METRO EDITION

Bush, Reagan not worried by Anderson

HOUSTON (AP) - George Bush and Ronald Reagan say they aren't worried about losing votes to John Anderson if the Illinois congressman runs for president as an indepen-

During their one-on-one debate Wednesday night, the two candidates for the Republican presidential nomination agreed that Anderson is more likely to draw votes away from President Carter than from the GOP tick-

The confrontation between the two remaining contenders for the Republican nomination failed to produce fireworks as Bush and Reagan outlined their differences on taxes and foreign policy in polite fashion.

"It didn't seem to move as the other debates did," Bush said after the one-hour confrontation. "It didn't have the zip. Maybe, I contributed to that. I don't know.

"It just seemed long to me." "There hadn't been any fast balls thrown that I couldn't answer," said Reagan. "So, I was satisfied with

Anderson was to have been the third man on the stage at Albert Thomas Auditorium, but he withdrew and sources in his campaign indicated that the congressman would announce today his intention to campaign for president as an indepen-

Bush, a former Republican Party chairman, said he didn't believe an independent candidacy by Anderson "is going to make that much differ-

Bush added that "I believe he's more apt to pull from Jimmy

Reagan agreed, saying, "I believe whatever he's going to get, he'll take from the Carter side rather than from

At one point, Reagan made a remark that appeared to eliminate Bush from consideration as a possible running mate if the former California governor gets the nomination, but later he called his comment "an illchosen bit of humor."

The remark was a reference to a major disagreement between the two men over taxes.

Reagan advocates a 30 percent across-the-board cut in income tax rates to be phased in over a threeyear period, a proposal pushed in Congress by Rep. Jack Kemp, R-N.Y., and Sen. Bill Roth, R-Del.

"Your plan would risk exacerbating the deficit," said Bush.

The dispute over taxes dominated the opening minutes of the debate. Later, when taking questions from the audience, the candidates were asked if they would name the people they would consider as running mates.

Both declined, but then, Reagan, with a chuckle, added, "Whoever I picked would have to agree with the

Less than an inch of rain recorded

Rain-starved Permian Basin communities received welcome showers from late-night thunderstorms Wednesday and early today, but the measurements generally were less than an inch.

Small hail also peppered most communities — including Midland — as the thunderstorms roamed the area. There were no reports of damage.

Midland received .67 inch of rain and quarter-inch hail between 11:45 p.m. Wednesday and 1:45 a.m. today, according to the National Weather Service office at Midland Regional Airport.

The rain boosted the total this month to .86 inch and the yearly accumulation thus far to 1.64 inches.

Most measurements reported in Midland ranged from .51 inch to .61 inch. In the area immediately outside the city, measurements ranged as

The Midland Farmer's Coop, located just east of the Midland city limits, reported receiving .5 inch and some small hail, though not enough to cause damage. The Warfield community, about 15 miles southwest of Midland, received .5 inch of rain and small hail.

Greenwood, located 10 miles east of Midland, received .3 inch of rain, but no hail, and Midkiff, 35 miles southeast of Midland, received light showers both Tuesday and Wednesday nights.

All area communities reported receiving light showers or thunderstorms Wednesday night, but the largest measurement was .5 inch at Big Spring, accompanied by small hail. Stanton received .25 inch of rain and Lamesa and Garden City each

reported receiving .2 inch. Stanton also received marble-size hail and Garden City received small hail. Rainfall measurements from Odessa ranged from .3 inch to .7 inch,

according to the weather service office. Meanwhile, the weather forecast for Midland for today was calling for increasing cloudiness with a chance of thunderstorms, a few possibly severe, this afternoon. It should become partly cloudy tonight and Friday with a slight chance of showers

Today's 50 percent probability of rain will diminish to 20 percent to-

Low temperature tonight should be near 50 and the high on Friday should

only reach the upper 60s. Wind tonight should blow out of the southwest at 10-15 mph.

Wednesday's high temperature was 87 and this morning's low reading was 51. Record for Wednesday's date is 95 degrees, set in 1965. Record low for today's date is 37 degrees set in 1968.

Midland's market suffering, Realtor tells Chamber

By LANA CUNNINGHAM Staff Writer

The declining real estate market that has been spreading across the rest of the nation for several months has hit Midland, according to Joan Ramey who is president of the Midland Board of Realtors.

Mrs. Ramey, a member of the Midland Chamber of Commerce board of directors, presented her not-socheery report Wednesday during the board's monthly meeting in the Chamber building.

January and February showed strong sales in the housing market, she said, but attributed it to low interest home mortgage money from a bond program which began in late November 1979.

Money from that program is gone and people are not buying older homes or having new ones built, she

IN MARCH 1979, 193 units were sold for more than \$9 million. This past March only 135 units were sold for about \$6 million. Mrs. Ramey cited figures from April 1979 in which 129 units were sold for about \$6 million. So far this month, only 76 units have been sold for about \$3 milion.

"Local people are not making voluntary moves at this time," she noted. "People moving in here that are able to buy a home are doing it with their company subsidizing part of the interest rate.

The maximum interest rate of about 16.5 percent for a home loan is

causing other problems for home-

About 11/2 years ago, if someone wanted to buy a \$50,000 house, the monthly payment was about \$519. Now, that payment is \$773.58, she said. That higher payment means it takes more income to qualify for the

For example, 11/2 years ago, a family wanting a \$50,000 home would have to make \$25,000 a year. Now, for that same price, the family must have \$37,131-a year.

'People are having to reduce their standard of living 30 percent to qualify for home mortgages," Mrs. Ramey People who have sold their homes in

other cities to move here are holding back on buying a house. The Realtor

months to reinvest their money before the government will begin taxing it. Subsequently, these people are hoping interest rates will drop by the time they must reinvest.

And Midland County Commissioner's work on a low interest home mortgage program - similar to the one undertaken by the city in 1979 has stopped some people from buying a house in the hopes they can get this bond money

However, relief may be in sight, she pointed out. Major banks in the country have started dropping the prime interest rate and FHA announced it is dropping its interest rate from 14 percent to 13 percent with three points

She later commented that she ex-

pects the interest rate to level out by the end of the year and the housing industry to see an upswing. However, "I don't think we'll ever get below a double digit interest rate. We will always have 10 percent or more."

Ray Moudy, president of Citizen Savings and Loan Association and the Midland Chamber, added that legislation recently passed by Congress authorizes variable rate mortgages and re-negotiable mortgages and should boost the housing market.

One homebuilder, Bill Hickey, pointed out that Mrs. Ramey's sales figures were for existing homes and that the new home industry "looks even bleaker. They're (figures) still way down for new homes.

That drop in real estate hurts Midland economically, Moudy said. "We can't get the people to come here and stay with the high cost of housing."

THE LACK OF housing here will choke us to death if we don't do something," noted Decker Dawson.

Bankers are looking at ways to relieve the situation, said Bill Malone of Commercial Bank & Trust Company. "We're working on a program for new homes that are \$67,500 and below to try and keep the housing industry going here.'

Moudy added that two housing factories are looking at locating in Midland. "They are similar to one in Lubbock. They're (the houses) small, but adequate housing."

These houses are constructed inside (See MIDLAND'S, Page 2A)

Iran moving petrodollars as embargo date nears

Iran is moving its petrodollars out of banks in Common Market countries and Japan as the threat of an export embargo by America's allies on May 17 drives the Tehran regime closer to the Soviet Bloc. Meanwhile, more fighting was reported on Iran's campuses and in Kurdistan.

Alireza Nobari, governor of Iran's central bank, said his government began reducing its deposits with banks in Common Market countries when President Carter froze \$8 billion in Iranian government assets in the United States following the seizure of the American hostages in Tehran Nov. 4.

He said the shift to of funds to "other countries, including some East-Bloc countries," accelerated after the Common Market countries agreed on Tuesday that their nine governments would end exports to Iran May 17 unless there was "decisive progress" toward freeing the 53 captives.

The Japanese financial newspaper Nihon Keizai reported that the Iranian central bank also was withdrawing funds from commercial banks in Japan and transferring them to financial institutions in neutral Austria. neutral Switzerland and other coun-

Iranian oil exports of 530,000 barrels daily have been suspended to Japan because Japanese importers refused to meet Iran's price increase from \$32.50 to \$35 per barrel. Japan

decided today to reduce the staff of its embassy in Tehran and advise Japanese firms to curb exports to Iran in line with the Common Market foreign ministers' decision.

Canada announced a limited business ban with Iran Wednesday, following a visit to Ottawa by Secretary of State Cyrus Vance. External Affairs Minister Mark MacGuigan said the Canadian government would consider more economic sanctions if "diplomatic approaches to be made shortly by Canada and other countries to Iran regarding the hostage situation do not yield satisfactory results by May 17.

However, the secretary of Iran's ruling Revolutionary Council, Ayatollah Mohammad Beheshti, told reporters in Tehran, "We need more time." He also was quoted as saying, "The socialist and developing countries are ready to support Iran, and the negotiations of a Soviet trade and economic delegation which were held in Tehran is one of the examples of

Iranian Economic Affairs Minister Reza Salimi announced Tuesday that Russia has agreed to let Iran use its roads if the United States blockades its southern water route. Pars said Iran increased oil sales to Soviet-bloc member Romania from 60,000 to 100,-000 barrels daily under an agreement signed Sunday, and that an agree-ment was signed with East Germany Wednesday on developing cooperation in industrial, agricultural, energy and trade matters.

Informed sources say Colombian hostages may be freed Tuesday BOGOTA, Colombia (AP) - The 16

diplomats held hostage in the Dominican Republic's embassy for two months may be freed by Tuesday. their 63rd day in captivity, say informed sources who report agreement is near between the guerrillas and the Colombian government.

The last major hurdle to the release of the hostages was cleared Wednesday when the guerrillas dropped their demand that at least seven leaders of their organization, Movement 19, be freed from Colombian jails, the sources said

There is still no agreement on just how the seven and about 300 other alleged guerrillas will be tried by the government, the informants added.

But they said two members of the Inter-American Human Rights Commission who visited the embassy Tuesday promised representatives of their group would attend the trials.

"The intervention by the Inter-American Human Rights Commission has been fundamental in pushing the negotiations forward," said one high-ranking government official.

President Julio Cesar Turbay's office in a statement issued after Wednesday's negotiations between the government and the guerrilla representative said "several points were cleared up" but did not elaborate. There was no comment from the guerrillas.

Three Republicans seek justice of peace post

EDITOR'S NOTE: This is the last of a two-part series on the candidates for justice of the peace place 1 in the May 3 primary.

By DAVID CAMPBELL Staff Writer

The three Republican hopefuls in the May 3 primary for justice of the peace place 1, currently held by John Biggs, stated several different reasons why they decided to run for

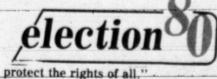

However, Charlie Sprayberry, Al Sisk and Luis Salinas agreed the age and health of the incumbent and the need for a younger person in that position were primary reasons for throwing their hats into the political

After consulting with and receiving encouragement from several friends, Sprayberry said the present justice of the peace has lost the personal aspect of the court.

"In Midland County, both justices of the peace have been there a long time. (Because of that) the position has become routine and mundane,"

he charged "It's hard to get a fair and impartial hearing when the interest in the individual has been taken away," Sprayberry said.

Sisk said his concern for the rights of the Texas citizen caused him to get involved. "The rights of the criminal are being protected," he stated. "However, the law is designed to

Salinas said he always wanted the post noting he ran against Peace Justice Robert Pine four years ago. Since 90 percent of the justice of the peace's work deals with law enforcement, his 24-year experience with the Midland and Raymondville police departments should give him an insight to the process, he said.

But, this experience would not lend bias in providing a fair and impartial hearing to all, he stated.

"I believe in fair, firm and equal justice," Salinas said. "Just because have worked for the police for 24 years does not mean I will favor the

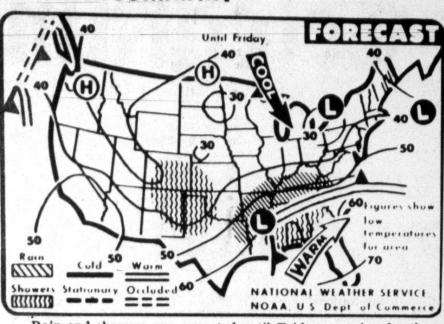

"I have an interest in the community and (must) answer to the citizens of the community," he continued. "I just can't throw it away and go strictwith law enforcement.

The most important duty of the justice of the peace, according to Sprayberry, is to hold an impartial court within the guidelines of the law. "One can not over- or under-sentence anyone," he said. "You have to look at both sides and render a fair judgment," he added.

Being available is considered the most important task by both Sa-

Exiles defy State Department

KEY WEST, Fla. (AP) - Another 560 Cubans poured ashore as countrymen already in the United States hired an armada to bring relatives to freedom in defiance of State Department warnings that the boatlift may lead to jail terms and stiff fines.

"They ain't got enough men to stop us," declared one exile.

There were also warnings that some small craft are not seaworthy for the 180-mile roundtrip across the choppy Florida Straits and that profiteering was rampant as demand for boats pushed rental prices into the thousands of dollars.

Ferried by a flotilla of hundreds of vessels, more than 630 Cubans have reached South Florida in the last three days.

The Coast Guard was warning boatlift operators they face arrest and heavy fines for bringing illegal aliens into the country. But there were no reports of arrests by late Wednesday, and Coast Guard officials had no immediate plans to stop exile boats

"The phone has been ringing every 30 seconds," said spokesman David Hatton at the Coast Guard station here. "Everybody's asking if they can go to Cuba.

The State Department in Washington also warned that boat owners were subject to prosecution. The Immigration and Naturalization Service said it would "act to stop boat owners from bringing Cubans and other aliens" into the country.

The immigration service said boat owners must pay \$1,000 for every refugee without a visa, and those owners who are caught evading the reporting requirement would be penalized.

"I want to see them arrest me for going to get my parents," said Jose Perez, as he readied his boat for the

12-hour voyage. As many as 500 boats, some smaller than 20 feet, were heading for Cuba or returning to Key West early today,

exile leaders said. Vessels were putting to sea from Key West Marina every five minutes Wednesday as bidding for charter boats reached as high as \$10,000. Some 495 refugees docked here Wednesday aboard six boats. A boat also supped into harbor at Miami with

65 refugees aboard.

The refugees were bused from Key West to a community center in Miami's Little Havana district, where they were processed by INS agents and greeted by a crowd of exiles, hoping to find relatives.

Silvia Camarazo, who was not expecting relatives, said, "They are all my brothers, poor things. Welcome!

The boatlift began last weekend with Cuba's consent after the Cuban government suspended refugee flights to Costa Rica.

The State Department has warned the boatlift was undermining international efforts to evacuate the thousands of Cubans who sought refuge at the Peruvian Embassy in Havana.

In Washington, State Department spokesman Thomas Reston said the unofficial evacuations "play into the hands of Cuban authorities" because the boatlift was a "Cuban solution rather than the solution of the international community.

Reston also said the government, which has agreed to accept 3,500 Cubans, deplores "those who wish to profit from the plight of the refu-

gees.' He said Cuban boat refugees would be granted conditional entry, and those who pass immigration screening will be allowed to stay.

DEATHS

Bud Blair

COLEMAN - Services for Bud Blair, 71, of Coleman, father of Betty Rains and Howard O. Blair, both of Midland, were to be at 2 p.m. today in the Walker Funeral Home chapel with burial in Leaday Cemetery.

Blair died Wednesday in Midland. He was born May 29, 1908, in Texas and had been a resident of Coleman since 1912. He was a retired foreman of the Martin Brick Plant of Coleman and a member of the Central Baptist Church of Coleman.

Other survivors include a sister, three brothers and five grandchil-

Nostalgia big air show draw

By ED TODD Staff Writer

ODESSA - Classic, antique, aerobatic and warring aircraft of World War II vintage will be flying, rumbling, streaking, rolling and looping over Odessa's skies Saturday and Sunday in the fourth annual Roy Schlemeyer Memorial Air Show at Schlemeyer Field.

"It's going to be, obviously, a bigger show (than previously) because we've got more events and more participation by the Confederate Air Force," said Bill Wicks, air show coordinator who's a CAF colonel and an aerobatic pilot.

The two-day aerial event is being jointly sponsored the Experimental Aircraft Association's Chapter 123 and the Midland-Odessa-based Desert Squadron of the CAF's West Texas

Attraction to the show, which is expected to draw 10,000 to 15,000 paying spectators, largely is based on the thrill of watching precision fliers put agile aerobatic aircraft through 'spectacular' maneuvers and the nostalgic sight and rumbling sound of piston-powered radial and in-line-engine airplanes from the 1939-45 era.

"I THINK PEOPLE are going into the nostalgia of World War II airplanes," Wicks said of the apparently increasing appeal of old warbirds. 'We have the most active of any CAF wing (in the country.)"

The CAF is dedicated to the preservations and respect of the relatively few remaining flyable World War II aircraft from both sides - the Allies and the Axis Powers.

To date, 28 World War II and earlier warbirds and approximately 15 aerobatic airplanes will be taking to the air this weekend. And a sky-diving team, directed by masterchutist Jim Fowler of Crane, will be jumping and flying through the air on their air-foil

FLY-OVERS BY CAF and EAA aircraft from 8 to 8:30 a.m. Saturday and Sunday will signal beginning of the weekend airshow. Aerobatic competition will get under way late on Saturday and Sunday mornings, and other flying activities will take place both afternoons.

Aircraft to be flying in the show and their pilots include:

EAA Aerobatics Aircraft -Gene Beggs of Odessa, flying his Pitts Special biplane. Beggs is the U.S. Advance Aerobactics Cham-

-Dane Jones of Odessa, flying the

Khomeini claims to lead holy war Says he wants to rid Iran of foreign domination

EDITOR'S NOTE: Alexander G. Higgins was an Associated Press correspondent in Tehran, Iran, until Ayatollah Ruhollah Khomeini's revolutionary regime expelled American correspondents in January and closed the AP bureau. Higgins is now stationed in Cyprus.

By ALEXANDER G. HIGGINS

NICOSIA, Cyprus (AP) - Ayatollah Ruhollah Khomeini says he is leading a holy war to free Iran of foreign domination. But Iran's ethnic minorities and leftist students are fighting to free themselves from his

According to the official Iranian media, more than 400 persons have been killed in clashes between government troops and Kurdish rebels in northwest Iran in the past week. Turkey's largest independent newspaper, Hurriyet, reported Iranian troops killed at least 500 Kurds in other

recent fighting.
Along with border skirmishes and a war of words between Iran's Persian rulers and Arab Iraq, Tehran Radio reported seven killed and 51 injured in two bomb explosions in Abadan. Iran's oil capital in Khuzestan Province, on the Iraqi border. The ethnic Arabs of Khuzestan, the province's biggest population group and the work force for the oil industry, have been accused of blowing up pipelines and other oil installations repeated-

The Turkish-speaking Azerbaijanis in northwest Iran and the Baluchis in the southeast, who fought government forces during the winter, have been quiet. But the governor of Mazandaran Province, below the Ca-spian Sea, indicated he expected trouble from "armed groups claiming to be supporters of the Turkoman people," an ethnic group of about

Trouble on the campuses is the

latest addition to the Khomeini regime's domestic woes. The government admits to 24 killed and hundreds injured in clashes since last Friday at universities in Tehran, Rasht, Ahvaz, Zahedan and other cities. The fighting between Islamic fundamentalists and leftist students, with the revolutionary guards backing up the fundamentalists, was touched off by a ban from the ruling Revolutionary Council on campus political groups. It is the first step in an Islamic purge of the universities.

Khomeini and President Abolhassan Bani-Sadr accuse the United States, the Iraqi government, other "foreign influences" and former agents of SAVAK, the shah's notorious secret police, of stirring up the minorities. Observers speculate that the revolutionary leaders are trying to unify the nation by arousing it against a common enemy.

Iran has always been difficult to govern because of the mountainous

terrain, nomadic tribes, different ethnje groups and lack of a common language. There are 11 linguistic groupings, ranging from the Persians, about 50 per cent of the 36 million people, to the Armenians and Assyrians, less than 1 percent each.

There are between 2 million and 4 million Kurds in northwest Iran. Part of them want to unite with the Kurds in Iraq, Turkey and the Soviet Union in a free Kurdistan. Others are fighting for local autonomy, or home

There are about 750,000 Arabs in Khuzestan, along the Iraqi border and the Persian Gulf. Some of them want to secede from Iran, taking the oil fields with them, and the government accuses Iraq of stirring them up. Iraq calls the province Arabistan.

The Turkish-speaking Azerbaijanis in the northwest total 7.4 million and are the second largest ethnic group, after the Persians.

Doctors' opinions differ on role in drug execution

By DANIEL Q. HANEY

BOSTON (AP) - Doctors swear to heal the sick. But should they kill the condemned?

Three months ago, two Harvard professors argued that if physicians help with executions by drug injection, they will be taking part in "a corruption and exploitation of the healing profession's role in society." Now it appears that the nation's doctors — at least the ones who feel strongly enough to write letters — are evenly split on the question.

In today's issue, the New England Journal of Medicine publishes a sampling of the reaction it received to the controversial stand taken by the two experts in its Jan. 24 edition.

William J. Curran, a lawyer who is head of the medical ethics program at Harvard Medical School, and Ward Casscells, an internist on the school's faculty, argued then that physicians will violate their Hippocratic Oath if they oversee the lethal drug injections, which is America's newest form of capital punishment.

Virginia Bates, the journal's letters editor, said the article prompted 40 letters, an unusually large number, and they were evenly divided between doctors who agree and those who say participation in executions should be an individual decision.

Not everyone took sides. Dr. Pamela Hemphill of San Francisco, for instance, argued that the Harvard men muddied the capital punishment issue by acting possessive about the means of death.

The electric chair and the gas chamber have been used for years, and I have not heard electricians' unions or plumbers' unions decrying the use of their tools," she declared.

DEATHS

Mark Watkins

BROWNFIELD - Services for M.R. "Mark" Watkins, 90, of Brownfield, father of Ira Lee Watkins and Howell Allen Watkins, both of Midland, were to be at 2 p.m. today in First United Methodist Church in Meadow with the Rev. James Hamilton, pastor, officiating.

Burial was to be in Meadow Cemetery directed by Brownfield Funeral

He died Tuesday in a Brownfield hospital following a lengthy illness.

He was born in Sunset and moved to Hardeman County with his parents in 1906. He was married to Jessie Jones Jan. 22, 1911, in Hardeman County. They moved to Terry County in 1925, where they farmed in the Pool, Needmore and Meadow communities. They retired and moved to Brownfield in 1974. He was a member of the First United Methodist Church in

Other survivors include his wife, a son, a daughter, two brothers, a sister, nine grandchildren and 14 great-grandchildren

Betty Dennis

Betty Dennis, 34, 1911 E. Pecan Ave., died early Wednesday in a Midland hospital of an apparent heart

Services will be at 11 a.m. Saturday in Northside Church of Christ with Larry Van Steenberg of Golf Course Road Church of Christ officiating. Burial will be in Fairview Cemetery directed by Newnie W. Ellis Funeral

Miss Dennis was born Nov. 20, 1945, in Spur. She moved to Midland as an infant and lived here most of her life. She was a graduate of the school for the deaf in Austin and worked in Dallas for six years before returning in 1975 to Midland. Miss Dennis was a member of Golf Course Road Church of Christ.

Survivors include her mother, Biddie Linthecome of Midland; four brothers, J.V. Roberts and Curtis Roberts, both of Houston, and Charles Roberts and Richard Roberts, both of Midland; and three sisters, Nell Ruth Hopes of Houston, Peggy Dennis of Dallas and Ruthel Roberts of Austin.

Mrs. S.A. Yates

Services for Mrs. Sidney A. (Doris) Yates, 58, 4415 Roosevelt Ave., will be at 1 p.m. Friday in Alamo Heights Baptist Church with the Rev. Milo Arbuckle, pastor, officiating. Burial will be in Trinity Memorial Park in Big Spring directed by Newnie W. Ellis Funeral Home.

She died Sunday in a Metarie, La., hospital after suffering a heart attack

Pallbearers will be Loie Badgett, Dwayne Thompson, Royce Boyce, Marvin Hall, Craig Graves and Todd

Melvin Chandler

STEPHENVILLE - Services for Melvin M. Chandler, 72, of Stephenville, father of Johnnie Montgomery of Midland, will be at 3 p.m. Friday in Stephenville Funeral Home chapel with burial at Clariet Cemetery in Erath County.

Chandler died Wednesday in a Stephenville hospital after a lengthy ill-

He was born Feb. 25, 1908, in McCulloch County. He married Pauline Williams July 1, 1935, in Iraan. He was in the ranching business in the Trans-Pecos area until 1962 when he moved to Erath County where he had lived the past 12 years.

Other survivors include his wife, a daughter, two sons, two sisters and six grandchildren.

Noble T. Wood

"LAMESA - Services for Noble T. Wood, 61, of Lamesa will be at 3 p.m. Friday in Bryan Street Baptist Church with the Rev. Jack Bloxom, pastor, officiating.

Burial will be in Lamesa Memorial Park directed by Branon Funeral

He died Wednesday in a Big Spring

hospital after an illness. Wood was a Kaufman native and a U.S. Army World War II veteran. He had lived in Lamesa 48 years where he was an oil company employee. He was married to Peggy Bolton July 12,

Survivors include his wife; three daughters, Charlotte Clark of Lamesa, Jan Forbus of Odessa and Sherry Westbrook of Liberty, Miss.; a brother, Henry Wood of Lamesa; and seven grandchildren.

John Dooley

UVALDE - Memorial services for John G. Dooley, 69, well-known area rancher, were Sunday in St. Philip's Episcopal Church here with the Rev. Nick Mayer officiating.

Dooley is the father of Mrs. John (Dorothy) Brenneman and grandfather of John Dooley Brenneman, both of Garden City.

He died April 16 in a San Antonio hospital. At his request his body was given to The University of Texas at San Antonio Health Science Center.

Active in various civic and agricultural organizations, Dooley was a longtime member and director of the Texas Sheep & Goat Raisers Association, director of Medina Electric Cooperative, member of the Bishop's committee of the Church of the Ascension at Montell, former director of the Uvalde Chamber of Commerce and early supporter of the Texas A&M Research & Extension Center at **Uvalde**

He was named to the Uvalde Independent School District Board of Trustees in 1949, and he served as a member for 10 years and as board president from 1957 to 1959. Dooley was named 1963 Man of the Year in Agriculture by the Uvalde Chamber of Commerce, cited particularly for his work in the screwworm eradication program.

Other survivors include his wife. two daughters and three grandchil-

Auto sales drop

DETROIT (AP) — The spring car-selling season is in shambles, with sales of domestic makes slumping to the recession pace of 1975.

Reports from the five U.S. producers Wednesday showed mid-April deliveries of only 147,371 cars against 244,379 in the same period last year. That was a decline of 32 percent, taking into

account the extra selling day in mid-April 1979 - the steepest drop since the industry's slump began The daily sales rate, 18,421, was the worst since the

1975 recession. The 1975 figure was 18,336, including a few hundred vans no longer counted as cars.

Burglars damage car steal stereo equipment

Approximately \$1,490 in damage and stolen equipment were reported to police Wednesday

Bryan Boyd told officers he parked his car in the Lee High School parking lot, 3500 Neely Ave., around noon. The car was locked.

When Boyd returned to his vehicle around 3 p.m., he found a cassette stereo, equalizer-amplifier, 23channel CB radio, Fuzz Buster II, tape case and assorted tapes missing, he told officers.

Officers were unsure how entry into the vehicle was gained, but said a crowbar in the car was used to pry the equipment from the dash and console, causing considerable damage.

Odessa girl electrocuted

ODESSA - A 17-year-old Odessa girl was electrocuted at her home here Wednesday afternoon while washing one of the family's vehicles, reported Odes-Dead is Wendy Rene Berggren, 2903 Windsor St.

According to police, Miss Berggren was washing a jeep in the driveway of her home. Also in the driveway was a motor home that was connected by wires to the house's electrical system. Apparently, Miss Berggren, who was barefoot,

stepped on the wires or touched the motor home and was electrocuted. Judge Manuel Valles ruled the death accidental.

Methodists to begin hiring quotas

Predominately white church hopes to wipe out racism

INDIANAPOLIS (AP) - The predominantly white United Methodist Church, declaring "we have sinned against our sisters and brothers of other races," is introducing hiring quotas for its clergy and lay ministries as part of a drive to wipe out racism in America.

Saying the nation's second largest Protestant denomination has shared in the "racist system in the United States," the church governing conference approved the quota system Wednesday as part of an eight-point

The 9.6 million member church is one of the first denominations to follow the example of the National Council of Churches in adopting measures to assure minority representation.

The drive is aimed at wiping out discrimination against American Indians, blacks, Asians, Hispanics and Pacific islanders.

The church governing conference ruled that hiring of non-whites must be done, in proportion to their representation in society, at all levels of clerical and lay work "until...our voluntary performance makes that practice unnecessary.

It also called for national and local church programs to "increase the appreciation of other heritages" among its members and to work for equality in housing, education and medical care for non-whites.

The United Methodist Church, second in size to the 13 million member Southern Baptist Convention, is 95 percent white.

Its quadrennial conference also approved a new confession. It says: "We have sinned against our sisters and brothers of other races in thought, in

Delegates to the meeting, which ends Friday, declared that while racial discrimination has been officially outlawed in the United States, "social, economic and political institutions still discriminate.

"The racist system in the United States today perpetuates the power and control of those of European ancestry," they said. The church said it has shared in that system, even while believing that

"racism is a rejection of the teaching of Jesus Christ" and that all people are "equally valuable in the sight of God." Coincidentally, a black minister scheduled to speak at a three-day convoca-

tion of a United Methodist Church congregation in Laurel, Del., last weekend said he was asked not to attend after the congregation had learned of his The Rev. Randolph Jones, pastor of the Southside Church Center in Phila-

delphia, said the action "stunned" him. "I know all kinds of racism, but I thought that overt thing was about over." Jones said the pastor of the rural congregation told him he could not participate because some of the church members "would be upset at

having a black in the program." The 125-member congregation comprises three rural Delaware churches. Meanwhile, in Indianapolis, delegates awaited a report today from an eight-member group which traveled to Washington to urge President Carter to exercise "patience and restraint" in the Iran crisis.

Study reveals blacks more likely to be shot

ANN ARBOR, Mich. (AP) - Blacks in the United States are six times more likely to be shot to death than white people, a University of Michigan professor reports.

Reynolds Farley, a demographer with the Population Studies Center and sociology department, says the risk is highest between the ages of 25 and 34 when homicide accounts for more deaths than any other cause.

"Unlike most-causes of death in this country, homicide rates have risen steadily, especially since the mid-1950s," he said. "The increase is evident for both blacks and whites, but it is highest among blacks."

Farley detailed his findings in the May issue of Demography, the journal of the Population Association of America.

"Almost all of the rise in black homicides and much of the rise in white homicides has resulted from gun killings," Farley said. "There is a clear correlation between the increased availability of firearms and the increase in murders.' Analyzing data from the National Center for Health Statistics and other

-In 1954, 8,000 Americans were murdered and 17,000 committed suicide, an average of one death in 60. In 1978, those had increased to 21,000 murders and 27,000 suicides or one death in 40.

-Deaths from homicides rose even as those from all other causes, particularly infectious diseases, were falling. For black males, the mortality rate from all causes except homicide declined from 17 deaths per 1,000 in 1940 to 10 deaths per 1,000 in 1978. The homicide rate was 57 per 100,000 in 1949, declined in the 1950s and climbed to 83 per 100,000 in 1972.

"At present the life span for black men in the United States is about five years shorter than that of white men," Farley said. "The higher homicide rate among blacks accounts for about one-fifth of that difference. Among women, homicide accounts for about one-eighth of the four-year difference in the life span.

'Homicide is now the fourth most common cause of death for black males after heart disease, cancer and cerebrovascular disease. And unlike most causes of death, it is on the increase.

The rising murder rate was attributed to a number of causes, particularly socio-economic and cultural conditions.

Several studies have shown that homicides are impulsive acts and that the majority of them emerge from a minor dispute between spouses,

lovers or friends, Farley said. "As tempers flare, one of the parties seeks a weapon," Farley said. "If this is a book, a brick or a table knife, there may be an injury, but if the choice is a gun, the odds are much higher that it will result in a fatali-

Peaceful demonstration staged at Wrightsville

WRIGHTSVILLE, Ga. (AP) — The first racial demonstration following last Saturday's shooting of a 9-year-old black girl was held peacefully at the Johnson County courthouse, authorities say. Approximately 35 protesters were ringed Wednesday night by nine state troopers. Protesters said they will be back at the courthouse again at noon

Saturday for a major march and rally. About 15 whites quietly watched the protest. The Rev. Ted Clark of the Southern Christian Leadership Conference told the group that the Wrightsville protests represent the "birth of a Georgia movement" in which blacks will elect black

sheriffs and black probate judges in 47 counties that have more than 45 percent black population. They said they will launch an intensive voter registration program and called for a boycott of

downtown businesses in Wrightsville. Meanwhile, Constance Folsom, who was wounded in the face and neck by shotgun pellets fired into her mobile home, will be hospitalized at least another

week, her father, Robert Folsom, said. Two white men have been arrested and charged in that attack.

Johnson County Sheriff Roland Attaway, primary target of black protests, said Wednesday he believes a biracial committee will be formed soon, but he will not serve on it.

"We implore you...not to give in to those who counsel military intervention, nor to take steps which will eventually lead to war," the church representatives told Carter on Wednesday.

The group also delivered to Iran's United Nations Ambassador Monsour Farhana a message voicing sympathy over past foreign domination of the country and urging release of the hostages. It was addressed to Ayatollah Ruhollah Khomeini and President Abolhassan Bani-Sadr.

Church representatives also went on record against a peacetime military draft, saying it could lead to "unauthorized wars."

Delegates quickly voted down a proposal to refer to God as "Creator" instead of "Father" in the preamble to the church's Social Principles. The Rev. Ernest K. Emurian of Arlington, Va., said Jesus called God "Father" and so should Methodists.

Jack Leonard is working every day to improve the roads in Precinct 3. As was stated in an interview, he hopes the County will soon receive a tax rebate from the 5% State sales tax that we now have.

Presently, the Commissoner's Court is striving for a tax rebate similar to the one the City now receives from the sales tax. This 1% sales tax rebate from the State tax would be allocated to the road construction budget.

Let's keep a County Commissioner who is working hard for you.

Why, for instance, should Washington, D.C., have suffered an inflation rate of "only" 12.2 percent in March, lowest in the nation except for New York's 12 percent, and far, far below Seattle's 17.8? How could the U.S. automobile industry, once the most market-smart of any, have failed so badly to

BUSINESS MIRROR

Financial news

today confusing

most everybody

By JOHN CUNNIFF

AP Business Analyst

NEW YORK (AP) - Americans long for the good

old days when they thought they understood what

was going on. But what they get serves mainly to

confuse or make them uncertain, or simply raises

The good old days probably never existed, of course, and you may be sure that 30 years from now

some people will long for the good old days of 1980.

But for those living in it, 1980 is a puzzle.

understand public tastes - so badly that foreign cars now take more than 25 percent of the domestic WHAT CAUSES INFLATION? Too much money

chasing too few goods? Continued government deficits? Corporate greed? Worker greed? Over-regulation of industry? Social Security and pension demands? Spending on matters that are, in the shortterm, "nonproductive," such as pollution control?

What cures it? Recession? Layoffs? Less government spending? Balanced budgets? Higher interest rates? Tax incentives to save? Tax penalties on borrowing and spending? Deregulation of industry? Worker incentives to promote productivity? Redeveloping somehow the spirit of innovation? Will revenue from the so-called windfall profits tax

be filtered back to the consumer? Or will it disappear into the bureaucracy? Anyway, won't the oil companies merely pass it on to consumers in their

HAS AMERICAN INDUSTRIAL society reached an impasse with environmental necessities? Can it continue to grow without fouling its nest? Can Americans continue to demand more from it? Do they know what they want from it? Are they willing

Or, do Americans expect living standards to continue to grow while industry doesn't? Are Americans capable of lowering their living standards - judged solely by material criteria - for a prolonged time? Are they too accustomed to higher standards to accept anything less?

Where is the stock market headed? The dollar? Gold? Commodities? Diamonds? Trading stamps and coupons? Is there certainty anywhere - in economics, politics, sports? Who understands it all,

The forecasters don't. As a presidential economic adviser, Herb Stein spent a year in which he declared every, month that the worst of inflation was behind. It still lay ahead. So why, as an economic columnist, should he be better informed today?

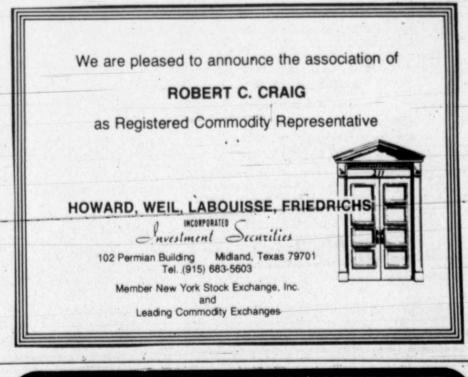

Economists and columnists aren't alone. The forecasts of presidents, stock analysts, commodity con sultants, financial advisers, fakirs, weathergirls, politicians, candidates, pundits, astrologers, con-men are about the same. The future is a guess.

WILL HOUSING PRICES fall? Some Wall Streeters, studying the housing market as if it were made of stocks, have "documented" the coming collapse. At the same time, Realtors and mortgage lenders are saying prices will double, probably by Will interest rates fall? They're falling now, so a

continuation isn't hard to forecast? But, how low will they go and how long will they stay there? And how will you know when it's the right time to borrow?

If you understood these puzzles and know how to

solve them, then you are probably comfortable with these times, as comfortable as another person might be in looking back to the good old days of the 1950s. But you are uncomfortable, which suggests you have no more idea of what's ahead than the rest of people. You have many questions but few answers. You hardly understand, but you have to act as if you

Maddox wildcat flows; GMW Lea explorer opens field

Maddox Energy Corp. of Midland No. 1 Frost National Bank-State, deep wildcat in Pecos County, 24 miles west of Fort Stockton, has reported a flow of gas on a drillstem test in the Devonian.

The zone tested was from 17,350 to 17,458 feet. Tool was open 19 hours and 39 minutes. The project flowed gas at the rate of 2 million cubic feet per day on over an 11-hour and 45-minute period through a one-inch opening. Flow pressures ranged from 1,347 to 2,290 poinds, and eight-hour final shut-in pressure was 7,365

The wildcat is 3.5 miles east of 15,831-foot Devonian-Fusselman gas prdouction in the Hershey field. More hole was being made below

17.500 feet. Locaton is 1,493 feet from north and 1,980 feet from east lines of secton 11, block 50, T-10, T&P survey.

LEA COUNTY

Gifford Mitchell & Wisenbaker of Midland No. 1 White Eagle has been completed as a Pennsylvanian gas discovery in Lea County, N.M., eight miles southwest of Jal.

The new field opener finaled for a calculated absolute open flow potential of 13,423,000 cubic feet of gas per day, through perforations from 12,505

Total depth is 18,577 feet and the plugged back depth is 15,180 feet.

On four-point gauges, each of one-hour duration, the project flowed at the rate of 663,000 cubic feet per day through 4/64-inch choke; flowed 1.23 million cubic feet per day through 6/64 choke; flowed 2.46 million through 10/64 choke, and 5.28 million through 15/64 choke.

The first hour the flowing pressure was 5,745 pounds, the second hour 5,670 pounds, the third hour, 5,504 pounds, and the fourth hour 5,150 pounds

PROVIDENCE, R.I. (AP) - Despite predic-

tions that offshore oil exploration in the ecologi-

cally rich Georges Bank could start late this sum-

mer, drilling apparently won't begin until spring

1981 and may be delayed even further by new

"The initial forecasts of drilling late this sum-

mer were just a little optimistic," said Dante

Ionata, a state official who supervises the Quonset

Point-Davisville area where the offshore oil support

"There are so many permits to be obtained that the industry has ruled out any drilling until at least next spring," Ionata said Wednesday.

The summer 1980 starting date was cited by oil

company executives last December during the sale

of drilling leases for 63 tracts in the Georges Bank, a

major fishing ground 100 miles southeast of Cape

"We're looking at least a year from now before

Still pending before a separate conference committee is Carter's proposal for a synthetic fuels corporation which would help develop alternatives to imported oil.

The energy mobilization board, first proposed by Carter last summer, had been stalled for two months by proposals to waive federal environmental laws that might block conrefineries or other projects that might

In a narrow 9-8 vote, Senate members of the conference panel accepted a House formula for applying the waiver.

Under that provision, the five-member board may propose that the president set aside a federal environmental statute that is blocking or delaying a specific project. If the president agrees, he will seek approval from

Rising crude prices propels Exxon's profits

-No. 14 Standard Oil Co. (Ohio) earned \$450.7 \$2.4 billion three-month million, or \$3.67 a share, up from \$167.5 million, or \$1.39 a share. Sales rose to \$2.51 billion from \$1.65 billion

Exxon credited part of porting first-quarter its earnings gain to a doubling of overseas refining and marketing profits. But increasing oil prices were another contributor.

Rising prices - and higher oil production in Alaska - played a major role in a 169 percent quarterly profit gain at Sohio, while improved exploration and produc-

tion results helped Shell. The overseas price increases are moving U.S. trading profits. Sales crude oil prices higher as
