes early Monday night in deciding which of the two steers should be tagged with the blue ribbon.

The show's grand champion pig, a 245-pound crossbred shown by Cactus Patch 4-H'er Billy Rodriguez, 12, was purchased for \$735 at \$3 a pound by The Midland National Bank. FFA'er Randy Taylor's 219-pound reserve champion Duroc barrow was auctioned for \$547.50 at \$2.50 a pound to

The show's three top championship lambs were auctioned from \$4.05 to \$6 a pound, which was not the top price paid at the sale. The highest perpound bidding was \$8, which grandparents of 10-year-old Stephanie Smith paid for her 107-pound, medium-weight crossbred ewe lamb. The bidding cost E.L. and Gladys Smith and Morgan and Jo Stewart

Tommy White Supply paid \$726 at \$6 a pound for Tedo Boyce's 121-pound champion Rambouillet finewool lamb. Tedo, 15, belongs to the Valley View 4-H Club.

Jane Schweitzer bought Tracy Logan's 128-pound champion crossbred lamb for \$582.40 at \$4.55 a pound. Tracy, 13, is a Cactus Patch

And 10-year-old Robby McBryde's 133-pound champion medium-wool lamb was sold to Commercial Bank & Trust Co. for \$538.65 at \$4.05 a pound

Six of the show's seven champion and reserve champion steers, swine and lambs were shown by 4-H Club members. Of those, five belong to the Cactus Patch 4-H Club.

Auctioneer Tommy Marricle sold to the highest bidders the show's 127 top steers, sheep and swine; none of the show's five heifers was auctioned. There were 158 lambs, 153 barrows and gilts and 56 steer in the show.

Pakistan appeals for protection

By The Associated Press

Pakistan's military ruler appealed for aid to offset the Soviet intervention in neighboring Afghanistan, declaring "events in this region are moving toward greater chaos."

President Mohammed Zia ul-Haq told a news conference Tuesday in Islamamad that discussions were under way with the United States on fresh aid to Pakistan, but declined to

The Carter administration reportedly has offered Pakistan \$400 million in new aid over the next two years, half of it military.

Asked if the U.S. government demanded that his regime, which hanged former President Zulfikar Ali opponents, Zia said:

We told the United States that if you want to help Pakistan, there should be no strings. We feel the U.S. probably has no strings in mind."

Zia said the West must realize the Soviet thrust into Afghnistan 'brought a total change" in the pattern of Central Asia.

'An extension of the hammer and sickle from Afghanistan to other areas in the region will mean Soviet influence over Iran, the Persian Gulf, the Strait of Hormuz, Saudi Arabia and other Moslem countries," he

Tankers carrying Mideast oil must pass through the Strait of Hormuz, at the southeastern tip of the Persian

The Soviets sent an estimated 100,-000 troops into Afghanistan last month to crush a Moslem rebellion that threatened to end 21 months of pro-Kremlin communist rule.

They backed a Dec. 27 coup in Kabul, the capital, in which President Hafizullah Amin was ousted and executed and Babrak Karmal, a more Soviet proxy, was installed. They then fanned out into the country-

Two Soviet divisions, roughly 25,000 men, were reported deployed in Herat, 60 miles from Afghanistan's western border with Iran, but Pentagon analysts dismissed reports the Russians were planning to invade Iran and head to the oil fields some

800 miles away. White House spokesman Jody Powell had said the divisions in Herat were along "the traditional invasion route to Tehran," but the analysts, who declined to be named, said if the Soviets invaded they would strike from southern Russia, not Afghanis-

Marshall Shulman, a State Department specialist on Soviet affairs, said Tuesday the Russians conceivably might try to take advantage of the unrest in Iran and push southward from Afghanistan to their historic goal of warm-water ports on the

But he said, "This doesn't appear to be in the immediate situation. Before then, they face a long, difficult period of pacification in regard to Afghanis-

Wagt of Rawalpindi, said Tuesday that Afghan rebel sources reported the guerrillas disrupted movement along three highways leading to Kabul, forcing the Soviets to rely on airplanes to move troops and sup-

However, this contradicted an eyewitness report by Associated Press correspondent Marcus Eliason who reported a convoy of hundreds of Soviet trucks headed north toward home on the main highway from Kabul Monday after resupplying the Russian occupation army.

Meanwhile, the Soviet news agency Tass condemned the U.N. General

Assembly resolution demanding withdrawal of all foreign troops from Afghanistan as "an obvious intervention in Afghan affairs."

It said "not all delegations ... could grasp the essence of the developments that have taken place of late in Afghanistan and around it. As a result the sponsors of the anti-Afghan campaign at the U.N. succeeded in dragging through a resolution .

Tass said the "artificially concocted" Afghan question was imposed on the General Assembly by the United States, China and their allies. But the news agency did not report the vote Monday was 104-18 in favor of the

hanged former President Zulfikar Ali Bhutto last April on a murder-conspiracy charge, ease up on political opponents. Zia said: U.S. expecting Soviets to have difficult time

WASHINGTON (AP) - A top administration official says the Soviet Union probably faces "a protracted, difficult time" in Afghanistan and may have to

send in more troops to suppress resistance. This could have serious consequences, including the danger that Soviet troops would cross the border into Pakistan to fight insurgents, Marshall Shulman of

the State Department said Tuesday. In time, Shulman said, the Soviets might also take advantage of unrest in Iran and push southward from Afghanistan to their historic goal of warm-water

ports on the Arabian Sea. However, the specialist on Soviet affairs said, "This doesn't appear to be in the immediate situation. Before then, they face a long, difficult period of

pacification in regard to Afghanistan.' There, Shulman told reporters, the Soviets may have made "just one hell of a botch" of the political change in local leaders from Hafizullah Amin to Babrak While the military thrust was carrwed out smoothly, he said, Amin was

deposed "very clumsily." Instead of bringing Karmal to Kabul from Eastern Europe quickly as "a legitimaoing agent," he said, Amin's palace was attacked and he was assassinated while the Soviets invented "the transparent fiction" that Amin

was an agent of the Central Intelligence Agency. Shulman said this "made it much harder for them to make the argument

about the legitimacy of their presence there." With resistance stiffening, he said the Soviets will have to send in more troops and fight the rebels themselves, instead of relying heavily on the Afghan

State Department spokesman Hodding Carter said, meanwhile, that two motorized divisions totaling about 25,000 men had been deployed to the western region near Herat, some 75 to 100 miles from the Iranian border.

Rebel resistance is reported to be persistent there, in the northeast and in the Jalalabad area, But Carter and Shulman said the Iranian oil fields did not appear to be an immediate target.

Nonetheless, presidential press secretary Jody Powell said the Soviet divisions were along "the traditional invasion route to Tehran." He added: "There is no way to assess why they are there."

Shulman, a specialist in Soviet affairs for more than three decades, called for a sustained policy of "firmness" by the United States and its allies. Apart from Afghanistan, he said "there will be a continuing succession of

local, turbulent events" in which the Soviets try to gain advantage. Support for one of the administration's reprisals, a cutoff of 17 million metric tons of American feedgrain shipments, appears to be on smaky ground in

Officials in Argentina are now being quoted as saying the free market will determine grain deals. Last Saturday night, after a meeting among leading world grain exporting countries, including Argentina, U.S. officials said Argentina had promised not

to take advantage of the partial American boycott.

Carter said the United States would discuss with Argentina and also Brazil, a

primary exporter of soybeans, the "question of what will happen in some sectors of their market economies." The State Department spokesman also insisted that "the statement issued

Saturday represents precisely what happened" and that the governments of A Pakistani newspaper, Nawae Argentina and Brazil will not take action "to reward Soviet aggression."

Firing squads execute Iranian army officers

By The Associated Press

Firing squads have executed a number of Iranian army officers for plotting to overthrow Ayatollah Ruhollah Khomeini's revolutionary regime, the usually reliable Kuwait newspaper Al Rai Al Am reported

Quoting unidentified diplomatic sources, the paper published in the Persian Gulf oil sheikdom said all the officers involved in the coup plot had been arrested and were executed secretly to avoid adverse publicity for the revolutionary regime.

No confirmation of the report was availamle, and sources in Tehran, the Iranian capital, said they had heard nothing about such a plot. The report said the plot was discov-

ered accidentally when some of the Iranian regime's revolutionary guards stopped and searched the car of one of the officers at a roadblock.

The paper said the plotters were all medium-ranking army officers who planned to seize control of Tehran, the Iranian capital, and then lay siege to the holy city of Qom, Khoemini's headquarters 100 miles to the south.

The plotters expected other opponents of Khomeini and supporters of the deposed shah to join them after

they launched their coup, the report

Meanwhile, Khomeini was reported willing to accept U.N. Secretary-General Kurt Waldheim as an intermediary with the United States even though he refused to receive him in Iran earlier this month. Quoting U.N. sources in New York,

ABC News reported Tuesday night

that the Iranian Foreign Ministry sent a message to its U.N. ambassador, Mansour Farhang, stating Waldheim was now acceptable to the 79-year-old religious leader of the Iranian revolutionary regime.

Neither Waldheim nor Farhang was immediately available for confirmationlof the report.

By Franchelle Moore

P.O. Box 1650, Midland 79702

Could you possibly secure information for me in regard to street sweeping in residential neighborhoods?

I live on Missouri Avenue and in the last few months it has become a practice for the street sweeper to "attack" our street at about 2 a.m. once a month. The machine makes a noise similar to a 747 on landing and the flashing yellow lights create a panic in my home. I am referring to last night's "attack" in particular. The sweeper went down the north side at 2 a.m., then came down the south side about an hour later (just as I was about to return to sleep) then decided to "do" a cross street (E) for about 20

I know I am not the only light sleeper on this street and I feel that there has to be a better time for this type of maintenance. Thank you very much for any answer you might come up with for this nonsense. Very truly yours. — Pat Dunn

ANSWER: The Sanitation Department of the city of Midland responds that street sweeping in residential neighborhoods has to be done when there are fewer cars parked on the streets, which means that 2 a.m. or so must be the time when this is possible.

At the corner of Hicks and South Big Spring there is a school crossing

In going back and forth to work, I have not seen a child in this school crossing for at least the past three years. Very few motorists observe it - I would say one out of five.

Perhaps busing has eliminated the need for this school zone crossing. Would you give me some information regarding this matter, please? -

ANSWER: A spokesman for the Midland Independent School District answers that the school zone you mention is necessary, both for students at Travis Elementary School and Edison Freshman School. It was pointed out that possibly you drive through the zone at a different time than when the students who walk to these schools are using the crossing.

In response to your observation about motorists not observing the speed limit for the crossing, the school district was glad to know this and the Midland Police Department has been notified.

Exactly what is this Lunch Bunch program I have been hearing about?

ANSWER: The Lunch Bunch is the name for a new series of free programs sponsored by the Friends of the Library (Midland County Public

The series is open to all interested persons and is designed to acquaint men and women in downtown offices with the services offered by the li-Programs will be held weekly in the former American Legion Hall, 206 S.

Colorado St., and will start Jan. 22 and run through May. The doors will open at 11:45 a.m. and the program will start promptly at noon, lasting approximately 25 minutes. This means you have to

"Brown Bag" it if you plan to eat lunch. Coffee will be provided. Harrell Feldt will present the first program Jan. 22, which will be a book review of "White House Years" written by Henry Kissinger.

Cleveland's school clerks ordered to return to jobs

CLEVELAND (AP) - A judge has ordered clerks in Cleveland's school system to return to work after three persons were injured by vehicles driving through picket lines.

Union officials said they would comply with the order issued Tues-

Frederick Harris, 32, a school bus monitor, was in guarded condition Tuesday night in the intensive care unit of St. Alexis Hospital. He was run over by a bus, police said. A hospital for two hours for repair of internal injuries

Harris was injured Tuesday morning, shortly after a dozen policemen began moving a crowd back from the school district transportation center's entrance. An unidentified driver drove a bus forward into pickets who scattered out of the way and pounded on its sides, but Harris was run over by the left front wheel of the bus, police said.

Another minor injury occurred in the bus incident and a third person received minor injuries when a school administrator drove into pickets as he

entered the center, police said. Besides issuing a back-to-work order, Cuyahoga County Common Pleas Judge Thomas O. Matia ordered the Cleveland school board to arrange for a union representation election within 60 days, thus defusing the primary issue of the strike by about 500 clerks.

The judge ordered the election so the clerks can choose which union they wish to represent them. They presently are represented by Local 47 of the Service, Hospital, Nursing Home and Public Employees Union.

726 of the Ohio Association of Public School Employees, the organization which seeks to represent the clerks. said the two-day walkout would end.

The picketing blocked school buses from rolling. The buses are being used for the racial desegregation of 33 of Cleveland's 146 schools under the first phase of a court-ordered desegregation plan. Transportation was also stopped for about 650 handicapped students.

About 9,000 Cleveland pupils were without transportation. About 330 bus drivers refused to cross picket lines set up at the system's transportation center. Only six buses of 180 were

Plan to rescue Chicago schools to be signed

CHICAGO (AP) - As pledges of help and planned cuts fell short of expected levels, Gov. James Thompson was preparing today to sign a plan to rescue the financially troubled Chicago school system.

The legislation, passed by the General Assembly last weekend, provides \$225 million in interim loans and \$500 million in long-term loans guaranteed by the city and state. It also creates a special 12-member legislative committee to investigate how the school's troubles arose.

New concern for the school district's fortunes surfaced Tuesday when it was learned that pledges of help were falling \$25 million short.

Officials said the Police Pension Fund Board rescinded its offer to lend \$15 million and city unions, counted on for \$10 million more, did not prod-

In addition, budget cuts proposed by interim Superintendent Angeline Caruso fell \$36 million short of the \$60 million school officials promised law-

And there was uncertainty about the board's ability to meet the Friday payroll for 48,600 employees after bankers and other officials working to sell \$225 million in securities by week's end expressed concern about getting the job done on time. Two payrolls were missed last month, but the teachers and other employees

recently received the missed checks from the board, which has about \$8 million cash on hand and owes millions more to suppliers and the federal governa

In testimony before lawmakers several days ago, School Board President Catherine Rohter pledged cuts to trim \$60 million from the annual \$1.4 billion district budget. But she and Patricia O'Hern, a board member, said Tuesday a pro-

posal offered Monday by Miss Caruso represents \$24 million for this school year. Miss Caruso proposed the closing of 35 schools and 10 other facilities and slashing 2,037 jobs Mrs. Rohter called the proposal, which the board was to discuss to-

night, a progress report. 'As a progress report, I think this is excellent," she added

There was no immediate indication of how many of the district's 473,000 students would be affected by the school building closings. Officials said that according to 1978 enrollment figures, the latest available, as many as 12,000 students would be moved as a result of the

Miss Caruso said that "no matter how many children are involved, we have places for them in other buildings.

Nelson concert oversold; Ticket-holders planning suit

DALLAS (AP) - Ticket-holders angry about being turned away from a Willie Nelson concert Tuesday night vowed to file a class-action lawsuit against the concert promoter today.

Fire and police officers sent home about 350 fans after too many tickets were sold to the Nelson-Delbert McClinton concert at Dallas' Sportatorium.

The influx of concert-goers was halted after 4,216 ticket-holders were admitted. The overflow crowd milled about until 11 members of the Dallas Police Department's Tactical Squad were called in and told them to leave.

The crowd left peacefully. Assistant Chief Jerry Lambert said the Dallas Fire Department sent officers to count the concert-goers after receiving a complaint from a woman who said the concert had been over-

sold by 1,000 tickets.

called several agencies about the oversold concert. The woman, who refused to give her name, said a woman at Preston Ticket Agency told her Tuesday morning that the concert had been oversold. Ironically, the woman's compan-

ions were among those turned away. Ann Runnels, 32, of Murphy, Texas, also said she would file a class-action lawsuit and "anyone who wants to go in on it with me can." Miss Runnels, of Ebby Halliday

Realtors, said she and her friends had purchased \$60 worth of tickets. Before the ticket-holders were

turned away, promoter Gene McCoslin said they had "stuffed as many as 5,600 in here before.

He denied the concert was oversold. He said it became a sellout Tuesday afternoon but "this is so hot that people are coming anyway. We've "My boss is an attorney and the lawsuit is all typed up," said a woman at the concert who claimed to have been doing this (Willie Nelson concerts) for years and never had any problems."

CBS wins in weekly ratings

NEW YORK (AP) — CBS continued to nip at the heels of front-running ABC, listing six of the 10 highestrated shows in the week ending Jan. 13, and pulling to within a fraction of a point of the leader for the season so

CBS' first-place finish for the week was its fourth in a row and its ninth since the week ending Nov. 18.

ABC, a runaway winner in the networks' ratings competition last season, jumped off to a big lead this fall, but CBS has, in recent weeks, chipped

away at the margin. The networks calculate weekly and season-long averages from figures provided by the A.C. Nielsen Co. There's some difference of opinion on ABC's leading edge: ABC says it's four-tenths of point, CBS and NBC calculate one-tenth of a ratings

CBS won the most recent competition on the strength of four nights' programming. All nine of the network's Sunday and Friday night shows were among the 28 highestrated for the week, and CBS also beat the opposition on Monday and Thurs-

ABC, which had fallen to third the previous week, won the rest of the week and nudged out NBC for second

CBS' rating for the week was 20.9 to 19.3 for ABC and 17.2 for NBC. The networks say that means in an average prime-time minute during the week, 20.9 percent of the homes in the country with television were tuned to

Two of CBS' Friday night shows finished at the top, "The Dukes of Hazzard" in first place followed by "Dallas," and "60 Minutes" from CBS' Sunday night lineup.

The rating for "The Dukes of Hazzard" was 30.5. Nielsen says that means of all the homes in the country with television, 30.5 percent saw at least part of the program.

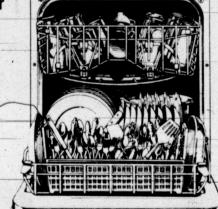

Both NBC and ABC had two shows in the Top 10, "Little House on the Prairie" in 8th place and "CHiPs" 10th from NBC, and "Three's Compa-"Alice," and "Happy Days" in ninth tied for fourth place with CBS'

Midlander Berte R. Haigh celebrates his 90th birthday Tuesday with a cake that replicates the University of Texas seal. (Staff Photo by Bruce Partain)

Despite 'bad news,' man marks 90 years

By BRUCE PARTAIN **News Staff**

Awhile back, they gave Midlander Berte Haigh the bad news.

"If you don't change your line of work," said a surgeon, "you've got only a year to live.

"I was told I had 10 years at the most, no matter what I did," said Haige That was in 1920. Tuesday, Berte Ralph Haigh cele-

brated his 90th birthday

He had to take time off from work to Haigh, who was retired in 1962 and 1976, still works a full day as consult-

ing geologist for the University of Texas Lands office in Midland. A well-known figure to oilmen in the Permian Basin for the past 50 years, Haigh probably has more knowledge of the region's geology than any other living man.

The party held for him at the University Lands office Tuesday was a low-key affair, celebrated mostly by staff members.

"We're saving up the gala celebration for Berte's 100th birthday," said Laddie Long, acting manager of oil and gas interests Haigh is only slightly philosophical

about his accumulated years. The most memorable drawback to aging was having to give up cigars at 'That's not all I've given up,

though," he chuckled This particular birthday is a little special, however.

'Well," he said, "I guess the best thing about turning 90 is I don't have to be called an octogenarian any

Flynt loses Georgia appeal, wins dismissal of warrant

By The Associated Press

Hustler magazine publisher Larry Flynt has lost his appeal of a 1979 obscenity conviction in Georgia. But he won a small victory when a Cincinnati court dismissed a warrant for his

an undisclosed location for treatment of chronic pain and drug addiction stemming from his wounding by a left him partially paralyzed.

from Larry Flynt Publications Inc. in Los Angeles.

The appeals court, while offering guidelines on the admission of evi-

11 counts of obscenity and a \$27,500

fine. The charges were filed after-

Flynt rented a shop to sell Hustler in

downtown Atlanta.

dence intended to show community standards, found the trial court did not err in disallowing evidence submitted by Flynt's lawyers. In Cincinnati, Hamilton County Common Pleas Judge Robert Kraft

restored Flynt's \$27,000 bond, dismissed the arrest warrant and said another hearing date would be scheduled to set a trial.

More warm weather due

With the springlike weather still in force, there's no excuse for stretching out on the sofa and eating away the winter hours.

According to the weatherman.

warm afternoons is the forecast from the National Weather Service at Midland Regional Airport.

High Thursday should be in the middle 60s after an overnight low near 30 degrees, the weatherman

High on Tuesday was 72 degrees, nudging the record high of 79 set in 1935. Overnight low today was 36 degrees, a warm reading in comparison

Winds should be light and variable tonight.

A trace of precipitation was recorded Tuesday at the weather service office, but the month's total still stands at .05 of an inch

Lynch plans

Midland City Council.

G. Thane Akins, who currently holds that position, is seeking the

Lynch, a 12-year resident of Midland, is basing his candidacy on a stand to oppose acceptance of Community Development funds from the federal government. Lynch said he feels this type of federal subsidizing creates more control and restrictions

The candidate is employed by First Real Estate. He is a member of the Texas Association of Realtors, the National Association of Realtors and the Midland Board of Realtors. He is a member of Wilshire Park Baptist

Leading his campaign committee Karen Clark, treasurer.

Ahders, who read the resolution ciation, sponsor of the show, and was chairman of the awards committee. Awards included:

SHOWMANSHIP

Receiving the Leslie E. Floyd Memorial Showmanship trophies were Richard Triplitt, horse showmanship; Darrell Hopkins, sheep showmanship; Todd Simpson, swine showmanship; and Paul Perry, cattle showmanship.

The trophies were awarded in memory of Floyd, a Midland County rancher who was the first president of the livestock association and who supported youth agriculture-related acti-

The awards were sponsored by Jen-

kins Jewelry and Luggage. Girls receiving showmanship awards were Janice Zimmerman, horse showmanship; Angie Casbeer, sheep showmanship; Susan Hollums, swine showmanship, and Karen Green, cattle showmanship.

LIVESTOCK AWARDS

Fourteen livestock show awards, sponsored by the association and Midland County Farm Bureau, went to 11 youths who showed the champion and reserve champion horses, calves, sheep and swine.

Youths receiving trophies and their placing include:

Horses: Mackey Moonen, champion mare; Janice Zimmerman, reserve champion mare and reserve champion gelding; Teresa Hamilton, champion gelding; . Miss Zimmerman also was presented a trophy for earning the most points in at-halter and performance class competition.

Lambs: Tedo Boyce, champion finewool lamb; Tracy Logan, champion crossbred lamb; Robby McBryde, champion medium-wool lamb.

Southdown: Coby Farrow, whose 120-pound Southdown lamb placed first in the all-weight Southdown competition, was presented a \$50 award by the American Southdown Breeders Association.

Swine: Billy Rodriguez, grand champion swine; Randy Taylor, re-

serve grand champion swine. Calves: Paul Perry, grand champion steer; Paula McBryde, reserve grand champion steer; Paul Perry, champion heifer; David Erwin, re-

serve champion heifer. Grass-judging: Stanton FFA's No. 1 team, coached by Nolan Parker, won first place in the range grass-judging contest. Making up that team were Bobby Mims, Meg Vann, Jimmy Rich and Richard Parker. Miss Vann was the high-point individual in the contest. Runner-up "grass scholar" was Jeff Murphree of Snyder's No. 1 FFA

Taking second place was the Snyder No. 1 FFA team of John Bloom, Danny Proctor, Murphree and D.W. Lofton.

Coming in third was Snyder FFA's No. 2 team of Riley Thompson, Jay Cox and Perry Echols.

The FFA teams judged 40 samples of range grasses and woody plants and rated their beneficial and ill effects on livestock and wildlife.

Stanton's Miss Vann "scored an almost-perfect paper," noted Dick Hagelstein of the contest's sponsor, the Midland Soil and Water Conservation District.

The winning team and runners-up were presented trophies. Miss Vann and Murphree were presented

Youths who had sheep selected as champions in various divisions in the Midland County Livestock Show are, from left, Tracy Logan, Tedo Boyce and

California city imposing limits on growth

SUNNYVALE, Calif. (AP) - Startling growth in this California city with one of the highest concentrations of technological industry in the world has forced community leaders to impose what may be a precedent-setting moratorium on construction.

The City Council last week approved a four-month ban on construction projects larger than 25,000 square feet to give planners time to figure out how to cope with problems in housing, transportation, pollution and demands on city services.

The implications of the measure are viewed with concern by industrial leaders charting the futures of their

Since the 1960s, this city has been a growth center for the American electronics and aerospace industry, concentrated in defense contracts and a computer technology which provide 90,000 jobs.

Mayor Larry Stone said the City Council's action may be a precedent for other communities in California needing time to reassess their direct-

Among the problems faced by planners during the moratorium will be whether to rezone land for industrial use that has been previously set aside for other purposes. The pie, however, will require some judicious cutting. Under it's current zoning plan, the

Last year, the city issued construction permits for \$134 million in projects, and a demand of similar proportions is again expected this

Planners now say there is a shortage of 14,000 housing units - both owned and rented — for a population of 108,000. Studies project this housing deficit will reach 36,000 by 1990. The housing shortage put ownership out of the reach of 85 percent of the city's

"Our estimate is that 15 percent'of the people who live in the community

city has only 600 acres available for could afford to buy a house today," new industry and 100 for residential said Tom Lewcock, the acting city manager. The average price of a resold home is estimated by real estate agents at \$110,000.

> "This is a community of tract houses, not custom houses, and yet the average price of a resold home requires an income of \$40,000," Lewcock said.

> An estimated 80 percent of Sunnyvale's residents work in other communities, creating a heavy reliance on private automobile transportation for commuters, and a resulting air pollution problem.

Report says Russian spies used Canada as base

TORONTO (AP) - Russian spies controlled by the Soviet consulate in Montreal hob-nobbed with the elite of Canadian government and industry and used Canada as a staging area for covert operations in other parts of the world, according to a secret police report published today in a Canadian magazine.

The report, leaked to This Magazine, a small leftist monthly, was prepared in 1976 by the Royal Canadian Mounted Police for government ministers and other top officials. The RCMP went to court last year to stop publication of the report, but a judge ruled recently it was not covered by Canada's Official Secrets. Act and therefore legally

The RCMP report identified Vladimar I. Gavryushkin, later appointed Soviet consul-general in Montreal, as a key intelligence operative, using his contacts with members of the Canadian Parliament and leaders of business and academic circles to gather information.

Engineers to defend Pinto design, Ford lawyer says

Motor Co. lawyers say they will rebut prosecution charges that Ford "chose profit over human life" in designing its Pinto model with testimony from engineers of the car who bought the subcompact "for themselves, their wives and children."

Ford is charged with three counts of reckless homicide in the fiery crash of a 1973 Pinto that exploded when hit from behind by a van in August 1978. Three young women died in the acci-

After more than a week of preliminaries, the prosecution today begins presenting witnesses in Pulas-

WINAMAC, Ind. (AP) — Ford ki Circuit Court.

The trial is the first criminal prose-

cution of a manufacturer in a products defects case. In his opening statement to the jury

Tuesday, prosecutor Michael Cosentino charged Ford with selling Pintos while knowing the car's fuel system was likely to explode in rear-end collisions. He said Ford refused to alter the system "for the sole reason that they would save money by not doing

Ford attorney James F. Neal said his witnesses during the trial, which is expected to last two months, would include "the very engineers who de-

signed and manufactured the Pinto.'

He said the engineers "were proud of the Pinto and bought and drove Pintos, both for themselves, their wives and children. I will present that as the best evidence that these people

are not reckless killers." The arguments came after Judge-Harold Staffeldt granted a Ford motion to exclude evidence about the victims' personalities and any evidence from the crash scene that did not relate directly to the cause of the

He said Ford's admission that the teen-agers burned to death made that material unnecessary. Cosentino said the ruling was a crucial setback to the prosecution.

"Ford has sanitized the state's case," said Cosentino. "We cannot show that they (the victims) were alive, and we cannot show that they died. We can't show what they looked like before; we can't show what they looked like after. We can't prove anything about the victims themselves, and the victims are what this case is

all about." Neal argued that to allow such evidence would turn the trial into "an afternoon soap opera" and a "melodramatic spectacle appealing to sympathies and emotions."

Cosentino said Ford "deliberately chose profit over human life" in selling 1.5 million Pintos and Mercury Bobcats, arguing tests by Ford engineers revealed that for \$6 each the cars could be equipped with a rubber bladder inside the fuel tank that would prevent fuel leakage in rearend collisions. He said Ford rejected that as "too costly."

Neal argued the cost was \$300 to \$400 per car and that the modification

"simply was not durable." Neal told the jury "the Pinto was comparable in design and manufacture to other 1973 subcompacts, and

that it performed as well or better than most subcompacts in rear-end

impact crash tests. He said Ford decided in June 1978 to recall 1971-76 Pintos "to even improve

it, to make it safer.' "Ford engineers didn't believe it was a high risk problem," Neal said, adding Ford tests simulating the Indiana accident showed other subcompacts and some larger cars would have exploded under the same cir-

cumstances. Consentino said the prosecution would prove Ford crash tests were conducted with Pinto fuel tanks filled with non-flammable liquid.

DEATHS

Martha J. Potter

Martha J. Potter

Services for Martha Jane Potter, 97, 1906 Hughes St., were to be at 2 p.m. today in the First Christian Church with the Rev. Steve Edwards, pastor, officiating. Burial was to be in Fairview Cemetery directed by Newnie W. Ellis Funeral Home.

Mrs. Potter died Monday afternoon at her residence.

She was born March 22, 1882, in Cairo, Ill. At an early age, her family moved to Coleman County. The family then moved to Midland County in 1898 where they ranched. In 1907, the family moved into the city of Mid-land. She married John H. Potter in Dec., 1901. He passed away on Nov. 4, 1952. She was a member of the First Christian Church.

Survivors include two sons, John W. Potter of Carlsbad, N.M., and Thomas J. Potter of Midland; three daughters, Julia E. Midkiff and Mrs. L.T. (Ellen E.) Sledge, both of Midland and Mrs. William S. (Cassie Lee) Crook of Big Spring; five grandchildren, six great-grandchildren and four great-great-grandchildren.

Mary A. Wright

BETHESDA, MD. - Mary Anita Wright, 39, a longtime Midland resident, died Sunday at the National Institute of Health in Bethesda, Md.

Services will be at 10 a.m. Thursday in the Yeso and Jefferson Streets Church of Christ in Hobbs, N.M. Burial will follow in a Hobbs cemetery.

Miss Wright grew up at Hobbs and attended Abilene Christian University and the Hendricks School of Medical Technology in Abilene, as well as the West Texas School of Cytotechnology in Midland. For the last three years she had been employed by the West Texas Pathology Lab. She had been associated with Midland pathologist Dr. Martha Madsen for the last

Miss Wright was a certified mem-Cytology and the American Society of Clinical Pathology. She was a member of the Church of Christ at North A and Tennessee in Midland.

Survivors include her parents, Mr. and Mrs. Ted Wright of Hobbs, N.M., and several aunts and uncles.

The family has requested that memorials be directed to the National Institute of Health at Bethesda, Md.,

Lena T. Womack

Graveside services for Lena T. Womack, 81, 3316 W. Ohio Ave., were to be at 1 p.m. Mountain Standard Time today in South Park Cemetery in Roswell, N.M., directed by Newnie W. Ellis Funeral Home.

Mrs. Womack died Monday afternoon in a local hospital following an

She was born Aug. 22, 1898, in Anderson. She moved to Comanche at an early age. She was married to Kirk Womack on June 6, 1916, in Hobart, Okla. He passed away Aug. 26, 1979.

They lived in Ragtown and Healdton, Okla., prior to moving to Iraan. In 1936, they moved to Hobbs, N.M. and in 1942, they moved to Roswell, N.M. Womack was with Shell Oil Go. In 1967, they moved to Midland. She was a member of the Baptist

Survivors include two sons, Jack C. Womack of Ada, Okla., and Cletus Womack of Midland; a daughter, Mrs. Lela F. Blevins of Midland; three brothers, Lewis Taylor of California, Edd Taylor of Modesto, Calif., and Charley Taylor of Olney; four sisters, Callie Cranfield of Visalia. Calif., Inez Watson of Austin, Mrs. Jessie Martin of Ohio and Ziola Schulta of Roswell, N.M.; nine grandchildren and 12 great-grand-

Rafela Medina

BROWNFIELD - Mass for Rafela Medina, 62, mother of Sylvester Medina of Lamesa, will be said at 4 p.m. Thursday at St. Anthony's Catholic Church here with the Rev. Aidan Maquire officiating.

Burial will follow in Brownfield Cemetery directed by Brownfield Funeral Home.

Mrs. Medina died Monday in a local hospital following a short illness.

She was born April 25, 1917, in Beeville. She was married to Pablo Medina on May 4, 1940, in Beeville. The couple moved to Brownfield in

Other survivors include her husband, four sons, a brother, two sisters and 23 grandchildren.

Essie Jones

LAMESA — Services for Essie Jones, 93, of Welch will be at 2 p.m. Thursday in Second Baptist Church here with the Rev. Joe Wilson, pastor of Welch Baptist Church, officiating, assisted by the Rev. Dr. C.H. Murphy, pastor of First Baptist Church.

Burial will follow in Lamesa Memorial Park directed by Branon Funeral

She died Tuesday in a Lamesa hos-

pital after a lengthy illness. Mrs. Jones was born in Prescott, Ark., and moved to Welch in 1924. She was a charter member of Welch Baptist Church, She was married to Bradley J. Jones Dec. 27, 1908,

Prescott. He died in October 1970. Survivors include three daughters, Donia Hocker and Ruby Payne, both of Welch, and Ruth Broughton of Lamesa; a son, R. Tilton Jones of Seagraves; seven grandchildren, 21 great-grandchildren and eight greatgreat-grandchildren.

Stock market rallied

NEW YORK (AP) - The stock market kept its early-1980 rally alive Tuesday with a late burst of strength led by International Business Machines shares. Gold and forest product

stocks also posted some sharp gains as the scramble into commodity issues continued. The Dow Jones average of

30 industrials, which showed only a fractional gain an hour before the close, finished at 868.60, plus 5.03 for the day. Over the last seven ses-

sions the average has risen nearly 40 points. New York Stock Exchange

volume came to 52.32 million shares, just about matching Monday's total of 52.93 mil-IBM stockhsported a 3%

gain at 701/4, on turnover of better than 900,000 shares, as of the 4 p.m. close in New York. As expected, the company

reported a slight decline in fourth-quarter profits, with per-share earnings slipping to \$1.73 from \$1.74 in the last quarter of 1978.

Gold prices, which have roughly doubled in the past month, meanwhile soared past the \$700-an-ounce level for the first time in New York.

The fever showed signs Tuesday of spreading to stocks of forest-products and paper companies. International Paper climbed 2% to 41%; Diamond International 3½ to 46½; Georgia-Pacific 1¾ to 30; Louisiana-Pacific 1 to 241/2, and Weyerhaueser 11/4 to 341/4. Aerospace stocks, a strong

group for much of the time since the Iranian standoff developed, also faredhwell. Boeing rose 3 to 61.

The daily tally on the NYSE showed gainers

slightly outnumbering losers, and the exchange's composite index rose .37 to Standard & Poor's index of

400 industrials gained .99 to 124.91, and S&P's 500-stock composite index added .76 to

Aided by heavy activity in oil and speculative gold issues, trading volume at the American Stock Exchange reached 14.98 million shares, breaking the daily record set last October.

The Amex market value index climbed 1.50 to a new high of 260.19. In the overthe-counter market, the NASDAQ composite index closed at 154.96, up .56.

Texas colleges facing problems Austin Bureau

AUSTIN - Declining enrollments, overexpansion and funding promise to be among major problems faced by Texas colleges and universities as they enter the 1980s, a former West Texas State University instructor and college coordinating board admin-

Norma R. Foreman, a journalism instructor at WTSU from 1967 to 1970 and currently head of the Division of Senior Colleges and Universities of the Coordinating Board, Texas College and University System, says the tremendous enrollment in-creases in the 1960s and early 1970s have turned around and should continue to decline.

Texas colleges have not been hit as hard by declining enrollment as eastern schools but the average growth rate has dropped to between one and two percent per year, Foreman says.

In the '60s, enrollment at state colleges and universities grew rapidly. "The emphasis was on accessibility and opportunity (for all who wanted higher education to get it)," says Foreman, who holds a doctorate in communications from the University of Texas at Austin.

By the 1970s, that growth began to level off, but the institutions were left "fighting the battle" of building needed classrooms and other facilities to accomodate this expanded enrollment, Foreman says. That situation has led to the funding and overex-

pansion problems now being faced. State college and university funding is based on a ormula which provides more or less funds according to the number of students enrolled at each school.

When a school's enrollment drops, so does its funding, and several state schools already are experiencing money crunches because there enrollment has dropped below the amount needed to gain funding to cover all of its costs, Foreman says.

Foreman also blames the methods of funding new campus construction as adding to the drive to build more facilities, even as enrollment is dropping.

Since much of the construction funds are designated for new construction only, needed renovation to older buildings is not being undertaken, she says. Also, colleges and universities are under pressure

to use these funds for new construction since they would revert back to the state treasury if not used during the fiscal year they were granted

These situations have led to under-utilization of facilities at many campuses and placed additional

pressures on the institutions to seek students to fill up these facilities, Foreman says. In the next few years, the emphasis of higher education should turn away from expansion and back to quality, Foreman says.

"There will be a renewed emphasis on quality of product that, perhaps, we haven't seen in quite a few years," Foreman says.

Whether college-educated persons should be able to meet some minimum standard of competency before diplomas are issued is one of the questions educators will be asking themselves, Foreman

Other problems to be dealt with in the future include changes in funding formulas, replacement of the state ad valorem tax which funds construction on 17 campuses around the state, and faculty

The coordinating board recognizes that faculty salaries at state colleges and universities have not kept up with inflation, Foreman says.

An advisory committee on faculty salaries is expected to recommend that a substantial increase be granted, Foreman says.

That "catch up increase" recommendation could

be for as much as 12 percent, she says.

The coordinating board also will be looking at the tenure system for faculty members. The board will be evaluating tenure systems at the various institutions to see if the proper emphasis is placed on all aspects of faculty performance, including teaching, publishing and research, Foreman says. One of the major thrusts of the 1980s, however, will

be re-evaluations of programs and roles of the various colleges and universities. "Every institution should look at its programs and ero in on those that are central to their role,"

Foreman says. The colleges and universities should look at where

their students are coming from and what their goals are, Foreman says. After that is done, each school should phase out those programs which are not essential to that

institution's role and let another school pick up that responsibility, Foreman says.

The smaller institutions should not strive to emulate the giant universities but should be satisfied

with performing their smaller role well, Foreman says. "We cannot expect to have the pie continue to grow," Foreman says, adding that existing resources will have to be re-allocated for the best

"To obtain quality of product, (each institution) may have to limit (its role) to those essential programs.'

Navy payroll robbery remains unsolved crime SAN DIEGO (AP) — As Ensign Brian J. Bogart

slept, two men in rubber Halloween masks and surgical gloves burst into his bachelor officer warters at the 32nd Street Naval Station. The bandits, armed with pistols and nightsticks, slapped handcuffs on Bogart, disbursing officer for

USS Dixon, and beat him until he told them the combination to the ship's safe. Then while one stood uard, the other went several blocks to where he submarine tender was berthed. Next morning the Navy announced the entire \$180,000 payroll — a bundle big enough to fill a closet was stolen while 1,000 enlisted men and 150 offi-

miles from Afghanistan through west-EDITOR'S NOTE — This second of ern Pakistan or southeastern Iran would cut the chain and bring the Soviet Union to the Arabian Sea, near the entrance to the oil-rich Persian

Superpower showdown seen in Persian Gulf area

U.S. observers believe Russia's old thirst for warm waters may have been aroused anew by the prospect that the Soviet Union may face an energy shortage of its own beginning

in the mid or late 1980s.

The Soviets are now the world's largest oil producers, turning out about 12 million barrels a day - three million more than Saudi Arabia, the United States' chief foreign supplier.

But, according to a two-year-old analysis by the U.S. Central Intelligence Agency, Soviet production will be down to 8 million to 10 million barrels a day by 1985, when the Soviet Union is expected to become a net importer of oil.

With the price of oil skyrocketing on the world market, U.S. officials believe the Russians could not meet the hard currency costs to buy the 3.5 million to 4.5 million barrels per day of expected shortfall.

THE UNITED STATES

The Soviets may have their eye on the last half of this decade, but Arabian oil is immediately important to the United States and its Western

About 20 percent of 8-million-plus barrels of oil the United States imports each day comes from wells on the Arab side of the Persian Gulf -1.2 million alone from Saudi Arabia.

Saudi Arabia, a leading purchaser of U.S. weaponry, sits atop the world's largest proven reservoir of crude oil - 28 percent of the world total. Estimates of probable Saudi reserves range up to 300 billion bar-

Through a "stepping-stone" approach, the Soviets conceivably could seal both the Strait of Hormuz, guarding the entrance to the Persian Gulf, and Bab Al Mandab (Gate of Lamentation), the strait between Yemen and Ethiopia at the entrance to the Red Sea and gateway to the Suez Canal. This would cut off Persian Gulf oil and strangle the economy of Western Europe and Japan.

While Washington does not appear to perceive an imminent threat to the Arabian oil fields or the tanker routes, President Carter has told members of Congress that the Soviet move in Afghanistan directly threatened U.S. security because, if the Soviets suffered no adverse consequences from their action, there would be the temptation "to move again and again until they reached warm water ports" or gained control of world oil supplies.

Shaking off the Vietnam syndrome, Carter has referred to prospective U.S. facilities in Somalia, Oman and Kenya as "the kind of thing that I think is important to our nation to prepare for the long-range meeting of any threat to the peace in the Mideast, Persian Gulf, northern Indian Ocean area.'

The Russian action also has brought the United States and China closer to a community of interests.

Although the United States is sticking to its policy of not selling arms to China, Secretary of Defense Harold Brown said at the conclusion of his recent visit to Peking, "We found we have views very closely parallel on the need to strengthen other nations in the region.'

The tip of Afghanistan's Hindu Kush panhandle barely touches China's Sinkiang Province and Peking's direct interests in the landlocked, Moslem nation are minimal. But the Chinese see the Soviet

Kremlin's attempts to dominate the world. At the time of the Russian coup in Kabul, the two feuding communist giants already were locked in a fierce struggle over spheres of influence in Southeast Asia. For the time being at least, the Russians have gained in

moves there as a new gambit in the

Vietnam, Laos and Cambodia. China's senior vice premier Deng Xiaoping regards intervention in Afghanistan as "a grave step taken by the Soviet Union to make a southward thrust to the Indian Ocean, control the sea lanes, seize oil-rich areas and outflank Europe so as to gain world hegemony.

In the Chinese view, Western Europe is a second-front against the Russians in Peking's own political

confrontation with Moscow. Of more pressing concern to China is the security of its old friend and ally, Pakistan, to which it has given \$2-billion in aid since 1966. Both the United States and China supported Pakistan in the December 1971, Bangladesh war with India, which they considered pro-Soviet.

In addition to coordinating military

Stranded natives ready to set sail

HONOLULU (AP) - Thirteen natives stranded on a tiny Pacific atoll apparently have repaired their canoes and are leaving the atoll, according to information received here

The natives were sailing to Satawal Island, about 60 or 70 miles south of West Fayu Atoll, where they had been stranded, the Coast Guard said. They were spotted on the atoll last Tues-

It was not known how long the natives were stranded on the atoll,

Four of the natives were picked up by the Micro Spirit, a vessel operated by the U.S. Trust Territory of the Pacific. They are being taken to Truk Island, about 100 miles away, the Coast Guard spokesman said.

The 13 remaining had been scheduled to be picked up by another Trust Territory vessel, but apparently were able to make necesssary repairs to their canoes, the spokesman

It earlier was reported that about two dozen people had been stranded on the tiny atoll, located 300 miles southeast of Guam.

Newsletter reports Iran crude oil exports have been cut in half

By WILLIAM GLASGALL

NEW YORK (AP) - Oil exports from Iran have been cut in half in recent days, the industry newsletter Platt's Oilgram News said today.

The daily newsletter, in a dispatch from its correspondent in Tehran, said unidentified National Iranian Oil Co. spokesmen gave slow spot-market sales as a

reason for the drop.
Oil Minister Ali Akbar Moinfar denied the report, the newsletter said. The report could not be confirmed at the Iranian Embassy in Washington.

Platt's said Iran's exports have dropped to between 900,000 and 1 million 42-gallon barrels a day — about what the country recently agreed to sell under longterm contracts to a group of European, Japanese and other Asian companies.

U.S. government petimates have said Iran was exporting about 2.3 m. ... barrels daily in late December, and Iran itsebf has indicated its 1980 exports would be in the 2.1 million to 2.6 million range

The newsletter also said Iran's oil production has slipped to 2 million barrels a day from earlier estimates of 3 million to 3.5 million.

Iran's oil fields were shut for 69 days in late 1978 and early 1979 during the revolution againt Shah Mohammad Reza Paglavi.

Before the shutdown, Iran was producing 5 million barrels of oil a day. The shutdown set off a year-long spiral in which world oil prices doubled as consuming

countries scrambled to rebuild depleted oil stockpiles - and then kept building stocks to unusually high

President Carter barred U.S. purchases of Iranian oil after militants took a group of Americans hostage at the U.S. Embassy in Tehran on Nov. 4.

But British Petroleum Co., the Royal Dutch-Shell Group, 12 Japanese companies and several others recently signed contracts giving them about 1 million barrels a day for the next nine to 12 months at a price estimated by the publication Petroleum Intelligence Weekly at around \$32 a barrel.

That price is about \$3 below Iran's reported asking price in recent negotiations, but still is about \$3.50 above the country's "official" oil price of \$28.50 a barrel and \$8 above the price charged by Saudi Arabia for similar grades of oil.

Iranian oil was fetching \$40 and up late last fall, but spot market prices have softened slightly since then as

Saudi Arabian Oil Minister Ahmed Zaki Yamani has said repeatedly that Iran and others would be forced to cut prices as an economic slowdown trims oil demand. But Moinfar has said he would rather cut production than prices.

Exxon Corp. has said a new cutoff of Iranian oil production probably would have little short-term impact on the world because of the large stockpiles and because consumption is falling as petroleum prices climb and economies slow.

Only three companies settle DOE crude pricing disputes

WASHINGTON (AP) - Government documents show oil companies have settled only about 7 percent of \$10 billion in price enforcement actions filed against them by the Energy Department.

Only three companies have completely settled their pricing disputes with

> **ENERGY** OIL & GAS

the federal government, according to a summary of actions up to Dec. 31, 1979, by the Office of Special Coun-

Cities Service Co. agreed to a consent order admitting no violations but settling charges totalling \$220 million; Phillips Petroleum settled charges totalling \$200.9 million; and Kerr-McGee Corp. settled charges to-

The summary, made available to The Associated Press, shows that of the more than \$1.3 billion in price control violations alleged against Texaco, the largest company total. some \$7.9 million has been settled, leaving the vast bulk of the allega-

tions in dispute. Similarly, the second largest total of \$1.27 billion, alleged against Exxon, remains almost entirely in dispute with only \$11 million of it settled in agreements with the federal

government. Gulf Oil has been accused of violations totalling some \$1.22 billion and has settled some \$55.6 million, leaving \$1.17 billion in dispute.

In its "first round," the Office of General Counsel was aiming to complete audits of the transactions of the nation's 15 largest oil refining companies from 1973 through the end of 1976, by the end of last year.

It met its Dec. 31 deadline for the top 15 companies, and has made substantial progress on similar audits of the 20 next largest refiners covering the same time span.

Audits are to continue in the future, completing the second group of 20 refiners for 1973-1976, and going on to investigate post-1976 transactions of all 35 companies on the lists.

The department's summary of its first-round results shows enforcement actions begun so far involving \$9.98 billion and settlements totalling \$687 million. That leaves \$9.29 billion in alleged violations which the companies are still fighting.

Here is the department's summary of alleged violations against each of the refining companies whose 1973-1976 audits have been completed, and the amounts settled so far in agree-

ments with the government: Amoco \$143,637,423, no settle-

ARCO (Atlantic Richfield) \$597,845,-099; settled, \$82,727.

Chevron \$397,859,152; settled \$16,-

Cities Service, \$220 million; completely settled. Conoco \$319,767,303; settlzd \$4,029,-

Exxon \$1,273,995,194; settled \$11,-

Gulf \$1,224,858,611; settled \$55,597,-Hess \$912,193,290; no settlements. Marathon \$137,016,877; settled \$1,-

Mobil \$960,586,525; settled \$13,746,-

Phillips \$200,986,754, copletely settled. Shell \$872,719,060; no settlements.

Sohio \$368,635,907; settled \$16,626,-Sun \$601,700,098; no settlements.

Texaco \$1,317,618,305; settled \$7,-Kerr-McGee (the only completed

audit among the second 20 companies) \$60,636,626; completely settled. Following are the rest of the "second 20" refiners with status of audits,

amounts of violations alleged against them so far, and settlements if any: Ashland 75 percent complete, \$52,-

Crown 70 percent complete, \$4,004,-

Getty-Skelly 75 percent complete, \$281,894,697; settled \$75 million. Tenneco 55 percent complete, \$11,-

Union 65 percent complete, \$23,587,-

And the following companies with partially completed audits and no violations alleged so far: Champlin 55 percent, Charter 80 percent, Clark 60 percent, Coastal 40 percent; Corco no audit; Energy Coop 55 percent, Farmland 65 percent, Fina 50 percent, Koch 65 percent, Murphy 75 percent, Pennzoil 60 percent, Tesoro 35 percent, Texas City 70 percent, and Tosco 95 percent.

Midlander reopens Fusselman oil pool in Upton; wildcats, field work reported in other Basin areas

Cody Bell Jr. of Midland has recompleted the No. 2 Cody Bell Jr. to reopen Fusselman oil production in the Heluma, North field of Upton County, nine miles southeast of Crane.

The reopener is a former dual Fusselman and Pennsylvanian detrital oil opener and lone producer from

Operator reported a 24-hour pumping potential of 18 barrels of 43-gravity oil and 84 barrels of water, through perforations from 10,494 to 10,504 feet, which was acidized with 4,000 gal-

Gas-oil ratio is 56-1. Location is 1,980 feet from south and 660 from east lines of section 4, block X, John H. Gibson survey.

IRION EXPLORER STAKED

C&K Petroleum Inc. of Midland will drill a 9,000-foot wildcat in Irion County, two and five-eighths miles southeast of the MWJ (Canyon oil) field, three miles northwest of production in the Ela-Sugg (Wolfcamp) field, 18.5 miles northwest of Mertzon.

Operator staked the No. 1-6 Noelke. 1.5 miles north of its No. 1 Scott, active wildcat drilling below 8,365

Drillsite is 2,208 from south and 760 from east lines of section 6, block 27,

Ground elevation is 2,322 feet.

CROCKETT WILDCAT TEST Estoril Producing Corp. of Midland

spotted location for the No. 1 M. Elliott as an 8,200-foot wildcat, 3/8 mile northeast of the depleted Buckhorn (Ellenburger gas) field of Crockett County, one and five-eighths mile southeast of the depleted opener and lone producer of the Childress (Ellenburger oil) field.

McCormick Oil & Gas Corp. of

Houston has filed potential test on the

No. 1 George Cave as a lower Missis-

sippian discovery, one and three-

eighths mile northwest of the Hill

Ranch (Mississippian) field, which

Operator reported a 24-hour flowing

gauges of 302 barrels of 43-gravity oil

and no water, through an 8/64-inch

choke and perforations between 10,-

produces at 10,653 feet.

686 and 10,821 feet.

Wellsite is 1,200 from north and 2,000 from west lines of section 16, block AB, D&SE survey, 25 miles south of Barnhart. Ground elevation

COKE VENTURE SET

The Desana Corp. of Midland will drill the No. 1 Beaver as a 7,800-foot Ellenburger wildcat in Coke County, one location east of a 7,747-foot Ellenburger failure, 2.75 miles northeast of the Stringer (San Angelo) field, 20 miles southwest of Robert Lee.

Location spots 660 from north and 2,300 from west lines of section 47, block W, T&P survey.

STONEWALL WILDCAT

Fisher-Webb, Inc. of Abilene filed application to drill a 5,900-foot wildcat in Stonewall County, 1.5 miles northeast of the Carothers (Bend Conglomerate) field, seperated by a 6,600-foot

The No. 1-B Cannon will be drilled six miles northeast of Old Glory, 660 feet from south and west lines of

section 6, BBB&C survey. The Carothers field produces at 5.-

NOLAN STAKES WILDCAT

Lloyd Patton of Fort Worth an- CROCKETT RE-ENTRY nounced plans to drill the No. 1 Vivian S. Streater and others as a 6,100-foot wildcat, 3/4 mile northeast of the depleted Ellenburger and Strawn opener in the Sears multipay field of Nolan County, eight miles east of Sweetwater.

The site is one and seven-eighths miles east of the Neill, South (Odom Lime) field, which produces at approximately 5,696 feet.

Wellsite is 2,190 from south and 2,639 from west lines of section 28,

block 20, T&P survey.

FISHER PROJECTS

Location is 990 from north and 467 from east lines of section 29, block 1, HT&B survey.

2 S.K. Moore as a 6,100-foot wildcat, 3/8 mile northeast of its No. 1 S.K. Moore, Home Creek discovery, five miles southeast of Claytonville.

Drillsite is 1,980 feet from south and east lines of section 257, block 3, H&TC survey.

IRION PROJECT STAKED

Meadco Properties of Midland will drill the No. 1-A 3063 A. Sugg, 1.25 miles east of Cisco oil production and 1/2 mile north of the Cisco gas opener and lone producer from that pay in the Ela Sugg field of Irion County.

Location for the 7,600-foot test is 1,100 from north and 660 from west lines of section 3063, block 28, H&TC survey, 22.5 miles northeast of Barn-

portion of the Ozona, Northeast mul-

f Ozona

Location is 1,320 from south and west lines of section 29, block GH, GC&SF survey.

STONEWALL SITE

Sun Oil Co. of Midland filed appli-cation to drill the No. 3 Roy Mullen, one location northwest of the threewell Mullen Ranch (Ellenburger) field of Stonewall County, five miles northwest of Swenson.

Wellsite is 1,000 from south and east lines of section 220, block D, H&TC

Scheduled depth is 6,450 feet.

CROSBY TEST STAKED

The United Co. of Lubbock will drill the No. 2 Parchman as 4,500-foot test, one location south and the same distance east of production in the Ha-Ra (Clear Fork) field of Crosby County, 17 miles southwest of Lorenzo.

Drillsite is 660 from south and 1,980 from east lines of section 1054, block 1, H&OB survey

Joe Melton Drilling Co. of Midland has the drilling contract.

Glenn Cope of Midland has announced location for the No. 1 Christy, 3/4 mile north of the discovery well in the Champmon (Devonian) field of Gaines County, 14 miles southeast of

The 12,800-foot Devonian test is located 467 from north and 1,530 from west lines of tract 5, league 301, Terry County School Land survey (some maps show 5,800 from north and 1,530 from west lines of league 301).

GARZA LOCATION

WTG Exploration Inc. of Midland will drill the No. 6 E.W. Williams Jr. as a 3/4-mile north extension to the WTG (Glorieta) field of Garza County, 10 miles north of Post.

Operator staked the 3,400-foot test 1,787 from north and 467 from west lines of section 1142, TW&NG survey,

Operator reported a 24-hour pump-

ing potential of 48 barrels of 37.1-grav-

ity oil and 192 barrels of water.

through perforations ranging from 7,-

752 to 7,809 feet, which was acidized

Finance ministers of the Organization of Petroleum Exporting Countries are scheduled to meet at the cartel's headquarters in Vienna, Austria, on Wednesday to approve a \$1.6 billion boost in aid to poorer nations.

Caracas, Venezuela, recommended the 13-nation cartel add the \$1.6 billion to its \$2.4 billion Special Fund that was established in 1976.

recommendation to take effect. Of the \$2.4 billion set aside so far for the aid fund, only \$1.6 billion has been distributed to finance development projects or to alleviate balance of payment problems in Third World countries

> session suggested oil should be priced in a "basket" of several currencies, rather than dollars, in order to protect themselves from currency market fluctuations. The finance ministers also may review a joint Venezuelan-Algerian pro-

Several oil ministers at the Caracas

posal announced last month to convert the Special Fund into a \$20 billion development bank In other oil news Tuesday, the Mexican government oil monopoly Pemex announced new oil discoveries estimated at 1.5 billion barrels in the

southeastern part of the country. Pemex General Director Jorge Ziaz Serrano said in Mexico City the find was spread over 25 fields in a 2,700square-mile area in the states of Chiapas and Tabasco, which produce more than half of Mexico's crude oil and natural gas.

A U.S. oil industry source termed

the finds "not very big," and said the

discoveries could support daily pro-

duction of about 40,000 barrels. Mexi-

eo produces about 1.5 million 42-gallon barrels a day. Industry sources in Algiers, said, meanwhile, that Algeria quietly levied a \$3-a-barrel tax on crude oil exports Jan. 1. The levy effectively increases the price of a barrel of high-quality Algerian oil to \$33, up from an official price of \$30 last month and \$26.27 in November.

Wood Enterprises Inc. of Abilene will drill the No. 1 Hutchings & Sealy as a 5,300-foot wildcat in Fisher County, 3/4 mile southwest of the depleted Sylvester, South (Noodle Creek) field, five miles south of Sylvester.
