# Clements says state will sue U.S. because of windfall tax

By GREG THOMPSON **Associated Press Writer** 

SAN ANTONIO (AP) - Gov. Bill Clements says he's "optimistic and confident" Texas will file a ifederal court suit against the windfall profits tax, which he claims will drain \$65 billion out of Texas in the riext 10 years.

Clements, founder of a D'allasbased drilling firm, told a receptive audience of independent oilmen Tuesday that a federal court challe nge of the new tax "is being looked at at this time.'

Such a suit would challenge the Carter-backed law's constitut ionality, he added.

"I am optimistic and confid ent at this time that such a suit will be instituted by the state of Texa s," he said in response to a question from the crowd at the 34th annual m ceting of the Texas Independent Producers and Royalty Owners Association.

TIPRO passed a resolution Tuesday in which members were urged to support court challenges of the ne w tax. Clements said the \$65 billion figure was computed by the Texas Railroad Commission and the state cor nptroller's office.

"This is nothing more than rank, outright discrimination against Texas. I don't like it, and I a ssume you don't either," the governor de-clared to the applause of the crowd. The outspoken Republican gover-nor took repeated verbal jabs at: President Carter and later vowed to reporters, "We are going to fight Mr. Carter every step of the way."

Clements also stumped for the "Texas position" as a solution to the energy crisis and offered to ma il out a list of the Texas congressnien he claims have been voting against the

state's interests

Clements said 34 governors have agreed to support the "Texas position," which calls for the "unfetter-ing" of the nation's oil and gas, coal and nuclear industries and an aggressive research and development program for other alternatives.

The proposal would include conservation in a "secondary role." Clements said he is finding increas-

ing support for the proposal. 'Thirty-four states have signed on to the Texas position. We haven't signed Mr. Carter yet. But I guarantee you he's feeling the pressure. I'm after him," said Clements.

But Clements criticized those oil

and gas companies using new profits to buy into unrelated business interests, thus giving a public relations "black eye that rubs off on Texas." He said the industry must force itself to plow back all but a reason-able profit into finding more energy

sources.

"Otherwise, it should be taxed 100 percent. That's tough. Plow back is distasteful," Clements said, adding that it would solve the energy problems and correct the bag image.

Clements, who had numerous old friends in the crowd, was interrupted numerous times by applause.

At one point, a questioner declared: "I feel we ought to secede from the United States, and you be the presi-dent of Texas. Then we could join OPEC.

"I've heard that suggestion before," responded Clement

Earlier Tuesday, TIPRO members heard from Hazel Rollins, the administrator of the federal agency that enforces most of the Department of Energy's regulations. Ms. Rollins flatly said that there's

too much regulation of the oil and gas industry, and said she supports a gradual move toward decontrol. She criticized Congress for imposing the excessive regulations.

"If we work together, we can out of this," she said.

# Planned plant rapped Its pollution harmful, citizen says

#### By LANA CUNNINGHAM Staff Writer

Charging that emissions from a planned Pittsburgh Plate Glass plant here will be harmful to the citizens, T.O. Wallis threatened Tuesday to take action to stop the industry from coming to Midland.

Presenting his views before the Midland City Council in a regular session in City Hall Council Chambers, the civil engineer who has been a resident of Midland since 1948 charged he hasn't been able to get specific data on the plant's pollutants.

"I am amazed and appalled at the misinformation and the disinformation available to the citizens on the PPG plant," he told the council. What brought his attention to the matter was a public notice published May 19 and 20 in The Midland Reporter-Tele

the city should look for "clean" industries in diversifying its economy.

He then criticized the City Council for its action May 13 in agreeing to install water and sewer service to the plant which will be outside the city limits. Wallis claimed the plant will be getting the city's good well water while the citizens have to drink the "bad" lake water from the Colorado River Municipal Water District.

"We, the citizens, think you done us wrong," he said "The citizens want to know when they are going to get their money back," he said of the city's cost in installing the lines.

To stop the plant, Wallis suggested ecological and environmental societies could be formed to cause a delay by taking the project to the U.S. Supreme Court. "Up north, they (societies) swing a big stick," he said. id suggestion was for the city to withdraw its plans for water service to the plant, for without water it cannot operate.

# Pair here surrenders after three-hour siege

#### By KAY CRITES Staff Writer

What was supposed to be a "very simple" execution of a narcotics search warrant Tuesday night turned into a three-hour seige, as a 28-year-old Midland man and his 32-year-old wife held city police, sheriff's deputies, DPS troopers and a Texas Ranger at bay.

During those three hours, the couple brandished a shotgun and pistol. threatened to shoot, throw hand grenades and secede from Texas and the Union.

Finally, just when police were considering the use of tear gas, the man and his wife surrendered quietly to Officer Joe Carr.

At approximately 5:30 p.m. Tuesday a Midland Police Department narcotics officer and Constable Tom McGinnis went to a residence about a half mile out of the city limits in south Midland County to serve a search warrant for marijuana.

ACCORDING TO Gayle Reeves, head of the city's narcotic division, when the two officers identified themselves and explained the warrant, the man brandished a shotgun and pistol and held them at bay. He finally

forced them to leave the property. The officers withdrew and radioed Reeves, who gathered other city officers, sheriff's deputies and DPS troopers and returned about an hour and a half later "in force." They also had felony warrants issued by Peace Justice John Biggs for the couple's arrest on charges of aggravated assault on a police officer.

"We pulled out of the area until we formulated a plan and got arrest warrants," Reeves said.

When the officers returned, Reeves said the man was yelling revolutionary statements about seceding from Texas and the Union.

"THIS WAS WHEN he was going to secede and set up his own nation on

# Another center gets council's approval

#### By LANA CUNNINGHAM Staff Writer

The concept of a regional shopping center at the intersection of Midkiff Road and FM 868 got a boost Tuesday as the Midland City Council approved a zone change for a third shopping center at that site.

The zone change from single family to retail was made for North Park shopping center on the northeast corner of that intersection. Already in progress are the Midland Park Mall at the southwest corner and Midkiff Plaza on the southeast slot.

Midland Loop 250 Ltd., comprised of Billingsley Enterprises and Hawkeve Inc., requested the zone change. And representatives of a major discount store told the council they are considering locating in that center.

An outside city planning consultant, however, had questioned whether or not Loop 250 and Midkiff Road could handle the increased traffic load. In explaining the need for the additional shopping area, John Shanahan, Mary Lou Henry and Vernon Henry - city planners from Houston — used fig-ures to support their stand the traffic load could be handled.

Henry said there is a need for more shopping facilities in Midland to han-dle the increased population. And North Part would justify the concept of a regional shopping center in that north Midland area.

This center should have about 400,-000 square feet of space with 1,000 to 1,500 persons employed. This would mean a payroll of about \$1.5 million, said Shanahan.

After discussing the proposal among themselves out of reach of the microphones, the council voiced its concern about overbuilding shopping centers, especially in that area. But the panel voted in favor of the change, saying the land could be rezoned if the shopping center idea didn't pan out.

However, representatives of Target - a major discount store - told the council they had a contingent purchase agreement with Midland Loop 250 Ltd. to locate a store in that center.

The store, they said, will be about 80,000 square feet which is slightly smaller than the store in Lubbock. Specific use permits to allow sale of lawn and garden furniture and automotive parts were approved by the council

In conjunction with that shopping center, zoning for an apartment complex to be located directly north of North Park was passed by the coun-cil. To be constructed by Brian Carter, the complex will have about

(See ANOTHER CENTER, Page 2A)

his plot of land," Reeves adderd. According to Reeves, the man would allow one officer at a time to approach, but would not let them come closer than about 10 feet.

"First, he wanted the offic ers to leave their guns and they would in't do it. Then he wanted them to les, ve the search warrant."

Officers did leave the search warrant, and later the arrest warrants. The man read both but said he did not recognize them as legal documents.

While the man was talking the officers, his wife remained in the doorway with a pistol.

Approximately 21/2 hours later, the woman's sister went into the house against police requests, and shortly thereafter the couple surrendered to Midland narcotics officer Joe Carr.

THE MAN APPARENTLY Wanted someone in the house before he surrendered in order to ensure their safety.

The sister lives in a trailer house about 50 feet behind the house where the couple lived.

"We finally called for tear gus and were formulating a plan on the use of whatever force was necessary, and it was at that time with the aid of the sister and Officer Joe Carr that the couple finally decided to come out and stop this situation," Reeves stild.

The couple surrendered around 9: 30 p.m. and Carr "brought them into the Police Department without inci-

Reeves said that before sur rendering the man's main concern was being locked up in the County / Jail.

"He would not surrender h imself to go to County Jail. We finally convinced him he would be incarcerated in the City Jail. This was mainly after he had settled down on this revolu-

Texas Air Control Board outlined the emissions and requested comments from the public. He based his arguments for halting the plant on the

amount of pollutants the plant reportedly will produce, including fluorides, particulates, sulfur dioxide and nitric oxide. Controlling those emissions by bag filters, as planned by PPG, isn't possible, charged Wallis.

In searching through TACB's files on the plant's appli-cation, Wallis said he discovered there was some infor-mation that had been marked confidential and he was upset he had been denied access.

Another document Wallis cited was a report written by a TACB Beaumont employee, Victor Fair, which pointed out that emissions from the furnace area major pollutant problem. Because of a refractory-type process that will be used, said Wallis, fiberglass will be produced while emitting sulfur dioxide and nitric oxide.

One of Wallis's last pieces of evidence was a booklet from the Lung Association "on what pollutants can do to us. It curls my hair to read it."

West Texas has enough natural pollutants in the form of sandstorms, harsh sunlight and allergens that building the PPG plant "would be adding insult to injury," he charged

The plant isn't needed in this city, the longtime resident claimed. There aren't enough unemployed people here to handle the number of jobs the industry would create and A third method, said Wallis, is for citizens to write to the

TACB, listing their objections to the plant. Although the City Council took no action on Wallis's proposals, Mayor G. Thane Akins said the plant will be using natural gas, "which is the cleanest fuel possible. Propane will be a backup fuel, which is also clean.

Akins said the pollutant figures cited by Wallis were based on fuel oil, not the clean fuels which would result in smaller figures. But Wallis said this morning that his figures were taken on the basis of natural gas.

Noting Wallis's statement that he didn't have all the information, Councilman Carroll Thomas advised the speaker to get more facts from city officials.

"Some assumptions you have are logical based on the facts you have at hand," said Thomas. "What concerns me is that you've drawn some serious conclusions to strongly oppose this project. I ask you not to make that definite a conclusion until you have more information.

John T. Haagensen, with the TACB in Odessa, agreed that sulfur dioxide can't be completely controlled. But he said that by the time it comes out of the stack, it has been mixed with air. TACB checks the stacks for the amounts of sulfur dioxide being emitted.

In addition to sulfur dioxide, emissions from the plant (See CITIZEN CHARGES, Page 2A)

# Carter draws nearer needed delegate count

#### By the Associated Press

President Carter is one week - and eight primary elections - from the delegate majority that will deliver him the Democratic nomination and set up a three-way autumn campaign for the presidency.

The president needs but 86 more votes, or about 12 percent of the 696

Carter can't miss winning enough delegates to put him in line for the competition with Republican Ronald Reagan and independent John B. An-derson for the White House in the fall

Carter defeated Sen. Edward M. Kennedy Tuesday in three more pri-maries, gained 66 delegates, and The Associated Press count of delegate commitments now shows him with

1,580 of the 1,666 votes that will mean renomination. Kennedy has 849. The Carter victories were in Kentucky, Arkansas and Nevada. He also won a preferential vote in Idaho, but that was for show, not delegates.

White House Press Secretary Jody Powell said the Carter campaign figures the president is only "a handful of delegates, four or five" from nominating strength.

Once Carter gets his majority, only an unlikely upheaval in which Demo-

cratic rules are revised to release delegates from their commitments will stand between him and a second run for the White House.

But Kennedy, campaigning in Charleston, W.Va., was conceding nothing to Carter.

He said the real test would come in the big primaries next Tuesday. "I'm convinced that June 3 can be decisive. and I'm also convinced that a power-ful and strong showing on June 3 by a candidate can't be denied at the Democratic convention," he said.

# School board doesn't renew teacher's contract

#### By DAVID CAMPBELL Staff Writer

School trustees reaffirmed a prior decision not to renew former Midland High School instructor Calvin Baker's teaching contract following an executive session during Tuesday's school board meeting.

The former journalism and English instructor initiated the appeal to persuade trustees to change a prior judgment which caused him to lose his teaching job with the school dis-trict. Tuesday's board action may result in a series of lawsuits filed against MISD by Baker.

After a two-hour closed door session, school trustees voted 6-0, with Trustee Joyce Sherrod absent, to uphold their previous decision not to renew Baker's teaching contract. The previous board decision was based on a recommedation by Jack G. Stone, Midland High School principal, regarding Baker's performance in the classroom.

ACCORDING TO BAKER'S attorney, Michael McLeaish of Odessa, the reason behind the district's action relates to Baker's refusal to censor Midland High School's student news-paper, The Bulldog.

Testimony of three Midland High School educators was presented in the hearing, according to Charles Tighe, attorney for MISD.

About midway through the hearing, Baker, McLeaish and Pegg Tracey, a Texas State Teachers Association representative, left because "we were denied some statements that they (the school district trustees) were using against us," McLeaish said. "They didn't allow us to see some

statements (which) were reportedly taken that reflected against my cli-ent's interest," he claimed.

However, according to Tighe, the statements or documents McLeaish referred to were not relevant to the case, and the three had an opportuni-ty to view the guestionable material

# Council approves traffic signals for several Midland intersections

Midland motorists will have to make more stops on city streets after the City Council on Tuesday decided to move ahead with signalizing several intersections.

Fred Baker, director of public works, said traffic counts indicated lights were needed at these spots and money will come from the 1979 street bond issue.

Intersections to get the new lights are Big Spring Street and Ohio Avenue, Front Street and K Avenue, Big Spring Street and Neely Avenue, Front Street and G Avenue, Wall Street and Big Spring Street (add left turn signal), Midkiff Road and Mid-land Park Mall entry, Midkiff Road and Haynes Avenue, Neely Avenue and Midland Drive, A Street and Neely Avenue, and Wadley Avenue and Midland Drive and Midland Drive.

The council, taking almost 12 hours to meander through the 52-item agenda, also gave the traffic department the go-ahead to synchronize the downt own lights which would provide for be tter traffic flow.

In looking over the annual traffic accident report, Baker pointed out that the two intersections with the highes it number of accidents — Big Spring: Street and Wadley Avenue and A Street at Wall Street — have since seen the installation of traffic sig-

nals. The third highest incident of acci-dents occurred at the intersection of Florida Avenue and Big Spring Street, Baker said. The council decided to talk with the owners of Matlock Furniture, which is located near that inters ection, about getting parking off

**Big Spring Street.** If that is done, Baker said, a continuous left turn lane can be put in and lights could be adjusted. This, he feels, would reduce the number of accid ents at that site.

Balter noted that of 26 pedestrian accid ents last year, 18 of them oc-curred at mid-block "which shows the hazards of jaywalking." Of nine accidents in which school-age children were hit, four occurred during school hours in a school zone and the students were hit by other students.

The council approved an ordinance on second reading to raise water and sewer rates. This increase goes into effect in June.

The panel - which lacked members Doris Howbert and Tom Sloan - also suspended the 17.7 percent rate in-creased proposed by Texas Electric Service Co. for 120 days. This will give Midland and other cities time to study the proposal and recommend their own increase.

In other action, the city sold \$750,-000 in airport revenue bonds to First National Bank at an interest rate of 6¼ percent. The bond salesman said Midland Regional Airport is one of the highest ranking airports in Texas and is on a par with Dallas-Fort Worth when it comes to a bond rat-

The city accepted an \$8,000 contribution from Levi Strauss to be used for MidTran buildings and furniture. MidTran also was told to proceed with a study on accessibility of handi-

capped persons to city buildings. Director Joyce Fisher said the study is necessary if the city is to receive funds for more buses.

More funds were appropriated to purchase rights of way for Loop 250 after the council was told they are almost at the end of the road. Fewer than 10 parcels remain to be purchased.

The council adopted rules for a Crime Prevention Commission, delayed approving a company to supply power for the new wells at Paul Davis Field, approved the city electrical code and passed an ordinance rezoning land at Midland Regional Airport and the adjoining Industrial Park.

Commendations were given to John Inman for his work on the Hogan Park Golf Course and to John Ingram for his time and effort to get MidTran going.

# Baker's contract not renewed

#### (Continued from Page 1A)

Instead, they chose to walk out of the hearing, he said.

THE ODESSA ATTORNEY, who became Baker's lawyer by way of the American Civil Liberties Union (ACLU), said future lawsuits against MISD are being planned after an appeal to the Texas Education Agen-CV.

"When that (the appeal to the TEA) is over, then we are entitled to sue in a court of appropiate jusrisdiction and we plan to do that," he added.

Last year, Baker's teaching assign-

to Einglish after his teaching perfor-marice was judged "weak" by Stone, Assi stant Principal Patricia Smith and Sarah Macina, chairman of MHS Eng lish Department. At that time, Stone said Baker -

who had been teaching for 17 years needed to improve his teaching skills and assigned him to English, which dem anded more classroom teaching hours than did journalism.

Leist August, Stone said Baker's teac hing contact was "not in jeopardy this year.' Baiker at that point viewed his

reas signment as a move to censor the stud ent newspaper and said he couldn't do that. "I don't have the (con stitutional) power to censor the

kids. I can advise and suggest. That's supposed to be the American way."

Stone, however, said he was "concerned about the academic" program at the high school and Baker's effectiveness as a teacher, not censorship.

In an earlier action, First National City Bank of Houston, E.F. Hutton and Weeden and Company, Inc. pre-sented the lowest bid - 5.43 percent of nine competitors to purchase the \$3 million repair and renovation bonds which were approved by Midland voters April 5.

Most of the bids were in the 5.43 -5.60 percent range. This rate could mean a lower bond indebtedness tax rate for Midland taxpayers, trustees

About one inch of rain fell in Rankin Tuesday and Big Spring reported receiving a trace of rainfall.

Thursday should see partly cloudy skies with a 20 percent chance of the wet stuff falling in the Midland area. Southeasterly winds tonight are expected to be 10 - 15 mph.

Tuesday's high of 91 degrees did not beat the record of 101 set in 1945. The record low of 40 degrees set in 1973 will remain in the record books since this morning's low temperature was 60 degrees.

The weatherman recorded .04 inch of rainfall in the past 24 hours which brings the monthly total to 1.79 inches and the yearly total to 3.43 inches.

and stay open until 2 a.m., Gideon said he was worried the trouble may crop up again.

Because of the proximity of the bowling lanes to residences, the council decided to deny the permit with Mayor G. Thane Akins saying he felt there are enough non-drinking bowlers who would utilize the new place to keep it in business.

And if a new bowling lane isn't up someone's alley, he can try the new soccer field complex the city will build in Hogan Park west of Cubs Stadium

**Representatives of the Midland** Soccer Association said they had collected \$25,000 to pay for the new fields if the city would give them permission. This location will handle six or seven fields and take care of all the vounger-age teams.

Plans and specifications for a north side neighborhood park on the south side of Wadley near A Street were approved for the second time. The first bids received on the plans were

Miller denies advice inconsistent

WASHINGTON (AP) - Treasury Secretary G. William Miller denied today that the government was being inconsistent in its advice to consumers on the use of credit.

The Carter administration imposed credit controls March 14 to discourage both consumers and businesses from borrowing. Within recent days, however, some administration officials have been urging consumers to go out and borrow and spend at will. The March program, Miller said, showed the government's "desire to tighten up on targeted areas of excess use of credit."

He said excessive consumer borrowing and speculation in the commodity markets earlier this year was creating a "bubble" that the govern-

include fluo rides, will include fluorides, particulates, nitrogen oxides and carbon monoxide. But Haagensen expressed his doubts about those pol-lutants being deposited on Midland. The plant is located southwest of the city. Midland's prevailing winds are southeasterly, he said, which means these pollutants would be car-ried in a porthwestern fashion away

#### from the city.

The process of printing notices for the public is a result of the state legislature and was started in October 1979, said Haagensen. "This is so someone doesn't wake up some morning and find a plant next door to them."

Comments submitted by the public are considered seriously by the TACB in deciding whether to issue the con-struction permit, he added.

omyh. "What we always wanted was to nip that in the bud and continue the normal spending of consumers," Miller said in a CBS News interview. Now, he said, "everyone can return to normal" buying.

Consumer and business borrowing dropped sharply after the credit controls were imposed by the Federal Reserve Board. The central bank last week began relaxing the restrictions, apparently in an effort to soften effects of the recession.

Miller admitted that the rapid drop in consumer spending and borrowing had created some problems for the economy

"I think it has contributed to a sharper contraction than we had expected," he said, adding that the na-tion "may be getting all of this contraction over more quickly."

The administration had been predicting a "mild and short" downturn this year. Sharp declines in several key business measures — including retail sales, industrial production, housing starts and auto sales - have led some analysts to predict that the recession could be the second worst since World War II.

Oklah oma County judge who prohibited news media from publishing or broad casting information about an 11-year-old Edmond shooting suspect has lifted the gag order.

District Judge Arthur Lory Rakestraw, who initially signed the order, gave only brief mention to questions of constitutional infringements raised during; a 2½-hour hearing.

The judge quoted testimony showing the name of the boy "was disseminat ed through a deputy district court clerk.'

The 11-year-old reportedly was charged May 22 in Juvenile Court with a elinquency by reason of firstdegree murder, police said.

The victim, 10-year-old Brian Field:s, died of multiple gunshot

Subway gang beats woman

The woman, a recent immigrant from Warsaw who cannot speak English, held fast after the group ripped a gold chain from her neck and tried

and knocked down, but wouldn't give up her jourse," said Transit Authority Officer Howard Haag.

The incident began around 1 a m. in the Ben sonhurst section of Brooklyn when the youths followed Francis Zarecky', 50, onto the train, Haag said.

The group began to deliberately bump and shove Mrs. Zarecky. She moved to another car, but they followed her and continued their harassment, Haag said.

When the woman got off the train,

#### savings interest

WA.SHINGTON (AP) - The maximum interest rate that savings banks and savings and loan associations will be able to pay on 2.5-year savings certificates in June will be 8.55 percent, the Treasury Department announced today. Connmercial banks will be

able to pay 8.3 percent interest on the savings certificates.

The rates are based on average yield on Treasury securities, which was 9.05 percent in recent days. Thrif't institutions are allowed

to pay interest one-half percentage point below the average Treasury yield. Banks are restricted to interest .75 of a percentage point below the Trea-sury yield. nearby, officers said. since it would not cost the district if In her ruling Tuesday, Judge Rathe program does get approved. kestraw suggested that the name of the youth remain undisclosed "in the interests of humanitarianism." Michael Minnis, attorney for The increase in pay for substitute teach-

Oklahoman and Times, said he attempted to file a motion to quash the order Friday under the "J. Doe" name used in the order.

But the clerk said the motion could not be filed properly except under the youth's real name, according to Minnis.

Minnis said the clerk produced a court file with the boy's name, and he wrote it atop the motion, which was then signed by District Judge Ray-mond Naifeh.

the gang stepped up its attack, Haag said. One of the girls grabbed her gold necklace while the others punched and kicked her, according to the offi-

Then they ran to the mezzanine, but returned a several minutes later and tried to take Mrs. Zarecky's pocketbook. "That's when they really started in on her," Haag said, "but she wouldn't give in."

Transit Authority police apprehended the suspects about an hour later, but only after three of the girls managed to get away.

Sturdisteel of Waco for \$45,016. tionary stuff he was hollering.

"WE KEPT TRYING to reason with them.

"All we were trying to do was en-sure their safety and the safety of the officers out there. We wanted to make sure no one got hurt and to not start a shooting gallery."

Reeves said as dark began to set in, the decision was reached to use tear gas because they feared the situation would drag on until it was too dark to see clearly.

"It was supposed to be a very simple search warrant. We were looking for marijuana. They didn't want to make this a simple occasion.

"It turned into a situation where we feel very fortunate no one was in jured. There were times when w were not sure it was going to work ou like that."

After the couple surrendered, officers did finally search the residence They found a sawed-off automatic shotgun approximately 14 inches long and a .38-caliber pistol, both of which had been used in the siege. There also were several rifles in a gun rack. They found no hand grenades or any explosives, which the couple threatened to throw at one time.

Reeves said they found no narcotic drugs but, "We feel whatever naro-citc drugs there were were done away with during the time we were out of the area. And of course after he pulled a gun and ran the officers off, the narcotics warrant became secondary because he had threatened bodily harm to a law officer."

The man and his wife were in Midland City Jail this morning.

# Only female senator favors nomimation of women

### But Nancy Landon Kassebaum 'not interested' in vice presidency

WASHINGTON (AP) - Sen. Nancy Landon Kassebaum says it may well be time for the Republicans to run a woman for vice president, but she's not the woman

"I am not interested," the only female senator said Tuesday after reports circulated that she was being mentioned as a possible running mate for Ronald Reagan, the runaway leader for the Republican presidential nomination.

Asked if this meant she would turn the opportunity down if offered, she

replied, "Yes. It certainly could well be that this is the right time for a woman, but I don't think I have the experience needed at this time for anyone assuming the office of vice president."

She said Reagan should choose as his running mate someone with a broad experience of government, foreign affairs and economics, and she does not think hers is broad enough after less than two years in the Senate.

Her own choice, she told a reporter, is Senate Republican leader Howard Baker Jr. of Tennessee. \*

# Anderson campaigns in Houston

HOUSTON (AP) — John B. Ander-son stood inside the black neighborhood's community center and talked about his worries over urban violence. Outside, as if symbols of the independent presidential candidate's remarks, a dozen white-helmeted motorcycle policemen stood guard.

On the porchfronts of small, wooden, often-unpainted frame houses, black persons watched silently as the Republican congressman's motorcade drove up on Tuesday to the Martin Luther King Jr. Community Center escorted by the motorcycle police.

With a roar, the policemen, all of them white, circled their cycles into a

formation and stopped along an inter-section in the neighborhood.

An aide said later that campaign organizers had no control over the type or amount of police protection assigned to accompany Anderson.

Inside the community center, the candidate toured a crafts center for elderly persons and walked among 4and 5-year-olds placed in a day care center to permit their mothers to work.

Later, Anderson told a group of workers in the federal Vista program that the possibility of more riots like those in Miami worried him more than further eruptions of Mount St. Helens in Washington State.

"I am much more concerned about flashpoint conditions that exist in big cities across the country than I am about eruptions that take place in a volcano in the western part of the United States," Anderson said.

He said there are unimproved conditions of poverty and injustice in minority ghettos which must be resolved.

"They ought to be, they must be a continuing priority for this country to realize its potential for the kind of destiny that it should have," said Anderson, with perspiration streaming down his face in the steaming 90-degree heat.

Outside the second-floor of the com-

munity center where Anderson ad-dressed the largely-black audience, more armed policemen stood watch, looking into the yards of black neighbors.

Some critics have questioned whether a House member who represented a conservative Illinois district for 20 years will be able to appeal to black voters.

Anderson says he has consistently voted since the early 1960s for every civil rights bill to come before the Congress.

On Tuesday, Anderson said he would support any proposals for new government programs which would encourage "self-help" among residents of poor neighborhoods.

Mrs. Kassebaum was asked about a report that her name was one of several under consideration for the vice presidential spot now that Rea-gan is assured of the nomination following George Bush's decision to drop out of the race.

It was not the first time she had been mentioned in this connection.

On May 16, Assistant Senate GOP Leader Ted Stevens of Alaska said that if Reagan does not choose Baker he ought to "take a good look" at the Kansas senator.

"She has many qualifications that would make her an asset to the tick-et," Stevens said. "I think she would be a very forceful vice presidential candidate."

Stevens noted that Mrs. Kassebaum is from the Midwest, where he said Reagan needs to bolster his vote-getting appeal. He also said she had shown leadership qualities in her brief Senate career.

Mrs. Kassebaum said she told Stevens at the time she was not interest-

At Reagan headquarters in Los Angeles, press aide Robin Gray said Richard Wirthlin, a Reagan pollster, was asking a nationwide cross-section of people how they would rate a number of possible running mates. He said he did not know what names were on Wirthlin's list.

Debra Dick, press secretary to Sen. Paul Laxalt, R-Nev., Reagan's na-tional campaign chairman, said she understood the poll would be completed by mid-June.

Stevens has suggested that Reagan announce his vice presidential choice before the Republican convention July 14-17 in Detroit and Reagan said May 16 he has "an open mind" about doing so.

Mrs. Kassebaum was elected to the Senate in 1978, defeating former Democratic Rep. Bill Roy for a seat left vacant by the retirement of Republican Sen. James Pearson. She is the daughter of former Kansas Gov. Alf Landon, who was the Republican nominee for president in 1936. She will be temporary chairman of the GOP convention.

She is the first woman ever elected to a full Senate term without being the widow of a member of Congress.

### Ford backing Reagan, denies he'll join as vice presidential candidate

NIAGARA FALLS, N.Y. (AP) -Gerald R. Ford is backing Republican front-runner Ronald Reagan for the presidency, but is discouraging any speculation that he might be amenable to joining the GOP ticket as Reagan's vice presidential running mate.

"I congratulate Ronald Reagan on having clinched the Republican nomination as our candidate for president," the former president said Tuesday. "I compliment him on his very successful campaign. I have always supported the Republican nominee and will do so in 1980."

offer to run as vice president on Reagan's ticket, Ford said he rules that out "categorically."

# DEATHS

Mrs. W.L. Oden **BROWNWOOD** — Services for Mrs.

Walter L. Oden, 72, of Bangs, sister of Bernice Harris of Midland, were Monday at the Davis-Morris Funeral Home chapel here with John Shero, minister of Austin Avenue Church of Christ, officiating. Burial was in Greenleaf Cemetery in Brownwood.

Mrs. Oden died Sunday in a Brownwood hospital after a brief illness.

Born July 24, 1907, in Fluvvanna, she was married to Walter L. Oden Dec. 9, 1925, in Coleman. She lived all her life in Brown County and was a homemaker. She was a member of the Church of Christ.

Other survivors include her husband, a daughter, three sisters, three brothers and eight grandchildren.

### Mrs. W.L. Owen

**BIG SPRING** — Memorial services for Mrs. W. L. "Olive" Owen, 72, of Big Spring will be at 10 a.m. Thursday in the Nalley-Pickle Rosewood Chap-

Mrs. Owen died Monday in a Big Spring hospital.

Born March 15, 1908, in Missouri, she was married to W.L. Owen March 15, 1930, in Kansas. They moved to Texas in 1931 and to Big Spring in 1946. Mrs. Owen was a secretary at Walton Morrison Law offices and was previously employed at the First National Bank of Big Spring. She was a member of First Presbyterian Church and senior citizens bowling league

Survivors include her husband; a son, Willis L. "Bill" Owen Jr. of Oklahoma City; a sister, Elsie Rogers of Wichita, Kan.; and a grandson.

### Victor E. Bullen

ABILENE - Graveside services for Victor Eugene Bullen, 96, of Abilene, father of Dan Bullen of Midland. were at 1 p.m. Tuesday at Elmwood Memorial Park here, directed by Elliott-Hamil Funeral Home, with the Rev. R.D. Murray, minister of Seventh Day Adventist Church, officiating.

Bullen died Monday in an Abilene hospital after a lengthy illness.

Born Oct. 28, 1883, in Hamilton County, he was a self-employed painter. He attended school in Hamilton and was married to Myrtle Hartman in Evant in 1913. They moved to Abilene from Post in 1918.

Other survivors include his wife, two daughters, seven granchildren and three great-grandchildren.

### **Robert Langley**

Services for Robert C. Langley, 20, of 3329 W. Wadley Ave., were at 2 p.m. Tuesday in the First Baptist Church Chapel, with the Rev. Roy A. Carley, assistant minister, and the Rev. David Piearcy, pastor of Oaklawn Park Baptist Church, officiating.

**Burial was in Resthaven Memorial** Park under the direction of the Newnie W. Ellis Funeral Home. Langley died Monday in a Midland

# hospital.

# **Begin chooses Shamir** to replace Weizman

JERUSALEM (AP) - In a move that could break his already shaky coalition government, Prime Minister Menachem Begin is reported to have chosen hardliner Yitzhak Shamir, an opponent of the peace treaty with Egypt, as defense minister to replace the more moderate Ezer Weizman.

Political sources reported the po-tentially volatile succession Tuesday as the Begin government successfully rode out a no-confidence vote in Parliament prompted by Weizman's angry resignation last Sunday.

Shamir became Begin's foreign minister only two months ago, replacing Moshe Dayan, another moderate who quit over Begin's hardline peace policy. A staunch advocate of Jewish settlement on occupied Arab lands, the 64-year-old Shamir abstained when the Knesset, or Parliament, approved the 1979 peace treaty with Sypt. Shamir, who like Begin was born in Poland, is a member of the prime minister's Herut faction in the ruling coalition. He had no formal military career, although he was suspected of engineering several political assassinations as a leader of the Stern Gang terrorist underground during the Jewish struggle for independence from Britain and became deputy commander of Israel's Mossad intelligence service after the creation of the Jewish state.

The sources said Energy Minister Yitzhak Modai would replace Shamir

at the Foreign Ministry. Modai, the 53-year-old leader of the coalition's Liberal Party faction, was once quoted as saying he favored annexation of Arab lands occupied by Israel in the 1967 war if negotiations with Egypt failed to yield an agreement on Palestinian autonomy. Egypt suspended the negotiations on May 8, citing a lack of progress.

Modai's reported appointment apparently was aimed at quelling Liberal complaints that the party lacked status in the Begin government. Some sources said Modai's energy post THE MIDLAND REPORTER-TELEGRAM, WED., MAY 28, 1980

### Johnny Carson may undergo leg surgery

LOS ANGELES (AP) - Johnny Carson, who recently won a multimillion-dollar contract and shorter hours for the "Tonight Show," may undergo surgery and could be off the popular late-night talk show for most of the summer.

He expects to find out next week whether he needs an operation to repair a blocked artery in his left leg. which has bothered him for several months

Carson told his "Tonight Show" audience Tuesday night that he will go to the hospital next Wednesday for tests. He said his leg problem may keep him off the show until the end of

The 54-year-old entertainer, who won the new contract - and the concession to trim "Tonight" from 90 to 60 minutes - from NBC last month, said in an interview that "it's very possible there's a blockage in the artery in my left leg. I've noticed it for some months now - fatigue when walk or play tennis.

"I'm going in next week, and the doctor's going to take an angiogram. If it is blocked, we'll make the decision then as to whether to repair it by surgery.

An angiogram is an X-ray of blood

vessels after a tracing substance has been injected into them.

"I just wanted to tell you this so, if you hear I'm in the hospital next week, that's what it's all about," Carson said Tuesday night.

"I've always been athletic, and this thing's been bothering me and I want to take care of it. My tennis game's gone to hell."

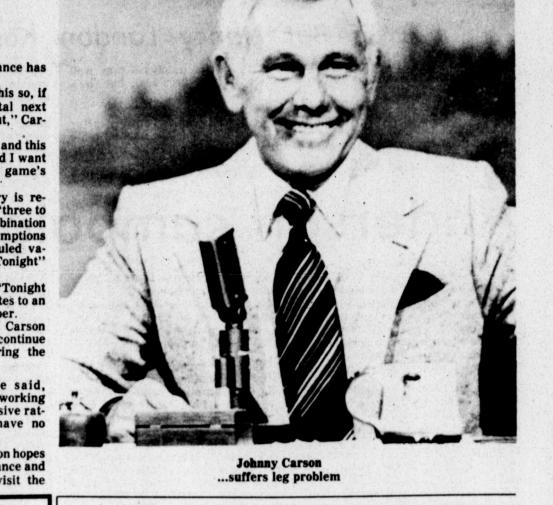

Carson said that if surgery is required, recovery would take "three to six weeks," which, in combination with election-coverage pre-emptions and Carson's already scheduled vacation, would keep him off "Tonight" until July 23.

Carson's new, hard-won "Tonight Show" — pared from 90 minutes to an hour - will debut in September.

It had been reported that Carson was unhappy over having to continue with a 90-minute show during the summer.

"Good heavens, no," he said, "that's funny. No. I've been working over sweeps weeks (the intensive ratings period of May) and have no problem with it whatever."

If surgery is required, Carson hopes to recover this summer in France and England. He has plans to visit the

### Charlie's Angels' producers deny fraud allegations

LOS ANGELES (AP) - The producers of the television show "Charlie's Angels" have denied that they tried to defraud actors Natalie Wood and Robert Wagner, part owners of the series, of their share of the show's profits.

The producers, Aaron Spelling and Leonard Goldberg, also criticized journalists for their handling of fraud allegations brought against them

"While the majority of the news media has been very fair in treating the allegations made against us, a few have been having a sensationseeking field day," Spelling said after a meeting Tuesday with Los Angeles County district attorney's investigators.

"Even more upsetting than the allegations," he added, "are the innuendoes, distortions and guilty-until-proven-innocent attitude of many of the stories."

Spelling was accompanied by assistant district attorney Jim Ferruzzo, head of the seven-month investigation into charges that the producers de-frauded actors Wagner and Miss Wood, along with "Angels" writers Ivan Goff and Ben Roberts.

Ferruzzo said Tuesday's session was the second meeting with Spelling and Goldberg - whom he referred to as "very respected members of the entertainment community" - and said that no conclusions had been reached in the case.

A district attorney's auditor will cooperate with an outside auditor in reviewing documents seized more than three weeks ago from the offices of Spelling-Goldberg Productions, Ferruzzo said.

The audit should be concluded in a couple of weeks, he said, at which time statements would be made about the investigation.

Former ABC attorney Jennifer Martin has alleged that some \$30,000 Spelling-Goldberg program, "Starsky and Hutch." The allegations came to light this month.

would be given to another Liberal. The shuffle, which would strengthen the hand of Begin's rightist majori-

ty, reportedly drew criticism from two other coalition partners, the National Religious Party and the Democratic Movement, which were said to have complained they had not been consulted.

Political sources said Shamir's proposed takeover of the key Defense Ministry also drew fire from Agriculture Minister Ariel Sharon, a hardliner who handles the government's controversial settlement policy.

'We have no reason to believe that there has been any impropriety on the part of anyone connected with 'Charlie's Angels,'" Spelling said. "But the investigation must run its course to demonstrate that," he said.

IF YOU HAVE ANYTHING TO SELL YOU HAVE SOME-THING TO ADVERTISE. CALL 682-5311

Taxes do more than just hurt. They cripple the growth of your savings. They make it impossible to plan your financial future or your retirement with any degree of certainty.

The Survival Kit defers state and federal income taxes on your savings interest. So your interest remains in place to earn more interest. Savings growth increases dramatically. Depending on your tax bracket, your savings can grow twice as fast. Or even faster.

With your own Survival Kit, you can defer taxes on the interest earned by all your long-term savings. Even if those savings are held in other institutions. Look at the chart to see how much more effectively you can plan your financial future, or your retirement years, with a Survival Kit.

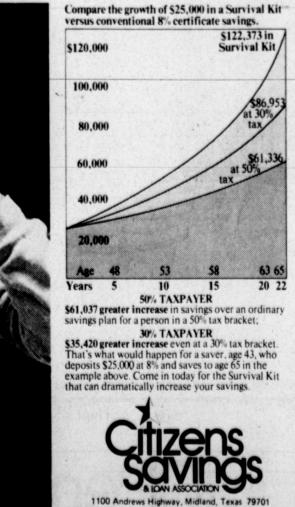

The Survival Kit can offer you this lifesaving advantage in growth because it is a group annuity plan underwritten by American Life and Casualty Insurance Company. But it is nothing like the traditional annuity which holds funds at a low, fixed rate of return.

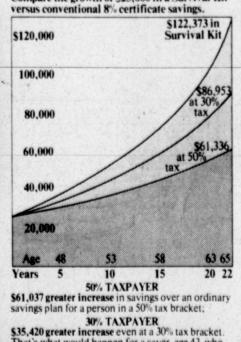

Instead, the Survival Kit combines the advantages of a modern, high-return certificate savings account with the

1

advantages made possible by this group annuity plan. In addition to the allimportant deferral of taxes, you gain surprising withdrawal privileges, a variety of estate-planning benefits, and the option of choosing between lifetime retirement income payments or any other form of withdrawal that meets your needs. You are the one who decides how to withdraw your funds, and when.

Call us today for full information on all the ways the Survival Kit can rescue your financial future.

### Flyers are upset over bad calls

abrbbi 4020 Smalleyss 4020 4000 Landrex if 3010 4000 RJcksn 1b 4010 3120 Morais dh 4010 3122 Mackan 2b 4010 3122 Mackan 2b 4010 0000 DEdwrd cf 3000 3010 Powell rf 4010 0000 Wynegar c 3010 3000 Norwod ph 1010 PHILADELPHIA (AP) - Philadelphia Flyers owner Ed Snider says he plans to lodge a complaint with the National Hockey League's Board of Governors about the officiating in Saturday's NHL Stanley Cup final.

"There really isn't anything they can do about that game," Snider said, "but they can take steps to improve officiating in the league.

"There's no doubt in my mind whatsoever that Saturday's game, as it was officiated, cost us our shot at the Stanley Cup. It wasn't the players that lost that game," Snider added.

The New York Islanders edged the Flyers 5-4 in sudden-death overtime Saturday to capture their first cup ever. There were two controversial calls, both on plays which resulted in New York goals.

 lot better and my timing has returned," smiled Lopez-Melton after finishing a practice round Tuesday on the par-73, 6,410-yard layout. "When I shot that 83, it finally made me realize that something was wrong with my game."

# Tigers, Angels work trade

DETROIT (AP) - Detroit's search for a right-hand hitting outfielder and ailing California's desperate need for some power at the plate have ended in the trade of Tiger Jason Thompson for Angel outfielder Al Cowens.

The surprise deal was announced Tuesday.

Thompson, 25, a left-hand hitting first baseman who hit 94 homers in his first four years with Detroit, has been struggling this year. He has hit only .214 with four homers and 20 runs batted in.

Cowens, 28, who is in his first year with the Angels, has been hitting .227 this season, including one homer and 17 RBI.

Cowens entered this season a lifetime .282 hitter, with 45 homers and 374 RBI. His best season was 1977 when he batted .312 with 23 homers

and 112 RBI and won the American League's Gold Glove.

"We feel Al Cowens is one of the better right fielders in this business," Detroit General Manager Jim Campbell said Tuesday. "Jason Thompson is no .214 hitter and neither is Al Cowens. Al Cowens can run, he can throw, he's a good defensive player and he can hit."

Campbell said he was not concerned over Cowens' slow start in 1980. The Detroit chief said Cowens 'could help turn us around."

"I don't think anybody in this organization is going to sit still and not do something," Angels Manager Jim Fregosi said of the deal. "I felt we needed some left-handed power, and I feel Jason Thompson will provide that for us.'

The Angels may have created a

dilemma for themselves, becoming overstocked at first base with Thompson and seven-time American League batting champion Rod Carew, who leads Angel regulars in batting with a .320 average. However Angels officials denied the team might use Thompson as trade material in the search for pitching help.

PAGE 3D

Thompson was enroute to California from New York Tuesday night, and was expected to join the Angels in time for tonight's game at Anaheim against the Texas Rangers.

Before leaving New York, Thomp-son said he had no hard feelings toward Detroit.

"I just try to think about the good times and the positive things, like living in Anaheim," Thompson said. "It's a great place to play. I hit really well there. It's a nice park."

# **College World Series** to produce big sticks

OMAHA, Neb. (AP) - The universities of Miami, Arizona and California will all be carrying big sticks in the College World Series which opens here Friday.

They're ranked 1-2-3 in an impressive lineup of teams as the final eight gather here to decide the national championship.

While Miami has the best record in the field, 57-10, the Wildcats and Golden Bears spent most of the season beating up on each other in the powerful Pac-10 Conference.

Then there's Hawaii, frustrated for years in its quest for a World Series berth, coming into Omaha with 57-16 record and a young, freewheeling team which blasted its way through the NCAA central regional.

Florida State posted a 51-10 record this season, had a sparkling .304 team batting mark and averaged just over 10 runs a game. Coach Mike Martin is in his first year at the helm, but inherited a strong ballclub from Dick Howser, now employed by the New York Yankees.

#### Browns sign at least one White

CLEVELAND (AP) - The Cleveland Browns have agreed to contract terms with Charles White - but not the Charles White they chose first in this year's National Football League draft.

from Dayton and Central State, was one of three free agents who earned a contract with the Browns at a tryout camp on Saturday.

"I'm very excited about going to Omaha," Martin said. "This is some-

thing you really dream about." Clemson, ranked fourth in the nation, put together a 38-19 season in the ACC and had to beat a tough South Carolina club to win a place in the series. The Tigers impressed a lot of people this year, including their coach.

"I rank this as my most gratifying season," said Bill Wilhelm, who has coached at Clemson for 23 years. "It's not all that talented of a ballclub but they do give their best effort and you can't ask for more than that."

Friday night's opening games match St. John's against Arizona and Florida State against Hawaii. On Saturday night, Clemson takes on Miami and Michigan meets California to complete the first-round of the double-elimination NCAA championship tournament.

Michigan and St. John's come into the College World Series with the usual handic of northern teams - a short schedule.

# sinks ace

You could say Paul McHargue had himself a pretty fair day on the links Monday.

**McHaraue** 

It all started on the 164-yard No. 11 hole at Midland Country Club, where McHargue lashed a one-iron shot that found its way to the cup. It was the veteran golfer's fifth ace, according to MCC pro George Clark.

But that wasn't all. The 82-year-old McHargue finished with a round of 81, the second time in his career that he's shot his age

Playing with McHargue were Stanley Erskine, Hugh Munn and Bill Osborn.

#### Crane plans

tennis tourney

CRANE - The annual Crane Invitational Tennis Tournament will be held here June 10-12. Entry deadline is 6 p.m. Monday, June 9.

The tournament will have competition in both singles and doubles for 12-under, 14-under, 16under and 18-under. If there are enough entries there will also be divisions for women and men and mixed doubles. Entry fee for all 18-under entries are \$4 per person, per event while men and women must pay \$5 per person, per event. To enter call Kieth Co-

burn in Crane at (915) 558-2787, or write Coburn at 611 W. Seventh St., Crane, Tex., 79731.

## **BUSINESS MIRROR Have Americans** learned lesson?

#### **By JOHN CUNNIFF AP Business Analyst**

NEW YORK (AP) — The American people have cracked down so hard on spending and borrowing that huge sectors of the economy have stalled.

And while they received help from the Federal Re-serve Board, the folks who restricted the supply of credit, indications are strong that even if credit had been available consumers would have turned it down

They have slowed their spending on cars, houses, appliances, fancy vacations and the like, and the impact spreads out from there. You can't, for exam-

ple, sell windshields if people aren't buying cars. Attitudes have changed. The philosophy of "buy now because things will cost more tomorrow" is being replaced by the view that if you don't forgo things today there will indeed be no tomor-

As the once aggressive consumer turns conservator, items that were in fierce demand a short while ago are now shunned. The consumer was the driving force of the economy. When he changed, the economy did too.

Car sales fell 30 percent in mid-May, even though Ford and Chrysler offered rebates to stimulate action. Prime interest rates are plunging. Price increases are slowing. Lenders again are offering mortgage money.

Rising stock prices reflect the change. One Wall Streeter after another is saying the same thing: It begins to look as if the country is going to straighten itself out. Wall Street always looks for that.

But while that viewpoint is proclaimed by some, others ask if we're not being premature in the assessment.

-They observe that spending slowed only because people were denied the means. They didn't have the money; the typical family of four has lost 6.7 percent of buying power over the past 12 months. —They note as well that much of the new hope is

based largely on political promises — promises as meaningless for the future as they were for the past. Promises, for instance, of a balanced budget. The real test may be ahead, they say. That's when

the consumer, taught through the years to accept the good life as his right, might have to accept the reality of a lower standard of living than he once en-

joyed. The road to economic stability, the critics say, may require that people use less of their available funds so their savings might be steered into rebuilding the production facilities of the country.

Given the proper incentives, such as a good yield on those savings, most Americans probably would be willing to save. But, after postponing the purchase of a house, for instance, millions of people might feel they need one more shot at the good life before they settle down.

Just as much discipline might be needed in govern-ment spending. While the administration has pro-claimed a balanced budget for fiscal 1981, in reality that balance has been achieved only on paper. And, just weeks after it was devised, it might already have been tipped into the red.. The challenge therefore seems to be still ahead.

Yes, the psychology of the consumer and of government too has changed all of a sudden, but it changed WANT ADS wor

# WT areas gain wildcat locations

D. K. Boyd Oil & Gas Co. of Midland No. 1 E. H. Jones is to be dug as a 5,300-foot wildcat in Gaines County, 23 miles northwest of Seminole.

It is 3,194 feet from north and 467 feet from east lines

of section 31, block AX, psl survey.

The site is 1/4 mile southwest of production in the Block A-7 field.

#### DAWSON EXPLORER

R. A. Mendenhall of Midland No. 1 Anderson has been spotted as a 12,400-foot wildcat eight miles southwest of Lamesa in Dawson County.

Location is 550 feet from north and east lines of labor 23, league 276, Glasscock County School Land sur-

Ground elevation is 2,962 feet.

Location is 3/4 mile south of a 12,095-foot failure and the same distance south of a 12,203-foot dry hole. It is 2 1/4 miles west of depleted Spraberry production in the Patricia, Northeast field and 2 1/4 miles southeast of the depleted discovery well of the Hoske (Pennsylvan-

Amos Page of Wimberly No. 53-1 Alexander is to be

re-entered as a 3,200-foot wildcat in King County, 13

depot.

It originally was drilled to 3,087 feet by The Birge Oil Co. as No. 1-A-53 Alexander Trust. It was plugged and abandoned in March.

The drillsite is 2,000 feet northwest of the Bugg (Tannehill) field discovery.

#### GARZA AREA

Foy Boyd Manage Corp. of Midland announced plans to re-enter a 9,300-foot failure in Garza County and cleanout to 9,150 feet for tests as a wildcat.

The project, No. 1 Scott-Storie, originally was drilled by Burford & Sams and Ray Smith as No. 1 Scott Storie.

Location is eitht miles northwest of Post and 660 feet from north and 2,175 feet from east lines of section 1403, block 1, EL&RR survey.

#### LUBBOCK EXPLORER

Buckman Oil Co. of Lorenzo No. 1 Troy Thomas has been spotted as a 5,000-foot wildcat in Lubbock County, 20 miles east of Lubbock.

It is 467 feet from north and east lines of section 40, block I, John H. Gibson survey. Ground elevation is 3,090.6 feet.

#### COCHRAN WILDCAT

Woods Petroleum Corp. of Oklahoma City No. 1 Jennie B. Denny is to be drilled as an 8,940-foot wildcat in Cochran County, one mile east of Bledsoe. The prospector will test the San Andres and the

Bough "C" zones.

# Four wildcats staked in Crockett; other WT areas get explorer sites

Four wildcat operations have been announced in Crockett County.

Delta Drilling Co. of Midland No. 1-89 W. E. Friend Estate was staked as a 7,200-foot wildcat and as a 7/8mile east outpost to the Ozona (Canyon) pool of Crockett County, three miles east of Ozona.

Location is 1,980 feet from north and 660 feet from west lines of section 89, block GH, GC&SF survey. Ground elevation is 2,460 feet.

The site also is three miles north of the Davdson Ranch multipay field. ....

Exxon Corp. of Midland staked locations for three 2,500-foot wildcats in Crockett County, 2.6 miles south of Barnhart.

No. 1 State University "EG" is 660 feet from south and 1,980 feet from east lines of section 4, block 44, University Lands survey and 5/8 mile north and slightly west of the Block 44 (shallow oil) pool.

....

Exxon No. 1 State University "EF" is 660 feet from north and 1,320 feet from west lines of section 4, block 44, University Lands survey and 1.5 miles northwest of the Block 44 field: 3 ....

Hearing Examiner James Hou-

H. M. Halff Estate as a 1,500-foot wildcat in Crockett County three miles southeast of Iraan.

It is 467 feet from south and 5,565 feet from east lines of section 70. block 1, I&GN survey. It is 1,600 feet southeast of the lone well in the Noelke, West (Felker) field which produces gas-at 838 feet.

#### CONCHO WILDCAT

Adelante Petroleu Co. of Midland No. 1 George Bunger is to be dug as a 4,100-foot wildcat eight miles southwest of Eden in Concho County.

The project is 467 feet from south and 660 feet from west lines of section 75, block 8, H&TC survey. Ground elevation is 2,304 feet. The site is 1 1/4 miles northwest of

the depleted Dodson (Strawn) field.

#### STONEWALL TEST

E. L. Smith III of Dallas No. 1 W. F. Martin is a new 6,500-foot wildcat eight miles southwest of Aspermont in Stonewall County.

Location is 1,980 feet from north and 1,800 feet from east lines of section 6, block U, T&P survey, abstract 1461

Drillsite is 1 1/4 miles south of the lone well in the Delray (Ellenburger) field

foot wildcat in Runnels County one location southeast of Fletcher No. 1-419 Priddy, a 4,410-foot dry hole.

The new test is eight miles southwest of Winters and 2,650 feet from north and 700 feet from east lines of section 55, HT&B survey. It also is 2,310 feet southeast of depleted production in the Winters, West multipay area.

#### COKE WILDCATS

locations for three 6,800-foot wildcats in Coke County, four miles southwest of Robert Lee.

No. 1 M. O. Baker is 2,173 feet from north and 467 feet from east lines of

and one location southeast of a 6.350foot failure. Ground elevation is 2,041 feet.

feet.

Enrich No. 1 J. A. Frost and others take potential

# DOE says Texans waited in line as gasoline left state

#### **By JACK KEEVER**

AUSTIN, Texas (AP) - While Texas motorists waited in long lines at gas pumps last year, gas wholesalers and retailers sold nearly 100 million gallons of fuel out-of-state to make more money, says a federal administrator.

Wayne Tucker of Dallas, district enforcement manager for the Department of Energy, said enough gas was sold to supply the entire state for four days.

He and Doris Dewton, assistant ad-

• ENERGY OIL & GAS

ministrator of petroleum operations

in Washington, told a U.S. House sub-

committee Tuesday more than 220

jobbers and retailers declared a gas

surplus in 1979 despite severe short-

ages in areas such as Houston and

"It is illegal for a jobber to sell gasoline on the spot market," Ms.

Dewton noted, "unless it is a genuine

higher" than those in Texas. Asked if withholding the gas was one reason for the Texas shortage, Tucker said, "I think it certainly was, and I'm sure it was in the Houston area and probably the Dallas area where lines were as long as any place in the country."

In addition to reviewing those who declared a surplus, Ms. Dewton said the DOE has sent notices to 100 Southwest companies it considered "most likely" to have violated its gasoline regulations during the 1979 shortage.

Rep. J.J. "Jake" Pickle, D-Texas, joined Eckhardt, D-Texas, in listening to witnesses on the hoarding and allocation of gas. Pickle is a former member of the subcommittee and requested the hearing.

Managing Director W.H. Ligon of the Texas Service Station Association said if "branded dealers do not get some instant help, you will see about 25,000 to 30,000 additional dealers go out of business in the next five years.

Five independent station operators told of their futile efforts to get DOE to raise gas allocations while new stations nearby - such as convenience stores that stay open 24 hours - would begin business with much higher alloc

Ligon said he did not know of a single instance in which a dealer's application to the DOE for a higher allocation had been approved. He blamed DOE guidelines, and Ms. Dewton acknowledged, "The operator of an existing station seeking an in-

creased allocation faces a more difficult task than the applicant for a new station seeking an initial supply." "We intend to correct this inequi-

ty," she said. Tom Farris, a Shell dealer in Pasa-

dena, said the DOE wrote seven months after a new station - with twice as much gas — had opened three blocks from him to ask if he objected.

The testimony, said Pickle, "leads one to believe that rather than blanket denial, there is almost mass execution" of independent dealers.

"They have gone through living hell the past 18 months trying to get an increase," he said.

Eckhardt said he feared if DOE's pernicious regulations" are not changed, the "currently endangered species known as the independent retailer will become extinct."

"I think we have real problems," he added, "and we intend by thse hearings to see some action to meet these

higher allocations.	problems."

#### FISHER PROJECTS Two wildcat sites have been staked

in Fisher County. J. H. Purvis of Midland No. 1 K. E. Justiss is a 6,400-foot wildcat five miles west of Longworth.

Drillsite is 2,387 feet from south and 2,392 feet from east lines of section 259, block 3, H&TC survey. It is 7/8 mile southwest of a 6,214foot dry hole and 2 1/4 miles east of

the discovery well of the Claytonville, Southeast (Home Creek) field. .... MWJ Producing Co., also of Mid-

land, announced location for No. 1 Hertel, a 5,250-foot wildcat, five miles west of Hamlin in Fisher County.

It is 467 feet from north and 2,310 feet from east lines of section 195, block 1, BBB&C sourvey.

dLocation is 1/2 mile south of the two-well Daniel (Strawn) field and one location north of a 5,313-foot dry hole. The Daniel field produces at 4,377 feet.

#### RUNNELS TESTER

E. B. Fletcher of Dallas No. 2-419 J. F. Priddy is to be drilled as a 4,900-

one location south of No. 1 Bobby Baker and 2,173 feet from south and 467 feet from east lines of section 312, block 2, H&TC survey. Ground elevation is 2,040 feet.

#### TOM GREEN TEST

Tucker Drilling Co., Inc. of San Angelo No. 1-37 Pfluger has been spotted as a 5,450-foot wildcat 23 miles southeast of San Angelo in Tom Green County

It will be spuded 717 feet from north and 1,584 feet from west lines of section 37, TCRR survey. Ground elevation is 2,289 feet.

The location is 2 3/4 miles northwest of the reopener and lone producer in the Upton Ranch (Canyon) field which produces at 4,315 feet.

#### LUBBOCK STEPOUT

Diamond Shamrock Corp. of Amarillo No. 1 Iva Dulane is to be drilled 3/4 mile west of the seven-well Edmission, Northwest (Clear Fork) field of Lubbock County, five miles southeast of Shallowater.

The project is 1,980 feet from north and eastlines of section 16, block D2, HE&WT aurvey.

Contract depth is 5,600 feet and the ground elevation is 3,256 feet.

The Spraberry was topped at 7,898

ford at 11,816 feet and the Devonian at

11,941 feet. the ground elevation is

Wellsite is 5,500 feet from north and

402 feet from east lines of league 251,

Ward County School Land survey and

eight miles north of Tarzan.

2.888 feet.

Terra Resources Inc. of Houston has completed its No. 1 W. H. Jones as a Mississippian oil reopener in Scurry County, two miles southeast of Flu-

vanna. A re-entry project, it is a former Strawn discovery. It is 1 3/4 miles north of the original Mississippi discovery well of the Fluvanna, Southeast field.

On 24-hour potential test, the well pumped 150 barrels of 38-gravity oil and 484 barrels of water, through perforations from 8,134 to 8,142 feet.

Total depth is 8,295 feet. Location is 1,730 feet from south and 1,582 feet from east lines of section 484, block 97, H&TC survey.

#### CROCKETT STRIKE

International Oil & Gas Corp. of Midland has completed its No. 1-46 Ingham as a Connell gas discovery in Crockett County. A dual well, it also was completed

from the Indham (Devonian) field The well is 25 miles west of Ozona. On Connell potential, it finaled for a

calculted absolute open flow of 2,480,-000 cubic feet of gas per day, through perforations from 8,707 to 8,721 feet. The pay was fractured with 25,000 gallons.

From the Devonian, it finaled for a calculated absolute open flow of 840,-000 cubic feet of gas per day, through perforations from 7,865 to 8,047 feet. The pay was acidized with 8,000 gallons and fractured with 100,000 gallons

Total depth is 9,407 feet and 5.5-inch casing is cemented at 8,777 feet.

The following tops were called by the operator: Canyon, 7,150; Strawn, 7,860; Devonian, 7,939; Sompson, 8,-052; Connell, 8,701, and Ellenburger, 8,750 feet. Ground elevation is 2,635 feet.

Wellsite is 1,556 feet from north and 1,246 feet from west lines of section 46, block 2, I&GN survey.

#### SCHLEICHER TEST

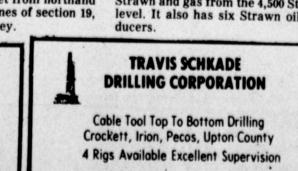

Ike Lovelady Inc. of Midland announced site for a 4,850-foot project in Schleicher County, 1,500 feet west of one of the four Harkey oil wells in the Cheaney multipay area. Scheduled for tests of the Harkey, it

is No. 2 Enos, 1,980 feet from south and west lines of section 4, block 1, GH&SA survey.

Ground elevation is 2,264 feet.

The field also produces gas from the Strawn and gas from the 4,500 Strawn level. It also has six Strawn oil producers.

Air Freight service, air leasing, aerial photography avail resevations.

#### American Trading & Production Corp. of Midland announced plans to re-enter its No. 1-41 Ellwood Estate, recently completed discovery well of the Lucky Strike (Ellenburger oil) pool of Mitchell County and test for completion as a wildcat above 7,580 feet.

The project is 1,000 feet from northeast and northwest lines of section 41, block 16, SPRR survey and 17 miles southwest of Westbrook.

Bottomed at 7,638 feet, the well finaled from the Ellenburger for a 24-hour pumping potential of 32 barrels of oil and 85 barrels of water, through perforations from 7,615 to 7,624 feet.

The Ellenburger will be temporarily abandoned.

#### **RANK PECOS TEST**

HNG Oil Co. of Midland No. 1-20 Allison is to be drilled as a rank 11,000-foot wildcat in Pecos County, 35 miles southeast of Fort Stockton.

Location is 990 feet from north and 1,980 feet from west lines of ection 20, block 2, TCRR survey.

The location is five miles southeast of the Allison Ranch (Wolfcamp) field which produces oil at 2,544 feet; 1/2 mile northwest of a 6,400-foot failure and three miles south of a 15,170-foot dry hole.

#### WARD WILDCAT

Gulf Oil Corp. of Monahans No. 4 P. Walker and others has been staked as a 7,150-foot gas wildcat in Ward County, nine miles northeast of Barstow.

The prospector is 467 feet from north and 1,320 feet from the most easterly east line of section 40, A. J. Wilson survey

It is a shallow pay wildcat in the

WT wildcats, discoveries announced gallons and the gas-oil ratio is 1,000-Quito, East multipay area and 3/4 mile northwest of production in the west side of the poquito (Delaware) field which produces at 5,032 feet. feet, the Dean at 9,258 feet, the Wood-

#### MIDLAND DISCOVERY

Wood & Locker, Inc., of Midland has completed its No. 5 T. A. Golladay as a San Andres discovery in the Azalea multipayfield of Midland County, 7.5 miles east of Midlnd.

The oprator reported a 24-hour pumping potential of 400 barrels of 23-gravity oil, no water, through perforations from 4,159 to 4,163 feet. The pay was acidized with 10,500 gallons. Total depth is 4,170 feet; 5.5-inch pipe is set at total depth and plugged

back depth is 4,167 feet. The top of the pay and the top of the San Andres is at 4,110 feet on ground elevation of 2,704 feet. The Grayburg was topped at 3,835 feet.

The operator originally filed No. 5 Golladay in the Azalea (Grayburg) field.

Wellsite is 1,613 feet from north and 2,750 feet from west lines of section 55, block 37, T-2-S, J. L. Veazey survev.

#### MARTIN WELL

**RK** Petroleum Corp. of Midland No. 3 Paisano-Woldcatt, drilled as a wildcat in Martin County, has been completed as a well in the Spraberry Trend Area field. Hole is bottomed at 12,050 feet and

seven-inch casing is cemented at 12,-036 feet.

On 24-hour potential test the well flowed 100 barrels of oil and no water. through a 14/64-inch choke and perforations opposite the dean from 9,261 to 9,267 feet.

The pay was acidized with 4,000

Aidland Texas

Meadco Properties of Midland No 2-19 E. Sugg has been completed from the Canyon 7/8 mile northwest of the discovery well of the Ela Sugg (Canyon) pool of Irion County, 17 miles northeast of Barnhart.

The well finaled on the pump for 22 barrels of oil, gravity not reported, and 40 barrels of water, with a gas-oil ratio of 182-1. Completion was through perfora-

tions from 7,392 to 7,607 feet after a 63,000-gallon fracture treatment. Total depth is 7,750 feet and 4.5-inch

casing is cemented at plugged back depth if 7,730 feet.

Wellsite is 4,400 feet from northand 660 feet from west lines of section 19, block 27, H&TC survey.

## Jerry Jeff Walker singing country outlaw

SAN FRANCISCO (AP) — Jerry Jeff Walker, the country outlaw who sings about freedom of the road, good women loving bad men and just getting by, teeters on the brink of a new night in a new town.

Settling into his hotel, he surveys his luggage - saddle bags, a tattered leather suitcase and a couple of bulging duffle bags. "Oh, my God," he says, slapping his forehead. "My hat."

A quick call gets him the airline that brought him from Dallas, in the process telling his story to anyone who'll listen, from airline ticket agent to hotel bellboy.

"Jerry Jeff Walker calling. I lost a piece of luggage. It's a hat box and there's a cowboy hat in it. It says 'Texas Hatters' on the cover.'

Finally he's assured that the airline has his hat and he'll have it for that night's show, one of more than 200 one-night stands he does each year.

What a beautiful hat," he says, his hands near the close-cropped graying hair on his temples, shaping a brim. "It rides just right, it's got a new band, all boned, and it's been reshaped. It's beaver suede.

In a gait that's mostly long legs and cowboy boots following a lean carcass, he heads for a table holding a Mason jar with a milky mixture of wheat germ, vitamins and fresh fruit juice.

Fruit juice? This must be the wrong Jerry Jeff Walker. What of the renegade who, with his Lost Gonzo Band, became a Texas legend with his drinking and carrying on? Where's the carouser who often failed to make shows, and when he did, often had to be propped on a bar stool, even then sometimes losing his balance and crashing to the stage? What of the outlaw who once noted: "It's hard to sing when you're throwing up."

"I've been on a little bit of a health kick the last couple months," he says, mentioning a baseball player who left his team for a hospital to battle alcoholism.

"I'm like him. I still want to play ball, but I want to be sober when I get down behind the plate.'

He's on the phone again, telling one of the musicians in his five-piece band about some new equipment, pointing out that they can "sell the old stuff and maybe we'll break even.

Breaking even has been on 38-year-old Walker's mind a lot lately.

While he's got a fiercely loyal following, a long string of albums and royalties from the many songs he's written, including "Mr. Bojangles," he's never really met with commercial success.

He's had trouble with the Internal Revenue Service and credit card companies that don't realize "on the road you're spending more than you're making.'

While he acknowledges he's no big hit with bill collectors and tax men, he's confident of the image he projects to the honky-tonkers, good ol' boys and urban cowboys that are his public.

"I'm as honest as I can be. If I have to bull a little bit, I will. But when's it's 100 percent honest the magic comes. The magic," he adds, "they can tell. That's what happened with 'Mr. Bojangles.'

The songs he writes reflect his own life. "I can't make things up," he says. And songs he sings take on his distinctive style. "I just seem to Walker-ize them."

Whether it's a gentle ballad like "Derby Day," a love song dedicated to his wife, Susan, or a hard rocker like "L.A. Freeway," Walker sings in a coarse, rumbling voice that can slide down an octave or so when the range gets a bit too high, to a ragged bass that, if still a bit rough, at least sounds comfortable.

His eyes, cloudy and veined from too many sunny Luckenbach days and smoky Austin nights, twinkle when he describes the musical odyssey that took him from his upstate New York birthplace to the center of Texas' Willie Nelson-Waylon Jennings country outlaw circle. "I hung a left."

He turns to lead guitarist Bobby Rambo. 'Hey, Rambo, let's walk down to the club and try out the new amp. We'll come back to the hotel. I'll get my hat, get cleaned up, change clothes and we'll come back and hit the stage running."

Several hours later, Walker sings to a full house. He's wearing the same faded blue jeans and scuffed, cream-colored boots he wore while checking in. He's bareheaded. He didn't hit the stage running, but it was fast enough to get him seven standing ovations.
