## Brilab jurors declare **Billy Clayton innocent**

HOUSTON (AP) - Jurors in the Brilab trial of Texas House Speaker **Billy Clayton and two Austin lawyers** say secretly recorded tapes made during the FBI's undercover sting investigation helped convince them the defendants were part of an "honest world.

Clayton, Randall Wood and Donald Ray were found innocent of six counts of bribery, extortion, racketeering and conspiracy by the federal court

**Related stories, Page 9A** 

jury Wednesday. The acquittals were the first in trials stemming from the FBI's undercover Brilab and Abscam investigations.

After the verdict, the defendants charged they were manipulated and trapped by informants and prosecutors.

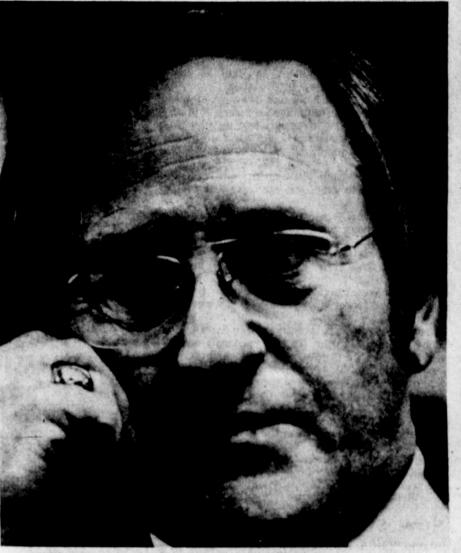

Brilab was an acronym for "Bribery-Labor." Prosecutors contended Clayton accepted a \$5,000 bribe and the promise of \$500,000 more a year from labor leader L.G. Moore to reopen bidding on a multimillion-dollar state employees health insurance contract.

Moore, regional director of the International Operating Engineers Union, also was indicted on the charges and was to be tried later.

Ray and Wood were accused of agreeing to accept payments to wield influence at the state capital, where both worked before entering private practice, to get the contract for the insurance company an FBI informant claimed to represent.

Clayton acknowledged receiving \$5,-000, but said he considered it a campaign contribution that he intended to return.

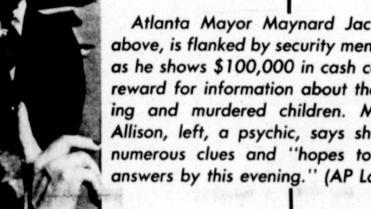

The secretly recorded tapes were the crux of the prosecution's Brilab case, as in Abscam cases tried so far. The tapes convinced some jurors of the defendants' innocence, jury fore-

## Atlanta probe continues

ATLANTA (AP) - A self-proclaimed clairvoyant who is trying to help solve the murders and disappearances of 14 black children said today she had found numerous clues on a tour of the slaying sites and "hopes to have some answers by this evening."

Dorothy Allison, a New Jersey housewif who made the remarks in an interview on NBC's "Today" show, had told reporters on Wednesday that she sensed more than one persons might be involved in the deaths.

"I'm going to visit with a few more mothers this morning," Mrs. Allison said today, "and I hope to have some answers by this evening."

DAY 356

STAGES

She said she was being purposely vague to keep the killer or killers off balance. On Wednesday, she had toured the spots where two children were found slain and visited the parents of one victim.

Police, meanwhile, were continuing a door-to-door hunt for clues and turned to a computer for help in analyzing tips

Bringing in the clairvoyant was one of several unorthodox steps police have taken to solve the series of crimes in which a black child has disappeared every 3½ weeks since July 1979. Ten have been found dead and four still are missing.

"There were some who were proconviction. We would ask them 'what is bothering you about it?' After we listened to the tapes the second time, it started to clear up," he said.

The audio tapes revealed contributions were mentioned during the conversations. For juror Jimmy Haynes, it was a question of Clayton's word or that of FBI informant Joseph Hauser, now jailed for insurance fraud.

"It was like two worlds fighting, with Clayton in the honest world, Haynes said. "And I think Joseph Hauser is one of the finest crooks in the business.

Hauser, 48, has been twice convicted on insurance-kickback and bribery charges. He currently is serving a

Hauser was on the stand for 10 day as prosecutors played dozens of taped conversatons between him, Moore and the defendants. Defense lawyers dismissed Hauser without asking a single question.

30-month term on an insurance fraud

conviction, and pleaded guilty to an-

other bribery charge in exchange for

a promise to work for the FBI.

As he left the courtroom, Clayton said: "This has been an experience I never expected and don't want again. But the verdict supports my belief in the court system."

However, the three-term speaker had some harsh words for the prosecutor, U.S. Attorney Tony Canales. After the verdict, Clayton handed Canales a wooden stake with two inscribed plates on it.

One bore a Canales remark from August: "I want to drive a stake into the heart of Billy Clayton." The other

And Wood said the case would have unfortunate repercussions for the FBI. "The tragedy was that a jury had to put a stamp of disapproval on what our federal government did. There will be from now on some concern about anything done by the FBI and that is a shame.

The veteran legislator, who was seeking an unprecedented fourth term as speaker, declined to say whether he still is a candidate. But executive assistant Rusty Kelley said: "He is going to run for speaker again. I don't think there is any doubt about it."

## Iran may add conditions to free hostages

New conditions for the release of the American hostages in Iran may be added to those outlined by Ayatollah Ruhollah Khomeini, a hardline member of Iran's Parliament said today.

BEIRUT, Leb-

anon (AP) -

He said a spe-

GE

cial committee of the Parliament has finished a report on the 52 U.S. hostages, and the proposed conditions for their release will be presented to the full assembly on Sunday.

But Ali Akbar Nateq Ngori, a mem-

ber of the Islamic Republican Party who sits on the seven-member committee, said in a telephone interview with The Associated Press "some more conditions may be added" to the four basic terms outlined by Ayatollah Ruhollah Khomeini.

Last month Khomeini said the conditions were the return of the late's shah's fortune, a U.S. pledge not to meddle in Iranian affairs, dropping of law suits against Iran, and release of \$8 billion in frozen Iranian assets.

Noori said the conditions proposed by the panel would remain "secret" until they were unveiled to the 228member assembly on Sunday, the hostages' 358th day in captivity.

Asked if the United States was likely to accept the conditions, he said, "Maybe not now that some more will be added, for the conditions may not be limited to the four conditions" of Khomeini

Despite some optimistic predictions that the issue could be solved in a matter of days, Noori suggested the whole process may be time-consum-

ing. "It is unpredictable because opinions vary in the Majlis," or Parliament, he said.

He added it "wont take more than one week" for the first round of debate but that more rounds may be necessary if the full assembly refers the report back to committee for further study or changes.

Noori, who headed the special courts that tried suspected members of the underground anti-clerical group known as Forghan, said more time might be consumed while the U.S. government considers the conditions

"It is not enough to just say, 'we accept,' because our conditions are put in a special way that will be known later," he said. "If the (United States) acts in one minute then we will free them the next moment."

"What I mean by acting is to remove barriers, for example, the transfer of the shah's wealth to some other place so that we can deliver,' said Noori, who was reached through the Iranian Parliament's switchboard in Tehran.

Asked what would happen to the hostages if the U.S. government found the conditions unacceptable, Noori said, "Our first decision will be put in force, the question of trial."

Ali Akbar Parvaresh, another member of the committee, told The Associated Press Wednesday the hostages would not be put on trial if the Parliament approved the committee plan. Prime Minister Mohammad Ali Rajai told The AP earlier this week trial was a "remote" possibility.

Noori also suggested the hostages, who reportedly have been held at scattered locations throughout Iran since an aborted U.S. rescue attempt last April, might be released one at a time or ain small groups rather than altogether.

"This is part of our conditions which as I said may take time," Noori said. Asked if he meant the hostages might be released a few at a time he said, "maybe, yes."

Noori, who said "our report on the

case is ready" for presentation, said that if the conditions were approved by Parliament and accepted by Wshington the details of the transfer would be handled by the government.

"The government has to be in touch with officials or even other nations for carrying out the plan, " said Noori.

Asked how the transfer might be handled, Noori said, "a plane can come and take them if it is decided and they (United States) take action to meet our demands...

He suggested the hostage transfer might be handled in a similar fashion to the return of the eight U.S. servicemen killed in the abortive rescue mis-

## Texas Demos unite, Carter says

TEXARKANA (AP) - President Carter climaxed a whirlwind, threecity campaign tour by straddling the Texas-Arkansas border and encouraging Democratic backers to unite and "stomp the Republicans." With Texas' 26 crucial electoral votes still hanging in the balance, Carter spoke at this two-state city of 52,000 Wednesday after bragging in Beaumont about his energy program and taking credit at a Waco rally for the state's declining unemployment rate.

Standing on a podium under clear, blue skies at the Texarkana post office, which sits across the state line, Carter flailed Republican opponent Ronald Reagan for "wanting to dismantle" Democratic-sponsored social legislation such as the minimum wage, Social Security and Medicaid.

The president said Republicans have tried for years to label Democratic programs designed "to alleviate human suffering" as "Socialist"

and "communist."

Carter drew applause when he pointed out that former presidents John F. Kennedy and Lyndon B. Johnson also had spoken from the same border site.

Local Democrats predicted the president would win support from the agricultural-based area of Northeastern Texas and Southwestern Arkansas simply because he is a Democrat.

"This area has lots of dyed-in-thewool Democrats," said Miller County, Ark., Democratic chairwoman Louann Dean. "That's the way they were born and raised."

Carter was joined in Texarkana by a entourage of top Democrats from Texas, Arkansas, Oklahoma and Louisiana.

The chief executive, who carried Texas over Gerald Ford by only 129,-000 out of more than four million votes cast in 1976, was introduced by U.S. Senator Lloyd Bestsen, D-Texas.

With a broad grin on his face, Bentsen reminded the crowd of his early endorsement of Carter's re-election bid "when he was at the bottom of the polls."

In Beaumont, Carter told an enthusiastic crowd of shipyard workers his energy policies have fueled Texas' economic boom.

Carter said the "long, hard but successful battle" for a comprehensive energy program has led to a record number of drilling rigs, more wells in the planning stage and more coal being mined than ever before.

As a result of these increases, Carter said, more than 900,000 jobs have been made available to Texans, the average per capita income in Texas has increased 40 percent, and unemployment has been slashed dramatically during his term.

The president's remarks drew favorable response from many of the yard workers.

"Mr. Carter has shown he has the

leadership and the capability that this country needs," said Mark Jackson, a 27-year-old welder. "He doesn't claim to be perfect, he admits when he has made a mistake, and he is trying, and I think that is a lot more than you can say for his opponent."

Later in Waco, a crowd estimated at 5,000 gathered on the airport concourse to hear Carter's assertion that his administration is responsible for a 30 percent drop in the state's unemployment rate over the past 21/2 vears.

He also said he was wearing his "stomping boots" which are "designed to stomp Republicans on Nov.

Carter added that high-top boots have other uses.

"Republicans have a habit of spreading a lot of horse manure around right before elections ... and as you know it's getting pretty deep all over the country."

## **Texas** elections said riddled with fraud

AUSTIN, Texas (AP) - Texas elections are riddled with vote finagling and plots to steal elections, according to witnesses at a hearing convened by several Mexican-American organizations.

"I am fully aware that abuses, irregularities and illegalities have existed and I have every reason to suspect that they continue to exist," Secretary of State George Strake said Wednesday.

George Korbel, a San Antonio attorney who serves on a Federal Election Commission panel, offered a list of how-to's for election thievery. Korbel and Strake said the lack of state and

federal prosecution of vote fraud has contributed to the problem.

Little if anything has been done to deal with even blatant election fraud, and this includes both the state and federal authorities with jurisdiction to handle the matters," Korbel said.

Officials from the secretary of state's office agreed with the Hispanic leaders that Attorney General Mark White has a poor record on election fraud matters.

"The record speaks for itself," said Doug Caddy, director of the elections division for the secretary of state. "There just was nothing being done to pursue these violations. From the attorney general on down you have a record of failure to prosecute.

White denied the allegation. He said all cases referred to his office have been pursued.

"It appears that the only one unaware of these efforts is the spokesman for the secretary of state's office who has been in Texas only four months after coming here from Washington, D.C, and who wrote the book "How They Rig Our Elections'," White said.

Panel members said the hearing was called to bring attention to problems Mexican-Americans

council?

## Candidates getting nastier

**By The Associated Press** 

With the race seemingly getting closer as the Nov. 4 election draws nearer, President Carter and Ronald Reagan are more and more doing away with political niceties. Reagan is calling Carter "incompetent," and the president says the Republicans are spreading around "horse manure."

The comments came Monday as a New York Times-CBS poll was released showing the president 1 percentage point ahead of Reagan. CBS said the race was still to close to call, but it was the first major poll putting Carter ahead.

Carter made his "horse manure" remark to a crowd in Waco, Texas, as he displayed a pair of towboy boots he said had been given him by Democratic Rep. Jack Brooks of Texas.

"I grew up on a farm and I know you need boots for things besides stomping Republicans," Carter said. "Republicans have a habit of spreading a lot of horse manure around right before an election, and lately, as you also know, it's been getting pretty deep all over this country."

Reagan, speaking at Centenary College in Louisiana, said of Carter: "The man who is asking four more years is incompetent to do the job.'

Carter and Reagan also traded more jabs over the hostage issue, while independent candidate John Anderson said in Washington he hopes the hostages can be released "immediately" and added:

"To whose political advantage "that innurs is of little consequence as far as I'm concerned." Anderson also said in an interview with The Associated Press

that he may run for president again in 1984 as head of a third political party.

At the same time, he continued to insist he can win this year, but he also said the two-party system could have such a strong grip on voters they may not accept his bipartisan concepts.

The independent candidate was campaigning in Michigan and New York today, while Reagan was again trying to gain votes in Carter's native South. The president was back in the White House for the day.

Power, speed, ease, economy, The 1980 WANT ADS! 682-6222

Carter's showing in the Times-CBS poll was 39 percent, with 38 percent going to Reagan and 9 percent to Anderson.

In a similar poll late last month, Reagan led 40 percent to 35 percent for Carter, with Anderson at 9 percent. CBS noted that the poll has a 3 percent margin of error, making the race was too close to call.

Carter, in Texarkana, Ark., on the Texas border, chided Reagan for claiming to have a "secret plan" to get the 52 American hostages out of Iran, comparing this to Richard Nixon campaigning for president in 1968 saying he had a plan to end the Vietnam War.

'Well, here it is 12 years later, and we still don't know what Mr. Nixon's secret plan was to win the Vietnam War. Now, how many of you Texans with sound judgment familiar with history believe that Ronald Reagan has a secret plan to get the hostages back?" Carter asked.

Reagan, in his comments Tuesday, did not actually say he had a 'secret plan" but did say he had some ideas on how to free the hostages.

On Wednesday in Shreveport, La., Reagan blamed administration policies for the plight of the hostages but said he wasn't going to talk about the issue any more "with 52 human beings at stake.'

"I'm not going to comment on this any more," he said, adding it was "obvious" that the Carter camp "tried to make a political issue of this.

Reagan said Carter was using "reprehensible and unthinkable tactics" but conceded that the president's efforts to paint him as war-like were hurting the Republican campaign for the White House.

## Levee breaks in California

SAN FRANCISCO (AP) - A recently fortified railroad embankment holding back water from a broken levee in the San Joaquin Valley gave way early today, flooding farmland, routing residents and threatening an aqueduct system that supplies water to more than a million people.

The Sante Fe Railway embankment gave way about 2: 15 a.m. as a freight train crossed, leaving a 100-foot breach, according to Lt. Fred Wilson of the San Joaquin County Sheriff's Department.

Two of the train engines slipped off the tracks into the water, but there were no injuries, he said.

An evacuation of about 75 farm families living in the sparsely-populated Lower Jones Tract was ordered, authorities said.

Helicopters from the California Highway Patrol and the San Joaquin County Sheriff's Depaytment airlifted residents from their homes. But authorities allowed some farmers to remain in the threatened area so that valuable farm equipment could be moved to higher ground.

For weeks, the man-made embankment located near Stockton about 40 miles east of San Francisco has been the primary barrier keeping delta floodwaters from the San Joaquin Valley from inundating additional fertile farmland and drinking water pipe lines.

Below the embankment is a network of open aqueducts and pipelines that supply about 1.1 million people in Oakland, Berkeley and other east San Francisco Bay area communities with fresh water. East Bay Municipal Water District workers immediately shut down pumps that boost the water from the aqueduct system pipelines to the East Bay area. That would reduce the flow of water from the system from the 300-million gallons a day to about 200 million gallons, said Dave Vossbrink, a district official.

Officials were considering closing down the aqueduct system, but Vossbrink emphasized that the district has a six-month supply of water in resevoirs and a closure would have no immediate impact on water supplies.

'We are keeping our fingers crossed," he said."There is an absolute threat" to the water supply system.

The water system was not immediately harmed by the break in the embankment, according to officials at the scene.

But district officials had warned as recently as Tuesday that the aqueduct system was in danger unless large-scale improvements were carried out on the levee system.

On Sept. 26, a levee holding back water from the San Joaquin Delta burst, sending floodwaters over the Lower Jones Tract. More than 5,700 acres of rich farmland, with crops nearly ready to harvest, were inundated there, causing more than \$5 million in damage.

Since that 200-foot breach, more than \$2.5 million has been spent fortifying the rail embankment and sealing the broken levee.

The levee, which was sealed Friday, is part of a sometimes-fragile network that protects a patchwork of more than 250,000 acres of farmland in the San Joaquin-Sacramento River delta.

President Carter declared the area a major disaster, freeing federal funds for recovery efforts.

SAN FRANCISCO (AP) - The skipper of a fishing Matthews, 25, of San Diego, the crewman aboard the boat rammed by a freighter in the San Francisco ship channel says he didn't see the big ship until it loomed out of the fog just 50 feet away.

The skipper and sole crewman aboard the Seattle fishing boat Martin Higgins escaped serious injury Wednesday when their vessel collided with the container ship President Grant.

The 78-foot fishing boat, believed sinking, was later lost in the fog.

The collision occurred about two miles outside the Golden Gate. The 17,342-ton President Grant was inbound with containers from the Far East. The fishing boat was outbound after selling a catch of albacore at Fisherman's Wharf.

The 820-foot President Grant had already picked up its local pilot offshore, but the captain, James Colivas, retained ultimate command, a spokesman for American President Lines said.

"I thought I was going to die," said Michael

Martin Higgins, who was rescued by the freighter's crew, along with the skipper, Dan Blocker, 31, of Olympia, Wash.

'I was hanging on so hard they would have had to pull my arm out of the joint," said Matthews, describing the moment after the impact. An instant later, he and Blocker were in the water with the Martin Higgins taking water fast.

Blocker had the President Grant on radar when it was six miles away but didn't see the ship until it appeared out of the fog about 50 feet away. "The President Grant hit us broadside," he said.

He estimated the speed of the freighter at about 25 miles an hour

Richard L. Tavrow, senior vice president for the San Francisco-based American President Lines, declined comment pending a company investigation. Another company source, Steve Potash, said the

President Grant's radar was operating when the vessels hit.

## **Experience** Counts... **Politics Does Not.**

Midland County neither wants nor needs a "political judge." We DO need a judge with wide courtroom experience...who will be a capable and fair judge for ALL the people he serves. PAT BASKIN is that man. He will not engage in partisan politics...he is a conservative who will impartially apply the law, and he will be fair and courteous to every person who appears in your District Court. With 27 years of experience as a trial lawyer, he knows how to conduct the Court and how to administer justice. And he's a good, honorable man.

## We Need The Best!

Sarah Ann Vance, 2808 Emerson Lane, was treated at Midland Memorial Hospital emergency room and released following a three-car collision at 6:55 p.m. at Wadley Avenue and

Ward Street. Edmond Lester Mee III, 3602 Imperial Ave., also was injured but was not taken to the hospital. Ms. Vance and Mee were

driving two of the cars involved. The third driver was Loyd Glenn Abrams, 2806 Andover. (Staff Photo by Brian Hendershot)

## Police burned by scalding water

Two Midland police officers re-ceived burns Wednesday when a federal prisoner threw hot water on them, police said.

Officer Joe Strange was acting as jailer about 5:30 p.m. Wednesday when he reported that federal prisoners were beating on the jail walls, complaining of not getting their cigarettes for the day. Officer Ed Longoria, who was working at the booking desk, came up to ask about the noise. While he was in the jail, Strange said he went around the corridor to turn off the prisoners' television set.

While he was gone, Longoria said one prisoner threw hot water on him, burning him on the head and back. When Strange returned to the front of the cells, the same prisoner also threw hot water on him. The prisoner then jammed the cell door with a mop handle

The two officers advised the prisoners to unjam the door, at which time another prisoner jammed another door with a walking cane. The federal prisoners were ordered to return to their cells. Additional officers came to the jail as back-up, and the prisoners were eventually locked in their cells for the remainder of the evening.

Neither officer required medical attention as a result of their burns.

MIDLAND COUNTY Sheriff's deputies arrested two men, ages 44 and

57, Wednesday evening about 5: 30. Sgt. David Garcia said on Oct. 15 he received a call from a woman who had bought a coupon, entitling her to have her picture taken. She went to the motel room being used as a studio, had her photo taken and was told the prints would arrive in the mail within 10 days. However, the photographs never came, so she notified the Sher-

iff's Department. Garcia said he kept hearing about these men, and Wednesday heard

### Police Roundup

they were in Midland at the Holidome on West Wall Avenue. He went to room 150, and got one of the coupons the men were reportedly selling.

The coupon was for Royalty Frontier Studios out of California with a regional office in Denton. Garcia said when he contacted the studios' offices, he was told the two men worked for the company about a month ago but did not now. Garcia and other deputies returned to the room and arrested the two men for violating the deceptive business law.

HE SAID THEY are also investigating whether the two men are tied to a similar incident in San Angelo. Deputies are also investigating a

rape which reportedly occurred about 3 a.m. today east of Midland.

It was reported to police about 4:50 a.m. Reports said the 19-year-old San Angelo woman was hitchhiking east of town when she was picked up by someone in a brown truck. On the service road to Interstate Highway 20, she reported that she was assaulted. She said she then saw a truck parked on the side of the service road.

According to reports, the woman jumped out of the brown truck and ran to the parked truck, beating on the doors to get attention. The driver of the parked truck opened his door, and the woman jumped inside.

A short time later, police stopped a truck matching the description given by the woman. She identified the man as her attacker, reports said. He was in custody early this morning, but no charges had been filed.

A 21-YEAR-OLD man was in City Jail this morning on charges of misdemeanor possession of marijuana. Officers stopped the vehicle on south Big Spring Street for running a red light, and arrested the driver for being intoxicated. While searching the vehicle, officers found a clear plastic bag containing what they believed to be marijuana.

Accidents kept everyone busy Wednesday

Odessa Highway Patrol officers were called to cover an accident on West Highway 80, two miles west of Terminal, because all Midland DPS

officers were busy.

According to Trooper Jimmy Cardenas, Richard Bufford of Odessa was westbound on U.S. 80 when two concrete objects fell off the back of his truck and landed on the highway about 4:51 p.m. As Ruben Galindo of McCamey approached the objects, the two cars in front of him swerved, but he was unable to see the objects until it was too late. Galindo's vehicle struck the objects, and Galindo received minor injuries. He was treated and released at Midland Memorial emergency room.

Charles Howard Foster Sr., of 3914 Tanner Drive, was treated and released after his car struck a fence in the 3300 block of West Golf Course Road. The accident occurred at 7:02 p.m.

THE FIRE DEPARTMENT had plenty of calls to keep them busy Wednesday, too.

It started with a house fire at 3:27 p.m. at 1008 S. Fort Worth Street. The house was occupied by Jack Lee Jones and owned by William Curry. Cause of the fire has not been determined. The house received heavy damage in the blaze.

Firemen also handled a dumpster fire at 10: 16 p.m. in the rear of 1405 S. Terrell St.

Ten people were transported by CFD ambulance.

### Texas area forecasts

West Texas: Freeze warning Panhandle and northern half of South Plains tonight. Sunny through Friday. Dear and colder tonight. Windy Panhandle today. Highs is north to 85 Big Bend. Lows 25 northwest Panhandle to 8 south except mid 40 Big Bend. Highs Friday 60 xcept mid 70 Big Bend.

South Texas: Partly cloudy today, turning windy and cooler northern sections tonight and south Friday. Slight chance of thundershowers Southeast Texas tonight and extreme south Friday. Highs Friday 70s. Lows 40s northwest to 60s extreme south. Highs Friday 70s.

nging from around 70 to

South Texas: Breezy and cool Saturday becoming partly cloudy by Monday with a slight warming trend. Highs Saturday in the 6th hill country, along the upper coast and parts of southeast Texas, 7th rest of south Texas. Highs Sunday in the 7th, near 80 Lower Rio Grande Valley. Highs Monday in the 7th and 5th. Lows Saturday near 60 hill country and parts of southeast Texas, around 60 along the lower coast, 6th and 5th class. Lows Monday 5th and 5th, near 60 near the coast. Lows Monday 5th and 6th.

North Texas: Mostly fair through Friday. Much cooler tonight and Friday. Highs 75 to 81. Lows 38 northwest to 51 southeast. Highs Friday 64 to 73.

## Temperatures plunge tonight

Better get the blankets out because tonight is going to be chilly, according to the National Weather Service at Midland Regional Airport.

Temperatures will drop to the mid-30s tonight with a northerly wind blowing into the city at 10-20 mph. Skies will be clear throughout the night.

Although Friday should be sunny, temperatures are only expected to reach the mid-60s.

Winds Friday will shift to a northeasterly direction and will be 10-15 mph

The high Wednesday reached only 73 degrees, much cooler than the 89degree record set in 1961. The low this morning was 49 degrees, warmer than the all-time low of 33 degrees for this date set in 1936.

The chilly temperatures should continue in Midland at least through Saturday.

## HUD reviews policy on federal housing location

WASHINGTON (AP) - The De-partment of Housing and Urban Development has been reviewing for the past year a controversial policy that governs the location of federally assisted housing programs outside poor areas, a department official said Wednesday night.

The official, who asked not to be named, said HUD Secretary Moon Landrieu started the internal debate on the policy but no formal decision has been made on altering the poli-CY.

Sterling Tucker, assistant HUD secretary for housing and equal opportunity, was quoted as saying that the department decided to change the policy and allow large cities to build federally subsidized housing in predominantly black neighborhoods.

Tucker said, according to Thursday's Washington Post, the policy would end the requirement that subsidized housing be built in largely white neighborhoods. It will have a major impact on most large cities, he said. He could not be immediately reached for comment.

The policy change will require cities, however, to prove "they are making a serious attempt to deconcentrate" lower-income families and "provide a wider choice" of housing opportunities throughout the city, Tucker said.

The HUD official said the debate over the policy has involved taking "a new look at the (department's) site

and neighborhood standards governing the location of our assisted housing programs.

'That debate recognizes two legitimate national objectives - one, the need to encourage mobility and to expand the choices of minority households in heretofore all white areas .... (and the) needs of older, impacted (predominantly black) areas .... where the population in effect can't wait for a significant breakthrough in integration.

He also said the administration is facing "increasing conservatism in Congress and suburban areas that makes it difficult to meet mobility objectives.

Court decisions have, in effect, restricted the federal government from approving housing projects in predominantly blwck or minority areas when the community has made little effort to provide opportunities for those people to live outside their area. he said.

Current HUD policy permits large cities to build publicly funded housing units in minority areas when there is a compelling need — such as extreme housing shortages or revitalization work - or when the community has shown there are housing possibilities — public housing, rental supplement or some other program — outside the area

"What the debate is all about now is whether we need more flexibility in that standard," he said.

### Absentee votes climbing

Absentee voting in Midland continues to mount, as 1,427 people have voted in person here since absentee voting began Oct. 15 in the County Clerk's Office in the Midland County Courthouse, County Clerk Rosenelle Cherry said after the polls closed Wednesday on the sixth day of balloting.

Voting will continue from 8 a.m. to 5 p.m. weekdays through Oct. 31. On Wednesday, 284 voted absentee, and 52 absentee ballots were mailed out to bring the mail-out ballots stateside and overseas to 1,239. "It has been steady," Ms. Cherry said of the balloting.

The heaviest balloting came on Tuesday, when 301 voted in person, and the low count was 151 on the first day of absentee voting.

In 1976's presidential election year, 4,418 absentee ballots were cast. All told, 27,369 voted that year in Midland County. The turnout reflected about two-thirds of the total voter registration of 37,393.

This year, 44,102 are registered to vote in Midland County in the Nov. 4 general election, according to Janeice Builta, the county's deputy voter registrar.

The last day to register to vote in the election was Oct. 5 - 30 days prior to the election

## 'Scared Straight' inmate held for armed robbery

RIDGEFIELD, N.J. (AP) - Cullen Darby, a paroled convict who spent nine years in the "Scared Straight" project trying to persuade juveniles not to be criminals, is back in jail on new charges of armed robbery and attempted murder, officials say.

Darby, paroled in January 1978 and president of the Lifers Foundation Inc., a private group that works with juveniles, was being held Wednesday in Bergen County Jail.

Darby, 38, of Jersey City, was arrested Sunday while sitting in a parked car. He was charged with robbing a supermarket of an undetermined amount of cash on Saturday and with firing a shot at a pursuing policeman. No one was hurt in that incident.

Sanford Shevack of Paterson, a codirector of the Lifers Foundation of Passaic, was sitting in the car with

### mitting that Mrs. Montgomery killed the fifth-grade schoolteacher in self defense. Spectators line up daily to jam the 200-seat courtroom in the century-old Collin County Courthouse, reopened because the new courthouse couldn't accommodate the turnaway crowds.

The curiosity-seekers - mostly older ladies - show up early with sack lunches, knitting and binoculars - and stay late to watch as the auburn-haired defendant is whisked out a courthouse door into a waiting car.

> In other testimony Wednesday, neighbors described a blood-spattered scene they found when they entered the Gores' unlocked residence and discovered the mutilated body on June 13, a Friday.

"I saw a massive amount of smeared blood on the floor and an ax on the floor," Lester Gaylor testified.

Allan Gore, the 33-year-old husband of the slain woman, previously testified he asked neighbors to go to his house when his wife did not answer his repeated phone calls. The reserved businessman also told jurors

## Ax murder demonstrated to jury with baseball bat

Mrs. Montgomery instigated an 11month affair that ended before the slaving.

He said he never told his wife of the liason.

"There was blood on the floor and traces of blood in the bathroom," said Richard Parker, a realtor who sold the Gores their home three years ago.

Traces of blood in a nearby shower led police to speculate the killer washed away blood after the slay-

**Collin County District Attorney** Tom O'Connell also called three women who worked with Mrs. Montgomery at the Lucas First United Methodist Church, where the Montgomerys and the Gores first met in 1977.

Suzan Wright, Betty Huffines and Barbara Green all said Mrs. Montgomery seemed "normal" when they met her for a Bible school teachers' luncheon the day of the slaying.

Mrs. Huffines said that Mrs. Montgomery told her she was late to the luncheon because she had been visiting with Mrs. Gore and lost track of time when her watch stopped.

Mrs. Wright and Mrs. Huffines said the defendant called them, crying, days after the murder asking if they remembered what she wore to the luncheon.

Mrs. Wright testified "I told her if she was worried she should consult a lawyer, and she said she already had.'

Mrs. Green, a prosecution witness who answered most of O'Connell's questions with "I don't remember." had inadvertantly not been sworn in - an omission overlooked until after almost 20 minutes of questions and answers.

The court recessed after her testimony, and she and the defendant hugged and walked off to an anteroom with their arms around each other.

### PAGE SA

## Clayton says he's still in

## But he ducks direct question

### By LEE JONES **Associated Press Writer**

AUSTIN (AP) - Billy Clayton said all along he would stay in the 1981 speaker's race if he were cleared of Brilab corruption charges before the "frost was on the pumpkin."

"My plans have not changed. ... The frost is not on the pumpkin yet," the speaker said in a telephone interview from Houston after his acquittal Wednesday night.

### An analysis

But Clayton was less emphatic than he might have been and ducked repeatedly when asked if he could simply say the words, "I am a candidate" for an unprecedented fourth term.

Aides said he planned to spend time consulting fellow House members and other advisors, and the unspoken message was Clayton needs to size up his support

Also hedging was Rep. Gib Lewis, D-Fort Worth, who had captured conservative support - including that of Gov. Bill Clements - as Clayton's successor should Clayton be convicted.

Lewis would not immediately declare his withdrawal from the race, saying: "I think it would be unfair to make any comment on it at this time.'

"I think probably Gib and I need to talk," Clayton said. A variety of scenarios have been played out in said

Capitol conversations about what might happen should Clayton be found innocent.

In one, Clayton decides to bow out after numerous members tell him, "Billy, I'm for you. But even though the jury acquitted you, those tapes looked bad to my folks. If I vote for you, I'm through as far as they're concerned.'

But in another scenario, Clayton calls in all his chits for past favors, insists on a face-saving fourth term, tells House members he wants nothing beyond that and agrees to new limits on his power as Speaker.

The House, in turn, welcomes a breather from the hot and heavy race between Lewis and Rep. John Bryant, D-Dallas. Some legislators, uncomfortable in a world of crooks with Lewis' lobby ties and Bryant's intensity, see two more years of Clayton as an opportunity for new choices to emerge. Clayton is re-elected speak-

Former Rep. Mike Millsap, Lewis' campaign manager, said Clayton's style would be to announce his re-entry into the speaker's race only if he could prove to the world he already had it won.

"If Bill Clayton comes out and says, 'I am a candidate for speaker,' he will do so by laying out 90 Haynes, 24, of LaPorte. "I feel like a lot of peo-to 100 names (of pledged supporters)," Millsap said. ple put a lot of different words in Clayton's The 150 House members elect their speaker by majority vote on the first day of the legislative session in January.

Despite Lewis' hedging, Millsap said he would not be a candidate against Clayton "under any foreseeable circumstances." The key word seemed to be "foreseeable."

lieved" for Clayton and his family but believed the government presented a concise, good case.

Brilab case demonstrated the need for reforms to trim the power of the speakership.

The Legislature needs to "permanently eliminate the impression that the way to change public policy is simply to visit the speaker's office," Bryant

Rusty Kelley, Clayton's executive assistant and an unindicted co-conspirator, said that partly as a result of Brilab, Clayton was interested in creation of an ethics commission that would issue guidelines of 'do's and don'ts" for legislators.

"He is very serious bout it," Kelley said. Kelley said he would recommend that Clayton make himself less accessible to lobbyists by following a daily calendar of appointments "so we can talk about who he is going to see before he sees them."

Joseph Hauser, the FBI's chief witness, came to see Clayton without warning and left after giving Clayton \$5,000 which Kelley kept in his credenza for more than three months.

Kelley also spoke of installing closed circuit television "so we can see who is waiting" in Clayton's anteroom.

Kelley, whose involvement in Brilab cost him over \$20,000 in legal fees and travel expenses, said he felt he as well as Clayton was vindicated by the verdict.

Gov. Bill Clements, who has had a friendly working relationship with Clayton, welcomed the verdict.

"I am delighted that he came out of it with an acquittal. I just can't tell you how pleased I am with that verdict. I think it is marvelous," Clements

Comptroller Bob Bullock, two of whose former employees, Randall "Buck Wood and Donald Ray, were acquitted with Clayton, also hailed the verdict.

'They were put through this ordeal by the federal government, our government, and it was wrong from the start. These three persons were snared into this sham because they were led to believe they could do something good for the state employees of Texas," Bullock said.

## Clayton: 'Honest man

HOUSTON (AP) - One of the jurors who acquitted Texas House Speaker Billy Clayton in the Texas Brilab trial portrayed the veteran politician as an honest man fighting for his career against a world of crooks

"It was like two worlds fighting, with Clayton in the honest world and I think (Joseph) Hauser is one of the finest crooks in the business," said Jimmy Haynes, 24, of LaPorte. "I feel like a lot of peomouth.

Haynes was of a seven woman-vive man jury that deliberated eight hours before finding Clayton and Austin attorneys Donald Ray and Randall Wood innocent of wirefraud, conspiracy, extortion, and racketeering, following a six-week federal trial.

I'm gla\$ the decision has been made," Haynes Bryant issued a statement saying he was "re- said. "The tapes were difficult and I don't think the

## Clayton's hometown friends delighted with jury's verdict

EARTH, Texas (AP) - News of House Speaker Billy Clayton's acquittal in the Texas Brilab trial swept across this small rural community faster than a West Texas dust storm as townspeople jammed telephone lines to rejoice about the victory of their favorite hometown boy.

"We're pretty jubilant about it," said Ray Freedman, publisher of the Earth News-Sun. "I don't think there was ever much thought around here he was guilty. Just about anybody you'd talk to around here is a friend of Billy Wayne."

"He had the whole community behind him, the whole area, really," Freedman said, after receiving word of the verdict Wednesday afternoon. A Houston federal jury deliberated

eight hours before finding Clayton and Austin attorneys Randall Wood

racketeering, fraud and conspiricy. The charges spelled out a scheme to buy Clayton's influence in reopening a multi-million dollar state employees' health insurance contract and grew out of a 10-month FBI undercover operation.

Word of the trial's outcome spread quickly, and by early evening towns-folk had started to plan a big homecoming party for Clayton when he returns to his farm.

"We never had any doubt what kind of a person Billy Clayton is," said neighbor and longtime friend Dorothy Parish. "We've just known him too long ... and knew he'd never do anything like what they said he did."

Clayton's family had anxiously awaited the jury's conclusion, but speaker's younger brother said their good faith was never shaken.

### DEATHS Vivian J. Selby

PAGE 10A

Services for Vivian J. Selby, 85, 3807-A W. Storey Ave., were to be at 4:30 p.m. today in Newnie W. Ellis Funeral Home chapel with the Rev. Bob Ford, pastor of St. Mark's United Methodist Church officiating.

Burial will be Saturday at Forest Park Cemetery in Houston. Mrs. Selby died Wednesday in a

Midland hospital. She was born Feb. 3, 1895, in Choudrant, La. Mrs. Selby moved to Midland four years ago from Houston where she had lived for most of her life. She was a member of St. Mark's United Methodist Church in Midland and a member of the Delphian Society.

Survivors include a sister, Earline Gaddy of Midland; a brother, L.F. Julian of Dallas; and four grandchildren.

### Victoria Villa

STANTON - Services for Victoria Rodriguez Villa, 71, of Stanton will be at 11 a.m. Friday at St. Joesph's Catholic Church with the Rev. Robert **Bush officiating**.

Burial will be in St. Joseph's Cemetery directed by Gilbreath Funeral Home.

Mrs. Villa died Monday after a brief illness in Saltillo, Mexico, where she was visiting

She was born May 10, 1919, at Presidio. She moved to Stanton in 1949 from Nebraska.

Survivors include four sons, Jose Vila of Odessa, Emilio Villa Sr. of Stanton, Santos Villa of Seymour, and the Rev. Lucio Villa Jr. of Houston; six daughters, Cruz Hernandez of Colordao Springs, Colo., Minnie Saenz of Odessa, Patsy Garza of Lenorah, and Carolina Bryand, Juanita Hinojosa and Josephina Hinojosa, all of Stanton; 54 grandchildren and 54 great-grandchildren.

### Israelis bomb guerrilla targets

BEIRUT, Lebanon (AP) - Israeli warplanes in their first attack in Lebanon in two months bombed and rocketed Palestinian targets south of Beirut.

Palestinians reported several civilian casualties in the hour-long attack at sundown Wednesday. The Christian radio station Voice of Lebanon said 31 people were injured.

### 'Andy' Andrews

E.E. "Andy" Andrews, 55, of 106 N. Bentwood Drive, died Monday in a Midland hospital after an illness.

Services were to be at 3 p.m. today in First Baptist Church with Dr. Daniel Vestal, pastor of First Baptist Church, officiating. Masonic grave-side services will be at 4 p.m Friday in the Masonic Cemetery of Gonzales. Services are under the direction of Newnie W. Ellis Funeral Home.

Andrews was born Sept. 19, 1925, in Montezuma, Ga. He was reared in Georgia. He entered the U.S. Army Air Force and was a prisoner of war in Yugoslavia. He received three Bronze Stars, the Purple Heart and Air Medal and was a B-17 radio operator and technical sergeant. He was a member of the 463 Bomb Group, 772 Bomb Squadron, North Oppenniner, Central Europe. After his discharge he attended the University of Georgia and received a degree in agricultural engineering. He was associated with Texas Electric Service Co. for six years, with Dixie Electric in Odessa and was with the City of Midland in the engineering department for several years. For the past nine months he was head of security for Green Tree Country Club. He was a member of the First Baptist Church.

Survivors include his wife, Ann C. Andrews of Midland; a son, Lee Paul Andrews of Midland; a daughter, Lesla Ruth Daniels of Vidor; and a granddaughter and a niece.

The family suggests that memorials be directed to Hospice in care of the Episcopal Church of the Holy Trinity, or the Allison Permian Basin Cancer Therapy Center in care of Midland Memorial Hospital.

### Floyd D. Upfold

Services for Floyd D. Upfold, 63, 808 W. Golf Course Road, were at 10 a.m. Wednesday in Newnie W. Ellis Funeral Home chapel with Dr. O.A. McBrayer, pastor of St. Luke's United Methodist Church, officiating. Burial was in Resthaven Memorial Park.

Upfold died Monday in a Midland hospital after a lengthy illness.

Pallbearers were Harve Shavor and Dwayne Johnston, both of Lubbock, William E. Greene, Connie R. Patterson, Leo McCollum and A.L. Lindsey, all of Midland.

Honorary pallbearers were Bill Williams, J.C. Roberts, Jack E. King, Dee McMillan, Bardie Tryon Jr., W.E. Boone, John Stanley, Stephen Wiesenfeld, Allen Wade, Bill Barlow, and W.E. Holman.

## Court halts deportation of mayors

JERUSALEM (AP) — The Israeli Supreme Court issued a temporary injunction today against the deportation of two Palestinian mayors from the occupied West Bank until their case is reviewed by the court.

Judge Miriam Ben Porath issued the injunction, which was seen primarily as a technical measure allowing the mayors to stay close at hand until their appeal is ruled upon, probably next week. Israeli military authorities had already promised not to deport the mayors until their case was dealt with by the court.

Mayors Fahd Qawasmeh of Hebron and Mohammed Milhem of Halhoul appealed to the court to overrule the deportation order issued by Israeli occupation authorities six months ago. The two were exiled from the West Bank in the wake of the May 3 Palestinian attack in Hebron that killed six Jewish settlers.

Qawasmeh and Milhem are on a hunger strike in an Israeli customs house on the Jordan River, where they are in custody pending the hearing of their appeal.

In a separate development, a Jewish anti-Arab extremist was freed from prison on orders from Prime Minister Menachem Begin, but his movements were limited to the Jerusalem area.

Baruch Green was released Wednesday after serving six months without trial, and received written orders from the military chief of central Israel forbidding him to leave Jerusalem and obliging him to report to a police station every day.

Green was jailed along with Rabbi Meir Kahane.

### 50 kids die, many hurt in Spain school blast

BILBAO, Spain (AP) - An explosion in a school at Ortuella near here killed upwards of 50 children, rescue workers said today. More than a hundred children were injured, many of them seriously, officials said.

Rescue workers said 24 bodies had been removed from the debris, but that many other children were still trapped and cries could be heard.

The disaster, police said, was apparently due to the explosion of a propane gas tank, which in turn caused the explosion of a heating boiler.

There were about 700 children in the "Marcelino Ugalde" school, comprised of three buildings. The explosion almost completely destroyed one of them, officials said.

The children in the school were from 6 to 10 years old

All rescue services in Vizcaya Province, one of Spain's northern Basque provinces, were mobilized. More than 5,000 persons were working in the rescue operation.

There were dramatic scenes as parents and relatives sought their children. More than 100 weeping women shouted the names of children who remained unaccounted for.

Most of the children attending the state-run school came from poor families. The Ortuella area is an iron mining region about eight miles northwest of Bilbao

## **ON'T WAIT FOR RETIREMENT TO START PLANNING** FOR IT...

Start now.

Consider starting your own Individual Retirement Account. If you work for a firm which does not have a retirement plan you can save up to \$1500 or 15% of your wages each year and defer taxes on this amount until you retire.

Or, if you've recently retired from a company and are looking for ways to invest your previous plan benefits, you may wish to "roll over" all or a portion of these benefits into an IRA.

The IRA offers you compounded interest on your retirement savings while sheltering the savings until you have a lower tax responsibility.

Opening an IRA is as easy as opening a Savings Account. Come by and see our Personal Services Group for details.

A great ank to call your own.

after the Legislative nine months of this year, Coucil put into law proposals by the Hong Kong governor, Sir Murray MacLehose, to abolish the so-called "touch base" policy, which permitted Chinese who evaded border guards and made it into urban areas to stay in this British colony.

In explaining the new law, Sir Murray said a massive influx of illegal Chinese, especially during the last two years, threatened the future prosperity of Hong Kong and had already put a severe strain on housing, education facilities and social services.

The governor said the former policy "has become a tragic charade in which the(illegal immigrant has little to lose and everything to gain by attempting to run the gauntlet of Chinese and Hong Kong forces, and even if caught has every incentive to try again.

The Chinese accuse us, with some justification, of applying a policy which positively welcomes immigrants," he said. He said the new law was approved by the Peking government.

The law, which does not apply to the 150 Chinese who legally immigrate here daily, provides a three-day amnesty for illegal immigrants already in Hong Kong to apply for identification cards.

After the amnesty period, it gives Hong Kong authorities power to arrest and repatriate all illegal immigrants no matter where they are found and makes it a crime punishable by a maximum \$10,000 fine or one year imprisonment to employ illegal immigrants.

## Three discovery potentials taken

Operators have reported potential tests on discoveries in Crockett, Reagan and Runnels counties.

Marshall R. Young Oil Co. of Fort Worth No. 1-14-33 University fialed as an Ellenburger discovery in the Perner Ranch (Devonian, Simpson and Canyon gas) pool of Crockett County, 20 miles southwest of Ozona. The operator reported a calculated absolute open

flow potential of 4,600,000 cubic feet of gas per day, natural, through perforations at 9,395-9,470 feet. No fluid was produced with the gas.

The well also was completed as a dual producer from the Devonian. That zone potential for a calculated absolute open flow of 2,900,000 cubic feet of dry gas per day, through perfortions from 9,395 to 9,470 feet. It is the fifth Devonian well in the field and 3/4mile east of another Devonian well.

The operator called the following tops on ground elevation of 2,525 feet: Strawn, 8,458; Devonian, 8,628; Fusselman, 8,899; Waddell, 9,202, and Ellenburger, 9,392

Location is 1,832 feet from north and 830 feet from west lines of section 14, block 33, University Lands survey.

#### **REAGAN STRIKE**

Tracy Engineering Co. of Gainesville has completed its No. 1-25 Vaughn, a former Grayburg oil producer in the Texon, South field of Reagan County as an unidentified discovery.

The operator reported a calculated absolute open flow potential of 412,000 cubic feet of gas per day, natural, through perforations from 3,031 to 3,042 feet.

Total depth is 3,285 feet and plugged back depth is 3,175 feet.

Location is 15 miles southwest of Big Lake and 660 feet from south and 1,980 feet from east lines of section 25, block 1, University Lands survey.

### **DUAL RUNNELS OPENER**

Tex-Star Petroleum of Abilene No. 1 Fuller has been completed as a dual Mississippian discovery and Morris reopener in the Henson multipay field of Runnels County, 1½ miles east of Crews.

From the Morris, it finaled for a 24-hour flowing potential of 68 barrels of 41.5-gravity oil, no water, with gas-oil ratio of 2,941-1.

Completion was through a 15/64-inch choke and perforations from 3,467 to 3,477 feet after 500 gallons of acid.

From the Mississippian, through perforations from 4,434 to 4,438 feet, the strike finaled for a daily flowing potential of 40 barrels of 41.5-gravity oil and two barrels of water, with a gas-oil ratio of 13,275-1. The flow was gauged through a 1/4-inch choke.

The Morris was topped at 3,459 feet and the Mississippian was entenred at 4,402 feet. The top of the Ellenburger is 4,510 feet. Kelly bushing elevation is 1,934 feet.

Wellsite is 470 feet from north and 1,000 feet from west lines of section 124, ETRR survey.

#### **CROCKETT WELL**

William Perlman of Houston No. 1-100 General Crude and others has been completed and assigned to the Ozona (Canyon gas) field of Crockett County, 41/2 miles west of Ozona.

It finaled for a calculated absolute open flow potential of 440,000 cubic feet of gas per day, through perforations from 7,179 to 7,199 feet after a 37,550-gallon fracture treatment.

The well is 1% miles south of other Canyon gas production and 933 feet from south and east lines of section 100, block 1, I&GN survey.

### **HOWARD OILER**

Amoco Production Co., operating from Midland, las completed its No. 115 Texas Land & Mortgage Co. "AA" as a 1/2-mile south extension to the Coaloma,

been complted as the fourth well in the Orla, Southeast (Delaware) field oxf Reeves County, 10 miles northwest of Orla.

The operator reported a 24-hour pumping potential of 80 barrels of 35-gravity oil and 18 barrels of water, through perforations from 3,582 to 3,596 feet. The

gas-oil ratio is 625-1. Total depth is 3,712 feet, 4½-inch pipe is set on bottom and hole is plugged back to 3,656 feet.

The pay was acidized with 80 gallons.

Wellsite is 660 feet from north and east lines of section 28, block 56, T&P survey.

Petroleum Technical Services Co. No. 1-11 Worsham is a new producer in the Worsham, Southwest (Delaware) field of Reeves County, 12 miles west of Coyano-Sa.

On 24-hour potential test it flowed 227 barrels of 35.4-gravity oil and 25 barrels of water, with a gas-oil ratio of 320-1.

Completion was through a 15/64-inch choke and perforations from 5,114 to 5,115 feet after a 200-galle mud acid wash and a 2,000-gallon fracture treatmet Total depth is 5,127 feet, 4½-inch pipe was lande on bottom and hole is plugged back to 5,124 feet.

The pay was topped at 5,114 feet on ground eleation of 2,692 feet.

Location is 820 feet from south and 660 feet form east lines of section 11, block C-6, psl survey.

#### REAGAN WELL

Saxon Oil Co. No. 1-22-10 University is new well in the Reagan County portion of the Sprberry Trend Area field.

It is 5/8 mile south of the closest ther Spraberry production.

On 24-hour potential test, the welljumped 41 barrels of 40-gravity oil and 184 barrels of ater, with a gas-oil ratio of 1,122-1.

Completion was through perfations from 5,789 to 7,321 feet after 3,000 gallons of cid and 126,000 gallons of fracture fluid.

Location is 1,980 feet from north and 660 feet from east lines of section 22, bick 10, University Lands survey and five miles nort of Big Lake.

#### **IRION COUNTY**

The Howda field of Irin County gained its 10th Clear Fork well with comption of Phoenix Resources of Pleasanton No. 3 Sug "B."

The well finaled fe a daily pumping potential of 40.5 barrels of 32.5-grasty oil and 11 barrels of water, with

a gas-oil ratio of 383-1. Completion we through perforations from 4,450 to 4,689 feet and form 4,807 to 4,854 feet. The zones had

been acidized with 3,000 gallons and fractured with 60,350 galoons Drilled as wildcat, the project is bottomed at 5,040

feet and 414inch casing is set at 5,030 feet. The plugged back dept/1s 4,940 feet. Locatic is 830 feet from north and 710 feet from west

lines of section 47, block 14, H&TC survey and one locatior east of other Clear Fork production.

### COKI COUNTY

The Peppart (Palo Pinto) field of Coke County gained its ixth well with completion of Walsh and Trant Inc. of wchita Falls No. 1 Pruitt.

The well, 1.9 miles northeast of Bronte, finaled on the ump for 12 barrels of 39-gravity oil and 80 barrels of water, through perforations from 4,432 to 4,4381/2 feet and from 4,448 to 4,458 feet.

Completion was after a 1,000-gallon acid wash and a 1,000-gallon acid treatment.

Location is 2,283 feet from north and 867 feet from east lines of section 427, block 1-A, H&TC survey.

IRION WELL

### Meadco Properties of Midland No. 1-10 UT is a new

## More wildcats, field tests staked in West Texas areas

Wildcat/perations have been announced of Howard, Andrews, Sutton and To Green counties, and field operations were reported in several other vest Texas counties.

HCARD WILDCAT Jole Operating Co., Inc., of Ri-Jardson No. f Maurene Bars and others will be dug as an 8,000-foot wildcat 20 miles northeast of Big Spring in Howard County, The prospector is 680 feet from

south and 920 feet from east lines of section 14, block 25, H&TC survey. It

> ENERGY OIL & GAS

is 7/8 miles southwest of Canyon reef production in the Sara-Mag field. The pay is at 7,580 feet.

### ANDREWS EXPLORER

Hunt Oil Co. of Dallas No. 4 W. J. Underwood is to be drilled as a 5,000foot wildcat in Andrews County, 2.7 miles northwest of Florey.

**Operator** staked location 467 feet from south and 2,173 feet from east lines of section 17, block A-34, psl survey.

The drillsite is 1/4 mile north of the closest production in the Block A-34 multipay field.

### SUTTON TESTER

William Perlman of Houston has rescheduled his No. 2-134 Dan Cauthorn as an 8,250-foot wildcat in Sutton County, 14 miles southwest of Sonora.

Originally scheduled to 7,500 feet as a Canyon test in the Shurley Ranch multipay field, it is 723 feet from north and 1,371 feet from east lines of section 134, block C, HE&WT survey.

On last report, the project was waiting on completion unit at total depth of 8,200 feet.

#### TOM GREEN TRY

General American Oil Co. of Texas, Odessa, spotted No. 1 Jameson as a 5,100-foot wildcat eight miles southwest of San Angelo in Tom Green County.

It is 660 feet from the middle north line and 1,500 feet from the dmiddle east line of section 13, TCRR survey.

Drillsite is 1% miles southeast of the depleted Rio Concho (Strawn and Middle Strawn) field and 5/8 mile east of a 6,705-foot dry hole.

### STERLING FIELD TEST

HNG Oil Co. of Midland No. 2-22 McEntire is to be drilled as an 8,800foot project in the two-well Credo, East (upper Cisco) field of Sterling County, six miles northwest of Sterling City. Location is 660 feet from north and 1,320 feet from west lines of section 22, block 23, H&TC survey.

Ground elevation is 2,571 feet. The project also is 3/4 mile southeast of the Dow-Mayer (Spraberry-Dean) field.

Moran Exploration Inc., operating from Midland, announced location for a 7,500-foot project 3/4 mile southeast of one of the five wells in the Andrew A (Canyon oil) pool of Irion County, 15 miles northwest of Mertzon.

It is No. 1-3057 A. A. Sugg, 660 feet from north and 1,980 feet from east lines of section 3057, block 28, H&TC survey.

### TOM GREEN PROJECT

Tucker Drilling Co., Inc., of San Angelo spotted No. 1-9 Sutton 11/4 miles north of dual Strawn and Ellenburger production in the two-well Bald Eagle field of Tom Green County, 12 miles northwest of San Angelo.

The project, scheduled to 6,900 feet will test both pays. The drillsite is 2,173 feet from south and 2,050 feet from west lines of section 9, SA&MG survey, abstract 1953. Ground elevation is 2,332 feet.

### CROCKETT LOCATIONS

Blue Ridge Oil & Gas Exploration, Inc., of Detroit, Mich., staked five dprojects in the Adams-Baggett Ranch (Canyon sand gas) pool of Crockett County, 27 miles south of Ozona

Each of the projets will be drilled to 5,500 feet.

No. 7 Adams is 1/2 mile west of production and 1,320 feet from north and west lines of section 154, block O, GH&SA survey.

No. 8 Adams, 1/2 mile west of production, is 1,320 feet from south and west lines of section 154, block O, GH&SA survey.

No. 9 Adams is 5/8 mile northwest of production and 1,320 feet from south and west lines of section 127, block O, GH&SA survey.

No. 11 Adams is 3/4 mile northwest of production and 1,320 feet from north and west lines of section 114, block O, GH&SA survey.

No. 12 Adams will be drilled 5/8 mile west of production and 1,540 feet

North (Fusselman) field of Howard County.

The well, three miles east of Coahoma, completed for a daily flowing potential of 160 barrels of 48. Fgravity oil and 10 barrels of water, with a gas-oil ratio of 306-1.

Completion was through a 12/64-inch hoke and perforations from 8,828 to 8,864 feet after a 3,600-gallon acid job.

Location is 565 feet from south and 2107 feet from east lines of section 5, blck 30, T-1-S, TkeP survey.

### **REEVES PRODUCERS**

Southern Union Exploration Co. 10. 1 Meeker has

well in the Acker (Canyon) field of Irion County

The producer extends the pool 11/4 miles east.

On 24-hour potential test it pumped 20 barrels of 43-gravity oil and 20 barrels of water, through perfora-

tions opposite the Canyon sand from 6,708 to 6,765 feet. The pay was acidized with 3,000 gallons and fractured

with 40,000 gallons. Total depth is 7,500 feet and 41/2-inch casing is cemented on bottom. The gas-oil ratio is 174-1.

Wellsite is 1,980 feet from north and 660 feet from east lines of secton 10, block 6, H&TC survey and 25 miles northeast of Barnhart.

**Proceedings** data requested

LOS ANGELES (AP) - The Los Angeles Times has asked the 9th U.S. Circuit Court of Appeals to order the release of secret proceedings in the trial of five reputed Mafia figures.

Times attorneys said Wednesday that U.S. District Judge Terry Hatter has not shown that the five defendants' rights to a fair trial would be prejudiced by releasing the sealed material to the public and press.

**DRILLING REPORT** 

PECOS COUNTY NAPECO No. 1 Centurios; drilling 22,546 feet in shale and chert. PDC Gas Co. No. 10 University; drilling 1,405 feet in lime. Gulf No. 1 Maddox Unit; drilling 13,443 feet in shale. HNG No. 1-20 Allisos; drilling 9,048

REEVES COUNTY

Hatter, who has excluded the press and public from jury selection and two evidentiary motions in the case, said he believed the news media was disseminating information on the case "in the interest of making money" and refused to unseal transcripts of the proceedings.

The judge previously said he supported the British system of limiting coverage of trials.

Hatter and attorneys in the Mafia trial were served with copies of the petition in the courtroom.

The Times attorneys on Tuesday argued a motion joined by The Associated Press, The Long Beach Independent-Press-Telegram and the Greater Los Angeles Press Club asking the judge for similar relief.

The Times appeal asked that if that judge decides to close further portions of the trial he give the press sufficient notice to have attorneys come to court and argue against closure.

The defendants on trial, Dominic Phillip Brooklier, Samuel Orlando Sciortino, Louis Tom Dragna, Michael Rizzitello and Jack LoCicero, are charged with racketeering, conspiracy, obstruction of justice and

### Regulation suspended

WASHINGTON (AP) - President Carter has signed a bill suspending proposed drilling mud regulations that the measure's sponsor said could have more than doubled the cost of drilling for oil and gas, the White House announced today.

The measure by Sen. Lloyd Bentsen, D-Texas, was included in the Solid Waste Disposal Act signed Tuesday by the president.

"We've been watching the price of oil go through the roof, so it is nonsense to contemplate unneeded government regulation of drilling mud that would increase the price even more," Bentsen said after the longpending measure was approved by Congress earlier this month.

The bill delays for at least two years a proposal by the Environmental Protection Agency to regulate drilling mud as a hazardous waste. It also requires congressional action before any such regulation could be put into effect.

Drilling mud is used at wells to bring up pieces of rock ground up by the drilling bit and to cool the bit. The mud then is dumped into pits for drying after it is used.

### REAGAN PROJECTS

Champlin Petroleum Co. of Midland announced location for an 8,800foot project in the Reagan County portion of the Conger, Southwest (Pennsylvanian) field,

It is No. 2 Cope-Bodine, 760 feet from south and west lines of section 50, block 2, T&P survey and 19.7 miles southwest of Sterling City.

La. C. & V. C. Inc. of Metairie, La., staked No. 1 University Lands "V" as a 1¼-mile west outpost to the Reagan County portion of the Farmer (San Andres oil) pool, 15 miles souteast of Big Lake

Contrcted to 2,650 feet, it is 330 feet from south and 1,707 feet from east lines of section 12, block 48, University Lands survey.

#### KING TEST

Daniel F. Secker of Midland staked No. 3 Anna E. Masterson as a 1%-mile northeast outpost to the two-well Tom B (conglomerate gas) pool of King County, 20 miles northeast of Gurthrie.

Location for the 6,300-foot operation. is 660 feet from north and 1,980 feet from east lines of section 19, Indianola RR survey.

#### NOLAN AREA

Mobil Producing Texas & New Mexico Inc. will drill No. 1 J. A. Maddox as a north offset to its No. 1 J.D. Maddox, discovery well of the one-well White Hat, Northwest (Ellenburger) field of Nolan County, 22 miles south of Sweetwat4er. Scheduled to 7,200 feet, it is 476 feet

from south and 840 feet from east lines of secton 60, block 1-A, H&TC survey.

**IRION OUTPOSTS** 

Indian Wells Oil Co. of Ozona will dig No. 1-60 Harris as a 1%-mile northeast outpost to oil production in the Probandt (Canyon) field of Irion County, 19.2 miles northwest of Mertzon.

Scheduled to 7,400 feet, it is 467 feet from south and west lines of secton 60, block 6, H&TC survey.

ARCO Oil & Gas Co., operating from Midland, staked a pair of outposts to the Irion County portion of the Spraberry Trend area.

Each of the projects will be drilled to 6,400 feet three miles north of Barnhart.

No. 1-44 R. F. Mayer is 1% miles south of production and 760 feet from south and 660 feet from west lines of section 44, Washington RR survey. Ground elevation is 2,665 feet.

## Hearing of newborn babies now being computer tested

### **Copley News Service**

NATIONAL CITY, Calif. - For a newborn baby, hearing and reacting to sound at an early age are two of the keys to a normal life.

Until recently, however, children were not tested at birth, diminishing the chance of improving their hearing later in life once a problem was detected.

Now a computer, conceived by a San Francisco doctor and built by volunteers, tests sleeping infants at more than a dozen hospitals throughout the Western United States to ensure they won't spend a life isolated by deafness.

Eighteen months ago, Paradise Valley Hospital in National City, a suburb of San Diego, became the fourth hospital in the nation to join the Infant Hearing Assessment Pro-

neer, refined by Bell Laboratories' volunteers and built by the Telephone Pioneers, a group of longtime telephone company workers.

The test provides an early diagnosis of deafness which is important since an infant's auditory system is almost fully developed at birth, according to Claude Moss, a Telephone Pioneer who coordinates the 30 volunteers providing the testing service at Paradise Valley.

"Deafness is the most devastating of all handicaps," said Moss, a Pacific Telephone employee. "Children must be able to hear at a young age so they can speak and develop normally in other areas."

There are 15 million hearing-impaired persons in the United States. It is estimated that 120,000 hearing-impaired infantsare born each year.

### President plans town meeting

**GENERAL NEWS** 

MARKETS

TOLEDO, Ohio (AP) - President Carter will conduct a town meeting in this northwestern Ohio city Saturday, his campaign headquarters has confirmed.

The site has not been chosen, but the president is scheduled to arrive at Toledo Express Airport at 9:30 a.m.

and depart immediately after the forum, a spokeswoman from the national Carter-Mondale re-election campaign said Tuesday.

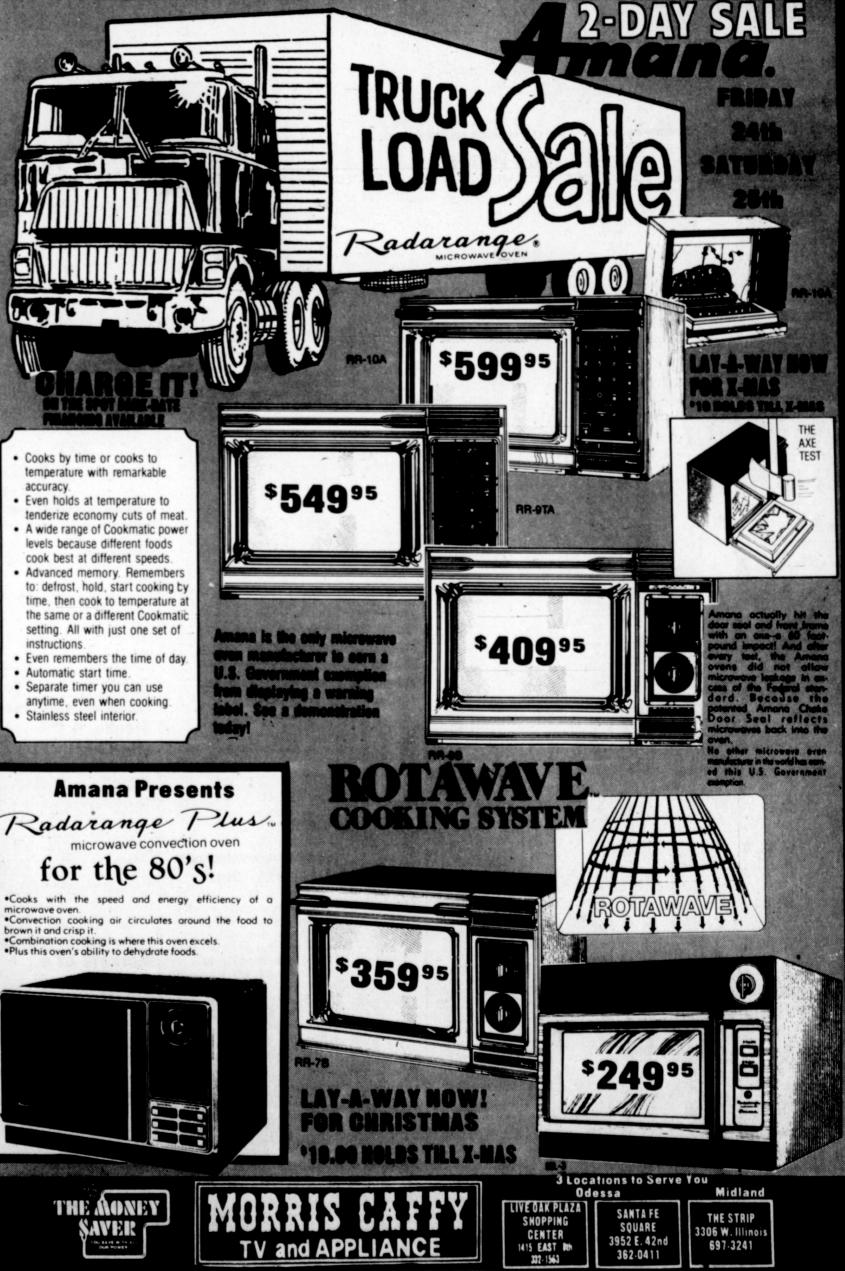

PAGE 1D

Carter held a similar meeting Monday in Youngstown. The program, broadcast live on WFMJ-TV, involved a studio audience of 40 people who asked him questions.

### **BUSINESS MIRROR** Some consider it no difference

By JOHN CUNNIFF AP Business Analyst

NEW YORK (AP) - The life expectancy at birth of a U.S. female is just over 77 years. For a man it is just over 69 years. That's eight years by most calculations, but some see it as no difference at all.

They assert that to claim a difference is to discriminate unfairly. Male and female are equally human, they say, and human life expectancy at birth in the United States is 73 years. They are the unisexers. As you might expect, the unisex concept is produc-

ing considerable confusion in the insurance industry, in which insurance costs and benefits, and annuities too, are based on precise actuarial tables.

You might even say actuarial tables, the mathematical odds, are the foundation of the business, and that the business of insurance is merely that of spreading the known risks, in the manner of a casino.

That neat, ostensibly objective arrangement is now threatened with disarray because, as some actuaries say, the unisexers refuse to believe in differences, including mathematic and genetic.

The unisexers won't buy that. Individuals are individuals, not actuarial contrivances, they say. William M. Mercer Inc., the nation's largest em-ployee benefit consulting firm, puts it this way:

"A particular woman may not live longer than a particular man, and our discrimination laws have focused on individuals, not groups. Therefore, it is argued that sex differentiated mortality tables can no longer be used to establish different benefit amounts."

Mercer, which must advise companies on their benefits programs, is justifiably worried. It can search through legislative, judicial and regulatory decisions, but it will find more confusion than guidance.

"The differences in life expectancy have not changed," it states ruefully. "Social attitudes have changed."

Reflecting those changes, a major retirement fund - the Teachers Insurance and Annuity Association-College Retirement Equities Fund - is considering a unisex mortality table to determine monthly benefits.
