Carter resumes campaigning, visits Dallas

DALLAS (AP) — President Jimmy Carter returned to the campaign trail Monday, capping a three-state fund-raising swing with a stop in conservative, Republican Dallas where he surveyed a drought-stricken farm and

helped local Democrats fatten party coffers.

Arriving at Dallas Love Field 30 minutes late due to the area's first rainstorm in 29 days, Carter and reporters boarded a squadron of Marine helicopters and flew to a farm outside Justin, about 30 miles north of Dallas, where the president saw crops ruined by a searing heat wave.

"My heart goes out to you and I wanted to come here to dramatize for the rest of the nation the practical effect of the intense heat wave that has stricken most of Texas," he said.

Carter assured farm owners Olen and Myrtie Range he would hasten the flow of federal dollars to the sun-scorched Lone Star state, then called on the Almighty for additional relief from the blistering heat. "We'll be praying for rain and cooler weather," the president told the

Ranges. He then traveled to Union Station, a renovated train depot in downtown Dallas, to be greeted by a handful of anti-draft protestors and about 1,000 supporters who each paid \$10 and waved signs that read: "Thanks for the rain, Mr. President.

Obliquely acknowledging the anti-draft protesters, Carter said, "Today is the first day of registration for our young men to make sure that in the future that if we are challenged, we will be able to defend ourselves. We do not anticipate departing from a full volunteer military force. We are registering...just in case we are challenged in the future."

The president also noted the United States has "respected the rights of all peoples throughout the world. Our commitment to human rights will never change and that is what we believe in," he said.

At that point, a 29-year-old member of the American Communist Workers Party was dragged from the meeting hall by a Carter supporter after shouting denials of the president's statement.

"All is not right with American today," Oran McMichael yelled. "Today marks the day that the American working class youths are called on to give their lives for a few rich folks."

The man later was questioned by Secret Service agents, then released. Later McMichael, a machinist for a Houston oil company, said he traveled to Dallas to "serve notice to the politicians and let them know that the American people will not stand for war, the draft or terrorism.

The President's motorcade then traveled to the North Dallas home of Jess Hay, former Carter campaign finance manager and former national finance chairman for the Democratic Party, for a private, \$5,000-per-couple

Four-year-old Dallas resident Erin Nowlin takes a close look at a business venture inspired both by recent hot weather and Carter's Texas visit. Neighborhood children set up a soft drink stand near the site of a \$5,000 per couple fund raiser — and even offered the president a free sample. (AP Laserphoto)

Judge opens Texas schools to young aliens

HOUSTON (AP) — Saying children excluded from school suffer "great harm," a federal judge opened public school doors for thousands of illegal alien children, striking down a Texas law that blocked their enrollment.

"The statute absolutely deprives undocumented children of access to education, thereby causing them great harm," U.S. District Judge Woodrow Seals wrote Monday in a ruling that paves the way for undocumented children to attend public

The landmark ruling orders four school districts in South Texas to admit illegal aliens Sept. 1 and enjoins the Texas Education Commissioner from enforcing the law statewide. Texas is the only state that excludes illegal aliens from state education funding.

The reaction from government and school officials and minority leaders in the state was immediate and

Gov. Bill Clements said he did not think Seals' ruling was "a proper one" and an appeal may be in order. "I don't agree with it," he said of the decision. "It's not equitable. It's a contradiction in terms that goes beyond a legal ruling. Until the illegal

alien question is solved, this is a peripheral issue." Texas Education Commissioner Alton Bowen said, "We'll obey the law and we'll try to find the money to do so, which is considerable." He estimated the ruling will cost taxpayers

\$100 million a year. "I don't know of any crisis that measures up to this in my six years here," said Billy Reagan, Houston Independent School District superin-

But Ruben Bonilla, national president of the League of United Latin American Citizens, said Monday the ruling was "perhaps the most significant advancement in equal educa-

tional opportunity in recent history." "It is a giant step for the concept that all residents of America are entitled to equal protection of the laws," he said.

Reagan said he will ask his school board to seek federal impact funds to help state school districts cope with the additional students.

"Certain parts of the state are going to be tremendously hurt," Rea-

He said HISD would have few financial problems absorbing an estimated 5,000 to 7,000 illegal alien children, but noted that the hardest-hit schools would be along the Texas-Mexico bor-

School attorney Kelly Frels said a decision on appealing the ruling would be made later this week, but attorneys for the state earlier said they definitely would appeal an unfavorable decision.

Frels said officials might ask for a stay of the order, to give school districts time to plan for the additional

The Texas statute gave schools the choice of refusing to admit undocumented children, or admitting them by charging tuition.

In his ruling, Seals noted that an amendment passed in 1975 to the law effectively excluded the children from school

"Although some school districts continue to educate all children,' Seals wrote, "the majority exclude them (undocumented children) or require tuition."

Seals noted national immigration quotas are "disregarded" and that many illegal aliens come to the United States to become permanent residents.

"Uneducated children who eventually will be admitted into this country will never be admitted into the ociety," Seals wrote

He also said said the state penalizes schools which admit illegal alien children by refusing to count the undocumented students when tallying perstudent state aid. He said that forced school systems into refusing admission for undocumented students, for financial reasons.

Congress urged to avoid tax cut

WASHINGTON (AP) - The Carter administration is asking Congress to resist the appeal of an election-year tax cut despite new forecasts of rising unemployment.

The House Ways and Means Committee arranged to hear from Treasury Secretary G. William Miller as it opened hearings today on the need for a tax reduction that would take effect early next year.

The hearings were scheduled after Republicans and their presidential nominee, Ronald Reagan, called for passage this summer of a \$36 billion tax cut which would reduce individual income tax rates an average of 10 percent starting Jan. 1.

President Carter and his advisers say any action to reduce taxes should be delayed until next year, when they

etbooks continually hit by double-

digit inflation, the Carter administra-

Continued inflation, high

joblessness forecast for 1981

predict the current recession will have reached bottom and a recovery will have started.

The president met with congressional leaders today but there were differing reports on whether a consensus was reached on a 1981 tax cut.

Sen. Russell Long, who favors a tax cut beginning Jan. 1, told reporters after the meeting that "we are not at war or at odds...perhaps we will coalesce.'

Sen. Wendall Ford, D-Ky., said in a separate interview that "the basic consensus of the group" was that there would be no stampede "into any political tax cut."

"So a political tax cut is basically out," Ford reported.

Long, chairman of the Senate Finance Committee, said he believed a

tax withholding reduction should begin Jan. 1 "and that we ought to do something about depreciation and that ought to apply to orders that are being placed now." He would not say how large a tax cut he favors.

He described the sentiments at the meeting by saying, "We weren't in total agreement, but we weren't in total disagreement either."

The White House repeated its position that now is not the time to consider a tax cut when it released its mid-year economic review Monday.

"The administration believes strongly that the last months of a congressional session, in an election year, are not the time to make the judicious decisions needed for a skillfully designed tax program to improve economic performance," said James T. McIntyre Jr., director of the White House Office of Management and Budget.

Unless a tax cut is of the kind that will increase investment and productivity, Carter's advisers say, it is likely to worsen inflation.

In the new review of the economy, the administration said unemployment is likely to reach 8.5 percent of the work force by the end of 1980 and remain near that level most of 1981. The rate was 7.7 percent in June.

A tax cut traditionally has been the federal government's basic prescription for fighting unemployment. But

the situation is different this year, say Carter's advisers, because of persistent inflation.

The growing recession is denying the government one big weapon that had been intended for use in the battle against inflation: the balanced budget. The administration's new figures forecast a deficit of \$60.9 billion in fiscal 1980, which ends on Sept. 30, compared with \$36.5 billion forecast earlier this year.

And for 1981, instead of the earlier forecast of \$16.5 billion surplus, a \$29.8 billion deficit is predicted. The deficit would grow even larger if taxes were cut.

The Republican Party platform adopted last week calls for a 10 percent reduction in individual tax rates and faster tax write-offs for businesses that buy buildings, machinery and cars.

After Reagan and congressional Republicans seized the tax-cut issue last month with their call for an immediate reduction, Senate Democrats hurriedly instructed the Finance Committee to prepare a Democratic plan by Sept. 3.

The Finance Committee opens hearings on tax cuts Wednesday. Uncharacteristically quick action by that panel could leave time for Congress to complete action on tax reductions this year, although the cuts would not take effect until Jan. 1.

Disaster predicted if schools opened to children of aliens

By The Associated Press

Texas school officials predicted dis-asterous results from a federal court ruling that would open the state's public schools to thousands of children of illegal aliens.

U.S. District Judge Woodrow Sears struck down part of the Texas Education Code that allowed local school district to refuse admission or charge tuition to undocumented children.

State attorneys had argued that more than 111,000 illegal alien children were eligible for school and their admission would burst the seams on already strained school district bud-

"This blows it wide open," said Manuel Gomez, administrative to the Harlingen superintendent. "That means they can just flock in tomorrow and bring their cousins and relatives. We don't have the classroom

"It will create havoc for us. There's no question about it.'

Gomez said he had no way to estimate the number of illegal alien children who would enroll in the Harlingen consolidated school district, which has an enrollment of 12,600 and is one of the largest districts in the Rio Grande Valley.

"I don't know of any crisis that measures up to this," said Houston Independent School District superintendent Billy Reagan. "Certain parts of the state are going to be tremendously hurt."

Reagan estimated the HISD would have to spend an additional \$8.5 million to accomodate an estimated 57,-000 undocumented children and "may have to hire a white or black monolingual teacher and hire Spanish-speaking aides to help with the language

tion says. released Wednesday, sources said Monday. The Carter administration released its revised economic outlook Monday, and it was drastically different than the original estimates in March, casting out any hope of a balanced budget for fiscal 1981, which starts Oct. 1.

The administration now is predict--A \$30 billion budget deficit for fiscal 1981, a far cry from the \$16.5 billion surplus projected in March.

-A \$61 billion deficit for fiscal 1980, up from the \$36.5 billion gap expected in March.

-A 3.1 percent decline in the nation's overall economy between last year's fourth quarter and this year's fourth quarter, followed by only a 2.6 percent rebound next year - the slowest recovery from a recession since World War II.

-Consumer prices will rise 12 percent between 1979's fourth quarter

and 1980's last three months - slightly better than the 12.8 percent pace predicted in March - and a 10 percent jump next year, a little worse than the earlier expectations.

-Unemployment will rise from its 7.7 percent now to 8.5 percent by

istration officials said there will be no proposal for a tax cut to stimulate the economy at this time.

"It is quite likely a tax cut will be desirable in 1981," said James T. McIntyre Jr., director of the Office of Management and Budget. But he added, "The administration believes strongly that the last months of a congressional session, in an election year, are not the time to make the judicious decisions needed for a skillfully designed tax program to im-

prove economic performance." Charles Schultze, chairman of the president's Council of Economic Advisers, said the administration can "gain considerable advantage in waiting" so the president can work carefully with Congress on a tax reduction aimed at spurring investment

and productivity, he said. That view was sharply disputed by two private economists, who said the faster a tax cut is enacted, the bet-

Complex to add office buildings

Firm notes 'increased demand' for space

Two more office buildings will be going up in a complex near Midland Air Park, according to an announcement by the I.D.P. Corp.

The new structures will be an addition to Petroleum Center Office Complex at the intersection of North A Street and Wadley Avenue. The first two, which were announced in April 1979, should be completed by the end of September, said a spokesman for the corporation.

Total cost of the two new buildings is \$6 million. Each building will have 127,000 square feet. Construction should begin about Nov. 1 with completion date in late September

The additional offices are in answer to "an increased

demand and phenomenal response to quality office space," said the spokesman. The offices were described as "plush, with marble walls and marble floors." Each two-story office will be off-white in color with black

Interiors will feature a center atrium. Executive suites will be located in the circular areas located in the center of each side of the buildings.

The four-building complex, when completed, will stretch over a 10-acre site. The buildings will take up four acres while parking will be provided on the remaining six

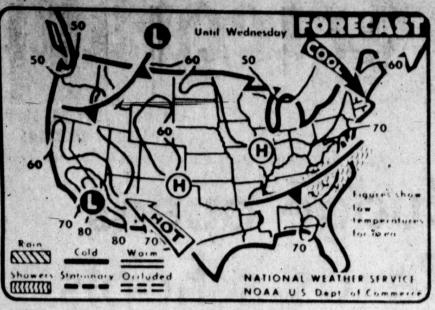

Registration of 20-year-old men continues; 175 sign up Monday

The second day of military draft registration for 20-year-old men was to resume today in Midland post offices, which on Monday registered 175 men for the U.S. Selective Service System.

The count included those who registered at the main downtown post office and at U.S. Postal Service's Graves and Village stations.

Next week, 19-year-old men are to register for the draft, and 18-year-old prospective inductees are to register in January.

An estimated 2,000 Midland County men are expected to register for the new draft in the next two weeks. Nationwide, 4 million 18-, 19- and 20year-old men are to be placed on the Selective Service System rolls.

Hot weather is expected in the forecast period, today until Wednesday morning, with the temperatures ranging from 115 degrees in the desert Southwest to the nineties for most of the country. Cool weather is forecast for the Pacific coast from the Great Lakes to northern New England. Showers are forecast for the Carolinas. (AP Laserphoto Map)

Stanton man's spree ended by law officers

STANTON - A 22-year-old Stanton man ran roughshod through here early Monday morning, allegedly robbing businesses and stealing a vehicle, according to Martin County Sheriff's Department officials.

He was finally apprehended by local law enforcement officers while trying to put gasoline in a vehicle at a local gas station for the final getaway, said a spokesman with the sheriff's department.

Bond for Jimmy Kelley Meek was set at \$48,000 by Justice of the Peace Francis Kennedy - \$10,000 for each count of burglary, \$5,000 for unauth-orized use of a vehicle and \$3,000 for felony criminal mischief.

According to Dan Saunders, Martin County Sheriff, Meek was trying to negotiate a curve in his 1976 Chevrolet when he apparently lost control of his vehicle and went into Stanton car dealer Jim Wheeler's yard.

Meek's vehicle knocked down two cypress trees, crashed into another vehicle and knocked over a brick wall. His vehicle still running, Meek left the scene with Wheeler and his neighbors chasing after him, Saunders said.

A couple of miles from the scene, Meek allegedly broke into Wheeler Motor Co. and commandeered a 1980 Buick off the showroom floor, the sheriff recounted.

While driving around, Meek allegedly burglarized a truck stop and a drive-in restaraunt and was robbing a gasoline station when apprehended, Saunders said.

Stanton police officer Darrel Brown discovered a gasoline pump nozzle in the vehicle Meek was driving while Meek allegedly was in the process of robbing the station, Saunders recalled.

Brown and Martin County Deputy Charles Sebastian finally captured Meek when he tried to escape from the station on foot, Saunders said.

Meek currently is in Martin County Jail.

Damage to Wheeler's yard was estimated at \$1,200, Saunders said. However, damages to local businesses as a result of the episode have not determined but are expected to be in the thousands, he added.

Area residents await fleeting chance of rain

West Texans are holding their breath as cooling clouds and a fleeting chance of rain, the first for some areas in over a month, pass over the Midland area.

The National Weather Service re-ported a trace of rain this morning at its station out at Midland Regional Airport. Although the precipitation was not measurable, it was the first the station has recorded in over a month. "We got .08 inches June 20," a

weather service spokesman said. Most area towns were reporting cloudy skies and considerably lower temperatures this morning, with Stanton and Big Spring even ex-periencing light sprinkles. Although

Midland was visited by promising clouds Monday afternoon and a few scattered showers were reported 10 to 15 miles north of town, officially no rain has fallen in the city limits.

Partly cloudy conditions will continue through Wednesday, the National Weather Service reports, with a 20 percent chance of thundershowers through tonight. Winds will be from the southeast at 5-15 mph through

Monday's "comfortable" high of only 94 was a considerable drop from the record high set in 1948, 102. The overnight low of 71 was quite a bit warmer than the record low of 60, set

By The Associated Press Anti-draft demonstrations were small but widespread and noisy as

Anti-draft protests small, widespread

young Texas men wandered into post offices for the first military draft registration in five years.

Chanting, hand-holding picketers lined up at the postal stations Monday to protest the draft and heckle those registering, while a small crowd conducted a demonstration outside a Dallas train station where President Carter was addressing a fund-raising

Pickets were up in Austin, Houston, San Antonio and Dallas. The Dallas protest was held at Union Station downtown where Carter was to address a Democratic Party voter-registration drive. The protest was led by the Committee Against Registration for the Draft, and involved about 13 people at its height.

But CARD spokesman Greg Preston said, "This is just the beginning. We realize through what we read in the papers and what Carter has said that the U.S. is gearing up for war."

Another CARD member, Floyce White, 19, said, "I do plan to register but only because of heavy penalties of law if I don't.'

When Carter arrived, the protesters began chanting, "No draft, no war," but few members of the slightly hostile crowd joined in.

In Austin four demonstrators were arrested in a downtown post office by General Service Administration officers while about 100 people outside

centage of that valuation.

The new system is designed to give a more standardized base for taxing bodies. The tax rate for each of the bodies is expected to decline this year, providing the same amount of income for the bodies as in previous years, tax assessor's office spokespersons said

Further, some property owners will be eligible for certain "tax breaks" provided by the state. Citizens wishing more information about these breaks can get a booklet, "Taxpayers' Rights, Remedies, Responsibilities!," from the city tax assessor/collector's office.

Property owners still wishing to have their new valuations reviewed can write to the tax office or appear tomorrow to lodge a personal complaint before the board before the hearings have ended.

joined hands and chanted, "Hell, no,

we won't go." The four allegedly refused to move

when two construction workers wearing hard hats tried to register. They were arrested and charged with obstruction, impeding and dis-

rupting, and were arraigned before U.S. Magistrate Phil Sanders who released them on \$500 bond each. In San Antonio, about 20 picketers marched in front of the downtown post office, carrying placards and shouting, "Hell no, we won't go fight for Texaco," and "One, two, three, four, Exxon's not worth a war."

About 40 young men were waiting in line to register when the post office opened.

A handful of hecklers jeered at the protestors from the courthouse steps, calling them cowards.

"You're parasites who like to take away from the government and give nothing to the government," one shouted.

In a scene slightly reminiscent of the Vietnam era, a young man and woman strummed guitars and sang anti-war songs while the protestors carried signs that said: "Sign up now. Reserve your plot at Arlington National Cemetery," and "No blood for oil. We won't die for Texaco.'

Most of the protestors said they were older than the young men registering and had taken part in anti-war demonstrations a decade ago.

"I don't think they (registrants) have a choice," said The Rev. Balty Janacek, a Catholic priest attached to the campus ministry at San Antonio College. "They have to register. We shouldn't expect them to protest. It was our age group that passed the (registration) law.

And in Houston, about 20 protesters marched at the Sam Houston post office downtown, where military recruitment centers are located.

The aggravated rape trial of 20-year-old Alvin Joseph Burgress of Midland is to begin in 238th State District Court today after a second 12-member jury is selected for the case.

The initial jury was picked Monday but was dismissed due to a mix-up in names from the jury panel, and Judge Vann Culp ordered a new set of jurors to try Burgress, who allegedly severely beat, choked and raped a 17-year-old high school student in her apartment in far north Midland about 1:30 a.m.

The woman was hospitalized following the as-

Burgress was arrested at a far north side Midland service station where he worked about 81/2 hours following the incident and was jailed. The girl worked part-time at a restaurant near the station,

according to police. In a pre-trial hearing before Culp on Monday, Midland Detective Ron Aaron, who investigated the assault, said the injured woman was "visibly shaken" but was not in apparent shock when he talked with her shortly after the incident.

Burgress has been held in the Midland County Jail since early May in lieu of posting a \$50,000 bond. He was initially arrested by Midland police officers Tim Rogers and Ron Gray.

U.N. meeting certain to end creating state to be governed by PLO

UNITED NATIONS (AP) - The U.N. General Assembly opens a special session today that is considered certain to end in adoption of a resolution calling for creation of a Palestinian state governed by the Palestine Liberation Organization. But the assembly will be unable to force Israel to comply.

Secretary-General Kurt Waldheim issued the call for the special session Monday after 87 countries approved the request for it filed two weeks ago by Ambassador Falilou Kane, the Senegalese chairman of the U.N. Palestinian Rights Committee. The United States and Israel opposed the holding of the session, but Egypt, their partner in the Camp David accords, agreed to it.

Kane's committee requested the session to get a new expression of international support for the PLO and a Palestinian state because the United States vetoed a Security Council resolution last April 30 calling for Palestinian statehood.

It is the seventh emergency assembly session in 30 years and is expected to end next Monday or Tues-

The resolution completed Monday night by a working group calls on Israel to begin withdrawing unconditionally from all occupied "Palestinian and other Arab territories" by Nov. 15. It asks Waldheim to take over the territories which Israel captured in the 1967 Arab-Israeli War and deliver the Palestinian areas - the West Bank of the Jordan

River and the Gaza Strip — to the PLO. Since the Palestinians have the support of a large coalition of Arab, non-aligned and communist nations, the General Assembly has repeatedly endorsed Palestinian statehood since 1976, and Israeli officials conceded that the new resolution was certain of adoption.

But a provision calling for a U.N. military force to supervise the Israeli withdrawal was deleted, reportedly because the Soviet Union opposed it. Instead the draft resolution authorizes Waldheim to "establish the necessary machinery."

INS grants asylum to 12-year-old boy

CHICAGO (AP) - Soviet-born Walter Polovchak ran away from home last week when he heard his family was considering returning to the Ukraine. Now the 12-year-old has been granted political asylum in the United States, a decision his mother calls "ridiculous."

The U.S. Immigration and Naturalization Service Monday granted political asylum to the boy, making his wish to stay in America no longer contingent on whether his parents leave or stay, said Verne Jervis, an INS spokesman in Washington.

Walter has said he wants to stay in Chicago because "here is better than my country," and his lawyer, Julian E. Kulas, said the boy was "very pleased" about the INS decision. But Kulas also said the "doesn't solve the entire problem."

'Now, the boy may not be taken out of the United States against his will. But the question of custody will not be resolved until July 30," Kulas said.

"I really hope that now the father will change his mind about going back and stay here a little longer," he said. "He may feel better about the country the longer he stays. But I think Walter's best interests are served if he is permitted to stay."

Walter's father, Michael, could not be reached for comment, but his mother, Anna, told The Chicago Tribune: "You mean a government is telling a mother what to do with her son? That's ridiculous!"

Walter emigrated to Chicago in January with his parents, brother and sister, Natalie, 17, who was traveling on her own passport and has decided

to stay in the United States. When he learned last week that his parents planned to return to the Soviet Union, he ran away and moved in

with a relative here. Police found Walter and took him to a district police station, but when his father tried to retrieve him, police called the State Department, which issued a temporary order keeping the boy in the United States until a court hearing could be held.

"I would rather never again see my parents than leave Chicago," the boy said then. "I want to stay here. I have new friends, a nice school, a bicycle I fixed myself, and I don't want to be sent back. Here is better than my

Circuit Judge Joseph C. Mooney on Saturday ordered the boy be placed in state custody pending a final hearing July 30. At that hearing, the judge will decide whether to return the boy to his parents or allow him to stay with two Ukrainian-born aunts here.

Even if his parents retain custody, however, they may not take him back to the Soviet Union against his will. In the meantime, the boy will con-

can family in the area, Kulas said. Jervis said Walter could apply for a permanent visa after a year, and

tinue to live with a Ukrainian-Ameri-

Kulas said the boy would do so. Kulas said over the weekend that Soviet authorities had told the elder Polovchak that because his two sons were on the couple's visa, both must accompany the parents or the family would not be allowed to return to the

However, Kulas said the granting of political asylum separates Walter from his family's passport, paving the way for Polovchak, his wife and their youngest child, Michael Jr., 6, to return to the Soviet Union.

Chevron energy report:

VAST OIL POTENTAL IN THE U.S.

-- untapped and unavailable.

Excessive government restrictions on public lands are preventing much needed energy development.

Most energy experts in both industry and government agree: there may be as much oil in the U.S. still to be produced — much of it undiscovered as America has produced in its entire history.

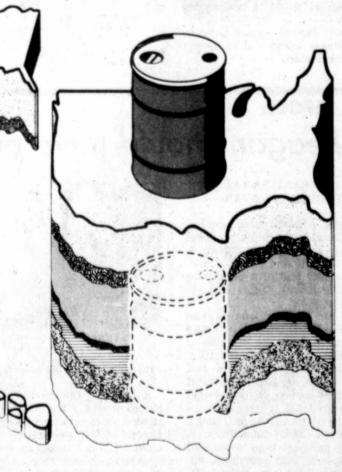

An estimated 2/3 of this undiscovered oil supply, as well as other energy sources, is beneath public lands. But our government, in responding to the environmental concerns we all share, has overreacted in making more and more of these lands off-limits to energy development and many other uses.

These lands can be managed to accommodate our need for food, timber, recreation, minerals and energy, as well as our need for a healthy environment.

Chevron, for instance, has been producing oil and natural gas safely for years in environmentally delicate places, such as a bird refuge, a moose sanctuary and off-shore fishing areas. The animals and their habitats have flourished.

America's untapped energy potential can play a major role in reducing our dependence on foreign energy supplies, so we can't afford to make land with such vast energy potential off-limits. Doing so is like locking the door to America's future.

The U.S. may still have as much unproduced and undiscovered oil as has been produced in America's entire history.

Canadian wisdom

Canadian owners of the American-made Plymouth Horizon and Dodge Omni operate their vehicles less expensively than Americans because of the sensibility of Ottawa's emission standards, according to a recent editorial in The Detroit News.

Back in the early 1970s the Canadians believed the United States was becoming neurotic about automobile exhaust emissions. In 1975 the Canadian government adopted standards that matched those of the United States. Then they froze the standards at that level.

The United States, meanwhile, has continued to rock along each year thereafter tightening the emissions standards in this country until the squeeze is nearly unbearable.

The Horizons and Omnis sold in Canada are not made in Canada. They come from Belvedere, Ill., the same factory which produces the American models. But the cars the factory routes to Canada are not equipped with catalytic converters. Instead, they feature an air pump, spark advance and other mechanical adjustments that help them achieve air pollution control.

The American cars in Canada require leaded regular gasoline, which costs 6 to 7 percent less

than the unleaded fuel mandatory for the Omnis and Horizons sold in the United States.

Furthermore, fuel economy is 5 to 10 percent better on the Canadian models, giving the Canadians a total 17 percent fuel savings over that achieved by Americans.

Additionally, the Canadians save money nationally because it requires less crude oil to refine a gallon of leaded regular, conserving that nation's energy supply.

Apparently Toronto, Canada's largest city, is none the worse because of that country's air pollution emissions standards. Down on Yonge Street in that fair city smog is virtually unknown.

Of course, gasoline prices also are subsidized in Canada. But to make a long story short, the Canadians are paying about 85 cents a gallon for gasoline compared to the \$1.20-plus a gallon in this country.

Certainly all the lower cost of gasoline in Canada cannot be attributed to the more sensible approach to government regulation and environmental concerns practiced there.

But that is a contributing factor that cannot be overlooked.

It would be nice if this nation's government was as sensible as that of our neighbors to the north.

mother of the late President John F.

WASHINGTON - Investigators for the Senate Judiciary Committee have painstakingly pieced together the story behind fugitive financier Robert Vesco's attempt to buy his way out of trouble in Washington.

NOVEMBER 1976 — The plot began as a scam by R.L. Herring, an Albany, Ga., businessman, to fleece Vesco of some of the millions he allegedly had looted from investors. Herring claimed to have connections

DECEMBER 1976 - The scam became more serious after Herring recruited Spencer Lee IV, an Albany, Ga., attorney, to pull strings inside the Carter White House. Lee was an

JANUARY 1977 — Lee and Herring flew to Vesco's hideaway in Costa Rica where they worked out a complex stock transaction that was supposed to net them several million dollars. Then Lee flew to Nassau where he formed a corporation to launder the anticipated windfall. Later in the month, Vesco spoke to Lee in Washington and was introduced on the telephone to Hamilton Jordan. Vesco testified that he wasn't familiar with Jordan's voice but that Lee said, "Here's Ham." Vesco's account of the conversation was verified

FEBRUARY 1977 - Lee told White

House aide Richard Harden all about the millions he expected to collect for helping Vesco. Both men later swore

under oath that Harden had persuaded Lee to abandon the scheme. But according to Vesco, Lee continued to remain in cahoots with him. In a battle of veracity, Lee failed and Vesco passed lie detector tests. Most startling of all. Harden reported the Vesco plot to President Carter, who had a legal duty to report it to the Justice Department but failed to do JUNE 1977 - Before Vesco would

make the payoff, he demanded "a signal to show that the Carter administration was doing something about his legal problems." He was told three days before it happened, according to the Senate Judiciary Committee account, that moves to extradite him from Costa Rica would be dropped. "In response to the signal," states the report, "Vesco went ahead with the complex stock transfer, and \$10 to \$12 million worth of stock actually wound up in the custody of the

JUNE 1978 - Harry Wingate, an Albany, Ga., attorney with Washington connections, flew to Nassau to confer with Vesco. According to the Senate report, Wingate assured Vesco that the fix "was still on" but that Vesco "must maintain silence." Vesco introduced Wingate to Libya's U.N. Ambassador Mansur Rashid Kikhia who sought to lift the freeze on from the United States.

AUGUST 1978 - Vesco was approached by James Day, a Texas obbyist, about releasing the planes. Vesco told Senate investigators that he understood this was a follow-up of Wingate's earlier visit, but both Day and Wingate deny knowing one another.

SEPTEMBER 1978 - I broke the story about the attempt to fix the Vesco case. Vesco told Senate investigators that he received a telephone call from his attorney, Edward Bennett Williams, about my columns. Williams told Vesco that White House aides Hamilton Jordan and Robert Strauss "were with him," a fact that Strauss has confirmed. Adds the Senate report: "According to Vesco, Williams advised him as his attorney to keep quiet and say nothing more to Anderson.

OCTOBER 1978 — In subsequent conversations with Day, which Vesco recorded and played back for the Senate investigators, Day linked the release of the planes to keeping "a complete muzzle on Ham's problem, Vesco took this to mean he was to say nothing that might embarrass Hamilton Jordan or the White House.

NOVEMBER 1978 - The White House ordered two Boeing 727 airliners released to Libya, thus overruling Secretary of State Cyrus Vance who opposed selling planes to Libya because of its support of terrorist activity.

Vesco admitted that the Libyan government paid him "a substantial sum of money" for getting the planes

WATCH ON WASTE: Officials of federally funded "action" agencies have been buying luxuries for their own enjoyment with money that should have been spent helping the poor, according to an unreleased General Accounting Office study. Among items purchased by local organizations sponsored by the Community Services Administration were \$500 executive chairs, \$50 briefcases, a \$3,275 conference table and a Chrysler New Yorker. And one of the do-good agencies did well by its secretaries, okaying \$100 of Uncle Sam's money to take them out to lunch for Secretaries Week.

Powers' CIA book shows

shabby political leadership

Charley Reese

tion of a 25-man force to form a nucleus of a resistance movement. Between the election and Kennedy's inauguration and in the early days of his administration, the project grew into an invasion force of nearly 2,000 men backed up by air strikes.

This was the work of dilletantes. If it was going to be a military operation, then the CIA had no business running it. And if it was going to be a military invasion of an island defended by a substantial army, then the U.S. Army should have led it, not Cuban exiles. Yet Kennedy and his advisors refused to face these deci-

Even after the invasion was compromised by the loss of a briefcase in Mexico and even after there was an indication Castro knew it was coming (he began a massive roundup of dissidents a week before the invasion date), no one at the top had the courage to abort the operation.

Obviously what was happening was a case of decision by indecision which carried right through until 1,500 men, stranded on a beach, were denied the air support without which everyone agreed in advance the mission would be a disaster. And it was a disaster, a deep, public humiliation of a great power by a two-bit communist dictator. Kennedy's myth-makers have tried to shift the blame to the CIA and to the military, but the errors were made at the top, not at the bottom. Kennedy made other bad decisions which ended up propelling us into the quagmire of Vietnam and all of them, like the errors made by his successors, were made primarily because he conducted foreign policy as an extension of his domestic political

since 1960: Cuba, Southeast Asia, Africa, Iran, the loss of military superiority, OPEC, and inflation, every single one of them can be traced directly to decisions made by the civilian political leadership.

INSIDE REPORT:

were reported killed.

citizenship.

Reagan should have pushed for a pro-ERA plank

By ROWLAND EVANS AND ROBERT NOVAK

DETROIT - Had they another chance, Ronald Reagan's political advisers would stand up to the wrath of Phyllis Schlafly and push for reaffirming the 1976 platform plank that endorsed the Equal Rights Amendment (ERA). "Except for Phyllis," one Reagan

insider told us, "all the real pressure on ERA comes from the pro side ... just like all the pressure on the abortion question comes from the anti Therefore, strictly in terms of hard practical politics, Reagan would have been best off to push for an anti-abortion plank (as he did) and a pro-ERA plank (as he did not). Reagan's political high command

feels newspaper and television obsession with ERA has hurt with women who might otherwise vote for Reagan. While the right might complain, Reagan advisers in hindsight believe that the strong anti-abortion plank would satisfy them no matter what happened on ERA.

REAGAN'S WARNING During a private talk with party leaders, Ronald Reagan referred to polling statistics that gravely disturbed his audience: Reagan, not President Carter, may suffer the most from Rep. John Anderson's independent candidacy.

Reagan said the statistics show that in the first 20 percentage points of Anderson's national vote on Nov. 4, Reagan would lose more votes than Carter. After that point is reached, the bigger loser would be Carter. But with Anderson unlikely to exceed the 20 percent tipping point, the Republi-

cans stand to lose the most because of

A footnote: One reason right-wing haters of Henry Kissinger were persuaded not to demonstrate against his speech to the convention Tuesday night was a poll, taken for the Republic National Committee, showing a 68 percent national popularity rating that is higher than any other Republican, including Ronald Reagan.

COMPLAINTS ABOUT CASEY

Reagan campaign manager William J. Casey is being rapped by Reagan political operatives for making a deal during his recent trip to Europe that he could not deliver: a promise that Americans living overseas would have a voice in the selection of the party's presidential ticket. The proposal was rejected overwhelmingly by the convention's Rules

Casey, a hard-working, tough New York lawyer, has still not managed to satisfy Reagan's regional political directors (known as RPDs) that he really knows his new trade of political management. On the organizational chart of the Reagan campaign, 54 state and territorial chairmen plus the 19 RPDs report directly to

One reason for the unhappiness of the RPDs: They have yet to see the fall campaign road map, which pollster and political adviser Richard Writhlin is supposed to be perfecting. Now that the convention is over, they are hoping strategy for the fall campaign may soon emerge.

NO WHEELS

When Republican National Chairman William Brock heard that Reagan-Ford negotiations over the vice presidency were breaking down, he asked two early participants in the talks - Sens. Howard Baker and Robert Dole - to rush from Joe Louis Arena to the Detroit Plaza Hotel for

emergency help.

But when the two Republican worthies left the convention, they could not find a car to take them back to the hotel. They were stranded. In fact, it was too late; by the time they would have arrived, the impasse between Reagan and Ford could not be

DR. NEIL SOLOMON

Drugs available now over counter

Dear Dr. Solomon: I understand that some drugs that required a prescription now don't require one. Is this true and is it safe? - Mr.

Dear Mr. N.: It's true, and safe. The U.S. Food and Drug Administration has recommended that certain drugs that it has found to be safe no longer require a prescription. This lowers the price of these drugs and eliminates unnecessary visits to doctors' offices. Examples include decongestant nasal sprays, antihistamines and anti-acne preparations. It's important to read labels carefully, though, and use these drugs only as recommended.

Dear Dr. Solomon: I realize that cancer can spread from one part of the body to another, but I don't understand how. Ca you explain? — Dot

Dear Dot: Cancer cells growing in one part of the body can be carried to other parts of the body through the lymph channels and blood vessels. Lymph is a clear fluid that is collected from tissues throughout the body and eventually is added to the blood.

Dear Dr. Solomon: I am a high school senior, active in three sports. I expect to play ball in college and, later, as a professional. I realize the difficulty in achieving this goal, and am also concentrating on my studies. However, I feel I'd have a pretty good spot in basketball except that I seem to be getting more near sighted. I have tried wearing contact lenses but have never been able to get used to them. Do you know of any method to prevent or even reverse nearsightedness? -

Dear Ken: An operation to correct

nearsightedness which was developed in the Soviet Union about six years ago, is being used on an experimental basis in the United States. The procedure, called radial keratotomy, involves cutting microscopic slits in the cornea of the eye to weaken it. The theory is that internal pressure will then tend to flatten the curve in the eyeball which is causing the near-

Dr. Leeds Katzen, chief of ophthalmology at Mercy Hospital in Baltimore, is one of about 25 physicians performing the operation. But says it often does away with the need for eyeglasses or contact lenses.

Dr. Katzen is part of a group of surgeons throughout the United States who are studying the procedure. He warns that a great deal of research is needed before the operation can be considered safe and effective for general use.

The procedure takes about 20 minutes. Patients generaly experience a mild irritation for a day or two, but can return to work in less than a week. Complications are said to be rare, although some bleeding and infection occasionally occur.

The operation has not been embraced wholeheartedly by all physicians. Critics contend that it is inadvisable to perform surgery on a healthy eye for a condition that can be corrected with eyeglasses or contact lenses. Moreover, the technique is too new for an evaluation of long-term

TV series "Here's Boomer," gave a rewanted to do the series was (to show) people sounding "woof!" and was married to Cynthia, a part-poodle from the pound.

A hotel pianist played "Here Comes The Bride" and Michael O'Laughlin, mayor of this famed honeymoon capital, presided over the "wedding" Monday.

Boomer, about 41/2, and his bride, just over 1, arrived here over the week- ing for a "spouse." end, jetting in from Los Angeles. Informed sources said the ceremony culminated a classic Tinsel Town courtship: a whirlwind affair that started three weeks ago, when Cynthia was rescued from the city

dog pound. Facing certain extinction, she was saved by trainer Ray Berwick, who "discovered" Boomer there about

three years ago. Berwick, who also trained the flock of ravens for Alfred Hitchcock's 1963 film "The Birds," guesses that Cynthia is mostly poodle. She weighs 20 pounds, about 10 pounds less than Boomer, and is a halfinch taller, at 181/2

inches. The TV series, produced by A.C. Lyles, is entering its second sea-

him a call today...

Lights dim on nation's film stages (as TV actors join screen strike

HOLLYWOOD (AP) - Prime-time television actors joined the Screen Actors Guild strike today. and floodlights were doused on film stages from New York to Los Angeles to "Dallias."

The American Federation of Television and Radio Artists, which represents most of the nation's primetime TV actors, joined the ISAG walkout at 12:01 a.m., assuring a shutdown of film and TV production in this country and on American movie locations around the world.

If it lasts long enough, the walkout could send film and TV executives scurrying for a substitute product - and could prevent Americans from finding out as scheduled just who shot dastardly J.R. Ewing. AFTRA members voted to strike at meetings in

Los Angeles in New York Monclay. Even after the strike began today, talks continued between the unions and the Association of Motion Picture and TV Producers. Negotiations recessed at

12:30 a.m. PDT, but were to resume later today. "As long as we're making progress we'll continue to meet," said Alan Davis, director of AFTRA's western section. "The issues that were on the table when the strike went into effect last night are still on the table. As to how long the strike will be,

that's anybody's guess." Monday's SAG strike alone was enough to turn studio back lots eerily quiet and cancel on-location

Burt Reynolds reportedly left a New York movie set as the strike began, while star's Candice Bergen and Jacqueline Bissett, on location in New York, were told to "go back to bed." An long those television actors not working today we're Polly Holiday of "Flo" and Ricardo Montalban of "Fantasy Is-

AFTRA's strike could seriously hurt producers in the midst of shooting for the new fall TV season. Unaffected are game shows, soap operas and network newscasts, whose AFTRA personnel are covered by different contracts.

"We're shut down," said Lee Rich, whose Lorimar Productions produces the wildly popular "Dallas" nighttime soap opera. The show is expected to open its fall season by telling fans who shot the character J.R. Ewing at the end of the last season.

'We've shot parts of a lot of episodes of 'Dallas,' but have nothing completed," said Rich.

"If it (the strike) is a short-run thing, it will have virtually no impact," said a CBS spokesman Monday. "If it's protracted, it will have a very serious impact. Anything further on than a week would be progressively worse."

An NBC spokesman said there had been "no interruption in NBC's programming." He added that the network had a big backlog of shows with which to try to ride out a prolonged strike.

One source speculated that if the strike lasts more than 30 days, the TV networks would be forced to make earlier-than-planned forays into their stock of first-run theatrical films and to go shopping for foreign-produced TV shows.

"NBC, CBS, ABC have a large amount of theatrical films which they haven't shown yet," said Lee Isgur, entertainment analyst at Mitchell Hutchins in

As for potential advertiser revenue loss to the networks, Isgur said: "They (the advertisers) don't have too many places to go.

At issue are SAG-AFTRA's joint negotiations for a new three-year contract with the major film studios, the three major TV networks and independent pro-

Negotiations for a new contract began May 19 but broke off June 30, the day the old pact expired. The contract was extended indefinitely, but on July 16, a strike was authorized by a 91 percent vote. Talks did not resume until Thursday.

SAG and AFTRA are seeking a 40 percent increase in minimum scales, which are now \$225 a day and \$785 a week, and 12 percent of the gross revenues from such things as pay TV, video recorders and video discs. The unions say the cost of living has risen 35 percent since the last pact. In 1979, the unions say, almost 90 percent of their members

earned less than \$10,000. The unions also want improved fringe benefits, including the creation of dental and optical plans. Producers have offered an 8.4 percent scale increase in the first year of the contract, but want actors working on original pay TV and other "supplemental market" productions to be paid 80 percent of scale. The producers are willing to pay actors a

balked at the 12 percent sought by the unions. SAG members in TV commercials struck for six weeks in 1978-79. The last film strike was in 1960, led by SAG President Ronald Reagan, now the Republican presidential nominee.

share of their gross receipts for sales of TV shows

and films to the supplemental markets, but have

American flag bearer gets cheers at Olympics

CLEVELAND (AP) - When Daniel Patterson unfurled an American flag in Lenin Stadium at the opening ceremonies of the Moscow Olympics, he was greeted by cheers and applause.

And later when more than a dozen journalists flocked to interview him, he was surprised but

"I guess it's hitting the U.S. pretty big," he said from his Moscow hotel room. "I never imagined

A sailor who works for Bethlehem Steel Corp. on the Great Lakes, Patterson took the flag with him when he left for Moscow on July 3 with a group of Americans.

Stock market gains

NEW YORK (AP) — Stock prices manage d a late gain today after being down for most of the day as President Carter predicted a larger budget deficit and some banks lowered their prime lending rates.

The Carter administration, in a mid-year review, predicted the current fi.scal year deficit will be \$60.9 billion instead of \$36.5 billion. It said the 1981 budget, which was to have 'been' balanced, would show a \$29.8 billion deficit.

Mor gan Guaranty Trust Co., the nation's fifth-largest bank, cut its prime lending rate to 11 percent from 11.5 percent, undercutting the 11.25 percent rate charged by many banks. The cut was matched by Bankers Trust Co., bust most major banks held back. Some analysts think the prime rate will fall to 10 percent or below in the near future.

Livestock

WASHINGTON (AP) - Senate envi.ronmentalists have begun their fight against commercial developnaent in Alaska, one of them arguing that the state's vast wilderness "beongs to all Americans.' "In Alaska, Congress has one great

last chance to do the job" of wilderness protection before miners, drillers, loggers and other developers move in, Sen. Paul Tsongas, the group's leader, said Monday. Tsongas, D-Mass., told colleagues that Congress sees many bills "trying

to undo the mistakes of the past; I tell you it can't be done.' After a day of speeches by friends

and foes of legislation dealing with more than 100 million acres of the nation's largest state, Tsongas today was introducing the first of several amendments he hopes will bring the bill closer to an environmentally stronger House version. He said that version still would

leave room for plenty of develop-But in stark contrast to Tsongas' words, Sen. Mike Gravel, D-Alaska,

said Monday that even the milder restrictions of the current Senate version "do very violent wrong to this great country of ours. Holding back development of al-

most one-third of a state so rich in natural resources "may be the turning point in our economic society,' Gravel said.

process begun

A jury in the Midland-Odessa Division of federal court here was to be selected today in the case of two men who allegedly schemed to bilk Tom Brown Inc. of Midland and Brownley, Wallace, Armstrong & Bander (BWA&B) Oil Co. of Denver, Colo., out of funds by charging "substantially inflated" prices for water used in drilling oil wells in West Texas. Defendants in the case are William

Lawrence of Billings, Mont.

government maintains that Banks from December 1976 to September 1978 contracted Lawrence for furnishing water to certain drilling sites, where the BWA&B was drilling for wells. Banks, the government claims, approved the inflated and fraudulent invoices and received "kickbacks" from Lawrence.

Letters containing "false and fraudulent billings for water hauling" were sent via the U.S. mails to Tom The maximum penalty on each

count of the indictment is a \$1,000 fine and a five-year prison term.

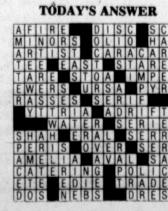

Banks and Lawrence were released under \$100,000 personal recognizance bonds following their indictment last

Andrews man treated for oil field injuries

Twenty-five-year-old William Rogers of Andrews was treated and for the year that showed released for neck and jaw injuries a surplus of \$200 milreceived in an oil field accident short- lion. ly after noon Monday. The accident occurred at 12: 34 p.m.

on a drilling rig owned and operated gressional Budget Office by MGF Drilling Company. The rig is will join in later this located 3/4 of a mile west of County Road 1150 east of Midland. According to a spokesman for MGF

Drilling Company, the man was involved in unlatching a boomer when it struck him under the chin. An ambulance was dispatched and Rogers was taken to Midland Memorial Hospital emergency room. He was released about 4 p.m.

Board will recommend hike in insurance rates

AUSTIN, Texas (AP) - State Insurance Board statisticians will recommend an 18.9 percent average increase Wednesday in private passenger car insurance rates.

If approved by the three-member board, the increase would raise Texans' total premiums by an estimated \$257 million a year.

Board staff members will present their detailed recommendations to

the board Wednesday at the annual automobile insurance hearing. Insurance companies are expected to request an even larger increase. "It looks like the worst in 10 years," said Clint Dare, manager of the Texas

office of the Insurance Information Institute. The board trimmed or avoided rate increases in some past years by tin-

kering with deductibles or the formula for predicting future accident costs from past experience. But board member Lyndon Olson Jr. indicated there was little chance of that this year.

"My expectation has been that we are not going to play games with eople for any political purposes.... If the economy is this bad and the data is this bad and justifies that big a rate increase,...we'll just have to bite the bullet," Olson said Monday.

Rates are based largely upon statistics on the number of insured accidents and the cost of fixing cars, treating the injured and burying the

A driver's premium increase probably will differ from the average because of variables in his or her age, hometown, coverage and usage. Board staff recommendations would raise premiums in all 40 rating territories, with increases ranging from a low of 2.9 percent in Tom Green County (San Angelo) to a high of 25.5 percent in Rockwall County

northeast of Dallas. Statewide average changes recommended by the staff for the various categories of coverage are:

— Basic \$10,000-\$20,000 bodily injury liability, down 1 percent.

Excess limits bodily injury liability, down 14.8 percent. - Basic \$5,000 property damage liability, up 26.7 prcent.

Personal Injury Protection, up 14.9 percent. Medical payments, up 15.1 percent Uninsured motorists, up 23.5 percent.

Fire, theft and miscellaneous, up 27.6 percent. Full coverage comprehensive, up 26.7 percent.

\$50-deductible comprehensive, up 26 percent.

\$200-deductible collisioin, up 19.5 percent. In Texas, the board issues uniform rates but allows companies to deviate from them after proving there will be no danger to an insurer's solvency. Here are the proposed premium increases for typical adult drivers who buy basic liability, \$5,000 Personal Injury Protection, \$200-deductible collision and \$50-deductible comprehensive, by rating territory:

Harris County, \$61. Dallas County, \$56. Bexar County, \$42. Tarrant County, \$52 El Paso County, \$20. Orange County, \$47. Nueces County, \$47. Bowie County, \$45.

WASHINGTON (AP) across-the-board tax cut Despite the fact that it's now likely next year's budget won't be balanced, the House **Budget Committee is** still proposing spending cuts.

The panel Monday sent to the floor a melange of \$10.4 billion in budget cuts and revenue increases for the 1981 bud-At one time, the panel

had been trimming spending to keep the budget for fiscal 1981 in balance. But the White House released figures Monday

forecasting a \$29.8 bil-lion deficit in the fiscal year starting Oct. 1. Last month, Congress approved a target budget House sources predict-

ed Monday that the Conweek with a forecast of 1981 deficit. Rep. Robert N. Giaimo, D-Conn., House Bud-

get Committee chairman, said that despite the projected 1981 deficit, action on the omnibus savings bill, known as reconciliation, was necessary to show that Congress was continuing "the fight against inflation."

The measure won 14-4 approval Vonday and went to the floor. Giaimo also supports

Carter's refusal to propose a tax cut now, saying a cut would be inflationary.

Republican presidential nominee Ronald Reagan has called for an immediate 10 percent Protect your most important assets, your human resources.

Effort to recover 'windfall' cash from Texaco to be announced

The Washington Post

WASHINGTON - An effort to recover a purported \$373 million "windfall" from Texaco Inc. for consumers of natural gas will be announced today by Sen. Howard M. Metzenbaum, D-Ohio, and a coalition of unions and consumer and energy organizations.

They will ask the Federal Energy Regulatory Commission to modify a settlement that has let the oil company retain the windfall, which resulted from Texaco's unlawful diversion of 208 billion cubic feet of gas from public lands to its own use.

The diversion, a violation of the Natural Gas Act, occurred over an 11-year period and deprived interstate customers of the equivalent of a year's supply of gas for 1.7 million homes.

Wrongdoers should not be allowed to profit from their own wrongdoing," Metzenbaum said. "But that is exactly what happened" under the settlement, which was initially approved in 1977 by the Federal Power Commission and made final in 1978 by FERC, its suc-

While Texaco was taking the gas from leased federal lands in offshore Louisiana for its refinery in Port Arthur, Texas, some consumers in many areas of the nation "were literally freezing because this gas was unavailable in the interestate market," Metzenbaum

The agencies ordered Texaco to "pay back" the diverted gas with replacement fuel from non-federal lands, charging the affected interstate pipelines the going national rates.

The settlement became effective after Congress enacted a 1978 law sharply raising gas prices. As a result, Texaco was enabled to sell the "pay back" gas at prices several times higher than had prevailed in the diversion period.

This produced the so-called windfall, which has been put by experts consulted by The Washington Post at \$373 million, but has been estimated by others at between \$300 million and \$400 million.

"FERC has not exhibited any inclination to do anything about it, so our only recourse is to petition to modify this settlement and seek some justice for consumers who have had to foot this bill," Metzenbaum

Under the coalition proposal, FERC would modify the settlement to lower gas bills for millions of consumers by providing the replacement 208 million cubic feet 'at prices low enough to deprive Texaco of the profits resulting from its unlawful diverson.

The coalition includes the United Auto Workers, the United Steelworkers, the International Association of Machinists, the Service Employees International Union, the Citizen-Labor Energy Coalition, the Consumers Energy Council of America, Energy Action, Consumers Union, the Ohio Public Interest Campaign, the New York Sate Consumer Protection Board and. the Office of Consumers' Counsel

Gulf Oil completes well to reopen Wolfcamp production in Crane field

Guif Oil Corp. completed its No. 9-G McElroy Ranch Co. to reopen Wolfcamp production in the Dune, East (Canyon) field of Crane County, eight miles north of Crane.

The reopener completed for a daily flowing potential of 239 barrels of 41.8-gravity oil and 16 barrels of water, with a gas-oil ratio of 1,121-1.

The flow was gauged through a 3/4-inch choke and was from pay behind casing perforations from 7,696 to 7,725 feet which had been acidized with 4,100 gallons

A re-entry of a former Devonian and Ellenburger producer inthe McElroy, North multipay field, the well is 1,980 feet from north and 660 feet from west lines of section 18, block 42, T-5-N, T&P survey. It is at plugged back depth of 7,792 feet. The total depth is 12,256 feet.

Location is 1,980 feet from north and 660 feet from west lines of secton 18, block 42, T-5-N, T&P survey.

Marathon Oil Co. No. 2 Noelke has been completed as a lower Clear Fork discovery in the Noelke multipay fieldof Crockett County, 12 miles southeast

The oprator reported a daily flowing potential of 40 barrels of 40.1-gravity oil and one barrel of water, with a block I, H&TC survey. gas-oil ratio of 1,800-1.

The flow was through a 12/64-inch choke and perforations from 5,846 to .850 feet and 5,854 to 8,860 feet.

Total depth is 6,205 feet and 5.5-inch casing is cemented at 6,002 feet. The following tops were picked on

ground elevation of 2,691 feet: Spraberry, 4,342 feet; Dean, 4,910 feet; Wolfcamp, 4,985 feet, and lower Woldfcamp lime at 5,642 feet.

Location is 2,119 feet from north and 1,650 feet from west lines of sectidon 10, block GG, T&NO survey.

IRION REOPENER

Wolfcamp oil production was reopened in the Sugg-Irion (Wolfcamp and Wichita-Albany oil) pool of Irion-County five miles northwest of Mertzon with completion of John S. Goodrich of Midland No. 1 Van Keuren.

The well finaled for a daily pump ing potential of 11 barrels of 38-gravity oil and 3 barrels of water, through perforations from 6,060 to 6,158 feet after 5,000 gallons of acid.

A re-entry project, the well origi hally was the Clear Fork opener in the Mertzon multipay field. Total depth is 8,171 feet and plugged

back depth is 6,230 feet.

Locaton is 660 feet from south and 1-980 feet from east lines of section 24

TOM GREEN OPENER

Lower Canyon gas production was opened in the R.L.G. field of Tom-Green County with completion of Pro Oil of Dallas No. 1 Glass, 5/8 mile northwest of the pool's Canyon oil discovery

It is three miles west of Miles.

The operator reported a calculated absolute open flow potential of 2,055, 000 cubic feet of gas per day, with a gas-liquid ratio of 132,176-1. Gravity of the condensate is 62 degrees.

Completion was through perforations from 4,082 to 4,104 feet after a 1.500-gallon mud-acid wash.

ground elevation of 1,757 feet: Palo Pinto, 3.912; Canyon, 4,082, and Strawn, 4,280 feet.

4.5-inch casing is set on bottom. Location is 554 feet from south and 467 feet from east lines of L. Halfin survey No. 66 (shows: T&NO No. 66 on

The wellsite is one location south of the depleted Mary Lib (Strawn gas)

New Mexico discoveries announced; field wells potentialed, locations set

Operators have announced discoveries in Chaves and Lea counties in southeast New Mexico, field comdpletions in Chaves, Eddy and Lea, and field locations in Eddy and Lea.

CHAVES OPENER

Yates Petroleum Corp. of Artesia, N.M., No. 1 Iwarowski-Federal 'MM' was completed as an Abo gas discovery 30 miles west of Boaz in Chaves County

The strike potentialed for a daily flow of 360,000 cubic feet of gas. through a 1/4-inch choke and perfora-

tions from 3,404 to 3,456 feet. Total depth is 5,523 feet, and 5.5-

inch casing is set at 5,040 feet The wellsite is eight miles southwest of an undesignated Abo gas opener and 1,780 feet from north and 560 feet from east lines of section 34-6s-24e

Conoco Inc., operating from Mid land completed its No. 5 Wells "B-1" in Lea County to reopen Ellenburger production in the Custer field. The well also was completed as the second Devenian well in the field.

The dual producer completed from the Ellenburger for a daily flow of 3,151,000 cubic feet of gas per day, through a 20/64-inch choke and perforations from 12,456 to 12,826 feet.

· It is 1.5 miles southeast of the original Ellenburger opener.

From the Devonian, it finaled for a daily flow of 5,646,000 cubic feet of gas and 84 barrels of condensate, through a 20/64-inch choke and perforations from 9,756 to 9,776 feet. It is 1 3/4 mile southeast of the field's other Devonian gas-condensate well.

Wellsite is 1,650 feet from north and 660 feet from east lines of section 1-25s-36e and three miles southwest of

CHAVES FIELD WELLS

Fred Pool Drilling Co. of Roswell, N.M., No. 1 Sam has been completed 1/2 mile north of the Chisum, East (San Andres) field of Chaves County, 19 miles northeast of Dexter.

On 24-hour potential test, through San Andres perforations from 2,234 to. 2,270 feet, the well finaled on the pump for 3 barrels of oil, no water. Gravity and gas-oil ratio were not reported.

The pay was acidized with 6,000 gallons.

Total depth is 2,342 feet and 4.5-inch casing is set at 2,340 feet. Wellsite is 330 feet from south and east lines of section 4-11s-28e.

The Sand Ranch (Morrow gas) field of Chaves County gained a new well with completion of MGF Oil Corp. of Midland No. 1 Rutter-Federal.

Operator reported a calculated absolute open flow of 333,000 cubic feet of dry gas per day, through Morrow. perforations from 9,180 to 9,193 feet. The pay was acidized with 2,000 gal-

Total depth is 9,760 feet, 4.5-inch pipe is set one foot off bottom and hole is plugged back to 9,230 feet.

The Morrow was topped at 9,180 feet on ground elevation of 3,974 feet Other tops include the Wolfcamp. 7. 110: Canyon, 8,100, and Strawn, 8,360

Wellsite is 660 feet from south and 1.980 feet from east lines of section

EDDY PRODUCERS

Holly Energy Inc. of Artesia, N.M. No. 1-30 State Communitized has been completed as a long extension to the Empire (Morrow) field of Eddy County, 14 miles west of Loco Hills.

Operator reported a calculated absolute open flow potential of 1,116,000 cubic feet of gas per day, through perforations from 9,761 to 9,783 feet. The gas-liquid ratio is 305-1.

The pay was fractured with 24,000

Total depth is 10,020 feet, 4.5-inch pipe is cemented at 10,014 feet and hole is plugged back to 9,974 feet.

The operator reported the following tops on ground elevation of 3,565 feet: Yats, 253; Queen, 1,086; San Andres 1,800; Glorieta, 3,192; Paddock, 3,360, Drinkard, 4,790; Abo, 5,300; Pennsylvanian, 7,900; Strawn, 8,935, and Atoka, 9,415 feet.

Wellsite is 660 feet from north and 810 feet from east lines of section

J. M. Huber Corp. of Midland No. 1-A Featherstone-McCoy has been

completed in the Yarrow (Delaware) field of Eddy County, seven miles southwest of Otis. Scheduled as a re-entry wildcat, the project finaled for a calculated abso-

lute open flow potential of 911,000 cubic feet of dry gas per day, through Delaware perforations from 2,585 to 2,594 feet. The pay was fractured with 2,436 gallons. Total depth is 2,682 feet and plugged

back depth is 2,638 feet.

The Delaware sand was topped at 1,904 feet on ground elevation of 3,299

Wellsite is 660 feet from north and 835 feet from east lines of section

Yates Petroleum Corp. of Artesia completed its No. 2-EF Federal as a 2 1/8-mile southwest extension to the Permo-Pennsylvanian pay in the Richard Knob multipay field of Eddy

The following tops were called on

The total depth is 4,371 feet, and

The R.L.G field has one Canyon oil COKE EXPLORER

Operator reported a daily flowing potential of 324,000 cubic feet of gas per day, with gravity and gas-liquid ratio unreported. The flow was

Completion was through perforations from 6,306 to 6,495 feet after a 3.000-gallon acid treatment and a 60. 000-gallon fracture job.

The well also completed through Atoka-Morrow perforations from 7,-790 to 6.873 feet for a daily flow of 288,000 cubic feet of gas per day; through a 1/2-inch choke. That zone was acidized with 2,250 gallons. Production will be commingled

Yate Petroleum completed its No. 9 Jackson Estate "BY" as a 1 5/8-mile northwest extension to the Eagle Creek, East (Atoka-Morrow) field of

Eddy County, four miles southwest of The oprator reported a daily flow of 260,000 cubic feet of gas, based on a six-hour flow, through perforations

from 7,824 to 7,852 feet. The zone was fractured with 30,000 gallons Location is 1,980 feet from south

and 990 feet from west lines of section. EDDY FIELD TEST

Wednesday, July 23, 1980 YOUR BIRTHDAY TO-DAY: Those born on this date are optimistic, sincere and hard-working. Changes are in the wind where career is concerned and most of them will work to your advantage. Relatives will provide both happy and troublesome moments, but a child could disappoint if better lines of communication are not developed. In romance, be careful not to mistake sympathy for love! Involvement with someone who does not share your goals, outlook would be a serious mistake. Control temper when dealing with those who oppose you. Sweet reason wins out!

ARIES (March 21-April 19): Meet all obligations, deadlines on times. Any mistakes at earliest opportunity.
TAURUS (April 20-May

20): Go over financial affairs carefully. Handle a sensitive colleague with "kid gloves." Work atmosphere becomes more harmonious. Use leisure time to improve relations with a close relative.

GEMINI (May 21-June 20): Be circumspect about repeating rumors. They could ex-

Lighten walls to make dark rooms larger

By BARBARA HARTUNG Copley News Service

Q. We have small dark rooms in our apartment and old, dark brown vinyl squares on the floor. The vinyl is covered with worn-out carpeting that needs to be removed.

We can do whatever we want to the floors and paint as we like. What might you suggest? We can do the work ourselves if it isn't too difficult.

A. To make small dark rooms seem more attractive and larger you should lighten the walls, ceiling and floor of your apartment-and let in as much natural light as you have. Then add artificial lighting as needed.

Off-white or beige walls immediately look clean and sparkling and provide a neutral background for nearly any color scheme you wish to

For the floor, consider a number of options. If the floor tiles are in good condition and not broken, you could add off-white or beige vinyl squares on to p. The peel and stick variety are available in quite a few colors now and are reasonably easy to install. They are not the heaviest and most durable but they should look fine for a couple of years.

Ariother option might be to lay inexpensive wood planking down on the floor and give it a heavy coat of off-white paint and seal with several coats of polyurethane.

Still a third option is to use carpeting - either peel and stick squares or traditional carpeting which you can find to fit most any budget. If you use the light and neutral colors for your floor and walls, add color and drama to your room with bright and interesting fabrics for upholstery and give attention to dramatic accessories.

Q. We've recently painted our walls an off-vyhite and re-sanded the oak floor so it is a light color. Our furniture includes some rosewood and fruitwood finishes plus a beige velvet striped chair and an oatmeal and beige tweed sofa.

I'd like a rug. What kind and color should we use with so much neutral coloring. I think I might like some bright color. We like rather contemporary things. - W.Y.M.

A. You have almost unlimited choices in the type of rug you might use. You could create a very sophisticated look keeping to a monochromatic scheme of beiges and wood tones by choosing a beige-on-beige rug design. Some are naulti-height piles or others are sculpted to give interesting tex-

Or you could choose a dramatically modern des ign like a shaggy rya rug from Scandinavia with a variety of browns, bei ges and off-whites.

Still another choice might be a brightly colored and patterned red Persian or a more subtly colored Chinese rug in traditionally more subdued designs

Finally, ye tr might consider a technique used frequently by interior designers: choose one carpeting color for a rug-size piece and have a border of a contrasting carpeting bound to the edges. This allows the coordination of colors in the room and can be a relatively inexpensive way to create a custom look if you choose medium to low priced carpeting. The edges then need to be bo und for a finished look.

Office plants need attention

STREAMWOOD, Ill. (AP) - The best plants for an office must withstand neglect and not take up large amounts of space on cluttered desks or in walkways

Office hazards to consider when selecting plants include poor lighting, lack of air circulation, and drafts from air condit ioning.

Dick Husby, marketing manager of Garden Scene planterware, says plastic pots are good containers for office plants, because they retain moisture longer than other pots. Also, plastic pots have a variety of colors and shapes to blend with office

After years of being shut-ins, elderly now count on 'social' visits

Swazey, also of Boston University. Its

professional homemaker to come weekly to help with household

This is not how most hospitals approach medical care. But at Daroff, community service is regarded not only as decent policy, but as a way to prove that it deserves to survive.

A program to replace its building, built around 1920, will be considered in the next few months by the Health Systems 'Agency of Southeastern

Pennsylvania, a regional planning agency. Then a committee of HSA board members will decide the fate of the hospital sometime in the fall.

IT IS BECAUSE the outlook to Daroff seemed dim a few years ago that hospital officials sought ways to improve. Daroff had difficulty recruiting doctors and nurses and was considered the poor stepsister of the Einstein hospital's Northern Division, which has much more sophisticated technology, a teaching program, and is in better shape financially.

About four years ago Daroff hired consultants who "undertook a very intensive analysis of our role to determine our reason for being," said Warren Green, the hospital's admin-

The consultants decided communi-

ty service was the answer. The result is a staff of 12 social workers, about three times the size of such staffs at comparable hospitals, said Joanne Schwartz, director of community service.

The hospital's program includes a cardiac rehabilitation program of exercise and group therapy to help heart patients; a psychiatric depart-ment with a 58-bed in-patient unit and an out-patient day hospital that handled 18,900 visits last year; a work rehabilitation program for alcohol and drug patients; and the isolated elderly program involving about 550

"Until we actually got out there, a lot of people weren't known to agen-cies — only if the people picked them-selves up and called for help," said Norma Rotman, who supervised the two-year search for the isolated senior citizens.

"If they did not call, nobody looked for them," she added.

findings were reported in this week's issue of the Journal of the American Medical Association.

More than 2,200 people over a fiveyear period were asked why they were going to genetic counseling sessions, then asked after the sessions whether their concerns had been satisfactorily discussed.

The study found that couples attend counseling to obtain a variety of information, such as a diagnosis for one child or one member of the couple, the prognosis for a birth defect in an

Couple honored with lawn party

those studied knew the correct diagnosis and 50 percent knew the risk very accurately, the researchers found. But many people also had questions that were not medical in nature, such

as the cost of raising a child with a

birth defect, the availability of special schooling for an affected child or how to handle their negative emotions about the child. The study said those questions were discussed less frequently than medical topics and that counselors "were

not making a lot of use of auxiliary psychologists and social workers,' Sorenson said. However, there are differences among pediatricians as to whether they should discuss non-medical

topics at genetic counseling sessions. "I believe it is perfectly reasonable for a genetic counselor to deal with these emotional problems and a good counselor can bring them out," said Dr. Henry Nadler of the Northwestern University Medical School in Chi-

DEAR ABBY

Whole country's gone to dogs barking

By ABIGAIL VAN BUREN

DEAR ABBY: Concerning your advice to the Richmond man who asked what could be done about barking dogs: Calling the police won't work. A barking dog was driving me crazy. night and day, so I called th police. An officer came to my house and told me there was nothing I could do about it. He then suggested I simply trap or shoot it. Personally, I don't think it's very sporting to hunt domesticated animals, so what's my next move? -PERPLEXED IN PLAINVILLE

P.S. Abby, Plainville, Kan., has a population of about 3,000, and there's an ordinance here against discharging firearms insde the city limits, where I live.

DEAR ABBY: If you want peace and quiet, away from the noise of barking dogs, don't move to Bel Air, Calif. They will investigate your complaint by coming out to see if the dog is being neglected or abused in any

Ms. Krist honored

ton, formerly of Midland, and the granddaughter of Mr. and Mrs. Harry

Ms. Krist and Bruce Young of

Omaha, Neb., will be married Aug. 9

with bridal coffee

way. And if it is, they will help the dog property and has trained his dog to and fine the owner! - NO DOG LOVER

DEAR ABBY: Your answer to the Richmond, Va., man whose peace was disturbed by barking dogs wasn't worth much.

"Call the police" you say. Really now, Abby, I don't know where you live, but here in Santa Rosa, the police will do nothing. Believe me, I know. We've been forced to move twice because of barking dogs - San Francisco and once in Mayward. I've called the police, the Humane Society. Animal Control and the SPCA, and learned that dogs have more rights than people. - CALIF. DOG

DEAR ABBY: You are naive when it comes to trying to get relief from the barking dogs by calling your police department. We had that problem. I called the police and they refused to come out. I called my lawyer and even my county prosecutor. I was informed by both that there is no law about barking dogs. If a PERSON disturbs the peace or creates a nuisance, the police will come out, but they won't come out for a complaint gainst a dog unless it has bitten someone

At first I talked nicely to the dog nastily to him. He vandalized my

bark whenever he sees me. - HELI IN ERIE, OHIO DEAR ABBY: I'd like to stick in my

two cents worth concerning one of the most frustrating of all frustrations barking dogs. I seem to recall that a few years ago, Johnny Carson was going crazy because one of his neighbors had a couple of dogs who took to barking late at night and early in the morning. I think Johnny said he asked his neighbors in a nce way to please keep their dogs quiet, but the dogs kept on barking, so Johnny took his neighbor to court. If I'm not mistaken, I think Carson lost the case. So, if Johnny Carson with all his clout can't get anywhere, that poor guy dow in Richmond, Va., doesn't have a prayer. — INSOMNIAC IN LONG

DEAR INSOMNIAC: A few years ago, Johnny Carson DID have trouble with a neighbor's barking dogs, but the case never went to trial. A ruling was handed down that either the owners of the barking dogs had to keep them indoors at night and during the early morning hours when the prolonged barking took place or hire a trainer to keep the dogs under control. Since nothing further has been heard from Carson, I assume that owner. That didn't work, so I talked nothing further was heard from the

DEATHS John B. Lallande

John B. Lallande, 64, of 2901 Aurora ane, died Sunday in a Tulsa, Okla., ospital following a heart attack. He was in Tulsa on business when he ecame ill.

Rosary was recited at 7:30 p.m. Monday in the Newnie W. Ellis Funeral Home Chapel. Mass was to be said at 3 p.m. Tuesday in St. Ann's Catho-lic Church with the Rev. Clifford Blackburn, pastor, officiating.

Burial was to be in Resthaven Me-

morial Park. Lallande was born Feb. 7, 1916, in New Iberia, La., and grew up there. He was graduated from Louisiana State University with a degree in forestry. He went to work for The Texas Co. - Texaco - in 1943 and worked for the major oil company for 23 years. In 1966, he joined Williams Brothers Engineering Co.

He was married to Rubye Wilkes on March 2, 1940, in Jackson, Miss., and moved to Midland in 1959 from Fort

He was a member of St. Ann's Catholic Church and was a member of the Knights of Columbus.

Survivors include his wife; a son, John B. Lallande of Topeka, Kan.; two daughters, Denise Brown and Annette Lallande, both of Midland; three brothers, Louis Lallande and George Lallande, both of New Iberia, a., and Joseph Lallande of Atlanta, Ga.; four sisters, Aline Bonin of Lafavette, La., Lorraine de Gravelle of Jeanerette, La., and Gladys Sealy and Mary Alice Lellande, both of New beria, La.; and six grandchildren.

Geneva Lee

BIG SPRING - Services for Mrs. lobert (Geneva) Lee, 71, of Big pring were held Saturday in Nalleyickle Funeral Home with the Rev. ob Ford of Midland officiating.

Graveside services were held Sunlay in the San Saba Cemetery with he Rev. Melvin Williams officiating. She died Thursday in a Big Spring

ursing home. Survivors include two sons, Bobby e Berryman of Big Spring and Billy toyce Berryman of Littleton, Colo., nd formerly of Midland; a daughter, ohnnie Sue Spargo of Littleton; and wo grandchildren.

Bessie Mansell

Mrs. T.W. (Bessie M.) Mansell, 74, 1501 S. Loraine St., died Sunday in a Midland hospital after a brief ill-

Services were to be at 10 a.m. today in the Newnie W. Ellis Funeral Home chapel with B.J. Armstrong of Odessa officiating. Burial was to be at 2 p.m. Tuesday in Cedar Hill Cemetery at Abilene.

Mrs. Mansell was born Aug. 12, 1905, in Grand Prairie. As an infant she moved to Westbrook in Mitchell County. She was married to Thomas W. Mansell in Abilene. They lived in Abilene from 1928 to 1947 when they moved to Midland.

Survivors include her husband; five sisters, Ethel Lightfoot, Adeline Widner and Zelda Armstrong, all of Abilene, Myrtle Cline of Odessa and Mildred Gibson of Joshua.

Pallbearers will be A. Brooks, M.E. George, S. Thornhill, J.G. McLeroy, V. Casbeer and C. Richardson.

Honorary pallbearer will be S. Cox. L. Adams and W. Blankenship.

'Don' Russell

D.R. "Don" Russell, 25, of rural Midland died Sunday from injuries suffered in an auto accident.

Services are pending at the Mabene Allen Funeral Home in Abilene. Local arrangements were handled by Newnie W. Ellis Funeral Home.

Russell was born April 22, 1955, in St. Joseph, Mo. He was reared in Kansas City, Mo., and then moved to Chicago, Ill., for several years. He had lived in Midland off and on for four years. He was formerly employed by Allen & Sons Welding Co. for two years. He was a Catholic.

Survivors include his parents, Mrs. and Mrs. Pastel Thomason of Clyde; four brothers, James C. Russell of Marion, Va., Mike G. Russell of Midland, Phillip R. Russell of Amarillo, and John M. Russell of Abilene; a sister, Patricia M. Williams of Kansas City, Mo.; his grandfather, Joseph T. Miller of St. Joseph, Mo.; and

0 more executed, 4 others sentenced to die in Iran trial

By The Associated Press

Supporters of Ayatollah tuhollah Khomeini attacked the Tehran office of Iran's communist party, shouting "Death to Russia" and "Long Live Afghanistan." Meanwhile, 10 more executions were reported, and four more officers were entenced to die for the military plot against Khomeini.

About 200 young Iranians scaled the wall around the offices of the pro-Moscow communist Tudeh Party on Monday, smashed furniture and windows and occupied the building. Apparently no one was hurt, witnesses

The attack followed a strong anti-communist ad-dress by Hojatoleslam Hadi Ghafari, a member of Iran' new Parliament who supports Khomeini's campaign to purge Iranian life of Marxist influences and build a society along strictly

Islamic lines.

The number of executions
Sunday and Monday rose to
15 as the official Pars news agency reported six "counter-revolutionaries" were put to death in Dezfoul. south of Tehran, for importing arms, unauthorized crossing into Iraq, armed resistance, maintaining links with subversive groups and bombing rail-way crossings and oil pipe-

Pars also reported an anti-Khomeini terrorist was executed in Tehran for bombing a school and three drug smugglers were shot by a firing squad in Uru-miyeh, in northwestern

Iran.
The Tehran newspaper
Enghlab Eslami said four nore military officers were

sentenced to death after being convicted of taking part in the big anti-Khomeini plot reported last

It was the second trial of persons accused of taking part in the conspiracy. Five officers were executed Sun-

At least 500 people have been reported under arrest in connection with the plot. Today was the 262nd day

in captivity for the 52 American hostages, and the U.S. State Department said the Iranian prosecutor-gen-eral's office claimed it has no record showing the revolutionary government was holding a 53rd American, free-lance journalist Cynth-ia Dwyer of Buffalo, N.Y. But officials in Washington said the department still believes she is held in Iran and has asked urgently for clari-

Mrs. Dwyer was arrested May 5, and the Iranian For-Ministry confirmed four days later that she as saying.

was being held. State Department officials said it was possible she was being held by one of the vigilantestyle Islamic courts which mushroomed after the overthrow of Shah Mohammad Reza Pahlavi.

"It's distressing, but we have to hope she'll turn up," said Mrs. Dwyer's husband, John, an English professor at the State University of New York. The couple have

three children. Iran's deputy minister for national guidance, Behzad Nia, told the newspaper Kayhan Monday that the Watch Tower, apparently the Tehran headquarters of the Jehovah's Witnesses, had been closed and three American missionaries ex-

pelled from the country.
"While talking to these people and in subsequent investigations, we found out that these people were tak-ing a lot of currency out of the country and they had contacts with foreign news networks," he was quoted

eaders seek blockade to stop junta

LA PAZ, Bolivia (AP) Bolivian political and labor leaders called today for an international economic blockade to help bring down the military junta that overthrew the civilian gov-

ernment last week. The Committee for the Defense of Democracy, in a statement distributed secretly to embassies, accused Gen. Luis Garcia Meza's forces of executing opponents and dumping their bodies in common graves; arresting or driving into hiding hundreds of politicians and union leaders, depriving Bolivians of all but official versions of the news and censoring reports by foreign correspondents.

The military regime has admitted only two dead since the coup last Thursday coup and has refused to say how many persons have been arrested. Reliable sources have reported at least four additional fatali-The committee,
