## Supreme Court rules life may be patented

WASHINGTON (AP) - The Supreme Court ruling that forms of life created in a laboratory may be patented just like any other product has removed a major barrier to widespread industrial use of genetic engineering.

## Anderson rejects GM heir;

# Reagan cuts European trip

#### By the Associated Press

John B. Anderson says he can do without the ideas of a General Motors millionaire as to what's good for John B. Anderson.

Anderson disowned on Monday the repeated efforts by GM heir Stewart Mott to inject himself into the Illinois congressman's independent campaign for president.

Anderson, who most recently was irritated by Mott's declaration to a Massachusetts newspaper that campaign manager Michael MacLeod should be fired, wrote a letter to the Federal Election Commission saying the maverick magnate's efforts in his behalf were not an "authorized activi-

Mott, according to sources who requested anonymity, wanted the manager's job for himself.

However well-intentioned, Mr. Mott 's activities have proven disruptive," Anderson wrote. The letter was an attempt by Anderson to dissuade the FEC from counting Mott's expenditures, including newspaper advertisements, against his campaign.

The Republican nominee-in-waiting, Ronald Reagan, meanwhile courted the editorial boardrooms of the eastern media on Monday and breezed through another "unity dinner" aimed at paying off the debts of his former GOP opponents.

Reagan lunched at Time Magazine and dined at the New York Times before supping yet again at a \$500per-plate fundraiser at New York's Pierre Hotel, where former Texas Gov. John B. Connally extolled him as the best of all campaigners.

The former California governor planned sessions with the Hearst editorial board and with Newsweek Magazine today. Meanwhile, aides disclosed that he had rejected a recommendation by foreign policy adviser e vist Europe llen that h **Richard** V

son a part in presidential debates this fall.

-In Washington, the rival camps of President Carter and Sen. Edward M. Kennedy look their battle over the 1980 Democratic platform behind closed doors, with Kennedy forces expecting a drubbing on the first goround

A 15-member drafting subcommittee, of which nine members are solid Carter supporters, began work on its first draft of the party platform in executive session. The drafting session follows a round of public hearings that wound up Saturday.

'Obviously, we're going to be outvoted," said Kennedy spokesman Jim Flug

But one member of the drafting panel, Carter supporter Rep. Lindy Boggs, D-La., said she thinks the drafting panel can arrive at a consensus document acceptable to both Carter and Kennedy people.

"I'm not approaching it from a biased point of view," she said in an interview. "I'm sure there will be some clearcut differences. There are always controversies. But I think we'll be able to arrive a consensus that all Democrats running for office can live with and be proud of."

Kennedy aide Steve Schlesinger said the senator's representatives were submitting a detailed platform statement today, but did not believe a consensus was possible. Schlesinger predicted a floor fight at the Democratic National Convention would be necessary to resolve differences.

Carter was represented by Stuart Eizenstat, his domestic affairs adviser.

Flug said that on losing votes, Kennedy forces would seek to amend the document that emerges from the drafting panel when the full 158-member Platform Committee meets pub-

licly this weekend to work on it. "Thus I don't think there'll be much

controversy merely for the sake of having a fight," said Peter Edelman, Kennedy's chief issues adviser. "We would prefer not to. But if it is necessary to pursue our point of view in an adversary way, we will."

The Democratic rivals differ the most on energy and economic issues, with Kennedy favoring wage and price controls, reimposition of price lids on oil and natural gas and a \$12. billion anti-recession program to create jobs - positions all strongly opposed by the president.

Although in terms of delegate strength Carter appears to have the Democratic presidential nomination in the bag, Kennedy has vowed to fight on all the way to the convention - both on his own behalf and in hopes of shaping the platform.

Carter submitted a proposed 75page platform to the Democratic National Committee last week that offered a continuation of the policies his administration has backed and advanced over the past four years.

The DNC staff prepared a skeleton platform, consisting in part of planks left over from the 1976 Democratic platform and issues on which Carter and Kennedy agree as a starting point for today's meeting.

On issues where there are major controversies between Carter and Kennedy, the language of the DNC's platform was left vague.

"The DNC is trying to walk a line right down the middle, between both" Carter and Kennedy, said a top Carter campaign aide who asked not to be identified.

Physician worried about tax misuse, witness testifies

#### By ED TODD Staff Writer

A prosecution witness in the taxevasion trial of Dr. Austin B. Tibbetts, a physician-surgeon who managed Lee Optical in Midland, testified Monday in federal court that Tibbetts told him he was not paying income taxes for he was concerned about the alleged misuse of tax dollars by the federal government. The jury trial is being tried before

federal Judge Lucius Bunton. "He volunteered...that he had some had invited him to attend a tax-protest meeting sponsored by the United Tax Action Patriots.

"He (Tibbetts) was not too concerned about the consequences (of not paying taxes) at that time," Luttrell said, "because he had proof of the legality" of a tax-protest 1040 Form. Instead of reporting earned income and deductions to the Internal Revenue Service, the form cited court cases and reference sto constitutional law.

Don MacPherson, one of Tibbetts' co-counselers, commented that his clients and others in UTAP were "only exercising their constitutional rights." "He (Tibbetts) felt like he was within the law at the time," said Luttrell, who said he also had agreed with Tibbetts that perhaps the federal

Monday's 5-4 decision, written by Chief Justice Warren E. Burger, said a living organism is covered by the federal patent law's definition of 'manufacture" of inventions or discoveries.

Industry and university researchers predicted the ruling will spur an upsurge in genetic engineering work.

Those wishing to exploit the techniques have complained that the inability to protect biologial products and organisms discouraged research because profits could not be assured to cover costs.

Without patent protection, industry must try to keep the organisms as trade secrets. This keeps others from seeing the work and perhaps building upon it and prevents a company from licensing a product for others to produce.

Thomas Kiley, a vice president of the San Francisco-based genetic research firm Genentech Inc., said the ruling is particularly important to smaller companies "who can be protected by patents so that they can enter fields such as pharmaceuticals which have been dominated by large firms.

Irving Johnson, vice president for research at Eli Lilly & Co., the nation's largest pharmaceutical manufacturer, said industry prefers to patent products instead of keeping them as trade secrets.

But he said the full impact of the ruling will depend upon further interpretations by the patent office and the courts.

'For instance, will a patent apply to only one species of organism at a time or will it include other organisms developed from that parent organism?" he said.

Most of the research in question involves recombinant DNA technology. This involves taking the basic material of heredity - deoxyribonucleic acid or DNA - and transferring it from one species of organism to another, usually bacteria, to create organisms not found in nature.

So far, this "gene splitting" has yielded bacteria that make medically useful but hard-to-find human products such as insulin, growth hormone, anti-viral interferon and others.

## Hussein, Carter unlikely to agree

WASHINGTON (AP) - President Carter is meeting with Jordan's King Hussein amid indications the two leaders are unlikely to reconcile their conflicting views of the Camp David peace process in the Mideast.

Carter has publicly pledged to try to persuade Hussein in talks today and Wednesday to participate in the negotiations. Sources in Jordan have said Hussein hopes to make Carter understand why most of the Arab world rejects the Camp David formula.

Given those discordant opinions, administration officials told reporters Monday that they expect little tangi-

A Lubbock-based Census Bureau official was in Midland Monday and issued yet another plea for workers to help with the census follow-up being conducted here.

Mitzi Jordan, district office manag-er of the Lubbock regional office, said the follow-up procedure to the census, is taking so long in Midland and Odessa due to a lack of census workers that preliminary results of the census are being held up from being released to other area cities.

The Lubbock regional office handles census statistics for 30 counties, including Midland County, she said. Preliminary census figures were to be released to the cities in those counties

excitement in the drafting committee, since everything will be fought all over again before the full committee," the Kennedy spokesman said.

In any case, some of the fights will likely end up on the floor of the Aug. 11-14 Democratic Convention in New

York City. "We're not interested in having

concern about how our tax dollars are being spent and had come upon a way of not paying some of those tax dollars," testified Don Luttrell of Fort Smith, Ark.

Luttrell, who operated Break One-Nine radio shop near Dr. Tibbetts' optical office at 2211 W. Texas Ave. in the mid-1970s, said that the eye doctor

Infant goes behind prison bars

## Three-week-old joins his inmate mother

(AP) - Three-week-old Marc Stephen Miller, bun- for a baby and proposed placing him in a foster home until her parole.

"I can find no compelling reason to take the child from his mother," Sturgis ruled. "An infant should remain with his mother if possible.

The ruling was the first under a 1979 state law that allows judges to determine custody in such cases based on the best interests of the child.

"I wanted him to know that I loved him and that I wanted him and that he is the most important thing in my life," Miss Miller said in a recent interview. 'He gave me life. I'm a different person now.'

Hester Sims, a child welfare worker for the state Department of Health and Rehabilitative Services. described Marc as "a real good baby who sleeps well

Miss Sims said the reunion was "kind of sad ause I just think that a baby needs to be brought

up in a home and not a prison." Other inmates will not be allowed to visit Miss Miller and her baby, Booth said. But the door to their pale green cell will not be locked because of fire regulations, he said.

Under Sturgis' order, Marc will stay with his mother during the "primary care" period of six months. Then Miss Miller will "return to the prison rehabilitation programs while the hospital staff cares for the child."

The mother will be allowed regular visits with her ed Miss Miller's petition to keep the child. Welfare baby, Sturgis said. After one year, the judge will review the case

er in prison. (AP Laserphoto)

hind in this area we are and not being able to hire people to complete the task" is the cause, Ms. Jordan point-

ed out. At the most, only 75 workers have been hired in Midland-Odessa at any one time during the census, she said. But, she noted, about 200 workers were needed here.

The Census Bureau likes to use local people to conduct the enumera-tion, but has resorted in this area to using Lubbock residents.

Ms. Jordan noted the Census Bu-reau has advertised in the local media for workers, but only received five

responses. She continues to blame the poor turnout of potential workers here on the low unemployment rate; there just aren't that many Permian Basin residents needing jobs.

Now she's appealing to the civic pride of local residents. And, Ms. Jordan says, the Census

Bureau will continue to conduct testing for workers here. Anyone interested should contact the Texas Employment Commission office in Midland. They also may contact Patsy Phillips, Census Bureau field supervisor, by calling 697-3368.

Young people — those 18 and older — who have at least a high school diploma are urged to seek the positions, she said.

"Surely in a city this large if you make the right contact you could hire that many (100) people," she added. Meanwhile, the Lubbock regional Aug. 8. Now, however, Ms. Jordan says she doesn't know when the office will be closed

dled in a bright yellow blanket, has moved into the state prison here after a circuit court ruling that a baby's place is with his mother - even if she's behind bars.

Prison officials say more babies may be on the

Mare was reunited Monday with a beami. g Elizabeth Miller in the lobby of the Florida Correctional Institution for Women.

"It feels wonderful," Miss Miller said as she cuddled the baby.

A prison guard immediately escorted mother and son to a makeshift nursery and cell at the prison hospital.

Prison Superintendent Bill Booth said five other? and eats good." pregnant women are serving time at the facility.

'I think we can handle one mother and one baby at a time," he said. "But if we have more than that we are going to have to make other arrangements."

Miss Miller, 31, who has refused to identify the child's father, was pregnant when she was sentenced in December to five years in prison for grand larceny.

She will be eligible for parole in January 1982. Marc was placed in temporary foster care after he was born May 22 at a hospital in the neighboring central Florida town of Ocala.

The reunion was made possible June 6 when Marion County Circuit Judge Wallace Sturgis grantofficials had argued a prison was a poor environment

## Clark to open inquiry into U.S. policy in Iran

THE MIDLAND REPORTER-TELEGRAM, TUES., JUNE 17, 1980

NEW YORK (AP) - Former Attorney General Ramsey Clark, stepping up his attacks on President Carter's Iranian policy, has pledged to open an inquiry into the United States' involvement in Iran if Congress refuses to do so

Clark, who returned Sunday from a conference in Iran on alleged U.S. intervention during the regime of the deposed shah, called for a Congressional inquiry as part of a nine-point plan for what he termed the "Iranian solution.

"Every aggressive action we've taken has prolonged the hostage crisis," he told reporters here Monday.

Meanwhile, White House Press Secretary Jody Powell told reporters in Washington that President Carter is still concerned over Clark's trip, which violated a presidential ban on

## **Tanker** leaking liquified gas in freight yard

MIDDLEBORO, Mass. (AP) - A railroad tank car containing 30,000 gallons of liquified petroleum gas began leaking today at a freight yard in a densly populated area of this small city and police cordoned off the

Officials planned to unload the gas and said there was very little danger of an explosion

Police Chief William E. Warner said a railroad inspector noticed the smell of the leaking fuel about 2:30 a.m. as he made his rounds at the freight yard about a half mile from the center of of this town of 15,000 residents.

## Kermit sinkhole still growing

KERMIT, Texas (AP) - More earthen chunks fell victim to the insatiable appetite of the West Texas sinkhole while oil company officials

## **Big Spring man** held in shooting

BIG SPRING - A 19-year-old Big Spring man has been arrested by travel to Iran. The delegation to the Iran-sponsored conference was unauthorized and Carter has said he would like to see Clark prosecuted. "The question of whether to ignore it involves questions of national security and foreign policy," Powell

said. The president has not formally told the Justice Department to prosecute, but if a decision is made to do so, "by definition it is a decision in which the President concurs," Powell said.

The Justice Department has not indicated whether Clark will be prosecuted. The maximum penalty would be 10 years in prison and a \$50,000 fine.

Clark's Iranian plan, published in the current issue of The Nation magazine, includes a call for the United States to renounce intervention by all nations in the affairs of others, to support the right of nations to seek to extradite wrongdoers, to enact a charter to assure control of the CIA and to repent for the violent deaths "of 70,000" Iranian people. Clark, an attorney general under

Lyndon Johnson, also urged the government to end economic sanctions. against Iran, to stop harassing Iranian students in the United States, to give thanks that no Americans have been killed in Iran in the past 17 months, and to pray for the hostages and for Iran to "find a new fulfill-

ment.' "If 50 million Americans gave such a prayer ...," said Clark, "the Iranians, a deeply religious people, would respond generously.

In a Monday night television interview on PBS' MacNeil-Lehrer Report, Clark escalated his attacks on Carter's Iranian policy, calling the aborted attempt to rescue the hostages an "absolutely lawless...police action.

outlined plans to fence the expanding

crater. Three more chunks of land - one the size of a car - dropped into the yawning pit over the weekend, and authorities say cracks appeared about 150 yards outside an oil tank farm

"We've found cracks about 150 yards from the tank farm," said a Winkler County Sheriff's spokeswoman. "This would indicate the ground in this area is very unstable and

West Texas: Partly cloudy thursday through satur-day. Widely scattered thunderstorms north Thursday and Friday. Warm Thursday but cooler north Friday. Lows 60s north to mid 70s south. Highs Thursday and Saturday mostly in the 90s except near 110 Big Bend Highs Friday 80s north to near 110 Big Bend.

forecasts

e Associated Press

North Texas: Partly cloudy and warm. Partly cloudy with widely scattlered showers and not quite so warm Saturday. Low temperature in the 70s. Highest tempera-tures thursday and Friday middle and upper 90s. High Saturday lower and middle 90s.

South Texas: Generally fair skies with no significant temperature changes and no significant precipitation except 80s along the immediate coast and near 100 along the Rio Grande.

## Hot scorching days expected to continue

The hot summer days of West Texas should continue today and Monday with temperatures expected to reach the mid-90s. Throughout the area, skies have been clear and sunny, with days long and scorching. The forecasts, however, have dropped below the triple-digit figures

Texas area forecasts

By The Associated Press

West Texas: Widely scattered mainly afternoon and nightlime thunderstorms north, clear south through Wednesday. Highs lower 80s Panhandle to near 110 Big Bend. Lows middle 60s north to middle 70s south except upper 50s mountain valleys. Highs Wednesday upper 80s Panhandle to near 110 Big Bend.

For Midland, no rain is in sight and the winds should remain southwesterly, bringing more warm air at 10-15 mph.

The nights will be mild, however, with lows expected in the upper 60s. Saturday's high of 95 fell far short of the record 105 degrees set in 1945 and short of the expect 100 degrees forecast. The 65 degree low was much warmer than the 1940 record low of 56 degrees

Thunderstorms moved across Northwest Texas during the night, pelting some areas with golf ball size

## Juneteenth recognized official Texas holiday

Juneteenth; which is celebrated each June 19 by Texas blacks in commemorating Emancipation Day of 1865, this year is being recognized for the first time as an official Texas holiday.

Juneteenth events in Midland will start Thursday, but will be highlighted over the weekend with a parade, religious services, gospel singing, jazz concerts, plenty of "soul food" and a Black Cultural Exhibit at the Tall City Lions Club Den, corner of Stonewall Street and Indiana Avenue in southeast Midland

The event recognizes June 19, 1865, when Union Gen. Gordon Granger, commander of Texas following the downfall of the South in the Civil War, announced the President's proclamation that "all Negroes are free."

That celebrated announcement came 21/2 years after President Abraham Lincoln had issued the Emancipation Proclamation, which led to the end of slavery in the United States, on Jan. 1, 1863.

"Still, we're not free," jested June-teenth booster Roosevelt Campbell, because we can't get off (of work) on the 19th of June. As a matter of fact, they don't even teach about it (June-teenth) in the schools."

Juneteenth became an official holi-day by an Act of the Texas Legisla-ture in 1979. The bill making June 19 a holiday was sponsored by Texas Representative Al Edwards of Hous-

The four-day event in Midland will be highlighted by a parade Saturday

morning, gospel choir singing and religious services from noon to 4 p.m. Saturday, a jazz concert Sunday afternoon, various games over the weekend and an exhibit.

Juneteenth events will be held in or about the Tall City Lions Club Den. Booths featuring barbecue meats and the trimmings, beer and soft drinks will be set up outside the Lions Den. Games will be played in the Den.

The parade will begin at 10 a.m. Saturday at Northgate Shopping Center at Lamesa Road and Nobles Avenue. It will proceed south on Lamesa Road, east on Front Avenue, south on Lee Street and east on Indiana Avenue, concluding at the Lion's Den. The Black Cultural Exhibit, detail-

ing black history before and after slavery, will be on display at the

"Some (blacks) were not free until the fall of 1865, and some were not free until the fall of 1957," said Campbell, who is a quasi-scholar on black history

"My philosophy," which was hand-ed down to him by his father, I.C. Campbell, 80, "is 'Everything in the world is working against you. But you've got to survive and survive with

dignity."" The Juneteenth celebration is being sponsored by the Tall City Lions' Club. The event is open to the public. Those wishing more information on the celebration or who wish to enter the parade may telephone Lions John Cooper at 683-3125, Earl Booker at 682-3543 or Campbell at 683-2334.

olice in connection with a shooting that occurred early today in the Northcrest Apartments here during which another man was injured, po-

lice reported. An argument between the two men resulted in a shootout, police reported.

Police were called in about 1 a.m. after Eugene White, 20, had been shotin the lower left arm. He was taken to Malone-Hogan Hospital in Big Spring where he was listed in stable condition this morning.

Detective Sgt. George Quintero said White and another man from the apartments were arguing when both men pulled out pistols. Police said they haven't filed charges against the 19-year-old suspect.

It was not known what the two were arguing about, the detective added.

## Officers arrest man FBI wants in Oklahoma

A 22-year-old man, wanted by the Federal Bureau of Investigation in Oklahoma City, was arrested Monday night at the Rodeway Inn here, after telling officers his brother was wanted.

He remained in City Jail early today At 9:05 p.m., officers were dispatched to 3601 W. Wall Ave. on a disturbance. When they arrived, a motel employee said two men had been fighting in one of the rooms, and he pointed out one of the men who had been involved in the fight.

The man identified himself to police officers, using a social security card and birth certificate. He told officers he and his brother had been fighting, and that they should check his brother because he was wanted by law enforcement officials.

Officers checked both men's names and found that the first, the one who accused his brother, was wanted in Oklahoma City for interstate transportation of counterfeited securities

## DEATHS

### R. W. Kelton

R.W. "Buck" Kelton, 78, of May and formerly of Midland, died early Sunday in a Rising Star nursing home after a lengthy illness.

Services were at 4 p.m. Monday in Newnie W. Ellis Funeral Home chapel with the Rev. Estill Allen, pastor of Early Methodist Church in Early, officiating. Burial was in Fairview Cemetery.

Kelton was born June 30, 1901, in Callahan County. Moving to Midland in 1907, he spent much of his youth on the Scharbauer Cattle Company ranches near here, where his father served as foreman for 15 years. He then joined the McElroy Ranch in Crane and Upton counties in 1929. He married Neta Beatrice Parker in 1925 in Seminole.

He remained at the McElroy Ranch 36 years and eventually became general manager. In 1965, Kelton moved to his own ranch near May in Brown County. He was a member of the Methodist Church.

Survivors include his wife; four sons, Gene Kelton of McCamey, R.W. "Bill" Kelton Jr. of Monahans, Myrle Kelton of May and Elmer Kelton of San Angelo; a brother, Ben Kelton of Stephenville; three sisters, Florence-Gilbert and Mrs. Bill Johnston, both of Midland, and Lil Denton of Driscoll; 11 grandchildren and seven great-grandchildren.

Pallbearers were the grandsons: Bill Kelton, Sam Kelton, Ted Kelton, Gary Kelton, Steve Kelton, Shane Kelton and Joel Kelton.

Services for Jim Gormany, 66, 1802 E. California Ave., were to be at 2 p.m. today at Hollowell United Methodist Church. Burial was to be in Fairview Cemetery directed by Roscoe Jackson Mortuary.

Gormany died Saturday at his home.

Born Nov. 19, 1912, in Lamar County, Gormany lived in Paris, Texas. He moved to Midland in January 1952. He had worked as a building custodian for a major oil company. He later worked for Kirkland Pharmacy until he retired. He was a member of the New Hope Baptist Church.

Survivors include his wife, Beulah Gormany; two sons, Edgar Gormany of Denver, Colo., and Bernard L. Whaley Sr. of Abilene; a sister, Willie Mae Williams of Spencer, Okla.; and seven grandchildren.

#### Mrs. Roberts

Services for Mrs. O.W. Roberts Sr., 88, 1219 E. Chestnut Ave., were to be at 4 p.m. today in the First Assembly of God Church with the Rev. W.D. Metzger and the Rev. Raymond Shaeffer officiating. Burial was to be in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home. Mrs. Roberts died Sunday night at

her home. She was born April 12, 1892, in Midland. She was the daughter of Jenny and "Uncle" Brooks Lee, who came

to Midland in the early 1880s, to ranch in this area. She married the Rev. O.W. Roberts Sr. of Abilene in 1910. They returned to Midland and lived here until the

present time. He died in Midland in 1952. She was a member of the First Assembly of God Church. Survivors include fours sons, O.W.

Survivors include fours sons, O.W. Roberts Jr. of Midland, Brooks Roberts of Arlington, Wilbur W. Roberts of Carlsbad, N.M., and Jim E. Roberts of Hurst; a daughter, Oleta Harvey of Midland; nine grandchildren, 16 great-grandchildren and eight great-great-grandchildren.

## Hattie Beaty

LAMESA — Services for Hattie Beaty, 71, of Lamesa were to be at 2 p.m. today in the Branon Funeral Home Chapel with the Rev. Jack Webb and the Rev. Bob Metzger officiating.

- Burial was to be in Lamesa Memorial Park.

She died Sunday in Medical Arts Hospital after an illness.

A native of Red River County, she had lived 20 years in Lamesa. She married Joe N. Beaty Sr. in 1926 in Lydia.

Survivors include a daughter, Arlene Freeman of Hale Center; four sons, Joe Beaty Jr., Dee "Buddy" Beaty and Ben Beaty, all of Lamesa and H.W. "Cotton" Beaty of Odessa; three brothers, James Presley of Dekalb, Hugh Presley of Odessa and Eullen Presley of Dallas; 12 grandchildren; and eight great-grandchildren.

## Earl McDowell

ROSWELL, N.M. — Earl McDowell, 94, of Roswell, father of Lou Ella Hyde of Midland, Texas, died Sunday in Midland.

Services will be at 11 a.m. Wednesday in the LaGrone Funeral Home chapel at Roswell. Officiating will be the Rev. David Moore, associate pastor of the First Baptist Church in Roswell. Burial will be in South Park Cemetery in Roswell. Local arrangements were handled by Newnie W. Ellis Funeral Home.

McDowell was born May 15, 1886, in Marion County, Kansas. He married Gertie Herbert in Edmond, Okla., on May 17, 1908. They moved to Dunlap, N.M., in a covered wagon in 1908, then moved on to Roswell in 1911. There he owned a truck garden for more than 60 years. His wife died in 1973 in Roswell. He was a member of the First Baptist Church there.

Other survivors include a son, Orville McDowell of Rockport, Texas: a

## O.C. Doggett

SWEETWATER — Overton Cleo Doggett, 52, of Midland and formerly of Sweetwater, died Saturday in a San Antonio hospital.

Services will be at 2 p.m. Wednesday in the First Apostolic Tabernacle Church in Sweetwater. Burial will be in Sweetwater Cemetery directed by McCoy Funeral Home.

Doggett was born April 11, 1928, in Blackwell. He married Mary Ann Rogers on Aug. 10, 1952, in Bronte. He

#### Body found in isolated cabin

GREENVILLE, Texas (AP) — Sheriff's investigators had no suspects in the execution-style slaying of a 74-year-old man whose body was found sprawled in the doorway of his isolated lakeside cabin.

Hunt County Sheriff's Deputy Rocky Bridges found the body of Sherod Luther Hart while on routine patrol Monday afternoon.

No weapon was found at the cabin, located on Club Lake about 10 miles south of here, but the one-room structure had been ransacked, investigators said.

## Police probe fatal fall

BUFFALO, N.Y. (AP) — Police are investigating the death of a research scientist who fell from the Cancer Cell Center at Roswell Park Memorial Institute. Dr. David Pressman,

63, a former associate director of the institute and nationally known researcher, was pronounced dead on arrival at a hospital after the fall Monday, officials said. Chief Leo J. Donovan

of the police homicide burean said Pressman had left at least two notes, but he did not know the contents.

Further details were not available immediately.

Pressman came to the Buffalo cancer hospital in 1954 from the Sloan Kettering Memorial Institute in New York City. He was considered an expert in immunology, and had won many awards for his work.

# Meadowpark

#### What is Meadowpark?

Meadowpark, a project of Citizens Savings & Loan Association, is a Planned Unit Development of attractive patio home and townhome clusters. Meadowpark will consist of up to 200 attached and detached patio homes and attached townhomes on nearly 60 acres in north Midland. The development is inside the city of Midland and receives all municipal services, including police and fire protection, and water and sewer services.

#### Meadowpark Owners' Association

Common recreation facilities and park areas are managed by the Meadowpark Owners' Association. Purchasing a patio home or townhome on your own lot automatically makes you a member of the Meadowpark Owners' Association. The Association provides management and maintenance of the common park areas, playgrounds, tennis courts, and swimming pool with cabana, bathhouse and deck area. Homeowners are assessed a monthly maintenance fee.

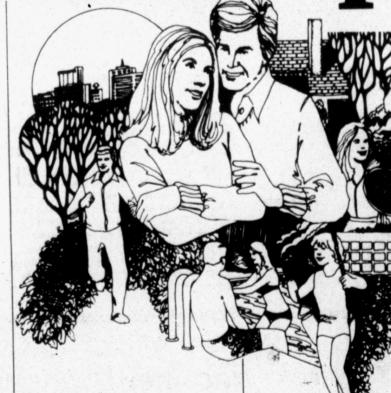

## A low density development.

Meadowpark residents will enjoy a great deal of room and privacy because of the very low density of the development. A low density of 2.5 residences per gross acre allows for privacy. (Many fine residential developments average more than four residences per gross acre.)

The cluster arrangement of Meadowpark restricts traffic flow on residential streets. On-street parking is prohibited, so that streets become areas for family activities.

#### Patio Homes and Townhomes

Meadowpark residences range in size from a two-bedroom townhome with 1,576 square feet, up to a four-bedroom patio home with

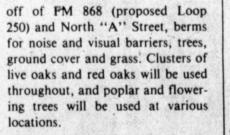

3,600 square feet livable. A total of 17 floor plans are available in one and two story designs, or a buyer may employ his own architect/ builder.

As a Meadowpark homeowner, you own the lot on which your home is located, all of the improvements on the lot, and an interest in the common areas and facilities.

Meadowpark homes offer two or more enclosed patios, affording a relaxed, suburban lifestyle. General landscaping includes entrances

Each Meadowpark residence is designed as an energy efficient home and will meet Texas Electric Service Company's strict "E-OK" rating.

#### What does it cost?

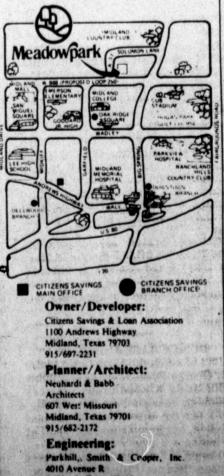

Meadowpark @

Patio homes and townhomes start in the low eighties and range up to \$150,000. Of course, you may request additional features in planning with your builder which may affect the final sales price. Citizens Savings & Loan Association serves as both developer and permanent lender, and you may wish to visit with one of our loan officers about interim financing and permanent mortgage for your Meadowpark home. We will be pleased to supply a list of reputable builders who will execute your selected Meadowpark plan.

#### Where is Meadowpark?

Meadowpark is located on 59.91 acres northeast of the intersection of North "A" Street and FM 868 (proposed Loop 250). Nearby are newly developing shopping centers and a regional mall, Midland College, schools and Midland Air Park. Country clubs are close by as well.

For more information about Meadowpark, call Citizens Savings & Loan Association, and ask for John Phipps, Vice President. Telephone: 697-2231

## Transmitting signals

A Congress awakening from the dreamworld of detente now has begun to take some positive steps in terms of military preparedness

Those steps will take the United States closer to security in a world threatened by hostilities and unrest.

For too many years now the Congress has been sinking in a pool of false beliefs about Soviet intentions, cutting back military spending, allowing the draft machinery to be dissolved. We have suffered the consequences of our own distaste for war and the instruments of war'.

Perhaps the Congress is turning slightly hawkish once again. Only last week it approved the 1981 federal budget, a budget that calls for \$153.7 billion in defense spending

That is a record peacetime defense increase and is \$3.2 billion more than President Jimmy Carter had requested.

And the Congress is moving toward renewing peacetime draft registration. Under the funding measure now in the Congress, an estimated four million young men between the ages of 19 and 20 would be required to register for the draft although they would not be required immediately to submit to physical examinations or

be issued draft cards.

What the Congress has done by taking these steps is to assure the Soviet Union - and the United States' other potential adversaries - that this nation will not lie back idly while aggressions are mounted against other free nations in the world.

We are transmitting signals to the Soviet Union - subtle though they be --- that we do not condone their activities and that we are not afraid of confrontation, even though we do not want it.

We believe these are positive signals; these are the signals that should have been sent long ago before the credibility of the Carter administration was eroded and the respect for the United States' leadership role in the world undermined.

The people of the United States are not "war mongers." We do not pick fights. But neither do we allow ourselves to be pushed into a corner just for the sake of avoiding conflict.

Under the current leadership we have transmitted negative signals far too long. A mistaken impression has been given the Russians of the intestinal fortitude of Americans

Now, perhaps, that trend is being reversed and the true signal is coming through loud and clear.

Thanks to the Russians, Cuba has "the best-equipped air force in Latin America," according to the Penta-

## CHARLEY REESE It's important to avoid 'information overload'

A person who wishes to survive the coming days of crisis with a reasonable amount of sanity will have to learn how to avoid information overload

Information overload occurs when you are so bombarded with information, some of it conflicting and contradictory, that your poor old brain just develops static. Clear thought becomes impossible. Confusion and apathy set in, and you begin to function less effectively.

It is a side-effect of the communications revolution which is yet to be fully understood, let alone analyzed, because it is still in progress. But follow yourself through a normal day and think how much information is poured into your brain. Television and radio talk to you at an average rate of 120 words a minute. Your newspaper contains anywhere from the equivalent of one to four novels in terms of numbers of words. You can neither walk nor drive without seeing signs. The plain brown wrapper has become extinct; zillions of containers are plastered with information.

But not only has the volume of information increased, it has been accelerated. You can learn of a rescue attempt in Iran before the helicopters' engines have cooled. Long before the participants had returned to the U.S. and had time to reflect, you were bombarded with special reports, bulletins, TV specials, special

EDITORIAL

Only WANT AD

sections of the newspapers - all filled with reports, interviews, commentaries, opinions, speculation, analysis, etc. Thanks to the new technology, the pace and demands of news now runs faster than the events being reported.

This is a key concept in learning to avoid information overload. There is more "news" than there are newsworthy events. You see, we get locked in by tradition and economics. A daily newspaper must publish every day whether anything really significant has occurred or not. Broadcast news is in the same predicament.

You would be amazed and probably angry if you picked up your newspaper and there on the front page was a single headline: "Nothing really important happened yesterday." Yet, in reality, there are a lot of days when nothing really important happens Consequently, we have devised strategies for dealing with such days.

One strategy is to stretch out the few stories we do have. We report an event. Then we report reaction to the event. Then we sometimes report reaction to the reaction. Then we analyze the event. And, finally, we review the event.

Another strategy we employ is to make use of the relativity of news. If, on the same day, there is a crisis close at hand and a crisis in a distant place, we would tell you about the close crisis and very little about the distant crisis. But, if things are quiet in our immediate area, we will tell you a lot about the distant crisis. If you don't. understand what we are doing, you might get the impression that the world is in a state of continuing cri-

So one way to guard against information overload is to learn about the mechanics and customs of the news business so that you will understand that news is, by definition, a reflection of only a narrow band on the broad spectrum of reaity.

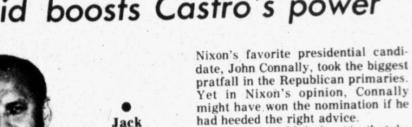

Another way is to becom selective in admitting information. One man said it is more important to learn what not to read than it is to learn speed reading. The beauty of a newspaper is that it's a smorgasbord - you don't have to eat it all. You don't have to watch quickie-TV specials which are usually just a rehash of the breaking news with a few banal comments tossed in. You don't have to listen to the idle chatter of disc jockeys. You don't have to read junk mail. Become more selective in what you read and listen to and you'll find vourself calming down and your own thinking becoming more clear. You can't control the generation of information, but you still control the switch on the receiving end.

## WASHINGTON MERRY-GO-ROUND Soviet military aid boosts Castro's power

WASHINGTON - While the Pollyannas insist that the mass flight of Cuban refugees to the United States shows the moral bankruptcy and economic failure of Fidel Castro's Communist regime, the professionals of the American intelligence community paint an entirely different picture. Secret assessments presented to

Congress by the Defense Intelligence Agency warn that Fidel Castro, far from being at the end of his rope, is at the peak of his military efficiency, thanks to the Soviet Union's military assistance

The refugee exodus exposes Cas-

#### TODAY IN HISTORY

Today is Tuesday, June 17, the 169th day of 1980. There are 197 days left in the year.

Today's highlight in history: in 1972, a break-in was discovered at the Democratic Party headquarters in Washington's Watergate complex the first hint of the scandal that would topple the Nixon administration. On this date:

In 1579, Sir Francis Drake landed on the coast of California and claimed it for England. In 1775, the British defeated Ameri-

can revolutionaries in the battle of Bunker Hill.

In 1967, China announced it had exploded its first hydrogen bomb. In 1973, U.S. Skylab astronauts broke the record established by Soviet cosmonauts as they began their

24th day in space. Ten years ago, President Richard Nixon appealed to business and labor to keep the lid on inflation by using restraint in contract negotiations.

Five years ago, the people of the Northern Marianas Islands voted to become American citizens and turn the string of Pacific Islands into a

#### **INSIDE REPORT:**

## By ROWLAND EVANS AND ROBERT NOVAK

WASHINGTON - The "top secret" Senate Republican staff study of the failed hostage rescue effort, whose leak to the media threatens a fullscale investigation, contains information publicized by the Iranian government after it found the secret documents and plans in an abandoned U.S. helicopter in the Iranian desert.

The report for the Senate Armed Services Committee was stamped "top secret" even though it mainly rehashed plans captured in the helicopter. This included spy satellite pictures of designated landing places for the rescue teams plus operational plans.

These documents were widely published around the world. Yet, leak of the study infuriated Sen. John Stennis, the austere armed services committee chairman. He has ordered a thorough investigation to find the leaker.

#### **BUSH'S BACKPEDALING**

Foes of a Reagan-Bush ticket claim that George Bush would have trouble repudiating his ludicrous primary campaign charges that Ronald Reagan's tax cut would cost 30 percent inflation, but Reagan insiders scoff at the noti

'Forget it," one of Reagan's oldest advisers told us. "Bush can backpe-dal better than anybody. His long suit is loyalty, and he can be loyal to the governor (Reagan)." Thus, Bush is obably No. 1 on the Beagan vice

U.S. commonwealth.

Last year, on the eve of the signing of the Salt II Treaty in Vienna, President Carter and Soviet President Brezhnev exchanged toasts, and warnings about non-compliance.

Today's birthday: Entertainer Dean Martin is 63. Thought for today: Only the young die good - Oliver Herford (1863-

1935)

#### tro's Cuba as a sham. But his Big Brother in the Kremlin supplies him with the practical support to keep him in control. The 100,000 Cuban refugees may have the principles, but Castro has the firepower.

In fact, humiliating as it seems, the Cubans may have achieved - thanks to their Soviet buddies - a military capability that the United States is still just dreaming about: a rapid deployment force that can be rushed into the breach in brush-fire situations short of an all-out nuclear confrontation.

"The Cuban armed forces have graduated from what was a defensive force to one which, with Soviet assistance, can deploy a large number of troops to distant conflicts on short notice," the CIA briefers recently informed the House subcommittee on inter-American affairs, chaired by Rep. Gus Yatron, D-Pa.

Obviously, no one is suggesting that Fidel Castro can successfully attack the United States - although our intelligence has unearthed information that the Cubans in fact can strike targets in Florida with their Soviet weapons. The point is that Castro has the military muscle to attack his Latin American neighbors on quick notice.

gon's intelligence experts. Among the Cuban air force's recently acquired planes is the MiG-23 "Flogger' which, fully loaded, "can reach portions of the Southeastern United States, Mexico, Central America and the western islands of the Caribbean," according to the secret tran-

script. In addition, Soviet-supplied AN-26 transports have "the capability to airdrop troops in portions of Florida ... all of Jamaica, Haiti and the Bahamas, and most of the Dominican Republic," the CIA analysts warn.

But as anyone who has ever done business with the Soviets knows, the Russian bear hug is not a purely affectionate embrace. It requires a certain quid pro quo.

"The Soviets and the Cubans have consummated what you might call an effective marriage," states a Pentagon report obtained by my reporter Lucette Lagnado, "where the Cubans are providing the troops and the Soviets virtually all the equipment."

As a result, the intelligence analysts have concluded, "the Cubans are now able to serve as an important regional military actor in the Caribbean area.

NIXON'S ADVICE - Richard

FLYING BACKWARD - Commercial airline pilots who are alcoholics have been able, for the past eight years, to acknowledge their problem without fear of permanent grounding. Once they have agreed to proper treatment - and have agreed to stay dry - they are allowed by federal regulations to keep their jobs.

But a federal court ruling last month may drive alcoholic pilots back into the closet - to the detriment of the flying public.

As it happens, the court suit, brought by Delta Airlines against the Federal Aviation Administration, had nothing to do with alcoholic pilots. Like all but one of the nation's major airlines (Northwest), Delta has gone along with the FAA program that permits recovered alcoholics to regain their wings.

But the court decision, which involved Delta's right to impose higher medical standards on its pilots than the FAA required, may shoot down the industry-wide rehabilitation program for the approximately 300 recovered alcoholics who now pilot American commercial airlines. The decision also affects pilots who have overcome heart disease, psychiatric problems and other medical conditions.

INSIDE THE KREMLIN -- If President Carter can't keep his allies in line, it may comfort him to know that his nemesis in the Kremlin, Leonid Brezhnev, is having a similar problem. An intelligence report claims that Hungary, Poland and, of course, Romania balk increasingly against Soviet policies .... The decision to invade Afghanistan, according to another intelligence report, has caused tension within the Kremlin. Although their differences are papered over, some Politburo members reportedly believe the invasion was a mistake. The grumbling, apparently, isn't directed so much at Brezhnev as at the hardheads who pushed the invasion plan on their faltering leader.

#### BIBLE VERSE

He that is slow to anger is better than the mighty; and he that ruleth his spirit than he that taketh a city. Prov. 16: 32.

#### THE BIBLE CAN YOU QUOTE IT?

#### By LAVINA ROSS FOWLER AND ELIZABETH ROSS WIERSEMA

#### presidential list today.

However, some Reagan advisers wonder how many votes Bush will really bring to the ticket. They suspect those votes cannot make up for Reagan not getting on the anti-abortion ticket in New York state if Bush is chosen as vice president. That could cost Reagan New York's 41 electoral votes.

#### CARTER'S REFUSAL

White House insiders are complain ing that the office of Anne Wexler, one of President Carter's senior assistants, put the president in a bad light in his reported refusal to appear be-fore the National Council of Mayors in Seattle the same day as Sen. Edward M. Kennedy.

Perhaps reacting to the bad publici-ty the president got from his dog-in-a-manger attitude, one of Carter's campaign advisers blamed Wexler's office for mishandling the announce-

What had been planned, this insider

responsibility for disinviting Kennedy with Carter playing no role at all in the decision. Instead, the burden was put on the president, making it appear that Carter was afraid of a backto-back confrontation with Kennedy.

told us, was for the mayors to take full

HARMONIZING KEYNOTER Gov. William Clinton of Arkansas, the early front-runner to be Democratic convention keynoter, lost out to Rep. Morris Udall of Arizona for one reason: The desire by the Carter high command to placate the defeated but bitter Kennedy forces.

The 34-year-old Clinton is an eloquent voice of the future in the party, but has backed President Carter's re-election bid from the beginning. Udall, in contrast, endorsed Sen. Edward M. Kennedy's challenge, but never supported it aggressively enough to cause waves. Witty and graceful, Udall was considered the perfect harmonizer as keynoter.

## Don't drink the water in New Jersey

JERSEY CITY, N.J. (AP) - Diesel fuel polluting the Jersey City water system has been diluted, but state officials are advising about 240,000 residents of four communities to avoid drinking tap water.

State Department of Environmental Protection officials said 50 to 250 gallons of diesel fuel leaked into Jersey City's Boonton Reservoir on Monday, fouling a system that also supplies Hoboken, West Caldwell and Lyndhurst.

The tainted water smelled like kerosene and could be nauseating, but environmental officials did not consider it dangerous

The state Department of Environmental Protection issued precautionary orders not to drink it, spokesman Jeff Gove said. He said it was "not a toxic problem, but more one of aesthetics.'

Workers began diluting the fuel with fresh water from the Passaic Valley Water Commission and Newark Water Department, flushing out pipes, Gove said. "The system probably will clean itself up by some

time Tuesday (today) or Wednesday," said state environmental engineer Barker Hamill. "There probably will be lingering pockets of it (fuel) a few days later.'

Meanwhile, businesses and hospitals in those areas seemed to get by with purchased water and grocery stores and supermarkets reported booming sales of spring and mineral water. But customers seemed to be staying away from restuarants.

Workers at the Jersey City water plant in Parsippany-Troy Hills learned at 9:30 p.m. Sunday that No. 2 fuel oil filtered into an aqueduct from a generator, Gove said.

The pollution did not show in local water supplies until the following morning, he said.

Police cars circled the streets of Jersey City and other affected communities with loudspeakers announcing orders to avoid drinking the tainted water. But the officers did not announce reasons for not drinking the water, sparking a flood of calls to city officials from worried residents.

About two-thirds of Jersey City was affected, said mayoral spokesman Eugene Scanlon. Low-lying sections such as the downtown neighborhood were not affected, he said.

City and state officials said Monday afternoon that water in Hoboken was safe to drink.

Hamill said boiling water "would not be a major help" for local residents to clean the water.

## **Operators stake more wildcat tests**

Triton Oil & Gas Corp. of Dallas announced location for an 8,700-foot wildcat in Borden County, 12 miles north of Vincent

The prospector is No. 1 McDowell, 467 feet from south and 567 feet from east lines of section 129, block 25, **H&TC** survey

The drillsite is 1 1/4 miles southeast of an 8,410-foot dry hole and 2 1/8 miles southwest of the depleted Canning (Wolfcamp oil) pool

#### LYNN RE-ENTRY

James L. Flinn of Midland No. 1 H. B. Howell is a re-entry wildcat in Lynn County, seven miles southeast of Tahoka

It is 467 feet from north and east lines of section 451, block 1, EL&RR survey

Originally drilled by Houston Oil Co. in 1950 and abandoned at 9,503 feet, the project will be cleaned out to 9,403 feet by Flinn.

#### LUBBOCK PROJECT

Gulf Oil Corp. will re-enter a producer in the Lee Harrison (Clear Fork) field 12 miles east of Lubbock and plug back for tests in the Glorietta as a wildcat.

The project, No. 1 J. Darby and others, is 660 feet from north and east lines of labor 21, league 4, San Augustin County School Land survey.

It will be cleaned out to 4,780 feet. The Lee Harrison pool produces from the Clear Fork at 4,870 feet.

#### EDDY PROJECTS

Amoco Production Co. announced location for a 12,000-foot Pennsylvanian project in the Shugart multipay area of Eddy County, 11 miles southeast of Loco Hills.

It is No. 14 Greenwood Pre-Gray-

been spotted as a 1,300-foot cable tool project in the Millman, East field of Eddy County, 17 miles southwest of Loco Hills

Location is 1,650 feet from north and east lines of section 21-19s-28e.

#### STONEWALL TESTS

E. C. Johnston Co. of Longview staked No. 1 C. B. Long Estate as a northwest offset to one of the three wells in the Short (congldomerate 5700) field of Stonewall County.

It is 20 miles northeast of Aspermont and 1,996 feet from north and 3,107 feet from east lines of section 1, **BBB&C** survey

Contract depth is 5,900 feet.

A. L. Sauder Jr. of Wichita Falls will dig his No. 7-A Bill McMeans as a northwest offset to one of the three wells in a southwest extension area to the Ben S (Tannehill) field of Stonewall County, 16 miles northwest of Swenson

Drillsite is 2,196 feet from south and east lines of section 360, block D, H&TC survey. Contract depth is 3,900 feet.

#### \*\*\*\*

A. L. Sauder Jr. of Wichita Falls staked No. 1-B Bill McMeans as a northwest offset to production in the extension area to the Ben S (Tannehill) field, 16 miles northwest of Swenson

Location for the 3,900-foot operation is 2,450 feet from south and 2,550 feet from west lines of section 360, block D, H&TC survey

#### GAINES RE-ENTRY

Exxon Corp., operating from Midland, will re-enter its No. 4 Exxon Fee, former Clear Fork 7,100 producer in Gaines County and test for completion as the third well in the Newsom (Yates gas) field. The project is bottomed at 7,232 feet and is 660 feet from south and east lines of section 9, block A-24, psl survey

The Yates will be tested at approximately 3,000 feet. The project is 1 3/8 miles northwest of production.

#### CROCKETT TESTS

Sioux Natural Gas Corp. of Houston spotted a pair of projects in the Ingham (Devonian gas) area of Crockett County, 15 miles west of Ozona

Each will be drilled on a 9,000-foot contract.

No. 1-22-29 University is 2 1/8 miles east of production and 660 feet from southand 1,980 feet from west lines of section 22, block 29, University Lands survey.

#### \*\*\*\*

Sioux No. 2-22-29 University is 1 3/4 mile southeast of producton and 1,700 feet from south and 900 feet from east lines of section 22, block 29, University Lands survey.

#### UPTON AREA

Sohio Petroleum Co., operating from Midland, spotted No. 1 Myers as a 5/8-mile steput to production in the Upton County portion of the Spraberry Trend Area field.

Scheduled to 8,450 feet, it is 9,300 feet east of the southwest corner of section 1280 1/2, L. M. Lee survey, then 505 feet north to location

#### SCHLEICHER PROJECTS

Parcross Oil Co. of Fort Worth announced plans to re-enter a former Strawn well in the Eldorado, Southwest field and attemp recompletion at 7,200 feet as te second gas well from the field's Strawn pay.

It is No. 1 Parcross-Kent, 900 feet from south and 200 feet from west lines of section 161, block A, HE&WT survey. It originally was drilled by Tom

# 'No pipe dream payments' for Texas coastal residents

#### By SOLL SUSSMAN

WASHINGTON (AP) - The sponsor of a bill authorizing \$80 million to compensate for damages from the massive Ixtoc I oil spill cautions that there won't be any easy money headed for Texas coastal residents and businesses if it becomes law.

'There will be no payment for pipe dreams. This is to take care of provable losses only," Rep. Ray Roberts, D-Texas, said.

The House approved the bill by

ENERGY OIL & GAS

## Ellenburger strike finals

Hillin Production Co. No. 1 Atkins has been completed as an Ellenburger gas discovery in the Pecos Valley multipay field of Pecos Coun-ty, 10 miles southwest of Imperial.

The operator reported a calculated absolute open flow potential of 1.85 million cubic feet of dry gas per day, throughperforations from 6,718 to 6,-760 feet.

Total depth is 7,200 feet, 4.5-inch pipe is set on bottom and hole is plugged back to 7,127 feet.

Location is 660 feet fromnortheast and 1,980 feet from southeast lines of section 26, block 10, H&GN survey.

#### NOLAN WELL

Big Lake.

Frost Oil Co. Inc. of San Antonio reported potential test on a well in the White Hat, Southeast (Cico) pool of Nolan County, five miles west of Blackwell. The second well in the field, it fin-

aled for a daily flwoing potential of 80 barrels of 44-gravity oil and three barrels of water, through a 10/64-inch choke and perforations from 4,089 to 4,107 feet after a 600-gallon mud acid

wash. The gas-oil ratio is 750-1.

Rotal depth is 4,197 feet and 4.5-inch casing is cemented on bottom. The Cisco was topped at 4,068 feet on kelly bushing elevation of 2,246

feet. The well is one location northeast of the pool's other well and 1,500 feet DAWSON COUNTY from south and 1,450 feet from west. lines of section 246, block 1-A, H&TC

Devon Corp. of Oklahoma City No. 2

Owens and others is a new producer in

Reagan County, 8.5 miles southeast of

lines of seciton 6. HE&WT survey.

tion 18, block 36, T-4-S, T&P survey.

GLASSCOCK TEST

unanimous voice vote Monday, sending it to the Senate.

The bill permits U.S. tax dollars to be used to pay claims of Americans who can prove they suffered financially as a result of the June 1979 blowout of an offshore well in Mexico's Bay of Campeche.

The spill became the world's largest - sending 10,000 to 30,000 barrels of crude oil a day into the Gulf of Mexico - long before the well was capped this March.

Thick goo from the well arrived on South Texas beaches last year before winter currents reversed the flow.

Texas governments, businesses and individuals claiming damages under the bill would have to demonstrate to the Coast Guard's satisfaction that they had suffered an actual economic loss as a direct result of the oil spill. The loss or destruction of property, impairment of earning capacity, lost

tax revenue or loss of natural resources would be among the losses that could be eligible for compensation.

Hotel, motel and charter boat owners are among the businesses pointing to heavy losses caused by customers staying away from the coast last year.

South Texas businessmen and elected officials traveled to Washington last December to press their case for federal compensation.

Ralph Thompson of the South Padre Island Tourist Bureau estimated that hotel occupancy dropped almost 70 percent after publicity spread about the approaching oil.

The tourist bureau since has adopt ed a "The Coast Is Clear" publicity campaign to avert tourists' potential

THE NEWSPAPER BIBLE

## God loves you as you are

When a man makes a jar out of clay, doesn't he have a right to use the same lump of elay to make one jar beautiful, to be used for holding flowers, and another to throw garbage into?

Does not God have a perfect right to show His fury and power against those who are fit only for destruction, those He has been patient with for all this time?

And He has a right to take others such as ourselves, who have been made for pouring the riches of His glory into, whether we are Jews or Gentiles, and to be kind to us so that everyone can see how very great His glory is.

Remember what the prophecy of Hosea says? There God says that He will find other children for Himself (who are not from His Jewish family) and will love them, though no one had ever loved them before.

And the heathen, of whom it once was said, "You are not My people," shall be called "sons of the Living God."

Isaiah the prophet cried out concerning the Jews that though there would be millions of them, only a small number would ever be saved.

"For the Lord will execute His sentence upon the earth, quickly ending His dealings, justly cutting them short."

And Isaiah says in another place that except for God's mercy all the Jews would be destroyed-all of them-just as everyone in the cities of Sodom and Gomorrah perished.

Well then, what shall we say about these things? Just this, that God has given the Gentiles the opportunity to be acquitted by faith, even though they had not been really seeking . God.

But the Jews, who tried so hard to get right with God by keeping His laws, never succeeded.

Why not? Because they were trying to be saved by keeping the law and being good instead of by depending on faith. They have stumbled over the great stumblingstone.

God warned them of this in the Scriptures when He said, "I have put a Rock in the path of the Jews, and many will stumble over Him (Jesus). Those who believe in Him will never be disappointed."

## High court limits use of informants

**BOYS** • GIRLS

12 THROUGH 16

SUMMER JOBS

WASHINGTON (AP) - The Supreme Court says law enforcement officials cannot hire jailhouse informants to induce criminal defendants in custody to make incriminating statements

But the nation's highest court has stopped short of outlawing the use of jailhouse spies who are told to overhear cellblock conversations and to try to win a defendant's confidence.

By a 6-3 vote Monday, the justices struck down Billy Gale Henry's conviction and 25-year prison sentence for a 1972 bank robbery in Virginia because the FBI paid Henry's cellmate to spy on him.

branch of the United Virginia Bank-Seaboard National

Relying heavily on a 1964 decision barring government agents from deliberately eliciting incriminating information from defendants entitled to a lawyer's help during any interrogation, Chief Justice Warren E. Burger said Henry's conviction must fall.

"By intentionally creating a situation likely to induce Henry to make incriminating statements without the assistance of counsel, the government violated Henry's Sixth Amendment right to counsel," Burger's majority opinion said.

of urban wastes into energy.

corporation governed by a sevenmember board of directors appointed

#### By CLIFF HAAS

WASHINGTON (AP) - Almost a year after Congress and President Carter decided the nation needed a crash program to develop synthetic fuels, House and Senate negotiators have approved a multibillion-dollar bill to launch the industry.

Sen. Bennett J. Johnston, D-La., chairman of a Senate Energy and Natural Resources subcommittee on energy regulation, said the bill will accomplish more to ease U.S. dependence on foreign oil than has been done in the seven years since the Arab oil embargo.

In finishing months of work on the measure Monday, the conferees also directed President Carter to resume filling the strategic petroleum reserve, the U.S. stockpile of oil, at the rate of at least 100,000 barrels a day.

The reserve has a capacity of 156 million barrels of oil but now contains only 91.7 million barrels. The Saudi Arabian oil minister, Sheik Ahmed Zaki Yamani, warned last week thatfilling the reserve further could lead to cuts in his country's current production of 9.5 million barrels.

Purchases for the reserve were halted in 1978 due to tight supplies and high prices.

The conferees adopted an amendment that would, in effect, fill the reserve with oil that remains under government price controls and thus is less expensive than current world market costs of up to \$32 a barrel. The price controls end Sept. 30, 1981.

Last month, the negotiators approved the centerpiece of the legislation, a \$20 billion, five-year program of loan and price guarantees aimed at building plants that could produce synthetic fuels.

Johnston called the final product a 'cookie jar" that contains something for almost everyone, with provisions ranging from incentives for solar power to fossil fuel studies.

Johnston predicted the measure will get easy House and Senate approval next week

House Majority Leader Jim Wright, D-Texas, called the bill the most significant piece of legislation to be considered by the current Congress.

It was last summer, as lines of angry motorists formed at gasoline pumps, that the House voted to establish a \$3 billion synthetic fuels industry that could manufacture fuels from non-petroleum materials such as oil or gas made from coal, or already-existing oil extracted from materials such as shale or tar sands

WASHINGTON (AP) - Some of the most "profoundly complex strategic and political issues" of the post-war period will confront President Carter and leaders of six other nations at their upcoming meeting in Venice, says a senior White House official

Carter will sit down with the leaders of France, Germany, Great Britain, Japan, Canada and Italy at an economic summit conference next Sunday and Monday. The president will leave Thursday and also go to Yugoslavia, Spain and Portugal before returning a week later.

The economic summit will be the sixth in as many years, but for the first time, a major portion of the two-day meeting will be devoted to political issues.

"It will be an opportunity for Western leaders to consult on broad political and strategic issues at the outset of the decade of the 1980s," the senior official, who asked not to be identified, told reporters Monday

"It is no exaggeration to say that this decade confronts us with the most pressing security agenda we have had facing us probably since some time back in the mid-1950s," he said.

The official listed the Soviet occupation of Afghanistan, the Iran hostage crisis, the Middle East conflict and East-West relations as being uppermost on the political agenda. The Carter administration has been disppointed that some of the other summit nations have adopted different approaches on many of these key issues.

The European Common Market countries, including France, Great Britain, Italy and Germany, issued a declaration Sunday in Venice calling for "the recognition of the legitimate rights of the Palestinian people" and a role for the PLO in the Mideast peace negotiations. The United States opposes PLO participation until it recognizes Israel's right to exist.

While the official acknowledged there was some "divergence of views" among the summit nations on the key issues, he insisted "the state of the alliance is good.'

Another official, who also asked not to be identified, said energy issues top the economic agenda. In particular, he said there will be continued stress on the need to reduce dependence on oil and develop other energy alternatives, notably coal.

He said there will be emphasis on the need for countries to meet annual ceilings for oil imports, although specific targets won't be set at Venice. The same nations did agree to targets at their summit in Tokyo last year, but U.S. officials say only the United States was successful in meeting them. The official said all seven leaders are likely to agree that they must continue to focus their economic policies on reducing inflation, even though it means slower economic growth and higher unemployment.

Portugal is to demonstrate support for these new democracies, the official said. The visit to Yugosla-via is to establish close ties between the United States and the new leaders who have taken charge following the death of Marshal Tito, he said.

Carter also will confer with Italian leaders and in Rome with Pope John Paul II at the Vatican.
