American officials wait out final stages of 'Freedom Flotilla'

KEY WEST, Fla. (AP) — American officials say they will wait out the final stages of the Cuban refugee boatlift until they are certain the ragtag "Freedom Flotilla" has ended.

"We will be here until we are sure there are no more," said a sunburned U.S. Immigration officer about the seven-week seafit.

Estimates of the number vessels remaining in the Cuban port of Mariel range from 15 to 25. One boat captain said it is impossible to know the exact number because many have been traded to Cuban officials for relatives.

Other vessels there might be inoperative and abandoned, said another skipper.

One large shrimp, which carried 235 people, and four other boats arrived here Monday, boosting the grand total of Cubans seeking new homes in this country to more than 112,500.

Monday's arrivals included 19 refugees who were plucked from a sinking craft in a dramatic nighttime rescue.

The 68-foot shrimp Miss Too Nicey towed the disabled 30-foot Rachel II almost all the way into port after

rescuing the 19 passengers and crew of the pleasure craft Noemi in the Florida Straits.

"If he hadn't come along, we would all have drowned," said Orlando Rabeiro of Tampa, skipper of the Noemi. "I would not be standing here talking to you if Miss Too Nicey hadn't been there."

No one was seriously hurt in the incident, authorities said.

Captain Walter Noyes of the Miss Too Nicey said it was impossible to tell how many American vessels might be waiting to load refugees at the Cuban port of Mariel.

"Some of the boats were traded for relatives and left there," he said. "The Cubans also have eight or 10 big ships in there, and you can't tell what's in back of them...There's just no way to tell."

Federal agencies processing the refugees — Customs, Immigration, Border Patrol — cut their staffs to the minimum over the weekend. The Federal Emergency Management Agency, which has coordinated the government handling of refugees, transferred most of its personnel to various processing and relocation centers around the country.

While riot-equipped soldiers stand guard outside a military barracks during a surprise security check, a seemingly disinterested Cuban appears unconcerned. Two other Cubans were arrested for operating a still inside the barracks. (AP Laser-photo)

OPEC agrees to cut production

Associated Press Writer

* ALGIERS, Algeria (AP) — The 13 Organization of Petroleum Exporting Countries tentatively agreed today on the need to cut oil production, but Saudi Arabia, the world's leading producer, said it would not cooperate without an accord on prices, Venezuelan Oil Minister Humberto Calderon Berti said.

Iranian Oil Minister Ali Akbar Moinfar said after the first round of closed-door talks that oil ministers had agreed on the need to reduce OPEC output to 26.5 million barrels a day. OPEC now produces about 27.5 million-28 million barrels daily.

Ministers of the 13-nation group were scheduled to discuss the sensitive pricing issue later today, but Kuwait Oil Minister Ali Khalifah al-Sabah said there was "not yet" the basis for an accord.

"We are still arguing," said Calderon, the Venezuelan delegate.

Iraq has proposed that all OPEC nations charge \$32 a barrel for their oil. Under the proposal, OPEC hawks — including Iran — would have to drop

present prices by \$3 a barrel, middle-of-the-roaders would raise theirs \$2 and Saudi Arabia, which produces one-third of all OPEC oil, would increase prices \$4.

But Moinfar said "there was no way" Iran would decrease prices, that he was "sure" there would be no agreement and that along with Algeria, Libya and Nigeria, Iran will continue to sell oil for as much as it can get for it.

Iraq and Iran are at ideological odds and recently have engaged in sporadic fighting along their border. Iran accuses Iraq of being a stooge of the United States.

Conference sources said without a compromise, prices would stay about the same for the rest of 1980. Analysts here say disunity within the oil cartel saves money for oil consumers, including the United States.

The sources said during the session Monday night that Iranian Oil Minister Ali Akbar Moinfar accused Iraq and Saudi Arabia of "serving American imperialism by raising production rates."

They said Iraqi Oil Minister Tayeh Abdel-Karim shouted back that Iraq was

the first power in the Organization of Petroleum Exporting Countries to nationalize Western-owned oil operations.

The sources said Saudi Arabia's minister did not even attend the session and Qatar's minister walked out of the hall in the middle.

"The most important thing is not the price but production," Moinfar told reporters, adding that he and other OPEC militants would press for Saudi Arabia to cut its output. Conference sources said the Saudis, who produce one-third of OPEC's output at 9.5 million barrels a day, were resisting the pressure to decrease production levels by 1 million barrels daily.

Qatar sources, meanwhile, said Iran was also urging a cut in production by Iraq, OPEC's second largest producer with daily production of 3.5 million barrels.

Production levels are a key issue because a "mini-glut" of oil on world markets is making it difficult for those OPEC members whose oil is expensive to sell their crude. OPEC officials estimate the current world surplus at about 1 million barrels a day.

Kennedy kept off platform

By the Associated Press

Sen. Edward M. Kennedy wanted to be in Seattle today, as invited, to address the U.S. Conference of Mayors. So did President Carter. And the White House saw to it that Carter was, and the senator from Massachusetts wasn't.

Kennedy presumably could have shared the Seattle forum had he dropped his challenge to Carter's renomination for a second term during their meeting at the White House last week.

But Kennedy's refusal to do that was rewarded today with a lesson in the kind of power politics that falls uniquely within the domain of an incumbent president.

Being muscled off the platform in Seattle by the White House clearly angered Kennedy, who has been frustrated for months in his attempts to lure Carter into a debate, which Carter — with more than enough delegate votes to win the Democratic nomination — doesn't need.

While the president's camp worked to keep Kennedy from the same stage, meanwhile, the Democratic National Committee aimed its efforts at keeping independent challenger John B. Anderson from the same

ballot this fall, underscoring party concern that he would hurt Carter more than Republican Ronald Reagan.

DNC leaders said their decision to wage a court battle over Anderson's ballot-access drive was necessary, in part, because Republican election officials are making it all too easy for the Illinois congressman in some states.

The president flew to Seattle early

today after a tour of riot-scarred Miami, where he vowed Monday to hold firm on his fight against inflation. But the mayors have said they're more interested in having him prime the employment pump.

So, too, is the Congressional Black Caucus, which accused the president Monday of "trading off jobs to the vain hope that this will solve inflation."

Kennedy, who hoped to share the

president's limelight at the mayor's conference by appearing within an hour of the chief executive, was left to deliver his urban speech to a union group in Anaheim, Calif., instead.

Presidential press secretary Jody Powell said the White House objected to the same-day appearances because Kennedy previously had accepted an invitation to speak Wednesday and tried to change it to today only after learning of Carter's schedule.

Bottles, boos greet president in Miami

MIAMI (AP) — President Carter says he didn't notice the rocks and bottles tossed at his motorcade by a jeering crowd, but the mayor of this racially torn city is worried that the incident could spoil any benefits of the president's visit to a riot-scarred neighborhood.

It was one of the most violent encounters in Carter's presidency.

One photographer was hit with a bottle, but no one was reported hurt — or arrested — when 600 people scrambled for safety late Monday as the motorcade was bombarded. Carter had waved to the crowd, at which point the crowd began booing and shouting insults. When the rocks and bottles came, Carter ducked into his car and sped off.

Dade Metro Police Cmdr. Douglas Hughes said "a few kids at the back of the crowd" had thrown the debris.

The incident, which followed demonstrations by blacks and Cuban exiles, occurred as Carter left a meeting with black leaders in Liberty City, the neighborhood burned and looted last month in racial riots that claimed 16 lives. Police in riot gear cleared the block and the only damages reported were broken windows on another motorcade vehicle. Carter's car was nicked by a beer bottle.

"I think the bottle-throwing incident is a natural expression of people who are frustrated," said Mayor Maurice Ferre. "Most of the crowd wasn't involved...I don't think they were throwing bottles at Jimmy Carter, but at the presidency. This is a continuation of the other — it is an

expression."

Ferre said he feared "this one little incident that took five seconds" would detract from Carter's attempt to soothe raw nerves in the black and Cuban communities with promises of jobs, justice and compassion.

Ferre said the president did not make specific commitments to provide assistance to the riot area. "It was a bland meeting — we did not come forth with an organized plan. He made no commitments and wasn't asked to make any," Ferre said. "It was a missed opportunity."

"So far as the demonstrators are concerned, I didn't see them," Carter said later on arrival in Seattle, where he is to address big city mayors. "But they have a problem in that area that we're all working together to try to solve."

White House press secretary Jody Powell, asked Carter's reaction to the incident, said, "His feeling was that it was a worthwhile visit and that it was important that he came." Presidential aide Jack Watson said a program of aid for Miami is expected to be ready in two weeks.

Carter's visit was his first to South Florida since the May rioting sparked by the acquittal of four white former policemen charged in the beating death of a black businessman. It also was his first contact with Miami's Cuban exile community since the Freedom Flotilla, which has brought more than 112,000 refugees to the United States, began seven weeks ago.

Quake shakes Panhandle

AMARILLO (AP) — One woman said her house swayed, but no damage or injuries were reported from a small earthquake that rumbled through the Texas Panhandle and western Oklahoma Monday evening.

The U.S. Geological Survey's Earthquake Information Center in Golden, Colo., said the 5:37 p.m. CDT tremor registered 3.6 on the Richter scale.

The National Weather Service here said the quake, which lasted only a few seconds, was felt 70 to 80 miles from the epicenter in the Miami area of the eastern Panhandle.

"It shook parts of Gary, Hudson, Carson and Potter counties," a NWS spokesman said.

Earthquakes are "not very common, but they're not

that uncommon" in the Panhandle, he said. "They're not rare."

"We first thought it was a sonic boom or an explosion," said Fire Chief Pleasant Meadows in White Deer, Texas, northeast of Amarillo.

The Richter scale is a measure of ground motion as recorded on seismographs. Every increase of one number means a tenfold increase in magnitude. An earthquake of 3.5 on the Richter scale can cause slight damage in the local area.

The San Francisco earthquake of 1906, which occurred before the Richter scale was devised, has been estimated at 7.9 on the Richter scale — about 10,000 times stronger than Monday's disturbance in the Panhandle.

Courthouse security plan OK'd

But sheriff's original idea modified

By LANA CUNNINGHAM
Staff Writer

Midland County Commissioners took another shot at playing with the roulette wheel Monday, but wound up back on square one when it came to a security plan for the county courthouse.

Sheriff Dallas Smith had presented a security plan to the commissioners in a previous meeting and a decision on the matter had been tabled. Briefly, the plan requires all county employees and visitors to the courthouse after working hours to go through the entrance at the sheriff's office and sign in with the radio dispatcher.

If the commissioners didn't want to go with the plan for the courthouse, Smith asked permission to use it for his own department, located on the ground floor at the courthouse.

The sheriff's original plan was

adopted with the change that certain elected officials and county employees could be issued a key if it is requested. This way, they bypass the sheriff's office.

For a security plan to be effective, Smith said everyone had to participate. He would be the person in charge of the program, "and if it didn't work, I would be responsible for it," he said.

Commissioner Win Brown made a motion to adopt the plan.

But another commissioner, Charlie Welch, opposed the motion, saying "I hate to do it (the program) right now."

His major objection was to the idea that only Smith would have a key.

Backing up Welch was Commissioner Durward Wright. "I don't think we need to shut down everything to this extent," he said of Smith's proposal.

Welch proposed going with "a minimal amount of security" and began

outlining what he meant, despite suggestions coming simultaneously from Brown.

"I think y'all are saying the same thing," Smith interjected into the two conversations.

Welch and Wright said some department heads and elected officials voiced their opposition to not having keys, feeling some "freedoms" were being taken away by Smith's plan.

But County Judge William Ahders pointed out that if there is a burglary in the building, it's up to Smith to solve it. By limiting the keys and making visitors sign in, the investigation would be narrowed down to a few people.

Around and around the discussion went until at one point Brown said he was "ready to chunk the whole dang thing. We're getting hung up because some elected officials want to carry a key."

Wright finally proposed an amend-

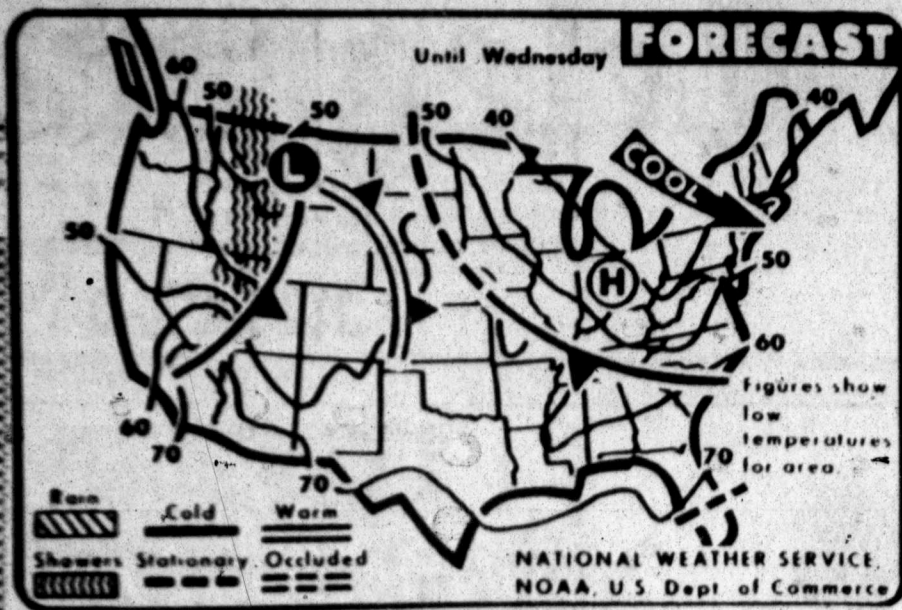

ment which would allow any elected official or department head who wanted a key to request it from the sheriff and sign for it.

The amendment passed, along with the motion, after Brown explained to a dubious Commissioner Jack Leonard that "if you're in favor of the amendment, you're in favor of the motion."

The commissioners also approved a policy for FBI academy applicants and an overtime policy which the sheriff described as "pay now, explain later."

In other action, the board approved appointments of W.W. LaForce Jr., Mary Hinkle and W.E. Shipp, authorized advertisement for bids on equipment and agreed to request the Texas State Department of Highways and Public Transportation to extend Loop 250 to connect with Texas Highway 307.

WEATHER SUMMARY

Showers are expected today through Wednesday morning for the northern and central Rockies. Cool weather is forecast for the Great Lakes, Northeast and mid-Atlantic region.

Jordan witness says publicity could influence her lifestyle

FORT WAYNE, Ind. (AP) — Martha C. Coleman, in her first public appearance since Vernon E. Jordan Jr. was shot, says "national exposure" may make it impossible for her to resume the life she knew before a sniper attack on the black civil rights activist.

Meanwhile in Indianapolis, a 25-year-old black man who claimed he shot Jordan was taken to a hospital for a mental examination, police said.

Water park 'washed out'

Sometimes, too much water is not a good thing. Take the case of Wild River Canyon. The water fun park was scheduled to open today at 11 a.m. But Sunday's floods "washed out," so to speak, all plans for a big opening.

Volcano watchers wonder

VANCOUVER, Wash. (AP) — Mount St. Helens simmered down this morning, puffing only small steam plumes, while scientists wondered what's going to happen Friday the 13th when the moon's gravity tugs on the volcano.

County coroners, meantime, have scheduled a hearing for Wednesday on issuing "presumptive death certificates" for 46 persons missing since the violent eruption more than three weeks ago that killed 26. Many are thought to be buried in tons of mud and volcanic debris.

No seismic activity was reported at the volcano early today, said Don Eaton, federal emergency management agency spokesman, and the mountain was sending steam plumes only 100 feet into the air.

On Monday, steam had risen as high as 15,000 feet, accompanied by minor amounts of ash, most of which fell back into the crater, said Tim Hait, a U.S. Geological Survey geologist.

Scientists are excited about monitoring the mountain Friday as the moon exerts powerful gravitational pull on the volcano.

"It's going to be fun to see what happens," said Hait. "The kind of correspondence between volcanism and tidal influence gives us something to watch for."

However, he wouldn't predict what will happen.

The last time the moon's gravity exerted a powerful tug on the mountain and ocean tides was a few days preceding the volcano's massive explosion May 18.

Whether gravitational pull helped unleash the blast is anyone's guess, said Hait. The eruption was preceded by an earthquake measuring 5.0 on the Richter scale.

Hait said that may have caused a huge section of the mountain — "the cap so to speak" — to fall away, releasing tremendous pressure and triggering the explosion that ripped off at least the top 1,300 feet of what had been a 9,677-foot peak.

Meanwhile, Skamania County Coroner Bob Leick scheduled a hearing for 10 a.m. Wednesday in the Skamania County Courthouse in Stevenson that eventually will lead to issuance of "certificates of presumptive death" for the missing.

Further hearings will be scheduled for 10 a.m. June 16 and June 17 if necessary, he said Monday. "It will be in the form of a coroner's inquest," he said.

Eisenhower on ballot

GAINESVILLE, Fla. (AP) — Milton Eisenhower, brother of the late President Dwight D. Eisenhower, has been chosen as John B. Anderson's stand-in running mate so the independent presidential candidate can get his name on the ballot in Florida.

Campaign officials said the Illinois congressman asked Eisenhower last week to lend his name as a candidate for vice president on petitions to get Anderson on the November ballot.

Anderson must have the signatures of 42,172 registered Florida voters by Aug. 15 to qualify for the state's ballot.

Since dropping out of the Republican presidential race to run as an independent, Anderson has concentrated on trying to get on the ballot in enough states to give him at least a mathematical chance of being elected.

Odessan found dead

ODESSA — A 32-year-old Odessan found dead Monday morning in a railroad tank car on the southern edge of Odessa may have been the victim of an industrial accident.

Deputies for the Ector County Sheriff's Department were called to the Medical Center Hospital emergency room about 11:30 a.m. Monday, where the body of Steven Ansley had been taken following the mishap.

Co-workers of Ansley, an employee of El Paso Products Co., indicated the man had been working by himself about 20 minutes when he was missed. They searched for him and found his body inside the tank car, according to deputies.

Peace Justice Jimmy Harris was called to investigate, but could not be reached this morning for a ruling on the cause of death.

Exploring a landscape more akin to the swamps of Louisiana than West Texas, three Midland boys Monday were treated with more watery fun when the Grafa Park sprinkler system started.

Frolicking in the jet sprays are Chris Elgin (no shirt) and William Elgin (jumping over the sprinkler head), sons of Mr. and Mrs. Bill Elgin, 3106 Seaboard Ave. Also in on the wet fun was Chris Hoffman, son of Mr. and Mrs. Frank Hoffman, 3108 Mamar Ave. (Staff Photos by Edward McCain)

Sizzling, summery temperatures to return to Basin, weatherman says

After two days of cool relief, the Permian Basin should get back to the sizzling temperatures of summer, according to the National Weather Service at Midland Regional Airport.

Sunday's gully-washers trickled down to a few sprinkles and mist Monday. And those skies should be giving way to the sun's rays by Wednesday, the weatherman said.

Only a trace of rain was recorded Monday at the weather service office.

Kermit's crater stops growing — for now

KERMIT (AP) — The West Texas sinkhole, apparently satisfied after gobbling up a 50-foot chunk of earth, has stopped growing for the time being, but cracks extending from the crater continue to widen.

Winkler County Sheriff's Deputy Randy Tenney said the latest cave-in occurred early Monday on a corner of the chasm away from Petro Lewis Corp.'s oil well and Shell Oil Co.'s tank farm.

He said Shell workers were draining the tanks closest to the hole and rerouting some pipelines broken when the hole suddenly appeared last Tuesday. But a Shell spokesman said the drainage had nothing to do with the sinkhole.

"We drained 'em when we needed some oil to pump," he said late Monday. "It was just normal usage."

The spokesman also disputed officials' estimates that the crater had grown larger than three football fields. He said a measurement of the hole Sunday showed it was about 465 feet by 200 feet.

Cracks surrounding the sinkhole have crept to within 100 feet of the oil well and 300 feet of a highway, which has been closed to the public. Shell's tank farm remains several hundred feet from the cracks.

Petro Lewis workers capped the well with cement last week as a precautionary measure.

Cracks extending from the crater continued to widen Monday, and officials theorized a recent rain may have been a factor.

Carter defending urban policies

SEATTLE (AP) — President Carter comes to the defense of his urban and economic policies today in an address to the nation's mayors after the White House forced cancellation of a rival speech by Sen. Edward M. Kennedy.

Carter flew to Seattle from Miami, where he vowed on Monday to hold firm on his fight against inflation. The mayors meeting here, meanwhile, are demanding that he concentrate more on easing unemployment.

The president also came under fire from the Congressional Black Caucus, which accused him of "trading off jobs to the vain hope that this will solve inflation," and from angry demonstrators in Miami who threw rocks and bottles at his motorcade as he left the city.

Carter was left with the spotlight for himself when the U.S. Conference of Mayors disinvited Kennedy — because the White House said having the two rivals for the Democratic presidential nomination appear on the same day was unacceptable.

"I can assure you that I was not particularly pleased with having to communicate that," said Mayor Richard Carver of Peoria, Ill., president of the mayors' conference.

Carver, a Republican who backs Ronald Reagan for president, said he made the decision "based on the reaction of the White House" to news that Kennedy had accepted the speaking invitation and planned to appear one hour after the president.

Both had been invited, but the mayors had told Kennedy they preferred that he appear on Wednesday.

However, they did not tell Kennedy he could not come today until after the White House objected.

"We discussed this with the White House, suggesting a number of alternatives, and they have informed us that no alternative is acceptable," Carver told reporters. "And so I have communicated to Senator Kennedy's staff that ... we will not be able to provide a forum for him Tuesday."

Carver said the mayors still wanted Kennedy to come on Wednesday, but Kennedy campaign headquarters said he would deliver his urban speech in Anaheim, Calif., today to a union meeting of state and local government employees and would pass up an alternate slot before the mayors.

In the Anaheim speech, in which he proposed a \$12 billion anti-recession program, Kennedy took note of the abrupt withdrawal of the invitation.

"You see, I was supposed to speak just half an hour after the president," the senator said. "He says he wants to bring the Democratic Party together, but apparently that was too close for comfort. Maybe he was afraid he would talk too long and I would show up — and he would have to debate."

Iranian who 'helped Zionism' executed by Terhan firing squad

By The Associated Press

Sixteen persons were executed by firing squad in Tehran today, including the head of the Iranian branch of Pepsi-Cola who was convicted of "helping Zionism" and other charges.

Tehran Radio, meanwhile, praised Ramsey Clark as a "true patriot of America" and warned President Carter not to prosecute him. Clark, a former U.S. attorney general, defied Carter's travel ban and attended the "Crimes of America" conference in Tehran last week. He urged Iranian authorities to release the 53 U.S. hostages seized Nov. 4 and said the U.S. government should apologize for past interference in Iran.

Iran's official Pars news agency said those executed today included Yousef Sobhani, head of the Zamnan Co., the Iranian division of Pepsi, and five others convicted of "corruption on earth," sabotage, murder and counter-revolutionary acts.

Other charges against Sobhani included murdering a "fighter" 17 years ago and collaborating with Savak, the secret police under the deposed shah, and the martial law administrator's office. The Zionist charge against him was similar to one leveled against Albert Danielpour, a leader of Iran's 40,000 Jews, who was executed Thursday in the Iranian town of Hamadan 175 miles southwest of Tehran.

Danielpour, a member of a wealthy Jewish family, was convicted of spying for Israel and supporting former Prime Minister Shahpour Bakhtiari. The execution underscored fears among expatriate Iranian Jews that Iran's Islamic regime is purging the country's Jewish community.

Since the Iranian revolution 16 months ago, about

30,000 Jews have fled Iran. A member of the Israeli Parliament said last week there are currently more than 60 Jews awaiting trial in Iranian jails.

In Tel Aviv, an Israeli Radio expert on Iran said Sobhani was a Bahaist, not a Jew. The Bahaists, who favor the unity of all religions and advocate an international language and government, have their administrative offices in Haifa, Israel, and their faith center in Wilmette, Ill., a suburb north of Chicago.

Pars said the other 10 persons executed today were convicted of drug smuggling, owning "immoral centers of adultery and prostitution" and "selling girls and boys."

Teachers reject forced membership

AUSTIN — Rae Juan Markunas, president of the 36,000-member Texas Classroom Teachers Association, announced Monday that the TCTA had voted overwhelmingly, by a 3 to 1 margin, to reject a mandatory membership requirement in the Texas State Teachers Association-National Education Association.

The classroom teachers association is currently the largest department affiliate of TSTA-NEA. Ms. Markunas pointed out that "what TSTA has referred to as a 'deunification' vote means that Texas Teachers will now have the option of joining TCTA without being required to also join TSTA-NEA."

Earlier this year, the TCTA Board of Directors called for an all member vote on the mandatory membership requirement. Each TCTA member was given the opportunity to vote as to whether TCTA members would or would not be required to hold membership in TSTA-NEA beginning this fall.

After announcing the results, Ms. Markunas took exception to one TSTA officer who was quoted as saying "the vote creates disunity among Texas teachers and allows the will of a very few to reduce the strength of many."

Markunas responded, "in a democratic society such as a TCTA, it is important to allow the membership the right to speak, and I am gratified that so many of our members have spoken so clearly."

"It appears that teachers are united against any attempt by TSTA to control the right of members to decide which professional association they want to join," she said.

The international accounting firm of Touche Ross and Co. was retained by TCTA to independently tabulate and certify the vote. Representatives of Touche Ross and Co. were present at the meeting and informed the Association officers of the results.

About 35 percent of the eligible TCTA members cast ballots and the mandatory membership requirement was rejected by a 75 percent margin.

'Tax protester' loses move to dismiss case

By ED TODD
Staff Writer

Austin B. Tibbetts, a former Midland optician who once headed up the income-tax protest movement tabbed the United Tax Action Patriots in Midland, lost another round Monday in federal court to get his case dismissed. U.S. Federal Judge Lucius D. Bunton ruled against a defense motion that Tibbetts was subjected to "discriminatory prosecution" by the government.

Tibbetts' attorney, Mark McClellan of Phoenix, Ariz., argued that his client was singled out for investigation of possible income tax evasion because he was vocal about his stance on income taxes and he freely aired his anti-Internal Revenue Service views in assemblies.

He said the case should be dismissed, for Tibbetts, 59, was exercising his First Amendment rights under the Bill of Rights to assembly and freedom of speech.

"I really think that any other conclusion is absurd because of the outspokenness and vocalism."

THE JUDGE apparently thought otherwise.

"I'm going to overrule the motion," Bunton said.

The judge also overruled other motions, including one to give Tibbetts access to grand jury minutes concerning him, another to postpone the trial, and yet another to dismiss the case against Tibbetts because he "was not properly informed" of his rights under the Privacy Act of 1974.

"The motion is overruled," said the judge, "although I do think it is an interesting point."

The judge ordered Tibbetts to trial Monday in federal court here. He currently is free under a \$100,000 bond.

Principal witness in the hearing was Jerry Stamps, group manager of the IRS's Criminal Investigation Division in Lubbock.

Stamps admitted that the Tibbetts investigation was triggered by Tibbetts' involvement in tax protest efforts. But otherwise his protesting had nothing to do with the prosecution.

INDICTMENTS against Tibbetts stemmed from his failure to file 1040 Forms in detail and to pay taxes.

Stamps alluded to Tibbetts and similar cases:

"If they have not violated the law, then we could not recommend that they be prosecuted," Stamps insisted.

The IRS agent conceded that Tibbetts' outspoken stand "had a bearing" on the investigation.

The IRS started its "preliminary check" on Tibbetts, who moved to Amarillo in 1976, in mid-1974. IRS Special Agent Bob Wilson was assigned to the Tibbetts case in 1975 and was succeeded by Special Agent F.R. Hunter.

Tibbetts was placed under surveillance by the U.S. Treasury agents.

"He was going in and out of tax protest meetings," Stamps observed. But he insisted that Tibbetts' outspokenness and his attendance at tax-protest meetings were incidental to the investigation and to subsequent indictments and prosecution.

Potts now ready to withdraw appeal, force his execution

ATLANTA (AP) — Jack Potts was going to court today for a meeting with a federal judge who wants to know why the convicted killer — who saved himself from the electric chair last week with a last-minute appeal — now wants to go ahead with the execution.

U.S. District Court Judge William O'Kelley, who granted an execution-eve stay when Potts asked to renew appeals he dropped last fall, released a letter Monday in which Potts requested that his execution be carried out. The letter was delivered to the judge Friday by Potts' mother, Carolyn Potts.

"I beg of you to please let me withdraw this appeal as quickly as possible," Potts wrote the judge. "Let me get a date set immediately and most of all let me die while in a state of grace!"

O'Kelley ordered the 35-year-old prisoner to appear at a hearing today to determine whether he is competent to decide his fate and whether he understands what his decision means.

If Potts' request is granted, execution could occur within a month. He would be the first person executed in Georgia in 16 years and only the fourth in the United States in more than a decade.

50-year-old Canadian sentenced for illegal entry into United States

A 50-year-old Canadian who has a "long" criminal record was sentenced to one year in the penitentiary Monday afternoon by U.S. Federal Judge Lucius D. Bunton in Midland after he had pleaded guilty in federal court to illegal re-entry into the United States.

The man, Kenneth Daniels of British Columbia, was arrested in Valentine on March 28 and pleaded guilty in federal court in Pecos to illegal entry on May 27. He had been a trusty in federal custody in Pecos.

"The court just can't show a great deal of leniency," Judge Bunton told Daniels just prior to the sentencing. "You haven't been able to live in the

"No," he said, "that had nothing to do with it, except that it started us out" in the investigation "to determine that he had, in fact, broken the law."

TIBBETTS WAS indicted in February 1979 for failure to file proper income tax reports to the IRS for the calendar years 1974, 1975 and 1976 and for failure to pay the IRS taxes due.

The IRS alleged that in 1974 Tibbetts received taxable income of \$3,207.12, owed the IRS \$539.35, and failed to report \$7,753.50 in gross income.

In 1975, the IRS charged, Tibbetts received taxable income of about \$3,400.24, owed the IRS \$516.05 and failed to report \$7,748 in gross income. The IRS continued that in 1976 Tibbetts received taxable income of \$10,857.77, owed the IRS \$2,380 and failed to report \$14,854 in gross income.

Furthermore, the IRS, alleged that Tibbetts attempted to "evade and defeat" the income tax system by:

- Failing to make proper income tax reports.
- Failing to pay the IRS taxes due.
- Discontinuing use of checking accounts and using currency, money orders and cashier checks "to conceal his transactions."
- Preparing and causing to be filed "protest-type" 1040 Forms and failing to disclose his income, expenses and deductions to the IRS.
- Admitting orally and in writing that he didn't intend pay income taxes.

OFFERING TIBBETTS counsel were, other than attorney McClellan, Red Beckman, a self-avowed "freedom fighter" from Billings, Mont.; A.J. Lowery of Murrieta, Calif., publisher of the "Justice Times," a nationally-circulated tabloid newspaper which is devoted to "printing the news that's not available, apparently, to the national media," and wife, Peggy.

Beckman, an advocate-spokesman for tax protesters and other freedom fighters, said his followers' intent is to rid the American public of fear of the IRS.

"If the IRS can't get convictions, that will end the IRS — that's the end of fear," Beckman said moments before Tibbetts appeared in court. "Where did the IRS get its terror, get it power?" he asked rhetorically.

Beckman said the people are "the final chapter" in turning aside the IRS.

"When are the American people going to discover that the government is our worst enemy?"

After the hearing in which the judge overruled defense motions, Tibbetts and his counsel declined comment until next week during the trial.

In the trial, Tibbetts will be facing three counts of tax evasion and three counts of failure to file proper reports to the IRS.

The maximum penalty on conviction of income-tax evasion could be a \$10,000 fine and a five-year prison sentence on each count. The maximum punishment which could be assessed for failure to file could be a \$10,000 fine and one-year imprisonment on each count.

Prosecuting Tibbetts will be Assistant U.S. Attorney Wayne Speck of San Antonio.

Potts was sentenced to die for the 1975 kidnapping and murder of Michael Priest, a 24-year-old father of two.

Potts fired his attorneys last fall, converted to Catholicism, and said he would rather be executed immediately than continue living under what he considered intolerable prison conditions. He also complained of constant pain from a bullet lodged near his spine, a wound suffered in a shootout with police.

He was scheduled to die at 10:30 a.m. last Thursday. But at 7 p.m. Wednesday, after his brother and a former girlfriend pleaded with him all day, Potts agreed to authorize new appeals and named anti-death penalty attorney Millard Farmer to handle the case.

Potts' letter said he asked to appeal his sentence "to satisfy my brother...so he could know without a doubt he had done all he could do for me." Potts said he "had no idea the stay would be granted."

Farmer contended Potts was harassed by prison guards at the Georgia State Prison at Reidsville after the execution was scrubbed and the humiliation influenced his decision to drop his appeals.

Department of Offender Rehabilitation officials denied the charges.

There have been very short periods when you haven't been in some kind of trouble with the law."

Maximum penalty for the illegal-entry offense could have been up to two years in prison.

Daniels, who worked variously as a truck driver, building engineer and maintenance mechanic, was deported from the United States and was returned to Canada after he had served time on a five-year sentence he was given in state court in North Carolina in 1977 following a conviction for breaking and entering.

He is to be deported again after he serves the sentence Judge Bunton handed him.

THE NEWSPAPER BIBLE

But Christ can...and did!

The law is good, then, and the trouble is not there but with me, because I am sold into slavery with Sin as my owner.

I don't understand myself at all, for I really want to do what is right, but I can't. I do what I don't want to—what I hate.

I know perfectly well that what I am doing is wrong, and my bad conscience proves that I agree with these laws I am breaking.

But I can't help myself, because I'm no longer doing it. It is sin inside me that is stronger than I am that makes me do these evil things.

I know I am rotten through and through so far as my old sinful nature is concerned. No matter which way I turn I can't make myself do right. I want to but I can't.

When I want to do good, I don't; and when I try not to do wrong, I do it anyway.

Now if I am doing what I don't want to, it is plain where the trouble is: sin still has me in its evil grasp.

It seems to be a fact of life that when I want to do what is right, I inevitably do what is wrong.

I love to do God's will so far as my new nature is concerned;

But there is something else deep within me, in my lower nature, that is at war with my mind and wins the fight and makes me a slave to the sin that is still within me. In my mind I want to be God's willing servant but instead I find myself still enslaved to sin.

So you see how it is: my new life tells me to do right, but the old nature that is still inside me loves to sin. Oh, what a terrible predicament I'm in! Who will free me from my slavery to this deadly lower nature? Thank God! It has been done by Jesus Christ our Lord. He has set me free.

False alert 'confirms confidence'

Malfunction proves complex 'fail-safe' system works

WASHINGTON (AP) — Military professionals say last week's false warnings of Soviet missile attack confirmed their confidence in the U.S. alarm system, even though a computer malfunctioned.

They say their ability to determine — within three minutes or less — that no attack was in progress reinforced their belief that the complex system is fail-safe against a mistaken U.S. response triggering nuclear war.

"The computer is like a burglar alarm," said one officer, who asked not to be identified. "It makes you go see whether your house is threatened."

Alerted by last week's computer alarms at North American Air Defense Command headquarters, watch officers sprang to study direct readouts from satellites more than 22,000 miles in space and a variety of ground-based radars in Alaska, Greenland and England.

Billions of dollars' worth of electronic sentinels, some equipped with infrared devices that can spot heat plumes from Soviet missiles the instant they take off, constantly monitor possible approaches of Soviet attack.

Last week, according to Pentagon officials, all these watchdogs registered negative after the computer alarm, indicating no actual missile launchings from submarines or from inside Russia.

The experts then concluded that the NORAD computer, which is supposed to collect data from the satellites and radar stations, had erred.

The episode points up, however, that potential life-and-death judgments must be made in a matter of minutes. That is because nuclear missiles can hit U.S. bomber bases from Soviet submarines in as little as nine

minutes. The total flying time of a land-based missile from inside the Soviet Union to a U.S. target is 30 minutes.

Only the president may order the firing of strategic nuclear weapons, and Pentagon authorities said senior military officers last week reached the false-alarm conclusion before it was necessary to disturb him. Top defense officials were not notified, either.

Last November, it took six minutes to make sure a false alert flashed from NORAD was caused by a test tape fed into a computer by mistake. Officials said at the time that had the error not been "absolutely confirmed" within another minute or so, President Carter and Defense Secretary Harold Brown would have been informed.

Last week, when the missile alarm registered on the computer in NORAD's Cheyenne Mountain command post at Colorado Springs, Colo., high officers of NORAD instantly consulted with generals at the Strategic Air Command in Omaha, Neb., and at the National Military Command Center in the Pentagon.

The White House Situation Room, manned by crisis specialists, was notified. Following standard operating procedure, word was flashed to all major commands in Europe, the Pacific and elsewhere so they could take any steps they considered necessary to prepare their forces.

Meanwhile, crews of B-52 and FB-11H strategic bombers on ground alert were ordered to man their planes and start their engines for a speedy take-off. But they were kept on the ground.

Missilemen manning the 1,054 U.S. Minuteman and Titan intercontinental weapons in their underground

capsules also were warned to heighten their alert last Tuesday.

Up to 30 percent of the nation's 510 strategic bombers are maintained on ground alert at all times. There is also a SAC command plane aloft 24 hours a day to prevent U.S. bomber and missile forces from being immobilized because of a Soviet missile hit on the

SAC underground command post. The SAC commander, Gen. Richard Ellis, has authority to scramble his planes, but he cannot send them past a "fail-safe" line toward the Soviet Union without specific presidential order. No bomber may head for its target without an authenticated voice order.

President to tour tornado damage

GRAND ISLAND, Neb. (AP) — One week after tornadoes swept through Grand Island, killing five and injuring more than 200, President Carter was to take a whirlwind tour of the devastated city.

Carter was scheduled to arrive today, meet with local officials and tour the area by car.

"I hope he can lift some flagging spirits," Rick Semm, information officer for state Civil Defense, said Monday. "The blues are setting in."

Semm, who grew up in this eastern Nebraska city of more than 30,000 residents, said the full impact of the disaster "is just sinking in. People are more and more depressed and they're getting very tired."

Grand Island Mayor Robert Kriz echoed the growing feeling of frustration and fatigue. He told a City Council meeting Monday night that officials, too, are tired.

"We're not accomplishing our goals of the day," he said. "But we'll try — bear with us."

Kriz acknowledged that he was "overwhelmed with the courage of Nebraska people and Grand Island people."

"But after 10, 15, 20 days, people are going to become uptight," he cautioned. "It's a normal psychological effect."

The mayor also said that a car, pickup truck and two horse trailers were pulled Monday from a water-filled sandpit just east of the most heavily-damaged area. All the vehicles were empty.

Authorities had feared one or more of those on the missing list might have died when the vehicles were blown into the water by the storms. Divers had been hampered in the search by poor visibility in the water.

Last week's storm spawned more than seven tornadoes in the area with six confirmed touchdowns in Grand Island.

Gov. Charles Thone Monday released figures projecting damage to private property at \$116 million, public property losses at \$15.1 million, and damage to public schools at \$6.5 million.

The tornadoes caused an estimated \$5.1 million damage to Hall County's agricultural sector alone, authorities said Monday.

Rodney Youngquist, county executive director of the Agriculture Conservation and Stabilization Service, said the damage figure includes "17 total wipeouts — farmers who lost everything — 11 farmsteads with major damage and 20 more with medium damage."

Authorities Monday cut the official list of "unaccounted for" to four.

In addition, about 200 National Guard troops from surrounding cities were being withdrawn from Grand Island on Monday after spending nearly a week patrolling the city.

Lt. Col. Larry Hennings said 77 guardsmen from Grand Island would continue to assist local police until it is determined they are no longer needed.

Rural Mexican area recovering from quake

MEXICALI, Mexico (AP) — Residents in this rural area of northwestern Mexico today were recovering from a devastating earthquake that left at least one dead, scores injured and hundreds homeless.

Residents in the farming village of Oaxaca, 23 miles southeast of Mexicali and hardest hit by the rollin tremors, were without water and utilities Monday. Boiling water seeping through cracked ground from around a nearby geothermal plant flooded the town's streets.

"There is destruction everywhere you look,"

said Enrique Hage, spokesman for the civilian auxiliary of the Mexican Red Cross.

In Victoria, a village located 43 miles south-east of Mexicali, numerous homes were damaged or destroyed.

The quake struck last Sunday night, and sent shock waves north through California and Arizona.

DEATHS

Fred Coleman

BIG SPRING — Services for Fred Coleman, 61, of Big Spring were to be at 4 p.m. today in Nalley-Pickle Funeral Home Rosewood Chapel. Burial with Masonic graveside rites was to be in Trinity Memorial Park.

Coleman died Sunday in a Midland hospital after a brief illness.

He was born June 11, 1918, in Big Spring. He was married March 22, 1940, to Naoma Phifer in Carlsbad, N.M. Coleman, a lifetime resident of Big Spring, operated a drive-in restaurant and was a retired electrician. In recent years he had been involved in real estate management.

Coleman was a member of the Baptist Church, Big Spring Masonic Lodge No. 1340, AF&AM; chapter 178 RAM, the Big Spring Council 117; R&SM; and the Big Spring Commandery No. 31 KT; the Lubbock Consistory of the Scottish Rite; the Suez Shrine; and the Mullins Lodge, International Order of Odd Fellows.

Survivors include his wife; a son, Fred Coleman Jr. of Big Spring; a daughter, Cindy Coleman of Big Spring; and two grandchildren.

Dorothie Salmon

Services for Dorothie Salmon, 59, 922 N. Loraine St., are pending with Kraer Funeral Home in Deerfield Beach, Fla. Newnie W. Ellis Funeral Home handled local arrangements.

She was found dead Saturday near Interstate 20 and Rankin Highway.

Mrs. Salmon was born Oct. 9, 1920, in River Edge, N.J. She had lived in Midland eight years. She was employed by Kelly Girl.

Survivors include a son, W.R. "Bill" Cooper of Deerfield Beach; and a granddaughter.

Joe W. Loe

LAMESA — Services for Joe W. Loe, 43, of Lamesa were to be at 11 a.m. today in Downtown Church of Christ with burial in Lamesa Memorial Park under the direction of Branon Funeral Home.

He died Sunday in a Lubbock Hospital following an illness.

Born and raised in Lamesa, Loe was a U.S. Army veteran and farmer. He was a 30-year member of the Church of Christ.

Survivors include his mother, Mrs. R.C. Hunt of Lamesa; and two sisters, Latrice Paxton of Lubbock and Mary Archer of Seminole.

Paul C. Earl

Services for Paul C. Earl, 73, 2308 Golf Course Road, were Friday in Newnie W. Ellis Funeral Home chapel. Burial was in Fairview Cemetery.

Pallbearers were Mike Duncan, Kevin Conklin, B.J. McCabe, J.C. Brown, Steve Massey and J.D. Adkins.

Ora Freeman

PLAINVIEW — Services for Mrs. John W. (Ora) Freeman, mother of Louise Harris of Midland, will be at 10:30 a.m. Wednesday in the Colonial Chapel of Wood-Dunning Funeral Home in Plainview.

Burial will be in Plainview Memorial Park under direction of Wood-Dunning Funeral Home.

Mrs. Freeman, 70, died Sunday in an El Paso hospital after an illness.

A native of Rush Springs, Okla., she moved to Truth or Consequences, N.M., in 1971. She was a member of the Church of Christ.

Survivors include four sons, two

daughters, a sister, a stepsister, a half-sister, a stepbrother, 19 grandchildren and five great-grandchildren.

C.L. Cecil III

BIG LAKE — Services for Charles Leonard Cecil III, 32, of Big Lake were to be at 10 a.m. today in Hubbard-Kelly Funeral Home chapel of Odessa. Burial was to be in Sunset Memorial Garden.

Cecil died Saturday of injuries received in a car accident.

He was born Aug. 13, 1947, in Odessa. He had served in the U.S. Marine Corps from 1965 to 1969. A driller, Cecil was married Sept. 30, 1975 to Cerrie Barnett at Lovington, N.M. They moved to Big Lake from Odessa a year ago. He was a member of the Baptist Church and the Veterans of Foreign Wars.

Survivors include his wife; a son, Charles Cecil IV of Big Lake; his mother, Nora Mae Haines of Alaska; his father, Charles Cecil Jr. of Odessa; two sisters, Susie Ott of Odessa and Judy Burnim of Aumsville, Ore.; and his grandmother, Ada Cecil of Odessa.

Joncie Hacke

Services for Joncie Hacke, 58, 2304 Culpepper Drive, were to be at 10 a.m. today in the First Baptist Church with the Rev. Bob Porterfield officiating, assisted by the Rev. Roy Corley. Graveside services were to be today in Woodlawn Garden of Memories in Houston directed by Klien Funeral Home in Tomball. Local arrangements were being handled by Newnie W. Ellis Funeral Home.

Mrs. Hacke died Saturday in an Odessa hospital following a lengthy illness.

Pallbearers were L.E. Sloan of Monahans, Dr. C.S. Patterson of Odessa and L.H. Byrd, Harold Davidson, Victor Horn and A.J. Tisdale, all of Midland. Honorary pallbearers were Ed Lookabaugh and Martin Dehlinger.

Rebels massed outside Kabul

ISLAMABAD, Pakistan (AP) — As many as 20,000 Moslem rebels were massed around Paghman and nearby communities 15 miles west of Kabul today, according to diplomatic sources quoting reports from the Afghan capital.

Rebel forces, possibly aided by well-armed Afghan army defectors, began gathering in the mountainous area above the mile-high Afghan capital about a week ago, the sources said. They declined to be identified.

No incidents have been reported so far inside the capital, which the sources described as tense but quiet. Soviet troops, in Afghanistan since December to help the Marxist regime fight the Moslem insurgents, moved to defend the capital city.

In outlying areas, rebel raids were reported near Jalalabad, an important trading center east of Kabul near the Pakistan border. Vehicles on the Jalalabad-Kabul highway have been ambushed by rebel snipers recently, a diplomatic source reported.

The southern Afghan city of Kandahar was described as "troubled" but Soviet troops continued their armored encirclement of the provincial capital, the source said.

Kabul Radio also reported that "poisonous gas" was used by "imperialist" agents at Kabul's Saroya girls school and 158 girls were taken to hospitals.

Two bombs explode today in Tel Aviv

By The Associated Press

Two bombs planted by Arab terrorists exploded in a Tel Aviv suburb today, and the city's police warned that Palestinian guerrilla organizations might be planning a letter-bomb blitz. Meanwhile, President Carter's plan to resume the talks on Palestinian autonomy appeared to be moving forward.

One bomb was planted at a military pickup point in Peah Tikvah for soldiers traveling to their base, and the second in a trash bin in the town, about six miles from Tel Aviv.

Authorities reported no injuries or damage, but said: "Check all your mail carefully for name, return address and size. If you have any suspicions, report immediately to the police."

Arab guerrilla groups have threatened to step up their attacks from Lebanon, and more recently from Jordan, in response to the sudden escalation of violence in the occupied West Bank.

Egypt has accepted Carter's proposal that Egyptian and Israeli negotiators meet in Washington to try and break a month-long deadlock in the Palestinian autonomy talks. Israel has said it may send its negotiator to Washington this week, but has not commented directly on Carter's offer.

Secretary of State Edmund S. Muskie urged Israel and Egypt to work for a political climate that would aid the talks. However, Muskie also denounced new Israeli settlements on the West Bank of the Jordan as disrupting chances for an agreement on the future of the Palestinians living there.

"If negotiations are to succeed, no party should take steps on its own that prejudice the outcome," Muskie said in his first speech on the Middle East

since becoming secretary of state last month following the resignation of Cyrus Vance.

President Anwar Sadat, who announced the Egyptian decision Monday, said his government was consulting Washington on a date. Senior foreign ministry sources in Cairo said Egypt proposed the first week of July. Sadat said Egypt would make its decision known "in a few days."

Israeli Prime Minister Menachem Begin has said Interior Minister Yosef Burg, who has led the Israeli delegation at the autonomy talks, may go to Washington this week to discuss a date for resumption of the talks. He declined to say whether Carter had invited Burg.

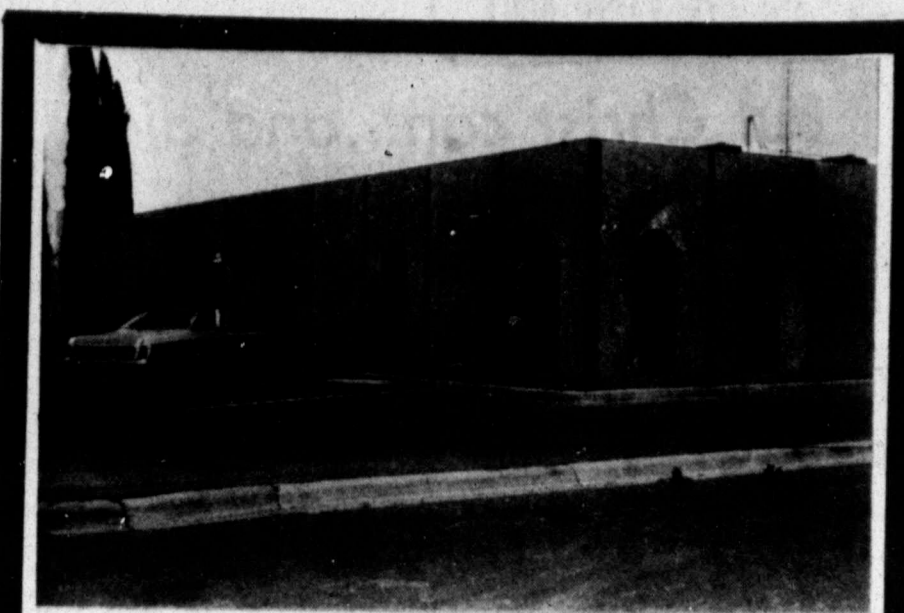

Burg told reporters in Tel Aviv that he expected a procedural meeting, but would not comment on Begin's statement about a trip to Washington.

"I believe we will not have negotiations about the essence of the autonomy, but about the procedure: when we will meet, which working groups should meet and so on — preparations for the real meeting," he said.

Sadat also indicated that Washington meeting would be preparatory to full resumption of the talks.

Under the Camp David accords, the Egyptian-Israeli talks were supposed to have produced a Palestinian autonomy plan by May 26. Sadat suspended the talks in early May because of what he called a "dismal political atmosphere" created by Israel in its refusal to discuss the status of Arab East Jerusalem.

Muskie's remarks, delivered at the Washington Press Club, were intended to for western Europeans as well as Arabs and Israelis. With the autonomy talks stalled, the Europeans are preparing U.N. resolutions in support of Palestinian "self-determination," a codeword for statehood.

SPORTS IN BRIEF
American triumphs in Britain

GOLF — Nicholas Beauvy of Los Angeles defeated Welsh youth champion Andrew Ingram to spark an impressive run of American first-round successes in the British Amateur Golf Championship. Steven Cisco of Chicago scored a 19th-hole victory over English international player Ian Bradshaw.

Other first-round American winners were Christi Kling of New York, Atlanta's Charles Harrison and Graham Cowan of Los Angeles.

BASEBALL — Third baseman George Brett of the Kansas City Royals was named American League Player of the Week. Brett batted .469 during the June 2-8 voting period and accumulated 29 total bases, including two doubles and four home runs.

HOCKEY — Scotty Morrison, the National Hockey League's referee-in-chief, said that the league has adopted its toughest approach yet toward brawling.

A new rule passed at the session says that when a fight erupts, all players must leave the area and go to their benches or a clearly defined zone of non-combatants. Failure to do so will result in a minor penalty. In addition, any player who drops a glove or both gloves after a fight has started will receive a 10-minute misconduct penalty.

TENNIS — Roscoe Tanner struggled for almost two hours to beat Rod Frawley 3-6, 6-1, 9-7 in the first round of the Stella Artois Tennis Grand Prix at the Queen's Club.

The tournament also lost its No. 3 seed, Harold Solomon, who flew home to the United States after aggravating a muscle injury.

GENERAL — The Canadian Olympic Association is considering ways to honor Canadian athletes who won't be going to the Olympics because of the boycott. COA President Richard Pound said.

Pound said the group is encouraging the various sport bodies to go ahead with selection of Olympic teams. He said the association then may issue the teams with commemorative medals to honor the athletes.

Herzog captures first win

By BRUCE LOWITT
AP Sports Writer

It took a while for Whitey Herzog to get his first victory as a National League manager. But that was nothing compared to how long it took San Francisco to win its game Monday night.

Herzog, succeeding Ken Boyer, needed a lot of help from George Hendrick, namely his run-scoring single in the first inning, RBI-double in the sixth and three-run homer in the 10th inning that gave the Cardinals a nail-biting 8-5 victory over Atlanta and ended their five-game losing streak.

It took the Cards 2½ hours to make Herzog a winner. In Philadelphia, it took an incredible 7½ hours from first pitch to last — including the five-hour rain delay — before the Giants locked up a 3-1 victory.

Elsewhere on the National League's weather-plagued schedule, the Cincinnati Reds and San Diego Padres played to a 6-6 tie with the game called after 10½ innings following 3½ hours of rain delays, the Los Angeles Dodgers' game against the Mets in New York was rained out before it began and the Houston Astros beat the Chicago Cubs 6-2. Pittsburgh and Montreal were not scheduled.

"I was very particular about the job I'd take," Herzog said. "This was the first one offered to me — so I took it."

"I don't think we are a last-place club," he said of the Cards, who trail fifth-place Chicago by five games and first-place Montreal by 12 in the NL East. "Things have happened and I'm not blaming anybody. We've just got to right it."

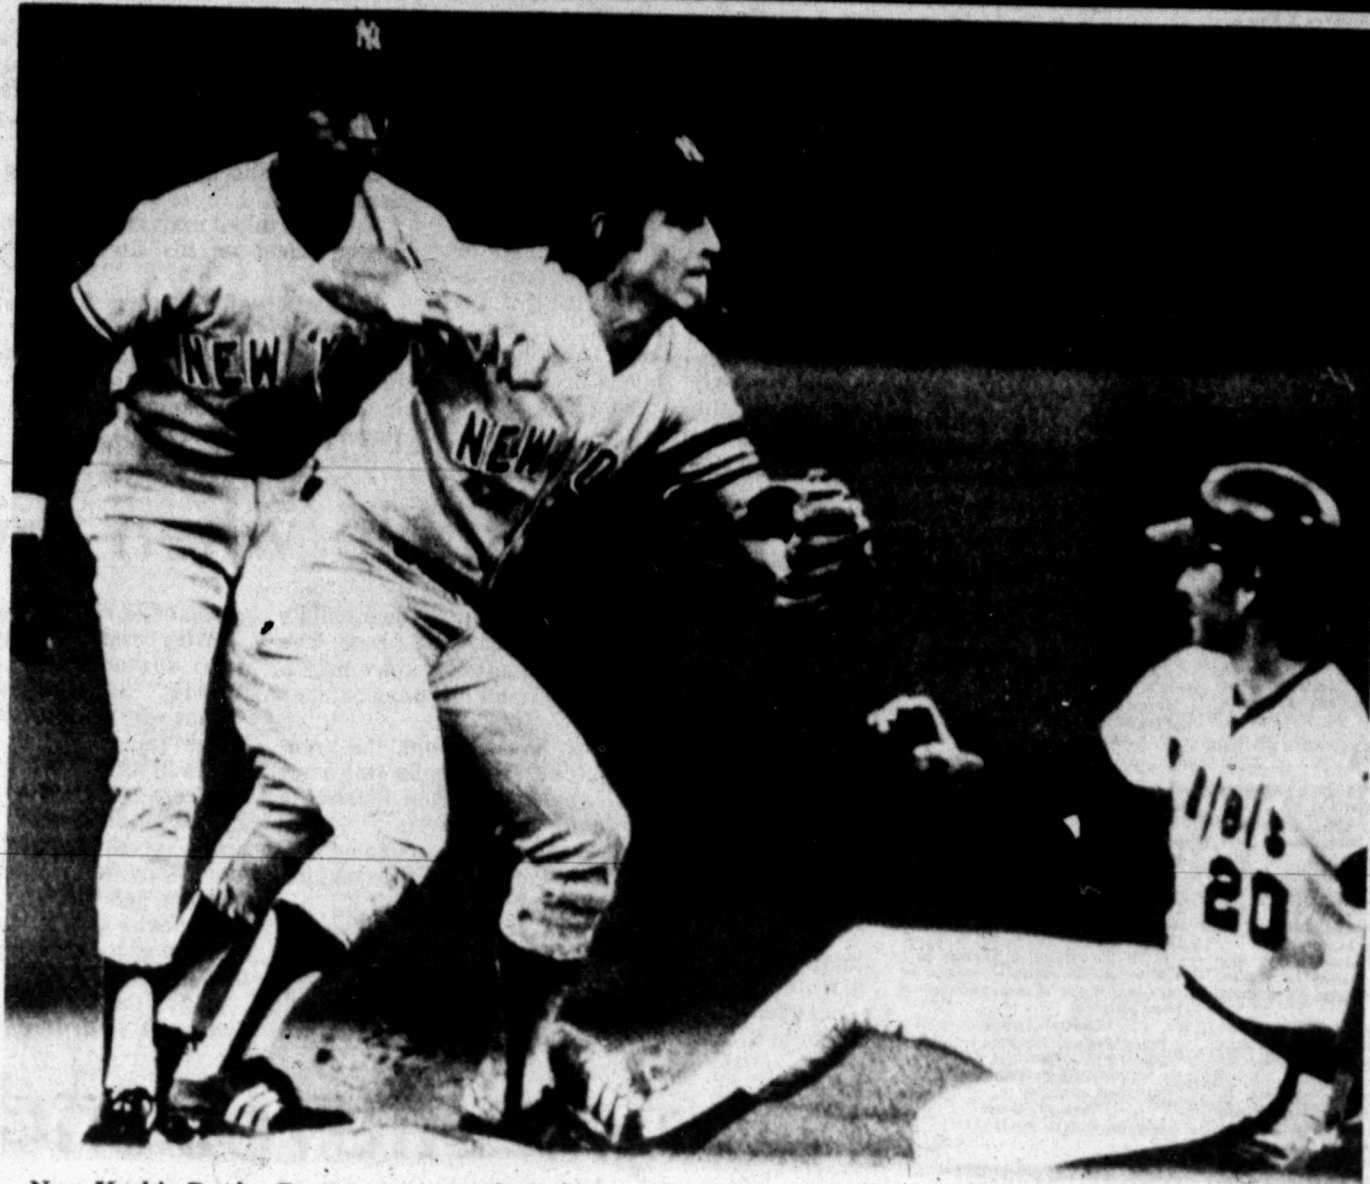

In the 10th inning, Keith Hernandez walked and Ted Simmons, who had homered in the third inning, singled off Larry Bradford before Hendrick greeted Gene Garber with his 12th homer of the year.

Raindrops keep fallin' down on M-Cubs' heads

Portland, Ore., poorly disguised as Midland, Texas, enjoyed typical spring weather over the weekend. Rain and more rain and two more postponements.

A writer off his rocker? Well, Midland is supposed to be hot and dry, so how come the Midland Cubs have had eight weather postponements? That might be a dry spring in Portland, but it isn't what one would expect in Midland.

Actually, all of the postponed games haven't been victims of falling rain. Monday's game, for example, was postponed because of wet

New York's Bucky Dent, center, makes an easy play at second on Larry Harlow (20) of the California Angels during Monday night's game at Anaheim. Second baseman Willie Randolph backs up Dent on the play. (AP Laserphoto)

Giants 3, Phils 1

For four innings Steve Carlton pitched perfect ball and had a 1-0 lead thanks to Bob Boone's homer. Then the rains came ... and came ... and came ...

And when they finally stopped, Carlton lost his perfect game. And after he left, the Phils lost the game as well when Jack Clark unloaded a two-run homer off Dickie Noles in the eighth inning.

Umpire Bob Engel, the crew chief, insisted he wasn't thinking about Carlton's potential perfect game when he refused to call the game a

washout.

"I'd like to see it stop, get the game in, get the gate in, be fair to both sides," he said during the delay. "There are so many things to consider. You're damned if you do and you're damned if you don't."

Reds 6, Padres 6

San Diego appeared to have a 6-2 victory in the bag, especially when it started pouting in the middle of the eighth inning. But the ump's waited out the rain and, more than 1½ hours later, play resumed.

And in the ninth, Cincinnati erupted for four runs, three on Dave Conce-

pion's bases-loaded double, the other one on Ken Griffey's single. Dave Collins had a two-run homer for the Reds in the fifth while Jerry Turner and Willie Montanez each drove in three runs for the Padres.

Astros 6, Cubs 2
Ken Forsch retired the first 15 Chicago batters he faced, then needed relief help in the sixth inning to pick up the victory. But it was his two hits, one of them a run-scoring single in Houston's five-run third inning, that had him smiling.

"I enjoyed that," he said. "I enjoyed getting those hits as much as anything else."

Jackson pounds lefties

By KEN RAPPOPORT
AP Sports Writer

Reggie Jackson has been hitting pitchers right and left these days — mostly left.

Despite swinging from the left side of the plate, the Yankee slugger has been defying baseball logic by hitting southpaws with unaccustomed regularity.

Eight of his 11 homers have been socked off left-handers, including one Monday night that helped the Yankees beat the California Angels 8-7 in 10 innings.

"I usually hit better against right-handers," said Jackson, who can enjoy it but can't explain his success against southpaws.

In addition to his dramatic solo homer in the ninth inning off Dave LaRoche, which tied the game at 7-7, Jackson had a two-run double off LaRoche in the seventh, when the Yankees scored four times to wipe out a 4-0 Angel lead.

"My thought was to give the team, the manager and myself the best chance," said Jackson, recalling his thoughts before the seventh-inning double. "I wanted to get the fat of the bat on the ball with a good compact swing."

In the only other American League games Monday night, Baltimore beat Oakland 3-2 and Seattle edged Boston 8-7 in 13 innings. Rain washed out the contest between Kansas City and Cleveland.

Orioles 3, A's 2

Eddie Murray's sacrifice fly in the ninth inning scored Pat Kelly from third base, leading Baltimore over Oakland. Before Kelly drew a walk, the Orioles had been virtually helpless for more than six innings against the A's Rick Langford, 4-5. After three straight hits in the second inning, Langford retired 22 straight batters.

Ken Singleton sent Kelly to third with a single and Murray followed with his sacrifice fly to right.

"The ball wasn't too deep and I knew the right fielder had a strong arm. But I wasn't going to wait until the 22nd inning," said Kelly after beating Tony Armas' throw to the plate.

Mariners 8, Red Sox 7

Juan Beniquez hit his first homer of the season in the 13th inning, lifting Seattle over Boston. Beniquez hit the first pitch from Dick Drago, 2-3, with one out. Dave Heaverlo, 4-0, worked the final 2-3 innings to pick up the victory for Seattle.

Behind 5-0 after three innings, the Mariners finally caught Boston at 6-6 in the seventh on Tom Paciorek's run-scoring single and Jim Anderson's sacrifice fly.

Will big Sampson regret decision?

NEW YORK (AP) — Did Ralph Sampson make the right decision? The 7-foot-4 freshman at the University of Virginia turned down a lucrative, multi-year contract offer from the Boston Celtics this spring, saying he preferred to stay in school. That ended a lengthy and intensive recruiting effort by the Celtics, who

Mavericks uncertain on center

DALLAS (AP) — The Dallas Mavericks went into today's National Basketball Association draft still wondering if former UCLA all-American center Ralph Drollinger would sign with them.

Drollinger, a 7-2 center who went to the Athletics in Action after college, would solve the Mavericks' center problems and let them concentrate on forward and other positions in the draft.

"Drollinger hasn't committed yet," Rick Sund, Dallas' director of player personnel, said late Monday.

"We've got to know where he stands, but when all is said and done he's in the driver's seat. If he wants, he can sit back and see how the college draft comes out before choosing," Sund said.

With the Mavericks picking 11th in each round, they were anxious to see who would be picked in the first 10 choices. The Mavericks let it be known over the weekend that they were interested in UCLA forward Kiki Vandeweghe, Mississippi State center Ricky Brown and Iowa guard Ronnie Lester.

Drollinger was in Los Angeles Monday recovering from knee surgery. He had been negotiating with only one team, the Los Angeles Lakers, but word from there Monday was that Drollinger had backed away from both the Lakers and another team he was considering, the Seattle Sonics.

felt that between Sampson and last year's prime rookie, Larry Bird, they would have the foundation for another dynasty.

As a result, when today's National Basketball Association's college draft got under way at 11 a.m. CDT, the first name announced was not that of Ralph Sampson.

The Celtics had acquired the No. 1 pick in a deal with Detroit and were prepared to use it on Sampson even though he only had one year of college ball under his belt. One report said the Celtics had offered Sampson \$700,000 a year over 10 years, while others said the numbers were considerably less.

When Sampson elected to stay in school, the Celtics considered taking Purdue center Joe Barry Carroll, then decided to deal the No. 1 pick to Golden State for 7-footer Robert Parish, a four-year veteran who averaged 17.0 points and 10.9 rebounds per game last season. The clubs also exchanged their other first-round picks, Boston getting the third choice overall and Golden State the 13th.

But the man the Celtics really wanted was Sampson, and General Manager Red Auerbach was very upset when he elected to stay in school. Although Auerbach said Sampson was being misled by his advisers, most executives around the NBA feel young players in general are better off staying in school as long as possible.

"I'm dead against kids coming out of school early," says Norm Sonju, vice president of the Dallas Mavericks, echoing the general sentiment. "A kid who stays in a good program is going to be much better off. Look at Bill Willoughby — he isn't anywhere near the player he would have been had he gone to Kentucky."

Willoughby, a 6-foot-8 forward who was a standout at Dwight Morrow High School in Englewood, N.J., turned down over 200 scholarship offers and chose to bypass college entirely in 1975 and become at 18 the youngest player in NBA history.

Mr. Dodger just one of the boys

By WILL GRIMSLEY
AP Special Correspondent

NEW YORK (AP) — Los Angeles' manager Tommy Lasorda had hardly checked into his New York hotel room Monday morning when the telephone started ringing.

A reminder from Dr. Maurice Saklad about an 11:30 dental appointment. The Italian Society called to say don't forget the luncheon in his honor Tuesday. Old Friends wanting to say "hello." Strangers requesting baseballs, caps and other paraphernalia. Endless club details.

Then there were those two army sergeants from World War II.

"I never shut off my phone," said the ebullient Dodger perennial. "If somebody wants to talk to me, I don't care how trivial, I'll talk to them."

But back to those sergeants: They weren't begging. They were just collecting.

"It's a funny but true story," said Mr. Dodger, who brought his club to town as No. 1 in Division West and bent on reviving the pennant surges of 1977 and 1978 interrupted by a slump last season.

"It's 1945 and I'm doing an army hitch at Fort Meade, Md. I go up to my master sergeant and ask for a weekend pass.

"Naw, nothing doing," he said.

"I said, 'If you give me a pass I'll give you two tickets to a major league game when I get out."

"The sarge was skeptical. He asked what major league team I played for. I told him I pitched for Concord in the North Carolina State League.

"The North Carolina State League!" he blurted, almost falling off his chair. But he seemed amused at my gall. I got the pass.

"A couple of weeks later I repeated the request. 'Not again,' the sergeant said. But he gave me the pass. Before I was through, I had hustled him out of about 10 weekend passes."

Eleven years passed. Lasorda, a left-handed pitcher, had paid his minor league dues — Concord, Dover, Schenectady and mostly Montreal — and put in a couple of inauspicious years with the Dodgers before landing with Kansas City in 1956.

The then Kansas City A's swung into Boston for a series with the Red Sox. An obscure pitcher on the roster didn't forget.

"I knew my old master sergeant, Lou Rinaldi, lived in Springfield, Mass., Lasorda said. "I got the hotel operator to put in a call. 'Sarge, I said, 'guess who this is? This is Lasorda from Fort Meade. Come on over and you can get those tickets.'"

"He came. Since then, I have repaid those weekend pass debts 10 times over."

Scheduled for a ticket to tonight's game with the Mets was another sergeant, a Lasorda war buddy.

"He was my barber in the service," Lasorda explained with unbridled relish. "Sure, I made crazy deals with him for haircuts just like I promised tickets to my uncle who owns a restaurant in my hometown, Norristown, Pa. How do you think I got all those hot Italian sandwiches?"

"I can't say 'no.' I'm a bleeding heart."

He bleeds Dodger blue.

Tom Lasorda is the roving ambassador for both the Dodgers and baseball. He makes hundreds of appearances annually at banquets and related affairs, usually for free. He is always on the stump.

A Hollywood favorite, he pops up on the talk shows, TV specials and in the movies. Frank Sinatra and friends move in and out of his office at will.

But Lasorda appears happiest when he is doing things for the ordinary people.

Once, leaving Dodger Stadium, he was approached by a

distraught family from Canada who had bought tickets for the game and, because their car had broken down, didn't arrive until

the seventh inning. "The next time you come down," Lasorda said, "call me. Be my guests."

Mahaffey's paid his share of dues

SPRINGFIELD, N.J. (AP) — John Mahaffey has had more than his share of adversity. "I can't say I'm glad it happened, but I think I'm a better, stronger person for it," Mahaffey said.

Not the least of his problems arose from the U.S. Open, the American national championship, the most coveted of all the world's titles. "I had it won twice and let it get away," Mahaffey said.

Alouettes smile when thinking about Biletnikoff

VICTORIAVILLE, Que. (AP) — Joe Scannella's eyes sparkle and a big smile creases his face. The head coach of the Montreal Alouettes is more than a little pleased to have Fred Biletnikoff, pass-catcher extraordinaire, in camp.

With Fred available, I said to myself, 'Heck, if we want someone to catch the ball, let's go get Freddy,' Scannella said. Fans who remember Biletnikoff during his 14-year tenure with the Raiders will have no trouble spotting No. 25 in uniform with the Alouettes.

"We expect him to make a big catch when we need it. He's always been consistent, always made the big catch. In my years at Oakland I only remember him dropping one pass — a crucial pass, that is."

Posey believes Indy overrated

SHARON, Conn. (AP) — In pure racing terms, the Indianapolis 500 is not a great race, says veteran race car driver Sam Posey. He says the car is more important than the driver and the track is dangerous.

Those races, he said, were the most important races of his career. But after trying his hand at Grand Prix racing, Posey left it behind for good. "I saw that I was good enough at my very best to be near the best, but not the best. I felt I would constantly be over my head," he said.

He also writes about racing for a national racing publication. "I had a chance to reflect on the whole business of Indy," he said. "I had no chance to do better. The car at Indy is more important than (it is in) road racing. The danger is much higher, and I am not a very courageous driver or person. There you're always in constant danger. And the danger exists outside the driving in the track itself."

Paper recycling becoming a trend

NEW YORK (AP) — Deep below the office building at 26 Federal Plaza, in a locked room with a special sprinkler system, is a treasure of sorts: 17 hampers on casters, each holding 350 pounds of white paper.

Similar treasures are scattered throughout the city — at the World Trade Center, at The New York Times, at Consolidated Edison, at the offices of the National Urban League.

Each represents a commitment to paper recycling. "It's growing, it's in its infancy," said Sheila Millendorf, head of the Office Paper Recycling Service. "The companies that know about it are laughing up their sleeve at the others."

New York City each year generates 12 percent of the nation's high-grade waste — 175,000 tons of high-grade paper, computer paper and cards. Clients of Mrs. Millendorf's year-old service sell their high-grade waste to recyclers at prices ranging from \$100 to \$280 a ton. The Times, for instance, hopes to make \$18,000 a year from recycling, said Booker Davis, manager of building services.

Mrs. Millendorf and her assistant, Jill Mendelson, tell executives that they can help the environment AND save money by recycling. "It's a marriage of the two," she says. "Any company that comes to me and says, 'We don't care about the cost, or losing money, we just want to do this for the environment' — well, I'm leery of them because when it comes to budget cuts, it will be first to go."

"We're not promising tremendous revenues, but we're certainly promising no deficits," she adds. With \$54,000 in government and foundation grants, OPRS — part of the Council on the Environment of New York City — goes to each company and offers to draw up a recycling program tailored to its needs. Given the go-ahead, Mrs. Millendorf and Miss Mendelson take a detailed look at the firm and its offices, even weighing garbage.

Mrs. Millendorf figures the average office employee produces a quarter-pound of high-grade paper waste a day. Her husband, Stuart, also has taken to recycling. He heads the World Trade Center's effort, which has collected 3.5 million pounds of paper in the past six years. Last year, the World Trade Center program, with less than a third of the twin towers' 45,000 employees participating, made \$28,000. This year, Millendorf expects to make \$70,000.

There are other big paper recycling efforts underway, Mrs. Millendorf knows, and the city is collecting paper from 75 buildings throughout the five boroughs at a pace of 700 tons a year. Under a directive from President Carter, the federal government is now recycling paper at almost all of its New York buildings. "At least on a governmental level, you're going to see more of this," says Barbara Kropf, recycling specialist for the Environmental Protection Agency. "Our landfills are filling up, and by 1985, we're going to have to do something with our trash."

Jay Smith runs the program at 26 Federal Plaza — the largest federal building outside of the Pentagon — and a smile creases his beard when he tells of the cooperation he met. "The only one who didn't take part was the FBI," he said. "For security reasons ... their stuff goes to the shredder."

Most every desk in the building sports a black, plastic napkin-holder where recyclable paper is placed. At day's end, workers take the paper and dump it at the nearest cardboard recycling box. "We're trying to make it as easy as possible for the employees," Smith said. Collection boxes are located within 25 feet of every desk, and each is emblazoned with a "Use It Again, Sam" bumper sticker.

GM to produce four-cylinder engines in future

DETROIT (AP) — Most General Motors Corp. engines will be four-cylinder models in two years, judging by the automaker's machine tool orders, an auto trade publication says.

The orders for two production lines, eventually to total \$300 million, will give GM at least seven production lines for four-cylinder engines compared to six lines for six-cylinder engines and fewer for V-8s, Metalworking News reported Monday.

Increased emphasis on smaller engines is only one aspect of the race for fuel economy by all manufacturers. Chrysler Corp. already plans to produce nothing but four-cylinder engines in a few years.

When GM introduced its front-wheel-drive compact a year ago, it believed 80 percent of the buyers would prefer sizes over four, but so far 60 percent have preferred fours. GM's Chevrolet division has ordered two block machining systems and two cylinder head machining systems to be installed at the Tonawanda, N.Y., engine plant near Buffalo, Metalworking News said. The cost was estimated at \$60 million to \$70 million.

The plant now makes V-6 engines. The journal said the tooling program, "appears to have taken the place of an earlier plan" to expand V-4 production. The two lines would be capable of building 600,000 to 800,000 four-cylinder engines a year, giving GM a total capacity of more than 3 million "four-bangers" annually in the 1982 model year, the weekly said. Chevrolet spokesmen declined comment.

400 evacuated after derailment

LONDON, Ontario (AP) — A freight train derailed near here, causing an explosion that shook nearby homes, and forcing the evacuation of 400 persons living within a three-mile radius, police said.

But the fire that resulted from the 9 p.m. EDT Monday derailment of 36 cars of the 100-car train was brought under control within two hours, police said. No injuries were reported. The train derailed about six miles northwest of here near the community of Elmhurst Heights. Most of the evacuated residents refused shelter in a local school and community center and stayed with relatives and friends instead.

The evacuation order was prompted by fears that one of the cars was leaking sulphur dioxide. However, officials said the only car carrying the noxious gas stayed upright and did not leak flames after leaving the tracks. Officials said a tanker car carrying 75 tons of light oil was one of the 34 derailed cars that burned. Twenty-seven of the derailed cars were empty, railroad officials said, including a propane car that exploded.

The cause of the derailment was not immediately given, but one official speculated it may have resulted when a boxcar door fell off its hinges and jammed the wheels of the car.

DR. NEIL SOLOMON Household utensils essential measures

Dear Dr. Solomon: My pediatrician recently prescribed some medicine for my daughter. The instructions called for her to get one teaspoon, three times a day, and they were followed to the letter. Whatever I did obviously worked, because the child is now well. But a neighbor of mine tells me that doctors do not mean a teaspoon when they prescribe a teaspoon of medicine. If this is so, what do they mean? Can you clear up this confusion? — Mrs. C.G.

Dear Mrs. C.G.: While the standard pharmacologic measure for a teaspoon is five cubic centimeters, household utensils may range from half a teaspoon to a teaspoon and a half. In most cases, however, it is not essential that the exact dose be administered, and use of a household teaspoon would be appropriate.

When sensitive medications — such as drugs used to control seizures, medicine used in the treatment of asthma, and common antibiotics — are prescribed, accuracy becomes increasingly important. This is particularly true when the patient is a young child or elderly person. Why not check with your pharmacist to see if he can provide a more accurate measuring device.

Dear Dr. Solomon: My 12-year-old son insists on wearing sneakers wherever he goes because he wants to be prepared to play ball. When I was young, I recall being told that sneakers would cause flat feet if worn for any extended period of time. Would you please comment? — Mark.

Dear Mark: Children who have very flat or very highly arched feet should not wear sneakers; otherwise, sneakers are not bad for the feet. In fact, their flexibility makes it possible for young children to wear them virtually all the time without suffering any ill effects. In one study of children who wore sneakers 85 percent of the time during a 10-year period, none developed flat feet or fallen arches. Sneakers permit the foot to spread out, yet can be laced tightly to provide support. Moreover, their rubber soles reduce the possibility of slipping. However, sneakers should be made of a fabric that breathes, not plastic or artificial leather.

Dear Dr. Solomon: A buddy of mine is being given methadone at a drug treatment center. If methadone itself is addictive, as I have been told it is, why don't they just give him heroin? — Frank.

Dear Frank: It is true that methadone, a synthetic narcotic used to treat heroin addicts, can cause physical dependence. In fact, an overdose could even result in serious medical complications or even death. However, when used under proper medical supervision, methadone enables a person to hold a job, and generally to lead a normal life. Many programs that use methadone as part of their treatment of heroin addicts provide for its withdrawal once the addict has been rehabilitated.

Nolan gains four tests

Wildcat operations have been announced in West Texas area, including four prospectors in Nolan County.

Aminol USA Inc. of Midland will dig No. 1 D. S. Riggs as a 7,450-foot explorer two miles northwest of Roscoe.

Location is 660 feet from south and 1,850 feet from west lines of section 28, block 23, T&P survey. It is two miles west of the three-well Rowan & Hope, Northwest (Canyon sand oil) pool and 1,000 feet southwest of Aminol No. 1 Herrera, an active wildcat.

ConVest Energy Corp. of Houston announced location for its No. 1 Robert F. Fee Jr. and others 10 miles south of Roscoe in Nolan County.

The prospector, scheduled on a 7,300-foot contract, is 2,100 feet from south and west lines of section 20, block X, T&P survey and 1 5/8 miles south of an undesignated Strawn oil discovery, Halvey Energy Co. No. 1 Champion.

Leede Oil & Gas Inc. of Midland spotted a 6,600-foot wildcat three miles southwest of Nolan in Nolan County.

It is No. 1 D. W. Egger, 1,980 feet from north and 1,320 feet from east lines of section 1285, block 64, H&TC survey and one location east of a 6,508-foot dry hole.

It also is 1/2 mile southwest of the two-well Divide (King and Flippen) field.

Danco Resources Inc. of Abilene No. 1 Davis will be drilled in an attempt to reopen Strawn production in the Doris field of Nolan County, nine miles north of Blackwell.

The project is 1,600 feet from north and 1,787 feet from east lines of section 164, block 1-A, H&TC survey.

Contract depth is 6,800 feet.

STONEWALL WILDCAT
Omar Operating Co. of Midland No. 1 Loving has

been staked as a 5,900-foot wildcat in Stonewall County, 16 miles southwest of Aspermont.

Location is 1,000 feet from south and 1,880 feet from east lines of section 299, block 2, H&TC survey and 5/5 miles southeast of the depleted Illini Peacock (Ellenburger) field. It also is four miles south of the Peacock, North (Tannehill) pool.

IRION PROJECTS

MEG Petroleum Corp. of San Angelo staked No. 1 H.M. Phillips as a 7,400-foot wildcat in Irion County, 4.7 miles south of Mertzon.

Drillsite is 4,663 feet from south and 2,203 feet from east lines of section 7, Gonzales County School Land survey. It is a twin to a 7,776-foot dry hole and 1 1/4 miles southeast of one of the two wells in the Irion, West (Canyon) pool.

Arvin Norwood Drilling Co. of Midland will drill No. 1 Lindley as a 7,300-foot wildcat 3.5 miles west of Mertzon in Irion County.

The location has been staked 660 feet from north and 467 feet from west lines of section 42, block 1, H&TC survey.

The site is 5/8 mile northeast of the Rock Pen (Canyon) field and 3/4 mile north of a 7,850-foot failure.

SCHLEICHER AREA

Simpson-Mann Oil Producers of San Angelo announced plans to re-enter the former J. Frank Stringer and Dellwood Oil Co. No. 1 F. M. Thomson, a 6,010-foot dry hole, and attempt to reopen Strawn oil production in the Cox-Brown field.

The project, to be operated by Simpson-Mann as No. 2-80 Byars.

Location is 467 feet from south and 2,231 feet from west lines of section 80, block M, GH&SA survey. Ground elevation is 2,213 feet.

The project will be deepened to 6,018 feet.

The site is 3/4 mile southwest of Simpson-Mann No. 1-80 Byars, an active wildcat.

Sohio raises gasoline price in Ohio by 11¢ per gallon

CLEVELAND (AP) — The Standard Oil Co. (Ohio) says it raised its gasoline prices by 11 cents a gallon today because of forthcoming government regulations, but a lawmaker disputes that.

U.S. Sen. Howard Metzenbaum, D-Ohio, called the move "a bald-faced

oil from Alaska's North Slope, said Charles R. King, a Sohio vice president.

Sohio, a Cleveland-based company that is 53 percent owned by British Petroleum Ltd. of London, has 53 percent of the oil reserves in Alaska's Prudhoe Bay.

The new government rules would change an entitlements program that originally was intended to equalize

crude oil costs by having producers of domestic oil compensate those oil companies dependent on high-priced imported oil. Under that program, Alaska's North Slope oil was classed with imported oil because of the high transportation costs from Alaska.

The DOE said the soaring cost of foreign oil threw the program out of whack, giving North Slope oil users a \$7-a-barrel cost advantage.

ENERGY OIL & GAS

attempt to use a public relations gambit and blame government regulations for Sohio's corporate greed."

Ohio motorists had enjoyed what were believed to be the lowest retail prices in the nation at Sohio stations. With today's increase, they will now pay \$1.17 a gallon for regular gasoline at self-service pumps at company-operated stations, Sohio said Monday.

In addition, unleaded gasoline will sell for \$1.21 a gallon and premium at \$1.24. Full service prices are two cents higher.

About 2,000 Sohio stations in Ohio are affected by the price hike along with nearly 500 Boron stations in surrounding states and another 500 BP stations along the East Coast, said spokesman Chuck Partridge.

The increases were prompted by the imminent implementation of proposed Department of Energy regulations that would eliminate a price advantage held by companies using

C&K potentials opener

C&K Petroleum, Inc., of Midland No. 1 Scott has been completed as a Canyon discovery in Irion County, 18 miles northwest of Mertzon.

Operator reported a daily pumping potential of 14 barrels of 36.1-gravity oil and 39 barrels of water, through perforations from 7,177 to 7,205 feet.

The gas-oil ratio is 5,143-1.

Total depth is 9,000 feet.

Wellsite is 990 feet from north and east lines of section 22, block 27, H&TC survey and 2.5 miles northwest of the Elia Clegg (Wolfcamp oil) pool and 4 3/4 miles southeast of the MWJ (Canyon) field.

SUTTON WILDCAT
ConVest Energy Corp. of Houston

No. 1 Nancy Bloodworth and others is to be drilled as an 8,200-foot wildcat in Sutt on County, 24 miles southwest of Sonora.

Drillsite is 467 feet from the most easterly south line and 3,500 feet from the most easterly east line off D. Wood survey, scrap file 9721, abstract 168 3. (Some maps show it to be section 17, block H, GC&SF survey.)

The location is 3/8 mile north of Canyon gas production in the Denison (Canyon and Strawn gas) field and 2 1/8 miles northwest of a dual producer in the Whitehead (Strawn gas) pool. It also is 1 3/8 miles southwest of a 7,941-foot dry hole.

DRILLING REPORT

WILDCATS

al Bank-Ste; drilling 19,134 feet in line.
Getty No. 1 Miriam Esteliff et al; 16,872 feet, fishing.

BORDEN COUNTY
Maralo Inc. No. 1-4 Coleman et Farms; drilling 7,000 feet.

COCHRAN COUNTY
H.L. Brown No. 1 Starnes; 1d 5,018 feet, plod 4,960 feet, pumped 5 barrels of oil and 50 barrels of water in 24 hours through perforations from 3,018-3,040 feet.

CROCKETT COUNTY
Marathon Oil Co. No. 2 Noelle; drilling 2,000 feet in dolomite.

DALLAS COUNTY
Hillman & Gas Inc. No. 1 Stuart Estate; drilling 11,803 feet in black and gray shale.

EDDY COUNTY
Getty Oil No. 1-34 Getty Federal; drilling 285 feet, spudded June 5, 1980.

IRION COUNTY
Marathon Oil No. 1-31 Martinez-Pedernal; 1d 10,127 feet in shale and lime, laying down fishing tools.

ROCKLEY COUNTY
D.A. Metts No. 1 Post-Montgomery; 1d 8,050 feet, perforated 7,133-7,196 feet, acidified perforations with 2,300 gallons, swabbed 8.5 hours, recovered 47.3 barrels of fluid, 25.8 barrels of oil and 21.7 barrels of formation water, waiting on pumping unit.

IRION COUNTY
Moran Exploration Inc. No. 1-14 Sugg; drilling 7,330 feet in lime and shale.

LEA COUNTY
Conoco Inc. No. 5-8-1 Wells; 1d 13,000 feet, set bridge plug at 10,066 feet; reperforated from 9,784-9,724 feet, acidified perforations with 100 gallons, shut in.

LEA COUNTY
Getty No. 1-4 State Communitized; 1d 4,884 feet, fishing.

LEA COUNTY
Getty No. 2-2 Getty State; drilling 3,768 feet.

LOVING COUNTY
Getty No. 1-25-76 Tom Lineberry; 1d 12,800 feet, drilled cement, straightening hole.

LOVING COUNTY
Getty No. 1 Tom Lineberry Strip; drilling 867 feet.

NOLAN COUNTY
Aminol USA No. 1 Herrera; 1d 7,306 feet, plod 6,960 feet, swabbing and testing through perforations from 6,674-7,000 feet, no gauges.

NOLAN COUNTY
Aminol USA No. 1 Thornburg; 1d 7,107 feet, plod 7,075 feet, set cast iron bridge plug at 6,900 feet, perforations not reported, preparing to swab.

NOLAN COUNTY
Aminol USA No. 1 P.A.S.; 1d 4,960 feet, circulating for samples.

PECOS COUNTY
Maddox Energy No. 1 Frost Nation-

CRANE COUNTY

Bass Enterprises No. 24 L.D. Moss et al; ATAPCO (Devonian); 1d 5,545 feet, waiting on completion unit.

IRION COUNTY
Union Texas No. 2-45-19 Farmer; Rock Pen (Canyon); 1d 7,254 feet, washing fracture sand.

IRION COUNTY
Union Texas No. 1-43-16 Farmer; Rock Pen (Canyon); drilling 6,640 feet in sand and shale.

LEA COUNTY
Natamos North America No. 1-24 State Communitized; Antelope Ridge (Morrow); 1d 12,000 feet, plod 13,855 feet, set packer at 13,250 feet, testing.

LEA COUNTY
Maralo Inc. No. 8-16 Maralo-State; Sioux (Yates); potential well, 1d 3,750 feet, pumped 84 barrels of 20.2-gravity oil through unreported perforations, gas-oil ratio is 1229-1.

LEA COUNTY
Maralo Inc. No. 8-16 Maralo-State; Sioux (Yates); 1d 3,800 feet, perforated from 3,204-3,238 feet, acidified perforations with 1,800 gallons, shut down.

MWJ Producing Co. No. 1-3 Baum-
State Baum (upper Pennsylvanian); drilling 5,078 feet in lime.

CONOCO INC. No. 9 State P-1
Undesignated Blueberry; drilling 3,200 feet in anhydrite.

LUBBOCK COUNTY
H.L. Brown, Inc. No. 2 Gray; Edmison, Northwest (Clear Fork); 1d 3,500 feet, plod 3,445 feet, pumped 41 barrels of oil and 14 barrels of water in 24 hours through perforations from 3,271-3,406 feet.

PECOS COUNTY
D.A. Metts No. 1 Route Neal; Gomer (Ellenburger); 1d 17,718 feet, still fishing.

TERRY COUNTY
Union Texas No. 3 Sara Bullard; Dominion (Silurian); drilling 8,420 feet in shale and dolomite.

The Midland Reporter-Telegram

Amoco finals Mississippian discovery

Amoco Production Co., operating from Midland, has completed its No. 1-B Sylvia Winder as a Mississippian oil discovery in Garza County, eight miles east of Post.

On 14-hour potential test the strike pumped 23 barrels of 38-gravity oil and eight barrels of water, with a gas-oil ratio of 0.43-1.

Completion was through perforations from 8,792 to 8,798 feet.

The pay was acidized with 3,600 gallons.

Total depth is 8,882 feet, 5.5-inch casing is set at 8,882 feet and hole is plugged back depth.

The San Andres was topped at 3,102 feet, the Strawn was hit at 8,446 feet and the Mississippian was entered at 8,791 feet. The RDB elevation is 2,934 feet.

Location is 2,378 feet from south and 1,901 feet from east lines of section 1320, block 1, H&OB survey and in the Post, West (Strawn) field.

BORDEN RE-ENTRY

Champlin Exploration Inc. of Midland will attempt to reopen Ellenburger production in the Thirty-Thirty field of Borden County, 12 miles north of Gall.

The attempt will be made at No. 2 Clayton & Johnson, scheduled to 9,000 feet.

The drillsite is 1,650 feet from north and 467 feet from east lines of section 30, block 30, T-4-N, T&P survey.

The field has production from the Strawn.

Drillsite for No. 2 Clayton & Johnson is one location south of the field's dual Ellenburger and Strawn discovery.

SCHLEICHER STRIKE

Meador Land Co. of Eldorado No. 2-178 Meador "A" has been completed as a Clear Fork oil discovery in the Eldorado, Southwest (Strawn gas)

field of Schleicher County, 10 miles southwest of Eldorado.

Operator reported a daily pumping potential of 40 barrels of 41-gravity oil and no water, through perforations from 2,141 to 2,175 feet. The gas-oil ratio is 25-1.

The pay was acidized with 1,500 gallons.

Total depth is 2,508 feet and 4.5-inch casing is cemented at 2,504 feet, the plugged back depth.

The discovery is 1 7/8 miles southwest of the field's depleted San Angelo production.

Wellsite is 983 feet from north and 1,063 feet from west lines of section 178, block A, HE&WT survey.

PECOS CONFIRMER

Dalton H. Cobb of Midland has completed the second well in the recently opened Cobb (Devonian gas) field of Pecos County, 20 miles north-west of Fort Stockton.

It is a re-entry project, No. 1 Forest-Duncan.

It completed for a calculated absolute open flow potential of 4,694,276 cubic feet of dry gas per day, through perforations from 18,670 to 18,915 feet.

The zone was fractured with 25,000 gallons.

The pay was topped at 18,670 feet on kelly bushing elevation of 2,914 feet.

Total depth is 22,200 feet, 4.5-inch casing is set at 22,200 feet and re-entry depth is 21,580 feet.

Location is 1,640 feet from north and 1,000 feet from west lines of section 20, block 49, T-9, T&P survey.

It is 3/4 mile east of Cobb No. 1 Charles J. Walker, the field discovery.

LEA REGION

Getty Oil Co. No. 1-1 Getty-State Communitized is a new well in the Grama Ridge, East (Morrow gas) pool of Lea County, 20 miles southeast

of Halfway.

It finished for a daily flowing potential of 857,000 cubic feet of gas, through a 7/64-inch choke and unreported perforations.

Total depth is 13,435 feet and 5-inch casing is set at 13,434 feet.

Location is 1,650 feet from north and west lines of section 1-22s-34s. It is one mile north of other Morrow production.

PECOS WELL

Conoco No. 1 Charles Canon, a re-entry operation, has been completed in the Sheffield, Southwest (Cisco) field of Pecos County, 45 miles southeast of Fort Stockton.

The third well in the field, it finished for a daily pumping potential of six barrels of 38.1-gravity oil and 74 barrels of water, through perforations from 7,372 to 7,479 feet after 3,000 gallons of acid.

Location is 1,980 feet from south and east lines of section 81, blockA-2, TCRW survey.

Operator re-entered the project with plans to complete from the Canyon, another pay in the field. However, it was re-completed in the Cisco. Original Cisco completion was through perforations from 7,372 to 7,380 feet.

MARTIN PRODUCER

Cola Petroleum Inc. of Midland completed its No. 1 R. L. Burns-Henson as a Spraberry well in Martin County, 1.5 miles northwest of Tarzan.

Originally staked as Samedan No. 1 R. L. Burns-Henson, the well finished for a daily pumping potential of 53 barrels of 38-gravity oil and 40 barrels of water, through perforations from 7,740 to 9,297 feet after 140,000 gallons of fracture fluid. The gas-oil ratio is 1,792-1.

The project was drilled as a wildcat to 9,506 feet. Operator set 4.5-inch

casing at 9,499 feet, the plugged back depth.

It is 1 3/8 miles west of the closest other Spraberry well and 660 feet from north and 1,980 feet from east lines of section 13, block 37, T-2-N, T&P survey and 20 miles north of Midland.

REEVES FIELD AREA

G. K. Beeman & Son Drilling Co. of Toyah announced three projects in the Pamela (150) pool of Reeves County, 15 miles northwest of Toyah.

Each of the projects will drill to 250 feet.

No. 7 Sayles is 1,800 feet from south and 690 feet from west lines of section 8, block 59, ps1 survey.

No. 6 Sayles is to be dug 1,800 feet from south and 690 feet from west lines of section 8, block 59, ps1 survey.

No. 5 Sayles is 1,500 feet from south and 990 feet from west lines of section 8, block 59, ps1 survey.

MIDLAND OILER

Tamarack Petroleum Co., Inc. of Midland No. 1-A Parks, 5/8 mile southwest of production in the Parks (Spraberry) field of Midland County, has been completed.

It finished for a daily pumping potential of 36 barrels of 37-gravity oil and 45 barrels of water from Spraberry pay opposite perforations from 7,930 to 9,443 feet.

The gas-oil ratio is 528-1, and the pay was acidized with 5,000 gallons and fractured with 175,000 gallons.

Total depth is 9,600 feet, 4.5-inch pipe is set on bottom and hole is plugged back to 9,506 feet.

The pay was topped at 7,930 feet on kelly bushing elevation of 2,893 feet.

Wellsite is 660 feet from south and east lines of section 19, block 40, T-3-S, T&P survey and nine miles southwest of Midland.

Wildcat sites announced

J. C. Williamson of Midland No. 1 Dempsey Creek is to be drilled as an 8,600-foot wildcat in Gaines County, 19 miles southwest of Seminole.

Operator spotted location 660 feet from north and 467 feet from east lines of section 22, block A-27, ps1 survey. Ground elevation is 3,398 feet.

TERRY EXPLORER

Lad Petroleum Corp. of Denver, Colo., staked location for a 13,000-foot wildcat in Terry County, seven miles northeast of Tokio.

The prospector is No. 1-75 Alexander, 1,320 feet from south and 467 feet from west lines of section 75, block D-11, C&MRR survey.

Ground elevation is 3,459 feet.

LUBBOCK PROJECTS

Ladd Petroleum also announced locations for a pair of wildcats in Lubbock County.

No. 1-12 Dunn is to be dug as a 10,500-foot test three miles northeast of Shallwater.

Drillsite is 467 feet from north and 660 feet from east lines of section 12, block D-5, EL&RR survey. Ground elevation is 3,318 feet.

Ladd No. 1-43 Jackson, an 11,000-foot wildcat, is seven miles east of Abernathy and 467 feet from north and 660 feet from east lines of section 43, block C-2, EL&RR survey. Ground elevation is 3,302 feet.

KENT EXPLORER

ConVest Energy Corp. of Houston no. 1 Bilby Wallace is to be drilled as a 6,800-foot wildcat in Kent County, 13 miles southeast of Clairmont.

Operator spotted location 1,000 feet from south and 700 feet from west lines of section 33, block K, ps1 survey.

Elevation at ground level is 2,133 feet.

TOM GREEN TESTS

Houston Oil & Minerals Corp. of

Midland announced locations for three 6,400-foot projects in Tom Green County, 3.5 southwest of Christoval.

The projects were filed at the District 7-C office of the Railroad Commission of Texas as wildcats.

No. 3 Hoblit Jacobs and others is to be drilled one location south of HO&MC No. 1 Hoblit-Jacobs, active wildcat two miles west of the two-well Christoval, South (Strawn reef) field.

It is 1,880 feet from south and 1,980 feet from east lines of section 10, block 22, H&TC survey. It is 2,180 feet.

The No. 1 Hoblit Jacobs and others, flowed oil at the rate of 300 barrels of oil per day, plus gas at the rate of 3.6 million cubic feet daily, through an 18/64-inch choke and perforations below 5,000 feet.

The No. 4 Hoblit Jacobs and other is 1/2 mile south of No. 1 and 660 feet from south and 2,080 feet from east lines of section 10, block 22, H&TC survey. Elevation is 2,170 feet.

No. 5 Hoblit Jacobs and others is 3/8 mile west of No. 1 Hoblit Jacobs and 1,836 feet from north and 660 feet from west lines of section 10, block 22, H&TC survey. Elevation is 2,190 feet.

WARD PRODUCER

MGF Oil Corp. of Midland No. 3-32 University has been completed in the War-Wink (Delaware) field of Ward County, 10 miles northwest of pyote.

Completed as the eighth well in the 5,0
