The dominant figure in the six tapes

heard Monday was Joseph Hauser,

the FBI informant who operated a

executed the conspiracy.

The Monday tapes involved Hauser's activities in Texas from Aug. 14 through Oct. 2, just a month before Hauser and Moore met with Clayton. Included were early meetings with Moore and other labor officials and his first meeting with defendants Wood and Ray, who briefed him on the state employee insurance program.

O'Conor reluctantly ordered the tapes be played after Woods objected to the use of transcripts, which he said included inaccuracies and did not reflect "the manner" in which words were spoken.

Prosecutors have submitted transcripts of more than 100 tapes to the One defense attorney said the tapes

represent hundreds of hours of sometimes-unintelligible conversations but Woods said they are the only evidence in the case. The Monday tapes began with

Hauser meeting Harold Grubbs, education director of a Pipe Fitters Union management-union apprenticeship program committee. It was Grubbs who introduced

Hauser to Moore in a Houston hotel room on Aug. 30. After Moore departed, Grubbs was quoted as telling Hauser that Moore will do "whatever we demand." During a Sept. 20 meeting, also in Houston, the voice identified as Moore

told Hauer during a discussion of the state insurance contract that Wood and Ray had told him "you're good friend with the speaker. Said you get a commitment out of the speaker." Hauser then told Moore he was

ready to make a commitment, "We could lay 25 to 50 on the speaker easy."
Moore later said he would arrange a

breakfast meeting with Clayton.

... I can cut a deal with him," Moore said. "I can say, look Billy, you get this deal and you get this, OK?"
Hauser: "Beautiful."

A poor quality tape of Sept. 21 had Hauser telephoning Moore in Houston from Albuquerque. Moore said he had talked with Clayton by telephone "and am going to set up a meeting between you, the speaker and my-

# Pole workers reject return-to-work plea

GDANSK, Poland (AP) - Helicopters airlifted police reinforcements to this strikebound region of northern Poland, sources said today, as angry workers rejected Communist Party chief Edward Gierek's back-to-work appeal and promise of pay raises.

Poland's head of state Henryk Jab-

lonski today called the strike an "action against the interest of the party, nation and state," Gdansk radio re-

ported.

"This we cannot accept," he was quoted as saying. "What is at stake is the law and order in this country—and something even bigger: Poland, the fate of the nation."

Jacek Kuron, the leader of the dis-sident Committee for Social Self-Defense, told reporters in Warsaw that helicopters flew more police to the Baltic coast industrial area around Gdansk, where the strike wave began last Thursday in protest against the government's decisions to raise meat

Diplomatic sources also reported police reinforcements arriving in the strike area, and said they were dispatched after striking Gdansk ship-yard workers rejected an ultimatum from the local Communist Party chief, Tadeusz Fiszbach, to leave the

yards by 4 p.m. Monday.

By late Monday night, the government had still made no attempt to end the strike by the use of force. But the local party committee said in a com-munique early today "decisive repul-sion must be taken" because the striking workers had been joined by 'anti-socialist elements ... whose objective is to create chaos and distur-

With dissident sources reporting more than 100,000 workers on strike at 150 plants in the neighboring cities of Gdansk, Gdynia and Sopot, the na-tion's 67-year-old party boss told the workers in a nationally televised address they would be given pay raises "spread out over a period of time," but "there are limits that must not be

overstepped by anyone."
He rejected the strikers' demands for sweeping liberalizations in the country's communist system, saying Poland "can be a free and independent state with inviolable frontiers" only through socialism, an obvious reference to the possibility of Soviet military intervention if the commu-

nist system was endangered.
"Actions that are aimed against the basic foundations of the socialist system will not be tolerated - and nobody can count on compromise on this issue," said Gierek. "If there is no internal peace, all other matters will lose their meaning. ... Let this truth be present in the minds of every Polish woman and man."

"He acts as if he were talking to children. The speech doesn't change anything," said Anna Walentinowicz. one of the strike organizers at Gdansk's giant V.I. Lenin Shipyard, the center of the strike movement.

"He says we just want money. He does not say anything about how we say we want our rights," said another striker, identifying himself only as

"We have nothing to lose. I have six children and I am risking a lot here. But we do not care," said Lech Wale-sa, a leader of the strike committee named to negotiate with the govern-

He and the others said they would not abandon their demands for free trade unions, an end to censorship,

release of political prisoners and other political reforms as well as an increase in average monthly wages from \$170 to \$236 to offset the in-creases in the price of meat that took effect July 1.

Gierek's speech was broadcast over loudspeakers at the shipyard's administrative building. Just before he went on the air, thousands of workers and their families gathered in front of the shipyard gate, said prayers, and sang the hymn "God Save Poland."

The strikers festooned the steel gates with hundreds of flowers, a picture of Polish-born Pope John Paul II and portraits of Our Lady of Czestochowa, revered by Polish Catholics as the inspiration for resistance to 17th century Swedish invaders.

# Cities urged to sue over census counts

AUSTIN (AP) - The director of the Texas Municipal League says the 1980 census really is about "who will con-trol Congress" and Texas cities should sue if necessary to assure an accurate count.

'We should take whatever legal action is necessary to receive our collective due," Dick Brown said Monday at a meeting of Gov. Bill Clements' Mayors Council. A major area of concern is the count

of illegal aliens, and Brown said every 450,000 illegal aliens "means one congressman" for Texas. "Our collective interest is in seeing

that Texas receives maximum leverage in Washington," Brown said. Mayors and city officials at the meeting almost uniformly complained of undercounts and said excessive "vacancy rates" reported by

Lila Cockrell, mayor of San Anto-nio, said her city would decide this week whether to sue to force the Census Bureau to keep its San Anto-

nio offices open until an accurate count is completed. She said San Antonio was undercounted by 100,000 - enough to warrant a state representative in next year's redistricting — yet the Census Bureau wants to close its offices there

by Aug. 25. The census is in its "Follow-up Two" phase in which census takers are trying to find the people they

missed April 1. Vic Arnold of Clements' office said the state would help any city that wants to protest.

Bernie Peterson, chief of the Houston city planning department's re-search division, said the Census Bureau's 11.3 percent vacancy rate for Houston was "absurd." He said Houston Lighting & Power records show only 4 percent of the housing units are

Peterson said Houston was under-counted by 300,000 but that would be corrected if the bureau accurately counts people living in houses deemed to be vacant or "unclassified."

Mayor Judy Flanders of Borger said she had heard the Census Bureau was classifying as "vacant" houses

was classifying as "vacant" houses with incomplete census forms.

Some people refused to answer some questions because "they felt it was none of the government's business "she said."

"People are practically fighting for houses (in Borger) yet they showed us as having 500 vacancies," Mayor Flanders said.

Others reporting excessive "vacan-cy rates" included Dallas, Fort

Worth, San Antonio, Houston, Tyler, Irving, Harlingen and San Benito.
Secretary of State George Strake, who presided over the meeting, instructed Arnold to verify the report about recording houses with incomplete questionnaires as "vacant."

Frank Sturzl, assistant director of the municipal league, said if Houston might be the fourth largest city in the nation, with 1.7 million people, if it is counted accurately.

# Jack Anderson thought Iran invasion would fail

CHICAGO (AP) — Syndicated col-umnist Jack Anderson says he reached the "anguishing" decision to disclose the details of an alleged U.S. plan to invade Iran because he is convinced the mission would fail. Because of the political nature of

this plan, because it almost certainly would not succeed, I decided to expose it," he said in a speech Monday Anderson has reported that Presi-

dent Carter is planning a military

Tehran because his ratings had slipped in the public-opinion polls.
That effort was aborted because of helicopter failure, and eight soldiers died in an aircraft collision during the withdrawal from the Iranian desert.

attempt of the American hostages in

The columnist noted that Carter's standing in the polls has dropped again and said the president has ordered plans be prepared for the "limited invasion" because "it just comes naturally to him to react politic-

However, Anderson said unidentified experts believe the plan — which he did not describe in detail during his speech - would fail. He said it was only because these experts believe the plan is flawed and that Carter's motivation is political that he and his staff were able to learn details of the alleged mission

We would have a very difficult

time carrying this (mission) out," and for that reason, he said, he decided to publish his findings. "I can assure you it was an anguishing decision," Anderson added. "I don't think newsmen should pry into military secrets as except in a provided in the same and th crets except in special circum-

Anderson said that while Carter has not actually "ordered" the invasion, "he has started preparations for a limited invasion of Iran" and that one "control point" in the operation al-ready has passed. He said a final decision whether to carry out the plan will not be made until two more "control points" are passed.

Anderson said one thing that would make another rescue attempt very difficult is that many of the hostage were removed from the occupied U.S. Embassy and taken to other locations in Iran as a result of the aborted

## Newborn panda apparently smothered by its own mama

to head GOP drive

MEXICO CITY (AP) - The first giant panda born in captivity outside China was apparently smothered by its mother eight days after its birth, but the director of Mexico City's Chapultepec Zoo hopes the parents will try again next

Zoo director John Schoch said keepers discovered early Monday that the tiny cub had been dead for several hours. He said it was believed Ying Ying, the mother, accidentally suffocated it.

"It may have been because this was Ying Ying's first baby and she didn't know what to do," he told a news conference.

He said one of the three panda keepers noticed the mother was holding the cub

in an awkward position and licking the body. The keeper tried to revive the baby, but it apparently had been dead for several hours, the director said. The cub weighed three ounces and was three inches long when it was born Aug. 10, but Schoch said these dimensions tripled during its brief life. The zoo's veterinarians were afraid to examine it while it was alive, fearing the mother might harm it, so its sex had not been determined.

Senators Lloyd Bentsen and John Tower of Texas and U.S. Rep. Kent Hance of Lubbock all declined comment this morning on the Jack Anderson column. Press aides in the various offices noted that the Washington Post is not carrying the col-umns by Anderson this week. A press aide in one of the offices noted that since the incident involves

national security, most members of Congress apparently are not willing to discuss it.

In other offices, press aides claimed the officials had not read the columns and therefore could not comment on them.

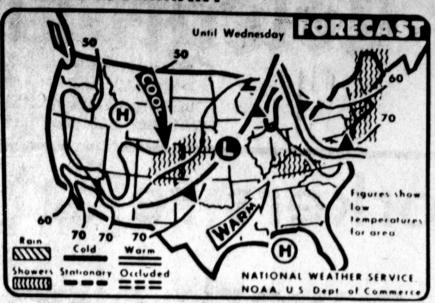

operation aimed at freeing the U.S. hostages in mid-October, timed for maximum advantage in his re-election campaign against Ronald Reagan and John B. Anderson.

The White House and Defense Secretary Harld Brown have flatly denied the allegation, and the White House labeled the story "grotesque" and "irresponsible." Several newspapers that normally carry Anderson's column, including the Washington Post, the New York Daily News and the Atlanta Constitution, did not run the column Monday.

In his speech, Anderson claimed Carter ordered last April's rescue

#### Texas area forecasts

North Texas: Partly cloudy hot with widely scattered thunderstorms extreme west through Wednesday. Highs near 101 west to mid 90s southeast. Lows 70s.

South Texas: Partly cloudy and hot through Wednesday with widely scattered thundershowers northwest. Highs 90s. Lows 70s.

West Texas: Partly cloudy and hot through Wednes-day with widely scattered thunderstorms most sections. Locally heavy rain possible south this afternoon and tonight. Highs 85 to 98. Lows 64 to 74.

Port Arthur to Port O'Connor: Southerly winds near 15 knots through Wednesday. Seas 3 to 5 feet.

### Port O'Conner to Brownsville: Southeast winds 15 to 20 knots through Wednesday. Higher gusts near shore. Seas 4 to 6 feet. A few thundershowers.

# Rain back in forecast

Mother Nature must be trying to make up for all those months she forgot about watering this part of the

After several months of hardly a cloud in the sky, thunderstorms have been looming overhead for the past several days. And rain is back in the forecast.

According to the weatherman with the National Weather Service at Midland Regional Airport, Midlanders have a 30 percent chance of thunderstorms tonight. And that rain could mean some local flooding.

The chance of rain will drop to 20 percent for Wednesday, the weatherman said.

The forecast also calls for partly cloudy skies with no important temperature change through Wednes-

High Monday was 90 degrees, a cool day compared to the same day in 1970 when the record high of 102 was reported. Overnight low today of 71 degrees was warmer than the record low of 60 degrees set in 1950.

Widely scattered thunderstorms were forecast for the western half of Texas today.

Forecasteers warned of the possibility of locally heavy rain in Southwest Texas where rainfall amounts between 1 and 2 inches were reported during the pre-dawn hours.

The remainder of the state was to have partly cloudy skies and hot temperatures.

Highs were to be mostly in the 90s and range from the middle 80s in Southwest Texas to near 101 North

## Police busy investigating home burglary, vandalism

A north Midland home that was burglarized and vandalized to the tune of \$20,000 is keeping Midland police busy today.

Burglars apparently went through a house at 3511 Stanolind destroying everything in sight - more in fact, than was actually stolen, according to police this morning.

The incident occurred sometime between noon Aug. 13 and 6 p.m. Monday, Billy Carr called police Monday evening. Investigating offi-cers arrived to find numerous items missing and tables, lamps, chairs and other household items destroyed.

Vandalism damage and value of the missing items was estimated at \$20,-

Taken were a jewelry box, tie tac with a ruby, container holding \$20 in change, 12-piece set of silverware, portable television, suitcase, cloth-ing, three cases of beer, two silver trays, a set of crystal glasses, a diamond woman's wedding band, set of black pearl earrings, gold woman's chain, a late son's medals, .270-caliber rifle and scope, 30.06-caliber Army rifle, 20-gauge shotgun, .22-cali-ber rifle, case of scotch, case of vodka, case of Seagrams 7, and a

e found a gold pendant, neck-

lace and a spoon in the alley behind the house.

In other news, a Midland man was treated for a cut arm he received while putting out a house fire Monday night. Firefighters were dispatched at 5:04 p.m., but found the fire out on arrival. Jimmy Hawkins, who apparently cut his arm when he broke a window to extinguish the blaze, was taken to Midland Memorial Hospital emergency room. He was treated and released.

According to Fire Department reports, a water heater had been the cause of the alarm. The closet housing the heater received light damage in

the fire. Another Midland man was slightly injured in a traffic accident Monday

afternoon The accident occurred at 4:55 p.m. at the intersection of Front and Lee streets.

According to police reports, Frank Williams, 602 N. Jefferson St., was southbound on Lee. June Cacaze Capps, P.O. Box 2496, was eastbound on Front. The two vehicles collided at the intersection, injuring Williams. He was not treated at Midland Memo-

Five people were transported by CFD ambulance.

#### iet gangs harass immigrant countrymen By JACKIE HYMAN Associated Press Writer

LOS ANGELES (AP) - When the six young Vietnamese men ate and left without paying, the restaurant owner — also from Vietnam — decided to keep quiet.

But the six returned with clubs and knives, taking \$400 from the cash register and hitting a worker over the head with a hammer.

The owner told police he feared gang retaliation, but enough was enough. With his help, four adults and two juveniles were arrested, said Sgt. Bruce Beauchamp of Garden Grove, the suburb where the incident oc-

"We have not had that many reports of gang activity," he said. "Whether it's because the people in the community are hestitant to talk with us, we're not positive."

Garden Grove is in Orange County, which has an Indochinese population officially estimated at 18,000 and unofficially put at 35,000. Its neighbor to the north, Los Angeles County, has an estimated 110,000 Indochinese resi-

In both counties, police and Vietnamese community members other Indochinese minorities apparently aren't involved - report gang activity but differ on how serious the problem is.

Although no one claims to know how

many gangs there are, all agree on the groups' characteristics: They are composed of single men, 19 to 25 years old, many with training as Vietnam-

The gangs wear no uniforms and are loosely organized around older, more sophisticated leaders. They tend more to extorting "protection" money from businesses than gang wars. And rather than claiming a 'turf,' a gang may draw members from both counties.

The gangs operate where Indochinese-Americans live, chiefly central Orange County from Westminster to Anaheim. In Los Angeles, the gangs frequent Chinatown, where Vietnam-ese of ethnic Chinese descent sometimes fight with Chinese gangs.

The gangs dislike publicity and have threatened those who talk to reporters about them. But several Vietnamese who asked not to be quoted by name said they feared losing effectiveness with gang members rather than retaliation. The gangs' names are descriptive, including the Luns, "short" in Viet-

namese, made up of members who are short in stature; and the Frogmen, whose members are reputedly former Vietnamese Army underwater demolition experts.

"They are not well-organized," said Joe Marcel of the Indochina Social Service Project in Los Angeles. "They have been dumped in a different culture suddenly.

Those who are used to living with violence in the war, they feel de-pressed, they think 'It's too difficult for me, I don't want to adjust."

Marcel, a Vietnamese who adopted a French name while living in Paris, said gang members are motivated by loneliness and depression. He noted traditional Vietnamese girls don't date, and finding other women can be difficult because the Vietnamese are short, often have language problems and lack status because they are refu-

He and police agree the Vietnamese gangs cause trouble only for fellow refugees, not others who couldn't un-derstand their limited English and who would likely call police.

Gang members rarely become as violent as in the restaurant incident, except for an occasional "demonstration" to show they mean business, Marcel said.

But Detective Joe Bryan of Anaheim said he has heard of retaliatory beatings. And on one occasion, he said, violence was averted only because police were sent to a party after they learned rival gangs would at-

Bryan said some gangs reportedly take thousands of dollars from families anxious to bring relatives from Southeast Asia. The gangs later report their efforts failed, although they spent the money; in reality, they

never made any effort at all.
"If nothing changes, one day they

After ma

crime figu

prison lifes

are at it a

adventur

PG

DZI.

could become dangerous because they do have experience with vio-lence," warned Marcel. "They are very well-trained as soldiers."

And Bryan said police have trouble gaining the confidence of the Vietnamese community, adding: "It's a subtle culture. We probably will never get a handle on it, not in this generation.'

Randy Quan of the Los Angeles Police Department's Asian Task Force said police use Chinese officers to prosecute Chinese and Vietnamese-Chinese gangs. "They say things (threats) that are very subtle," he said. "If it's literally translated in a court of law, it doesn't mean the same

There is a danger, officials said, that the gangs may join organized crime. But many believe the gangs will disappear as members find a contructive place in society.

"I have the feeling that they (gangs) will be phased out," Marcel said. "The more training programs we have, the less problems we have. I don't see them as a bad part of so-ciety, but they are too active and don't have enough to do.

"If we approach them right, they could make a good contribution to this country. They are young, they have energy. They need to learn to use that

# Hot spot gets all the business

GILA BEND, Ariz. (AP) - Television weathermen often give Gila Bend the business about being one the nation's hottest communities, but

some local merchants say that's good for their business. Temperatures generally range over 90 during every month of the year and in August, the average daily high is 107. There's so little rain that the official town rain gauge is often covered with cobwebs.

"Sure, it gets hot here," said Bill Henry, a resident for 30 years and owner of an automobile radiator shop. "Business has been good. "Our reputation as the hottest place has been good advertising," he said. "But it hasn't been as hot as it used to be. I remember a lot of

consecutive 120-degree days, but not anymore. Gila Bend, a town of about 1,700 residents located midway between Tucson and Yuma on Interstate 8, has taken more than its share of ridicule over the years.

"I've got calls from people around the country who say, 'My God, how can you people live down there?" said H.K. Conrad, a police dispatcher who documents the official daily temperature for the National Weather

Each day at 4 p.m., Conrad walks out the back door of the tiny police station to a small, white box and reads the mercury. Then he checks a rain gauge, which on a recent day was bone dry and covered with cobwebs.

"I know there ain't no use in doing this, but it's part of the job," he said. On Sunday, the high was 108 and the low was 68. Ken Crockett, a bank manager, moved to Gila Bend eight months ago and immediately was made president of the Gila Bend Chamber of

Commerce "I think basically, people here ignore the town's reputation of being the nation's hottest place," Crockett said. "It's the people who make the town. I enjoy going to the post office and knowing everyone there." Crockett's father recently visited Gila Bend. A smile formed on

#### Woman gets life School provides alternative to jail in skillet murder

TITUSVILLE, Fla. (AP) - A 35year-old woman has been sentenced to life imprisonment for her part in the slaying of her former employer, who was beaten to death with a frying

Janice Gould pleaded guilty and was sentenced Monday, becoming the third woman to plead guilty or be convicted in the March 28 slaying of optometrist John Bradford.

Bradford's widow, Priscilla, 36, pleaded guilty to murder charges Aug. 4 and was sentenced to life imprisonment. Joyce Cummings, 18, was convicted by a Seminole County jury last week, but has not been sen-

"They will see the turn of the century behind bars," said Assistant State Attorney Doug Cheshire.

Miss Gould is not eligible for parole for 25 years. In exchange for her guilty plea, the state dropped charges of conspiracy to commit premeditated murder and of conspiracy and solicitation to murder trial witness Tracy Smith. Mrs. Bradford said she enlisted the

other two women's help to ambush her husband. They lured him into the kitchen to look at "beautiful steaks" and pummeled him until he suffocated in his own blood, prosecutors said.

Bradford was beaten to death with a cast-iron frying pan, apothecary jars, a bottle capper and a bar stool, they said.

A key prosecution witness has been Mrs. Bradford's 14-year-old daughter by a previous marriage, Eden. She said the women had planned for weeks to kill her stepfather and posted her as a lookout the night he was beaten. The three women all were employ-

ees at United Optical Laboratories, Bradford's eyeglass manufacturing

'We steal from them and keep

elected president. Earlier, Reagan's chief foreign policy adviser, Richard Allen, said the Republican presidential nominee "has no intention of turning back the clock" by trying to restore a "two Chinas" policy. Allen said that Rea-

gan, despite some apparent confusion in previous statements, did not advocate a resumption of official U.S. ties with Taiwan. Peking's official Xinhua news agency quoted Reagan as telling Bush on

his departure from Los Angeles on Sunday that he favored official relations with Taiwan. "Look, I've lived in China," said Bush, head of the U.S. diplomatic liason office in Peking in 1973-74. He

spoke at a news conference here on the eve of his departure for China. "I've read the newspapers and stories like that, and it doesn't concern me. I will have a good exchange of views with the Chinese officials.

"Governor Reagan's policy, they will be pleased to learn, is eminently sensible, and continued good relations with the People's Republic of China are a part of it."

Asked whether Reagan was advo-cating a "two Chinas" policy, Bush replied "No. That should have been

He said the Taiwan Relations Act, passed by Congress after the restoration of ties with Peking, "controls" a president's powers and specifies that relations with the island of Taiwan will be "non-governmental."

Earlier, Reagan adviser Allen told a foreign correspondents' club lun-cheon in Tokyo, "We do not advocate establishment of government-to-gov-

ernment relations on Taiwan." He added, however, that Reagan sees closer U.S. ties with Taiwan as being "in no way incompatible" with strengthened relations with Peking.

Allen addressed the press club as Bush paid a series of calls on present and former Japanese governmet offi-Bush's principal task in China is likely to be explaining the Republican ticket's position on China and Tai2an an issue which drew a sharp blast

from the official party newspaper in Peking today. The People's Daily, China's leading newspaper and mouthpiece of the Communist Party, accused Reagan of 'interfering in China's internal affairs" by urging restoration of the former "two Chinas" policy that extended full diplomatic recognition to

# Beer drinkers get sobering threat

VANCOUVER, British Columbia (AP) — Two unions have made a sobering threat to the beer drinkers of the westernmost province of

In the wake of a 3-week-old lockout by the three breweries in British Columbia, union spokesmen say they will refuse to handle any more imported beer after midnight Thursday.

Officials say the resulting "beer drought" will likely lead to layoffs in the hotel and restaurant industry, which already has idled hundreds of

The announcement Monday by spokesmen for the Brewery, Winery and Distillery Workers Union and the British Columbia Government Employees Union is a departure from their previous stance.

When the 1,500 brewery workers were locked out by Labatts, Molson and Carling O'Keefe on July 26, the unions agreed to allow almost unlimited imports of U.S. and other foreign beer, reasoning that beer drinkers would punish the breweries by acquiring a taste for foreign

Now, union officials say a total drought is the only way to force the breweries into a settlement.

The BCGEU, which adopted the brewery union as an independent affiliate earlier this year, represents clerks and warehouse workers

employed by the provincial Liquor Distribution Branch. Other unions may help enforce the boycott, but BCGEU general secretary John Fryer refused to identify any. However, one is likely to be the Teamsters, whose members drive most of the trucks hauling U.S. beer into Canada.

The brewery workers are seeking wage increases of \$1.05 an hour in eah year of a two-year contract. They claim the breweries are trying to force a three-year settlement similar to one negotiated in Ontario. The breweries are offering increases of \$1 an hour in each year of a three-year

# Stock market loses

NEW YORK (AP) - The stock market Monday retreated at a gallop from its recent strong rally as worries over higher interest rates and inflation swept through Wall Street.

The Dow Jones average of 30 industrial stocks fell 18.09 points to 948.63 fter hitting its highest level in about three and a half years last week. It was the biggest one-day loss in the blue chip average since March 24 when it dropped more than 19 points.

Worries over higher interest rates and rising inflation were ignited by the Federal Reserve's latest report on the money supply. The Fed reported after trading had closed on the New York Stock Exchange Friday that the nation's basic money supply jumped a record \$8.2 billion to \$381.5 billion in the latest reporting period.

Reacting to that news, the Dow Jones industrial average dropped 13 points in the first hour of trading. It recovered some of that loss by midday but came in for a second wave of selling late in the session.

Traditionally, a sustained and rapid increase in money supply has signaled inflationary pressures and often prompted the Federal Reserve to clamp down on credit in an effort to slow the growth.

In money markets, bond prices dropped sharply but trading was fairly quiet. Long term government bonds were down by almost a point and a half, or \$15 on a \$1,000 bond late in the session.

The expectation of higher interest rates sent the dollar higher against most major currencies in foreign exchange markets. Gold prices rose \$5.80 to \$622 a troy ounce in contracts traded on the Commodity Exchange of New York.

Volume on the NYSE was a fairly active 41.89 million shares, against 47.78 million in the previous session.

Losing issues swamped gainers by a margin of more than 6-to-1 at the closing NYSE tally. The NYSE's composite index fell 1.32 to 70.75 from its record high close Friday.

International Business Machines dropped 2% to 66% as the most actively traded issues as of the 4 p.m. NYSE

Ward Foods posted the biggest gain on the NYSE, up 2% to 10% after announcing a \$13 a share acquisition offer from a privately owned compa-

AMARILLO, Texas (AP) — Texas Panhandle and western Oklahoma feedlot roundup. Confirmed: 3400.

Trade slow in the Panhandle area Monday. Slaughter steers and heifers steady. Feedlots reported fair buying interest from most sources. Sales on 2900 slaughter steers and 500 heifers. Note: all live cattle prices based on net weights fob the feedlot after 4 percent shrink.

Slaughter steers: good and mostly choice 2-3, 70-85 choice, 1025-1150 lb. 73.50-74.00; mixed good and choice 2-3, 1100 lb., Holsteins and Corrientes, 66.00.

Slaughter heifers: good and mostly choice 2-3, 875-950 lbs., 69.00-70.00. ny, Terson Co.
The Standard & Poor 400 stock in dustrial fell 2.81 to 140.05. S&P's 500stock composite lost 2.33 to 123.39. On the American Stock Exchange, the market value index fell 6.35 to 318.71. In over-the-counter trading, the NAS-DAQ composite lost 2.65 to 177.24.

#### GM giving examinations LUBBOCK, Texas (AP) — Monday's based price cotton quotation for strict low middling 1-116 at Lubbock is 76.25 cents per to workers

DETROIT (AP) - They sand wood, mold plastic and cast in metal the miniatures that become prototypes for America's cars. Modelmakers often toil in the shadows of their counterparts on the assembly line, but now they're in the spotlight as subjects of the largest health screen-

ing program in the nation's history. Modelmakers are getting cancer, and their union and the world's largest automaker want to know why. General Motors Corp. on Monday began medical examinations of some

4,000 employees. GM decided this spring to offer the examinations of model shop employees in 21 cities after three independent studies showed wood modelmakers seemed more likely to get cancer of the colon and the rectum than could normally be expected.

One study, commissioned by GM and the United Auto Workers, of 1,623 workers in 14 model shops found 14 cancers of the colon and rectum. Six cases would normally have been expected.

Employees are being asked to submit voluntarily to X-ray, blood and urine tests to check for cancer of the skin, mouth, throat, larynx, lung, kidney, bladder, prostate, colon and rec-

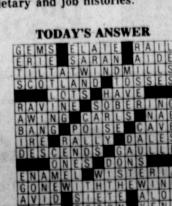

"It doesn't look like there'll be many (who refuse), based on our orientation sessions," said GM spokesman Bruce MacDonald.

'We're not sure what we're dealing Monday to seek enactwith as a causative agent. Is it something in the workplace? Is it something in the workplace interacting with something somewhere else?" asked GM's medical director, Dr. Robert Wiencek. A UAW spokesman who asked not

to be named said, "We're very glad to see the program finally beginning. We thought it was necessary to clear will be made. up any questions employees might have about their own health."

Among those being tested are modelmakers and other employees members present for the around the shops, from janitors to vote, it is still unclear supervisors.

They are being asked for medical, dietary and job histories.

### TI announces discounts to entice new customers

WASHINGTON (AP) — Texas International Airlines has announced an experimental plan of slashed fares to entice customers who otherwise might use the train of bus or stay at home.

Limited numbers of discounted seats will be available for \$19 on short flights such as Dallas-Fort Worth to Midland-Odessa or Austin; \$29 on medium flights such as Dallas-Fort Worth to Omaha, Neb.; and \$59 on fong-range flights such as Dallas-Fort Worth to Baltimore-Washington. The fare to Midland-Odessa represents a 79 percent cut.

TI will be offering a minimum of 285 seats per week each way between Midland-Odessa and Dallas-Fort Worth.

Ron Woestemeyer, an airline vice president, said Monday the tickets for the discounted seats must be purchased 14 days in advance. Customers will not be allowed to transfer the tickets, turn them in for refunds or switch them to other flights.

"Once you buy them, they're yours, whether you use them or not," Woestemeyer said at a news conference.

He said the plan is designed to sell tickets for seats that regularly go empty. The seats, in limited numbers, are available on 149 of the airline's 278 daily flights starting Sept. 3 from 28 of the 35 cities served by Texas International.

Woestemeyer said the airline hopes the new fares will increase its load

factor, or percentage of occupied seats, by 10 points.
"These are seats that never sell," he said. "We believe that with these unprecedented deep discounts, we can tap a whole new market of potential air travelers, even during a time of the year when traffic is traditionally slow and the recession is continuing.

Woestemeyer said the new fares, to become a regular part of Texas International's fare structure if successful, would not affect the airline's "peanuts fare" discount plan already in operation. This new type of ticket could add up to \$1.25 million monthly to the airline's revenues abnd boost its load factor by 10 percentage points.

Texas International applied to the Civil Aeronautics Board for the authority to offer the discount fares.

Texas cities where the new rates will be in effect on some flights include Dallas-Fort Worth, Houston, Amarillo, Austin, Beaumont-Port Arthur, Corpus Christi, El Paso, Lubbock, Midland-Odessa, McAllen and

## Housing recovery on flimsy base off 36 percent from the same period

WASHINGTON (AP) - Housing starts climbed nearly 5 percent in July, but builders and economists warn the industry's 2-month-old recovery is perched on a flimsy foundation that will be buffeted by rising mortgage rates.

Meanwhile, peoples' wages and salaries continued to be socked by unemployment and double-digit inflation, while manufacturers - handcuffed by the recession — cut factory use to below 75 percent of capacity.

Numerous private economists said these trends offer more evidence that recovery from recession is still months away and then will prove very

"What all this represents is abandonment of the hope the economy will straighten out quickly," said Otto Eckstein, head of Data Resources Inc., of Lexington, Mass. "Prospects for a rapid start to an

economic recovery, if anything, are gloomier now," added Sandra Shaber, a senior economist at Chase Econometrics Associates of Bala Cynwyd, Pa. Additional data about the economy

will be known today when the government releases revised figures on the nation's output from April through June and on corporate profits in the second quarter. A preliminary report last month said inflation-adjusted gross national

product - the total output of goods and services - plunged 9.1 percent, equal to the sharpest quarterly decline ever. On Monday, the government re-ported that housing starts rose 4.8

percent to an annual rate of 1.266 million units in July. That follows a revised 33 percent jump in June.

Before then, housing starts had fallen to a 906,000 annual pace, just about half the rate for all of last year.

Despite the improvement, last month's pace was 28 percent below the annual rate in July 1979. For the first seven months of 1980, starts are

last year, the Commerce Department said.

Moreover, the housing recovery is "built on a flimsy foundation," said Kenneth Thygerson, chief economist of the U.S. League of Savings Asso-Added Michael Sumichrast, chief

economist of the National Association of Home Builders: "The upturn will be nipped in the bud if mortgage rates don't stop rising." Those rates have jumped from as

low as 11.5 percent to about 13.5 percent in some housing markets. That means about \$90 more a month on a \$60,000, 30-year mortgage. 'And over the next several months,

interest rates are more likely to go up than down," added Eckstein.

This will be caused by sharp in-

creases in the supply of money; new fears of inflation due to an upsurge in holesale prices; and evidence that while the recession is not over, the steepest economic decline is past.

"We anticipate a slow, arduous recovery - far different from the housing upturn after the last recession, said Ken Kerin, an economist for the National Association of Realtors. Sumichrast estimated the high

rates could cut housing starts by 50,-000 for the remainder of this year and another 100,000 in 1981. The Commerce Department Mon-

day also reported that personal income of Americans rose \$28.6 billion, or 1.4 percent, in July to a seasonally adjusted annual rate of \$2.118 tril-However, all but \$4 billion of this

increase was due to boosts in transfer payments, particularly Social Security benefits. Recipients received a 14.3 percent cost-of-living adjustment in

Wages and salaries — the backbone of most people's income - actually dipped \$1.7 billion, or 0.1 percent, after rising \$2.8 billion the month

## Senate panel working out details of tax cut measure

WASHINGTON (AP) The Senate Finance Committee, having decided on the general size of a tax cut and gone on record as favoring its passage this year, is trying now to work out the details of the bill, which faces an uncertain fu-

The committee voted ment of a \$25 billion to \$30 billion tax cut before Jan. 1, and is meeting every day this week to try to agree on the details of how much of the cut will go to individuals, how much will go to business and how the cuts

Despite the panel's quick action, agreed to by the 11 committee whether a bill going into effect Jan. 1 can get through both houses of Congress this year.

Sen. Bob Packwood, D-Ore., who was not present when the vote was taken, voted "no" by proxy. He is the only committee member who has said he does not favor a tax cut bill now, saying it would be inflationary Overall, the Senate has

appeared more willing to take quick action than the House.

The House Ways and

Means Committee, which writes tax legislation in that body, is continuing hearings this week on a tax cut but has not yet begun work on any specific bill.

A Ways and Means Committee source said Monday evening that the attitude of a "vast majority" of Democrats on the panel is not to go ahead with a tax bill

The Ways and Means Committee will "continue to watch what the Finance Committee does and keep one eye on the calendar," said the source, who asked not to be identified.

Legislators are scheduled to break Oct. 4 for the fall general election, leaving little time for final action before the election.

Congressional leaders have indicated that a post-election "lame duck" session may be needed to give final ap-proval to the fiscal 1981 federal budget, and action on a tax bill could come then.

Proponents of quick action say the next Congress probably would not enact a reduction until well into the year, too late to be of benefit.

# Wildcats, discoveries announced by operators in WT counties

Wildcats have been scheduled in Andrews, Lubbock, Scurry, Stonewall, Runnels, Howard and Coke counties, and discoveries have been announced in Tom Green, Stonewall and Runnels counties.

Gulf Oil Corp. of Midland will re-enter No. 5 State "FY", a former producer in the Triple N (upper Pennsylvanian) field in Andrews County, and plug back to 5,200 feet for wildcat tests.

Located 660 feet from north and from east lines of section 41, block 9, University Lands survey, 10 miles southwest of Andrews, the project is surrounded by production in various multipay fields. The old total depth is 9,291 feet.

STONEWALL WILDCATS

No. 1 A.W. McCoy, a wildcat in Stonewall County, will be drilled by Pogo Producing Co. of Midland, nine miles northeast of Asperment. Location is 1,174 feet from south and 893 feet from

west lines of G.F. Robinson survey, abstract 1710. Contract depth is 6,300 feet. Marshall & Winston Inc. of Midland will drill the No. 3 Pittcock as a 3,200-foot wildcat, 10 miles northeast

of Aspermont, in Stonewall County. Also staked as an east offset to a long extension to the Gloria Gay, West (upper Tannehill) field which produces at 3,074 feet, location is 467 feet from north and from west lines of section 69, block D, H&TC survey.

RUNNELS PROJECTS

Lifestyle Energy Corp., operating from Richardson, will drill the No. 1 Brannon, a 5,100-foot wildcat in Runnels County.

Location is 2,600 feet west and along the line of tract 18 in the Thomas Harvey subdivision of the Edward Conley survey No. 445, then 700 feet southeast to location in the H.T. Sapp survey No. 807, abst

The project is % mile northeast of the depleted opener in the Ash (Gardner) field, 1.25 miles south of Wilmeth, which produced at 5,001 feet. Oil produin the field is at 4,972 feet.

SRG Oil Corp., Abilene, announced location for Damon Douglas, et al in Runnels County.

The 3,800-foot project is 2,310 feet from south and . feet from east lines of GH&H survey No. 41, 10 mile : east of Ballinger. It is one mile southeast of the Saxo I (lower Canyon lime) field which produces at 3,177

ATAPCO, operating from Midland, will drill the No. 2-50 Jones as a 7,000-foot wildcat and also as a southwest offset to the lone producer of the Bufflo Spring (upper Canyon oil) field of Coke County.

Location is 1,980 feet from north and from east lines of section 50, block Z, D&SE survey, 13 miles south of Robert Lee. Ground elevation is 2,400 feet.

The upper Canyon oil pay produces from 5,878 feet.

LUBBOCK TEST

McCormick Operating Co. of Houston will drill No. 1 Ute Becton 2,150 feet from south and 660 feet from west lines of section 100, block C, AB&M survey, abstract 952, 14 miles northeast of Iadlou. The wildcat is contracted to 10,800 feet.

There is no nearby production. Ground elevation is 3,228 feet.

SCURRY WILDCAT

Ike Lovelady Inc. of Midland has scheduled a 7,750foot wildcat in Scurry County, 7.5 miles southeast of

No. 1 Dunn is 1,980 feet from north and 2,250 feet from west lines of section 74, block 20, Lavaca Navigation Company survey.

The project is one-half mile southwest of the Allen-Holiday (Pennsylvanian) field which produces at 7,442

Ground elevation is 2,255 feet.

HOWARD EXPLORER

Ike Lovelady, Inc. of Midland has staked No. 1 Wegner as a 9,400-foot wildcat in Howard County, 2.25 miles southeast of Luther in Howard County.

Located 1,980 feet from north and from east lines of section 33, block 32, T-2-N, T&P survey, it is 1/4 mile west of production in the Luther, Southeast (Siluro-Devonian) field

REEVES OFFSET

**ANDREWS PROJECT** 

Amoco of Odessa has staked No. 60 Midland Farms Deep Unit 3,000 feet northwest of the current lone producer in the Midland Farms, West (Devonian) field of Andrews County, 13 miles southeast of Andrews. Located 1,247 feet from south and 664 feet from east

lines of section 15, block 42, T-2-N, G&MMB&A survey, it is a twin to a producer in the Midland Farms (Wolfcamp) field.

Contract depth is 12,607 feet.

STONEWALL REOPENERS

The Droke (Caddo lime) field of Stonewall County has been reopened with completion of two wildcats by Charles M. Childers of Abilene.

Both wells are 12 miles south of Aspermont. No. 1 Droke was completed naturally to pump 74 barrels of 41-gravity oil and 30 barrels of water through perforations from 5,944 to 5,947 feet. It was drilled to 5,986 feet, with 41/2-inch casing set at

Location is 2,702 feet from south and 3,510 feet from east lines of section 117, block 1, H&TC survey.

The No. 3 Droke finaled naturally to pump 74 barrels of 41-gravity oil and 30 barrels of water through perforations from 5,872 to 5,969 feet. It was drilled to 6,034 feet, where 41/2-inch casing was

Location is 2,999 feet from south and 2,634 feet from east lines of section 117, block 1 H&TC survey. The field was opened in Fisher County Jan. 12, 1954, and at one time had three producers.

WINKLER EXTENSION

Amoco, operating from Odessa, has reclassified No. 5 Sealy-Smith Foundation "B" from oil to the Darmer (Pennsylvanian 8400 gas) field of Winkler County. It is a 1%-mile north extension, and also the second producer, in the field.

The operator reported a calculated absolute open flow of 1,300,000 cubic feet of dry gas per day, through perforations from 8,212 to 9,000 feet. The pay was acidized with 72,100 gallons.

The well bottomed at 9,096 feet, was plugged back to 9,030 feet, and 8¾-inch casing was set at 9,000 feet. Location is 660 feet from south and 2,413 feet from east lines of section 69, block A, G&MMB&A survey, 11 miles south of Kermit.

The pay was topped at 8,212 feet on ground elevation of 2,746 feet.

TOM GREEN DISCOVERY

Larry Clevenger, operating from Waco, has completed No. 2 Blaylock as a San Andres oil discovery, 3,600 feet southeast of the depleted Rape (Clear Fork) field in Tom Green County. The oiler finaled to pump 3 barrels of 23-gravity oil

and I barrel of water through perforations from 358-366 The pay was acidized with 250 gallons and fractured with an unreported amount of water and 100 pounds of

Location is 467 feet from north and 933 feet from east lines of F.M. Condron survey No. 2, 12.5 miles west of

The following pays were topped on ground elevation of 1,981 feet: San Andres, 358 feet, and San Angelo, 390

RUNNELS STRIKE

arles Matschek has been finaled as a lower Capps oil discovery in Runnels County, 3.5 miles north

The Townsend Co., operating from Abilene, reported a pumping potential of 50 barrels of 46-gravity oil and 50 barrels of water through perforations from 3,827 to 3,830 feet, which had been acidized with 250 gallons. The gas-oil ratio was 800-1.

Location is 580 feet from southwest and 1,425 feet from northwest lines of F. Helmer survey No. 417,

The following pays were topped on ground elevation of 1,677 feet: upper Capps, 3,747 feet; lower Capps, 3,859 feet; Jennings lime, 4,016 feet; and Gardner lime, 4,055

MITCHELL RE-ENTRY

Sun Oil Co. of Midland will re-enter and attempt dual completion of its No. 25 V.T. McCabe, in the Odom oil pay of the Jameson, North multipay field of Mitchell

The well currently produces in the Jameson, North (Ellenburger) field. Location is 660 feet from south and 760 feet from west lines of section 6, block 1-A, H&TC survey, four miles north of Silver.

Permian Basin areas Contract depth is 4,000 feet. Seage Oil Co. of Abilene has completed No. 2 Smith as a northwest

> (4100) Canyon multipay field of Fisher County. It is the eighth producer in that pay zone. The well flowed for 133 barrels of oil through perforations from 4,166 to 4,176 feet on a 12/64-inch choke, after acidizing with 750 gallons, and a fracture job of 15,000 gallons.

Gravity and gas-oil ratio were not reported.

Location is 1,263 feet from south and

extension in the Noodle, Northwest

**ENERGY** OIL & GAS

330 feet from west lines of section 14, E. Miles survey No. 219, nine miles southeast of Sylvester.

Scheduled as a 5,000 foot wildcat, it was drilled to 5,006 feet, where 41/2inch casing was set.

GAINES CONFIRMERS

The Jenkins, North (Canyon, Devonian and Clear Fork) field of Gaines County gained its current fourth Canyon producer and an east extension to that pay, with completion of Exxon Corp., Midland, No. 6 Sam Jenkins, 11 miles southwest of Semin-

On potentail test, the well pumped 30 barrels of 39-gravity oil and 193 barrels of water, through perforations from 8,876 to 9,002 feet which had been acidized with 7,625 gallons. The gas-oil ratio was 1,872-1.

Wellsite is 1,980 feet from north and 5,747 feet from west lines of section 10, block AX, Public School Lands survey, abstract 1649.

Exxon of Midland also completed No. 7 Exxon-Shell Fee, in the Newson (Yates gas) field of Gaines County. On a 32/64-inch choke, the well flowed gas at the rate of 529,000 cubic feet per day plys 9 barrels of fluid, through perforations from 2,829 to 2,932 feet. Flowing tubing pressure was 170 pounds.

No treatment was reported for the

Contracted to 3,200 feet, the well bottomed at 3,125 feet, with 51/2-inch casing set at total depth.

Location is 660 feet from south and 1,500 feet from west lines of section 10, block A-24, Public School Lands survey, seven miles southwest of Semin-

IRION PRODUCTION

MEG Petroleum Corp., operating from San Angelo, announced potential on No. 1 Lexia M. Aiken, a 1%mile southwest extension to the Christi (Canyon 6800 oil) field of Irion

On 24-hour test, the well flowed 46.6 barrels of 42-gravity oil and 7.2 barrels of water on a 28/64-inch choke, through perforations from 6,781 to

The pay was acidized with 1,500 gallons and fractured with 59,700 gal-The gas-oil ratio was 609-1.

Site is 2,173 feet from north and 467 feet from west lines of section 82, block 1, H&TC survey, five miles southwest of Mertzon.

Exxon Corp. of Midland reported completion of No. 6 Pearl Williams, the eighth Canyon C oil producer in the Dove Creek multipay field of Irion

#### DEATHS

#### Lee M. Robinett

Services for Lee Marshall Robinett, 24, of 2001 Community Lane, were at 2 p.m. Monday in Memorial Christian Church with the Rev. John Long officiating. Burial was in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

Robinett died Friday from injuries received in a motorcycle accident. He was born Nov. 20, 1955, in

San Angelo. He was reared in San Angelo and graduated from high school in Lubbock. He lived in Fairbanks, Alaska, for seven years before moving to Midland in March of this year. He was an operator for Scientific Drilling Controls. He was a member of Mayflower Society and of the First Christian Church in San Angelo. As a boy he was active in scouting, having attained the rank of Eagle scout.

Survivors include his parents, Liz Robinett of Midland and Lt. Col. Jimmy B. Robinett of Indianapolis, Ind.; a sister, Mrs. Joseph (Lisa) Klein of Midland; his grandparents, Mrs. Jackie McClain of San Angelo, Ted McClain of Keene and Mrs. Dallas Robinett of Dallas; a niece and several aunts and uncles.

Pallbearers were Ricardo Saldana, Dee Windsor, Kevin Condor, B.G. Gann, Mike Cohan and George Pat-

#### 'Gus' Koonce

Services for Charles A. "Gus" Koonce, 85, of rural Midland, were to be at 11 a.m. today in the Newnie W. Ellis Funeral Home chapel with the Rev. Bob Porterfield officiating. Burial was to be in Resthaven Memorial

Koonce died Sunday in a Midland hospital following a brief illness.

He was born Aug. 18, 1894, in Mt. Vernon. Koonce was reared in Franklin County. He entered the armed services during World War I and served in France and Germany.

Koonce came to Martin County in 1925. He met and married Opal Hazlewood there in 1929. They farmed in Martin County until 1956 when they came to Midland and bought a farm northwest of Midland. He retired in 1959 and was a member of St. Paul's Methodist Church.

Survivors include his wife; three sons, Louie Gene Koonce, Norman Lynn Koonce and Jerry Paul Koonce, all of Midland; five grandchildren, three great-grandchildren, eight nieces and 16 nephews.

#### John McCrary

John L. McCrary, 74, 1709 W. Ohio Ave., died Sunday in a Midland hospi-

Services were to be at 2 p.m. today in the First Presbyterian Church Chapel with Dr. Robert Boynton Smith officiating. Burial was to be in Resthaven Memorial Park under the direction of Newnie W. Ellis Funeral

McCrary was born Dec. 31, 1905, in Vernon, where he was reared. He was married to Helen J. Hitchcock. They moved to Midland in 1932. He had lived in a number of towns in the Permian Basin, as well as Dallas. He returned to Midland ten years ago. He was employed by Henry H. Paris Inc., of Houston. He was a member of the

First Presbyterian Church. Survivors include his wife and a brother, Innes McCrary of Vernon.

#### Naomi Bice

ABILENE - Services for Naomi Lena Bice, 67, of Abilene, sister of Louise Holliums and Iva Yarbrough, both of Midland, were at 10:30 a.m. Monday in the Elliot-Hamil Funeral Home Chapel of Memories in Abilene with D.F. Shropshire of the Jehovah's Witnesses congregation officiating. Burial was in Elmwood Memorial Park.

Mrs. Bice died Friday at her home.

She was born April 28, 1913, in Waco. She moved to Abilene from Waco as a child. She was married to Roma Bice March 23, 1937, in Abilene. She was a Jehovah's Witness.

Other survivors include her husband, a daughter, two other sisters, two brothers, two grandchildren and two great-granchildren.

#### **Melvin Tims**

LAMESA — Graveside services for Melvin N. Tims, 69, of Atlanta, Texas, and formerly of Lamesa, were to be at 10 a.m. today in Lamesa Memorial Park here with the Rev. Clifton Igo, pastor of Second Baptist Church, offi-

Burial was to be directed by Branon Funeral Home.

He was found dead in his home Friday and an Atlanta justice of the peace ruled the death was of natural

A Baylor County native, Tims was a longtime resident of Dawson County and moved several years ago to San Diego, Calif., where he operated a crane in the ship building industry. He retired two years ago and moved

#### Maria Mendoza

Services for Mrs. David (Maria Mico) Mendoza, 30, of Los Angeles, Calif., and formerly of Midland, are pending at Thomas Funeral Home

She died Sunday in Los Angeles

after a lengthy illness. Mrs. Mendoza was born May 23, 1950. She was married to David Mendoza Sept. 8, 1968. She attended Midland High School and was graduated from Lamesa High School in 1968. She moved from Midland to Los Angeles

Survivors include her husband; a daughter, Melissa Mendoza of Los Angeles; her mother, Nancy Mayo of Odessa; her father, Leo Flores of Los Angeles; three brothers and two sis-

### Room damaged at state capitol

ALBANY, N.Y. (AP) — A careless smoker apparently was to blame for a fire that damaged a little-used document room and sent smoke through parts of the state Capitol, authorities

Capitol Police said the fire Monday was limited to the building's old Assembly documents room. Neither the governor's office nor the legislative

chambers were damaged. The fire started in cardboard cartons of records kept at the top of a three-tier metal storage area, Albany Fire Battalion Chief Daniel Doherty

### in biggest the operation.

BEIRUT, Lebanon (AP) - Two Israeli paratroopers and at least 15 Palestinian guerrillas were reported killed or wounded today in what ap-peared to be the biggest Israeli raid into Lebanon in 29 months.

Israeli troops and warplanes from three commands attacked and destroyed four Palestinian artillery bases in southeast Lebanon and killed some of the terrorists, the Tel Aviv command said.

Yasser Arafat claimed his Palestine Liberation Organization guerril-las repelled the attack and killed at least two Israelis in a group trapped by his fighters. Lebanese provincial authorities said at least 15 guerrillas were either killed or wounded in the attack, the third by Israel against guerrillas in Lebanon within one

Israel said the raids were all part of "preventive measures" designed to deter guerrilla strikes against the Jewish state.

The provincial authorities said the Israeli landing assault was followed by an air raid on the Palestinian hilltop strongholds of Arnoun and Beaufort Castle, five miles north of

Smoke billowed from the stricken hills as warplanes swooped in from the clear Mediterranean sky on several bombing and rocketing missions, said a spokesman for the governor's office in Sidon, provincial capital of the south.

On March 15, 1978, Israeli troops invaded all of southern Lebanon up to the Litani River, some 20 miles north of the border, in an attempt to "root out terrorist bases," and did not withdraw completely until mid-June. That was believed to have been the biggest

Israeli incursion up to now. The gravity of the latest hostilities was underscored by announcements that PLO chief Arafat took personal charge of the fighting from his command center in Beirut and Israeli Prime Minister Menachem Begin, who is also defense minister, drove up to the border for a first-hand report on

Meanwhile, the Israeli Supreme

Court refused to cancel an expulsion order against three nationalist Palestinian leaders deported last May from the West Bank of the Jordan River following the slaying of six Israeli settlers in the West Bank town of Hebron. But it offered two of them

conditions under which they could return for further appeals. In Casablanca, Morocco, a 14-na-tion Arab committee called Monday for a jihad, or holy war, to "liberate" Jerusalem and recommended an economic boycott of countries approving Israel's annexation of Jerusalem's eastern or Arab sector. But the group rejected Arafat's call for an oil embargo against supporters of the Jew-

An army spokesman said Israeli troops from three commands and the air force crossed the border Monday night and attacked Palestinian guerrilla positions about five miles north of Metulla, Israel's northernmost town located in the panhandle between Lebanon and Syria.

A communique said Palestinian terrorists were killed, guerrilla gun positions were destroyed and buildings were blown up. It said the air force pounded Beaufort Castle, a clifftop Crusader-built fortress used as a Palestinian artillery platform, and troops from the Golani Brigade, paratroopers and engineers joined in the ground assault on four targets on the Arnoun Plaeau near Beaufort.

It gave no Palestinian casualty figures and said nothing about Israeli casualties nor whether the troops had returned safely to their bases in Isra-
