No, it's not a Dutch innovation to solve the Hague artist Theo Van Laar on a blank wall facing parking problem in one of the world's most densely a playground. The mini-car is real enough, and it is

Carter raps Reagan with renewed vigor

By The Associated Press

President Carter is lashing out with new vigor at Ronald Reagan - talking about the possibility of the Republican's election in almost apocalyptic terms - while Reagan continues to hit at Carter's economic policies.

Carter told Democrats in Chicago on Monday that when they vote in the Nov. 4 election, "you'll determine whether this America will be unified or, if I lose the election, whether Americans might be separated black from white, Jew from Christian, North from South, rural from urban.

And the president also renewed the theme that Reagan as president could lead the nation into war.

Reagan, in New Haven, Conn., said that the president "doesn't understand economics" and charged that the Carter administration was "jimmying" economic statistics for politi-cal advantage.

Independent candidate John Anderson, campaigning in Chicago at the same time the president was, said the Carter camp was using "Nixonian"

WASHINGTON (AP) - Ruben Bonilla says the Mennonite immigrants of Seminole, Texas, should not be granted permanent resident status until all of the nation's immigration problems are resolved

waterway.

were hit

tal

for the president's signature. Its sponsor, Sen. Lloyd Bentsen,

D-Texas, was not available immediately for comment, but scheduled a press conference in Dallas for later today

"I'm sure that calling for a veto will not endear me to the senator, who I consider a good friend, but this is a matter of principle," Bonilla said. "What's good enough for the Mennonites is good enough for the Mexicans.

The Corpus Christi attorney said no distinctions other than economic status and skin color could be made beteen the members of the Spartanlike religious community that settled in arid West Texas and the undocu-

the Select Commission on Imigration and Refugee Policy completes its study of U.S. immigration problems next year.

Deportation proceedings against the Mennonites could be suspended until then. Bonilla said, as was done while the bill was pending before Congress.

"The legislation is premature and favors the economic well-to-do at the expense of the poor and unrepresent-ed," he said. "If we're going to grant amnesty to the Mennonites than we should consider a general form of amnesty for the undocumented workers."

Bonilla said he was particularly concerned that deportation proceedfrom Mexico but some from Canada, ran into trouble in 1977 after paying \$2.6 million for 6,400 acres in Gaines County, Texas. They did not learn until later that their purchase did not make them eligible for permanent resident status.

Bentsen has said that the bill would not set an immigration precedent be-cause the Mennonites' situation is unique

"The individuals covered by this legislation have made extraordinarily good faith efforts to comply with American law," he said after the bill was approved.

The bill, which failed to clear a House subcommittee in 1978, was retactics to try to keep him off the ballot in numerous states.

And he said that he resented Carter campaign ads that suggested a vote for him was a vote for Reagan. "A vote for John Anderson is a vote for John Anderson," he said.

Reagan was campaigning today in Philadelphia and several cities in Ohio, and Anderson was to be in Boston and Hartford, Conn. The president was taking time off the campaign trail at the White House before heading for Tennessee, North Carolina and Florida on Thursday.

Carter's statements on Reagan possibly dividing the nation or plunging it into war came one day after fwve major news organizations released surveys showing the Republican well ahead in the electoral college vote that will actually decide the election.

And at a Democratic dinner in Chicago, Carter exhorted supporters to give their all to ensure his re-election lest the Republicans gain a narrow victory the way Richard Nixon did over the late Hubert Humphrey in

"This is my last campaign," the president declared, adding he did not intend to turn the government over to people whose philosophy is "directly contrary to everything I believe in all my heart and soul."

White House press secretary Jody Powell, asked whether Carter's comment about Reagan dividing the nation might not have been overstatement, said it was not so at all.

Earlier, in suburban DuPage County outside Chicago, Carter said he believes the Soviet Union will remain at peace as long as the United States is strong.

Then he added: "If you've got just a strong military and you're jingoistic in spirit, that is, you want to push

everybody around and just macho of the United States, that is an excellent way to lead our country toward war.'

Reagan hit at Carter's treatment of economic statistics in appearances in Cherry Hill, N.J., and Hartford, Conn

"I am not surprised at the - excuse me for this - recent 'jimmying' of official governmental statistics," he said in a reference to last Friday's announcement of the producer price index for the month of September showing a net decrease in wholesale prices of 0.2 percent.

Chip Carter sets Midland stop

Chip Carter, son of President Jimmy Carter, will stop at Mid-land Regional Airport Wednesday to celebrate the opening of Democratic headquarters in Midland

Harris Kerr, chairman of the Carter-Mondale campaign in Midland, said Carter will attend a luncheon in the Midland-Odes-sa Symphony building at Air Terminal. He will arrive at 12:45 p.m. at Chaparral Aviation. The luncheon is being sponsored by the Midland-Odessa Carter campaign workers and the public is invited, said Kerr.

Democrats will be opening their headquarters at 117 W. Wall St., formerly Shooters Sup-

Persons interested in attending the barbecue luncheon may telephone Kerr, 683-5291.

Muskie says he'll remain on the job if Carter wins

MEMPHIS, Tenn. (AP) - Secretary of State Edmund S. Muskie says he'll remain in his post as long as President Carter wishes, while Carter fine relationship." In a televised interview in Milwaukee, Carter said he hopes Muskie will stay in the job if the president wins Nov. 4.

reported that Muskie would leave because of his unappiness over the growing influence of national security adviser Zbigniew Brzezinski in advising Carter on foreign policy. But Muskie said he and Brzezinski have the kind of relationship he expected when he took over as secretary of state last May 8.

Iran claimed bringing down 10 Iraqi warplanes and killing 80 Iraqi sol-diers in Monday's fighting. Iraq claimed to have shot down two Iranian bombers and a helicopter and destroyed five tanks and three armored troop carriers.

Iraq's air force attacked Tehran, the Iranian capital, on three sides Monday, and there was an unconfirmed report that the local oil refinery was hit, the official Iranian news agency Pars said. Tehran Radio said the raiders killed four people, wounded 60 and damaged a factory and the airport.

Meanwhile, Jordan's King Hussein became the first Arab chief of state to declare open, concrete support for Arab Iraq in the 16-day-old war. He ordered mobilization of all transport vehicles to carry food and supplies to the Iraqi army, was reported lending

Efficiency study found overstaffing at hospital

at MMH, is a Tribrook employee. He became acquainted with MMH EDITOR'S NOTE: This is the third in a series of five articles examining Midland Memorial Hospital's finanthrough the study and is currently cial problems. This section reviews "on-loan" from the company to the hospital at a fee of nearly \$10,000 a an effeciency study done on the hospimonth

Bash said the Tribrook study at

Examining a **Hospital's Ills** Hi part three of a five-part series

MMH found at least one major general flaw throughout the hospital: overstaffing. Bash said the current average of more than four employees per patient day in the hospital was just

"too damn many."

He continued to say the "workload is unplanned and unscheduled." Although some admissions are emergencies and cannot be planned for, he said, most admissions are for elective surgeries - which includes anything not immediately fatal or limb-costing - and, therefore, can be scheduled. If the admissions and surgeries are planned, then the staffing for those patients can also be planned, he

THE NINE-MONTH study included interviews with department heads, hospital employees, administrative personnel, 13 staff physicians, five members from the board of trustees and even some citizens from the community. The study yielded a report close to 1,000 pages long which included productivity ratings for departments and objectives and recommen dations for every part of the hospi-

Unfortunately, the report is so lengthy and so complex that few people have read the entire piece. To overcome this dilemma, the board of directors selected the operations committee of the board of trustees to go over the report section-by-section with the departments involved.

Each month, the operations committee undertakes two or more of the departments to review the report findings and to help enact its recommendations. At the end of the month, the departments must show the improvements they have made and the specific items in the report they have implemented in the day-to-day operations.

"It's basically a business func-tion," Bash explained. "This is information the board members need to know." Before the report was made, he said, board members spent much of their time "trying to figure out what to focus on." With the report, focusing has been "very easy," Bash said.

However, there are so many specif-ic areas to focus on in the Tribrook report it still may be difficult for the

board members to do so.

FOR INSTANCE, in the billing section of the study, Tribrook re-searchers reported: "There are 14 positions in insurance billing.... This is substantially above the normal for hospitals of 175 to 195 beds. Nevertheless, with the present patient accounting system, the billing section has over one month's backlog of work. Once the McAuto System is activated, the system functioning properly and the backlog eliminated, then five insurance billers should be able to provide current billing services for the hospital. However, this assumes proper financial admitting procedures. If this is not the case, then as many as eight billers may be

required." The billing and admitting problems have been so bad, that at times there has been a backlog of three months in the billing process, Bash said. What that backlog means is that patients leaving the hospital would not get their first bill for services until they

had been home for three months. The long wait between hospital discharge and the first billing accounted for a significant part of the hospital's collecting problems, Bash said.

According to Bash, there are five collection points for the hospital from the patient: before admission, at the time of admission, during the hospital stay, at the time of discharge and after discharge. The greatest chances for full collection, he said, are at the first three points, with the lesser pos-siblity of collection in the last two phases

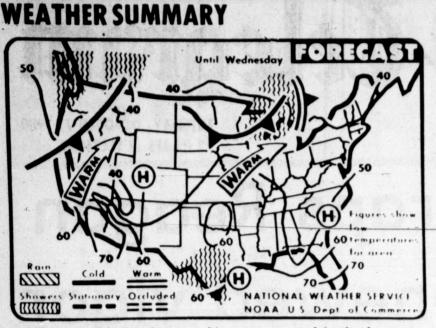

Since there was virtually no pre-admitting nor scheduled admitting, the majority of the hospital's collection ability occurred during the patient's hospital stay, Bash said.

THE FIRST FOUR of these points are the responsibility of the admis-sions department; the fifth is the responsibility of the business office. According to the Tribrook study on the admissions department, admis-

THE MIDLAND REPORTER-TELEGRAM, TUES., OCTOBER 7, 1980

Court rejects church's plea to smoke pot

WASHINGTON (AP) — Members of a Miami Beach church who want to smoke pot in praise of God are still breaking the law. The nation's highest court has rejected their freedomof-religion appeal.

The Supreme Court, citing a lack of jurisdiction and a general disinterest in the case Monday, left intact a decision outlawing the use of marijuana for religious purposes.

That leaves members of the Ethiopian Zion Coptic Church facing a Florida Supreme Court decision that bars them from smoking the illegal drug during worship services at a Miami Beach home.

The state court ruled last Nov. 1 that marijuana laws do not violate the church members' freedom of religion

Monday's denial of review does not preclude other legal maneuvers by the Coptics. But the defeat proved bitter enough to spur a church member identifying himself as Brother Love to call the Supreme Court's nine justices "cowards."

"It is a cowardly position not to face this pressing problem head-on, and thus deny millions of persons their God-given rights," said Brother Love.

'The court has acted as cowards." The marijuana itself is not an object of worship, but is used by church members to bring them closer to God. Coptics believe marijuana is the mystical body and blood of "Jes-us."

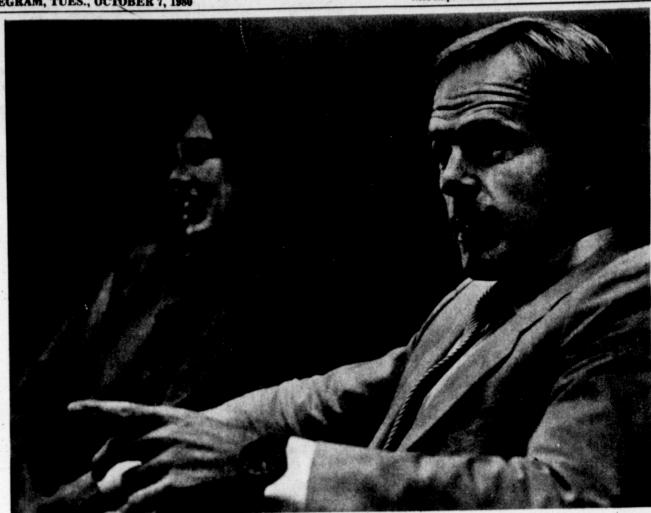

In 1979, Florida and Miami Beach officials filed a nuisance complaint seeking a court order prohibiting the use of church member Jacquelyn Renee Town's home on fashionable Star Island in Biscayne Bay as the church's worship place. The author-ities also sought a prohibition of the marijuana-smoking.

A state trial judge issued such prohibitions, and the state Supreme Court upheld them. "To hold otherwise would, for all practical purposes, legalize the use of cannabis for anyone, member or non-member of the (church), who came to Ms. Town's residence to use the prohibited drug," the state court said.

Beginning its 1980-81 term with what may have been the busiest day in its 190 years, the Supreme Court also took these actions: -Agreed to decide in a Georgia case whether criminal evidence can

be used against a person when it was discovered in his or her home by government agents who entered carrying an arrest warrant for someoneelse. The justices must decide whether a separate search warrant is need-

-Left intact a ruling that allows a county-run health center in Lansing, Mich., to distribute contraceptives to teen-agers without telling the youngsters' parents.

Former Midlander Terry Jastrow and his wife, actress Anne Archer, are in Midland raising \$6 million for their movie about a West Texas independent oil operator, which will be filmed in

Midland beginning in April. Jastrow is a former director and producer for ABC-TV sports. (Staff Photo by Edward McCain)

Terry Jastrow, Anne Archer here to produce movie of oil industry

By GEORGIA TEMPLE **Staff Writer**

Former Midlander Terry Jastrow and his wife, actress Anne Archer, announced Monday they are trying to raise \$6 million to produce a movie in Midland about the oil industry. The announcement was made during a news conference in the Midland Chamber of Commerce.

The film will deal with a native West Texas independent oil operator and an Eastern-born and bred geologist who meet, work together, clash and fall in love. The movie is to be filmed in Midland with a tentative starting date of April 1981.

Now 31, Jastrow was a director and producer for ABC-TV Sports until he resigned in 1977 to go into acting. In the time he was with ABC he was nominated for 10 Emmys and won three. He continues to direct special events for ABC on a freelance basis. His stage credentials include studying under Lee Strasberg, an off-Broadway production of "Death

Takes a Holiday," a West Coast production of "Julius Caesar" directed by Joan Darling, a stage production of "From Here to Eternity" and a part in Tennessee Williams' "The Mutilated.

He also has guest-starred on television's "Police Story" and "The Hardy Boys." His first feature film role was in Universal's "F.M.," followed by a co-starring role in the Lorimar pro-duction of "Love and Money." Jastrow starred in two American Film Institute productions, "Harry's House" and "Sophie's Choice."

Miss Archer, the daughter of stage actor John Archer and actress Marorie Lord, is a fifth generation Californian.

Her first motion picture role was in 'The All American Boy'' starring Jon Voight, followed by "The Honkers" with James Coburn and "Cancel My Reservation" with Bob Hope. More recently she has starred in "Raise the Titanic" produced by Sir Lew Grade, 'Hero at Large'' with John Ritter and has just finished "Green Ice" with Ryan O'Neal and Omar Sharif.

Jastrow and Miss Archer were married in December 1978. They met in an acting class through mutual friends, Cheryl Ladd and her now

project is \$75,000, which was spent on writing the screen play. Bill Swano is the author.

Jastrow said the executive producer will be Edgar Scherick, whose other productions include "Sleuth" and "Raid on Entebbe," and Joan Darling will be the director.

Although the money could be secured from one of the major studios, Jastrow said, they did not want to go that route because "once you take money out of a major studio, they gain control and we don't want to lose control.

"We want to do as honest a depiction as we can of West Texas and West Texans," Jastrow said

Both also are interested in starring in a film together.

"We met as actors and became good friends," Jastrow said, adding, 'We enjoyed the wonderful chemistry that existed between us."

After working with several outstanding leading men in Hollywood, Miss Archer said she felt "the chemistry between us is bigger than life. It's time we get that out there and let people see it.'

'Tis the season for doing the disappearing sweater act. Put it on in the morning and shed it in the afternoon

And more of the same cool nights and warm days are in the offing, according to the weatherman. The forecast from the National Weather Service at Midland Regional Airport calls for the mercury to plunge into the low 50s tonight, but rise into the low 80s on Wednesday.

High on Monday was 78 degrees, far

off the record of a sizzling 96 degrees set in 1937. Overnight low was 53, not quite as cool as the record 38 set in

Winds should be southerly tonight 5 to 10 mph, changing to southwesterly on Wednesday, said the weather-

man. Area towns reported cool temperatures and clear skies.

Only a few clouds covered Texas early Tuesday as another dry, mild day shaped up across the state.

Transit worker's determination has not weakened by firings

DALLAS (AP) - Although absent Dallas Transit System workers are being scratched from DTS payrolls daily and replaced by new employees, spokesmen for the workers say they are determined to stay off the job until demands for better pay and improved working conditions are met.

And police reported increased vandalism - theft of a driver's satchel, slashed bus tires and a knife pulled on one driver - as the walkout bogging down the city's only mass transportation system moves into the second week.

Amalgamated Transit Union president B.J. Simmons said Monday he doesn't believe DTS general manager

Fall kills Midlander

AUSTIN (AP) - Bruce Moran, 22, of Midland died Sunday after a fall from the third floor of the cooperative house where he lived.

Witnesses said Moran, a senior engineering student from Midland, was part of a crew working on the solar panels on the roof of the house.

"There were two people on the roof spraying for wasps," said Michael Ellis, a fellow co-op member. "It was on the slanted part of the roof. Bruce was spraying — I'm not sure how close to the nest he was — but the wasps came at him and he jumped back.

Moran died of head injuries several hours later.

Cliff Franklin will replace all the job action participants. "It would take a long time for them

to do that," Simmons said. One 7-year veteran driver said he

could be fired Tuesday - and doesn't care.

"I'll tell it to you in one sentence," he said. "If they don't change this mess, I don't want to work for them. They can't fire someone who doesn't want to work for them."

Responding to hostile acts against employees not joining the job action, sources told The Dallas Morning News that DTS offered \$14 an hour to off-duty policemen to ride guard on buses before police nixed the proposition.

"The DTS is a city function," Assistant Police Chief Billy Prince said, "and if its gets so bad (strike violence) then police officers will be put on the buses, but we'll do it with on-duty officers."

The jobs of six employees fired Monday for missing five consecutive work days were filled the same day by former DTS employees who left the system before the work stoppage, officials said.

About 75 to 80 people crowded the DTS offices Monday, making applications to replace the absent drivers, mechanics and cleanup crew workers, DTS personnel officers said.

Most people waiting to be inter-viewed said they were aware of the work stoppage, but didn't consider it their fight.

A 13-year-old Midland youth was listed in satisfactory condition this morning in Midland Memorial Hospital after the motorcycle on which he was a passenger was involved in a traffic accident Monday afternoon.

The motorcycle, driven by Mark Edward Garza, 4102 Anetta Drive, was northbound on McDonald Drive. A car driven by Bobby Lee Doss Jr., 3700 Roosevelt St., was eastbound on Cedar Spring Drive. The two vehicles collided at the intersection. Both Garza and his passenger Rex Dean Lloyd were injured. Lloyd was admitted to the hospital. However, the hospital shows no record of treating Garza, a hospital spokesman said. Mark Allen Hall, 1900 Hudson Ave.,

was treated and released from Midland Memorial emergency room after his motorcycle and a car driven by Don E. Bradford, 102 N. Marshall St., collided at the intersection of Lamesa Road and Cowden Street at 6: 45 p.m. Monday

Five Midland Fire Department units responded to an apartment fire at 11:04 a.m. Monday.

The fire, apparently caused by a short in a hot water heater, caused extensive damage to apartment No. 103 at the Barcelona Apartments, 4303 Lockheed Ave. The apartment was occupied by

Perry Stacy. Firemen battled the blaze for about an hour. Other Fire Department calls were

primarily for ambulances with seven people transported by CFD ambulance.

Jury deliberating 'pistol-whipping incident'

By DAVID CAMPBELL Staff Writer

Jury deliberations were to begin this morning in Midland County Court-at-Law to decide the Feb. 3 alleged "pistol whipping incident" involving Jeff Barber, Republican candidate for Midland County commissioner.

David McCartney, the 18-year-old plaintiff, has charged in a civil suit that Barber, owner of J Bar Storage where the incident allegedly occurred, used excessive and unnecessary force on McCartney to get his rock 'n' roll band off the storage premises.

James Boldrick, plaintiff's attorney, and Jimmie Oglesby, defendant's attorney, finished presenting their cases to the five-man, one-woman jury Monday afternoon.

According to testimony given by six witnesses, the defendant was called at 11:30 p.m. Feb. 3 by John Brown's wife, who lived with her husband and two children in a mobile home near the storage buildings. She complained about the loud music coming from the storage building and asked Barber to get the band to stop because "the noise was unbearable," said John Brown.

"MY WIFE COULD NOT sleep because of the drums," Brown said of his wife's call to Barber. Barber arrived on the scene, armed with a loaded 32-caliber pistol, kicked on the door and demanded

entrance to the facility, said McCartney. Barber told the court he took the gun with him for

protection because of recent thefts and past problems with other musical bands playing in his storage buildings

Boldrick questioned Barber as to why he didn't call the police or the sheriff's office to investigate the matter. Barber said he didn't want to bother law enforcement officers with the incident.

Once inside, Barber asked who had given the group permission to practice in the storage building, recalled Alvin Carter Jr., the band's drummer. The storage room was originally rented to Carol Ann O'Brian, a friend of band member Brad Zachery who took over rental payments, said Barber.

RENTAL PAYMWENTS on the storage room were about 60 days behind, and Barber did nothing to notify Ms. O'Brian about the payments, noted Boldrick.

Band members in January 1980 paid Zachery their share of the rent, and Zachery in turn paid Barber, said Carter.

ment went to rent owed in December 1979.

Also, McCartney testified that Brown led him to believe that the band could practice in the storage room. However, Brown stated that he didn't give the

Carrying his guitar, McCartney walked over to Barber and asked him what right he had to come inside.

After he turned off the amplifier and put his guitar down, McCartney testified Barber told him not to 'buck against me" - not to come any closer

AFTER THAT, Barber allegedly struck McCartney in the face with his hand and hit him on the back of the head with the pistol, according to McCart-

THING TO ADVERTISE.

motioned with the gun 'to get the s--- out of the case. here," testified Carter.

McCartney said he and the band members picked up their instruments, carpet and empty beer cans and left the area

He and Carter drove over to McCartney's house where he told his father, Donald R. McCartney, about the incident.

The father said he examined the boy's wounds and noticed that blood was coming from hiseson's mouth

THE NEXT DAY, Don McCartney said he telephoned Barber and told him, "You are talking to the father of the boy you pistol-whipped.'

McCartney noticed there was silence at the other end before Barber offered to come over and apolo-

The plaintiff's father asked Barber if the pistol was loaded to which Barber replied "You damned right it was loaded.'

Treatments denounced, praised

Methods of man treating McQueen disputed

DALLAS (AP) - To some, the man who is treating actor Steve McQueen for cancer is a medical con man who recommends licorice root tea. To others, he's a dedicated, deeply religious man who simply wants to share his discoveries.

William D. Kelley, a one-time orthodontist, has built something of an empire around his therapies. Executive director of the International Health Institute in Addision, just north of here, he also is director of the Kelley Foundation in Winthrop, Wash., and associated with the Nutritional Academy of Chicago and the Plaza Santa Maria General Hospital, near Rosa Rita, Mexico.

Kelley, who holds a Ph.D. in education, said he learned he had cancer of the liver and pancreas in the mid-1960

He treated himself with coffee enemas, a variety of health foods and vitamins to balance his metabolism and allow his body's natural immunity system to successfully fight the cancerous cells, he said.

That's the method he recommends in a pamphlet "One Answer to Cancer," which advocates pure living and exercise and says 86 percent of all cancer can be treated by dietary control alone.

"I used to be so traditional you wouldn't believe it," Kelley said. "But I changed when I saw that nutrition could do for me what medicine couldn't. I'm not doing anything illegal or immoral."

Ten years ago, however, the state Board of Medi-

cal Examiners got an injunction prohibiting Kelley cancer. from practicing medicine and publishing his pamphlet in the state. He fought the injunction all the way to the U.S. Supreme Court, where justices declined to hear his arguments.

In 1974, the state Board of Dental Examiners lifted his dental license, and, according to Kelley, at least 15 other state and federal agencies have investigated him at one time or another.

A Dallas Times Herald reporter who profiled Kelley said one patient was told to take 187 pills a day and drink pink carrot juice and licorice root tea.

Kelley's pamphlets, which give recipes for foods as old-fashioned as corn meal batter cakes, also recommend frequent coffee enemas, using regular grind percolated in an enamelware, glass or stainless steel

But coffee enemas can be fatal, according to a report in Friday's Journal of the American Medical Association. They can cause an imbalance of body fluids and salts, said Dr. John W. Eisele of the Seattle medical examiners office. He has reported two deaths from the coffee treatments.

And Dr. D.C. Fletcher, director of the American Medical Association's food sciences section in Chicago, said, "We know of no way cancer can be cured by any diet."

The American Cancer Society lists Kelley's program as one of the unproven methods of treating

Those who know him say he either is a joke or a man ahead of his time.

"He was the laughing stock of town for quite a while," said Dr. Jerry Burxess, a Grapevine dentist who knew Kelley when they both practiced there. "People used to joke that he cured cancer with green onions

But "He's a very dedicated, very quiet, very spiritual man," said Rita Miller, a long-time friend Kelley's daughter, Kim, and now an employee at Kelley's institute in Addison. "He believes that God has given him information he must share with the world. People had always thought of him as really crazy. I don't see what's so crazy about eating right.

Kelley's spokesman, Paul Whetstone, said McQueen, who has mesothelioma, a rare and oftenfatal form of cancer that affects the lining of the lungs and abdomen, had improved "markedly" after 10 weeks under Kelley's program at a hospital in Mexico.

Kelley, who now lives in Winthrop, Wash., and commutes to Addison, Washington, Chicago, Mexico and other cities for lectures, says, "I could be making \$500,000 straightening teeth. But that's not for me.

Live cancer tumors reduced, doctor says

BALTIMORE (AP) - Dr. Stanley E. Order's patients set off geiger counters.

Isolated in their hospital rooms by lead shields, they take their own temperatures, check their own pulse rates. But the radical treatment can dramatically reduce tumors in liver cancer, the Johns Hopkins Hospital doctor says.

The treatment, involving radioisotopes fused to antibodies produced by the disease, has produced a dramatic reduction of tumors in seven of eight liver cancer patients, Order, director of Radiation Oncology at the Johns Hopkins Comprehensive Cancer Center, said Monday.

Cancer in one patient was reduced from 70 percent of the liver to 18 percent, and from 50 percent to 5 percent in another, Order said.

Eight out of 11 liver cancer patients treated by his research team derived "some degree of benefit" from the therapy.

The median survival rate for that type of cancer is three to four months from the time of the first treatment, but the therapy raised that average to 111/2 months, he said.

One patient lived more than two years after treatment was begun, and another still is alive 15 months after the treatment, Order said.

The new method - "radioimmunoglobulin thera-- combines radiation, a conventional cancer treatment, with a biological rather than a mechani-

cal delivery, Order said.

doctors produce an antibody that is then tagged with radioactive iodine.

When injected into the patient, the serum's antibodies bind to the tumor, and the radioactive iodine destroys cancerous cells.

The treatment makes the patient radioactive for about a week, but there are no side effects, Order said. But because of the lead shielding, the patient himself must carry out some nursing duties, such as taking his temperature and pulse and monitoring liquid intake and outflow.

Order plans at least two more years of testing for the new therapy. While he finds the results encouraging, he cautioned against generalizations about the new therapy's ramifications.

"We're still learning how to use this even though Using proteins produced by the patient's tumor, we've been working on it for several years," he said.

Order's researchers also have tried the therapy on other cancers that produce the same protein ferretin - used to make the antibody. These include lung cancer, a cancer of the nervous system in children (neuroblastoma) and myeloma, a cancer of the blood.

The studies are incomplete, Order said, but preliminary results show that the antibodies bind to the tumor

Researchers now are working on new purification techniques for the serum to make it more potent. Order said more potent antibodies would allow less total body irradiation, shortening the hospital stay and the precautionary period after the treatment.

Woman wins island retreat

Newton expected to testify

problems.

vada law.

gaming history.

By PAT LEISNER

INVERNESS, Fla. (AP) - After 20 years of clipping and mailing coupons and jingles, Thelma Rawlings, a perennial contest entrant who once was "Queen For A Day," has won a lush island, complete with a luxury \$300,000 house and two boats.

"I've cried, cussed, kicked, screamed and fought for a house. But farm people just don't go out and buy houses," said the 50-year-old Eureka, Kan., resident.

So she won it instead.

Mrs. Rawlings flew to Florida Monday to collect the keys to her new 2.5-acre island retreat in a lake in this Central Florida community

She had a choice - the island or \$100,000 in cash as the first prize in a tobacco company's sweepstakes died. that she entered by mailing a coupon from an outdoors magazine.

Since she's spent so much time patching up their

put 1 m not," she beamed. "This is our chance to relax and do the things we want to do.' Raymond Rawlings, 58, who now lives less than a

mile from where is was born, is a little uncertain. "I guess we'll go down and give it a trial," he said

from his Eureka home. "But I'll have to find something to do. I've worked all my life and a person can only do just so much fishing.

A spokesman for the contest sponsor, Brown and Williamson, said the tobacco company had purchased the estate for nearly \$300,000.

Winning isn't anything new to Mrs. Rawlings, a housewife and licensed beautician who in her spare time breeds Brittany spaniels, raises and cans all her own vegetables and fruits, hunts and fishes.

In 1953 she won a new wardrobe on the "Queen for a Day" television show after her first husband

Another time she guessed the number of marbles in a jar and won a washing machine.

"It's not luck," she insists. "It's that I believe."

NEWSPAPER BIBLE Let this be a warning to you'

FOR we must never forget, dear brothers, what happened to our people in the wilderness long ago. God guided them by sending a cloud that moved along ahead of them; and He brought them all safely through the waters of the Red Sea.

This might be called their "baptism"-baptized both in sea and cloud!-as followers of Moses-their commitment to him as their leader

And by a miracle God sent them food to eat and water to drink there in the desert; they drank the water that Christ gave them. He was there with them as a mighty Rock of spiritual refreshment.

Yet after all this most of them did not obey God, and He destroyed them in the wilderness.

From this lesson we are warned that we must not desire evil things as they did,

Nor worship idols as they did. (The Scriptures tell us, "The people sat down to eat and drink and then got up to dance" in worship of the golden calf.)

Another lesson for us is what happened when some of them sinned with other men's wives, and 23,000 fell dead in one day

And don't try the Lord's patience-they did, and died from snake bites.

And don't murmur against God and His dealings with you, as some of them did, for that is why God sent His Angel to destroy them.

All these things happened to them as examples-as object lessons to us-to warn us against doing the same things;

they were written down so that we could read about them and learn from them in these last days as the world nears its end

So be careful. If you are thinking, "Oh, I would never behave like that"-let this be a warning to you. For you too may fall into sin.

I Corinthians 10:1-12

market rallies

Stock

NEW YORK (AP) - With oil issues eading the way and aided by hopes hat the Federal Reserve will not ighten credit any more, the stock narket mounted a strong rally Mon-

The Dow Jones average of 30 indusrial stocks rose 15.02 to 965.70 as dvances outnumbered declines by a -2 margin among New York Stock Exchange issues.

The more broadly-based NYSE omposite index rose 1.30 to a record 6.04

A sharp drop in the money supply, innounced after the market closed Friday, provided much of the impetus or the rally. It was seen as lifting pressure from the Federal Reserve to urther tighten credit and drive up interest rates

No banks matched the 14 percent prime lending rate announced last week by Citibank, and one small bank, Southwest Bank of St. Louis, cut its prime rate to 13.25 percent from the prevailing 13.5 percent.

The continuing war between Iran and Iraq helped some energy issues. 'It looks like it will go into a war of attrition, so there is even more interest in the domestic energy stocks," said Larry Wachtel, an analyst with **Bache Halsey Stuart Shields.**

Among the oil issues, Phillips Petrolem gained 2 to 51/2, Mobil added 2% to 75½, Cities Service was up 1% to 45% and Natomas rose 2% to 421/2. Coal issues also rose, with Eastern Gas and Fuel up 2 to 281/2 and Pittston rising 11/2 to 301/4

With gold prices rising, precious metals stocks also gained. ASA picked up 21/4 to 871/4, Dome Mines added 41/2 to 1231/4 and Homestake Mining was up 3% to 72%.

The big gainer on the Big Board was Hardees, a fast-food chain, which rose 51/2 to 231/4 after Imasco Ltd., a Canadian company, offered to buy the company for \$25 a share. At the American Stock Exchange, Pic'N Pay rose 3% to 17%. It is the subject of a \$19.50 tender offer.

Volume on the Big Board was an active 50.13 million shares, up from 47.51 million on Friday.

R.L. Burns, which is involved in both coal and oil operations, led the NYSE active list and was up 1/8 to

General Telephone & Electronics gained ¾ to 28 and American Telephone & Telegraph was up 1/8 to 53. Many technology issues were strong. International Business Machines was uph1 ¼ to 68, Hewlet Packmature in 10 years. Savings and loan associations, which would benefit from a peak in interest rates, were generally up. Ahmanson added 3% to 22 and Great Western Financial rose 11/4 to 201/2. Among brokerage stocks, Merrill Lynch rose 1/2 to 331/2 and E.F. Hutton gained 11% t 40 %. Standard & Poors' index of 400 industrials rose 2.81 to 150.13 and S&P's composite ndex of 500 stocks was up this country are integral parts of our 2.40 to 131.73. efforts to reduce inflation and provide At the Amex, the market value the enormous investment needed to index gained 6.23 to 346.62. revitalize our economy in the 1980s," In the over-the-counter market, the Miller said in a statement announcing NASDAQ composite index rose 2.58 to the changes. 196.01, a record for that index. The Treasury Department estimates that one of three American families owns some savings bonds, Grain which were inaugurated by President HOUSTON (AP) — Number one wheat: export ordi-nary, \$5.02 \%-5.19 \%. Trial to start in Ballinger case BALLINGER, Texas (AP) - Attorneys for five men charged with murder in the June 15 stabbing death of a Ballinger teen-ager prepared today for prosecution testimony A jury was seated Monday to hear the case against George Perez, 25, Lorenzo Rocha Jr., 17, Eddie Guajardo, 22, Manuel Martinez, 20, and Manuel Guajardo, 17, all of Ballinger. Runnels County sheriff's officers said Abel Martinez, 16, died of multiple stab wounds after five men broke into his house and attacked him.

ard gained 1% to 80% and Texas Instruments added 4½ to 139½. TODAY'S ANSWER

WACO (AP) - A Baylor University associate professor has analyzed the flood of economic promises generated by presidential candidates by turning on faucets.

Tank makes economy

easier to understand

John Pisciotta, director of Economic Education Programs at Baylor's business school, calls his waterpowered teaching aid an "economics tank" and says it makes complex economic ebbs and flows easier to understand.

The tank runs on 15 gallons of water circulated by hydraulic pumps. Three faucets represent each major category of spending - consumption, business investments and government purchases.

Both President Carter and Republican nominee Ronald Reagan support substantial tax cuts, and the tank shows such policies would result in "increases in production and employment but a probable worsening of inflation," Pisciotta said Thursday. Reagan is proposing a greater tax cut, so "Reagan is quite inflationary," he added.

Independent candidate John Anderson "is taking a wait-and-see attitude on a tax cut ... but he's making a proposal to use tax incentives to bring about wage and price restraints in business and labor," Pisciotta said. "In his program, there might be a shot at reducing inflation.

The flow of water demonstrates the economy's production or real gross national product, demand-pull inflation, cost-push inflation, monetary policy and fiscal policy. Indicators also show production capacity and the unemployment rate.

By manipulating the faucets, Pisciotta can demonstrate how various aspects of the economy respond to changes in consumer confidence. business expectations and government policy.

Pisciotta, 36, says his device is not an innovation in terms of economic theory, but "an innovation in how you present that theory.

He took the model to Toronto for a demonstration before the Canadian Foundation for Economic Education and the U.S. Joint Council for Economic Education, and "the response was just fantastic. They just couldn't believe what they were seeing."

He also has shown the tank to high school teachers in Dallas and Central T'exas.

"The model is completely porta-ble," Pisciotta said. "I simply carry it in the back of my station wagon. The tank also could help ensure that students stay awake.

At a demonstration for teachers in Temple, "one of the hoses came loose, spraying the audience with water. They took it all in good part, though,' Pisciotta said

He says the device makes economics easier to teach as well as to learn.

Teachers generally "come into the classroom and say with a sigh, 'Oh boy, economics.' But I think they have gone away from our programs with a real positive attitude and a lot of enthusiasm," Pisciotta said.

"Most presidents and members of Congress knnow very little about economics. In fact, politicians put out all sorts of gibberish on economics. If we citizens, as a body, knew a little more about economics, the politicians would not be able to do that.

"Any student who acquires just a basic knowledge of economics has something that not more than one out of 40 Americans have."

Carter hiking interest paid by Series EE savings bonds

WASHINGTON (AP) - U.S. savings bonds, once billed as the patriotic way to save but unable to compete in times of inflation with more attractive investments, are getting a shot in the arm from the Carter administra-

tion. Treasury Secretary G. William Miller announced Monday that President Carter, acting under a new law, has raised the interest rate on Series EE bonds from 7 percent to 8 percent. The rate for Series HH bonds will go from 6.5 percent to 7.5 percent. In addition, Series EE bonds need

be held only nine years - rather than the current 11 years - before maturing. Series HH bonds will continue to

The changes will take affect with purchases made after Oct. 31. The higher rates - but not the shortened maturity - also will apply to all outstanding Series E, EE, H and HH bonds as well as the savings notes known as Freedom Shares.

could earn considerably more interest elsewhere.

When interest rates in general soared earlier this year to the range of 20 percent, an investor with as little as \$100 to deposit in a savings and loan association could earn 12 percent interest. But the Series EE bond still paid only 7 percent.

As a result of that disparity, savings bond sales plummeted and redemptions of long-held bonds rose. In a good year, sales would exceed redemptions, but in 1979, redemptions were \$5.3 billion greater than sales. And in the first three quarters of 1980, the "outflow" was \$10 billion.

The higher rates still are unlikely to appeal to investors with large amounts to set aside, because better yields are available on other investments, including some federal government securities. But the new rate will be considerably better than the 5.25 percent earned on passbook savings accounts at banks and 5.5 per-

cent at savings and loan associa "Giving small savers a fair return tions. and encouraging increased savings in

There also is some advantage to the Treasury Department and, ultimately, to taxpayers in general. The more savings bonds sold, the less money the government will have to borrow on the open market at interest rates that are today in the 12 percent range.

Congress agreed earlier this year to allow the president to raise the interest rate on savings bonds by up to one percentage point every six months. The Series E bond earned only 6 percent until June 1, 1979, when the rate was raised to 6.5 percent.

Series E was replaced by Series EE on Jan. 1, 1980, and the interest rate rose to 7 percent.

The

Basin areas gain wildcat sites

Anadarko Production Co. of Midland No. 1 Forrest is 30-32 (8250 Fusselman gas) field. to be drilled as a 9,600-foot wildcat in Lubbock County, three miles northeast of Slaton.

The prospector is 1,980 feet from north and east lines of section 2, block B-9, EL&RR survey. Ground elevation is 2.914 feet.

STERLING PROJECTS

The Desana Corp. of Midland spotted /a pair of oil widlcats in Sterling County, 141/2 miles southwest of Sterling City.

Each will be drilled to 9,000 feet.

No. 2 Council is 1,320 feet fromnorth and east lines of section 1, W. A. Keenan survey. It is 1/2 mile east of Desana No. 1 Council, a project

which was temporarily abandoned in May.

Desana No. 1 Council "A" is to be drilled one mile south of No. 1 Council and 1,320 feet from north and 1,320 feet from east lines of section 1, W. A. Keenan survey. It is adacent to an 8,20%-foot dry hole.

GLASSCOCK WILDCAT

Kenai Oil & Gas, Inc., of Midland No. 1 O'Barr is a new 9,600-foot wildcat in Glasscock County, 15 miles northeast of Garden City.

Operator staked location, 467 feet from north and 1,980 feet from west lines of section 224, block 29, W&NW survey

It is 1¼ miles southwest of a 9,600-foot dry hole.

MARTIN EXPLOREIAS

Cotton Petroleum Corp., operating from Midland, announced locations for a trio of 9,500-foot wildcats in Martin County, two miles northeast of Lenorah.

No. 1 Madison is 1,980 feet from north and 660 feet from east lines of section 27, block 36, T-2-N, T&P survey. The project also will test for production in the Spraberry Trend area field. It is 2,000 feet southeast of Spraberry production.

Cotton Petroleum No. 1 Shortes will be drilled a.980 feet from south and east lines of section 17, block 37, T-2-N, T&P survey and 1,000 feet northwest of Spraberry Trend Area production.

The same opertor will drill No. 1 Standefer No. 1 1,980 feet from south and 660 feet from east lines of section 30, block 36, T-2-N, T&P survey and 1,500 feet southeast of Spraberry production.

CROCKETT EXPLORERS

The Superior Oil Co. No. 1-39-7 University is to be drilled as an 8,500-foot Ellenburger wildcat 13 miles southeast of Barnhart in Crockett County.

Operator staked location 660 feet from north and 1,700 feet from east lines of section 7, block 39, University Lands survey.

It is 5/8 mile southeast of an 8,500-foot dry hole and 21/2 miles southeast of the one-well Big Fire (Ellenburger gas) field.

The Dow Chemical Co. of Houspton spotted No. 1 Carpenter as an 8,200-foot wildcat nine miles northwest of Iraan in Crockett County.

Location is 5,671.5 feet from north and 660 feet from west lines of section 87, block 1, I&GN survey. Ground elevation is 2,238 feet.

The drillsite is 5/8 mile southwest of a 6,850-foot dry hole and 7/8 mile northeast of the Hanson (Grayburg) field

The dry hole is Durham Inc. No. 1 Allied-Union Carpenter No. 1 which was abandoned in December 1976,

It also is 5/8 mile southwest of a 7,850-foot dry hole which was drilled by Apache Corp. as No. 1 Carpenter and plugged in May 1970.

BAHRAIN - Saudi Arabia's oil

J. Cleo Thompson of Dallas filed application to CROCKETT STEPOUT amend location and add wildcat to his No. 2 University "3W", project in Crockett County, 14½ miles west of

UPTON DRILLSITES

Exxon Corp., operating from Midland, staked leation fora 13,400-foot wildcat 17 miles north of Rankin in Upton County.

. 1

It is No. 7 Giddings Estate Fee, 1,980 feet from north and 5,044 feet from east lines of section 4, Throckmorton County School Land survey.

The drillsite is four miles east of a 13;264-foot dry hole and six miles northwest of the XBC (Fusselman) field. ****

John L. Cox of Midland No. 1 Alford is a new 4,200-foot wildcat in Upton County, 15 miles northwest of Rankin.

Surrounded by production in the Benedum multipay field, it is 467 feet from north and 3,102 feet from west lines of P. B. Scott survey No. 501/2.

STONEWALL TEST

JEM Petroleum Corp. of Englewood, Colo., spotted a 6,550-foot wildcat in Stonewall County, five miles north of Swenson.

It is No. 1 Laird, 1,980 feet from north and 2,310 feet from east lines of section 220, block D, H&TC survey. Drillsite is 1/2 mile northwest of one of the two wells in the Mullen Ranch (Ellenburger) field.

EDWARDS PROJECT

Dorchester Gas Production Co. of Amarillo will dig No. 1 M. Q. Marshall as a 1,250-foot wildcat in Edwards County, two miles north of Lula.

Drillsite is 2,102 feet from south and 701 feet from east lines of section 86, block E, WE&WT survey. It is 5/8 mile northwest of a 342-foot dry hole and four

miles east of the Lula, Northwest (Devonian) field.

HOWARD LOCATION

Earl R. Bruno of Midland staked No. 1 Hewett "A" as a 10,100-foot project in the Florac (Strawn) field of Howard County, six miles southeast of Big Spring. The drillsite is 467 feet from south and east lines of section 30, block 33, T-1-S, T&P survey.

SCHLEICHER TEST

Fortune Production Co. of San Angelo No. 1 University is to be drilled as a long outpost to the University 53 (Canyon) field of Schleicher County, 19 miles nothwest of Eldorado.

Contrcted to 8,200 feet, it is 3¼ miles from production and 1,980 feet from north and east lines of section 14, block 54, University Lands survey. Contract depth is 8,200 feet.

NOLAN PROJECT

Sun Texas Co. (formerly Texas Pacific Oil Co., Inc.,) No. 4 Gertrude Withers is to be dug as a 6,600-foot test 2,310 feet north of one of the six wells in the Withers (Strawn) field of Nolan County.

Drillsite is three miles south of Sweetwater and 1,800 feet from north and east lines of section 72, block 22, T&P survey.

UPTON AREA

Shell Oil Co. announced plans to re-enter a former Devonian well in the Fradean multipay field of Upton County, six miles northeast of McCamey, and attempt completion as the field's second Strawn well.

Hole will be plugged back from old total depth of 10,400 feet.

The project, No. 1 Shirk Estate, is 1,980 feet from south and 660 feet from east lines of section 25, block 2, MK&T survey

The field also produces oil from the Devonian, Fusselman and Ellenburger, and gas from the Fusselman and Devonian.

Anderson Petroleum Inc. of Midland will drill No. 10=55 Bill Clegg "B" as a 5/8-mile stepoutto production

tion

Five strikes, two reopeners reported in Basin counties

American Crude, Inc. and Henry Petroleum Corp. of Midland have completed their No. 1 Scotty as a prolific Devonian oil discovery in Martin County, 14 miles northwest of Tarzan.

The strike finaled for a daily flowing potential of 576 barrels of 49-gravity oil and seven barrels of water, with gas-oil ratio of 153-1.

The flow was through a 1/4-inch choke and was from open hole at 12,262 feet, where 5½-inch casing is

ENERGY OIL & GAS

set, and total depth of 12,275 feet.

The Devonian was topped at 12,262 feet on ground elevation of 2,867 feet. Other tops include the Queen, 4,000 feet; Grayburg, 4,210 feet; San Andres, 4,470 feet; Clear Fork, 6,500 feet; Spraberry, 8,070 feet; lower Spraberry, 8,830 feet; Dean sand, 9,-420 feet; Strawn, 11,020 feet; lower Mississippian, 11,890 feet, and Waddell, 12,166 feet.

Location is 660 feet from south and 4,916 feet from east lines of labor 22, league 248, Hartley County School Land survey.

LOVING OPENER

C&K Petetroleum Inc. of Midland has completed its No. 1-40 Johnson as a Pennsylvanian gas discovery in Loving County, eight miles northwest of Menton. Operator reported a calculated absolute open flow potential of 13,400,000 cubic feet of dry gas per day, through

perforations from 15,478 to 15,493 feet.

The completion was natural. Operator staked the project in the

Slash Ranch (Ellenburger) field. The Pennsylvanian was topped at 15,182 feet on ground elevation of 2,840 feet.

Other tops include the Delaware, 4,556 feet; Bone Spring, 8,262 feet; Wolfcamp, 11,163 feet; Mississippian lime, 18,258 feet, and Devonian, 19,060

feet. The total depth is 19,087 feet, 7 3/4-inch pipe is set at 18,264 feet, and hole is plugged back to 16,978 feet. The new pay opener is 1,980 feet from north and west lines of section 40, block 53, T-2, T&P survey and eight miles northeast of Mentone.

HOWARD DISCOVERY

North American Royalties Inc. No. 2 Flannagan has been completed as a Fusselman discovery in Howard County, 3½ miles southeast of Big Spring.

The opener finaled for a daily flowing potential of 103 barrels of oil, gravity not reported, and 241,000 cubic feet of gas. Completion was through an 8/64

four barrels of 47 = gravity oil and 1/4 barrel of water, through perforations from 2,564 to 2,790 feet after a 10,500gallon acid treatment. The gas-oil ratio is 250-1.

Total depth is 3,000 feet and 51/2-inch casing is set at 2,996 feet.

Location is 467 feet from south and 1,333 feet from west lines of section 177, block A, H&TC survey and 1.500 feet north of a recent Clear Fork discovery, Meador Land Co. No. 2-A Meador.

SCURRY REOPENER

Texfel Petroleum Corp. of Abilene No. 1-1 Wilson Fee has been completed to reopen the Hermleigh (Strawn) field six miles northeast of Hermleigh in Scurry County. On 24-hour potential test, the well

pumped 24 barrels of 34-gravity oil through perforations from 6,886 to 6,890 feet after a 2,350-gallon acid treatment.

Total depth is 7,419 feet, 4½-inch casing is set at 7,094 feet, and hole is plugged back to 7,052 feet.

The Strawn reef was topped at 6,790 feet on ground elevation of 2,244 feet. Other tops include the Canyon sand, 5,825 feet, the Caddo, 7,058 feet, and the Ellenburger, 7,340 feet.

Wellsite is 1,650 feet from north and 2,300 feet from wet lines of section 63, block 30, H&TC survey.

CROCKETT COMPLETION

C. F. Lawrence & Associates Inc. of Midland No. 1 Todd "L" has been completed to reopen San Andres 1165foot gas production in the Howard Draw, northeast multipay field of Crockett County.

Opertor reported a calculated absolute open flow potential of 1,100,000 cubic feet of gas per day, from open hole at 1,330 feet, where 51/2-inch casing is set, and total depth of 1,355 feet.

The well is 1,250 feet from north and 660 feet from east lines of section 36, block WX, GC&SF survey and 15 miles northwest of Ozona.

The San Andres was topped at 1,33 feet on ground elevation of 2,641 feet. Other tops include the Yates, 706 feet; Seven Rivers, 860 feet; Queen, 1,014 feet, and Grayburg, 1,160 feet.

STERLING WELL

Champlin Petroleum Co., operating from Midland, completed No. 6 I. W. Terry in the Conger, Southwest (Pennsylvanian) pool of Sterling County, 18 miles southwest of Sterling City.

The well potentialed for a daily flow of 15 barrels of 40.8-gravity oil and 22 barrels of water, through a 24/64-inch choke, with a gas-oil ratio of 40,533-1. Completion was through perforations from 8,033 to 8,243 feet after 2,500 gallons of acid and 90,000 gallons of fracture fluid.

Total depth is 8,500 feet, 41/2-inch

casing is set on bottom and hole is plugged back to 8,457 feet. The pay was topped at 8,033 feet on ground elevation of 2,606 feet. Location is 1,000 feet from south

and 250 feet from east lines of section

NEW YORK (AP) - The Organization of Petroleum Exporting Countries plans to abandon the dollar standard and switch to "a basket of 16 currencies" for all its oil transactions, reports a New York-based energy publication.

In a copyright story, the Energy User News said in its Monday edition that the OPEC move "could have a staggering effect on oil prices in the U.S. should the dollar decline in international money markets.

The current OPEC pricing system calls for all payments to be made in dollars. The proposed system "would weight each currency, all valued against each other, to come up with an average," said Harvey Morris of Harvey Morris Associates, an energy consulting firm in New Jersey.

"Then if the dollar dropped against the (West German) mark, for example, the OPEC average wouldn't

change, but the cost of oil to the U.S. would go up accordingly." A source from one of the OPEC

national delegations, quoted in the publication, explained the "basket of currencies" proposal this way: "Each individual country in OPEC

would then be free to accept whatever currency they had need for in payment for their oil. If Kuwait needed Volkswagens, for example, they could accept marks for their oil.

The new pricing system has not been announced officially because of turmoil caused by the Iran-Iraq conflict, according to the source.

Oil industry analysts consulted by Energy User News said the new OPEC system would mean that if the value of the dollar falls in relation to other currencies, the real price of oil will rise in the United States; if the value of the dollar goes up, the price of oil will go down.

DEAR READERS: It's Fire Prevention Week again, and I have had so many requests to repeat my column on fire prevention that it has become a tradition. So here it is, with updated figures:

First the bads news: In 1979, 8,893 Americans died, and nearly 34,000 civilians, plus 100,000 firemen, were seriously injured in 2,845,500 fires. And now for the "good news": We've improved. In 1978, 10,500 Americans perished in over 3,500,000 fires.

A large percentage of the dead were children, elderly persons and invalids who had been left alone "for just a few minutes.'

The chief causes of fires, in order of the toll taken, were:

1) Smoking

- 2) Electrical wiring
 3) Heating and cooking equipment
- 4) Children playing with matches 5) Open flames and sparks
- 6) Flammable liquids
- 7) Suspected arson
- 8) Chimney and flues

9) Lightning

10) Spontaneous ignition The total fire loss last year totaled \$5,750,000,000 in the U.S.

Now for some tips that could save your life:

Be sure your cigarette is out. Matches, too. Never leave matches and lighters within the reach of children.

Don't run cords under rugs or over radiators where they may get damaged. Replace a cord if it is frayed.

Never leave small children or invalids alone in the house. Not even for a few minutes.

Have your wiring and electrical installations done by a professional. Store oily rags and paints in a cool place in, tightly sealed metal contain-

Never use flammable liquids for dry cleaning indoors. Never smoke in bed.

Have a fire drill in your home to be sure everyone knows what to do in case of fire. Designate a specific meeting place outside so you will all know who's outside of the house.

Remember: Fire extinguishers put out 97 percent of all fires on which they were used, and most large fires start as small fires. So, invest in a compact, easy-to-use fire extinguish-: er. Keep it handy in your kitchen, or! be prudent and buy one for your cottage, car, boat and the back bedrooms.

Some excellent smoke-, heat- and fire-detection systems are available to homeowners. Shop around and buy the one that suits your needs.

Now, in case of fire: If you suspect fire, alert the rest of the household. But first feel the top of the door. If it's hot, don't open it. Escape through the window.

If you can't open the window, break it with a chair. Cover the rough edges with a blanket, sit on the window ledge with one leg hanging outside and one inside, and wait for help.

The phone number of your fire department should be taped on EVERY. telephone. If it isn't, don't fumble around trying to find it. Get out and call from a neighbor's house.

If you live in an apartment building, use the stairway. DON'T take a chance on the elevator. If it fails, you're trapped.

Once out, stay out. No treasure is worth risking your life.

NOW condemns **Ronald Reagan**

SAN ANTONIO (AP) - The National Organization for Women has voted to condemn Republican presidential candidate Ronald Reagan as an opponent of feminism, but has not, endorsed the candidacies of Democrat Jimmy Carter or independent John Anderson.

The resolution, approved Sunday at a national convention of the organization, accuses Reagan and the Republican Party of becoming "totally captive of the radical right" by repudiating the GOP's 40-year commitment to passage of the Equal Rights Amendment.

DEATHS W. W. LaForce

Services for William Watson La-Force were at 2 p.m. Monday at the First Presbyterian Church with the Rev. Robert B. Smith officiating. Burial was at Resthaven Memorial Park, under direction of Newnie W. Ellis **Funeral Home**

LaForce died Saturday after a sudden illness.

Pallbearers were William Watson LaForce III, Capt. T. Hall Keyes IV, W. Scott Keyes, R. Dean Keyes, H.T. Hilliard, Harold Vroman, W.H. Baber **III and Lester Clark Baber.**

Honorary pallbearers included Holt Jowell, Arthur Yeager, Percy Brid-gewater, Tom Sealy, Paul Davis, Reese Cleveland, Lloyd Upland, Ray Rhodes, Monty McCally, Jerome Fullinwider, Bobby Holt, Ed Magruder, Jno. P. Butler, Porter Bristol, Stan Schafer, Gerald Fitzgerald, Rufus Bynum, Finley Holbrook, Frank Jacobson, Bob Woody, Tom Sloan, Clein George, Dr. Ralph G. Greenlee, Al Cowden, Dr. Bill McGavran, Richard Denham, Bill Pennebaker, Ralph Virtrees, Guy Cowden, W.H. "Bill" Gilmore Sr., Jim Steedman, Bill Penn. Leif Olson, Big John Warren, Jack Challis, John Cornwall and George Glass.

Charles Gabler

Charles H. Gabler, 58, of 700 W. Scharbauer Drive, Apt. 36, died Sunday in a Big Spring hospital after a long illness. Services were to be at 2 p.m. today at the Newnie W. Ellis Funeral Home chapel. Burial was to be in Midland.

Gabler was born July 8, 1922, in Sweetwater. He moved to Midland in 1928. He attended Midland schools and Abilene Christian University. He entered the U.S. Air Force, returning to Midland after his discharge. He has lived in a number of places including Amarillo, Beaumont and Arlington. He was also a portrait artist and photographer.

Survivors include a daughter, Linda Kay Gabler of San Antonio, and his mother, Mrs. Willie B. West of Midland

Jeffrey W. Myers

SPUR - Services for Jeffrey W. Myers, 21, of Austin and formerly of Midland, were to be at 2 p.m. today in the First Baptist Church with the Rev. Norris Taylor, pastor, officiating. Assisting was to be the Rev. Gary Hillyard, a Matador minister.

Burial was to be in Spur Cemetery directed by Campbell Funeral Home.

Myers died Sunday in an Austin hospital from injuries received in a motorcycle accident in Austin.

He had lived in Midland 13 years, moving to Austin two weeks ago. He was born at Seagraves. Myers was a Baptist.

Survivors include his mother, June Myers of Midland; a brother, Cody Myers of Tulia; his grandparents, Mr. and Mrs. J.P. Neighbors of Matador and Rosie Lee Webb of Jayton.

'Ollie' Bennie

BROWNWOOD - Services for O.J. 'Ollie'' Bennie, 79, of Cisco, father of Mrs. W.L. (Jean) Drury of Midland, were to be at 2 p.m. today at the First Baptist Church in Early with the Rev. Lowell Skaggs officiating. Burial was to be at the Eastlawn Memorial Park outside Brownwood.

Bennie died Sunday in a Midland hospital.

Born June 7, 1901, in Brownwood, Bennie was a retired custodian for the Kermit Independent School District, where he worked from 1951 to 1967. He had also been a custodian at Cisco Junior College.

He was a Baptist and had lived in Brownwood for 50 years. Following that, he lived in Kermit from 1951 to 1967, then moved to Cisco where he had spent the past 13 years. He married Rebecca Jane Bradley Aug. 24, 1924, in Brownwood

Other survivors include his wife; two other daughters, two brothers, three sisters, six grandchildren, seven great-grandchildren and several nieces and nephews.

'Linnie' Tubb

BIG SPRING - Mrs. B.F. "Linnie" Tubb, 97, of Big Spring, mother of T.C. Tubb and Doris "Addie" Blissard, both of Midland, died Sunday evening in a Big Spring nursing home.

Services were to be at 2 p.m. today in Nalley-Pickle Rosewood Chapel with burial in Trinity Memorial Park.

Mrs. Tubb was born Sept. 6, 1883, in Prescott, Ark. She was married to Benjamin Franklin Tubb Dec. 10, 1902, in Nevada County, Ark. He died Jan. 2, 1968. She was a member of Phillips Memorial Baptist Church. She came to Howard County in 1928.

Other survivors include two sons, three daughters, 23 grandchildren, 48 great-grandchildren and 20 greatgreat-grandchildren.

Rodolfo Villa

STANTON — Services for Rodolfo M. Villa, 51, of Stanton were at 5 p.m. Monday in St. Joseph Catholic Church here with the Rev. Robert Bush officiating. Burial was in St. Joseph Cemetery, directed by Gil-breath Funeral Home of Stanton.

Villa died Friday in a Stanton hospi-tal after a lengthy illness.

'Bill' Phelps

Services for William Burton "Bill" Phelps, 49, 506 W. Carter Ave., were at 11 a.m. Monday in Newnie W. Ellis Funeral Home chapel. Burial was in Fairview Cemetery with the Rev. Bob Porterfield of West Kentucky Baptist Church officiating.

He died Saturday in a Midland hospital following a lengthy illness.

Pallbearers were Louis E. Phelps, Earnest Franklin, Lee Kowen and Robert Grubbs, all of Midland, and Mike Reyenga and Keith Maddox, both of Odessa.

Carter, Shagari to discuss oil, apartheid

year is expected to exceed \$11 billion.

cott of South Africa.

majority rule.

today prepared to call for a more forthright American stand in opposition to white supremacist rule in South Africa

After attending the U.N. General Assembly in New York, Shagari was flying here this morning for several hours of meetings with Carter and with Secretary of State Edmund Muskie.

For Carter, the meeting offered the opportunity to bolster U.S. relations with black Africa's wealthiest and most influential country.

The meeting also had domestic political implications. With the presidential election just four weeks away and with Carter anxious to woo the black vote, he was expected to use the occasion of Shagari's official visit to reaffirm his support for an evolution toward black majority rule in South Africa.

constitution a year ago, believes that the United

U.S. officials, who asked not to be identified, say they do not believe Shagari will carry out his threat but they are willing to take his views into account. One reason is that the United States has become

highly dependent economically on Nigeria. U.S. oil exports from Nigeria average more than 1 million barrels daily, a figure exceeded only by Saudi

But Shagari, elected under an American-style

Boat full of Haitians spent is sinking MIAMI (AP) — Two Bahamian Defense Patrol vessels were heading for a sinking 30-foot sail-

boat packed "wall-towall" with scores of Haitians, the U.S. Coast Guard said. "I've never seen a boat that size with so many

people on board," said Coast Guard Lt. Cmdr. Michael Allen of the Miami station, who flew over the boat Monday.

Some of the 245 passengers first reported aboard the vessel abandoned the craft for liferafts that rescuers dropped from airplanes Monday. It was unclear, however, exactly how many Haitians remained aboard the sailboat.

The vessel was sighted about 275 miles southeast of Miami on the Grand Bahama Bank, 75 miles southeast of Andros Islands.

"The Bahamian vessels are en route to the scene," said Lt. Tom "As far as we Powell. know all of the passengers are safe and accounted for. The boat is anchored and still afloat."

The rescue ships are expected to reach the sinking vessel sometime today, Powell said.

Cmdr. Jim Sutherland said it was unclear why the boat was sinking but described it as "severely overloaded."

He has said bilateral relations were so poor before **Bill Smith** \$150 and his entire Saturday installing a rooftop antenna.

Nowadays, U.S. officials describe the relationship as excellent, marred only by tactical differences over South Africa.

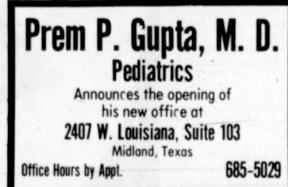

One dead, seven hurt in violence Police did not say who opened fired in the fighting

Extraordinary!

LISBON, Portugal (AP) - The government sent 100 extra policemen into the center of the northern city of Oporto early today to break up fighting between leftists and rightists over Portugal's parliamentary elections. The violence left one dead and several injured.

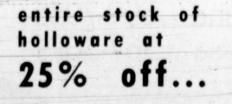

Police said an 18-year-old man died in an Oporto hosipital after being shot in the heart. Seven persons suffered shotgun pellet wounds Monday in post-election clashes in Oporto, hometown of Prime Minister Francisco Sa Carneiro whose center-right coalition won Sunday's elections.

Oporto police said a party headquarters of the prime minister's alliance was sacked but there were no injuries. Attempts to sack two other headquarters were beaten back by party defenders, police said. Some 200 policemen broke up the fighting in the city's riverfront area.

but spokesmen for both the leftist and rightist parties

blamed each other. No arrests were reported.
