"ridiculous" and "heartless." Reagan - in quieter, but biting fringe of the main event. The Illinois congressman watched the Cleveland debate from a stage in Washington and responded to the same ques-

On the issue of nuclear war, Anderson said he saw no difference between Carter and Reagan.

"I have become convinced there really is no significant difference between them on whether we can fight a limited nuclear war," said Anderson. "There is no such thing as limited nuclear war."

Carter and Reagan started slowly like two boxers warily testing each other out in the opening round of a championship bout. But the action began to heat up when the second question from the four-person panel dealt with inflation.

Responding first, Carter blamed OPEC increases in oil prices which he called "oil shocks" for the high inflation rates, particularly during the first quarter of 1980, and said his policies for dealing with the economy are "very sound and very carefully considered."

War and peace

REAGAN: "To maintain ... peace requires strength. America has never gotten into a war because we were too strong. We can get into a war by letting events get out of hand as they have in the last 31/2 years."

CARTER: "Habitually, Governor Reagan has advocated the injection of military forces into troubled areas when I and my predecessors ... have advocated resolving those troubles peacefully and diplomatically."

Energy

CARTER: "He (Reagan) wants to put all our eggs into one basket and give that basket to the oil companies."

REAGAN: "I just believe private enterprise can do a better job" of spurring energy development. "I'm sug-gesting there are literally thousands of unnecessary regulations. ... I would like to see us a little more free, as we once were."

SALT treaty

CARTER: "When a man who hopes to be president says, 'Take this treaty, discard it ... do not finally

capitalize on this long negotiation,' that is a very dangerous and disturbing thing.

REAGAN: "We have been out-negotiated for some time." He said his call for reopening negotiations with the Soviet Union was "hardly throwing away a treaty and being opposed to arms control."

Social security

CARTER: "As long as there is a Democratic president in the White House, we will have a strong and viable Social Security system free of the threat of bankruptcy.

REAGAN: "The Social Security system was based on a false premise with regard to how fast ... the number of retirees would increase. It is actuarially out of balance ... trillions of dollars out of balance."

The future

CARTER: "Our nation, to stay strong, to stay at peace, to raise high the banner of human rights, to set an example for the rest of the world ... is my plan for the future.

REAGAN: "This country doesn't have to be in the shape that it is in ... I would like to have a crusade today ... to take government off the backs of the great people of this country."

language of his own - blamed Carter for inflation and unemployment and said he couldn't describe his differences with the president on the uses of American military power "because I don't know what Mr. Carter's policies are.

Repeatedly, Reagan said his positions on issues were being distorted by the president.

After the 90-minute debate, the two men shook hands briefly and then joined their wives and supporters in pre-midnight rallies

Carter said he "felt very good," but he cautioned supporters that "we've got another week to go. Next Tuesday the decision will be not in the hands of debate judges or the League of Women Voters or the press. The decision will be in the hands of millions of Americans like you."

At a similar rally a few blocks away, Reagan said, "I seemed to do all right. I've examined myself and I can't find any wounds ... It gave me an opportunity to raise some issues about the failures of this administration.

"We had the offensive; Reagan was on the defensive," said Gerald Rafshoon, the advertising chief for the Carter campaign. It was a reversal of the usual relationship between incumbent and challenger.

The debate played to tens of millions of television viewers - pre-debate estimates ranged from 60 million to 85 million - and many others who tuned into radio broadcasts. The candidates answered questions from four

By LANA CUNNINGHAM Staff Writer

Midland City Council held firm to its earlier decision to change the zoning on land contiguous to Midland High School, despite the appearance of several Midland school board members at the council's Tuesday

meeting. The council, meeting in regular session in City Hall Council Chambers, approved on second reading an ordinance to change the zoning on blocks between C and G streets on the north side of Illiinois Avenue and between D and G streets on the south side from MF-2, multiple family, to O-1, office. Mayor G. Thane Akins advised the

school members that the public hearing on the subject was closed at the last council session when the request came up for a first reading.

The request had been made by Ron Boerm, who is wanting to turn one of the houses in the area into a real estate office.

Akins said the council considered the request "strictly on the merit of good planning and zoning. We don't look at what it will do with property values. That street (Illinois Avenue) carries 10,000 or so vehicles a day, and that takes it away from residential use as we think of it."

The present MF-2 zoning allows for high-rise apartment buildings and this would generate more traffic than already is on Illinois, he claimed. The mayor also pointed out that most of the residents in the area were in favor of the zone change.

But Councilman Gordon Marcum II disagreed with Akins, charging that the zone change is being done on a speculative basis.

"We just did the same thing on Texas Avenue," retorted Akins. "Are you going to tell me what's going to be happening on every lot in that zone change?'

"But there are more plans on Texas than what we have now (for Illinois)," Marcum answered

Akins charged he could give Marcum "a list of every place you've voted in favor of change in similar circumstances.

Part of what Marcum objected to, he answered, is the fact the zone change would be continuing the strip office zoning the city started on Wall and Texas streets "and now it's going to spread to Missouri (Avenue).

Councilman Tom Sloan said he (See CITY AGAIN, Page 2A)

United Way campaign has 62 percent of goal

As of 10 a.m. today, the United Way of Midland had received \$713,528.10 in pledges or 62 percent of this year's \$1,150,000 campaign goal, with approximately 70 percent of the goal expected to be reported at noon.

The next United Way report is at noon, Nov. 5, at the Midland Center. The United Way campaign leadership hopes to achieve 85 percent of the goal at this time.

'Moderate' opposes 'conservative'

taking a close look at the local races and candidates in the Nov. 4 general election.

By ED TODD Staff Writer

A retired high-school government teacher who beholds himself as a "moderate" and who feels obligated to serve his community and a 46-year-old conservative, crusading woman who pledges that she knows the difference "between needed services and frills" are seeking the Midland County Precinct 3 commissioner's post in Tuesday's general election.

Alexandra Morris, the Republican candidate who senses a "need for a change," and her opponent, C. DeWayne Davis, a self-avowed moderate, are vying for the post to be vacated by Jack Leonard, 56, a oneterm commissioner who lost his bid for re-election to another four-year term to Davis in the Democratic

Party primary election last May 3. Ms. Morris defeated challengers J.R. "Bob" Harris and Gordon Casbeer in the GOP primary.

"I AM RUNNING because I see a need for a change," said Ms. Morris, "and I have worked with the commissioners' court and with the governmental systems."

Ms. Morris is former executive director of the now-defunct Midland Community Action Agency and was first president of Permian Basin Planned Parenthood. "I am very opposed to abortion as an

Cold front sets records in Basin area

THE MIDLAND REPORTER-TELEGRAM, WED., OCTOBER 29, 1980

That cold front that swept into Midland Monday evening, dropping snow and sleet throughout much of the Permian Basin, definitely was a record-setter, according to the National Weather Service at Midland Regional Airport.

In fact, it set at least three new weather records in Midland and no telling how many others throughout the area.

The cold front brought the coldest temperature so far this month to Midland. It also was the lowest temperature this early in the season. And this morning's "low" reading - 27 degrees - broke the previous record low for this date which had been 37 degrees, set in 1930.

Tuesday's "high" temperature was 46 degrees and that was set at midnight Monday. Record high temperature for Tuesday's date is 91 degrees, set in 1950. But that record wasn't ever in danger Tuesday

Snow fell intermittently throughout most of the Permian Basin Tuesday, but weather-watchers noted the flakes melted as they hit the ground. At Big Spring, an unofficial source reported that Tuesday's snowfall there was the earliest ever although it was not measurable.

HI Lo Pre Odla 34.11 cdy 25 clr 27 clr 33.35 cdy 39.13 clr 39.13 clr 39.13 clr 39.25 cdy 25 cdy 25 cdy 26 clr 30 clr 30 clr 30 clr 30 cdy 25 cdy 26 clr 27 cdy 26 clr 21 clr 26 cdy 21 clr 26 clr 27 cdy 26 cdy 27 cdy 26 clr 27 cdy 26 cdy 27 cdy 26 cdr 27 cdr 28 cdy 29 cdr 20 cdr 20 cdr 20 cdr 20 cdr 21 clr 24 cdr 24 cdr 25 cdy 26 cdr 26 cdr 27 cdr 26 cdr 27 cdr 28 cdr 29 cdr 29 cdr 20 cdr 20 cdr 20 cdr 20 cdr 20 cdr 21 cdr 24 cdr 24 cdr 25 cdy 26 cdr 26 cdr 27 cdy 26 cdr 27 cdy 26 cdr 27 cdr 28 cdr 29 cdr 29 cdr 20 c Meanwhile, the forecast is calling for fair skies through Thursday Temperatures should not be as cold and it will be warmer on Thursday. Low temperature tonight is expected to drop to near 30 again and the high on Thursday should reach the middle 60s.

Winds tonight will be light and variable, but they'll become southerly on Thursday and blow at 5-10 mph.

The snow brought .02 inch of moisture to Midland Tuesday, boosting the monthly total to .12 inch. The total for 1980 so far stands at 15.83 inches.

The blustery cold front that moved through the coastal plains brought brisk winds and cloudiness to the area, while the mercury plunged in the Panhandle.

It was just plain cold early Wednesday in Dalhart, which posted a 23 degree reading. Amarillo had a shivery 24, and it was 25 in Lubbock. Abilene and Wink were slightly warmer at 30 degrees.

One dead, two injured in mishap

CRANE - An Odessa man died and three others were hurt Tuesday in a one-vehicle accident 12.6 miles south of Crane on U.S. Highway 385 at 7:30

The car, driven by James Edward Ybarra, 27, of Odessa, was northbound on the highway in a construction zone. The car ran off the roadway and struck the rear of an earth moving machine, according to Department of Public Safety reports.

Iowa State University freshman Tim Schwartz was among the many central Iowans who found themselves in the middle of the season's first snowfall on Monday. The record-breaking October

snowfall measured 2 inches in Ames, where the ISU campus is located, and 7 inches in Des Moines, 30 miles south, where accident, fires and power outages were reported. (AP Laserphoto)

Council considering formation of lake in Wadley-Barron Park

By LANA CUNNINGHAM Staff Writer

Wadley-Barron Park has posed a problem for months for the Midland City Council and city officials. The problem is standing water which has seemed to defy all methods to get rid of it.

The city has tried pumping it out; they've tried to let Mother Nature dry it out. But the water is still there.

So, on Tuesday the City Council looked at turning the park, located at A Street and Cuthbert Avenue, into just exactly what it is becoming - a lake.

City Manager James Brown told the council the water isn't the remains of rains about a month ago. Parks made out of playa lakes, such as Wadley-Barron, are used to catch runoff rain water. But the water usually evaporates after a few days of sunshine. Or, the city can pump it out.

The situation at Wadley-Barron is caused by ground water surfacing into the bottom of the playa lake, said Brown. "The pump is still running and the water level is higher than before," he added.

The city can take its pick of three solutions, he said. The council can excavate the park and make a lake out

local hydrologist who has looked at Wadley-Barron Park, said the water table in that area is rising because of the residents who irrigate their lawns and the lack of water wells. This water table is building up above a limestone layer and "it looks like it's permanent," said Kohout.

What concerned the council Tuesday, however, was how would they be held liable in case of an accident, such as a drowning, at the lake.

Kohout said Lubbock posts No

City again turns down school's zoning request

(Continued from Page 1A)

agreed with Marcum, "but when people in the neighborhood want the zoning changed, we should do it."

The vote on second reading went the same way as on the first - five for and Marcum against.

After listening to a suggested amendment on the freight loading zone ordinance, the council decided to adopt the recommendation. After the city adopted the first ordinance, Mike

security fence suggested by the council would "take away from the aesthetic value," said City Attorney Joe Nuessle. The council instructed Kohout and

Swimming signs around the areas. A

Brown to take a closer look at how the park could be turned into a lake. Sloan chided the council that "here we have a situation that is unique and you're talking about filling it up or

fencing it off. Potentially, it could be a real asset to the community."

the general contractor and reduces the amount of paperwork for the city.

Hennessy said it still would require the plumbers and electricians to take out a permit to make sure they are qualified.

The council postponed setting a public hearing on devising standards for Texas Electric Service Co. and Pioneer Natural Gas Co. The state **Railroad Commission and Public Uti**ities Commission will be setting statewide standards and the council will look at adopting these when they are made public. In other action, the council approved purchasing baggage carts for use by the public at Midland Regional Airport, changed the cycle of lights at Garfield and Industrial streets, approved an ordinance limiting and regulating portable and temporary signs, granted a franchise on first reading for Tall City Cab, and settled a claim by Robert D. Wright of Hurst against the city of Midland.

Ybarra was pronounced dead at the scene by Crane County Peace Justice Mary Teague. His body was taken to a Crane funeral home

Three passengers in the vehicle were injured. Leo Nunez, 20, of Odessa, was treated at Odessa Medical Center for scratches, head and facial injuries and later released. Oscar Rodriguez, 27, of Odessa was in stable condition this morning in Medical Center with head injuries, and Greg Paredez, 25, of Odessa was also in stable condition in Medical Center with pelvis and leg injuries.

of it; the lake can be filled in; or the park can be left just the way it is.

"It's a disgrace the way it is now," said Councilman Tom Sloan. Wayne Kohout, director of parks and recreation, said he is talking with Lubbock officials to see how they resolved a similar problem with

playa lakes located primarily on the Texas Tech University campus. The problem areas on the Tech campus were transformed into "very attractive water features," said Kohout. Depth of these playa lakes was deepened to achieve the right effect.

Kohout related that Ed Reed, a

businessmen who objected to it came up with some ideas for change.

The recommendations call for each business applying for permits for their vehicles to park in the freight loading zones. Each permit will be \$10, and the vehicle must display a 7-by-11 inch sign in the window. If a business is found to be violating use of the zone, the permit will be forfeited.

A business vehicle parked there more than 30 minutes can be fined a miniumum of \$25 and no more than \$200. And the vehicle can be towed away

After hearing a presentation from Richard Hennessy, director of planning and community development, on changing the fee schedule for electrical and building permits, the council decided to look at combining all fees into one.

Hennessy said some cities are charging one building fee and this will cover the cost for building permit, electrical and plumbing fees. Called a construction permit fee, it is paid by

Hand reattached

NEW YORK (AP) - A severed hand that flew out a 16th-floor window after an electric saw accident has been successfully attached to the 44vear-old Manhattan man who lost it, hospital officials report.

After an eight-hour operation, doctors at Bellevue Hospital said the hand "appears to have taken very well," according to a spokeswoman.

Morris vs. Davis in Precinct 3

(Continued from Page 1A)

appears to be the only clearly definable Democraticcontrolled precinct in the county. Precinct 3 takes in extreme south and southeast Midland and south central and southeast Midland County and includes the Midkiff area.

Davis indicated that his politics wouldn't serve him well in at least one of the other three precincts.

"I WOULDN'T RUN in the northwest part of the town, unless I was an avowed Republican," he said.

Davis's "classroom politics" have taken him to the campus of Midland High School, where he taught for 17 years; to Odessa College for nine summers; to Midland College; and to Sul Ross State University in Alpine for one summer. He holds the bachelor's degree (1941) in political science from North Texas State University and the master's degree (1979) in public administration from Sul Ross State Universi-

By The Associated Press

Over the years, Davis has developed theories about governmental service.

"I believe that public office is a trust and not a position," he said. "You can stay too long sometimes. I just do not believe in perpetuation of a person in public office."

HOWEVER, HE NOTED that "Some people have to have that job (for a livelihood)," and indicated that he doesn't. Nor does Ms. Morris.

"I'm a pretty independent person in action, thought and words, really," he said.

One action which Davis had contemplated should he be elected commissioner was to revamp the county roads and grade and pave the dirt ones. But he revised his thoughts on that once he learned that the county's road-and-bridge department's budget allows for the paving on only two miles of roads per year in each of the four commissioner precincts.

"If that's the case," he said, "we're in bad trouble. That's what the people really need to know."

Davis indicated that he would become a scholar of another sort - that he would learn practical goven-

ment. And since he'd be open to public review as a politician, he'd be precise in words.

"You had better keep your mouth shut until you know what's the score," he theorized. If elected, Davis said he would spend tax dollars wisely and would advocate more pay and effective

work by fewer employees, rather than less pay and ineffective work by many employees.

"I had rather have less people — quality people and pay them well, rather than have a bunch of people doing shoddy work."

Though Davis said he is a "registered Democrat," he said he's not a straight party-lever puller.

"I've crossed the party lines and will continue to cross the party lines.'

MS. MORRIS said she is not opposed to change if it is for the public good.

'Just because a law is a law doesn't mean that it's right," she said.

'There are laws that need changing here. The county and the country are in constant evolution. And just because something is a statute doesn't mean that it's right."

"I think because something has been the same since 1492 doesn't mean it can't be changed.'

In her campaigning, Ms. Morris is advocating "better budget planning ... to stop wasting your hardearned tax dollars." She is pushing for better county roads which she became familiar with in growing up on a ranch. And she is promoting expansion of the Midland County Public Library and Museum and is pledging to effect "better county services" for the

people. "This county has a phenomenal projected growth,

and it's developing some problems," she said. The Republican candidate, who, if elected, would be the first woman to hold the commissionership in Midland County, also suggested that the pay for commissioners should be re-evaulated.

"I question that they might not ought to be on salary," she said, "or on a token salary, like the city councilmen." With a salary, "commissioner's job should be full-time," she said.

Though Ms. Morris might be labeled a conservative, she promotes social programs which benefit people and which help people help themselves.

"I don't believe in government give-away programs," she said. "I'm against soup lines" and against child slave labor, but she is for repeal of the minimum wage for teen-agers in order to increase the employment rate for minority youths who are out of jobs.

"But I can support, guide and encourage. "I will not promise the impossible," Ms. Morris has said. "I do promise to represent all the people in Precinct No. 3."

Midland man held on drug charge; Man reports theft

A Midland man was in City Jail this morning on charges of misdemeanor possession of marijuana. Police arrested the man around 10

Police Roundup

p.m. Tuesday for public intoxication in the 900 block of East Florida Avenue. While searching the man at the Police Department booking desk, officers found a matchbox containing what appeared to be marijuana.

Woman killed, others injured

ANDREWS - A two-vehicle accident 13.3 miles south of here Tuesday resulted in the death of an Andrews woman and injuries to two others.

The Department of Public Safety said the accident occurred at 5:30 p.m. on U.S. Highway 385. Cars driven by Glenda R. Greene of Odessa and Cristine R. Rosser, 52, of Andrews collided, causing the Rosser vehicle to overturn 21/4 times. All of the occupants in the car were thrown out.

Ms. Rosser was pronounced dead by Dr. Brian Gordon at Permian General Hospital in Andrews. Passengers in the Rosser vehicle were Delma Gonzales, 32, of Andrews, in good condition in Permian General with abrasions and back injuries; and Cherri Morris, 24, of Andrews, treated at Permian General and released.

Tony Holder reported the theft of a set of gray, metal louvers sometime Tuesday night.

Police were told that Holder parked his car at the Cowboys Lounge, 3920 W. Wall Ave. When he returned to his car early this morning, he discovered that someone had stolen the louvers off the automobile. They were valued at \$125.

A 15-year-old youth was injured Tuesday afternoon when she was struck by a car.

According to reports, Traci Wright ran from between two buses parked at the curb in the 900 block of West Illinois Avenue and ran into the path of a car being driven by Kenneth Harlen Draper of Star Route A.

Ms. Wright, 1305 S. Colorado Ave., was taken to Midland Memorial Hospital emergency room, where she was treated and released.

can hostages, sources in Tehran close to the debate reported today. The Majlis, Iran's 228-member parliament, scheduled the public meeting after a stormy, fourhour debate behind closed doors

today, the sources said.

They said the report of the special committee set up weeks ago to propose conditions for freeing the Americans would be read, the report would be debat-

ed and a vote would be taken. Observers in the Iranian capital said it appeared that the public session, decided on after nearly 12 hours of secret debate failed to produce a consensus, would bring the hostage crisis to a head after nearly a year.

Today was the 361st day of captivity for the Americans.

Informed sources said the Majlis was still deeply divided over the terms to be proposed to the United States, and the debate today was extremely heat-

CES,

The parliament met for its third day of secret debate at 8:10 a.m. after a one-day suspension Tuesday for a religious holiday. It met for a total of eight hours Sunday and Monday, but some of the time Monday was spent on discussion of the war with Iraq. Reports from sources close to the debate indicate

ed. At one point, several deputies walked out.

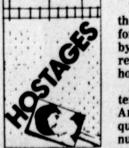

that two things are delaying agreement: demands for conditions in addition to the four listed last month by Ayatollah Ruhollah Khomeini, the leader of the revolutionary regime, and demands that some of the hostages be tried as spies.

number of the deputies favor prosecutions for espionage and are determined to extend the debate as long as they can.

Khomeini's four conditions were the return of the fortune which the Iranian government claims the late Shah Mohammad Reza Pahlavi invested abroad, the release of the billions of dollars in Iranian assets frozen by President Carter after the hostages were taken, abandonment of all legal claims against Iran by American firms and private persons and a pledge from the U.S. government of non-interference in Iranian affairs.

Carter, Reagan make 'equal' gains in polls

By The Associated Press

President Carter and Ronald Reagan made significant and roughly equal gains in the preferences of registered voters as a result of their campaign debate, an exclusive poll by The Associated Press says.

The poll found that, in a debatewatching audience that leaned to Republican presidential candidate Reagan in the first place, each man gained 6 percentage points, mowtly from the ranks of the previously undecided.

The nationwide canvass surveyed 1,062 registered voters who watched the debate on television Tuesday night. It yielded results from which each side could claim "victory" in the long-awaited confrontation.

In addition to the 6-point gains, the chief findings of the poll, taken in the 80 minutes after the debate went off the air, were these:

-More Reagan supporters watched than did Carter supporters.

-In this Reagan-leaning audience, 46 percent said he did the better job while 34 percent said Democrat Carter did - a margin that roughly parallels the margin between them among the 1,062 both before and after the debate. -Neither man made significant inroads into the other's camp. Both held on to virtually all of their supporters who watched the debate. -Viewer reaction to the debate broke along partisan lines, with those who generally agreed with Reagan thinking he did the best job while Carter scored highest with those who found him well informed and-or in agreement with their views. The poll was conducted in two stages. A scientifically stlected nationwide sample of 1,488 registered

Voters may still be undecided

But experts says Reagan 'narrowly won

By DON McLEOD AP Political Writer

WASHINGTON (AP) - The long-awaited debate may have left undecided voters still unable to make up their minds, even though Ronald Reagan scored a narrow forensic victory, according to a panel of debate experts.

Seven of the country's leading speech authorities, marking the same scorecards used to judge scholastic competition, gave Reagan 161 points to 160 for Carter in the Tuesday night debate.

"Of eight questions I had four for Reagan and four for Carter," said Barbara O'Connor, a speech professor at California State University-Sacramento.

"This was one of the closest debates in political terms which I've ever witnessed," said Dr. James Unger, director of forensics at Georgetown University in Washington, D.C. "If you wanted to call it anything, I would call it a dead heat.'

'If there was a disappointment, people were watching this debate to make up their minds," said Unger, who was chairman of the panel. "I suspect this debate may make it more difficult, rather than less difficult, for them to make up their minds."

Professor Melissa Wade, Director of Forensics at Emory University in Atlanta, favored Carter by two points on her ballot, but said the performance did nothing to help her decide how to vote next Tues-

day. "I haven't made up my mind, and tonight didn't make it any easier," Mrs. Wade said.

Three judges favored Reagan's debating performance, while two gave Carter higher scores and two others called it a draw. The cumulative scores for the two candidates totaled 321 points out of a possible 420, indicating both debaters did extremely well in the eyes of the experts.

The overall scorecard reflected the judges' conclusion that neither man made a major mistake and that both gave the kind of performance that had been expected

received 30 points in the "presentation" category, the highest score either candidate achieved. Carter got 27, a high score except in comparison to Reagan's

Professor William Southworth, University of Redlands (Calif.): Carter 22, Reagan 23. In a Sept. 21 debate between Reagan and indepen-

dent presidential candidate John B. Anderson, the same panel judged Anderson the winner by a score of 169 to 154. Carter did not participate in that debate.

Parson said Reagan performed better against Carter than he did against Anderson. "I think Reagan was much more responsive than he was in the first debate," Parson said.

Southworth said that after watching Reagan and Carter debate, he is leaning toward a vote for Anderson

Mrs. Jack Merritt Supports **Tom McGinnis for County Constable**

Hattie Merritt, wife of the late Constable of Midland County, supports Tom McGinnis for the position of Constable in the 1980 campaign race. Mrs. Merritt and her family feel Tom McGinnis has continuously proven his ability to perform the duties of Constable in the same strong tradition that the people of Midland County have come to expect. Mrs. Merritt sees Tom McGinnis as an active and educated law enforcement officer willing to devote long hours and hard work to keep Midland a good place for citizens to make a home. Finally and most important, Mrs. Merritt sees Tom McGinnis as a man dedicated to the preservation of the honesty and integrity within the Constable's office that her own husband spent many years in building. Therefore, Mrs. Merritt and her family ask you to elect Tom McGinnis as your Constable on November

Sadat and Qaddafi playing a deadly game

One Qaddafi plot against Sadat was discovered by Israeli intelligence and the Egyptian president was tipped off. Sadat angrily ordered a border attack on Libya. Alarmed by this open clash, the United States quietly stepped in. "Our advice to Tripoli and Cairo has been to cool it, including the assassination plots," an intelligence source told my associate Dale Van Atta.

But the plots keep coming "every three to six months," including one by Qaddafi to blow up Sadat's plane on his way home from Washington last April. Our intelligence agents learned of the plot and Sadat was routed through England instead.

Qaddafi's latest ploy is to build a

SCAM was one of the biggest disappointments of the year, and the FBI better get its act together before the show is canceled from the air.

The first thing I believe the bureau will have to do is get in someone who knows television. If the FBI expects to stay in show biz, they should ap-point Freddie Silverman of NBC as the new director of the FBI.

Then they will have to move their headquarters to Hollywood where all the studios are equipped to handle this kind of series.

They're going to have to cast their show with professional actors. You can't risk putting amateur FBI agents in key roles when millions of dollars are at stake. You need a Peter Falk, Lloyd Nolan and Angie Dickinson to play the parts of the undercover agents. The congressmen can play themselves, since they seem to have their hearts in their work more than the FBI actors.

In order to keep up the interest of the audience, you can't stage the entire sting operation in a hotel room. You have to go outside and show shots of automobile chases and work in a few hot love scenes. That may not have anything to do with ABSCAM but will keep the people from turning the dial.

Lee Remick could play the frustrated wife of one of the FBI undercover men who takes to drink because her husband keeps going out every night dressed as an Arab sheik and won't tell her what he's up to.

She could be having an affair with a labor leader who she doesn't know is also an FBI undercover agent. The possibilities are endless to make AB-SCAM into another "Dallas.

The American people deserve more for their tax money than scratchy tape with unintelligible dialogue. You either produce a sting operation with class or you don't put it on the air. We can't have a law enforcement agency that thinks all it needs to get an Emmy award is a hand-held Sony camera and a cassette of half-inch tape. Anyone can catch a crooked congressman taking money, but it

Hance's constituents here in the 19th Congressional District, either.

facturers of America, Inc.

the Treasury Award."

That's because since he took office Hance has maintained the high standard of representation to which the people of this district have become accustomed.

Economy in government is a principle the hard-working, freedom-loving people of this area understand and strive to preserve.

So presentation of the award really is no more than reaffirmation of something we had already realized: Kent Hance is serving his constituency well as an extension of the values and principles embraced by the people of this district.

For that we are glad and Rep. Hance has every right to be proud.

Tougher bond laws

Federal narcotics agents are chagrined, with reason, at the number of Latin American drug dealers who thumb their nose at U.S. laws.

True, the Drug Enforcement Administration is making plenty of arrests and seizing large shipments of illicit drugs.

But the wealthy "cocaine cowboys," a name coined by Florida police after a series of drug-war shootouts, rarely stand trial. They simply post the bond demanded by the courts as a condition of release from jail and skip blithely back to Bolivia or Colombia, where they are safe from prosecution.

And the drug-smuggling profits are so great that it is not unusual for the cash-loaded criminals to forfeit as much as \$1 million in

Under present laws, judges cannot hold the smugglers without bond until after conviction.

bond.

A bill introduced in the Senate by Sam Nunn, a Democrat, would give the courts more leeway in tightening bond standards. They would be allowed to consider the probability of the accused committing another crime - or skipping the country.

WASHINGTON - A deadly twoman game has been going on for years in the Middle East - and both players are men who should know better. The participants, President Anwar Sadat of Egypt and Libyan strongman Muammar Qaddafi, have been trying, by one means or another, to remove the other from the playing field "with extreme prejudice" - by assassination or violent overthrow.

WASHINGTON-MERRY-GO-ROUND

This updated version of "The Most Dangerous Game" has been followed with some nervousness by the American intelligence community. U.S. hopes for peace and stability in the region would blow sky-high if either Sadat or Qaddafi succeeded in rub-

In public, Sadat has called his desert neighbor crazy, childish and suffering from a Napoleonic complex. In private, he has planned Qaddafi's assassination.

"President Sadat," says one of sev-

TODAY IN HISTORY

NICK THIMMISCH

The bill is stalled in Congress. It deserves a healthy push.

with Fidel Castro.

Five years ago: President Ford said he was prepared to veto any bill to rescue New York City by having the federal government guarantee the availability of funds to prevent a default.

One year ago: New York City police arrested 959 anti-nuclear demonstrators who tried to close the New York Stock Exchange on the 50th anniversary of the stock market crash.

Today's birthday: Actor Richard Drevfuss is 33. Thought for Today: True friendship is like sound health. The value of it is seldom known until it is lost - C.C.

Colton, English clergyman-writer (circa 1780-1851).

Anti-Semitism charge dirties Illinois congressional race

The seesaw struggle between the two leaders is chronicled in U.S. intelligence files. The falling-out began nearly a decade ago. Qaddafi, a young pan-Arab zealot, was an admirer of Sadat's revolutionary colleague and predecessor, Gamal Abdel Nasser, the charismatic military man who masterminded the ouster of Egypt's playboy King Farouk in the 1950s. Nasser at one point tried to unite Egypt and Libya as a first step in creating one great Arab nation.

Qaddafi - who even lived for a time in Sadat's home - came to believe that Sadat had betrayed the Nasser dream and the pan-Arab cause. Even before Sadat solidified this suspicion by making peace with Israel, the two Arab rivals indulged in what State Department analysts described in their reports as "bizarre adventures" aimed at each other's throat.

In actual numbers, Qaddafi has probably planned more violence against Sadat than the other way around. But Sadat has done his share.

eral top-secret CIA reports, "has ordered the Egyptian intelligence service to draw up plans to overthrow Libyan President Qaddafi ... Sadat reportedly stipulated that the coup should appear to originate within Libya, and that care be taken to conceal Egypt's hand ... Sadat is apparently going about the planning

with some caution. One of many Qaddafi plots against Sadat is described in a top-secret State Department report. It tells of a meeting between the Libyan dictator and George Habash, a member of one of the Palestinian terrorist groups Qaddafi has bankrolled to the tune of some \$70 million a year.

Habash was promised all the money he needed to engineer Sadat's overthrow, according to the report. The plot was to involve leftist Egyptian army officers, Palestinians and communists, and was to include "a plan to assassinate the Egyptian leader, using non-Arab terrorists to avoid damaging the Palestinian position in the Arab world."

187-mile "Chinese Wall" between Libya and Egypt. But it's doubtful that, in this case, a good fence will make good neighbors.

ENERGETIC PROMOTION: Evidently sapped by criticism in the press, the Department of Energy has roused itself to publish its own highquality newspaper in hopes of getting its self-serving message across to state, county and local governments across the country. It's costing the taxpayers a bundle.

The promotional "news" publication is called Energy Forum, and it is filled with self-congratulatory articles and pictures of Carter administration officials supposedly solving the nation's energy problems. The expensively produced promotional rag costs about \$1.25 a copy, not counting overhead and the salaries of government employees who put it

Three issues of Energy Forum have been published so far, each edition costing more than \$14,000. DOE poohbahs claim the newspaper is needed to familiarize local government officials with the department's activities

What they fail to mention, though, is that much of Energy Forum's information is contained in a less ritzy DOE publication that is sent out to many of the same local governments. Called Energy Insider, the economy version costs only about 12 cents a copy to produce.

DRUG CRIMES: There's new evidence which suggests that desperate heroin addicts - needing \$150 a day to support their habits - are responsible for hundreds of thousands of street crimes annually. One recent study in Miami, for example, concluded that 239 heroin addicts were known to be responsible for an incredible total of 80,000 criminal offenses.

Another lengthy test conducted by a respected drug researcher, Dr. John Ball of Temple University, showed that over an 11-year period 243 addicts accounted for an estimated 473,-000 crimes. Ball also discovered that the test subjects were six times as likely to commit crimes while suffering from heroin addiction as while off drugs.

WHO TO WRITE

Following is a list of the names and address of various state and federal officials Midlanders may wish to contact from time to time:

PRESIDENT: Jimmy Carter, The President, The White House, Washington, D.C. 20500.

SENATORS: Lloyd Bentsen (D) and John Tower (R), Senate Office Building, Washington, D.C. 20515.

REPRESENTATIVE: Kent Hance (D), House Office Building, Washington, D.C. 20515. Also Room 208, George Mahon Federal Building, 200 E. Wall, Midland, TX 79701.

GOVERNOR: Bill Clements (R), State Capitol Building, Austin, TX 78701

STATE SENATOR: W.E. "Pete" Snelson (D), Senatorial District 25. 319 N. Colorado St., Midland, TX 683-5464

STATE REPRESENTATIVE: Tom Craddick (R), Representative Dis-trict 68, 408 W. Wall St., Midland, TX 682-7918.

BIBLE VERSE

Thou shalt fear the Lord thy God, and serve him and shalt swear by his name. Deut. 6:13.

incumbent Congressman Paul Findley, described by a Jewish House colleague as a "fine human being," fights charges in the Jewish press that he is a "practicing" and "ardent" anti-Semite. This heavy accusation is based on Findley's dalliance with PLO leader Yasser Arafat and actions in Con-

gress interpreted as "anti-Israel." Findley's young, two-fisted, Jewish opponent, David Robinson, trying to raise funds in several Jewish communities outside Illinois, hit Findley with slanderous ads and appeals.

His effort brought an outpouring of contributions and forced Bob Hope, nominally a loyal Republican, to cancel a fund-raising appearance for Findley. But Robinson's ambition also caused many thoughtful Jews to anguish over deciding what is anti-Semitic, or anti-Israel or valid criticism of the Jewish state. Fortunately, wiser heads are cooling this acrimonious situation.

The assault was the work of Jimmy Klaber, a Robinson staffer, describing himself in the ads as a former official of the Anti-Defamation League (ADL) of B'nai B'rith. Klaber wrote that "Paul Findley is a practicing anti-Semite ... One of the worst enemies that Jews and Israel have ever faced in the history of the U.S. Congress. NOW is the time for us to rise up and help David slay the PLO Goliath. Please contribute generously NOW!"

Klaber, whom Robinson says was paid a percentage of the "returns,"

was fired after the ruckus started, but not before mailgrams were sent urging attendance at fund-raisers to. "help defeat ardent anti-Semite" Findley.

One recipient, a top aide to a Democratic senator, wrote Robinson that the solicitation was a "shameful display of politiial hyperbole," and that while Findley could be faulted on issues, the "anti-Semitism charge debases our politics."

When officials at the ADL's Washington headquarters saw the ad, they wrote Robinson that it was wrong for Klaber to cite his former tie to ADL.

'We were aghast with that ad,' said David Brody, director of ADL's national office. "However opposed we are to the PLO, it is sinful to characterize Findley as an anti-Semite. Jews dispprove of these tactics."

Myer (Mike) Feldman, listed as co-host for a Robinson fund-raiser in Washington, also disassociated himself from the "anti-Semite" charges. Feldman, a senior partner in the prominent law firm Ginsberg, Feldman and Bress was once a top hand in the Kennedy White House. He regrets that he didn't know the mailgram's content, and says: "I don't approve of calling Findley an anti-Semite, but I am for Robinson, and I never hide my emotional tie to Israel.'

Another Jewish Democrat, Congressman Dan Glickman of Kansas, was bothered with anti-Findley rhetoric he read in a letter soliciting funds for Robinson. "Paul's views on the PLO are wrong," said Glickman, "but he is a fine human being and not an anti-Semite. There is too much of this kind of thinking this year - making opponents into devils.

Faced with these reactions, Robinson promised to run retraction ads in the same Jewish newspapers, and stated publicly that he would never charge Findley with anti-Semitism.

The reason many American Jews are worried about Findley is that he met with Arafat twice, and claims that the PLO leader is ready to be a force for a Mideast peace. Moreover, Findley, while generally voting for aid to Israel, also voted against certain arm sales to Israel, and criticizes that nation.

"I believe in Israel's right to exist," Findley says. "I have met with Prime Minister Begin twice, and encouraged him to enter into joint agricultural projects with Egypt. I have also chal-lenged him on the West Bank settlement policy and East Jerusalem."

Findley says he sees Arafat because he feels the U.S. should maintain contact with all Third World pariahs - Cuba, North Korea, Vietnam, South Yemen and the Palestinians.

A number of U.S. congressmen and senators - including Charles Mathias, Adlai Stevenson and Minority Leader Howard Baker - have met with Arafat once. "The difference is." Findley says, "that I met twice, and encourage others to meet him also. Bob Strauss (now Carter's campaign manager) even told me I did some

good Given the suffering they have endured, it is understandable that Jews respond to emotional charges of the kind levied against Findley. Since Findley has gone the furthest in "understanding" Arafat, he was bound to get this heat.

But given the constant effort Jews make to remind the world about the horrors of the holocaust and anti-semitism, that odious term should be carefully and accurately applied. Congressman Paul Findley is not an anti-Semite. To call him and others anti-Semitic because of strong differences on policy is to debase the term and the evil it represents.

T

LAMESA - Services for Ernest B. Wood, 82, of Lamesa were to be at 4 p.m. today in Branon Funeral Home chapel with the Rev. Milo Arbuckle of Midland, former pastor of Lamesa Baptist Church, officiating.

Burial was to be in Lamesa Memorial Park.

He died Tuesday in a Lamesa hospital following an illness.

Wood had lived in Lamesa 71 years and was a grocer here 31 years. He was a member of First Baptist Church. He was married to Alberta Hatchett June 2, 1929, in Lamesa. He came to Dawson County in 1909 from Comanche County.

Survivors include his wife; two daughters, Mrs. Paul (Helen) Stanford of Carrollton and Mrs. Walter (Ernestine) Smith of Odessa; two sisters, Opal L. Wood and Ruby Cleveland, both of Amarillo; two brothers, H.P. Wood of Escondido, Calif., and J.M. Wood Jr. of Lubbock; and six grandchildren.

Evelyn Harp

LAMESA - Services for Evelyn Q. Harp, 81, of Lamesa were to be at 10 a.m. today in First Baptist Church with the Rev. Milo Arbuckle of Midland, former pastor of Lamesa Baptist Church, officiating, assisted by the Rev. Dr. C.H. Murphy, pastor. Entombment was to be in Resthaven Mausoleum directed by Branon

Funeral Home. She died Tuesday in a Lamesa hospital following an illness.

Mrs. Harp was married to Holland Harp June 21, 1921, in Mount Pleasant. She was a lifelong Baptist and taught Sunday school 52 years at First Baptist Church here. She was on the library board for 20 years.

Survivors include her husband; a son, Malcolm Harp of Lamesa; three sisters, Mrs. Ike LaRue of Jackson, Miss., Mrs. A.S. Underwood of Lubbock and Mrs. Eugene Spencer of Athens; and two grandchildren.

Myra Baker

ANDREWS - Services for Myra Baker of Andrews are pending at Singleton Funeral Home here. She died Monday in an Andrews hospital following an illness. Mrs. Baker was a resident of Andrews for 18 years.

Survivors include two sons, Bill

Baker of Stanton and Laymon Baker of Andrews; a brother, Milas Jones of Greenville; a half-sister, Bernice of Port Aransas; eight grandchildren and six great-grandchildren.

Joyce D. Brown

Services for Joyce Denman Brown, 49, of Portland, Texas, and formerly of Midland, were to be at 2 p.m. today in the Newnie W. Ellis Funeral Home chapel with burial in Resthaven Memorial Park.

Mrs. Brown died Sunday in a Galveston hospital following a lengthy illness.

She was born Sept. 2, 1931, in Goldthwaite and moved to Midland in her teens. She later moved to Tyler and the East Texas area. She had lived in Portland for the past two years. Prior to that, she had lived in Louisiana for several years. She was a member of the Methodist church.

Survivors include a daughter, Cheri Odom of Corpus Christi; her mother, Mrs. Homer Denman of Midland; a sister, Mrs. C.H. Bundrick of Corpus Christi; a granddaughter, several aunts and uncles and two nieces. The family requests memorials be

made to The University of Texas medical branch, Kidney Foundation, in care of Dr. J. Fish, Department of Surgery, Galveston, Texas 77550.

'Bob' Dillard

GATESVILLE - Services for R.S. "Bob" Dillard, 84, of Andrews were to be at 2 p.m. today in Scott Funeral Home chapel here with burial in Pearl Cemetery in Coryell County.

He died Monday in an Andrews hospital following a lengthy illness.

Dillard was born Nov. 27, 1895, in Nolanville Valley. He moved to Andrews in 1912 and worked on the Cowden and Jim Parker ranches.

Five years later he joined the Army and fought in the infantry during World War I. After returning from France, Dillard was married to Anna Mae Edmondson Aug. 25, 1919, in Pearl. She died July 2, 1973.

Later Dillard worked with the Andrews school system from 1945 to 1950 and the city of Andrews from 1950 to 1956.

He was a member of the Church of Christ, the Disabled American Veterans, the American Legion, the Veterans of Foreign Wars of Lake Whitney, and the Odd Fellows Lodge of Anquarters and he was active for many two great-grandchildren.

years with the Boy Scouts.

Survivors include three sons, R.S. Dillard Jr. and James H. Dillard, both of Andrews, and Joe B. Dillard of Traverse City, Mich.; four sisters, Katie Barron of Waco, Eunice Sides of Abilene, Pearl O'Bryant of Stephenville and Marie Cunningham; three brothers, Ross Dillard of Decatur. Ancil Dillard of Ganado and Jack Dillard of Kingston; eight grandchildren and seven great-grandchildren.

Lenore E. Crews

Lenore Erett Crews, 66, 3117 W. Louisiana Ave., died Tuesday at her residence.

Services were to be at 10 a.m. today in the Newnie W. Ellis Funeral Home chapel with the Rev. James Otterness of the Lutheran Church of the Risen Lord in Odessa officiating. Burial was to be in Resthaven North.

She was born April 20, 1914, in Clayton, N.M., where she lived until she married O.H. Crews Jan. 16, 1936. She moved to California, then to Oklahoma City for five years. She moved to Peru for eight years and then to Midland in 1953. She was a member of the Midland Woman's Club and the Lutheran Church of the Risen Lord.

Survivors include a son, Ray Crews of Vista, Calif.; a daughter, Connie Brinson of Tulsa, Okla.; and four grandchildren.

James George

WAURIKA, Okla. - Services for James Otis George, 69, of Waurika and formerly of Midland, were held in Waurika last week

George died Oct. 19 in a Jefferson County, Okla., hospital after a short illness.

Born June 18, 1911, in Atoka, Okla., George married Zena Kiser in Riverside, Calif., Jan. 25, 1955. He moved to California in 1938 and was employed as a crane operator for Douglas Afrcraft Company for 20 years.

While living in Midland until 1975, George was janitorial supervisor for Midland Independent School District. For the past four years, he was caretaker of Waurika Cemetery in Waurika

Survivors include his wife, Zena George of Waurika; a son, Edwin George of Gig Harbor, Wash.; three daughters, Virginia Skoor of Gig Harbor, Wash., Evelyn Harper and Faye Hankins, both of Midland; his mother, Carrie George of Natchitoches, drews. He was one of the founders of La.; a sister, Mae McCurley of Natthe Andrews American Legion head- chitoches, La.; 11 grandchildren, and

WASHINGTON (AP) - The Mexican government has given the goahead for two bridges to be built between Mexico and Texas at Los Indios in the Lower Rio Grande Valley and at Presidio.

Bob Krueger, U.S. ambassador-atlarge for Mexico, announced the decision Tuesday, hailing it as "kind of a breakthrough.

He noted that trade between the U.S. and Mexico has more than tripled in the past four years.

"It's something I think very important to South Texas," the former Texas congressman said about the two bridges.

Krueger said Mexican foreign ministry officials told him about the decision at a Washington meeting.

The State Department had issued U.S. permits for the bridge at Los Indios in 1974 and for the Presidio bridge in 1976.

U.S. permits also have been issued for bridges at Donna, Pharr and Mis-

Krueger said proposals to expedite procedures for issuing permits were discussed at the meeting.

Representatives of the General Services Administration will meet with Mexican officials in December to discuss federal staffing requirements for the new bridges, he said.

The U.S. staffs each bridge with customs, immigration, public health and agriculture inspectors.

The bridge between Los Indios and the Mexican state of Tamaulipas would be a new route. Cameron County, Texas, has agreed to take care of the American share of construction costs and will be repaid by tolls."

The bridge between Presidio and Ojinaga, Mexico, now is a privately owned toll bridge built in the 1920s.

The operator of the wooden bridge, the Presidio Bridge Co., went as far as the Supreme Court trying to scuttle plans for the new bridge, arguing that it would be put out of business by the publicly owned competitor.

The Mexican government had announced it would close its side of the existing bridge when a new bridge opens

The Supreme Court turned down the bridge company's bid for an appeal on Oct. 6. Presidio County would issue reve-

nue bonds to pay the U.S. construction costs, and the bonds would be paid off by charging tolls. Cris Aldrete, federal co-chairman

of the Southwest Border Regional Commission, said the Mexican government had suggested that a new approach was needed for issuing bridge permits.

Border bridges given OK

'The Mexicans came up with a temporary restraining order, you might say," he said. "The Mexicans said in effect these are issued unilaterally - let's have some form of more orderly, bilateral approach."

Aldrete, a native of Del Rio, Texas, said the Mexican government preferred negotiating directly with the State Department to being visited by each border municipality interested in a new international bridge.

Until 1972, congressional action was necessary before any international bridge could be built.

Any new system would not affect permits already issued by the State Department and now awaiting approval by Mexico.

AN EYE DOCTOR IS TRAINED TO WRITE YOUR PRESCRIPTION. **WE'RE TRAINED** TO FILL IT.

PEARLE Vision Center fills over a million and a half prescriptions a year. And in many cases, those prescriptions are filled in just one hour. That's because we have our own in-store laboratory. Having our own lab also gives us control over our work. So after your eye doctor examines your eyes, bring your prescription to us. You'll have a wide variety of frames and lenses to choose from. And the reassurance of knowing PEARLE became the largest eyecare chain in America filling prescriptions like yours.

remedy their grievances over changes a Warsaw court made in their union charter.

Leaders of Solidarity, the country's largest independent union, had asked Pinkowski to meet at their headquarters in the Baltic port of Gdansk to hear protests over insertions placed in the charter last week by a Warsaw district court judge. The changes included a declaration recognizing the leading role of the Communist Party in Poland and provisions forbidding "warning strikes" and "solidarity strikes.'

Pinkowski made a counter-offer for leaders to come to Warsaw to discuss their grievances "in conditions favorable to businesslike negotiations and understanding," and the union leaders agreed.

The unions, which are appealing the court decision, say the court-ruled changes undermine a government pledge late last August to allow unions free of Communist Party control. That pledged ended Poland's crippling, six-week nationwide strike.

A spokesman for the union leaders said they agreed to the Warsaw meeting late Tuesday night and that the strike preparedness date was set to

perspectives.

"This time it will not be easy to keep others from joining," a reference to the union's Oct. 3 warning strike in which Solidarity, now claiming more than 7 million members, brought selected factories and mass transit systems to a halt for one hour in a disciplined show of strength.

It was unclear whether the Warsaw meeting would be held on government or union territory.

Lech Walesa, leader of the independent trade union movement, and about 50 other union officials planned to gather at Warsaw's Roman Catholic Intellectual Club, which has advised the union, and union spokesmen said the meeting might occur there

Meanwhile, the West Berlin newspaper Der Abend quoted Walesa as saying he was "dismayed" by East Germany's decision, announced Tuesday, to tighten its border restrictions for travel to Poland until stability returned to the neighboring country

"We shall try to demand the withdrawal of this decision" during Friday's talks, the newspaper quoted Walesa as saying.

it. I thought it was an opportunity to answer many of the false charges and accusations he (Carter) has been making throughout the campaign.' this gave him (Reagan)

Walter F. Mondale watched the debate in Philadelphia and said he thought it "has been very helpful.'

"The difference between the two candidates, and the sharp contrast, was very clear tonight," Mondale said.

Reagan's running mate, George Bush, said the debate "won't do anything but strengthen Governor Reagan's position.'

Bush said Carter tried to distort Reagan's views on nuclear arms and social programs, and looked like "a little fella pressing it. I believe the

with a philosophical smile that he really couldn't recognize some of the positions the president claimed were

Neither candidate ventured any new proposals, neither blundered. They'd done their homework, and they remembered the political price Gerald R. Ford paid for asserting four years ago that the Soviet Union did not dominate eastern Europe and never would while he was president.

So they argued familiar positions, often in familiar words, in their one campaign debate, with Election Day one week ahead. Now six days ahead.

Carter said afterwards that he had succeeded in drawing sharply the differences between his views and Reagan's. There was more to it than that: the debate etched even more sharply the difference in their styles.

"There you go again," Reagan said to the president at one point, a weary, long-suffering smile creasing his face as he denied Carter's statement that he (Reagan) opposed the idea of medical benefits for the aged.

As he has in scores of campaign speeches, Carter sought to depict Reagan as a potentially dangerous president, although he added his standard disclaimer, saying he didn't mean to suggest the Republican candidate would want war.

For his part, Reagan tried to keep the focus on matters economic, accusing Carter of leading the country downhill. Reagan delights in statistics, and he had one handy for the debate: if every jobless American stood in an unemployment line, two feet apart, it would stretch from New York to Los Angeles.

To Carter's advantage, his stress on the threat of war and of nuclear weaponry made for more dramatic de-

resort" when the national security is at stake.

"I know the president is supposed to be replying to me," Reagan said at one point, "but sometimes I have a hard time in connecting what he's saying with what I have said or what my positions are.

sometimes think it's like a witch doctor who gets mad when a good doctor comes along with a cure that will work."

That didn't divert the Carter offensive. He said Reagan was insensitive to the needs of deprived Americans, called his tax cut proposal ridiculous, his criticism of the minimum wage heartless.

Reagan steered away from that kind of harsh language. He'd clearly decided that if soft words wouldn't turn away Carter's attack, they might turn on voters. Carter took note of that style as he criticized Reagan for advocating withdrawal of the pending strategic arms limitation treaty.

"This attitude is extremely dangerous and belligerent in its tone, even though it's said with a quiet voice," Carter said.

Reagan was, indeed, the quiet voice in the debate. Given the last word, he said in effect that people who are satisfied with the past four years probably should vote for Carter next Tuesday - while to those who are not, "I could suggest another choice."

That soft sell was in itself part of Reagan's answer to the Carter charge that he is a hard-liner, a radical in his own Republican party.

Reagan said he didn't feel he had been overly defensive. He said Carter never had answered his charges about administration economic failures. Nor, Reagan added, was he intimidated by the fact that he was on stage with the president of the United States.

"I've been on the same stage with John Wayne," he said.

Hostages play small role in Tuesday's debate

CLEVELAND (AP) - When the 52 American hostages held by Iran finally come home, Ronald Reagan says, he'll want to know "what did we have to do in order to bring that about."

But, overall, the hostage question - which appeared in the last few days to loom so large in the presidential election - played only a small role in the debate here Tuesday night between Reagan and his Democratic foe, President Carter.

Carter did not defend his handling of the situa-

But he did defend his decision to release to Iran, once the hostages are freed, the millions of dollars of undelivered arms purchased by the late shah. The delivery was frozen after the hostages were seized Nov. 4, 1979.

Both candidates were asked what they would do to prevent a similar situation from arising. Neither answered directly.

Reagan said he wanted Congress to conduct a complete investigation when the hostages are released - and to find out what terms brought their release.

Said Reagan:

"What I do think should be done, once they are safely here with their families and that tragedy is over - we've endured this humiliation for just lacking one week of a year now - then I think it is time for us to have a complete investigation as to the diplomatic efforts that were made in the beginning: Why they have been there so long.

"And when they do come home, what did we have to do in order to bring that about, what arrangements were made.

Reagan implied that the crisis could have been averted

Governor Reagan recognized that the judiciary MUST be non-partisan: as Governor of California, he appointed approximately FIFTY judges who were Democrats. He has pledged to follow the same non-partisan policy for judges when he is elected President of the United States.

WE, AS GOOD CITIZENS CONCERNED WITH THE QUALITY AND EXCELLENCE FOR OUR JUDGES AND OF LOCAL GOVERNMENT, SHOULD SUPPORT THE BEST MAN IN THE RACE FOR DISTRICT JUDGE. WE WILL HONOR OUR COUNTRY, OUR COMMUNITY AND OUR SYSTEM OF JUSTICE BY VOTING FOR AND WORKING FOR THE ELECTION OF PAT. M. BASKIN FOR DISTRICT JUDGE.

Roles as governors paraded during debate

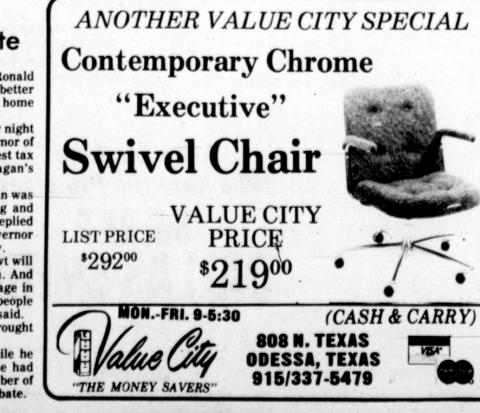

CLEVELAND (AP) - Jimmy Carter and Ronald Reagan debated not only who would make a better president, but who did what as governor of his home state.

Carter accused his debate opponent Tuesday night of boasting of his economic record while governor of California even though "he had the three largest tax increases" in the state's history under Reagan's administration.

The president raised the subject after Reagan wasasked how he could cut government spending and still reduce taxes and control inflation. He replied that he accomplished the same thing while governor of California by cutting waste and inefficiency.

"I'm confident that it can be done and that wt will reduce inflation because I did it, in California. And inflation went down begow the national average in California when we returned money to the people and reduced government spending," Reagan said. But Carter said he was surprised Reagan brought up his record in California.

"He more than doubled state spending while he was governor, a 122 percent increase, and he had between a 20 to 30 percent increase in the number of employes," the president said during their debate.

Class conquers fear of flying

cle."

DALLAS (AP) — Marianne Vilbig boarded a charter flight to Oklahoma City, her hands ice-cold, her face a twisted portrait of sheer terror. "Feel my hands," she said holding out her trem-bling fingers. "I'm not afraid of major surgery. But

ID

EST

this, I'm afraid of."

"This" is flight. And until this weekend, flying was something Marianne absolutely could not do. This weekend, Marianne and about 40 other terri-

fied passengers - aviaphobics - completed a course designed to conquer their fears. Graduation was a trip to Oklahoma City and back.

For \$250, they took a six-lesson course that included the flight and were awarded diplomas that proclaimed they had "reluctantly, but courageously, left the Planet Earth for a flight."

A COUPLE OF PEOPLE didn't exactly pass with, er, flying colors. One man didn't get on the plane in the first place and one woman almost didn't get back on in Oklahoma City. Capt. Truman W. "Slim" Cummings, a retired

airline pilot who has taught the fear of flying semin-ars for five years, said that wasn't a bad average.

The flight was not what you would call ordinary. Just before takeoff, Gloria Sadafsaz announced she was going to throw up.

Cummings knelt beside her in the aisle, patting her

hand in a fatherly way. "Now, Gloria," he said, "There's a part of you that wants very much to stay on the flight."

Yes, Gloria said, but that didn't quell her nausea. "No, you're not going to throw up," Cummings said, quietly handing her a bag. "If you throw up, I'll throw up with you.'

The issue did not come up again.

Boarding the plane, several of the students wanted to sit near the bathroom. Others wanted to sit backwards to ignore the fact that they were moving

began to resemble a Lamaze childbirth class. Amid the pants, Cummings spoke in a soft voice:

Halway to Oklahoma, the tension eased. McWilliams happily raised his arms and roared. Another man hugged everyone on the plane.

"There are two types of fearful flyers," explained Jim Wilson of the phobia clinic. "There are the aviaphobics who are afraid the plane is going to crash and the claustrophobics who hope it will crash so they can get off."

WHEN THE PLANE landed in Oklahoma City, Marianne Vilbig was ready to keep her feet on the ground.

"This hasn't done any good," she said. "If I had any courage, I'd take the bus back."

But she got back on the plane. Ruth Norwood had a little more trouble.

"You want to feel good about yourself, don't you," Cummings said, leading her step-by-step into the

On the return flight, stewardesses poured champagne and Ms. Norwood accepted hers with congratulations.

"I'm better," she said. "I'm really better going back."

Mrs. Vilbig said the return flight made her a new woman. She was ready, she said, to fly anywhere.

Not everyone was quite so happy.

"Boy, am I proud of you," Southwest Airlines executive Camille Keith said to a grim-faced woman.

"We didn't have a choice, once they shut those doors," the woman replied.

40 people celebrate finishing a \$250, six-lesson course designed to conquer their aviaphobia, or fear of flying recently at Love Field in Dallas. For their money and their trouble they got diplomas announcing they had "reluctantly, but courageously, left the Planet Earth for a light." The flight was a short one, Love Field to Oklahoma City and back on a Southwest Airlines jet. (AP Laserphoto)

BUSINESS MIRROR The old values are in the future

By JOHN CUNNIFF

AP Business Analyst NEW YORK (AP) — The old values, so often lamented as lost relics of a more stable, less cynical, more sensible and spiritual age, have surprisingly turned up in a study of future markets. The study found the family, social responsibility and freedom from debt were among the values held

most highly by the people interviewed, and that

most highly by the people interviewed, and that materialism and hedonism may be losing appeal. "That these should be found in an advertising agency's marketing study, whose goal is to help sellers "exploit opportunities and hedge their risks," makes the findings stand out in bold relief. But they are there, says Ruth Ziff, senior vice president of Doyle Dane Bernbach Inc., who super-vised 502 in home interviews with a national cross-

vised 503 in-home interviews with a national crosssection of men and women between ages 25 and 49 years.

In revealing her findings to a business group audience, the Conference Board, Ms. Ziff offered evidence that Americans also haven't been bowed by inflation and a future so often depicted as nothing but the worst.

Nearly two-thirds of the interviewees rated their economic situation at least as good or better than it was five years ago. And an even greater number said they expected their futures to be still brighter. If that doesn't qualify as surprising, then some of the value findings probably do. These are the "basic

values" revealed by the study:

PRIMACY OF FAMILY. "With the divorce rate what it is, the numbers who are choosing to get married late or not at all, it came as somewhat of a surprise to us, and perhaps it will be to you, that at the top of thelist is the primacy of the family," said Ms. Ziff.

"In fact," she commented, "almost everyone in our sample agreed that a happy family life is very important and that they would sacrifice personal needs for the family."

SOCIAL RESPONSIBILITY. "Contrary to those who are quick to point out that humanitarian values have faded, we find a strong sense of social responsi-bility, a concern about pollution and the destruction of the environment and a willingness to experience self-denial to help our country become less depen-dent on foreign oil." FINANCIAL SECURITY. "With the fear that their

standard of living will be eaten away by inflation over the next several years, high numbers say that financial security is of the highest economic priority, and a secure job is more important than a high salary.

FREEDOM FROM DEBT. "Among our sample, we found that almost three-fourths believe there is

nothing worse than being in debt." COUNTER-HEDONISM. "There is a strong count-er-hedonistic thread to current values, with few rather than many asserting they believe in enjoying life now and not worrying about the future.'

BALANCED CAREER GOALS. "Americans have not lost their desire for a better life, but if our findings are representative, their goals are more balanced.

The market was active but weaker by 2 to 4 cents on most classes. Bad weather restricted movement of livestock in some areas. In a rundown of the market: Steers weighing 600 to 700 pounds sold for 64 to 70 cents per pound; 500 to 600 pounds, 68 to 72 cents; 400 to 500, 70 to 77 cents; 300 to 400, 75 to 83 cents; and 300 pounds and under, 84 to 95 cents per pound. Heifers weighing 600 to 700 pounds went for 58 to 72 cents per pound; 500 to 600, 60 to 65 cents; 400 to 500, 62 to 67 cents; 300 to 400 pounds, 65 to 73 cents; and 300 pounds and under, 68 to 87 cents per pound. Canner and cutter cows sold for 35 to 42 cents per pound. Boning and utility cows went for 43 to 47.25 cents per pound. Pairs were auctioned for \$525 to \$750 per pair. Stocker cows went for \$465 to \$565 per head. Bulls yielding grades 1 and 2 sold for 50 to 55.25 cents per pound. The auction expects big runs for three or four more weeks, and urges ranchers to bring in their 18-month-old stock Monday to allow for blood testing.

appeal.

Perry R. Bass, operating from Midland, finaled its No. 60 Big Eddy Unit as a Bone Spring gas discovery in Eddy County, N.M., seven miles northeast of Carlsbad.

Drilled to 12,208 feet in the Morrow, it was finaled from the Bone Spring through perforations from 6,427 to 6,497 feet for a daily flowing potential of 809,000 cubic feet of gas per day, through various size chokes. The well also produced 115 barrels of 49.6-gravity oil during the 24-hour potential test.

The project has 5½-inch casing cemented at 6,824

Wellsite is 1,980 feet from south and east lines of section 20-21s-28e and 3/4 mile north of Morrow gas production in the Bass field.

CONCHO DISCOVERY

Adelante Petroleum Co. of Midland No. 1 George Bunger has been completed as an unidentified discovery in Concho County, eight miles southeast of Eden.

It completed for a daily potential of 24 barrels of 40-gravity oil and one barrel of water, with a gas-oil ratio of 500-1. Completion was through a two-inch openeing and perforations from 3,838 to 3,842 feet. The zone was acidized with 1,250 gallons.

The Strawn was topped at 3,682 feet on ground elevation of 2,304 feet.

Total depth is 3,985 feet and 4½-inch casing is cemented on bottom.

Wellsite is 467 feet from south and 660 feet from west lines of section 75, block 8, H&TC survey and 1¼ miles northwest of the depleted Dodson (Strawn) field which produced at 3,754 feet.

PECOS RECLASSIFICATION

Energy Resources Oil & Gas Corp. of Dallas No. 1 Mary Baker, which was the lone producer in the Pappy (Canyon gas) field of Pecos County, has been reclassified to open oil production in the field.

Operator reported a 24-hour flowing potential of three barrels of 61.7-gravity fluid, with a gas-liquid ratio of 42,667-1. The well, flowed through a 9/64-inch choke, also produced one barrel of water on the potential test.

Production, perforations are not available.

Location is in section 36, block Z, TCRR survey.

RUNNELS COUNTY

James K. Anderson, Inc., of Dallas reported potential test on its No. 1 Estes Estate, wildcat in Runnels County.

Reopening the Elm Creek, South (McMillan) field, the well finaled for a 24-hour pumping potential of 10 barrels of 42.8-gravity oil, with a gas-oil ratio of 270 = 1.

Completion was through perforations from 2,595 to 2,596 feet. Stimulation, if any, was not reported.

A re-entry of a former Jennings producer in the Elm Creek field, the well is 1,950 feet from north and 2,500 feet from west lines of John Brown survey No. 528. Hole is bottomed at 4,000 feet and plugged back to 2,593 feet.

CROCKETT WELLS

survey.

Blue Ridge Oil & Gas Exploration of Detroit, Mich., reported potential tests on two wells in the Adams-Baggett Ranch (Canyon sand gas) field of Crockett County, 24 miles south of Ozona.

No. 49 A. Phillips, 5/8 mile north of other Canyon gas production, finaled for a calculated absolute open flow potential of 2,500,000 cubic feet of gas per day, through

Blue Ridge No. 53 A. Phillips, 5/8 mile west of

production was completed for a calculated absolute open flow potential of 2,100,000 cubic feet of gas per day, through perforations from 5,244 to 5,478 feet. The zone was treated with 1,000 gallons of acid and fractured with 60,000 galons of fluid.

Wellsite is 900 feet from south and 1,320 feet from west lines of section 36, block OOO, Mrs. E. Reese survey.

Mesa Petroleum Corp. of Midland No. 1-64 Hoover, a re-entry project in Crockett County, has been completed as the second upper Clear Fork gas well in te American multipay field of Crockett County.

Operator rcompleted the well calculated absolute open flow potential of 30,000 cubic feet of gas per day, through perforations at 1,972-2,012 feet and 2,030-2,044 feet. The zone was acidized with 2,000 gallons and fractured with 20,000 gallons.

The well was completed in 1977 from the Clear Fork.

Location is 1,450 feet from north and east lines of section 64, block MM, T&StL survey, and 29 miles southwest of Ozona.

IRION SPRABERRY WELL

Moran Exploration Inc. of Midland No. 3 Mayer "A" (amended from Amarex Inc., Oklahoma City No. 1-240 Mayer "A") has been completed in the Spraberry Trend Area of Irion County.

The well, 4½ miles northwest of Barnhart and 1½ miles east of the closest other Spraberry well, finaled for a daily pumping potential of 87 barrels of oil and 23 barrels of water, with gas-oil ratio of 1,103-1.

The pay was acidized with 7,500 gallons and fractured with 120,000 gallons.

Location is 1,320 feet from north and west lines of section 240, block 1, T&P survey.

SCHLEICHER PRODUCER

Bill J. Graham of Midland No. 2 Tisdale has been completed as a 21/2-mile east extenson to the Tillery (Pennsylvanian oil) pool of Schleicher County, 41/2 miles west of Fort McKavitt.

Operator reported a daily pumping potential of 19.8 barrels of 35-gravity oil ad 22 barrels of water, with a gas-oil ratio of 1,111-1.

Completion was through perforations at 4,358-4,364 feet and 4,380-4,386 feet after a 2,000-gallon acid treatment.

The well was drilled as a wildcat to 4,540 feet. Operator set 4½-inch casing on bottom and plugged the hole back to 4.445 feet.

Wellsite is 467 feet from south and west lines of Josephine Tisdale Scrap File No. 15425.

HOCKLEY OILER

Texas Crude Inc. of Midland No. 1-21 Schoenrock has been completed in rhw NIR (Clear Fork) field of Hockley County, five miles north of Levelland.

The well, 21% miles north of the field's only other producer, completed for a daily pumping potential of 70 barrels of oil and 60 barrels of water, through perforations from 6,864 to 6,7110 feet. The zone was acidized

with 10,500 gallons. Gravity of the oil was not reported. The gas-oil ratio on the potential test was 135-1.

Total depth is 7,175 feet.

Location is 467 feet from south and 467 feet from west lines of labor 21, leagu 721, Abner Taylor survey.

MIDLAND PRODUCER

Parker & Parsley Inc. of Midland No. 1 Golladay "F" is a new well in the Azalea (San Andres) pool of Midland County, seven miles southeast of Midland.

The operator reported a 24-hour pumping potential of 150 barrels of 31-gravity oil and 25 barrels of water. The gas oil-ratio was nil.

Completion was through perforations from 4,158 to 4.174 feet after an 11.000-gallon fracture treatment

Four Basin counties gain drillsites for wildcat projects

Wildcat operations have been announced in Garza, Yoakum, Stonewall and Runnels counties, and operators reported locations for new tests in proven field areas.

GARZA PROJECTS

Three new prospectors have been announced in Garza County, all by J. C. Stelzer of Post and all scheduled to 3,800 feet.

Stelzer No. 1 Basinger & Ham is to

• ENERGY OIL & GAS

be drilled 1% miles northwest of the A.F.G. (Clear Fork) field which produces at 3,541 feet. Location is 546.6 feet from south and 585.5 feet from east lines of section 5, block 3, K. Aycock survey and 12 miles north of Post.

Stelzer staked location for No. 1 Eubanks two miles northeast of the A.F.G. (Clear Fork) field and 467 feet from north and 567 feet from west lines of section 1187, C. Willy survey, abstract 463. It is 11 miles north of Post. ****

Stelzer No. 2 Eubanks will be dug 11 miles north of Post, two miles northeast of the A.F.G (Clear Fork) field and 467 feet from north and 1,756 feet from west lines of section 1187, C. Willy survey, abstract 463.

YOAKUM PROSPECTOR

Petro Lewis Corp., operating from Levelland, announced location for an 11,500-foot wildcat 13 miles northwest of Denver City in Yoakum County. It is No. 1 Bowen and other, 2,173 feet from north and 467 feet from east

lines of section 663, block D, J. H. Gibson survey. It is 3/4 mile northeast of the Janice (San Andres) field which produces at

STONEWALL DRILLSITES

5,263 feet.

Two wildcat tests were reported in Stonewall County, both by The Desana Corp. of Midland. The operator spotted No. 2-168 Flat Top as a 3,850-foot prospector 1/2 mile

southeast of Flat Top. It is 467 feet from north and 900 feet

from east lines of section 168, block 1, BBB&C survey. It is one location east of a 6,400-foot

one-well Flat Top 162 (Swastika oil) field which produces at 3,486 feet.

dry hole and 5/8 mile southwest of the

WARD RE-ENTRY

Gulf Oil Corpo. will re-enter its No. 6 Crawar Field Unit "F," a former Tubb, Glorieta and Ellenburger producer in the Crawar multipay field of Ward County and attempt completion as the field's second Wolfcamp well.

Location is 660 feet from south and west lines of section 8, block B-20, psl survey and 7½ miles southeast of Monahans.

It is one mile north of Gulf No. 14 Crawar Field Unit.

Old total depth at No. 6 Crawar Field Unit "F" is 8,300 feet. Tests will be made at 6,300 feet. No. 14 Crawar Field Unit is still

being carried as a producer in the **Railroad Commission of Texas'** proration schedule.

HOCKLEY TEST

HMH Operators of Midland will dig No. 2 Tullis as a northwest stepout to the four-well Anton (lower Clear Fork oil) pool of Hockley County, 1/2 mile west of Anton.

It is 1,650 feet from production and 1,650 feet from south and 990 feet from west lines of section 112, block A, R. M. Thompson survey, abstract 36. Contract depth is 6,700 feet.

ANDREWS PROJECT

Charles L. Walker of Odessa announced location for a 5/8-mile southwest stepout to San Andres oil production in the multipay Block A-34 field of Andrews County, 11 miles northwest of Andrews.

Scheduled to 4,900 feet, it is No. 1-9 Fisher, 470 feet from south and 1,980 feet from west lines of section 25, block A-34, psl survey, abstract 1931. Ground elevation is 3,207 feet.

IRION LOCATIONS

Three projects have been staked in proven field areas of Irion County.

WASHINGTON (AP) - The inde-

pendent agency established by Con-

gress to run the country's biggest

energy program is demonstrating it

The Synthetic Fuels Corp. on Mon-

day approved the rules industries will

have to follow in applying for up to \$88

billion in loans and price supports to

stimulate development of synthetic

The rules take 2½ pages. That com-

pares with 450 pages the Energy De-

partment needed previously to lay

The professors call for stiffer rules on fuel use by automobilies, and say tax credits and other incentives are needed to encourage homeowners and businesses to cut fuel use.

Robert Stobaugh and Daniel Yergin say that even intense exploration and development of synthetic fuels probably will not meet the United States' fuel needs by the next decade.

Stobaugh, director of the Harvard **Business School's Energy Project**, and Yergin, director of the International Energy Seminar at Harvard's Center for International Affairs, made the predictions in a revised edition of their 1979 book, "Energy Future.'

lantine Books, was released Monday.

solar energy development and experiments with free public transportation and van-pooling should be encouraged.

Parker buys Perry gas

ODESSA - Parker Drilling Co. and Perry Gas Companies, Inc., Monday afternoon announced the conclusion of Parker's acquisition of Perry.

The acquisition was made through the merger of The Permer Corp., a wholly-owned subsidiary of Parker, into Perry.

Perry shareholders received 3/4 of a share of Parker common stock for each share of Perry common stock, totaling approximately 1,360,000 shares of Parker stock.

The acquisition marks the Tulsabased Parker's first major diversification outside its primary business of contract drilling for oil and gas. Perry presently engages in the business of processing and transporting nctural gas.

perforations from 4.379 to 5.608 feet The zone was acidized with 1,000 gallons and fractured with 60,000 gallons. Location is 1,320 feet from north and 4,110 feet from

First Oregan producer?

DEPOE BAY, Ore. (AP) - A state geologist was to inspect a oil site near here today in an attempt to verify a driller's claims that oil is flowing in what could be Oregon's first on-shore commercial well.

Buzz Ehrens of Ehrens Petroleum Development Co. of Salem told state geologist Dennis Olmstead on Mon-day that crews found oil 650 feet below ground after hitting gas pockets at shallower depths.

"He was planning on making a discovery and he says he has," said Olmstead, a petroleum geologist for the state Department of Geology and **Mineral Industries.**

Olmstead planed to visit the site, +

And they said today's generally accepted industry forecasts are "too optimistic" about the amount of oil imports that coal, synthetic fuels and

nuclear power will displace by 1990. The professors said these sources might only provide the equivalent of 13.5 million 42-gallon barrels of oil a day by 1990, rather than the predicted 16.5 million a day.

Adding the 3.3 million barrels-a-day shortfall to anticipated daily 1990 oil imports of 8.9 million barrels would leave the United States importing 12.2 million barrels a day by the beginning of the next decade, 4 million a day above 1979 levels, they said.

"It is highly questionable whether this quantity of imported oil will be available to the United States in 1990,-" they said.

the year-earlier month.

Texas oil, gas yield told

AUSTIN - Texas oil and gas wells produced 587,122,421 Mcf of gas in July 1980, down 3.56 percent from field runs a year earlier.

Marketed gas production totaled 504,626,665 Mcf and reflected a 2.30 percent decrease from the July 1979 volume. Marketed production is the total gas to transmission lines, carbon black and plant fuel and lease use.

Gas exported from Texas in July totaled 242,356,155 Mcf. Natural Gas Pipeline Co. of America was the

> take samples and have them ana-' lyzed.

The derrick is near Whale Cove, between Depoe Bay and Otter Crest on the central Oregon coast. Oil at the well flowed at about three to five barrels a day, or about 200 gallons, said Ehrens.

Olmstead said the well might have to produce five to 10 barrels a day to "make it pay." The nearest refineries are in California and near Seattle, he said.

Ehrens, who plans a second well, said he has leased about 30,000 acres of coastal land and that his firm has drilled successfully in shallow fields in Kansas and Michigan.

Desana No. 1-133 Flat Top will be drilled to 2,750 feet for tests of the Tannehill zone.

It is 2,000 feet from south and 1,500 feet from west lines of section 133, block 1, BBB&C survey. The site is 1,500 feet south of the

.G.O. (Tannehill 2475 oil) pool and five miles southeast of the town of Flat Top. Desana also staked No. 2-140 Flat

Top one location northwest of the reopener and lone well in the Clarice (Tannehill oil) pool of Stonewall County, 4½ miles southeast of Flat

Top. The project, scheduled to 2,800 feet, is 1,200 feet from south and 2,310 feet from east lines of section 140, block 1, BBB&C survey.

....

E. C. Johnston Co. of Longview, spotted a pair of projects in the threewell Short (comglomerate oil) pool of Stonewall County, 20 miles northeast of Aspermont.

Each will be drilled to 5,700 feet. No. 2 C. B. Long Estate is 1/2 mile west of production and 2,190 feet from north and 467 feet from west lines of section 1, BBB&C survey.

Johnston No. 3 Long Estate-Kegler will be dug 1/2 mile west of production and 1.886 feet from south and 467 feet from west lines of section 1, BBB&C survey.

RUNNELS PROJECTS

Three sites for wildcats have been staked in Runnels County. Pro Oil of Dallas No. 1 Barnett is a

4,800-foot explorer 10 miles northwest of Ballinger. It is 2,637 feet from south and 2,962 feet from east lines of Burgis G. Hall survey No. 347. Ground elevation is 1,793 feet.

EDCO Oil & Gas Inc. of Abilene announced location for No. 1 Gulley six miles northeast of Winters in Runnels County.

feet from north and 4,600 feet from east lines of T. J. Hardeman survey No. 267.

....

Sumik Drilling Inc. of Denton staked No. 1 Baker and wife as a 5,000-foot wildcat seven miles northwest of Ballinger in Runnels County. It is 1,884 feet south of the southeast corner of tract C, then 467 feet west to location in J. Trussell survey No. 423

RUNNELS RE-ENTRY

Jack Carson of Austin will re-enter a former producer in the Ballinger multipay field and deepen it to 3,600 feet for tests as a wildcat.

It is the former Murray Petroleum No. 1 Halfmann. It will be operated by Carson as No. 2 Halfmann.

The hole was abandoned in February 1960.

Location is 1,263 feet from south and 2.376 feet from west lines of section 164, ERTT survey. Ground elevation is 1,727 feet

Board members of the Synthetic Fuels Corp. said they wanted to avoid the very specific application guidelines set up by the Energy Department.

"We are looking for a diversity of projects and many small companies just wouldn't have the money or time to submit applications (under the Energy Department procedures)," said board member John DeButts, retired chairman of the American Telephone
