Wagner & Brown, independent oil and gas producers of Midland, today announed plans for the construction of a new building, "The Summit," to be located at the intersection of North Mariendfeld and West Illinois streets. The 12-story building will contain approximately 150,000 square feet of rentable floor space and will be connected by an aerial

bridge to a tenant parking garage, to be located at North Big Spring and West Ohio streets, for approximately 400 cars. Groundbreaking is expected in late June with completion of the building in August 1981. Contractor for the project is Henry C. Beck of San Antonio and architects are Harwood K. Smith and Partners, Dallas.

Santana officials to visit health agency

AUSTIN - State health department officials are scheduled to hold a private meeting with representatives of Santana Industries at 9:30 a.m. Thursday in Austin to discuss problems with the company's proposed Midland

Santana Industries is seeking to establish and operate a plant near Midland to manufacture safety exit signs using the radioactive material tritium.

The proposed plant has met with opposition from local business leaders because of the poor safety record of Santana's parent company, American Atomics Corp.

American Atomics' Tucson plant was seized last September by the Arizona Atomic Energy Commission for repeated violations.

Joe Gorrell, licensing supervisor for the health department's Radiation Control Division, said Santana officials may withdraw the portion of its permit application dealing with the manufacture of tritium. This means

the firm would import the material. Switzerland is one country from which the tritium might be imported, Gorrell said.

Approval of Santana's permit was threatened with delay recently when Midland Chamber of Commerce officials reported the company had lost the lease on its

Gorrell said approval of the application could be delayed several weeks if a new site had to be found and

He also indicated he had not heard reports that Santana was negotiating to renew the lease on the West Midland County site

Kennedy refuses to give up, despite Carter's majority

Mysterious Kermit crater keeps on growing

By DAVID CAMPBELL Staff Writer

KERMIT - A 150- by 300-foot crater about two miles southwest of Kermit near a Shell Oil Company tank farm on FM 115 was continuing to grow today, giving rise to speculation as to the force behind it while providing entertainment for bystanders.

Texas Department of Public Safety officials and Shell and Gulf Oil company personnel are puzzled as to what is causing the crater and how much wider the opening will grow. This morning, FM 115 remained

open to traffic even though the opening is about 300 yards from the highway, according to a DPS spokes-George Axmann, Shell Oil Company district supervisor, recalled that

about 15 years ago a well near the site had blown out and practically destroyed most of the well's equipment. But that well couldn't be the cause of the crater, he added, because the

well was plugged and abandoned. Another theory is that a salt dome - an underground geological structure - is collapsing, said John Fogle, Gulf Oil production supervisor, explaining that a company geologist had surveyed the site and offered that

assumption. "It's bigger than a football field now," said Winkler County Sheriff's deputy Jack Harwell. "The crazy

thing just keeps opening up.' DPS troopers were notified of the incident when a ham radio operator informed them of some possible seismic activity near the Kermit area,

according to a DPS spokesman. The DPS called the National Weather Service at Midland Regional Airport at 12:40 p.m. Tuesday. That agency then called the Earthquake Information Center in Golden, Colo., the spokesman said. Apparently, there were no reports of any seismic recordings in the Kermit area, a National Weather Service spokesman

According to Fogle, the crater was discovered about 9 a.m. Tuesday by an oil field maintenance crew who were fixing a leaky pipeline when they noticed the ground was sinking. One of the crew members was so startled that he forgot to get inside a pickup, Fogle said.

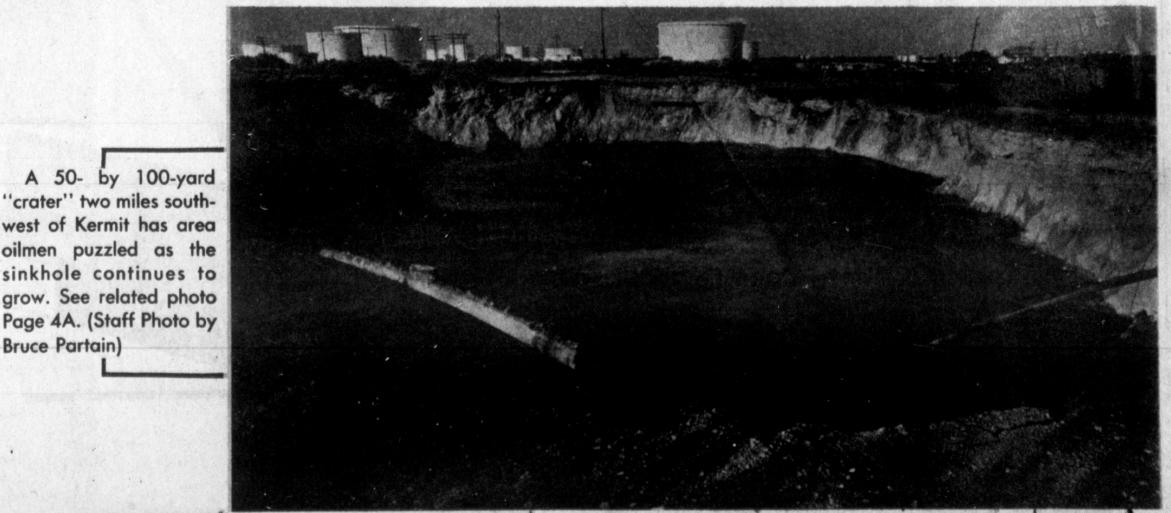

At noon Tuesday, the diameter of the crater was estimated at 50 feet, according to several oil field personnel watching the site. However, by 8 p.m. the diameter of the hole had

At 2 a.m. today, the crater had grown to 50 yards wide and 100 yards long, the spokesman reported.

The depth of the crater is estimated to be about 30 to 35 feet from the top of the hole to the water. However, officials at the scene don't know the deep the water goes.

Inside the crater, brown muddy water can be seen bubbling to the surface with oil and debris floating on

Nicaraguan aid from U.S. crucial to good relations

WASHINGTON (AP) — A new member of Nicaragua's ruling junta says it is in the United States' interest to approve \$75 million in economic aid to his country.

"My little country, Nicaragua wants to have the best relations with the United States. There is an impression that Nicaragua is moving toward the Soviet orbit. That is not

"We consider the United States the most logical source, not only of finan-cial support, but of political and cultural relations as well," said Arturo Cruz after a meeting Tuesday with Secretary of State Edmund Muskie.

Cruz said congressional refusal to appropriate the \$75 million in aid requested by President Carter "would only contribute to an isolation we do not want."

Cruz, along with several Nicaraguan businessmen, arranged to spend today lobbying on Capitol Hill for action on the aid package, which has been stalled for months.

The package has become hostage to a battle between the Carter administration, which believes the United States can have good relations with post-revolutionary Nicaragua, and congressional conservatives who believe the country is already in the Soviet camp.

Cruz said he would not comment on the Nicaraguan action most damaging to the chances of the aid package.

HEBRON, Occupied West Bank (AP) — Yossi Dayan, the No. 2 man in American Rabbi Meir Kahane's right-wing Jewish underground, promised new attacks on West Bank Palestinians, but the two Arab mayors maimed in terror bombings vowed they would not bow to the

Israeli occupation.

Meanwhile, the Israeli military command said Prime Minister Menachem Begin ordered troops into the West Bank to guard Arab mayors against further attacks. Authorities also said an Israeli-Arab who reports from the West Bank for Israeli state television was given a police guard after he received a warning that he was "next in line" for a terror

SAN DIEGO (AP) — Geng Biao, Red China's top defense chief, has urged the United States, Europe, Japan and Third World countries to join China in a united struggle against Soviet expansion and aggression.

"To preserve world peace, China, the U.S., Europe, Japan and a vast majority of third world countries must united to wage a tit-for-tat struggle of the expansion and agression of Soviet hegemonism," Geng said.

Geng and a 30-member Chinese delegation leave the United States today after visiting Washington and touring U.S. civilian and military installations. The U.S. reportedly plans to sell military support equipment and te-chological gear to Red China.

Dayan, who denied his organization was responsible for Monday's attacks in four West Bank towns, demanded additional vengeance for the Arab terrorist ambush in the West Bank city of Hebron that killed six Israeli settlers and injured 16 on May 2.

Armed with an automatic rifle, Dayan spoke to reporters beside the grave in Hebron of American-born Eli Hazeev, one of the six slain settlers. Other mourners hailed the West Bank bombings and were united in saying the attacks extracted only "half-payment" for the Hebron ambush.

"We are in a war here," one settler said, "a war of peoples, nationalities, religions. There will be more violence, a lot more, in this struggle."

Meanwhile, Israel's West Bank military government moved to stem a three-day general strike by Arab merchants to protest the bombings that crippled Ramallah Mayor Kerim Khalaf and Nablus Mayor Bassam Shakaa.

Carter proclaiming victory, offering 'friendship'

WASHINGTON (AP) - President Carter is proclaiming victory in the race for the Democratic presidential nomination and offering "to reach out a hand of friendship" to Sen. Edward M. Kennedy and other opponents within the party. But Kennedy refuses to take the hand or concede defeat.

After the first, still preliminary returns from Ohio and West Virginia indicated that Carter would, as expected, capture more than enough delegates Tuesday night to assure his renomination, the president walked from the White House through the **Executive Office Building and across** the street to a campaign victory celebration outside a discotheque called The Buck Stops Here.

"As I stand before you, I have one deep feeling in my heart," the president told about 300 cheering supporters. "That is thanksgiving to all of you who turned what eight months ago was a prediction of absolute defeat into a wondrous victory to-

The president called on his Democratic rivals to unite behind him for the November general election campaign, adding he has "no doubts our

party will triumph." "I intend to be very active as a campaigner in the fall," said Carter, who had campaigned personally only in Ohio at the close of the primary

Asked shortly after 9 p.m. EDT if he had called Kennedy as a conciliatory gesture, Carter replied, "Not yet (but) I may." Asked what he would say to his determined challenger from Massachusetts, Carter said, "I'd tell him he ran a great cam-

Carter campaign chairman Robert Strauss, in Los Angeles as returns began to come in from the big California primary, said he was "offering an olive branch" to Kennedy and had tried to telephone the senator at home but failed to reach him and left

Kennedy, however, displayed no interest in making peace and vowed to carry his fight to the convention in August. Carter campaign officials already have begun to set up a delegate-tracking operation to guard their victory in the primaries and caucuses from Kennedy raiding parties expected to be active between now and the final convention balloting.

When White House press secretary Jody Powell was asked if the president could hang on to his delegates, Powell said, "I think probably so."

As if in response to a suggestion that Vice President Walter F. Mondale, who has been actively campaigning for Carter, might be persuaded to offer himself at the convention as an alternative to either Carter or Kennedy, the president said Tues-day night he had called Mondale to formally ask the vice president to be his running mate again.

"He said if I would debate him, he would join me," Carter said, drawing a hearty laugh from the friendly crowd. The president's reference was to a Kennedy offer to drop his active challenge if Carter would debate

Carter said be presumes former California Gov. Ronald Reagan will be the Republican nominee and he looks forward to meeting him on the campaign trail and in "intense, headon-head debate." His remark appeared to reaffirm his decision to debate Reagan but not Rep. John Anderson, who is seeking the presidency as an independent.

Sounding the campaign theme aides have said he will use in the coming campaign, Carter said: "It's time to set the record straight. There are no easy answers, and there are no easy solutions."

As he worked his way through the crowd, shaking hands and chatting, Carter told reporters Sen. Kennedy 'ran a good campaign" and he looks forward to having his support in the

BONN, West Germany (AP) - U.S. Republican presidential candidate Ronald Reagan wants to wisit Western Europe as som as possible to expilein his brand of foreign policy to America's allies, an adviser was qualied as saying today.

ward M. Kennedy has won some and lost a lot more these past seven months. But now Kennedy says the

campaign has only just begun. 'Tonight is the first night of the rest of the campaign," the defiant Massachusetts senator said Tuesday night, although he was marking the end of a primary season that tracked his de cline from frontrunner for the Democratic presidential nomination to the longest of long shots.

"The people have decided that this campaign must go on," he insisted after winning four of the day's eight Democratic primaries and leading in California, the biggest prize of all.

'The people have decided that relentless inflation and rising unemployment must be ended," he said, sounding anew the theme he has been sounding for months.

"The people have decided that what counts is not the quantity of delegates, but the quality of their lives." President Carter has enough delegates to assure himself of nomination

to a second term, but Kennedy didn't want to hear about that.

"I asked the voters to send a clear message on June 3 — that a candidate who refuses to defend his record in face-to-face debate is a candidate who should not be nominated," he said. "The voters have spoken," he

He pronounced the final day of the primary season "the most important" and claimed a "clear majority" in the popular vote in the eight states - California, Ohio, New Jersey, New

Mexico, Rhode Island, West Virginia, Montana and South Dakota. Carter says he won't debate him because that wouldn't help the Democratic party. But Kennedy didn't want

to hear that, either. "I will continue to seek a constructive debate within the Democratic party," he told hundreds of cheering supporters, with his wife and their three children at his side.

"I will do so in a way that helps, not hurts, that unifies, not divides, the Democratic party.' He said again he will release his

delegates to vote their conscience at the convention after a debate, and called on Carter to do the same. Kennedy aides also hope they can shake loose some of the president's delegates, either through persuasion or inrough a rules change at the conven-

tion itself. Including the results of the final night of the primary campaign, the president has won more than two dozen primaries and his challenger less than half that. But Kennedy cer-

tainly didn't want to talk about that. "Today, as before, we have carried the states that are the heartland of the Democratic party - Massachusetts, New York, Connecticut, Pennsylvania, Michigan, Rhode Island, California and New Jersey — states that a Democratic nominee must carry to

prevail in November," he said. Kennedy has campaigned from morning until night, visiting 38 states in his effort to beat Carter. And climbing the steps to his airplane for his flight home Tuesday morning, he was in obvious pain from his back, broken in an airplane crash 16 years

But he wasn't yet ready to talk

about the end of his relentless effort. "I have been on the primary trail for a long time," he said more than 22 hours and 3,000 miles later at his headquarters in Washington. "I look forward to the campaign that lies

Earlier, in an interview on the long flight home from California, Kennedy said he hasn't "really thought about

the immediate period abead." While he acknowledged that the delegate counts would show Carter with the nomination locked up by the time the night was over, Kennedy insisted there is enough "ferment" in the

party to enable him to keep going. He outlined several ways to continue campaigning, emphasizing that he

has not yet made any decisions. The options include traveling to conventions in states which have not yet completed their delegate selection process; delivering speeches around the country both to address the issues and to illustrate the differences between a challenger who travels and a president who has campaigned mustly in Washington; and using his Senate seat as a forum for speaking out.

Reagan now seeking votes from 'unhappy' Democrats

LOS ANGELES (AP) - Ronald Reagan, certain of capturing the Republican presidential nomination that barely eluded him four years ago, believes he can attract the votes of unhappy Democrats and be elected president next November.

Huge chunks of earth can be ob-

served falling in the water and creating tremendous splashes and waves. Every time one part of the wall falls off, we get one heck of a tidal wave," said Winkler County Sheriff's deputy J.C. Vandiver.

Oil company officials were unable to determine the rate of earth falling per hour.

Around the crater, there are small fissures which loosen the soil. These 1/2-11/2 inch cracks can be found as far as 150 feet from the crater's edge.

Pipelines caught in the way of the opening were bent or broken. During the early stages of the crater's development, oil and water pipelines were broken and started to dump oil and water into the opening, Axmann said, adding the lines were quickly shut

He noted that Shell Oil had followed emergency and safety procedures when the crater started opening. Ap-parently, the procedures paid off since no one was injured in the incident, he said.

Pipeline crews were moving several lines away from the sinkhole late Tuesday afternoon

Geologists from The University of Texas of the Permian Basin were expected to arrive at the site sometime today, Axmann said.

More than 100 interested bystanders were witnessing the crater's development late Tuesday. One visitor surmised the sinkhole was the fault of oil companies for over-producing the

Jordan shooting called attempted assassination

FORT WAYNE, Ind. (AP) - The shooting of civil rights leader Vernon E. Jordan Jr. was a planned assassination attempt, probably carried out by someone from outside the Fort Wayne area, Allen County Prosecutor Arnold Duemling said today.

Duemling said an interview with Martha C. Coleman, the woman with Jordan when he was shot, had helped shooting was related to any domestic troubles Mrs. Coleman may have

He also announced that Mrs. Coleman had agreed to take a polygraph test "as a matter of professional thoroughness - to eliminate any suggestion that her testimony is not complete or not true.

He said the test would be given in "in a couple of weeks." Police have said they did not con-

sider Mrs. Coleman, a member of the local Urban League board of directors, a suspect. Jordan is president of the National Urban League.

At a news conference Tuesday, FBI special agent Wayne Davis had said the FBI was "not interested in any polygraph test" for the 36-year-old divorcee who had dropped Jordan off at his motel moments before he was shot in the back.

Mrs. Coleman was interviewed by local police on Tuesday. Duemling, who was present, said she had helped to exclude "some possibilities that police had in mind," including the possiblity that the shooting was a domestic incident. Mrs. Coleman could think of no one - ex-husbands or male companions - who would have been involved, he said.

Brown lung compensation ruled

RALEIGH, N.C. (AP) - Brown lung victims are entitled to full workers compensation although other ailments may have contributed to their inability to work, the state Court of Appeals has ruled. The three-member panel of the

court handed down the ruling Tuesday in the case of Elsie T. Morrison, an Erwin woman who worked in the cotton spinning department of a Burlington Industries mill for 27 years before quitting because of lung illness and other ailments.

Brown lung, or byssinosis, is a chronic lung disease believed to result from exposure to cotton dust.

William H. Stephenson, chairman of the state Industrial Commission. called the ruling as "a landmark decision, if it is allowed to stand."

Stephenson predicted the ruling would help the industrial commission speed processing of the more than 1,200 brown lung compensation claims filed with the commission over the past three years.

"Most of those claims involve people who had more than one physical problem" he said. "Under the court's

FTC receives Senate approval

WASHINGTON (AP) - The Federal Trade Commission, a government stepchild since last October, has finally won the congressional approval it needed to stay in business. The Senate passed a bill Tuesday

providing \$49.7 million to operate the main federal consumer protection agency through Sept. 30, the end of the fiscal year. The vote was 78-16. The funding legislation, which cleared the House earlier, was sent to

President Carter, who was expected to sign it into law quickly. The FTC ran out of money at midnight Saturday for the second time this spring when an emergency onemonth appropriation expired. The agency faced a similar situation at the end of April.

decision, the other problems wouldn't make much of a difference."

Attorney C. Woodrow Teague of Raleigh, who represented Burlington Industries and its insurance company, said he would advise his clients to appeal the ruling to the state Supreme Court. Chief Judge Naomi E. Morris dis-

sented, saying health factors not related to Mrs. Morrison's job contributed to her disability. The court ruled the industrial com-

mission made a mistake last year when it reduced the amount of compensation Mrs. Morrison was entitled to receive.

The commission said only 55 percent of Mrs. Morrison's disability was related to her work and, therefore, ruled that she was not entitled to full compensation.

Former FBI informant, wife arrested on fraud charges

SAN DIEGO (AP) - A federal grand jury has indicted a former FBI informant linked to the government's Abscam investigation of alleged political corruption. Indicted Tuesday on fraud charges

were Joseph B. Meltzer and his wife, Hilda Mona Meltzer. They were charged in a 15-count indictment with mail and wire fraud and interstate transportation of checks taken by fraud. The indictment charged that the

Meltzers claimed they represented wealthy Arab sheiks interested in lending huge sums of money to American business ventures. According to the U.S. attorney's

office, the Meltzers received about \$140,000 in advance loans from persons in California, Arizona, New Mexico and Illinois. The nonexistent sheik, Kambir Abdul Rahman, was invented earlier

by the FBI as part of the undercover investigation known as Abscam. About 60 percent of the \$140,000 advance fees came from business in-

terests in San Diego. The Meltzers purportedly assured the alleged victims the advance fees would be held in an escrow account and would be refunded if the loans failed to materialize. The indictment accuses them of depositing the money in their personal bank account and converting it to their own use. No loans were financed and no advance fees were refunded, said U. S. Attorney Robert D. Rose.

Meltzer is currently serving a 30month sentence in a federal prison at Lexington, Ky. on an earlier conviction involving the theft of securities from a New York brokerage house in 1977. His wife is in custody in West Palm Beach, Fla., under a \$10,000 bond.

Rose said the Meltzers operated the alleged scheme between July 1978 and February of this year. Officials said Meltzer allegedly gained details of the Abscam investigation while working as an FBI informer in the early days of the inquiry.

The charge came from James B. King, chairman of the National Transportation Safety Board, who contends the FAA has shrugged off new technologies that would improve passengers' chances of surviving the fire that often follows a crash. 'Today we have products on the

shelf that if put into the plane will start saving lives," King told the House Public Works and Transportation oversight subcommittee Tues-day. "All that is lacking is the will to make changes occur.

WASHINGTON (AP) — The Feder-Aviation Administration is risking crash injuries. And David Mahan, director of the

FAA's congressional liaison office, said before today's session that the agency is running experiments to improve the fire-proof qualities of air-plane windows and other aviation equipment.

King said the safety board has made 11 recommendations to the FAA since 1966 dealing with the strength of seats for both small aircraft and transport aircraft.

"During our accident investigations, it was often apparent that aircraft occupants could have survived the impact if their seats had remained attached to the cabin floor,"

King also charged that the FAA is negligent in making sure emergency escape slides are fire resistant. He said the slides sometimes burn or melt from the intense heat of a fire.

cloudy morning, followed by a clearing, hot day. Widely scattered thunderstorms were forecast for Northwest Texas

today, but most of the state was to have continued hot weather. Highs were to be mostly in the 90s.

The only relief from 90-plus temperatures was to be along the upper Texas coast where highs were to be in the 80s. Another scorcher was in store along the Rio Grande

Crater near Kermit still grows

Huge chunks of earth can be observed falling in the water and creating tremendous splashes and waves.

Every time one part of the wall falls off, we get one heck of a tidal wave," said Winkler County Sheriff's deputy J.C. Vandiver.

Oil company officials were unable to determine the rate of earth falling per hour.

Around the crater, there are small fissures which loosen the soil. These 1/2-11/2 inch cracks can be found as far as 150 feet from the crater's edge. Pipelines caught in the way of the

opening were bent or broken. During the early stages of the crater's development, oil and water pipelines were broken and started to dump oil and water into the opening, Axmann said, adding the lines were quickly shut

He noted that Shell Oil had followed emergency and safety procedures when the crater started opening. Apparently, the procedures paid off since no one was injured in the incident, he said.

Pipeline crews were moving several lines away from the sinkhole late

Tuesday afternoon. Geologists from The University of Texas of the Permian Basin were expected to arrive at the site some-

time today, Axmann said. More than 100 interested bystanders were witnessing the crater's development late Tuesday. One visitor surmised the sinkhole was the fault of oil companies for over-producing the

ordan shooting called attempted assassination

FORT WAYNE, Ind. (AP) - The shooting of civil rights leader Vernon E. Jordan Jr. was a planned assassination attempt, probably carried out by someone from outside the Fort Wayne area, Allen County Prosecutor Arnold Duemling said today.

Duemling said an interview with

Martha C. Coleman, the woman with Jordan when he was shot, had helped police rule out the possibility that the shooting was related to any domestic troubles Mrs. Coleman may have

He also announced that Mrs. Coleman had agreed to take a polygraph test "as a matter of professional thoroughness — to eliminate any suggestion that her testimony is not complete or not true.'

He said the test would be given in "in a couple of weeks."

Police have said they did not consider Mrs. Coleman, a member of the local Urban League board of directors, a suspect. Jordan is president of the National Urban League.

At a news conference Tuesday, FBI special agent Wayne Davis had said the FBI was "not interested in any polygraph test" for the 36-year-old divorcee who had dropped Jordan off at his motel moments before he was shot in the back.

Mrs. Coleman was interviewed by local police on Tuesday. Duemling, who was present, said she had helped to exclude "some possibilities that police had in mind," including the possiblity that the shooting was a domestic incident. Mrs. Coleman could think of no one — ex-husbands or male companions - who would have been involved, he said.

Mother, son sentenced to prison for violating incest probation

STAFFORD, Va. (AP) - Jean Marie and Christopher Lillie, the mother and son convicted of incest earlier this year, have been sentenced to five years in prison for violating their probation.

Circuit Judge J. M. H. Willis Jr. revoked the suspension of the Lillies' five-year sentences, which he granted in January on the condition they never see each other again.

The Lillies were arrested in Prince William County in April on warrants

issued by probation officials. Marie Davis, a witness at Monday's hearing, testified she had lived down

hotel from February to April. The Lillies, who had introduced themselves to her as Roy and Alice Walker, lived together in the hotel, Ms. Davis said. She said she had slept in the same bed with the Lillies during a week when the heat was off and saw

been discharged from the Marine Corps because of the January incest conviction, also admitted he had moved in with his mother within two weeks of the January sentencing but had sex with her "only one or two times" since then. At the January trial, Mrs. Lillie

admitted having sexual intercourse with her son but told the court he had been in a foster home all her life. She said she had not seen him from his birth until she met him 19 years later.

Christopher testified Monday that he returned to see his mother in January because "of human instinct and feeling. The love has built up so much that you can't really just automatically cut off."

Both Lillies testified that the last month in jail has given them time to think and that they have no feelings left for each other.

The Lillies' lawyer, Carroll Smith, said psychological evaluations indicate Mrs. Lillie "does not possess the ability to make a rational decision in social situation and that her IQ indicates she is virtually mentally defective."

Mrs. Lillie was in a facility for the mentally retarded from age three to

If absentee voting for the Democratic runoff is any indication of how voting will go on Saturday, it's going to be a twiddle-your-thumbs day.

Brown lung compensation ruled

RALEIGH, N.C. (AP) - Brown lung victims are entitled to full workers compensation although other ailments may have contributed to their inability to work, the state Court of Appeals has ruled. The three-member panel of the

court handed down the ruling Tuesday in the case of Elsie T. Morrison. an Erwin woman who worked in the cotton spinning department of a Burlington Industries mill for 27 years before quitting because of lung illness and other ailments.

Brown lung, or byssinosis, is a chronic lung disease believed to result from exposure to cotton dust.

William H. Stephenson, chairman of the state Industrial Commission, called the ruling as "a landmark de-

cision, if it is allowed to stand." Stephenson predicted the ruling would help the industrial commission speed processing of the more than 1,200 brown lung compensation claims filed with the commission over the past three years.

"Most of those claims involve people who had more than one physical problem" he said. "Under the court's

FTC receives Senate approval

WASHINGTON (AP) - The Federal Trade Commission, a government stepchild since last October, has finally won the congressional approval it needed to stay in business.

The Senate passed a bill Tuesday providing \$49.7 million to operate the main federal consumer protection agency through Sept. 30, the end of the fiscal year. The vote was 78-16. The funding legislation, which cleared the House earlier, was sent to

President Carter, who was expected to sign it into law quickly. The FTC ran out of money at midnight Saturday for the second time this spring when an emergency onemonth appropriation expired. The agency faced a similar situation at the end of April.

Chief Judge Naomi E. Morris dissented, saying health factors not related to Mrs. Morrison's job contri-

buted to her disability. The court ruled the industrial com-

mission made a mistake last year when it reduced the amount of compensation Mrs. Morrison was entitled to receive.

The commission said only 55 percent of Mrs. Morrison's disability was related to her work and, therefore, ruled that she was not entitled to full compensation.

loans were financed and no advance fees were refunded, said U.S. Attorney Robert D. Rose.

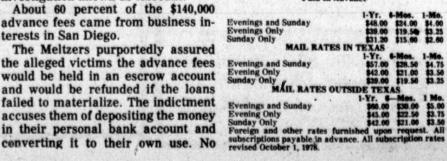

Meltzer is currently serving a 30-month sentence in a federal prison at Lexington, Ky. on an earlier conviction involving the theft of securities from a New York brokerage house in 1977. His wife is in custody in West Palm Beach, Fla., under a \$10,000

Rose said the Meltzers operated the alleged scheme between July 1978 and February of this year. Officials said Meltzer allegedly gained details of the Abscam investigation while working as an FBI informer in the early days of the inquiry.

Investigator blasts FAA for unrevised fire standards

WASHINGTON (AP) - The Federal Aviation Administration is risking the lives of airplane passengers by not issuing strong safety standards for seats and fire evacuation equipment, says an airplane crash investi-

The charge came from James B. King, chairman of the National Transportation Safety Board, who contends the FAA has shrugged off new technologies that would improve passengers' chances of surviving the fire that often follows a crash. Today we have products on the

shelf that if put into the plane will start saving lives," King told the House Public Works and Transportation oversight subcommittee Tuesday. " All that is lacking is the will to make changes occur.

The director of the FAA's office of aviation safety, John R. Harrison, arranged to state that agency's position to the subcommittee today. He was expected to say that research is underway to devise better equipment

to help passengers escape serious crash injuries. And David Mahan, director of the

FAA's congressional liaison office, said before today's session that the agency is running experiments to improve the fire-proof qualities of air-plane windows and other aviation

King said the safety board has made 11 recommendations to the FAA since 1966 dealing with the strength of seats for both small aircraft and transport aircraft.

"During our accident investigations, it was often apparent that aircraft occupants could have survived the impact if their seats had remained attached to the cabin floor,"

King also charged that the FAA is negligent in making sure emergency escape slides are fire resistant. He said the slides sometimes burn or melt from the intense heat of a fire.

A Texas-style future

Bill Gray of Houston, president of the Texas Association of Business, was in Midland last week and revealed some interesting information.

According to Gray, Texas' business climate now is considered the best in the nation. The outlook for the 1980s is bright.

That's all true and Texans certainly should look forward to the realization of that future. But the fact of the matter is it took a lot of hard work over a number of years to "develop" this Texas business climate. It did not just magically appear one day.

The favorable business climate in the state, as Mr. Gray noted, is the result of a number of factors including our right-to-work law, the lack of a corporate income tax, a pleasant climate, an adequate labor force and many more.

Texas also is one of the Sunbelt states to which businesses and corporations have been migrating in recent years in order to get away from the severe winter weather experienced primarily in the northern states.

That migration undoubtedly will continue and, as Mr. Gray predicted, competition between Texas and the other Sunbelt states will intensify. What the situation

will evolve into is one in which the states with the most economic incentives will prosper; the others will grow industrially at a slower

This future should not cause alarm for Texans. It is not a frightening future, but one of promise and excitement.

Together we have made Texas the great state it is today. Our economic climate shields us from the unfortunate occurrences experienced in many of the other industrialized states to the north. Too, other states have suffered environmental damage caused primarily because of failure to provide safeguards against pollu-

Due to the diligent efforts of Texas' leaders, we have avoided most of those problems in the past. Now it is up to us to ensure that those problems will not develop here in the future.

We have met challenges before and concluded them on a successful note. Surely we will in the future.

As Mr. Gray noted, "Crucial days are ahead, but I am confident that Texans can and will solve the problems in traditional Texas style and keep Texas No.

We are certain of that, too.

FBI probing Kelly's ties with criminals

WASHINGTON - Here is yet another chapter in the continuing sagaof Rep. Richard Kelly, the quixotic Florida Republican who has admitted taking \$25,000 in cash from undercover agents as part of the FBI's AB-

TODAY IN HISTORY

Today is Wednesday, June 4, the 156th day of 1980. There are 210 days left in the year.

Today's highlight in history: in 1942, the battle of Midway began in the Pacific Theater of World War II. It would end in Japan's first decisive defeat of the war.

In 1647, the British army took King Charles I hostage.

On this date:

In 1896, Henry Ford made a successful run with his car - a nighttime drive around the streets of Detroit. In 1961, President John Kennedy

met with Soviet Premier Nikita Khrushchev in Vienna. In 1973, the White House acknow-

ledged that President Richard Nixon had conferred frequently with his lawyer, John Dean, about the Watergate scandal in 1973. Ten years ago: an attempted hi-jacking was foiled when FBI agents

shot out the tires of a jet with 51 people on board as it landed at Washington's Dulles Airport. Five years ago: the Greek parliament decided former King Constantine II will be permitted to return to Greece to run for political office if he

Carter studies new refugee legislation

WASHINGTON (AP) - President Carter, awaiting an administration report on Cuban immigration, is considering whether new legislation is needed to cope with the sudden influx of more than 100,000 refugees from

Members of the House met this morning with the top administration aides dealing with the refugees and said Carter would be given the report within a few days.

A group from the Senate was invited in for a second meeting at the White House.

Under consideration would be expanding the current refugee law or writing new laws to determine how the refugees will be treated, said Rep. Claude Pepper, D-Fla.

"The problem is what sort of status do these people have after they get here," Pepper said.

Rep. Dante B. Fascell, a Democrat whose south Florida district has borne the brunt of the refugee flow, said the administration had to decide who local governments would be reimbursed for the "tremendous cost" the immigration is creating.

ed compromise but is now trying to convince the Senate to accept less money for defense.

House Democratic negotiators want \$300 million shifted from defense, with \$200 million going to increase low-income energy assistance and \$100 million to transportation, Giaimo said.

Giaimo said House Democrats also want a \$2 billion cut in the \$171.3 billion defense budget authority, which obligates the government on future spending and represents nearly a 10 percent increase over 1980 after inflation is deducted.

However, Sen. Ernest F. Hollings, D-S.C., the Senate Budget Committee chairman, said Senate negotiators were "absolutely opposed" to the proposal for a reduction in budget au-

"The budget process is in terrible jeopardy right now," Hollings said. Although Giaimo also expressed concern about the future of Congress' six-year experiment at budget discipline, the immediate problem is with a variety of government programs that are running out of money. Congress has been unable to ap-

prove extra money for the programs because 1980 spending has exceeded the budget ceiling approved last fall. An increase in the 1980 ceiling is part of the 1981 budget package. The 1974 Budget Act bars action on

money bills once the budget ceiling is breached. However, a majority vote of both houses can waive that restric-Hollings said he will oppose all

waivers of the ceiling, but Giaimo said he will support ones for crucial programs. "If we go to waivers, we might as

well tell the American people that we can't live with a budget process and junk it," Giaimo said. Federal unemployment benefits

that go to 600,000 Americans, including auto workers and ex-servicemen, are expected to run dry Friday. The fund pays benefits only to a special group of unemployed, mainly workers hurt by foreign trade, and to former federal employees.

Also running short of cash are disaster relief programs, refugee aid and benefits to coal miners who suffer from black lung, an irreversible respiratory disease that results from breathing coal dust.

Giaimo said he would back budget waivers for those programs, but would object to overriding the budget to give money to other programs such as water projects, mass transit and the space shuttle.

Elderly man innocent of murder in shooting

TOWSON, Md. (AP) - Roman Welzant, a 68-year-old retired shoe salesman who said he lived in constant fear of neighborhood youths, has been acquitted of murder in the killing of a teen-ager who allegedly bombarded his house with snowballs.

Welzant choked back tears of relief when the verdict was announced. The victim's mother screamed in an-

To some older Americans, Welzant had become a symbol of the victimized elderly. He was charged with second-degree murder, and with attempted murder in the wounding of a second youth.

"I don't think anybody realizes how many people have gone through the same thing," defense attorney Russell White said after a Circuit Court jury cleared Welzant.

Welzant, who had no previous criminal record, had received letters from around the United States and Canada and more than \$3,200 in small donations after reports of the Jan. 4 shoot-During the two-week trial, White

attempted to show that Welzant and his 64-year-old wife, Genevieve, were the victims of 12 years of harassment and abuse by teen-agers in their working-class neighborhood in suburban Baltimore. On the witness stand, the Welzants

told of years of vandalism to their

two-story brick rowhouse home.

Their torment came to a head on a snowy night when, Welzant acknowledged, he took a small handgun he had never fired and went into the street after youths who he said were obbing snowballs at his home.

Welzant's lawyer argued his client had not intended to harm anyone but only was trying to identify the youths and scare them off by firing two warning shots. The prosecution tried to depict Welzant as an angry, frustrated man who took the law into his own hands.

"Do you really want to say it's OK for a person to go out and shoot someone throwing snowballs?" argued prosecutor Thomas Basham.

Welzant testified his gun discharged twice when Albert Kahl, 18, and James Willey, 17, assaulted him. Kahl died and Willey, who was injured, still carries the bullet in his

TOKYO (AP) - A top executive of Japan's largest automaker, Toyota, said today that Japan cannot be blamed for the massive layoffs and plant shutdowns crippling the U.S. auto industry, and urged the United States to reconsider a decision to raise tariffs on imported small trucks to 25 percent.

WASHINGTON (AP)
- Freight trains of the Missouri-Kansas-Texas Railroad begin operating over Rock Island Railroad track in three states today despite another railroad's challenge to the federally approved takeover.

'We intend to operate over the full line eventually," an MKT spokesman said Tuesday after the railroad notified the Interstate Commerce Commission of its decision to assume immediate control of the 450mile route from Herrington, Kan., through Oklahoma to Dallas.

Art Albin, attorney for the Dallas-based railroad, said the first MKT trains would operate between Dallas and Fort Worth and at several switching stations in Oklahoma and Kansas.

Operation of through trains over the route would depend on how soon inspection teams check track and signals and bring them up to federal standards, he said.

"Our personnel are heading out to centrally located spots to hire Rock Island employees and we've been working with various labor organizations to smooth the transition," Albin said.

He said the MKT had decided to begin running over the key grain-belt route after the ICC clarified the impact of the St. Louis-San Francisco Railway Co.'s appeal of the takeover.

Khomeini belittles Carter, U.S.

By The Associated Press The 53 U.S. hostages began their eighth month in captivity today with Ayatollah Ruhollah Khomeini belittling President Carter and the Iranian regime throwing cold water on former Attorney General Ramsey Clark's offer to become a captive to speed the Americans' release.

Khomeini met with delegates to the "Crimes of America" conference and told them Carter fears the meeting because it will prove American wrongdoing in Iran. He also said he didn't know why European countries fear the United States or why they joined Carter's economic sanctions against his regime.

In addition, the ayatollah urged conference delegates to tell their countries the truth about Iran, and accused the foreign press of "telling the world that Iran is like a jungle where some crazy people are killing

other people."
Ayatollah Mohammd Beheshti, Iran's justice minister, told reporters some of Clark's views were good, but he questioned the effectiveness of the Clark mission because of the U.S. government travel ban and its disavowal of the delegation.

He also reiterated that the hostages' fate will be decided by Iran's new Parliament, and that it was difficult to say when the issue will be debated. The interim head of the Parliament said last week the debate probably wouldn't begin until July

Although Iranian Foreign Minister Sadegh Ghotbzadeh has said he plans to meet with Clark, he has insisted he

will "not enter into negotiations with him" on release of the hostages, who were seized Nov. 4.

Clark made his exchange offer Tuesday at the "Crimes of America" conference in Tehran. Attending were delegates from some 50 countries, including the nine Americans with Clark who are defying Carter's ban on travel to Iran.

'I am so sure it is imperative that the hostages be released now, so important to the fulfillment of the Iranian revolution which it is damaging in a hundred ways, so important to the individual rights of the hostages and

so important to peace on earth, that I offer today to take the place of any hostage if that will help resolve this

tragic crisis," Clark said.
"Taking hostages uninvolved in the specific offense for which you are concerned can't be justified in a country which wants to live in peace. The seizure of the hostages here is understandable in human terms. God knows it is unerstandable. But it is not

Clark, an activist lawyer who served as attorney general in the administration of President Lyndon Johnson in the 1960s, said the hostages were the "wrong people" to punish for the abuses of the U.S.backed regime of deposed Shah Mo-hammad Reza Pahlavi, which he said 'brutalized millions."

"Of course, the United States leadership still clings to the ideas that it can control the destinies of other people. You must help show the American people that that policy can't prevail, that it is impossible to subjugate a people," Clark said.

He urged the "anti-imperialist" conference delegates to press their governments to help found an international court of justice to try persons like the shah, ousted by Khomeini's revolution in January 1979 and now living in exile in Egypt.

The State Department has expressed concern the Clark delegation's presence at the conference may be construed as U.S. government approval for the meeting, which State Department spokesman Hodding Carter has labeled a "propaganda

Homeless dog may lose life after birth

LONGVIEW, Wash. (AP) - A tiny dog that lost its home because of Mount St. Helens might lose its life after giving birth to four puppies,

A picture of the 8-pound poodle-terrier peering from a cage at an animal shelter tugged on the heartstrings of canine lovers last week and

the center was soon flooded with calls from would-be owners. But the dog, named Poodley-Mama by humane society workers, was pregnant and Monday gave birth to three pupples — with complica-

Councilman escalates Corpus Christi squabble

CORPUS CHRISTI, Texas (AP) -A councilman escalated the squabble between city fathers and disgruntled taxpayers when he filed a libel suit against a citizens' group trying to kick the entire council out of office.

Councilman Jack Best said in his suit that the Corpus Christi Taxpayers Association has defamed him in their recall petitions and he wants \$17

million in damages. "My honesty and integrity have been challenged by members of the taxpayers association," Best said Tuesday after filing the suit. The dentist declined further comment.

"We are completely flabbergast-ed," said association secretary Joe O'Brien, who is named with the 15member board and as an individual in Best's lawsuit.

The association began circulating the recall petitions last week after the council declined to withdraw a lawsuit filed against everybody in town.

The council filed its suit last month to challenge the validity of a tax limiting proposal, known as Proposition 14, that was approved in an April municipal election. It reduced the tax rate and limited future property appraisal hikes to 6 percent a year. O'Brien said Best was not to be included in the recall at first because he voted against suing the city's taxpayers. But when the council would not withdraw the suit, O'Brien said, the association decided to try to recall

the whole group. Best said the associations 15-member board of directors had made "libelous and slanderous statements' against him.

The suit also specifically names O'Brien, saying he told reporters "If they aren't for us, they are against us," a statement O'Brien confirmed

that he made last week. Best said in the suit that statement and other wrongly implies he favored suing the city's taxpayers.

The suit also included a copy of a

recall petition, claiming statements in it are libelous. "Public officials must endure some

criticism as a part of the price paid for holding public office, but not this kind," said Best's attorney, Max J. Luther, who added that Best has been "the target of statements which far exceed what any reasonable person must be called upon to endure.

O'Brien estimated Tuesday night there were "well over" 5,000 signatures on the recall petitions. The group must have the signatures of 9,400 registered voters by June 12.

Insurance businessman Fred Hernandez had hoped local merchants would turn out in favor of building a 4,000-inmate maximum security prison in this job hungry area.

When the hour-long session ended, Hernandez said he was abandoning plans to woo the State Department of Corrections to build here.

"I always said I would go with the

majority of the people," he said.
"I'm going to drop it, call it quits, because I get the message."
State prison officials have not proposed openly another site since plans to purchase Starr County land fell through. Gov. Bill Clements has kept alive speculation over a Rio Grande Valley site by saying property in Wilavailable.

The 80 people who filled the courtroom Tuesday came mostly from Lasara, an unincorporated community in western Willacy County. Hernandez has said that area has several large, irrigated farms that might be

prime spots for a prison. Joe Flores, Lasara school superintendent, said the district would lose between \$15,0000 to \$20,000 in annual taxes if the state purchased 5,000

acres and took it off the tax rolls. "I agree we need industry, but we don't want that kind of industry," he

The same concerns expressed in Starr County were voiced here. Local citizens feared loss of farm jobs, danger from escapees and the overall economic impact of the prison.

"Now I can sleep in my home with my doors open," said Joe Mendez Jr. of Sebastian. "If we have a place like this, we are not going to have any trust around here anymore.'

DEAR TAMMY: The article you enclosed is indeed worth a rerun, and here it is:

"King Heroin is my shepherd, I shall always want..."

These tragic words, part of a twisted rewording of the beloved 23rd Psalm, were discovered recently in Reidsville, N.C., in a closed car alongside a dead heroin addict. She was 23 years ago.

Her death was ruled a suicide. A hookup with the car's exhaust had sent carbon monoxide fumes from a running motor into the vehicle. Here's the complete "psalm."

"King Heroin is my shepherd, I shall always want. He maketh me to lie down in the gutters. 'He leadeth me in the paths of

wickedness. "Yea, I shall walk through the valley of poverty and will fear no evil, for thou, Heroin, are with me.

DEAR ABBY: I have a friend who keeps her late husband's ashes in a

fancy porcelain jar on the mantel in her living rom. Perhaps I should say that she claims they are her late husband's ashes, because this lady has a rather wild imagination.

The jar containing the so-calld "ashes" is not tightly capped. In fact, my friend frequently shows it around; it looks (and smells) exactly like cigarette ashes to me!

Do you think they could be her husband's remains? A FRIEND

Living today ...

By SHARON A. HILLIS County Extension Agent Home Economics

Living today...creatively continues to be a challenge. Last week we discussed cutting family food costs. If you would like to cut another corner, you may want to introduce your family to some "creative turkey ideas" for the summer.

Supplies are currently 40-45 percent above this same time in 1979 and are expected to be economical buys throughout June. If freezer space will allow, purchase more than one and plan some menus around "that turkey" from now through August and even September.

And, no matter if you barbeque, fry, roast or however you usually cook your meat for the occasion, you can do it with turkey. The essentials are to pick the right kind and size of turkey for whatever method you use to insure good eating.

TURKEY LABELS

Turkey labels. What do they tell you? For one thing, the tenderness of poultry meat is determined by the AGE of the bird—not by the U.S. grade which tells you the physical shape and appearance to expect in the bird. For example, U.S. Grade A, the highest quality grade for poultry, has a good overall shape and appearance, is meaty and practically free from defects. This is usually the only marked

grade you will find in the store.

Becoming familiar with other terminology in order to select the best bird for your use will insure satisfaction in the result of your cooked product. Below is a useful glossary for your reference:

CLASS - Age. Will be indicated on 4. labels as, for example, "young" or "mature" poultry, or by terms such as "broiler or "roaster." The class indicates the cooking method necessary for maximum flavor and tender-

FRYER-ROASTER TURKEY - A young, immature turkey (usually under 16 weeks of age) of either sex, that is tender-meated with soft, smooth-textured skin.

MATURE - Old, less tender-meated classes of poultry. Rest cooked by simmering, steaming, braising, stewing, or pressure cooking. May be labeled "mature," such as "mature turkey," or "mature goose." or "fowl," "hen," or "stewing chick-

YEARLING HEN TURKEY - A fully matured female turkey (usually under 15 months of age) that is reasonably tender-meated with reasonably smooth-textured skin.

YEARLING TOM TURKEY - A fully matured tom turkey (usually under 15 months of age) that is reasonably tender-meated with reasonably smooth-textured skin.

YOUNG - Term for young tendermeated classes of poultry, which are best for barbecuing, frying, broiling or roasting. May be labeled "young," such as "young turkey," or "young guinea," or indicated by terms such as "broiler," "roaster," or "fryer."

INSPECTION — Poultry must be officially inspected for wholesomeness before it can be graded for quali-

TURKEY ON THE GRILL

Since it is outdoor cooking time again, let's take a look at a "turkey treat—outdoor style" for our family and friends. In checking our glossary above, we find the young class of poultry is the type turkey we need. The basic information we need for our project includes:

Step 1. Select a 6 to 7 pound turkey for grilling.

Step 2. Wash the bird in cold water, removing any pin feathers and dry with a clean cloth or paper towel. Step 3. Cut the turkey into quar-

Step 4. (optional) Marinate in a sauce for 2 hours at room temperature or overnight in refrigerator.

Step 5. If not using a sauce as a marinade, season with salt, pepper, poultry or other seasoning you choose and brush generously with melted margarine or other oil.

Step 6. Place turkey pieces on grill 6 to 8 inches above hot glowing coals. Cook about 1 1/2 hours, turning occasionally.

Step 7. Baste with sauce, if desired, during last 30 minutes of cooking Step 8. To test doneness, cut into

drumstick with a very sharp knife. Turkey is done when there is no pinkness near bone. NOTE: If using chicken quarters follow same procedure as above and

pregnancy comes to term. Ms. Willis is eight months pregnant. Lake County car. Judge Roy W. Caldwell ignored that in sentencing the 19-year-old, who had been on probation for a series of similar charges.

"The sentence was warranted," Caldwell said Monday. "I wouldn't have put her in there if I didn't think it was safe."

The 20 days will be up June 17. The baby is due June 27, said Harvey Johnson, father of the unborn

Caldwell said he thinks the young woman will have loves the one that's on the way.' just enough time to serve her sentence before giving birth. If she doesn't "either welfare will pay for it or we'll pay for it," he said.

"Driving without a license is hardly something you'd send an expectant mother to jail for," said Johnson, 46. The couple has lived together in Kenansville, 80 miles southeast of here, for four years along with Ms. Willis' son, Ronnie.

Ms. Willis pleaded guilty Thursday to two counts of driving without a license and had been on probation license, hopes her jail stint will end before her in nearby Osceola County for four counts of having no license and one count of having no tag on her

By JIM LUTHER Associated Press Writer

WASHINGTON (AP)
— Stung by a loss in the Senate, the Carter administration is hoping the House will provide the money the president wants to strengthen the government's fight against inflation.

But there is no assurance the House will approve President Carter's request to triple the budget of the Council on Wage and Price Stability, which spearheads the anti-inflation effort. The House Banking Committee has recommended the same scaled-down figure approved by the Senate Monday.

With Republicans leading the way, the Senate overrode its Banking Committee and voted 54-26 to allow the council to spend no more than \$19.1-million in the next 16 months. The bill, extending the life of the council through Sept. 30, 1981, was then passed 72-11 and sent to the House.

The Senate Banking Committee had approved the full \$38.7 million Carter had requested when he outlined plans for the council to increase its monitoring of price increases. The council's current annual budget is \$8.4 million.

Senators also voted to do their bit to hold down spending as part of the fight against inflation. A 68-15 vote approved an amendment by Democratic Leader Robert C. Byrd that requires the Senate Appropriations. Committee to reduce spending for Senate operations 10 percent, or \$20 million, next year.

That amendment substituted for a tougher version by Sen. Harry F. Byrd, I-Va., that would have affected the House as well, requiring members and committees in both houses to cut costs

by 15 percent.

In another, largely symbolic shot in the antiinflation fight, the Senate voted 44-39 to repeal the 1969 Credit Control Act, which the Federal Reserve Board — at the urging of the Carter administration — used March 14 to limit consumer credit. The board since has eased those controls. The vote would wipe out the law July 1,

Sponsors of that amendment, led by Sen. Bill Armstrong, R-Colo., said credit controls do little to hold down spending but impose a hardship on consumers and small businesses.

A third Republican effort to weaken the council — on grounds it is harasses business — failed on a 42-39 vote. That amendment, by Sen. Robert Dole, R-Kan., would have prohibited the Carter administration from economic reprisals against companies that raise prices more than the voluntary guidelines allow.

The president's authority to withhold large government contracts from offending companies was upheld by the courts last year. Although the authority has not been used, Sen. William Proxmire, D-Wis., said, "Without some shotgun in the closet ... the voluntary program would become an ineffective, feeble proposition."

Sen. John Heinz, R-Pa., who sponsored the amendment that denied Carter's money request, said the council should be abolished, except that might give the public the idea that Congress had given up on inflation.

given up on inflation.

If Congress is serious about the fight, Proxmire said, it makes no sense to disarm the only federal agency committed solely to stopping inflation.

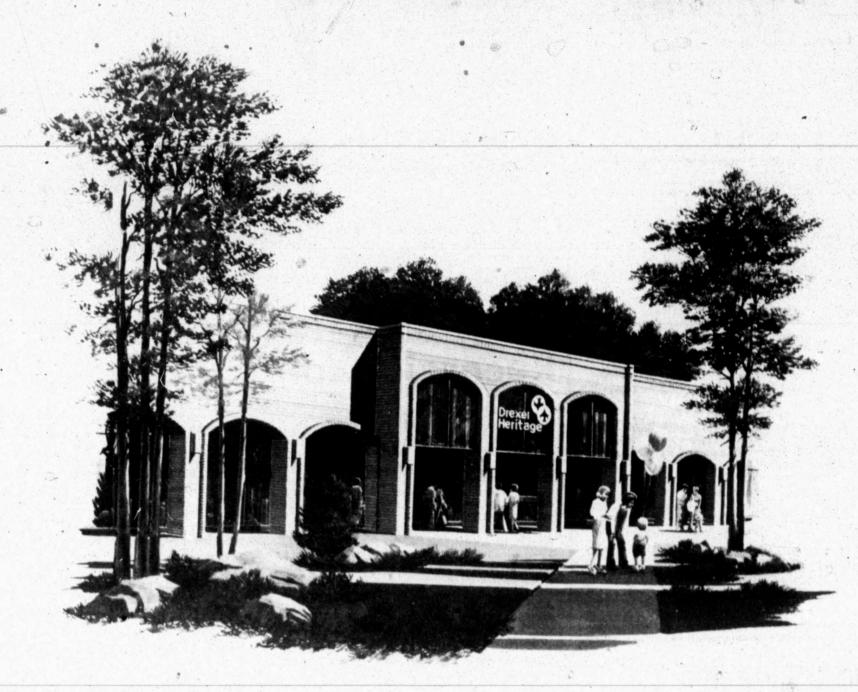

flation.

He noted that the \$25 million Carter requested for the agency for 1981 is less than the \$30 million the council recently saved consumers in one price-rollback case. The \$25 million is microscopic "in relation to the size of the budget (\$613 billion), to fight our No. 1 problem," Proxmire

said.

Heinz opposed the budget increase for the council because he said it has been ineffective in the war on inflation.

Former officer says called bank 'golden goose'

SAN ANTONIO, Texas (AP) — A Carrizo Springs bank, ordered closed because of questionable financial deals, often was called a "golden goose" by an Eagle Pass bankerrancher being retried for misapplying its funds, a former bank officer has

The testimony came in the second day of Enrique Salinas' new trial on federal charges of misapplying funds from the bank closed by the Texas Banking Commission in June 1976.

Salinas, 38, was convicted in August 1977 along with Citizen State Bank President Lewis Woodul and Sanchez on charges of conspiracy, misapplication of bank funds and falsifying bank records.

Dan Sanchez Jr, former vice chairman of the now defunct bank, testified Tuesday that Salinas often referred to the bank as his "golden goose."
"As is the goose that laid the golden

egg?" Assistant U.S. Attorney Ray

"Yes," replied Sanchez.

After the first trial, Salinas was sentenced to 12 years in prison and fined \$25,000 by the late U.S. District Judge John H. Wood Jr.. Woodul was sentenced to five years in prison and Sanchez, four.

But the 5th U.S. Circuit Court of

Appeals reversed the misapplication

funds convictions, leaving intact the other convictions.

Salinas remains under a five-year prison term and a \$10,000 conviction on those intact convictions.

Prosecutors chose to retry Salinas on only three of the 12 original misapplication charges.

Both Woodul and Sanchez have testified against Salinas this time as part of an agreement to avoid further prosecution, officials said.

Woodul, who said he now works. clearing brush on a South Texas ranch, testified Monday that he and Sanchez each signed \$60,000 Citizens State Bank loans to themselves in 1976 at Salinas' request

Salinas told them, Woodul said, that the money would help pay for the Citizens State Bank stock Salinas held as security on an \$866,250 loan made to the bank two years earlier by a San Antonio bank

Salinas is being retried for the two \$60,000 loans and for a third loan made Dec. 2, 1975 to Maverick Air Inc. for an airplane.

Recession 'all but official'

By R. GREGORY NOKES

WASHINGTON (AP) - It's all but official now: The U.S. economy is in a recession. All that remains to be determined is how severe it will be and how long it will last.

President Carter has previously said the nation is probably in a recession, but even the president isn't the final judge.

The authoritative word rests with a group of academic economists at the National Bureau of Economic Research in Cambridge, Mass., and they

rendered their decision Tuesday. The formal announcement said a recession probably struck the economy in January, earlier than most economists have thought. The scholars said recent economic activity peaked in January and has been moving down ever since.

"Unless there is an extraordinarily sharp and Reasons for Ulrich's quick reversal in activity, this peak will mark the onset of a recession," they said in a statement issued after a meeting.

Cycle Dating Committee, whose chairman is Robert Hall of Stanford. A spokeswoman, Donna Zerwitz, said the decision was unanimous by the six economists who attended.

There already was widespread agreement that the economy had entered a recession, the seventh since World War II

Hostage picking up some 'quacky' support

NEWPORT, Maine (AP) - Negotiations have been fruitless, and the duck is still being held hostage.

But the hostage is picking up some support in Miami.

It all began April 22 when farmer Gerald Denicola captured Edward Schneller's duck for what he said were repeated nuisance visits by the

bird to his property.

At the time, Schneller was appealing a conviction for shooting at two of "I object to having Schneller's ducks and turkeys eating up my gar-

den, defecating all over our yard, picnic bench and children's toys, Denicola said when he took the duck Denicola is demanding a 25 cents-per-day ransom for the duck.

"We started giving out bumper stickers that said 'WQAM Radio Says Free the Duck," Miami disc jockey John Forsythe said Tuesday. "People were picking them up at different locations and were donating

money to a fund that we could use to pay the ransom.' He said Denicola refused the station's offer once. Now a record titled

"Free the Duck" has hit the stands, Forsythe said. Police Chief Frederick Coates said Tuesday he has met with the two farmers in an attempt to resolve the dispute, but without success. "They come in every once in a while to see if there's been any change with the other and I say no.

He said he has been called to their homes many times "to defuse things of this nature." There were arguments over "a snowmobile, then turkeys, cows, and now we're down to a duck."

"I've never run up against anything like it in all my life," Coates

Young hospitalized to fight 'depression'

ROCK ISLAND, Ill. (AP) - Actor Robert Young, who as Dr. Marcus Welby spent years cheering up fictitious patients, is being treated for hereditary "chemical depression," according to his doctor

Dr. Eduardo Ricaurte said the ailment, caused by a lack of a biogenic amine, makes Young appear "dispirited, decelerated, joyless, unmotivated." The 73-year-old actor entered the Franciscan Medical Center on Saturday and also is being treated for high blood pressure.

Ricaurte said Young, best known for his roles in television's "Marcus Welby, M.D." and "Father Knows Best," was treated for the same condition in April and returned when he recognized "this change within

"I am very optimistic that he will be able to take over again," said the doctor. Young, accompanied by his wife, is expected to remain in the hospital for three to five weeks.

HOLLYWOOD (AP) - Lucie Arnaz, who plans to wed actor Lawrence Luckinbill in a month or so, is expecting a baby and "couldn't be more delighted," says syndicated columnist Marilyn Beck.

Miss Arnaz, daughter of Lucille Ball and Desi Arnaz, says she and Luckinbill expect the baby before the end of the year. Miss Beck said in her column today that no wedding date was set but the couple planned to wed this month or next.

Miss Arnaz recently completed a stint in the Broadway musi-"They're Playing Our Song." Luckinbill was featured in the "Boys in the Band" and "Chapter Two."

"This is a very happy time for me," Miss Arnaz said. "It's true - and I couldn't be more delighted.'

LOS ANGLES (AP) - "Tonight Show" host Johnny Carson has entered a hospital for tests to determine whether he needs surgery on his left leg.

The 54-year-old comedian and late-night talk show czar entered Cedars-Sinai Medical Center on Monday and was to remain through today at least, officials said. The tests are designed to determine whether Carson has a blocked artery in his leg and whether surgery is needed to correct it.

Carson said recently he had

experienced fatigue when walking or playing tennis. He said that if surgery was necessary, it could combine with his vacation to keep him off the NBC-TV show until late July.

Carson recently signed a multi-million dollar contract.

NEW YORK (AP) - Garry Trudeau, who turned a cartoon depiction of college life into a comic strip read by presidents, is getting married to a host of the "Today" show.

Trudeau, author of "Doonesbury," and Jane Pauley will tie the knot June 14, according to sources.

The 31-year-old cartoonist won a Pultizer Prize in 1975 for the daily comic strip, which he began as an undergraduate at Yale University. It is now in its 10th year of syndication.

Miss Pauley, 29, joined the NBC early-morning program in 1975, replacing Barbara Walters. She also is Saturday anchor of the "NBC Nightly News."

NEW YORK (AP) - This year's beauty contests won't go on without Bert Parks after all.

Parks, who was ditched by the Miss America Pageant after 25 years of "There She Is, Miss America," has signed on as master of ceremonies for the Miss Young International contest, which will be held Aug. 17 in

Parks announced Tuesday he had signed a seven-year contract, at a fee he would not disclose, to host the contest for young women aged 15 to

The 65-year-old Parks said he had refused a number of other offers to emcee beauty contests but was "delighted with the international quality" of Miss Young International.

He said being dropped from Miss America was a blessing in disguise, giving him a chance to do plays and movies.

CHARLESTON, S.C. (AP) — "That dog don't hunt," country and western singer Jimmy Dean said he exclaimed when he learned the house he planned to build would cost more than half a million dollars. Dean testified Tuesday in a civil suit in U.S. District Court that he had an oral agreement with a Charleston architect to design a \$300,000 house near here. After he was notified three years later the structure would

cost \$671,566, he said he tried to trim some expenses. A suit was eventually filed by the architect and Dean counter-

Dean said he and his wife, Mary, "were dumb as a box of rocks" about house-building and trusted the professionals. His countersuit against David LeRoy Parrott seeks the return

Hawaii upsets Miami

Four teams left in College World Series

OMAHA, Neb. (AP) — A freshman whose favorite pitch is a "slurve" and a catcher who switched to a new bat combined to upset top-ranked Miami 9-3 Tuesday night, moving Hawaii in the finals of the College World Se-

Wednesday night's pairings match California against Miami and Hawaii against Arizona: Hawaii, the only team without a loss in the 1980 National Collegiate Athletic Association tournament, will go to the finals even if they lose to Arizona.

"I throw a slurve, which is my sidearm curve," said Bryan Duquette, a southpaw who pitched a six Collin Tanabe, who switched to a

new, lighter bat Tuesday night, drove in five Rainbow runs with a home run

"We're a young club and we're cocky," said Tanabe, who as a junior is one of the team's elders.

The Rainbows, 60-16, have four seniors on their roster and only two have seen action in Omaha. Their youth and style of play earned them the nickname "Keiki Korps" earlier this season. Keiki means youth.

"There were a lot of reasons why we shouldn't have won," said Hawaii Coach Les Murakami.

"We're not supposed to be here," he said. "We have no All-Americans. This is a tribune to youth. My kids didn't know what they were doing," he added.

Hawaii took a 1-0 lead in the first on a run-scoring single by Jay Erdahl. In Hawaii's four-run second inning, Thad Reece singled in a run and Tanabe gave the Rainbows a 5-0 lead with a three-run homer.

Duquette was touched for three runs in the second on Paul Hundhammer two-run double and an RBI sin-

"We thought we had him (Du-

quette) early but we couldn't put him away," said Miami shortstop Ross

The Rainbows added single runs in the fifth and seventh, both coming on Miami errors, and Tanabe hit a two run double through the gap in rightcenter field to complete Hawaii's scoring in the eighth.

Hawaii battered three Miami pitchers for 13 hits and Hurricane starter Jeff Morrison, 9-3, took the loss.

Miami Coach Ron Fraser, who has brought his club to the College World Series for three straight years, said the Hurricanes have "had our bad ball game. Now it's history.

If Hawaii loses Wednesday night, it would get a bye to the finals while the two winners would meet Thursday for the right to face the Rainbows. A Rainbow victory would force Wednesday's other winner to beat Hawaii twice to win the title.

With two out in the ninth inning and the score tied, Hebner batted for John Wockenfuss. He picked on Byron McLaughlin's first pitch, driving it into the lower right field seats for a two-run homer and giving Detroit a 4-2 victory Tuesday night.

"I'm really not a guess-hitter," said Hebner. "But I said if I've got to guess I'll guess fastballs and that's what he gave me.' "I got good wood on it but the way

LA's Bob Welch ...sixth victory

"The ball missed that upper deck overhang by about an inch," said Seattle right fielder Paciorek. "I've never seen a ball come almost straight down quite like that."

In other American League games Tuesday, Milwaukee blanked Baltimore 3-0, Toronto edged California 7-6 in 11 innings, Cleveland needed 10 innings to down Oakland 6-4, the Chicago White Sox nipped Texas 5-4, Kansas City edged the New York Yankees 6-5 in 10 innings and Minnesota toppled Boston 9-4.

The Tigers, down 2-0, tied the game in the eighth as Wockenfuss walked, went to third on Kirk Gibson's two-out single and scored on Tom Brooken's single. Stan Papi followed with a pinch single, driving in Gibson, knotting the score.

Blue Jays 7, Angels 6 John Mayberry's long single off the

right field wall in the 11th inning scored Alfredo Griffin with the winning run as Toronto nipped California. The Blue Jays, who broke a four-game losing streak, had trailed

Reliever Joey McLaughlin, 2-3, got the victory while Dave LaRoche, 1-2,

Griffin beat out an infield hit to open the Toronto 11th and moved to third on a sacrifice by Al Woods and a long fly by Roy Howell. LaRoche then intentionally walked Otto Velez to pitch to Mayberry.

Brewers 3, Orioles 0 Moose Haas's five-hitter was backed by Cecil Cooper's seventh

home run of the season as Milwaukee blanked Baltimore. Haas, 6-4, struck out six and walked two. Sammy Stewart, 1-5, also allowed

only five hits, but three of those were bunched in the second inning when Milwaukee scored twice. Cooper's homer led off the ninth.

Indians 6, A's 4

A two-run, two-out homer in the bottom of the 11th inning by Cliff Johnson gave Cleveland its victory. With two out, Mike Hargrove singled before Johnson lined his shot over the left field fence off Oakland starter Rick Langford, 4-4.

Victor Cruz, 3-2, the third Cleveland pitcher, got the victory.

The A's had tied the score with three consecutive home runs in the top of the ninth inning. Dave Revering and Mitchell Page led off the inning with homers to right field off reliever Sid Monge, and Tony Armas followed with a blast to center off Cruz.

Toby Harrah also homered for the

in the top of the eighth as the Rangers Harold Baines' eighth-inning dou-

Clint Hurdle's 10th-inning line edged Texas. With one out in the eighth, Kevin Bell walked and went to drive, which was misjudged by right fielder Dennis Werth, fell for a gamethird on Baines' double to center. Pinch-hitter Claudell Washington winning single and allowed Pete Lathen grounded to shortstop Pepe Frias, whose throw home failed to get Cock to score from third in Kansas City's victory over New York.

Dan Quisenberry, 4-2, was the winner with 22-3 innings of relief while

Giants stage dramatic 3-2 comeback victory

By The Associated Press For eight glittering innings, Larry McWilliams had the San Francisco Giants on the ropes.

But he couldn't deliver the knockout

punch in the ninth. McWilliams and his Atlanta Braves were one out away from a 2-0 victory over the Giants, but never were able to get that elusive third out. Mike Sadek singled home one run and pinch-hitter Milt May doubled home two more off reliever Larry Bradford as the Giants pulled out a dramatic

3-2 victory. "We've got to believe we can do this," said May.

McWilliams was sailing along with a crisp four-hitter before the ninth, when he gave up a leadoff double to Willie McCovey. McMilliams retired the next two batters, but walked Johnnie LeMaster and Atlanta Manager Bobby Cox brought in Bradford

Cincinnati Reds 5-1; the St. Louis Cardinals routed the New York Mets 8-1; the Chicago Cubs stopped the Montreal Expos 5-2; the Pittsburgh Pirates edged the Philadelphia Phillies 4-3 and the Houston Astros tripped the San Diego Padres 3-2.

The Giants beat the Braves for the first time in five tries this season, and kept intact a six-game winning streak by Vida Blue, the Giants' starting

Blue allowed an unearned run in the fourth, and the Braves scored in the sixth when Gary Matthews, who had four hits in the game, tripled and came home on a groundout by Bob Dodgers 5, Reds 1

Ron Cey slugged a two-run homer to back the seven-hit pitching of Bob Welch and Steve Howe as Los Angeles beat Cincinnati and extended its lead over the Reds in the NL West to three

Tom Seaver, the Cincinnati starter, left in the sixth because of a strained left leg muscle suffered while striking

with his sixth homer, a towering fly to left that struck the foul pole at Dodger Stadium. The Dodgers added three runs in the eighth, two on a single by Steve Garvey.
Welch earned his sixth straight vic-

tory but needed relief help from Howe, who recorded his sixth save.

Connors ga semis in Paris

PARIS (AP) - Last year's dream final at the French Open tennis championships didn't happen, but this year it just might: the European clay court expertise of Sweden's Bjorn Borg against the hammering American attack of Jimmy Connors. Connors ground down clay court specialist Hans

Gildemeister of Chile 6-4, 6-0, 6-0, earning the right to face Vitas Gerulaitis in the semifinals of this two-week grind toward the \$53,000 men's title. In his own match Tuesday, Gerulaitis had trouble with Poland's Wojtek Fibak, but got his game finely

tuned in the fifth set to win 6-3, 5-7, 6-4, 3-6, 6-3. In the race for the \$42,500 women's crown, Chris Evert Lloyd brushed aside young American Kathy Jordan 6-2, 6-0 and looked a strong bet to hold on to her crown at Roland Garros Stadium.

But the day's matches were overshadowed by a burgeoning controversy over a match that was never played, between Spain's Manuel Orantes and Argen-tina's Guillermo Vilas.

The Orantes-Vilas match, originally scheduled for Monday, failed to come off when Vilas was granted a 45-minute delay in the starting time in order to treat stomach cramps. Orantes said he wasn't informed of the delay and said Vilas should have defaulted.

Lewis stages upset over USC's Sanford

AUSTIN, Texas (AP) - Carl Lewis arrived late for the trials of the long jump competition and nearly was disqualified in the Pan American Games last year at San Juan, Puerto Rico. He has been late for very little else since then.

The precocious Lewis, a freshman at the University of Houston, was certainly on time last Sunday in an invitational track and field meet at the University of California. In a stunning upset, he handed James Sanford of the University of Southern California, the world's top-ranked sprinter, his first setback in nearly a year in the 100-meter dash.

Surprisingly, Lewis will not compete in the 100 during the NCAA Track and Field Championships, which begins in earnest Thursday at the University of Texas. But the versatile youngster from Willingboro, N.J. is rated a co-favorite in the long jump, along with 6-foot-8 Larry Doubley of Southern Cal, and will anchor Houston's lightning-quick 400-meter relay team, which is expected to battle the Trojans and Arizona State for the

Lewis is skipping the 100 because Austin's searing heat would take too much of a toll on him if he tried to compete in all three events, including qualifying, trials and the final in the long jump, and trials, semifinals and finals in both the 100 and relay within a three-day period.

"I've been early ever since then," said Lewis, recalling the Pan Am Games in which he was given a second chance and wound up winning a bronze medal. "That taught me a big lesson "And it was the turning point in my

career," added Lewis, the Texas Relays and Penn Relays champion

He also said that beating Sanford

Brown set at UCLA

LOS ANGELES (AP) - Larry Brown, who guided UCLA to a second-place finish in the NCAA basketball championships last season, said Tuesday he will return to coach the Bruins in 1980-81, ending speculation that he would take a job with the new National Basketball Association team in Dallas.

Brown told the Los Angeles Times in a telephone interview from Providence, R.I., where he is serving as an assistant coach for the U.S. Olympic team: "I think there was a little misunderstanding. I intended to come back to UCLA. I said the only way I'd leave was if they offered me something so incredible I couldn't say no."

GREAT 4-DAY RACING WEEKEND NOW UNDERWAY!

Now, enjoy 4 days of fantastic racing at Ruidos Downs! Beginning this week there will be an action-packed program each Thursday, Friday, Saturday and Sunday until Labor Day. This weekend's highlight is Sunday's running of the Rio grande Kindergarten Futurity. Two-year-old thoroughbreds take a shot at four furlances for a \$35,000 (est.) purse. was a major accomplishment "be-cause it will help my career both in running and jumping." Lewis said that after the NCAA meet, he would skip next week's Athletic Congress meet at Walnut, Calif., before facing Sanford again in the Olympic Trials at Eugene, Ore. later this month.

With Lewis concentrating on the 100 and long jump, the swift Sanford, holder of the collegiate record of 10.02 seconds, is favored in the NCAA 100. He also is rated the man to beat in the 200 and will run a leg on the Trojans' 400-meter relay team.

In addition to Lewis and Sanford, other highly regarded performers who probably will attempt doubles are Suleiman Nyambui of Tanzania and Texas-El Paso and Greg Foster of UCLA, whose schools are expected to duel with Southern Cal for the team championship.

Nyambui, the mile and two-mile

NCAA indoor champion each of the past two years and winner of the outdoor 10,000 meters last year, is scheduled to run both the 5,000 and 10,000. There is only a final in the Foster, defending champion in the

Rogues upset Sting by 3-2

MEMPHIS, Tenn. (AP) - The Memphis Rogues, playing with a oneman handicap for two-thirds of the match, upset the Chicago Sting 3-2 in North American Soccer League action Tuesday night.

It was only the third setback in 13 games for Chicago, the American Conference's Central Division lead-The Rogues fell behind 1-0 following

the ejection of player-coach Charlie Cooke at the 24:20 mark, but came back to win on goals by John Faulkner, Paul Cannell and Paul The match, played before 10,321,

was an exceedingly rough one. Yellow card cautions went to five Rogues and two Sting players while Memphis was charged with 31 fouls and Chicago The game was scoreless until Cooke

was red-carded by referee Robert Evans after his run-in with Chicago's Derek Spalding.

San Antonio blanks Captains in 10-inning Texas League tilt

Mets pick Darryl Strawberry

NEW YORK (AP) — The New York Mets have picked a Strawberry for the No.1 choice in baseball's amateur free agent draft.

He's Darryl Strawberry, an outfielder from Los Angeles, and widelytouted by scouts as the best high

school baseball prospect in America. Strawberry batted .400 with five home runs and 21 runs batted in for his senior season at Crenshaw High School and the numbers might have been better except for a late start. "I had only one day of practice before the league season began," he said.

"He's eager for the challenge," he said. "He has tremendous confidence in his hitting and he could be ready in

a year or so.' Strawberry hasn't decided whether

he'll sign yet. He has a scholarship offer from Oklahoma State and said the final decision would be made by his mother. "It's a big question, a lot to think about," he said. "It'll take awhile before we decide,'

In the secondary phase of the draft, reserved for players previously selected but not signed, Houston made right-handed pitcher Jeff Heathcock of Oral Roberts University the top pick. Heathcock was 10-4 with a 2.43 earned run average this season. He struck out 82 and walked 27 in 111 innings pitched.

After the Mets picked Strawberry No.1, Toronto selected shortstop Garry Harris from San Diego and announced his signing just before the start of the second round Atlanta, choosing third, selected

pitcher Ken Dayley from the University of Portland. Dayley was 8-2 and led the NCAA in strikeouts this season with 138, averaging 14.6 per nine in-The sons of two former major

league players were selected in the first round. San Diego chose outfielder Jeff Pyburn of the University of Georgia, whose father, Jim, played for Baltimore. Montreal picked outfielder Terry Francona of the University of Arizona. His father, Tito, played for a number of major league

Pyburn, also a quarterback, must choose between the Padres and the Buffalo Bills of the National Football League, who picked him in the fifth round of the NFL draft.

to Hernandez. Hernandez homered in the second and fifth innings, his fourth and fifth of the year.

Fulgham struck out seven and walked three, allowing the Mets' only run on Elliott Maddox's first homer, in the fifth.

"It's my job to hit and drive in runs and right now I'm doing my job," said Hernandez, who raised his average to .359 with three hits in four at-bats.

Cubs 5, Expos 2 Jerry Martin belted a three-run homer in the second inning and Rick Reuschel scattered six hits to pace

Chicago over Montreal. Martin unloaded his eighth homer of the season on the first pitch to him from Ross Grimsley after Dave Kingman had led off with a single and Mike Vail had walked.

Pirates 4, Phillies 3

Ed Ott singled home the winning run in the ninth inning to lead Pittsburgh over Philadelphia. Ott delivered his hit with the bases loaded off reliever Tug McGraw after Vance Law singled and Willie Stargell and Bill Madlock were walked.

Astros 3, Padres 2

Rafael Landestoy's two-run triple in the eighth inning broke up Randy Jones' shutout bid as Houston beat San Diego.

Jones held a 1-0 lead going into the eighth before the Astros rallied for three runs, two of them on Landes toy.'s triple to the center field wall. Craig Reynolds brought in the final and eventual winning - run with a single off reliever Bob Shirley.

Tech barbecue Thursday Preakness appeal lawyer is confident

BALTIMORE (AP) - An attorney representing Codex was to present evidence today he hoped would clinch the colt's disputed victory in the Preakness Stakes at Pimlico Race Course on May 17.

Codex finished 4% lengths ahead of Genuine Risk in the 1 316-mile classic but Diana and Bertram Firestone, owners of the runnerup, have appealed a stewards' decision which disallowed a foul claim against the winner.

Jockey Jacinto Vasquez, aboard Genuine Risk, claimed that the filly had been impeded and jostled, and was either struck or intimidated by the whip of Angel Cordero Jr., the rider of Codex, as they came

But Attorney Arnold Weiner, representing Tartan Farm, the owner of Codex, turned over a sequential Board of the Maryland Racing Commission on Tues- should stand.

The photographs, made by Weyman Swagger of the Baltimore Sunpapers, were presented during Someone has to call them." cross-examination of a Firestone witness, so an attempt to authenticate them through expert testimony was delayed until Weiner calls his witnesses to the stand.

the same instant, will show that the two horses never even touched. ABC tapes have been a key segment of the case prepared by Henry Lord, the attorney for the Firestones

The still pictures were taken some 100 feet beyond the quarter pole, from a much different angle than the television or stewards' tapes, and give a head-on view of the dispute.

Even though the evidence had not yet been accepted, Weiner tried to elicit comment from Vasquez. asking if they would change his mind about what had occurred on the turn.

"I just know what I claimed foul for," Vasquez said, somewhat testily. "I don't give a damn about that photographer.

In response to repeated questions from Weiner, Vasquez said: "I stand on what I say. I don't change my statement.

Testimony was speeded up a bit during the second day of the hearing, and the case was expected to be completed today in keeping with the board's desire to reach a decision before Saturday's running of the Belmont Stakes.

Genuine Risk became the first filly in 65 years to win the Kentucky Derby, a race in which Codex did not compete, and both are expected to run in the Belmont, the last of the Triple Crown series for

In his testimony, Vasquez repeated the essence of

his foul claim made after the Preakness and insisted that Genuine Risk would have taken the lead had she ern Knights to the Continental basketball Associanot been carried wide on the turn. "I don't know if I would have won," he said, "but that's not up to Cordero to decide."

Leroy Jolley, the trainer of Genuine Risk, along with Bert Firestone, Preakness jockey Bill Passmore and former jockey Ted Atkinson all testified that they thought Cordero had committed a disqualifying foul by carrying Genuine Risk wide.

They contended, collectively, that Cordero had moved Codex from about three horse-widths off the rail to anywhere from seven to nine widths after

encountering Genuine Risk advancing on his right "That took everything out of her," Jolley said.
"She was not able to finish with her usual punch."

"I thought it was disgraceful to the whole racing industry," Firestone said. "I was ashamed to be involved in something like that.' Atkinson said, "The filly was definitely fouled in

being carried wide, and she may have suffered other interference."

Passmore, who rode Knight Landing to a seventhplace finish in the Preakness, said he thought Cordero had committed a foul by taking Genuine Risk series of 27 still photographs to the Thoroughbred wide but he also contended the stewards' decision

Under cross-examination he said: "The race has been made official by officials. They call the shots.

HOUSTON (AP) - Guard Lynden Rose of North Harris County Junior College, voted the most valuable player in last year's Texas Junior College All State game, has signed a basketball letter of intent with the University of Houston.

Rose, brother of former University of Houston basketball player Cecile Rose, averaged 25 points per game last season and became the third guard prospect to sign with the Cougars. Others are Eric Davis of Casper Junior College and Rod Parker of Ranger Junior College.

Track coach Tom Tellez also announced Tuesday the signing of Mike Johnson of Lake Highlands in Dallas, John Kossie of Forest Brook High in Houston and Charles Young of Ranger.

Young finished second in the 200 meters and anchored trrhe winning 400-meter relay team at the national junior colleger meet.

Johnson has a personal bet of 1:53 in the 800 meters and Kossie has sprint times of 10.32 in the 100 and 21.6 in the 200.

Hayes joins Rockets

HOUSTON (AP) - The Houston Rockets of the National Basketball Association have signed center Steve Hayes, who led the Anchorage, Alaska Northtion title last season.

Hayes averaged 19.7 points and 11.8 rebounds and was named the most valuable player in the CBA

Hayes played college basketball at Idaho State. He was a fourth round pick of the New York Knicks in the 1977 draft but played in Italy for two seasons before joining the Alaska team last year.

Opening lead: Queen of ♡. Here's our second principle of percentages: If two important cards are missing, the probabilities favor those cards being in different

hands. When North invited slam by raising to four no trump. South realized that his queen of diamonds was a very important card, so he accepted. Perhaps he should have supported diamonds en route. however, for that would have led to a final contract of six diamonds which would have

been easy to make. Against six no trump, West led the top of his heart sequence. Declarer could count eleven tricks, and he elected to try for his twelfth by playing for a 3-3 club break. Readers of yesterday's column are aware that that was against the odds, and the percen-tages prevailed in this case. East showed out on the third club and West scored two club tricks for a one-trick set.

Had South applied our second principle, he would have found the right line to land his contract-via two spade finesses. In 50 percent of the cases, the king and queen of spades will be in different hands, which means that two spade finesses will produce a second trick in the suit. In addition, there are those cases where the king and queen of spades both will be with West, again insuring two tricks. Together, these two possibilities will yield a second trick in the suit 75 percent of the time. That is a considerable improvement on playing for a 3-3 club split.

After winning the king of hearts at trick one, declarer

which we know will occur in

fewer than 50 percent of the

leads a spade to the ten. East wins and returns a heart to declarer's ace. Now a finesse of the jack of spades yields

the twelfth trick. As a refresher, here's our first principle: An odd number of cards will break as close to evenly as possible; an even number will not.

The place of highest privilege

O now, since we have been made right in God's sight by So now, since we have each have real peace with Him because of what Jesus Christ our Lord has done for us.

For because of our faith, He has brought us into this place of highest privilege where we now stand, and we confidently and joyfully look forward to actually becoming all that God has had in mind for us to be.

We can rejoice, too, when we run into problems and trials for we know that they are good for us-they help us learn

And patience develops strength of character in us and helps us trust God more each time we use it until finally our hope and faith are strong and steady.

Then, when that happens, we are able to hold our heads high no matter what happens and know that all is well, for we know how dearly God loves us, and we feel this warm love everywhere within us because God has given us the Holy Spirit to fill our hearts with His love.

When we were utterly helpless with no way of escape, Christ came at just the right time and died for us sinners who had no use for Him.

Even if we were good, we really wouldn't expect anyone to die for us, though, of course, that might be barely possible.

But God showed His great love for us by sending Christ to die for us while we were still sinners.

And since by His blood He did all this for us as sinners, how much more will He do for us now that He has declared us not guilty? Now He will save us from all of God's wrath to

And since, when we were His enemies, we were brought back to God by the death of His Son, what blessings He must have for us now that we are His friends, and He is

Now we rejoice in our wonderful new relationship with God-all because of what our Lord Jesus Christ has done in dying for our sins-making us friends of God.

Miami's Operation Banco given dubious rating, faces dim future

MIAMI (AP) - After three years and \$1 million, Operation Banco — the federal effort to track big-time drug dealers by tracing the flow of narcotics money - has produced only one major case and apparently is plagued by problems.

'The future is dim," said one agent assigned to the program. "The situation has deteriorated too far.'

Interagency rivalries, poor planning and personnel problems have interfered with the investi-

Some agents say it's a classic case of the federal government's difficulty in pursuing long-term probes involving large numbers of people and complex financial crimes, The Miami Herald reported Sunday.

Operation Banco began in 1977 when banks in the Miami area were flooded with cash. Justice Department officials felt they could identify drug kingpins by checking bank records for large deposits, followed by quick wire transfers to foreign banks. Such banking habits characterize the drug trade, they said.

But Miami banks still are flooded with cash. The Federal Reserve Bank still reports a cash surplus of \$5 billion in Miami banks, the largest surplus in the nation.

included in "America's Paychecks," for which author David Harrop pried loose the best-kept financial secrets of everyone from doctors to plumbers, corporate executives to call girls. In the summers of '30 and '31, the New York

Yankees paid Babe Ruth \$80,000 to play ball. That was more than President Herbert Hoover earned If Ruth were playing in the summer of '80, taking

into account 50 years of inflation, he would likely be paid \$800,000, not much less than the \$1 million Nolan Ryan is earning to pitch with the Houston

And that's still way beyond the \$200,000 salary paid President Carter.

In his book, Harrop details salaries in such professions as law, medicine, education, government, sports, entertainment, banking, publishing, industry and crime.

And of such notables as former secretary of state Henry Kissinger — more than \$500,000 a year from lectures, consulting and writing; singer Diana Ross - \$2.52 million for 72 singing performances at Atlantic City casinos in 1980-82; Chase Manhattan Bank chairman David Rockefeller - \$373,000; and Playboy magazine publisher Hugh Hefner - \$302,-

"Most people are secretive about their salaries,"

much, movie actor Burt Reynolds receives \$3 million per film plus 10 percent of the gross profits. One area where salaries have increased substan-

tially over the decades is medicine. "Doctors' incomes have gone up two or four times more than lawyers or educators," Harrop said. "At

one time during our history, the three professions were fairly equal." Radiologists, internists and pathologists are the highest paid specialists, averaging \$105,000, \$102,600 and \$98,700 respectively.

Richard Nixon earned about \$150,000 a year as a lawyer. In 1976, then-lawyer Cyrus Vance earned \$280,000. Attorney Louis Nizer charges \$350 an hour; Melvin Belli \$250. Government salaries, paid from taxes, wander all

over the place: -Cabinet secretaries, \$69,630; assistant secretaries, \$52,700.

666 on death row

By The Associated Press
As convicted killer Jack Potts awaits death by electrocution in Georgia on Thursday, 658 other men and seven women are being held in Death Rows around the country.

A check of all 50 states by The Associated Press shows the Death Row population has increased sharply since Jesse Bishop died in the Nevada gas chamber Oct. 22. At that time, there was a Death Row population of 559 men and six women.

More than half the nation's Death Row inmates are in three Deep South states: Florida, where there are 146 men and one woman, an increase of seven men over October; Texas, with 129 men and one woman, an increase of 10 men; and Georgia, whose Death Row now houses 80 men and two women, an increase of 9 men and one woman.

Actual executions remain rare. If Potts dies Thursday, it would only be the fourth time anyone has suffered the death penalty since Gary Gilmore was shot in Utah in January 1977. In addition to Gilmore and Bishop, John Spenkelink was electrocuted in Florida in May 1979.

ing to block execution

REIDSVILLE, Ga. (AP) - American Civil Liberties Union attorneys were going to court today to try to convince a federal judge to block Thursday's scheduled execution of condemned killer Jack Howard Potts, who wishes they

Potts has dropped all appeals and refuses to renew them. He is to die in Georgia's electric chair for the 1975 kidnapping and murder of Michael Priest,

ACLU attorneys petitioned U.S. District Judge William E. O'Kelley to rule Potts incompetent to decide his fate and asked him to issue a stay of execution. O'Kelley scheduled a hearing today in Atlanta.

Potts has said he is resisting pressure from those who want him to renew his appeals because he believes new appeals would only "prolong" his stay on

He said he wanted no appeals taken in his behalf that would "just delay it a few hours or something like that."

death row rather than overturn the death sentence.

Prison officials have not revealed the time of execution, which must be between 10 a.m. and 2 p.m., but attorney Millard Farmer, who has been meeting regularly with Potts, said he learned it was set for 10:30 a.m. Thursday.

Potts, under constant surveillance by prison guards, has been allowed visits from his family and friends and telephone privileges. The priest who converted him to Catholicismast year has been permitted to celebrate Mass with Potts

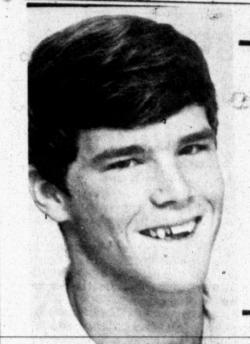

and a few other inmates. Potts' mother, Carolyn, was among visitors to his cell Tuesday.

"It looks like there's going to be an execution Thursday...there has been no appeal set up. I'm just leaving it alone, letting it be right now," she said.

She described her son as having had "a terrible headache...I think he's understandably nervous."

Asked about his spirits, she replied, "They are good, except you can see pain in his eyes. But you can also see a light from within. He trusts in Christ, this I know. He's ready to go if it's God's will."

Jury still out on food additive-free diets and their effect on hyperactive children

Dear Dr. Solomon: I have heard of conflicting reports about the value of an additive-free diet for hyperactive children. As the mother of a hyperactive child, I am very eager to learn the truth and get a straightforward answer: Should a hyperactive child be placed on an additive-free diet? -

Mrs. D.N. Dear Mrs. N.: As you note, there have been conflicting reports about the value of an additive-free diet for hyperactive children. Since the evidence is not clear-cut, a definitive answer to your question is not possi-

ble at this time. However, you may find some value in the views of Dr. Ben Feingold, a California pediatrician and the person most critical of food additives, and Dr. Morris Lipton, professtor of psychiatry and director of the Biological Sciences Research Center at the University of North

Carolina. Dr. Feingold maintains that a variety of food additives, particularly dyes, are the main cause of hyperactivity and related problems, such as learning disabilities. He claims that up to 85 percent of hyperactive children could be cured if they would simply follow a special additive-free

On the other hand, a study team headed by Dr. Lipton found no con-nection between food additives and hyperactivity in almost all cases. However, there was sufficient uncertainty in the evidence gathered to prevent their coming to a clear-cut conclusion. For example, among 24 hyperactive dhildren studied, one did show slight improvement on an additive-free diet. While Dr. Lipton says he would not discourage parents from

placing a hyperactive child on such a diet, he questions its effectiveness. I am sorry I cannot give a more

definitive answer to your question, But the jury is still out on this one. I have been trying neutralization of foods that hyperactive children are allergic to. So far I've had 50 percent success in helping these children. As more information becomes available,

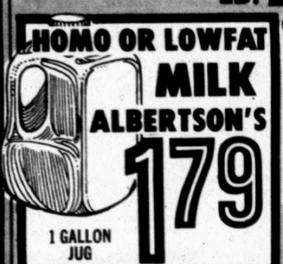

I will keep you informed. (If you have a medical problem, see your doctor. If you have a medical question, write to Neil Solomon, M.D. 1726 Reisterstown Road, Baltimore.

NEW YORK (AP) - The stock market advanced broadly today in a rally led by oil and precious-metals stocks.

The Dow Jones average of 30 industrials climbed 7.25 to 851.02 by noontime.

Gainers outpaced losers by more than a 2-1 margin in the broad tally of New York Stock Exchange-listed issues.

Among oil stocks, Mobil gained % to 74%; Standard Oil of California 1% to 73%; Exxon ¾ to 64% and Getty 2¾ to 81. At the American Stock Ex-

change, Gulf Canada rose 3/8 to 28%; Ranger Oil of Canada 1 to 27%, and Houston Oil & Minerals % to 24%. The rally gained added

impetus late in the morning when New York's Chase Manhattan Bank lowered its prime lending rate from 14 to 13 percent. The NYSE's composite

index rose .58 to 63.69. The Amex market value index was up 3.83 at 277.52.

Volume on the Big Board totaled 16.53 million shares at noontime, up from 13.91 million at the same point Tuesday.

Traeger says personal trip was justifiable

BIG SPRING, Texas (AP) - State Sen. John Traeger says he was justified in asking a Department of Public Safety trooper to drive 700 miles out of his way rather than flying home after his motor Traeger and three friends were en route to Alaska

for a 34-day fishing trip when the motor home caught fire and exploded near Garden City in West Texas May 12. No one was injured, but the vehicle and \$1,500 in cash were destroyed.

The next day, the senator asked DPS trooper Glen Redmon to drive him to his home in Seguin, 30 miles east of San Antonio, so he could pick up another vehicle and continue his vacation.

Although it was Redmon's day off, he took the senator home and returned to Big Spring — about a

"I wanted them to take me home," Traeger said later in a phone interview from Montana. "They're nice people. Redmon said Traeger checked into flights, but

"the airlines out of Big Spring were unavailable that morning. It would have been a two-day trip, al-The president of Permian Airways, however, said

two flights from Midland-Odessa to San Antonio May 13 had 14 empty seats. Chuck Ceppi also said two morning flights from Big Spring to Midland-Odessa were empty.

Asked why he didn't fly to San Antonio, the 18-year senator said: "I didn't want to. I would have had to

get a ride from the airport. There was also the

matter of time — getting me there faster."

Traeger said he felt justified in requesting the ride since it was an "emergency." He said he did not pay

for the gasoline used. Redmon said the trip was cleared "through department channels by a sergeant, lieutenant and captain. I told my sergeant I was going to take

The sergeant, Kenneth Walters, declined to comment. But Capt. B.F. Wade said DPS officers are not expected to inquire whether state officials are requesting vehicles for official business.

"We accepted it as state business. It's not an excuse; it's a justification," he said.

Wade said he offered assistance to Traeger after the accident, but that he didn't know Redmon had taken him to Seguin until May 15.

"Sen. Traeger has been a strong supporter of us. He's always been a forerunner in making things better for public servants," he said.

"We don't question a state official about whether it's being used for state business unless it is really obvious that it's not ... It was an emergency for

a man in dire need." DPS director James B. Adams said every situation involving officials' use of DPS vehicles is different.

"In this case, we had a state official who had a catastrophe, who was stranded, and made efforts to get commercial transportation. He was offered assistance. I don't consider it an improper activity. It's one of those ad hoc kinds of emergencies. Our policy is not to ask whether it's official business.

Chase Manhattan drops prime rate to 13 percent

NEW YORK (AP) - Chase Manhattan Bank, the nation's third largest, today cut its prime lending rate one full percentage point to 13 percent.

The prime — the interest rate banks charge on loans to their best-risk corporate borrowers — has been in a sharp decline since peaking at 20 percent in early April.

Most other banks are quoting a 14 percent prime, although Chase's action today is expected to prompt other major banks to follow its lead.

A Chase spokesman declined to comment on the bank's action. Banks have been cutting their prime rates in reaction to sharply lower loan demand from business customers and steep declines in open-market interest rates that affect banks' cost of lending.

Banks have become the object of political criticism recently, however, as interest rates in money markets have fallen more rapidly than their posted

Banks are paying far less for their money than they were in March, when open-market rates were at their peaks. The rate on six-month money market certificates, for example, has fallen from more than 15 percent in late March to about 8 percent. Those certificates, issued in minimum amounts of

\$10,000, are an important means for banks to raise money for lending and investing. In addition, the rate on federal funds - uncommit-

ed reserves that banks lend one another on an overnight basis - has declined by about eight percentage points to 10.5 percent. Loan demand has fallen off steeply in recent weeks

as the economy slipped into a recession. Commercial and industrial loans on the books of the nation's big banks fell \$1.13 billion in the week ended May 21,

following a drop of \$1.035 billion the previous week.

The prime does not apply to interest rates on consumer loans, but is considered a key indicator of interest rate trends because when the prime changes, other rates often follow.

Research advances on leprosy vaccine

By JACK STILLMAN

ATLANTA (AP) — A vaccine which can prevent the growth of leprosy in mice is expected to undergo tests in humans in about two years, the national Center for Disease Control says.

But the vaccine is not expected to be available for general medical use for about 12 years, said Dr. Charles C. Shepard, chief of the leprosy and rickettsia branch of the CDC.

Stolen silver recovered in London

LONDON (AP) - Scotland Yard detectives today raided a garage in north London and recovered more than 10 tons of silver worth an estimated \$9.2 million that had been stolen in Britain's biggest bullion holdup ever March 24. Eight persons were arrested and police said they were looking for others.

The 309 ingots, each weighing around 66 pounds, were stacked three feet high and across the length of the garage, a Yard spokesman said. Twelve ingots were missing.

The raid by Flying Squad detectives climaxed a major campaign against big-time gangs said to be behind several major hold-ups in recent months. London's police commissioner, Sir David McNee, dubbed "the Hammer" by the underworld, commented: "This is probably the most successful operation in recent years that the Flying Squad has had."

Detectives had recovered jewelry and other loot worth more than \$4.6 million in similar raids around the British capital in recent weeks.

Yard sources said today's swoop followed a tip from a top underworld figure turned informer one of more than 50 known criminals rounded up recently in connection with armed robberies during the last 18 months.

The bullion robbery was carried out with great precision by a six-man gang in northeast Lon-

One gang member, dressed in police uniform, flagged down a container truck carrying the bullion from London's Tilbury Docks. Five others then leapt from a parked panel truck, overpowered the truck driver and two security men, bound and gagged them and dumped them in a garage. It took the guards three hours to free themselves and raise the alarm.

John Bizilo, a volunteer for the allocations division of the Midland United Way, chats with children of La Florecita Nursery during a recent Allocations Panel visit.

As one of 48 volunteers with the allocations division of the Midland United Way, John Bizilo can appreciate first hand the organization's contributions to the

Bizilo serves on one of five panels which are currently reviewing agency services, programs and financial needs and will be reporting these needs to the Allocations Cabinet and in turn to the United Way

Board of Directors. In late June, this information and information on economic conditions and fund raising gathered by other divisions and committees will be used by the board in setting the United Way's 1981 campaign

Bizilo's panel reviewed the services and needs of Community Day Nursery, La Florecita Nursery and the Midland and Lee Youth Centers.

"I enjoy seeing and helping children lead happy lives," said Bizilo, who worked as an elementary school principal for 25 years and has devoted his life to children.

"It is Midlanders like John Bizilo and the other Allocations Division volunteers who make the United Way work," said Bill Ortloff, president of the United

ldi Amin says Ugandans want him back

LONDON (AP) — Ousted dictator Idi Amin says fied Arab city, where he lives with two of his wives and 24 of his children. "I am fresh. I am strong and most Ugandans love him and want him back in power, and that he's more than willing to answer the call. He also denied stealing, torturing, murdering or fleeing in battle.

"I have all Ugandans at heart. They keep me informed. Most of them love me, pass information to me and want me to save them from the chaos situation now happening in Uganda," he said in an BBC-TV interview shown Tuesday.

"I'd like to go back to Uganda. If the people want me I will go back. I'm not power-thirsty. I want to help rescue the poor Ugandans ... the people left behind. I want to do this."

Since Amin was ousted in April 1979, Uganda has been torn by a power struggle between rival factions, shaken by lawlessness and severe economic prob-

lems inherited from his years of rule. Amin, a Moslem, was interviewed in an unidenti- bodies and dumped them there.

I'm concerned with the question of Uganda," he declared.

Amin, an ex-British sergeant-major, declined to say how he got out of Uganda 14 months ago when 20,000 Tanzanian troops and Ugandan exiles ousted him after eight years as iron ruler, but he said:

"I was forced out of Uganda by an invading force six times bigger than my army. I followed the British military manuals and withdrew. I did not run

He also denied fleeing the capital of Kampala with any wealth or that his secret police tortured and killed opponents. Asked about the bodies of victims found at secret police headquarters after his ouster,

Britain, France vow to end island revolt

PORT VILA, New Hebrides (AP) -Britain and France, two of the world's most sophisticated military powers, have vowed to "eliminate the meddling" on the South Pacific island of Espiritu Santo and use force if necessary to end a week-old rebellion by native warriors armed with bows and

arrows The U.S. government, for its part, agreed to investigate whether American businessmen seeking a tax shelter on the island had possibly violated U.S. laws by advising the rebellion's leaders, British Foreign Office Minister of State Peter Blaker said Tuesday in London.

He said France and Britain had agreed they would work together. using troops if necessary, to put down the uprising in the New Hebrides island chain, located 850 miles east of Australia. French officials here said ers to New Zealand in case they are

needed. Two British military aides arrived in the islands Tuesday to see "what steps may be necessary in the military sense if peaceful negotiations do not succeed," he said.

The aides, who were not identified by name, met later with the British and French resident commissioners and officials of the government of New Hebrides Chief Minister, Walter

Lini stormed out of the session to protest what he called a lack of support by the Europeans in putting down the rebellion. For 74 years, Britain and France have jointly ruled the island chain, scheduled to become independent on July 30.

Plans for a peaceful transition were disrupted last Wednesday, when some 600 bow-and-arrow wielding natives led by 50 French-speaking is-

landers armed with shotguns seized control of Espiritu Santo, the largest island in the New Hebrides chain.

On Tuesday, rebel leader Jimmy Stevens announced formation of a provisional government, appointed himself prime minisiter and renamed the island separatist state Ve-

Local sources here say a right-wing American group, the Phoenix Foundation, is behind the rebellion and has formed the Vemarana Development Corp. in hopes of setting up an investors' paradise with no taxes or government interference in private business. They have blamed Mike Oliver, a wealthy Carson City, Nev. coin dealer and outspoken advocate of free enterprise, for aiding the separat-

Ruppel guilty of smuggling

MARSHALL, Texas (AP) — A federal court jury early today found Tennessee millionaire John Ruppel guilty on four of seven charges accusing him of directing the smuggling of 86 pounds of Columbian marijuana into the United States.

The same jury found ranch foreman Charles "Muscles" Foster innocent on charges that he was a ringleader in the smuggling operation.

The verdicts were read shortly after midnight after the 6-man, 6-woman jury had deliberated about

U.S. District Judge Robert Parker set Ruppel's

sentencing for July 11. Ruppel and Foster were charged with federal drug

and conspiracy charges stemming from an alleged scheme to ship 86 tons of Colombian marijuana into Texas during 1976 through 1978.

In closing arguments Tuesday, Assistant U.S. Attorney David Baugh told jurors Foster operated an alleged smuggling business "like a sub-contractor," providing trucks, loading sites and storage space to smugglers.

He said a year-long undercover government drug smuggling investigation kept leading back to Fos-A court-appointed psychiatrist testified Friday

Foster's sister, Joanne Wells, testified for the defense her family had a history of psychiatric problems. And Denton psychiatrist Dr. Donald Whaley told jurors that while treating Foster in 1978, he "appeared to me to to be out of control."

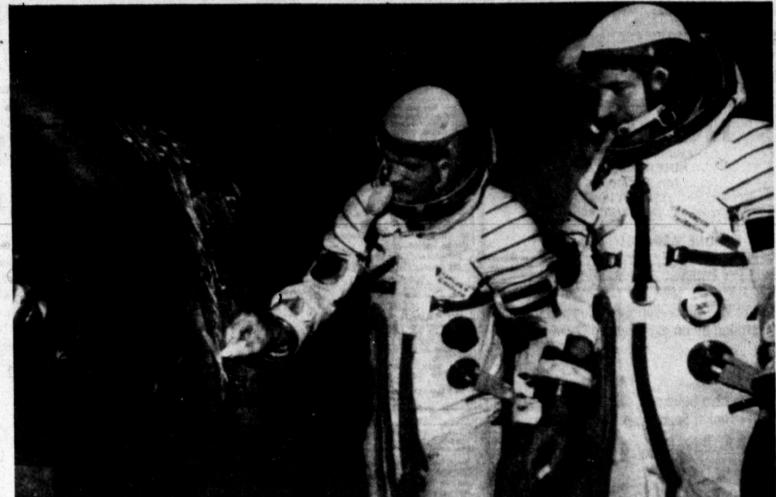

'I don't see how anyone given this data could find him sane," Whaley said.

"The government's case is based on insinuations." Foster's attorney, G. Brockett Irwin of Longview told jurors Tuesday. "How long will the government persecute this man?

Ruppel's attorney, Robert Richey, said government plea bargaining had encouraged prosecution witnesses to perjure themselves. He said Ruppel was a victim of a conspiracy to make him the scapegoat and that "his young friends" tricked him into letting his shrimp boat be used to smuggle marijuana.

Prosecutors contended Ruppel was aware that the "Monkey" was being used in a smuggling opera-

Parochial school abuse investigated

INDIO, Calif. (AP) -The Roman Catholic Diocese of San Bernadino is establishing a review Board to examine allegations of child abuse by nuns and lay teachers at an Indio parochial school, officials say

The investigation, anenounced Tuesday, was prompted by charges by parents of several first and second grade students at the Our Lady of Perpetual Help school who accused the principal, Sister Ann Maureen Sellmeyer, and other

nuns and teachers of disciplinary measures right out of the Middle

Discipline allegedly used on 6 and 7-year-olds included tying adhesive tape gags around their heads, tying students to chairs and isolating children in a windowless and are voicing their supply room known as "the hole."

Cable news network gets baptism by fire

By PETER J. BOYER

AP Television Writer LOS ANGELES (AP) - Two days after coming into being, Ted Turner's 24-hour-a-day Cable News Network got its baptism by fire -- coverage of the nine-state primary sweepstakes.
On the whole, it could be said that

CNN passed the test. Despite a number of distracting technical foul ups, CNN managed to come off looking like a genuine news

network Tuesday. At the very least, CNN's election coverage was ambitious, incorporating election reports from at least a dozen field correspondents while managing to squeeze in weather,

sports and its regular news report. The "look" of the program suggested a hybrid network-local news pro-

The format was perhaps a bit too fluid, jumping from live baseball to candidates' speeches to bureau reports, and there were enough anchors to tie down a fleet.

But managing to hold the pieces together, transcending the opening week sloppiness, was CNN senior correspondent Daniel Schorr. The cooly professional former CBS newsman, lent a Cronkite-like presence to the otherwise somewhat untidy proceed-

But in a sense, CNN assured itself of a triumph by merely going on the air. While CBS, NBC and ABC were in the middle of prime-time entertainment schedules, the Atlanta-based network carried live and in full President Carter's barroom speech proclaiming himself the Democratic

Later in the evening, still during the commercial networks' entertainment hours, CNN carried a live Kennedy speech in which the Massachusetts senator vowed, "I am committed to continue in this campaign.'

In the Los Angeles CNN bureau, the two minor scoops were cheered. "We're killing the networks right now," said one LA staffer. "This is exactly what we're supposed to be

Actually, since CNN is piped in to only two million viewers, a tiny fraction of the audience garnered by ABC, CBS and NBC, the cable enterprise was hardly "killing" the networks. Yet, the Los Angeles bureau could

be indulged its enthusiasm. It was operating with borrowed cameras its own having been stolen in a breakin last weekend and most of the staff hadn't been to bed since CNN begin operations. As if further insult were needed, an assistant producer's car was towed away on election night for illegal parking. Still, CNN was on, live and non-stop

on a prime news night, and that was

an accomplishment itself.

Newspaper tries to block newsroom search order

FLINT, Mich. (AP) - A monthly newspaper's request for an injunction to block a police search of its newsroom is going before a Genessee County circuit judge.

The hearing on the request by the Flint Voice was scheduled for Friday by Judge Philip Elliot and followed a May 15 search of the plant where the 10,000 circulation newspaper is print-Michael Moore, editor of the

monthly, said that two weeks ago

police had threatened to search the

newspaper's office if he didn't reveal the source of a story. The newspaper story, which appeared Nov. 4, said that Flint Mayor James Rutherford coerced employees hired through the Comprehensive Employment and Training Act to campaign for him and donate money

to his re-election campaign last fall. The story included a report, critical of Rutherford, by Flint Ombudsman Joseph E. Dupcza, which was prematurely and illegally released, according to Sgt. Fay Peek, a Flint police

Peek said the release of the report violated provisions of the city's charter which require that city officials being criticized by the ombudsman must be given four days to respond to the criticism before such a report is made public On May 15, Flint police used a search warrant to seize records kept

at Webco, Inc., printer for the Voice. Police said they needed the information to determine whether Dupcza leaked the report to the Voice. Peek said his investigation has determined that the report was not released by Dupcza or with his knowl-

get a search warrant for the Voice news office if necessary to find out who gave the paper the report.

Peek said, however, that while he did discuss a possible search of the Voice's offices with Moore, he told Moore that "that possibility has been

totally eliminated." Moore said Tuesday he was not told explicitly that the Voice's offices would not be searched and that discussion of the search was intended to intimidate him.
