Daingerfield buries its dead

Rites held for four slain worshipers

DAINGERFIELD, Texas (AP) - A grieving town has paid final tribute to four worshipers cut down by a volley of gunfire during Daingerfield's bloodiest day.

Hundreds of mourners traveled to nearby De Kalb on Tuesday to bury 7-year-old Gina Linam, the youngest of five killed in the Sunday morning attack at the First Baptist Church of Daingerfield.

Meanwhile, grieving friends and family remembered Kenneth Truitt, Thelma Richardson and Gene Gandy at the same sanctuary where the heavily armed gunman directed his lethal fusillade.

Laverne McDaniel, one of 16 parishioners wounded in the attack, was expected to be temporarily released from a Texarkana hospital today to attend the funeral of her husband, James Y. "Red" McDaniel, who died trying to subdue the gunman.

The man charged in the killings, Alvin Lee King III, was in critical condition at John Sealy Hospital in Galveston. King underwent several hours of surgery Monday to repair the frontal lobes of his brain, a

King suffered a self-inflicted gunshot wound after grappling with several men who forced him out of the sanctuary after the shooting erupted, officials said.

Dr. Howard Eisenberg, chief of neurosurgery said no prediction could be made regarding King's prognosis but said he had every reason to believe King would recover.

The Rev. Virgil Fielden, associate pastor of the 900-member Daingerfield church, wept as he eulogized Miss Linam before the crowd of 400 to 500 at the 35-minute service in De Kalb.

"I feel hope Death is not the end," he said. "This precious one whom I loved so much has been taken home to Jesus. During the Daingerfield funerals, there was little evidence to remind mourners that an attack had occurred. The kicked-in door had been

repaired and the bloody carpet removed. There are no easy answers to what possesses a man to do something

like this," said the Rev. Jim Powell, a former minister of the First Baptist Church who returned to officiate the funerals.

Police estimated a third of the town's 2,800 residents turned out to pay their last respects to Truitt, 49. "He was a genuine martyr just like any martyr of the New Testa-

ment," said Powell. Sunday, he had the courage to use his body like a shield to protect

hundreds of people," said Fielden. Powell said at the Gandy funeral, attended by 500 people in sweltering 98-degree heat, that the only way he made it through three grilling funerals in one day was that "Gene Gandy, like the others, had accepted the Lord. If he hadn't, this would be a very dark time."

Police say other slaying unrelated

HOUSTON (AP) - Houston police said today they will not re-open the investigation of the December 1979 murder of Stanley Sinclair of

"No one has brought forward any new evidence, and we made a very extensive investigation at the time of the incident," said Houston police detective W.L. Young.

Sinclair's father, Methodist minister Donald Sinclair, has claimed his son's death is related to the Sunday shootings in the First Baptist Church of Daingerfield, in which a former Daingerfield schoolteacher is accused of killing five.

The elder Sinclair told reporters he believes Alvin Lee King III, charged with killing five and wounding 10 in the incident, put a murder contract out on his son because his son encouraged King's daughter to bring incest charges against King.

Cheryl Linam is helped to her car by friends following the burial of her daughter, Gina, 7, the youngest of the worshippers shot to death in a church in Daingerfield Sunday. Five persons were killed and 11 wounded when Alvin Lee King III, armed with four guns, burst into the First Baptist Church during services and opened fire. (AP Laserphoto)

Carter praises Spain

MADRID, Spain (AP) - President Carter, the first American chief executive to visit Spain since the death of Generalissimo Francisco Franco five years ago, said today "the growth of Spanish democracy has been a tonic for the entire Western world."

Carter, whose Air Force One jet landed at 12; 52 p.m. (6: 52 a.m. EDT), was greeted at Barajas Airport by King Juan Carlos I, Queen Sophia and Prime Minister Adolfo Suarez. The leaders shook hands on a long, red carpet, and Carter was given a 21-gun salute on the hot, sunny afternoon.

On the eve of Carter's arrival, Basque separatists resumed an antigovernment campaign, exploding bombs in two tourist lodgings in Spain's southern Sapin Alicante province about 225 miles southeast of Madrid. No injuries were reported. Carter was not expected anywhere near the area.

After the arrival ceremony, Carter traveled by motorcade in the king's limousine, rather than a Secret Service vehicle, to the royal palace in downtown Madrid and attended a reception and lunch given by the king. In a toast, Carter, showing .U.S.

support for the fledgling Spanish democracy expected to seek membership in NATO, said in Spanish:

"The growth of Spanish democracy has been a tonic for the entire Western world. Spain refutes the false contention that the sweep of history is invariably toward authoritarianism - so Spain is a source of hope and inspiration to democrats every-

Carter said he is pleased that Spain has begun negotiations to join the European Common Market.

He also said he hopes Spain will 'see its own interests served by participating in the collective defense of the West," referring to the question of Spanish membership in the North At-

lantic Treaty Organization. But Carter said he realizes such a move, a cause of controversy in Spain, "is a decision to be taken solely and exclusively by Spain - in its own time and its own way."

By joining the Atlantic alliance, Spáin would jeopardize its position in the movement of non-alligned na-* tions, one reason for the controversy At the luncheon, King Juan Carlos

toasted the 200th anniversary of the establishment of diplomatic relations between the United States and He said that Spain is a country of

peace-loving péople and condemns "all kinds of violence and intervention in the internal affairs of other states," an apparent reference to the Soviet invasion of Afghanistan.

But the king also said that "we are and we shall continue to be in support of detennte and shall contribute our share to a dialogue between East and

In addition to meetings with the

king and prime minister, Carter's schedule called for talks with leaders opposing membership in NATO, including Felipe Gonzalez, head of the country's Socialist Workers Party.

Another topic likely to come up in Carter's talks with the king, Suarez and Gonzalez is renewal of a 1976 treaty allowing the U.S. Navy and Air Force to use Spanish military bases. The treaty expires next year, Spain's target date for applying for NATO membership, and the Spanish government is expected to seek a wider range of cooperation with less emphasis on U.S. arms support and more economic, cultural and technical aid.

Carter also plans to work in a bit of tourism as he has done elsewhere on his European trip.

With his wife, Rosalynn, and their 12-year-old daughter, Amy, Carter is scheduled to visit the famous Prado museum, concentrating on the work of the Spanish masters Goya, El Greco and Velazquez.

No one protests planned rate hike

By LANA CUNNINGHAM

It sounds like a vicious never-ending circle: The more electricity one conserves, the higher the rates go to make up for loss of revenue.

Or, at least, that's what the situation appeared to be when Winston Barclay, Midland manager of Texas Electric Service Co., explained the firm's reasons for a 17.7 percent average rate increase to Midland City Council. A public hearing was held on the increase during the council's reg-ular session Tuesday in City Hall. However, no one showed up to voice objections to the hike.

TESCO filed in May for the hike, which should produce \$123 million in revenue. Midland has joined with other cities in the TESCO system in hiring a consultant to study the pro-posed hike and recommend its own route, usually a lower rate.

Barclay, in explaining TESCO's position, contended costs of the electric

Looking at a \$40 a month electric bill, this means the charge will go up \$5 for a \$45 bill.

Going back to the top of the circle, Barclay explained that to reduce dependence upon natural gas, TESCO is building the lignite coal and nuclear plants to provide a cheaper source of fuel in the future. But until those projects are completed, the rates will have to increase to pay for them.

Councilman Tom Sloan, looking at a proposed rate chart, questioned why a \$40 bill would go up to \$57 a month, considering the \$5 extra for fuel costs and another \$17 from the rate in-

"This is a 42.5 percent increase," he

Barclay explained that a 17.7 percent "average" increase means that some areas will get a higher rate and others a lower rate.

But because of a rate increase, we're anticipating more conservation on the part of residents. This means less revenue and we have to

Because of a rate increase TESCO is anticipating more conservation on the part of Midlanders. "This means less revenue and we have to increase the rates again," the TESCO spokesman said.

company's construction program for lignite and nuclear plants have far exceeded what had been projected.

When the projects were undertaken, construction costs were estimated to be about \$50 million per year. In 1979, those costs had risen to \$213 million and in 1960 they should his

million, and in 1960 they should hit \$254 million, said Barclay.

Adding air quality control equipment to plants runs up the cost, he said, explaining that such equipment for a lignite plant used to cost \$4 per kilowatt hour. It now costs \$90.

And without the rate hike, electric prices still will go up come January, according to Barclay. TESCO's contract for natural gas from Old Ocean expires at that time, and the company will have to buy the fuel at open market prices. This means the gas prices. This means the gas in go from 41 cents a barrel to increase the rates again," he added.

"Are you saying," asked City At-torney Joe Nuessle, "that if we conserve by 10 percent, you have to raise the rates 10 percent?"

This type of action, replied Barclay, is called "elasticity."

However, he noted that while the person conserved 10 percent, he also saved that much on fuel costs even though rates for kilowatt hours used

The council took no action on the proposed rate hike. If the city adopts consultant's recommendation which in the past has been lower than TESCO's — the case will go to the Public Utilities Commission. The PUC studies both sides and puts into effect its own rate structure.

Permian Basin sizzles in summer's record heat

It looks like it's going to be a long, hot summer, with no end in sight for the record-breaking temperatures reported by Midland and other Permian Basin towns Tuesday.

Midland's high of 104 degrees set a new record for Tuesday's date, according to the National Weather Service at Midland Regional Airport. The previous record, set in 1953, was a cool 103 degrees. The record low of 57, set in 1940, was not threatened as this morning's low dipped only to 66

But it would have been hard to find a spot anywhere in West Texas below 100 yesterday. All area towns reported temperatures reaching the century mark, with Lamesa and Stanton both reporting a scorching 108

Temperatures are expected to be around 105 through Thursday, with clear conditions and no chance of rain. Winds will be from the south at 10-20 miles per hour.

Coal conversion package passed

WASHINGTON (AP) - In a move aimed at cutting American dependence on foreign oil, the Senate has passed a \$4 billion measure to help utility plants convert from oil to coal. The bill is part of President Carter's national energy package.

The bill, passed 86-7 Tuesday, allows 25 utilities to bill the federal government for up to half the cost of converting 38 plants. It also provides government loans to pay another 25 percent of a plant's conver-

sion price tag. The 38 plants, with a total of 80 units, would be required to switch to coal by 1985 unless they receive a waiver from the Department of En-

"This bill is a rifle shot to aid power plants that need help in burning coal," said Sen. J. Bennett Johnston, D-La., "It is an environmentally and economically sound way of weaning ourselves from OPEC oil and using

A similar version of the bill is pending in the House. Upon passage there, the two measures will go to a House-Senate conference committee to iron The United States has huge re-serves of coal and a number of energy experts said switching power plants from oil to coal would help decrease America's dependence on foreign oil.

While the Senate was approving conversion incentives, the House rejected the advice of its Appropriations Committee and voted 254-151 to add \$107.4 million in energy technology money to its \$11.8 billion energy and water development appropriations bill for the fiscal year starting

The money added Tuesday to the Department of Energy includes \$49 million for solar energy, \$20.8 million for magnetic fusion research and \$27.6 million for other energy re-

Overall, the bill recommended by the House Appropriations Committee carried \$385.7 million less for the Energy Department than the Carter administration wanted. The panel said the department wastes money.

Although the coal conversion bill won easy Senate approval, it passed only after several air quality amendments were quashed. The amendments expressed Northeastern senators' concern that increased coal use without safeguards could worsen air

The plants are in 16 states, most of them in the Northeast, where use of once-cheap oil to produce electrici-ty is common. President Carter first proposed federal aid for coal conversion last year as part of his national energy potkage.

Midland annexes 61/2 square miles

By LANA CUNNINGHAM

Persons living north of Bluebird Lane awoke this morning to find themselves in a new status - residents of the city of Midland.

On Tuesday, Midland City Council passed on second reading an ordinance to annex 6.5 square miles north of the city limits between Holiday Hill Road and Lamesa Highway. The action becomes effective immediately and finalizes a process that initially

started in October 1979. Postponed for further study when first mentioned last year, annexation was started again early this year and approved on first reading in April. Changes first had to be made in regulations under the Agriculture-Estate District — which applies to most of the annexed area.

The annexed area brings Midland's total square mileage up to 40. However, before the council could

take action on the ordinance during a regular session in City Hall Tuesday, it considered whether or not to bring the Polo Club grounds into the

IN THE ORDINANCE passed in April, those grounds had been included. However, since that time the which showed the land value had jumped from \$5,000 an acre last year to \$15,000 an acre this year. Paying taxes on that land valuation would be detrimental to the club, argued one of

Ed Magruder, associated with the Polo Club, said the group didn't object to being annexed. They only wished for a different type of restrictive zoning which would give them a lower land valuation. Wayne Kohout, director of parks

and recreation, pointed out that in other cities where recreational areas were taxed for potential use they often closed their doors. In Chicago. for example, its major amusement park was turned into an industrial park because of the way it was

The council was divided on how to treat the Polo Club grounds. A motion to leave out the area on annexation and another one on including it failed on 3-3 votes.

Mayor G. Thane Akins headed up the argument on one side of the fence. saying that with the polo grounds in the city limits, "we (the council) can do something about it" through the Board of Equalization. But Tom

Attorneys renew effort to save Potts

GAINESVILLE, Ga. (AP) - Civil liberties attorneys were returning to the courtroom today to try to save convicted murderer Jack Potts against his will - from execution next Tuesday.

Potts is facing the electric chair for the second time after being convicted in the kidnapping and murder of Roswell, Ga., mechanic Michael Priest.

Attorneys for the American Civil Liberties Union were to appear before U.S. District Judge William C. O'Kelley today, asking to be allowed to intervene on behalf of Potts.

O'Kelley refused a similar ACLU request on June 4, the day before Potts was last scheduled to die; however, later the same day he signed a stay of execution when Potts requested it. The next week Potts changed his mind and persuaded O'Kelley to dismiss the appeals and the stay.

Laughlin McDonald, ACLU regional director, said the application would be taken quickly to federal appeals courts if denied by O'Kelley.

In addition, Potts' mother raised the possibility that her son would again change his mind and try to save

Carolyn Potts said she was prepared Saturday, with her son's approval, to take steps to prevent the execution.

But she balked after an argument erupted over money when Potts' former girl friend, Diane Nicholson, reportedly offered her a \$20 bill - which is contraband in the prison area where they were visiting Potts.

Mrs. Nicholson's husband, Ed, said he believes Potts was indeed "on the verge of asking for a new appeal" Saturday, but he discounted Mrs. Potts' reasoning for refusing to coop-

Mrs: Nicholson and Potts' older brother were instrumental in obtaining the condemned man's approval for the eleventh-hour appeal on June 4, after Mrs. Potts had completed what she thought was her last visit with her son and left the prison.

Meanwhile, a federal judge in Macon, Ga., set a hearing on a separate legal action that could stop the execution.

Emergency Operating Center.

Midland council members

ready to spice up meeting

The meeting between Midland and Odessa city councils is still a month

Mayor G. Thane Akins had talked with Odessa Mayor Bob Bryant and

When Akins reminded the Midland panel Tuesday of the upcoming

"Well," Akins said, "they are. But we have to pay for the next one."

Akins then queried the council for ideas to put on the agenda and Gordon Marcum II joked, "Midland's planned annexation of Odessa."

The mayor, apparently not making any headway with the discussion, added that he meant possible problems between the two cities that could

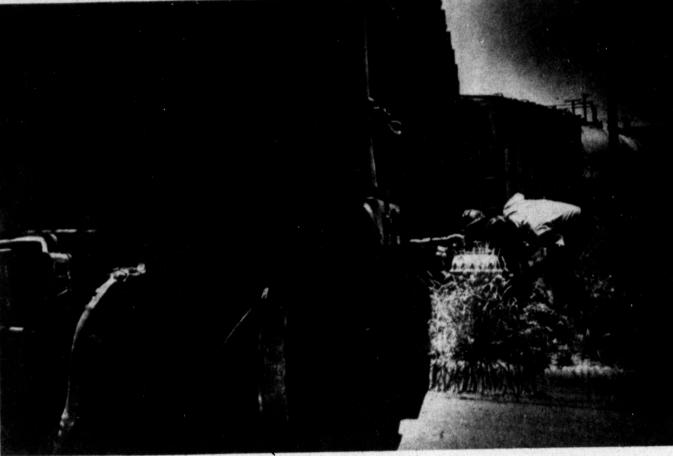

be discussed. Council Steve Davidson interjected, "I didn't know we had

"We don't have any problems," replied Marcum. "We just don't talk to

"That's OK," said Sloan. "We don't have to have another meeting."

meeting, Councilman Tom Sloan wanted to know who was paying for

the two agreed to a joint meeting at 10 a.m. July 24 in Odessa City Hall's

Police blocked off the area around the 3100 block of West Front Street and firemen were asked to stand by around 2:30 p.m. Tuesday when a hopper car derailed and came to a halt only fractions of an inch from a gas meter. Apparently the engineer failed to stop and pushed the hopper car onto Front Street. Police and firemen had a few sticky moments trying to decide how to move the car without causing the meter to explode. Pioneer Natural Gas Co. workers finally disconnected the meter and the car was pulled-out of the street with a locomotive. (Staff Photo by Edward McCain)

City of Midland OKs annexation of 61/2 square miles north of town

(Continued from Page 1A)

Sloan, on the other side of the fence, contended that the Polo Club was similar to a country club and the city hasn't annexed any of the three country clubs

The council, apparently deciding to straddle the fence, approved annexing the land but with a more restrictive zoning.

OTHER LAND in the annexed area brought in under other zoning besides A-E included Saddle Club North and Green Tree Country Club Es-

A problem with getting sprinkler

systems installed in some city parks and in getting another park developed came to light when the council looked at advertising for bids on a sprinkler system for the Downtown Park. Sloan wanted to hold off on putting in the sprinkler system on the undeveloped half-block next to Midland Center until projects at other parks were completed

But Kohout said the the company installing sprinkler systems is providing its own labor and the city's employees aren't being taken from other jobs for these projects. The same would apply to the Downtown

And as to Kiwanis Park, which still hasn't been developed in the northwest part of Midland, Kohout referred to it as "Never, Never Land." Work on the piece of land at Haynes and Whitney streets started last winter. But city employees were taken from that to work on the rose garden next to Central Fire Department.

Now, the city department finds itself with insufficient funds to finish Kiwanis Park according to its plan of a restraining wall and berms to separate it from the neighborhood, ac-

The council decided to go ahead and seek bids on the Downtown Park's sprinkler system.

IN OTHER ACTION, the council accepted the name of Windlands Community Playfield Park for a park planned south of Wadley Avenue and west of A Street, accepted a bid for renting uniforms for MidTran bus drivers, approved a lease for air rights for Wagner & Brown to build a walkway across an alley, purchased a population study from R.L. Polk and rejected a request from Andy Macha for a refund on vacant lots purchased at delinquent tax sales.

Councilmen decided not to make United Way pay pro rata for water lines to a new building for Community Day Nursery to be located on Bunche Elementary School land. That pro rata had been paid when Bunche was constructed about 20 years ago, the

Fred Baker, director of public works, said work on lowering a water line in northwest Midland was completed and the water level was back to normal. "We had good response from the public" in conserving water from Wednesday to Sunday, he

cording to Kohout. Afghan says Soviets pulling, replacing 'unsuited' troops

Mohammad Omar Babrakzai, a former judge trying to unite rebels fighting the Marxist regime of Babrak Karmal, said the Soviet troops in Afghanistan include "crack Russian troops brought in recently from East Germany and units specially trained in guerrilla warfare tactics.

could be similar to a troop rotation carried out in February and March, when Soviet troops from Central Asia where replaced by Russian units.

tral Asians were Moslems who lacked the will to fight their "Islamic brethren." Some defected and others aided the rebels by leaving behind caches of arms and supplies, he said.

Babrakzai said he believed the Soviets were removing defensive weapons such as anti-aircraft and antitank rocket launchers, for fear that the weapons could be used against Soviet troops if captured by the guer-

Babrakzai, who fled the Afghan capital of Kabul for Pakistan last year, said his information came from Afghan military sources in the past

Western diplomatic sources in Islamabad, Pakistan, said the Soviets were removing elements of several divisions, including units with surface-to-air rockets and anti-tank weapons that were of little use against the lightly armed and highly mobile guerrillas.

was withdrawing between 7,000 and 14,000 of the 85,000 troops it sent into Afghanistan in December to help crush the Moslem rebellion against

nev said the reason for the partial pullout was that the rebels had been dealt a "serious defeat" during their two years of fighting the regime.

In Tokyo, Japanese Foreign Minister Saburo Okita said today that France was at odds with the United States and Britain at the Venice summit on how to respond to the Soviet

Okita said French President Valery Giscard d'Estaing contended Moscow would need at least 300,000 troops to control Afghanistan, and that the withdrawal indicated Soviet willing-

ness to consider a political solution to

the crisis. The United States and Britain countered that the Soviets might be removing only unnecessary troops and weapons, and called for closer scrutiny of the situation to learn Moscow's true aims, Okita said.

President Carter, on a state visit to Yugoslavia after the summit, reiterated Tuesday that the United States would like to discuss a "transitional arrangement" for an independent and neutral government in Afgh-

"We would be prepared to explore a transitional arrangement, to be implemented along with the prompt withdrawal of all Soviet troops from Afghanistan, for the purpose of restoring peace and tranquility in that suffering country," Carter told his host, Yugoslav President Cvijetin Mijatovic during a toast in Belgrade.

Carter was renewing a proposal he advanced without success last February. There was no Soviet immediate reaction to the statement.

The United States hopes the proposal will be taken more seriously now that it is becoming increasingly evident to the Soviet Union that its military forces face a long guerrilla war and won't be able to gain complete control of Afghanistan, administration sources said.

Carter said his goal is to help "establish a truly independent, nonaligned Afganistan with a government acceptable to the Afghan peo-

U.S. officials explained that the transition could involve a phased replacement of Soviet troops with neutral United Nations or Moslem forces who would provide security for a peaceful transition from the Sovietbacked Karmal government to a new group of leaders.

KERMIT (AP) - The huge chasm discovered three weeks ago near the sleepy town of Kermit continues to nibble on West Texas dirt. "It's slowed down, but it keeps cav-

ing on," said Winkler County sheriff's deputy Glenn Vandiver. The giant sinkhole, a tourist attraction of sorts, is partially filled

feet deep, Vandiver said. "You could call it the guacamole sinkhole now, I guess," he added. At an early point in its short, voracious life, the sinkhole was filled with bub-

with "avocado green" water about 70

bling black muck An analysis of the olive drab liquid conducted by Midland chemical company Petro Lewis showed the water to be "better than what the city of Midland is drinking," a company spokes-

man said. Scorching summer heat has not driven off the tourists, who still drive out to view the hole's progress.

"They're still coming, and I tell you, it's hot out," Vandiver said. "The day it was 114 out there, there was a mob of 'em. That's people for

Youngsters find withered hand, foot in concrete-filled ice chests in creek

SAN ANTONIO, Texas (AP) - A withered hand and foot have been found in small concrete-filled ice chests resting in a San Antonio creek, sparking a search for the rest of a

body, authorities say. Four youngsters walking along the Salado Creek in northeast San Antonio made the discovery Tuesday afternoon. Each body part was cement-

Police car theft theories discounted

DETROIT (AP) — Some police here are worried that the thefts of three unmarked police cars in the last 16 days could be part of a plan to infiltrate security areas at the Republican National Convention.

But James Bannon, executive deputy chief, termed such speculation "garbage" and said he would certify all cars working security areas at the convention here next month.

ed into a small plastic foam ice chest,

police said. "I was walking along with some friends when I spotted the hand," said Tracy Warden, 16. "Man, I was

The four flagged down a car and told Army Capt. Ronald Gamache, who called police.

Homicide detective Larry Rowe said there was no way to determine immediately how long the left hand and right foot had been in the stream or whether they came from a man or a woman.

Firefighters used poles to probe the creek for additional body parts.

Rowe said police and firemen would search the length of the creek to see if more parts had been discarded in the

same way.

"I imagine other parts of the body will be found somewhere," Rowe said. "Right now, we have nothing to go on. I understand we might be able to lift some (finger) prints later and maybe that will tell us something."

tem and a TV station in the same city to sell one or the other within a year. The proposal, adopted Tuesday by a 5-2 vote, could affect 25 companies or individuals holding major interests in

31 TV stations and cable systems in 19 The KMID station in Midland and the Odessa cable system, both owned by Midessa Broadcasting Corp., is

one of the 31 systems mentioned in the FCC ruling. Bob Witcher, manager of Cablevision of Odessa, said when contacted this morning he had not heard about the ruling and was not sure how the

owners would react. "I know they were concerned about that in the past," he said. "Nobody has ever known they (the FCC) were

actually going to do this." The commission voted in 1970 to block arrangements in which there would be joint ownership of a TV station and a cable system in the same community. It issued a new rule in 1975 saying the only companies that had to divest one of the holdings were those owning the only cable system as well as the only TV station in a given

area. If that standard were continued only eight of the 25 companies that now hold crossownerships would be required to divest, the FCC's staff estimated.

However, that standard was copied from rules governing newspaperbroadcast combinations, a position under court challenge, and commission attorneys have said a policy is needed to address peculiarities of television and cable competition.

The FCC responded Tuesday by saying all affected companies - in cluding the ones that thought they were safe under the 1975 ruling would have to divest unless they were granted a waiver under the new poli-

missioner predicted a "liberal" poli-cy on granting the waivers. That waiver policy would consider such things as the size of the TV market, the total audience of the sta-

The FCC said it would accept re-

uests for waivers from companies

that might be affected and one com-

tion and cable subscribers, the presence of other mass media in the market and the extent to which divestiture would cause negative economic or programming effects.

Witcher said he thought the KMID-Odessa cable system might be able to get a waiver.

"I would think they would have a chance," he said. "Channel 2 does not just serve Midland and Odessa; it serves a large audience in the West Texas area." Since the ruling was set up to protect against monopolies, Witcher said, KMID might be able to get a waiver against the ruling because "there are two other stations in the area and they (KMID) do serve such a large interest.

"They probably have a good chance for a waiver," he said.

Midessa Broadcasting Corp., ac-

cording to Witcher, does own stations

in other areas, however, it is not

Ray Herndon, general manager of KMID, could not be reached for com-

known whether they include cable system alliances. The 31 TV stations said to be owned by companies that also own a cable system in the same area, or whose stockholders have major cross-interests, include KRON in San Francisco: WINK in Fort Myers, Fla.; KID in Idaho Falls, Idaho; WHBF in Rock Island, Ill.; KLOE in Goodland, Kan.; KARD in Wichita, Kan.; WKYH in Hazard, Ky.; WKZO in Kalamazoo, Mich.; WOTV in Grand Rapids,

in Glendive, Mont.; KNOP in North Platte, Neb.; WKTV in Utica, N.Y. Also listed were: KFYR in Bismarck, N.D.; KTEN in Ada, Okla; KSWO in Lawton, Okla; KEZI in Eugene, Ore.; KOBI in Medford, Ore; KOTI in Klamath Falls, Ore; KPIC in ROTI in Klamath Falls, Ore; KPIC in Roseburg, Ore.; WSBA in York, Pa.; KOTA in Rapid City, S.D.; KHSD in Lead, S.D.; KELO in Sioux Falls, S.D.; KDLO in Florence, S.D.; KPLO in Reliance, S.D.; KVII in Amarillo, Texas; KMID in Midland, Texas; KTAL in Texarkana, Texas; KSL in Salt Lake City, and KUTV in Salt

DEATHS

J.T. 'Jay' Gist

Services for James Turner "Jay" Gist, 2211 Princeton Ave., will be at 11 a.m. Thursday in the Newie W. Ellis Funeral Home chapel with Owen Cosgrove officiating. Burial will be at Resthaven Memorial Park.

Gist died early Tuesday at his

He was born July 27, 1901, in Noodle, Texas. He was married to Eleanor Barker on May 30, 1928, in Post, Texas. Gist had lived in Midland for the past 10 years. He was a member of Westside Church of Christ.

Gist received the first B.S. degree in geological engineering presented by Texas Tech University in May 1929. He was employed by Barron Kidd, a Dallas independent, for 22 years. His 51-year career in geology took him all over the United States and to many other countries. Prior to his employment with Kidd, he had been with the United States Geological Survey, and with Pacific Western Oil for 18 years.

He was a member of the American Association of Petroleum Geologists for the 35 years and had been continuously registered by the Texas State Board of Registration for Professional Engineers since its inception in 1938. He was a member of the Order of the Golden T, a distinguished group of elder statesmen of the Texas Tech Ex-Students Association.

Survivors include his wife; a brother, Huron Gist of Odessa; and several nieces and nephews.

Memorials may be directed to the American Heart Association

Daniel Porras

ODESSA - Funeral mass for Daniel Porras, 61, of Odessa, father of John Daniel Porras of Midland, was to be recited at 10 a.m. today in St. Joseph's Catholic Church, with burial in Rosehill Cemetery conducted by Easterling-Wilson Funeral Home.

He died Monday in a Midland hospi-

Porras was born in 1919 in Mexico, where he was married to Dioncia Martinez. He moved to Odessa from Mexico eight years ago, and was a farmer and a member of St. Joseph's Catholic Church.

Other survivors include his wife; four sons, Abelino Porras, David Porras, Oscar Porras and Ray Porras, all of Odessa; four daughters, Amada Molinar, Scorro Loya and Francisca Porras, all of Odessa, and Eva Acosta of Monta Vista, Colo.; two sisters in Mexico; 35 grandchildren and one great-grandchild.

Bertha Douglas

Graveside services for Bertha Douglas, 84, of Graham and formerly of Midland, were Tuesday in Fairview Cemetery with the Rev. Ralph Caffey officiating, directed by Newnie W. Ellis Funeral Home.

She died Sunday in a Graham hospital following a lengthy illness.

Honorary pallbearers were to be Bud Lea, John Foster, Larry Sullivan, Craig Foster and Gregory

L.L. 'Sally' Placko Jehrig Feuge

DALL AS — Services for Lila Lenora "Sally" Placko, 36, of Carrollton and formerly of Midland, were Tuesday in Marsh Lane Baptist Church in Dallas (lirected by Restland Funeral

Graveside services were to be at 10:30 today in Resthaven Memorial Park in Midland with the Rev. Frank Johnson officiating.

She di ed Monday in a Dallas hospi-

She was born Dec. 15, 1943, in Texas. She was reared in Midland and was a 1963 graduate of Midland High School. She was a former member of Kelview Heights Baptist Church.

Survivors include her husband, Ronald; two sons, David Placko and Timoth y Placko, both of Carrollton; a sister, Alma Phillips of Dallas; a brother, Maurice Byerley of Calallen; and he r parents, Mr. and Mrs. Ray Byerle y of Midland.

Rulpy Huff

Services for Ruby Huff, 74, 3703 Thom ason Drive, were Tuesday in Wests ide Church of Christ with Owen Cosgrove, minister, officiating. Burial was in Resthaven Memorial Park directed by Newnie W. Ellis Funeral

Home. Mrs. Huff died early Saturday in a Midland hospital following a long ill-

Pallbearers were to be Randy Huff, Tim Huff, Jackie Stanley, Gary Wojtek, Steve Huff, Chester Huff, Paul

RANKIN - Services for Jehrig Dean Feuge, 22, of Rankin were Monday in First United Methodist Church here with burial in Rankin Cemetery under the direction of Dennis Gregg Funeral Home of McCamey. He died Saturday in an Odessa hos-

pital following a brief illness. Feuge was born in Rankin in 1957, and was married to Carrie Lynn Morgan Aug. 13, 1977 in Rankin. He was a geophysics student at Texas A&M University and was a member of Peace Lutheran Church in College

Survivors include his wife; his parents, Mr. and Mrs. Leon Fuege of Rankin; a sister, Evelyn Fuege of San Antonio; a brother, Carl Fuege of Rankin; and his maternal grandmother, Mrs. Roger Pate of Rankin.

Herman Wright

BIG SPRING - Services for Herman H. Wright, 77, of Big Spring will be at 4 p.m. Thursday in Nalley-Pickle Rosewood Chapel with burial in Trinity Memorial Park.

He died Tuesday afternoon in a Big Spring hospital after an illness.

Wright was born in 1903 in Coryell County, and was married to Mattie M. Terry in 1925 in Howard County. He was a pump mechanic for Cosden Oil and Chemical Co. for 25 years until his retirement in 1968.

He was a charter member of Birdell Lane Baptist Church and a veteran of World War I.

Survivors include his wife; three sons, Roy L. Tubb and Joe Marvin Wright, both of Big Spring, and Her-man Lee Wright of Mesquite; three daughters, Mrs. Cecil Haire of San Angelo, Mrs. Milton Lewis and Mrs. Nile Cole, both of Big Spring; a brother, Jeff James Wright of Chino, Calif.; two sisters, Nina Jones of Chino, Calif., and Verbie Andrews of Lubbock; 14 grandchildren and 16 great-grandchildren.

San Juan Lopez

LAMESA - Services for San Juan Lopez, 22, of Lamesa were to be at 2 p.m. today in St. Margaret-Mary's Catholic Church with the Rev. Tom Diebel, associate pastor, officiating.

Burial was to be in Lamesa Memorial Park directed by Branon Funeral

Lopez was dead on arrival Monday at a Lubbock hospital from injuries he sustained earlier in an automobile accident in Lamesa.

A lifelong resident of Lamesa, he attended Lamesa schools and was employed by K-Bob's Steak House. Survivors include his father, Man-

uel Lopez; his mother, Geneva Lopez of Lamesa; a sister, Geneva Olivio of Lamesa; and four brothers, Manuel Lopez Jr., Ruben Lopez, Arthur Lopez and Robert Lopez, all of Lamesa.

Chester Ingram

Services for Chester Ingram, 43, 4712 Kiowa St., are pending at Biggers Funeral Home in Fort Worth. Local arrangements were handled by Newnie W. Ellis Funeral Home.

Ingram died Saturday in a Midland hospital.

He was born June 5, 1937, in Las Gruces, N.M. He moved to Midland 14 months ago from Wichita Falls, where he had lived for seven years. He moved to Wichita Falls from Fort Worth. He was married to Patricia Sue Rogers July 17, 1964, in Fort Worth. He was a member of the Baptist Church.

Survivors include his wife; two sons, Chester Ingram Jr. and Christopher L. Ingram, both of Midland; two daughters, Laura Shoppell Ingram and Sarah Ingram, both of Midland; his father, Chester L. Ingram of Fort Worth; a brother, Jimmy Ingram of Fort Worth; a sister, Mary Helen Walker of Fort Worth; his grandmother, Mrs. Frank Chadwell of California; and several aunts and

David Burpee, seed king dies

PHILADELPHIA (AP) - David Burpee, who ran one of the world's largest mail-order seed companies for 55 years and campaigned to make the marigold the national flower, has died at the age of 87.

Burpee was the son of W. Atlee Burpee, who founded the W. Atlee Burpee Co. in 1876. After his father's death in 1915, Burpee took over the business in suburban Warminster with only a few months' study in horticulture.

During his tenure as head of the company, Burpee developed hundreds of varieties of flowers and vege-

Muskie wants Soviets pressured for withdrawal from Afghanistan

ANKARA, Turkey (AP) - Secretary of State Edmund S. Muskie told NATO foreign ministers today to keep pressuring the Soviet Union for a full withdrawal of troops from Afghanis-

"The rapid growth of Soviet military forces for well over a decade and their demonstrated willingness to violate the sovereignty of another nation, require an effective allied response - a concerted and sustained allied response," Muskie

> LEVIS General Clothing

at the opening public session of a North Atlantic Treaty Organization foreign ministers' meeting expected to be dominated by a search for new ways to pressure the Soviet Union to withdraw all of its armed forces from Afghanistan.

The Soviets poured some 85,000 troops into Afghanistan in December to help crush a Moslem rebellion against the communist regime, and on Monday announced they were pulling out about 10 percent of the men because of battlefield victories against

the rebels. Muskie said the West should keep its lines of communications open to

25% off

tensions in Europe and elsewhere, is open when Soviet actions follow. We must make unmistakably clear that aggression will be firmly op-

posed

In return for Soviet withdrawal from Afghanistan, he said, the West would be willing to renew talks on mutual and balanced force reduction negotiations in Vienna, discuss limits on long-range missiles and give greater weight to Soviet views on European security

As it stands now, the next security review session, scheduled for November in Madrid, is shaping up as a head-on confrontation between Moscow, but added, Soviet requests for an 'The path to broader co-expansion of detente and operation with the Soviet Western requests for full

He made the remarks Union, to a lessening of implementation of human rights accords.

Muskie met on Tuesday with Turkish Premier Suleyman Demirel and later with Greek Foreign Minister Con-

stantine Mitsotakis. Muskie said "all parties" would like Greece to rejoin NATO's military wing, which it quit in 1974 after Turkey invaded Cyprus. France is the other member of the 15-nation alliance outside the military command structure.

Sources said there will be no formal U.S. proposals on Greek re-entry at the NATO meeting, but there have been signs of a renewed dialogue between the two countries in the alliance's southern

which Turkey blocked bids to rejoin the military wing, said recently the issue is entirely up to Greece and NATO officials. Greece is seeking acceptable terms for re-entry, notably concessions from Turkey on air space and seabed rights in the Ae-

Pryor's spirits lifted

SHERMAN OAKS, Calif. (AP) — A growing avalanche of rnail, flowers and gifts has inundated the small private hospital where Richard Pryor is recuperating after a skin-graft opera-

Hospital spokesman Gary Swaye said Pryor would resume his treatments, which include a whirlpool bath and a high-pressure oxygen chamber to help the skin heal, today after a twoday hiatus.

The 39-year-old comedian, whose upper body was burned two weeks ago in a freak accident, is preparing to resume a full schedule of therapy after skin-graft surgery on Monday. A team of six doctors operated on Pryor for an hour and a half, taking skin grafts from his thighs and calves and placing them on his shoulders, neck, arms, back and chest.

Swaye, assistant executive director at Sherman Oaks Cornmunity Hospital, said Pryor's attitude "seems to be very positive and helpful."

Swaye described Pryor's spirits as "real good" Tuesday, despite constant pain. He said the comedian will remain on the critical list until at least the end of the week while doctors assess the results of the skin grafts.

NEIL SOLOMON

Nutritional balance attainable without breaking diet rules

Dear Dr. Solomon: How do protein, carbohydrate and fat compare in caloric content, and how much of each of these nutrients is contained in skim

Dear Rose: All fats contain nine calories per gram, while both protein and carbohydrates supply four calories per gram. A one-cup serving of skim milk has eight grams of protein (32 calories), 11 grams of carbohydrate (44 calories) and one gram of fat (nine calories).

Dear Dr. Solomon: My husband has reluctantly agreed to have me serve vegetables more often at dinner since they have no cholesterol. However, he insists I add a blob of butter when I prepare them because he doesn't like the taste otherwise. I try to tell him he's defeating the purpose for which I'm serving vegetables, but so far my arguments have done no good. Do you have any suggestions? - Mrs. F.I.

Dear Mrs. I.: Various items that frequently are added to vegetables, such as butter, egg yolks and many cheeses, are indeed high in saturated fats and cholesterol. However, there are recipes that call for egg whites, skim or nonfat dry milk and low-fat cheeses such as cottage cheese. These products help keep fat and cholesterol levels low, while saving you money as

Dear Dr. Solomon: In an effort to reduce my intake of fats I have begun paying more attention to the nutritional labels on food products. Fresh meats, however, do not carry such labels. Is there any way to estimate the amount of fat in a serving of meat? - Gil.

Dear Gil: One way to limit your

intake of fats is to eat only very lean meats. The leanest cuts of beef and lamb contain approximately three grams of fat per ounce of cooked meat. On the other hand, chicken without the skin, fish and veal contain from one and one-half to two grams of fat per ounce when cooked. In addition, the fat in chicken, fish and veal is less saturated than that in beef and lamb and should be used more frequently by anyone interested in a fat-controlled diet.

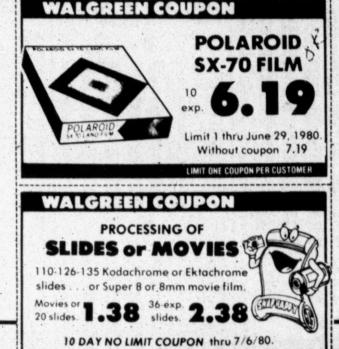

Dear Dr. Solomon: I am engaged to a man whose father is an alcoholic. What are the chances that my furure husband will show the same tendencies.? - Cora.

Dear Cora: Recent research indicates that there may indeed be a genetic factor in alcoholism, but the evidence is not clear-cut. Almost every study on the subject shows a higher rate of alcoholism among rela-tives of alcoholics than among the general population. However, while it is true that more children of alcoholics have drinking problems than would be expected, the fact remains that children of people who do not drink at all also may become alcohol-

Bear in mind, too, that just because a person may have a predicposition to a disease does not necessarily mean he will get the disease.

(If you have a medical problem, see your doctor. If you have a medical question, write to Neil Solomon, M.D., 1726 Reisterstown Road, Baltimore, Md. 21208. Dr. Solomon cannot give personal replies but will answer as many questions as possible in his

stock market got off to a weak start Tuesday but recovered to post its second gain in a row. The Dow Jones average of 30 industrials, off more than

3 points at mid-day, was up 3.49 at 877.30 by the close. The average rose 4.10 on Monday. New York Stock Exchange volume totaled 37.73 million

shares, up from 34.18 million in the previous session. The standout gainer on the active list was Esmark, up 5½ at 44% as of the 4 p.m. close after trading at a rec-

ord high of 45. Mobil, also active, gained % to 73%. National Semiconductor climbed 1% to 23%, and Boeing picked up % to

The daily tally on the NYSE showed about eight gainers for every five stocks that lost ground, and the exchange's composite index added .38 to 65.84. Standard & Poor's index of

400 industrials was up .72 at 129.40, and S&P's 500-stock composite index gained .63 to 115.14. At the American Stock Exchange, the market value

index gained 2.64 to 289.46. The NAS-DAQ composite index for the over-the-counter market closed at 157.66. up .67.

Livestock

AMARILLO, Texas (AP) — Texas Panhandle and western Oklahoma feedlot roundup. Confirmed: 12,800.

Trade fairly active in the Panhandle area Tuesday. Slaughter steers 25-50 higher, heifers fully 50 higher. Feedlots reported active buying interst from most sources. Sales on 8100 slaughter steers and 4700 heifers.

Slaughter steers: Good and mostly choice 2-3 70-85 choice, 1000-1225 ib 70.00-70.75. Mixed good and choice 2-3 1100 lb Holsteins 61-50.

Slaughter Heifers: Several loads choice 2-3 130 lb 67.00-67-50. Mixed good and choice 2-3 835 lb-88.00. Good and mostly choice 2-3 875-950 lb 67.00-67-50. Mixed good and choice 2-3 850-950 lb 65.00-67.00. Good, few choice 2-3 700-850 lb 64.00-64.50.

SAN ANTONIO, Texas (AP) — Cattle and calves: 400; mainly a cleanup type trade with insufficient volume any class on offer to adequately test price trends. Few slaughter cows and buils generally steady. Represented feeder sales firm. Slaughter cows: Few cutter and utility 1-3 42,00-44.25. Few canner and low cutter 38.25-40.25. Slaughter bulls: Few yield grade 1,985-1, 250 | bs., 51.25-55.75.

Peeder steers and bulls: Medium frame No. 1, few 400-430 lbs., 87.50-93.00; few 400-580 lbs., 75.25-90.50. Medium frame No. 3 75.50-85.00.
Large frame No. 2: Lot 625 lb. bulls 65.25.
Few 765-940 lb. bulls 55.25-40.25.
Feeder helfers: Medium frame No. 1, few head 320-375 lbs., 71.50-74.50.
Medium frame No. 2: Few 280-440 lbs. 64.25-68.25, few medium and large frame No. 1 and 2 60-500 lb. replacement helfers 71.00-75.25.
Hogs: 300; few lots barrows, gilts and sows firm to .50 higher.
Barrows and gilts: few lots U.S. 1-3 210-250 lbs. 25.0-0.50.
Sows: few head U.S. 1-2 275-325 lbs. 32.00; U.S. 1-3 400-500 lbs. 27.00-28.00, few 28.50.

OMAHA, Neb. (AP) (USDA) — Livestock quotations-Tuesday:
Hogs: 3,500; 200-260 lbs mostly 2.00 higher, instances 2.25 higher; 1-2 200-250 lbs 42.05-2.50; 165 head 200-220 lbs 42.75; 1-3 240-260 lbs 41.00-42.00; sows 1.25-1.75 higher; 300-800 lbs 22.00-22.75.
Cattle and calves 4,200; steers and heifers mostly 56 higher; nistances 75 higher on steers; cows 25-50 higher; 7 loads choice and prime 1,150-1,262 lbs steers 69.65-70.00; choice 1,050-1,300 lbs 68.00-48.25; 3 loads choice with end prime 1,000-1,025 lbs 68.00; choice 900-1,100 lbs 65.00-67.25; utility and commercial cows 42.50-44.50; few high dressing 45.00-46.00; cutter 42.00-44.00.

BUSINESS MIRROR Grads' starting salary \$32,000

PALO ALTO, Calif. (AP) - The median starting salary for this year's graduates of Stanford University's Graduate School of Business is about \$32,000, with a range from \$10,000 to \$50,000. The exact figures haven't emerged from the com-

puter yet, because the class graduated just a weekand-a-half ago, but it appears the increase over last
year's starting salaries is 12 percent to 15 percent.
Unexplained, figures of that sort sometimes bother
schools of business as much as they bother the
diligent, reliable, competent 9 to 5 working stiff who

still hasn't reached that figure. "And now a kid right out of school..." No point continuing; you know the rest of the sentence. But

did you know: The median age of this year's class is 28. Most have

had four or five year's experience, and some had worked themselves into very good positions. Some gave up well-paying jobs to go back to school.

More than half the class declined the highest offers, choosing instead to take positions that suited them better or, in some cases, offered a desirable

lifestyle. Money wasn't foremost.

Carol Marchick, who supplied these details, also points out that a 12 percent to 15 percent increase over last year means little increase at all, since consumer price inflation fell into the same catego-

The upward move of salaries, in fact, might not be the big news at all in recent years. While more than half the class of 300 men and women will, as usual, go into corporations employing at least 1,000 workers, fully one-third are headed into consulting.

The trend was observed last year too, when the consulting percentage rose to 26.3 percent from 24.4 percent in 1978, and replaced finance as the area of top interest. But a leap to 33 percent demands businesslike analysis.

Mrs. Marchick, 34, assistant dean and placement director, provides it. "The consulting environment," she begins, "is similar to the academic atmosphere." Consultants deal with a variety of challenge and academic atmosphere. lenges, as do students, and, as do students, they

sometimes use the case-study approach. "It can be appealing to those who like the environment," she Consulting is attractive also, she believes, because it allows the graduate to remain a generalist, at least until he or she has more experience or, for whatever reason, a better notion of what to do.

Under her analysis several other reasons surface. "To be able to work with top executives holds great appeal for a recent graduate," she believes. And, it seems, consultants pay extremely well for those they

She offers still another reason. "Consulting firms spend much effort in recruiting, and they use their senior management in doing so. They give lots of interviews, sometimes as many as 10 or 12."

In fact, she comments, their interviews are so frequent as to be a source of faculty frustration. Often we find it disruptive to the academic pro-

They are choosey too. While they thight interview 240 of the 300 in a class such as this year's, said Mrs. Marchick, they quickly pare down the numbers after observing students in business and social situa-

To be a finalist, therefore, has a mystique. So competitive is the process that students seek to enter the battle. Selection might not mean one is among the best, but it does mean a challenge has been

Nevertheless, some students have reservations. They see themselves making decisions and solving problems, says Mrs. Marchick, but then finding themselves removed from the day to day implementation of them.

They also recognize that line experience, such as managing a corporate division, eventually can be-come critical to a graduate's career, since without it some companies are wary of promoting a person into the top job.

Still, Mrs. Marchick observes, some consultants eventually move into corporate planning jobs, which provide them an overview and thus move up through the corporate hierarchy in that way.

And then there is that Stanford Master of Business

Administration degree, which some evaluators consider the best offered by any school of business. Almost always, it places among the top three.

The school's philosophy, she said, is 'We strive for

balanced excellence.' "We try to give students the quantitative and the qualitative, so that they can operate immediately and be equipped to be managers of the future."

Braun's new gold medal honors Soviet dissident

KANSAS CITY, Mo. (AP) - Conrad Braun has been honoring his economic heroes by minting gold medals of them for more than a year. He hopes to do similarly with his latest effort, a medallion of Soviet dissident Andrei Sakharov.

Braun arrived in Moscow Monday and began mapping plans to find Sakharov's wife so he can present the one-ounce medal to her. Sakharov himself has been exiled to Gorky, a city that foreigners aren't allowed to visit. The piece, which Braun calls an Olympic boycott medal, is the latest in a series produced by his

private Kansas City mint. One side shows Sak-harov's likeness with the words, "Champion of Free-dom." The other side shows the five-circle Olympic symbol, with the circles replaced by chain links.

Most of Braun's coins honor conservative economists, many of whom favor a return to currency based on gold. The latest honors Sakharov because the Soviet dissident has suffered for his attempts to

win freedom, Braun said.

Livestock auction report

Southwestern Livestock Auction Co. ran through 1,054 head of cattle Tuesday in a market that was steady to \$2 higher on all feeder cattle. Packer cows

steady to \$2 higher on all feeder cattle. Packer cows and bulls were steady. Breed cows brought \$47.50 to \$53.50 per hundredweight.

Steers weighing 600 to 700 pounds were auctioned for \$67.50 to \$69 per hundredweight; 500 to 600 pounds, \$69 to \$72.50; 400 to 500 pounds, \$80 to \$82.50; 300 to 400 pounds, \$82.50 to \$90; under 300 pounds, \$85 to \$95 per hundredweight.

Heifers weighing 600 to 700 pounds were sold for \$60 to \$63 per hundredweight; 500 to 600 pounds, \$63.50 to \$65; 400 to 500 pounds, \$66 to \$68; 300 to 400 pounds, \$68 to \$80; under 300 pounds, \$80 to \$90 per hundredweight.

weight.

Terry County draws two wildcats

A pair of wildcat operations have been announced in feet and plugged back depth is 4,037 feet. Terry County, and a third explorer was staked in Hockley County.

Exxon Corp., operating from Midland, spotted No. 1 Effie B. Wilson as a 12,300-foot wildcat 3.5 miles southeast of Brownfield in Terry County, 1 3/8 mile south of the depleted Brownfield, Southeast (Fussleman oil) pool) and 1 7/8 mile north of the Brownfield, South (Canyon) field.

The location is 1/2 mile southwest of a 10,696-foot failure and 660 feet from south and west lines of section 74, block T, D&W survey.

Estoril Producing Corp. of Midland No. 1 golden is to be drilled as an 11,000-foot Wolfcamp wildcat in Terry County, 15.5 miles west of Brownfield.

Location is 467 feet from north and 1,320 feet from west Isines of secton 91, block D-11, T&P survey.

Ground elevation is 3,486.6 feet. The drillsite is one mile south of a 5,653-foot dry hole, 1 3/4 mile northwest of depleted Devonian production and 1 3/4 mile northwest of depleted Wolcamp production in the Coroco field.

Threshold-Block Venture of Fort Worth No. 1 Leida Browning is to be drilled as a rank 7,200-foot wildcat in Hockley County, 12 miles north of Levelland near the Hockley-Terry county line.

Location is 467 feet from south and wast lines of labor 11, league 695, State Capitol Lands Survey and 3/8 mile southwest of a 7,410-foot failure.

RUNNELS WORK

James K. Anderson Inc. of Dallas no. 1 Gerhart "D" has been completed as a Gardner sand discovery in Runnels County, nine miles east of Winters.

It completed for a daily flow of 122.21 barrels of 46-gravity oil and 66,.98 barrels of water, through perforations from 3,986 to 3,988 feet and from 3,992 to 3.994 feet. The gas-oil ratio is 1,023-1, and the flow was gauged

through an 18/64-inch choke.

Total depth is 4,046 feet, 4/5-inch casing is set at 4,044

The Gardner sand was topped at 3,983 feet on ground

elevation of 1,859 feet. Wellsite is 1,175 feet from north and 364 feet from west lines of Marshal University survey No. 513.

D&J Operating Inc. of Abilene No. 1-A Brevard-Hale is to be dug as a 3,950-foot wildcat in Runnels Sounty, 14 miles southeast of Winters.

It is 3,185 feet from south and 3,206 feet from east lines of Isaac P. Wallace survey and done location southwest of D&J No. 2-A M. S, Hale, an unidentified discovery was completed through perforations from 3,684 to 3,691 feet.

SCHLEICHER STRIKE

Remuda Oil & Gas Corp. of Midland has completed No. 1 Tisdale "B" to open Strawn oil production in the Tilley multipay field of Schleicher County, three miles northwest of Fort McKavett.

Operator reporred a daily pumping potential of 50 barrels of 37-gravity oil and 25 barrels of water, through perforations from 4,326 to 4,332 feet. The gas-oil ratio is 700-1.

Operator washed the zone with 750 gallons of mud acid.

Total depth is 4,457 feet, 4/5-inch casing is set on bottom and hole is plugged back to 4,403 feet. Location is 1,843 feet from north and 660 feet from west lines of section 1501, W. Halm survey.

SUTTON EXPLORER

Andover Oil Co. of Tulsa No. 7-A P.E. and J.E. Adams is to be drilled as a 3,200-foot wildcat in Sutton County, 28 miles southeast of Sonora.

Drillsite is 3,300 feet from north and 1,880 feet from east lines of section 66, block A, GWT&P survey. It is in the Fort Terrett Ranch area and will attempt

to reopen the field's deplted Strawn pay. The location is 5/8 mile north of the Strawn discovery and one location southwest of the lone Strawn 3000 oil producer

The drillsite also is 1.2 mile southwest of Canyon 2800 oil production and 3/4 mile north of the Hargey gas

Pennzoil makes \$1-million donation

HOUSTON (AP) - "It is like wildcat drilling for an oil well," the president of Pennzoil Corp. said Tuesday. "You think there is oil down there, but you never know until you find it or hit a dry hole.

Baine P. Kerr was explaining why one of the nation's largest oil companies donated \$1 million to a cancer research project, the largest single

grant ever made by Pennzoil. "There is no need, no thought of trying to improve the image of the oil industry," Kerr said in an interview. "It is a simple fact that we think this research may answer some of the pain and the suffering of cancer."

The \$1 million donantion will be earmarked for purchasing interferon, used in a new approach to cancer treatment and prevention. Earlier, Shell Oil Co. donated \$2

million to the research program. "A good many of our employees have been lost because of cancer and each was a tremendous loss to society," Kerr said. "We know this may not be the final answer, but we have to find the answer.

"It is our belief that the oil industry is more willing than others to take a chance and this is a venture into the unknown of medicine.

Interferon, a protein derived from whole blood cells and from body tissues, has shown promise in treating a limited number of cancer types, as well as many viral diseases.

The Interferon Foundation was founded by Leon Davis and Roy Huffington, two independent oil producers from Houston. Most of the interferon research is

being done at the M.D. Anderson Hospital and Tumor Institute in Hous-

Dr. Jordan Gutterman, an immunologist, has been treating selected patients with interferon as part of a study to assess the potential of the

body-made protein.

Kerr said the Pennzoil grant will be used to purchase the high-priced interferon and for "what we think, what we hope, are dramatic experiments.

"There is so much more to learn, and only contributions from individuals, private companies, private foundations, can continue the research,'

"Believe me, we are not trying to make an big deal out of our contribution. This came from company earnings and I feel there is a place for all corporations to support all types of research. We must put all-out effort where we can get meaningful re-

"The knife, the cobalt, the chemotheraphy, which is in some ways disfiguring and destructive, may be replaced.

"This may open a whole new door and at least we will try to find out," Kerr said.

Mexico cutting down on gas sales

REYNOSA, Mexico, (AP) - Border-crossing American drivers seeking to fill up on cheaper Mexican gasoline won't be able to get more than a quarter of a tank for their trouble in the future, officials of Mex-

from Americans has depleted northern Mexico gasoline supplies. So, an order was issued last week limiting sales to cars with American plates to 100 pesos, about \$4.60. That will put about a quarter of a tank worth of gas in a full sized car.

The limits affect the region between Matamoros, opposite Brownsville, to Nuevo Laredo-Laredo, said Marco Antonio Loiza, public relations

because we are, in effect, serving a lot of South Texas,". he said. "What has happened as a result is that our citizens have been penalized by spot

Mexicán gasoline sells for 51 cents a gallon for regular and 72 cents for premium.

Loiza said the directive would not affect tourists traveling in the Mexican interior.

"It's not the tourist that has caused the shortage, but those that seek to take advantage of the cheaper price of our gasoline. We have a firm conviction to support our tourism, but tourists and gas gougers are two different things," he said.

Mesa completes Eddy Abo opener

Mesa Petroleum Co. of Midland No. 1 Antelope-Federal has been complted as an Abo gas discovery in Eddy County, six miles southeast of Hope.

It compelted for a calculated absolute open flow of 407,000 cubic feet of gas per day, through perforations from 4,568 to 4,697 feet after a 15,000-

casing is set at 4,825 feet. There was no fluid produced with

Blocker opens WT office

HOUSTON - Blocker Exploration Co., a subsidiary of Blocker Energy Corp., has opened an office in Midland to coordinate operations in West Texas.

Norman E. Norris, Blocker Exploration's western region manager, will supervise the office and will be in charge of all Blocker operations in

Norris, formerly manager of drilling and production for Crown Central Petroleum Corp., has had extensive experience in West Texas.

In April, Blocker Exploration Co. announced a joint venture with Sparkman Energy Corp., Corpus Christi, and Threshold Development Co., Fort Worth, to explore for and develop oil and gas on approximately 70,000 acres in Garza, Crosby, Lamb, Hockley, Cochran, Yoakum and Lea

Blocker's Midland office will oversee these operations.

MGF reports gas opener

MGF Oil Corp. of Midland announced that the Kilroy (MGF) No. 1 Vermilion Bay Land Co. exploratory well in Iberia Parish, La., 27 miles south of Lafayette, tested at a daily rate of 10.364 million cubic feet of gas and 206 barrels of 40.3-gravity condensate an no water.

The flow was through an 18/64-inch choke and perforations from 12,835 to 12,851 feet and from 12,859 to 12,863 feet. Flowing tubing pressure was 8,555 pounds. The calculated absolute open flow potential of 49 million cubic feet per day.

The well, drilled to 13,315 feet, is the first Planulina sand production from the Tigre Lagoon, South field which produces gas and condensate from lower Miocene sands between 9,500 and 11,980 feet.

The well is located in section 14-4s-

MGF's 1979 Limited Partnership owns a 25 percent working interest before payout of the well and a 34.375 percent working interest after payout, R. O. "Jack" Major of Midland, MGF president, said.

drilled as an 8,950-foot wildcat three miles east of Bledsoe in Cochran County.

The prospector is 2,300 feet from south and 467 feet from west lines of league 149, Randall County School Land survey, abstract 122.

It is 3.5 miles northwest of the Moncrief-Masten (Devonian gas) field and 2.5 miles southwest of the depleted Bledsoe, East (San Andres

oil) pool. Operator will test for production in the Bough "C" zone.

KENT TESTER

Intra American Energy Corp. of Dallas No. 1 Bilby Wallace has been spotted as a 7,000-foot wildcat in Kent County, four miles northeast of Clairemont.

Location is 1,320 feet from south and west lines of section 40, block 98, **H&TC** survey

The drillsite is 5/8 mile southeast of a 7,278-foot dry hole and 1 1/4 miles northeast of the IPCO (Strawn oil)

CHAVES WILDCAT

Yate's Petroleum Corp. of Artesia, N.M., spotted location for a 5,700-foot Pennsylvanian wildcat 24 miles northwest of Elkins in Chaves Coun-

Miami voodoo cult evidence found

MIAMI (AP) — An assistant Dade County medical examiner says he has found evidence that a primitive, voodoolike cult is flourishing in the heart of Miami's Cuban community.

Dr. Charles Wetli said the remains of a human were found packed with the skeletons of a chicken and a turkey in a cemetery in Little Havana.

Welti, a self-taught expert in the voodoo-like cult of santeria, thinks the find clearly suggests that the cult, which combines some elements of primitive African beliefs

was active in the area. "The animal remains

were probably being used for white magic, said Wetli. "They were probably used to help crumbling bones of a somebody going to trial who wanted a good verdict or somebody who was really sick and dying.

are generally used by practitioners of black magic, who believe they have the power to harm or kill someone."

"They had obviously Beach. been buried for a long time," said Dr. Donna with Catholicism, once examiner. "It seems remains were six miles

clear they were being apart from each other. used in some kind of ritualistic practices.'

In the cemetery, researchers found the woman and a skull encrusted with candle wax, streaked with rust and packed in a burlap bag.

They also discovered "But the human bones freshly slaughtered remains of a sheep, three goats, a guinea hen and several chickens packed in crates that were left on a roadside in Miami

The findings were made over a period of Brown, another medical three days. Some of the

The human remains

were found at Graceland Memorial Park, packed with the chicken and turkey skeletons. The skull was that of a woman in her 30s or 40s, said Dr. died.

Also in the bag was a skeleton that may have belonged to the same woman or another one in her 20s. None of the bones bore marks of violence, Dr. Brown said.

The bones probably were buried in an iron cauldron for a decade or priest, who believed they

power, said Wetli. They bones," Wetli said. may have been uncovered as part of a ceremony to rejuvenate that power or, more likely, large following in South they were cast away be-Florida. cause their owner had

The medical examiner's office can do little to determine how she died, but an expert in dental records will try to identify the woman. Also a mystery is how the bones came to be in the possession of the santero.

"It could have been a grave robbing, it could more by a santero, or have been a murder or it could have been a comwere the source of his pletely legal sale of the

Wetli said the cult, which originated in Cuba centuries ago, has a

"I don't think there's any real way of knowing how many people are involved," in some form of santeria, Wetli said. "All I can say is it's very widespread.'

Cooper attends APTA conference

PHOENIX, Ariz. -Jean Cooper, LPT, director of physical therapy of Midland County Hospital District, was among the 3,000 members of the American Physical Therapy Association (APTA) who met recently at the Hyatt Regency in Phoenix, Ariz. The Association's 56th Annual Conference has the largest program in APTA's history, featuring more

than 170 speakers. Physical therapy is a growing profession in America's health care field. The aims of physical therapy are to prevent disability and pain, restore impaired movements and activities, promote healing, relieve pain and teach adaptation to permanent dis-

APTA members con-vened for scientific sessions and association business. The group's representative legislative body will meet to elect new officers and to consider a wide range of issues facing the profession.

The wide variety of scientific sessions offered during APTA's conference reflects the expanding field of physical therapy. Some of the programs that will be included are the dynam-

French fired nuclear bomb

WELLINGTON, New Zealand (AP) — The French appear to have exploded an under-ground nuclear bomb June 17 on Mururoa Atoll near Tahiti, New Zealand government officials said.

The explosion report came from a recording station operated by the New Zealand Department of Industrial and Scientific Research at Rarotonga in the Cook Islands. There was no immediate comment from French officials.

The Rarotonga readings indicated a test of around 20 kilotons, regarded by the department as a medium-sized bomb.

treatment of low back pain, treatment of burn patients, emergency care of the athlete, prevention of jogging in-juries and physical fitness through aerobic

dancing. Physical therapy is considered a vital part of the total care for people who have problems of temporary or permanent disability, or pain, due to injury, disease, birth de-

fect, or loss of limb. Qualifications to practice physical therapy are established by law in each state and include attainment of at least a bachelor's degree, graduation from an accredited program and successful completion of a licensure examination.
