# Candidates face Midland voters

### 17 hopefuls appear at forum

taxation."

By SUE FAHLGREN

More than 50 Midlanders showed up to hear the candidates for the local races Thursday night at the League of Women's Voters Candidates Forum at the Midland Center.

Charleen Rosebery, president of the LWV, said the forum co-sponsored with the Midland Jaycees, the Midland County Republican Women and the Midland County Democratic Party, had "undoubtedly the most participation of the voters we have

Ms. Roseberry said she was pleased Midlanders came "to try to make an informed decision." She said frequently the forums are attended by the candidates' families and the news media.

Seventeen of the 18 candidates running in the local election came to the forum to give three-minute synopses

of their views. Afterward, members would have to be collected from a . I've always been a conservative and ofor the candidates, which were later

presented by the League members. Only Kent Hance, incumbent candidate for representative of the 19th congressional district, did not appear at the forum.

Hance's opponent, Libertarian can-didate J.D. Webster did show, however. Webster said, "There are three things that bother me: inflation, taxation and regulation." Webster called these things "creatures of the Congress," and said he wished Hance had been there to justify his voting for increases in each of the three.

Tom Craddick, unopposed incumbent candidate for state representative of the 68th district, outlined what he said were things the representatives would be facing in the coming term. He said next year's budget appears to be between \$22-23 billion next year. Craddick said more money surplus of funding or a new form of

Craddick called for increasing the gas tax increase by a "floating" per-centage or by a "fixed rate" of 1 cent for increased highway costs. He said \$600 million had to be appropriated by the legislature "to keep up the highways last year."

Candidates for judge of the 142nd district, Pat Baskin and J.H. "Timber" Floyd, were asked several questions after their alloted speech.

Baskin, the democratic candidate for the office, said, "There's no more important work ever performed in the United States than that of a judge." He said he would work to help citizens "understand that there is justice and fairness" in the court system.

Floyd, the Republican candidate, took a little longer to concretely state his views on the office. Initially, Floyd said he was "a conservative.

never supported anyone whose been liberal." He also said he was an attorney and a former oil businessman.

However, the audience was interested in issues in the judicial race and asked candidates at least six questions on their qualifications and their views for change.

After four questions addressed to him, Floyd finally came out with his opinions. "There needs to be a lot of work done at the courthouse with the civil docket," he said, adding that appeals in civil cases needed to be speeded up.

Vern Martin, unopposed republican candidate for district attorney of the 142nd district, started on a more humorous note. "John Green is not running as a write-in in this district." Martin quipped. Green is a write-in candidate for district attorney in

# Iran denies deal is working to free hostages

BEIRUT, Lebanon (AP) - An official in Iranian Prime Minister Mohammad Ali Rajai's office in Tehran today denied a report that a deal was in the works to free the 52 U.S. hostages in exchange for spare parts for American-made-military equip-

Reached by DAY 349 telephone from the Beirut office of The Associated Press, the official, who identified himself as a public relations official in Rajai's

office, said: "The public relations office officially denies

these reports on behalf of the Islamic Republic of

The official, who gave his nave only as Mahdavi, denied that the hostages, held since Nov. 4, were being assembled at the American Embassy in Tehran or that the Iranian government would be receiving spares in exchange for the embassy captives.

will decide on the fate of the hostages and this the Majlis will never agree to," the spokesman said in reference

U.S. officials, including President Carter, have also denied that a deal was in the works that would give Iran the spare parts it needs to keep its U.S.-made military equipment operating during the nearly monthold war with Iraq.

Rajai was in New York to at-tend a U.N. Security Council session in which he was to present Iran's case to the world body regarding the war with Iraq.

The Swiss government, which represents U.S. interests in Tehran, also discounted the report that a deal for the hostages' freedom had been reached.

Ohmar Uhl, a Swiss foreign ministry spokesman in Bern, told The Associated Press today, "If there had been such a deal, we would have been informed, I'm pretty sure. So far, nothing has happened. Nothing has happened. We would be aware of any move (to free the hostages) — we would hear about it."

A Chicago TV station reported Thursday that, as part of an arms deal with Iran, the hostages have been gathered at the U.S. Embassy compound in Tehran to prepare for a trip home for all but four, who would "remain for trial"

The last hostage released, Vice Consul Richard Queen, was flown from Iran to Switzerland, aboard a Swissair jet, and accompanied by a Swiss diplomat.

Queen was released in July.

# U.S. officials send conciliatory signals

WASHINGTON (AP) - U.S. officials from President Carter on down, while denying that any deal has been made or is being negotiated, are sending conciliatory signals to Iran in a bid to free the 52 American hos-

Carter said Thursday he would be willing to meet and discuss the hostages with Iranian Prime Minister Mohammad Ali Rajai, in New York for an unexpected appearance at the United Nations, "if he should be amenable." Secretary of State Edmund S. Muskie added that "the door is open" for negotiations.

Rajai arrived in New York shortly after midnight Thursday, about two hours after Carter had attended a charity banquet in the city, and was to plead Iran's case in its 26-day war with Iraq before the U.N. Security Council later today.

Rajai is the highest-ranking Iranian official to visit the United States since revolutionary forces overthrew the late Shah Mohammad Reza Pahlavi in January 1979.

There were no indications the hardline Islamic fundamentalist would

Want Ads

Other Calls.....

meet with Carter or any other U.S. official, but Rajai's trip nevertheless fueled frenzied speculation about the hostages and U.S. relations with Iran all of which the Pentagon and the State Department tried to dispel.

Carter and other officials, mean-while, were playing down the United States' tensions with Iran.

The president, who called Iraq an "invading nation" Wednesday night, continued to emphasize U.S. support for Iran's national integrity.

Asked on a campaign stop if the administration would support Iran's complaints against Iraq at the United Nations, Carter said, "Disputes like this should not be settled through aggression or invasion of another country's territory."

The Pentagon denied a published report that the United States and its allies have built up an armada of 60 warships to keep the Strait of Hormuz open to Persian Gulf oil traffic. The Iranians have threatened to mine the

# Mount St. Helens goes again

VANCOUVER, Wash. (AP) -Mount St. Helens unleashed a major eruption Thursday night, spewing steam and ash nearly eight miles into the air, scientists said.

The blast at about 10 p.m. sent "a very black cloud" of ash drifting to the south-southwest, said Jim Unterwegner of the U.S. Forest Service. It capped a day in which ash and steam poured from the volcano amid the rumbling of repeated earthquakes. There were no immediate reports of injuries or damage from the eruption, which came about three hours after scientists issued an urgent warning saying the mountain might erupt. Reports on the time of the blast varied

The U.S. Forest Service reported the volcano stopped venting ash by 11 p.m. and was sending up only a minor

from 9:48 p.m. to 10:05 p.m.

# U.S., Israel sign oil agreement

WASHINGTON (AP) - The United States and Israel today signed a 14year agreement to guarantee oil to the Jewish state in emergencies.

The agreement is a further step in implementation of the Camp David accords that called for Israel to return to Egypt oil fields in the Gulf of Suez. The United States promised to guarantee Israel's oil supply in exchange.

The agreement was signed by Secretary of State Edmund S. Muskie and Israeli Energy Minister Yitzak Modai at a White House ceremony.

The final agreement outlines such issues as pricing and transportation of the oil the United States will supply

if the Israelis face a shortage.

At the ceremony in the Roosevelt Room, President Carter said the agreement provides security for Israel, but also is "a very sound investment in the security of the United States of America."

The agreement provides for three contingencies:

- If Israel cannot obtain enough oil to meet its needs, currently about 160,000 barrels a day, the United States would make up the shortage.

- If Israel can obtain oil only at an excessive average price and under insecure arrangements, the United States would provide oil under a formula arrangement.

- If Israel loses a main oil source and cannot replace the oil, the United States would make up the shortage for 120 days and perhaps longer.

An initial U.S. oil supply commit-ment was made in 1975, but has not had to be used. The agreement does not involve a subsidy. Israel would pay the cost of

Carter said Israel made a "very bold apd courageous decision" when it agreed to give up the oil fields and

depend on foreign oil.

Modai said Israel was "very happy to have a document which is so clear, so detailed and which relates to such a vital and delicate issue."

steam plume to 9,500 feet. A Forest Service pilot who flew over the mountain less than an hour after the blast said he could see a red glow at the bottom of the volcano's crater.

The ash cloud from the blast headed south-southwest toward Portland, Ore., which was last dusted by an eruption June 12. There were reports of ash fallout in Chelatchie Prairie, about 20 miles south of Mount St. Helens, and in Yacolt, 30 miles to the

The National Weather Service issued an ash warning for two southwest Washington counties and for the Portland area, saying ash could cause hazardous driving conditions with slippery roads and reduced visibili-

Darkness prevented an accurate determination of the amount of ash belched from the volcano, scientists said.

Bob Norris of the University of Washington said the mountain was seismically quiet for about an hour after the eruption, adding, "that doesn't mean anything."

He said: "It's not necessarily the end of it. We've seen activity die down like like before renewed activity."

The devastating May 18 eruption of Mount St. Helens - the volcano's first since 1857 - killed 34 people and left 28 others missing and presumed dead. That eruption left parts of eastern Washington virtually immobilized by

The May 18 blast was followed by several smaller eruptions, the latest on Aug. 7. There have been no deaths since the first blast.

been dispersed" said Jim Hocutt of the state Emergency Services Department of Thursday's blast. The mountain rumbled with har-

monic tremors - which scientists

"We don't know how much ash has

believe indicate the movement of lava for nearly 10 minutes before and during the eruption, said Don Leaver of the University of Washington geophysics center.

"We had a large number of 21/2 to 3-point earthquakes (on the Richter scale) just before the eruption," Leaver said. "Maybe 10 of them altogether. But it's been quiet since

The university's seismographs first rattled from the quakes at 9:58 p.m., said Leaver. The scientists' warning that the

volcano might erupt was prompted by more than a dozen earthquakes at the volcano Thursday night.

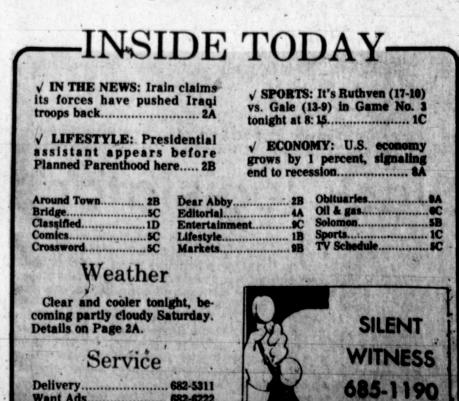

"If it's going to go, it's going to go in hours ... or within a day," Steve Ma-lone, a seismologist with the University of Washington had predicted. The "seismic sequence" on the

southwest Washington mountain was similar to the events preceding a July 22 eruption, said Craig Weaver of the U.S. Geological Survey.

When scientists observed what Weaver called "a real escalation in events," the Federal Emergency Management agency warned law enforcement agencies an eruption was "possible within the next 24 hours," said agency spokeswoman Joyce

An earthquake at 7:02 p.m. measured about 3.0 on the Richter scale and was centered just beneath the volcano's crater, Ms. Routson said.

Small, class B earthquakes have rattled the volcano throughout the week, but the 3.0 quake coupled with continuous steam activity Thursday changed geologists' minds about the seriousness of the recent seismic activity, she said.

## Weather getting colder

With tonight's low temperature expected to drop into the low 40s, Midlanders may want to pile some extra blankets on their beds.

It should be clear tonight, but likely will become partly cloudy on Saturday.

The mercury is expected to climb to

the upper 70s on Saturday. Winds tonight and Saturday should

be variable and blow at 5-10 mph.

Thursday's high temperature reached 73, far below the record high for that date - 92 degrees - set in 1964. Low this morning was 48 degrees. Record low for today's date is 36, established in 1976.

No precipitation was recorded at the National Weather Service at Midland Regional Airport in the past 24 hours and there has been no precipitation recorded this month. Yearly rainfall accumulation for 1980 stands at 15.71 inches.

### Tommy Meador

ELDORADO - Services for Tommy Cecil Meador, 82, rancher and oilman, were to be at 2:30 p.m. today in the First Baptist Church in Eldorado with J.G. Bunyard of the Business Men's Bible Class of San Angelo officiating. Burial was to be in Eldorado Cemetery directed by Derbow Funeral Home.

Meador died Wednesday at his ranch home.

He was born March 5, 1898, in Lampasas. He was married to Williwood Birdwell in September 1936 in Bal-

ing and oil industries and was a member of the Permian Basin Petroleum Association. He was also a member of the Benevolent Protective Order of Elks and was past president of the Business Men's Bible Class of San Angelo and the Texas and Southwest Cattle Raisers Association.

Survivors include his wife; a son, Joel Tom Meador of San Angelo; a daughter, Sarah Kate Lipsett of Eldorado; two grandchildren, and several nieces and nephews.

### Monte Conlee

CRANE - Graveside services for Monte Don Conlee, 3-month-old son of Mr. and Mrs. Donald Conlee of Monahans, will be at 10 a.m. Saturday in Crane County Cemetery directed by Richard W. Box Funeral Home. He died Thursday in his home after

a brief illness. The infant was born July 20 in

Kermit. Survivors other than the parents include his paternal grandparents, Mr. and Mrs. Ted Anderson of Crane: maternal grandparents, Mr. and Mrs.

Robert Hoffman of Texon, Mr. and Mrs. Bailey Holman of Springdale, Ark., and Mrs. J.T. Hoffman of Childress; a great-grandmother, Mrs. Oscar Kelly of Wellington and great-grandparents, Mr. and Mrs.

# Nun's brother slain by teens who believed he backed Amin

GULU, Uganda (AP) - Sister Paula Abero said she screamed when she saw a gang of vengeful teen-agers leading her brother from her convent to kill him.

"I tried to embrace him," the 40year-old Roman Catholic nun recalled. "I told them, 'You kill me, too. He is my brother. He is not a soldier of Amin. He is a teacher.'

"One young man said, 'You come. We will kill you, as well.' Then a father (priest) pulled me away. The last I sam my brother was silent. They had cut him on the head and shoulder. There was blood all over

An invasion of Uganda by exiled soldiers loyal to ousted dictator Idi Amin took place 11 days ago 100 miles west of Gulu, a small, northern provincial center. The invasion never came near Gulu but David Andama. 33, the nun's brother, was a victim of the fighting.

He was killed by members of Gulu's dominant tribe, the Acholi. Hearing that Amin's men were slaughtering Acholi soldiers in the west, Acholi civilians took revenge on men, women

they believed still loyal to Amin.

Gulu residents said more than a dozen Lugbara, Madi, Kakwa and Alur tribesmen were killed in a threeday spasm of violence. Houses were looted and scores of victims took refuge in the bush or at Christian mis-

Bodies lay near bridges and railroad tracks for several days, decomposing in the sun because relatives

were afraid to collect them. It was the latest round in tribal conflicts that have afflicted this region near Lake Victoria since long before the British arrived in 1894 and later put together the nation of Ugan-

After Amin, a member of the Kakwa Tribe, took over in 1971, his troops killed thousands of Acholi men. When Amin was overthrown last year by Ugandan and Tanzanian troops, several thousand of his tribal allies fled the Gulu district, leaving about 200 who seemingly believed themselves immune to retribution.

Among them was Andama, a Lugbara from Amin's native West Nile district, who taught school for more than 10 years near Gulu and who had two children by an Acholi wife. Soldiers seized him at a roadblock last Friday when he tried to visit his sister at a convent on the edge of town. "They took him at 10 a.m. I got

there at 4:30 p.m.," Sister Paula said in an interview Thursday. "They said if I wanted my brother I had to pay 200 shillings (\$25) and come back the next day with 4,000 shillings (\$530). "I asked them, 'What wrong did you find with him?' They said, 'He is not

Acholi.' Sister Paula paid the 200 shillings

ransom and took her brother to the convent. She spent the weekend in a

fruitless round of government offices, trying to persuade someone in authority in Gulu to intervene.

Officials were either away from their desks or unwilling to act, she

"On Monday, I found the education officer and he wrote a letter asking the soldiers to let my brother go," she said. "But when I got back to the convent with the letter, they were attacking him."

Other nuns said they had hidden Andama under the trees behind the convent buildings, expecting anyone looking for him to search the rooms. He started running, they said, when about 10 teen-age boys and girls broke into the convent, armed with spears, arrows, clubs and knives and accom-

panied-by soldiers. The gang caught him and began

beating him. "I found those people taking him away," Sister Paula said. "All the sisters were shouting and crying. He was bleeding all over.

"They also took two women. One was the wife of a man they had killed the day before. They took all three to the railroad tracks and killed them."

"Now I can't get my brother's body back," Sister Paula said. "Nobody helps me. I go to the government but

there is no government. "I want to take his two children home to my mother in Arua. If they stay here, with my brother's wife, people will kill them. Acholi people don't want the bad seed of the Lug-

"But I have no way to get them. I have no way even to tell his wife that he is dead. She still doesn't know.

"What can I do? No one will support me. We Lugbara, we are foreigners

## Israeli raiders attack two Southern Lebanon bases

TEL AVIV, Israel (AP) - In its first major attack on southern Lebanon in two months, Israeli paratroopers and infantrymen destroyed two Palestinian guerrilla bases and killed at least nine guerrillas, the Israeli military command said today.

A spokesman for Yasser-Arafat's Palestine Liberation Organization in Beirut made no mention of guerrifla losses, but said the Israelis suffered several casualties as they were repulsed by guerrilla defenders in a

three-hour battle. An Israeli army spokesman said all Israeli troops returned safely after surprising guerrilla forces in overnight attacks on the adjacent villages of Jarmak and Shaika, about seven miles north of the Israeli border. He said the villages, north of the Litani River on the Arnoun Plateau, were used to shell Israeli towns in the

northern Galilee. He said the troops were flown out of the villages by helicopter after de-stroying six houses, three guerrilla emplacements and two jeeps.

The guerrillas belonged to the Arab Liberation Front, an Iragi-backed organization, the Israeli spokesman

Returning soldiers spoke of catching the guerrillas completely by surprise. One officer, identified only as Avishai, was quoted by the Israeli newspaper/Maariv as saying his troops blew up a house with its guerrilla occupants inside. "They re-

frained from running away because

they were afraid they would be hit by our fire," he told the paper.

The houses hit "clearly were used by terrorists. They were surrounded by fortified positions, their walls were lined with sandbags and nearby were their trenches," the officer was quoted as saying.

"You should have seen the panic that overcame them (the guerrillas) and how they tried to escape in every way possible," the paper quoted another soldier as saying.

Lt. Gen. Raphael Eytan, Israel's military chief of staff, told Isra-

el's Army Radio that the operation was "very successful," and "all objectives were achieved."

Israel said the raid, its first major strike into southern Lebanon since Aug. 19, was part of its policy of "preventive action." Israel has declared it will strike at guerrilla targets in southern Lebanon at will in order to keep the guerrillas on the defensive and head off cross-border raids on the Jewish states.

The PLO admitted 33 of its men were killed in the August air and ground assault on a guerrilla stronghold within the ruins of the Beaufort crusader fortress, a major launch site for rockets aimed at Israeli towns in the northern Galilee panhandle.

The two villages attacked in the latest raid were two miles north of the fortress, the PLO spokesman said. Sources said they were used as guerrilla training bases and launch points for rocket attacks.

# Klan joins Haltom City's protest against refugees

HALTOM CITY, Texas (AP) - In arrest of a 38-year-old refugee ac an emotional gathering, about 20 Ku Klux Klan members joined residents jammed into Thursday's city council, meeting here to protest actions that brought scores of Cuban refugees to their city.

Five of the robed Klansmen joined in the meeting, while the rest of their members marched outside handing out Klan literature.

The 125 residents had come to the council's chambers to lash out at city officials, claiming they let 138 refugees into the city without advance warning.

But when the group learned that city council members were equally angry at not being informed about the refugees' transfer, residents' ire immediately turned toward the federal government and Bellevue Missions, the refugees' sponsors. Many residents have been worried

since the Cubans arrived in this Fort Worth suburb Oct. 8 but matters came to a head Thursday with the

cused of exposing himself to a child. In response to the community's outrage, council members unanimously

voted to place a resolution on the Nov. 6 agenda which would petition the government to notify cities if they are to be used as relocation sites for "The blame lies in Washington,"

said council member Jack Lewis. They put them here and they should be responsible for getting them out. This resolution is about the only thing One of the Klansmen, Ron Jackson

of Cleburne, told the residents that the government should take money being spent on relocating the refugees to "arm them and send them back to Cuba to take back the country Castro took from them.

The refugees were moved into Haltom City from Fort Indiantown Gap, Pa., in a resettlement operation sponsored by Bellevue Missions International of Hurst, another suburb near-

out of service yesterday.

But he assured residents

that there would be "no

reduction in present

levels of police service."

The cars will stay

parked until the city's equipment services divi-

sion can find a solution to the carbon monoxide

leaks that have sent at

least six officers to the

# Three deaths blamed on first big snowstorm

By The Associated Press blinding snowstorm across the Rocky Mountains downed power lines, closed roads and took the lives of three people, two of whom died in a train wreck during a blizzard in Wyo-

And in the Plains Thursday, tornadoes tore through houses and barns, iinjuring at least seven people.

In Wyoming, where as much as two feet of snow fell during autumn's first snowstorm, two Union Pacific trains wrecked near Laramie Thursday afternoon, officials said. Two men were killed and two others were seriously hurt.

'We know it was blowing very hard up there," according to Union Pacific spokesman Joe McCartney, who said the weather was probably a factor in the crash. One train crashed into the rear of the other train, authorities said.

The storm also contributed to the death of a Colorado man whose light plane crashed while he was attempting an instrument landing at the airport in Rock Springs, Wyo., officials

The snow forced the closing of Interstate 80 between Cheyenne and Walcott Junction and the closing of

two sections of U.S. 287.

In Montana, authorities reported that 2 to 4 feet of snow accumulated in some mountain regions. The snow clogged roads near the 10,940-foot Beartooth Pass south of Red Lodge. In Billings, Mont., utilities reported

widespread power losses. "Our switchboard was overload-

ed," said Chet Belden, division manager of Montana Power Co. "Hundreds of people were without power." Accumulations of snow reached six

### Police hold sniper summit

CINCINNATI (AP) — A federal weapons charge has been filed against Joseph Franklin, the fugitive who is the subject of a police confer-ence here on the unsolved shootings of blacks in cities across the country.

Franklin, who is believed to be a native of Birmingham, Ala., was charged in Lexington, Ky., on Wednesday with transporting stolen firearms across state lines. Authorities said a .357-caliber Magnum stolen from an Indiana state trooper 10 years ago was found in a car owned by Franklin.

Franklin, who is white, earlier was charged by federal authorities with violating the civil rights of two black joggers who were slain Aug. 20 in Salt Lake City.

Representatives of 10 police departments, three federal agencies and the Hamilton County prosecutor's office are believed to be participating in the meeting about Franklin, which began Thursday. Police said they would not make a

statement about the meeting until it

concluded today. The meeting was requested by Salt Lake City Police Chief Bud Willoughby. Although federal charges have been filed against Franklin in the Salt Lake City case, Willoughby said his department has been unable to amass enough evidence to charge Franklin with murder.

Franklin also is wanted for questioning in the shooting deaths of two black youths in Cincinnati, the wounding of National Urban League President Vernon Jordan in Fort Wayne, Ind., and sniper slayings in Oklahoma City, Indianapolis and

Most of those incidents involved high-powered rifles. Franklin reportedly is a gun enthusiast who buys and sells high-powered rifles.

Council due brothel study SAN ANTONIO, Texas (AP) — The city council will hear the results of a special investigation into an alleged brothel that one councilman claims operated

officials. City Manager Tom Huebner told the council Thursday he wanted a special session Monday at 5 p.m. to present results of the study he began last

Three women were arrested and an alleged "trick list" confiscated in an Oct. 2 raid of the bordello. Councilman Bernardo Eureste charged the bawdy house was allowed to operated with police protection for 20 years.

The council last week empowered Huebner to look into the allegations after Eureste'shocked council members and Mayor Lila Cockrell with his charges.

Theresa Brown, 46, alleged madam of the operation, was arrested and charged with promoting prostitution, and two Houston women were charged with prostitution as a result of the raid.

Capt. James Despres said more than 2,000 names, including those of well known businessmen and politicians, were on the "trick list" and some names were accompanied by sexual preferences of the

Ms. Brown has waived arraignment on the promotion of prostitution charge and under the state's Speedy Trial Act, a trial date must be set within 120 days. Negotiations for a plea bargain broke down for two decades with the sanction of powerful city last week and her attorney said if his client were brought to trial, he might introduce the "trick list" in her defense.

Eureste, in open session last week, charged that a police inspector and fellow councilman's names were on the list, but both denied they were clients at the brothel. Mrs. Brown said she would take a polygraph test on behalf of the police official.

# Stock market loses

NEW YORK (AP) - A gloomy economic forecast by a leading Wall Street economist sent stock prices plunging in heavy trading Thursday after they climbed to a 31/2-year

The Dow Jones average of 30 industrial issues, up 7.85 to 980.29 at 2 p.m., fell rapidly after that and closed at 958.70, down 13.74 for the day. Declines outnumbered advances by a 2-1 margin among New York Stock Exchange issues

The sharp decline came after Henry Kaufman, the chief economist of Salomon Brothers, said double-digit interest rates on long-term corporate bonds "are here to stay — at least for the foreseeable future.

He added that "the most critical fundamental" for the economy is that only a "limited war" seems possible against inflation.

'There is simply no indication that either of the major political parties can or will produce fiscal, or any other, measures which will make a significant dent in the inflationary forces that will swell as the new business recovery progresses," he

added. Kaufman is one of the most re-spected figures on Wall Street, and his words also helped send bond prices down sharply in afternoon trading.

The Dow Jones industrial average has not closed above 980 - the level it was at before prices began sliding since Jan. 10, 1977, when it ended the

day at 986.87. The rise in stock prices came as the government provided more evidence that the economy is coming out of the recession and a Chicago television station reported negotiations were under way to free the American hostages in Iran and provide spare parts for Iranian military equipment. The State Department denied the report.

The Federal Reserve Board reported that industrial production rose 1 percent in September for the second monthly gain after six months of decline and the Commerce Department reported that personal income rose 0.9 percent in September for the second largest monthly gain of the

Volume on the Big Board was 65.45 million shares, up from 48.26 million shares in the previous session and the fifth largest volume in NYSE his-

Teleprompter, which agreed to be acquired by Westinghouse for \$38 a share, was up 5% to 34% on the Big Board and Wrather, which owns 1.6 million shares of Teleprompter, rose 10% to 36% on the American Stock Exchange. Westinghouse was down 1/8 International Harvester was down

2% to 31%. It denied Federal Trade Commission charges it failed to adequately disclose safety hazards in tractors. Houston Oil & Minerals, which reported it had completed exploratory

drilling and found gold and silver at a Nevada mine, fell 11/2 to 421/2. Computer and technology issues joined in the decline. International

Business Machines fell 11/4 to 681/4 and Control Data was down 31/4 to 721/4. In the over-the-counter market, Genentech fell 141/2 to 54 bid. The

company rose to 88 earlier in the week after issuing stock at 35. Oil stocks, very strong as the market was rising, finished with losses. Gulf was down 1/4 to 461/4, Mobil lost 2% to 78%, Atlantic Richfield was off

21/2 to 631/4 and Phillips dropped 21/2 to Texaco, which announced what it termed encouraging results in a North Sea well and said it will drill another well in the Baltimore Capyon,

finished unchanged at 391/4. The NYSE composite index fell .87 to 76.37 and the Amex market value index lost 3.11 to 358.00. Both had been. at record highs Wednesday and were

up sharply earlier Thursday. Standard & Poor's index of 400 industrial issues fell 1.80 to 150.84 and S&P's composite index of 500 stocks was down 1.48 to 132.22.

In the over-the-counter market, the NASDAQ composite index fell 1.48 to

TODAY'S ANSWER

### BUSINESS MIRROR

# **Economic forecasting** still remains as an art

By JOHN CUNNIFF **AP Business Analyst** 

NEW YORK (AP) - Economic forecasting has improved from the days of omens and portents, but it remains an art rather than a science. It is hard as mathematics and computers, but soft as its basic assump-

In making his hard, decimalized projections, Dr. Lawrence R. Klein, this year's winner of the Nobel Memorial Prize for Economics, is forced by the nature of forecasting to build on various soft assumptions.

Klein, for example, foresees a mod-

erate recovery in 1981, with gross national product rising 4.6 percent, inflation averaging 9.2 percent, and unemployment settling to around 8.2 percent in the final quarter. Critics point out, however, that the

firm mathematical depictions of the economy that are characteristic of what is called econometrics are built on a quivering substructure of subjective assumptions.

In the projections of Wharton Econometric Forecasting Associates, of which Klein is chairman, at least four important assumptions are made:

-That a tax cut will become effective at the beginning of 1981. —That the reduction will be about \$27 billion, "with roughly half of the benefits going to individuals and half to firms.

-That the Federal Reserve will follow a course of moderate monetary restraint. "This implies that growth in the monetary aggregates will be moderate and that interest rates will rise, but not precipitously.

-That the Saudi Arabian price for oil "will average \$34 a barrel in the first quarter of 1981, and that the average of other OPEC producers will rise by a somewhat lesser amount." Saudi oil now is about \$30.

Because such assumptions precede the mathematical equations, which seek to relate how the various segments of production and consumption interact on each other, the results sometimes are far wide of the mark.

Klein and other users of mathematical models concede their results are only as good as their assumptions. A good econometrician must therefore be widely knowledgeable as well as scientifically precise.

Klein, of course, has these qualifi-cations, being solidly grounded in eco-nomics and the world of academe, and widely connected in both the po-litical and business worlds, where his models are eagerly awaited.

Clients of econometric firms, such as Wharton Associates, Data Resources Inc. and Chase Econometrics, need not accept the models as inflexible, but can adjust them to their own forecasting needs.

As tools, therefore, they remain useful no matter what criticisms are leveled at their imperfections. If an assumption is questioned, for instance, a different assumption can be made and the model adjusted.

Never, however, can one avoid the assumptions, and in a world that grows more interrelated, the job be-

comes increasingly complex.

Moreover, nobody can consistently foretell political upheavals, wars, and the myriad, natural phenomena such as volcanic eruptions or severe droughts. Nor is mass psychology fully understandable.

Because of this, the award is likely to be seen as recognition for having advanced the art, and having solved some problems along the way, rather

than having accomplished a goal.
So long as humans act like humans the future is likely to remain a continuing puzzle. And if mankind ever catches-it, of course, the very act

might change it. You might say we've come a long, long way, and that professor Klein has done more than his share to push us along, but that the future is still outthere in the ether where it's always

### Ronald Reagan aides worry about war-peace charges

By DONALD M. ROTHBERG **AP Political Writer** 

WASHINGTON (AP) - Campaign aides to Ronald Reagan, anticipating a "major surge" by President Carter in key industrial states, are increasingly concerned about the impact of the war-and-peace issue, despite their current assessment that the Republican presidential candidate is leading in 35 states.

Robert Strauss, the Carter campaign chairman, held a news conference on Wednesday to say the surge already has occurred and that Carter now is even or ahead in every major state except California and Florida Strauss gave his assessment as he renewed his call on Reagan to debate the president one-on-one.

Reagan's camp said it still wanted a three-man debate including independent John Anderson, but there are nints that position could change or Reagan could go on national television to rebut Carter's comments about war.

Strauss' assessment has Carter leading in Illinois, Michigan and Michigan and Texas and with the race even in Pennsylvania, New Jersey, Connecticut and Wisconsin. He said the election "is beginning to move our way."

But an internal assessment distributed within the Reagan campaign organization listed the GOP candidate as solidly ahead in 23 states and leading in 12. If he carried them all he would have a total of 372 electoral votes, 102 more than the 270 required to win.

But the assessment also warned that "Carter may be on the verge of staging a major surge in certain traditional Democratic industrial states. In other words, while we are still ahead in Pa., N.J., Conn., and Mich., these states could very well end up in the Carter column.'

Those four states have a total of 73 electoral votes and would not be enough to re-elect Carter if the rest of the assessment held true.

The two biggest states the memo counted as solid for Reagan are California with 45 electoral votes and Ohio with 25.

On the other hand, the memo indicates the Reagan campaign has written off New York with its 41 electoral votes. The state is listed as solid for Carter.

Despite the optimistic assessment of where the election currently stands, there are clear signs that the Reagan staff is worried about polling data showing a sharp increase in the number of voters who fear Reagan would get the country into war if he were president

Edwin-Meese III, the campaign chief of staff, said in an interview on Wednesday that in an effort to defuse the war and peace issue, it is "highly possible" Reagan will agree to debate Carter or will deliver a 30-minute speech on national television.

Meese said Carter's attacks on Reagan "have raised questions in people's minds that have to be overcome.

He added that he still believes the harsh tone of Carter's attacks backfired and that "people are going to see through that after a while.

That opinion seemed supported re-

cently when the president said in a television interview after he'd charged Reagan might divide the nation that "I have gotten carried away on a couple of occasions.' But Meese never mentioned the re-

sults of polling by Richard Wirthlin, a top Reagan aide, who reported that he found only a slight increase in opposition to Carter after the attacks compared with a dramatic jump in the number who said they feared Reagan would get the country into war. In another effort to defuse the issue,

the Reagan campaign is starting an intensive advertising campaign, primarily on television, geared to present the Republican candidate as a man of peace.

The campaign also is beginning to use longer segments of television time. Last weekend, the first of a series of five-minute ads ran on national television, just before the 11 p.m. news. Another ran on Wednes-

day night. Both the Reagan and Carter camps are watching closely for signs as to which way supporters of John B. Anderson might go as his independent presidential candidacy fades.

Anderson announced on Wednesday that he had failed to obtain bank loans he planned to use for a major television advertising blitz during the closing days of the campaign. However, aides to the congressman said he is raising \$2 million in loans from supporters and will use it for an ad

Anderson dropped to 8 percent in the latest Gallup Poll, down from 15 percent three weeks earlier. The League of Women Voters is considering whether to drop Anderson from its presidential debate plans and invite Carter and Reagan to a one-on-one confrontation.

### Japan top crude steel producer

TOKYO (AP) - Japan will move ahead of the United States in 1980 to become the top producer of crude steel in the non-communist world, the Japan Iron and Steel Federation said today.

The Federation said that Japan's total crude steel production for the calendar year will reach about 111.7 million tons, unchanged from 1979 production, while U.S. steelmakers will produce only 98 million tons, a drop of 21 percent from the 123.4 million-ton output last year.

It said U.S. steelmakers, hit by severe recessions in the construction and auto industries, will produce less than 100 million tons for the first time since 1963.

The Federation obtained its figures from data reported at the International Iron and Steel Institute meeting in Madrid, Spain, earlier this month.

A large selection of handmade Oriental and Persian Rugs (new and old). Kerman-Kashan-Tabriz-Ardebil-Suk-Saruk.

Good handmade Persian Rugs are recognized as one of the finest investments on today's market. You will apppreciate these values!

### Aladdin House is proud to present this fabulous showing and sale just in time for the holidays!

Oriental rugs and carpets have been produced for centuries and the rugs and carpets produced today are the same in almost every respect as those produced 500 years ago. The best known and most beautiful rugs come from Persia but there are also excellent pieces that come from China, Afghanistan, Turkey, Pakistan, India and Romania. There are other countries in Asia and Africa who produce hand made rugs, but we do not have enough space here to enumerate all of them. All these rugs are made of wool. There are exceptions such as some of the Persian Qum that are made of pure silk.

One may ask why is a hand made oriental rug or carpet the most prized and sought after of all floor coverings?

 An oriental rug, being entirely hand made, has a guaranteed durability. Even accidental damage can be repaired without decreasing the rug's value. This cannot be said of a machine made rug which, once damaged, 2) The decorative value of an oriental rug in undeniable. It greatly enhances a room and creates an immediate

impression of friendly warmth on entering it 3) Provided it is used with care, the value of an oriental rug increases year by year. It is a safe investment and

can be turned into ready cash at any time. It is sometimes believed that oriental rugs and carpets are very expensive items. This is not so. We have many

fine pieces that sell at under \$500.00 A brief summary of our rugs and carpets, and their characteristics, is as follows

Persian: The finest pieces come from the towns such as Istahan, Qum, Kashan, Tabriz and Kerman. In addition there are the nomadic rugs of coarser weave such as Hamadan, Shiraz, Abadeh, Afshar and Belouch. We also have Kelims which have no pile, which come in colorful, geometric designs.

Chinese: The thickest pile of all carpets and rugs. They are very luxurious and come in embossed Aubusson, Floral and Peking designs. Pakistan: Specialises in Bokhara and Atghan designs and in excellent copies of Persian design. Considerably less

Afghan: In well known elephant toot designs in red and gold. Useful for ottices and hallways. Other designs are

India: Mainly heavy pile. Produced with beautiful pastel backgrounds in Floral, Aubusson or Chinese Peking Turkish: Made of wool, silk and artificial silk. Some rugs rival those of Persia in quality and design. Reasonably

Romanian: Mainly copies of Persian designs, but we also have large carpets with the Aubusson design made in wool supplied from England. Extremely good value at very low prices.

The Poles have often been the butt of ethnic humor. At the bridge table, however, the joking stops, for Poland has one of the strongest teams in the world - right now! And they have more stars in the wings. A young Polish pair, Kudla and Milde, won the European Pairs Championship held in Monte Carlo last May, and showed impressive form while doing so. This hand is just one of their brilliant defensive efforts.

Four spades was a popular contract, and it was usually made with an overtrick. But when Kudla and Milde were East and West respectively, Milde got his side off to a good start by leading a low trump.

Declarer won in his hand with the king of spades and immediately led the jack of diamonds. At other tables, East won the queen, and declarer eventually tried a ruffing finesse for the ace of diamonds. When that succeeded, eleven tricks rolled

Not so at the winners' table. Without any hesitation, Kudla took the jack of diamonds with his ace! A trump was returned, and ace of spades and another now left declarer with only one

trump in each hand. Not surprisingly, declarer placed West with the queen of diamonds. Therefore, he cashed the king of diamonds and tried to drop the queen by ruffing diamonds. When that failed, he was held to ten

tricks. At rubber bridge an overtrick means little or nothing. At duplicate, it can make a world of difference. For their fine effort, the Poles were rewarded with 85 percent of the points that could be won on the board, leaving declarer with a scant 15 percent but with new respect for his young opponents from behind the Iron Curtain.
