WEDNESDAY, NOVEMBER 12, 1980 **48 PAGES, 4 SECTIONS**

The photo above released Wednesday shows two moons of Saturn discovered by Voyager 1, one the bright spot toward the top and the second the bright spot at the upper right. At right, William Kleinschmidt monitors Voyager's approach to Saturn. (AP Laserphotos)

Voyager nears climax of journey to Saturn

PASADENA, Calif. (AP) - After aiming its cameras point-blank at the huge moon Titan - and taking pictures of an orange smog concealing its surface - Voyager 1 hurtled on today toward the climax of its mission - a close-up look at the golden, ringed planet Saturn.

The unmanned space probe, which sailed within 2,500 miles of the moon late Tuesday, headed into Saturn's clouds at 38,000 mph to take photographs of the shimmering rings and at least five other moons before leaving the planet's realm.

Meanwhile, earthbound scientists were disappointed that only hints of Titan's surface detail emerged through the moon's natural smog. Computer wizardry was expected to enhance photographs of the features below the haze.

"I don't think there's any evidence we are seeing the surface," said David Morrison of the Voyager camera team. "But we are clearly seeing some cloud structure.

'The streaks and things (vaguely seen in the clouds) aren't showing up very convincingly in the raw images' from Voyager.

Amid the excitement, scientists already were feeling sad that the close encounter with Saturn was so fleet-

"This near encounter is happening so fast and some of us have worked so long on it that we wish we could slow time down," Deputy Project Manager Esker Davis said.

We wish we could revel in this excitement and this joy ... in learning all these new things. But we can't slow time down, so it will be over all too quickly."

Fast approaching the end of its

three-year mission, Voyager skimmed past Titan at 9:41 p.m. PST Tuesday, but radio messages signaling its success took more than an hour to cross the more than 1 billion miles of space.

Its equipment also recorded data on the composition and density of Titan's methane atmosphere and its actual size. The moon's unseen surface may even hold puddles or lakes of liquid methane or nitrogen, said project scientist Ed Stone.

Accurate surface measurements also may show whether it really is the solar system's largest moon. Titan's diameter, 3,400 miles, has included the clouds around it.

Voyager pierced Saturn's magnetic field late Tuesday afternoon after co-vering 1.24 billion miles since leaving Earth on Sept. 5, 1977, crossing what is known as the bowshock — the point where Saturn's magnetic field deflects the solar wind, a stream of electrically charged particles emitted by the sun.

Photographs earlier Tuesday revealed at least two eccentric, irregular ringlets among the planet's 100 or so narrow, circular rings of icy parti-

"The things I least expected to find were eccentric rings within the ring system, " said Bradford Smith, head of the Voyager camera team.

School officials ponder fund woes

By DAVID CAMPBELL Staff Writer

A report from the tax assessor-collector's office which showed a \$94 million difference in assessed tax values for the Midland Independent School District caused great concern for school trustees during Tuesday's school board meeting.

If the report is accurate following an investigation by MISD, the school district could stand to lose \$841,399 in tax revenues

A two-hour closed door emergency executive session started at 2 p.m. when the four-member board discussed the matter with the district's attorney, Charles Tighe of Midland.

Trustee Parker Humes, acting as chairman, read a statement to the news media concerning the difference.

According to the statement, on July 30, Virgil Jones, tax assessor-collector, reported that the district had \$2,081,348,490 in total assessed taxable property for the school district. At that time, the effective tax rate

for the school district was set at 75 cents per \$100 evaluation. The district then set its tax rate at 89 cents to cover the 1980-81 school budget.

The tax office then sent a different set of figures showing the assessed taxable values at \$1,986,809,221 - a \$94,539,269 difference. W.

Three men convicted Former chief reveals pot scheme

By ED TODD Staff Writer

Three Houston-area men, indicted in a marijuana scheme revealed by a former police chief who turned to dealing in marijuana, were convicted in federal court in Midland of conspiracy to possess and to distribute 1,143 pounds of the Mexican pot.

Convicted were Terry Wright, 44, the former pilot-mechanic of the nowdefunct Big Bend Airways in Alpine; Ricky J. Kornele and Gary Orsack, 32.

The jury deliberated slightly more than an hour Tuesday before finding the threesome guilty on all counts. The men, free under \$10,000 bonds, are to be sentenced by U.S. District Judge Lucius D. Bunton at 5 p.m. Dec. 15 in federal court here. Each could be dealt a five-year penitentiary term and \$15,000 in fine on each count charged in the indictment.

The government's case against the three men was largely based on the testimony of D.A. "Ace" Moseley, 44, ex-chief of police at Alpine and a former undercover narcotics detective with the Midland Police Department.

Moseley, who was indicted last May on conspiracy to possess marijuana and with possession with intent to distribute 1,143 pounds of the controlled substance, was granted immu- ty to Moseley and to dismiss the nity after he agreed to become a government witness and to testify against his former cohorts, with whom he admitted having drug dealings.

Don Lambright, one of three defense attorneys from Houston, turned against Moseley in his closing arguments in the 1½-day trial, ques-tioned his credibility and said "I'd rather call him 'Duce' " instead of his long-standing nickname of "Ace."

"His (Moseley's) conscience ate him up," Lambright said. "There should be some people walking around feeling guilty," he said of the ex-lawman, who reportedly now is running a shrimp boat off the Texas Gulf Coast.

Lambright lamblasted Moseley and said that his testimony was "gossip" and should not be taken seriously by the eight-woman, four-man jury.

"I don't think we've ever convicted people on that kind of evidence. They (the U.S. Drug Enforcement Administration) are so proud of (Moseley), anyway.

Lambright was referring to Moseley's giving and signing a confession before DEA Special Agent Larry Ni-chols the day before he was to go on trial in August. In exchange for Moseley's cooperation with the DEA, the government agreed to grant immuni-

indictments against him.

Later, Moseley, acting as a pseudoundercover agent, pretended he again was dealing in "dope" and surreptitiously recorded drug-related conversations with defendants Wright, Orsack and Kornele in Midland and in Houston.

"In order to convict on these tapes," the defense attorney told the jurors, "you have got to believe 'Ace' Moseley.

"When you talk about law and order in the same context with 'Ace' Moseley, it's a joke," charged Lambright. "I hope you are offended as I am offended" by Moseley's testimony.

In further trying to discredit Moseley and his credibility, Lambright said that an untrustworthy lawman should be avoided.

"A dishonest police officer has more power to harm you than any criminal that walks through town, he said. "He can hurt you in ways that you are powerless to do anything about," he said.

"I would prosecute 'Ace' Moseley for free, without a single penny for fee, if given the opportunity," defense attorney said. But, he said Moseley would go

free. "'Ace' Moseley will be dealt (See THREE CONVICTED, Page 2A)

Ronald and Nancy Reagan household words, especially when their bearers become president and first lady in January

And to give insight into the couple who will occupy the White House, The Reporter-Telegram plans two weeks of special features about the Reagans.

Beginning today is the first of four articles about the future first lady by Los Angeles Herald Examiner staff writer Wanda McDaniel. It is the story of "a woman who began life in the depths of tragedy and spiraled to the heights of glory" and will continue through Saturday. Then, beginning Sunday, a 10-

part series excerpted from "Where's the Rest of Me?", autobiography of the man who pulled off one of the greatest political victories in U.S. history, a book which The Washington Post calls "the most important source on his life, his character and his philosphical outlook.

A look at the Reagans

You'll want to read each installment - Nancy, beginning today on Page 5A, and Ronnie, starting Sunday in your

tendent, said the \$94 million difference was first discovered by Don Furgeson, district business manag-

This was the first time during Mailey's 13 years as superintendent the tax office has reported such a large discrepancy.

In the past, tax reports on total assessed values were accurate, said Mailey.

In other actions, trustees gave per-mission to the League of Women Voters to conduct a study on the school district's academic curriculum.

Charleen Rosebery of the League explained that the study would in-volve interviews with administrators, classroom observation and an overview by Dr. Joseph Baressi, assistant superintendent for instruction, at a Dec. 11 meeting.

The five areas the League group will be examining deal with English, mathematics, social studies, science and foreign language. Following approval of the League's

(See TAX REPORT, Page 2A)

Center's ground broken

A contemporarily designed retail shopping center featuring about 140,-000 square feet of total retail space, is scheduled for completion in the fall of 1981. The 13-acre Westwood Village shopping center is to be located on the northeast corner of Illinois Avenue and Midland Drive.

Groudbreaking ceremonies were to be held at 2 p.m. today.

The project will feature a large new Safeway Super Store and a Skillern's Drug Center. The remaining areas will allow lease space for small retail businesses and restaurants.

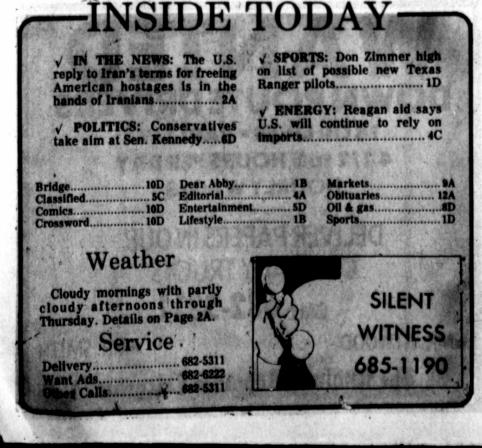

The first phase of development will consist of the Safeway store, Skillern's and 30,000 square feet of lease space. The second phase will follow with 60,000 square feet of additional retail space.

The Safeway Super Store will be one of the largest stores of the chain in West Texas. The full service grocery will feature special departments such as a natural food center, a beer and wine section, a delicatessen and bakery, a photo and gift counter and a pharmacy.

Westwood Village will be contempo-rary in design featuring an exterior of exposed wood and tan stucco walls. An open mall courtyard area with fountains and gardens will connect the retail areas.

Developers for the project are G. Adair Ratliff of Fort Worth and the HBF Corp. of Midland. Architects are **Barnes-Seagraves of Fort Worth.**

The general contractor for the project is HBF Construction Inc. of Midland, and the electrical contractor is Mid-West Electric of Midland.

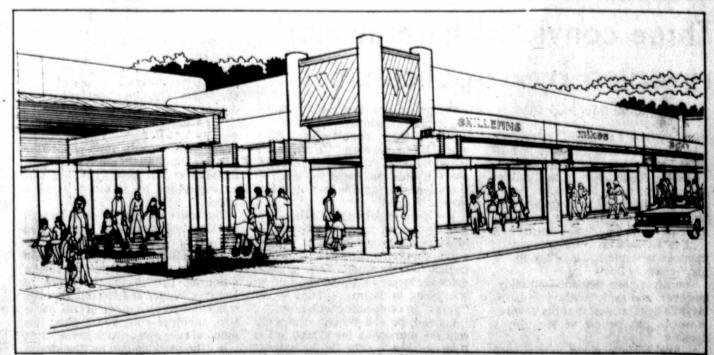

Office center to add two more buildings

Two more office buildings will be added to the Petroleum Center complex on the northeast corner of North A Street and Wadley Avenue, according to an announcement Tuesday by the I.D.P. Corporation.

Construction for Five Petroleum Center and Six Petroleum Center will start March 1, 1981, said the spokesman with I.D.P. Estimated completion date is February 1982.

The two new buildings will be an addition to One and Two, which are being completed, and Three and Four, which is now under construction. Completion dates on the latter pair of buildings is July 1981 and these are 70 percent leased.

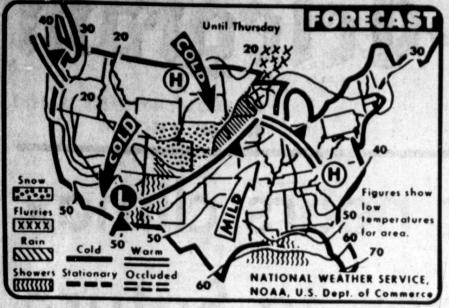

The two additional buildings will be (See OFFICE, Page 2A)

An artist's drawing shows the new 140,000square-foot Westwood Village shopping center, with Phase I completion scheduled for fall of 1981. The center, leaturing a Safeway Super Store, Skillern's Drug Center and open mall courtyard area. will be located at the corner of Illinois Avenue and Midland Drive.

Clouds due in Thursday

THE MIDLAND REPORTER-TELEGRAM, WED., NOVEMBER 12, 1980

The early morning fog Midland has seen for the past two days should change to increasing cloudiness on Thursday, according to spokesmen at the National Weather Service at Midland Regional Airport.

This evening's temperatures should dip into the upper 40s. This morning's low reached 42 degrees, even though it was forecast to be only in the mid-50s. The low was still warmer than the record low for the date - 19 degrees in 1932.

The fair to partly cloudy afternoon Thursday should bring a high temperature in the low 70s for Midland. Tuesday's high was an even 70 degrees, much cooler than the record 83-degree high for the date set in 1964.

Winds will be southerly, 10-15 mph tonight, increasing to 15-20 mph on Thursday.

There is no chance of precipitation Thursday to make the date the 13th dry day of November for Midland.

</tr SEMINOLE - A Lamesa man was killed early Tuesday when his trucktractor collided with another trucktractor driven by a Lamesa man on a county road 24.7 miles southeast of Seminole.

Kelly Glen Vaughn, 18, was pronounced dead at the scene by Gaines **County Peace Justice Fred Connally.** His body was taken to Singleton Funeral Home in Seminole.

Driver of the second truck, Benny Joe Taylor of Lamesa, was not injured.

The collision, which occurred about 8 a.m. Tuesday, occurred as both trucks were northbound on the dirt road.

Popping up out of the ground will be Five

Petroleum Center and Six Petroleum Center, the two buildings on the left side of the drawing. The I.D.P. Corporation announced the two additional buildings to Petroleum Center Complex at A Street and Wadley Avenue.

Hurricane drifting west

MIAMI (AP) - Hurricane Jeanne, the November surprise of the tropical storm season, drifted westward in the Gulf of Mexico today, routing thou-sands of offshore oil rig workers, though still hundreds of miles from land

The National Hurricane Center in Miami said the storm weakened slightly during the night and was packing top winds of 75 mph. At 5 a.m. EST today, the storm was

centered near latitude 24.0 north, longitude 89.0 west, about 400 miles south of New Orleans.

It was moving west at about 5 mph, forecaster Miles Lawrence said.

Oil companies began evacuating hundreds of workers from rigs and work barges in the Gulf of Mexico on Tuesday as the storm churned 450 miles south-southeast of New Orleans.

Chevron USA Inc. said it had evacuated 1,000 offshore workers by Tuesday night. Other oil companies said they were closing down some operations and bringing in all but the minimum number of workers required to keep other operations

going.

Exxon said it had evacuated 700 workers, Gulf reported 610 evacuations, Shell 400, and Ocean Drilling and Exploration Co. 350. Texaco said it had moved 70 workers from the gulf and would reassess the situation today.

Jeanne reached hurricane status Tuesday morning when its sustained winds hit 75 mph, 1 mph above ohe needed minimum

The 1980 Atlantic hurricane season ends Nov. 30.

Iranians have U.S. reply to demands

BEIRUT, Lebanon (AP) - The U.S. reply to Iran's terms for freeing the 52 American hostages was delivered to the Iranian government in Tehran today, an aide to Iranian Prime Minister Mohammad Ali Rajai reported.

Rajai's office, reached by telephone from Beirut, gave no indication of the initial Iranian reaction. But American officials thought it might be sev-

Hostage aware of negotiations

SEATTLE (AP) - The senior U.S. diplomatic officer held hostage in Iran declined to comment when asked out neg

eral days before Iran made its next move. The five-man U.S. team that delivered the American reply to the Algerian government for relay to Tehran was returning to Washington from Algiers today. Their U.S. Air Force

jet developed mechanical trouble en

route, and the group spent the night at Shannon Airport in Ireland.

The two days of discussions that

after several weeks of effort by pro-

ducer Shawn Inmom. Laingen also said he was aware of

ended Tuesday between the American team, headed by Deputy Secretary of State Warren Christopher, and the Algerians were described as "intensive and useful" by John H. Trattner, a State Department spokesman here.

Christopher's group left Algiers on Tuesday despite its original plans to remain up to a week to receive an answer to the U.S. response. There was no word here on whether Christopher's mission was considered a success and Christopher had no comment as he left.

Algeria is acting as an intermediary between Tehran and the United States because the two nations have no official diplomatic relations

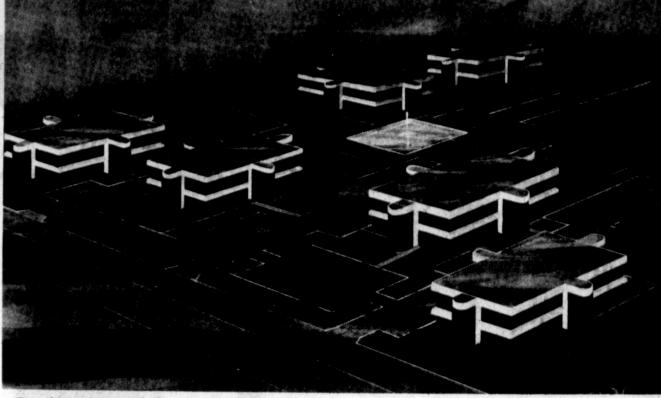

On Tuesday, Christopher met with Abdelkrim Gheraib, Algeria's ambassador to Iran, and Algerian Foreign Minister Mohamed Benyahia to explain the written response, which was said by U.S. officials here to be long and technical.

Christopher carried with him a pledge of non-interference and an explanation of U.S. legal difficulties in meeting the other demands.

The discussion occurred during a luncheon at a closely guarded restaurant at the Algerian zoo, 15 miles from downtown. After the four-hour session, Christopher returned to the U.S. Embassy to begin writing a report to Carter.

the release of 52 Americans.

"You see, Laura, I'm reluctant to speak in any way to the substance of the moment because of the sensitivity and delicacy of where we are. I join you and all Americans in hoping it will produce results now," Bruce Laingen told KAYO talk-show host Laura Hall Tuesday night.

"I'm in no position to speak to that," he said. "We are totally out of touch as far as the substance of the problem.

Laingen, 57, of Washington, D.C., was reached by phone at the Foreign Ministry in Tehran where he and two other Americans are being held.

Forty-nine other American diplomatic personnel also are being held in Iran since militants seized the U.S. Embassy on Nov. 4, 1979.

The radio station was able to reach Laingen about 9: 30 p.m. PST Tuesday

the election of Ronald Reagan.

"To some degree, some information is available to us," he said. "We know about the election. We wish the president (Reagan) well, we wish President Carter well."

Laingen said he had no knowledge of the hostages not held at the ministry. Seeming to choose his words carefully, he described his condition as "fine. ... We're anxious to leave, hopeful."

Ms. Hall invited Laingen to give any message he wished to the American public

"I would only say this: We have been exceedingly gratified by the kind of public support we have had from the beginning from the American people and government.

"We have no doubt that it is continuing, and at this particularly crucial time that kind of support is even more important than ever.

Christopher's group met with Algerian leaders to give a "generally positive reply" to the Iranian demands, U.S. State Department officials said. The Iranian Parliament outlined four demands, including a pledge of U.S. non-intervention in Iranian affairs, cancellation of American financial claims against Iran, return of the wealth of the late Shah Mohammad Reza Pahlavi and release of more than \$8 billion in frozen Iranian assets.

Christopher's team went to Algiers to try to speed the negotiating process after U.S. officials failed last week to open direct talks with Iran.

At first, Iran had insisted on a public U.S. response, but the Carter administration refused and took more than a week to develop the reply. That answer was delivered Monday by Christopher to the Algerian officials.

day night.

Christopher outlined in "very great detail" to Gheraib and Benyahia why some demands would be difficult to meet, particularly the lack of presidential authority to interfere in legal processes involving suits that seek monetary damages from Iran.

Other sources in Algiers raised the hope that Iran would reply to the U.S. message through the Algerians, leading to genuine - albeit indirect negotiations.

Office center will add two buildings

(Continued from Page 1A)

built in the same architectural manner as the first four. These are twostory contemporary structures that are off-white in color with black glass. The interiors have marble walls and floors

In the center of each side of the building is a bubble. The lower portion is planted with greenery and decorated with a large sculpture in each. The upper floor bubbles are utilized as executive offices. Atriums in the center of each structure will be one of the architectural highlights.

As with the other four buildings, parking will be provided.

Cost of each 60,000 square foot building is about \$3 million, said the spokesman. Space is being leased for \$15 a square foot.

The spokesman said oil companies primarily are the major tenants in these offices. Strong points for the offices are the free parking and their close proximity to the employees' homes.

Plans for additional buildings in this complex are pending, based upon demand for offices in that area.

school money troubles A Midland man told police Tuesday

(Continued from Page 1A)

study, trustees rejected a request by the First Baptist Church to allow Jay Strack to present a values and morals presentation to secondary students.

Although it was reported by Charlie Dodd, youth director at First Baptist, that other Texas school districts allowed the presentation, trustees said in effect they did not want to set a precedent where other religious organizations could make similar preentations

Humes said the district has denied other local religious organizations permission to bring speakers to the schools. However, board members noted efforts would be made to inform

the students about the program. Board members were pleased with the accreditation report by the Texas Education Agency.

The school district would be recommended for accreditation, said Baressi. However, the four-member accreditation team recognized, among other items, the overcrowded situation at the elementary schools.

Following the report, board mem-bers indicated the need for calling a bond election to construct a new elementary school.

In other action, the board approved bids for a gasoline storage tank, stage curtains for Midland High School and six elementary schools as well as other routine items.

that someone had thrown a fire bomb at his car as he drove down the 2000 block of North Jackson Street.

Garza advised that another man had been using his car and that the

Firemen fight two house fires

Two house fires that occurred within minutes of each other, a dumpster fire and a truck fire kept Midland firemen busy Tuesday.

Midland firefighters were called to the first house fire at 6: 34 p.m. at 2201 Winfield Road. However, when they arrived, they discovered the fire was already out. Apparently, an electrical short in the stove was responsible for the alarm. The stove received minor damage.

The second house fire, at 6:56 p.m., was at 1117-B N. Carrizo St. Overheated grease on the stove caused the fire this time. Again there was minor damage to the stove. The fire was extinguished by firemen using a towel.

The house was occupied by Russell Perkins and owned by Mrs. Lloyd French.

The department's afternoon began with three medical runs, and then a dumpster fire in the 700 block of Douglas Avenue at 4:29 p.m. That fire was followed by a medical run, house fire, medical run, house fire, two medical runs and a truck fire at 11:26 p.m. The truck caught on fire after a tire blow-out on Interstate Highway 20 at the 1251/2 mile marker.

With medical runs and one accident with injuries, nine people were tran-sported by CFD ambulance. man had been shot March 15 at the E-Z Way Laundry in the 1000 block of South Scharbauer Drive, and that he was shot at again in May. Part of a liquor bottle apparently

used in the bomb was taken by police as evidence.

3203 Sage St.

A.E. Palk, of 2601 Camarie Ave., told officers that his mother, Beulah Palk, was a resident at Sage Nursing home and that someone had removed a five-diamond white gold wedding ring, .75 carat white gold and ruby ring and a .25 carat diamond and gold engagement ring from his mother's fingers between Sunday and Tuesday.

The rings were valued at \$2,150. In place of the three stolen rings, the thief placed two Avon rings on the woman's hands.

About \$653 in firearms and meat were stolen from a residence at 603 W. Cowden Ave. Thomas Ray Hollingsworth told police that sometime Mon-

with...by God, I suppose," he said. Lambright, finished with his haranguing at the courtroom lectern and re-treated to the defense counsel' table. The government's prosecutor, Assistant U.S. Attorney Jim Bock, then blasted both the defense counsel and

Moseley — his principal witness. "I've listened to counsel's sanctimonious mournings, squalling like a pig," charged Bock. The prosecutor defended Moseley,

however, and said, contrary to Lam-bright's accusations, that the govern-ment is not proud of Moseley's deeds.

"'Ace' Moseley is not on trial here today," Bock said. "He (Lambright) says, 'Look, the govennment is so proud of 'Ace' Moseley. I've got to admit he lied" and failed in his obli-gation as a law-enforcement officer.

1

The prosecutor then verbally lamblasted his own wintness.

"He's a doper (dope dealer)," Bock said of the ex-lawman. "To me, that's the worst thing you can call anybody. But I'll trade one doper for three three dopers to face the bars of justice instead of one."

The case involving Moseley sup posedly gained impetus after Moseley, then Alpine's police chief, report-edly "checked" out 1,143 pounds of confiscated marijuana from a DEA evidence locker in Alpine and said he was going to destroy - burn - the

"grass" in conforming with law. Instead, he and Wright reportedly sold the marijuana for \$55,000 to the Houston men in 1979. On the witness stand, Moseley indicated that the money was to be used to help bail out the financially-troubled Big Bend Air-ways. Moseley, like Wright, had in-vested funds in the airways. Police are investigating a theft of Police Roundup

Inventor Laird Gogins sits in front of a partial scale model of his wind machine, which he says could provide in 12 years time all the electricity now consumed in the United States. (AP Laserphoto)

Inventor no blowhard

By JUDY GIBBS Associated Press Writer

AGE SA

SALT LAKE CITY (AP) - Laird Gogins has not re-invented the wind-mill. He says he wouldn't want to.

What Gogins has developed is a different sort of contraption to harness the wind's power, and he claims it could eventually provide all U.S. electric power needs

The 57-year-old Salt Lake City inentor says the windmill is a feeble device compared to his "free-wing turbine" - a machine which he claims in 12 years' time could provide all the electric power now consumed in the United States.

That's a pretty bold claim, but Gogins scribbles mathematical equations on his chalkboard to show how it could be achieved.

A network of his wind machines across the country could transfer electricity produced in a windy spot to a place where the air is as still as a outhern Utah ghost town.

The machine consists of 14 tetraherons — a geometric shape with four triangular sides - each mounted on a circular track. Self-adjusting wings on the tetrahedrons catch the wind and carry the contraptions around the track. The wheels are coupled to generators, which produce electricity

from the movement. Just one of Gogins' wind machines will produce 80 megawatts of electric-

given Gogins a 30-year lease on the land, and the DOE's Western Area Power Administration (WAPA) has the option to buy the electricity when the turbine is operating.

A WAPA spokesman says Gogins' idea is unique, but it may have technical problems to overcome before the inventor's visions of success can be realized.

"I think there's a likelihood of success, but there are some real technical challenges there. With some good engineering, I think these could be overcome," says Al Gabiola, Salt Lake City area WAPA manager.

Gabiola says other DOE-sponsored wind research is focused on improving the windmill. A "wind farm" is being developed in Medicine Bow, Wyo., using a number of conventional windmills. And giant, 300-foot diameter windmills are under construction in Oregon

The wind machine's price tag is \$28 million - considerably less than the \$100 million cost of the Oregon project, Gogins says, and the electricity his device produces will cost only 35 mills per kilowatt hour, compared to 100 mills per kilowatt hour for the DOE project.

The wind machine's wings each will stand 200 feet high - about as tall as an 18-story building. They will move around the track at 1½ times the wind speed.

Gogins says that if just 1 percent of the available wind power in the Unit-

Chevron energy report:

A giant U.S. gas discovery in a "driller's graveyard"

It took millions of dollars to find it, many millions more to make use of it.

Chevron's profits made it possible.

10 times the power produced by all the windmills in the United States today, the inventor claims. And the wind machine is cheaper to build than a windmill, which requires a massive. stable base and huge propellers to capture the wind.

"It's a wild machine," says Gogins, but he insists it is feasible and economical

The federal Department of Energy has an option to buy whatever power produced by the first 11 wind machines Gogins builds in Western states. That many machines would provide 175 million kilowatt hours of electricity per year — enough to power more than 21,000 homes, or roughly every residence in a city of

So far, the concept has been tested oly on small-scale models. The first full-scale wind machine built by Gogins' firm, Free-Wing Turbine Corp., will go up south of Salt Lake City next year. The state of Utah has

ed States were captured, it could provide 100 percent of the electric power now consumed. But he acknowledges the wind will never become the country's sole power source. "It would be adolescent to think that," he says.

The reason, partly, is storage. When the wind is blowing, the wind machine generates electricity. When the wind stops, the electric source is gone.

Gogins says that, problem can be solved by linking wind machines in a power grid so that when the wind is idle in one place, electricity is supplied from somewhere else where it is gusting.

Gogins says his research has shown that a single wind machine can supply power 50 percent of the time. Four machines could provide power 75 percent of the time, he said. By extrapolating that research, he says it appears that nine wind machines could provide power 90 percent of the

'Tarzan' Weismuller recovers in Acapulco

By GORDON D. MOTT **Associated Press Writer**

MEXICO CITY (AP) - Johnny Weismuller, the five gold medal Olympic swimming champion and the movies' famed jungle king Tarzan, is walking around the terrace of his seaside Acapulco house and working, on improving his fragile health, his wife reported Tuesday.

"He's improving all the time," Maria Weismuller said in a telephone interview from the couple's Acapulco retreat. "Any reports that he is dying are just terrible and not true."

Alice Miller, the aging movie star's private nurse, said the 76-year-old Weismuller's health has improved iramatically in the past few months. "He's up walking around the pool seven or eight times a day," she said.

Six months ago, Mrs. Weismuller had reported her husbarid wanted to be left alone, was not lucid and talked ery little and was simply waiting to

But things have changed since then, is nurse reported. "He talks all the ime when he wayats to. When he esn't want to, he shuts up just like a ubborn old mule."

His mental attitude has also imroved dramatic ally and he no longer lks about dyin,g, Ms. Miller said.

"Sure he's nct as strong as he used be and he certainly is not fat," Ms. liller said. "But he's eating regular-and getting stronger all the time. "I'd say he is in good condition," he added.

eismulier arrived in Acapulco in 1979 after he was removed from are home in California where n to make "Tarzan" calls

His health took a bad turn in 1977 when he suffered a series of debilitating strokes, and he spent months in hospitals. All medical costs are being paid for by the Motion Picture and **Television County Hospital.**

The Weismullers married in 1963 and lived for many years in Las

Vegas. The current house is only a few Weismuller miles north of where Weismuller filmed his last Tarzan feature, "Tarzan and the Mermaids," in 1947.

"He always wanted to be here. The climate is so nice. It is the least I could do, try and make him comfort-able as possible," Mrs. Weismuller said in the interview six months ago.

Election lines to be studied

AUSTIN, Texas (AP) — Secretary of State George Strake says he will contact election officials throughout Texas to see what caused delays in voting and other problems at the Nov. 4 general election.

Strake, the state's chief election officer, said Tuesday his office had had numerous complaints from indi-

viduals and groups. "The long, time-consuming lines in certain polling places were, for the most part, unwarranted and unrea-sonable," he added in a statement.

Strake said questionnaires would be sent to county election officials to identify problems and seek solutions. He urged Texans to tell his office of

any "unreasonably excessive delays, voting irregularities or any other needless problems..." and to suggest medies

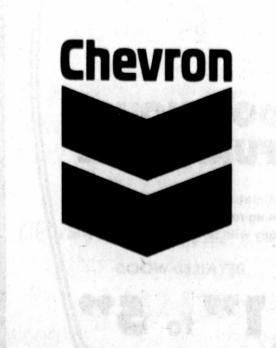

Chevron has discovered what could prove to be one of the largest natural gas fields in the U.S. The find was near Carter Creek, Wyoming-once considered a "driller's graveyard" because of countless unsuccessful drilling efforts.

But finding the gas was just the beginning because much of it is "sour" gas-unusable without special processing.

So, along with enormous sums for drilling a number of deep costly wells, Chevron will be spending \$360 million to build a highly advanced processing plant, capable of converting "sour" gas into "sweet" gas, usable in hundreds of thousands of homes.

Chevron's profits plus other cash from operations are. helping to provide the energy America needs.

BUSINESS MIRROR Industrials make gains

> PAGE 9A

By JOHN CUNNIFF AP Business Analyst

NEW YORK (AP) — In the six years through mid-August of this year the Standard & Poor's 500 stock index more than doubled in value. The Value Line indicator, an even broader measurement, tripled.

More recently, the S&P had gained 34 percent and the Value Line 47 percent from their March lows. Even the Dow Jones industrial index had moved up 27 percent or 200 points since April.

Gains by individual stocks have been even more impressive. From spring lows to recent highs, hundreds of issues have risen 50 percent or more. In a year, at least 300 New York Stock Exchange issues doubled.

This is the foreword to Merrill Lynch's most recent compilation of "Unrecognized Values in Today's Market," a report that some investors believe will go far toward correcting any undervaluations.

Despite the big gains, despite the constant risks, despite the state of the economy — all of which the ML analysts dutifully warn about — there are still values to be found, according to the report.

Thirty-two of them, in fact, beginning alphabetically with Albertsons, Arizona Bank, Baldwin-United, Best Products, Cabot Corp., Church's Fried Chicken, Control Data, Crown Cork and Seal and R.R. Donnelley.

Family Dollar continues the list, followed by Golden West Financial, G. Heileman Brewing, Host International, Lear Siegler, Lennar Corp., Litton Industries, Mission Insurance Group and Morrison Inc.

Two Washington state companies, Pay N Pak Stores and Pay 'N Save, are added to the compilation, as are Pennzoil Co., Pitney Bowes, Southwest Air, Sperry Corp., Trinity Industries and United 1921 Energy Resources.

And completing the list are U.S. Air, U.S. Bancorp., Valley National Bank, West Company, Whit- 233 taker, and Zurn Industries. Thirty-two stocks that , j Merrill Lynch, the nation's biggest broker, says are undervalued.

And now the rationale.

"Individual stocks may be undervalued for any isin number of reasons," says Anna Merjos, vice president, and she lists some of those reasons:

1. Disappointing earnings could preclude signifitemporary.

2. The market may have failed to recognize that certain conditions that previously affected a compa-1019 ny's standing in the marketplace have been correct- "cil ed. A company might have changed management or "" policies.

3. Prices for individual issues can suffer from the sheer neglect or unpopularity among investors.

4. Even though the price of a stock may have 2.3 moved up sharply, the market may not yet have " given full recognition to its underlying value and potential.

To qualify for inclusion in the undervalued list, the 3282 ML securities division set down four criteria:

-Growth in per-share earnings in the past five 'w years had to exceed 14 per cent a year - the rate at orde which overall corporate profits have grown since 31 1974.

-Earnings estimated for this year had to approxi-

Party's internal peace may mean election loss

LONDON (AP) — By electing a committed left-winger as its leader for the first time, Britain's strife-torn Labor Party may have bought internal peace at the price of years out of office

PAGE 10A

Some observers felt that in electing 67-year-old Michael Foot to succeed former Prime Minister James Callaghan, the mostly moderate 268 La-borite members of the House of Com-

mons were trying to undercut Tony Benn, the fiery 55-year-old deader of the party's left wing. But it is questionable whether Labor under Foot can capture enough of the floating vote which decides every British election to oust Prime

An Analysis

Minister Margaret Thatcher and her Conservativesin the 1984 general election.

There were private expressions of delight from some leading Tories. "Margaret is just so lucky as a politician," said one.

The opposition party has had as many postwar years in power as the Conservatives, but now it is headed by a man pledged to scrap Britain's nuclear arsenal unilaterally and ban U.S. Nuclear weapons from British soil. He also opposes continued membership in the nine-nation European Economic Community and favors

greater nationalization of private industry.

The silver-haired former radical socialist has moderated some of his views but not all of them. "I am as strong in my socialist convictions as I have ever been," he declared after his election.

Although Callaghan's resignation had been expected since the party's defeat in the 1979 general election, he submitted it last month in the hope of throwing the post to moderate Denis Healey, 63, before the party adopted a new election procedure favorable to the left wing. But Healey, after leading three leftists in the first round of voting last week, lost by 10 votes to

Up to now the party leader has been chosen by the parliamentary caucus, the Laborite members of the House of Commons. But the annual party conference last month, after an unusually bitter fight between the left and right wings, agreed in principle to set up an electoral college on which the trade unions and the local party organizations would be represented. This will increase the leftist strength.

A special conference will be held Jan. 24 to set up the electoral college, and the prospect that Benn might dominate it apparently cost Healey the election.

THE MIDLAND REPORTER-TELEGRAM, WED., NOVEMBER 12, 1980

Cameras, recorders permitted in court

ANNAPOLIS (AP) - Cameras and recorders will be permitted in Maryland courtrooms for the first time in an 18-month experiment which will get underway Jan. 1.

But the rules approved Monday by the Court of Appeals to govern the experiment are restrictive, and two judges predicted the rules could result in no coverage by radio and television stations or by newspaper photographers.

The section which drew complaints from Judges John C. Eldridge and Rita C. Davidson would allow any party to a suit, except for governmental agencies or officials, to veto use of cameras or recorders at their trials.

Eldridge said he voted to accept the rules only because Judges Robert C. Murphy and J. Dudley Digges agreed they would vote to relax that restriction if it proved necessary to the success of the experiment.

Two of the judges, Harry A. Cole and Lawrence F. Rodowsky, did not sign the order because of their objection to any television or radio coverage or taking of still photographs.

Cole, explaining his refusal to sign the rules change, said he had not "been persuaded ... that the adoption of this rule will improve the administration of justice or the understanding of it."

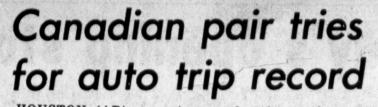

Chief Judge Murphy said many states already are allowing electronic coverage on a trial basis and "I think Maryland would be wise to attempt the experiment."

As part of the experiment, people involved in such trials will be questioned about how they were affected by the presence of cameras and recorders in the courtroom.

The court intends to use the results of the surveys to decide if electronic coverage should be continued past June 30, 1982.

All such coverage will have to be on a pool basis among the newspapers, radio stations and television stations involved, and all expenses will have to be borne by news organizations.

Only one television camera, one audio system and one still photographer with no more than two cameras will be permitted in the courtroom.

Narcotics most common abused class of drugs

By KENNETH H. WOLF, MSSW, SP

MENTAL HEALTH UPDATE

One of the most commonly abused classes of drugs today is narcotics.

Narcotic drugs are used in medical treatment to relieve pain. Such drugs include the derivatives of opium, such as morphine and codeine. There are also synthetic compounds which have chemical properties and action which is similar to morphine. Heroin is a potent derivative of morphine, but it presently has no legitimate medical use in this country.

Heroin is a commonly abused drug. Since it has no legitimate medical use in this country, it must be obtained "off the street." As such, there is no quality control, nor is there any assurance as to what strength of the drug is being obtained. The pure

MANAMA, Bahrain (AP) - For-

eign Minister Mohammad ibn Mu-

barak Al Khalifa of Bahrain says

President-elect Ronald Reagan may

adopt an anti-Arab policy and called

for an Arab summit conference to

deal with the prospect, the newspaper

"It is likely that Reagan will recog-

Akhbar al-Khalij reported today.

Arabs fear Reagan will adopt

anti-Arab policy, call for summit

heroin may be cut (or diluted) many times before the user obtains it. Heroin may be cut with anything from milk sugar to rat poison. The addict can never be sure of what he is getting.

Heroin users have some fairly common symptoms which are caused by the drug. These include drowsiness, flushed skin, constipation and constricted pupils. There are also ususually needle marks or "tracks," since the drug is usually injected. The heroin user is at risk for developing hepatitis, blood infections, or even hepatitis, blood infections or even tetanus.

Heroin is highly addictive. Initially, it produces a feeling of euphoria (a "high") which may last a few hours. As physical dependence develops

nize Jerusalem as capital of Israel,'

Khalifa was quoted as telling the

paper. "However, it is not yet definite

whether Reagan will honor his pre-election promises to Israel. The

Arabs, therefore, will have to hold a

summit conference to draw a clear-

cut strategy and prepare themselves

for all eventualities."

over time, this "high" lessens. Tolerance to the drug develops as greater amounts are required in order to avoid withdrawal symptoms.

Withdrawal symptoms will occur in addicted persons whenever they are deprived of the drug. They may occur as early as 12 hours after the last injection. These symptoms may include yawning, sweating, vomiting, running eyes and nose, tremors, muscular aches, diarrhea, stomach pain and chills.

Not every person who uses heroin becomes addicted. "Joy poppers" are able to confine their use of the drug to occasional "hits," such as on weekends. Thse individuals will not experience withdrawal symptoms. However, the risk of addiction to heroin is so great that relatively few people are able to control their use of the drug in this manner.

Detoxification of the addict is relatively simple. As in the alcoholic, keeping him off the drug is much more difficult. While detoxification is necessary for any subsequent treatment to be effective, detox does not constitute "the cure." Many addicts are detoxified numerous times only to return to the drug.

Effective treatment also requires counseling, vocational training and other supportive services. For any treatment to work, the addict must have a sincere desire to remain

"clean." Without such a desire, there is a high failure rate to treatment. Such a desire may be encouraged by others such as family or friends, but it cannot be forced upon the addict.

Treatment for narcotic addiction is available locally through the MHMR Center. Detoxification, counseling, vocational training, inpatient care and other supportive services are provided or arranged. The MHMR program serves outpatients, although referral to inpatient care is available when indicated. No substitute drugs, such as methadone, are employed in the Center's program. The Midland community has other agencies and resources for drug abuse treatment as well. * * *

Comments or questions from our readers are invited. Although the Update cannot give personal replies or give specific advice, we will use as many comments and questions as possible in our future columns. Please address them to: Mental Health Update, 3701 N. Big Spring St., Midland 79701.

Kenneth H. Wolf, MSSW, SP, is MHMR Program Director for Midland County. He is a licensed psychotherapist and a certified health care provider in clinical social work. He has worked in the field of MHMR for eight years.

Diabetes group to host meetings The Midland County Medical Society and the Midland Chapter of the American Diabetes Association will host two meetings — one for profes-sionals and one for laymen — in the banquet area of the Midland Hilton Hotel on Nov. 20.

The American Diabetes Association encourages anyone who has an interest in gaining knowledge about dia-betes to a meeting from 7: 30 to 9 p.m., with a program presented by two physicians who are innovators in diabetes research.

Dr. David Schade, associate professor at the University of New Mexico, will speak on "Future Therapy in the 1980s in Diabetes." Dr. Schade's speech will include discussions on an implantable insulin pump, an exter-nal insulin pump, an islet implant and

insulin injections. Dr. Holbrook Seltzer, a physician at Veterans Hospital in Dallas, a member of the ADA Board and currently actively involved in islet transplant research, will speak on "Three Ap-proaches in the Cure of Diabetes." The Midland County Medical So-

ciety will have a dinner meeting for professionals from 7 to 9:30 p.m. with Dr. Seltzer speaking on "Practical Aspects of Recent Diabetic Research" followed by Dr. Schade. speaking on "Atherosclerosis in Diabetes."

DEATHS **David Gardener**

CRANE - Services for David Harvey Gardener, 78, of Crane, were to be at 2 p.m. today in Richard W. Box Funeral Home chapel. Burial was to e in Crane County Cemetery.

Gardener died Monday evening in in Odessa nursing home following an illness

He was born Aug, 16, 1902, in Oklanoma and was married to Opal Mae Stroud on Feb. 16, 1937, in Vivan, La. Gardener was a driller and a member of the Masonic Lodge. He was a Bap-

Survivors include his wife; two daughters, Jane Hick of Dryden and Tracey Gardener of Fort Myer, Va.; two sons, David Gardener of Odessa and Michael Gardener of San Antonio; and five grandchildren.

Louise Landrum

Services for Louise Landrum, 59, 1305 W. Dakota Ave., will be at 2 p.m. Thursday in the Newnie W. Ellis Funeral Home chapel with the Rev. Glenn Shoemake of Calvary Baptist Church officiating. Burial will be in Fairview Cemetery.

Mrs. Landrum died Monday in a Midland hospital.

She was born Dec. 29, 1920, in Lexington, Texas. She lived in Lee County until the age of 5, when she moved with her family to Eldorado, Okla. She moved back to Lee County and was there until she married. They then moved to Austin, California and Houston. She had been a resident of Midland for the past eight months. She was a member of the Methodist church.

Survivors include her husband, Claud; a son, James Claud Landrum of Houston; five daughters, Joe Ann Sylvester, Cynthia Ruth Boyd, Glenda Lee Garcia, Jackie Louise Dugan and Patricia Claudine Powers, all of Houston; two sisters, Oma Friday of Midland and Marie Wright of Fort Worth; 17 grandchildren, three greatgrandchildren and several nieces and nephews.

Waymon Young

LAMESA - Services for Waymon Charles Young, 79, of Loop were to be at 2 p.m. today at the Ashmore Bapdist Church near Loop with the Rev. Alvin Petty, pastor, officiating, as-sisted by the Rev. Bill Mosely, former pastor

Burial was to be in Lamesa Memorial Park under the direction of Branon Funeral Home.

Young died Tuesday in a Lamesa hospital following an illness.

Born in McGregor, he came to Loop 1925. He was married to Chrystal iles Dec. 17, 1927, at Ashmore. oung was a retired farmer and a member of Ashmore Baptist Church. Survivors include his wife; two daughters, Wanda Maltsberger of La-

June Wiley Koch

Services for June Wiley Koch, 46, 901 Country Club Drive, were at 3 p.m. Tuesday in the Episcopal Church of the Holy Trinity with the Rev. Sam Hulsey officiating. Burial was in Besthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

Mrs. Koch died Sunday at her residence.

She was born Sept. 21, 1934, in Dallas and was reared in Grapevine. She moved to Lockney and finished high school there. She attended Southern Methodist University and Texas Tech University. She was married in 1957 to Charles E. Koch in Lubbock. Mrs. Koch was graduated from Texas Tech in 1956 with a degee in business administration. She moved to Midland in 1966.

Mrs. Koch was a member of the Community Concert Association, Midland-Odessa Symphony Guild, Midland Society of University Women's Club, Kappa Alpha Theta sorority and Midland Woman's Club. Survivors include her husband, Charles Koch; a son, Christian Clay Koch of Midland; a daughter, Gretchen Gay Koch of Midland; and her mother, Ellen Grady Diggs of Mid-

land. Pallbearers were Deen Williams, Robert Grady, Joe Birdwell Jr., Joe Solari, Bob Carns and Jamie Koch.

The family requests memorials be directed to the Midland Society of University Women Scholarship Fund, care of Eleanor Chase.

Atadeo Gamez

LAMESA - Services for Atadeo Gamez, 60, of Lamesa will be at 4 p.m. Thursday in St. Mary Margaret's Catholic Church here with the Rev. Pat Hoffman, pastor, officiating. Burial will be in Lamesa Cemetery

directed by Branon Funeral Home. Gamez died Tuesday at a Lamesa Hospital after suffering an apparent heart attack. Although Gamez was involved in a minor accident, Peace Justice Fred Vera ruled the death was of natural causes

Born in Mikeska, Gamez came to Lamesa 21 years ago. He was a longtime member of St. Mary Margaret's Catholic Church.

Survivors include his wife, Lorenza Gamez of Lamesa; two daughters, Susan G. Bernal of Odessa and Jo Ann Rubio of Arizona; three sons, Atadeo Gamez of Genard, Calif., Prajedes Gamez of Odessa and Juan Perales Jr. of La Mirada, Calif.; three sisters, one brother, and 13 grandchildren.

Charles Blandford

DALLAS - Services for Charles D. Blandford of Dallas, father of Betty Dickerson of Midland, will be Thursday in Dallas at Highland Park United Methodist Church directed by

John H. Moore

LAMESA - Services for John Herman Moore, 71, of Lamesa will be at 2 p.m. Thursday at North Side Baptist Church here with the Rev. Billy Bush. pastor, officiating. Burial will be in Lamesa Cemetery under the direction of Branon Funeral Home.

Moore died Monday in a Houston hospital after a lengthy illness.

Born in Freestone County, he came to Lamesa in 1915. He was married to Gladys Mitchell Feb. 15, 1930, in Lovington, N.M. He was a 10-year member of the North Side Baptist Church.

Moore was a maintenance worker for Lamesa County for many years.

Survivors include his wife; a daughter, Laverne Franks of Lamesa; two sons, Grady Moore of Cerritos, Calif., and Caroll Moore of Lamesa; five brothers, Joe Moore of Robert Lee, Mac Moore of Big Spring, Floy Moore of Lamesa, Roscoe Moore of Clear Lake Park, Calif., and Roy Evans of Grosbeck; and six grandchildren.

Patsy Y. Brady

Graveside services for Patsy Yvonne Brady, 3½-month-old daughter of Mr. and Mrs. Thomas Morgan Brady Jr. of 2200 S. Lamesa Road, were Monday in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

The child died Saturday in a Midland hospital.

Honorary pallbearers' were Ray Hester, Roy Brady, Pat Brady, Harry Andrews, Les Harness, Thomas Morgan Brady Sr. and Ira Clayton McCarty.

BAGHDAD, Iraq (AP) — U.N. Sec-retary-General Kurt Waldheim announced plans to send a peace envoy to Iran and Iraq as the stalemate at Abadan continued. Iran claimed the Iraqis were pushed back from the east side of the besieged refinery city, while Iraq claimed 117 Iranian troops were killed in that sector at the southern end of the 300-mile invasion front.

Waldheim said he was sending former Prime Minister Olof Palme, the leader of the Swedish Socialist Party, to Baghdad and Tehran early next week to try to arrange talks to end the Persian Gulf war, now in its 52nd day. He said both governments agreed to receive his envoy.

Palme told a news conference in Stockholm today his mission was "investigative rather than a negotiating or mediating one. There are deep rooted differences between these nations and one can not expect rapid results." Asked if he would raise the issue of the American hostages in Iran, Palme said, "That is outside this mission.

Iran today received the U.S. reply to its conditions for the release of the 52 Americans, now in their 375th day of captivity, but the reaction from Tehran was not expected to come immediately. On the war issue, Iran already has said Waldheim's envoy would have to confine himself to factfinding "about the position of the Iranian government and the aggression of Iraq.'

It was the second time this week that the Iranian government had shown interest of any kind in a peace mission after rejecting all previous

attempts at mediation. Pars, the official Iranian news agency, reported Sunday that the Supreme Defense Council was seeking clarification of a proposal by the Non-Aligned Movement to send a six-nation "good-will and fact-finding commission" to Iran and Iraq.

Peace envoy to be sent to Iran, Iraq

Meanwhile, Iraqi Vice Premier Terek Aziz left Moscow after delivering a message from President Saddam Hussein and holding talks with Boris Ponomaryov, secretary of the Soviet Communist Party Central Committee and Viktor Maltsev, first Soviet deputy premier.

Kuwaiti newspapers said Aziz was seeking more arms, but Iraqi sources in the Soviet capital said his day-long visit produced an exchange of views on ways to end the war and no pledge of fresh Soviet military aid. The war has choked off Iraqi exports of 3.5 million barrels of oil daily, Iranian exports of 500,000 barrels and done extensive damage to the oil industries of both nations.

The military communiques from both governments contained the usual unconfirmable claims of limited local action and no major gains.

Iran said Abadan's defenders pushed the Iragis four miles back from the eastern bank of the Bahmanshir River late Tuesday and set up positions east of the river for the first time since the Iraqis encircled

The river runs close to Abadan's northeastern and eastern outskirts. The Iraqis put mobile bridges on the river to move troops and tanks into positions on the west bank in preparation for a big assault. But Iran claimed it destroyed the bridges and

Iraq said its forces killed 41 Iranian Iraq's oil-rich northeast.

Iran claimed 80 Iraqis killed along the 300-mile invasion front stretching from Abadan north to Qasr e-Shirin, and 120 more in air attacks around Abadan and Khorramshahr, the port 10 miles to the northwest which Iraq controls.

Iran also reported a naval battle near the mouth of the disputed Shatt al-Arab estuary, Iraq's outlet to the Persian Gulf, and said Iranian artillery shelled the Iraqi port of Fao, destroying three ships and setting fire to Fao's jetty and radio transmission station.

Arab Iraq invaded Persian Iran Sept. 22 to regain sovereignty over the east side of the Shatt al-Arab. Some Iragi officials also talk of autonomy for the Arabic people of Iran's oil-rich Khuzistan Province.

THE MIDLAND REPORTER-TELEGRAM, WED., NOVEMBER 12, 1980

Parties move to do business

By JOSEPH KRAFT Los Angeles Times Syndicate

LOS ANGELES - Far better than expected. That phrase summarizes the opening exchanges between the American administration waiting to be born and the aging leadership of the Soviet Union.

Both parties have moved in ways that express a willingness to do business. If events in Poland and the Persian Gulf do not explode, there is a decent prospect the Big Two can even get back on the track towards an arms control accord.

President-elect Reagan took his stand at a press conference here in Los Angeles. During the election campaign he had repeatedly assailed the pending arms control treaty with Moscow - SALT II. He had spoken of "scrapping the treaty" which he called "fatally flawed.

But at his press conference he went out of his way to keep arms control negotiations alive. He was asked a general question about "self determination" for foreign countries under the heel of Moscow. Instead of giving a direct answer, he inserted what was clearly a well prepared comment on arms control. He said:

"I don't believe you simply sit down at the table with the Soviet Union to discuss arms limitation, for example, but you discuss the whole attitude -the world attitude ... in other words, I believe in linkage."

"Linkage" is a term which implies, in foreign policy jargon, insisting on political conditions as a price for. arms control agreement. The Carter

Administration opposed linkage. By embracing it, Reagan takes a tougher stand -- rhetorically.

But his position is a long way from the kill-SALT prescription so dear to most of hs defense advisers. The basic fact is that Reagan is on the move. He is thinking and talking about going "to the table with the Soviet Union to discuss arms control."

The Soviet leadership broached its position in the course of ceremonies marking the 63rd anniversary of the Bolshevik Revolution. Previously the Russians had insisted that the options were either SALT II approval or a new arms race.

A reminder of that came in a speech by Defense Minister Dimitry Ustinov at the anniversary parade in Red Square. He spoke of the "danger of a new cold war" and of the need for 'strengthening the defense capacity of the Soviet State."But a far more supple posture was sketched out for the leadership as a whole in a major speech given the day before the parade by Nikolai Tikhonov, the 75year-old prime minister who replaced Alexei Kosygin last month.

The Tikhonov speech blamed the recent deterioration of relations on President Carter's failure to "display a high sense of responsibility." It expressed hope "that the new admin-istration will display a more con-structive attitude." It said:

"Our line ... is stable in nature. There are no international problems that cannot be solved through negotiating with reasonable consideration of mutual interests. The Soviet Union is prepared to reach an understanding on the reduction or ban of any weapon, above all, nuclear weapons

Wary evolution from past positions, a slow, careful, winding down, is the theme common to both sides. Reagan is inching toward arms control and away from a position of all-out hostility; the Russians are inching away from tough tactics with Carter toward a willingness to deal with Reagan.

Events could easily upset the pro-cess. The Russians may feel a need to crack down in Poland. They may find a chance to pick up assets in Iran, or other countries around the Persian Gulf. In either case, it truly would be the beginning of a new cold war, and the Russians would be well advised to pay close attention to what Reagan

Fire claims five children

MURCIA, Spain (AP) - Fire has claimed the lives of five young chil-dren in their one-story home in the eastern Spanish village of Aravaca, police said.

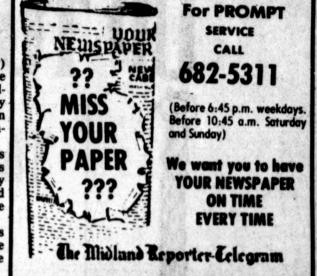

They said the victims were 3 months to 5 years old and died Monday after flames spread quickly throughout the

house The children, two boys and three girls, were alone at the time of the fire.

said about "linkage." But if the present evolution of Big Two relations can continue, the outlook is not so bad. Tacit accord can be reached to maintain the basic stipulations of the SALT II treaty. Then, without ratifying that document, the two countries can proceed with the negotiations of the genuine cutbacks envisaged for the next stage of arms control - SALT III.

PAGE 11D

What all this says is that the tricky business of transition in relations with this country's most dangerous adver-sary can be managed. The Russians, for the first time in years, now have to organize their behavior toward the U.S. in the certain knowledge that they have something to gain, and something to lose.

potential major devaluation of the Mexican currency such as occurred in 1976. The gradual drop in worth of the peso, which has been allowed to

"float" on international money markets since the dramatic 50 percent de-valuation on Sept. 1, 1976, has occurred in several "mini-devaluations" of 1 or 2 centavos at a time, four of them in the past two weeks. The latest drop was

last week when Banco de Mexico, equivalent of the **U.S. Federal Reserve** System, began buying \$1 (U.S.) for 23 pesos and selling \$1 (U.S.) for 23.20 pesos, a 2 centavo decrease in the peso's value. It was preceded the previous week by one 2 centavo and two 1 centavo drops.

Carlos Cruz, head of the international exchange department of Union National Bank in Laredo, predicts there will be several more of the tiny declines in the pesos, 2 to 3 centavos each, for the rest of 1980.

"I expect it from now to the first of the year because they (Mexicans) have a dollar drain because of people coming to the United States to shop during the Christ-mas season," Cruz said. "Some Mexican banks don't have the dollars. That's when Mexicans bring pesos across the border.

"If they change the pesos to dollars across the border, it's better for them because some stores on this side take the pesos at 24 to 25 for the dollar."

Securities broker Mike Gomez of Laredo, however, said he sees the gradual decline, from 22.45 to 23.20 pesos for the dollar over the last four to five months, as a gradual de-valuation begun by ad-ministration of President Jose Lopez Portillo be-cause of burgeoning in-flation south of the boder.

Gomez speculated Mexico officials might gradually decrease the peso's value to avoid the dramatic devaluation, dramatic devaluation, preceded by the flight of millions of pesos from Mexico, at the end of the six-year term of former President Luis Echeverria.
