fighting continued between Thai and Vietnamese troops at this border village. Most elements of the

Vietnamese forces have pulled back into Cambodia according to reports today. (AP Laserphoto)

Border fighting continues Refugees are 'guerillas,' Viets say

BANGKOK, Thailand (AP) - Vietnam's foreign minister declared today the refugees Thailand is helping repatriate to Cambodia are armed guerrillas and "we will stop them or take them into a trap." Meanwhile, Hanoi's forces kept up their assaults along the Thai-Cambodian border for the fourth day.

Thai military sources said the Vietnamese fought guer rillas of toppled Cambodian Premier Pol Pot in the Malai Hills about 15 miles southeast of Aranyaprathet and anti-communist "Free Khmer" insurgents in the northern Cambodian province of Oddar Mean Chey.

The Thai command reported the Vietnamese also exchanged fire with Thai patrols in the southeastern Thai

province of Trad. The International Red Cross sent medical teams to several points north of Aranyaprathet to continue to care for wounded refugees, estimated as high as 1,000 since Monday.

Vietnamese Foreign Minister Nguyen Co Thach, who arrived in Bangkok Wednesday on an unofficial visit, told The Associated Press in an exclusive interview that the return of the refugees by Thailand and the United Nation was an "armed repatriation."

He said Vietnamese and Cambodian government forces would next move against guerrilla concentrations to the south of the border town of Aranyaprathet, 140 miles east of Bangkok

Carter finishing European trip

LISBON, Portugal (AP) - President Carter arrived in Lisbon today to offer visible encouragement to Portugal's six-year-old democracy and thank the government for being "among the first of the world's nations to recognize and respond to the threat posed to democrtic societies everywhere by aggression in Afghanistan and official terrorism in Iran." In a toast prepared for a state luncheon given in his honor, Carter said, "People who value freedom

cannot stand idly by while others' rights are ruthlessly suppressed and while a system of international order. so dearly won and delicately maintained, is so callously attacked." Although he referred to terrorism in Iran, Carter did not mention the 53 American hostages being held there. He has seldom talked about them in

public on his eight-day European tour. However, before leaving Spain this morning, he told a group of American employees at the U.S. Embassy in Madrid that he has constantly raised the issue in his talks with officials of all nations.

"I urge them to do everything they possibly can," Carter said.

President Antonio Ramalho Eanes, in his banquet toast, did refer to the hostages, saying they "remain victims of an intolerable violation of human rights and of a complete contempt for the most elementary rules of international relations."

"It is urgent for the international community to mobilize all efforts and to adopt efficient measures for the quick solution of this problem," he said

Carter's plane, Air Force One, landed at 4:25 a.m. EDT at Lisbon's Portela Airport, the last stop on Carter's European tour. Gen. Eanes, who was elected after putting down

an attempted countercoup in 1975, stood in a brisk wind at the foot of the ramp to welcome the first American president to visit the Portuguese mainland in two decades.

In addition to Eanes, Carter met privately with Premier Francisco Sa Carneiro and Mario Soares, leader of the opposition Socialist Party

Scarcely anyone turned out to

watch the presidential motorcade drive through the capital at midmorning on a bright, sunny day, and the president traveled along mostly empty streets. White House aides in the travel party said no attempt was made to draw crowds.

Squeezing a bit of sight-seeing into his six-hour stopover, Carter toured the 16th century Jeronimos Monastery and laid wreaths at the tombs of explorer Vasco da Gama and the poet Luis de Camoes.

About 500 people, mostly Americans, gathered outside, and when Carter emerged, he walked over to the crowd to shake hands and to chat. A group of teen-age girls from an American school in Lisbon broke into a brief rendition of Dixie, the song of the American South, and there were shouts of "We love you, Jimmy" from the crowd.

Carter's national security adviser, **Zbigniew Brzezinski, and Premier Sa** Carneiro found the mood contagious, and they, too, began cheerfully shaking hands with people in the crowd.

From the monastery, Carter drove to Ajuda Palace where he and the prime minister posed for photographs before sitting down for a private discussion.

The luncheon hosted by Eanes and Sa Carneiro was the last item on Carter's agenda before his departure for the United States.

While Portugal's left-wing extremists prepared protest rallies before and after Carter's stop, government leaders were determined to offer a warm welcome for the first visit of an American president here since Dwight D. Eisenhower passed through in 1960

Gen. Eanes downgraded a summer 1974 meeting between then Presidents **Richard Nixon and Antonio de Spinola** in the Azores by terming Carter's the first official visit by a U.S. president since an army coup toppled 48 years of right-wing dictatorship on April 25, 1974

Carter flew to Lisbon from Spain, where he also paid a one-day, democracy-boosting visit.

After his departure from Madrid, the government issued a statement saying Carter declared his satisfaction with Spain's progress toward entering the European Common Market. But the statement made no mention of the government's announced intention to seek membership in the North Atlantic Treaty Organization of which the United States is a key member.

The statement said Carter and Premier Adolfo Suarez examined in detail the Soviet announcement of a partial military withdrawal from Afghanistan.

ACLU challenges draft law

By JIM ADAMS **Associated Press Writer**

WASHINGTON (AP) - Opponents of President Carter's plan to renew draft registration, possibly as early as July 21, are shifting their fight from Congress to the courts.

The American Civil Liberties Union called a news conference today to announce it will file suit seeking to have the registration plan declared unconstitutional because women are exempt.

Opponents contend putting the burden only on men violates the Constitution's Fifth Amendment guarantee of due process under the law.

The ACLU suit also will seek an injunction against starting registra-

A 35-year-old Midland woman died Wednesday evening when the bicycle she was riding collided with a semi-truck, tractor-trailer on the Safeway parking lot, 2500 W. Illinois Ave. According to reports, Patricia Stal-vey, 1701 Holloway St., was eastbound on the sidewalk beside the store about 4:45 p.m. Bibian Guadalupe Aguilar of El Pass, driver of the truck, was backing up toward the store's loading dock. Ms. Stalvey apparently, came around the southeast corner of the building, and was turning to the left when the vehicles collided. Officials say apparently neither the woman nor the truck driver saw each other.

in the death of Midland bicyclist

After the collision, Ms. Stalvey fell under the truck and was pinned be-neath the bicycle and truck's undercarriage.

She was taken to Midland Memorial Hospital emergency room, where she later died. Hospital reports say the woman suffered from multiple inuries.

LOS ANGELES (AP) - Ronald Reagan and congressional Republicans, in a coordinated nationwide maneuver, have called for a major tax cut as an economic counterattack on the recession they blame on the Carter administration.

Reagan, who has clinched the GOP presidential nomination, told a West Coast news conference the situation is 'desperate. Now, I am saying to Congress, don't wait. Do it now.

The echo came from Capitol Hill an hour later, in a Washington news conference.

"This is the time for action," said Sen. William Roth, R-Del., a leading congressional sponsor of tax cut legislation.

"We Republicans are throwing down the gauntlet," said Sen. Bob Dole, R-Kan. "We're saying to the Carter administration and the Democrats in Congress, put up or shut

The double-barreled blast was denounced by House Speaker Thomas P. O'Neill, D-Mass., as "a political thing. I wish they'd start thinking about the country instead of the next election."

The GOP congressmen said they would offer the Reagan plan as an amendment to pending legislation to raise the federal debt ceiling, and if that fails, will attempt to attach it to every money bill scheduled for congressional action until it passes.

The proposal would cut income tax rates by 10 percent effective Jan. 1, a reduction of about \$20 billion, Reagan estimated

Roth and Rep. Jack Kemp, R-N.Y., a top Reagan adviser, have pushed legislation for several years that would cut tax rates 30 percent across the board, phasing in the reductions

at a rate of 10 percent a year. The plan is the heart of the Reagan economic program.

Joining the Capitol Hill news conference was Sen. Jacob Javits, R-N.Y., who said that while he opposes the Roth-Kemp bill, he can support the initial 10 percent cut.

A tax cut also may be proposed by the Carter administration to take effect next year. Aifred Kahn, chairman of the president's Council on Wage and Price Stability, told Congress on Tuesday it is almost inevitable such a tax cut - between \$20 billion and \$25 billion - would be necessary

Reagan said the nation's economy is in such poor shape that Americans

Reagan said he also spending to keep the pr cuts from increasing the fe cit and feeding inflation, fused to say where he would cuts.

"I am using at the m specific figures, but the from our own experience h fornia that such waste doe can be cut," he said.

Few advance preparations made to register Midlanders, local coordinator says

By SUE FAHLGREN Staff Writer

Although government sources predict draft registration for 18- and 19year-old men will begin as early as July 21 if passed, Midland's Draft Registration Coordinator Bob Luck said few advance preparations are being made to accept the onslought of registrants.

Luck, an employee of the post office, said the post office will only be involved in distributing and accepting cards from individuals. "We're going to be involved," he said, "but we're just an agent for them (the federal government)."

Because Midland is a sectional center for the area in that all mail is forwarded through this branch, the Midland offices will be responsible for the training of 168 associate offices, from Brownwood to Fort Davis, including Abilene, San Angelo and Odessa. Luck said the Midland office will train only supervisors or managers of the associate offices in the draft card system.

Until the bill is officially made into law, however, he said, there are no plans for advance training.

"This thing has been pending so long," Luck said, "and we really don't know yet (if and when it will become a law)." He said the department does not want to waste time and money training personnel now if the law will not be passed for several months - or even a year.

Luck said the post office would only be distributing the card and a brochure on how to fill it out to persons registering. "We would only be accepting them and making a few verifications," he said. "We will make no determinations.

Although Luck worked for the draft board before, he said this new registration would be different because there will be no selective service. "I imagine it'll be considerably different," he said.

Before, he said, every male had to register when he turned 18, and every registrant was classified. This time, however, the registration serves only to let the government know who the men in this age group are. Little more than a driver's license will be asked for.

Until a draft is imposed, Luck said, the young men will only have to fill out the postal card; no draft cards will be issued them to carry as mandatory identification.

Luck said although he did attend a seminar this week in Fort Worth on some of details of the forms, the post office has not received any specific material for the registrations.

"It all hinges on what's going to happen (to the bill)," Luck said. The issuing of draft registration cards would probably only become

another daily function for the post office, he said, like the issuance of food coupons, passports, etc.

THE MIDLAND REPORTER-TELEGRAM, THURS., JUNE 26, 1980

Farmworkers raise ante in onion strike

HEREFORD, Texas (AP) - Striking farmworkers raised the ante in negotiations with Panhandle vegetable growers, increasing wage demands and spreading the walkout to other High Plains onion fields.

Texas Farm Workers Union spokesman Jesus Moya said Wednesday workers are demanding a wage increase from 45 cents to \$1.00 per 50-pound bag of onions, a union contract, portable restroom facilities and drinking water in the fields.

"Its not like were asking for anything illegal. We are just asking for what these people are entitled to," Moya said Wednesday night at a meeting in Earth. "But mainly we are asking for dignity and respect for the

Temperature staying hot

Midlanders can expect more extremely hot weather through Friday. 23 cdy .39 ch .05 ch But they should be thankful they are not living in Wichita Falls. elr cdy clr

The high temperature in that city Wednesday was 114 degrees. Midland's high temperature for Friday is predicted to be near 102 degrees, according to the National Weather Service at Midland Regional Airport.

Tonight's low should be in the low 70's providing some relief from the daylight heat.

Wedensday's high is 101 degrees which fell four merciful degrees shy of the record high of 105 degrees set in 1953. This morning's low of 68 degrees also missed the 1958 record low of 59 degrees

It was apparent to most Midlanders that there was no precipitation recorded within the last 24 hours. The monthly precipitation total remains at 1.59 inches and the the yearly total to date is 5.08 inches.

Southerly winds tonight should be 10-15 mph.

Tax hearing set

13 edy clr cdy

hrough Friday near 60 moun-

and near record

AUSTIN (AP) - The State Property Tax Board said Wednesday it will hold a regional meeting July 23 in Midland to help local governments comply with the state's "Truth in Taxation" law

Other meetings will be in El Paso on July 9, Edinburg July 11, Abilene July 14, Waco July 15, Huntsville July 16, Corpus Christi July 17, San Antonio July 18, Longview July 21, Fort Worth July 22, Lubbock July 24 and Amarillo July 25.

farm worker.' Growers and packers contend the

strike comes at a critical time because the High Plains harvest begins four weeks earlier than in fields elsewhere and offers a chance for them to sell their crop at the best price.

Farm machinery already has turned the onions up, leaving them wilting in the fields in the 100-degree heat. The onions must be bagged in the next six days, growers said.

"Grower Cameron Gault said that at \$650 per acre in production costs, a deserted onion crop could cost the farmers and shippers in this area \$2 million About 200 workers began the strike

Tuesday at a field owned and produced by Howard Gault Co., the oldest vegetable shipper in the Panhandle vegetable region.

The strike spread Wednesday to the Griffin and Brand fields and sheds.

Organizers, who estimate 400 farmworkers have joined the strike, predict it will also spread into Castro County soon.

Moya said the Gault Co. offered Wednesday to increase the piece work wage to 50 cents a hag, but farmworkers, who orginally had asked for 80 cents per bag, and decided to increase their demands by 20 cents a bag

Shippers insist they can not afford to pay the higher wages

"At that price, on today's market, we would probably have a lot of onions left in the field," said Gault.

Texas Legal Rural Aid, a government-sponsored organization involved in the strike, claims workers under the 45-cent rate are not paid the \$3.10 per hour minimum wage required by law.

Wes Fisher of Barrett-Fisher Co., who fears workers will boycott his fields ready for harvest Thursday, said he has had crews easily make more than \$5 per hour at the 45-cent rate

He claimed most workers are willing to bag onions at the 45-cent rate and stressed that packers and farmers are eager to pay mimimum wage

"If there is a problem and they are not making mimimum wage, we'll adjust it," he said.

"But with the TRLA leading this whole thing, no. It's illegal for the TLRA to lead or encourage strikes.' Moya said workers would not vote to return to the fields until the higher

wage is guaranteed. But he added, "Let's bargain. We don't want to ruin any farmers."

Grace, 17, of Odessa, was headed east

Adolph and Betty Gapsis Injunction shutting down couple's 'snowball' stand

ARBUTUS, Md. (AP) - For 14 summers, Adolph and Betty Gapsis have sold flavored, crushed-ice "snowballs" from their front porch. Now the disabled couple's stand has been ordered closed, and their neighbors - including a group of nuns - are fighting mad.

'Is the law always right?'' asked Joseph Ambrose Jr., whose funeral parlor is a few doors down from the Gapsis home in this working-class Baltimore suburb. "It's the talk of the neighborhood. Everybody's up in arms about it."

'They're nice people and everybody here loves them. It's a shame," added Margaret Hayes, who works for Ambrose.

The uproar began last year when Frank and Cathy Neubauer, who moved next to the Gapsises in 1978, complained that the refreshment stand was a nuisance and was located in a residential area where businesses are prohibited.

The Gapsises were found to be violating a zoning ordiance, but their appeal of that ruling has not been heard and the Neubauers sought an injunction, contending that crowds, noise and increased traffic disturbed them

The Gapsises take blocks of ice and shave them into snowy crystals. The crystals are poured into paper cones, and the customer's choice of syrup flavors is poured over the shavings.

On Tuesday, a Baltimore County Circuit judge granted a temporary injunction against the couple until their appeal is resolved:

The couple's lawyer, Charles Kountz Jr., said Wednesday the injunction closing his clients' stand should take effect within a few days. No decision has been made yet on appealing the injunction, Kountz said. The Neubauers have been told by their lawyer not to comment.

"I've never hurt anybody as long as I've lived here," said Gapsis, known locally as "Babe," who is crippled by muscular dystrophy. He and his wife of 32 years, who has undergone hip surgery and moves with some difficulty, have lived here since 1954.

The Gapsises are a well-known and popular local couple. The fact that both are disabled fueled the controversy.

Gapsis, 57, who works as a production supervisor with Westinghouse Electric Corp., said he may soon have to leave his employer because of his ailment.

"I guess it's the old story, you don't want disabled people to help themselves. Let's put them on welfare," said Jack Carroll, a local insurance man who supports the couple's stand.

A convent of Roman Catholic nuns, the Oblate Sisters of Providence, submitted a letter of support for the Gapsises.

KMID, Cablevision may have to break alliance

From Staff and Wire Reports

WASHINGTON - The KMID television station and its affilate, Cablevision of Odessa, may have to break their alliance soon because the Federal Communications Commission wants companies that own both a cable system and a TV station in the same city to sell one or the other within a year.

The proposal, adopted here Tuesday by a 5-2 vote, could affect 25 companies or individuals holding major interests in 31 TV stations and cable systems in 19 states.

The KMID station in Midland and the Odessa cable system, both owned by Midessa Television Co. Inc., are one of the 31 systems mentioned in the FCC ruling.

However, Ray Herndon, general manager of KMID, said Midessa Television does not own a controlling interest in the Odessa cable. Rather, he said, it owns a quarter of the station in a joint-venture partnership.

Other owners of the cable he said were Doubleday Broadcasting Inc. of New York; Cable Comm General of Denver; and Hodge Theater Interest of Midland and Odessa. Each, Herndon said, owns a quarter interest in the station

The FCC voted in 1970 to block arrangements in which there would be joint ownership of a TV station and a cable system in the same community. It issued a new rule in 1975 saying the only companies that had to divest one of the holdings were those owning the only cable system as well as the only TV station in a given area.

If that standard were continued, only eight of the 25 companies that now hold crossownerships would be required to divest, the FCC's staff estimated.

"This has been in the courts for 10 years," Herndon said. "Now its going to start all over," he said, adding that Tuesday's proposal is similar to the original proposal made in 1970. Furhter, Herndon said, the decision

is "kind of undetermined. The proposed order made yesterday can be contested by the (federal) justice de-partment. The federal justice depart-ment can upset this whole thing...if they file suit. And they have 60 days in which to do it."

However, the standard for the television-cable system regulation was copied from rules governing newspaper-broadcast combinations, a position under court challenge, and commission attorneys have said a policy is needed to address peculiarities of television and cable competition.

The FCC responded Tuesday by saving all affected companies - including the ones that thought they were safe under the 1975 ruling would have to divest unless they were granted a waiver under the new poli-

сy. The FCC said it would accept requests for waivers from companies that might be affected and one commissioner predicted a "liberal" policy on granting the waivers.

That waiver policy would consider such things as the size of the TV market, the total audience of the station and cable subscribers, the presence of other mass media in the market and the extent to which divestiture would cause negative economic or programming effects.

Herndon said he believed Midessa Television would appeal the ruling. 'We will now consider, as we did in 1970, to seek a 'grandfather interest' (in the Odessa Cable) because we acquired these interests before there were any regulations.'

Midessa Television bought into the Odessa cable system in 1966, four years prior to the first ruling, Herndon said.

Herndon said KMID and the Odessa cable have virtually the same service area, or Grade B coverage. "Grade B coverage," Herndon explained, "is a calculated circle around the broadcast area.

He defined the area of service of the television station as outlined by Hobbs, N.M., on the southwest and Big Lake on the northeast. The Odessa cable, he said, has a broadcast area approximately 30 further west than KMID.

The company does own 50 percent of another station, KFDA in Amarillo, a CBS affiliate. KFDA is co-owned by KMID with a third station in the Wichita Falls area. But, the Amarillo station would not be affected by the ruling, he said.

One killed, six hurt in Odessa wreck South Texas: Sunny and hot through Friday. Highs 100 106 except upper 80s to low 90s coast. Lows mid to per 70s except near 80 coast.

ODESSA - An Odessa woman was killed and six others seriously injured in a three-car collision in the 300 block of 42nd street here Wednesday evening.

Kay Pinkstaff Newman, 28, died en route to Odessa Medical Center Hospital of multiple injuries she received when the van she was driving was struck head-on, according to investigating officers.

The accident occurred at 6:05 p.m. when a vehicle driven by Bill C.

John L. Rice Jr.

AUSTIN - Services for John Leo Rice Jr., 78, of Austin and formerly of Midland, were held June 19 at the Cook-Walden Funeral Home.

Burial was in an Austin cemetery directed by Cook-Walden Funeral Home.

Rice died June 16 from injuries received in an automobile accident. He was born Oct. 9, 1901, in Bridge- " port, Ill. He was a retired employee of Luckenhymer Co.

Survivors include his wife, Loriena Rice of Austin; two sons, Jack Rice of Wickett and Burt Rice of Houston; and four grandchildren.

J.T. 'Jay' Gist

Services for James Turner "Jay" Gist, 79, were to be at 11 a.m. today in the Newnie W. Ellis Funeral Home chapel with Owen Cosgrove, minister of Westside Church of Christ, officiating. Burial was to be in Resthaven Memorial Park.

Gist died Tuesday in his home. Pallbearers were to be Carl Williams, Don Bates, Wallace Hestand, Charles Hestand, Fred Gist, all of Midland, and Don Hestand of Irving. Honorary pallbearers were to be Barron Kidd, Barron Ulmer Kidd, Will Shinn and Emory T. Corbett, all of Dallas, Charles R. Battin of Levelland, Pat Ballantyne of Palm Springs, Calif., William Watkins of Owensboro, Ky., and Roy Carley and Jon P. Butler, both of Midland.

Hazel Warren

Graveside services for Hazel H. Warren, 78, of Bastrop, La., and formerly of Midland, will be at 10 a.m. Friday in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home. Officiating will be the Rev. Bob Porterfield of West Kentucky Street Baptist Church.

Mrs. Warren died Monday in a Louisiana nursing home. She was born Dec. 4, 1901, in Steam-

boat Rock, Iowa, where she spent her early life. She was married Sept. 2,

Carrie Simmons

GREENVILLE, Miss. - Graveside services for Carrie S'. Simmons, 88, of Greenville, Miss., mother of Mrs. Stanley Levitt of Mid land, were June 17 in a Greenville Cernetery.

She died June 16 in a Greenville nursing home. Mrs. Simmons, a native of Browns-

ville, Tenn., was born Jan. 26, 1892. She had lived in Green ville since her marriage in 1915 to Seymour Simmons. He died in 1968.

Other survivors include two sons, seven grandchildren and three greatgrandchildren.

Daniel L. Sage

Services for Daniel L. Sag.e, 69, 2507 College St., were to be at 3 p. m. today in Dellwood Baptist Church with the Rev. Wiley Dorman, minister, officiating. Burial was to be in F airview Cemetery directed by Newnie W. Ellis Funeral Home.

Sage died Wednesday at his home. He was born Dec. 2, 1910, in Bowie, where he was also reared. He was married to Sarah G. Rogers Dec. 11, 1930, in Texarkana. He lived in De-Kalb for 16 years, then moved to Los Angeles, Calif., for 20 years. After that, he moved to Harvey, N.D., where he served as police chief for 18 years. He retired in 1975 and moved' to Midland. He was a member of the Masonic Lodge of Harvey and a 32rid degree Mason. He was a member of the Dellwood Baptist Church.

Survivors include his wife; three sisters, Mrs. Alton Tidwell and Mrs. J.D. Griffin, both of DeKalb, and Mrs. Robert Harty of Mount Pleasant; a brother, W.D. Sage of Midland; and three grandchildren.

W.H. 'Crat' Dean

BIG SPRING - Services for W.H. "Crat" Dean, 82, will be at 3:30 p.m. Friday in Nalley-Pickle Rosewood Chapel with burial in Trinity Memorial Park.

Big Spring hospital after a long illness

Survivors include his wife; four

William Ingram

STANTON - Graveside services for William Olen Ingram, 62, of Lenorah will be at 10 a.m. Friday at Evergreen Cemetery in Stanton with the Rev. Claude Craven of Big Spring officiating. Burial will be directed by Gilbreath Funeral Home of Stanton. Ingram died Wednesday at his

home following a brief illness. A native of Albany, he was a retired oil field worker. He was married to Marie Moore July 20, 1946, in Odessa

Survivors include his wife; three sons, J.C. Ingram of Odessa, William Olen "Bill" Ingram Jr. of Conneaut, Ohio, and James Michael Ingram of Big Spring; two daughters, Martha Ingram of Big Spring and Rose Rodriquez of Stanton; three sisters, Orene Ingram, Lily Decker and Iola Embree, all of Odessa; a brother, Weldon Ingram of Andrews; and nine grandchildren.

Aircraft collides with ship

MANILA, Philippines (AP) — The U.S. aircraft carrier Constellation collided with a merchant ship flying the Bangladesh flag in the Arabian Sea early Thursday, the U.S. Navy said.

There were no reports of casualties on either vessel but the Constellation suffered a 15-foot gash on its port side and minor damage to portside catwalks and superstructure as well as the forward portion of the protruding deck, the Mavy said.

lisior was under way.

the oiler Passumpsic.

Norah Cooksey

WICHITA FALLS - Graveside services for Norah Cooksey, 85, were to be at 10 a.m. today in Burkburnett Cemetery directed by Hampton-Vaughn Funeral Home.

Mrs. Cooksey died Tuesday in a Wichita Falls hospital following an illness She was born Sept. 12, 1894, in

Texas. Mrs. Cooksey was a housewife. Survivors include seven daughters,

Mrs. Ralph Fancher, Mrs. Cecil Guess, Mrs. Kenneth Hoover and Mrs. Herbert Rogers, all of Wichita Falls, Mrs. B.T. Holland of Nocona, Mrs. Larry Bledsoe of Fort Worth and

Mrs. Wendell Hoover of Graham and 17 grandchildren. TO PUT THE WANT ADS **TO WORK** Dial 682-6222

ILL MIDLAND REFURIER-IELEGRAM, INURS., JUNE 26, 1980

Mao's 'mistakes' hurt China

PEKING (AP) - The late Mao Tse-tung, once worshipped as China's "Great Helmsman," made mistakes that brought misfortune to the Communist Party and people of China, a high Chinese official is quoted by Yugoslav journalists as saying.

The three resident correspondents, representing the official Yugoslav news agency Tanjug and the newspapers Politika and Vjesnik, said they were told by the Communist Party's general secretary, Hu Yaobang, during a recent five-hour interview that China's policy now toward Mao, who died in 1976 at age 82, is not to negate his contributions to the party and people but also not to cover up his mistakes.

He also said Mao should be held responsible for the Cultural Revolution, and that preparations are under way for a special party Central Committee meeting to discuss Mao's role in it, the journalists added.

1"hat 1966-76 period of purges and factional strife now is officially blamed on the "Gang of Four" radical leaders, headed by Mao's wife, Jiang Qing, who were arrested after Mao's death. The journalists said Hu told them the four would go on trial by September before the Supreme Court.

The journalists quoted Hu as adding that as the Cultural Revolution spread, it became worse, with tortures and persecu tion, but that most Central Committee members had no responsibility for that.

ERT

BSON

ESSA

E. 42nd -3308

43

They said they met with Hu on June 13, but at his request the interview was not reported until this week.

The Mugoslavs said Hu told them Mao lost energy in his later years and his written works on socialist construction and economy are not so good. The fifth volume of his works, rushed out soon after his death, is to be revised, Hu was quoted as saying. He adcled that Mao's thought still is a guiding principle for China but many of his thoughts are not suitable for today's stage of the Chinese revolution, the Yugoslavs said.

Mao's works already have been downgraded on the basis of being partly outdated. Those still promoted are described as a summing up of the collective wisdom of China's pioneering Communist leaders. Mao's emphasis on ideological purity above

all else has been set aside and a massive campaign to modernize China and raise living standards is under way using incentives and encouragements that Mao no doubt would have denounced.

But Mao still is revered, especially in China's countryside, and many middle-level officials owe their positions to rapid rises during his Cultural Revolution.

The Yugoslav journalists gave this account of other parts of the interview:

Hu said 100 million people wrongfully or mistakenly charged during the Cultural Revolution have been rehabilitated. This, he added, is 80 to 90 percent of the Cultural Revolution's victims.

He also said China now wants collective leadership and that if one man decides everything, that is feudalism.

(Hu, 67, is among the new generation of leaders moving up to form this collective, although they are only slightly younger than the generation of Senior Vice Premier Deng Xiaoping, 76, who has said he intends to shed some of his government, but not party, duties this summer.)

On foreign policy, Hu described China's propaganda on the inevitability of a third world war as bad. Since that made China sound warlike, he added, it was being restated to say that China wants and needs peace and stability but has to prepare in case of war.

He said China had made mistakes in foreign policy, including earlier criticism of Yugoslavia, sacking the British Embassy during the Cultural Revolution and wrong estimations of the Social Democratic Parties in the West.

China now would try to improve relations with Western Communist Parties and Social Democratic Parties, he said, adding that the French Socialist leader, Francois Mitterand, would be welcome to visit China.

Hu said China has no fundamental conflict of interest with East European parties, and had good state-to-state relations with East European countries in the Soviet bloc.

He said China had not criticized those nations during the last three years but regretted that they had criticized China, and followed the Soviet Union in their criticism.

Workers find asbestos threat close to home

WASHINGTON (AP) - Gale Wyer, a federal official in a project to get cancer-causing asbestos out of consumer products, gazed up at the ceiling of his office. What he saw was a product containing asbestos.

"Working in the same building every day, things get so familiar that you don't real.'y look at them," Wyler said. "Then one day it dawns on you what you are looking at.'

Wyer's discovery led the agency to alert employees Wednesday that while working t or the safety of others they may be toiling in unsafe offices themselves.

What Wyer saw was a product called texture paint, one of many the agency says frequently contains asbestos. Microscopic asbestos fibers, when breathed, can lead to cancer, the agency has said repeatedly in getting products containing it off the market.

The largest effort so far resulted in recalls last year of more than 10 million hair dryers because they contained asbestos. More recently, the commission ordered 1,200 companies to report any asbestos use in their products, including texture paint.

Wyer, director of the commission's health sciences laboratory, is overseeing the scientific aspects of the asbestos program.

After he noticed the texture paint on the ceiling over his head, Wyer sent a sample to the agency's lab, which is in the same building in suburban Bethesda, Md. "Sure enough, it contained asbestos," Wyer said.

NATO is calling for Afghan pullout

ANKARA, Turkey (AP) - The NATO foreign ministers' conference ends today with a strong affirmation of the allies' opposition to Soviet intervention in Afghanistan, but no new proposals for dealing with it, officials from several delegations said

A spokesman for Secretary of State Edmund S. Muskie called the two-day meeting "upbeat" because there was agreement to continue measures aimed at convincing Moscow to withdraw the tens of thousands of troops it sent into Afghanistan six months ago to fight an anti-communist Moslem revolt.

The spokesman said Muskie told the ministers Wednesday that the United States had made sacrifices to oppose the Soviets' Afghan policy and that it appreciated efforts the allies were making.

Muskie was quoted as saying the U.S. Olympic boycott, curtailment of grain and technology sales to the Soviet Union and increased funding for new bases in the Middle East were examples of U.S. sacrifices and that he expected the allies to do an equal share.

There had been speculation that a proposal to aid Afghan rebels would be floated at the meeting, perhaps by the British, who have said in recent weeks the possibility should be discussed.

rilla bases about 30 miles nort h of the border in southern Lebanon. A Lebanese captive told Israeli interro gators that two U.N. peacekeepers aided guerrillas who killed three Isra elis in a cross-border raid in April.

Meanwhile, the military command said Wednesday night that an age nt of Shin-Bet, the Israeli security service, had been killed while on duty. Aut horities gave no details and refused to comment on reports that the agent was killed in a Palestinian refusiee camp on the occupied West Bank of the Jordan River while investigativig the June 2 bombings in which two West Bank mayors were maimed.

There were no immediate reports of casualties in the Wednesday night

details of the attack, the latest in a series aimed at keeping the guerrillas on the defensive.

Lebanese leftist sources said the intruders fired guns and rockets at three sites along the coast," about 30 miles south of Beirut, the Lebanese capital.

The sources also reported daytime Israeli reconnaissance missions over Palestinian refugee camps in southern Lebanon while gunboats patrolled off shore, staying just out of range of guerrilla guns.

The guerrillas seized a nursery on the collective farm, killing a 21/2-yearold child and two other Israelis. The Palestinians were killed when Israeli troops stormed the building.

BUSINESS MIRROR Prices for air travel tumble By JOHN CUNNIFF

Stock

AP Business Analyst

OAKLAND, Calif. (AP) - Here in the city that once was the low-cost airline capital of the country, there are worries that the current round of price-cutting can only lead to higher prices.

There is no contradiction in that viewpoint, as expressed by Henry Huff, president of Transamerica Airlines, one of two formerly all-charter airlines that. are still based here. Once there were four.

Huff maintains that the big transcontinental lines, now offering New York-California trips for \$99, are doing so at a loss. They can't afford it, he says. "It.'s absolutely crazy." It will end within a year, he says.

There is an irony to Hank Huff's words because he was among the strong advocates of low prices. His airline specialized in lower-cost charter rates, far lower than those offered by scheduled lines.

He fought for deregulation too, feeling it would open up air travel to greater competition. The charters won the fight, and now are free to set up regular schedules in competition with the big-name trunk carriers.

What they didn't bargain on was the "High Noon" ferocity of the competition, and Huff now feels some of the big-name carriers could go under, or at least be forced to merge if they are to avoid crashing. Whatever, he feels that the special \$99 to \$129 coast-to-coast rates offered recently - side by side with conventional prices several times those amounts - are facing an inevitable, financialy dictated end.

Replacing them, says Huff, will be "proper" rates, or rates based on common sense and business experience. Heavily discounted rates will rise, and some other rates will fall, he predicts, as common sense returns.

The rate cutting couldn't have come: at a worse time for some of the airlines, says Huf'l, whose own operation remains in the black. The U.S. and world economies are in trouble, and the industry is losing money. Meanwhile, fuel prices rise. The result is absurd, says Huff.

A Boeing 747, for example, consume s 20,000 gallons of fuel on a coast to coast trip. The fuel costs about \$1.25 a gallon, or \$25,000 in all, a sum that might répresent only 40 percent of the trip,'s total cost.

A 747 carrying 484 passengers grosses about \$48,-000, but the fuel cost - and capital expenses, salaries, food, fees and taxes, qui ckly eats into the gross and makes it impossible to carn a profit.

Eventually, says Huff, who advocates single-price policies instead of the myriad rat es now offered, the "giveaway and throwaway" prices will succumb to the realities of the marketplace.

Where is reality? Somewhere, it seems, closer to 15 cents a seat-mile instead of the: 4 cents charged on some transcontinental flights Fifteen cents is the charge per mile on the profitable San Francisco-Los Angeles route, the country's busiest

Huff insists the adjustment will have to come, because as he said in a speec h this year, "the more discount seats sold, the greater the losses."

Those losses have been en ormous, more than \$500 million in the final quarter of 1979 and the first quarter of 1980. The trend continues, and Huff blames much of it on ticket prices that aren't related to cost.

Which is, he said in effect, a hell of a way to run an airline or any other business.

THURSDAY, JUNE 26, 1980

ENERGY OIL & GAS

PAGE 1D

Operators stake Basin field tests

Kenai Oil & Gas, Inc., of Midland No. 1 McNeil is to be drilled as a 7,800-foot project in the Nadine (Abo) field of Lea County, N.M.

The project, 10 miles east of Monument, is 660 feet from north and east lines of section 27-19s-38e.

ROOSEVELT COUNTY

Phillips Petroleum Co. announced location for an 8,000-foot project in the Peterson, South (Fusselman) area of Roosevelt County, N.M., 10 miles southeast of Elida.

It is No. 1 Lambirth "B," 675 feet from north and 560 feet from east lines of section 2-6s-33e.

CHAVES DRILLSITES

Yates Petroleum Co. of Artesia, N.M., spotted No. 1 Spear-Federal "AO" as a southwest offset to the lone well in an undesignated Wolfcamp field of Chaves County, 18 miles southwest of Elkins.

Location for the 4,900-foot project is 1,980 feet from north and 660 feet from east lines of section 9-0s-26e. Ground elevation is 3,806 feet.

The Wolfcamp producer is Yates Petroleum No. 1 McConkey which was completed in 1977 for a daily flowing potential of 2,550,000 cubic feet of gas, through perforations from 4,764 to 4,782 feet.

Coronado Exploration announced location for a 1/2-mile northwest stepout to an undesignated San Andres area of Chaves County, 16 miles northeast of Dextor.

Scheduled on a 2,800-foot contract, it is No. 1 Louise, 1,980 feet from south and 660 feet from east lines of section 28-11s-28e. Ground elevation is 3,640 feet.

LUBBOCK TEST

H. L. Brown Jr. of Midland No. 2 Fischer is to be dug as a 5,500-foot project in the Edmission, Northwest (Clear Fork) pool of Lubbock County, three miles north of Lubbock.

It is a northwest offset to Brown No. 1 Fischer, an active project, and 1/2 mile southwest of production in the the northwest side of the field

STONEWALL PROJECTS

E. C. Johnston Co. of Longview No. 2 Long Estate-Kegler is to be dug as a west offset to one of the three wells in the Short (Conglomerate) field of Stonewall County, six miles northeast of Old Glory.

Scheduled on a 5,900-foot contract, it is 2,189 feet from south and 3,651 from east lines of section 1,

BBB&C survey. Ground elevation is

V-F Petroleum Inc. of Midland No.

Basin field wells take potential tests

Tenneco Oil Co. No. 1-22 Mendel-State has been completed in the Gomez (west Wolfcamp) field of Pecos County, 18 miles northwest of Fort Stockton.

The operator reported a calculated absolute open flow potential of 560,000 cubic feet of gas per day, through perforations from 11,534 to 11.540 feet.

The gas-liquid ratio was 14,611-1, with gravity of the liquid 59.7 degrees.

Total depth is 12,120 feet, 4.5-inch pipe is set at total depth, and hole is plugged back to 12,078 feet.

The pay was topped at 11,534 feet on ground elevation of 2,902 feet. Wellsite is 660 feet from north and east lines of section 22, block 48, T-9, T&P survey. 1 .

WARD OILER

W. M. and A. P. Fuller of Fort Worth No. 2 Cynthia Monroe has been completed in the Scott (Delaware oil) pool of Ward County, five miles southeast of Barstow

It finaled for a daily flow of 92.46 barrels of 35-gravity oil and 157.32 barrels of water, through a 17/64-inch choke and perforations from 4,888 to 5,016 feet.

The gas-oil ratio is 1,049-1. The pay was acidized with 3,000 gallons and fractured with 30,000 gallons.

Total depth is 5,052 feet, 5.5-inch pipe is set two feet off bottom and hole is plugged back to 5,035 feet.

The pay was topped at 4,879 feet on kelly bushing elevation of 2,567 feet.

Location is 660 feet from southeast and 4,813 feet from notheast lines of section 33, block 33, H&TC survey.

CROCKETT WELLS

Anderson Petroleum, Inc., of Ozona completed a pair of wells in the Ozona (Canyon gas) pool of Crockett County, 25 miles southwest of Ozona

The operator finaled No. 2-32 A. C. Millspaugh "A" for a calculated absolute open flow of 1,540,000 cubic feet of gas per day, through perforations from 7,233 to 7,334 feet after 900 gallors of acid and 43,400 gallons of fracture solution.

The well is 5/8 miles northwest of other Canyon gas production and 790 feet fromsouth and 660 feet from west lines of section 32, block MM, T&StL survey. ****

Anderson Petroleum No. 4-32 Aullitin Millspaugh "B" was completed for a calculated absolute open flow of 800,000 cubic feet of gas per uay, through perforations from 7,169 t+ 7,262 2,400 gallons of acid and 24,000 gallons of fracture fluid.

Weilsite is 1/2 mile southwest of other Canyon gas producton and 1,800 feet fromnorth and 1,100 feet from west lines of section 32, block MM, T&StL survey.

MGF Oil Corp. of Midland No. 2-18 Helbing, was completed in the Ozona (Canyon gas) field of Crockett County, 6.6 miles southwest of Ozona. Operator reported a calculated absolute open flow potential of 1,500,000

cubic feet of gas per day. Completion was through perforations from 6,299 to 6,886 feet afrer a

96,000-gallon fracture treatment. Wellsite is 1,320 feet from north and west lines of section 18, block QR,

TRCRR survey, abstract 5,066.

IRION COMPLETION

Indian Wells Oil Co., Inc., of Ozona announced potential test on its No. 1-44 McManus, fourth gas well in the Probandt (Canyon oil and gas) field of Irion County, 18 miles northwest of Mertzon.

It finaled for a calculated absolute open flow of 2.9 million cubic feet of gas per day, with a gas-liquid ratio of 22,353-1. Gravity of the liquid is 64.7 egrees.

contracted to 6,000 feet and will be spudded 1,350 feet from south and 250 feet from west lines of section 1, block C, AB&M survey. Ground elevation is 1,623 feet.

CONCHO TESTS

Carlton Drilling Co. of Austion announced locations for two projects in the seven-well Paint Rock (Strawn lime gas) field of Concho County, seven miles southeast of Paint Rock. Each of the projects will be drilled

to 3,600 feet. No. 1 Hurcheson is 5/8 mile east of production and 1,980 feet from south and 990 feet from west lines of section 136, block 72, T&NO survey. Ground elevation is 1,702 feet.

Carlton Drilling No. 1 Cole, 1 1/8

miles southwest of production, is 1,320 feet from south and 2,600 feet from west lines of section 137, block 72, T&NO survey. Ground elevation is 1,798 feet.

The site also is one location north of a depleted producer.

IRION PROJECT

Texaco Inc. announced location for a 6,650-foot Cisco project one location south of one of the four Cisco wells in the Dove Creek multipay field of Irion County.

The new test, No. 4 J. M. Winter-botham Tract "B," is to be drilled 660 feet from north and east lines of J. Pfeiffer survey No. 781, abstract 498. It is eight miles southeast of Mertzon.

UPTON LOCATIONS

John L. Cox of Midland announced locations for two projects in the seven-well Fusselman area of the Benedum multipay field of Upton County 11 miles northeast of Rankin. Each of the tests is contracted to 12,000 feet.

No. 1-12 Mobil-Neal is 5/8 mile northwest of production and 660 feet from north and west lines of section 12, block 4 1/2, GC&SF survey.

Cox No. 1-14 Neal Estate "B" is to be drilled 7/8 mile northwest of production and 1,980 feet from south and 2,000 feet from west lines of section 14, block 4 1/2, GC&SF survey.

CROCKETT AREA

Blue Ridge Oil & Gas Exploration Inc. of Detroit, Mich., spotted No. 54 A. Phillips as a 3/4-mile southwest stepout to production in the Adams-Baggett Ranch (Canyon sand gas) field of Corckett County, 25 miles south of Ozona.

The 5,500-foot project is 1,943 feet from north and 1,617 feet from west lines of section 7, block OOO, GC&SF survey. Ground elevation is 2,225

Completion was through perforations from 6.640 to 6.660 feet after 3.500 gallons of acid and 40,000 gallons of fracture fluid.

Location is 660 feet fromnorth and west lines of section 44, block 6, H&TC survey. The well is 1/2 mile south of other Canyon gas production.

Operators final trio of Runnels discoveries

Operators have announced completion of three discoveries in Runnels County.

The Townsend Co. of Abilene completed its No. 3 Charles Matschek as a Jennings sand gas discovery 3 1/2 miles northof Rowena.

The strike completed for a calculated absolute open flow potential of 880,000 cubic feet of gas per day, through perforations from 4,042 to 4,026 feet and from 4,051 to 4,054 feet.

The pay was acidized with 500 gallons.

A dual well, it was finaled in June from the Gardner lime for a daily flow of 108 barrels of 46-gravity oil and four barrels of water, with a gas-oil ratio of 82-1, through a 13/64inch choke and perforations from 4,-092 to 4,096 feet.

Location is 910 feet from nothwest and 1,330 feet from southwest lines of F. Helmer survey No. 417.

The Gardner completion was assigned to the Rowena, North field.

Operator has suggested the discover zone be designated the Rowena. North (Jennings sand gas) opener.

Location is 910 feet from northwest ad 1,330 feet from southwest lines of F. Helmer survey No. 417.

The Jennings was topped at 4,016 feet and the Gardner was entered at 4,055 feet. The ground elevation is 1.672 feet.

....

Stroube Producton Co. Inc. and G. F. Reiff Inc. (formerly Stroube, Reiff & Lewis) of Abilene completed two of the Runnels discoveries.

No. 1 Ashton was completed from the Ashton zone for a daily flowing potential of 35 barrels of oil and 1.5 barrels of water. The gravity and gas-oil ratio were not reported.

Completion was through an 18/64inch choke and perforations from 3,-440 to 3,448 feet after 3,000 gallons of mud acid.

The Dog Bend was topped at 3,400 feet on grand elevation of 1,813 feet.

The total depth is 3,805 feet, 4.5-inch pipe is set at 3,797 feet and hole is plugged back to 3,570 feet.

Location is 467 feet from north and 5,600 feet from west lines of S. F. Austin and W. M. Williams survey No. 262 and eight miles northwest of Talpa. The wellsite is 3/4 mile southwest of the Crews, South multipay field.

----Strouble Producton Co. Inc. and G.

F. Reiff (formerly Stroube, Reiff & Lewis) No. 1 Barker, was compelted as an unidentified discovery in the Goldsboro (Gardner) field six miles north of Crews.

The opener finaled for a 24-hour swabbing potential of five barrels of oil and eight barrels of water.

Completion was through perforations from 4,230 to 4,244 feet which had been washed with 200 gallons of mud acid.

Total depth is 4,435 feet, where 4.5inch casing is set, and hole is polugged back to 4,300 feet.

Location is 1,686 feet from south and 1,462 feet from west lines of L. D. Counts survey No. 2, abstract 1,369.

LOVING WELL

American Trading & Produciton Corp. of Midland No. 1 Thaxton, scheduled as a 6,800-foot gas wildcat in Loving County, has been completed from the regular pay in the Wheat field.

The well, three miles southwest of Mentone, finaled for a daily pumping potential of 6.38 barrels of oil and 85 barrels of water, through perforations from 4,250 to 4,270 feet after a 2,000-gallon acid treatment and a 5,-000-gallon fracture job.

Total depth is 6,300 feet, 4.5-inch casing is set at 6,288 feet and hole is plugged back to 5,640 feet.

Location is 8,724 feet from northeast and 851 feet from southeast lines of section 80, block 33; H&TC survey.

CROCKETT GASSER

Harrison Interests Ltd. of Midland No. 8 John W. Henderson III is a new well in the Ozona, Southwest (Strawn) field of Crockett County, 18 miles southwest of Ozona.

The operator reported a calculated absolute open flow potential of 2,700,-000 cubic feet of gas per day, through perforations from 9,148 to 9,178 feet. Total depth is 9,672 feet and 4.5-inch

casing is set at 9,438 feet. Location is 660 feet from north and east lines of section 5, block SL,

T&StL survey. It is one mile southeast of other Strawn gas production.

Harrison Interests No. 9 J. W. Hen-

derson II will be drilled as a 10,000-foot project in the Ozona, Southwest (Strawn) field. Location is 600 feet from north and west lines of section 12, block SL, T&StL survey.

348.

The drillsite is 3/4 mile south of the recently opened Alexander, South (lower Canyon) field and separated from it by a 3,733-foot dry hole

Marshall & Winston Inc. of Midland staked No. 1 B. Herrera as a 3,500-foot wildcat 10 miles southwest of Aspermont.

It is a twin to a 6,427-foot wildcat failure and 2,080 feet from north and west lines of section 174, block 1, H&TC survey.

Korman Operating Inc. of Abilene will re-enter a 6,160-foot dry hole in Stonewall County and test it as a wildcat at 2,900 feet.

It is the former Sinclair Oil & Gas Co. No. 1 Clarence Webb one location west of the depleted Jud, West (Bend co' siomerate) gas field.

Site is 13 miles northwest of Old

Protection plan backed

WASHINGTON (AP) - Environmentalists say their plan for protecting millions of acres of Alaska from development will not jeopardize this country's drive to develop domestic energy sources.

A coalition of 11 national environmental groups announced their support Wednesday for a proposal they said would put off-limits only 5 percent of Alaskan land with potential oil reserves.

However, Alaska Gov. Jay Hammond contended on Tuesday that 5 percent could well contain 95 percent of the state's undiscovered oil.

At issue is whether to permit oil exploration in the 8.9 million-acre William O. Douglas Arctic Wildlife Range.

A Senate Energy Committee bill orders exploration in the range to better determine the potential for oil. Environmental groups oppose the exploration, saying it threatens the calving grounds of one of the world's largest caribou herds.

Hammond, in a speech before the National Press Club, called the Arctic Range the region of probably the highest potential for oil and gas onshore in Alaska and said the caribou herd would not be harmed by the proposed exploration.

"I have little patience with persons hard pressed to state with assurance which end of the caribou wears the antlers ... asserting that not even the most environmentally sensitive as-sessment should be conducted," Hammond said.

The environmental groups oppose the committee bill for various other reasons and said Tuesday they sup-port efforts by Sens. Paul Tsongas, D-Mass., and William Roth, D-Del., to make substantial changes that would bring the Senate bill more in line with the 100-million-acre protection mea-sure passed by the House.

District 8 counties lead Permian Basin in new oil, gas tests

Permian Basin counties of West Texas and New Mexico gained 187 more oil and gas projects last week, with 41 of the new tests scheduled in wildcat areas.

The West Texas side of the Basin gained 37 wildcats and 116 field operations, while New Mexico counites gained four wildcats and 30 field operations

District 8 of the Railroad Commission of Texas, headquartered in Midland, gained 11 wildcats and 40 field projects.

Disctrict 7-C, headquartered in San Angelo, gained 12 new wildcat sites to lead the Basin in that category.

artists who would like to show and sell their works in the first annual Pecan Valley Arts Festival to be held in Brownwood Sept. 20-21.

Activities are to take place under the pecan trees at Festival Park in south Brownwood near the Camp Bowie Recreation Complex. Festival hours are Saturday from 9 a.m. until sundown and Sunday from noon until 6 p.m.

Categories include painting, graphics, photography, sculpture, woodwork, fibers, pottery and jewelry. The show and sale is open to all individual artists and craftsmen presenting their original work. Works must be approved by the selection committee

Interested artists may contact, as soon as possible, Eloise Trigg or Nancy Barnes at 1-646-9535.

Braun's new gold medal honors Soviet dissident

KANSAS CITY, Mo. (AP) - Conrad Braun has been honoring his economic heroes by minting gold medals of them for more than a year. He hopes to do similarly with his latest effort, a medallion of Soviet dissident Andrei Sakharov.

Braun arrived in Moscow Monday and began mapping plans to find Sakharov's wife so he can present the one-ounce medal to her. Sakharov nimself has been exiled to Gorky, a city that foreigners aren't allowed to visit.

The piece, which Braun calls an Olympic boycott medal, is the latest in a series produced by his private Kansas City mint. One side shows Sakharov's likeness with the words, "Champion of Freedom." The other side shows the five-circle Olympic symbol, with the circles replaced by chain links.

Most of Braun's coins honor conservative economists, many of whom favor a return to currency based on gold. The latest honors Sakharov because the Soviet dissident has suffered for his attempts to win freedom, Braun said.

Tyler produce dealer

in watermelon trouble

AUSTIN, Texas (AP) - Agriculture Commissioner Reagan Brown said Wednesday he will not renew the produce dealer's license of Cragar Watermelon Co. of Tyler until it pays more than \$46,000 in claims by six watermelon growers.

Brown said he had determined at a June 17 hearing that Cragar had violated the Texas Agricultural Protective Act by defaulting on \$13,371 in payments.

"In the meantime, we have received additional claims of \$33,000 in defaulted payments against this company," Brown said.

He said the claims coincided with the renewal date of Cragar's license.

"Obviously we are not going to renew this license until all claims are paid in full," Brown said.
