Queries about Titan unanswered

WASHINGTON (AP) - Congress has several questions about last week's Titan II missile explosion in Arkansas, but Air Force Secretary Hans Mark left many unanswered in his testimony before a House commit-

Mark, summoned before a hastily called session of the House Armed Services Committee, was asked:

an attempt to halt the danger of ex--Why wasn't there enough water to plosion? Mark had no answers for those flood the silo when fuel fumes began questions Wednesday. Nor would he, escaping from the rocket? the Air Force secretary said, until the -Why was there no safety net in the

silo to catch objects such as the

Actors' strike may be settled the explosion near Damascus, Ark., which killed one man and injured 21 others. The nuclear warhead was apparently blown off the missile but was recovered undamaged.

He said he hoped to have some of the answers within a month.

But he said the Titan is still vital to America's defense, despite the questions and fears about the safety of the nuclear missile.

Mark insisted the aging Titan II "is required in our strategic force. It accounts for about one-third of the destructive power of our land-based missile force. There is no near-term replacement.

He said the Titans are needed more now than when they were first deployed in 1963 because "the strategic balance (with the Soviet Union) is not nearly as much in our favor as it was then.

There are 84 Titan II sites zona, Kansas and Arkansas, and each missile can carry a nuclear bomb about 1,000 times as powerful as the bomb that destroyed Hiroshima. Japan The Titan was designed primarily as a threat to Soviet cities. Recently, the United States has developed the more accurate Minuteman missile, designed to knock out the enemy's nuclear defenses Adhering to policy, Mark refused to say publicly whether the Titan's warhead was in danger of detonating or leaking radiation. He said he would discuss the nuclear device only in private with members of Congress. Mark disclosed that SAC, on the advice of the Martin Marietta Co., overruled the Air Force safety team at the site, which recommended letting the fumes from the silo escape into the air. "I'm not sure what the on-site team recommended was possible," he said. The toxic levels of the fumes may have been too great to let them get close enough to vent the gas, he said. He said the fuel can safely enter the atmosphere without igniting. Mark said the Air Force followed advice from Martin Marietta, even though no one from the firm was at the site. "For reasons I don't understand now," Mark'said, the company urged the Air Force to "do nothing. He said the company official apparently hoped the situation would stabilize His explanation left some members of the committee dissatisfied. Rep. Patricia Schroeder, D-Colo., said she found Mark's explanation "mystifying" and questioned whether he was hiding a threat to the warhead device that might have been posed by venting the fuel fumes. Mark was unable to say why there wasn't enough water to flood the silo and dissolve the volatile fumes, "If you could fill up the entire silo, you could prevent it (the explosion) from happening," he said. The accident was caused by a dropped wrench socket that fell 70 feet into the silo and ruptured the rocket's one-eighth-inch thick fuel tank wall. Escaping fumes eventually filled the silo and the explosion occurred more than eight hours after the tank ruptured. Mark said the water supply at the Titan site was adequate to handle small fuel leaks. In deciding how big a water supply to keep on hand, he said, the Air Force and the contractor may have reasoned that chances for a large-scale leak were slim. Rep. Don Bailey, D-Pa., said "it offends my common sense that you can't foresee" the possibility of a major fuel leak and have enough water on hand to flood the entire silo. Mark was also unable to say why there was no safety net in the silo to catch an object such as a wrench socket before it crashed into the Titan fuel tank.

Iraq defines its war objectives

BAGHDAD, Iraq (AP) - Iraq announced its territorial objectives today in the four-day-old war in which its forces claimed the capture of 115 square miles of Iranian border territory. Iran said invading Iraqi forces had been pushed back in one area and reported for the first time the capture of a border post inside Iraq.

Iranian jets made their deepest penetration yet into Iraq, bombing a gas refinery at Ayn Zala, 280 miles northeast of Baghdad and 400 miles from the nearest Iranian air base, the Iraqis reported.

In Beirut, Iraqi Defense Minister Adnan Khairallah listed the goals of his country as: Redefinition of parts of the Iraq-Iran border; protection of the Arabic-speaking minority in southern Iran, and the return to Arab sovereignty of the islands of Abu Mousa and the Greater and Lesser Tunbs. The islands were seized by Iran in 1971.

At U.S. government urging, 53 American civilians - 46 businessmen and their families and seven dependents of members of the U.S. Embassy staff - left Baghdad by bus for Amman, Jordan, a trip that normally takes 15-18 hours. U.S. diplomats were not being advised to leave Iraq for the time being.

A chartered plane arrived in Amsterdam, Netherlands, with other American evacuees from Iraq. They included 241 employees of a New Jersey construction company and their families.

Foreign diplomats said they were making plans to evacuate European, Japanese, Korean and Filipino civilians working in Iraq.

Military communiques issued here and in Tehran indicated ground and air activity had not let up. Both Iran and Iraq have halted shipments of oil, not a major worry to the world for the present, but the war threatens to halt shipments from other oil-producing ntries in the Persian Gulf

Sar-e-Pol-Zahab, about 20 miles inside the border.

Iran conceded its troops retreated in the Mehran area and said the Iraqis also seized nearby Saléhabad. An Iranian communique said fighting was continuing in the Qasr-e-Shirin area and claimed the invading Iraqi forces had been forced to retreat.

The Iranian news agency Pars quoted a communique saying Iranian forces had captured the Iraqi border post of Chalamehe. Pars did not spec-

More war news, photo Page 2A, 10A

ify the location of this post and Cha lamche does not appear on major maps. This is the first position inside Iraq that Iran has claimed to overrun since the war erupted.

In the air war, an Iraqi communique said Iranian jets hit the Ayn Zala refinery, only 15 miles from the Syrian border; Doura oil refinery on the outskirts of Baghdad; oil installations and airports in the northern cities of Kirkuk and Mosul and residential areas and economic installations in the northern Kurdish town of Irbil.

The Iraqi air force retaliated by attacking and heavily damaging six airports and military installations inside Iran, the Baghdad command said. The communique claimed Iraqi ground-to-air missiles and anti-aircraft guns downed 18 Iranian American-made planes, bringing the toll reported by the Iraqis since Monday to 139, almost a third of Iran's air force

Iraq said three of its planes were lost in the latest attacks - on Kermanshah, Shahabad, Rezaiyeh, Agajari, Dezful and Tabriz - but the pilots of two jets bailed out safely in Iraqi territory. It said two other pilots parachuted into Iranian soil. Iran claimed eight Iraqi Soviet-made jets were brought down, including three by anti-aircraft fire over Kharg Island, Iran's major oil tanker loading facility

Iran said its jets wrecked the Iraqi oil port of Faw, at the entance to the Shatt-al-Arab waterway marking the two countries' southern border.

Iran-Iraq war at-a-glance

By The Associated Press

Here is an at-a-glance look at today's developments in the war between Iran and Iraq:

Land advances

Iraq said it had captured 115 square miles of Iranian border territory. The Iraqi command said its troops and tanks seized the town of Naftshah on Thursday. Mehran and Qasr-e-Shirin were captured on Wednesday and the Iraqis said the fall of Sar-e-Pol-Zahab was imminent.

Air attacks

Iranian jets attacked Iraqi oil installations near Baghdad and to the north. The Iraqis said they struck back by heavily damaging six airports and military installations inside Iran. The Iraqi communique said 18 Iranian planes were downed, bringing the total of downed Iranian planes in four days of fighting to 139 - almost a third of Iran's air force.

Casualties

HOLLYWOOD (AP) - Negotiators today reached a tentative agreement on ending a two-month strike by 67,000 television and film actors that has delayed the start of the fall TV season

But even if the pact is ratified by the membership of the unions who walked off the job July 21, it will be weeks before new television shows are on the air, industry sources said.

The tentative agreement on a three-year contract came early this morning after a bargaining session of nearly 19 hours, according to Kim Fellner, a spokeswoman for the Screen Actors Guild.

'At 5 a.m. (PDT) a tentative agreement was reached between the actors and the producers and that followed a final 181/2-hour bargaining session," said Phil Myers, a spokesman for the producers.

Meyers said the boards of the American Federation of Television Radio Artists and Screen Actors Guild will meet starting this weekend to approve it the contract

"After that," he said, "there will be a ratification process by both of those groups. And each board will decide when the actors can go back to work pending ratification. So in terms of when the producers go back into production, we would have to wait and see what their decision is.

However, Ms. Fellner said the unions could send the actors back to work pending ratification.

"It'll take two-and-a-half or three weeks for the whole (ratification) process," she said, since the actors would vote on the pact by mail.

The contract includes a 15 percent increase in minimum salaries for the first 18 months, and 15 percent for the second 18 months, for a compounded increase of 32.25 percent over the life of the contract, Myers said. Actors currently earn a minimum of \$235 a day or \$785 a week,

Fellner said the tentative agreement also included increased pension and welfare benefits, a strong non-discrimination program, improved working conditions for minors and an overhaul of working schedules.

Another key area in the settlement involved what actors are paid for prime-time television reruns. Myers said the agreement included wage increases for such shows ranging from 14 to 37.5 percent over the contract for hour-long programs.

The unions' directors in Los Angeles were expected to meet Saturday afternoon here to discuss the proposal, while their boards in New York were scheduled to meet Monday in New York, said AFTRA spokesman Dick Moore

Negotiations had progressed more rapidly since actors and producers agreed. a week ago on a complex formula that would give actors a share of the lucrative home video market. That issue had been a major stumbling block in negotia-

Work would resume almost immediately after the strike on new prime-time series for the ABC, CBS and NBC television networks.

34 tax auditors to attend the Permian Basin Oil Show

ODESSA (AP) - State Comptroller Bob Bullock will send 34 of his tax auditors to the Permian Basin Oil Show next month to familiarize the agents with the petroleum industry that they audit.

But Tony Proffitt, Bullock's media liason, says the trip could do the comptroller more harm than good because once the auditors in the oil and gas division become qualified, they leave for higher paying jobs inside the industry.

The tax auditors are also known as "Bullock's Raiders" for their sudden, unannounced visits to businesses to see that they are paying all their state

However, Proffitt assured newsmen that no raid was planned. Most of those going to Odessa are 'good, young'' accountants, Proffitt said, who don't know much about the oil industry and "his trip primarily is

to acquaint them with the industry they audit.'

Ledford Kelly, director of field operations for Bullock's Austin office, said it was only a "field trip" designed to familiarize the agents with equipment used in the petroleum in-

dustry State Rep. Jay Gibson of Odessa said he thought the auditors would be watching out-of-state exhibitors who might make a sell and not pay the sales tax. That could amount to \$50,-000 on a \$1 million oil drilling rig, he pointed out.

Jay Alvey, executive director of the oil show for the past 20 years, said he did not recall any occasion when tax auditors were there in such force.

"If they have been here, we haven't known about it. I think that all companies exhibiting at Odessa are aware of all tax laws and try to abide by them and don't have anything to hide from Bulleck," Alvey said. But oil tankers were reported mov

ing normally today through the Strait of Hormuz, the gulf's outlet top the sea and the world's main oil artery Saudi Arabia and other Gulf countries have put their armed forces on alert as a self-defense prelcaution, highly placed sources reported.

The Iraqi command said its troops and tanks seized the Iranian border town of Naftshah today while other Iraqi forces raised the flag over Mehran, 90 miles to the south.

Iraq said its troops took Mehran Wednesday after completing the capture of the major Iranian border town of Qasr-e-Shirin, 350 miles southwest of Tehran, taking 351 prisoners and pursuing fleeing Iranian soldiers to

Iran said 34 Iranians were killed and 134 wounded in Ahwaz and in the oil-refinery town of Abadan, but it said the Abadan toll did not include casualties among personnel of the National Iranian Oil Co. It also said there were "many" civilian casualties at Qasr-e-Shirin and Mehran. Oil

Iranian and Iraqi exports through the Persian Gulf were cut off, but the flow from Saudi Arabia and other gulf states continued. The intelligence department of Lloyd's of London said tanker traffic was moving normally through the Strait of Hormuz, the world's main oil artery. The fighting has driven up gasoline and heating oil prices on the spot oil markets, but traders said current supplies are large enough so that consumers should not have to pay more unless the fighting spreads. The U.S. imports no oil from Iran and very little from Iraq.

Diplomatic

Secretary of State Edmund S. Muskie scheduled a meeting with Soviet Foreign Minister Andrei A. Gromyko and said he would urge Gromyko to back the United Nations' call for a cease-fire and to take "whatever actions may seem appropriate to the situation.

Chamber group proposes clean-up campaign here

A clean-up campaign involving all Midlanders is in the works, Bill Collyns told the Midland Chamber of Commerce at its regular monthly meeting on Wednesday.

The goal is "to make Midland more beautiful," Collyns told the board of directors. The plan calls for involving school, business, industry, civic and service clubs and as many residents as possible. The city sanitation department will be cooperating in the effort and is dividing the city into districts.

Collyns said the the committee he chairs is studying a beautification program under way in Longview in hopes of adapting it to Midland.

Chamber President Ray Moudy said all governmental bodies in Midland had agreed to underwrite the \$50,000 for the Urban Land Institute study that will be done here in November

He also remarked that a study is under way on the possibility of moving Midland Air Park and John Grimland is heading that chamber committee. He added that the question might be included in the ULI's study

"It's a very controversial matter," Moudy said of the Air Park study. "A lot of people in Midland feel there's a small group trying to profit out of it (moving Air Park), but I don't believe that's the case.

He reminded the board that the City Council two years ago expressed a desire to keep Air Park in its present location for the next 20 years.

Jack Hauke said a membership telethon will be held Oct. 23 and 24 and he hopes to get about 150 new members. Several telephones will be installed in the chamber conference room and volusteers will work about

an hour each in calling a list of prospects.

Grant Billingsley reported on the first application to the Midland Industrial Finance Corporation by Compressor Systems Inc. to expand its operations. These industrial revenue bonds should help Midland expand its industrial base, Billingsley said.

Louis Hochman reported the conventions committee will be bringing in several representatives from various associations Oct. 4 and 5 in trying to attract more conventions to the Tall City

Aroun Bridge

Classi

Comic

Cross

County commissioner Durward Wright said the county housing finance group is waiting on action by Congress on a rider to a bill concerning the revenue bond program for home mortgages.

The local program still is planned to begin Oct. 9 at Chaparral Center. He added that \$25 million in the revenue bonds has been committed, and the remaining \$14.6 is awaiting Congress' action before a seller will be found. He also reminded the board that

Oct. 4 is the last day to register to vote in the Nov. 4 general election.

THE MIDLAND REPORTER-TELEGRAM, THURS., SEPTEMBER 25, 1980

Seven hurt in gasohol explosion

COLUMBUS, Ohio (AP) - A drum containing a mixture of alcohol and gasoline flashed into flames during a gasohol demonstration and shot up like a rocket, spraying a crowd of spectators with burning liquid, officials say.

Seven people were hospitalized when the drum exploded Wednesday as one of the spectators at an agricultural trade show attempted to show 60 others how the liquid ignited, officials

say. "We were about 200 feet away," said Len Brown of Mansfield, one of the exhibitors at the annual Farm Science Review near Don Scott Field, owned by Ohio State University. "The only thing we heard was a loud woosh and that's when a barrel shot up into the air.

Two residents of Alvada were in stable condition at University Hospital. Norbert Kim, 50, suffered secondand third-degree burns over 20 percent of his body and 43-year old Donald Reinhart was treated for seconddegree burns over 26 percent of his

body. The five others who were injured and admitted to Riverside Hospital were in fair condition. They included Elmo Sergent Jr., 41, of Ramsey, Ill.; who was conducting the demonstration

'They looked bad," Brown said of the injured, who were packed in ice and wrapped in burn sheets designed to keep the burns clean.

Mike McCall of Tri Star Corp., a Vandalia, Ill., the company that owns the stills, said he talked to Sergent before he was transported to the hospital.

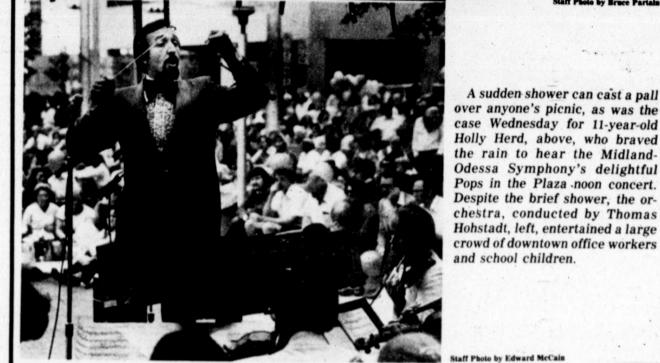

According to Sergent, someone from the crowd took the hose out of a tank of denatured alcohol, filled an ashtray with the liquid and ignited it to show how it burned.

The unidentified man then placed the ashtray on top of the drum. "Enough of the fumes from the ashtray ignited the 30-gallon barrel

and basically what we had was a rocket," said McCall. An investigation was being con-

ducted by OSU public safety officials and the state fire marshal's office.

Oil routes must stay open: Carter

WASHINGTON (AP) - President Carter is stopping short of threatening military action to keep Persian Gulf oil flowing to the West as Secretary of State Edmund S. Muskie and America's allies search for a way to make sure the Iran-Iraq war doesn't

close key shipping lanes. After a White House meeting with Muskie and other top advisers Wednesday, Carter said freedom to navigate in the Persian Gulf is vital to the world's oil supplies.

how you would meet contingencies if they develop."

Carter, meanwhile, stressed that the United States is strictly neutral in the Iran-Iraq conflict and, in what one administration official said could be interpreted as a warning to the Soviet Union, added: "There should be absolutely no intervention by any other nation in this conflict.

Muskie said he would urge Soviet Foreign Minister Andrei A. Gromyko at a meeting today to recommend

treaty of friendship and cooperation. signed in 1972, and Iraq has obtained nearly all its arms from Moscow since then. But relations between the two have been strained nevertheless, and an Iraqi delegation reportedly was turned down in a new arms request Monday night in Moscow.

Carter said that no matter what happens on the battlefield, the United States continues to hold the Iranian government responsible for the safety of the 52 American hostages now

parts for Iran's American-made weapons in return for release of the hostages

"We're consulting through other means with Iran as we have been for many months about a safe release of the hostages," Carter said. "But that particular point would perhaps be better for me not to single out among the others.

State Department spokesman Jack Cannon also said the United States ate message to Iranian

Compromise worked out on housing program

WASHINGTON (AP) - House and Senate negotiators, working under the pressure created by the upcoming congressional recess, have welded a fragile compromise on a \$38 billion housing program extending through the 20th Century.

Tentative approval came after days of wrangling that ended Wednesday night when House negotiators agreed to drop a controversial plan that would have extended, for the first time, federal rent subsidies to certain middle-income Americans.

House negotiators also agreed to drop their proposal to exclude cost-ofliving adjustments given to pensioners and Social Security recipients from the formula that determines if a person is eligible for low-income housing

In return, Senate negotiators gave up a proposal that would have reduced the eligibility for low-incomerental assistance. Currently, persons whose income is less than 80 percent of the median income in their area are eligible for low-income rent subsidies. The Senate had proposed reducing

Storm gets weaker as it nears Mexico

MIAMI (AP) - A weakening Tropical Storm Hermine stalled over Mexico's Gulf Coast today, dumping heavy rains along the southwest Bay of Campeche.

Hermine's poorly defined center was just inland, about 100 miles southeast of Vera Cruz, Mexico, late Wednesday. Forecasters at the National Hurricane Center here said the storm's 50-mph winds were expected to diminish during the night.

Hermine's future course was uncertain, forecasters said.

At midnight EDT, the storm was about 100 miles southeast of Vera Cruz, near latitude 18.2 north, longitude 95.1 west, not far from where it had been most of Wednesday.

The hurricane center advised small craft in the Bay of Campeche to re-main in port. this to 65 percent of the median income.

The middle-income subsidy program, the only new housing initiative in the proposal, had been expected to create problems for the negotiators and it lived up to that expectation. The House adopted the proposal with little dissent but the Senate rejected

The proposal would have created a pilot program of 40,000 rental units of newly constructed or newly refurbished units. Persons with an income up to 150 percent of the median income in their area would have been eligible for federal rent subsidies if they lived in these units.

Proponents argued that the program was needed to spur housing development for middle-income people, some of whom cannot afford to pay the prices developers must charge to make a profit on their buildings. They also said it was needed to provide housing for persons displaced when their apartments are converted to condominiums.

But Senate negotiators said the program could mean federal rent subsidies to persons making up to \$42,000 a year in some areas.

The conferees skirted a second sticking point - whether cost-of-living adjustments should be included in determining if a low-income person is eligible for housing assistance - by agreeing to study the question.

The bulk of the money provided by the authorization bill - some \$31 billion - would go to housing assistance programs over the next 20 years.

The bill also authorizes \$3.8 billion for Farmers Home Administration loans during fiscal year 1981. Of that amount, \$3.1 billion would be for lowand moderate-income borrowers.

Shuttle flight halted

SPACE CENTER, Houston (AP) -Technical problems forced scientists to halt a simulated flight of the space shuttle Columbia midway through the practice mission, a spokesman at the Johnson Space Center said.

Further test may be scheduled later today if data transmission problems are corrected, the spokesman said.

While Wednesday's cutoff of oil shipments from Iran and Iraq alone should have no serious effect on supplies and prices, the president said: 'A total suspension of oil exports from the other nations who ship through the Persian Gulf region would create a serious threat to the world's oil supplies and consequently a threat to the economic health of all nations.

"It is imperative that there be no infringement of that freedom of passage of ships to and from the Persian Gulf region," he added.

The key waterway - and the focal point of consultations with the allies is the Strait of Hormuz, a narrow channel at the entrance to the gulf. If it were blocked, two-thirds of the Western world's imported oil could be cut off.

Carter was not specific about how the strait might be kept open, and Muskie said the immediate effort is to promote a ceasefire through the United Nations.

In his State of the Union address last January, Carter said the United States was prepared to use military force if necessary to protect Persian Gulf supply routes from any outside assault

But there has been no indication that the president is prepared to carry out that threat in the current crisis

An administration official, who asked not to be identified, refused to comment on the possibility that the United States would join or assist some international naval force that could be sent to the region to guarantee the safety of the world's tankers.

Without mentioning such a plan specifically, Muskie said: "What one tries to do is to stay on top of the situation as it actually unfolds and undertake to do the contingency planning, not in public, but within the circle of your administration as to

that the Kremlin use its influence to support a U.N. Security Council appeal for a ceasefire.

The Soviets and Iraq are linked by a

inches.

Midlanders should plan on keeping their seldom-used umbrellas at the ready for awhile, according to the weatherman.

Cloudy skies that have brought the Tall City an official 4.62 inches of rain so far this month - more, according to unofficial sources inside the city may bring more rain to the city through Friday.

The forecast, issued this morning by the National Weather Service at Midland Regional Airport, is calling for considerable cloudiness through Friday with a chance of showers and a few thunderstorms. The weatherman says a 50 percent probability of rainfall exists tonight and a 30 percent chance will exist on Friday. A 30 percent probability existed today.

Midland woman attacked in bedroom

Burglaries and thefts kept police busy Wednesday and this morning.

At 4:40 a.m. today, officers were called to the 2800 block of Roosevelt Avenue to a burglary. Police are investigating the incident as a burglary with intent to rape. The woman told officers she was asleep in her bedroom when she was awakened by the burglar, who began hitting her in the face with his fists.

She said she was able to pull away from the man and run out the front door. The woman ran across the street to another residence, where she called police.

The woman was taken to Midland Memorial Hospital emergency room where she was treated and released. From tennis shoe prints found at the house, police surmised the man escaped through the back door and ran west from the residence.

Sometime between 7:30 and 8 p.m. Wednesday, Jaffe Alford told police, someone stole \$285 in cash from an apartment at 503 W. Estes Ave., No. 6. The money was stolen from his

Police roundup

bedroom dresser. Police are also investigating the reported theft of \$120 from a motel room at 1007 S. Midkiff Road. Christopher Davies of Dallas told officers the money had been in a sleeping bag on the floor. It was stolen, he said,

between 1:35 and 2:30 p.m. Wednesday, while he was out of the room. Grace Lovett Marshall received minor injuries in a two-vehicle acci-

dent Wednesday afternoon in the 300 block of South Bentwood. Vehicles driven by James Raymond Potter, Route 3, and Ms. Marshall collided about 2 p.m.

Ms. Marshall was not treated at Midland Memorial emergency room.

Midland firefighters were awakened early this morning by a reported fire at the Vaughn Building in downtown Midland. The report came in at 1:29 a.m. On their arrival, however, the firemen discovered the smoke was actually steam escaping from a vent at the top of the build-

Ambulance runs made up the majority of other calls with two people being transported by CFD ambulance since 1 p.m. Wedneday.

finally agreed to the statement, but British sources said there appeared to be a marked Soviet reluctance to engage the United Nations in the conflict, at least at this stage. Muskie said he thought the Soviet

resistance to the Security Council statement was overstated.

"They did raise questions, but there was not the kind of obstructionism apparently discerned in some quarters," he said.

State Departmenmt spokesman John H. Trattner told reporters he thinks the Soviets "support a quick end to the fighting."

"I can't speak to their motives, but this is what we see," he said.

Gromyko delivered a fierce attack on American arms policies in a speech Tuesday to the U.N. General Assembly. He said the United States was in the grip of a "militaristic frenzy" that was marked by "tensions and hysteria." But a high-ranking Soviet diplomat told a reporter Gromyko had not intended to signal any change in his government's desire to begin negotiations with the United States on medium-range missiles.

Those talks are expected to open in mid-October. They will center on the SS-20 missiles the Soviets have targeted on Western Europe and the American Pershing and cruise mis-siles to be deployed in Britain, West Germany and Italy beginning in 1983

Gromyko in his speech accused the Carter administration of not responding to Soviet proposals to negotiate over the missiles.

DEATHS **Guadalupe** Garcia Josephine Guly

Rosary for Guadalupe Garcia, 64, 503 N. Madison St., was recited at 8:30 p.m. Wednesday in the Newnie W. Ellis Funeral Home chapel with the Rev. Jim Foelker officiating. Mass was to be said at 4 p.m. today in Our Lady of Guadalupe Church. Burial was to be in Fairview Cemetery.

Garcia died Tuesday in Midland following a lengthy illness.

He was born Sept. 22, 1916, in Dilley. He moved to Midland in 1950 from Del Rio. He was a member of Our Lady of Guadalupe Catholic Church.

Survivors include his wife. Esperanza; two daughters, Alicia G. Alverez and Esperanza G. Carrasco, both of Midland; two brothers, Alberto Garcia of Manor and Joe Garcia of Midland; two sisters, Maria Vidal of Midland and Manuela Robles of Manor; 12 grandchildren, and six great-grandchildren.

Charles Herring

PLAINVIEW - Services for Charles B. Herring, 63, of Plainview, father of Mrs. Gilbert (Pat) Bishop and Gary Herring, both of Midland, were to be at 2 p.m. today in Calvary Baptist Church here with the Rev. M.V. Davis, pastor, officiating, as-sisted by the Rev. Ken Horn of Abernathy.

Burial was to be in Parklawn Memorial Gardens.

He died Wednesday in a Plainview hospital following a lengthy illness.

Herring was born Aug. 5, 1917, in Hood County and had lived in Plainview since 1954. He was employed in

HONDO - Services for Josephine Guly, 91, of Hondo and formerly of Midland, are pending today at the Guinn-Horger Funeral Home in Hondo. Burial will be in the Oakwood Cemetery in Hondo.

Miss Guly died Wednesday after-noon in a Medina hospital following an illness

Born April 1, 1889, in D'Hanis, Texas, she had served in the armed forces during World War I at Camp Polk, La., as a registered nurse. While in Midland in the early '20s, she again worked as a registered nurse in the office of one of the Midland Memorial Hospital founders, Dr. John Thomas

Miss Guly left Midland in the late '60s following a stroke. She had been living in Hondo in a nursing home for the past five years. She had been a member of Memorial Christian Church in Midland. She also recently received a plaque from the U.S. War Department noting her service during World War I.

Survivors include a niece, Mrs. William Lutz of D'Hanis.

Lillie Grace Gibbs

ANDREWS — Services for Lilke Grace Gibbs, 87, of Andrews were to be at 2 p.m. today in Singleton Funeral Home Chapel of the Chimes here with the Rev. Keith Wiseman, pastor of Means Memorial United Methodist Church, officiating. Burial was to be in Andrews Ceme-

tery. She died Monday in a Sterling City

hospital after a short illness. Mrs. Gibbs was born in Ava, Mo. She had moved to Andrews 32 years married to G.G. Gibbs July 13, 1918.

Delbert M. Gibbs of Weslaco, G.G.

AUSTIN, Texas (AP) - Assistant County Attorney Jeff Blackwelder didn't want a "pound of flesh" from 12 Middle Eastern demonstrators - one day each in jail would have suited him

But the Iranians and Palestinians avoided jail Wednesday as County Court-at-Law Judge Jon Wisser fined them \$200 apiece for disrupting a University of Texas speech by a for-mer spokesman for the late Shah of Iran

Although Wisser also sentenced the nine Iranians and three Palestinians to jail, none will have to serve time because the judge credited them for time already spent after their arrests in January.

Blackwelder had recommended that the defendants spend one addi-tional day in fail without paying a

fine. He had said i closing arguments earlier this moth he was "not looking for a pound cflesh.'

Defense attorney ill Allison said he would appeal.

Wisser asked Blacwelder why he had not recommened a fine, and **Blackwelder** replied

'Given the naturof the crime and the fact that so may have already spent time in jail, a felt the assessment of a fine was fally not justified. One day in jail word be sufficient.'

Allison said mosof the defendants already had spent nine very difficult days" in jail. "Th's enough time to atone for their corictions," he said. Blackwelder sa he asked for jail

sentences becaus the time the demonstrators had sent in jail was of their "own volion." He said they could have beer released on bond

Heavy losses reported among Soviet troops in Afghaistan

NEW DELHI, India (AP) - The Afghan rebels claim to have killed more than 1,500 Soviet troops in a month of fighting north of Kabul in which they lost only 20 of their own guerrillas.

It was one of the heaviest tolls reported in the 10 months since the Kremlin sent troops into Afghanistan to try to quell the Moslem tribal rebellion against the communist government

The Soviet troops were reported killed in an offensive to win control of the Panishir Vley north of Kabul. the Afghan crital; a diplomatic source in New elhi said Wednesday. His report talld with an earlier account from a sirce in Kabul who has proved accura in the past. But like all reports ofighting from in the landlocked Ceral Asian nation, they could not be afirmed.

The sourcin New Delhi, who declined to be entified, said the rebels also report the destruction of 35 Soviet tankand a helicopter in the Panjshir figing.

within hours.

Mideast studen's fined for disturbance

"They made a decision to stay in jail, I think, to make a political statement," Blackwelder said.

Wisser sentenced the 10 male defendants to eight days in jail and the

two female defendants to four days. Wisser convicted the demonstrators Sept. 4 of disrupting a Jan. 31 speech by Fereydoun Hoveyda, former United Nations ambassador from Iran. Four Iranian defendants were acquitted.

Prosecutors said the defendants booed, heckled and chanted "Death to the shah" in shouting down Hovey-The maximum penalty for the of-

fense is six months in jail and a \$1,000 fine.

Allison said paupers' oaths had been filed for seven of the defendants.

Blackwelder said the county would contest the applications at a hearing Monday

Originally, 24 persons were charged in the case. Some staged a nine-day hunger strike and were released from

jail through a legal manuever. Blackwelder says an Iranian and a Bahrainian will be tried later. Six defendants are said to have left the country.

Nine of the 10 men convicted were Iranians - Yahya Al-Omari, Farid Attar, Mehran Ebrahimi, Masoud Esmailbag, Alireza Jafarzadeh, Abbas Jamal, Majid Kamilipour, Fereidon Kheradman and Farajolah Sharafian. The other was Palestinian Samir Zaki.

Two Palestinian women, Rama Yagha and Nafiz Lana Budeiri, were convicted.

New Mexico field work reported

Cities Service Co., operating from Midland, announced location for No. 1 State "CZ," an 11,450-foot test in the Turkey Track, North (Morrow) field of Eddy County, N.M.

The 1¼-mile southeast outpost is 2,180 feet from north and 960 feet from east lines of section 4-19s-29e, 10 miles southwest of Loco Hills.

Ground elevation is 3,214 feet.

Amoco Production Co., operating from Hobbs, N.M., will drill in the Empire, South (Morrow) field of Eddy County

No. 21 Empire South Deep Unit is 660 feet from north and east lines of section 36-17s-28e, nine miles west of Loco Hills.

Contract depth is 11,200 feet, on ground elevation of 3,678 feet. ****

Amoco, operating from Hobbs, N.M., has spotted a 10,850-foot Morrow test in the Dark Canyon field of Eddy County.

No- 1 State Communitized "IW," one-half mile west of the opener and lone producer of the Dark Canyon field, is 1,980 feet from south and 660 feet from west lines of section 30-23s-25e, eight miles northwest of White City.

Elevation is 3,853 feet, ground elevation.

HNG Oil Co. of Midland plans to drill No. 1-26 Wiser-State in the eight-well Airstrip (Bone Spring) field of Lea County

Drillsite for the north offset is 1,910 feet from north and 660 feet from east lines of section 26-18s-34e, six miles south of Buckeye.

The project is scheduled to 10,800 feet, on ground elevation of 3,979 feet. ****

Adobe Oil & Gas Corp., Midland, announced location for a 13,500-foot test in the Austin (Mississippian) field of Lea County.

No. 1 Head-State, originally an abandoned location in January 1980, is 1,980 feet from north and east lines of section 20-14s-36e

Ground elevation is 13,500 feet.

11

The Knowles (Devonian) field of Lea County gained another producer with completion of No. 1 O. A. Woody to pump 127 barrels of 43-gravity oil and 6 barrels of water.

Production was from open hole from 12,408 to 12,428 feet, with no treatment reported. The gas-oil ratio is 628-1, and the pay was topped at 12,398 feet, on ground elevation of 3,696 feet.

The well drilled to 12,428 feet, and 5.5-inch casing was set at 12,408 feet.

Wellsite is 2,310 feet from north and 330 feet from west lines of section 35-16s-38e, 13 miles southeast of Lovington.

Morris R. Antweil, Hobbs, N.M., announced completion of the current second producer in the Caprock, North (Mississippian) field of Lea County.

No. 1 Lucky Larry flowed 120 barrels of oil, gravity not reported, on an 18/64-inch choke through perforations from 11,112.5 to 11,190.5 feet, after a 3,000-gallon acid job.

The gas-oil ratio is 9,166-1 The north offset bottomer at 11,290 feet, where 5.5-inch casing was set, and was plugged back to 11,225 feét

Production site is 660 feet from south and 1,980 feet from east lines of section 5-12s-32e, six miles south of and 120 barrels of water on 24-hour potential test, through perforations from 5,783 to 6,015 feet. The gas-oil ratio is 500-1, and gravity was not reported. The pay was treated with 8,000 gallons of acid, and

fractured with 30,000 gallons. Total depth was reached at 6,900 feet in the Drinkard.

with 7-inch casing set at 6,865 feet, and plugged back depth is 6,100 feet.

The well may be dually completed at a later date from Drinkard perforations from 6,589 to 6,808 feet, which were acidized with 5,000 gallons.

The location is 1,980 feet from south and 660 feet from east lines of section 2-21s-36e, one mile east of Oil Center.

The following tops were picked on ground elevation of 3,529 feet: San Andres, 3,995 feet; Glorieta, 5,220 feet; Blinebry, 5,726 feet; Tubb, 6,350 feet; Drinkard, 6,495 feet. ****

Amoco, operating from Hobbs, N.M., announced potential on the current fourth producer in the Buffalo (Pennsylvanian) field of Lea County.

No. 1 Nellis-Federal Gas Communitized "C" flowed gas at the rate of 8,700,000 cubic feet per day, on a 48/64-inch choke, with gas-liquid ratio and gravity not reported.

Production was natural, through perforations from 13,522 to 13,620 feet. On ground elevation of 3,678 feet, the well bottomed at 13,701 feet, and was plugged back to 13,620 feet.

At 13,700 feet, 5.5-inch casing was set.

Production site is 1,980 feet from north and 660 feet from east lines of section 8-19s-33e, 14 miles southwest of Buckeye.

Conoco Inc., Hobbs, N.M., has completed No. 9 State F-1 as a dual oil producer in the Hardy and Blinebry fields of Lea County.

Operator reported the well flowed 40 barrels of 46.2-gravity oil and 6 barrels of water on a 13/64-inch choke, through Blinebry perforations from 5,685 to 5,951 feet, to become the current ninth producer from this

pay The Blinebry pay was acidized with 1,890 gallons, and fractured with 58,128 gallons. The gas-oil ratio is 9,000-

Operator reported the well flowed 47 barrels of 46-gravity oil and 82 barrels of water on an 18/64-inch choke, through Drinkard perforations from 6,685 to

6,853 feet, with a gas-oil ratio of 10,830-1, to become the current fourth producer from this pay The Drinkard pay was acidized with 2,016 gallons,

and fractured with 41,412 gallons.

Total depth was reached at 7,000, where 7-inch casing was set, and plugged back depth is 6,959 feet,

Wellsite is 330 feet from south and west lines of section 1-21s-36e, two miles east of Oil Center.

The following pays were topped on ground elevation of 3,520 feet: Rustler anhydrite, 1,260 feet; salt, 1,350 feet; base salt, 2,493 feet; Yates, 2,650 feet; Seven Rivers, 2,910 feet; Queen, 3,403 feet; Glorieta, 5,205 feet; Paddock, 5,318 feet; Blinebry, 5,776 feet; Tubb, 6,327 feet; Drinkard, 6,625 feet; and Abo, 6,924 feet.

The current tenth producer in the Airstrip (Bone Spring) field of Lea County has been completed by Bass Enterprises Production Co. of Midland. It is a southwest offset to production in the field.

No. 1 Airstrip pumped 121 barrels of 37.6-gravity oil and 23 barrels of water through perforations from 9,230 to 9,385 feet. The gas-oil ratio is 717-1.

The Bone Spring was treated with 13,200 gallons of

Operators complete four discoveries in West Texas

lons.

ARCO Oil & Gas Co. of Midland has finaled an undesignated discovery in Andrews County.

No. 86 Emma Cowden flowed 152 barrels of 36.3-gravity oil and 74 barrels of water, on a 23/64-inch choke, with gas-oil ratio measured at 1,755-

Production was through perforations from 4,168 to 4,202 feet, which had been acidized with 2,000 gallons and fractured with 19,000 gallons. The well reached total depth at 4,600

feet, where 5.5-inch casing was set, and was plugged back to 4,355 feet. Ground elevation is 3,167 feet.

Wellsite is 2,500 feet from north and 1,980 feet from east lines of section 2, block 44, T-2-N, T&P survey, 14 miles south of Andrews.

NOLAN STRIKE

Resource Technology of Dallas No. Moore has been completed as a Jennings oil discovery in Nolan County, five miles north of Hylton.

On 24-hour potential test it flowed 206 barrels of 43.5-gravity oil, no water, with gas-oil ratio of 1,117-1: Completion was natural through a

1/4-inch choke and perforations at 5,390-5,394 feet. The Jennings was topped at 5,390 feet on kelly bushing elevation of 2,340

Other tops include the Flippen lime, 3,375 feet; Canyon reef, 4,332 feet; Fry sand, 5,150 feet; Goen, 5,250 feet, and Ellenburger at 5,875 feet. Total depth is 6,100 feet, 41/2-inch

pipe is set at 6,090 feet and hole is plugged back to 5,850 feet. Location is 190 feet from north and

west lines of section 216, block 64, H&TC survey.

TOM GREEN OPENER

John March of Dallas No. 1 Clifton Sikmcik, Tom Green County Cisco oil discovery, has been completed for a daily pumping potential of 11.72 barrels of 42-gravity oil and a tract of water, with gas-oil ratio of 7,679-1.

The pay, from 3,852 to 3,959 feet, was acidized with 10,000 gallons and frzctured with 16,000 gallons.

Total depth is 5,649 feet, where 41/2 inch casing is set, and plugged back depth is 5,265 feet.

The Cisco was tospped at 3,952 feet on ground elevation of 1,925 feet. Other tops include the Palo Pinto, 4,400 feet; Harkey, 4,556 feet; Strawn, 4,836 feet and Ellenburger, 5,612 feet.

Wellsite is 467 feet from south and east lines of J. S. Grant survey No. 6, abstract 55.

tured with 61,515 gallons. Completion was from pay behind Location is 660 feet from north and casing perforations at 6,699-6,820 feet. 560 feet from east lines of section 29, The zone was acidized with 4,500 gal-GC&SF survey, abstract 127. lons and fractured with 60,000 gal-

Doodlebug open slated

The Permian Basin Geophysical Society will hold its annual Doodlebug **Open Golf Tournament Friday at** Hogan Park Golf Course in Midland. A barbecue diner will follow the tournament at 7: 30 at the old pro shop next to Cubs Stadium.

The tournament is for members only, however the barbecue will include spouses.

Golfers are asked to make up their own foursomes, but the tournament committee will make up the foursomes in case anyone needs help. Teeoff time will be from 7: 52 a.m. to

acidized with 3,000 gallons and frac-3: 42 p.m.

The following tops were picked on ground elevation of 4,404 feet: Rustler anhydrite, 1,470 feet; Yates, 2,268 feet; San Andres, 3,565 feet; Glorieta, 4,980 feet; Tubb, 6,478 feet; Abo, 7,294 feet; Wolfcamp, 8,414 feet; Canyon, 9,417 feet; Strawn, 9,742 feet; Atoka, 10,036 feet; Morrow clastics, 10,811 feet; and Mississippian lime, 11 200 feet.

Sun Oil Co., Midland, has completed the current fifth producer in the Crossroads (Ellenburger) field of Lea County

On 24-hour potential test, the well flowed 47 barrels of oil and 24 barrels of water, with gas-oil ratio of 10,446-1, and gravity not reported.

....

Production was through perforations from 11,358 to 11,368 feet which had been acidized with 1,500 gallons. Originally completed from Devonian open hole from 12,049 to 12,066 feet in November 1972. Sun Oil re-entered and perforated the old 7-inch casing which was set at 12,049 feet.

The well cleaneed out to 12,066 feet, the old total depth, and was plugged back to 12,035 feet.

Wellsite is 1,980 feet fom north and 990 feet from east lines of section 27-9s-36e, 10 miles southeast of Milnesand.

Amoco Production Co. No. 9-C State Tract 11 has been completed as the 10th Blinebry producer in the Hardy field of Lea County

Operator reported the well pumped 20 barrels of oil

acid, and a fracture job of 106,000 gallons The well bottomed at 10,820 feet, where 7-inch casing

was set, and was plugged back to 9,467 feet. Wellsite is 330 feet from north and west lines of section 31-18s-35e, six miles south of Buckeye.

Ground elevation is 3,951 feet.

Yates Petroleum Corp., operating from Artesia, N.M. has announced dual potential in the Kemnitz, South multipay field of Lea County.

No. 1 Sombrero-State "MS" pumped 23 barrels of 35-gravity oil on 24-hour test, with a gas-oil ratio of 391-1

This production was through Wolfcamp perforations from 10,772 to 10,794 feet, which had been acidized with 2,500 gallons

Through Cisco perforations from 11,148 to 11,226 feet, the well pumped 24 barrels of 35-gravity oil and 49 barrels of water, with a gas-oil ratio of 1,708-1.

This pay was acidized with 3,500 gallons.

The well reached total depth at 11,800 feet, set 5.5-inch casing at 11,414 feet, and was plugged back to 11,408 feet.

On ground elevation of 4,195 feet, the following tops were picked: Rustler, 1,156 feet; salt, 1,550 feet; base salt, 2,152 feet; Yates, 2,780 feet; Queen, 3,667 feet; Grayburg, 3,996 feet; San Andres, 4,475 feet; Glorieta, 5,950 feet; Tubb, 7,170 feet; Abo, 7,890 feet; Wolfcamp, 9,760 feet; and Cisco, 11,140 feet.

Production site is 1,650 feet from south and east lines of sectio 22-16s-33e, 12 miles northwest of Buckeye.

40-1.

The strike is one location southwest of the Strawn discovery well of the Lipan Creek field and five miles southwest of Wall:

FISHER REOPENER

Maguire Oil Co. of Dallas No. 1-B Bowden has been completed to reopen the Sylvester, South (Noodle Creek) field of Fisher County, two miles northeast of Sylvester.

On 24-hour potential test, the well pumped 15 barrels of 39-gravity oil and 65 barrels of water per day. Completion was natural, through perforations from 2,993 to 3,033 feet.

Scheduled as a Goen project in the Sylvester field, No. 1-B Bowden was drilled to 5,555 feet. Operator set 41/2inch csing at 3,062 feet and plugged the hole back to 3.051 feet

Amoro No. 1-AI Federal; drilling J.255 feet in lime and shale. Amoro No. 1-GG State: td 13,650 feet; still shut-in. Amoro No. 1-BH Federal; td 8,361 feet; still shut-in. Cities Service No. 1 Government Cities Service No. 1 G The Noodle Creek was topped at 2,993 feet, the Flippen at 3,230 feet, and the Goen lime at 5,404 feet. Ground elevation is 1,909 feet. Wellsite is 597 feet from north and 152 feet from west lines of J. F. Newman survey No. 13.

ECTOR OILER

Amoco Production Co., operating from Odessa, has announced potential for No. 85 Elliott F. Cowden "B" in Ector County.Originally scheduled as a wildcat, the well was completed in the Cowden, South (Canyon 8790) field

On 24-hour potential test, operator reported the well pumped 77 barrels of 35.7-gravity oil and 93 barrels of water, with gas-oil ratio of 455-1.

Production was through perforations from 8,610 to 8,872 feet, which had been acidized with 6,000 gallons. Total depth was reached at 10,643 feet, 5.5-inch casing was set at 10,630 feet, and plug back depth is 8,883 feet.

On ground elevation of 2,963 feet, the pay was topped at 8,330 feet.

GARZA WELL

Harry A. Miller Jr. of Midland No. 2-G-B Connell has been completed in the Rocker A. Northwest (San Andres) pool of Garza County, five miles south of Post.

Miller reported a daily pumping potential of 55 barrels of oil, gravity and gas-oil ratio reported.

Completion was through perforations from 2,566 to 2,788 feet.

Total depth is 3,360 feet. Location is 1,150 feet from south and 330 feet from east lines of section 9, block 5, GH&H survey.

IRION PRODUCERS

Moran Exploration Inc. of Midland No. 1-6 A. A. Sugg is a new well in the Andrew A (Canyon) field of Irion County, 12 miles northwest of Mert-

MHS CHATTER It's Howdy Week

By KATHY WOOD, VICKIE MADDEN and JULIE GUYTON

This week is Howdy Week at MHS. Friday night is the Howdy Dance at the Youth Center from 8 to 12. Admission is \$3 per couple. The theme is country and western, and the band is Showdown. Everyone come and have a great time!

We sould like to thank all of you for the great turnouts we have been having at the after-game dances. Keep it up.

During this week the student council has been having different events in order to get more student participation during Howdy Week. .Some of the events held Monday were the egg toss and the pig chase. Class standings so far are seniors, first; juniors, second, and the sophomores. sources Corp., Houston, For those of you who did not get to see the football No. 1-A J. Willis Johngame Friday, the mighty Bulldogs had a great win son; 1,000 f middle nel, over Lubbock Monterrey, 33-21. Congratulations! 1,700 fms'ly sel, J. Crad-Friday at 4 p.m. there is a set-up for the Howdy dock sur No. 1, A-5219, 5 Dance. It is important that all 100 Club members are north Christoval, 6,450, present. On Saturday there is a clean-up at 2 p.m. Everyone be sure and come to Young Life for fun Wildcat: Hexagon Oil and fellowship everu Wednesday at 8 p.m. in the Girl & Gas Inc., Fort Worth, Scout Center. It's fun.

Heart specialists sue two hospitals, university

PROVIDENCE R.I. (AP) - A group of heart specialists have sued The Miriam Hospital, Rhode Island Hospital and Brown University, charging the institutions want to block independent physicians from performing open heart surgery.

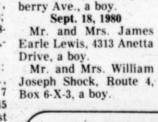

The suit filed Tuesday in U.S. District Court charges the hospitals and school plus 20 trustees with violating state and federal anit-trust laws, defaming and violating the civil rights of the 11 doctors filing the suit and interfering in their business relationships.

The heart surgeons and cardiologists, all members of the Miriam staff, claim that hospital plans to force them out of business and hire its own full-time staff to perform heart surgery.

Stock market mixed

NEW YORK (AP) - Energy issues recorded some strong gains in an otherwise mixed session in the stock market Wednesday.

Oil-supply worries engendered by the war between Iran and Iraq prompted traders to bid up such issues as the oil and coal stocks, and at the same time brought downward pressure on the airline group.

The Dow Jones average of 30 industrials recovered from Tuesday's 12.54-point setback with a 2.73 gain to 964.76.

But the over-all tally of New York Stock Exchange issues showed about three losers for every two stocks that gained ground.

The Dow Jones industrial average actually would have shown a loss had it not been for the three oils on its roster - Exxon, up 21% at 711% as of the 4 p.m. close in New York: Standard Oil of California, up 2% at 77, and Texaco, up 1 at 36 3/8.

Volume on the Big Board tailed off slightly, totaling 56.86 million shares against 64.39 million Tuesday, which was the seventh largest total in exchange history

The NYSE's composite index climbed .49 to 75.34.

Standard & Poor's index of 400 industrials gained 1.25 to 148.39, and S&P's 500-stock composite index was up .94 at 130.37

Gold-mining stocks were mixed, with ASA up 11/2 at 871/2 but Homestake Mining down 2 at 103 and Dome Mines off 11/4 at 127.

In the over-the-counter market, the NASDAQ composite index closed at 195.18, up .13.

Insurance rate cut ruled out

AUSTIN (AP) - The State Insurance Board's plan to cut Texans' credit life insurance rates by 14 percent on Oct. 1 has been dashed by a

state district judge. State District Judge Jim Dear said the board failed to follow correct pro-

cedure in ordering the rate cut. The board said it would appeal to the 3rd Court of Civil Appeals in

Austin. The credit life insurance rate cut would have saved Texans an estimated \$20 million to \$40 million over the next three years.

Dear said the board violated the Administrative Procedure Act in its hearings in March because it did-not allow insurers and others enough freedom to cross-examine witnesses. Dear said the board should have conducted the hearings as a "contest-

ed case," allowing insurers and others greater freedom to cross-examine witnesses.

He also said the board lacked authority to regulate credit insurance

By JOHN CUNNIFF AP Business Analyst

Home mortgage group

blasts Federal Reserve

BUSINESS MIRROR

NEW YORK (AP) - An important home mortgage group has intensified its attack on the Federal Reserve Board, saying the board's policies threaten the country with "a housing and economic disaster.

The U.S. League of Savings Associations, whose members hold a major portion of home mortgages, claims the Fed has favored commercial banks over savings institutions and thwarted long-term financial planning.

"I think it is a legitimate question to ask if the Federal Reserve does not have too much power." said William O'Connell, executive vice president, in an address to league members in California Tuesday

He said it represented "an extraordinary, unwarranted and dangerous grant of power to a few non-elected public officials who are not accountable to the electorate of a representative democracy.'

O'Connell's comments were the latest development in a campaign against Federal Reserve and regulatory actions which the League says endangers the general economy, and housing and home financing especial-

The campaign, designed to relieve "chronic near-chaos in financial markets," includes speeches, lobbying, court action to reverse a regulatory decision, and an advertising campaign soon to get under way.

Erratic Fed policies, he said, "have plunged this country into a financial malaise, with double digit inflation threatening to become hyper-inflation, with runaway interest rates and rising unemployment.

O'Connell's blast at Fed officials and the Depository Institutions Deregulation Committee, which he said is Fed dominated, has been building for a year. But the roots of the difficulties run deeper.

He said many of the financial problems of mortgage lenders originated with the triggering of inflation by the Vietnam war, and the subsequent worsening of it by oil price increases and federal budget deficits.

Because of inflation, O'Connell said, Congress authorized removal of interest limitations on savings, hoping that higher returns on deposits might offset the decline in the dollar's purchasing power.

Congress, he said, was "wise and prudent enough" to write into law

that deregulation should develop in an orderly manner over a six-year period. But it erred, he said, in relinquishing power over the process.

Authority over deregulation was granted to the DIDC, in which various financial regulatory agencies have a voice, but in which, O'Connell said, the Federal Reserve is "the flagship and dominant agency.

Less than two months after its formation, DIDC virtually eliminated a regulation that permitted savings institutions to offer more attractive yields than commercial banks on 6month money market certificates.

As a result, the savings industry claims it has suddenly been thrown into competition with much larger and stronger commercial banks instead of being able to adjust and strengthen itself over a period of years

The effect, O'Connell said, has been to extend Federal Reserve control from the commercial bank area, which it has traditionally regulated, to include "life and death power over all financial institutions.

The savings and loans associations claim that one consequence has beena slowdown of deposits at savings institutions, weakening their ability to provide home mortgage loans sufficient to meet demand.

Almost simultanous with the DIDC action, O'Connell said, the Federal Reserve has followed an erratic course that has made "our money costs swing wildly," and made planning by lenders "virtually impossible

He said it has failed to achieve its goal of less inflation. He said interest rates are as high as they were last year, inflation psychology is just as deep if not deeper, and prices are heading higher again.

O'Connell said Fed policies have raised costs to savings and loan associations while weakening the flow of deposits, but said they were favorable to commercial banks and money market funds.

The consequence, he said, has been to endanger saving institutions and the housing industry that depends on it for financing. He said a decision was expected this year on a suit to revoke the DIDC actions.

This (housing and home financing) is too great a tradition to be allowed to go down the drain simply because of the ill-advised actions of a small group of unelected officials," he concluded.

such as an automobile loan, if the

The board, concerned that high commissions might push some insurers into insolvency, had imposed a 30 percent limit. Some insurance companies, competing for business, had offered as much as 55 percent.

Dear cited testimony that William Deffebach, an officer in a Houston auto dealership and a plaintiff in the case, makes \$22,300 a month in credit insurance commissions.

City of Irving to appeal ruling

IRVING (AP) - The City of Irving will appeal a state court decision denying cities the right to fight Public Utility Commission rulings, the city attorney of this Dallas suburb said.

State District Court Judge Herman Jones in Austin handed down such a ruling two weeks ago, saying cities and individuals did not have the right to appeal utility commission decisions through the courts, although electric power companies could make such appeals.

City Attorney Don Rorschach said he received city council approval to appeal that ruling.

'The bottom line of Judge Jones' ruling is the electric utility companies may ... charge each homeowner \$1.-000 per day for electricity and the homeowner will not be able to go to court to complain.

A second study of im-migrants concluded that the children of immigrants have fewer chron ic health problems than do the children of native Americans and even though immigrants' children start with a big educational disadvantage, they usually overcome that handicap within a decade.

shows.

The two studies, prepared for the Select Commission on Immigration and Refugee Policy, were based on data collected in 1976. Thus, they include neither the recent wave of refugees from Cuba nor the Vietnamese refugees that moved to America after 1976. Neither do they differentiate between legal and illegal immigrants.

But-the studies, one of which concludes that immigrants are a "remar kedly good investment' for the United States, are sure to add more fuel to the controversy over U.S. immigration policy. One common claim.

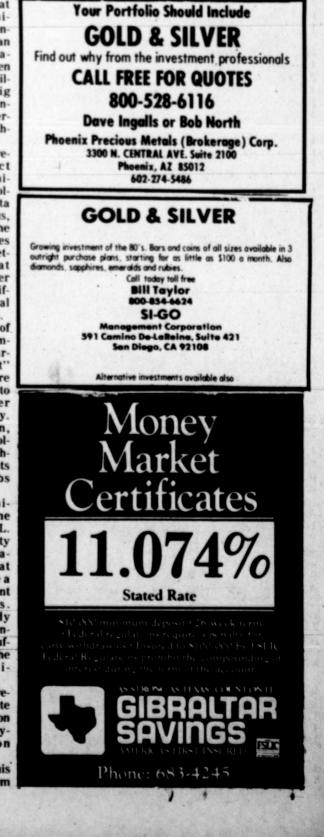

particularly by blue collar workers in the Southwest, is that immigrants take low-paying jobs from Americans.

The study of immigrants' earnings, done by Professor Julian L. Simon of the University of Illinois at Urbana-Champaign, found that immigrants do not take a disproportionate amount of low-paying jobs. Simon said the study "implies that lower-in-

come workers do not suffer in the long run by the entry of the immigrants.

Neither do they represent a disproportionate number of the people on welfare or unemployment compensation rolls, he found

In fact, Simon said his study found that "from
