Border dispute continues on ground, in air

By The Associated Press

Iraqi ground forces invaded Iran today, Baghdad reported, as Iranian jet fighters bombed and strafed the Iraqi capital and nine other targets in Iraq. Iraq said its MiGs hit three more air bases in Iran following heavy raids across much of Iran Monday.

Iraq reported 47 Iraqis killed and 116 wounded by Iran's U.S.-made jets and claimed 20 were shot down and many of the pilots were taken prisoner. Iraq said all of its planes returned safely and its forces downed 16 Iraqi MiGs Monday and today. Iraq admitted the loss of three planes.

Baghdad Radio also claimed that

Iran released all 52 American hostages unconditionally today and said "this surprise move goes to show that the racist regime in Tehran is a collaborator with U.S. imperialism." Iran's government radio denied the report, saying the Baghdad broadcast was a lie. Tehran Radio said the hostage matter "has been frozen indefinitely" by the Iranian Parliament. A State Department spokesman in Washington said the department had "absolutely no confirmation of the report whatsoever."

A spokesman for the State Department's Iran Working Group said he did not believe the report was reliable. But when department spokes-

man Joe Reap was asked if he considered the report credible, he replied: "We're not characterizing the report."

The invasion was reported in a communique broadcast by Baghdad Radio, which said Iraqi ground forces "advanced to take control of vital positions inside of Iran" to "break the racist government" of Ayatollah Ruhollah Khomeini.

The targets were not specified. But Radio Tehran said Iranian armored troops routed Iraqi troops around Khorramshahr, Iran's main port on the disputed Shatt al-Arab estuary at the head of the Persian Gulf.

Reporting on the air war, the Iraqi state radio said Iranian jets struck all

over the country, attacking Baghdad, Masul, Nineveh, Basra and six airfields and bases.

"Many men, women and children were killed," the broadcast said. "The largest portion of casualties occurred among the workers of the petrochemical and fertilizer factory of Basra, where 20 were killed and 50 wounded."

Damage at the airfields was limited to one runway that was quickly repaired, the communique said.

It said Iraqi planes raided three air bases and military airfields in western and southwestern Iran, "inflicting heavy destruction and burned many enemy aircraft on the ground."

Iraq said its invasion was in retaliation

for the "unlawful and irresponsible closure to navigation of the Hormuz Strait," which connects the Persian Gulf and the Gulf of Oman and through which much of the Arab world's exported oil passes.

Iraq said Monday it would take action against all ships entering the Persian Gulf through the strait if they sailed too close to the Iranian coast on the north side.

It declared the gulf a war zone, warned ships against carrying supplies to Iraq and ordered all merchant ships in the Shatt al-Arab and adjoining waters to leave immediately, "otherwise the Iranian army cannot be held responsible for any damage to

these vessels."

Iraq's President Saddam Hussein said the Iranian threats to shipping in the Strait of Hormuz constituted a declaration of war. But Khomeini, Iran's revolutionary leader, said Iraq had declared war on Iran and that Iraq would suffer the consequences.

The border war between the two neighboring oil nations escalated sharply in the air Monday. The Iraqi Air Force roamed far across Iran's skies to attack Tehran's Mehrabad Airport, 300 miles across the border, and 10 other airfields ranging 700 miles from Tabriz in the north to Boushehr in the south.

Auctioneer Mark Blechman points out intricate detail in an 18th century ivory Chinese emperor's seal Monday night at an auction of actor George Raft's possessions. This was just one of many antiques available at the auction, which continues at Midland Center at 8 p.m. today. (Staff Photo by Bruce Partain)

A 'Raft' of bargains

Auction of actor's items continues

By GEORGIA TEMPLE
Staff Writer

Those who love a bargain and weren't at Midland Center Monday night missed an opportunity to find several.

The occasion was the auction of George Raft's personal items which include furniture, bronze work, cut glass pieces, ivory carvings, erotica items and miscellaneous merchandise. The bidding on these possessions Monday night was extremely low, but higher bidding is expected tonight when the auction continues at 8 o'clock.

Raft, who starred in many gangster-type movies with Edward G. Robinson and Humphrey Bogart, has always had an affinity for gambling. It is through this love that he acquired many of the items for sale. And it is because of this love that he has a need at this time to liquidate much of his estate.

Henry Blechman, who is with Estate Auction Inc. of Houston, explained that the coin Raft stood around flipping in the movie "Scarface" sold at the auction held recently in Houston.

"Much controversy surrounded what type of coin it was," Blechman said. "It was actually a 1928 nickel." He didn't elaborate on what price it brought.

Raft, who is in his 70s, "has been very, very ill. He's been in and out of hospitals this last year. He really has nobody to leave his possessions to and besides he has gambled a lot of his money away. He's trying to dispose of everything he has now," Blechman said.

The auction rules are simple.

When there is a reserve (a bottom dollar) on an item we announce it beforehand. Otherwise the auctioneer determines what he asks for a bid and it's up to the auctioneer what he wants to accept," Blechman said. The auctioneer is Mark Blechman, Blechman's son, who commented Monday that "this is going to be a night for me to remember."

The action was very slow Monday night. Blechman kept explaining, in good humor, that it wasn't illegal to bid more than once. He also told those there that they didn't have to worry about bidding too much.

The doors were to open again at 4 p.m. today for the public to view the items.

The sale items also include many hand-made oriental rugs. The rugs and a few of the other items for sale are from other consigners. Among Raft's personal possessions for sale is an eight piece Louis XV salon set which still has the original tapestry: and is valued at \$60,000.

For those who are not interested in bidding or who simply can't afford to bid, the merchandise is worth viewing.

"People determine in advance what the item is worth to them. We try to sell the pieces for as much as we can get for them for our clients."

This is the Blechman's fourth auction in Midland. So far they have done well in this market.

"An auction is a gamble in a sense," Blechman said. "You don't know from one time to the next what the response will be."

Hopefully tonight will be more profitable than Monday. However, those seeking bargains may still be able to find some.

Reagan, Carter each storming the other's political strongholds

By LEE BYRD
Associated Press Writer

President Carter and Ronald Reagan trooped one another's political strongholds today in forays launched by a brutal exchange of charges over suffering, betrayal and even life and death.

The president, campaigning in Reagan's home state of California, declared flatly Monday night that the Nov. 4 poses a choice between "peace or war." It was Carter's severest characterization to date of the Republican nominee's prospective responsibility as commander in chief.

As for himself, Carter said he already has dealt with crisis after crisis that "you never knew about." He didn't elaborate, except to say that had he acted improperly, it "perhaps would have endangered the safety and peace of the entire world."

Reagan, for his part, said Carter had betrayed the South, had spread "distortions and half-truths" about

the GOP campaign and was responsible for more than tripling what Reagan termed the "family suffering index."

After stops in Knoxville, Tenn., and Miami Monday, Reagan stomped in Pensacola, Fla., today before setting out for Baton Rouge, La., and Springfield, Mo.

Independent challenger John B. Anderson, meanwhile, insisted he had gained equal footing with Carter and Reagan via his nationally televised debate with the Republican Sunday night. But his balloon was deflated somewhat by a poor turnout at a rally in Philadelphia and burgeoning indications that the first debate may well have been the last of the 1980 campaign.

Carter headed for Northern California and stops in Portland, Ore., and Tacoma, Wash., today after opening his tour of the Golden State with an embrace from the man who won its Democratic primary, Sen. Edward M. Kennedy. The Massachusetts sen-

ator joined Carter at a Beverly Hills fundraiser, exhorting the party faithful to rally behind the president.

Earlier, at a question-and-answer session at a Torrance, Calif., high school, Carter said the current fighting between Iraq and Iran could speed the release of the American hostages.

"It could convince Iran that they need peace with their neighbors, that they need to be part of the international community, they need to be able to have a strong and viable economy, they need to get spare parts for their military weapons and so forth, and therefore induce them to release the hostages," Carter said.

"I'm not predicting that, but it's a possibility," he said. Carter told the California AFL-CIO convention the state will be vital in determining who wins the White House. Carter has lost it three times so far, twice in the 1976 primary and general elections, and to Kennedy this year.

Effects of border war on hostages questioned

WASHINGTON (AP) — Despite a pledge of U.S. neutrality and some words of hope from President Carter, administration officials are worried that the border war between Iran and Iraq could have an "extremely disruptive" effect on efforts to free the 52 American hostages in Iran.

The officials, who asked not to be identified, said the Iraqi conflict could sidetrack Iranian authorities who have focused increasing attention recently on the hostages, now in their 325th day of captivity.

The administration quickly moved to quell any suspicions in Iran that the United States is assisting the Iraqi war effort.

CBS News reported Monday night that a message to that effect had been sent to Iranian authorities, and Carter declared as he arrived in Los Angeles on a campaign swing: "We are not taking a position in support of either Iran or Iraq."

"Our only hope is that the two nations can resolve the dispute peacefully," the president added. But Carter, while emphasizing he was making no predictions, also said the fighting between the two longtime Mideast enemies could convince Iran that it needs friends and neighbors "and therefore induce them to release the hostages."

Carter said "the signals coming out of Iran" have indicated "some new desire to resolve the problem between us and them."

Iraq's government radio denied a claim by Baghdad Radio early today

that Iran has released all 52 American hostages unconditionally. Baghdad Radio said "this surprise move goes to show that the racist regime in Tehran is a collaborator with U.S. imperialism."

A few hours later, the Tehran radio said "the people of Iraq should not believe 'the lies carried by your

Today is the
325th
day Americans have
been held hostage
in Iran

radio." It said the American hostages problem "has been frozen indefinitely by the Iranian consultative assembly."

Before the denial from Tehran, a spokesman for the Iran Working Group at the State Department said the report was "dubious."

An Arab magazine published in London reported Monday that Iranian leader Ayatollah Ruhollah Khomeini has agreed that the hostages should be released within six weeks. The newsweekly 8 Days predicted negotiations will resume early next month in "a frantic race to beat the U.S. presidential election."

But Hashemi Rafsanjani, speaker of the Iranian parliament, said the

parliament will take up the hostage question only after the United States meets Iran's demands, including return of the wealth of the late Shah Mohammad Reza Pahlavi.

At the United Nations, Secretary of State Edmund S. Muskie said the United States is ready to resolve the issues fairly but will not apologize for past actions.

Despite those developments, officials privately expressed frustration that a flurry of activity on the hostage question in recent days, including some seemingly conciliatory statements by Iran's top leaders, now is being overshadowed by Iran's new crisis with Iraq.

That fear seemed to gain credibility when Rafsanjani said Monday that the Iranian-Iraqi war will not be without effect on the fate of the hostages." He said "Iraq's position is close to that of the United States."

One administration official acknowledged that efforts to convince Iran of U.S. neutrality in the conflict with Iraq could be complicated by the administration's decision earlier this year to approve the sale of \$11.2 million worth of equipment for use by the Iraqi Navy.

The sale, involving eight turbine engines for Italian-made frigates, is not yet final. House and Senate conferees are scheduled to meet Wednesday to take up a Senate amendment to deny Iraq the engines.

County Commissioners sanction bonds, debate office purchase

By ED TODD
Staff Writer

Midland County Commissioners promptly gave their sanction on a \$1.5-million bond program for the Midland Industrial Development Corp.'s expansion of Compressor Systems plant here Monday.

But the four commissioners spent far more time in toying over the merits of two competing \$5,000 postage machines than they did over the \$1.5 million.

"That bond has to stand on its own," Commissioner Charlie Welch noted just to make it clear that the county — and taxpayers — would not be liable should the program falter.

The funds are to be used to expand the plant, which manufactures compressors for the oil field. An economic effect of the expansion would be an additional 65 or more workers at the plant, which is off FM 1788 and between Interstate 20 and U.S. Highway 80 and near Midland Regional Airport.

"SOUNDS VERY interesting," Commissioners Durward Wright had said just after MIDC's Grant Billingsley had explained the proposed use of the bond money. "I think we're very interested in it."

The commissioners unanimously approved MIDC's application after Billingsley's "short and very sweet" spiel.

The Commissioners' Court also granted an audience to salesmen for Pitney Bowes Inc. and Friden Mailroom Electronic Systems.

"This is it," said Pitney Bowes representative Robert Jones in introducing his company's machine, who he seemed to suggest was as close to magic as any electronic gadget. "It's completely revolutionary..."

"Excuse me," interrupted Welch, who politely jested that they talk about the weather.

"It's very revolutionary to anything that has been introduced before this time," continued Jones, who lauded the speed, sealing, postage stamping

and efficiency of his company's solid-state machine. He rapidly processed about 100 of his company's letterhead envelopes to demonstrate the efficiency of the desk-size machine.

His competitor, Friden's Boyd Bowen, handed out company brochures in the absence of a comparable machine to exhibit and demonstrate.

"We have made this our biggest and best machine," Jones said, and noted that the life-expectancy of machine was about five to seven years.

SUCH LONGEVITY did not suit June Davis, a county PBX operator who, along with fellow PBX'er Sonya Scholl, processes the county out-flow of mail.

"I insist on many more years than that for the machine... say 15 years," said Ms. Davis.

"We'll have a tremendous operator and tremendous people taking care of

(See PANEL, Page 2A)

Man struck in head dies

A 26-year-old Midland man who was allegedly struck on the head with a baseball bat Wednesday night died at 2:45 a.m. today.

Patrick Herbert Armstrong, 4005 Anetta Drive, had been in critical condition in Midland Memorial Hospital since the incident occurred.

According to police, Armstrong was apparently hit with the baseball bat following an argument about 9 p.m. Wednesday at 4001 Anetta. Armstrong reportedly was first struck in the side and then on the head.

He was rushed to Midland Memorial emergency room where a neurosurgeon was called and emergency surgery was performed.

Police say they will take the case before the Midland County grand jury Wednesday.

Thursday Through Saturday
West Texas: Mostly fair with a slow warming trend. Lows in the upper 40s north to mid 60s south warming to low 60s north to near 70 south by the weekend. Highs in the mid 70s north to near 90 south warming to near 80 north to low 90s south by the weekend.

Cold front brings rain

An early-fall cold front that moved into the Midland area early Monday afternoon brought more rain to the Tall City, boosting the official National Weather Service yearly total to 10.08 inches.

MC therapy program has new support

Midland College's allied health program in respiratory therapy has received a "letter of support" from the Joint Review Committee for Respiratory Therapy Education. The committee sets standards for national accreditation of schools which train respiratory therapists.

according to the National Weather Service at Midland Regional Airport. That boosted September's rainfall to 4.07 inches and the yearly rainfall total to 10.08 inches.

Rain collected on city thoroughfares and at street intersections, creating problems for early-morning motorists. Some minor traffic accidents were reported.

And the weatherman was promising more of the same throughout today and tonight. The forecast, issued early this morning, was calling for more showers and thunderstorms later today and tonight. It will be sunny and warmer Wednesday.

A 40 percent probability of more rainfall existed today and a 20 percent chance exists for tonight.

Low temperature tonight will be near 60 and the high on Wednesday will be in the lower 80s.

Variable winds today will become southeasterly at 5-10 mph through Wednesday.

Midland wasn't the only Permian Basin town getting a soaking Monday night. The Warfield community, located five miles south of Midland Regional Airport, had received 3.9 inches of rain by early today and Greenwood, 10 miles east of Midland, received 3.1 inches and it was still raining there.

Westview Estates, located five miles north of Midland Regional Airport, reported receiving 1.1 inches of rain Monday night.

Midland Farmers' Coop, just outside Midland's eastern city limits, received 2 inches of rain and Midland College on the city's northern boundary received 2 inches.

Other area communities also reported good rainfalls overnight. Stanton received about 4 inches of rain and Crane reported receiving in excess of 4 inches. Big Lake had no official measurement available, but weather watchers there reported the streets running with water.

Lamesa received only .07 inch of rain by early today, but Andrews, Rankin, Big Spring, Garden City and Odessa all reported substantial rains.

Farmers again noted that this rain, like the one two weeks ago, came too late to help this year's cotton crop. But, they added, the moisture will be beneficial in preparing the ground for fall plowing. And the moisture will help fall crops.

James Friend, left, talks with Richard Stoiber, center, Monday during scientists' experiments on flight over Mount St. Helens. Friend, from Drexel University, is director of project to study volcanic emissions. Stoiber is a vulcanologist from Dartmouth College. At right is Stoiber's assistant, Dartmouth student James Wells. (AP Laserphoto)

Scientists study volcanic emissions

PORTLAND, Ore. (AP) — One researcher got airsick and Mount St. Helens hid behind a blanket of clouds, but scientists undertaking the first detailed federal study of volcanic emissions were smiling when they completed their maiden flight over the southwestern Washington mountain.

Friend, an atmospheric chemist at Drexel University of Philadelphia, said the project was developed because there is little scientific information on the gases that spew from volcanoes.

Stoiber said he would have to analyze his readings to determine exactly how much sulfur was coming out of the mountain Monday.

Portland, Ore. (AP) — One researcher got airsick and Mount St. Helens hid behind a blanket of clouds, but scientists undertaking the first detailed federal study of volcanic emissions were smiling when they completed their maiden flight over the southwestern Washington mountain.

Friend, an atmospheric chemist at Drexel University of Philadelphia, said the project was developed because there is little scientific information on the gases that spew from volcanoes.

Stoiber said he would have to analyze his readings to determine exactly how much sulfur was coming out of the mountain Monday.

All of the instruments functioned as they were supposed to, said James P. Friend, director of Project RAVE, or Research on Atmospheric Volcanic Emissions.

Dartmouth College vulcanologist Richard Stoiber agreed. He called Monday's exercise "a fire drill."

The scientists, using a National Aeronautics and Space Administration plane, flew for nearly four hours, following the path of a thin plume of gas drifting from Mount St. Helens.

Friend, an atmospheric chemist at Drexel University of Philadelphia, said the project was developed because there is little scientific information on the gases that spew from volcanoes.

Stoiber said he would have to analyze his readings to determine exactly how much sulfur was coming out of the mountain Monday.

DEATHS

Clifford Cool

Clifford Cool, 74, 1209 Country Club Drive, died Sunday in a Midland hospital.

Graveside services will be at 11 a.m. Wednesday at Resthaven Memorial Park with the Rev. R.B. Smith of First Presbyterian Church officiating. Burial will be under the direction of Newnie W. Ellis Funeral Home.

Cool was born June 18, 1906, in Neodasa, Kan. He was reared in Kansas and graduated from the University of Kansas in 1927, moving to Midland in the same year. He was one of the first oilfield engineer-surveyors in West Texas. He began work with the old Prairie Oil Company. He entered the U.S. Navy during the World War II and served in the Pacific Theatre until 1946. He returned to Midland and established a business of surveying and staking well sites throughout the Permian Basin. He staked most of the original wells in Goldsmith, Slaughter field in Hockley County and the Dugan Field in Cochran County. He was married to the former Emily Flanigan, a native Midlander, in 1938. He was a member of the First Presbyterian Church.

Survivors include a son, Mike Cool of Midland.

Nell Mae Cross

McKINNEY — Services for Nell Mae Cross, 68, of Frisco, mother of Laura Bostic of Midland, were to be at 2 p.m. Tuesday in Turrentine-Jackson-Morrow Funeral Home chapel here. Officiating will be the Rev. Malcolm Certain. Burial was to be in Ridgeview Memorial Park here.

She died Sunday in a McKinney hospital.

Mrs. Cross was born May 11, 1912, in Collin County. She was a member of Assembly of God Church.

Other survivors include three sons, a daughter, a brother, a sister, 22 grandchildren and seven great-grandchildren.

A.D. Wyrosdick

Andrew D. Wyrosdick, 88, of rural Midland died Saturday at his home.

Services will be Wednesday at 10 a.m. in the Newnie W. Ellis Funeral Home chapel with the Rev. Ralph Inman of Valley View Baptist Church officiating. Burial will be at 3 p.m. Wednesday in Pecos Cemetery in Pecos under the direction of Ellis Funeral Home.

Wyrosdick was born Jan. 19, 1892, in Clarksville. He moved to Artesia, N.M., as a teen-ager. In 1922 he was married to Florence Etta Laney in Hobbs, N.M. He farmed in various places in Texas, including Balmorhea, Westbrook and Colorado City, until 1959 when he moved to the Valley View community upon retirement. He was a member of the First Baptist Church of Westbrook.

Survivors include his wife, of Valley View; a son, Lonnie A. Wyrosdick of Arlington; three daughters, Sandra Self of Midland, Cherry Hanna of Gilmer and Beatrice Bullard of Fort Worth; a sister, Ada Prine of Fort Worth; nine grandchildren, seven great-grandchildren and several nieces and nephews.

Francisco Prieto

Rosary for Francisco Prieto, 64, of Midland will be recited at 7 p.m. Wednesday at Newnie W. Ellis Funeral Home chapel. Mass will be said at 10 a.m. Thursday at Our Lady of Guadalupe Catholic Church with Father James R. Foelker officiating. Burial will be at Fairview Cemetery.

Prieto died early Monday in a Midland hospital after a brief illness.

He was born in Ruidoso, Texas, Feb. 18, 1916. He was reared in Marfa and was married to Severiana Machuca in Marfa on April 29, 1950. They moved to Midland in 1950. He was a construction worker. He retired in 1973. He was a member of Our Lady of Guadalupe Catholic Church.

Survivors include his wife; three sons, Richard A. Prieto of Houston, Sammy Prieto of Kermit and Hector Prieto of Midland; two daughters, Rebecca Gonzales and Mrs. Ricardo (Senaida) Garcia, both of Midland; three grandsons, three granddaughters and a great-granddaughter.

William Radford

William T. Radford, 85, of 3414 Douglas Avenue, died Friday in Midland Memorial Hospital after a brief illness.

Services were at 4 p.m. Monday in the Newnie W. Ellis Funeral Home chapel with the Rev. Ed Vrazel of St. Ann's Catholic Church officiating. Burial was in Resthaven Memorial Park.

Pallbearers were Wayne Petty, Bert DeBord, Jack Gievrkink, Joe Kiowski and Dan Black.

Helen Honeycutt

TAHOKA — Services for Helen Hardy Honeycutt, 71, of Tahoka, mother of James Hardy Eubank of Midland, were Monday in Tahoka First United Methodist Church with burial in Tahoka Cemetery directed by White Funeral Home.

She died Friday in a Tahoka hospital following a lengthy illness.

Mrs. Honeycutt was born July 22, 1909, in Lubbock. She attended Floydada schools and the Hockaday School for Girls in Dallas. She moved to Lynn County from Corpus Christi in 1936.

She was married to Clovis Honeycutt Jan. 21, 1943, in McAlester, Okla. She had been a hospital administrator in Tahoka for 32 years before her retirement several years ago.

Larry C. Zink

Services for Larry Clayton Zink, 60, 3206 Sinclair Ave., were at 11 a.m. Monday in the Golf Course Church of Christ with Larry Van Steenburg officiating. Burial was Fort Bliss National Cemetery in El Paso.

Zink died Saturday in a Midland hospital.

Pallbearers were John Stewart, J.C. Weaver, Brutus Hanks, W. Clyde Tanner, Ed Poulter and Bryan Polard. Honorary pallbearers were O.C. Collins, Cooper Day, Willie Gaudeau, John Huckaby, Ollie Jones, Gary Tate, Joe Davis, Ed Palk and Jack McGraw.

(More Obituaries, Page 2A)

Burglary reported

Police are investigating a \$1,400 burglary that occurred between 3 and 4 p.m. Monday at 208 W. Jax Ave.

Investigating officers found that all the bedroom drawers had been ransacked, as well as a closet. Jewelry box drawers had been scattered and emptied on the dresser, and a file box containing silver dollars was found on the floor beside the bed. Several other items from the closet were found on the bed and floor. Two piggy banks were taken into the living room and emptied on the couch. However, they contained Mexican money which was not taken.

Police roundup

The refrigerator door also was found open and some lunch meat — minus a few bites — was found on the den table. Delores Hinojos told police a Seiko watch, wedding band with diamonds, gold and silver chains, a gold chain with a cross, 12 assorted pairs of earrings, two baseball gloves, a baseball bat, eight silver dollars and a baseball were missing. Total value was placed at \$1,450.

Entry to the house was through the bathroom window. Also on Monday, Martin Allday reported a \$700 burglary at his home. The burglary reportedly occurred Aug. 17.

Entry was gained by entering the garage door. Taken from the garage were a portable television, three fishing reels, a fishing rod, 30 to 40 lures, miscellaneous fishing equipment, a plastic shell box containing four boxes of 20-gauge shells, a pair of tan deerskin hunting gloves, a shirt and hat and greet hunting vest.

Total value was estimated at \$737. A 16-year-old youth was in custody this morning in connection with a burglar alarm that sounded late Monday at David Crockett Elementary.

Officers said the alarm sounded at 11:54 p.m. at Crockett Elementary, 401 E. Parker Ave. When police arrived they found the youth in the building.

Elevator back in operation

GALVESTON, Texas (AP) — The Farmers Export Co. grain elevator that was wrecked by a 1977 explosion that killed 17 people is back in operation.

State funds earn record

AUSTIN, Texas (AP) — State Treasurer Warren G. Harding said Wednesday interest earned on state funds totaled a record \$225.2 million in the fiscal year ending Aug. 31.

Victim can be anyone

Few will shed tears over the death of former Nicaraguan dictator Anastasio Somoza. There is, oddly, something ironic in the manner in which Somoza died, at the hands of terrorists.

Somoza had been overthrown in July 1979, and had been in exile in Paraguay since August 1979. His car was ripped apart by bombs and sprayed with bullets. He was the apparent victim of international terrorists.

His assassination is believed to be the result of a conspiracy involving Yasir Arafat, head of the terroristic Palestine Liberation Organization; Mario Firmenich, leader of the Argentina-based Montonero terrorists; and Tomas Borge, Nicaragua's Marxist minister of the interior.

Some likely would say that Somoza received exactly what he deserved; that he killed enough innocent people in his own bloody life. Yet, anyone endowed with civilized instincts must feel a pang of remorse that anyone, including Somoza, can be cut down by terrorists.

Recently that brand of terrorism has been on the increase

throughout the world. It is the sort of lawlessness that has transformed Europe, the Middle East, much of Latin America and, sometimes, the United States into a free fire zone for madmen with bombs and guns who claim to represent any number of strange and unusual causes.

Somoza was living in exile in Paraguay. He was a political refugee in a country far removed from the dispute and turmoil of the Middle East of Central America.

But the lawless breed of the sort that cut down Somoza last week does not heed international law providing sanctuary to political refugees.

It's unfortunate that often innocent bystanders are sacrificed, too, in the name of someone else's "liberation" as it were. Yet all too often that's the case. And it will remain that way until the civilized nations of the world rise up in one voice of opposition to the murderers.

The murder machine caught up with Anastasio Somoza the other day. The sad part of this story is that the next victim of international terrorism can be, literally, anyone.

CHARLEY REESE

Electing new leaders will make U.S. safer

As more Americans become aware of the Soviet Union's great gains in military strength, they must be careful not to succumb to defeatism. The Soviet Union is no paper tiger, but is not an invincible bear either.

I have actually heard Americans, once they discovered the Soviet's military superiority, say, "Gee, we better not try to catch up or we might provoke them." That's like telling a doctor not to treat a cancer because it might get angry and kill you.

For all the Soviet Union's advances in military power, it still has a number of weaknesses. The American people have millions of allies behind the Iron Curtain. The greatest single deterrent to Soviet aggression against us, which would mean war, are the Poles, Hungarians, Czechs, Ukrainians, Lithuanians, Latins and others who endure but do not accept Russian domination.

Liberals often foolishly claim that the Soviets do not want war because they remember how terrible World War II was. What the Soviet leaders remember about World War II are the massive desertions and how the people in the Soviet Union initially greeted the Germans as liberators until the Nazi madmen stupidly began to massacre them.

The Soviet Union knows why its divisions are in Eastern Europe if American "experts" do not. Those

Charley Reese

divisions are there to keep the East Europeans in line, not to invade the West. What the leaders in the Kremlin want to do is bluff us into surrender because they are not at all sure which way the Warsaw Pact armies would aim their guns in the confusion of battle.

If we elected American leaders who were smart and gutsy, we could put the Soviet Union on the defensive overnight at very little cost. We could bleed them in Angola and Afghanistan just by supplying arms to rebels who are already fighting. We could overthrow their puppets in the Caribbean. We could launch a devastating counter-offensive in propaganda. We could weaken their economies by cutting off credit, food and technology. We could initiate United Nations resolutions condemning them instead of abstaining while resolutions they initiate condemn us and our allies.

All of this we could do without committing a single American soldier to battle.

Then why don't we do it? Because the Council on Foreign Relations, a front group for New York financial interests, is hell-bent on a policy of appeasement. They decide our foreign policy. They advise all of our presidents. They staff our state department.

This is no conspiratorial goblin story. The CFR's domination of American foreign policy since World War II is a well-documented fact (see "Who's Running America: The Carter Years," by Thomas R. Dye, a liberal professor, Prentice-Hall, for just one non-right wing account.)

What we have to do is change the leadership by electing a new president and a new Congress. A rational strategy based on what's good for the American people instead of what's good for the New York bankers will see us through this dark valley of military weakness.

Some people, when they discover that a relatively small clique has been calling the shots, get hung up on the idea of conspiracy, but I think that's a waste of time. In the first place, Americans have a right to be wrong. It's not against the law to be in favor of appeasement, disarmament or world government. In the second place, motive is irrelevant. If you are on a bus and discover the driver has taken a dangerous detour, your correct priority is to get the bus back on the right road, not analyze the driver.

We can get back on the road and defeat the Kremlin's dreams of a planet-wide slave state. As corny as it sounds, truth is on our side; our system is better than theirs and all we need to regain our safety are new leaders who believe that and have enough sand in their craw to take the offensive.

BIBLE VERSE

Then saith Jesus unto him, Get thee hence, Satan: for it is written, Thou shalt worship the Lord thy God, and him only shalt thou serve. Then the devil leaveth him, and, behold, angels came and ministered unto him. Matt. 4:10-11.

Column opinions

not always ours

Writers whose columns appear on this page are selected on the basis of their reputations, their philosophies and their writing skill. But opinions expressed in their columns are not necessarily shared by The Reporter-Telegram.

On the contrary, the editorial opinion of the newspaper and positions taken by columnists often differ greatly.

Opinions of The Reporter-Telegram are restricted to our own editorials which appear daily on the left side of the page. Readers whose views differ from our own editorials or those columnists whose writings appear on this page are invited to express their opinions in our "Letters to the Editor" column which appears Sundays.

WASHINGTON MERRY-GO-ROUND

Fate of 'Carlos the Jackal' uncertain

WASHINGTON — In the "wilderness of mirrors" that makes up the espionage game, the Central Intelligence Agency once conspired to save the life of the world's most notorious terrorist — Carlos the Jackal.

He picked up his animal nickname from the fictional assassin who almost nailed Charles de Gaulle in Frederick Forsythe's novel "The Day of the Jackal," but his real name was Ilich Ramirez Sanchez. He was the eldest son of an expatriate millionaire Colombian lawyer in Venezuela.

This is his story, as pieced together by my associate Dale Van Atta from top-secret CIA and State Department documents:

— 1966: At 17, already influenced by a younger brother who was a leader in the Venezuelan Communist Party, Carlos was trained in one of Fidel Castro's guerrilla camps. There he learned the terrorist's art from Gen. Viktor Simenov of the Soviet KGB.

— 1969: Carlos was expelled from Lumumba University in Moscow where he had developed a fast friendship with a Palestinian commando named Mohammed Boudia.

— 1970: Carlos fought with Palestinian guerrillas in Jordan against King Hussein.

— 1971: Carlos was the hit of the Latin-American cocktail crowd in London, where he escorted his beautiful mother and charmed women with his guitar-playing talent. He was known as "El Gordo" — the fat one.

— 1972: Carlos helped organize the massacre of Israeli athletes at the Munich Olympics, and the Japanese Red Army's indiscriminate machine-gun slaughter at the Tel Aviv airport.

— June 1973: An Israeli hit team assassinated Carlos' old Moscow friend Boudia, and Carlos took over Palestinian terrorist operations in

Jack Anderson

Europe. Libyan strongman Muammar Qaddafi financed the extremist Palestinian group, called the Rejection Front.

— December 1973: Carlos shot Zionist department store tycoon Joseph Sieff in London, but failed to kill him.

— January 1974: Carlos bombed an Israeli bank in London.

— August 1974: Carlos planted three bombs in downtown Paris aimed at a Jewish newspaper and two French newspapers that supported Israel.

— September 1974: Carlos supervised the Japanese Red Army seizure of the French Embassy at The Hague, Netherlands, using grenades stolen from a U.S. Army depot in Germany by the Baader-Meinhof terrorist gang. Carlos tossed a grenade into Le Drugstore in Paris, killing two and wounding others, preparatory to the embassy takeover in Holland.

— Late 1974: Enter the CIA. Through its intelligence contacts, the agency learned that an assassination squad of the six-nation consortium of South American dictatorships, known as "Operation Condor," had been ordered to kill Carlos. The assignment was apparently in retaliation for Carlos' assassination of Col. Ramon Traba, Uruguay's military attache in Paris; and for two other murders he

was suspected of plotting — that of a Bolivian ambassador in Paris and a Chilean official in the Middle East.

According to a top-secret document based on CIA internal files, Carlos was spared when the CIA warned the French government of the proposed execution, and the Condor nations were warned to call off the murder plot.

Why did the CIA save Carlos? Several sources in the agency suggested that it was a Mafia-like professional concern — that if Carlos were murdered, it would set off a wave of retaliatory killings by the Palestinians that would cause chaos in the murky world of international espionage.

One source thought it was at least possible that Carlos had been a CIA informant, and that the agency was simply protecting one of its own. This source did not, however, suggest that Carlos had ever been a paid killer for the CIA.

At any rate, Carlos was spared, thanks to the CIA's intervention, and lived to wreak his bloody handiwork for at least a few more months. He was captured by French police in June 1975, but managed to escape after killing an informant and two policemen; he masterminded the kidnapping of the OPEC oil ministers in December 1975, and was reportedly rewarded with a \$2 million bonus from his paymaster, Muammar Qaddafi; he helped engineer, in July 1976, the hijacking in Athens of an Air France plane which wound up at Entebbe Airport in Uganda, where the Israelis pulled off their daring rescue mission.

After that failure, Carlos the Jackal dropped from sight. Intelligence sources say he wound up in Iraq, and may have been exterminated in that nation's secret purge of Palestinian terrorists. There is some speculation he is now in Libya, but the smart money in the intelligence community bets that Carlos is dead. Still, no one is sure.

UNREPENTANT RECRUITER:

Last March I commented that the Department of Energy had a disturbing habit of packing its top staff with oil industry people who had once worked for government agencies that supposedly regulate Big Oil. The example I used was Allan P. Weeks, an attorney who had bounced from the Federal Energy Administration to its successor, DOE, then to Crown Central Petroleum and back to DOE.

In a recent speech to a Texas oil group, Weeks' boss, Hazel Rollins, head of DOE's Economic Regulatory Administration, stuck up for the revolving-door system. "The fact that we want people to flip from government jobs to industry and back again, I think, only makes us all brighter," she said brightly.

She said I had implied that she had "appointed some sort of lowlife from the evil depths of the oil industry" (her words, not mine) and boasted that she had "used all the pressure I could muster to get him to come back to work for me." Wonderful.

TODAY IN HISTORY

Today is Tuesday, Sept. 23, the 267th day of 1980. There are 99 days left in the year.

Today's highlight in history:

On Sept. 23, 1806, the Lewis and Clark expedition, formed to explore areas west of the Mississippi, was completed.

On this date:

In 63 B.C., the first Roman emperor, Augustus Caesar, was born.

In 1845, the first baseball club in America — the New York Knickerbocker club — was organized.

In 1952, vice presidential candidate Richard Nixon delivered his "Checkers" speech, disputing charges of wrongdoing in his campaign financing.

In 1973, former Argentine dictator Juan Peron returned to power and his third wife, Isabel Martinez, was elected the first female vice president in Latin American history.

Ten years ago, in their flight with Jordan, Palestinian guerrillas withdrew toward the Syrian border after a counter-attack by Jordanian forces.

Five years ago, President Gerald Ford told aides he was determined not to be held "hostage" in the white house despite two apparent attempts on his life.

Last year, some 200,000 anti-nucle-

ar protesters rallied in New York City to hear big-name rock stars and anti-nuclear activists.

Today's birthdays: Actor Mickey Rooney is 60 years old. Singer-composer Ray Charles is 48.

Thought for Today: Most of the shadows of this life are caused by standing in our own sunshine — Ralph Waldo Emerson (1803-1882.)

The Country Parson

by Frank Clark

"Some mysteries of science are hard to explain — like why a green light can't be seen before the horn behind hons."

INSIDE REPORT:

Soviet nuclear explosion violates test ban treaty limit

By ROWLAND EVANS AND ROBERT NOVAK

WASHINGTON — An underground nuclear test exploded by the Soviet Union at its testing grounds in Semipalatinsk appears to have greatly exceeded the 150 kiloton limit set in the Threshold Test Ban Treaty between the U.S. and the Soviets.

An intelligence report citing the Sept. 14 test as having an explosive power of between 160 and 650 kilotons — far over the maximum limit set in the treaty — is now under secret study at the Arms Control and Disarmament Agency (ACDA), the State Department and the Central Intelligence Agency (CIA). There is no sign yet that the Carter administration has done anything more than ask Moscow for an explanation of the reported violation.

The September test is the first that friendly seismographic instruments have measured at so high a level. But since the 1974 treaty, intelligence sources have reported at least seven other probable violations. All are "under study" by the U.S.

FORD VS. ABDNOR

When President Ford came to South Dakota Sept. 11 to plug for the election of Rep. James Abdnor over Sen. George McGovern, he stepped on a hornet's nest by making the presidential debates a major issue in a press conference he held side-by-side with anti-debater Abdnor.

Every political candidate should debate his opponent, Ford said, directing his remark right at President

Evans

Novak

Carter. Carter refused to debate Sept. 21 with Ronald Reagan and John B. Anderson. What Ford did not know is that Abdnor has refused to debate McGovern despite repeated challenges by McGovern.

Abdnor was stoical about Ford's embarrassing pro-debate stand. He said it did not change his mind about refusing to debate McGovern under any conditions, period.

PD 59 TARGETS CHINA

The controversial Presidential Directive 59, which is designed to retarget U.S. missiles against Soviet military targets rather than population centers, includes about 100 military targets in China — a fact not disclosed or even hinted at in all the furor over the new directive.

That word leaked after secret testimony about PD 59 to the Senate Foreign Relations Committee on Sept. 16. The purpose of the new directive is to give the U.S. retaliatory options in case of Soviet nuclear attack, rather than the sole option of a massive

anti-population reprisal. It has been bitterly attacked by liberals as preparing the way for possible "limited nuclear war."

Inclusion of Chinese military targets under PD 59 makes sense, Pentagon authorities say, because China has a nuclear capability and because there is no proof that present harmony in U.S.-Chinese relations will persist. But word that Chinese military targets are getting such attention from the U.S. could deeply disturb Peking.

CUTLER'S EMPIRE

White House chief counsel Lloyd Cutler, a Washington super lawyer before going to work for President Carter, is believed by White House staffers to have his eye on a more powerful role in a second Carter administration.

The signals, say these White House staffers, are multiplying: a highly-publicized article in Foreign Affairs magazine that calls for major, constitutional reorganization of the U.S. government, and a gradual enlargement of his own White House staff to 17 persons.

Cutler's sideways move into high-level political analysis convinces some insiders that he wants to succeed Zbigniew Brzezinski as national security aide. Others believe his eye is set higher — on the job of secretary of state. Whatever Cutler's goal, White House aides say he probably has enough bureaucratic know-how and proximity to Carter to get what he wants.

the small society

Basin area field work announced

Dameron Petroleum Corp. of Midland No. 2 W. P. Hoover "Section 93" is a new well in the American (Canyon gas) area of Crockett County, 35 miles southwest of Ozona.

Operator reported a calculated absolute open flow potential of 1,500,000 cubic feet of gas per day, through perforations from 6,741 to 6,443 feet. The pay was fractured with 40,000 gallons.

The well, 7/8 mile southeast of the closest of the field's other three wells, is 899 feet from south and 2,057 feet from east lines of section 93, block 1, I&GN survey.

Exxon Corp. 1 State University "EE" is a new well in the Crockett County portion of the Farmer (San Andres oil) pool.

On 24-hour potential test it flowed 5 barrels of 40-gravity oil and 294 barrels of water, with a gas-oil ratio of 88,800-1.

The well is 3/4 miles east of the closest other San Andres oil producer.

Completion was through a 26/64-inch choke and perforations from 1,667 to 1,669 feet under 2,200 gallons of acid and a 34,000-gallon fracture job.

Drilled as a wildcard, it is bottomed at 2,182 feet, with 4 1/2-inch casing set at 2,180 feet, the plugged back depth.

Location is 1,980 feet from south and 1,320 feet from west lines of section 9, block 44, University Lands survey.

GAINES OILER
Discovery Oil Corp. of Kerrville No. 2-1 Jones Estate, is a new well in the Jones Ranch, South (San Andres) field of Gaines County, 10 miles southwest of Denver City.

On 24-hour potential test, the well pumped 25 barrels of oil and 22 barrels of water, with a gas-oil ratio too small to measure.

Completion was through perforations from 5,110 to 5,170 feet after a 2,500-gallon acid treatment.

Total depth is 5,330 feet, 4 1/2-inch pipe is set at total depth and hole is plugged back to 5,235 feet.

Wellsite is 1,980 feet from south and 467 feet from west lines of section 1, block A-6, psl survey.

It is the eighth well in the field and one location north of other production.

HOCKLEY WELL
Diamond Shamrock Corp. of Amarillo No. 1 Beatrice Warren and others has been completed as the fifth well in the Hamilton (Clear Fork) field of Central Hockley County, three miles south of Levelland.

The operator reported a daily pumping potential of 20 barrels of 26-gravity oil and 13 barrels of water, through perforations from 6,264 to 6,494 feet after a 6,000-gallon acid treatment and a 17,000-gallon fracture job.

The gas-oil ratio is 250-1.

The well, one location west of other Hamilton (Clear Fork) production, is 2,624 feet from north and 396 feet from east lines of labor 1, league 32, Baylor County School Land survey.

REAGAN WORK
The Conger, Southwest (Pennsylvanian) field has been extended from Sterling and Glasscock counties into Reagan County with completion of Champlin Petroleum Co. No. 1-70 Estelle Council.

The well finished for a daily flowing potential of 15 barrels of 40-gravity oil and one barrel of load water, through perforations from 8,214 to 8,464 feet.

The flow was gauged through a 20/64-inch choke after an 88,946-gallon fracture job.

The gas-oil ratio is 11,667-1.

Total depth is 8,633 feet, 4 1/2-inch pipe is set on bottom and hole is plugged back to 8,607 feet.

Wellsite is 660 feet from north and 860 feet from east lines of section 70, block 2, T&P survey. It is a twin to a 6,490-foot dry hole and 18 miles southeast of Garden City.

Champlin Petroleum spotted No. 2-70 Estelle Council as an 8,800-foot project one location south of No. 1-70 Council.

The new Reagan County project is 660 feet from south and east lines of section 70, block 2, T&P survey.

EDWARDS GASSER
William Perlman of Houston No. 1 Hunt Estate Trust (originally staked as Amoco Production Co. No. 1 Hunt Trust) has been completed in the Sawyer (Canyon gas) area of Edwards County.

The well, four miles west of other Canyon gas production, was finished for a calculated absolute open flow of 45,000 cubic feet of gas per day, through perforations from 5,671 to 5,729 feet.

Scheduled as a wildcard, the project drilled to 7,000 feet. Operator set 4 1/2-inch casing at 6,058 feet and plugged the hole back to 5,747 feet.

Wellsite is 1,320 feet from north and east lines of section 28, HE&T "WT" survey.

SUTTON PROJECTS

William Perlman will drill two outposts to Canyon gas production in the Sutton County portion of the Sawyer multipay field.

No. 1 Lillian M. Hudspeth Memorial Hospital "J" is to be drilled 1/4 miles northwest of production and 1,000 feet from south and 1,700 feet from west lines of section 51, block IJ, TCR survey.

Scheduled to 8,000 feet, it is 16 miles west of Sonora.

Also scheduled to 8,000 feet 16 miles west of Sonora is Perlman No. 1 Lillian M. Hudspeth Memorial Hospital "K."

The location is two miles northwest of production and 1,500 feet from south and 1,150 feet from east lines of section 52, block IJ, TCR survey.

UPTON PRODUCER
C. F. Lawrence & Associates No. 2-10 Lane (staked as No. 2-10 Cordova) has been completed as a one-mile southeast extender to the Amacker-Tippett, South (Bend oil) pool of Upton County, seven miles north of Rankin.

A re-entry of a former Bend oil well, it finished for a 24-hour pumping potential of 34 barrels of 41-gravity oil and six barrels of water, with a gas-oil ratio of 1,500-1.

Completion was through perforations from 10,267 to 10,385 feet.

The well originally was completed by ARCO Oil & Gas Co. as No. 2-10 Cordova, through the above perforations.

Location is 925 feet from north and 2,240 feet from west lines of section 10, block 1, MK&T survey.

STONEWALL AREA
Clear Fork Inc. of Abilene No. 1-347 Alexander Trust has been finished as the second 4,300-foot Canyon producer in the Alexander multipay field of Stonewall County, 10 miles southeast of Aspermont.

On 24-hour potential test it pumped 30 barrels of 42-gravity oil and one barrel of water, through perforations from 4,232 to 4,237 feet. The pay was acidized with 250 gallons and fractured with 10,000 gallons.

Total depth is 5,369 feet, 4 1/2-inch casing is set on bottom, and hole is plugged back to 4,900 feet.

Drilled as a wildcard, the project is 1,320 feet from south and 330 feet from west lines of section 1, William Vardeman survey No. 347.

Marshall & Winston Inc. of Midland No. 3 Pittcock has been completed from the upper Tannehill in Stonewall County, 10 miles northeast of Aspermont.

The well, assigned to the Gloria Gay, West field. It is in a 5 1/2-mile northeast extension area.

On 24-hour potential test, the well pumped 70 barrels of 36.3-gravity oil and five barrels of water, natural, through perforations from 2,943 to 2,952 feet.

Location is 467 feet from north and west lines of section 69, block D, H&TC survey.

IRION WELL
Exxon Corp. of Midland No. 8 Pearl Williams is a new well in the Dove Creek (Canyon C oil) pool of Irion County, 13.7 miles southeast of Mertzon.

On 24-hour potential test, the well flowed 69 barrels of 42.7-gravity oil and 67 barrels of water, with a gas-oil ratio of 2,971-1.

The flow was gauged through a 21/64-inch choke and perforations from 6,660 to 6,726 feet after 2,500 gallons of acid and 64,000 gallons of fracture solution.

Wellsite is 1,980 feet from north and 660 feet from east lines of section 1196, TTRR survey. It is 1/2 mile north of the closest other Canyon C production.

GLASSCOCK COUNTY
Texon Petroleum Corp. No. 1 L-C-Hardy has been completed as the second well in the Underwood (Strawn) field of Glasscock County, four miles east of Garden City.

The operator reported a daily flowing potential of 205 barrels of oil, gravity not reported, and 15 barrels of water, with a gas-oil ratio of 3,273-1.

Completion was through a 16/64-inch choke and perforations at 9,313-9,334 feet after a 25,000-gallon acid job.

Total depth is 10,050 feet, 4 1/2-inch casing is set on bottom and hole is plugged back to 9,834 feet.

Location is 467 feet from north and 800 feet from west lines of section 15, block 33, T-4-S, T&P survey.

FISHER OILER
The Wickham (Palo Pinto) field of Fisher County gained its second oil producer with completion of R. L. Adkins Corp. of Sweetwater No. 1-C Wickham.

The well, 1/2 mile south of the other producer, finished natural for a 24-hour pumping potential of 121 barrels of 40-gravity oil, with a trace of water, through perforations from 4,831 to 4,850 feet.

Location is 7,030 feet from north and 467 feet from east lines of George Creath survey No. 221.

The well is 10 miles east of Longworth.

Seven Basin areas gain locations for wildcard tests

Wildcard operations have been announced in seven west Texas counties, including two in New Mexico.

Cities Service Co., operating from Midland, spotted an 8,700-foot wildcard in Crosby County, eight miles northwest of McAdoo.

Scheduled as No. 1-A Rathaal, it is 660 feet from north and 2,640 feet from west lines of section 11, block A, J. H. Gibson survey.

LYNN AREA
Exxon Corp., operating from Midland, will drill No. 1 W. C. Huffacker

Jr. as an 11,800-foot wildcard 13 1/2 miles southeast of Brownfield in Lynn County.

The prospector is 1,320 feet from north and west lines of section 3, block A-1, EL&RR survey.

The drillsite is eight miles northwest of the Lynn (Fusselman) field and 7/8 mile southwest of an 11,226-foot dry hole.

GAINES PROJECT
Hillin Production Co., operating from Odessa, announced location for a 13,000-foot wildcard in Gaines County, 11 miles southeast of Seminole.

The prospector, No. 1-13 Hughes, will be drilled 660 feet from north and east lines of section 13, block 303, Dawson County School Land survey. Ground elevation is 3,162 feet.

The location is 1 1/4 miles southwest of the Leonard discovery in the Amrow, North field and 1 1/4 miles southeast of the Garland (Sprabery) field.

STONEWALL TEST
Norman Oil Corp. of Abilene spotted No. 1 Maertha Weeks, a 3,900-foot Tannehill wildcard, five miles southwest of Aspermont in Stonewall County.

Drillsite is 330 feet from north and west lines of section 163, block D, H&TC survey and 1/2 mile south of one of the two wells in the Aspermont, West (Tannehill) field. That pool produces at 3,176 feet.

EDDY EXPLORERS
Yates Petroleum Corp. of Artesia No. 1 Serpentine Bends Unit is to be drilled as a 10,400-foot wildcard in Eddy County, 11 miles west of White City.

Drillsite is 1,630 feet from south and 2,255 feet from west lines of section 25-24S-23E. Ground elevation is 4,517 feet.

E. L. Latham & Roy G. Barton of Hobbs announced plans to re-enter and deepen a 10,050-foot dry hole in Eddy County, five miles west of Carlsbad.

To be deepened to an unreported point, the project is the former Gulf Oil Corp. No. 2 Hackberry Hills Unit which was abandoned in February 1963.

It will be operated by new operator as No. 1 Eddy-State.

Location is 150 feet from north and 2,055 feet from east lines of section 7-22S-26E. Ground elevation is 3,660 feet.

TOM GREEN WILDCATS
The Tucker-Harman Co. of San Angelo announced locations for two 5,200-foot wildcats in Tom Green County, three miles southwest of Miles.

No. 1 Boyer, Curry & Seals "B" is to be drilled 467 feet from north and 1,169 feet from east lines of section 65, T&NORR survey and two miles southwest of the Urban (Miles) pool.

No. 1 Boyer, Curry & Seals "C" is to be drilled two miles southwest of the Urban (Miles) field and 467 feet from north and 2,874 feet from east lines of section 65, T&NORR survey.

Sumik Drilling Inc. of Denton spotted No. 1 Arrington as a 5,000-foot wildcard in Tom Green County, 5 1/2 miles south of Miles.

The prospector is 975 feet from north and 467 feet from east lines of A. Holtz survey No. 2202 and one location north of a 4,946-foot dry hole and five miles southwest of the R.L.G. field which produces at 4,080 feet.

RUNNELS LOCATIONS
Six wildcard operations have been announced for Runnels County.

Diamond Drilling Co. of Dallas spotted four 4,800-foot wildcats 2 1/2 miles north of Miles.

No. 2 James Urban, to be drilled one location east of Diamond Drilling Co. No. 1 James Urban, recently completed oiler in the Urban (Miles) pool and 1,980 feet from south and 1,667 feet from west lines of section 97, ETRR survey, abstract 174.

The No. 1 Urban was completed through perforations at 4,310 to 4,318 feet.

Diamond Drilling No. 1 J. C. Coleman is to be dug 2,081 feet from north and 1,667 feet from west lines of section 97, ETRR survey, abstract 174 and 3/8 mile northeast of No. 1 James Urban.

Diamond Drilling No. 2 J. C. Coleman was staked one location north of No. 1 James Urban and 2,081 feet from north and 467 feet from west lines of section 97, ETRR survey, abstract 174.

Diamond drilling will dig No. 1 W. H. Werner 1/4 mile northwest of No. 1 James Urban and 2,259 feet from south and 467 feet from east lines of

section 88, T&NO survey, abstract 778.

Petroleum Exploration Inc. of Abilene spotted No. 1 Yates "A" as a 4,850-foot wildcard five miles northwest of Winters in Runnels County.

It is 2,862 feet from south and 467 feet from east lines of Guion Gregg survey No. 82. Ground elevation is 1,954 feet.

The site is 1/2 mile north of the Outlaws (Goen reef oil) field which produces at 4,392 feet.

Cambrion Inc. of Odessa No. 2 Tomistis is to be dug as a 4,900-foot wildcard two miles northeast of Winters in Runnels County.

The prospector is 973 feet from south and 467 feet from west lines of H. Heavenhill survey No. 324. It is one location south of Cambrion No. 1 Tomistis which was completed at 4,295 feet in the Kendrick (Gardner oil) pool.

retrieval to August was announced to U.S. companies today.

"We just got word" of the retroactive hike, the source said. "We understand that's the way it's going to be."

Saudi Arabia sells about 1.3 million barrels of oil a day to the United States, about 8 percent of U.S. oil needs. The \$2-a-barrel increase is expected to raise average U.S. gasoline and heating oil prices less than a penny a gallon, government and industry economists have said.

Constantine G. Fliakos, oil analyst at the brokerage house of Merrill Lynch, Pierce, Fenner & Smith Inc., said the Saudi move would cut third-quarter earnings for Exxon, Texaco and Socal by "\$100 million to \$150 million apiece."

Profits for Mobil will be reduced by \$50 million to \$75 million, Fliakos said. Mobil owns a smaller share of the consortium, Arabian American Oil Co.

FINA SAID OUT OF LINE

By WILLIAM GLASGALL
AP Business Writer
NEW YORK (AP) — Saudi Arabia, the world's largest oil exporter, has decided to make retroactive to Aug. 1 the \$2 crude oil price hike to \$30 a barrel it announced last week, a reliable industry source said today.

The increase will most affect Exxon Corp., Standard Oil Co. of California, Texaco Inc. and Mobil Corp., the four American partners in a consortium which buys 7 million of the Persian Gulf country's 9.5 million barrels-a-day oil output.

The Saudis said Sept. 17 they were raising their price for a 42-gallon barrel of crude oil to \$30 from \$28, while other Organization of Petroleum Exporting Countries members agreed at an oil ministers' meeting to freeze prices at least until mid-December.

At the time of their price hike announcement, the Saudis did not say when the move would take effect. The source, who asked not to be identified,

DRILLING REPORT

WILDCATS
CHAVES COUNTY Adams Exploration, Inc. No. 1-15 State, id 11,660 feet, temporarily abandoned.

CROCKETT COUNTY
C.F. Lawrence & Associates, Inc. No. 2 J. R. O'Neil, drilling 1,620 feet in sand and shale.
C.F. Lawrence No. 1 Nettie, id 1,473 feet, waiting on electricity.
C.F. Lawrence No. 1 Todd "L", id 1,354 feet, waiting on potential, open hole from 1,332-1,354.

INTERNATIONAL OIL & GAS CORP.
No. 1-43 Ferner, id 9,310 feet, waiting on pump.
International Oil & Gas Corp. No. 2-43 Ferner, drilling 8,600 feet in lime and shale.
International Oil & Gas No. 1-36 Ingham, id 8,607 feet, waiting on pipe line.

DAWSON COUNTY
BK Petroleum No. 1-20 Norris, drilling 8,448 feet in shale.
BK Petroleum No. 1 Simpson, still a location.

ANDOVER OIL CO.
No. 1-29-D Carrie S. Dean Estate, id 10,450 feet, pld 8,600 feet shut-in, waiting on pumping equipment.

EDDY COUNTY
Perry R. Bass No. 78 Big Eddy Unit, still a location.
Perry R. Bass No. 79 Big Eddy Unit, id 12,370 feet, waiting on calculated absolute open flow.

PERRY R. BASS NO. 12
James Ranch, drilling 7,913 feet, preparing to run drillstem test.

PERRY R. BASS NO. 30
Poker Lake Unit, still a location.
Perry R. Bass No. 30 Poker Lake Unit, id 8,603 feet, waiting on completion.

MWJ NO. 1
K-State "GWA", id 4,845 feet, waiting on completion unit.

GARZA COUNTY
Andover Oil Co. No. 1-19 J. B. Slaughter, id 8,998 feet, preparing to run drillstem test.

HINKLE EXPLORATION NO. 1
Parks, id 2,800 feet, drilling 2,800 feet, waiting on cement.

GLASSCOCK COUNTY
Kenal Oil & Gas Inc. No. 1 Harwood, moving in and rigging up rotary.

HOCKLEY COUNTY
Texas Crude No. 1-12 Casing, drilling 407 feet, set 12 1/2-inch casing at unreported depth.

IRION COUNTY
Laguna Petroleum Co. No. 1 CAH, drilling 1,705 feet.

KING COUNTY
Bass Enterprises Production Co. No. 3 C.N. Havins, id "right", waiting on completion unit.

LEA COUNTY
Gifford, Mitchell & Wisenbaker No. 1 Blue Mountain Federal, id 2,545 feet, pumped 12 barrels of oil and 25 barrels of water in 24 hours through perforations from 2,338-2,442 feet.

GETTY NO. 1-4
Getty-State, id 14,140 feet, swabbing and testing through unreported perforations, no gauges.

GETTY NO. 1-25
Getty-State, drilling 3,275 feet.

LOVING COUNTY
Border Exploration Co. No. 1 Johnson TXL Unit No. 1, id 21,960 feet, preparing to run casing.

GETTY NO. 1
Tom Lineberry Strip, drilling 16,833 feet.

GETTY NO. 1-25
Tom Lineberry, id 21,988 feet, circulating and conditioning.

MARTIN COUNTY
BK Petroleum No. 2 J.E. Peugh, drilling 1,175 feet in lime.
BK Petroleum No. 4 Anchor, id 10,980 feet, waiting on pumping unit.

LAGUNA PETROLEUM CO. NO. 1
Heid Estate, id 12,225 feet, pumped 35 barrels of oil and 170 barrels of load water in 24 hours, through upper Sprabery perforations from 8,642-7,642 feet.

MICHILL COUNTY
The Lovelady Inc. No. 1 Lottie, drilling 2,047 feet in anhydrite and shale, preparing to run casing.

MARSHALL & WINSTON NO. 2
J.F. McCabe, id 7,177 feet, acidized perforations from 7,186-7,138 feet with 5,000 gallons, swabbing and testing, recovered 80 barrels of fluid, first run 30% oil, 2nd run 25% oil, in 2 1/2 hours.

MONSANTO CO. NO. 1
Dunn, drilling 2,219 feet in lime and shale.

NOLAN COUNTY
Leede Oil & Gas Inc. No. 1 D.W. Egger, drilling 3,338 feet in lime and shale.

D.A. METTS NO. 1
Ramsey, drilling 26 feet in redbed and shale, set 8 1/2-inch casing at 284 feet, spudded Sept. 21.

PECOS COUNTY
C.F. Lawrence & Associates No. 1 Crawford, waiting on rig.

C.F. LAWRENCE NO. 1-40
IRT, id 30 feet, waiting on rotary.

MADDIX ENERGY NO. 1
Frost National Bank State, id 20,450 feet, still shut-in for bottom hole pressure buildup.

Top cage powers on TV this year

NEW YORK (AP) — Defending national champion Louisville, Notre Dame, Arkansas, Marquette, DePaul and Purdue will be among the teams appearing in a new nationally syndicated television package to be aired in prime time this season.

"We intend to create a national alternative to network sports programming," said Joseph M. Cohen, president of the Madison Square Garden Communications Network, syndicators of the new series which will include nine games shown weekly on various nights of the week.

Kentucky and Indiana will open the series when they meet on Saturday, Dec. 6 in a game scheduled for 3 p.m. CDT. All other games in the series are scheduled for 7 p.m. CDT. Michigan opposes Purdue in the second game on Monday, Jan. 5, 1981.

Louisville appears twice — facing Providence on Jan. 27 and Marquette on Feb. 14.

Five of the games will be shown on Mondays, three on Saturdays and the Louisville-Providence game will be aired on a Tuesday.

"As Monday night football has proven, sports is a strong prime time attraction, there is no reason to limit the concept to Monday night, network programming or football," Cohen said.

Games in the series will be shown on independent stations in major markets, although the syndicators indicated that a full lineup of stations would not be announced until early next month.

According to an official of Madison Square Garden Television, the series will cover "at least 60 percent of the country and we expect to announce the major market station clearances within a few days."

Scheduled games are: Dec. 6, Kentucky at Indiana; Jan. 5, Michigan at Purdue; Jan. 12, Texas at Arkansas; Jan. 19, Fordham at Notre Dame; Jan. 27, Providence at Louisville; Feb. 2, "wild card" game to be announced; Feb. 9, Kansas at Missouri; Feb. 14, Louisville at Marquette; and Feb. 21, Marquette at DePaul.

Sal Bando of the Milwaukee Brewers pushes his way past California's Rod Carew during American League action Monday in Milwaukee during rundown in second inning. Carew put the tag on Bando for the out on a squeeze play between third and home. (AP Laserphoto).

Gossage saves 31st for Yankees

By The Associated Press Rich Gossage's 31st save of the season protected Tommy John's career-high 22nd victory, both of which were greatly assisted by Toby Harrah's first save of sorts. And Harrah plays for the other team.

With Cleveland threatening to tie the game in the ninth with Harrah on third base, Harrah was hit by pinch hitter Ron Hassey's line drive for the final out of the game, preserving the New York Yankees' 4-3 victory over the Indians Monday night.

"I've been in the game a long time," said Cleveland Manager Dave Garcia, "and I can truthfully say I've never seen anything like that. It was just a freak thing."

It was the kind of freak thing that goes in your favor when you're going good, and the New York Yankees are going better than anybody else. Their record in September is 18-4.

The victory, combining with Baltimore's 5-3 loss to Boston, increased

the Yankees' lead to five games over the Orioles in the American League East. Any combination of Yankee wins and Oriole losses adding to eight assures New York of its fourth division crown in five years. Both clubs have 12 games left.

Elsewhere in the AL, Toronto edged Detroit 6-5 despite Tom Brookens' five runs batted; Kansas City's George Brett went 1-for-4 and his batting average dropped to .383 as his Royals also went down, losing to Seattle in 11 innings, 5-4; California clubbed Milwaukee 7-3, and Minnesota blanked Texas 1-0.

The Yankees, who didn't touch Cleveland starter Len Barker for a hit until two outs in the sixth, had gone ahead 4-2 with three runs in the eighth on two walks, a bad hop double and a bouncing single by Bob Watson. Gossage came in for the ninth, an entry which has meant peace of mind for the Yankee pitching staff this summer.

In Gossage's previous 18 appearances over 282-3 innings, the hard-throwing right-hander hadn't surrendered a run. But Jack Brohamer's pinch-single, a walk, sacrifice and Rick Manning's RBI grounder snapped Gossage's string and put the tying run on third.

Hoping to get Gossage to balk, Harrah bluffed a dash for the plate. The same play had worked over the weekend against rookie Dan Petry of Detroit.

But this time he returned to the bag and couldn't avoid Hassey's line drive down the line. It was a single for Hassey, but Harrah, who had turned into fair territory, became the third

Cards regret trade Astros holding two-game lead

By The Associated Press The Steve Carlton trade — now, that's one that the St. Louis Cardinals have lived to regret.

Talk about coming back to haunt your team, Carlton has been a continuous nightmare for the Cardinals since they swapped him to the Philadelphia Phillies for Rick Wise eight years ago.

The left-hander has a mountainous 29-8 record against St. Louis — more victories than any Cardinal southpaw has totaled in that time — including Monday night's 3-2, 10-inning triumph with Tug McGraw's last-inning relief help.

"I don't think there's a more powerful pitcher around today," said Phillies Manager Dallas Green of Carlton, now 23-8. "It was a super effort in a real clutch game."

The Phillies' top pitcher led their charge into first place in the National League East. The Montreal Expos, 4-2 losers to the Pittsburgh Pirates, dropped into second place, a half-game off the pace.

"We've worked hard all year to get here and we're tickled to death to be here," said Green. "We felt all along

that we belong here."

In other NL action, Houston defeated San Diego 4-2; Atlanta beat Los Angeles 7-2; San Francisco whipped Cincinnati 7-3 and Chicago stopped New York 3-2.

Carlton scattered eight hits in nine innings, allowing the Cardinals just single runs in the first and eighth innings.

The Phillies scored their winning run in the 10th when pinch hitter Keith Moreland delivered Larry Bowa from second base with a double. Bowa had singled off reliever Kim Seaman, 3-2, to lead off the 10th and was sacrificed to second by Bob Boone before scoring on Moreland's hit.

Earlier, Mike Schmidt had a solo homer for the Phillies in the fourth inning, his 42nd this season.

Pirates 4, Expos 2

Mike Esler smacked a two-run homer and Dave Parker doubled home two runs, leading Pittsburgh over Montreal. The victory, Pittsburgh's 12th in 17 meetings with the Expos this season, left the third-place Pirates 3½ games behind Philadelphia.

Parker's two-run double off Scott

Sanderson, 15-10, gave Pittsburgh a 2-0 lead in the third inning. After the Expos scored in the seventh on Warren Cromartie's sacrifice fly, the Pirates made it 4-1 on Esler's blast in the bottom of the inning.

Jim Bibby, 18-5, was the winner.

Astros 4, Padres 2

Joe Morgan and Cesar Cedeno homered to power Joe Niekro to his 17th victory of the season as Houston beat San Diego and improved its lead in the NL West to two games over Los Angeles.

Niekro, 17-12, allowed just two unearned runs on four hits while walking three and striking out three en route to his 10th complete game of the season.

Loser Bob Shirley, 11-11, was tagged for four runs on seven hits through six innings. The loss snapped a 10-game Padre winning streak at San Diego Stadium.

Braves 7, Dodgers 2

Gary Matthews and Bob Horner slugged two-run homers and Chris Chambliss had four hits and two RBI to lead Atlanta over Los Angeles.

Preston Hanna, 2-0, hurled five scoreless innings for the Braves to earn the victory with relief help from Rick Camp, who picked up his 19th save. Don Sutton, 12-5, took the loss.

"Human nature has to place the blame somewhere," said Sutton. "Tonight I just didn't give us a chance to win. I made a couple of pitches I didn't want to make, and without them we had a chance at a win."

Giants 7, Reds 3

Rich Murray drove in two runs, including the game-winning in the fifth inning, as San Francisco defeated Cincinnati.

The Giants scored the winning run in the fifth when Terry Whitfield singled and took second when Guy Salazar walked. Murray singled to drive in Whitfield, giving the Giants a 4-3 lead at that point.

They added three runs in the eighth on RBI-singles by Larry Herndon, Milt May and Whitfield.

Cubs 3, Mets 2

Pinch hitter Jesus Figueroa drilled a two-out RBI-single in the sixth inning to lead Chicago over New York. Figueroa's hit came off Dyar Miller, 1-2, the third New York pitcher.

Bill Caudill got the victory for the Cubs, raising his record to 3-5 and Bruce Sutter picked up his 27th save, his first since August 16.

Booster Clubs meeting tonight

Although the Midland Bulldogs and Lee Rebels have an open date this weekend, there will still be the weekly Booster Club meetings at both Youth Centers today at 7:30 p.m.

Midland Coach Pat Culepper will show the film of the 33-21 victory over Lubbock Monterey and also honor the top junior varsity players that stood out in the Bullpups' 21-14 victory over Monahans last week.

Over at Lee, Coach Spike Dykes will show the film of the Rebels' 16-12 victory over Plainview.

Midland opens District 5-5A play in two weeks against Odessa Permian in Odessa while Lee will celebrate its homecoming in two weeks in hosting the unbeaten Odessa High Bronchos in Memorial Stadium.

9th Grade game reset

The Lee Maroon-Odessa Hood Freshman football game has been rescheduled for 4 p.m. Nov. 13 at the Lee Freshman School, it was announced by Athletic Director Gil Barstow.

The game originally was scheduled for last Saturday, but was called off when officials were late in arriving for the game.

Philadelphia thunders past Giants, 35-3

PHILADELPHIA (AP) — Wilbert Montgomery has come out of his shell.

The once reluctant seventh-round draft choice from Abilene Christian, who dropped words almost as often as baseball's silent man, Steve Carlton, finally is tooting his own horn.

Montgomery let it be known that he has arrived, after accounting for 154 of the Philadelphia Eagles' 382 yards in a 35-3 victory over the New York Giants in Monday night's National Football League television game.

"I think I'm a complete back now," said Montgomery, who ran for 87 yards, scoring from the one, caught passes for 67, including the Eagles' first touchdown, a 3-yarder from Ron Jaworski.

"I block well and I'm a pretty good pass receiver. And I'm getting better."

MTC schedules Fall Tournament

The Midland Tennis Club will conduct its 20th annual Fall Tournament Sept. 27 through Oct. 5 and this year's meet will mark a change in format.

In the past, the meet has been an invitational affair, but this year will become part of the USTA-Penn Circuit, which affords promising young players the opportunity to move up to the Volvo Grand Prix Tour. The Grand Prix Tour links the worlds major tournaments, including the U.S. Open and Wimbledon.

Featuring many higher-ranked amateur and pros, the competitors will be bidding for a share of the \$7,000 in prize money as well as for Grand Prix qualifying points.

Play begins Saturday with an open or qualifying men's singles tournament. Entry fee is \$10.

Sixteen players from the qualifying tournament will join 48 internationally ranked players from the circuit for the Main Tournament. Play in the Main Tournament begins Sept. 30 and ends Oct. 5. The main tournament will include singles and doubles.

Softball tourney set

ODESSA—The American Business Women's Association will hold its second annual Men's Fall Slow Pitch Softball Tournament Saturday and Sunday here. It will be a double-elimination, open class tournament and entry fee is \$70. The field will be limited to 36 teams. Contact James Lunsford, Sr., 424 E 45th St., Odessa.

Breckenridge tops AP poll

By The Associated Press The easiest choice for voters in The Associated Press Schoolboy Football Poll apparently is the No. 1 slot in Class 3A where Breckenridge has been the unanimous selection the past two weeks.

Breckenridge, which defeated perennial Class 4A power Brownwood earlier this season, polled all 20 first place votes in the latest tabulation by the AP panel of sports writers and sportscasters.

None of the other top rated teams from last week, Temple in Class 5A, Bay City in 4A or Pilot Point in 2A had trouble keeping their top billings, although Bay City had to survive upset-minded Santa Fe 14-10.

Only five ranked teams in the AP poll suffered losses in a mild week for upset—but that was little consolation to San Antonio Churchill, which won and still dropped out of the 5A rankings.

The top five teams remained the same in 5A with Plano, Port Arthur Jefferson, Dallas Highland Park and Brazoswood holding steady behind Temple.

Odessa Permian, No. 6 last week, and No. 7 Conroe, switched places this week while Euleess Trinity dropped from eighth to ninth and Port Neches-Groves moved from 10th to No. 8.

Lubbock Estacado, rated No. 6 in 4A last week, suffered its second loss to a 5A opponent and dropped out of the top 10. Wichita Falls Hirschi, 3-0, moved in to replace Estacado at the No. 10 spot.

There were two more losers in Class 2A, No. 4 Rotan, and No. 7 Holliday. Rotan dropped to ninth after a 7-6 loss to Winters and Holliday was replaced by No. 10 Seagraves, after a 31-0 loss to Jacksboro.

out. "You can pull that stuff on a young pitcher," Gossage said, "but all you're doing is distracting the hitter. It's tough enough hitting a good fast ball without taking your eye off the ball and being distracted for a second."

Garcia said he'd want Harrah to try the play again. "If he balks or throws the ball on the screen we get what we want," the manager said. "I'm not faulting Toby."

Fault or no fault, Harrah wasn't happy with the final play. "Just another loss — no more, no less," he barked. "That's all I got to say."

Red Sox 5, Orioles 3

Tony Perez was in the middle of many pennant races when he played for Cincinnati and Montreal. This season with Boston, he can only play spoiler in September. He was pivotal in damaging Baltimore's pennant hopes Monday night.

Perez had a single, a double and a homer, his 22nd and first in six weeks, which keyed a three-run rally in the seventh as the Red Sox defeated the Orioles.

It was the first time since July 19 that the Orioles had taken a lead into the seventh and not won a game, ending a streak of 32 straight under those conditions.

"I've been chasing a lot of bad pitches," Perez said. "I haven't been worrying about hitting homers, I've been worrying about getting hits."

In five games at Memorial Stadium

'Ryun's Run' set for mall Thursday

Former Olympic champion Jim Ryun will lead "Ryun's Run for Cerebral Palsy", a 10,000 meter marathon at Midland Park Mall Thursday. The race will begin at 7 a.m., starting and finishing in the mall parking lot.

Entry fee is \$5. Registration forms may be obtained at any Midland Park Mall store. All participants will receive Ryun's Run T-shirts.

It will be a big day at the Mall with Kyle Rote, Jr., the Houston Hurricane soccer star, conducting a soccer clinic at 4:30 p.m. at the mall's J.C. Penney court area. Pee Wee soccer league players, dressed in uniform, will be Rote's special guests.

Meadowlark Lemon, the clown prince of basketball, will take on Midland basketball coaches in one-on-one games at 2 p.m. in the Penney court area.

Ryun, Lemon and Rote will be on hand to sign autographs and to participate in other grand opening events during the day.

Volleyball action on tap tonight

Midland Lee's girls volleyball finally get a chance to play at home tonight after opening District 5-5A with road losses at Odessa and San Angelo. Coach Linda Weikel's spikers host Abilene Cooper with the JV game at 6 p.m. and the varsity contest following.

Lee is 0-2 and will host district favorite Big Spring, 2-0, Thursday night.

Coach Linda Jolly's Midland High team opened the season with a win over Odessa Permian, but then lost a split decision to Big Spring. Both games were at home.

This week the Bulldogs travel for matches at Abilene tonight and San Angelo Thursday.

Two cagers sign pacts

CHATHAM, N.J. (AP) — The New Jersey Gems of the Women's Professional Basketball League signed their second and third selections in this year's draft, Susie Summons and Kim Bueltel, to multi-year contracts.

Mustangs switch to to infantry

MAJOR LEAGUE BOX SCORES

DALLAS (AP) — Southwest Conference football teams are collectively playing the most efficient passing game they've managed in the last decade, since the veer options made it one of the country's foremost rushing fronts.

Eight of the nine teams are connecting on more than 50 percent of their attempts — and what makes that statistic even more unusual is the team that isn't.

That's SMU, the SWC's most pass happy crew in the last few years with Mike Ford at the throttle. The Mustangs have won their first two games with a ground game built around sophomores Craig James, Eric Dickerson, Charles Drayton and Michael Charles. And Ford, the busy junior who has a shot at becoming the first 100-yard career passer in NCAA history, is working less and enjoying it more.

As a result, SMU is hitting 44.7 per cent of its passes. That's dead last among SWC marksmen as Arkansas is leading with 70.6 per cent, Texas A&M and Houston are tied for seventh with 50.8 per cent.

Arkansas' Tom Jones, the sophomore who won the starting job this fall, leads in completion percentage at 70.6 on 24 of 34. Rice's Randy Hertel is second at 68.8 per cent on 11 of 16.

Meanwhile, three runners continue to gain at better than 100 yards a game. Texas junior A.J. Jones is averaging 145.5 yards per game, followed by Baylor junior Walter Abercrombie at 112.0 and James at 111.5. Abercrombie set a Baylor career rushing record in the 43-15 victory over West Texas State. He has 1,771 yards to surpass the record of 1,713 set by Larry Hickman in 1956-58 and he's done it in 19 games. He has 20 more regular-season games left in his Baylor career to pad the mark.

And the way the Bears are going, he may add a few. After opening the season with the seventh-best total offense day in SWC history (655 yards against Lamar), Baylor kept the gates open against West Texas. The Bears continue to lead the SWC in all three team offensive categories and in two of the three defensive departments.

Alabama, OSU head AP poll

By The Associated Press

While Alabama and Ohio State remained solidly entrenched at the top of the Associated Press college football poll, Nebraska's Cornhuskers began to make serious inroads in the rankings.

Nebraska, which clobbered Iowa 57-0 last Saturday, moved all the way from sixth place to the No. 3 spot.

Alabama, a 59-35 winner over Mississippi, continued in the No. 1 spot, drawing 34 first-place votes and 1,215 of a possible 1,260 points from a nationwide panel of sports writers and sportscasters.

Ohio State's Buckeyes rolled over Minnesota 47-0 and held tightly to the No. 2 ranking with 26 first-place ballots and 1,183 points.

Alabama and Ohio State each polled 30 first-place votes a week ago, but the Crimson Tide led the rankings in total points, 1,232-1,216.

Nebraska got two first-place votes — their first of the season — and came up with 1,053 points to move past Oklahoma, Southern California and Pittsburg.

Oklahoma, which did not play last weekend, fell from third to fourth with 1,018 points, while Southern California dropped from fourth to fifth despite knocking South Carolina out of the Top Twenty with a 23-13 triumph. The Trojans got 999 points.

Pittsburg dunked Kansas 18-3 and got the only other first-place vote, but fell from fifth to sixth with 913 points.

Texas, Notre Dame, Florida State and Georgia filled out the first 10, just as they did a week ago. Texas polled 902 points, while the other three drew 835, 770 and 718 points, respectively.

Texas ripped Utah State 35-17. Notre Dame nipped Michigan 29-27; Florida State whipped East Carolina 63-7, and Georgia slipped past Clemson 20-16.

Penn State heads the Second Ten, followed by Missouri, Washington, North Carolina, Arkansas, UCLA, Michigan, Auburn, Maryland and Arizona State.

UCLA, Maryland and Arizona State all made the rankings for the first time this season. UCLA beat Purdue 23-14; Maryland tipped West Virginia 14-11 and Arizona State walloped Oregon State 42-14 on Saturday.

Gone from last week's poll are Stanford, Houston and South Carolina. Stanford dropped a 30-13 game to Boston College, while Houston fell to Miami of Florida 14-7 and Southern Cal toppled South Carolina.

Sports in brief

By The Associated Press

BASEBALL

NEW YORK (AP) — Pitcher Ferguson Jenkins of the Texas Rangers was ordered reinstated to active duty by league arbitrator Raymond Goetz, who overruled Commissioner Bruce Kohn's drug-related suspension of the veteran right-hander.

Jenkins, who was arrested Aug. 25 after small amounts of cocaine, marijuana and hashish were discovered in his luggage at a Toronto airport, had been suspended with pay by Kohn on Sept. 8 following an investigation by Kohn's office.

NEW YORK (AP) — Outfielder Steve Kemp of the Detroit Tigers and Al Oliver of the Texas Rangers have been named co-winners of the American League Player of the Week Award for the period ending Sept. 21.

While right-hander Andy Rosen of the St. Louis Cardinals received the same honor in the National League.

Kemp had 414 total hits in 38 at-bats, while Rosen had 129 for the week with 12 for 28, including the 2,000th hit of his major league career.

Rosen began his major league career beating Chicago 3-1 on a five-hitter and Montreal 4-1, allowing only three hits.

FOOTBALL

Alabama and Ohio State held out the top two spots in The Associated Press college football poll, while Nebraska climbed from sixth place to third with a 57-0 rout of Iowa.

Alabama, a 59-35 winner over Mississippi, received 34 first-place votes and 1,215 of a possible 1,260 points from a nationwide panel of 63 sports writers and sportscasters.

Ohio State, which beat Minnesota 47-0, received 26 first-place votes and 1,183 points. Nebraska netted two first-place votes and 1,053 points.

TENNIS

SAN FRANCISCO (AP) — Fifth-seeded Bryan Gottfried advanced to the second round of an open tennis tournament by beating Francisco Gonzalez of Puerto Rico 6-3, 6-4.

In other matches, 100-seeded John Kriek defeated Peter Bennett 6-2, 6-2; eighth-seeded John Sadri beat Bernie Minton 7-6, 7-6; 11th-seeded Vijay Amritraj of India defeated Dick Stockton 7-6, 6-3.

Brian Teacher, the 11th seed, defeated Ferdy Taygan 7-5, 7-6, and 14th-ranked Bill Scanlon beat amateur Phil Lehoff 6-4, 6-3.

Also, 15th-seeded Pat Dupre beat Colin Dibley of Australia 7-5, 7-5; Bruce Manion defeated Hank Pfister 6-3, 6-3; and Sherwood Stewart defeated Jeff Borwick 7-6, 7-6, 8-6; Ronco Tanner beat Butch Waltz 7-6, 7-6; and Jim Mayer defeated Andrew Pattison of Zimbabwe, 6-1, 6-3, and Tim Mayotte bested Matt Mitchell 6-2, 6-2, 6-4.

ATLANTA (AP) — Fifth-seeded Dianne Fromholtz advanced in the 1960 U.S. Open tennis tournament, beating Rose McCallum 6-0, 6-2.

In other first-round matches, Pam Trengarden edged on 11th-seeded Fayee Sherry Carter 6-3, 6-2; and Dianne Desfore, 6-1, 6-3; Jeanne DuVal defeated Barbara Patler 6-4, 6-2; and 10th-seeded best Renata Tomljanovic 6-4, 1-6, 6-4.

GENEVA, Switzerland (AP) — Heinz Guntendberg of Switzerland, rallied to beat Colombia's Alejandro Cortes 3-6, 6-3, 7-5 in the opening round of the 1960 Geneva Open Tennis Tournament.

In other first-round matches, Australian John James defeated compatriot Peter Lang 6-3, 6-4; and 11th-seeded Greg Whitmore, 6-3, 6-2; Colombia's Alvaro Betancur defeated Italy's Fabrizio Fanceri 7-6, 6-2; and 12th-seeded Guy Schurman defeated South African Don Joubert 6-1, 6-2, 6-1.

BASKETBALL

NEW YORK (AP) — Commissioner Lawrence F. O'Brien has awarded the Kansas City Kings' 1961 first-round draft choice and \$100,000 to the Detroit Pistons as compensation for the Kings' signing of free agent center Howard Loomis.

When the two clubs were unable to agree on compensation, the matter went to federal jurisdiction on the matter under the Settlement Agreement and the collective bargaining agreement between the NBA and the NBA Players Association.

NEW YORK (AP) — The Madison Square Garden Communications Network announced it will present a new nationally syndicated college basketball package to be aired on prime time television.

An unidentified law enforcement official leads Danny Eugene Crump, 27, away from a U.S. District Court appearance Monday, after Crump was formally charged with six counts of first-degree murder for allegedly

planting a bomb that killed six people, including his former wife. The explosion leveled a two-story house in Olathe, Kansas, Saturday. (AP Laserphoto)

Unemployed painter charged in bomb deaths of family

BY JIM DRINKARD

OLATHE, Kan. (AP) — A little more than a year ago, Danny Eugene Crump met a pretty 18-year-old woman in a supermarket parking lot as he was "cruising" the main street of this Kansas City suburb, friends say. They were married three months later.

On Monday, the 27-year-old unemployed painter was charged in a courtroom a few blocks from the supermarket with killing his former wife and five members of her family.

Prosecutors alleged that Crump, who was charged with six counts of first-degree murder, planted a bomb that shattered the family's two-story frame house.

Crump also was charged with three counts of aggravated battery and one count of arson. Johnson County District Court Judge Gerald Houghland set bond at \$500,000 and scheduled a preliminary hearing for Oct. 1.

As Crump was ushered into the courtroom, a reporter asked whether he had made the bomb. "No, I did not," he replied in a quiet voice.

Johnson County District Attorney Dennis Moore said the bomb apparently was placed in a cardboard

box and left on the hood of a car in the house's garage early Saturday.

Moore said it was possible the bomb had been intended only to damage the car. He wouldn't elaborate on a possible motive.

Authorities wouldn't speculate on the type of explosive or triggering device used, but Terry Schell of the U.S. Bureau of Alcohol, Tobacco and Firearms said the blast had the explosive force of about ten sticks of dynamite.

Lt. Jeff Herrman, chief of detectives of the Olathe Police Department, said 12 federal and local officers were continuing to follow up leads in the case.

Earlier, authorities said the motive was believed to be revenge.

Crump was divorced in August from 19-year-old Diane Crump, who had won custody of the couple's 4-month-old son.

The explosion that ripped through the house killed Mrs. Crump, her parents, Robert Post, 51, and Norma Jeanne Post, 47; her brothers, James, 10, and Richard, 21; and sister Susan, 20.

The Crump's son, Randy, was in fair and stable condition Monday at Olathe Community Hospital.

Kraig Weber, 8, a friend of James who had been visiting at the time of the explosion, also was in fair condition.

Lance admits 'business deal'

WASHINGTON (AP) — Bert Lance says he was offered the possibility of a commission in connection with a previously undisclosed deal with Libya and an associate hoped to work out with Libya.

But Lance told Senate investigators Monday he never knew any details of the business proposition and it did not go through, so there was no serious discussion of his receiving a fee for helping establish contact between interested parties.

President Carter's former budget director made the disclosure in written responses to questions from lawyers for a special Senate subcommittee investigating connections between the president's younger brother and Libya's radical Arab government.

Lance released a transcript of the 315 questions and answers.

Lance said he put Billy Carter's associate, Henry "Randy" Coleman, in touch with Robert L. Schwind, an Atlanta lawyer, when Coleman asked who could help establish a commodity trade deal with Libya.

Lance said Schwind told him earlier he was looking for some sort of deal for exporting Georgia commo-

dities, and had added that if Lance were able to help, they would discuss a fee.

When the investigators asked if Billy Carter knew Lance was to get a fee from Schwind, Lance replied, "I object to this question on the grounds that it incorrectly assumes that I was in fact to receive a fee."

The subcommittee later released a copy of a letter in which Schwind told Coleman on March 5, 1979, that "the commissions earned on the sale of agricultural commodities, consumer goods, equipment and the like to SANDBOX will be split 50-50 between your group and our group."

"Out of our 50 percent, we would take care of B.L.," the letter said.

The subcommittee did not identify SANDBOX or B.L.

Lance told the investigators he knew nothing about the letter. He said although he knew Schwind and Coleman were interested in some kind of Libyan deal, Schwind had offered him no more than the possibility of a commission for helping with an unspecified export deal.

Crimes against women creating furor in India

By SANJOY HAZARIKA

NEW DELHI, India (AP) — The crimes of rape, bride burning and dowry demand, reportedly on the rise in India, are causing a nationwide furor, reflected in street protests, heated editorials and irate speeches by politicians.

Indian newspapers carry daily reports of rape and sexual assault on women, some allegedly by policemen.

In June, several police officers were accused of stripping and raping a housewife in the dusty northern Indian town of Baghat. One of the accused was shot and killed on the street by the rape victim's brother-in-law. An investigation is continuing; none of the men has been tried.

Protests by women's organizations have increased since that incident, and the news media have been giving increasing attention to the problems of women in this tradition-bound, predominantly Hindu nation of 660 million.

Prime Minister Indira Gandhi's government has presented legislation to Parliament which would establish sentences of two years' hard labor for people who demand gifts and cash from a bride's family.

The legislation also seeks to toughen rape laws by specifically providing jail terms for police officers convicted of the offense. Current laws do not differentiate between policemen and other offenders.

An official Indian commission has joined the fray with a report backing the proposed two-year prison term for dowry offenders and also recommending a fine of 10,000 rupees, about \$1,250.

The current maximum penalty for demanding dowry is six months in jail and a 5,000-rupee fine, but convictions are few.

A woman sometimes "is tortured in every possible way and even deprived of marital rights" if she does not bring sufficient dowry to her in-laws, said the government report.

The report cited numerous cases of harassment and, in some cases, even murder by husbands or in-laws if women fail to provide sufficient dowries at the time of their weddings.

Dowry takes several forms, ranging from cash payments to household goods such as furniture, refrigerators, air conditioners and sometimes even motorcycles and cars.

Police statistics show 69 women were burned to death in New Delhi last year because of low dowries. Few of the cases have been successfully prosecuted.

Already this year, between January and July, 67 dowry deaths have been reported. Social workers and women's leaders say the real figure is far higher because many cases go unreported.

Rape is also on the rise. According to Home Affairs Minister Zail Singh, 3,281 rapes were reported to police throughout India in 1977, and 3,781 the following year. More than 4,000 rapes were reported in 1979. Again, women's leaders say the actual figures are much higher — that many rapes go unreported because of the stigma attached to them.

Women in India face discrimination from birth. For centuries, the birth of a son has been deemed a gift of god: a daughter is regarded, at best, as a disappointment.

"Even in educated homes, the female infant gets less nourishing food," says sociologist Promilla Kapur. Others agree that the attitude of neglect follows women through life.

Tara Ali Baid, president of the international Union of Child Welfare, says many Indian men believe sons are better because "you must have sons to look after you in your old age."

The majority of Indian women live in villages under conditions of grinding poverty where the struggle for survival takes precedence over everything else. Often married off as teen-agers to strangers of the same caste or community, rural women have little say in how their lives are molded.

A majority are illiterate, their lives centering around producing children, toiling in fields foraging for and preparing food and, according to the tradition of the extended family, remaining at all times subservient to husbands and in-laws.

"They are unsafe on the streets and discriminated against at work. At home they are often worse off: reduced to slavish drudges, they are maltreated in a hundred different ways," reported the news magazine, "India Today."

Few women have forged independent careers for themselves. Most of those who have, like Mrs. Gandhi, come from educated, privileged or rich families. Official figures show that only 2.5 percent of Indian government workers are women.

The attitude of some top officials has also been blamed for slowness in tackling the problems.

"There are much more serious things happening in the country," was how Delhi Police Commissioner P.S. Bhinder recently replied to a question on crimes against women.

Subhadra Butalia, a lawyer and anti-dowry crusader, disagreed.

"India has a woman prime minister who is aware of the problems of her sex," Mrs. Butalia told a reporter. "Women seek no charity. Dignity and equality are their birthrights. If they are denied them, they will fight."

25 encephalitis cases confirmed

HOUSTON (AP) — The outbreak of St. Louis encephalitis in Harris County has been increased to 25 confirmed and 15 suspected cases with the addition of four more confirmed and two additional suspected cases to the county's list.

All four of the newly confirmed SLE victims live inside Loop 610 that surrounds the city's downtown area, according to Monday's announcement.

OC schedules one-day genealogy workshop

ODESSA — A one-day workshop on genealogy and recording family history has been scheduled Thursday at Odessa College.

Sponsored by Odessa College and the Permian Basin Genealogical Society, the workshop is set from 8 a.m. to 5 p.m. in the Community Room, located on the second floor of the Student Union Building on the OC campus.

Workshop instructors will be Beverly Hathaway of Abilene and Fern Ainsworth of Nachitoches, La., according to June Naylor, OC genealogy instructor and workshop coordinator.

Hathaway, a specialist in Southern States research, will focus her discussion on the states of Tennessee, Virginia and North Carolina, while Ainsworth will speak on migration patterns with an emphasis on migration in Texas history.

Fee for the workshop is \$17.50.

Interested persons may contact Lea Taylor at the adult and continuing education office at Odessa College for details.

Real estate course set

ODESSA — Registration for a course in Real Estate Appraisal will be Thursday from 10 a.m. to noon in the management center at Odessa College.

"This semester is the last chance for people to get real estate broker's licensing with only 12 hours of real estate courses," says mid-management department head Sid Streicher.

"Beginning Jan. 1, 1981, the requirement jumps to 21 semester hours," he said.

The course is set from 9 to 11:50 a.m. on Mondays through Thursdays, Sept. 29-Oct. 23, and must be prepaid. For more information, contact Streicher at Odessa College.

Kelly Looking Horse, an Indian from Pine Ridge Reservation in South Dakota, takes the staff from Glen David, a University of California student at Berkeley, along U.S. 40, 35 miles west of Indianapolis Monday afternoon. The runners carrying the staff and more than 100 walkers have traveled nearly 3,000 miles since leaving California June 1. They expect to reach Washington D.C. before the elections in November. The Indians, representing 80 North American tribes, compromised with state police and used U.S. 40 rather than I-70 because of state law. (AP Laserphoto)

MIDLAND, TEXAS 79702

"Looking for something good to read?
 "Want to read about the world? Your own neighborhood? Sports? Movies? How about music, travel, economics—even the weather?
 "Well, you don't need a shelf full of books to find all those good things.
 "They're all right here in these pages, fresh every day in your local newspaper.
 "I'm Ed Asner—and I think there's something for everyone in the newspaper. It's even got television listings—so you'll never miss the best shows—like 'Lou Grant.'"

The paper.
 It's good reading.
