Jury declares Candy 'innocent'

legal nightmare ended for Candace Montgomery when a jury found her innocent of murder, but her attorney says the summer afternoon she killed a friend with 41 blows from a threefoot ax will haunt her forever.

METRO EDITION

The 30-year-old suburban housewife was acquitted of murder Wednesday after she confessed she hacked her former lover's wife to death in self

The sandy-haired, bespectacled defendant began trembling when the verdict was read at 4:40 p.m., but stared straight ahead, her hands clenched in her lap.

Ushered quickly from the courthouse, Mrs. Montgomery and her husband, Pat, avoided news reporters and photographers. They soon will move to Atlanta from this North Central Texas city, where residents have talked of little but the grisly killing since Mrs. Gore's mutilated body was discovered June 13.

The innocent verdict, returned by a nine-woman, three-man jury that deliberated just over three hours, climaxed a sensational trial marked by dramatic testimony and legal maneu-

\$16 million.

Jurors and family members also

refused to comment on the trial's

Crowder based his self-defense case on Mrs. Montgomery's brutally detailed account of her visit to Mrs. Gore's Wylie home on Friday, June

She said the former schoolteacher struck her twice with the ax after confronting her about a 10-month affair she had with Allan Gore.

The petite defendant said she tried to escape three times during a frantic struggle on in the utility room of the Gore's Wylie home. Mrs. Montgomery said she finally wrested the ax from Mrs. Gore and hit her on the

Mrs. Gore fell to the blood-slickened floor, but the sobbing defendant told jurors she could not stop herself from slamming the ax into the woman who sang with her in a church choir.

Pathologists described the slaying as a "classic case of overkill."

A medical examiner said the victim had been struck in the head 28 times - the blows collapsing her right eye into a sinus cavity and splitting her skull down to the brain tissue at least

Psychiatrists testified Mrs. Montgomery was reacting on an instinctive level and that her rage could have stemmed from a 26-year-old incident the defendant could remember only under hypnosis.

Mrs. Montgomery testified Mrs. Gore told her, "Shhhh," when she screamed for her life. Dr. Fred Fason of Houston said the defendant also was hushed by her mother as she was being treated for a head cut and that the word association and sight of blood could have triggered the same anger against Mrs. Gore.

In closing remarks, O'Connell termed the theory "incredible" and

Although friends who attended a Bible school teachers' luncheon with Mrs. Montgomery shortly after the slaying said she appeared normal, psychiatrists said a "disassociative reaction" to the brutality allowed her to appear composed and even to shower off blood in a bathroom at the

Mrs. Montgomery still displays some symptoms of the reaction, in which she lost touch with reality, they vice president.

From Gulf Oil Exploration and Producton in Houston were M. J. Hill, president, and J. L. Huitt, senior vice president — U.S.

Also representing Gulf Oil Exploration and Producton was E. M.

O'Connell claimed Mrs. Montgomery lost her right of self-defense after knocking Mrs. Gore unconscious.

Carter lead claimed

Cabinet member speaks here

By LANA CUNNINGHAM Staff Writer

The Democratic ticket of President Carter and Walter Mondale was ahead in three out of four national polls before the head-to-head debate Tuesday night between Carter and Republican challenger Ronald Reagan, claimed one of Carter's cabinet members Wednesday.

Moon Landrieu, secretary of the Department of Housing and Urban evelopment, hopped into the Permian Basin for a news conference at Midland Regional Airport, a public reception in the Midland Hilton and a public rally in Odessa. He will be traveling non-stop until Tuesday to push for the re-election of Carter.

The President came out on top in the debate, Landrieu said, with Carter displaying his grasp of the office. "Our momentum is up," while the Republicans are beginning to

The debate demonstrated that while "Gov. Reagan professes to have some answers, they are of a simplistic nature." In his dealings with city

governments, both large and small, simple answers have never been realistic, Landrieu explained.

The cabinet member defended his department concerning statements made by Reagan during the debate that an urban program in the South Bronx area of New York City has never gotten off the ground. "It's not true that nothing has been

done," replied Landrieu, formerly mayor of New Orleans, La., until moving into his current job in Sepat the magnitude of the problem there" and realize major gains couldn't be made in three years. "This administration didn't create

poverty or poor housing," he added. The South Bronx has deep needs, and it's not the only area in the U.S. in that situation.

Lashing out at Reagan's proposals to cut out some assistance programs, Landrieu charged the Republican "is insensitive to the poor in this coun-

The Democrats traditionally have been the party for the poor and minorities, he said, and criticized Reagan's comment during the debate that as a child he didn't realize there was a

racial problem. Landrieu concentrated on his department's specialty - housing and expressed his doubts about what Reagan has in mind for towns in need of housing. He pointed to Odessa, saying it has received \$18 million in the past three years for subsidizing rents and building new housing for those who can't afford to supply the

basic needs for themselves.' Federal assistance to cities is one reason why "virtually every mayor in this country is supporting Carter," claimed Landrieu. "He's (Carter) been sensitive to local governments. What this president has done is target \$25 billion more federal money into urban development."

During Carter's administration, he added, about 1 million more housing units have been added to the cities.

Midland City Council recently voted to apply for Community Development funds, with the Section 8 rental subsidy program attached. But in the incil has refused to appl on the basis of too many government

Landrieu claimed there is a reason for those government ties to the money. "Were not going to let you discriminate against women, blacks, browns or handicapped in locating that housing or in the use of those CD funds." And he expects those government strings won't be cut in the fu-

"We don't intend to violate the constitutional law," he added.

Asked about the possibility of federal housing projects turning into slums, Landrieu denied it. "Look at where these people are coming he answered, referring to slum housing.

And rental assistance is a lifesaver for some people, in his opinion. He cited the example of an elderly woman on a fixed income whose rent goes beyond what she can pay. Under normal circumstances, she would be evicted, he said.

But with rental assistance, the woman can remain in her rented residence and the landlord will be re-

GOP ticket here Saturday 11:20 a.m. for El Paso.

Tower, Chiles to promote

Midland voters will get one final shove toward the Republican ticket before the election on Tuesday when J.S. Sen. John Tower of Texas and Eddie (I'm Mad Too) Chiles of Fort Worth stop in the Permian Basin this

The special Round-Up team organized by Gov. Bill Clements will arrive in Midland shortly before midnight

Saturday events will begin with a 7 a.m. free breakfast for Midland volunteers in the Holiday Inn Country Villa on West Highway 80.

Former Midland mayor Ernest Angelo Jr. will serve as master of ceremonies. At 8:10 a.m. the Reagan Round-Up team will hold a news conference in the motel. After that, the team will go to Odessa campaign headquarters where a news conference will be held.

While at the headquarters, Tower and Chiles will make some telephone calls to local voters to persuade them to vote the Republican ticket.

The team will go to Permian Mall for a 10:20 a.m. rally. They are scheduled to leave from Chaparral Aviation at Midland Regional Airport at

Joining Tower and Chiles will be the senator's wife, Lilla, former Republican state chairman Ray Hutchison, and Kay Bailey Hutchison, former vice chairman of the National Transportation Board.

The Tower-Chiles team is one of three scheduled to cover the state in a 32-hour Red, White and Blue campaign blitz that starts early Friday The other Round-Up teams consist of Ambassador Anne Armstrong, Gov. Clements, former governor John Connally, George W. and Laura Bush of Midland, Jeb and Columba Bush and Democratic State Sen. Bill Meier of Fort Worth.

Mrs. Armstrong is heading up the South Texas swing while Clements leads the Northeast Texas tour.

Tower and Chiles will stop in about 10 West Texas cities, starting with a news conference in Dallas at 10 a.m. Friday. Stops will include Denton, Wichita Falls, Amarillo, Plainview, Lubbock, Abilene, El Paso, Midland, Odessa and possibly San Angelo.

Weekend stock moving up!

In keeping with out desire for The Midland Reporter-Telegram to better serve its readers, the weekend roundup of both New York and American Stock Exchange listings is being moved up 24 hours.

The tabulations, which previously have been published on Sunday, will be moved to Saturday beginning this weekend. The change is made possible by installation of The Associated Press high-speed Custom

As a result, readers who follow the stocks will have the complete weekend figures in their Saturday morning newspaper. Another step in our ongoing plan to have the latest news...as soon as

Pat Baskin

Baskin, Floyd seek judge's post

EDITOR'S NOTE: This is one in a series of stories taking a close look at the local races and candidates in the Nov. 4 general election.

By ED TODD

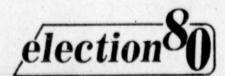

Two Midland lawyers who say they seek justice, would endeavor to quash crime, follow the law and cut the backlog of civil and criminal cases are campaigning for the 142nd State District judgeship held since 1954 by

retiring Judge Perry D. Pickett. "I don't care who is in the courtroom," said 37-year-old Republican contender Jay H. "Timber" Floyd. "If you've got the law and facts, that's all that I'm concerned with."

"You've got to be fair," said his opponent, Democratic candidate Pat Baskin, 53. "He (the judge) has got to split it down the middle. He can't go' encouraged to run for the judgeship

Both are seeking the \$50,000-a-year job which generally pays less than established lawyers net yearly in

Four years ago, oilman-rancher Floyd sought to displace Pickett in

the 1976 general election but lost by 14,747 to 10,705 votes.

THIS CAMPAIGN between Baskin, who is in an established downtown law firm, and Floyd, who practices solo across from the courthouse, is

carrying a higher profile. Floyd suggested that Baskin was

by fellow influential lawyers.

'There's nothing more partisan than getting somebody appointed and paying off old debts," said Floyd, who suggests he's not playing mere poli-

Baskin asserted that he will not pay homage or favoritism to attorney friends or be controlled by an outside

Baskin is a former Midland Municipal judge, past president of the Midland County Bar and a former city councilman and mayor pro-tem who has practiced trial here since the early 1950s. His opponent entered law

practice two decades later. Floyd, too, indicated that he would not be unduly influenced by fellow members of the bar.

"I'LL DO A GOOD JOB in that office," he said. "You've got to have a lot of energy and be in good physical

and menta shape to do that.
"It doesn't matter to me which attorney it is," Floyd said. "It's cut and dried to me if the law and facts are there, and that's how I'm going to rule.

"The court has and can be operated six days a week, and I don't mind that," Floyd said. "I'm running to do the job, not because I want the posi-

Baskin allowed that most established lawyers and firms in town are backing him monetarily or with

Such backing didn't seem to faze

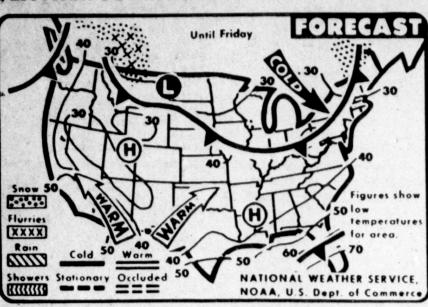

"A lot of independent guys are supporting me," said Floyd, a graduate of South Texas College of Law. 'Those big and impressive firms (be-

good will or both.

South Texas: Clear north and cloudy to partly south through Friday with a slow warming trend. Lows tonight upper 40s along the coast to mid 30s Hill Country. Highs Friday mainly in the 70s, except upper 60s along the

Coastal Marine: Strong high pressure over the Texas coastal waters will continue through Friday.

Port Arthur to Port O'Connor out 54 miles: northeast-erly winds 10 to 15 knots tonight and Friday. Seas 3 to 5 feet tonight.

debate boycotted By The Associated Press

Hostage

Amid stormy scenes at the Parlia ment building, many Iranian deputies boycotted public debate on the American hostages today, leaving the 228-seat legislature short of its 179member quorum and forcing postponement of the session until Sun-

Sixty-six deputies defied appeals by Tehran radio and Iran's chief Judge Sadegh Khalkali that they attend today - many of them protesting any action on release of the captives before the U.S. presidential elections

Khalkhali, the stern Islamic judge who has sent scores of convicted criminals before firing squads and is known as a hardliner on the hostage issue, stormed to the rostrum, screaming and waving his white turban over his head, and pleaded for a quorum so debate could begin.

The deputies in attendance shouted that debate should be held even without a quorum, a Danish radio correspondent reported from the scene.

Saying he was "no friend of the United States or Jimmy Carter," Khalkhali said that regardless of the effect of the hostage issue on the presidential election, it was a problem the assembly was obliged to tackle, the reporter said.

Dozens of boycotting deputies milled outside. They sent a message into the hall saying a debate would only "help the cause of the United States, and especially Jimmy Carter," the reporter said.

A source close to the debate said the boycotters wanted to stay clear of the U.S. election to avoid any appearance of collusion with the Carter administration over release of the hostages, in their 362nd day of captivity today.

The protest by hardline deputies was joined by a second smaller faction which opposes releasing the Americans on general principle. Some deputies have called for spy trials for the hostages.

After a delay of an hour, 'only 162 deputies showed up and parliamentary Speaker Hashemi Rafsanjani dismissed those gathered in the assem-

He lashed out at the Western news media and again claimed the United States was involved in the Iran-Iraq war. "At the very moment when we were due to discuss the special commission's report on the hostages the defenseless people of Dezful were smothered in blood and dust by ground-to-ground missiles," he said, referring to last week's Iraqi rocketing of the army garrison town. "America has received many

blows and will not calm down easily, and its provocations against this nation will always continue," he said. "I declare that the hostage issue has nothing to do with the Iran-Iraq war and the Americans should bear in mind that such last ditch actions and in terference in the destiny of this nation will not remain unanswered."

Pars, Iran's official news agency confirmed the session was cancelled and said the discussion of the findings of the special committee is scheduled for 8:00 a.m. Sunday."

Gayle Reeves, head of the narcotics division of the Midland Police Department, displays a box of Christian Dior shirts that were part of a \$103,000 load headed for Joske's in San Antonio when it was hijacked. About \$20,000 worth of the merchandise was recovered from a Midland storage locker early this week. (Staff Photo by Brian Hendershot)

Hijack loot recovered

By KAY CRITES Staff Writer

Midland police have recovered an estimated \$20,000 in merchandise from a \$103,000 load hijacked near Houston in May

Included in the recovered property are boxes and cases of socks, children's clothes, perfumes and colognes, syrup and honey dispensers, toothbrush holders and soap dishes, shower curtains, shoes, lingerie, pajamas and men and women's cloth-

Chief Wayne Gideon said some expensive jewelry and china were in the original hijacked load, but were not part of the property found by Midland In May, a truckload of items was en

route to Joske's Department Store in San Antonio from the East Coast. The truck broke down near Houston.

Gayle Reeves, head of the Midland Police Department narcotics division, said the truck driver unhooked

the trailer and pulled into a garage for repairs. Two days later he returned for the truck, but the trailer

Someone had apparently hooked on to the trailer and driven off with it. About 10 days later, the empty and abandoned trailer was found near Llano, in south central Texas.

The load was valued at \$103,000 by Joske's when the stolen merchandise was reported to the insurance compa-

According to Reeves, Midland officers began picking up tidbits of information in June that the stolen merchandise was hidden in a storage unit in Midland

The story we were getting,' Reeves said, "was that one or two individuals had bought all of this for \$10,000, and they were in the process of trying to find a buyer for it. They were wanting to sell the whole thing.

Midland officers contacted Joske's and obtained an inventory list. Meanwhile, police continued to receive tips the merchandise was here.

'We knew who these people were that had the stuff, but didn't know

where it was stored," Reeves said. 'So we watched, we looked and we waited. Friday we got information as to exactly where it was located. So again we went through a waiting and watching period for someone to come to the storage locker. But they never showed up.

No one showed up because in the meantime the man they were waiting

On Monday, Police Chief Wayne Gideon said police obtained a search warrant, searched the locker, found and confiscated the merchandise. "We don't know," said Reeves, "if

all of it actually got to Midland or whether it was doled out. But we got what's left. No charges will be filed since the

suspect is dead. 'We went for the recovery on this

one," added Reeves.

Cowboys stumping for Reagan

UNIVERSITY PARK, Texas (AP) Carter's term in office. - Cowboys from Tinsel Town and

Reagan made his third stop of the day Wednesday in this posh Dallas bedroom community and was greeted by about 8,000 cheering GOP faithful who packed Southern Methodist University's Moody Coliseum to hear

"Jimmy Carter has demonstrated America's Team stumped for Ronald his inability to lead our nation," Rea-Reagan as the GOP hopeful wrapped gan told the partisan crowd of conserup his last scheduled Texas campaign vatives, who often interrupted his 55speech with chants, whistles and cheers.

Before his appearance here, Reagan taped several television interviews and told WFAA-TV in Dallas that he supports federal aid for Texas schools ordered to provide a free edu-Reagan renew his attack on Jimmy cation to the children of illegal

Reagan and his wife Nancy were

entering the ribbon-draped arena under a banner that said, "There's Never Been Any Debate — Reagan Is The Winner." The coliseum, liberally sprinkled with Reagan-Bush campaign plac-

about 20 minutes late to the rally,

ards, was literally jammed to the rafters with a crowd ranging from businessmen in three-piece suits to college students in comfortable sweaters.

As Reagan waded through the audience after being introduced by Gov. Bill Clements, he paused to shake hands and flash a tired but happy smile. A collection of stars, athletes and state and local GOP candidates joined the applause from the stage. Roy Rogers and Dale Evans, who

joined Reagan earlier in the day in Houston and Fort Worth, drew a standing ovation as they told the audience to elect Reagan because he is pro-life, pro-God and a fabulous American. Although Dallas Cowboy coach Tom

Landry and former Cowboy quarterback Roger Staubach failed to win the applause given Rogers and his wife, they ended the evening on a light note by giving Reagan a Dallas Cowboy jersey bearing his name and the number 12 - Staubach's old number. "Can you imagine what a moment

this is for a fellow who played guard?" quipped Reagan as he held up the blue and white jersey to the cheering crowd.

During his speech, much of which was familiar campaign litany, Reagan received his loudest and longest ovations when he ripped Carter's energy policies.

Reagan challenged Carter's statement during Tuesday night's debate in Cleveland that oil imports had declined 35 percent, saying the decrease was not due to conservation "but recession.'

He also called the windfall profits tax an "excise tax" that only burdens the consumer, and said the Department of Energy has spent "\$10 billion, but has not produced a quart of oil.'

who are experts.'

Keep secrets secret and save money

WASHINGTON (AP) - Every year the government makes millions of its old secrets public. But a congressional agency wants to keep most of those documents secret - to save

The General Accounting Office says

\$11 million a year is paid government employees whose job is reviewing the documents and declassifying those they feel can be made public without harming the government. Ninety percent of papers that now

are declassified are of no interest to historians or the public, the GAO estimated. At issue are 617 million pages of

papers, 20 to 30 years old, dealing with state secrets of war, peace, di-

New record low recorded in city

The remnants of a cold front that swept through Midland and the Permian Basin Monday evening continued to have an effect on local weather this morning as a new record low temperature was established for the third consecutive morning. According to officials at the Nation-

al Weather Service at Midland Regional Airport, the low temperature this morning was 30 degrees, shattering the previous record low for this date — 35 degrees set in 1949. Wednesday's low temperature of 27

degrees shattered that date's previous record low as did the 34-degree record-breaking low temperature Tuesday, weather officials said. The cold front also brought unex-

pected snow to Midland and much of the Permian Basin Tuesday.

But the effects of the cold front are gradually diminishing. The forecast, issued this morning by the weather service, was calling for fair skies through Friday with warmer afternoons. It will be cold again tonight, the weatherman said.

Low tonight should drop into the mid-30s and the high on Friday should reach the low 70s.

Winds tonight will blow out of the southwest at 5-10 mph, but will increase on Friday to 10-15 mph.

High temperature in Midland Wednesday was 56 degrees, well below the record high for that date of 90 decrees set in 1933. plomacy, arms control, espionage, trade negotiations and other national security matters.

The practice of systematically reviewing the documents as they become 20 years old started in 1978 under a directive issued by President Carter. The GAO, in a report Wednesday,

proposed changing the directive so that only papers considered to be of public interest would be reviewed for declassification.

The agency said "page by page review" of documents is "costly and time-consuming." The proposal drew fire from Steven

Garfinkel, director of the Information Security Oversight Office. He called it "drastic," "insupport-"one-dimensional" and "illogiable,

"Systematic review establishes the principle that an open society cannot tolerate the permanent or indefinite closure of historically valuable rec-

ords," Garfinkel said in a memo. 'Moreover, by establishing a finite period of restriction, systematic review helps to offset the perception

quired to keep it in shape. If Reagan gets into office, Landrieu warned that the Republican would cut these housing programs. Under a Republican administration in 1974, the cabinet member recalled that the administration "closed down the public housing programs and began to dis-

The Republican's charges that a 'lot of fat" could be cut out of all the departments only prove to be a simple solution that is "totally unrealistic. We might be able to find some areas in our budget" that could be cut, he conceded. But those cuts mean there wouldn't "be enough resources to meet the immediate needs of the poor in this country." Supporting the president, Landrieu

concluded that "the choice between

candidates is quite clear."

held by many of a security classification system abused by government officials intent on hiding their mistakes behind the cloak of secrecy."

Involved are papers accumulated by the FBI, the CIA, the Arms Control and Disarmament Agency, the U.S. Information Agency, and the departments of State, Justice, Commerce and Defense and many agencies that no longer exist. The papers must be reviewed to

preserve secrets that would embarass foreign governments or reveal intelligence sources or methods.

The GAO said people who want to see documents that had not been reviewed and remain classified could seek them through the Freedom of Information Act.

Ronald Reagan and his wife, Nancy, admire the Dallas Cowboys' football jersey given to Reagan by former Cowboys quarterback Roger Staubach, right, and head coach Tom Landry (not shown). The jersey, bearing the name "Reagan" and the number Staubach wore, was presented at a rally Wednesday night at SMU. (AP Laserphoto)

Baskin, Floyd seek judge's position

(Continued from Page 1A) hind Baskin) - that doesn't impress

me a bit. "Most lawyers in town don't prac-

tice law, (though) they're in legal work," Floyd contended. Baskin, a University of Texas grad-

uate who has practiced law for 27 years, said he finds judicial work challenging. "It is very interesting work. To characterize it as 'fun' makes it sound

shallow. It's fascinating work. It's difficult to do well," said the Demo-BASKIN SAID there currently are 'no major innovations" at issue in

could fairly, dispose of the backlog of "I feel confident that the backlog can and will be caught up," Baskin said. But it will take much work to whittle on the civil and criminal dock-

judiciary in Midland. The issue is

who could be the more competent

person to fill the judgeship and who

"It's a pretty big backlog," maintained Floyd, who said that most civil suits eventually are "settled out of

"My contention," Floyd said, "is when you're filing a lawsuit, you ought to be prepared to go to trial." And Floyd said that he "had a hard time" making his living practicing

law here "because I couldn't move cases" due to the supposed slowness of the court until another district court, the 238th Judicial District, was established here in 1977 and lightened Judge Pickett's workload.

'They can be very messy and confusing," Baskin said of civil cases, "because they're not standardized, and it's not unusual to have 125 special issues" on a single civil case." As for criminal cases, they, too, are

challenging, Baskin said. "It's a mess," he allowed. "I think possibly some tightening might be appropriate. There darn sure aren't

ment.

any simple answers to law enforce-

Baskin said the crime and punish-

ment phase of the judiciary definitely

needs improving. "THAT REALLY IS the frustrating thing: We really haven't reached the point where we have a good rehabilitation, (but) one has to be harder on so-called hardened criminals.'

A good and fair judge has to know

prior rulings and, as Baskin pointed

out, how to "split it down the middle" and without bias and prejudice toward the plaintiff and defense. "All the judge has got to do is to hold to defense, and he never gets reversed (by the appellate courts)," Baskin said. "(But) that's not giving the prosecution and the people of Texas a fatr shot. Baskin, a student of constitutional

law, expressed concern about the future of justice in America and the U.S. Constitution. "I'm concerned, apprehensively,

that someday our high courts will

have pretty much eroded our constitution away" through broad interpretations. No longer does 'north' mean 'north' - it means northerly. Far more than his opponent, Baskin said, his background and experience

qualified him for the judgeship. A JUDGE SHOULD have a "high level of experience and background' to pass down just and fair decisions

tends that he is most qualified for the Floyd, too, said that he is quali-

and ruling, said Baskin, who con-

"There's a lot of work to be done there (in court), and I can handle it. I've got the health and the energy to do the job correctly." the law and how to research law and Floyd suggested that his Democrat-

> ic opponent wants the judgeship as a retirement plan. "I do not want to retire under the judgeship," Floyd said. "I want to

> work for the people of Midland." Said Baskin: "I would expect I'd be there (on the bench) quite some

"The answer (to the energy problem)," Reagan said, "is to take authority away from the government and put it back in the hands of those Reagan has an appearance scheduled in Texarkana today before

Imojean Bryan

Services for Imojean Bryan, 51, 1218 Century, were to be at 2 p.m. today in the Newnie W. Ellis Funeral Home chapel. Burial was to be in Resthaven Memorial Park.

Mrs. Bryan died Tuesday in an Odessa hospital following an illness. She was born April 7, 1929, in Abilene, where she was also reared. She moved to Midland in 1952 from Abilene. She was married to Leland Bryan Jan. 21, 1950, in Abilene.

Survivors include her husband; a daughter, Sondra Pruitt of Midland; her mother, Mrs. Mattie Thompson of Dallas; two brothers, Billy Thompson of Euless and Bobby Thompson of Dallas; two sisters, Louise Chapman of Dallas and Mrs. Joe Martin of Midland; and a grandchild.

Lenore E. Crews

Lenore Errett Crews, 66, 3117 W. Louisiana Ave., died Tuesday at her residence.

Services were at 10 a.m. Wednesday in the Newnie W. Ellis Funeral Home chapel with the Rev. James Otterness of the Lutheran Church of the Risen Lord in Odessa officiating. Burial was in Resthaven North.

Pallbearers were Jim Sadler, Bob Lampkin, Joe Cleary, Roy Bell, Ross Moore and Buck Newsom.

Joyce D. Brown

Services for Joyce Denman Brown, 49, of Portland, Texas, and formerly of Midland, were at 2 p.m. Wednesday in the Newnie W. Ellis Funeral Home chapel with the Rev. Sherwood Oglesby of St. Lukes United Methodist Church officiating. Burial was in Resthaven Memorial Park.

Mrs. Brown died Sunday in a Galveston hospital following a lengthy illness.

Pallbearers were Buddy Mauldin, Roy Mauldin, Bo Vickers, Loyd Gildon, Otis Cutbirth and Cliff Foun-

Lewis Grissom

LAMESA — Services for Lewis Edward Grissom, 57, of Lamesa were to be at 4 p.m. today in Northside Baptist Church with the Rev. Billy Bush, pastor, officiating, assisted by the Rev. Harold Stone.

Burial was to be in Lamesa Memorial Park directed by Branon Funeral

He died Wednesday in a Lamesa hospital following an illness.

Grissom was a lifelong Dawson County resident. He was manager of Shook Tire Co. for many years. He was married to Phyllis Maxwell March 29, 1980, in Lamesa. Grissom was a member of Northside Baptist Church.

Survivors include his wife; a daughter, Debbie Smith of Lamesa; two stepdaughters, Tiffany Maxwell and Steffany Maxwell, both of Lamesa; two stepsons, Stacy Maxwell and Carey Maxwell, both of Lamesa; his parents, Mr. and Mrs. E.C. Grissom of Lamesa; his grandmother, Mary McMahan of Lamesa; and a grandchild.

Myra Faye Baker

ANDREWS — Services for Myra Faye Baker, 73, of Andrews were Wednesday in First Assembly of God Church here with the Rev. Don Wilson, pastor, officiating, assisted by the Rev. Jack Barron of Maranatha Assembly of God Church.

Burial was in Evergreen Cemetery in Stanton directed by Singleton Funeral Home.

She died Monday in an Andrews hospital after apparently suffering a heart attack.

Mrs. Baker was born in Lone Oak and was married to H.L. Baker Oct. 25, 1924, in Campbell. She was a housewife and a member of the Maranatha Assembly of God Church.

Survivors include her husband; two sons, Bill Baker of Stanton and Laymon Baker of Andrews; a sister, Bernice Holden of Aransas Pass; a stepbrother, Miluş Jones of Greenville; eight grandchildren and six greatgrandchildren.

Claudean Barnett

ODESSA — Services for Claudean M. Barnett, 46, of Odessa and Bogota, Columbia, were to be at 10 a.m. today in the Free Will Baptist Church in Haskell, Okla. Graveside services and burial will be at 4:30 p.m. Friday in the Sunset Memorial Gardens in Odessa directed by Hubbard-Kelly Funeral Home.

Mrs. Barnett died Tuesday in a Tulsa, Okla., hospital following a sudden illness.

Survivors include her husband, Doyle Ray; a son, Anthony Doyle Barnett of Victoria; a daughter, Tammy Kay Chels of Odessa; her

mother, Leslie Woods of Haskell; three sisters, Lynda Baker of Muskogee, Okla., and Delores Cowsert and Evelyn Mellis, both of Killeen; three brothers, Paul Denny of Oklahoma City, and Richard Denny and Odell Denny, both of San Antonio; and three grandchildren.

Ruby C. Rosser

ANDREWS — Services for Ruby Christine Rosser, 52, of Andrews were to be at 2 p.m. today in Second Baptist Church here. Burial was to be in Andrews Cemetery directed by Singleton Funeral Home.

She died Tuesday afternoon in an Andrews hospital from injuries received in an automobile accident.

Mrs. Rosser was a native of Howard County and had lived in Andrews 46 years. She was a registered surgical nurse for 27 years and worked at Permian General Hospital. She was a member of Second Baptist Church here.

Survivors include two sons, Merle Ray Hoffman of Blossom and Ronnie Hoffman of Corpus Christi; a daughter, Mrs. K.B. Benson of Sonora; two brothers, S.P. Echols of Blanket and Dalton Echols of Paris; and three grandchildren.

Howard Stimmel

Memorial services for Howard Russell Stimmel, 85, of rural Midland will be held at a later date in Hemet, Calif.

Local arrangements were handled by Newnie W. Ellis Funeral Home. Stimmel died Wednesday in a Midland nursing home.

He was born Aug. 31, 1895, in Columbus, Ohio. He was reared in Ohio. He moved to Long Beach, Calif., as a youth and later attended the University of California at Berkley. He entered the service, serving in France during World War I. He returned to Hollywood and began a career in theatrical production. He met and was married to Mildred Wheat of Redlands, Calif. Stimmel was a past manager of Hollywood and Grauman theaters. He retired and lived in San Jacinto, Calif., before moving to Midland in 1978.

His wife preceded him in death in 1975.

Survivors include a son, James R. Stimmel of Midland; and a sister, Mrs. Alford Marshall of Palo Alto, Calif.

Jessie Lanier

Services for Jessie C. Lanier, 70, 1409 S. Colorado St., will be at 10:30 a.m. Friday in Alexander, La. Lanier died Sunday in a Big Spring hospital.

He was born in Mississippi and had been a resident of Midland since 1949.

ATIRES

Survivors include a brother, Donald Lanier of Vivian, La.

Polish leaders in Moscow

MOSCOW (AP) — Poland's new Communist Party and government chiefs are expected to face tough grilling today on the growing strength of Poland's independent trade union movement in their first face-to-face confrontation with President Leonid I. Brezhnev and other Kremlin leaders.

Stanislaw Kania, the first secretary of the Polish Communist Party, and Premier Jozef Pinkowski were met at Moscow airport by Brezhnev and were driven directly to a meeting in the Kremlin, official Soviet sources said.

A Foreign Ministry spokesman said the visit would be "brief," but gave no detailed schedule.

The Polish leaders' visit to Moscow comes as Poland's independent trade unions are threatening new strikes later this month to protest court-imposed changes in their charters that dictate union recognition of Communist Party supremacy.

The Soviet Communist Party newspaper Pravda Wednesday published a perfunctory announcement of the trip, terming it a "friendly working visit." By contrast, recent visits by Ethiopian, Afghan and Syrian leaders were described as "friendly official visits" and were preceded by biographies and photographs of the visitors in the official press.

A Western diplomat in Warsaw dismissed the official description of the trip as a "friendly working visit." If that were the case, he said, "it could have been arranged with a little less unseemly haste."

Kania and Pinkowski both came to power in Warsaw as a result of the wave of strikes that swept Poland last summer and led to the government's unprecedented acceptance of a union movement independent of the Communist Party. Pinkowski replaced Edward Babiuch on Aug. 24 at the height of the strikes and Kania succeeded Edward Gierek as party chief on Sept. 6, shortly after the strikes were settled.

At that time, Brezhnev expressed "firm confidence" that Kania would "quickly solve the difficult problems" of his country.

Since then, however, the Soviets have watched with evidently growing alarm the development of the nation-wide union movement.

Last month, Pravda carried sharp attacks on "outside interference" in Poland, and quoted from Lenin to criticize what the paper called the "bourgois" concept of free trade unions outside of Communist Party control.

The Soviet press has carried little on Poland this month. But official newspapers in East Germany and Czechoslovakia have recently launched stepped-up attacks on the union movement and on Poland's "uncontrolled skid."

The East German government was scheduled to impose stiff new restrictions today on travel between East Germany and Poland, in an apparent effort to halt the spread of the Polish labor rebellion. Czech sources in Warsaw said Czechoslovakia is preparing similar travel restrictions.

Looming over the Polish developments is the continuing threat of Soviet intervention. The Soviets have repeatedly warned that any weakening of Poland's Communist system poses a danger to the entire Warsaw Pact.

Observers in Warsaw said Kania and Pinkowski would urge Soviet leaders to remain patient and allow Warsaw time to iron out its current conflict with the unions. The Polish government has defended the unions as a chance for "renewal" but has criticized their reluctance to recognize the party's leading role explicit-

It was not immediately known if the Polish leaders' visit to Moscow would force cancellation of Pinkowski's scheduled meeting Friday with Lech Walesa and other leaders of Solidarity, the largest independent trade union to emerge from the summer labor strife.

Leaders of the two-month-old union, angry over court-imposed changes in Solidarity's charter, have threatened new strikes unless the charter is approved as it was submitted and other demands are met.

Nine killed, 81 hurt in Peking blast PEKING (AP) — An explosive charge brought into Peking's central railroad station caused the blast Xinhua reported. Immediately after the explosion Wednesday night,

PEKING (AP) — An explosive charge brought into Peking's central railroad station caused the blast that killed nine people and injured 81 Wednesday night, the official Xinhua news agency reported today.

There was no immediate further word on the nature of the incident, whether a bomb had been planted or who brought it into the station.

Two of the injured were in critical condition, the

agency said.

It said the device exploded on the second floor, near the top of an escalator going up from the first floor, at 6:15 p.m (5:15 a.m. EST) Wednesday.

One man died on the spot and eight others died

later in a hospital, it added.

the station was cordoned off while doctors tended the injured and dying, Xinhua said. It said ambulances later took the injured to hospitals.

The station building was only lightly damaged and trains kept running normally, it said.

Public Security Minister Zhao Cangbi, Railways Minister Guo Weichen, Peking Mayor Lin Hujia and Qin Jiwei, commander of Peking military units, were among senior officials who rushed to the scene,

Former Prime Minister dies

VALLETTA, Malta (AP) — Former Prime Minister George Borg Olivier, the architect of this Mediterranean island's independence from Britain, has died at his home in Sliema. He was 69.

Borg Olivier, who died Wednesday night, was prime minister for a total of 13 years, last holding the post between 1966 and 1971.

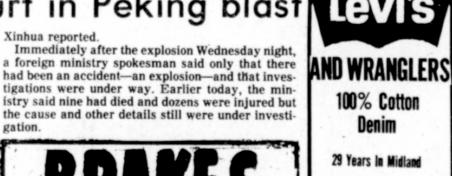

He was one of the three figures who dominated Maltese life for over 30 years. The other two were Archbishop Michael Gonzi, now retired, and the current prime minister, Dom Mintoff, who heads the island's socialist government.

Borg Olivier's nationalist government steered the island to independence from Britain in 1964. It was under his government that Malta began its major program to change the island's economy from one based on revenue earned from British base facilities to one relying primarily on manufacturing and tourism.

Combine 1 can (7% oz.) flaked Honey Boy Salmon with % cup chopped celery, 1 table-spoon chopped green onion, 1 tablespoon sweet pickle relish and salt and pepper to taste. Moisten with mayonnaise. Make 4 sandwiches with filling. Dip in mixture of beaten eggs and milk, then in finely crushed potato chips. Brown on both sides in buttered skillet

WANT ADS

New Jersey voters to decide secession

ATLANTIC CITY, N.J. (AP) — The strength of recent rumblings for a new state of South Jersey will be tested Nov. 4 when voters in six southern counties are asked if they want to secede from New Jersey to form the 51st state.

Atlantic, Burlington, Cape May, Cumberland, Ocean and Salem counties are offering non-binding referendum questions to gauge public sentiment on the secession issue.

Camden and Gloucester counties — two southwestern counties that would be part of the new state — recently refused to put the issue before voters.

Joel Jacovitz, deputy mayor of Egg Harbor Township, Atlantic County, is chairman of the Committee to Free South Jersey and undisputed leader of the newly revived secessionist movement.

Jacovitz said his committee, born out of a July 12 "convention" attended by about 190 spirited supporters, has spent less than \$5,000 to promote the question among South Jersey's 1.8 million people.

Jacovitz said he is optimistic even though many voters and political leaders in the area and the rest of New Jersey — which would stand to lose millions of dollars in Atlantic City gambling revenues — do not take secession seriously.

"We're looking for a majority to vote yes," Jacovitz said, noting there is no organized opposition. "I would feel very concerned if we got less than a majority."

Even if the question fails miserably, secessionists say their movement will have focused statewide attention on South Jersey's "plight." Largely seashore and agricultural, South Jersey, oriented toward Philadelphia, has long been suspicious of its state government in Trenton, which residents claim is controlled by urban and industrial

interests from the New York-oriented north.

South Jersey residents often grumble about the state's distribution of tax revenues to the more-populous northern areas, moves to control development of wilderness and coastal areas and proposals to tax fresh water.

Kansas City voters to debate fluoridation

KANSAS CITY, Mo. (AP) — In a ballot throwback to the 1950s, voters in this city of 430,000 will decide Nov. 4 to accept or reject the latest effort by the City Council to fluoridate their dripking water.

drinking water.

As in different unsucessful attempts over the past quarter of a century, the issue is fluoride's value in preventing tooth decay versus its possible danger in causing cancer.

While most American communities were resolving the debate by going along with fluoridation in the 1950s and '60s, Kansas City's water remained unfluoridated by a solid community vote following a series of court battles in the wake of City Council support in 1962.

In obtaining council approval for the upcoming vote, the Rev. Emanuel Cleaver said most of the rest of the communities in the nation have

Dial

Direct

Want

fluoridated water, including Johnson County, Kan., one of the wealthiest suburbs in the nation.

"It's ironic that the people in Johnson County who can afford to take their children to dentists have fluoridation and the people of Kansas City who are poor don't have the benefits of fluoridation." Cleaver save

of fluoridation," Cleaver says
Cleaver said the fluoridation would
not be expensive since the equiment
needed for the process has been in
place here since the 1960s vote.

Spearheading the opposition, as he has for the past 25 years, is Dr. Alex McCone, a veterinarian whose petition drive blocked the council action without voter approval.

"No one should be forced to drink fluoridated water, whether they don't want to or are intolerant to it," McCone argues. "The small amount of evidence about benefits to chil-

STANTON, TX.

dren's teeth is far outweighed by the evidence of harm, such as an additional 10,000 cancer deaths a year due to fluoridation. Fluoridation is a proven hazard to health."

Opponents quote medical sources as saying 10,000 or more fluoridation-linked cancer deaths occur yearly in

the United States. But an American Cancer Society spokesman in Kansas City disputed that contention, saying the society "has examined available evidence and does not consider there is any relation between the fluoridation of water and the incidence of cancer."

Stock market loses

NEW YORK (AP) - Stock prices retreated in fairly slow trading Wednesday as the nation's banking industry raised the base business loan rate to 14.5 percent, its highest level since May.

The Dow Jones average of 30 industrial stocks, after managing small gains through much of the session, closed with a loss of 3.41 at 929.18. Losing issues outnumbered gainers by a 7-6 margin on the New York Stock Exchange.

The retreat on the NYSE, however, was modest compared to the American Stock Exchange. Big drops in the prices of some Canadian oil stocks sent the Amex market value index tumbling 11.18 points to 344.41. On the Amex, price drops

for actively traded Canadian oil issues included: Dome Petroleum down 7½ to 62; Gulf Canada 3½ to 22½; Ranger Oil 3½ to 51½; Husky Oil & Gas, 3/4 to 14%; Bow Valley 1½ to 19¼; Chieftain Development 3% to 22.

On the NYSE, petroleum stocks were mixed. Texaco rose % to 38% and Atlantic Richfield gained 2% to 611/2 in active trading. But Mobil dropped 434 to 75; Gulf lost 1% to 41% and Exxon slipped % to 76%

Big Board volume was fairly light at 37.20 million shares, down from 40.30 million in the previous session.

The NYSE composite index slipped 0.04 to 73.80. Standard & Poor's 400-industrial stock index fell 0.16 to 145.64. The S&P 500-stock composite dropped 0.14 to 127.91.

In over-the-counter trading, the NASDAQ composite index rose 0.73 to 194.49.

Livestock

AMARILLO, Texas (AP) — Texas Panhandle and Western Oklahoma feedlot report. Confirmed: 1200.

Trade slow in the Panhandle area early Wednesday. Slaughter steers and helfers steady. Feedlots reporting fair interest and inquiry from most buying sources. Sales on 1100 slaughter steers and 100 helfers. 37,800 head sold for the week to date. Note: all live cattle prices based on net weights fob the feedlot after 4 shrink.

Slaughter steers: good and mostly choice 2-3, 70-83 choice, 1100-1150 lb. 68, 50-69, 00. Couple pens mixed good and choice 2-3 1150 lb. 68, 23.

Slaughter helfers: pen good and mostly

Slaughter heifers: pen good and mostly choice 2-3 950 lb. 67.00.

Cotton

Pahlavi to fulfill death-bed wish

Associated Press Writer

PARIS (AP) — Two decades ago, the birth of a baby boy in a working class hospital in south Tehran sent thousands of people into the streets to rejoice in the long-awaited arrival of an heir to Iran's Peacock Throne. Reza Pahlavi, the boy who would be shah, turns 20

on Friday in Cairo.

To relatives and monarchist supporters, Oct. 31 marks the day when Reza becomes the Peacock Throne's rightful occupant — and takes a step toward fulfilling his father's death-bed wish that he restore the short-lived Pahlavi dynasty.

The crown prince's grandfather, a former army officer who proclaimed himself Reza Shah Pahlavi, established the dynasty in 1925.

"There's not going to be a celebration in Cairo on the birthday of the crown prince. He's just going to make a declaration in front of his father's tomb," Princess Azadeh Shafik — niece of the late Shah Mohammad Reza Pahlavi and the prince's cousin said in an interview with The Associated Press.

"It's going to be very simple, very small. I don't know exactly what he's going to say, but it will show that he is ready to serve under a constitutional

"The crown prince is very eager to return to Iran as shah," Azadeh continued. "I think the chances of his returning are very good. He is a symbol and people want and need that."

As the country that sent the Pahlavi family into exile struggles with internal turmoil and a war against Iraq, support for Reza is rising, Azadeh claims.

She said he receives as many as 300 letters a week from Iranians beseeching him to become their sym-

But to some Iranian opposition leaders in Paris, Reza is a slow-witted never-been whose only support rests with a few millionaire exiles or uneducated peasants who believe in royalty.

These leaders represent factions that opposed the

throne for years and now are as fiercely opposed to the Islamic revolution of Ayatollah Ruhollah Khomeini as they were to the reign of the shah.

The 29-year-old Azadeh, one of the most outspoken members of the Iranian royal family, publishes an opposition newspaper in Paris called Iran Libre (Free Iran.) It is to this paper that many of the

letters are sent, she said. "The letters come from within Iran, bordering countries and throughout the world," she said. 'They come from all professions and social groups. Some are from Iranian students, some are from exiles, some are from children as young as 12. Some are from soldiers and many are from women who remember the freedoms they had under the shah and

are worried about what they now face. "Many of the letters from Iran aren't signed. The people who write them know it is dangerous to write. But they write to express what is in their hearts, never knowing if the letters will reach the crown prince. It is very moving."

Until the political situation between Iran and the United States became too volatile, and the personal safety of the Pahlavi family too uncertain, the prince was a freshman at Williams College in Massachusetts, known to classmates as "Ray.

Before that he had taken a year of pilot training with the U.S. Air Force in Texas. Reza learned to fly a jet when he was 13.

Today the prince studies economics and political science as a junior at the American University in Cairo. His younger brother, Ali Reza, and two sters, Farahnaz and Leila, are also in Cairo, living with their mother, Farah, within the walls of Kubbeh Palace

Azadeh said her cousin spends his days in exile preparing for his return to Iran.

"He's reading a lot, meeting with people, studying the problems of Iran, getting informed," said the princess. "I don't think he's having much fun."

But opposition leaders here dispute her claims. "Even the Cairo newspapers have printed stories on how the crown prince is hitting discos and drinking until dawn," said one source, who did not want to be identified by name.

The source said there is no evidence that support for the prince is growing, at least not among opposition groups.

"It makes me laugh that she (the princess) thinks it would be," he said. "We just got divorced from the Pahlavis and nobody is thinking about a re-marriage. Maybe he (Reza) has a certain following among the peasants but certainly not with anybody that counts.

"He hasn't any weight, he is not at all remembered," one exile said.

Three discoveries potential tests

New field have been openend in Terry, Nolan and Yoakum counties, and operators have announced completions on several field wells in West Texas counties.

Ladd Petroleum Corp. No. 1-75 Alexander has been completed as a Fusselman discovery in Terry County, 13 miles west of Brownfield.

The operator reported a daily flowing potential of 103 barrels of 38-gravity oil and no water, through a 10/64-inch choke. The gas-oil ratio is 1-1.

Compltion was through perforations from 12,523 to 12,533 feet after a 500-gallon acid treatment.

Total depth is 12,992 feet and 5½-inch casing is set on The Fusselman was topped at 12,496 feet on ground

elevation of 3,459 feet. Wellsite is 1,320 feet from south and 467 feet from west lines of secton 75, block D-11, C&MRR survey. Operator has suggested Alexander (Fusselman) as

YOAKUM OPENER

the field designatoon.

North American Royalties, Inc., No. 1 Price was completed as a small pumping discovery from the San Andres in Yoakum County, eight miles west of

Bottomed at 11,958 feet, it was finaled through perforations from 5,249 to 5,340 feet for a daily pumping potential of three barrels of 30.1-gravity oil and 12 barrels of water.

Operator set 5½-inch casing at 11,975 feet. The San Andres was topped at 4,532 deet on ground elevation of 3,744 feet. The Rustler was toppedat 2,308

feet and the Yates at 3,142 feet. Wellsite is 660 feet from south and 1,980 feet from east lines of section 363, block D, J. H. Gibson surovey.

The Nolan discovery is Aminoil USA, Inc., No. 1 Thornburg which was completed from the Ellenburger, four miles north of Roscoe.

On 24-hour potential test it pumped 66 barrels of 40.9-gravity oil and 80 barrels ofwater, natural, through perforations from 7,043 to 7,046 feet.

Total depth is 7,107 feet, 5½-inch pipe is set on bottom and hole is plugged back to 7,065 feet.

The Ellenburger was topped at 7,033 feet on kelly

bushing elevation of 2,387 feet. Other tops include the Saddle Creek, 4,392 feet; Pennsylvanian lime, 6,446 feet; Pennsylvanian reef, 6,490 feet, and Mississippian,

Wellsite is 1,980 feet from north and 810 feet from east lines of section 15, block 23, T7P survey, and two miles northeast of the Vogan (Strawn) field.

The R.L.G. (lower Canyon oil) pool of Tom Green County gained its second and third wells.

Energy Resources Inc. of San Angelo completed No. 1-B Perry "B" one location southwest of production for a daily pumping potential of 5.73 barrels of 41.2-gravity oil and 16 barrels of water, with a gas-oil ratio of 4,799-1. The pay, behind perforations from 4,080 to 4,088 feet, was acidized with 2,000 gallons and fractured with 621 gallons.

Drilled as a wildcat, the project is bottomed at 4,390 feet and 41/2-inch casing is set at total depth.

Location is 2,752 feet from north and 467 feet from west lines of T&NO survey No. 84.

Energy Resources No. 1-A Perry "S" was completed one location northwest of other lower Canyon oil production for a 24-hour pumping potential of four barrels of 42.1-gravity oil, no water, with a gas-oil ratio of

Completion was through perforations from 4,083 to ,087 feet after 3,000 gallons of acid and 15 gallons of

Drilled as a wildcat, it is bottomed at 4,377 feet and 1/2-inch casing is set at 4,374 feet.

Wellsite is 467 feet from north and west lines of T&NO survey No. 84.

IRION PRODUCER

The Irion, West (Canyon oil) pool of Irion County gined its fourth well with completion of MEG Petroleum Corp. of San Angelo No. 1 Myra Tankersley.

The weil, five miles southwest of Mertzon, completed for a 24-hour pumping potential of 60 barrels of 42.9gravity oil and five barrels of water, withh a gas-oil ratio of 1,717-1.

Completion was from pay behind casing perforations from 6,590 to 6,659 feet after 2,000 gallons of acid and 65,700 gallons of fracture fluid.

Location is 2,000 feet from north and "287 feet from east lines of section 1, San Antonio Ditch Co. survey.

War aggravating OPEC divisions

By ALY MAHMOUD

MANAMA, Bahrain (AP) - The war between Iraq and Iran is aggravating divisions among Arab members of the Organization of Petroleum Exporting Countries and ha forced cancellation of its 20th anniversary celebration in Baghdad, the Iraqi capital, next month. But analysts don't expect the war to destroy the cartel.

'The war has deepened an already existing split among several of the organization's leading members, but it will survive, mainly because no one seems to be seriously wanting it to die," said one official source in the United Arab Emirates.

For years, OPEC's 13 members have been split between price hawks and doves. Two years before the war, Iraq began lining up with conservative Saudi Arabia, the world's biggest oil exporter, and other moderates on the Arabian peninsula after siding for years with Iran, Libya and Algeria in pressing for higher prices.

The war and Libyan leader Moammar Khadafy's fiery rhetoric expanded the division over pricing between Libya and Saudi Arabia into an open break. After Saudi Arabia enlisted the protection of the U.S. Air Force's AWAC electronic surveillance planes to guard the Saudi oilfields against Iranian attack, Khadafy charged that their presence desecrated the Moslem holy places in Saudi Arabia and called for a holy war to "liberate" them. Saudi Arabia broke diplomatic relations with Khadafy's government on Tuesday

But the break won't affect the two nations' participation in OPEC. And despite their war, Iran and Iraq are also remaining in the cartel.

"OPEC members have come through many problems," said one oil analyst. "The way OPEC allows for splits, they have always been able to accommodate. They have a way of putting the problems on ice and then tackling them when they can."

The first impact of the war was to choke off some 4 million barrels a day or crude oil that Iran and Iraq exported, erasing a 2.5-million-barrel surplus on the world market that was allowing OPEC's customers to build up reserves.

The war also wiped out a shaky agreement worked mut at an OPEC meeting in Vienna last month for a price freeze in exchange for Saudi Arabia's agreement to go along with a 10 percent production cut.

The Vienna agreement strengththe OPEC conference last June in Iranian exports.

Algeria. But in mid-October, after war broke out, ther United Arab Emirates, an ally of the Saudis, raised its base price \$1.56 above the

Shortly after, Saudi Arabia invited the oil ministers of Kuwait, the UAE, and Qatar to the Saudi resort city of Taif, and they reportedly agreed to increase production by a total of 1.1 million to 1.7 million barrels a day to partially offset the loss in Iraqi and

Customers forced to take non-working pumps

By JAY MATHEWS The Washington Post

PEKING - Li Guisheng's electric water pump motors sometimes don't

Last year his customers had to take them anyway, this being socialist China with a planned economy. But this year the Chinese are testing the potent ingre-ients of capitalist-style competition, and so Li's workshop is in trouble.

'We have little fans in each motor for cooling, but they are made of plastic and don't work sometimes in high temperatures. Our lients want aluminum fans, but we don't have any. What do we do?" asked Li, the 56-year-old shop director who remembers long ago losing his job when his factory closed down before the Communist liberation.

"Last year the clients had no choice, but now they say they will buy

It is a small but significant example of the pain suffered by a Chinese economy trying to embrace the alien concept of a limited free market, and the bewilderment and worry of men like Li who must make it work. Last

Adobe announces new **Exploration Department**

Adobe Oil & Gas Corp. of Midland has announced the reorganization of its Exploration Department and the employment and promotion of several persons on its exploration staff in Midland as well as its division exploration offices.

The Exploration Department, headed by H. R. Holcomb, vice president, now consists of the Eastern Division located in Houston, the Central Division in Midland, and the Western Division in Denver, Colo.

The district exploration office in Pittsburgh, Pa., reports to the Eastern Division in Houston

James Deffebaugh, a 29-year veteran of the petroleum industry and division geologist here for Adobe the last seven years, has been promoted to chief geologist. He holds a degree in geology from the University of Nebraska.

Peter Bike, formerly senior geophysicist for Forest Oil Corp., has oined Adobe as chief geophysicist. Earlier he had been with several major companies. He is a graduate of the Colorado School of Mines at Gold-

David Jewell, associated with Adobe the last seven years and most recently district geologist, was promoted to Central Division exploration manager. He is a graduate of Kansas University. Jan Watson, land coordinator for

the last five years, has been promoted to landman.

Rufus S. Bynum III, a graduate of Southern Methodist University, has been employed as landman and will be located in the Midland office.

Steve King, formerly with Texas Gas Exploration, has joined Adobe as landman in the Eastern Division office in Houston. He is a graduate of Southern Methodist University and The University of Texas.

William Stewart is the exploration manager for the Eastern Division.

The newly-created Western Division office, which was the Rocky Mountain District prior to the reorganization, is headed by Dr. George

Garbarini as exploration manager. Robert Williams, formerly with Getty Oil Co., has been employed as division geophysicist in the Western Division. He is a graduate of Colorado State University

year Li's factory, the Peking Electric Motor Factory, met its quota of 700, 000 kilowatts worth of motors and had no trouble selling them. Its one buyer was the government, which turned the motors over to Chinese factories, turning a deaf ear to any com-

This year, the government will buy only half of last year's quota, and the factory must arrange to sell the rest directly to customers. It has been able to scrape together only 500,000 kilowatts in total orders, including the government's. Next year the government says it will not guarantee any purchases, and Li's factory will have to get all its orders on its own.

"We live or die by quality," says a new slogan pasted up in the factory. Li admits, "People want to buy from the Dalian Electric Motor Factory before they buy from us. They got the gold medal for quality while we only got the trusted products award, which is second place."

"We have decided not to make any aluminum fans, but try to buy them from another factory. In the meantime, my shop will work on another motor used for lathes, and reach our quota in that."

Li, 56, was yanked out of a povertystricken village south of here when he was 16 and sent to Changchun in the far northeast to work in a machinery factory i a Japanese occupied area. After World War II, the factory lost business and Li moved to Tianjin, and then Peking. In 1954, when the new Communist government still allowed some competition, Li's small machine shop again went bankrupt, but he found another job on his own, something that could not happen today with all personnel assigned by the state.

The current Chinese leadership, convinced of the failures of overweening state control, look back on those days of the early 1950s with some nostalgia. Li also defends the uses of competition and praises the energy of older workers who remember those

Younger workers, however, are a problem. Li said he had to discipline a young worker who was fiddling with co-workers' time cards as a joke, costing them their bonuses. "We use bonuses a lot now," Li said. Two other young workers lost their bonuses because they were careless and damaged an engine mounting.

While Li attempts to improve efficiency in his workshop, a huge, dark building crossed by cranes on overhead tracks, the factory sales officials in the main building look for customers. One official said, with a hopeful gleam in his eye: "We have had a visit from General Electric."

10 counties in West Texas gain 12 wildcat project sites

Wildcat operations have been announced in Dawson, Terry, Garza, Howard, Pecos, Coke, Crockett, Nolan, Schleicher and Runnels coun-

DAWSON PROJECT

Pioneer Production Corp. of Amarillo announced location for an 11.800-foot wildcat in Dawson County,

4½ miles south of Lamesa. It is No. 1-35 Mozelle C. Norris, 1,980 feet from north and west lines of section 35, block 36, T-5-N, T&P survey. Ground elevation is 2,925 feet.

The drillsite is 21/2 miles southeast of the Patricia, Northeast (Spraberry) field which produces at 8,290 feet, and 21/4 miles southeast of the Lamesa, West (Spraberry and Mississippian) pool.

TERRY OPERATION

Union Texas Petroleum Corp. of Midland announced plans to re-enter its No. 2 Phipps, Devonian producer in the Corrigan field of Terry County, and plug back for tests in the Mississippian as a wildcat.

The project, 121/2 miles southeast of Wellman, is 467 feet from north and 1,807 feet from east lines of secton 1, block C-38, psl survey.

Hole is bottomed at 11,549 feet. It will be plugged back to 11,450 feet.

GARZA EXPLORER Felmont Oil Corp. of Midland No. 1-11 Connell is to be dug as an 8,200foot wildcat in Garza County, 61/2

miles southeast of Post. Scheduled for tests of the Ellenburger, it is 660 feet from south and east lines of section 11, block 5, GH&H survey. Ground elevation is 2,391

The drilliste is 3/8 mile west of the shallow Rocker A, Northwest field.

HOWARD AREA

McCann Corp. of Big Spring No. 1 Cathey is to be drilled as a 4,400-foot wildcat in Howard County, five miles southeast of Vincent.

It is 1,320 feet from north and 660 feet from east lines of section 5, block 29. T-1-N. T&P survey.

It is a northeast offset to McCann No. 1 Stewart, active wildcat scheduled to 4,600 feet. It also is 13/4 miles southeast of the Vincent, South (Strawn) pool which produces at 7,839

PECOS PROJECTS

John H. Hendrix Corp. of Midland No. 1 J. N. Thigpin "C" will be drilled as a wildcat in the Thigpin (Devonian gas) area of Pecos County, five miles northwest of Sheffield.

Also scheduled as a Devonian test, it is 467 feet from north and east lines of section 4, block C-3, EL&RR survey. It is a west offset to Devonian gas production.

C. F. Lawrence & Associates, Inc., of Midland No. 1 McComb "A" is to be drilled as a 3,200-foot gas or oil wildcat in Pecos County, 15 miles south of Fort Stockton.

Location is 660 feet from north and east lines of section 10, block 132, T&StL survey and 1/2 mile southwest of the McLaw (Grayburg gas) pool.

COKE LOCATION

Gage & Co. of Midland spotted lcoations for a pair of 6,570-foot wildcat in Coke County, six miles northeast of

No. 1 Rives is 467 feet from north and 1,700 feet from west lines of section 352, block 1-A, H&TC survey. Ground elevation is 2,154.7 feet. It is one locaton south of a 6,554-foot dry hole and 2% miles west of the

Nipple Peak (Ellenburger) field. Ground elevation is 2,154.7 feet.

Gage & Co. No. 1 Robbins will be drilled 780 feet from north and 467 feet from east lines of section 354, block 1-A, H&TC survey. Ground elevation is 2,178.1 feet.

CROCKETT DRILLSITE Andover Oil Co. of Tulsa, Okla.,

spotted No. 1-3-42 University "C" as a 9,200-foot wildcat in Crockett County, 12 miles northeast of Ozona. Location is 660 feet from north and

block 42, University Lands survey. Ground elevation is 2,600 feet. Drillsite is 2% miles northeast of an 8,410-foot dry hole and 2% miles west of the lone well in the University Block 42 (Woldfcamp) field which

1.320 feet from east lines of section 3,

NOLAN EXPLORER

produces at 6,491 feet.

Penroc Energy of Abilene will drill a 6,000-foot wildcat two miles west of Trent in Nolan County.

It is No. 1 Poindexter, 800 feet from north and 990 feet from east lines of section 33, block 19, T&P survey. It is in the White Flat field which produces from the Strawn, Caddo and Ellenburger zones. The contract depth will allow for tests in the Cambrian.

SCHLEICHER WILDCAT

William B. Wilson & Sons, Inc., of Midland announced location for a 6,-200-foot wildcat 10 miles southeast of Christoval in Schleicher County.

Operator staked location for No. 1 Glass 2,173 feet from south and west lines of section 71, block M, GH&SA survey. Ground elevation is 2,395

Drillsite is 1% miles southwest of the depleted Oliver field which produced at 5,630 pet.

Ray W. McDonnell of Abilene No. 2 M. L. Wood is to be dug as a 5,000-foot wildcat 21/2 miles southeast of Crews

in Runnels County. Location is 1,980 feet from south and 467 feet from east lines of H. A. Bradley survey, abstract 1180.

GLASSCOCK RE-ENTRY

Bean Reve Operating Co., Inc., of Midland, announced plans to deepen from 1,323 to 2,750 feet a dry hole in Glasscock County, 11 miles east of

It is the former Lofwell Drilling Co. No. 1 Reynolds which was plugged and abandoned in 1965.

The operator will operate the project as No. 1 Perrier-Janet. It is 966 feet from south and 2,078 feet from east lines of section 34, block 32, T-4-S, T&P survey. It will be tested as a project in the Fools Creek (Queen and Clear Fork) field. The Queen has three wells and the Clear Fork has

ECTOR PROJECT

Santa Fe Energy Co. of Amarillo No. 1 Southwest is to be drilled in the three-well Harper, Southeast (Ellenburger) field of Ector County, three

miles east of Penwell. Scheduled to 13,000 feet, it is 933 feet from north and 1,820 feet from west lines of section 2, block 44, T-3-S, T&P

ANDREWS OFFSET

The one-well Cotten, West (Ellenburger) field of Andrews County gained an offset location with the staking of Chevron USA, Inc., No. 3 Socony Mobil.

The new test is 19 miles west of Andrews and 2,310 feet from north and west lines of section 19, block A-49, psl survey and one location southeast of the lone producer.

London Times stirring up interest in North America

TORONTO (AP) — The editor of The Times of London says he is meeting publishers in North America this week to stir up interest for his plan to raise about \$43 million to ensure the newspaper's future.

"The support for what we're trying to do is absolutely incredible," William Rees-Mogg said Tuesday. "We've obviously taken a very big

step forward." Rees-Mogg was in Toronto to present his idea to Kenneth Thomson, who announced last week he would close The Times and its sister publication. The Sunday Times, if no buyers are found by March.

Under Rees-Moog's proposal, the financial ties binding the two newspapers would be severed with The Sunday Times continuing as a conventional operation under the direction of new owners.

The Times, however, would be taken over by a consortium of journalists and management. He said to sidestep opposition that British newspaper unions have to new computer technology, the printing itself would be contracted out.

Special area kids get swim lessons, gymnastics

YMCA and the Midland Independent School District, 15 children at Bonham Elementary School are getting a chance to learn swimming and participate in gymnas- said. tics...a chance they otherwise might not have

The children in the program are in a special education class. Fourteen of the children are mentally retarded and one has cerebral palsy.

Every Tuesday and Thursday, for one hour in the afternoon, the children walk with their teachers aide, Cloris Thurston to the Alamo YMCA, a United Way agency, and either swim or work in the gym.

The program is designed to teach the children the skills needed to participate in a regular Physical Education class and therefore mainstream them into a regular P.E. program, says

Cloris has a degree in recreational therapy and is a qualified instructor in Adapted Aquatics, which is water safety for the handicapped.

This is the second year she has taught the class. Last year she taught the Bonham students while working full-time at Alamo YMCA.

"I enjoyed working with these children and wanted to do it all the time, so I applied for the position with the school district," Cloris says. Some of the activities the children participate

in are swimming, tumbling and gymnastics, including work on the balance beam. "The children are particularly good on the bal-

ance beam, but they enjoy swimming most of she said. In the swimming program the children learn the same skills taught in a regular swimming

class. At the beginning of the year, the children are tested so their level of swimming skill can be determined "At the beginning of the year we have children who are even afraid to put their faces in the

A message to users of Rely tampons Procter & Gamble.

Women who use Rely* tampons should stop using them and return the unused product to Procter & Gamble for a refund.

Government studies show that tampons are associated with an increased risk of Toxic Shock Syndrome (TSS). This is a newly-discovered disease that affects mainly women who use tampons during their periods.

Toxic Shock Syndrome can be very serious and is believed to be responsible for a number of deaths. Almost all women who have had the disease have recovered.

Some recent studies indicate that Rely was apparently involved with Toxic Shock Syndrome to a greater extent than other tampon brands.

Toxic Shock Syndrome was first reported in November 1978. It is believed to be caused by a toxin produced by a bacterial infection (Staphylococcus aureus). In June 1980. the U.S. Center for Disease Control (CDC) first linked it to tampon use. No one yet knows how or why tampons are associated with this disease.

In June, based on research conducted up to that point, CDC said that tampon use alone was not sufficient to cause the disease. CDC also said that no particular brand of tampon was more involved than others.

But on September 15, CDC announced a new study. It compared women who had Toxic Shock Syndrome with women who did not. The study confirmed that Toxic Shock Syndrome was associated with tampon use. It also indicated that Rely was apparently involved with more cases than any other brand. Here are the key data available to date:

DEFINITE TSS CASES REPORTED TO CDC Brands Used Identified Brands = Cases Rely Tampon Uniden-Involved Brand Brands tified CDC Study = 1 (completed June 20) CDC Study = 2 (completed September 12) Other cases reported to CDC Total CDC cases September 23) 'Brands used' totals more than the number of cases reported

On September 21, P&G convened a scientific advisory group to review all known data relating to TSS. The

because some women used more than one brand

group concluded that the available data were still fragmentary, but advised that the results of the latest CDC study should not be ignored.

Therefore, on September 22, Procter & Gamble announced it was suspending sales of Rely and that it would refund money to consumers who had Rely in their homes.

The Food and Drug Administration offers this advice to consumers:

The current evidence indicates that women should stop using Rely. Women who want to reduce their risk of toxic shock even further may want to consider not using any tampons at all, or using napkins part of the time during their periods.

"Women using tampons who develop a high fever and vomiting or diarrhea during their periods should stop using tampons and see their doctors right away."

The FDA and CDC have said they will continue studying Toxic Shock Syndrome to find out what causes it and why it is associated with tampons. Procter & Gamble will participate with the government in this important

In the meantime, Procter & Gamble advises women not to use Rely tampons and to return unused Rely for a refund,

You should know these symptoms of Toxic Shock Syndrome:

 High Fever (102°) and Vomiting or diarrhea

If you have these symptoms during vour menstrual period, discontinue use of tampons and see your doctor at once. How to return Rely and obtain refund:

Send your unused Rely tampons with your name and address to:

Rely, P.O. Box PM006,

El Paso, Texas 79966.

And you will receive a refund including cost of mailing.

NOTE: You may see Rely advertisements in the November issues of various women's magazines. Unfortunately, these issues were already printed when the decision to suspend sales of Rely was made on September 22, 1980.

@ 1980, The Procter & Gamble Company

An estimated 50,000 persons jam London's Trafalgar Square Sunday in one of the biggest "ban the bomb" rallies since the early 1960s. Britain's disarmament campaigners are marching to protest deployment of U.S. cruise

Four states have nuclear refernda

By LEE MITGANG AP Urban Affairs Writer

Voters in six states will decide the fate of anti-nuclear propositions on Election Day, and nuclear power foes - who until now have fared poorly at the polls - are given a chance of victory in at least one or two of the contests.

The only major ballot victories for opponents of nuclear power have been in Oregon and Missouri, where voters in 1976 prohibited utilities from passing the cost of nuclear plant construction along to consumers while the work was in progress. The Oregon measure applied equally to non-nucle-

In September, nuclear foes were defeated in a Maine referendum that would have shut down the state's only nuclear power plant and banned future nuclear development.

But public concern over radioactive waste, and how to dispose of it safely, may turn the tide in statewide referendums which focus on those concerns in Missouri and Oregon.

Montana, South Dakota, and Washington state will also consider nuclear propositions in November.

In Massachusetts, voters in 34 communities will consider a non-binding referendum on whether future nuclear plant construction should be halted. A strong anti-nuclear vote is fore-

"I guess 50 percent of the people will vote against nuclear power," said Murray Campbell, a Cohasset, Mass., consulting engineer who heads the pro-nuclear Massachusetts Voice of

Even if anti-nuclear issues are passed in one or more states, it won't necessarily signify that the public has soured on nuclear power. In Missouri, for instance, polls have said that voters may be willing to pass referenda halting nuclear construction until safe ways are found to dispose of radioactive waste. But the polls also say most Missourians do not oppose nuclear power in principle.

"We would obviously have concern if these things pass," said Kirk Willison, a spokesman for the pro-nuclear Edison Electric Institute. "But it's hard to say it would have a drastic national effect. The most important one this year was Maine. Maine was the only one to date that would have closed down the operations of an existing nuclear plant."

In Missouri, voters will consider a measure that would ban the operation of nuclear plants until there are federally licensed disposal sites for storage of nuclear waste. Since no such sites exist yet, that would effectively ban nuclear plants in the state. Missouri presently has one nuclear plant under construction.

The measure also would require any utility building a nuclear plant to post a bond adequate to decommission it once it became obsolete.

In Oregon, Measure 7 would, like Missouri, require the existence of federally licensed nuclear waste sites before new nuclear construction could take place. It would further require voter approval for future nuclear

Jim Huiden, a spokesman for Portland General Electric which operates the Trojan nuclear plant near Rainier, said that "most likely the issue will pass, because people don't understand the measure.

He said in an interview that PGE had hoped to have another nuclear plant built and operating in Oregon by the mid-1990s. But if Measure 7 passes, it would mean there would be no new plant until perhaps the year 2010, since there won't be any federal waste disposal sites ready until 1995.

In Washington state, an initiative

would ban, after June 30, 1981, importation of nuclear waste into the state except for medical wastes. Washington, South Carolina and Nevada are the only states that have commercial nuclear waste dumps, and the ballot measure is specifically aimed at the Hanford reservation operated by Nuclear Engineering Co.

Initiative 84 in Montana would not outwardly prohibit uranium mining, but would prohibit the milling of radioactive waste. The Montana Mining Association maintains that would effectively end uranium mining in the state since the ore would have to shipped out of state for milling, or mill wastes would have to shipped

In South Dakota, Measure 2 would require voter approval of future nuclear power plants, radioactive waste disposal sites, and uranium mines and mills. South Dakota has no nuclear plants at present.

Britons oppose nuclear weapons

By MAUREEN JOHNSON

LONDON (AP) - After nearly 20 years in the doldrums, campaigners for disarmament are marching again to protest British purchase and deployment of American nuclear weapons.

Membership in the Campaign for Nuclear Disarmament — the movement formed in 1958 with the help of famed philosopher Bertrand Russell - has doubled this year, to 7,000. Last Sunday 50,000 people came to its biggest protest in almost two decades.

U.S. cruise missiles are due in Britain and four other nations in 1983, NATO's response to the Soviet buildup of medium-range nuclear weapons aimed at Western Europe.

And Britain has already begun buying \$12 billion worth of Trident missiles from the United States. They are due in Britain in the 1990s as replacements for the Polaris missiles, the ones that prompted the mid-1960s marches. "We have shown that the people of Britain are fed up," Monsignor Bruce Kent, a Roman Catholic priest and CND secretary, said in an interview.

He argued that cruise missiles in Britain make it a prime Soviet target: Britons realize that they are on a course of maximum danger. There are not enough targets for all the weapons." Anti-nuclear sentiment revived this year as Conservative Prime Minister

Margaret Thatcher followed her hawkish campaign promises to make Britain a staunch U.S. ally in containing communism and to rebuild her nation's defenses "after years of neglect" by previous administrations.

Further fueling the protests are welfare spending cuts, last year's reactor accident at the Three Mile Island nuclear power plant in Pennsylvania and publication of a civil defense booklet telling people what steps to take in case of

But the missile opponents have a long way to go. The latest opinion poll, conducted by Gallup in September for a left-leaning weekly, New Society, showed 67 percent of those questioned oppose unilateral nuclear disarma-

The protesters of 1980 look far more politically significant than the radical, left-wing young people who protested British acquisition of Polaris nuclear missiles.

Sunday's rally in London attracted prominent figures from the opposition Labor Party, the centrist Liberal Party and the trade union movement, along with dozens of environmental, pacifist and religious groups and a

sprinkling of communists and anarchists. Although conservative Laborites oppose unilateral nuclear disarmament and worry that a unilateralist ticket would cost them support, the Labor party voted for unilateral nuclear disarmament at its annual conference in October.

This means the unilateralists now include legislators who hope to oust Mrs. Thatcher in elections that must take place by early 1984. "Unilateralists" opposing the purchase of Trident missiles have some strange and influential bedfellows. They include retired military chiefs

and academic nuclear analysts who say the 5 billion pound Trident program will mean skimping on conventional weapons. Military critics of Trident, such as Field Marshal Lord Carver, the former Chief of Defense Staff, say Britain could never be an independent

nuclear power anyway. Retired generals argue that the Tridents - to be deployed as part of Britain's NATO contribution - will merely leave Britain too poor to buy the tanks, artillery and warplanes it needs for its own defense and its commitments to the Western military alliance.

Mrs. Thatcher remains adamant that the only way to talk to Moscow is from a position of strength. She tells her critics Britain will find enough money to buy Trident missiles as well as to maintain conventional weaponry. Despite tough budget cuts for all other departments, defense spending has increased steadily since Mrs. Thatcher took office.

"We have no wish to seek a free ride at the expense of our allies," Mrs. Thatcher told her party's conference this month.

Kent sees nuclear disarmament as a serious business of "educating" average Britons, persuading citizens to elect a Labor government that will "send back" the cruise missiles, as promised by Michael Foot, deputy Labor leader and main left-wing contender for the party's leadership hext

Kent says that rather than organizing marches, current CND methods include lobbying professional groups, particularly teachers.

"We are not going to get into the sterile syndrome of 'when's the next march?" Kent said. "We've got to form a broad spectrum, not just leftwingers or people perceived as bizarre.... There's a limit to the impact of walking around between Hyde Park and Trafalgar Square."

Power of re-elected leaders attracting fund-raisers?

WASHINGTON (AP) - The business world's political fund-raising groups are donating heavily to the powers-that-be in Congress despite challenges to some of them by conservative Republicans espousing pro-

business views. It may not be the philosophies of the key Democratic leaders that impress the fund-raising business groups, however, as much as the power they will continue to wield in the next Congress once they are re-elected.

House Majority Leader Jim Wright, D-Texas, pointedly reminded potential contributors of that political fact of life in an unusual letter to business fund-raising groups last month.

In the letter, Wright, facing a tough race in his normally safe district, noted the importance of his party post and added: "I will be coming back to Congress. But anything you give to my opponent just makes it that much more costly for me.

Asked about the letter, Dave Lindsey, a Wright aide, said, "Jim Wright isn't vindictive but he does remember who supports him and who opposes

Wright, who is considered a leading contender to eventually succeed House Speaker Thomas P. O'Neill Jr., has received \$85,741 from business groups, compared to \$20,950 for GOP challenger, James E. Bradshaw, according to figures compiled recently by the Federal Election Commis-

Sen. Warren Magnuson, D-Wash., chairman of the Senate Appropriations Committee, and Rep. Al Ullman, D-Ore., chairman of the taxwriting House Ways and Means Committee, are two other congressional leaders fighting for their political

Although their Republican opponents generally take more conservative, "pro-business" positions, Magnuson and Ullman are leading easily in donations from business political action committees - or PACs

Ullman, who is being accused of losing touch with his district, has received \$167,663 from business PACs, the FEC figures show. His Republican opponent, Dennis Smith, has raised only \$33,850 from business

"Business PACs appreciate the work Ullman has done on Ways and Means at giving them an even shot to give their opinions even if he doesn't always support them," said Ed Groswalder, an Ullman spokesman.

Magnuson, 75, considered politically vulnerable because of his age, has received \$184,394 from business groups to \$3,200 for his GOP challenger, Gorton Slade, according to the FEC figures.

Magnuson's campaign manager, Abrey Davis, said he suspects some of the money does reflect a concern about maintaining access to a key congressional leader although he added: "I don't know if it buys particular access."

Rep. Thomas Foley, D-Wash., House Agriculture Committee chairman and head of the Democratic Caucus, is also running hard for re-elec-

Foley is being aided by \$87,060 from business groups - many with agricultural interests - while his opponent, John Sonneland, has received only \$875 from business PACs.

In addition, Ullman, Magnuson and Foley have drawn strong financial support from organized labor.

Sens. Russell B. Long, D-La., Finance Committee chairman, and Ernest F. Hollings, D-S.C., Senate Budget Committee chairman, have also benefited from the generosity of business PACs, even though neither faced

a tough re-election battle. Long, whose influence often can decide the fate of tax legislation, received \$409,625 from business groups for his campaign in Louisiana's unusual open primary system in which he assured his re-election by winning a majority of the vote.

Many business contributors with strong interest in tax legislation gave Long the maximum \$5,000 donation permitted under federal law.

His \$5,000 donors included PACs sponsored by Ashland Oil Inc.; American Bankers Association; Associated Milk Producers Inc.; Occidental Petroleum Corp.; National Association of Realtors; and Texas Eastern Gas Transmission Co.

Hollings, a leading advocate of higher defense spending, received \$181,015 from business PACs, compared to \$1,500 for his Republican opponent, Marshall Mays. A total of \$39,600 of Hollings' contributions came from major defense contrac-

Moving of Spruce Goose marred by delays

LONG BEACH, Calif. (AP) - Howard Hughes' 200-ton wooden flying boat - which skeptics dubbed the Spruce Goose - floated in a harbor channel early today as a \$1 million effort to move it to a temporary haven met with one delay after another.

Officials of Wrather Corp., operators of the airplane, hoped to complete the move today. The journey, which began Wednesday, was a short one - 300 yards from the drydock hangar that has protected the aircraft

since its only flight, Nov. 2, 1947. But the move to another drydock, scheduled to begin at 6:16 a.m. Wednesday and to last eight hours, was never on schedule.

"It has completely baffled everyone," said Wrather spokesman Bob Liljenwall. "They ran into problems they just couldn't foresee." The aircraft is mostly birch covered with fabric. It required delicate

handling by towboat operators, divers and crane operators. The aircraft was floated and towed from its hangar late Wednesday morning, its 80-foot high tail clearing the door by five feet. The move was already four hours late because of uneven pump-flooding of parts of the drydock. Things were further delayed at midday by problems with the

The Spruce Goose is to rest on the other drydock for eight months to prepare it for being moved across the harbor in June for display next to the Queen Mary. Wrather Corp., a Beverly Hills-based entertainment-pe-

troleum conglomerate, will manage the exhibit. Wednesday's project had a work crew of about 100 and a security and public relations force of 100. The Spruce Goose was insured for handling by Lloyd's of London for \$10 million, but no one could say what the

premium cost. Among those witnesssing the move was Charles Jucker, who was crew chief aboard the plane when it made its only flight.

Wrather officials say at least some of the plane's 3,000 horsepower

Pratt & Whitney engines are being rebuilt, permitting the plane to taxi

across the harbor in June. 'There's considerable work to be done before you can even think about starting them up," Jucker said. "You should have at least four engines to control that mast (the tail) when you get it out in the water, particularly if there's any winds come up.

On Nov. 2, 1947, Hughes taxied the plane along a five-mile stretch of the harbor. "We had passengers and no 'chutes aboard," Jucker said. "There was no reason to think we were going up."

But Hughes steered the craft back into the harbor, apparently to taxi some more, and "when we got to 70 knots I knew we were going up,"

The plane lifted to about 70 feet, then settled back into the water one minute - and about one mile - later. It was never flown again.

Study due on military exchange

says Congress is alarmed over the fact that senior management people have come under the gun in a federal investigation into the Dallas-based Army-Air Force Exchange Service.

The U.S. House member told a Dallas newspaper that allegations of fraud and corruption within the largely civilian-run military exchange soon will be scrutinized by a Congressional committee.

U.S. Rep. Dan Daniel, D-Va., said the House Armed Services subcommittee will conduct hearings in Dallas and Washington to look at problems in the exchange and commissary systems of all four branches of the armed forces.

Daniel said the subcommittee he heads would make an "in-depth investigation" of the charges,

DALLAS (AP) - A House subcommittee member The Dallas Morning News said in a copyright exchange system," Cofer said. story Wednesday.

Subcommittee staff member Will Cofer said congressmen are becoming increasingly concerned that top-level managers "are now being named and indicted and brought into the picture.

A federal task force including the FBI and U.S. Air Force has been investigating the bribery and fraud allegations for three years. The investigation already has resulted in indictments of more than a dozen AAFES employees and has implicated 50 companies, the newspaper said.

"The chairman (Daniel) has taken the position that just as soon as the task force work has been completed, the panel will move to call hearings and will make a complete review of the entire

"This is of very serious concern to all of us," he added. "The investigation does not appear that it will die soon. It may last another year or two.'

Walt Sheppard, former chief of the Alamo District exchange operation in San Antonio was convicted of accepting bribes.

Several exchange employees have petitioned Attorney General Benjamin Civiletti to stop the investigation, complaining of illegal mail interceptions, wiretaps and monitoring of conversations, the newspaper said.

The Army-Air Force Exchange Service is the nation's seventh-largest retailer, with annual sales exceeding \$3.5 billion, and employs 60,250 people worldwide. The service buys, prices and sells goods offered through military base and post exchanges for sale to active-duty and retired military personnel

and their dependents. Although exchange prices vary, employees say the goods sold through exchanges cost, on the average, 21 percent less than the standard retail price.

Panel seeks removal of judge

CRYSTAL CITY, Texas (AP) - The Zavala County Commissioners Court is asking the State Judicial Qualifications Commission to remove Jose Angel Gutierrez, the fiery founder of La Raza Unida Party. as county judge.

The commissioners court, back in control of Democrats after several years of La Raza Unida rule, voted 3-1 this week to ask the state commission to remove Gutierrez on grounds he has neglected his official duties.

"The action was taken because Mr. Gutierrez has been absent from 22 of the last 28 commissioners court meetings this year alone," said Precinct 2 Commissioner Frank Guerrero Jr. "He's also on the juvenile probation board and hasn't been there to do his job: We've had to drop the juvenile probation office services from the budget.

Gutierrez, who has been a guest lecturer at a college in Oregon this year, replied when asked about the absences: "I was present at the meetings I wanted to be present at.

"The public elected me and the public can vote me

out of office at the next election."

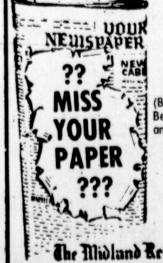

Gutierrez, who founded predominantly Mexican-American La Raza Unida Party in a tumultuous school boycott in 1969, was elected county judge in 1974 and re-elected in 1978. But Democrats won back control of the commissioners court in the 1978 election and only one La Raza Unida member, Elena Diaz, remains on the commissioners court.

The judge has abused his office and neglected the duties he was elected to do," said commissioner Felipe Torres.

Torres said he feared Gutierrez's absence from the Oct. 13 meeting would jeopardize the legality . Zavala County's tax setting which occurred that

Guerrero said commissioners hope to hear from the Judicial Qualifications Commission "in a few days" whether it would act on the court's recommen-

Gutierrez would not comment on Guerrero's allegations that he may not longer be living permanently in the county, but his secretary said he still resides in
