What makes a good, or a bad, "cop"? All prospective Midland police officers are required to undergo a psychiatric examination. Sunday's Reporter-Telegram will explain what insight law enforcement officials hope to gain through these examinations.

# The Midland Reporter-Telegram

**METRO EDITION** 

DIAL 682-5311, P.O. Box 1650, MIDLAND, TEXAS Vol. 53, No. 103, Daily 25e, Sunday 50e

32 PAGES, 4 SECTIONS

With sleek lines and noble bearing, what better name for a "thoroughbred" race turtle than "Spectacular Bid?" Although his size kept him out of winning top honors, his owner, King Vaughan, 11,

son of Mr. and Mrs. Bill Simpson, 1610 W. Nobles Ave., won't put him out to pasture yet. There's always next year's turtle race. (Staff Photo by

Turtles race in high-stakes contest

By SUSAN BAKER Staff Writer

The stakes were high (a 10 cent entry fee per turtle), and so was the sun. Days (even months) of hard work, love, and "secret training techniques" were about to be put to the

Yes, ladies and gentlemen, it was the Belmont Stakes of the turtle world, held Thursday afternoon in Hill Park. And if a turtle could chomp

at the bit, these probably were. Most of them, anyway. Ol' Lazy

could probably have cared less. At least one foot in diameter, he was by far the biggest and oldest turtle there. "We ain't entering him." said his young master. "He don't ever

move. He just lays there.' Ol' Lazy was not available for comment. When you've obtained the status in the turtle world that he has, you don't have a use for the press anymore. As far as he was concerned, there was no one home in the big

But Herbie had different ideas. Waving his legs wildly and rolling his beady little red eyes, he looked ready to fly. "Wish he'd settle down," sighed his suntanned little mistress.

But her brother saw the turtle's excitement as a good sign. "We timed him at home, and the best time he ever had was five seconds," said Dan. 'And he was just as hyper as this!'

And Herbie later proved his salt, taking first place in the first heat. He hadto show his gratitude - after all, he was down on his luck when he was found in a swimming pool and taken "Genuine Risk" said King, "is gonna be a real winner." Even if he is only an inch across. He and another turtle owned by King's best pal Craig, and named — you guessed it — Spectacular Bid, were easily the smallest contestants there. "Yep, he's gonna win," King said confidently, "if I don't lose him in the grass first."

And then there were the veterans hardened competitors, ready for action. Mark's turtle was primed for a second victory in two days, just having won the Cub Scout turtle race the day before. "I raced the winning turtle here last year, too," said Mark, "but he died.

Oh, the hard price of victory. Aaron and Jason have a regular turtle farm at home, according to

(See TURTLES, Page 2A)

# Carter, Italian leaders meet

ROME (AP) - President Carter met with Italy's president and prime minister today as he and his aides sought at the start of a week-long European trip to minimize their differences with America's allies over how to deal with Soviet aggression.

Carter met briefly with Italy's 83year-old Socialist president, Alessandro Pertini, in a tapestried room of the 16th century Quirinale Palace atop the highest of Rome's seven

"I hope you feel at home," Pertini told Carter, who is staying at the

"As soon as I saw you I felt immediately at home," the American re-

After the private session with Pertini, Carter flew by helicopter to the Villa Madama, another of this city's Renaissance palaces, for a meeting and working lunch with Prime Minister Francesco Cossiga.

As Carter and Cossiga stepped out of the palace, the American president told reporters that their talks had been "very fruitful, very thorough, very friendly and very construc-

Carter then entered his armored limousine, and a squad of jackbooted Italian motorcycle police led his tencar motorcade through Rome's wind-

ing downtown streets to the tomb of Italy's unknown soldier, an obligatory stop for all visiting heads of state.

Police and soldiers toting rifles and submachine guns lined Carter's route as small clusters of Italians gathered to watch the motorcade go by.

The presidential party then went for a tour of the Colosseum, where Carter immediately encountered a group of American tourists and paused briefly for some handshak-

Carter spokesman Jody Powell said the opening talks went well, with Carter thanking the Italians for being among the first to call on Iran to free the American hostages.

The presidential party clearly wished to begin the trip without focusing more attention on the widely reported differences between the United States and her allies.

During the long flight from Washington that brought Carter to this ancient capital late Thursday night, Secretary of State Edmund S. Muskie told reporters that he believed one potential point of major friction with West German Chancellor Helmut Schmidt will evaporate.

Carter and Schmidt will meet in Venice on Saturday, the eve of the seven-nation economic summit conference around which the president's

American officials said Schmidt asked for the early meeting with Carter. It comes against a backdrop of concern in Washington that the chancellor, when he meets in Moscow on June 30 with Soviet President Leonid I. Brezhnev, might place himself at odds with Carter over the deployment of middle-range nuclear missiles in Europe.

Some U.S. officials are worried that Schmidt might propose a freeze on the deployment of the additional American weapons, thus threatening a six-month-old North Atlantic Treaty Organization decision to deploy the missiles to counter Soviet nuclear su-

periority in Europe.

Muskie told reporters aboard Air
Force One that Schmidt "insists he still supports" what would be known as the Theater Nuclear Force, or

"Apparently, there has been some rhetoric that there is a change" in Schmidt's position, Muskie said. "I would expect that when it's talked out, there will continue to be agree-

From the start of the trip, the potential for differences has been played down. Carter, in a televised Washington departure statement, muted the language of a prepared

## Citizen 'experts' grill PPG and state officials

By SUE FAHLGREN Staff Writer

Some 30 area residents showed up at Midland City Hall Council Chambers Thursday night to hear plans of the proposed Pittsburgh Plate Glass plant to be located east of Midland Regional Airport.

Representatives of the company, as well as from the Texas Air Control Board, which is studying the pollutant emissions from the plant, came armed with facts and figures for the

But, the crowd at the chambers Thursday night was not the group of concerned Boy Scouts some may have expected. Instead, residents who were engineers, chemists and scientists came prepared with their own technical jargon. The questions they asked were tough.

PPG representatives first showed a film of the operations of their three other plants: in Lexington, N.C.; in Shelby, N.C.; and in Pogacson, Holland. PPG senior chemist and environmental control director Mickey LeCroy provided a brief explanation of the proposed factory's production of fiberglass strands.

Right away, however, probing questions came from the floor. How much natural gas would be used on the site? Would scrubbers be used in filtering the sulfur dioxide from the smoke stacks? Would the smoke stacks be limited in height because of the site's proximity to the airport? What would be the total tonnage of fiberglass produced per year? What are the dilution factors used in figuring the boron emissions?

LeCroy; Ken Waid, president of an independent consulting firm used by PPG; Lawrence Pewitt, representative of the Austin TACB office; Manuel Aguirre, of the Odessa TACB office; and Don Postell, attorney for the TACB, spent most of two hours explaining the plant's details to the pub-

The hearing, which was set up to provide explanations rather than for public input, may have been a prelude to a formal meeting on the subject to be scheduled at a later date. "There is no determination on

The hearing; which was tions rather th**an for public** input, may have been a prelude to a formal meeting on the subject.

whether a formal hearing will be made yet," Postell told citizens, explaining the executive director of TACB should make a decision on the matter by June 27. Postell said three letters requesting a public meeting about PPG have already been received by the Austin office.

Rumors of a 1978 shut-down of one of PPG's eastern factories prompted questions about the proposed Midland plant's fiberglass emissions.

LeCroy denied any such closing. 'No fiberglass is emitted from the stacks," he said. In 1978, he explained, there was an

occupational survey done on one of the eastern factories. The survey was to provide a calculation of the "fiberglass nuisance dust" in the working areas of the plant. A safe figure was 15 micrograms per cubic meter, he said, adding the survey group found only 2 micrograms per cubic meter in the PPG plant area. "But that was inside the building in the working area," LeCroy said. T.O. Wallis, a local engineer, gave

one of the most detailed of the public presentations. "I am concerned and perturbed about this project," he told the representatives. Wallis said public information he has been collecting on the plant for several months has been "not complete, misleading and even erroneous.'

Armed with a 15-page TACB infor-mation packet, Wallis began clarifying discrepancies he found in the information with the representa-

In one instance, Wallis and some other members of the audience confronted the representatives about the reported 40-foot smoke stack for the plant. According to some sources at TACB Tuesday, the stack was to have been 129 feet, but it was restricted in height by the Federal Aviation Administration because of the proximity to Midland Regional Airport.

Representatives denied the 40-foot story, saying not only was the stack to be 129 feet, but also that there would be two stacks at the factory.

Both Wallis and Waid explained without the height of the stack 2½ times the height of the building, a 'down-wash vacuum'' would be formed and the emission plumes would be automatically pulled to the

# Clayton to be arraigned today

HOUSTON (AP) - The speaker of the Texas House, a long-time labor leader with an interest in politics and two Austin attorneys are to be arraigned today before a U.S. magistrate on charges of racketeering, con-

spiracy, extortion and fraud. The indictments, handed down by a federal grand jury recently, were the first to come from the FBI undercover investigation of alleged insurance kickback schemes, a probe code-

named Brilab. Brilab spread from the Louisiana underworld to the Texas legislature and involved Speaker Billy Clayton, once one of the most powerful political figures in Texas, a man who is a Baptist deacon and who became a rich man by building the family farm into a highly productive operation and by investing in banks.

Scheduled to appear with him for arraignment are L.G. Moore, a Texas labor leader, and two Austin attorneys, Randall D. Wood and Donald W.

Clayton's attorneys are expected to

ask for a speedy trial.

The speaker, who once said he would withdraw from the race for re-election to the powerful post if convicted, wants to get the legal matters settled before it is too late to make his bid for an unprecedented four consecutive term as head of the

The 51-year-old legislator has com-

mented trequently on the pending indictments but after his indictment was ordered byi U.S. District Judge Robert O'Conor Jr. not to discuss the

His chief attorney, Roy Minton, told newsmen, "You are standing next to a man who wanted to be heard by the The indictments came alkmost five

months after the panel began hearing witnesses and listening to tape recordings of conversations involving Clayton, Moore, Wood, Ray and FBI informant Joseph Hauser.

The indictment claims that on Nov. 8 Moore and Hauser met with the

Houston speaker and Clayton accept-ed \$5,000 from the Houston labor offi-

Clayton later said he thought the money was only a campaign contri-bution and that he had put it in a safe place, intending to return it to Moore at a later date.

At this same meeting, the indictment claims, Clayton agreed to receive an additional \$600,000 if a \$70million-a-year state employee insur-ance policy was awarded to a firm that Hauser claimed he represented.

Moore, a giant of a man who is regional director for the Operating Engineers International Union, ap-pears from the indictments to be involved in many of the taped telephone calls and conversations

#### water wells and constructing a boosttion, the city may need a raise,' MMH improvement plans approved

By SUE FAHLGREN Staff Writer

Midland Memorial Hospital Board of Directors Thursday unanimously approved the \$1,070,000 hospital improvement package recommended by the Board of Trustees

Areas officially slated for improvement include the laboratory, physical and occupational therapy, medical records, medical library and doctors' meeting room and the linen area. Also included in the package are plans for the conversion of a CAT scan machine into a full-body scanner. Most of the expansion and remodeling will take place in the hospital's basement, where public health offices had been located. Funds for the remodeling are expected to come from warrants, direct loans and private contributions. No bonds will be sold.

"The way that these projects are staggered out," said Trustees President Tevis Herd, who presented the proposal, "I don't think we'll have any problem getting the money together.

Since certificates of need must first be filed with the Health Services Association, the proposed improvements are not expected to be completed until 1981, falling within the hospital's next fiscal year.

The board also formally accepted the resignation of Wayne E Ulrich as hospital administrator. E.H. Magruder, chairman of the board, said board members were pleased with the job Ulrich has done for the hospital.

'I deeply appreciate the association I've had with the hospital," Ulrich replied. "We hope you continue to remain here," Magruder contin-

"That's the plan," Ulrich replied. This is the first indication

Ulrich has given of his future plans since he announced his resignation June 3. Following Ulrich's statements, the board went on to approve the hiring of Witt & Dolan, a professional search firm, to do an

executive search for Ulrich's replacement.

are 8:30 p.m.

The board also approved an alliance with employees of Tribrook, a management consulting firm working for the hospi-

tal. A.C. Buchanan and Robert Bash of Tribrook agreed to act as interim administrative personnel until Ulrich's replacement can begin work at MMH. Their services will cost the hospital \$17,000 to \$18,000 a month.

The board accepted trustees' recommendation to hire Dr. John McKenna as medical director of the respiratory therapy unit. McKenna, who is awaiting notice of his pulmonology boards, is scheduled to arrive in Midland in July, beginning work at the hospital Aug. 2. A specialist in pulmonary care, McKenna was granted staff privileges, dependent on his board results. He will also have an outside practice.

The board further approved the trustees' recommendation to hire an assistant controller to study and control financial problems at the hospital. For the second month, finances at the hospital are reported down.

Robert Abernethy, assistant administrator in charge of finances, said the May figures indicate an operations deficit of \$112,271. Compared to a budgeted excess of \$5,671, the deficit leaves an unfavorable variance of \$117,942 for the month

Because origins of the unexpected cost variances are not known, trustees recommended the directors hire an aide for Abernethy to study the problems. Also approving a transfer of cash of \$100,000 from the Midland County Hospital District, the directors agreed the excessive spending should come to a

"To say the least," Abernethy told board members, "it was not a good month last month," adding the hospital was approaching historically low census months" in the next three months.

Board member Pat Estes was stern in her regard for the financial report. "This (cost increase) seems to be quite a mystery to me," she said. "Seems to me that the time has come

Tom Ingram, another board member, agreed. "I think this is a problem that needs attention immediately," he said.

In other action, the board approved appointments of T.C. Tubb, Gene McDavid and Ed Vogler to the district's Board of Equalization for 1980 and a revision of the tax rolls in accordance with the errors and corrections list submitted by the hospital dis-

## Striking workers march in South Africa or are out of work because their fac-

JOHANNESBURG, South Africa (AP) - Striking black workers marched through the streets of Uiten-A hage, the center of South Africa's motor industry, today for the fourth time this week amid continuing industrial unrest. The remainder of the country was reported quiet after four days of turmoil earlier in the week in protests against white-minority rule.

More than 7,000 workers in the Uitenhage area, near Port Elizabeth, have been striking for higher wages tories are closed for lack of components supplied by struck plants.

News agency reports said the strikers were demanding higher wages but other sources said "political, economic and social" grievances, not pay demands, were at the cause of the

A convoy of riot vehicles and an armored car followed the workers but no clashes were reported between demonstrators and police.

## Doctors say Pryor is very ill

SHERMAN OAKS, perating fully with doc-Calif. (AP) - Richard tors to improve his visitors the hospital has Pryor's doctor has postponed skin graft surgery on the critically burned comedian and has issued his most pessimistic consultation on the 29evaluation yet of Pryor's recovery chances.

Richard Pryor is in critical condition and very, very ill," Dr. Richard Grossman said Thursday in announcing today's surgery had been postponed. "I cannot overstress the seriousness of Mr. Pryor's in-

Hospital spokeswoman Nona Egan said Pryor was "no better than the day he was brought in here." At that time, doctors said Pryor had a one in three chance of surwiwing.

Grossman said the earliest that the skin grafts could be attempted woold be Monday.

His evaluation was the most pessimistic since Privor was admitted to the Sherman Oaks Community Hospital June 9 with third-degree burns over the upper half of his body. He suffered the burns when his clothing caught fire at his home.

Grossman said the de cision to delay surgery was made when he "was not 100 percent happy" with the condition of Pryor's wounds while he observed the comedian undergoing whirlpool treatment Thursday

However, the burn specialist said, "Despite extreme pain, Pryor is coo-

allowed Pryor to see re-Ms. Egan said a vari- gularly - actors Jim ety of medical specialists Brown and Stan Shaw had been called in for accompanied the come dian on short walks to year-old entertainer's help improve his breathing, Grossman said.

The Cape flatland area, where newspaper reports said as many as 42 people died in rioting this week, was reported caim. The official death toll, as counted by police, had risen to 32, police spokesman Col. Leon Mellet said today.

Police wounded two persons in a hail of birdshot and used tear gas Thursday against stone-throwing groups in the black ghettos around Port Elizabeth, the South African Press Association said.

The agency said the new violence broke out as sporadic clashes continued in the so-called colored or mixedrace ghettos around Cape Town, the flash point of rioting earlier in the

Police arrested 40 people and used tear gas to rout about 350 protesters in a clash in the mixed-race township of Ravensmead on the outskirts of Cape Town, SAPA said. The agency quoted police as saying there were no in-

Earlier in the day, one car of a train was set afire by demonstrators, halting traffic on the commuter line linking Cape Town with mixed-race ghettos on the Cape Flats, outside the

The Cape Town region on South Africa's southwest coast has borne the brunt of the latest round of violence that flared Monday on the fourth anniversary of the 1976 riots that rippled cross-country from the Soweto ghetto outside Johannesburg and left nearly 600 blacks dead in eight months of unrest.

Unlike the Soweto riots four years ago; people of mixed race have joined forces with blacks for the first time in a united campaign against the whiteminority regime's apartheid policy of racial segregation and its policy of spending more to educate white students than mixed-race or black

#### Afghan basketball team has defected to Pakistan

ISLAMABD, Pakistan (AP) - Seven members of Afghanistan's national basketball team scheduled to play in next month's Moscow Olympics defected to Pakistan to protest the Soviet "reign of terror" in their homeland, the captain of the team said today.

It was the second defection in the past few weeks by members of an Afghan sports team protesting the six-month presence of 80,000 Soviet troops to combat a 26-month-old guerri la war by anti-communist Moslem rebels opposed to the country's Marxist The Soviet troops backed the ouster and execution

of former President Hafizullah Amin last December and replaced him with the present Afghan leader Babrak Karmal. Captain Karim Dad Khan told newsmen in Peshawar, 100 miles west of here, that he and the other defectors crossed from Afghanistan into Pakistan's

Paktia province, continued on to the town of Parachinar and then moved to Peshewar.

## VA takes second look at Agent Orange claims

WASHINGTON (AP) - The Veterans Administration will take a second look at the compensation applications of about 800 Vietnam veterans who claimed they were harmed by exposure to the herbicide Agent Orange but were denied disability payments.

Dr. Barclay Shepard, the VA's top expert on Agent Orange, said it is possible some veterans will get service-connected disability payments as the result of the re-examination of the veterans' records and of the veterans' conditions

He said the claims of some veterans might have been incorrectly rejected in the initial review. However, "I think there will be very, very few," he

The decision to study the claims anew came at the suggestion of Sen. Alan Cranston, D-Calif., chairman of the Senate Veterans Affairs Commit-

Cranston was told at hearings last spring that some veterans showing obvious signs of chloracne, a severe skin condition, had been denied com-

All told, since the Vietnam war ended, about 2,200 veterans have sought compensation on grounds that Agent Orange disabled them. Only about 15 or 20 claims have been hon ored, Shepard said.

Of the 2,200, about 800 said they contacted skin ailments from expo sure to the toxic compound and the records of those men are being re-ex-

amined, he said. The re-examination does not represent a reversal of policy, Shepard said. The VA's position, he said, remains that no evidence has been found linking exposure to Agent Orange to any serious health difficulty.

Many veterans have complained of a variety of ailments - from nervous conditions to cancer - which they attribute to exposure to the herbicide. The VA, under congressional direction, is preparing a study comparing the health of thousands of exposed veterans with men their ages who did not serve in Vietnam.

For about 10 years in Vietnam, some 10 million gallons of the herbicide were sprayed by U.S. forces to destroy the jungle cover that may have been used to conceal communist troops. Some U.S. troops were exposed. The spraying was stopped after it was suspected the compound might cause a severe health hazard

## Klan trial defendant putting faith in God

GREENSBORO, N.C. (AP) - One of the six Klansmen and Nazis whose murder trials began here this week says he puts his faith in God and his

"I just keep my faith in the Lord and hope the truth will come out," Roland Wayne Wood said Thursday. "I'm just going to have to leave it up to the Lord to advise my counsel and show the jury the truth.

Wood, of Winston-Salem, and five other men are each charged with five counts of first-degree murder and one count of felonious rioting in the deaths of five members or supporters of the Communist Workers Party at a communist-sponsored anti-Klan rally last Nov. 3. They have all pleaded inno-

The defendants got an unexpected day off today. Judge James Long announced Thursday that court would not meet because prosecutors had finished five days of work in four.

Long had called a pool of 400 jurors to the trial this week; at adjournment Thursday, there were no more candidates to question.

Prosecutors approved 33 jury can-

didates this week. All still face ques tioning and possible rejection by de fense attorneys, beginning Monday The final panel will be comprised of 12

members and four alternates. Robert Cahoon, one of the defense attorneys, said he believes jury selection will only take a total of two weeks. Long and prosecutors had predicted the process could take three

weeks or more. Defendant Jerry Paul Smith of Lincolnton, a dour man with a craggy face and deep-set eyes, was grinning when court adjourned Thursday. Smith said he and four other defendants would drive home Thursday night - a day earlier than they had

The five are under court order to spend weeknights in jail, but are free to go home on weekends. The sixth defendant, Jack Wilson Fowler of Winston-Salem, is jailed without

On trial with Wood, Smith and Fowler are David Wayne Matthews of Newton, Lawrence Gene Morgan of Lincolnton, and Coleman Blair Pridmore of Lincolnton,

### Tranquilizers not for pleasure use

read: "If it feels good, do coordination. it," and it got me to won- These findings do not

like your opinion. — Sid. long-term consequences. Dear Sid: My opinion of your doctor is very high; a good physician does not prescribe tranquilizers for the sole purpose of giving their pa-tients a feeling of euphoria. Any drug powerful enough to cause a change in mood is nothing to fool around with. While the short-term effects of such a drug may be to make a person feel good or even euphoric, there are long-term effects that should not be ig-

a threat of addiction. Dr. Nelson Hendler, an assistant professor of neurosurgery and the psychiatric consultant to the Chronic Pain Treatment Center at the Johns Hopkins Hospital, says that from 50 to 80 percent of patients who were prescribed minor tranquilizers for chronic pain have suffered some ill effects; and a significant proportion of these patients do not function as well as they should, given their background, age and in-

nored. Moreover, even

minor tranquilizers pose

Dr. Hendler cites two studies involving a total of 173 patients to sup-port his statements. The subjects included people from all walks, of life and with I.Q.'s ranging from 140 to 80. His find-ings revealed that some 70 percent of patients on minor tranquilizers suf-fered from memory lapses, vocabulary losses, faulty logic,

# Economy weakens U.S. summit voice: Anderson

PHILADELPHIA (AP) — John B. Anderson, who is planning his own trip to Europe next month, says the state of the U.S. economy makes it unlikely that President Carter will have a strong voice at the economic summit in Venice.

"I have genuine fears that the voice of the United States will not be heard very loudly," the independent presidential candidate said of Carter's meeting with six other heads of state of American allies.

Continuing his ballot access drive in Pennsylvania, Anderson said Thursday newly released figures on a declining gross national product are further evidence that Carter will have diminished clout among European allies now meeting in Venice.

The Republican congressman said the "flawed" economic policies of the administration and a failed effort to reduce U.S. reliance on imported oil makes it difficult for the president to have "the kind of authority or influence" abroad once taken for granted by the United States.

Repeatedly, in three different campaign stops in Pennsylvania, Anderson seized on Carter's trip to criticize what he said was the president's inability to come to grips with a deepening recession combined with infla-

While saying "I wish the president Godspeed," Anderson said that American allies have a "growing

feeling of unpredictability" about American foreign and domestic poli-

Meanwhile, Anderson disclosed in a Philadelphia news conference that he is planning to travel to Isreal, Egypt, France and West Germany sometime between the 4th of July and the start of the Republican National Convention on July 14.

"Some inquiries are being made through the embassies about the possibility of meeting with some officials in the countries we would like to visit," Anderson said.

It was not clear if the congressman would meet with heads of state in those nations.

Campaign strategists have said privately that a major purpose of the trip will be to give Anderson some attention to compare with the televised Republican and Democratic national conventions.

Anderson also campaigned in Pitts-

burgh on Thursday, where he had the least successful campaign stop of his independent candidacy, first announced April 24. More than a dozen local labor leaders invited to meet with him over breakfast failed to appear and a stop at a steel plant gate became an embarrassment when only about 30 steel workers showed up at 7 a.m. to meet him.

## X-rated messages greeting mororists

CINCINNATI (AP) — Rush-hour motorists have been greeted by obscene messages on electronic traffic-control signs over the southbound lanes of Interstate 75, and officials say they don't know who's responsi-

Traffic Engineer Curtis Fields said the messages were "deliberate sabotage" of the signs by a computer expert.

Police said they received several complaints about the X-rated mes-

sages Thursday.

Fields said neither he nor the employees he supervises are capable of

changing the computer program.

"An engineer doesn't know how to do this. A computer expert does," he said. "It would have had to be an expert, extremely familiar with the computer that was involved. That person would have to sit down and

manually type in the commands to the computer."

Part of the mystery involves a magnetic tape that was removed from the computer as usual Tuesday night by an employee and brought directly to the office, Fields said. It was a clean tape that had not been

tampered with, he added.

No one who works in the control room at Riverfront Stadium could have fully constructed a message to replace the "Delay Ahead.

## Continental starting daily Colorado, Wyoming flights

Continental Airlines will begin daily roundtrip service from Midland Regional Airpot to Casper, Wyo. and Grand Junction, Colo. July 1, according Charles Logue, city manager for Continental's Midland-Odessa re-

The airline will offer through plane service to Casper with a 5:10 p.m.

departure from Midland, arriving in Casper at 8: 32 p.m. The return schedule offers morning and afternoon departures from Casper. In addition, Midland will have a morning departure to Grand Junction wth an evening return.

Both new routes will be flown via Denver on the airline's Boeing 727

# Exec to live near TMI during venting of gas

MIDDLETOWN, Pa. (AP) — Saying he hopes to inspire confidence among his neighbors, a utility executive and his family will live near the crippled Three Mile Island nuclear power plant during its venting of a radioactive gas.

Robert Arnold, senior vice president of Metropolitan Edison, said Thursday he, his wife and college-age son will reside in a trailer near TMI throughout the process. Metropolitan Edison operates the TMI complex, where the venting is scheduled to start June 28.

Several officials outlined environmental and technical precautions on Thursday that will be taken to ensure the safe release of 57,000 curies of krypton from the reactor containment building.

The gas will be vented in 15- to 30-minute bursts, drawn out by a fan. The fan will also supply make-up air to the building, to make sure pressure inside doesn't fall too low.

TMI Project Manager Mike Morrell said the venting will take two to four weeks, because the make-up air will steadily dilute the krypton inside the building.

The worst accident hypothesized by plant technicians would be a 30-minute, uncontrolled release at the outset — when the krypton is at its highest concentration.

"I believe the possibility (of such an uncontrolled release) is remote enough that we should discount it," Morrell said.

A person exposed to the total amount of krypton released during the venting will receive a smaller dose than local residents receive in one day from naturally occurring background radiation, Arnold said.

Arnold said the venting will begin at 8 a.m., June 28, if wind and temperature conditions are proper. He said Met Ed will know by Thursday whether the purge will proceed on sched-

"For everybody's confidence, we need to have reasonable weather conditions when we start," he said.

Before the krypton-laden air leaves the containment building, 99.9 percent of its radioactive particulate matter will be removed by two high efficiency filters. It will be monitored as it comes out the stack, Morrell said.

About 160 off-site monitoring stations will be manned during the venting by five groups that include two federal agencies, the state Department of Environmental Resources, community monitoring teams and Met Ed

## Town calling all hollerers

SPIVEY'S CORNER, N.C. (AP) — Unless a new generation of hollerers is found, the National Hollerin' Contest could be silenced for good.

It seems there's a lack of genuine hollerers for Saturday's competition in this crossroads community of 49 people. Contest officials say the hollerers are gradually being replaced by screamers, yellers or screechers - the folks who give out with tonsil-tearing war whoops or the city slickers who stand up and shriek "Taxi!

Which is a far cry from a holler.

"Hollerin' is a dying art and the authentic oldtimey hollerers are dying off," laments contest originator Ermon Godwin Jr. "We know the oldschool hollerers are out there, but the thing is getting them to come out and be heard. I feel like there'll be some of 'em out there Saturday, but most of the people who enter will just stand up there and scream.'

Past winners, most of whom are in their 70s and 80s, are not allowed to enter again, so new hollerers must be found each year.

In 1977, the winners were a dairy farmer and his three-legged dog who hollered out their rendition of "Precious Memories."

Godwin, who claims that he's never hollered a note in his life but that he can spot an authentic holler a mile away, has seen more than his share of 'screamers and yellers" since the contest started in a backvard in 1969

For the untrained ear, it's all just so much noise. But Godwin says there are four basic hollers that were practiced daily back before telephones came into being: the functional, the expressive, the communicative and the distress.

The functional holler, sometimes mistaken for a hog call, is not only used to call the farm animals in, but also to let your neighbor know all is well, supper's on the table or you need a fresh bucket of water in the field. It's a favorite of women contes-

Stripe T-shirts...

- The expressive holler falls in the category of loud social conversation and is generally practiced just for the sheer ecstasy of hearing yourself. It comes in handy when singing, particularly if you don't know all the words.

The communicative holler is used simply to touch base with another soul. A man working alone in a field might holler just to hear a reassuring answer from his neighbor in the next field five miles

- The distress holler, often heard at weddings and wakes, obviously means something is wrong and is easily distinguished from the others since it is usually done in a tormented falsetto.

"As long as the world wants hollerin', said Godwin, "we're going to give it to them." At least as long as the hollerers last.

#### Retired grad bikes 500 miles to reunion

DENTON, Texas (AP) - Floyd Shafer is no ordinary pedal-pusher. The 68-year-old graduate student is biking 500 miles to his 50-year high school reunion in Kansas City.

'There's only one time in life a man can ride to his 50th reunion," Shafer said as he packed his gear. 'And I'm going to do it.'

The freewheeling North Texas State University student rolled out of Denton Thursday on his Austro-Daimler 10-speed bike, loaded down with tent, sleeping bag, fruit and cookies, water, spare tires and tubes, and a jug of ammonia for curious dogs. He hopes to make it in five days.

He is no stranger to bike racing and touring. He biked across Colorado during the 1976 "Bikecentennial" and has ridden thousands of miles across Texas and other states.

"It's amazing what the human body can do," he But it's not his body that keeps him going, he says. It's his attitude toward life.

#### Two baton sessions set

The Midland Parks and Recreation Department will offer two additional sessions of baton. The third session begins June 30 and continues through July 11. The fourth session is scheduled for July 14-25.

There will be two divisions each session: beginner at 5:15 p.m. and intermediate and advanced at 6:15 to 7:05 p.m.

Registration for the classes are being taken at the parks and recreation office, 300 Baldwin St. Fee is \$6 per person. More information can be obtained by telephoning 683-4281, extension 281.

#### Officers have

## major suspect

#### in ax murder WYLIE, Texas (AP) -

Investigators have confirmed they have a "major suspect" in con-nection with the brutal weekend ax murder of Betty Gore, 30, who was hacked to death in her Wylie home.

"We have a major suspect as well as other suspects. We do have a (finger) print," said Wylie Police Chief Royce Abbott. "We will not identify male or female, man, woman or child at this time, and have no plans at present to make an arrest until further investigation is complet-

The Collin County district attorney's office said Thursday Abbott told them he was looking for a young woman, a friend of Mrs. Gore's husband Allan, whose fingerprints matched bloody prints on the Gore's refrigerator

Gore was out of town when neighbors discovered his wife's mutilated body lying in a pool of blood in the utility room of the house. Small bloody footprints were found at the scene.

Gore had asked the neighbors to search for Mrs. Gore when he was unable to reach her by telephone.

cleanliness wouldn't hurt a thing as he hitchhiked through D'allas, Texas, recently. It worked, because just moments aftr this photo ws taken, some kind soul gave him a much needed ride. (AP Laserphoto)

## Mother thinks man in photo is her son

TAMPA, Fla. (AP) - A Tampa mother believes a photograph she at all. saw in a newspaper is that of her Marine son who supposedly was killed in North Carolina two years ago.

The picture, printed Wednesday, was of a hitchhiker in Dallas holding a sign that read: "I JUST HAD A BATH."

The hitchhiker was identified as Michael Elder. The name's the same, says Clara Elder. And more than that, the hitchhiker looks like her son. Greg Elder, 17 and Beth, 18, agreed with their mother.

"How many Michael Elders look like Michael Elder?" a friend of the On March 3, 1978, the body of a man identified by the U.S. Marine Corps as

Michael Elder was buried in Tampa by the Elder family 'We never thought it looked like him," said Mrs. Elder. "We were

taking the word of authorities. Greg, who was 15 years old when his brother was reported killed, returned to the funeral home asking about the body at the time. He said he remembers the military uniform was pinching the dead man's neck, distorting

facial features. And he said he searched for identifying marks. Michael had a scar on his forehead," said Greg. "We couldn't see it;

Beth Elyer, 18, says some traits of the man in the photograph remind her of her brother. "He always wore shirts like that. And he always pushed them above his elbows.

The only difference, says Greg, is that the Elder in the picture says he's

25. H' brother would be only 21. Mrs. Elder says she was probably remiss in not taking more action two years ago. But she was so distraught, she says. And it's only been recently

that she has been able to mention her son's name without crying.

Either to confirm or dispel her hopes, she says, she's going to press military and civilian officials for some details.

Layne Murdoch, a photographer for The Dallas Times Herald, snapped the picture of the 25-year-old hitchhiker. He said he could shed little light on the man, other than that he said he was headed to California.

The Elders said in February 1978 they received a telegram from the Marine Corps at Camp LeJeune telling them Michael had been shot to death outside the base in Sneads Ferry, N.C. A Maj. T. R. Delux assured them of an intensive investigation by both military and civil author-

After the letter from Delux, the Elders say they heard nothing more. A letter from a friend of Elder's estranged wife was the only word they said they had received. The friend said Michael was shot by another Marine. He had been accused of participating in thefts near the base and those accusations indirectly led to his death, the letter said

## Photographer convicted in James Garner assault

SANTA MONICA, Calif. (AP) - A free-lance photographer has been found guilty on a felony assault charge stemming from an attack in January on actor James Garner, the star of NBC TV's "Rockford Files."

Aubrey Lee Williams, 35, of Tarzana, was convicted of the assault by Superior Court Judge Charles Woodmansee on Thursday after a non-jury trial. He was found innocent of felony grand theft and misdemeanor hitand-run charges. "I'm sorry the whole thing hap-

pened. I certainly take no pleasure in the man's conviction," said Garner, who was not in court for the verdict. Williams said he thought the ver-

dict was unfair but that "it could have been worse.

TO FUT THE

Asked his opinion of Garner, Wil-

liams said, "I used to like him, but I don't watch him on TV anymore." Williams faces a sentencing hearing on Aug. 25, when he could receive

a prison term or probation. Garner was hospitalized for nearly a week after the Jan. 16 roadside fight that followed a minor traffic acci-

Williams' sister, Deborah Ann. 25. of Pasadena, had been arrested for investigation of robbery in connection with the theft of Garner's gold chain during the incident, but a Municipal Court ruled in April there was insufficient evidence to hold her for trial.

During the three-day trial, Williams claimed the 52-year-old actor began the nighttime skirmish after their cars collided on Coldwater Can-

## Garza, Lamb counties get drillsites for wildcat tests

Durham, Inc., of Midland No. 1 Rio Brazos is to be drilled as an 8,200-foot wildcat in Garza County, 10 miles northeast of Justiceburg.

The drillsite is 1,650 feet from north and west lines of section 102, block 5,

It is 1 1/4 miles east of the Justiceburg, Northwest (San Andres) field which produces at 2,044 feet and 1 1/8 miles southwest of a 7,984-foot dry

LAMB WILDCAT

Jed J. Miller of Odessa No. 1 Rogers 'A" is to be drilled as a 4,150-foot wildcat one miles west of Littlefield in Lamb County

The project is a twin to a 4,120-foot dry hole drilled by Mabee as No. 1

Location for the new test is 675 feet from south and 750 eet from east lines of labor 20, league 663, State Capitol Lands survey.

The drillsite is 17/8 miles northwest of the Littlefield, Southwest (San Andres) field.

SCHLEICHER TEST

Petroleum Technical Services Co. of Midland No. 1 J. F. Runge Estate "A" has been spotted as a 5,500-foot wildcat in Schleicher County, eight miles south of Christoval.

Location is 2,141 feet from south and 990 feet from east lines of section 67, block M, GH&SA survey.

#### Three firms join in line

WASHINGTON (AP) - Three major oil companies have agreed to share the \$500 million cost of designing and engineering a proposed natural gas pipeline from Alaska to the lower 48 states, removing a major roadblock to the pipeline.

The Energy Department said Thursday that Atlantic Richfield, Exxon and Standard Oil Co. of Ohio agreed to share the cost with the project's sponsor, Alaskan Northwest Natural Gas Transportation Co.

The parties have yet to work out the far more difficult arrangements to finance construction of the huge project, estimated to cost some \$20 billion to \$25 billion, Energy Department officials said. They had acted as facilitators in trying to work out an agreement

**Energy Secretary Charles Duncan** called the agreement "a major step forward." John McMillan, the chairman and president of Northwest Energy, said the agreements represented the "first private indication and public indication from the producers of willingness to participate in the financing of the project."

The oil companies are all producers of natural gas from Alaska's north slope. It is hoped the pipeline can be completed by about 1985.

Department solicitor Lynn Coleman said one agreement calls for the producers to provide half the money for design, engineering and cost estimation, while Alaskan Northwest, a consortium of seven U.S. pipeline companies, will provide the rest.

The sponsors have already invested about \$160 million, which will be included as part of their half of the

In a separate statement of intention, approved by the Energy Department and the Justice Department, the producers expressed willingness to join in financing the pipeline.

## Nolan project site reported

Texas Pacific Oil Co. Inc. of Midland will drill No. 1 Thomas Ranch as a south offset to the lone well in the Thomas Ranch (Ellenburger oil) pool of Nolan County, three miles southwest of Maryneal.

The location has been staked 1,980 feet from north and west lines of section 119, block 1-A, H&TC survey. Hole is contracted to 7,250 feet.

Hole will be plugged back from 6,960 to 6,510 feet. Location is 1,980 feet from north

and 550 feet from east lines of section elevation is 2,524 feet.

516, block TT, TCRR survey. Ground

It is No. 2-17 E. Sugg, 660 feet from south and 1,500 feet from west lines of section 17, block 27, H&TC survey. Ground elevation is 2,307 feet.

The site is one mile southeast of the Canyon oil opener of the Ela Sugg multipay field.

FISHER OPERATIONS

Theron Vaughan of Midland No. 1 Crews is to be drilled as a 3,500-foot wildcat in Fisher County, one mile northwest of Eskota

Location is 1,200 feet from north and 2,000 feet from west lines of James Vaughan survey No. 294. The prospector is a northwest twin

to and a replacement for Vaughan No. 1 Carl Crews which was junked and abandoned at 600 feet.

The project also is 1/2 mile south of the Neill, South (Odom) field.

Hexagon Oil & Gas Inc. of Fort Worth announced plans to re-enter its No. 1 J. B. Shelly in Fisher County and test it as a wildcat at 3,600 feet. Location is 467 feet from north and west lines of section 332, block 21, John B. Rector-N.W. Burdett survey.

The test is 1/5 miles southwest of

Royston. No old total depth is available

CROCKETT WILDCAT C. F. Lawrence & Associates Inc. of Midland No. 2 Live Oak is to be dug as

a 2,200-foot wildcat in Crockett Coun-

ty, 30 miles west of Ozona. It will be spudded 660 feet from the northwest and northeast lines of section 7, Jose Bunigas, abstract 1032.

Ground elevation is 2,202 feet. The drillsite is 5/8 mile south of production in the four-well Hoover field and 1.5 miles northeast of an active wildcat, Lawrence No. 1 Live Oak which was making hole below

1,150 feet on last report. STONEWALL AREA

Clear Fork Inc. of Abilene No. 1-347 Alexander Trust is to be dug as a 5,500-foot wildcat in Stonewall Coun-

ty, 10 miles southeast of Asperment. Drillsite is 1,320 feet from south and 330 feet from west lines of secton 1, Wm. Vardeman survey No. 347.

It is one location north of a depleted Canyon oil discovery and 5/8 mile east of the Alexander (lower Canyon and 4,300 Canyon) field.

MCCULLOCH TEST

Blair Exploration Inc. of Midland spotted No. 1-A Taylor as a 1.5-mile northeast outpost to the two-well Wallope Creek (Cross Cut gas) field of McCulloch County, six miles northeast of Doole.

Scheduled on a 1,800-foot contract, it is 467 feet from south and west lines of J. Leyendecker survey No. 1296, abstract 962. Ground elevation is 1,-501.5 feet.

The project also is one location north of L. D. & Associates Inc. of Midland No. 1 Veda Taylor, an undesignated Cross Cut gas discovery.

That well completed for a calculated absolute open flow potential of 582,000 cubic feet of gas per day, through perforations from 1,683 to

## Massive energy legislation heading for final approval

WASHINGTON (AP) - Seven years after the Arab oil embargo, the United States has taken the first big step on the road to energy independence, say supporters of a massive energy bill now heading for final con-

gressional approval. President Carter is likely to point out that view to allied leaders at this weekend's economic summit in Ven-

The measure, which includes a \$20 billion program to launch a domestic synthetic fuels industry as an alternative to imported oil, was approved on a 78-12 vote Thursday in the Senate. It now goes to the House, where quick passage also is expected.

"The country has finally come together on the need to move on energy," said Sen. J. Bennett Johnston, D-La., one of the congressional conferees who worked for six months before reaching a compromise Monday. "There's a change in mood in the country and in Congress. This bill is the first long step toward finally getting this country on the road to energy

Professor eager

for new challenge

By JOHN CUNNIFF

**AP** Business Analyst

PALO ALTO, Calif. (AP) - There are various institutional approaches to solving the problems of

health, of financing the arts and humanities, of

providing equal opportunity and improving interna-

You can seek results through governmental action,

said Richard W. Lyman, but "our cherished free-

doms rest in part upon the fact that we deny government a monopoly on the pursuit of public

Should business, then, be depended upon to solve

"Business should be able to perform in a socially

acceptable way and not operate as a social welfare

agency," said Lyman. "Business should not be

required to provide all the goodies of society."

Perhaps then the nation's non-profit institutions,

its universities and its foundations, should bear the

burden? Lyman will tell that of course they do, that

But considering his career direction, it appears

Lyman, a former history professor, has a very

strong faith in the ability of private, non-profit institutions to improve the human condition.

Lyman, 56, leaves the presidency of Stanford

University on August 1 to become president of the

Rockefeller Foundation, an organization whose

Hunger around the world, population problems,

health and the diseases of the world, the arts and

humanties, equal opportunity, and international re-

"Despair?" he repeated when it was suggested he might. So absurd he grinned at the suggestion. "Despair is corrosive," to be avoided, "for your own

Too much has been accomplished, he said, too

many problems overcome, to feel that challenges

There is, for example, he said, "very little poverty left in America and the statistics don't tell the whole

story." Progress has been made, he said, "more

Still, he concedes that confidence in institutions

may be waning, but he also feels people may demand

too much from them. In an address several years

"Any organization, provided it's large enough to

be visible and to be suspected of having disposable

assets under its control, is asked to solve any problem, however irrelevant to its mission, experi-

"An institution, asked to perform a service it is not

equipped to perform, responds ineptly. The inepti-

tude is not seen as a predictable result of a mis-directed request, but of the incompetence or worse of

As he heads east to head one of the larger private,

non-profit institutions, he has concerns for many

problems but confidence, he says, that something

He is concerned, he said, that while poverty has

been greatly reduced 40 percent of black youngsters

still are jobless. It is a wonder, he says, that with such energy idled there has not more more vio-

And then, "everyone is worried about the slump in

productivity," he said, observing that Americans

might have difficulties lowering expectations of

He doesn't despair, but his optimism seemed

Unless reason prevails in international relations,

Lyman fears terrorists will get access to atmoic

weapons. "Can you imagine entire communities being held hostage?" he asked.

The United States, he said, has lost its sense of

perspective in recent matters. The goals of Salt II

are more important than recent events in Afghanis-

## Stock market loses

NEW YORK (AP) - The stock market's spring rally faltered Thursday in the face of an'afternoon selloff that sent prices into their sharpest decline in three weeks.

The Dow Jones average of 30 industrials, which began the day at its highest level since last February, tumbled 11.01 to 870.90 for its largest loss since it fell 14.07 points on May 29. Declines outnumbered ad-

vances by more than a 2-1 spread in the over-all tally on the New York Stock Exchange. The exchange's composite index fell .83 to 65.53. Twenty-four of the 30 components of the Dow industrial average posted losses. In-

chines, down 134 at 57%, and General Motors, off 11/4 at 4634, both made the active list. Among the oils Exxon was off 1 at 67%; Gulf Oil

ternational Business Ma-

dropped 23/2 to 41; Texaco 3/4 to 36%, and Mobil 31/2 to

Big Board volume totaled 38.28 million shares, down from 41.96 million Wednes-

Standard & Poor's index of 400 industrials was off 1.94 at 128.79, and S&P's 500-stock composite index lost 1,60 to

At the American Stock Exchange, the market value index dropped 4.59 to 284.38. The NASDAQ composite index for the over-the-counter market closed at 156.73, down .46.

#### Cotton

NEW YORK (AP) — Cotton futures No.2 were lower at midday dealings today. The average price for strict low middling 1 & 1-16 inch spot cotton advanced 133 points to 72.67 cents a pound Wednesday for the nine leading markets, according to the New York Cotton Exchange. Midday prices were 25 cents to \$3.55 a bale lower than the previous close. Jul 73.75, Oct 72.50 and Dec 71.55.

#### Livestock

FORT WORTH, Texas (AP) - State SAN ANTONIO, Texas (AP) - Auction

AMARILLO, Texas (AP) - Texas Panhandle and western Oklahoma feedlot roundup Confirmed: 7600. Trade moderate in the Panhandle area Wednesday Slaughter steers and heifers fully steady. Feedlots reported good interest from most buying sources. Sales on 5300 slaughter steers and 2300 heifers. 45,700 head sold for the week to date. Note: all live cattle prices based on net weights for the feedlot after 4 shrink.

the feedlot after 4 shrink.
