Monday was a day for setting up and sprucing up at the Permian Basin Oil Show at Odessa's Ector County Coliseum. Outside the coliseum, Jerry Taylor of Midland's George Tope Company puts a fresh coat of paint on a pump jack, while inside Darren Driggars of WKM Field Service does the same on a high pressure gas well christmas tree. The show opens Wednesday for those in the oil business, with Friday and Saturday set aside for the general public. (Staff Photos by Bruce Partain)

40th area oil show to open

Attendance of 600,000 anticipated

By JOE SALMAN

ODESSA - The gates will swing open at 10 a.m. Wednesday for the 40th anniversary edition of the mammoth Permian Basin Oil Show at the Ector County Coliseum complex in Odessa.

Attendance for the four days of the bienniel oil and gas industry exposition has been predicted at 600,000 by show officials. The attendance record was set in 1978 when 557,521 persons attended.

The first two days of the show will be open only to persons who work in the oil and gas industry or in an

allied industry.

The final two days will be open to the public. The grounds will open at 10 a.m. Wednesday, Thurday, Friday and Saturday. They will close at 8 p.m. Wednesday and Thursday, at 6 p.m. Friday, and 5 p.m. Saturday.

The oil show parade will begin moving at 10 a.m.

Friday in downtown Odessa.

Formal opening ceremonies will be conducted at 1

p.m. Friday at the entrance to the showgrounds, with the public invited to take part.

The opening ceremonies will include the presentation of Alex H. Massad of New York City as the 1980 Oil Show Honoree. He is a director of Mobil Corp., a director and executive vice president of Mobil Oil Corp., and is president of the Exploration and Production Division of Mobil Oil.

Massad completed two tours for Mobil in Midland. He came here in 1958 as division engineer. After working in Louisiana and Oklahoma he was moved back to Midland in 1965 as production manager.

Joe Womack of Midland, president of the oil show, said Massad will not only be honored for his own accomplishments in the oil industry, but also "as a representative of the major oil companies.

The final event of the oil show will be at 5 p.m. Saturday when the Odessa Chuck Wagon Gang will lay out one of its famous barbecue dinners in the oil show parking lot. Tickets can be purchased on the show

The oil show, the oldest of its kind in existence, will feature everything mechanical and electrical used in exploring for and production of oil and gas.

There will be giant drilling rigs, huge oilfield pumps, trucks of every description and many items no larger than a dime on exhibit. And, there will be experts in each of the 534 booths, a show record, to explain the thousands of items on display.

Many of the companies will have gifts for persons visiting their booths.

Twenty-four states, including Texas, will be represented at the show, and a company from Montreal, Canada, will lend an international air to the show. Forty-two cities within Texas' borders will have com-

panies exhibiting their wares.

Iraq moving more artillery into Iran

BASRA, Iraq (AP) — Iraqi forces threatening Abadan moved more armor and artillery across the Karun River but appeared to be preparing for a siege rather than an assault to overrun the Iranian oil city and its

giant refinery. New mediation efforts reportedly were under way to try to end the

As the Iraqi effort to win complete control of the Shatt al-Arab estuary went into its 23rd day, Iran's official Pars news agency said the invaders put two

more pontoon bridges across the Karun northwest of Abadan, giving them three crossing points on the approaches to the threatened city.

Iran claimed it shot down six Iraqi MiG jets in raids today on Abadan and Kharg Island, off Iran's southwestern Persian Gulf coast. It claimed six other Iraqi jets were downed in raids Monday over the same area. Iraq said all its planes returned safely from both raids.

Habib Chatti, secretary general of the 40-nation Islamic Conference organization, prepared to begin a fresh mediation effort with visits to Baghdad and Tehran. Both Iraq and Iran have ignored past appeals by the United Nations for an to the fighting.

A Kuwaiti newspaper, Al-Wattan, quoted Saslah Khalaf, a leader in the Palestine Liberation Organization, as saying the PLO is about to propose a new formula for ending the war. Under the proposal, Iraq would agree to return to its border and Iran would agree to negotiate with Iraq in another country under the auspices of a third party, he was quoted as saying. Iran said it had crushed an Iraqi-

backed breakaway rebellion by autonomy-seeking Kurdish insurgents in northwestern Iran near the border with Turkey. The Pars news agency said 80 rebels and 20 Iranian security forces had been killed in two days of fighting.

A British reporter who visited the Abadan area said he saw tanks, amphibious vehicles and artillery moving across one of the bridges "in a leisurely manner" and that the Iraqi

troops were relaxed and confident. He said the Iraqis were shelling Abadan and the Iranians were replying with "inaccurate" fire but were getting no air support.

The Americans neared the end of their first year in captivity, and Iranian Prime Minister Mohammad Ali Rajai told a news conference in Tehran, "We are interested in solving the problem of the hostages" but "the U.S. government is not," Tehran Radio reported.

"The only solution for the hos-tage issue is for the United States to recognize the rights of our deprived people and accept the conditions set by the Imam (Khomeini) and the Majlis," the Iranian Parliament, Rajai said.

Khomeini's chief conditions are the return to Iran of the late Shah Mohammad Reza Pahlavi's fortune and the release of \$8 billion in Iranian assets in the United States frozen by President Carter after the U.S. Embassy in Tehran was seized by militant Islamic students last Nov.

Today was the hostages' 346th day

United Nations marks anniversary this month

UNITED NATIONS (AP) - The United Nations, being sorely tested by the war between Iran and Iraq, marks its 35th anniversary this month amid continuing doubts about its effectiveness and credibility.

Even U.N. Secretary-General Kurt Waldheim, in a bleak anniversary year report, has complained of an 'erosion of the authority and reputation of the United Nations as a responsible international body."

Waldheim noted that "decisions of the Security Council and resolutions of the General Assembly often go unheeded, so that problems which should have been brought under control persist, proliferate and pose continual threats to international peace. This also has a debilitating effect on the United Nations itself.'

Since the U.N. Charter came into force on Oct. 24, 1945, Waldheim said, "the pursuit of many of the great objectives...may seem to have lost momentum or to have been obscured, while some of the progress made in the last 30 years has been dissipat-

Again and again, U.N. appeals and resolutions have proved to be fruit-less. Despite these acts: American hostages continue to be held by militants in Iran. Soviet forces relentlessly pursue their anti-guerrilla war in Afghanistan. Vietnamese invaders bolster an imposed regime in Cambocies of racial separation and clings to the South-West African territory of

Foes of Israel charge that the Jewish state is making a mockery of the 154-nation world body by defying a long list of resolutions calling on it to return Arab territories occupied in the 1967 Middle East war.

In response, Israeli Foreign Minister Yitzhak Shamir dismissed the resolutions aimed against his country as "the most cynical expression of the gap between the original vision and the reality prevailing in the United Nations today." He noted that half of the Security Council debates held during the first nine months of this year had dealt with Israel.

U.S. Secretary of State Edmund

Muskie used his first appearance be-fore the peace-keeping body to rebuke it for its obsession with Israel and for its failure to honor an Americansponsored initiative that he said offered the first real chance for peace in the Middle East — the Camp David accords.

The U.S.-backed peace process, Muskie said, "is precisely the kind of effort that inspired the creation of the United Nations. It is precisely the work to which the United Nations should now rededicate itself.'

Since then, President Carter has drawn a sharp line marking the outer limits of the U.S. commitment to the world body. In the unlikely event that Arab hardliners made good their threat to suspend Israel's participation in the United Nations, Carter warned, "it would raise the gravest questions about the future of the General Assembly and further participation of the United States and other nations in the deliberations of that

Israel preparing for new talks

WASHINGTON (AP) - Israel has presented an outline of its stand on Palestinian autonomy to U.S. officials in preparation for a new round of negotiations scheduled to begin on Tuesday.

The document, brought from Jerusalem by Chaim Kubersky of the Interior Ministry, was kept secret but diplomatic sources said it indicated Israel was taking a constructive attitude. U.S. officials were described as encouraged

Meanwhile, the New York Times reported that the Israeli negotiators have accepted an American contention that Palestinians in the area should have a voice in determining land policy for the occupied West Bank and Gaza strip. That would

include the controversial question of whether more Jewish settlements will be built there, the newspaper reported in Tuesday's editions.

American mediators held informal separate meetings with Egyptian and Israeli negotiators in preparation for the talks.

The formal talks, suspended in May, are scheduled to resume at Blair House Tuesday afternoon under the supervision of Sol M. Linowitz, President Carter's special Mideast mediator.

There seems little prospect that over the two days allotted for negotiations an agreement can be reached on how to elect a Palestinian council and on a definition of its powers.

The administration is planning on a

post-election summit meeting - with the date to be set later - at which Carter will confer with Egyptian President Anwar Sadat and Israeli Prime Minister Menachem Begin.

The two sides have informally agreed to defer consideration of the status of Jerusalem as a means of aiding the current round of talks. The city was re-united by Israel after the 1967 war with the annexation of a mostly Arab sector that Jordan had held for 19 years. A sharply contested item remaining

on the current agenda is whether Arabs who live in Jerusalem are to participate in the election.

There is sharp disagreement also on the powers of the council which the Palestinians living under Israeli authority will elect.

County residents 'stuck' with muddy roads

By ED TODD

Midland County commissioners extended their sympathy but said they could do little else to help about 50 rural people out of their rut.

They were literally "stuck in the mud" or waterbound following Sep-s tember and October rains that flooded their Rotan subdivision in a lowlying basin about 31/2 miles southeast of Midland's city limits.

And petite Vicke Golden, spokesperson for the group, on Monday presented the commissioners with a petition, bearing 51 signatures, in a plea

"We're petitioning," said Mrs. Golden, "so that we can get our roads passable. We want passable roads.

"I got stuck in the middle of the road the day before yesterday, and Mr. (Charlie) Welch sent somebody out to get me out," she said. "We've been trying for four years to get the roads fixed, but we get no coopera-

THEY GOT VIRTUALLY no relief from the commissioners, who, firsthand, had seen the plight of the Rotan mobile-home subdivision, which Commissioner Welch said he surveys most every day, particularly when it

"We went out there today, and we certainly do sympathize with you," said County Judge Bill Ahders, "It's a difficult situation." However, he told Mrs. Golden that he was "sure you realize that the cost would be prohibitive to pave (the dirt roads out there). You understand that.'

Mrs. Golden indicated that she could sympathize with the commissioners' predicament.

"I have been stuck many times when it rains," she said. "Not just this rain, because it was so unusue

In the wake of the last rain, she said, her 11-year-old son, Carl, moved around their flooded front yard in a boat. And, she said, there are 47 school-age children out there who miss school when roads become impassable by the school bus, and the Midland Independent School District in turn loses \$216 per day when the students aren't in classes.

Judge Ahders turned to the four commissioners for suggestions. "What can we do that's not prohibitive?" he pleaded matter-of-factly.

"If I knew," said Welch, whose Precinct No. 2 includes the Rotan subdivision, "I would have already

Welch is having road-and-bridge crews, supervised by Superintendent Albert Stewart, fill in the dirt roads with more dirt and grading the roads. And the commissioners have consid ered putting in a drainage system, but

with that, they would have the added problem of finding a place to dump the water. And the U.S. Soil Conservation Service can do nothing, the commissioners indicated

IN A PASS-THE-BUCK resort, the commissioners are asking engineers of the Texas State Department of Highways and Public Transportation to survey the Rotan area and offer some recommendations.

Mrs. Golden still was urging the commissioners to do something such as cover the roads with caliche about the roads' condition.

"We've got them in better shape than they were," said Welch. "It's just a real difficult situation to get something done. Too, the commissioners noted that

they, by law, are obliged to maintain

Extended forecasts

North Texas: Partly cloudy and warm Thursday-Friday. Turning cooler and chance of rain Friday night and Saturday. Highest temperatures Thursday and Friday upper 70s to middle 80s and Saturday lower 70s to lower 80s. Lowest temperatures Thursday and friday in the 60s and Saturday in the 50s.

South Texas: Partly cloudy and warm Thursday. Considerable cloudiness and not as warm with a chance of showers west Thursday and north and west Saturday. High temperatures upper 80s to low 90s Thursday and from near 80 northwest to near 90 south Friday and Saturday. Overnight lows mid 60s to low 70s Thursday and Friday and from the upper 50s northwest to near 70 south Saturday.

Border states forecasts

Slight chance of rain seen

The skies will become cloudy through Wednesday as a slight chance of thunderstorms passes through Midland.

Wednesday's forecast includes a 20 percent chance of rain and partly cloudy skies. Temperatures will range from a forecasted low tonight in the upper 50s to a high Wednesday

Winds will be southerly, 10-20 mph,

tonight and will increase to a gusty 15-25 mph on Wednesday.

Monday's high reached 80 degrees. but fell short of the record 94 degrees set in 1968. The low this morning was 58, much warmer than the record 39 degrees set in 1969.

Wednesday's temperatures don't look like they'll be record-breakers either, but they do continue to show the cooling, fall temperature trend begun a few weeks ago in Midland.

Man, woman jailed here for possession of drug

A man and woman were in City Jail this morning on charges of possession

of a dangerous drug. Officers observed two people sitting in a parked car at Industrial Avenue and Terrell Street at 1:14 a.m. today. As the officers approached, they said they saw the passenger hide something in the floorboard near the gearshift. The two officers searched the car and, according to reports, found a pill bottle prescribed to the woman in the car, a spoon containing a liquid soaked into a white filter, a syringe with fresh blood and a blue capsule with a white substance. When the man was searched, officer said they found a test tube with a trace of white powder in it.

Police are also investigating the reported theft of a five-gram gold ingot and gold chain, valued at \$275. Kim Cronk, 2316 N. Midland Drive No. 109, told officers she left the ingot and chain on her kitchen table and left her residence at 8 a.m. Friday. When she returned it was gone.

The Fire Department was called to a fire at the Midland Hilton at 1:55 a.m. today. When they arrived, they were told a cigarette had set a couch afire in the Discovery Lounge, but the fire was already out.

Midkiff Road and FM 868. According to reports, Debra Jo Olguin, 3106 W. Michigan Ave., was

northbound on Midkiff. Craig Horton, 4200 Boulder No. 608, was westbound on FM 868. The two vehicles collided

Window of officer's car shot

BIG SPRING - Investigators in Big Spring are looking into the possibility that two separate incidents early today may be connected and related to a "family feud" here.

The passenger side window of Sgt. Jimmy Wallace's patrol car was shot out about 1 a.m. today, according to Lt. George Quintero. Wallace and five other officers had completed the investigation of an earlier incident and Wallace was patrolling the area around Lancaster Street, 5th Street and Gregg Street when the shooting

incident occurred. Sgt. Wallace was not injured in the incident, Lt. Quintero said.

Earlier, Wallace and the other officers had investigated an incident at 7031/2 Lancaster St. and arrested 20year-old Richard Moreno Haro on charges of discharging firearms in the city limits and disorderly con-

They had responded to that scene after receiving reports of shots being fired. At that scene, however, it could not be determined that anyone was firing at the officers, Lt. Quintero

The two incidents occurred about an hour apart, according to Lt. Quinler Bob Bullock, said the state House of Representatives had been run fairly and honestly under Clayton. U.S. Attorney A.J. "Tony" Canales, who is leaving office soon, took over

witnesses, including State Comptrol-

cross-examination from his assistant Ron Woods. No explanation was given for the change in the prosecution's battle plan. Canales, however, was far more aggressive in his questioning of de-

fense witnesses than Woods had Hauser posed as a representative of Prudential throughout the 10-month Brilab undercover operation that covered many states and involved political and labor leaders.

The heart of the government's case is hours of tape recordings made by Hauser and two FBI undercover

"It was a personal matter. He was vindictive towards me," Bessent said. He said Decker accused him of telling officials that Decker and Boyd had used state-owned motorcycles for a vacation in Mexico.

Commissioners have little but sympathy to offer

(Continued from Page 1A)

roads in the condition in which they were when the county "accepted" them as county roads. Dirt roads will be graded and maintained as dirt roads; caliche roads will remain caliche roads; and hard-surfaced paved roads will be maintained and repaired. In most cases, it's up to the developer or landowners initially "to put in roads. Welch indicated that the caliche

route Mrs. Golden suggested wouldn't be practical.

"Caliche roads 'go' (get washed out) first in rains," said Welch. "The roads start to get wetter and wetter and softer and softer. We're working on the roads.'

JUDGE AHDERS vouched for the commissioner

"I know Charlie is trying to do something, and we have only so much money to spend on county roads." Even Commissioner Durward

Wright, perhaps the most analytical of the commissioners, was boxed in. "I don't know the answer," said Wright. "I know the problem; it's a pretty big problem. Mrs. Golden, who has been famil-

iar with the problem for four years, said when it rains, Rotan residents can get around in four-wheel drive vehicles, pick-up trucks or boats when the water is high.

"We sympathize with you," again said Welch. "So, we're stuck?" asked Mrs.

Golden. "I don't know what we can do,"

Welch again told Mrs. Golden. "As a matter of fact, you were the first on our maintenance list. I'll do what I can.

Wright brought up a suggestion for a drainage canal but immediately nixed the idea. "It would be a prodigious amount to

money," he said. "All I can do is sympathize with

you. Hopefully, they (highway engineers) can find a solution to the problem without sending the county into bankruptcy," Wright said. But after the session with the com-

missioners. Mrs. Golden said she really didn't expect any relief from the county commissioners.

"We're not going to get anything done," she said. "But we had to tell our side of it. I had a feeling before we came that nothing would happen."

Fabrics give a warm feeling **AP Newsfeatures**

Start now to consider some decorat-

ing changes that will lead to a warmer winter without resorting Beta Delta solely to the central-heating system. It is fairly simple to make small changes that will produce a greater sense of well-being this winter as well as modest energy savings.

For example, when it is cold outside, add fabric to the home scene. Draw draperies at the window with matching valances will give both the feeling and the actuality of greater warmth in the room. An area rug on the floor will act as insulation as well as provide a vivid, cozy focal point. Cover tables with a fabric skirt and scatter pillows on sofas and chairs.

Bring out textured wallhangings, such as patchwork quilts, wool rugs or macrame hangings, and use them for visual warmth. Choose gold-toned

305 ANDREWS HIGHWAY - (915) 684-5751

BY ABIGAIL VAN BUREN

DEAR ABBY: In regard to the hostess who didn't know how to get rid of her late-staying guests, how do you like this for a remedy?

A friend attended a party where she and other guests had overstayed their welcome. The hostess was obviously exhausted and eager for them to leave. Then, as one of the guests halfrose from her chair to adjust her skirt, the weary hostess rushed over to her and blurted out, "My dear, must you stay? Can't you leave?" The guest left immediately.— R.C.W., BURBANK DEAR ABBY: Add this to your list

of diplomatic ways to get rid of guests who overstay their welcome: Good-humoredly rise and say, "Well, we are going to bed so you nice people can go home."—JOAN DEAR ABBY: The last time my

guests stayed too late, I excused myself, went to the bedroom and quickly changed my dress to my bathrobe. When I returned they immediately took the hint and left. No hard feel-

ings.—SAN FRANCISCO SLICK
DEAR SLICK: That may work with several guests, but I wouldn't recommend it for a lady who is to entertaining a gentleman. He might interpret it as an invitation to stay all night.

DEAR ABBY: When a guest stays too late, I always stretch out on the couch, or curl up in a big chair, close my eyes and "pass out." To make it even more realistic, I snore a little. It has never failed.—FOXXY

DEAR ABBY: The best way to ensure one's self against guests who overstay their welcome is to have a

DEATHS

John Smith Sr.

AUGUSTA, Ga. - John Milledge Smith Sr., of Augusta, Ga., father of Dr. Robert Boynton Smith, pastor of First Presbyterian Church of Midland, died Sunday in Augusta.

Services were to be at 4 p.m. today directed by Elliott's Funeral Home. Other survivors include a son and three grandchildren.

The family requests that memorials be directed to the deacon's fund of First Presbyterian Church of Mid-

Everordo Lopez

Services for Everordo A. Lopez, 57, of Marfa and formerly of Midland, were held at 4 p.m. Monday in Newnie W. Ellis Funeral Home chapel with Father Cliff Blackburn of St. Ann's Catholic Church officiating. Burial was in Resthaven Memorial

Lopez died Friday in an Alpine

hospital following a short illness. He was born Jan. 19, 1923, in Sonora where he was reared. Lopez entered the U.S. Army in 1941 and served in the European Theatre during World War II. In 1970, he retired from the military. Lopez moved to Marfa in 1977. He was a Catholic.

Survivors include two brothers, Manuel Lopez of Sonora and Frank Lopez of Colorado City, Colo.; three sisters, Elsa Jaime of Midland, Sophia Reyes of Colorado City, and Maria Castillo of Los Angeles, Calif.; and several nieces and nephews.

Pallbearers were to be Jimmy

'Pete' Harrington

with Johnson Funeral Home.

Harrington died Sunday in a San Angelo hospital following an illness. He was born April 2, 1914, in Ringo, Okla. He lived in Midland from 1951 to 1976 when he moved to San Angelo. Harrington was a member of Hill-crest Baptist Church.

Harrington of San Angelo; two daughters, Shirley Green and Elizabeth Casbeer, both of Midland; two sons, Leland Harrington of Carlsbad, N.M., and Troy Harrington of Weatherford; five brothers, a sister, eight grandchildren and a great-grandchild.

Actors return to studios to resume season filming

HOLLYWOOD (AP) - At long last, television viewers may soon be delivered from the weeks and weeks of reruns that were forced to remain on the air while the longest actors' strike ever paralyzed stage sets.

J.R. Ewing was back in his hospital bed, Ponch was patrolling Califor-nia's highways and "M-A-S-H" was treating Korean War casualties as more actors returned to Hollywood studios and crews put in long hours to make up for time lost during the lengthy actors' strike.

"It feels great to be back to work, back with the gang," Mike Farrell said Monday as he returned to the 20th Century-Fox set of "M-A-S-H" with Alan Alda, Harry Morgan, Loretta Swit, David Ogden Stiers, Jamie Farr and William Chris-

Also returning to the sets were "Dallas" stars Barbara Bel Geddes, Linda Grey, Steve Kanaly, and Mary Crosby and "CHIPS" hero Erik Es-

But actors had to cross the picket lines of striking musicians to get to the sets. The American Federation of Musicians has struck all major studios in an effort to win residuals for reruns of filmed TV series and

Many Screen Actors Guild members pledged during their 11-week strike not to cross musicians' picket

lines. But last week when SAG authorized members to return to work pending the outcome of a mail-in vote on a new three-year pact, a number of

you just do it, I guess," said Farrell.

they were disappointed the actors were no longer honoring their pickets, but said they understood the decision to return to work.

sion and Radio Artists already has voted 368-232 in favor of the new contract at its Los Angeles, San Francisco and Washington, D.C. locals. The last voting is scheduled today in Chicago and Wednesday in New York. SAG ballots are due at noon Oct. 20. At Lorimar Productions, spokes-

man Tom Bishop said that location shooting for the first 10 "Dallas" episodes had been completed in Texas before the strike. 'So what we are doing is going back

At Universal Studios, work on "The Incredible Hulk" and "Quincy" began Monday, with such series as "Sheriff Lobo" and "Buck Rogers" to

resume later this month. Five share Nobel Prize in chemistry and physics

(AP) - Four Americans and one Britisher won the 1980 Nobel Prizes in physics and chemistry today. The physics award was given for nuclear research that contributed to the Big Bang theory of the creation of the universe. The chemistry prize went for biochemical studies of nucleic acids, the master blueprints of life.

James W. Cronin of the University of Chicago and Val L. Fitch of Princeton University won the 1980 Nobel Prize in phys-

Professor Paul Berg of Stanford University in California, received one half of the \$212,000 prize in chemistry. The other half went jointly to Harvard Professor Walter Gilbert and British Professor Frederick Sanger of Cambridge

The Royal Swedish Academy of Sciences cited New York-born Berg, 54, "for his fundamental studies of the biochemistry of nucleic acids," the complex organic acids found in the

essential to life.

Gilbert, 48, and 62year-old Sanger were cited by the awarding body "for their contributions concerning the determination of base sequences in nucleic The Academy cited Cronin and Fitch "for the

discovery of violations of fundamental symmetry principles in the decay of neutral K-mesons." Mesons are unstable particles first observed in cosmic rays. The Big Bang theory is that the universe began with a gigantic explosion and has been expanding ever

Cronin and Fitch made their Nobel winning discovery by studies of a new type of elementary particles using a proton accelerator at Brookhaven National Laboratory on New York's Long Island where they headed a research group. Their studies scrutinized the validity of three related symmetry principles in

Giant aftershocks plague, terrify quake rescue teams By MARTINE ROSSARD

AL ASNAM, Algeria (AP) - The rescuers knocked on a steel girderand listened. Moments later, they heard a feeble scratching, proof that someone was still alive nearly four days after Al Asnam's killer earthquake buried him beneath the wreck age of the office building.

Suddenly, the rescuers dropped their tools and ran into the street. The ruins had been shaken by another of the dozens of daily aftershocks. A concrete wall directly overhead, leaning at a 30-degree angle, threatened to bury the diggers.

The aftershocks Monday, some measuring up to 5 on the Richter scale, caused a panic among the tens of thousands of homeless survivors receiving food and medical aid in temporary tent cities. Terrified men, women and children poured into the open air.

The official Algerian news agency said there was no further damage or casualties Monday in Al Asnam. where 1,600 bodies have been recovered and the Red Crescent relief organization estimated 5,000 to 20,000 people were killed, 80 percent of the city of 125,000 people were destroyed, and 250,000 of the province's 1 million people were made homeless.

As each aftershock subsided, the thousands of Algerian searchers and French and Swiss alpine rescue teams with trained search dogs returned to the rubble. More victims were brought out, alive but badly injured.

The scratching was believed to be coming from the watchman at the building's underground parking lot. "Last night, we heard him crying for help," said one of the searchers. "This morning one of our avalanche dogs confirmed his presence, but now his cries have stopped."

Then they heard the faint scratching from below. "Every day there is less and less hope for those buried in the ruins,"

said a doctor standing by. "But I think this man down here is getting enough air to survive long enough for us to reach him. It's a matter of time. ... I am waiting in case I have to give an anesthetic and perform an emergency amputation of a limb trapped in the ruins.'

He said on Sunday he had to amputate both legs of a trapped man to save his life.

A week after the 1954 quake which killed 1,600 people in Al Asnam, survivors were still being found alive in the ruins, according to a police officer.

With that precedent in mind, we do not intend to give up hope of finding survivors for a long time yet,"

he said. Nearby in the ruins of the courthouse, which had a wing where judges and prosecutors lived with their families, rescue came too late for a 4year-old girl who cried for help for three days. When the diggers reached her, she was dead.

Small children who lost their parents in the disaster wandered aimlessly through the streets. Rescue teams organized by a women's group gathered them up. Those whose relatives could be found were turned over to them. Volunteer families cared for

If you've tried everything else and can't lose weight,

Bomb outruled in day care blast

ATLANTA (AP) — The day care center blast that killed four toddlers and an adult was an accident, authorities say, but some anguished parents believe a bomb was responsible, and some blame the Ku Klux Klan.

"We're tired of our children being killed," said the Rev. Joseph Lowery, head of the Southern Christian Leadership Conference.

An angry, disbelieving crowd of about 200 people gathered Monday night at a west side church where Public Safety Commissioner Lee P. Brown answered questions about Monday's mid-morning explosion at the Gate City Day Care center, where 82 pre-schoolers were playing.

A cast-iron boiler in the building's furnace blew apart "like a hand grenade" about an hour after it was fired up on the first chilly day of fall, investigators said. Experts who examined the debris reported no evidence of a bomb, Brown said.

But there were shouts of disbelief from the crowd. "I'm a veteran. I know about explo-

sives," said an unidentified man who was greeted by cheers and applause from the crowd. "But there ain't no way in hell that a furnace could blow like that.' "How many more?" shouted an-

other man. "Until we're tired of burying our dead?" Others at the meeting shouted that

the Ku Klux Klan had set off an explosive device at the center in

Bowen Homes, a public housing project in west Atlanta.

Speculation about a bomb or Klan involvement was being fueled by the black community's anxiety over unsolved slayings of eight black children and the disappearances of eight others recently.

"There is an organized assault on black people across the country," Lowery said after the meeting. "We are tired of our children being killed. Investigators said the cast-iron

boiler, fueled by natural gas, was blown apart in a way that only steam pressure could have caused.

Atlanta Gas Light Co. spokesman Jim Tate said experts ruled out the possibility of a bomb because "an explosion would have moved the boiler, lifted it, possibly even turned it over. But it would not have detonated it like a hand grenade."

Frantic parents rushed to the day care center and local hospitals when they got word of the disaster.

When Kimberly Carroll saw little bodies covered with sheets, she was gripped with fear that her 4-year-old son Tory was dead.

"You could see children lying there

covered up and you didn't know," she

said. At first, she thought she recognized her son's blue jeans on a leg poking out from beneath a sheet. "I was terrified," she said. "I just

felt like I had lost him." But she was one of the lucky ones,

reunited with her child at Grady Me-

morial Hospital an hour later. "He wanted to go to school so bad I let him go to Head Start," she said. "He's only been there two weeks. Now I can't send him back. I'll never let

him out of my sight."
Andre Stanford, 3, also had wanted to go to school that morning, and he died in the blast. "His mother started to keep him out. He had a little slight cold. But he wanted to go," said his father, Leroy Smith, as he stood outside the county morgue.

When she learned of her son's death, Andre's mother locked herself in the bathroom at home and refused to come out, said the boy's aunt, Betty

Thomas. "I feel real bitter," Mrs. Thomas said. "It's not safe to send kids to school.

The other dead children were identified as Ronald Brown, Kelvin Snelson and Terrence Bradley, all 3-yearold boys. Authorities said 58-year-old Nell Robinson, a teacher at the center, also was killed in the blast.

Ludden removed from critical list

(AP) — Allen Ludden, longtime host of the television game show "Password, has been removed from the critical list but was reported in serious condition after a stroke.

Ludden's doctors were encouraged by his emergence Sunday from a sixday coma, officials of Monterey Community Hospital said.

'He is talking," said Marlyn Johnson, a hospital spokeswoman. He For more information on would not elaborate on Ludden's condition. He said he didn't know when Ludden might be released.

BORDEN DISCOVERY

Continental Oil Corp. of San Angelo No. 1 E. Y. Murphy has been completed as a Canyon reef discovery in Borden County, 81/2 miles north of

On 24-hour potential test, the strike pumped 23 barrels of 42.6-gravity oil and 50 barrels of water, through perforations at 6,900-6,906 feet. The gas-

oil ratio is 1,304-1. Total depth is 6,965 feet and 51/2-inch casing is set on bottom.

The Canyon reef was topped at 6,898 feet on ground elevation of 2,269 feet. Other tops include the Clear Fork, 4,350 feet, and Wolfcamp, 6,370 feet. Wellsite is 467 feet from north and west lines of section 67, block 25, H&TC survey and 1% miles west of the Reinecke, East (Canyon) field.

CROCKETT COMPLETIONS

J. Cleo Thompson of Dallas No. 2-23 University "E" is a new well in the University 31 (Strawn-detrital) field of Crockett County, 101/2 miles west of

The 10th well in the field and 5/8 mile southeast of comparable production, it finaled for a calculated absolute open flow of 1,900,000 cubic feet of gas per day, with a gas-liquid ratio of 250,448-1. Gravity of the fluid is 48.8

The final was taken on perforations at 9,101-9,145 feet after a 500-gallon acid treatment. Drilled as a wildcat, the project is

bottomed at 9,175 feet, and the 41/2inch casing is set at 9,187 feet. Location is 1,320 feet from south and east lines of section 33, block 31,

University Lands survey. J. Cleo Thompson No. 1-3 University has been completed from the Canyon as a gas well in Crockett County. It is 3% miles northwest of a recent

51/2-mile northwest extension to the Ozona (Canyon gas) field. It has been assigned to that pool It finaled for a calculated absolute open flow potential of 1,250,000 cubic fee of gas per day, through perfora-

tions from 6,513 to 7,464 feet after a 2,000-gallon acid treatment. The well was drilled as a wildcat to 9,460 feet and 41/2-inch casing is set at

8,752 feet. Location is 1,980 feet from north and 660 feet from east lines of section 3, block 31, University Lands survey.

The American (Canyon gas) field of Crockett County gained a one-mile northwest extension with completion of Dameron Petroleum Corp. of Mid-

land, No. 1-20A Armond Hoover. The Crockett County well finaled for a calculated absolute open flow potential of 900,000 cubic feet of gas per day, through perforations from 7.134 to 7.782 feet after a 52,000-gallon fracture job.

Location is 30 miles southwest of Ozona and 1,000 feet from the most northerly north line and 500 feet from the most northerly west line of section 20, block NN, GC&SF survey.

The Holt Ranch multipay field of Crockett County gained its second 1,000-foot oil producer with completion of Robert M. Wynne of Midland No. 2 Gulf-Williams, six miles north of The well, 3/8 mile southwest of the

other producer, pumped 15 barrels of 298-gravity oil and 51 barrels of water on 24-hour potential test. Completion was through perfora-

tions from 967 to 1,030 feet after a 1.750-gallon acid treatment and an 8,000-gallon fracture job. Drilled as a wildcat, it is bottomed

at 1,473 feet and 51/2-inch casing is set at total depth. The plugged back depth is 1,060 feet. Location is 1,097 feet from south and 2,340 feet from east lines of sec-

THERE YOU ARE, GENTLEMEN !... ONE MORE REASON

MARMADUKE

"I started carrying him when he was a puppy and he still expects it.'

Your horoscope By JEANE DIXON

YOUR BIRTHDAY TO-DAY: Actress Penny Marshall, who co-stars on TV's "Laverne and Shirley," was born on this day. In the year ahead, a special appreciation for the arts will affect various career, business decisions, and it could also influence the direction of romance. Love relationships should shimmer with extra brightness next April and May! Old friends will prove their loyalty time and time again, but someone new could try to exploit your success. Be cordial but distant.

ARIES (March 21-April 19): Disputes and differences must be put aside in order to move forward now. Be subtle when introducing new methods, procedures at place of

TAURUS (April 20-May 20): Take care not to exaggerate your status when talking with a newcomer. Investments are affected by a real estate transaction. Get expert advice before committing funds.

GEMINI (May 21-June 20): Let others know how

much their contributions to your work are appreciated. A financial discussion could put someone's nerves on edge. See cooperation of family members. in keeping expenses down

CANCER (June 21-July 22): Keep close tabs on overhead and payroll costs. A secret agreement may be reached between employee and employer. You are headed in the right direction where a career decision is concerned.

LEO (July 23-Aug. 22): Keep goals in sight and do not allow them to become inflated to the point of impossibility. Needed capital may suddenly be available for investment purposes.

VIRGO (Aug. 23-Sept. 22): Loved ones take a serious view of whatever is said today. Control temper! Privacy is very important to your sense of well-being, although mate may not always seem to understand it.

LIBRA (Sept. 23-Oct. 22): Nothing very exciting is likely to happen at work today. Enjoy the lull and concentrate on completing routine tasks as quickly as possible.

SCORPIO (Oct. 23-Nov. 21): Certain tasks are best handled by you alone. Know when it would be a mistake to delegate authority. Those at the top hold you accountable for subordinates' errors.

SAGITTARIUS (Nov. 22-Dec. 21): Avoid heated exchanges with a professional colleague. Special ties with community groups or clubs prove useful in advancing career goals. CAPRICORN (Dec. 22-

Jan. 19): Happiness may center around projects undertaken with loved ones' active assistance. A new venture could mean extra cash. Do not let the narrow thinking of others affect your vision.

AQUARIUS (Jan. 20-Feb. 18): A relaxed atmosphere makes progress easier at place of business today. Contracts, agreements need further study. Scrutinize fine print, special clauses.

PISCES (Feb. 19-March 20): A change of schedule may be indicated. Be prepared to move quickly on a variety of fronts! Public acceptance of a new idea appears likely. You get lucky career break.

GOREN BRIDGE

BY CHARLES H. GOREN AND OMAR SHARIF

North-South vulnerable.

West deals. NORTH ♦ K 974 OQ2 ◆ A 10954 EAST ♦ Q 1053 ◆ A862 ♥ A763 0 10764 ♦ A98 **462 ♦** J 3 SOUTH

♦ KJ53 **♦ KQ87** The bidding: West North East South 2 4 Pass 1 + Pass 3 4 Pass 3 NT Pass Pass Pass

♥ Q 1052

Opening lead: Seven of O. By the time you read this

column, the result of the 6th World Bridge Team Olympiad will be known. But the proximity of the Olympiad makes this hand-from the trials to select the Dutch team-a bit more interest-

North-South were employing a canape style of bidding. where the shorter suit is bid first. Thereafter, the auction proceeded normally and the three no trump contract that was reached cannot be faulted.

West led the seven of diamonds. It has become popular to lead the second highest from relatively worthless holdings, reserving the lead of fourth-best for suits that you want partner to return should he gain the lead. Declarer played the queen from dummy, East grabbed the ace and found the fatal shift to a low spade. No matter what declarer did, he could not avoid losing three spade tricks and two red aces for down or.

We presume that our

readers are, as usual, on the ball. They will have realized that declarer blew a vulnerable game that was ice cold. And it would not have taken any play of great genius to the contract -declarer simply had a blind

spot. South should play a low diamond from dummy at the first trick! If East rises with the ace to shift to a spade, declarer will make a spade trick, three diamonds and five clubs for a total of nine tricks. So East must play the eight of diamonds.

Declarer wins the first diamond trick and immediately attacks hearts. He continues the suit until he has driven out the ace, and now there is no way that he can be stopped from scoring at least nine tricks.

Which goes to prove just one thing-even at the highest levels of bridge, elementary mistakes are made more regularly than might be expected.

Rubber bridge clubs throughout the country use the four-deal bridge format. Do they know something you don't? Charles Goren's "Four-Deal Bridge" will teach you the strategies and tactics of this fast-paced action game that provides the cure for unending rubbers. For a copy and a scorepad, send \$1.75 to "Goren-Four Deal," c/o this newspaper, P.O. Box 259, Norwood, N.J. 07648. Make checks payable to NEWS-PAPERBOOKS.

Stock market gains

NEW YORK (AP) - Stock prices rose sharply Monday in the lightest trading in several months.

Many banks and investment houses were closed or operating with reduced staffing for the Columbus Day holiday. In addition, trading was completely halted for nearly an hour during the morning when computer prob-lems forced both the New York and American stock exchanges to suspend

trading.
At the close, the Dow Jones industrial average was up 9.22 at 959.90. Gaining issues outnumbered losers by

a 9-5 margin on the NYSE. But Big Board volume came to only 31.36 million shares, down from 44.04 million Friday. It was the slowest trading day since June 30 when 29.91 million shares were traded.

Oil and high technology stocks were among the big gainers Monday.

International Business Machines.

the second most active NYSE issue as of the 4 p.m. close, rose 11/4 to 701/2. Computer Science rose % to 22 after sharp drops last week. Storage Technology gained 11/4 to 24.

Control Data, less actively traded, closed up 1% to 76%; Xerox rose 1% to 68%. And Teledyne, a diversified electronics firm, gained 9 to 1921/2.

Among oil stocks, Atlantic Richfield gained 3% to 63; Exxon 2 to 77; Mobil 2% to 78%; Standard Oil of California 2% to 87%; and Texaco 1 to

Ralston Purina gained ¼ to 11¾ as the most active NYSE issue. Trading included a 1.38 million-share block which traded at 111/2.

The NYSE composite of all listed common stocks gained 0.94 to 76.28. Standard & Poor's index of 400 industrial stocks rose 2.22 to 150.51. The S&P 500-stock composite gained 1.74

On the American Stock Exchange, the market value index rose 4.76 to 353.31. In over-the-counter trading, the NASDAQ composite index gained 1.08 to 198.87.

AFL-CIO backs Dallas bus drivers

DALLAS (AP) - Striking bus drivers have gained backing from the AFL-CIO in their 14-day-old walkout that has crippled Dallas' only public transit system.

Leaders of the Dallas Council, AFL-CIO, said Monday that their 35,-000 county members would be asked to distribute leaflets, contribute to an informational campaign and ask City Council members to reinstate fired employees and hear grievances.

The Dallas Transit System, meanwhile, operated under a new, scaleddown schedule for the first day Monday. DTS spokeswoman Claudia Good about one-fourth the number operating before the Oct. 1 walkout began. She said 15 employees terminated

after five days of absence in the walkout have been rehired after returning to work, but dismissal letters were sent to another 48 strikers, raising the total number fired to 504. There were 598 bus drivers when the walkout

Six persons held for trespassing

ANACONDA, Mont. (AP) - Four mountain climbers scaled the 585-foot smokestack at the Anaconda Copper Co. smelter here, then were arrested with a couple who filmed the stunt.

Lorrie Massey, 22, and Ian Massey, 26; their parents, Don and Lorraine Massey; a cousin, Mike Staat, 22; and an unidentified 17-year-old boy were isled Monday in live of 100 best jailed Monday in lieu of \$100 bond each. They were charged with misdemeanor criminal trespassing.

The smelter was idled by an industry-wide strike July 1, and on Sept. 30 the company announced the facility would not be reopened, throwing about 1,000 residents out of work. It was not immediately known whether any of those arrested had been Ana-

conda employees. Police Sgt. Jim Connors said the climbers, described as experienced mountaineers, never were in danger. "They definitely knew what they were doing," he said.

THE NEWSPAPER BIBLE

"...To remember me by"

For this is what the Lord Himself has said about His Table, and I have passed it on to you before: That on the night when Judas betrayed Him, the Lord Jesus took bread,

And when He had given thanks to God for it. He broke it and gave it to His disciples and said, "Take this and eat it. This is My body, which is given for you. Do this to remember

In the same way, He took the cup of wine after supper, saying, "This cup is the new agreement between God and you that has been established and set in motion by My blood. Do this in remembrance of Me whenever you drink it.' For every time you eat this bread and drink this cup

you are re-telling the message of the Lord's death, that He has died for you. Do this until He comes again. So if anyone cats this bread and drinks from this cup of

the Lord in an unworthy manner, he is guilty of sin against the body and the blood of the Lord.

That is why a man should examine himself carefully before eating the bread and drinking from the cup.

For if he eats the bread and drinks from the cup unworthily, not thinking about the body of Christ and what it means, he is eating and drinking God's judgment upon himself; for he is trifling with the death of Christ.

That is why many of you are weak and sick, and some

But if you carefully examine yourselves before eating you will not need to be judged and punished

Yet, when we are judged and punished by the Lord, it is so that we will not be condemned with the rest of the world.

So, dear brothers, when you gather for the Lord's Supper -the communion service-wait for each other;

If anyone is really hungry he should eat at home so that he won't bring punishment upon himself when you meet to-

I'll talk to you about the other matters after I arrive.

I Corinthians 11:23-34

Five technicians scheduled to enter TMI reactor containment building

MIDDLETOWN, Pa. (AP) - A team of five technicians was scheduled to enter the contaminated reactor containment building at Three Mile Island on Thursday, the plant's operator said.

The entry would be the third since one of the two reactors at the plant was crippled March 28, 1979, in the nation's worst commercial nuclear

It was initially set for last month but the plant operator, Metropolitan Edison Co., canceled the project after the state Public Utility Commission barred the use of customer payments for uninsured cleanup costs.

The Nuclear Regulatory Commis-

sion subsequently ordered Met Ed to continue with cleanup operations necessary to insure public health and safety. The issue is pending in U.S. District Court in Harrisburg.

"We reviewed the PUC order and concluded that it was appropriate to go ahead with the entry." Met Ed.

go ahead with the entry," Met Ed spokesman John Fidler said Monday.
"The decision to go ahead was also

influenced by public statements made by PUC officials who said they saw no reason why we couldn't proceed with the operation," Fidler added. The first manned excursion into the

containment was made on July 23, and the second on Aug. 15.

Singer Johnny Cash, (above) his wife June Carter Cash, and son, John Jr., admire the plaque noting Johnny Cash's election to the Country Music Hall of Fame. In center photo, Emmylou Harris clutches her trophy after she was named Female Vocalist of the year. Singer Barbara Mandrell (far right) was named the Country Music Association's

1980 entertainer of the year. She said the award represents "the biggest moment of my life." These awards were presented during the nationally televised Country Music Association annual awards show at the Grand Ole Opry House. (AP Laserpho-

Cash, Mandrell top winners

By JOE EDWARDS

NASHVILLE, Tenn. (AP) - Barbara Mandrell said she was only 13 when she first heard Johnny Cash sing. Eighteen years later, they shared top country music honors - and Cash called his award "every country boy's dream."

Miss Mandrell won the prestigious entertainer of the year award at the nationally televised Country Music Association awards show Monday night, and Cash was elected to the Country Music

"It's hard to explain how I feel," said the 31-year-old Miss Mandrell. "I'm afraid I'm going to 'fall out."

The pint-sized Miss Mandrell, who plays five instruments, had a hit this year with "You Can Eat Crackers in My Bed Any

Cash, who overcame pill addiction in the late 1960s and went on to become a superstar with hits like "A Boy Named Sue," capped his 25-year career with election to the hall of fame. "This was the big one, mama," said Cash after the show. "This

was the one I've hoped for, dreamed for and prayed for. It was every country boy's dream. It was not his only prize of the evening. His wife, June Carter.

presented him with a shiny silver Mercedes Benz after the The association's 5,000 singers, musicians and other members

and single of the year for "He Stopped Loving Her Today. Jones, who overcame a drinking problem this year, was the only double winner. "You can never realize how much this means to he said from Sparks, Nev., where he was performing. "I have the boost I needed. It put me right on the top.

chose George Jones for two awards - male vocalist of the year

Former folk singer Emmylou Harris was voted female vocalist of the year.

Other winners were:

'Coal Miner's Daughter." the soundtrack from the movie about the life of country singer Loretta Lynn, sung by Sissy Spacek, album of the year; "He Stopped Loving Her Today," song of the

year for writers Bobby Braddock and Curly Putman; the Statler Brothers, vocal group of the year; the Charlie Daniels Band, instrumental group of the year; Moe Bandy and Joe Stampley, vocal duo of the year, and Roy Clark, instrumentalist of the

Two others were elected to the Country Music Hall of Fame. They are Connie B. Gay, who pioneered commercial country radio and helped launch the careers of Clark and Jimmy Dean, and the Original Sons of the Pioneers, best known for their Western-style

songs like "Tumbling Tumbleweeds" and "Cool Water. Among those in the crowd at the Grand Ole Opry House was Amy Carter, the president's 13-year-old daughter. She was the guest of country music singer Tom T. Hall, a friend of the Carter

No record company dominated the balloting. CBS Records won five awards, MCA Records won three and Mercury and Warner Brothers won one each.

Inmates seize prison bus

HARTFORD, Ky. (AP) - Inmates overpowered and shot two guards as they seized control of their prison bus in western Centucky, and two were at large today after the takeover ended in a fiery crash, state police said.

Three of the 13 prisoners were injured, one seriously, during the incident Monday, which began as a trip from Kentucky State Reformatory at La Grange to the state prison at Eddyville.

The guards, J.B. Owen, 61, who was shot in the face, and Sidney McDaniels, 30, who was shot in the stomach, were hospitalized in

Police continued their search this morning for the two inmates who fled the bus during the uprising, said State Penitentiary Superintendent Dewey Sowders.

The bus left the reformatory with two guards accompanying the 13 inmates, and another guard, Freddie Richardville, 28, following in a van, he said.

DR. NEIL SOLOMON

Mental illness is large part of total U.S. health problem

Dex Dr. Solomon: A human being must be remarkably adaptive to live in today's world. With war you must be, but there really is no cure except time. and he threat of war all around us, and with starvation and disease the norm in many parts of the world, it sometimes seems that a person has to be crazi not to be disturbed by these events. Since I imagine you've seen at least a part of the problem, bothas a physician with a private practice and as the head of a state health agency, I'd be interested in your observations. How serious a problem is mental illness? - Pat

Dear Pat: There's no doubt that mental illness is a significant part of the total health problem in the United States. Some indication of this is contained in a report by the President's Commission on Mental Health. The report noted that almost seven milion people were treated by mental health spe-cialists in 1975, and between one and two million required hospitalization for mental problems in the same year. The commission also estimated that at ary one time, as many as one-fourth of the population of the United States may be suffering from mild to moderate depression, anxiety or similar emotion

I'm not certain about the Catch-22 situation you suggest - or, as you put it, that you've got to be crazy not to be disturbed in today's world - but mental illness certainly does contribute to the suffering experienced by vast numbers of people in this

Dear Dr. Solomon: I am 17 years of age and plagued with acne. Although I wash my face three times a day, I can't get rid of those horrible blackheads. Why won't soap and water wash them away? Can you suggest some things I can do (besides the use of medication) that would help alleviate the condition? I'd be willing to try anything. — Doris

Dear Doris: In the first place, the dark tip of a blackhead is not dirt and therefore will not wash away. The discoloration that gives a blackhead its name is caused by a buildup of melanin, the dark pigment of the skin. All you will accomplish by rubbing your face is to irritate the condition. For the same reason, don't squeeze your blackheads since you may injure the skin and underlying tis-

9.6 DAILT

9 7 THURS

By MARTHA WENTWORTH, JANET LADENBERGER and DEBBIE FOSTER

The Rebel Express came back. stong this week with a big victory against San Angelo's Bobcats by a score of 28-0.

The JV also had a victory against the Bobcats, 8-0. Also in football action, the sophomores defeated the JV team from Pecos. "Way to go, guys.

Be sure to be in Abilene next week to see the Rebel men "execute" the Cooper Cougers. Kickoff is at 8 p.m. 'Be there.

Excitment started last Thursday night in the Rebel gym when our mighty varsity volleyball girls took on Odessa's Bronchos. The girls got off to a good start in the first game, 15-3. In the second game the girls

played hard, but lost, 15-12. In the third game, our girls came out on top by a score of 16-14. Congratulations,

The JV had a tough battle and fell to the Broncos, but will come back strong next week.

Last Thursday the Student Council gave a covered dish dinner in honor of the Rebel faculty. It was a big success and thanks go to the Origin, the Sweet Adelines, and Mr. Nutter and Mr. Walker. Everyone enjoyed themselves and are looking forward to it

B.C. comments: Our membership contest is moving right along. There are several with one new member looking looking for two more, but Tina Harrington is ahead now with two new members and two more pros-
