Midland firemen, top, and Department of Public Safety officers responded to a truck crash Wednesday afternoon at the intersection of Interstate 20 and Highway 80 east of Midland. The truck driver, identified as Dale Scroggins of Dallas, was killed in the accident. One fuel tank exploded and the other spread diesel fuel over the road for about a quarter mile, making travel very hazardous. At left, a wheel is all that remains atop the overpass where the truck sheared the guard rail before plunging off. (Staff Photos by Edward McCain)

Fiery crash kills Dallas truck driver

Rain-slickened highways Wednesday resulted in the fiery death of a Dallas truck driver just outside of Midland.

Although the driver was burned beyond recognition in the accident, com-

pany officials have identified him as Dale Scroggins, 38, of Dallas.

The accident occurred at 2:40 p.m. at the U.S. Highway 80 and Interstate

20 exchange about 41/2 miles east of Midland.

Department of Public Safety spokesmen said Scroggins was eastbound on I-20 in a truck-tractor semi-trailer. He was passing another vehicle in the insid when his trailer jackknifed, causing the unit to careen into the guard rail. The truck "rode" the guardrail for about 250 yards before breaking through the rail and tumbling down the concrete embankment on the east side of the ex-

The truck crashed upside down onto the highway below and immediately exploded into a ball of flames.

The driver was trapped in the cab, and the rig was totally destroyed by flames. Apparently, said the DPS, any identification on the body was destroyed in the blaze.

Scroggins was pronounced dead at the scene by Midland Peace Justice John Biggs. The body was taken to Newnie W. Ellis Funeral Home.

Firemen were called to the accident to extinguish the blaze at 2:40 p.m. They returned to the scene at 4:38 p.m., when the fire rekindled. The accident was investigated by Trooper Matt Andrews of Midland.

Candidates debate energy, debates

By The Associated Press

Much energy was expended on energy, along with a not inconsiderable amount on presidential debates and on the aircraft that - with Russian radar as the expected sentry wasn't even there.

So went the presidential campaign Wednesday: Republican nominee Ronald Reagan charged tme Carter administration was "discouraging" energy development; President Carter countercharged that Reagan was talking "without checking the facts"; and Reagan counter-countercharged that if Carter had any complaints he really ought to show up and

debate in Baltimore on Sept. 21. Carter made final that he would not take part ip that debate with Reagan and independent presidential candidate John B. Anderson, drawing criticism and defense along predictable partisan lines.

At the same time, two retired military leaders who are allies of Reagan joined the attack on Carter over his administration's disclosures on 'Stealth," the program intended to develop a bomber not detectable by Soviet radar. This, too, brought a White House counterattack.

Today, Reagan toured the waterfront in Buffalo, N.Y., along with lonshoremen's union president Theodore Gleason, and attacked Carter's

record on unemployment. Reagan said that as a former president of the Screen Actors Guild, he knows "what negotiations can mean and how important it is for a worker to know his family and his future are going to be taken care of through the collective bargaining process. I support that process."

As for Tuesday's brouhahas, the

ENERGY: Reagan accused Carter he has reversed the country's dependence on foreign oil.

"We have more than enough energy resources to meet our needs until the fuels of the future, such as solar power, fusion, hydrogen, tar sands and ocean thermal energy conversion, are developed," he said.

But the Republican presidential nominee drew some questionable conclusions from the same data he said Carter was using. For example, he said that "crude oil production in the continental United States has declined 11 percent" since 1976.

By using "continental" instead of "domestic" production, Reagan left out the vast production in Alaska According to the figures Reagan cited, but including Alaska, the average daily domestic production in 1980 was 8,689,000 barrels. In 1976, it was 8,132,000 barrels.

Carter, in response, accused Reagan of attacking the administration's energy policies "without one shred of supporting evidence."

"Governor Reagan is wrong," Carter said. "He has again made accusations without checking the facts.

Back came Reagan: "The president can resolve that whole thing by showing up por the debate on Sept.

DEBATE: The League of Women Voters offered compromises to get Carter into a three-way debate and the Carter forces also offered a new plan. The parties couldn't agree, however, meaning the Sept. 21 debate in Baltimore will be just between Reagan and Anderson

The league offered a round-robin series of two-man debates with pairings drawn by lot or a mubti-candidate debate, followed by a Carter-Reagan contest, followed by somz kind of debate between vice presidential candidates.

5-inch rainfall here blamed for one death

By DAVID CAMPBELL Staff Writer

Heavy rains in the Permian Basin Wednesday produced flooding problems in most area towns and a death in Midland County.

Unofficially, a 5-inch rainfall flooded 40 homes in west Odessa while a trailer park and housing addition were buried by high flood waters.

South U.S. Highway 385 in Ector County was closed most of Wednesday as law enforcement officials helped evacuate families living near the highway.

"South of the town was flooded," said Gary Mitchell, a Texas state game warden

Several Ector County farmers and ranchers reported some livestock losses as flood waters soaked the drought-stricken land, according to

A rain-slick highway in Midland County near the intersection of Interstate 20 and Highway 80 was listed as the cause of a semi-truck running off the road, bursting into flames and killing the driver.

In the Dellwood Mall area here, unofficial reports noted a 5-inch rainfall whereas KCRS radio on South Midkiff Road recorded as much as 6.15 inches of precipitation within a two-day period

However, the National Weather Service recorded "only" 2.26 inches at Midland Regional Airport.

Local law enforcement officials reported 10 cars were impounded when they were found stalled on Midland streets and roads.

Wadley-Barron and Cowden Park as well as other parks, were quickly of 5- to 6-inch rains fell in the Tall

Crane residents reported that 7inch rains flooded the First Baptist Church, First National Bank and several schools

Unofficial reports from Garden City showed a 5-inch rain fell east of the town with other reports noting as much as 10 inches of rain washing out fences south of Garden City

Big Spring residents had to be rerouted to other streets as 5-inch rains closed several main streets in the city. The streets remained closed today even though clear skies started

evaporating Wednesday's deluge. Although there were no reports of flooding in Andrews, weather watchers reported a 2-inch rain fell in the city, as in Lamesa.

Stanton noted unofficial reports of 4 inches of rain in the city. However, residents reported few incidents related to the weather.

In the West Texas town of Roscoe 110 houses were flooded as heavy rainfall washed the city clean.

Wednesday's drencher was the result of a cool northerner combining with warm moist air from tropical storm Danielle, according to the National Weather Service at Midland Regional Airport.

The storm ranged from as far north as Lubbock down to the Big Bend area. The storm's center was located in the Midland-Odessa area, the weatherman noted

There is a slight chance that thun derstorms will again roam the area tonight. But, the weatherman interpreted that chance as 20 percent.

However, Friday should have fair skies with temperatures nearing 90

Aid from Soviets sought by Poland

WARSAW, Poland (AP) - Poland's government-run Trade Union Council today announced a sweeping list of reforms as an alternative to the right to form independent, self-governing unions won by Polish workers during

recent strikes. In Moscow, Soviet leader Leonid I. Brezhnev met with Polish Deputy Premier Mieczyslaw Jagielski, the leader of a delegation from Warsaw seeking the Soviet Union's financial help to improve the lot of Poland's restive workers.

At the same time, scattered strikes continued in nearly two dozen locations despite government pleas for restraint. Warsaw Radio reported 'inglorious exceptions" to reports of "efficient work ... pouring in from all over the country.

In another development, workers at a giant steel mill near the southern Polish city of Katowice and the pilots and staff of Poland's airline LOT reportedly were discussing organizing their own trade unions.

Romuald Jankowksi, chairman of the Central Trade Union Council, told a news conference here the recent wave of strikes showed that "our movement is in need of deep changes." The workers accused the official unions, controlled by the Communist government, of having ignored their needs.

'We were criticized for things we could not help as we were in a different position then," said Jankowski, who was only recently appointed to the post. He distributed an announcement urging workers to elect new representatives within the existing unions and "help us change our poli-

Jankowski, who spoke of turning existing unions into "independent and self-governing organizations for working people," said the council

would provide state-run unions with more autonomy by changing their structure.

"We have critically evaluated our activities," he said. "It is evident that the style and methods we had before must undergo radical changes.'

Jankowski reiterated the government's pledges not to hamper workers seeking to leave old unions for new

In addition to Brezhnev, the Jagielski-led Polish delegation met Nikolai Baibakov, the Kremlin's chief economic planner, and other Soviet officials to discuss "a number of important questions related to Soviet-Polish economic relations," the Soviet news agency Tass reported.

The meeting with Brezhnev was said to be his first with Polish leaders since the strikes forced a shakeup in the Polish hierarchy. Tass said Brezhnev and Jagielski discussed "all-around relations," and it described the talks as warm and friend-

After the recent strike wave forced the Polish government to promise workers wage increases and the right to form independent trade unions, the Kremlin agreed to give Poland additional long-term credits to help meet the interest on the \$20 billion owed Western banks and to fund imports of oil, natural gas and other raw materials, according to sources in Moscow.

Earlier this week, Henryk Kisiel, Poland's economic planning chief, said the Soviets lent a total of \$550 million in hard currency to Poland between May and last week. He also told a news conference Monday the strike had cost \$1 billion in lost production and that it would cost almost \$3.7 billion a year to make good on the wage hikes and other economic benefits promised the strikers.

Extended forecasts

South Texas: Mostly dry though the weekend except for isolated showers. Afternoon higs varying from the upper 80s along the coastal barrier islands to near 100 in some inland areas and in the elsewhere. Overnight lows will range from the lower 80s near the immediate coastal sections to near 70 in parts of Southeast Texas and the Texas hill country; 70s elsewhere.

Thai slum dwellers battling eviction

BANGKOK, Thailand (AP) Chamrat Seengow has joined in a fight to keep his landlord, a construction company, from evicting him and 5,000 neighbors from a cramped and filthy slum in the center of Bangkok to put up commercial buildings.

If the landlord succeeds, Chamrat

says with a touch of sarcasm, "then we'll be refugees with no place to go; maybe the international agencies will feed us."

The slum dwellers' fight has won the attention and editorial support of some Thai newspapers and so far has kept the landlord from tearing down

The people of the Klong Toey slum, a maze of shacks and lean-tos teetering over swampland, have almost reached the bottom rung of Thai-land's long social ladder. What little they have, legally or not, they want to

It is their rickety dwellings and their sense of community that give them a home and set them apart from the hundreds of thousands of Vietnamese, Laotian and Cambodian refugees who are being cared for by the Thais in special camps.

With the help of international agencies, some refugees in those camps are being fed better than some Thais. The refugee children in the camps are receiving a better education than

many in the Klong Toey slum. And despite Chamrat's bitter com-ment about the refugees, even if the Klong Toey slum dwellers are forced to join the hundreds of homeless people who sleep in Bangkok's railway station or in temples, they still would not be eligible for international aid.

The legal situation at Klong Toey is complicated and the rights of the slum dwellers to their homes are not clear, but the dispute is developing here into a symbol of the power of Thailand's landowners and the pow-

erlessness of its poor.
"Is it fair for the government to let thousands of people suffer because of this eviction order, while the real beneficiary would be the construction firm?" community Chairman Charn Chaokasem was quoted as saying by the local newspapers.

One of the newspapers said in an editorial that was representative of others: "Now is the time for the government to show that it is concerned for the poor people as well as the rich.

For months the Saha Krungthep Pattana Co. has been trying to evict the area's 700 families in order to turn the 21 acres of land near the city's port authority into a commercial

It has stopped collecting rents, has sent eviction notices and set deadlines, and when fires - suspected to be arson - have destroyed parts of the slum, it has forbidden residents to

The slum dwellers say the landowner has offered an alternate site for them on the edge of the city of a little more than an acre.

In response, the more literate among them have organized an association that resists attempts to evict them. Its members have put up wall posters saying they will face down the

Coroner returning in Oswald case

FORT WORTH, Texas (AP) - A judge won't say if he is pressing for an out-of-court agreement on whether to exhume the body in Lee Harvey Oswald's grave, but does confirm that he has ordered the Dallas County medical examiner back into-his

State District Judge James E. Wright declined to comment Wednesday on reports he wants all parties involved in the complex case to come to an agreement about exhuming the body in the grave of the accused presidential assassin.

But Wright announced he has rescinded his order of last week that removed the medical examiner, Dr. Charles Petty, from the suit and granted him a separate hearing in He reversed himself because of

Petty's failure to appear at a hearing last Wednesday, Wright said.

Petty told the court last Friday he did not receive the summons until 30 minutes prior to the hearing and could not appear. According to published reports in

Dallas and Fort Worth, Wright is asking attorneys for Oswald's brother Robert and for British author Michael Eddowes to settle out of court. Otherwise, the legal fight could go on for years, the judge said. In the growing legal tangle, Oswald

is seeking an injunction to prevent Eddowes and Fort Worth's Rose Hill Cemetery from exhuming the body.

ney, said the judge was concerned that even if an injunction were issued against Eddowes and the cemetery, another group could legally dig up the

Kenneth Campbell, Oswald's attor-

Robert Oswald says he would suffer mental anguish if the body were exhumed. He says he should have a say in the matter because he paid for the

burial plot and funeral. Mrs. Porter says she wants the grave opened to settle speculation that the body might have been re-

Assault reports keeping Midland policemen busy

Midland police had their hands full with assaults Wednesday night.

A Midland man reported an aggravated assault that allegedly occurred in the Chat-N-Chew Restaurant at 307 N. Lee St about 10:30 p.m.

He told police that he went to the restaurant to get his sister, who "had no business being in a place like that." According to reports, the sister apparently thought she should be there and resisted. A fight ensued and the manag-

er threw the man out. He re-entered the restaurant and another fight began between the man and his sister. The man said he was hit over the head with a stick and then his sister stabbed him in the shoulder.

The man told police the manager then threw him back out. Scott Green told police he awoke about 1 a.m. Wednesday to find a man in his living room at 100 S. Mineola St. The man asked where Green's sister was and Green replied she was staying with a friend. The man told Green to go get her. Green said the man had a knife in one hand and what appeared to be a pistol tucked into his back waistband

According to reports, the man threatened to cut Green's throat and to "get him" if he did not get the sister or if he contacted police.

At 12: 30 a.m. today, Midland Police detectives were at the emergency room investigating an assault on a Midland woman who said she had been assaulted by her husband in the Dimensions Club, 411 Air Park Lane, She was treated and released.

While at the emergency room, another assault victim was brought in. between the friend and the man about a girl. The man swung at the friend, missed and struck Hirth, police were told.

Commuting could be replaced

LOS ANGELES (AP) - Good news, commuters. You may not have to face the freeways forever. If your boss can get over his edifice complex, you could be "telecommuting" to work a few years from now.

Explained most simply, telecommuting is the substitution of telecommunications and computers for the commute to work," says Jack Nilles, the University of Southern California researcher who coined the word.

Nilles, an expert on alternative work patterns, says between 2 million and 5 million workers nationwide could be telecommuting by 1990. The reasons are primarily economic. With fuel costs rising and more workers engaged in information-related jobs, it's becoming cheaper to move the information rather than the people,

Some telecommuters will never hit the freeways, Nilles says, instead turning a room at home into an office by adding a computer terminal and a phone link to their employer's central computer. Others will cut driving time by going to regional offices tied electronically to corporate headquar-

Those most likely to telecommute, Nilles says, are specialists who don't need face-to-face contact to do their work - writers, editors, researchers, accountants, lawyers not involved in

court proceedings and educators. Nilles notes that some executives like the idea of imposing corporate headquarters. Others are worried about not being able to see their em-

ployees.
"Managers in most administrative operations, generally because of their past training, feel they have to keep a physical eye on their people," he says. "Unless they've got those rows of people out there looking busy, whether they are or not, managers get very nervous.

Nilles suggests, however, that the output of telecommuters can be measured periodically by supervisors who can order those who have been goofing off to start hitting the road to the office again. Other workers, he ac-knowledges, may feel isolated by

staying home 'Most people like to get out of the house and they consider work, in that respect at least, a fulfilling opportunity," he says. "Another effect with aspiring types is they feel if they're stuck out there in Redondo Beach and the corporate headquarters is downtown, then they're missing the chance to rub shoulders with the president

and get promoted. Nilles expects telecommuting to begin in Southern California, but anticipates that New York, Chicago and other areas will follow suit.

Good news for burn victims

NEW YORK (AP) - For the first time, a pure, naturally occurring protein has been shown to accelerate healing in mice, and scientists say similar proteins might be used in

That report comes from scientists at the University of Florida and the Shriners Burn Institute at Massachusetts General Hospital in Boston, who had been seeking ways to promote healing in burn victims who often die because of a loss of skin rather than

from the direct effects of the burn. They began investigating a hormone-like substance called "nerve growth factor," present in high concentrations in mouse saliva, which previously had been known to promote only the growth of certain nerve

"We got to wondering whether nerve growth factor was really specific for nerves or whether it might not have a more general biological effect," said Dr. Ronald Malt, a transplant surgeon who in 1962 performed the first successful replantation of a

severed human limb. Dr. Arthur Li, Dr. Mary Koroly, Marinus Schattenkerk, Malt and Michael Young found that wounds in normal mice healed about twice as fast during the first six days as wounds in mice whose salivary

glands were removed. But when a weak solution of nerve growth factor was brushed on their wounds, the mice whose salivary glands had been removed healed just as quickly as normal ones, the scien-

tists said. Their report, published in the current Proceedings of the National Academy of Sciences, confirms and extends the work of Australian scientists who last year postulated an un-known "healing factor" in mouse saliva apart from its cleansing and anti-

biotic properties. Nerve growth factor exists in rats, mice and guinea pigs and although it has not been found in humans, Malt said there is every reason to expect some similar substance is at work in

people.
"In principle, such a thing could either accelerate the healing of burns

from existing skin or help the growth of skin grafts," he said.

In addition, it could help people whose healing ability is damaged by kidney disease, jaundice, malnutrition, arteriosclerotic ulcers or varicose ulcers, he said.

Elcor Wives Club officers for 1980-81 include, from the left, Mrs. Phillip Cochran, vice president; Mrs. Jerry Dunn, president; Mrs. Verne E. Griffith Jr., secretary, and Mrs. Allen Smith (standing) treasurer. Meetings of the organization are held the second Fridahy of every other month with the first meeting Friday with a luncheon at the Holidome. Social hour will begin at 11 a.m. and the buffet will start at 11:45 a.m. followed with a style show by Dillard's. Reservations may be made with Mrs. Atkins.

New cancer lab opening

FREDERICK, Md. (AP) - The Federal Cancer Research Center at Fort Detrick is opening a new laboratory which officials say will expand the scope of cancer research there.

Dr. Richard White, director of FCRC's chemotheraphy fermentation program, said cell culture experiments in the new lab would begin next

Scientists trying to develop anticancer drugs in the research here had been limited in the type and quantity of drugs they could produce because of the size of existing fermentation vats. The center had only vats of two sizes available, 300 and 3,000 gallons, officials said.

Researchers were thus unable to experiment with smaller cell cultures unless they used two-gallon capacity tanks. But that size limited researchers' ability to scale up production of a particular strain, according

Two years ago, center officials asked the National Cancer Institute for help and received approval to build the \$2 million lab. The facility has six new tanks with a capacity of from 70 to 80 gallons each.

The research center develops and manufactures drugs for the NCI, an arm of the National Institute of Health in Bethesda.

DEAR ABBY

AT WIT'S END

A tisket, a tasket, a pink and yellow casket...

By the time I was 25, I had learned three important realities of life. 1. The same lawyer who represented me and promised to expose the opposition for the sham he was...

played golf with the opposition every

2. The politician who vowed the country would follow the politics of Genghis Khan under the leadership of his opponent...joined hands with Genghis 48 hours following the prima-

3. The child who ran crying to his mother that his best friend shoved him into moving traffic and tried to set fire to his clothes...begged to spend the night with his best friend two hours later.

The third reality came hard. I had always been led to believe that no mother stands so tall as when she stoops to champion the cause of a child. During the formative years when my children began to have social interaction with other children, I made more trips across the back yard in the name of diplomacy than Henry Kissinger when he shuttled back and

forth between Israel and Egypt.

I'm not suggesting that children lie. Let us just say they wrote the book on creativity.

See Mother run. Mother looks funny when she runs. Her face is red and when she is angry she spits when she talks. See

It would behoove all mothers to study the language of children and realize that what the child is saying is not always translated into what you

By ABIGAIL VAN BUREN

DEAR ABBY: REPULSED IN COLORADO SPRINGS was appalled at the surprise party her sister-in-law had planned for her father-in-law's 50th birthday. It was to be a fake "wake," to symbolize the death of his youth. She had rented a coffin, and the house was to be transformed into a "funeral parlor." REPULSED failed to see the humor of it, and you agreed with her.

Well, here's one 54-year-old crazy lady who is having the time of her life renting out real caskets to fun loving folks who want to give unusual parties. Our caskets come in buttercup yellow, passionate pink and luscious lavender-and we deliver them in a powder blue Cadillac hearse, which we also rent out. (On Halloween, our phone rings off the hook!)

I am also an ordained minister, and as such I married a couple in a double casket ceremony. How's that for burying their single-blessedness?

It's a shame so many folks have morbid hangups about death and dying. Once they've been to a casket party and have had a few beers while actually sitting in a casket, their fears are greatly diminished

In case you think I'm putting you on, you can easily check this out. I've been written up in the local press, appeared on local talk shows, and I've also been on "Real People." I'm a minor celebrity around Alamitos, Calif. They call me...CASSANDRA. THE CASKET QUEEN

DEAR CASSANDRA: Well, now I've heard everything! And if you think this is the kookiest career I've ever encountered, you're dead right. DEAR ABBY: In response to the

person complaining about mowing the lawn so early in the morning: Here in Washington County, Ore., we have to mow early while the dew is still on the grass to keep down the ash dust from Mt. St. Helens.—TODD IN CORNELIUS

DEAR TODD: Considering what you folks have had to contend with, a little lawn mower noise at any hour would sound like the "Moonlight So-

DEAR ABBY: My husband's sister, a twice-married, twice-divorced 47year-old grandmother, is the problem. She's been living with her 36-year-old "boyfriend," whom she plans to marry as soon as his divorce

Abby, this prospective "bride" wants her brother (my husband) to give her away when she gets married for the third time. And that's not all-she wants my husband to foot the bill for a big church wedding and reception! She says it is his "duty" to do this for her because their father is

I thought at first she was kidding,

To tell the truth

but it turns out that she is dead serious, so my husband asked me to write to you and find out if he is obligated to do this. For years this wacky sister has

used my husband to get her out of the crazy messes she's gotten herself into, and now this ridiculous request. Does he have to give her away and pay for her wedding? I hope you say he doesn't .- BURNED IN BOSTON DEAR BURNED: He doesn't.

(Do you have questions about sex, love, drugs, and the pain of growing up? Get Abby's new booklet: "What Every Teen-Ager Ought to KNow." Send \$2 and a long, stamped (28 cents) self-addressed envelope to: Abby, Teen Booklet, 132 Lasky Drive, Beverly Hills, Calif. 90212.)

West Texas, We Are Here!

We're Diamontrigue, and we're new to West Texas . . but we're not new when it comes to pleasing thousands of Texans with the finest diamond simulation jewelry.

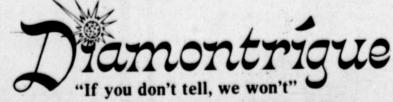

A Diamontrigue has the color, cut and clarity of a diamond, but none of the flaws found in natural stones. In a word, they're beautiful! So beautiful and so natural in appearance that even jewelers are surprised.

All Diamontrigues are exquisitely mounted in brilliant 14 karat white or yellow gold, accentuating the rings, earrings, tie tacs, bracelets, necklaces and stick pins that are now available.

Many Texans have already discovered that Diamontrigue can be a man or woman's best friend. And, priced from an unbelievable fraction of the cost of diamonds, you can easily afford several elegant items for those festive occasions that demand you look your best.

Did you see a Diamontrigue today? Chances are, you'll never know. And we're not about to tell. But you can see a Diamontrigue today, just by visiting our new West Texas showroom. And, for holiday gift giving or for special events like birthdays or anniversaries, ask about our Gift Selector Card Program.

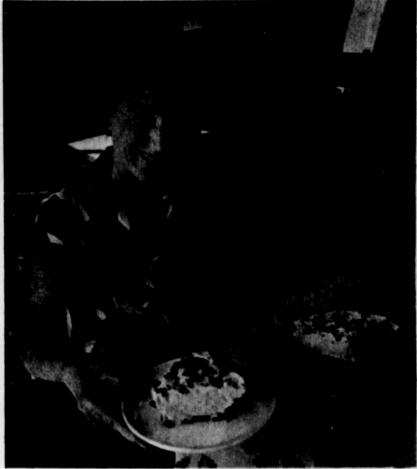

At Diamontrigue, we want you to see what just a little money and a lot of imagination can do for your lifestyle.

What's Cookin'

Jackie Ingram has had this recipe for Frozen Creme de Menthe Pie for long time and says it is a favorite among her guests. Jackie is married to Thomas P. Ingram and is active in St. Ann's Altar Society and Midland Memorial Hospital Auxiliary.

FROZEN CREME DE MENTHE PIE

20 cream-filled chocolate cookies, finely crushed cup butter or margarine, melted cup green creme de menthe 1 jar (7 oz.) marshmallow creme 2 cups heavy cream

In medium bowl, toss cookie crumbs with butter and mix well. Reserve some for top of pie. Press the crumbs onto bottom of 9-inch pan.

Gradually add creme de menthe to marshmallow creme, mixing until well blended. Whip cream until it holds its shape. Fold into marshmallow mixture. Pour into crumb-lined pan. Sprinkle reserved crumbs around edge and in center of pie. Freeze until firm - preferably over night. Yield: 8-10 servings.

THE BUTCHER

Toughest part of any animal can be most delicious pieces of meat

By MERLE ELLIS

The toughest part of any critter is the part closest to the ground — the shank. They also are some of the most deliclous pieces of meat imaginable — properly prepared; and with few exceptions the price is

Beef, pork (ham), lamb and veal shanks are all loaded with connective tissue; that's what makes them tough. It's also what gives them a rich delicious flavor when cooked with moist heat. The moist heat used in braising or stewing breaks down the connective tissue and releases a flavor more intense than that of almost any other part of the carcass. For that reason, shanks are often used more for the flavor they provide to soups and sauces than for the meat they yield. But, in the high cost of living world of today, they should not be overlooked as a source of good meaty meals at a pretty good

Veal shanks are far

and away the most expensive shanks on the market, but they are, at the same time, one of the least expensive cuts of veal available. They are the cuts called for in the classic dish called Osso

Osso Buco originated,

FOOD

so I'm told, in Milan and literally means "hollow The soft marrow in the center of the veal shank is the best part of the dish, so warn you guests not to overlook

OSSO BUCO

6 lbs. veal shanks 1/4 cup flour 1/2 tsp. salt 1/4 tsp. pepper

1/2 cup olive oil medium onion, 1 medium carrot, minced

1 rib of celery, minced 2 cloves garlic,

1 cup dry white wine cup beef broth 2 1 lb., 13-oz. cans to-

matoes, drained 1/2 tsp. basil 1/2 tsp. rosemary Gremolata

Have veal shanks sawed into 2-inch pieces and secure each with

Preheat oven to 325 de

grees. Coat the shanks with flour seasoned with salt and pepper. Heat 1/4 cup oil in a heavy skillet. Add the shanks, a few pieces at a time, and brown them well on all sides.

While the veal is browning, saute onion, carrot, celery and garlic in the remaining oil in a large casserole or Dutch oven. Cook, stirring occasionally, until the vegetables are tender.

When all the year is browned, arrange it on top of the vegetables. Put the wine, beef broth, tomatoes and herbs into the pan used to brown the veal and cook, stirring to loosen any bits and pieces of meat that may have stuck to the pan. When the mixture boils and you have incorporat

ed all the goodies from with rice, pilaf or pasta. Osso Buco. the bottom of the pan, pour over the veal. Cover

the casserole and bake

for 1-1/2 hours or until

juices over the veal.

GREMOLATA

6 cloves garlic, the veal is very tender. Remove the veal to a minced warm platter; remove 2 tbsps. lemon rind, strings. Spoon any fat grated from surface of the pan 1/2 cup fresh parsley, juices and ladle the chopped.

Mix all ingredients to-Sprinkle the top with Gremolata and serve gether a sprinkle over

Beef shanks are not as tender as veal shanks. They come from older animals and - trust me we all get a little toughter the older we get. Neither are they as expensive. Beef shanks often are as cheap as cheap is likely to be in

today's meat market. A dish similar to Osso

Buco may be made from and parsley. Check the Melt butter in the beef shanks. With con- cover of your pressure pressure pan, add rice ventional moist heat cooking methods, it vent is not clogged, lock heat, stirring constantly enough to enjoy eating them. Avocado most versatile fruit

By TOM HOGE AP Wine And Food Writer

The avocado or alligator pear with its creamy texture and buttery taste is among the most versatile of fruits, and is winning new friends every

It is one of the few fruits that can be used as a key ingredient in appetizers, soups, main courses, salads and even desserts.

Bits of avocado are delicious in that raw fish dish known as seviche. And avocado halves can be filled with a wide variety of foods such as crab, shrimp and chicken. They can be eaten cold as a salad or baked in

It wasn't until recently that I learned the avocado with its nutty tang can be made into ice cream or sherbet. I

Advice on herbs

By CECILY BROWNSTONE Associated Press Food Editor

DEAR CECILY: We have a luxurious patch of French tarragon growing in our backyard city garden. We've used it all summer long to cook chicken and fish, outdoors and in. But now tarragon vinegar from the rest. Any directions would be appreciated. -HUSBAND AND WIFE

DEAR HUSBAND AND WIFE: There's sensible advice on drying herbs in "Food Drying at Home" by Naomi Nichols (Van Nostrand Reinhold paperback).

This British author writes: ..herbs contain volatile oils, so no herbs should ever be dried above 38 degrees C (100 degrees F). Do not expose to sunlight after picking as this takes away their colour. It is best to pick herbs in the morning, on a bright, sunny day, when they contain least moisture.

"Use only young, tender plants and select the leaves from the top part of the stem. Rinse ... and let dry on old sheeting for an hour or two away from the sun. ... If you do not have a home dryer you can dry herbs by tying them in bunches, then hanging them in large paper bags on a screened-in back porch... If you spread them out to dry on a table, weight the paper bags down with stones or bricks to keep them from blowing away

have also sampled avocado lime pie and found it very tasty.

The avocado dates back to 1519 when the Spanish explorer Hernando Cortes found the fruit flourishing in the region now known as Mexico

City. By the early 19th century the avocado was being grown in Africa, Polynesia and Hawaii. Then, in 1833, horticulturist Henry Perrine brought specimens up from Mexico and introduced the avocado into Florida.

The fruit varies in appearance from the small round ball variety which is shiny green to the big pear-shaped, slightly russet-colored fruit.

The avocado ranges in weight from 5 ounces to as much as 3 pounds. There are different types of avoca-

do. The Florida, Lula, variety has a smooth or slightly corrugated skin with yellow dots. In California the leading species is the Fuerte, which has a leatherlike skin.

People often worry about the calorie content of the avocado because it seems so rich. Actually, half an average-sized fruit runs about 140 calo If the avocado you have bought

seems too hard and green, leave it in a brown bag for a day or so and it will Here's an avocado lime pie recipe

in which condensed milk supplies the

1 ripe avocado, fairly large 1 can (14 ounces) sweetened condensed milk

Rind of 1 lime, grated 1/2 cup fresh lime juice 2 egg yolks

1 baked 9-inch pie shell 1/2 cup chopped cashews

Mash avocado (there should be about 11/4 cups). Combine condensed milk, lime rind, lime juice, well-beaten egg yolks and salt. Stir till mixture is thickened. Fold in avocado puree, turn mixture into baked pastry shell and chill several hours. Sprinkle with chopped nuts. Serves 6-8.

Johnston, 160, Sr. Tackles: Tony DeGrate,
250, Sr.; Oziel Gonzales, 200, Sr. Linebackers: Jesse Hernandez, 170, Jr.; Brian Lemmer, 190, Jr.; Matt Davis, 175, Soph Halfbacks: Ronnie Rosas, 145, Jr.; Casey Peterson, 150, Soph. Safeties: Vaughnie Voss, 160, Sr.; Tracy Loyola, 160, Sr. Ken Pherigo, 165, Sr. While Dykes is still seeking that first victory, there are no hanging heads at Lee. Dykes is not overly disappointed with the 13-7 loss to speed hungry Killeen. "I'm sorry we didn't beat Killeen and we didn't play well enough to beat them. We were our own worst enemy at times. But I tell you one thing, we are a better football team this week because

improve this week too. Snyder is expected to make a strong run at the 2-AAAA title against Andrews this year, and Snyder coach Mike Jenkins is hoping that playing the 5A squads is going to help his Tigers get ready for the war to

we had an opener like that. We improved a great deal between the

Andrews scrimmage and the Killeen game, and I expect the team to

"We want to win the ball game, but we also want our kids to learn by playing tough opponents. We have a very young team and our schedule is going to pay dividends in the long run. We are starting four sophomores on offense and two more on defense,' Jenkins noted.

"Lee has good size and it doesn't take long to tell that they are a well coached and disciplined bunch of kids. They have a lot of muscle and I'm sure they are coming over here to

"We have another problem for Friday because our starting tailback, Keith McClain, is out with a recurring back injury. He had 74 yards rushing in the first half against Big Spring and we had to pull him out. We are going to have to keep him out this week

So the game shapes up as battle between the Lee defense and Snyder's Roemisch, who may have to go to the air against the Rebels. Roemisch passed for over 900 yards last year. Fullback Perry Echols, 190 pounds, and new tailback starter Mark Shaw will handle the running chores.

Lee's defense may be the Rebel (See REBS. 4E)

Cruz propels Astros into tie

By MICHAEL A. LUTZ

HOUSTON (AP) - Houston leftfielder Jose Cruz found what he was looking for Wednesday night and the Astros got what they wanted — a tie with Los Angeles in the National League West race.

Cruz blasted his 10th home run of the season in the 12th inning off reliever Rick Sutcliffe to rally Houston to a 6-5 victory and a sweep of the brief two-game series with the Dodgers, who came to town with a two-game lead.

"The big thing about this game is that it tied us for the lead," Astros third baseman Enos Cabell said. 'Now we can start looking at the scoreboard again. It's neck and neck now. The games are getting bigger, but the biggest one is yet to come.

Cruz said he was looking for a home run ball when he came to the plate in the 12th with the score tied

"I always look for it and he gave me a fast ball inside," Cruz explained. "I knew it was gone the minute I hit it, that's why you didn't see me running.

I just took it easy."

But the Astros had been running uphill all night. They fell behind 3-0 after three innings on Dusty Baker's solo home run, Joe Morgan's fielding error and a single by Steve Garvey.

The Astros tied it on Alan Ashby's two-run double in the fifth inning and a single by Cesar Cedeno in the

Los Angeles pinch hitter Gary Thomasson was prepared to accept hero's accolades in the 11th inning when he hit a two-run single, his second in as

many nights. But Houston battled back in the 11th with a run-scoring double by Danny Heep and a game-tying

Cruz' game winner and served notice to the

'These two games show that we're as good as the Dodgers," relief pitcher Joe Sambito said. "We showed them that we're a force to be reckoned

Los Angeles Manager Tommy Lasorda however was not conceding the division race on the basis of two losses

"I don't feel any pressure. They (the team) don't feel it and we're still in first place, aren't we? We played a hell of a game.

Houston manager Bill Virdon repeated his dream of taking a four-game lead into the season ending three-game series at Los Angeles.

"But I can't see that happening," Virdon said. "I still think it's going to come down to those three games in Los Angeles."

LA Rams, Bucs tangle in NFL TV clash tonight

TAMPA, Fla. (AP) - The Los Angeles Rams - hoping their considerable problems of the young season are behind them - meet the Tampa Bay Buccaneers tonight in a nationally televised (ABC KMOM, 8 p.m.) rematch of last season's National Football Conference title game.

The Rams won the conference crown last January in a tough defensive battle that saw the Bucs blanked 9-0 and sent Los Angeles to the Super

Los Angeles has been in a revolving door situation with injured and unhappy players since training camp began. On Monday, quarterback Vince Ferragamo became the se-

venth dissident to leave the team. He came back Tuesday after a oneday boycott over wages, and by then all veterans were back and accounted for. Coach Ray Malavasi saw the toll it took in last week's season opener, a 41-20 loss to Detroit.

"It did hurt us," he said, referring to late holdouts by Jack Youngblood, a defensive end, linebacker Jim Youngblood and defensive tackle Larry Brooks.

"I didn't feel we could waste the time and let them go without playing another game. I felt the sooner we got our veteran players in the ball game the better off we would be for the whole season. They had to get in there and start playing.

But when they came back, the Rams had to make room for them. hurt.

"It affected us by the guys coming in the week before the game. We had to cut some people who were good to make room for those guys. Those things hurt us. If we get those things behind us, then we'll be all right," Peacock said.

Besides the dissatifaction, the morale situation and the cuts, there's also the problem of the top veterans getting back their timing.

Malavasi is keeping his fingers crossed that his veterans will fall in quickly. "I hope they make a bigger contribution against the Bucs than they made last week. We had just gotten them back, and it's very hard

to get their timing.
"We have only two full days of practice this week. How much better they'll be is hard to say. You don't just come in and do it overnight."

He's not concerned that Ferragamo's brief walkout will fuel the situation. "I really don't think he intended to stay out," the coach said.

Astros Jose Cruz is welcomed at plate by teammates after hitting 12th inning homer to beat the Dodgers. (AP Laserphoto)

Victoria back tops prep honor roll

By MICHAEL A. LUTZ **AP Sports Writer**

Victoria Stroman Coach Mike Howell is not concerned that senior running back Ronny Thomas would not win many sprint contests with his speed. Thomas has an equalizer.

"I know he runs fast enough to score touchdowns," Howell said after watching Thomas' 1980 debut last week when the 5-9, 170-pounder rushed 123 yards on 19 carries, scored on runs of 16 and 30 yards and caught a 14-yard touchdown pass.

Thomas, who also threw in four punt returns for 83 yards and caught three passes for 37 yards, earns mention this week in The Associated Press Schoolboy Honor Roll. Thomas' effort helped Stroman defeat Corpus Christi Moody 38-14.

'He has great balance and acceleration, he's full speed after two steps," Stroman Coach Mike Howell said. "He's a Johnny Rodgers (former Nebraska runner) type and he could play in that type of

"He probably could play right away as a receiver in a major college situation."
Thomas was off to a fast start last season when he

rushed 966 yards in six games before suffering a back injury. He missed three games and still returned in the final game of the season to finish with 1,055 yards rushing.

Jon Meyers of Cypress-Fairbanks also earned mention for his performance against Houston Scar-

borough when he completed 16 of 17 passes for 263 yards including one touchdown and rushed for two more in a 27-21 victory.

In other performances last week:

- Tuloso-Midway split end Mike Callihan caught six passes for 107 yards and a seven-yard touchdown catch, returned the opening kickoff 86 yards for another touchdown and returned another punt 31 yards to set up the game's winning field goal, a 30yarder by Henry Layton.

- Quarterback Greg Matthews led Nacogdoches to a 31-8 victory over Vidor with an all-around performance. Matthews completed four of five passes for 79 yards and touchdown passes of six and 26 yards.

The Midland Lee Stonewall Brigade opens its 1980 junior varsity football season at 7 p.m. today against the Snyder junior varsity in Memorial Stadium.

In a 5 p.m. contest, the Midland High sophomores will battle the Fort Stockton sophs to give football fans a doubleheader to watch.

In last week's action, the Lee sophomores downed the Lake View JVs, 13-8 in San Angelo while both the Midland Bullpup JVs and the Midland sophomores took games from the Pecos sophs and JVs by the scores of 21-14 and 19-0. Odessa Permian's sophs downed the Odessa

High sophs, 24-19 in a wild one while San Angelo Central's troubled football program appears to be in the upswing. The Bobcats won sophomore and junior varsity tilts from Abilene by scores of 28-14 and 34-6, respectively.

Abilene Cooper's JV, which had not lost a game in three years, saw a 33-game winning

Lee Brigade hosts Snyder streak snapped, losing to the Brownwood JV, 16-6 last Saturday.

> Neither the OHS or Permian JVs played during the first week of action.

McCamey's B.J. Terry ready to strut stuff against Reagan County

Unbeaten area teams eye bigger game Friday

Seven of eight Midland area teams came away with football victories last weekend, and if that pace continues through the season, there is going to be quite

a few playoff happy squads. Rankin, Greenwood, Andrews, Lamesa, Stanton, Reagan County and McCamey all came away with first night victories and only Crane was a loser, 13-7 to Reagan County.

Dewayne Turner's highly ranked Class A Rankin Red Devils got off to a fast start with a 22-8 victory over AA Eldorado as Dennis Black ran for touchdowns of 66 and 16 yards. And now the Devils hope to turn the trick again this week when they travel to Marfa, a 14-2 loser to Alpine last week.

Greenwood's Rangers also got into the win column with an 8-0 win over Sterling City. It was a big victory for the Rangers, because they are competing in a district for the first time this year. They happen to be in the same loop as state ranked Rankin, but they have a hard early season schedule to get ready for the loop grind. Greenwood travels to Whiteface Friday and then will test state ranked Klondike next week in a big test.

Lamesa's Golden Tornadoes, under first year head coach Jack Warren, equaled last year's record with a stunning 7-0 upset over 5-A Lubbock High. Lamesa was 1-9 a year ago, but Bernard Williams' 3-yard TD at the close of the first half was all Lamesa needed to get in the win column quick this year. Quarterback Sam Hansard was also a big surprise by completing 7 of 11 passes for 272 yards.

CKAGE

this year, didn't skip a beat against AAA Seminole for a 28-0 victory, but they will face Midland High Friday in a key area AA Reagan County had a hard

Andrews, the 2-AAAA favorite

fight against AAA Crane last Friday, but won by a 13-7 margin with all the points coming in the first half. The game winner came on James Phillips' 35-yard TD run in the second period. Crane had a 62-yard explosion from Brian Cunningham for its only score. Reagan County, however, will have a tough time this week with McCamey coming to town. McCamey is a defending district champion. Crane, on the other hand, also has a tough chore as they host AAAA Monahans in a tradional rivalry.

McCamey is taking up where it left off last year after winning the 6-A crown. McCamey is in 6-AA this time around, but the results seem to be the same. McCamey defeated Iraan, 21-19, Friday in another battle of tradional rivals. They always play it close to the vest in that one. McCamey and Reagan County are also long time foes, and this week's game promises to be another heart stopper for

Badger and Owl fans. McCamey got two touchdown passes of 21 and 27 while a 21 yarder that set up another from quarterback Ernest Velasquez to Ben Ferguson against Iraan and that duo may bare watching

Stanton had to come from behind to defeat Tahoka, 12-7, and they did it in exciting form with two fourth quarter scores. Tony Hernandez had a 90-yard kickoff return and the game winner came on a 10-yard pass from Craig Eiland to David McReynolds to secure the sudden vic-

The Buffaloes have their work cut out for them this week when they travel to AAA Coahoma. Coahoma blasted Wall, 20-0, last week and is the 6-AAA district

District 6-A
Season Standings: Rankin, 1-0; Greenwood, 1-0;

Gullickson whiffs 18

Expos' rookie one shy of NL 'K' mark

By KILEY ARMSTRONG **Associated Press Writer**

Bill Gullickson may turn out to be a master of understatements as well as strikeouts.

"I'm actually more excited about getting the win than I am the strikeouts. It was an important victory for us," said the rookie right-hander, who came within one of the major league strikeout mark for nine innings Wednesday night when he fanned 18 Chicago Cubs to pace the Montreal Expos to a 4-2

"I had good control of the fastball, both inside and out, and I was staying ahead of the hitters," said Gullickson, who has struck out 68 batters in his last 65 innings.

Expos catcher Gary Carter said the performance put Gullickson "up there with the Koufaxes and the Drysdales, and any other strikeout pitcher ... He's just a rookie. Look how many years he has ahead of

MONTREAL Manager Dick Williams said it was "the best pitching performance I've seen this

"I wasn't even aware I was close to an all-time strikeout record," said Gullickson, who has struck out 68 batters in his last 65 innings.

Bill Stoneman held the nine-inning strikeout record with 14, which he achieved twice in 1971. The victory maintained the Expos' half-game lead

over Philadelphia Phillies in first place in the East Division. Bill Buckner was the only Cub able to solve Gullickson. He collected three of Chicago's four hits and drove in both runs.

Tom Seaver wondered if his injured arm would mean a maimed career.

But Seaver, who leads active National League pitchers with 53 career shutouts, was back on track with his first shutout of the season

"It was the first time in 14 years I ever had a sore arm. I didn't know what it would do to my career," said Seaver, 8-7, who suffered the arm miseries early in the season.

"My overall pitching philosophy is to try to go at least seven innings and hold the other team to three runs or less. But, sure, I do go for the shutout," said Seaver.

George Foster's three-run homer in the first inning provided Seaver with all the runs he needed, and Seaver protected the lead, scattering eight hits and allowing two in only one inning

Pirates 7, Cardinals 6 Manager Chuck Tanner was brimming with optimism after the Pittsburgh Pirates snapped their losing streak at five games.

'We're going to win it, because we're playing each other in the division," Tanner said of the chase in the

National League East. Offsetting a three-run homer by St. Louis' Keith Hernandez, third place Pittsburgh stayed 3½-games behind Montreal and three games behind Philadelphia with 22 games remaining. Padres 4, Giants 2

Dave Winfield drove in three runs with a solo homer and a two-run single to power the Padres over ment gift by the Knoxthe Giants.

Phillies 5, Mets 0

Marty Bystrom, making his first major league start, scattered five hits and fired a shutout as Philadelphia defeated the Mets to stay within onehalf game of the first-place Montreal in the NL

Parker seeks revenge on for 42-15 grid rout

FARMERSVILLE, Texas (AP) - Lawrence "Ace" Parker, 56, has been waiting a year to get revenge on the football field against his son, and the chance comes Friday night. The elder Parker will be sending his Bells High

School team against son, John, the head man at Two years ago the younger Parker, then coach at

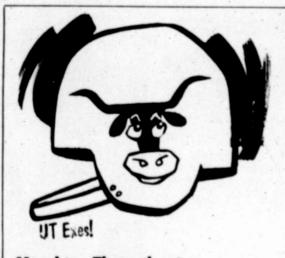

Whitewright, led his team to a 42-15 rout of Pa Parker and Bells. "I'm not going to cut him any slack, and I don't want him cutting me any slack," said the elder

Parker. "When it comes down to it, even if it's a softball game, I am going to try to beat him. And I know he's going to try to beat me. To which the younger Parker replied, "He knows I will do everything I can to beat him. I don't take any

special pleasure in beating him. I can't say it's just another game, either. The last time I beat him it was hard to go over there and shake hands with him." John said of what he knows about football, "60 to 70 per cent comes from him. And when we play he

knows what I like to do, and I know what he His father is a good coach, he said.

"Talking from the standpoint of his players, they respect him. They play for him. He is 56 years old, and he still has enough enthusiasm to keep his kids up, and get them all fired up."

Retiring coach turns back van

KNOXVILLE, Tenn. (AP) - Retiring Tennessee assistant coach George Cafego has returned a van presented as a gift to him before 95,288 spectators at the Georgia-Tennessee football game Saturday. 'I felt wonderful about

this effort when it started but it has turned into a .nightmare," Cafego said Wednesday when he thought that the van, which had 27,000 miles on it, belonged to UT's women's basketball team

"I don't want to hurt any feelings," Cafego said, "but if that van belongs to the Lady Vols, they should be allowed to keep it.'

It was later learned that the decorated orange van did not belong to team, but only to a

The van was a retireville Quarterback Club and former UT football players, some of them Cafego's teammates in 1938 and 1939 when he led the Vols to consecutive undefeated seasons.

Cubs to play in Fall league

One thing and another while wondering whatever became of Steve Pisarkiewicz?

Among the Midland Cubs scheduled to play in the Arizona Fall Instructional League will be pitchers Herman Segelke and Henry Mack; outfielders Randy La Vigne and Tom Grant; catcher Mike O'Berry, and infielder J. W. Mitchell Segelke will concentrate on becoming a relief pitcher while Mack's project will be to slow down his motion by swinging his left foot back further on delivery....La Vigne wasn't the smoothest flychaser in the Texas League by any stretch of the imagination, but there was no one even faintly close to him in outfield assists..

Penn State is supposed to play the toughest college football schedule in the land, based on last year's won-lost records of opponents. Alabama allegedly had the weakest schedule of the 62 teams rated. That's one good reason to pick the Tide for a third straight national title, provided that someone doesn't slip up on Bear's Boys on their way to that Nov. 15 date with Notre

That's the game the Tide would like most to win. The Irish have beaten Alabama three times by a total of six points and two of the losses, 24-23. in the 1973 Sugar Bowl and 13-11 in the 1974 Orange Bowl, cost Bama national championhips. Adding fuel to the feud is the fact that Notre Dame won national titles in 1966 and 1978, years the Crimson contends they should have won. Wonder if that game will be on TV?.

The expected Dallas soccer explosion isn't materializing as was expected, at least not as far as the pros are concerned. The reasoning has been that with as many youngsters who were introduced to the sport in the Dallas area during the 1970s, soccer would take off into the stratosphere in the 1980s wher those youngsters be-When Georgio Chinaglia led the Cosmos

against the Dallas Tornado last week in the NASL playoffs, he was appalled that only 7,459 fans showed up. He called it the smallest crowd he'd ever played before. Even so, the crowd was well over the Tornado's season's

The turn off is mystifying. Back in the mid 1970s all the rosy forecasts seemed certain to come true as the Tornado averaged 15,000 a game in SMU's Ownby Stadium. Then came the switch to Texas Stadium, the increase in prices and it was no longer a family bargain. Attendance has plummeted to 6,000 a game...

Shorty Lawson, longtime football and basketball official from Abilene, is no longer a familiar sight at SWC football games. He reached the retirement age last year, so now he watches from the press box, grading officials on the field.

Lawson gave up basketball officiating about five years ago, "It got so I was on the road six nights a week. One night in Cincinnati, the next in Houston...it just got to be too much.

Steve Pisarkiewicz was the reason Bud Wilkinson was fired by the St. Louis Cardinals late last season. The owners wanted to play the rookie quarterback while Bud steadfastly refused, feeling the St. Louis fans were deserving of a bona fide effort, which meant veteran Jim Hart at quarterback. This year, Hart is at quarterback while Pisarkiewicz was cut before the season started.

Few solar homes being constructed

WASHINGTON (AP) - Relatively Home-buyers are eligible for federfew sun-powered homes are being al tax subsidies of up to \$5,000 for built because solar homes aren't popinstalling solar equipment under exular with buyers and home-builders isting law. But the panel is considerdon't like to experiment, Congress ing providing \$2,000-per-unit tax credits to builders for installing the equip-

There's little demand for the houses even though the federal government ment in the first place. wants to offer various tax advantages President Carter proposed such a for the homes as part of a national tax credit in April 1979 and "continues effort to reduce oil consumption, conto support this approach," Assistant struction and government officials Energy Secretary Thomas E. Stelson testified Monday to the House Ways told the committee.

and Means Committee. Currently, Stelson said, builders The House panel is considering tax breaks for buildings or homes that haven't put up homes with passive solar systems "in any significant use "passive" solar devices, such as south-facing windows that collect quantity" because they aren't familsolar heat, dense wall materials such iar with the technolgy and "are unsure of the market for residences with as adobe or masonry that retain the heat, and tanks of water or other passive solar systems.'

Industry groups agreed. "Only 15 percent of builders are building passive solar homes because it is an additional and somewhat unknown risk," said Robert Peterson, a spokesman for the National Association of Home Builders.

The bill has already passed the Senate and has more than 100 cosponsors in the House.

S. David Freeman, chairman of the Tennessee Valley Authority, told the panel that despite "efforts which show that passive solar homes are cost-effective over their life, the builders have little incentive to spend the extra money for them. Unfortunately, passive solar is not well known to the general public."

big drop American oil imports show

WASHINGTON (AP) - American oil imports dropped a record 37 percent last month from August 1979 levels, according to Energy Secretary Charles Duncan.

Duncan says the nation's imports last month averaged 5.2 million barrels a day, compared with an 8.3 million-barrel average during the same period last year, the Washington Star reported in a recent edition.

The American Petroleum Institute - whose figures differ slightly from those compiled by the Energy Department due to difference in the way imports are determined - reported earlier that last July's imports of crude oil and petroleum products were 25.3 percent lower than those for July 1979 and at the lowest level since

Stock market gains

NEW YORK (AP) - Major oil stocks posted strong gains Wednesday as the stock market pushed ahead in heavy trading.

Trading in many blue chip issues showed signs of nervousness, howev-

The Dow Jones average of 30 industrial stocks closed with a gain of 3.75 points at 938.48. But the blue chip indicator bounced up and down throughout the session. It showed a loss of about 4 points in the early going and posted a gain of close to 8 points by early afternoon before slipping again.

Gaining issues outnumbered losers by 2-to-1 at the close of the New York Stock Exchange. Big Board volume was a heavy 51.43 million shares up from 44.46 million the previous ses-Among actively traded oil stocks,

Exxon gained 11/2 to 71%; Mobil rose 1% to 68%; Texaco rose % to 37%. In less active trading, Standard Oil of California rose 1 to 73 and Kerr McGee, a diversified energy company, jumped 3% to 80%.

Gulf Canada rose 11/2 to 251/2 as the most actively traded issue on the American Stock Exchange. The company said it is suspending operations indefinitely at its oil refinery at Point Tupper, Nova Scotia, because of a 'serious oversupply of heavy fuel oil." Gulf Oil Corp., which owns 60 percent of the Canadian company, gained ¾ to 40 on the NYSE.

Precious metals stocks picked up for the second time this week as gold jumped \$17 an ounce to \$685.50 in Zurich and \$10 an ounce to \$681.50 in later New York trading. Prices included Asarco up 1% to 50; ASA Ltd., up 31/2 to 771/8; Homestake Mining up 31/4 to 941/4 and Hecla up 1 to 45.

Sony Corp. rose ¾ to 13¼ on turn-over of 1.95 million shares as the most active issue as of the 4 p.m. NYSE close. A company spokesman said there were no new developments to account for the trading.

Among other issues, Marley Co. jumped 5% to 35% after officials said it has been holding talks on a possible acquisition.

Standard & Poor's index of 400 industrial stocks gained 0.85 to 141.64. The S&P 500-stock composite gained 0.74 to 124.81.

The NYSE composite index rose 0.48 to 72.12. On the American Stock Exchange, the market value index was up 3.75 to 938.48. In over-thecounter trading, the NASDAQ composite gained 1.47 to 186.31.

Methanol plant to be in Texas

CLEVELAND (AP) - Channelview, Texas will become home of one of the world's largest methanol pronen planned construction is completed in 1983, the Davy McKee Corp. has announced.

The subsidiary of Davy Inc. has been awarded a contract for the 200-million-gallon a year methanol plant by ARCO Chemical Co., a division of Atlantic Richfield Co.

Davy McKee Corp. and Davy Inc., both based in Cleveland, are members of Davy Corp. Ltd., an international engineering, metals and construction company serving the process, minerals, metals and energy industries.

FORT WORTH, Texas (AP) — Export Wheat 4.85-4.96, Domestic Milo 6.55 ½-6.76 ½, Export Milo 6.51-4.56, Yellow Corn 3.82 ½-3.87 ½, Oats 2.41 ½-2.44 ½, Soybeans 8.33-6.38. HOUSTON (AP) - Sorghum No.2 Yellow: export

1.46-6.53. Corn No.2 Yellow: export \$3.55-3.60. Soybeans No. 1, export \$8.331/4-8.431/4.

CHICAGO (AP) — Futures trading on the Michigan Mercantile — Exchange Wednesday — Mercantile — Exchange Wednesday — Might Love SEEF CATTLE — Cis Chg — Soybeans No. 1, export \$8.33\(\frac{1}{2}\). 4.43\(\frac{1}{2}\).

LITTLE ROCK (AP) — Domestic milled rice prices maintained a steady course during the past week in the Southern production areas. Market activity is light for both domestic and export business.

Current long grain prices are 21.00-22.00. Medium grain 20.00-21.00. All per cwt fob mills.

Sales of rice bran and rice millifeed continue slow with a good demand for light supplies. Current trade levels for bran range from 85.00-87.50 in Louisiana and 86.00-95.00 in Arkansas and Texas. Current rice millifeed prices were 28.00-40.00 in Louisiana and Texas; 45.00-48.00 in Arkansas. All per ton bulk fob mills.

Reports indicate harvest activity in early plant of rice in Arkansas and Mississippi is making rapid progress. Confirmation rate of dry rough rice sales in Louisiana was at a low 28 percent. Confirmed sales during the past week in Louisiana ranged from 7.76 cwt to 11.50 cwt for long grain and 6.86 cwt to 11.50 cwt for medium grain.

TODAY'S ANSWER

BUSINESS MIRROR

Economics expert today needs to know plenty

By JOHN CUNNIFF **AP Business Analyst**

NEW YORK (AP) - To have any understanding of today's economy it is said that you must know your numbers, like the 7.6 percent unemployment rate and the 12 percent prime rate and the 12.6 percent inflation.

You must know your alphabet too, at least if you are going to have any comprehension of the recent economic literature, which is filled with discussions of which letter best describes

Will it be a "U" or a "V" or an "L" or a "W"? That is, will the economy continue to fall swiftly, stay depressed for a while, and then rise swiftly, as in "U?" Will the rise be sudden, as in "V"?

While "U" and "V" are the most common descriptions, the others are drawing a following of late. An "L" recession would mean a decline that would persist. A "W" suggests a 'double dip" recession.

Some economists who had risked their reputations on an "L" are now leaning toward the "W," reasoning that while the economy has shown some signs of recovery it will soon dip for the second time this year.

The recovery they foresee is a brief one. They question the accuracy of the job figures, but they are willing to concede that for whatever reason the unemployment rate hasn't shot up as they had forecast.

But they don't see the decline in the jobless rate continuing. They think it will begin climbing soon. They think that any cheering, by the Carter administration and others, should cease forthwith.

The decline in the unemployment rate, which is likely to capture the headlines, was more the result of a drop in the labor force rather than an increase in the number of employed," says Morgan Stanley.

The investment house isn't very impressed either by other economic measures. "Put simply, the underlying buying power to support renewed economic expansion is lacking at

present," it is telling clients.

The adherents of "W" aren't impressed by a slight pickup in retail sales or consumer confidence. They aren't impressed by some strength in housing; they say that market will fall on its face again by October.

In fact, they argue that the rise in interest rates for homebuyers as well as businesses is already making its mark on the economy. And that mark, they say, is the mark of "W." It will fall again.

Bad as it is, the "W" offers much more hope than the "L," which describes a depressingly straight line at the bottom of the decline. An"L" economy is one that no longer responds to the usual incentives.

Those who believe in "L" say the economy it decribes is inevitable in view of bureaucratic interference and debt-induced inflation, which they say has worn out the nation's will and its productive machinery.

Take your pick, but remember that no number, no letter, no economist and certainly no encumbent or candidate for public office, national or local, knows much more about the future economy than you do.

In fact, do you know that many of them get their most reliable cues from you in the form of those much publicized surveys of consumer confidence that reveal your intentions and ability to buy?

You may argue, in fact, that they rely on symbols and numerals because they do not know what to expect. And isn't that the same sort of thing practiced for eons by witchdoctors and fortune tellers?

He's an expert at sneaking

By JAMES GERSTENZANG

WASHINGTON (AP) - President Carter, who likes on occasion to sneak out of the White House for a quiet dinner at a Washington restaurant, and who also likes to sneak out of town for a fishing expedition now and then in Pennsylvania, indulged himself with a shopping trip in the nation's capital recently.

He was spied checking out fishing tackle at a new store in the Georgetown section at midday, accompanied by a fishing companion, first lady Rosalvnn Carter.

Traveling through the city's streets in a limousine, but accompanied by only two other vehicles, instead of the usual motorcade, Carter waved at the people he passed.

apparent that they were simply trying to hail taxicabs and had not recognized him behind the heavy glass windows of the armored vehicle.

VICE PRESIDENT Walter F. Mondale, not known for stirring speeches that have audiences clammoring for more, still manages to introduce "applause lines," that may bring an audience to life.

But when an audience seems hesitant to interrupt the vice president with a round of applause, he encourages them with a standard line: "Any time you feel like clapping, let 'er

It always works. Or at least it did until he hit San Francisco on the campaign trail last week.

There, he spied at the head table of a Commonwealth Club luncheon he was addressing an old friend, Walter

Shorenstein, who is also a long-time Democratic Party contributor.

'Shorenstein, I invited you as one of my guests, and you haven't clapped yet. Get started," Mondale commanded. Shorenstein obeyed.

"Very good," Mondale replied, instructing his guest to repeat his act whenever I raise this hand.'

WHEN THE president flew home to Washington Tuesday after a campaign trip to New Jersey, press secre-tary Jody Powell skipped the flight aboard Air Force One to ride home aboard the chartered press plane.

It was a quick flight, and he spent
the entire time in his first- class seat

at the front of the airplane, sitting beneath a bumper sticker toting Ronald Reagan's presidential campaign. The sticker had been placed on the aircraft's inside wall by a press corps gagster who delighted in pointing it out to everyone but the press secre-

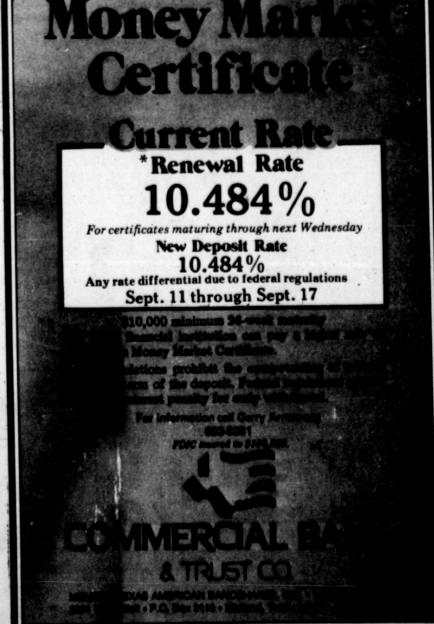

Powell sat and smiled beneath the sticker while a stewardess took his picture, apparently thinking all the while that it was his smiling face which attracted her camera.

When the plane landed at Andrews Air Force Base outside Wasington and the sign was pointed out to Powell, he smiled once again and said: "I've done some dumb things. His voice trailed off.

NEWSPAPER BIBLE

'He has enriched your whole life'

FROM: Paul, chosen by God to be Jesus Christ's missionary, and from brother Sosthenes.

To: The Christians in Corinth, invited by God to be His people and made acceptable' to Him by Christ Jesus. And to: All Christians everywhere-whoever calls upon the name of Jesus Christ, our Lord and theirs.

May God our Father and the Lord Jesus Christ give you all of His blessings, and great peace of heart and mind.

I can never stop thanking God for all the wonderful gifts

He has given you, now that you are Christ's: He has enriched your whole-life. He has helped you speak

out for Him and has given you a full understanding of the truth; What I told you Christ could do for you has happened! Now you have every grace and blessing; every spiritual

gift and power for doing His will are yours during this time of waiting for the return of our Lord Jesus Christ. And He guarantees right up to the end that you will be

counted free from all sin and guilt on that day when He returns. God will surely do this for you, for He always does just what He says, and He is the one who invited you into this wonderful friendship with His Son, even Christ our Lord.

White-collar crime being catalogued

WASHINGTON (AP) - In an effort to focus government crime-fighting resources, the Justice Department is cataloging white-collar crimes - and corruption in public office tops the list.

Attorney General Benjamin R. Civiletti said Abscam-type undercover operations are one of the most effective weapons against such offenses and will continue to be used in ferreting out white-collar criminals.

"Undercover investigations are essential to effective law enforcement," Civiletti said. "We will be utilizing undercover techniques in these areas."

The department today issued a list of white-collar offenses that includes guidelines for setting priorities, the product of an eight-month study that Civiletti said was aimed at focusing the efforts of prosecutors and investigators.

The department also released a survey of 61 FBI field offices that shows more than half the agents consider corruption of public officials the most important category of white-collar crime. Financial crimes were ranked next, followed by fraud against federal programs, such as tax fraud and counterfeit-

"White collar crime covers the waterfront," Civiletti said. The department is assigning priorities to the crimes in "an attempt to make the investigation and prosecution less random, more targeted.

The work of federal prosecutors will be monitored periodically to determine if they are following department guidelines for the use of manpower, offi-

The department report breaks down white-collar crimes into seven categories: public corruption; fraud against government by private citizens; business crimes such as embezzlement and bank fraud; consumer fraud, including antitrust violations; securities and real estate swindles aimed at investors; health and safety violations in the workplace and union corruption, and crimes affecting the public health, such as illegal discharge of hazardous

In some areas the department guidelines prescribe money thresholds triggering federal investigations. For example, they suggest federal action in insurance fraud cases, such as arson for profit, when total losses are at least \$250,000. Consumer fraud should entail at least \$100,000 in losses to 25 or more victims before the federal government gets involved, the guidelines say

Department officials said state and local law enforcement agencies are available to handle smaller-scale crimes

The priorities will enable federal investigators and prosecutors in a number of agencies to work together more effectively in identifying major fraud and corruption cases," Civiletti said

Besides the Justice Department and the FBI, the catalog is intended as a guideline for the Internal Revenue Service, the Postal Service, and the inspector general in the General Services Administration.
