Maria Gatto of El Salvador gets a look at the grandchildren she's never seen before in a

touching family reunion Wednesday at Mid-Partain) land Regional Airport. (Staff Photo by Bruce

Midland airport scene of joyous reunion

By LANA CUNNINGHAM Staff Writer

Mina Flores hadn't seen her mother in 10 years. Al Flores had never met his mother-in-law.

After months of trying to get a visa for Maria Gatto of El Salvador, the Flores' only succeeded in getting a 90-day visit permit. But they settled on that and the family finally met each other Wednesday afternoon at Midland Regional Airport.

Although this was the first time Mrs. Gatto had flown, the small woman walked confidently off the plane and down the ramp to the main waiting room. There, she met her daughter and family she had never seen. Bursting into tears, she began hugging each one.

daughters kept asking about a grandmother they had never known. Flores said his mother-in-law had been wanting to come for a visit for a long time. Recent uprisings in the country of El Salvador made the

Flores family more concerned about getting Mrs. Gatto to Midland. However, because of the internal troubles, getting a visa was impossible, he said. They accepted the visitpermit and will try to work on getting. a visa from this end. And if one doesn't come soon, Flores said, he will file for extensions on the permit.

Sitting in the airport waiting area, Mrs. Gatto took a long look at each of her granddaughters. She held the youngest on her lap while the older ones huddled around her knees.

Cupping her hands around one of the girls' faces, Mrs. Gatto remarked, 'She looks just like one of my other daughters.'

More Polish workers walk off their jobs

GDANSK, Poland (AP) - The communist government dumped its top labor negotiator today in a new sign that its efforts to contain the widespread worker unrest gripping the Baltic seacoast had stalled.

Informed sources reported, mean-while, that 16 leading dissidents were rounded up in Warsaw. The sources said the number of workers on strike in the Baltic area had grown despite the government's mediation efforts and that about 130,000 workers were taking part in the mass walkout, now in its eighth day.

State radio announced today that Deputy Premier Tadeusz Pyka had been replaced as chairman of a special commission dispatched here last weekend to negotiate with workers after they began walking off their jobs at the V.I. Lenin Shipyards and other enterprises. No explanation was given for the change.

Despite Pyka's efforts, sources in this Baltic port said more than 300 factories and plants in the area had now been shut down by the strike. Pyka, a longtime ally of Communist

Party leader Edward Gierek, was replaced by senior Deputy Premier Mieczyslaw Jagielski, a longtime Politburo member who is considered the most liberal and influential of Poland's five deputy premiers. Pyka was a relative newcomer to the party's inner circle and a junior man

among Poland's deputy premiers. The commission had been seeking to negotiate with individual strike committees rather than a central organization established by militants at the Lenin Shipyards in Gdansk.

Gdansk radio had reported negotiations were under way with committees that had apparently split with the Lenin Shipyard group. But Pyka's removal appeared to indicate the commission's strategy of undermin-ing worker unity was failing.

East German border, reported "the life of all families is disorganized; municipal transport is not function-ing; normal functioning of hospitals, shops and fundamental services have all been disrupted, and people are still buying food in vast quantities."

With 20,000 workers reported on strike in Szczecin two days ago, the local radio station said Wednesday and again today that workers in the steel and paper mills and other indus-tries were joining the walkout. The broadcast said the strike had spread to a paper mill in Kozno and an auto

equipment plant. Gdansk Radio reported food supplies here were running low.

The strike wave began last Thursday in Gdansk with workers demandday in Gdansk with workers demand-ing higher pay to offset increased meat prices, free trade unions and other political reforms. The govern-ment claimed Wednesday that the movement in Gdansk-Gdynia-Sopot industrial area was beginning to collistical trade of the strike committees splinter. It said 47 strike committees contacted local officials and reached agreement with them on some of the issues. Another broadcast said representatives of some of the strikers and

a government negotiating team led by Pyka reached a "common position." Sources said the government was offering amnesty for strikers; representation in the official state-run unions; improved housing and health care; guarantees of special food sup-plies for the coastal area and pay increases for shipyard and port work-ers and professionals. But Commu-nist Party chief Edward Gierek in a broadcast earlier this week rejected the strikers' demands for free trade unions and other major political reforms allowed nowhere in the Soviet

Bloc. There was no indication how many of the strikers along Poland's Baltic coast were represented by the committees the government claimed were dealing with it. Pursuing a divideand-conquer strategy, the regime re-fused to deal with the central strike committee leading the fight for free trade unions. Instead it nibbled away at the committees in individual plants.

Flores, who works at Hines-Wood Upholstery, explained the unusual situation.

His wife came to the United States about 10 years ago on a visa to go to college in California. The two met and married.

Since then, they have moved to Midland where they are the parents of four daughters ages 1, 6, 7 and 8. And there's another child due this month. "I just know it's going to be another girl," he laughed. But through the years, Mina has never been back to her homeland. Al

had never seen the mother-in-law he had heard so much about. And their

Mina isn't her only daughter. Mrs. Gatto left two other daughters back in El Salvador. If the family succeeds in getting a visa for Mrs. Gatto, Flores said he will try to bring the rest of the family to Midland. "She's afraid to go back," he said, referring to the political troubles in El Salvador.

"We're very happy," he said, giving his new-found mother-in-law a kiss on the cheek

"I even tried to fix up my house to have it ready for her." And his wife, with tears in her eyes, added, "I feel very happy." Meanwhile, "extremely serious" conditions and widespread disruption were reported in the Polish city of Szczecin today as the communist nation's worst crisis in 10 years went into its second week.

The mayor of Szczecin, a port and ndustrial city of 400,000 people on the

U.N. censures Israel

UNETED NATIONS (AP) - With that United States abstaining, the U.N. Security Council censured Israel's new Jerusalem law and called on the 13 nations with embassies in the Holy City to withdraw them.

The council resolution, adopted Wednesday by a 14-0 vote, declared the law was "null and void and must be rescinded.

The council ordered Secretary-General Kurt Waldheim to report by Nov. 15 whether Israel obeyed the order, but as expected the Israeli government today rejected the U.N. move. Israel also expressed regret that the United States did not veto the resolution, rather than abstain.

Passage of the resolution "furnished additional proof that the United Nations has been converted into an instrument in the hands of Israel's enemies in their war against her existence and independence," said a statement issued by the Israeli Foreign Ministry today in Jerusalem.

Israeli Foreign Minister Yitzhak Shamir met with U.S. Ambassador Samuel Lewis and "expressed Israel's regret" at the American abstention, the Foreign Ministry said.

Referring to Secretary of State Edmund Muskie's statement to the Security Council, Shamir said the speech contained convincing reasons for the United States to oppose the resolution and not just to abstain." Israeli Ambassador Yehuda Z.

Blum, interviewed on ABC-TV today, said "we were clearly disappointed with the American abstention.

Blum told the Security Council during the debate that the Jerusalem law "merely reaffirms the situation that has prevailed in Jerusalem for a long time.

The law, passed by the Israeii Knesset, or Parliament, on July 30, declared all of Jerusalem the undivided and eternal capital of the Jewish state. But all of Jerusalem had been Israel's capital since the Jewish state annexed East Jerusalem, the Arab sector and site of the city's Jewish, Christian and Moslem holy places, after capturing it from Jordan in the 1967 Arfab-Israeli war.

Blum said it was "an indisputable fact that although throughout the centuries Israel has known many rulers, it (Jerusalem) has been the capital city for only one people - that is the Jewish people. No amount of gainsaying, distortion and hostile resolutions can alter that undeniable historical fact.'

In an unusual move, Muskie appeared before the council to explain why the United States could not support the resolution. He said it was "fundamentally flawed" because it censured only Israel without con-

demning "violence against Israel or efforts to undermine Israel's legitimate security needs."

Muskie, who interrupted a vacation in Maine for his first U.N. speech since becoming secretary of state in four months ago, also defended "the Camp David process ... and its ultimate goal of a just and lasting peace throughout the region." He accused the United Nations of "recourse to debates and resolutions that are not germane to the peace process and even harmful to it."

Zehdi Labib Terzi, the Palestine Liberation Organization's U.N. observer, called Muskie's speech "pontification" for political ends. "I am sure the American adminis-

tration is grateful to us for convening the session because it afforded their spokesman a platform for his electioneering campaign," said Terzi.

The PLO and its Arab supporters wanted a resolution calling for military and economic sanctions against Israel, but the Arabs accepted the lesser censure when it became clear they did not have the council majority needed to pass a sanctions resolution. Muskie confirmed that the United

State would have vetoed any resolution calling for sanctions against Isra-

Only 13 nations have recognized Jerusalem as Israel's capital by maintaining embassies there. Three of them - Venezuela, Ecuador and Uruguay - announced after the Knesset vote that they will move their embassies to Tel Aviv, the Israeli commercial capital,

A fourth South American country, Chile, announced today it will also move its embassy from Jerusalem. The announcement was made in Amman, Jordan, where Chilean Ambassador Fernando Contreras told the Jordanian Foreign Ministry of his country's decision.

The Israeli Foreign Ministry had said it expected Chile to announce it was moving. The Netherlands, the only European country with an embassy in Jerusalem, is considering whether it should move.

There was speculation in Jerusalem that Israel might respond to the U.N. vote by going ahead with plans to move the prime minister's office to East Jerusalem, the predominantly Arab sector.

Secretary of State Edmund Muskie raises his hand Wednesday, indicating that the United was abstaining on a U.N. Security Council resolution condemning Israel. (AP Laserphoto)

Midland Memorial Hospital District Trustees voted to recommend acceptance to the Board of Directors of the proposed nearly \$15 million 1980-81 budget Wednesday when the trustees met in their regular monthly meeting

The directors were to vote on the budget acceptance today at their 2 p.m. public meeting when they will also set the tax rate for the district.

The proposed money subsidized by taxes in the hospital budget represents only \$2.06 million of the total \$14.97 million for the new fiscal year which begins Oct. 1, 1980.

The tax money will go to capital improvements, paying off bonds and indigent care. All of the operational budget, with the exception of indigent care money, will be paid for from

revenues produced from charges to patients.

In addition, the finance committee asked trustees to recommend a rate increase for patients beginning Oct. 1. Trustees approved the request to increase daily rates for semi-private rooms from \$90 to \$94; critical care unit rooms from \$205 to \$255; and post critical care unit rooms from \$140 to \$175. No increase is planned for regular private rooms which will remain at \$104 a day.

OVERALL INCREASES on services at MMH will average 12 percent, according to finance committee spokesman Doug Scharbauer.

Assistant Administrator of Finance Robert Abernethy said this is the first patient rate increase in nearly two years at the hospital. At that time, in late 1978, the hospital's rates increased \$10 across the board.

The capital improvements budget for new and repaired equipment for the next fiscal year will cost taxpayers \$755,800, according to the proposed budget. Debt retirement on improvement bonds will cost another \$826,460 of the tax money. The rest of the tax money, \$480,000, will go to indigent care costs.

The new budget is based on a patient load average of 130 a day. That average represents an increase of 10 patients a day since last year's budget and five patients a day from the average in recent months.

Abernethy told the board the budget would not precipitate an increase in tax dollars because of the increased revenue from the hospital's resources. He explained the increase in utilization of the hospital (the patient day increase) and the patient charge increases would yield the necessary revenue for the operational budget

S. S. M. S. pr with the granter

increases.

ABERNETHY SAID the rate increases would still bring the hospital's rates within "75 percent of the state average," according to Blue Cross-Blue Shield who worked out the new rates with the finance committee.

"So we're not overly high in that regard," Abernethy told the trust-

"It's a realistic budget," Scharbauer added. "By no means is it perfect, but I don't think we'll run into the problems we've been having (with

the current budget)." However, problems with the current budget continued last month, as the finance committee reported a \$9,-322 deficit for the month. The budget day! ed deficit for the month of July had

Oklahoma: Scattered showers and thunderstorms half, ending from northwest today and south-tonight. Clear to partly cloudy and warm riday elsewhere. Highs upper 80s Panhandle to toutheast. Lows upper 50s Panhandle to upper sast. Highs Friday 90s.

Clear with warm days and cool nights Highs 70s to low 80s mountains, mid 80s where. Lows mid 30s and 40s mountains,

Louisiana: Partly cloudy through Friday with widel; attered showers and thundershowers southeast. High to 101. Lows 73 to 80. Highs Friday 90s.

South Texas: Except for some isolated showers and undershowers mainly near the coastal sections over e weekend area will remain dry and hot. Righs will and the source will remain dry and hot. Righs will and so around 100 in some inland areas, 900 else-bere. Lows will vary from the low 80s near the mediate soft in the provide of the soft areas the

Extended forecasts

Saturday Through Monday West Texas: Partly cloudy. Chance of mainly after-noon and evening thunderstorms over the weekend. No important change in temperatures. Highs mid 80s north to the mid 90s south and near 100 lower elevations of the Big Bend. Lows mainly in the 60s except lower 70s

North Texas: Partly cloudy and chance of widely cattered thunderstorms Saturday and Sunday. Slightly armer Monday. Lowest temperatures upper 60s to ower 70s. Highest temperatures lower 90s to near 100

Tighter airport security seems to be working

MIAMI (AP) - Increased scrutiny of passengers on the ground and teams of sky marshals in the air seem to have halted the wave of air piracy that diverted six U.S. planes to Cuba last week, federal authorities say.

There have been no successful hijackings since Saturday's one-day record of three unscheduled Cuba trips, and there have been at least three foiled attempts in the past five avs. Fe eral Av ation Administra tion spokesman Jack Barker said Wednesday. Deputies reported that a lemon juice bottle full of gasoline was discovered in a Key West International Airport bathroom Sunday, while people carrying gasoline bottles allegedly intended for use as weapons were arrested in airports here and in Tampa over the weekend. Since last week's hijackings, armed marshals have been put on randomly selected airplanes and airport personnel revived "behavioral profiles," guidelines of how to spot potential

hijackers. Both measures were all but discarded in 1973 after improved security and metal detectors seemed to end air piracy.

"With the cooperation of the air carriers, we are having success. The combination of air marshals and increased security on the ground is keeping potential hijackers from getting on the plane," Hector Gonzalez, one of the armed federal sky mar

Unemployment to decline: Miller WASHINGTON (AP) - Treasury Secretary G. William Miller says President Carter's economic renewal program will cut the nation's unemployment rate next year below the 8.5 percent level now forecast by the administration.

"If this program moves along, your unemployment rate will be less in 1981 than the last Council of Economic Advisers' projection," he said in an interview. The council last month said joblessness would peak at about 8.5 percent and remain there throughout next year.

Miller spoke before he and other key advisers met with Carter on Wednesday to discuss wide-ranging aspects of the economic plan, which will be made public by the middle of next week.

The plan - while heavily guarded

payments; some direct spending for new jobs and retraining programs; and schemes to revitalize not only troubled industries, but also distressed regions and states such as Michigan and Pennsylvania.

It will emphasize new initiatives and bring together existing programs in a more coherent fashion, officials stress. While short-term goals will be highlighted, the plan is designed primarily for the long-run, they add.

Miller, who heads the Economic Policy Group that is developing the plan, said a formal options paper will be delivered to Carter by this weekend. The president has been kept apprised of the evolving program, Miller added.

This week, as debate continues within the administration, Carter aides are meeting with g oups of cor

"The process has been excruciating," said one administration official. The effort occurs in the midst of a re-election campaign and with strong pressure for a rapid tax cut coming from Senate Democrats and Republican presidential nominee Ronald Reagan.

It was made even more difficult by last week's Democratic National Convention, and the emergence of a platform plank - supported heavily by Sen. Edward M. Kennedy, D-Mass. that calls for a \$12 billion jobs program.

While Carter is opposed to such a huge pricetag, some direct spending for jobs will be included in the final program, say several administration sources.

This could add \$2 billion to \$4 billion

The depreciation changes for business will accelerate investment over the next five years, also leading businesses to hire more workers, this same official said.

The main tax package, Miller reiterated, would be designed to take effect Jan. 1 "at the earliest." Reportedly, administration officials envision a fiscal 1981 pricetag ranging from \$25 billion to \$30 billion and divided about half and half between individuals and business.

Miller again said that the administration adamantly opposes enactment of a tax bill before November's election. Whatever tax proposals are unveiled next week will not take the form of proposed legislation at this time.

On Capitol Hill, however, the Senate Finance Committee is already moving toward final approval of a tax reduction package to take effect Jan. 1 containing \$22 billion in cuts in personal income taxes and faster tax writeoffs for business. The committee plans to take a final vote on the bill Friday

Emergency personnel place MidTran bus driver Jordan D. "Buck" Buchanan on a stretcher after the bus he was driving collided head-on with a car driven by Sherrie Pipkin of

Odessa shortly after 7 a.m. today. Both were in undetermined condition at Midland Memorial Hospital this morning. The wreck occurred on the south service road of I-20,

east of FM 1788, just after Buchanan had unloaded all his passengers at Texas Instruments. (Staff Photo by Bruce Partain)

Second woman

sailor guilty

LONG BEACH, Calif. (AP) - A second woman sailor has been found guilty of homosexual misconduct aboard the USS Norton Sound and was recommended for discharge after a prosecuting attorney said her lifestyle "is not viable in the Navy."

An Administrative Discharge Board on Wednesday recommended Fireman Recruit Wendi Williams, 25, of The Bronx, N.Y., for a general discharge under honorable conditions.

"We are not saying homosexuality connotes poor character," said the Navy's chief prosecutor Lt. Andrew Hiblar. "It doesn't mean you are a laggard or a sluggard.

"It just means that you are not engaging in a lifestyle that is viable in the Navy. It means your lifestyle aboard ship cannot be tolerated."

The Navy contends homosexual contacts aboard ship could compromise the mission of the missile test

ship. Ms. Williams was the fourth of eight Norton Sound women to face hearings. Charges against two were found not to be substantiated.

shals, told a news conference at Miami International Airport.

Gonzalez, from Washington, was the first air marshal to talk publicly about his role. He said sky marshals work in teams - he wouldn't say how many people per flight.

"Before we take off, we get together with the crew, we show them where we're going to be sitting, we work out communications signals with the flight attendants, and then we act just like passengers," Gonzalez said.

We take preventive action first and try to stop someone from breaking the law, but if the person (hijacks the plane), we decide what action we'll take," he said.

Gonzalez refused to say what actions the sky marshals might take, but made it clear marshals are "prepared to fire our weapons.

The sky marshals began riding planes Saturday. Barker said most of the sky marshals are being stationed on short-hop flights in Florida and southbound flights from Atlanta and to Puerto Rico and Florida.

"I can't guarantee that there won't be any more hijackings, but with the effect of the security measures, I can tell the flying public they can get on airplanes and not be worried," Barker said.

The latest surge in hijackings began Aug. 10 when a Spanish-speaking man took over an Air Florida flight bound from Miami to Key West after threatening to detonate what turned out to be a box containing a bar of soap. Three days later, seven Cuban refugees hijacked another Air Florida flight as it flew from Key West to Miami.

Last Thursday, a National Airlines DC-10 was hijacked while on a flight from Miami to San Juan, Puerto Rico and last weekend, three separate flights were diverted to Havana's Jose Marti Airport by Cuban refugees apparently disgruntled with life in the United States.

will try to weave together a speedup in tax writeoffs to induce new investment; probable tax credits for individuals and companies to offset next year's rising Social Security

porate leaders, small business executives, state and local officials, members of Congress and consumer groups to gather their last-minute recommendations

Trustees give their nod to \$15 million budget

(Continued from Page 1A)

been \$41,657, leaving a favorable variance of \$32,335.

But, because of previous budget overruns, the year-to-date budget shows a deficit of \$161,014 as opposed to a budgeted deficit for the year-todate of \$41,684. This leaves an unfavorable variance of \$210,699 for the vear.

Patient days averaged 129.5 for July, as opposed to a budgeted patient load of 116 per day for the month.

Charge-off accounts for July totaled \$126,697.64, which represents \$86,717.28 in bad debts and \$39,980.36 for indigent care.

THE FINANCE committee broke down the bad debt figure into \$73,-366.44 for in-patient care and \$13,-360.84. However, when Trustee Margaret Purvis asked how many patients the bad debt figure represented, neither Scharbauer nor Abernethy was able to answer.

The trustees also approved the finance committee's recommendation to ask the directors to charge off an additional \$333,421.63 in old debts.

The "special write off for no payment action accounts 150 days and over as of July 31" was a result of a recommendation from the hospital's auditors for updating the hospital's accounts and streamlining the bad debt situation, according to Scharbauer.

Scharbauer said the back accounts amounted to some \$500,000. But the finance committee had only reviewed some 1,782 of those accounts to be written off and transferred to the

hospital's collection agency. "There are 66 pages here," Scharbauer told the trustees of the report the committee has been working on, 'with 27 to 28 (accounts) a page." He said each account was costing the hospital "roughly 60 cents a month" to keep "on the books." Combined, that figure became "\$1,100 a month just to keep them on the books," Scharbauer said.

Next month, he said, the finance committee would probably ask for the remaining \$200,000 in old, no-payment accounts to be written off.

Girl drowns in stock tank

GARDEN CITY - A 2-year-old Garden City girl drowned in a small backyard stock watering tank Wednesday near her parent's home eight miles west of Garden City.

Mrs. Norman Kohls, was dead on arrival at Midland Memorial Hospital at 7:14 p.m. Norman Kohls is the County Agent for Glasscock County. According to Glasscock County Sheriff Royce Pruitt, the little girl was discovered in the water by her sister at about 6:15 p.m. near the

Kohl's home. She was transported to Midland by emergency vehicle after attempts at the scene failed to revive the youngster.

in direct outlays to fiscal year's 1981 budget and increase the deficit somewhat, they add.

That deficit currently is projected at close to \$30 billion, far from the small surplus Carter envisioned earlier this year.

Just how the program will improve the job picture is difficult to say, however, because of the varied and integrated parts of the recovery plan, these officials stress.

"There probably will be some specific job initiative, emphasizing retraining," said one official.

But, beyond this, the administration foresees billions spent in coming years for energy production and conservation, and this should lead to more jobs.

In addition, Carter has promised heavy investment in mass transportation, including improved rail and port facilities - with much of the money coming from windfall profits on oil. "This implies new jobs to develop

the projects and then work at the finished structures," said one administration source.

Andrews man

hurt in wreck

ANDREWS - James Nathan Hewitt, 38, of Andrews was in stable condition this morning in the intensive care unit of Odessa Medical Center following an accident near here Wednesday.

According to the Department of Public Safety, Hewitt was westbound on Primrose Road, about 12 milles west of Andrews at 1:55 p.m. The car went out of control on a curve, and rolled into the west bar ditch.

Hewitt, who was driving a 1972 International truck, suffered internal injuries in the mishap.

Blind fare causes dispute at airport

Fare is fair, but this is going a little too far.

Police are investigating a report by Yellow Cab Driver Michael Philpot concerning a rather unexpected melodrama early this morning at Mid-land Regional Airport.

Philpot said he had driven to the airport about 12: 10 a.m. to pick up a passenger. When he arrived, he found the passenger talking to a United Cab driver, officers were told. Philpot got out to assist the passenger, who was blind, and the United Cab driver allegedly pulled a switchblade knife. According to reports, Philpot got his jack from the car to defend himself.

When the other cab driver saw the jack, he went back to his cab and took a handgun from the glove compart-ment of his car, Philpot told officers. The driver reportedly laid the gun on the roof of his cab.

Philpot reported that he finished helping the passenger into the cab and left.

Williams Jewelry in San Miquel Square reported that a \$2,895 wedding and engagement ring set is missing. A store employee told officers that Wednesday she was the only one who had opened the case containing the set. She also said she had shown the set to only one customer.

The set, containing five diamonds, was discovered missing about 2 p.m.

Police said there was no sign of forced entry at a residential burglary at 106 W. Pecan Ave. Wednesday. An estimated \$1,825 in items were taken.

The burglary occurred between 5:30 and 11 p.m. Kenneth Bruce Connor told police two sets of speakers, a cassette tape deck, amplifier, AM-FM radio, eight-track tape player,

About \$795 in tools were taken from house at 2609 Dengar Ave. Louis J. Bevacque reported that between noon and 9 p.m. someone entered the garage and stole a tool box, socket set and miscellaneous hand tools.

tapes and albums were missing.

The Midland Fire Department reported two major fire alarms Wednesday - an oven fire and a natural gas fire.

The oven fire, at 2104 Brunson Ave., was smoldering when firefighers arrived at 8:14 p.m. There was heavy damage to the oven and light smoke damage to the kitchen.

At 3:01 p.m. Bill Napper reported a natural gas fire under his trailer house at 601 E. Florida Ave. The fire, however, was out when firemen arrived. There was no damage, according to Fire Department reports. Seven people were transported by CFD ambulance.

Closing arguments today in trial of J.L. Nichols

By ED TODD Staff Writer

Prosecutors and defense attorneys were to give their closing arguments today before jurors in 238th State District Court. The jury then would begin deliberations on the guilt or innocence of J.L. "Jack" Nichols, who is charged with aggravated assault with a deadly weapon.

Nichols, a 28-year-old former U.S. Postal Service mail carrier, is charged with confronting lawmen who had entered his house with drawn sidearms - with a sawed-off shotgun May 27 and forcing them to retreat.

The two plainclothes lawmen, Midland narcotics undercover officer Mike Mann and Deputy Constable Tom McGinnis, said they had driven to the Nichols residence just south of Midland to serve a search warrant. They were going to look for marijuana allegedly growing in a flower bed and to search for other "contraband.'

Both officers said that they identified themselves as lawmen, but that Nichols slammed doors on them. Mann told the court he was attempting to serve the warrant at the front door, while McGinnis was at the back door to prevent anyone from leaving the house.

Mann testified that he verbally identified himself as a police officer to Nichols' wife, Beverly Ann, 32, and had displayed his badge, identification and the search warrant.

McGinnis, donned in Western attire and wearing a badge, said he identi-fied himself to Nichols.

McGinnis said that Mrs. Nichols seemed "upset" and that Nichols was

almost hysterical after the lawmen entered the house, where they eventually wound up in a "stand-off" with Nichols who forced the lawmen to retreat.

The couple was arrested, jailed and charged later that day after police, sheriff's deputies, Texas Department of Public Safety troopers and a Texas Ranger converged on the Nichols place with firearms and tear gas. The couple surrendered without incident.

Both are charged with aggravated assault with a deadly weapon. Penalty for each count of the offense is a two-to-10-year prison term and a fine not to exceed \$5,000.

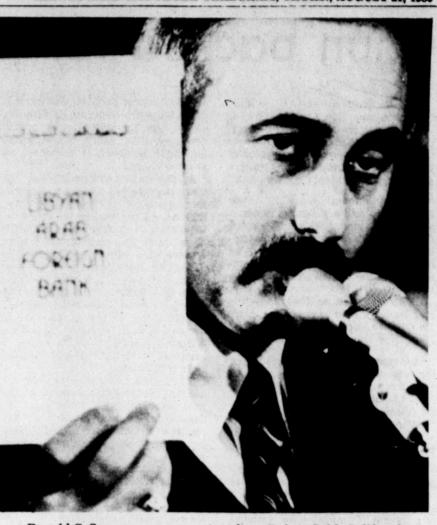

Penalty for possession of a sawedoff shotgun is a two-to-20-year term in the penitentiary and a fine not to exceed \$10,000.

Nichols, unable to post a bail bond, has been held in custody since the night of May 27. His wife was released under a property bond about three weeks later.

Prosecuting the case are District Attorney Vern Martin and assistant district attorney Jim Rex. Lead defense counsel is Jimmie D. Oglesby, who is being assisted by Bill Ward. Both the state and defense rest-

ed their case Tuesday after only two witnesses - Mann and McGinnis testified on behalf of the state. The defense offered no witnesses, as Nichols sat quietly thoughout the daylong testimony.

Late Tuesday and on Wednesday, the court's presiding judge, Vann Culp, and the attorneys prepared the charge to be presented to the jury following closing arguments today. The case is being heard by a fourman, eight-woman jury.

Ronald C. Sprague, an accountant from Bakersfield, Calif., who went to Libya to negotiate a \$500,000 loan for President Carter's brother, Billy, holds up a prospectus from the Libyab Arab Foreign Bank during testimony on Capitol Hill Wednesday. He testified that the Libyans never answered his request for the money, but when he questioned Billy Carter's partner, Randy Coleman, about the \$200,000 check, Coleman told him "You weren't supposed to know." (AP Laserphoto)

Billy Carter testifying at Senate hearing today

WASHINGTON (AP) - Billy Carter faces a Senate committee in vestigating his financial dealings with Libya and his claim that he hasn't "done a damn thing wrong" or influenced U.S. policy toward the radical North African nation.

The president's brother was called to the witness table today to defend his claims of innocence and his contention that he was never a Libyan foreign agent, even though he has registered as an agent of the Arab country

But Sen. Birch Bayh, D-Ind., chair-, man of the special Senate investigating subcommittee, said testimony Wednesday raises "a possibility" that the \$220,000 Billy got from Libya was a fee, not the loan Billy Carter says it was

And the Senate investigators still want to know whether Billy asked the White House about the C-130 cargo planes Libya bought but President Carter's administration won't release because Libya supports international terrorists.

The testimony Wednesday came from a financial consultant who said Billy Carter instructed him to press Libya for payment of a \$500,000 loan after Carter had already received the \$220,000.

The consultant, Ronald C. Sprague, testified that he assumes the \$220,000 was part of the \$500,000 loan but said, "I don't know if it was this loan or something else."

He told the senators that when he learned of the \$220,000 for the first time from a newspaper story, "I was

as surprised as you are." Sprague said he called Billy Carter's associate, Henry "Randy Coleman, to ask why he had not been told of the \$220,000 and Coleman re-plied, "You weren't supposed to

Sprague said he replied "fine" and did not ask why he was not supposed to know. He said Coleman "led me to believe it was part of the loan.'

Billy Carter got \$20,000 last Dec. 27 and \$200,000 last April 7, both from the Libyan diplomatic mission in Washington.

Sprague said Billy instructed him to cable the Libyan National Foreign Bank on April 7 that Carter accepted its terms for the \$500,000 loan and to send telexes April 11, April 14 and May 2 pressing for payment

"If I had known (about the \$220,-000), the (May 2) telex would not have been sent," Sprague testified. "I sent it on Mr. Carter's instructions.

The Justice Department said in a civil suit filed July 14 that Libya paid Carter the \$200,000 in return of his conducting "a propaganda cam-paign" for that country and for promoting its image in America.

The \$220,000 was one of two known financial dealings Carter had with Libya. The other was his effort to broker Libyan crude oil to the Florida-based Charter Oil Co.

Linking the two deals, Sprague tes-tified that Carter had told him he planned to repay the \$500,000 loan with his fee from the oil deal.

Lions hear violin maker

The "labor of love" of violin making was the program topic at the Wednesday noon meeting of the Downtown Lions Club in the Midland Center.

The speaker was Denver "Slim" Petit of Big Spring, the veteran "old master" violin maker, who is recognized as one of the three best craftsmen in his particular field in the United States. He was introduced by Lion Norman Henry, program chairman for August.

Petit, a native of Nolan County who was reared in the West Texas ranch country, started his talk by telling 'why I am what I am." He told why he did not follow in his father's footsteps as a top horse wrangler and trainer, and why he eventually started building violins.

"I'm a 100 percent born and raised West Texan," he said, "but I was

interested in being something other than a cowboy - something like building violins."

He told how he learned the art of violin making, and described the process followed, along with the precision handwork essential, in building violins. He said a person must work alone in violin making — "there is no other way." He added that one has to be a craftsman to make a violin, "but one must also have a bit of artistry in him" in order to be successful.

Petit, who has taught a course in violin making at Howard College at Big Spring, displayed one of his instruments, along with pieces of wood from which his violins are made. He also explained the difference between a violin and a fiddle. He concluded his performance by

playing two tunes on one of his most recently made instruments.

DEATHS Arthur King

Arthur L. King, 77, 2010 Keith St., died Monday evening in a Midland hospital following a lengthy illness.

Services were be at 4 p.m. Wednes-dayin Fort Worth and Jax Street Church of Christ with Clyde Freeman officiating, assisted by Don Mitchell. Burial was in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

Pallbearers were Robert Fleming and Ted Fleming, both of Odessa, Raymond Smith, J.T. Flowers, Red Weiss and Leonard Jobe.

Honorary pallbearers were to be Audie Porter, Elbert Yoes, Dale Woolard, Lester Wright, Madison Box, Bill Crozier and Rubin Hemmingway.

Lacy D. Way

BIG LAKE - Service for Lacy D. Way, 67, of Big Lake will be at 4 p.m. Friday in Big Lake First Meth-odist Church with burial in Big Lake Cemetery directed by Johnson's Funeral Home of San Angelo.

Way died Wednesday in a Big Lake hospital.

Born Sept. 12, 1912 in Fort Worth, Way was married to Doris Pembrook June 12, 1934, in Big Lake. He had lived in Texon and Big Lake since that time. A rancher, he was a director of Reagan State Bank and the Rankin Bank. He was a Methodist. Survivors include his wife, Doris

Way of Big Lake; two sons, Ralph L. Way of Midland and Richard Way of San Angelo; two daughters, Ann Schneemann of Big Lake and Linda Albert of San Angelo; a sister, Wilma Davis of Perry, Ga.; and 10 grandchildren.

Gertrude Nelson

BIG SPRING — Gertrude Nelson, 66, of Big Spring, sister of Vernon Hart of Midland, died Wednesday in a Midland nursing home.

Graveside services will be at 10 a.m. Friday in Mount Olive Memorial Park in Big Spring directed by Nalley-Pickle Funeral Home.

She was born Dec. 31, 1913, in Big Spring and operated Gertrude's Beauty Shop until her retirement. She was preceded in death by her husband, Jack Nelson.

Other survivors include two brothers, Joe Lewis and W.K. Lewis, both of Fort Worth; a sister-in-law, Myrtle Nelson of Big Spring; two stepsons, Charles Nelson of Fort Worth and Carter Nelson of Florida; and five nephews and a niece.

The family requests that memorials be made to the donor's favorite charity.

Maurice Upham SEMINOLE - Services for Maurice Upham, 57, of Seminole, father of Nancy Barnes of Midland, will be at 10:30 a.m. Friday in Seminole First United Methodist Church with

the Rev. Danny Whitehead, pastor, officiating. Burial will be in Seminole Cemetery directed by Singleton Funeral Home. He died Friday in a Seminole hospi-

tal following a brief illness. Upham served in the U.S. Air Force during World War II and was married to Nancy Jean Smith Jan. 22, 1942, in Pampa. He lived in Lefors before moving to Seminole 25 years ago. Upham was employed as a field man for Cities Service Oil Co. and was a member of Seminole First United Methodist Church.

Other survivors include his wife, a daughter, two sons, three sisters and six grandchildren.

Verna Lee Lacy

ODESSA — Services for Verna Lee Lacy, 80, of Odessa will be at 11:30 a.m. Friday in Hubbard-Kelly Funeral Home chapel with H. Bailey Stone, pastor of First Baptist Church of Odessa, officiating. Burial will be in Sunset Memorial Gardens in Odessa. Mrs. Lacy died Tuesday in an Odessa hospital following a heart attack.

She was born Oct. 25, 1899, in Bowie. She was married to the late R.E. Lacy Oct. 25, 1922, in Chickasha, Okla. They moved to Goldsmith from Buckeye, N.M., in 1947 and then to Odessa in 1974. She was a member of the First Baptist Church of Odessa.

Survivors include three sons, James W. "Jim" Lacy of Midland, Ralph E. Lacy of Greensboro, N.C., and the Rev. Donald L. Lacy of Pittsburg, Kan.; a daughter, Helen L. Sledge of Odessa; 10 grandchildren, one great-grandchild and several nieces and nephews.

Page Blakemore

Page Blanton Blakemore, 91, died Monday at the residence of his son, William B. Blakemore II.

Services will be at 4 p.m. Friday at Iron Mountain Ranch at Marathon with the Rev. Joseph H. Schley Jr., pastor of St. Nicholas Episcopal Church of Midland, officiating. Burial will be at the ranch with Newnie W. Ellis Funeral Home in charge of arrangements.

Blakemore was born Aug. 19, 1888, in Kentucky. He was graduated in 1910 from the University of Kentucky as a mining engineer. On March 17, 1918, he was married to Ethel Virginia Sights. She died in 1967.

Blakemore worked as a mining engineer and geologist until a few years

Chun backed for presidential spot

SEOUL, South Korea (AP) - Military strongman Gen. Chun Doo-hwan, virtually certain to be named president of South Korea next week, won strong endorsement for the post today from the nation's top military leaders and former President Choi Kyu-hah.

At a commanders' meeting, all the At a commanders' incension, an incompany in the nation's top military figures issued a statement saying, "We are all agreed that (Chun) is equipped with excellent qualifications, unequalled by others, not only as supreme commander of the armed forces but also the nation."

Choi's statement said only that "the new leader should have support of all the nation as well as the military, and Gen. Chun Doo-hwan has that.'

Choi resigned last Saturday to pave the way for Chun to take over the presidency. Acting Prime Minister Park Choong-hoon took over as acting president, pending next Wednesday's meeting of the electoral college, which is expected to name Chun president.

Chun has virtually run the country since Dec. 12 when he led a brief military coup. He has been named chairman of the standing committee of a special "Committee for National Security Affairs" set up earlier this year to take charge of all phases of the government.

Since then, he has initiated a series of "purification campaigns" that have resulted in the dismissal of hundreds of government officials, and the arrest of tens of thousands of socalled "hoodlums and hooligans," many of whom have been sent to "reeducation camps" or are awaiting

Meanwhile, the court-martial of

Editor ordered

to court

AUSTIN, Texas (AP) - The editor of the University of Texas student newspaper has been ordered to appear in court Monday with pictures of Iranian students demonstrating during a speech by an official of the former shah's regieme.

Daily Texan Editor Mark McKinnon said he was subpoenaed Tuesday morning. He said two former managing editors of the paper, a former editor, the generdissident leader Kim Dae-Jung and 23 of his followers went into its fifth day today. Kim, the nation's most promi-nent opposition leader, faces a possible death sentence if convicted on sedition charges.

THE MIDLAND REPORTER-TELEGRAM, THURS., AUGUST 21, 1980

As the session got under way, de-fense lawyers told the court that former opposition party Assemblyman Kim Sang-hyun wished the other defendants ordered from the room while he testified. The co-defendants were removed by military police despite objections from some of their lawyers.

As four previous defendants had done before him, Kim Sang-hyun admitted some of the actions he is accused of in the indictment, but vehemently denied trying to incite or organize violent anti-government riots or sedition.

Martial law authorities continued to heavily censor press reports of the trial proceedings to elimiminate the defendants' denials, but their ac-counts were confirmed by foreign embassy observers present in the courtroom.

During the session, prosecutors told the court that a university student arrested after the violent rebellion May 18-26 in the southern city of Kwangju had recently tried to commit suicide in his prison cell.

They said the student had confessed to allegedly receiving money from Kim Sang-hyun to fund the insurrection. "He said he lost face as a man, having confessed to receiving the money," a prosecutor said. The student, who is not one of the defendants, was not present in court and no further details were given. Kim Sang-

BARGAINS!

Park Chung-hee and the present mar-tial law regime, is accused of inciting anti-government demonstrations in early May and the subsequent Kwangju rebellion in which an estimated 260 persons died. He is also accused of being pro-communist and of trying to overthrow the government. His 23 followers were indicted for allegedly helping to organize or

taking part in the disturbances. Kim has vehemently denied that any of his actions were seditious, or that he had any violent intent. He said he was just trying to become president through elections.

Schedules, registration forms are now available at UTPB

ODESSA - Class schedules and registration forms for the fall semester at The University of Texas of the Permian Basin are now available in

About 250 classes are listed on the schedule. Registration is slated Sept. 2-3 in the student lounge at UTPB. Students may enroll from 9 a.m. to noon and from 2 to 7 p.m. each day. **UTPB** Director of Admissions Ro-

bert Warmann noted enrollment will be by individual time assignment. Registration materials will be mailed to students. If the materials have not been received by Friday, they may be picked up in the admissions office beginning Monday. Enrollment at UTPB is open to

students who have completed 60 hours of coursework at any accredited community college, senior college or university.

Warmann said prospective students should notify the registrars at their previous colleges to send official transcripts directly to the UTPB admissions office. An application should also be on file to avoid delays in the registration process.

Students who are not pursuing a

degree, but who are interested in taking courses for enjoyment or more information in a particular field should obtain special registration forms for the ENCORE program.

"ENCORE students, by law, must meet regular admissions requirements, but will not be required to take exams or complete outside assignments," he said.

Further information about registration is available from the admissions office at 367-2210.

Grady school starts Monday

RUNNELS STRIKE

E.B. Fletcher of Dallas announced potential on No. 3-386 Dorothy Talamantes, a Gardner oil discovery in the northwest portion of the Deike (Fry and Goen) field, in Runnels County.

On potential test, the well pumped 25 barrels of 42.3-gravity oil and 115 barrels of water, through perforations from 4,946 to 4,951 feet, after an acid treatment of 500 gallons.

Total depth was 5,080 feet, with

RK Petroleum finals lower Mississippian oil discovery

RK Petroleum Corp. of Midland has announced potential on No. 1 J.E. Peugh, a lower Mississippian oil discovery in Martin County. Operator has proposed the field des-

ignation of Cedar Flats (lower Mississippian).

The well pumped 82 barrels of 45-gravity oil and 50 barrels of water through perforations from 10,600 to 10,612 feet, which had been acidized with 1,000 gallons.

The gas-oil ratio is 1,305-1. The well bottomed at 11,026 feet, and 5½-inch casing was set at total depth.

Location is 660 feet from north and 860 feet from east lines of section 13, block 35, T-2-N, T&P survey, 5.5 miles northeast of Lenorah.

The following tops were picked on ground elevation of 2,566 feet: Yates, 2,138 feet; Dean, 8,300 feet; upper Mississippian, 10,206 feet; and Woodford, 10,879 feet.

MIDLAND RE-ENTRY

Gulf Oil of Midland will re-enter No. 12 C.A. McClintic et al and plug back from the Spraberry to 7,300 feet for tests as a wildcat.

Location is 660 feet from north and from west lines of section 59, J.R. Ray survey, abstract 972, 13 miles southeast of Midland.

The Spraberry Trend Area produces at approximately 8,000 feet.

MARTIN EXPLORERS

MGF Oil Corp. of Midland has staked location for two deeper-pool wildcats in the Spraberry Trend Area of Martin County.

No. 1 Henson is 660 feet from south and 1,980 feet from east lines of section 24, block 36, T-1-S, T&P survey, 1.5 miles southeast of Stanton. Contract depth is 10,200 feet.

No. 2 Henson, another 10,200-foot test, is 660 feet from south and from west lines of section 19, block 35, T-1-S, T&P survey, two miles southeast of Stanton.

Both wells will also conduct tests in the Spraberry, which produces at approximately 8,000 feet.

WILDCAT AMENDMENT

Amoco Production, operating from Midland, has amended No. 1 David Fasken "BH," a former long outpost to the five-well Fasken, South (Atoka) field of Ector County, to wildcat status.

all drilled to a depth of approximately 8,200 feet. It is also 1 4/5 miles south of the two-well Hataway (Strawn) field, which produces at 7,704 feet. Ground elevation is 2,454 feet.

PECOS PROJECTS

Arbusto Energy Inc. of Midland has staked location for No. 9A Arbusto Energy Unit in the seven-well (Leon Valley (O'Brien) field of Pecos County, three miles southwest of Fort Stockton.

Drillsite is 467 feet fom south and from east lines of section 9, block 29, University Land survey. Contract depth is 2,800 feet.

Texas Oil & Gas of Midland will re-enter No. 2 Blackstone-Slaughter "B" in the Yucca Butte, West field of Pecos County, to plug back from the Ellenburger to 10,855 feet for tests in the Strawn.

Location is 990 feet from north and 1,290 feet from west lines of section 59, block A-2, TCRR survey, six miles west of Sheffield.

There are currently seven wells in the Yucca Butte, West (Strawn) field.

WINKLER RE-ENTRY

Cotton Petroleum Corp., Midland, will re-enter No. 1 Thomas in the Emperor, East field of Winkler County, and plug back to 9,497 feet for tests of the lower Clear Fork.

Location is 660 feet from south and 1,980 feet from east lines of section 18. block B-5, Public School Land survey, four miles south of Kermit.

Originally drilled in the Emperor (Devonian), the well has been reworked once before in an unsuccessful completion attempt from the Emperor (Wolfcamp).

ANDREWS OILER

ANDREWS COUNTY Guif No. 5 State "FY"; td 9,291 feet; pb 5,200 feet; testing; swabbed 27 barrels of water in 10.5 hours, through perforations at 4,837-4,922 feet. Monsanto No. 1 Fisher; td 4,827 feet; still shut-in.

CHAVES COUNTY NRM Petroleum No. 1-8 Federal; drilling 7,150 feet.

CULBERSON COUNTY Orla Petco No. 1 Bill Meeker; 4,100 feet; waiting on completion uni set 4.5-inch casing at td.

GLASSCOCK COUNTY Kenai No. 1 Ratliff; drilling 3,100

feet. Charles O. Semple No. 1 Clyde C. Reynolds: td 2,843 feet; still waiting on logging tools. Sun Oil Co. No. 1-A Hutchison; drilling 5,960 feet in lime and shale.

The eight-well Nix, South field of Andrews County has gained its ninth produceer with completion of Rankin Oil Co., Midland, No. 2 Pibsworth et

Operator reported pumping potential of 38 barrels of 40-gravity oil and 64 barrels of water on 24-hour test, with a gas-oil ratio of 550-1.

Production was through perforations from 6,834 to 6,872 feet, which had been acidized with 3,800 gallons.

The pay was topped at 6,831 feet. Drilled to total depth of 6,990 feet, where 5½-inch casing was set, it was

Location is 660 feet from north and 1,980 feet from west lines section 13, block A-42, Public School Land survey, 16 miles west of Andrews.

TERRY PROSPECTOR

Maynard Oil Co., Dallas, will drill No. 1 R.G. Beasley as a 7,100-foot wildcat in Terry County, 13 miles northwest of Brownsfield.

Located 660 feet from south and from west lines of section 1, block D-8, EL&RR survey, the project spots 1¼ miles south of a 10,619-foot dry hole, and 1¼ miles east of a 10,860-foot dry hole. There is no nearby production. Elevation is 3,431 feet, ground level

IRION EXPLORERS

Two wildcats have been staked in **Irion County**

Tucker Driling Co. Inc. of San Angelo will drill No. 1-52 Farmar as an 8,000-foot test, 10.5 miles west of Mertzon.

Drillsite is 1,667 feet from south and 2,170 feet from east lines of section 52, block 1, H&TC survey. It is adjacent to the Flint Hill (Canyon) field, which produces at 7,465 feet.

Phoenix Resources Co., Pleasanton, has staked location for No. 5 Sugg "B," as a 5,100-foot wildcat, as an east offset to the nine-well Howda (Clear Fork) field which produces at 4,480 feet, and as a 1¼-mile northeast outpost to the current two-well Howda (San Andres) field which produces at 1,994 feet, in Irion County.

Location is 2,230 feet from north and 1,860 feet from west lines of section 47, block 14, H&TC survey, 10 miles north of Barnhart.

IRION CONFIRMER

Meadco Properties of Midland has announced potential on No. 2-1904 A. Sugg, the fourth producer in the Ela Sugg (Canyon oil) field of Irion Coun-

On potential test the confirmer pumped 22 barrels of 39.9-gravity oil and 3 barrels of water through perfo-rations from 7,389 to 7,417 feet, which had been acidized with 4,000 gallons. The gas-oil ratio was 9,000-1.

Wellsite is 1,731 feet from north and 1,337 feet from west lines of section 1904, T.J. Halsel survey, 22 miles northeast of Barnhart.

The well drilled to a total depth of 7,525 feet, with 41/2-inch casing set at

No. 1-13 A.A. Sugg potentialed for a calculated absolute open flow of 777,-

The pay was treated with an acid job of 5,000 gallons, and a fracture job of 20,000 gallons.

The project is contracted to 7,800 feet. ****

BTA Oil Producers of Midland staked location for No. 1 Napper, a 1/2-mile west offset to the current nine-well Welch, Southeast (Spraberry) field of Dawson County.

Location is 330 feet from south and from east lines of section 11, block M, EL&RR survey, 8.5 miles northwest of Lamesa.

The test is scheduled to 7,850 feet, on

Gulf Oil Corp. staked location for No. 4 Marguardt-Federal, a 9,800-foot

Wolfcamp wildcat in Eddy County,

184 oil, gas projects announced in Permian Basin areas

THE MIDLAND REPORTER-TELEGRAM, THURS., AUGUST 21, 1980

West Texas and southeast New Mexico counties in the Permian Basin last week gained 184 more oil and gas projects.

Forty-five of the new projects are in wildcat country and the other 139 are in proven field areas.

District 8 of the Railroad Commission of Texas, headquartered in Midland, processed applications requesting permission to drill on six wildcats and 34 field operations.

District 8-A, headquartered in Abilene, handled applications on four wildcats and and 48 field operations. County Wildcat Field **District 8**

SCHLEICHER COUNelev 3,561 gl. Wildcat: Collier En-Mozell (Queen): Big ergy, Inc., Artesia, N.M., Four Oil & Gas No. 2 No. 1 Moat Federal, 990 A WHITE NEWSMAN and friend of mine is

disturbed that most black leaders in the country today are calling for more government aid and Andres): Coronado Ex- assistance in alleviating the situation among black youths and adult black males today. At the same time there is a growing sentiment with both black 660 fsl, 1,980 fwl, sec 7- and white leaders that there are far too mony black 10s-28e, 25 ne Dexter, 2,- youths who are looking for work "and hoping to God I don't find it.

These same leaders report that there is a growing (San Andres): Charles number of young black women in our cities, as well W. Harle, Sonora, No. 3 as women from other minority groups, who specialize in having babies "on the outside" in order to increase their welfare checks.

> **OUR CALIFORNIA** bellringer sources report that during the governorship of Ronald Reagan in California, thousands of "welfare girls and boys" were offered or given jobs, and if they were healthy and refused, they were taken off the welfare rolls. Day care centers were established to take care of the children of welfare mothers. It's just that simple, theee leaders report.

There can be little doubt that both the Republican and Democratis parties must find a way out of the present welfare jumble and jungle, and as our friend put it in one of his columns recently: "There seems an unwillingness of middle-class blacks to shoulder responsibilities commensurate with their gains and has caused black leaders to lose followers and race tensions to rise in many of cour cities, that has to haunt all Americans.'

And as the black Oklahoma Eagle recently put it: The key to participatory is participation. Marching, demonstrations and rioting have long since lost their impact and are now counter-productive. Politicians are going where the votes are. We must register and vote this time around. We must make our presence felt at the ballot box."

With BOB TIEUEL

There are over 40,000 airline pilots in the country, and less than 200 of them are black. Of that number, less than 20 are captains. Says Samuel Graddy, a captain with Delta Airlines, "There is total acceptance, but always a raised eyebrow. I can see that the sight of a black pilot surprises people. Black people like to stop in the cockpit and say hello. I can see the pride they feel."

The captain on an airline flight is "the" pilot, according to Jackson Stone in Dawn, and his \$80,000 to \$100,000 annual salary is more than double that of a co-pilot (first officer) or flight engineer (second officer).

Marlon D. Green, a former Air Force captain, filed a lawsuit against Continental Airlines in 1957, after seeing the airline hire five white applicants with less flying time than he had amassed. The battle went to the U.S. Supreme Court, which in 1963 ruled in favor of blacks who come through the pipeline.

Fred Boone, a captain for Delta Airlines, says it took him 11 years to reach the top of his profession. Boone explained that military training is almost a No. 1 T. L. Watts, 1,650 must for most black pilots. He explained that those fnl, 1,980 fel, sec 21-17s- who don't reach the top in the commercial airline field can usually secure employment as pilots for other enterprises such as lumber companies (log spotters), oil companies (flyig passengers to rig

Boone said that commercial airline pilots are required to work only 14 days a month because "it's important that you get the proper amount of rest and the right amount of diversion from the job. It gives you renewed vigor when you return to work." Bellringers interested in aviation careers should contact The Organization of Black Airline Pilots

locations) and crop dusting firms.

Salazar, of San Diego, and Royster,

of Atlanta, both came up with two hits in one inning Wednesday night, starting and finishing winning rallies for their clubs.

Salazar singled to open the fifth inning and then capped the six-run burst with an RBI-single as the Padres snapped an eight-game losing streak by beating the Philadelphia Phillies 7-5.

Royster led off the Braves' game with a single and then climaxed the seven-run first-inning explosion with a two-run single and Atlanta went on to defeat the Chicago Cubs 9-5.

"That's a first for me," said Royster. "I can't recall ever coming to bat twice in an inning before.'

Padres 7, Phillies 5 The Padres trailed 5-1 before sending 11 men to the plate in the fifth.

Salazar singled and scored on Dave Winfield's 14th home run of the season. Willie Montanez singled, Craig Stimac was safe on an error by Nino Espinosa, both runners advanced on an infield out and Tim Flannery was intentionally walked to load the bases

Pinch hitter Broderick Perkins reached first on an error by shortstop Larry Bowa, Montanez scoring. Richards then singled in two runs and Salazar completed the six-run rally with his RBI-single.

Braves 9, Cubs 5

After Royster's leadoff single, Rafael Ramirez tripled and Bob Horner hit his 27th home run of the season. Chris Chambliss followed with a single, Dale Murphy doubled and both scored on a double by Glenn Hubbard. Then, after a walk to Bill Nahorodny and a sacrifice by pitcher Larry McWilliams, Royster drove in Hub-

bard and Nahorodny with his second single of the inning to make it 7-0. Royster says he likes the feeling in the Atlanta lockerroom

"In the past we didn't know or care what the other teams were doing," he said. "This year we're watching all the other teams and trying to get in contention ourselves. We're relaxed now and I'm enjoying it."

Dodgers 5, Expos 1 Los Angeles' Jerry Reuss hurled a six-hitter, struck out five and did not walk a batter in raising his record to 15-4, but afterward he said he didn't feel well.

"To be honest with you, I really felt sick out there," said Reuss. "I didn't feel well at all and I just tried to go one inning at a time. I don't know if it was the 24-hour flu or food poisoning. I got dizzy a few times, but that was about all.

Giants 2, Mets 1

The San Francisco Giants climbed to the .500 mark by handing the Mets their seventh straight loss behind the combined eight-hit pitching of Al Hargesheimer and Greg Minton.

"Getting to .500 is quite a feat," said San Francisco infielder Darrell Evans, "considering we were 10 games under .500 in April. Normally it would be a salary drive for us at this time of year, but we have the pitching and the bullpen to win the West."

But one bad note for the Giants came in the sixth inning, when slugger Jack Clark was hit by pitch from Mark Bomback, suffering a bruise on his left hand and being forced to leave the game. Clark ws scheduled for X-rays today.

Reds 4, Cardinals 3

George Foster hit a two-run homer and Dan Driessen a solo shot, but it was Driessen's sacrifice fly in the 12th that produced the winning run for Cincinnati.

Buried somewhere in that cloud of dust is the Mets' Lee Mazzilli, trying to score from second on a hit by Claudell Washington. Somehow San Francisco catcher Milt May found the runner in the cloud and made the tag for the third out. (AP Laserphoto)

ikings cut Steve Niehaus

By TOM CANAVAN **Associated Press Writer**

It's a long jump between rookie of the year and all-pro. But Steve Niehaus discovered something else - it's a longer fall it you miss.

Niehaus, the second player selected in the National Football League's draft in 1976, was one of 15 players released as Minnesota cut its roster to 59 players, one man below the maximun. The Vikings announced the cuts Wednesday although the moves were required to be made by Tuesday afternoon.

Niehaus, an All-American at Notre Dame in 1975, was the NFL's defensive rookie of the year with Seattle in 1976. But he never lived up to his potential although he was hampered by knee injuries.

The 6-foot-4 defensive tackle was acquired by the Vikings last season in a trade with Seattle for veteran Carl Eller and a draft choice. He spent most of the season on the injured reserve list.

The Vikings also released running back Dennis Moseley, who led the Big Ten Conference in rushing while at Iowa last season. Minnesota added one player to its roster, punter Skip Johnston of Auburn, who had been released by Sesttle.

In other transactions, the Cleveland Browns picked up quarterback Pete Woods, who had been released by Denver Tuesday, and waived 12th-round draft choice Mike Wright.

Miami signed veteran linebacker Larry Gordon to a four-year contract. The Dolphins also waived seven players including center Doug Lantz of Miami (Ohio), and linebacker Ben Long of South Dakota, a pair of 10thround draft choices.

St.Louis negated a trade with Los Angeles, returning Walter White to the Rams after the tight end failed his physical. The Cardinals also waived wide receiver Jeff Lee.

SPORTS IN BRIEF McEnroe upset by John Austin

By The Associated Press TENNIS— Top-seeded John McEnroe was knocked out of the \$75,-000 Atlanta Open tournament in his first match, a 7-6, 6-4 upset by unseeded John Austin...

Martina Navratilova struggled to a 2-6, 6-4, 6-3 victory over Lele Forood and advanced to the third round of a New Jersey tennis tournament.

FOOTBALL— The National Foot-ball League Players Association filed suit against Mike Trope and 24 other player agents, accusing them of con-spiring to cause problems for the association. Gene Upshaw, president of the NFLPA, and 10 players along with the association itself filed the suit against Trope, Ernie Wright, Jerry Argovitz and others in U.S. District Court in Los Angeles. The 27-page suit charges that the agents have conspired in violation of antitrust law to corner the market on the players.

TRACK

Don Paige won the 800-meter race, clocking 1:47.88, in an International track meet at Malmo. Sweden. Other American winners were sprinter Stanley Floyd, quarter-miler Walter McCoy and high jumper Nat Page. Floyd ran the 100-meter dash in 10.21 seconds; McCoy took the 400-meters in 46.99 and Page won the high jump, rising 7%-feet. Filbert Bayi of Tanzania won the 3,000-meters in 7:53.92.

HORSE RACING- Count Deter-mined, \$18.20, edged Red Sandy by a head to win the \$10,400 feature at Louisiana Downs... Shadiz, \$10.80, won the feature at Finger Lakes Race Track by a half-length over Kid Rogue... Fairway Phantom, \$10.20, edged Linnleur by a neck to win the \$27,475 Arch Ward Stakes at Arlington Park... Native Fancy, \$4.40, edged Raja's Delight by a nose to win the \$38,00 Sorrento Stakes at Del Mar...

the only way he can stop it. He doesn't manufacture ills when a flame-throwing left-hander is due to pitch for the other team.

By consensus of Baseball Men, he is the best all-around player in the game today and if anybody is entitled to hit 400, it should be him, by gum.

Usually, Baseball Men guard their heritage with grim jealousy. Modern players, they say, couldn't ride in the same Pullman with Ty and Honus and Shoeless Joe, so they don't wish to see their names get equal billing in the record books. They got nervous when Pete Rose, even with HIS oldtimey image, made a run at Joe DiMaggio's hitting streak. Some will never forgive Hank Aaron and Roger Maris for making the same paragraph as Babe R7th.

Batting scientists have thought, for years, that Rod Carew would be the next .400 hitter, if such a human has not become extinct as the dodo bird. But Carew doesn't command the same respect as Brett.

THERE ARE critics who claim Carew is overly self-centered, that he babies his batting average with the tender care of an orchid gardener. If a tough left hander such as Ron Guidry is scheduled to oppose the California Angels, say the critics, Carew sometimes develops strange ailments that relegate him to the bench for an afternoon. Of course, you\$hear this about several other hitters also, but not about George

Captains defeat

Mets, 4-3

By Associated Press Relief pitcher Nate Snell helped his own cause Wednesday night by tripling home the winning run in the 11th inning as the Shreveport Captains took a 4-3 Texas League baseball victory

over the Jackson Mets. In other Texas League games, Arkansas shut out Tulsa, 3-0; Midland Manked Amarillo, 3-0; El Paso beat San Antonio, 6-2.

Snell's triple drove home Jerry Lane, who had walked, with the winning run in the 4-3 Shreveport victory. Snell, 4-4, was the win-

ning pitcher. The loser was Jesse Orosco, 4-4.

inning.

Frank Hunsaker drove me all three runs as

Before the last Kansas City-Yankee series, Reggie Jackson explained why he was so eager for the games.

and the set of a set of a state of the state of the set of the set

"They say they got a man hitting .570. I want to watch the man hit," he said, eyes wide in mock awe. "I've never seen a .570 hitter before."

Jackson was making his little joke, intimating perhaps that too much attention was being given one of those freakish batting spurts. Brett had col-lected 23 hits in 40 at-bats immediately after the All-Star game.

But now at this late date in the season, Brett still carries the most serious threat — by far — to a .400 average in 39 years. Ted Williams was the last, as you have been reminded repeatedly, with his .406 in 1941. When Brett began this series assault on Texas Ranger pitching with three straight singles, his numbers became .40683.

BRETT GOT his first two hits on his first two pitches and you were re-minded of the complaint from a Baltimore pitcher: "Not only ca,'t we get him out, we can't even get ahead of him in the count."

Two subsequent blanks left him at 404 after the series opener (Even after being blanked in the second game Tuesday night, he was still at .401), but memory can find no hitter since Williams at the magic figure as late as Aug. 20.

In 1977 when Carew staged his nearest miss, he had left the .400 plateau in mid-July and was down to 381 by now.

Williams stood .405 on this date in 1941.

"I had a high of .436 in June," Ted

to .402 in late August, then up to .413 in September. When the weather got cooler, I slumped.'

A .400 average wasn't the rarity then as today, but it had been 11 seasons since Bill Terry hit .401 for the Giants. And statisticians already had proclaimed it a relic of the past. Neither was there the extensive media attention in Williams' day, but there was sufficient pressure to buckle a man, especially one with the dogged pride and ego of Williams. Brett is performing in a brighter, broader spotlight but he doesn't seem consumed by that same fierce drive for immortality. If he hits .400, fine. If he doesn't, there will still be enough cheeseburgers and snuff to go around.

OF THE memorable .400 hitters of all time, because of the circumstances, Williams was the grandest of all

His is a tale often told, how he came to the last day with the numbers secure in his pocket.

"In the last 10 days of the season, my average had dropped almost a point a day," Williams once remembered. The Boston-Philadelphia game on the final Saturday was rained out and a doubleheader scheduled on Sunday. Williams' batting average was exactly .39955, which rounded off to three numbers as .400.

"The night before the doubleheader, Joe Cronin offered to take me out of the lineup to preserve my .400," said Williams. "They used to do that. Jimmy Foxx lost a batting championship to Buddy Myer one year when he sat out the last game and Myer got

two hits." (They still do it, Ted. Carew has spent a few closers on the bench to avoid risking a league lead-

Day. Oca. LIGHE: MELL MALL ADD HULL. DIAL 00-000

ing average.) In typical Williams reaction, Ted told the manager to hell with it, if he couldn't hit .400 all the way, he didn't deserve it. But he was so nervous, he stayed up all night walking the streets of Philadelphia, accompanied by Johnny Orlando, the Boston clubhouse worker. They stopped a couple times for ice cream for Teddy and scotch for Johnny.

SUNDAY WAS cold and wet and Williams was tired and miserable. There were only 10,000 in the chilled stands, drawn by curiosity of a .400 average.

When Ted first came to bat, the Philadelphia catcher, Frankie Hayes, said, "Ted, Mr. Mack told us if we let up on you, he'd run us out of baseball. I wish you all the luck in the world, but we're not giving you a damn thing." (This, too, has been known to happen, pitchers grooving the ball to the batters' sweet spot on the final day.)

killiams singled his first time up, homered his second time, added two more singles. At the end of the first game, his average was .404, an admirable and excusable time for a hot shower and a celebration.

But that wasn't Williams. Ole bullhead insisted on playing the second game and got two more hits in four trips. In major league history, there have been 19 hitters who reached and clung to that lofty rung but none did it with such style. At the risk of being naive, you'd like to think Brett would do the same.

By MARTIN CRUTSINGER **Associated Press Writer**

WASHINGTON (AP) - Jimmy Carter climbed on the White House roof one day last summer and became the first president to dedicate a water heater. He also announced a new government program to promote solar power.

A year later, the solar water heater is working fine, but supporters of solar power are wondering what happened to much of the new program.

On the roof that day, Carter set a national goal: By the year 2000, he said, the sun and other renewable energy sources should provide a fifth of the nation's energy needs.

'We are making a commitment to as important a goal as we can set for our nation," Carter said.

BUT TWO RECENT REPORTS from Congress' General Accounting Office and the Office of Technology Assessment label Energy Department solar efforts confused and mismanaged and say the administration still hasn't come up with a plan for reaching the 20 percent target.

The administration also scaled back its budget commitment as solar power took a back seat to demands from the oil and coal industries for a gigantic synthetic fuels program.

Supporters still insist the future for sun power is bright. Yet heat from the sun doesn't contribute even 1 percent of America's energy. The government

Transfer of all powers to Puerto Rico urged

our

d it

an

DT

,,

UNITED NATIONS (AP) - The U.N. Special Committee on Decolonization adopted a Cuban-Iraqi resolution Wednesday urging the United States to allow for the speedy "transfer of all powers to the people of Puerto Rico." The vote was 12-0, with 11 abstentions.

Venezuela, which had abstained from voting on a similar Cuban-Iraqi resolution adopted last year, joined the majority voting for this resolution. Chile, another Latin American committee member, abstained. The United States is not a member of the committee.

Like last year's resolution, the new one is not expected to be binding. The General Assembly merely took note of last year's resolution, which was adopted by an 11-0 vote, with 12 abstentions.

The resolution, formally introduced Tuesday by Cuban Ambassador Raul Roa-Kouri, "reaffirms the inalienable right of the people of Puerto Rico to self-determination and independence" and demands an end to all U.S. military activities on the Caribbean island-commonwealth of the United States.

The United States maintains that Puerto Ricans had exercised their right to self-determination by voting overwhelmingly in favor of commonwealth status in two plebiscites over the past 28 years.

In a statement issued Monday, the U.S. Mission to the United Nations reiterated Washington's continued support for Puerto Rican self-determination, including the option of statehood.

At the same time, the United States cautioned the committee against interfering in the Caribbean island's internal affairs.

"It is essential that the people of Puerto Rico be afforded the greatest degree of fairness, freedom and impartiality in expressing their points of view in any future status plebiscite," the American statement said. "The United States therefore continues to oppose any attempts by the committee ... to prejudge Puerto Rico's future through recommending any action that, if carried out, would tend to limit the political status options open to the people of Puerto Rico.

Venezula's ambassador, German Nava-Carrillo, explaining the switch in his country's vote, said support for Puerto Rican self-determination and independence outweighed any reservations Venzuela might have had regarding certain committee procedural matters.

After the vote, Juan Mari-Bras of the Puerto Rican Socialist Party told a reporter the Venezuelan switch indicated that the issue of the Caribbean island's independence was emerging as a "Latin American issue." This, he said, will have to be taken into account by the United States in formulating its future policy toward the commonwealth.

Failure of the United States to act on the committee's resolution, he added, will prompt moves to bring up the question before the full U.N. General Assembly next year.

The vote followed two days of committee hearings at which more than 20 speakers of various Puerto Rican nationalist and other special interest groups supported new moves toward changing Puerto Rico's commonwealth status ugh self-determination. It marked the 11th time the committee has taken up the question since its creation in 1961

estimates only 60,000 homes have solar water heaters or solar space heat-

But when energy people talk of solar power they include an array of renewable resources with ties to the sun — wind power, water power, ocean currents, firewood and other vegetable matter - termed "biomass.

Of those, only wood burning and power from hydroelectric dams account for any significant part of U.S. energy — about 6 percent last year. To meet the 20 percent goal, here is what the Energy Department believes

will happen in the next 20 years:

SOLAR - Compared to today's 60,000 sun-using homes, 47 million homes will have solar collectors to heat water and rooms.

TWO MILLION HOMES will have photovoltaic cells - silicon disks developed for the space program that convert sunlight into electricity.

About 50 utilities will be using devices similar to a \$123 million "power tower" being constructed in Barstow, Calif. The tower, composed of 1,400 mirrors, will channel sunlight to boil water and run generators.

These will produce 5 percent of the nation's energy demand.

BIOMASS - This covers everything from producing gasohol from corn crops to turning garbage into fuel. Many experts believe this will be the area of most growth.

Use of woodburning stoves is expected to grow from 3 million homes to 11 million in 10 years.

Gasohol - 90 percent gasoline and 10 percent ethanol produced from grain would supply 13 percent of the country's gasoline in 2000, replacing 1.5 million barrels of oil daily. The country currently imports 6 million barrels daily. Plants would turn a portion of the 50 million tons of manure from farms into synthetic gas.

ALL BIOMASS FUELS would grow from the 2 percent of energy they supply now to 8 percent in 10 years.

WIND - The handful of giant wind propellers in pilot projects would increase to as many as 25,000, producing electricity to meet 4 percent of demand

WATER POWER - Many of the 50,000 small dams now idle will be fitted with generators to boost hydroelectric output 20 percent. A few small plants will generate electricity from ocean currents.

While the Energy Department doesn't expect its predictions to be exact, officials believe overall goals will be met, citing an Office of Technology Assessment report that puts the potential for biomass fuels at 20 percent in 2000 instead of the 8 percent DOE predicts.

"We didn't get the 20 percent figure by pushing every solar option to the limit. Some of our projections are relatively conservative," says Dr. Thomas Stelson, assistant secretary of energy for the solar program. "With the rising oil prices, we are much more optimistic about the future than a year ago."

ENERGY OFFICIALS MEASURE whether innovations pay off by comparing the cost of the energy they produce with the cost of an equivalent amount produced by a barrel of oil.

With foreign oil at \$32 a barrel, solar looks good. Oil would have to sell for \$12 to \$25 per barrel to be as good a buy as many solar technologies.

That compares with an estimate of between \$32 and \$40 a barrel for synthetic

fuels from coal and shale.

Those figures did little to slow the synthetic fuels bandwagon, pushed by the administration. Congress agreed to spend \$20 billion over the next five years and up to \$88 billion by 1992 on "synfuels" — making the program the country's most expensive energy effort.

The program irked solar advocates, who say Carter's budget does not match his solar rhethoric. Carter cut his proposed solar research budget 3 percent. Rep. Richard Ottinger, D-N.Y., a solar proponent, called Carter's 20 percent solar goal "a sham and illusion."

In a memo establishing priorities for the next five years, Energy Secretary Charles Duncan indicated various renewable resource programs would receive 8 percent of the budget, compared to 19 percent for fossil fuels and 24 percent for nuclear research.

One Energy Department source said those figures reflect the clout of oil, coal and nuclear groups.

"If you are at the top of a mound of activity you tend to focus your attention on the things that can cause you the most trouble," he said, asking anonymity. "The oil, coal and nuclear industries can cause trouble. The solar industry couldn't cause Secretary Duncan to blow his nose."

WITH ANNUAL SALES of \$150 million, the solar industry hardly matches its competitors. But groups like the 35,000-member Solar Lobby rely on political leverage from highly visible support of Jane Fonda, Robert Redford and Eddie Albert, and from polls showing that 95 percent of Americans favor solar power development.

"Solar power used to be perceived as a long-haired, hippie-freak effort,' says Richard Munson, coordinator for Solar Lobby. "But the constituency is now expanding from crazy backyard tinkerers to the Harvard Business School.

Despite setbacks, solar proponents have won battles.

Biomass programs to convert grain crops into gasohol got a funding boost as part of Carter's effort to calm farmers angry about the Russian grain embargo

Also, almost unnoticed in the synthetic fuels bill was a \$3 billion Solar Energy and Energy Conservation Bank to provide homeowners and businesses with low-interest loans.

Congress also increased the maximum tax credit to homeowners for solar installations, but fewer than 5 percent have used the credit and a companion \$300 credit for making homes more energy efficient.

One reason so few take the credits is the cost. A solar hot water heater costs up to \$4,500 and solar space heating systems can cost \$20,000. It takes up to 20 years to save enough on fuel to pay back that investment.

But solar advocates say costs will come down and the economics will look better with each increase in the price of other fuels.

THEY SAY DRAMATIC increases in solar power are inevitable as economic benefits become more apparent.

"People are coming to grips with the fact that \$2-a-barrel oil is a phenomenon of the past," says Denis Hayes, director of the government's Solar Energy Research Institute.

The Energy Department is funding a National Solar Heating and Cooling Information Center to list contractors willing to provide references from previous customers. The toll-free telephone number is 800-523-2929.

PAGE 9D

Hill to urge board to give Medicaid contract to Perot

AUSTIN, Texas (AP) - Former Attorney General John Hill says he will urge the State Board on Monday to end the fighting over Texas' \$400 million-a-year Medicaid contract by giving it to H. Ross Perot.

"I do expect to make a presentation, particularly about the underlying merits of the case - what is in the best interests of the taxpayers," said Hill, who lost a race for governor in 1978 and now handles some of Perot's legal business.

Hill said he advised Perot to visit each of the three board members after they voted July 15 to give the contract to Bradford National Corp. of New York City. Department of Human Resources

staff members and consultants said Bradford's bid would was \$20 million to \$50 million cheaper than Perot's. Perot made the visits, and the board reopened the contract on July 29. It will hold a public hearing Monday on the issue.
