Liberal leader Pierre Trudeau waves to the crowd in the ballroom of an Ottawa hotel Monday night after winning the Canadian federal election. At the right is Liberal Party president Alasdair Graham. (AP Laserphoto)

Pierre Trudeau wins Former leader back in charge

TORONTO (AP) — Pierre Elliott Trudeau, a political has-been just three months ago, took charge of Canada once again in a stunning election victory he called a rerun of "an old love story" between his party and the voters, and offered himself and his country as peacemakers in the U.S.-Soviet dispute.

Trudeau's Liberal Party routed the Progressive Conservatives of Prime Minister Joe Clark in parliamentary elections Monday, cutting down a government that was one of the few to stick by the United States down the line in its confrontation with Moscow.

In a victory speech early today to an ecstatic crowd of supporters in Ottawa, Trudeau, 60, took a distinctly softer approach, declaring that the

United States is "our greatest friend" but adding that preserving peace between the superpowers must be part of Canada's world mission.

In elections last May, the youthful Clark and his Conservatives ended 16 years of Liberal rule, 11 of them with Trudeau as prime minister. The Liberal chief had actually announced his intention to leave politics last November.

But Clark was undone by a tough budget in which he proposed a highly unpopular 18-cent-a-gallon boost in gasoline taxes.

The Liberals' quick comeback made Clark's nine months in power the briefest tenure of any elected prime minister in Canadian history.

In rebuking their 40-year-old prime minister, Canadian voters gave the

Liberals 146 seats in the 282-seat House of Commons, four more than a majority. The Conservatives had 103 seats and the socialist New Democrats 32. The race in one district had been postponed until March because of a candidate's death.

The former Parliament had 136 Conservative members, 114 Liberals, 27 New Democrats and five Social Credit Party members. The Quebec-based Social Creditists, a rightist group, lost all their seats Monday.

With about three-quarters of the popular vote counted, the Liberals had 4,041,481 votes, or 49 percent, the Conservatives 2,400,333, or 29 percent, and the New Democrats 1,536,614, or 18 percent.

City to continue to study annexation of strip of land north of Midland

By LANA CUNNINGHAM
Staff Writer

City officials made a mistake by not annexing land north of the city limits as it was developed instead of waiting and doing it all in one chunk, a planning consultant from Dallas told the Planning and Zoning Commission Monday.

The first step in annexing a strip of land between Holiday Hill Road and Lamesa Highway and stretching from one mile to two miles wide began with a public hearing before the Planning and Zoning Commission. The commission is an advisory body for Midland City Council.

After a 3½-hour public hearing, the commission decided to hold a special

session at 7 p.m. Feb. 27 in City Hall for further study of the plan.

Richard Hennessy, director of planning for the city, said the last annexation was concluded in October 1974. Since then, Midland's population has increased 20 percent. Before 1974, most of the city's growth was south of FM 868 "and that growth was slow."

"The growth since then has accelerated and is north of FM 868" and has almost reached the point of pushing against the northern city boundary, Hennessy said.

Annexation, the city director claimed, is needed to control future development and to provide city services as needed.

WHEN THE CITY annexes an area, it is a requirement for city services to

be provided within three years, Hennessy said. Those services of water, sewer and garbage collection can be fulfilled, he added.

The major change with annexation is that persons living in the proposed area would have to pay city taxes, and their land would be valued as agriculture land, he explained.

Also being studied by Hennessy's staff are changes in the animal-fowl ordinance and requirements involved in the Agriculture-Estates District, which this area would be zoned after annexation.

Before the hearing began, W.H. Jowell, a member of the commission, pointed out that, even though he owns land in the tract under question, he won't abstain from voting on the

Planning commission again denies permit to proposed Phase I disco

By LANA CUNNINGHAM
Staff Writer

As part-owner in a nightclub which sold alcoholic beverages, Robert Dorn, 413 E. Hickory Ave., testified he was an alcoholic and "dope pusher." As a result of his past, Dorn opposes "150 percent" giving a specific use permit to Phase I disco at 500 E. Nobles.

The issue over the permit resurfaced Monday during a Planning and Zoning Commission meeting. Last fall, the owners sought, and were denied, permission. After listening to testimony from Dorn and charges of bribery from other persons, the commission — for the second time — denied the request.

Dorn charged that several persons involved with Phase I "smoked my dope. They bought it from me, either directly or indirectly."

CONTINUING HIS testimony, Dorn said, "I've been palbearers to my friends because of alcohol. I pointed a pistol at a policeman's head, but it misfired. Because of alcohol, I couldn't control myself and young people weren't safe with me."

Phase I operates as a disco and customers who want to drink alcoholic beverages must bring their own. This also means the Alcoholic Beverages Commission has no control

over the night spot, the city planning staff noted.

A specific use permit would allow the ABC to control what hours the liquor was sold and to whom, according to the staff.

Billie Bessellieu, 2829 Durant St., explained she works as a volunteer at St. Andrews Mission, 1708 N. Fort Worth St. After the permit had been denied the first time, Mrs. Bessellieu claimed that Donald Allen — a co-owner of Phase I — visited the mission and promised them playground equipment if the people wouldn't oppose the permit.

The workers also were told that all the neighbors had changed their mind and were in favor of the specific use permit. But, Mrs. Bessellieu added, they were warned by Allen not to talk to the neighbors.

WILBURN BUTTERY, principal at Crockett Elementary School, said he also had been approached by the owners and was told the residents had changed their minds.

"But I talked to all the parents who came to the school, and they were opposed, with the exceptions of those who had a financial stake in it. This is a very divisive thing in our neighborhood," Buttery said.

The Rev. W.C. Kenan, pastor of Faith Temple of God, charged the

night establishment would destroy the morals of the young people and that he, too, was "offered something to be in favor of it."

Other spokesmen opposed the permit saying they feared increased vandalism and other crimes in the area and worried about the safety of their children.

Connie Madrid, 304 E. Parker Ave., who lives 1½ blocks from the disco, explained children play in the street, and residents already are experiencing problems with "cars racing on Parker, noises, screaming and people throwing liquor bottles in our yards."

A woman involved with the venture, Debra Jackson, defended the employees and said, "We're not criminals. We respect churches and schools. Dope pushers and alcohol are all over the world — not just that one place."

Bennie Jackson, representing the owners, stressed he had submitted petitions signed by a majority of persons living in the neighborhood next to Phase I.

IF CHILDREN HAVE the proper upbringing, he charged, they shouldn't be out on the street past 8

(See PROPOSED DISCO, Page 2A)

Iranian troops may take over guarding hostages in embassy

By The Associated Press

Ayatollah Ruhollah Khomeini was reported today to have handed his post of commander-in-chief of Iran's armed forces to President Abolhassan Bani-Sadr. The move stirred speculation Bani-Sadr might move troops to the U.S. Embassy in Tehran to replace the militants who took some 50 Americans hostage 108 days ago.

The increase in Bani-Sadr's authority was reported by Tehran Radio, which quoted the ailing, 79-year-old ayatollah as saying the appointment was aimed at "consolidating power in Iran at this critical moment." This was an apparent reference to the militants who have rejected the latest plan to ease the hostage crisis.

Bani-Sadr's new job gives him the muscle not only to end the embassy crisis, but to put down ethnic unrest in Iran, particularly in northwest Kurdistan, where Kurdish rebels have been battling the central government for more autonomy.

The army was in chaos during the revolution and has remained badly disorganized, leaving most power with the Revolutionary Committees and Revolutionary Guards, which often clash with the rebellious minorities in many of Iran's provinces.

The increase in Bani-Sadr's authority came as a U.N. commission prepared to fly to Tehran to investigate the regime's charges against Shah Mohammad Reza Pahlavi, the monarch ousted by Khomeini's Islamic forces 13 months ago. Both sides have agreed to the members of the commission, whose inquiry presumably will speed the release of the Americans.

The Carter administration has been anxious to resolve the crisis, and the Paris-based station Radio Luxembourg said today that Iranian Foreign

Minister Sadegh Ghotbzadeh was believed to have met with Carter's chief of staff, Hamilton Jordan, in Paris on Monday. The White House and Ghotbzadeh denied it.

The Iranian foreign minister told reporters' rumors of such a meeting had been spread by "French communist lawyers" when they discovered the commission in Tehran would be independent.

Ghotbzadeh, who came to France for talks with French Foreign Minister Jean Francois-Poncet, left Paris for Tehran today. French lawyer Edmond Pettiti is one of the members of the U.N. commission, and there was speculation — but no confirmation — he was among those Ghotbzadeh conferred with in Paris.

A well-informed source at the United Nations said members of the commission will arrive in Tehran Wednesday. The source, who declined to be identified, said hopefully freedom would come for the Americans within a week after the five-member commission's arrival.

The source said two of the commission members, Mohammed Bedjaoui, the U.N. ambassador from Algeria, and Andres Aguilera, Venezuela's former ambassador to Washington, were leaving New York aboard a Concorde supersonic jetliner this afternoon to fly to Paris, where they would be met

by Pettiti.

The source said the three would fly Wednesday to Geneva, where they would meet with the two other members, Hector Wilfred Jayewardene, one of Sri Lanka's leading lawyers, and Syrian career diplomat Adib Daoudy. The group would board a charter plane to Tehran and arrive there later Wednesday, the source said.

U.N. Secretary-General Kurt Waldheim received Iran's acceptance of the commission members by telephone from Tehran Monday. He was still awaiting telexed confirmation from the Iranian capital. When he gets it he is to formally announce the names of commission members and its mandate.

The Washington Post quoted U.N. diplomatic sources as saying Bani-Sadr was believed to have assured Waldheim that Khomeini has approved the commission. The Post also said Khomeini, convalescing in a Tehran hospital from a heart attack, would address his nation later this week, possibly Friday.

The Islamic militants who seized the U.S. Embassy in Tehran Nov. 4 have said repeatedly they would release the Americans only under orders from Khomeini, who has not publicly discussed the hostage crisis for a month.

U.S. officials change their tone

WASHINGTON (AP) — Washington news sources close to the Iranian crisis are not suddenly filling their mouths with marbles. It just sounds that way.

The simple declarative sentences that rang from White House and State Department spokesmen criticizing the Iranian militants in November have given way to such statements as this:

"It should be understood that an agreement to, or concurrence in, the formation of such a commission is in the context of specific understandings with regard to the purposes of any such commission and how it would operate."

That was how a senior White House official — who asked that his name not be used — described Monday the developments surrounding an investigative commission the government hopes will trigger release of the 50 American hostages in Tehran. He would not explain the "specific understandings."

The officials who have been the primary spokesmen about the crisis since it began Nov. 4, White House press secretary Jody Powell and State Department spokesman Hodding Carter, are talking less and less on the record these days. And sources say diplomatic necessities are the reason.

Their reticence appears to increase as hopes grow, wane and grow again over reports that arrangements may be in the offing for the hostages' release.

"My concern is that we do not do or say anything that makes an already difficult task more difficult, and that you or others in your position do not draw conclusions that would have the same result," one White House official told reporters.

"I just beg you to be cautious about drawing conclusions that could be attributed to this government," he said.

Reporters who sought official guidance on how the administration thought the naming of the commission would relate to the hostages were advised to leave the subject alone in their dispatches.

Such phrases as "delicate process" and "inappropriate," and others more graphic and less diplomatic, are used by once-open sources to tell reporters why lips are suddenly buttoned.

But behind the silence are unanswered questions about the strength of any possible agreement regarding the hostages' release.

There are also questions about whether the Iranian government, after acceding to the commission proposal, will parlay that step into an end to the crisis.

First Saturday, then Sunday, and again Monday, the White House put off commenting on the proposed U.N. commission.

Declining to speak for the record, one White House official said the administration would await a formal statement about the commission by U.N. Secretary General Kurt Waldheim. Then it would make its own statement.

So, for three days, there was no on-the-record word from the administration about what appeared to be the best hope for the hostages' release.

And there was no official word as to whether the United States and Iran had worked out an arrangement, tied to the commission's work, that the captives would indeed be freed.

For the record, Powell said only that Carter spent "some time" in his office Monday, worked on a speech he was giving today to the American Legion, and was "following closely" Secretary of State Cyrus R. Vance's trip Monday to the United Nations.

Some 'buried alive,' medical examiner says

CHICAGO (AP) — Some of the 33 young men and boys John Wayne Gacy Jr. is accused of slaying may have been alive when buried or thrown into rivers, the Cook County medical examiner has testified.

Officers seek Andrews escapee

ANDREWS — Area law enforcement officials have joined in the search for an Andrews County Jail prisoner who walked away from a work detail at the jail about 8 p.m. Monday.

Tickets go on sale today for the Scout Exposition to be held March 22 in the Midland County Exhibition Building. Buying the first set of tickets is Frank Cowden Jr., a member of the Buffalo Trail Council Executive Board for 25 years.

City planning group to continue to study annexation of property

development, she contended. Lohmann, who lives in the proposed annexation area, later said the city planning staff still hasn't shown how the animal-fowl ordinance or the zoning regulations would be modified to accommodate persons already living in the area who have horses and other livestock.

Looking at Feldt's suggestion to skip the developed area, Duncan replied, "You can't go out and annex undeveloped land and leave the developed land alone. You made a mistake in not annexing that land as it was developed. If you had done that, you wouldn't have this problem (with residents opposing annexation) today."

Proposed disco denied permit by planning panel

Duncan, the Dallas consultant, suggested a different zoning other than Agriculture-Estates might be needed to suit the residents in the proposed area.

Unidentified passersby Monday inspect a car buried in mud nearly to its roof on a road in the Mandeville Canyon section of Los Angeles. Heavy weekend rains caused extensive flooding and mudslides throughout southern California.

Rain-hooded residents of the Mandeville Canyon area of Los Angeles, one carrying a suitcase, walk toward a car which overturned as it was swept down the road by this weekend's heavy rains and sliding mud. A fifth major rainstorm was expected to hit southern California today.

Famed divorce attorney Marvin Mitchelson surveys the wreckage of a home below his Hollywood Hills home during rainstorms in the Los Angeles area. Mitchelson's home was left perched on the edge of a cliff created when the wet hillside gave way, flattening the home below. The woman at left is unidentified.

Gale warnings, flash flood watches continue

By The Associated Press
Gale warnings were out this morning over the southern coast of California and the coasts of Oregon and Washington while flash flood watches continued in Southern California.

While Californians braced for a seventh day of rain, Arizona officials said flooding danger had eased. Travelers advisories for snow and freezing rain were up over part of northwestern and central Montana east of the Continental Divide. Freezing rain developed across the southern part of North Dakota. A stockman's advisory was in effect over the San Luis Valley of Colorado for freezing rain and occasional snow showers.

Showers and occasional thunder showers were forecast for today over the Pacific Coast, the Plateau region and the western part of the Rockies. It was expected to snow in higher elevations with widely scattered snow showers across the great lakes region.

Temperatures around the nation at 2 a.m. EST ranged from three below zero in Greenville, Maine, to 65 in Blythe and San Diego, Calif., and Fort Lauderdale, Fla.

Here are some early morning temperatures and conditions around the nation.
Eastern U.S. — Atlanta 35 cloudy, Boston 24 fair, Cincinnati 31 fair, Cleveland 29 partly cloudy, Detroit 30 cloudy, Miami 61 cloudy, New York 27 fair, Philadelphia 26 fair, Pittsburgh 20 fair, Washington 29 fair.
Central U.S. — Chicago 33 fair, Denver 41 partly cloudy, Des Moines 34 cloudy, Fort Worth 48 windy, Indianapolis 30 cloudy, Kansas City 35 windy, Louisville 28 fair, Minneapolis-St. Paul 32 hazy, Nashville 39 cloudy, New Orleans 52 cloudy, St. Louis 38 cloudy.
Western U.S. — Anchorage 24 fair, Los Angeles 61 cloudy, Phoenix 59 fair, Salt Lake City 43 partly cloudy, San Diego 65 foggy, San Francisco 54 showery, Seattle 48 windy.

The flooded residential area of Point Magu Naval Air Station, hit by a wall of mud and water, is seen in this aerial photo. About 3,000 persons were evacuated as floodwaters from a broken levee

rushed through the base, covering the area with five feet of water and mud. No serious injuries were reported. Point Magu is about 60 miles northwest of Los Angeles. (AP Laserphotos)

Rain hits California for seventh straight day

By The Associated Press

Relentless rain drenched Southern California for a seventh straight day, bringing more mudslides and high water that forced thousands of persons from their homes and drove damage estimates into the millions of dollars. Flooding continued in Utah and Arizona.

As the rain continued, tourists were urged to avoid the desert Palm Springs area, where 1,000 persons were advised to leave their homes. Amtrak rail travel was interrupted between Los Angeles and San Diego because a bridge had been weakened by the storms.

By late Monday, at least 24 persons had died because of the weather, including 18 in California, three in Arizona and three American tourists in Tijuana, Mexico, authorities said.

With a fifth storm predicted for waterlogged California today and a sixth expected late tonight or early Wednesday, thousands of persons were evacuated from areas ravaged by floodwaters and cascading mudslides.

Gov. Edmund G. Brown Jr. was to tour the rain-devastated areas today and sign disaster proclamations for Los Angeles, Orange and Riverside counties. Further requests for government assistance were expected from Ventura, Santa Barbara and San Luis Obispo counties.

A state of emergency declared by Los Angeles Mayor Tom Bradley over the weekend was still in effect. Police remained on 12-hour shifts after all leaves were canceled.

By early today, 2.49 inches of rain had fallen on the Los Angeles Civic Center from the latest storm, bringing the season total to 19.40 inches — 9.9 inches above normal for this time of year.

While the latest storm was expected to cross the coast south of the earlier storms, the National Weather Service still advised Southern Californians to expect increasingly heavy rain and issued a flash flood watch through today in mountain, desert and coastal areas.

In Gache County in northern Utah, Flood Control Director Ned Gines said flood damage from Monday's rain would probably total about \$2 million.

"We haven't lost any homes completely, but there is basement flooding and lots of rocks and mud on people's lawns. The roads are a mess," said Mendon Mayor Max Baker.

In Phoenix, Ariz., officials of the Salt River Project, which manages the flow of water in the Salt River and

its lakes, said approaching storms are not as severe as anticipated and flooding would not be as bad as expected.

"What we thought was a very serious situation is now a manageable situation," said Jack Pfister, general manager of the project.

Gov. Bruce Babbitt asked President Carter on Monday night to declare a large portion of central Arizona a disaster area because of flooding Friday and Saturday.

A major winter storm raced toward the California coast early today with heavy rain and high seas churned by 50-mph winds, the National Weather Service said.

Gale warnings were raised along the coast from Point St. George to Point Conception, the weather service said.

The highway patrol reported several cars were stranded in 2-3 feet of water on state Highway 101 in Marin County early this morning as heavy rains pounded the area in advance of the storm.

California National Guard units were placed on alert in case troops are needed to cope with flooding caused in some areas by collapsed and weakening levees or other storm-related problems.

In Sacramento, Col. Andy Wolf, chief of public affairs for the guard, said about 18,000 guardsmen can be called to duty if necessary, "but I doubt if they'll all be used."

Southern California property damage, officially unestimated in many areas, was in the tens of millions of dollars. In Los Angeles County alone, Supervisor Baxter Ward estimated structural and personal-property losses were in excess of \$20 million.

Sixty miles northwest of Los Angeles at Point Mugu Naval Air Station, the Navy said 3,000 persons were evacuated after a second wave of floodwaters hit the low-lying missile test center late Sunday and continued through Monday. Another 1,490 persons had either been evacuated or advised to leave their homes throughout Southern California by late Monday.

Forty homes were evacuated in San Bernardino where the Harrison Dam was filled to capacity as water and silt poured off nearby hillsides denuded by fires. City fire officials said 55 homes had already been damaged and one destroyed.

Evacuations also were reported in portions of Orange and San Diego counties and Amtrak passenger train service between Los Angeles and San Diego was halted because of a weakened railroad bridge.

SHEINWOLD ON BRIDGE

Playing Like a Dog

By Alfred Sheinwold

Some bridge players remind you of a dog that tries to open a door by jumping at it and slamming it shut. East took the ace of hearts and promptly returned the king of diamonds—a very canine play.

South refused the first diamond but took the next, drew trumps and took the club finesse. East could take a club, but that ended the defense.

NEEDS ENTRY

East must get to his partner's hand for a heart trick to defeat the contract. How should East open a door to his partner's hand?

East must lead a low diamond at the second trick. South must put up the ace of diamonds to keep West out. Then South draws trumps and tries the club finesse.

East wins and leads another low diamond. West thus gets in with his ten of diamonds to cash a heart trick, defeating the contract.

If South has the A-10 of diamonds East's defense gives South an overtrick—a small price for a chance to defeat the contract.

DAILY QUESTION

Partner bids one club, and the next player passes. You hold: ♠ 8 5 4 ♥ A ○ K Q J 5 3 ♣ K 6 5 2. What do you say?

Pilot
Life

This is a scale model of the world's first floating oil production platform, Conoco's Tension Leg Platform for the Hutton field in the North Sea. Current plans call for construction of the facility to start in 1981, with installation completed and oil production started by mid-1984.

Amoco strikers off more than 6 weeks

TEXAS CITY, Texas (AP) — Secretaries running lab tests, supervisors sweeping up dust, executives punching computer keys, chemical engineers opening and closing valves — just a normal day's work at the Amoco Oil Co.'s refinery here. The hourly employees who usually do those jobs — members of the Oil, Chemical and Atomic Workers union — have been on strike for more than six weeks. Almost 60,000 union members nationwide walked off their jobs Jan. 8 in a dispute over pay and fringe benefits.

So 525 professionals, supervisors and administrators are running the refinery, one of the largest in the nation with a 415,000-barrel daily capacity. But refinery manager Larry Durland insisted during a tour of the plant that operations are smoother now than they were before the strike. "You now have crews made up of shift foremen — workers who were promoted because they were top operators," he said. "You have crews of men who trained the hourly workers and crews of men who actually designed this equipment. "These people have the know-how and are highly skilled. Before the strike we were operating at 80 percent capacity ... today we are operating at 80 percent capacity. Each day we produce 210,000 barrels of gasoline." Outside the plant, pickets walked with signs whipping in the cold wind. "Maybe they can keep the plant going," said one of the pickets, "but I don't know how safe it is without us. If there is a major breakdown in there, those people are going to be in trouble." "The company likes to talk about using the men who designed some of the equipment to handle it during the strike," said Billy Jones, a union official in Texas City. "There is a lot of difference between designing it and working it day after day, month after

month. There just isn't the experience. "And if a major breakdown happens, the knowledge to fix it won't be found in the refinery today." Inside the refinery, a mechanical engineer who now mans hundreds of valves and pumps, said, "To be honest, we have had fewer maintenance problems since the strike than before. I think there is more personal interest. The men who designed some of the equipment are taking care of it. It's a personal touch, a personal pride."

A young chemical engineer said, "It's a real pleasure to work with something I designed. It is a bigger pleasure to know something worked the way I designed it."

Durland was asked how engineers could suddenly turn into firefighters, or secretaries into lab assistants. "We planned ahead as we always have when a contract is to expire," he said. "We started training these people Nov. 1, just in case there was a strike."

Wildcats were scheduled in Nolan and Rannels counties, while Irion County gained a steppout and an outpost. Esperanza Energy Corp. of Dallas filed application to drill the No. 2 White as a 6,800-foot wildcat in Nolan County, one location southeast of the two-well White (Garnder) field, five miles north of Blackwell.

Drillsite is 1,980 feet from north and west lines of section 25, block Z, T&P survey.

RUNNELS VENTURE
Pro Oil Co. of San Angelo staked location for the No. 1 Pope Unit as a 4,800-foot oil wildcat one location northwest of one of an undesignated lower Capps gas discovery on the west edge of the Rannels County portion of the Urban (Miles) field in the Miles township.

Wellsite is 1,361 from north and 1,549 from east lines of section 86, T&N survey. Ground elevation is 1,806 feet.

IRION PROJECTS
Union Texas Petroleum Corp. of Midland announced plans to drill the

production, eight miles north of Vincent. Wellsite is 2,510 from south and 1,463 from east lines of section 68, block 25, H&T survey.

GAINES PROJECT
Cities Service Oil Co. of Midland will dig No. 5-A Norman as a 1/4-mile south steppout to Wolfcamp production in the Tex-Flor field of Gaines County, 12 miles southeast of Seminole.

It is 467 from north and 2,300 from east lines of section 8, block C-45, PSL survey.

YOAKUM FIELD TEST
Getty Oil Co. No. 1-D Melba Webb is a 3/8-mile west offset to Devonian production in the Bra-

hany field of Yoakum County, four miles southwest of Plains. On last report, operator was drilling below 5,280 feet on contract depth of 11,800 feet.

Location is 2,173 from north and 2,290 from west lines of section 514, block D, John-H. Gibson survey.

HOWARD COUNTY
Amoco Petroleum Co. No. 4-A Read, drilling 5238 feet in lime. Tucker & Baumgardner No. 4 Black Buck id 8900 feet, waiting on tubing.

IRION COUNTY
O.H. Berry No. 1-A FAWN, id 7644

LEA COUNTY
V.F. Petro. No. 1 Cox, id 12,148 feet, waiting on electricity. Union Oil Co. No. 2 Maduro Unit, id 5,223 feet, steel in dolomite. Union Oil Co. No. 14 State, drilling 4732 feet in dolomite. Hunt Energy No. 1-Frost National at Bank State, id 12,806 feet in sand, lime and shale, circulating at total depth.

Getty Oil chairman says Baltimore test promising

ATLANTIC CITY, N.J. (AP) — The chairman of Getty Oil Co. says an exploratory well being drilled to establish the first commercial gas field in the Baltimore Canyon off the New Jersey coast "looks promising." Harold E. Berg's cautious statement was the most optimistic and

ENERGY OIL & GAS

specific word from an oil executive so far on the prospects of a commercial gas field off the mid-Atlantic coast. But Berg warned that the well, being drilled by Texaco Inc. about 106 miles east of Atlantic City, must be completed and evaluated before preliminary work can begin to bring gas ashore. Getty has a 20 percent interest in the well. "The well at this point looks promising and that's all you can say for it," Berg said in a telephone interview

from Getty's Los Angeles headquarters. "If it does prove to be a good well — and that 'if' should be capitalized many, many times — but if it does prove good, then we'd have to do some calculating on reserves and there's a possibility that might make that (area) commercial," Berg said.

WASHINGTON (AP) — A government study says eight western states may face major environmental threats from stepped-up energy development unless proper safeguards are taken. The study, prepared for the Environmental Protection Agency, examined the impact of increased mining and drilling activities in Arizona, Colorado, Montana, New Mexico, North Dakota, South Dakota, Utah and Wyoming. It said one of the most serious threats was to scarce water resources in the region. The study comes at a time when the Carter administration is pushing energy development in the West, includ-

ing synthetic fuel production, to lessen the country's dependence on foreign oil. By the year 2000 the Colorado River basin could fall short of enough water to meet the projected needs of both energy development and non-energy uses. The study also warned that air and water pollution could increase because of expanded mining activities, but it listed various proposals to lessen the environmental impact. The study also estimated large-scale energy development could increase total income in the eight states by as much as 10 percent to 15 percent by the year 2000 and provide thousands of extra jobs.

Gulf finals Ward oil well

Gulf Oil Corp. finalized the No. 1055 Hutchings Stock Association as the tenth Pennsylvania producer, 1/4 mile southwest of production in the Wagon Wheel (Pennsylvania) field of Ward County, 2.5 miles southeast of Wickert. Operator reported a 24-hour flowing potential of 328 barrels of 37.9-gravity oil and eight barrels of water, through a 22/64-inch choke and perforations from 8,314 to 8,723 feet, which was acidized with 6,400 gallons. Gas-oil ratio is 4,573-1. Total depth was reached at 9,100 feet, where 5.5-inch casing is set, plugged back depth is 8,984 feet. Location is 2,310 from south and 1,980 from west lines of section 4, block O, G&MMB&A survey.

HOWARD PROJECT
Amoco Production Co. scheduled No. 113-AB Texas Land & Mortgage Co. as a 1/2-mile west steppout to the two-well south area of Fusselman production in the Coahoma, North field of Howard County, 15 miles southeast of Coahoma. Drillsite is 2,223 feet from north and 467 feet from west lines of section 5, block 30, T-1-S, T&P survey. Contract depth is 9,500 feet.

Explosive gases could bring crude to surface

SAN ANTONIO, Texas (AP) — Petroleum researchers think they have devised a process that could bring 100 billion barrels of underground oil to the surface, but say it will be another five years before they complete their experiments. The Southwest Research Institute said the technique could result in profitable recovery of oil from chalk and limestone fields in Central and South Texas — fields currently considered unproductive because of the expense involved in drilling. But further research is needed to refine the recovery method before it can be used practically, a SWRI spokesman said Monday. The method involves injecting a mixture of oxygen and explosive gases deep into the oil-bearing formations. The mixture is then detonated, fracturing the formation and freeing the oil for easy extraction.

The technique could help recover oil from reserves that now cannot be tapped profitably. Texas Railroad Commission Chairman John Poerner estimates the state has 100 billion barrels of such deposits, in the Austin Chalk and Buda Limestone formations in South and Central Texas. The technique is a variation of a recovery method that requires the use of a solid explosive to loosen the deposits, said Dr. H. Norman Abramson, vice president of SWRI's engineering and sciences division. The gaseous fracture technique came after about eight years of research financed by the institute and a private sponsor. Initial test results were encouraging. "After we completed most of the laboratory research, however, and got ready to move into the more expensive field test stage, the sponsor dropped out," Abramson said. Awaiting another sponsor, the institute has done only cursory research on the technique since 1977. Abramson said a budget of about \$250,000 and perhaps two years of additional research are needed before the technique can be tested in oil fields, followed by another three years of field work to refine the method.

Abramson denied statements in a story published last week indicating a San Antonio oil producer had joined with the institute to perfect the method. Also, Abramson said details of the

DRILLING REPORT

ANDREWS COUNTY
Estoril Producing Corp. No. 2-4 University, drilling 8243 feet, preparing to run drill stem test intervals not reported.

BORDEN COUNTY
Energy Reserves Group Inc. No. 1 W.A. Waddell, "TIGHT"

BREWSTER COUNTY
Texas Pacific No. 1 Madre Grande, drilling 13,254 feet.

CHAVES COUNTY
Union Oil Co. of California No. 1 O'Brien, id 2800 feet, set 3/4-inch casing at total depth, moving in completion unit, preparing to perforate. Harvey E. Yates No. 1 Oakton, id 6138 feet, set packer at 2575 feet, acidized perforations from 2612 to 2863 feet, set packer at 2612 feet, swabbed 100 barrels of fluid in lime, ran logs, pulled out of hole.

COKE COUNTY
Harvey E. Yates No. 2 Rebecca Crosby, id 3865 feet, set 3/4-inch casing at total depth, released rig.

COKE COUNTY
Maddox Energy No. 1-A Edwards, id 13,775 feet, plug back total depth 900 feet, set plugs, waiting on cement, had drill stem test re-run through Clearfork perforations from 4170 to 6258 feet, recovered 376 feet of oil and mud.

EDDY COUNTY
Ford Chapman & Associates No. 1 Coyote, id 2018 feet, preparing to plug and abandon. Ford Chapman No. 2 El Paso State, drilling 15 feet in surface soil and shale. Cities Service No. 2-S Government, drilling 3205 feet in lime. Duram Inc. No. 1 Sinking Draw Federal, drilling 7030 feet in shale. Gulf Oil Corp. No. 1-L Eddy State, id 1206 feet in lime, ran logs, pulled out of hole. Gulf Oil No. 1 Callaway Federal, id 9100 feet in lime and shale, flowed at rate of 2,100,000 cubic feet of gas per day on 15/64-inch choke in 24 hours through perforations from 8060 to 8828 feet, shut in for pressure build up. Gulf No. 1 Rustler Bluffs, id 12,800 feet in lime and shale, nipped down blow out preventer, nipped up well head, preparing to move off rig. Harvey E. Yates No. 1 Last Chance, id 10,773 feet, testing blow out preventer.

FISHER COUNTY
Hanson Corp. No. 1 Aken, id 287 feet, set 8 1/2-inch casing at total depth, waiting on cement.

GLASSCOCK COUNTY
Champion Petroleum No. 2 B.F. Dooley, drilling 1515 feet in shale, lime and dolomite. Jay Petroleum No. 1 Books; "TIGHT" Tamarack Petroleum No. 1-B Hammer, drilling 7848 feet in lime and shale, set 8 1/2-inch casing at 465 feet.

HOCKLEY COUNTY
Champion Petroleum No. 1 P.E. Dehmel, id 7056 feet, moved in completion unit.

HOWARD COUNTY
Campana Petroleum Co. No. 4-A Read, drilling 5238 feet in lime. Tucker & Baumgardner No. 4 Black Buck id 8900 feet, waiting on tubing.

IRION COUNTY
O.H. Berry No. 1-A FAWN, id 7644

LEA COUNTY
V.F. Petro. No. 1 Cox, id 12,148 feet, waiting on electricity. Union Oil Co. No. 2 Maduro Unit, id 5,223 feet, steel in dolomite. Union Oil Co. No. 14 State, drilling 4732 feet in dolomite. Hunt Energy No. 1-Frost National at Bank State, id 12,806 feet in sand, lime and shale, circulating at total depth.

REAGAN COUNTY
John L. Cox No. 1-19-10 University, drilling 3,735 feet.

REEVES COUNTY
Gulf Oil No. 1 Norma Sherman, id 6,500 feet, perforated from 5,575 to 5,877 feet, set packer at 5,560 feet, rigged up swab. Gulf Oil No. 10 Henry, id 6,500 feet, pumped 4 barrels of oil and 48 barrels of water in 24 hours, through perforations from 5,764 to 5,815 feet. Gulf Oil No. 1-D Frost, drilling 1,400 feet in lime and sand.

SCHLEICHER COUNTY
Champion Petro. No. 4-A Duff Estate, drilling 6,420 feet in sand and shale. Discovery Operating No. 1 Lin B, drilling 3,660 feet in lime and shale.

SCURRY COUNTY
Terra Resources No. 1 Dan Whitley, id 8,396 feet, ran tracer logs, shut in. Terra Resources No. 1 W.H. Jones, id 4,296 feet, swabbed 23 barrels of oil and 131 barrels of water in 24 hours, through perforations from 7,816 to 7,822 feet, swabbed 182 barrels of fluid in 12 hours on 10 percent oil, through combined perforations from 7,947 to 8,025 feet, set 5 1/2-inch casing, set cast iron bridge plug at 8,030 feet, put well on pump, pumped 20 barrels of oil and 436 barrels of water in 24 hours. HMIH Operators No. 1 Lillie Brown, id 7,560 feet, logging.

STERLING COUNTY
The Deanna Corp. No. 1 Council, drilling 4,815 feet in lime and shale.

TERRELL COUNTY
Gulf Oil No. 1-D Ruth White, drilling 4,332 feet in lime and shale.

TERRY COUNTY
Florida Gas No. 1 Minnie Heald, drilling 4,865 feet.

UPTON COUNTY
C. Louis Renaud No. 1 Arco, drilling 378 feet. John L. Cox No. 2-B Pelmont-Morgan, drilling 4,815 feet. John L. Cox No. 1 Turner-Barnet, drilling 4,221 feet.

WARD COUNTY
Adobe No. 1-E Barstow, id 6,500 feet in sand and shale, ran logs, perforated from 6,284 to 6,337 feet, picked up packer, going in hole with tubing. Adobe No. 1-21 Barstow, drilling 1,000 feet in gravel and redbeds. Gulf Oil No. 14-Crawley Field Unit, id 6,215 feet, pumped 8 barrels of oil and 154 barrels of water in 20 hours, through perforations from 5,943 to 6,171 feet. Gulf No. 15 C.W. Edwards, id 5,000 feet in lime, rigged down, released rig. Gulf Oil No. 2-H Jack Edwards, id 5,400 feet in lime, moved in and rigged up completion unit, went in hole with tubing and drillers, installed blow out preventer, tagged cement at 2,113 feet. Gulf Oil No. 2-K Jack Edwards, id 2,245 feet in anhydrite, preparing to run 8 1/2-inch casing. Gulf No. 1841 Hutchings Stock Ass., id 8,500 feet, ran 4 swab runs, swabbed down, ran at 30 minute intervals, recovered no oil and 90 barrels of water, through perforations from 1,000 to 4,894 feet. Gulf No. 1888 Hutchings Stock Ass., drilling 2,800 feet in salt and anhydrite. Gulf No. 1889 Hutchings Stock Ass., drilling 5,235 feet in lime and anhydrite. Gulf No. 1878 Hutchings Stock Ass., id 12,220 feet in lime, set 5 1/2-inch casing at total depth, waiting on cement. Gulf No. 2-18-31 University, id 11,987 feet in lime and dolomite, rigged up and killed well, installed new tree, shut in.

Wildcats scheduled in Permian Basin

Wildcats were scheduled in Nolan and Rannels counties, while Irion County gained a steppout and an outpost.

Esperanza Energy Corp. of Dallas filed application to drill the No. 2 White as a 6,800-foot wildcat in Nolan County, one location southeast of the two-well White (Garnder) field, five miles north of Blackwell.

Drillsite is 1,980 feet from north and west lines of section 25, block Z, T&P survey.

RUNNELS VENTURE
Pro Oil Co. of San Angelo staked location for the No. 1 Pope Unit as a 4,800-foot oil wildcat one location northwest of one of an undesignated lower Capps gas discovery on the west edge of the Rannels County portion of the Urban (Miles) field in the Miles township.

Wellsite is 1,361 from north and 1,549 from east lines of section 86, T&N survey. Ground elevation is 1,806 feet.

IRION PROJECTS
Union Texas Petroleum Corp. of Midland announced plans to drill the

TAMPA, Fla. (AP) — The skipper of the doomed Coast Guard cutter Blackthorn says he thought the two ships would pass closely but safely when he first spotted a red light from the oil tanker Capricorn in the blackness of Tampa Bay.

No. 2-45-10 Farmer as a 1/2-mile steppout to the Rock Pen (Canyon) field of Irion County, 6.5 miles west of Mertzon. Location is 1,980 from north and 2,180 from west lines of section 45, block 1, H&T survey. Scheduled depth is 7,400 feet.

Tucker Drilling Co., Inc. of San Angelo will drill the No. 5 Frank A. Lindley as a location south and east offset to the Christi (Canyon 6800) field of Irion County, 3.4 miles southwest of Mertzon. Wellsite is 739 from south and 1,664 from west lines of section 61, block 1, H&T survey. Contract depth is 6,900 feet.

Mobil Producing TX & N.M., Inc. of Houston spotted No. 1 Callaway as an 11,000-foot wildcat in Lubbock County, 1.5 miles southeast of a 10,000-foot failure, 4.5 miles southwest of production in the Anton Irish field and six miles southeast of Anton.

Drillsite is 1,980 feet from north and 2,030 feet from east lines of section 28, block P, EL&RR survey.

BORDEN CANYON TEST
F.G. Woodside of Lubbock staked No. 1 J.G. Davis Estate as a 6,800-foot Canyon test in the Reinecke, East field of Borden County, one location northeast of Canyon

production, eight miles north of Vincent. Wellsite is 2,510 from south and 1,463 from east lines of section 68, block 25, H&T survey.

GAINES PROJECT
Cities Service Oil Co. of Midland will dig No. 5-A Norman as a 1/4-mile south steppout to Wolfcamp production in the Tex-Flor field of Gaines County, 12 miles southeast of Seminole. It is 467 from north and 2,300 from east lines of section 8, block C-45, PSL survey.

Government checks firm

TEGUCIGALPA, Honduras (AP) — The government Monday ordered an investigation of the Texaco Caribbean Inc. oil company, which operates the country's only refinery, to determine the cause of a diesel fuel shortage that has paralyzed 98 percent of public transportation and freight here.

Mobil Oil spots deep wildcat in Lubbock area

Mobil Producing TX & N.M., Inc. of Houston spotted No. 1 Callaway as an 11,000-foot wildcat in Lubbock County, 1.5 miles southeast of a 10,000-foot failure, 4.5 miles southwest of production in the Anton Irish field and six miles southeast of Anton.

Drillsite is 1,980 feet from north and 2,030 feet from east lines of section 28, block P, EL&RR survey.

BORDEN CANYON TEST
F.G. Woodside of Lubbock staked No. 1 J.G. Davis Estate as a 6,800-foot Canyon test in the Reinecke, East field of Borden County, one location northeast of Canyon

production, eight miles north of Vincent. Wellsite is 2,510 from south and 1,463 from east lines of section 68, block 25, H&T survey.

B. D. Taylor in new post

B. D. Taylor II has been moved from Exxon Co., U.S.A.'s Southeastern Division, Harvey District, to the Midlandcontinent Production Division in Midland. He moved here as section head of Financial Analysis & Reporting, Accounting, Reporting, Accounting. He replaces Fred W. Almy who was moved to Headquarters Marketing Accounting, Center, Houston. Taylor joined Exxon Pipeline Co. in Houston. A transfer in 1974 took him to an assignment with Alyeska Pipeline and four years later he was assigned to the Harvey District.

DEATHS

James P. Dunigan

ABILENE — Longtime West Texas oilman James Pat Dunigan, 55, of Abilene died Sunday in an Abilene hospital after suffering an apparent heart attack.

Services were to be at 2 p.m. today in the St. Paul United Methodist Church. Burial was to be in Elmwood Cemetery in Abilene directed by North's Funeral Home.

Dunigan was born Sept. 23, 1924, in Muskogee, Okla., and was raised in Breckenridge. He was graduated with honors from The University of Texas in 1942 with a major in investments and received a master's degree in business from New York University with honors in 1949. He was a pilot in the Army Air Corps in World War II.

He was chairman of the board of Dunigan Enterprises, a firm involved in the production, exploration and gathering of crude oil and natural gas. He was chairman emeritus of the First State Bank of Abilene and past chairman of the board of Pride Refinery. He also was active in a number of other corporations.

Survivors include his wife; three sons, Mike Dunigan, Andy Dunigan and Bryan Dunigan, all of Abilene; a sister, Sue Dunigan of Fort Worth; and his stepmother, Sally Dunigan of Sebastian.

The family requests memorials be

made to the Hendrick Medical Center Foundation in Abilene.

Edie Wilkerson

BIG SPRING — Services for Edie L. Wilkerson, 88, of Big Spring, will be at 3 p.m. Thursday in Nalley-Pickle Rosewood Chapel with Randall Martin officiating. Burial will be in Trinity Memorial Park.

Mrs. Wilkerson died Monday in a Big Spring hospital following a lengthy illness.

She was born April 22, 1891, in Brown County. She married J.L. Wilkerson in 1906 in Brown County. He died on Nov. 13, 1954. The couple came to Howard County in 1929 and farmed in the Velmore area until retiring in 1949. She was a member of the Cedar Ridge Church of Christ.

Survivors include five sons, Jeff Wilkerson and Wilmet Wilkerson, both of Big Spring, Harvey Wilkerson and Larry Wilkerson, both of Odessa, and W.P. Wilkerson of Fort Worth; seven daughters, Nellie Clark of Fresno, Calif., Ella Louis of Big Spring, Lena Soukup of Joshua Tree, Calif., Floxie Wooten of Comanche, Velma Dansby of Tyler, Ann Williams of Granbury and Virginia Miller of Big Spring; three sisters, Edna Tarte of Cleburne, Flossie Boyd of May and Rachel Teague of Denton; three brothers, Ivie Jones of San Simon, Ariz., L.D. Jones of California and

Harvey Jones of Carlsbad, N.M.; 58 grandchildren, 22 great-grandchildren and 12 great-great-grandchildren.

A.L. Roundtree

HOBBS, N.M. — Services for Audie Lee Roundtree, 75, of Hobbs, N.M., were to be at 4 p.m. today in Hubbard Kelly Funeral Home chapel with burial in Sunset Memorial Gardens.

Mrs. Roundtree died Sunday in a Hobbs hospital after a short illness.

She was born Jan. 23, 1905, in Ada, Okla. She was married to Gettie James Roundtree June 13, 1920, in Ada, Okla. Mrs. Roundtree was a housewife and came to Hobbs in 1953 from Ector County. She was a Baptist.

Survivors include two sons, Henry Roundtree of Odessa and Roy Roundtree of Monahan; a sister, Abbie Harrison of Temple; three brothers, Jack Rogers of Lovington, N.M., Louie Rogers of Everson, Wash., and R.R. Rogers of Ada, Okla.; five grandchildren and six great-grandchildren.

Manuel Aguirre

STANTON — Services for Manuel Gardo Aguirre, 44, of Stanton were Monday in St. Joseph Catholic Church here with burial in St. Joseph Ceme-

tery directed by Gilbreath Funeral Home.

He died Friday in a Big Spring hospital following a brief illness.

Aguirre was born June 13, 1935, in Stanton. He was married to Guadalupe Cortez Dec. 31, 1960, in Stanton.

Survivors include his wife; three sons, Manuel Aguirre Jr., Johnny Aguirre and Fillipe Jesus Aguirre, all of Stanton; three daughters, Solia Valles Aguirre, Mary Ann Aguirre and Linda Ann Aguirre, all of Stanton; three sisters, Lillia Arguello of Midland, Anita Teneyugre of Beaumont and Dora Garza of Lenorah; two brothers, Raymond Aguirre of Odessa and Felix Aguirre of Stanton; and his mother, Eufemia Aguirre of Stanton.

Jake C. Young

OZONA — Graveside services for Jake Cardwell Young, 72, of Ozona were to be at 2 p.m. today in Cedar Hills Cemetery here.

He died Sunday at his home.

Young was born April 12, 1907, in Uvalde. He was married to Hester Bunker May 25, 1937, in Ozona. He was a pioneer rancher and a member of the United Methodist Church. His wife died in 1975.

Survivors include a daughter, Allean Jones Taylor of Sonora; a son, Jake Young Jr. of Albuquerque, N.M.; and two grandchildren.

Earl M. Brown

McCAMEY — Services for Earl Mack Brown, 53, of McCamey will be at 2:30 p.m. Wednesday in Southern Union Baptist Church here with burial in Garden of Memories Cemetery directed by Larry D. Sheppard Funeral Home.

He died Sunday in a San Antonio hospital following a lengthy illness.

Brown was born July 9, 1926, in Bradshaw. He was married to Lillie Bell Walker April 18, 1956, in Crane. He served in the U.S. Army from 1952 to 1954.

Survivors include his wife; two daughters, Clemetine Lewis of McCamey and Watzene Payne of San Angelo; a sister, Alma Robertson of Odessa; his stepfather, Tom Frison of Midland; and two grandchildren.

Ella Self

SWEETWATER — Services for Ella Self, 72, mother of Mrs. Floyd Redden of Midland were to be at 2 p.m. today at McCoy Funeral Home Chapel of Memories. Burial was to be in Sweetwater Cemetery.

Mrs. Self died Sunday morning in a Sweetwater hospital following an ill-

ness.

She was born May 2, 1907, in Edmont, Ky. She was married to Archie Q. Self in 1925 at Big Spring. Mrs. Self was a longtime resident of Sweetwater.

Other survivors include her husband, a daughter, two sons, three sisters, a brother, 11 grandchildren and 15 great-grandchildren.

Walter Capps

OZONA — Services for Walter Marion Capps, 91, of Ozona will be at 2 p.m. Wednesday in Ozona Church of Christ with burial in Cedar Hills Cemetery directed by Sheppard Funeral Home.

He died Sunday in an Odessa hospital.

Capps was born Aug. 27, 1888, in Bexar County. He was married to Madye Connor Aug. 18, 1923, in Norton. He was a retired postal carrier and a veteran of World War I. He was a member of the Church of Christ and the Ozona VFW.

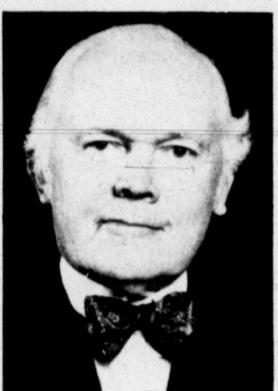

Survivors include his wife; a daughter, Dorothy Armentrout of Odessa; three sisters, Mrs. J.W. McIntire of San Angelo, Mrs. Z.L. Brown of Monahan and Mrs. Arden Alderman of Rolling Fork, Miss.; seven grandchildren and three great-grandchildren.

Joseph A. Tierney

'Free Enterprise Day' to feature business leaders

Six distinguished business leaders will participate Wednesday in the first annual Midland College "Free Enterprise Day" at Chaparral Center on the MC campus.

Robert Anderson, chairman of the board for Atlantic Richfield Oil Co. and Joseph A. Tierney, director of personnel and industrial relations for Michelin Tire Corp. will be featured speakers at the day-long event, according to Dr. Robert Hollmann, chairman of the Cultural Studies division at Midland College.

A panel discussion, moderated by Tony Martin, president of Midland National Bank, will include three Midland business leaders: Ed Leede, managing partner for Leede Explora-

tion; Roy Campbell, president and chairman of the board for Elcor Corp.; and Deane Stoltz, president and chairman of the board for Tipperary Corp.

"Oil, Energy and the Future of the Free Enterprise System" will be the main topic of the day-long seminar, Hollmann said.

Anderson will speak to Permian Basin high school and Midland College social studies students on "Petroleum in the 1980s."

A CHICAGO native, Anderson received his bachelor's degree from the University of Chicago in 1939 and was associated with American Mineral Spirits Company, a subsidiary of Pure Oil Co. in Chicago.

In 1941, he acquired a substantial interest in Malco Refinery at Artesia, N.M. Within 15 years, Anderson bought and expanded six refineries and purchased Wilshire Oil Co. in California which he later sold to Gulf Oil Corp.

Malco Refineries, Inc. was changed to Hondo Oil and Gas Co. in 1959 when the Artesia refinery was leased by Continental Oil Co. In 1963, Atlantic Refining Company acquired all of the outstanding stock of Hondo when Anderson was president.

During that year, he was elected to the board of directors for Atlantic Richfield Company. Also in 1963, he became chairman of the company's executive committee and in 1965 he was elected

chairman of the board and executive officer.

In addition, Anderson is the owner of Lincoln County Livestock Company and chairman of the board for Diamond A Cattle Company, both of Roswell, N.M.

From 1961 to 1964, he served as the chairman of the board for the Federal Reserve Bank of Dallas.

IN THE afternoon, Tierney will speak about the "Fable of the Little Red Hen."

A native of Delaware, Tierney was awarded a bachelor's degree in philosophy from St. Mary's Seminary and University, Baltimore. He did post graduate studies at St. John's University, N.Y., and the University of Delaware.

In 1975, he joined the Michelin Tire Corp. and spent one year in France at the corporation's headquarters.

When Tierney returned to the U.S., he was named division manager of employee relations. He later assumed the post of director of industrial relations in 1978.

Last year Tierney was named director of personnel and industrial relations for Michelin Tire. He is assigned to the Michelin-manufacturing division in Greenville, N.C.

PANEL discussion member Roy Campbell is president of Elcor Corp. After receiving his bachelor's degree in civil engineering from Rice University and working with a subsidiary of Standard Oil of Indiana, he joined the Midland engineering consulting firm of Leibrock, Landreth, and Campbell in 1956.

When the firm expanded with the addition of F.H. Callaway and W.F. Orloff, it became the Elcor Corporation.

The corporation presently employs about 1,800 people of which 286 are located in Midland. Last year the company

had total sales and revenues of about \$150 million.

Campbell is also a member of the board of trustees at Midland Memorial Hospital.

FOLLOWING military service in the Marine Corps, Ed Leede received his bachelor's degree from Dartmouth College.

He later went to Harvard University and earned his MBA degree after playing basketball for two years with the Boston Celtics.

In 1976, he formed Leede Exploration. The company presently is involved with a 25,600-foot extension well in Oklahoma. If successful, it will become the deepest producing well in Oklahoma and the deepest Hunton formation in the world.

Leede is a director of the Midland National Bank, the Petroleum Club of Midland, Hillander School and YMCA. He is also the chairman of the athletic council for Dartmouth College.

DEANE STOLTZ received his bachelor's degree in business administration from North-

western University, Evanston, Ill.

He became an independent oil operator in

1955 and in 1962 formed a partnership with Cyril Tipperrary Land and Wagner Jr. and Jack E. Brown as Stoltz and Co.

The firm merged with president and chief executive officer at that time. In 1979, he was named chairman of the board.

Lee speech teams compete in Lubbock, Sonora tourneys

Two Lee High School speech and drama teams recently competed in tournaments at Texas Tech University in Lubbock and in Sonora.

Both squads won second place in sweepstakes at the two tournaments. Finalists in the Texas Tech University contest were Ernest Angelo and Paul Raymond in original oratory.

Quarterfinalists included the teams of Deanne Durfee and Jon Franke and Eric Fryar and John Kimberly in cross-examination debate.

Placing in the Lubbock tournament were Paul Raymond, second place in boy's persuasive; Bobby Dawson, first place in informative speaking; Kelly Osborn, third place in original oratory; and Karen Durfee and Mike

Harrell, second place in duet acting. Miss Durfee and Harrell qualified for the state Texas Forensics Association tournament.

Finalists in the Sonora Invitational tournament were Sonja Goza in prose and poetry and Robyn Rose in poetry.

Jim Bynum made the semi-finalist category in humorous interpretation and prose.

Placing in the Sonora tournament were Marvin Moore and Kenny Johnson, first place in debate; Robyn Rose, second place in dramatic; Sonja Goza, first place in dramatic; Meri Jo Strawn, second place in prose and humorous; and Sonja Goza and Meri Jo Strawn, second place in duet acting.

Three dead, 11 rescued by CG after boat sinks

FORT LAUDERDALE, Fla. (AP) — Juan Justilien, one of 11 persons rescued by a Coast Guard helicopter when a boat carrying 17 or more people sank in the Atlantic Ocean, told officials he paid \$1,200 to be smuggled to Florida from Haiti.

Justilien, eight other Haitians and two Miami residents were rescued Monday from the high waves and 65-degree water. But three others — a baby, a Haitian woman and a man — died before rescuers could reach them, authorities said.

Three or more other Haitians were believed to be missing. The search for them was to resume at daybreak today, off-

icials said. Nine of the survivors were treated and held at Broward General Medical Center in Fort Lauderdale. Justilien and a Miami man were reported in satisfactory condition at Hollywood Memorial Hospital.

Luis and Juan Feliciano, both of Miami, said they pulled the Haitians out of the water Monday morning, but their small sailboat

promptly sank, said Lt. Tim Doherty of the Coast Guard station here. Officials did not know how big the boat was.

U.S. Immigration and Naturalization Service investigators were called when "a lot" of cash was found on Juan Feliciano, Doherty said. Justilien did not say whom he paid for the trip, but indicated the other refugees had paid a similar amount to finance the journey.
