## Baird Votes Strong For Water District

Baird citizens turned out strong in voting for the creation of a water district in last Saturday's election, with 361 votes for and only 83 against the district. The voters placed their almost unanimous approval on the confirmation of Callahan County Water Control and Improvement District No. 1, which has the city limits of Baird as its boundary, as set out by the commissioners court.

The five directors who had been appointed by the court were elected with a sprinkling of write-in votes for various persons. This fine vote was to signify the faith Baird people have in the five-man board to complete the water program. The board, composed of N. A. Waldrop, Roy Glibreath, W. T. Payne, L. R. Hughes and B. L. Russell, Jr., met Monday to canvas the election.

## FOOTBALL PRACTICE STARTS MONDAY

Coach "Scat" Russell is calling all football boys for the first workout Monday morning at 8 o'clock. The Baird Bears will have to work hard to make the showing in games this season that entertained fans last year and carried the Bears to the regional at Waco with Valley Mills. Coach Russell says we will have a good team this year, but they will have to do some real team work to win the number of games that were captured by Baird last year. To begin the work, Coach Russell is asking the football boys to work out twice each day from 8 a. m. to 10 a. m. and from 5 p. m. to 7 p. m. They should bring their shorts and football shoes for the first workout Monday morning.

## LEGION MEETING

Eugene Bell Post No. 82, American Legion, holds its next regular meeting Tuesday night, August 24th, and all veterans of World War I and II are cordially invited to attend whether you are member of any Legion post or not. You will be just as welcome as any member of Eugene Bell Post of Baird. In fact, we urge you to attend more so than if you were a member of the post. Hoping to see lots of you veterans of both wars Tuesday, August 24.

Your Commander,  
JOHN W. BOWLUS.

## MANY THANKS

The Star editor and family are grateful to Mr. and Mrs. L. G. Kerby for a bountiful supply of pears and watermelons which they brought to us Monday. The pears and melons were grown on their farm in the Belle Plain community, and are delicious.

## FARMERS NOTICE:

I will have a car of Armour's 20% Superphosphate on the track here the first day of September. So please place your orders now. We will handle it through government purchase orders or by cash the same as we did last year. If you do not have a way to haul it from the car to your home, we have a truck that will be glad to haul it for you. Morgan Feed Store, Baird. 2t.

## NOTICE TO PUBLIC:

A hearing on the Callahan County budget for the year 1949 will be held Aug. 18, from 1 P. M. until 4 P. M., in Commissioners' Court room in courthouse in Baird, Texas.

Any one wishing to discuss this matter is invited.

J. L. FARMER  
County Judge.

Mr. and Mrs. Woodfin Ray and daughters, Betty Sue and Donna Lou, of Corpus Christi, are visiting Mrs. W. J. Ray this week.

Mrs. Tommie Meridith has returned to her home in Huntsville after a week's visit here.

Mr. and Mrs. Jack Harrison of Ranger visited Mr. and Mrs. Lacy Meridith Tuesday evening.

## Former Resident Buried At Clyde

Graveside rites for Mrs. J. R. Evans, 75, were held at Clyde Saturday. Mrs. Evans was buried beside the grave of her husband who died in Clyde a year ago.

Funeral services for Mrs. Evans were held at Morton Saturday morning. She died there Friday at the home of a son.

She had lived in Clyde with her husband two years before his death, moving there from Levelland. She had been living at the home of a daughter, Mrs. T. J. Little of Brownsfield, for the past year.

Her husband had helped found Hockley County, and was its first judge.

Besides her daughter she is survived by two sons.

## BAND NEEDS A PIANO

Who has a piano they are willing to loan the school band? The band is in real need for a piano to carry on their program for the coming school term. If you have one to rent, loan or sell, contact Band Master Jimmie Settle. If you are inclined to donate a piano to the band, so much the better.

## NO SERVICES SUNDAY AT BELLE PLAIN

There will be no service at Belle Plain Sunday. Rev. J. A. English is holding a meeting at Weinert, and will pick-up his usual schedule at Belle Plain after the revival closes.

Mrs. Dess Morrison of Arnold, Pa., and Mrs. Ola West of O'Brien are visiting in the home of their sister, Mrs. D. L. Kiser of Eula.

Mr. and Mrs. Dee Pool have returned to their home in Eula after a visit with their daughter, Mrs. John Walls in Dallas. They also attended a reunion of the Pool family at a Dallas park.

Mr. and Mrs. H. B. Terry Jr., and H. B. III, are visiting Mrs. H. B. Terry Sr., in Clyde.

## "GONE WITH THE WIND" HELPED MOVIE INDUSTRY

"Gone With The Wind" showing Thursday and Friday at the Plaza Theatre, has gone down in history as the film which started a whole new trend in motion pictures.

A Technicolor production, its magnitude perhaps has never been equalled in artistry, brilliant performance or sheer bulk: In 1940 it won most of the Academy Awards. Directed by Victor Fleming and produced by David O. Selznick, the picture is an all-time box-office hit.

As to the bulk of statistics totaled up during its production; staggering is the only word adequate to describe them. For example 3,000 sketches had to be approved before the art wardrobe and costume heads could start work and once the cameras started shooting approximately 449,512 feet of film were used before the picture ended. Seven Technicolor cameras were employed just to film the first scenes in Atlanta during Sherman's historic march to the sea. Finally, 100,000,000 persons have seen the picture since its premier in Atlanta, Ga., December 13, 1939.

## HUGHES HORSES WIN AT LLANO SHOW

Perry Hughes carried two of his Palomino horses to the Llano Horse Show last week and won three first places. Mr. and Mrs. Everett Hughes and Charlie Childs accompanied Perry to the show and helped him bring home his trophies.

Mrs. J. H. Bailey, Clyde, has gone to Brady to accompany Mr. and Mrs. Alfred Barton and two daughters. Leska and Sandra, on a vacation trip to New York City.

LOST — Man's wrist watch. Reward for return to Perry Hughes.

## Water Demand Rises With Heat Wave

The demand for water has risen to a great extent during the past week due to the extreme hot weather. To help make the water supply go around and give everyone in town as much water as possible, the water has been cut off at certain hours in the day to build up a reserve pressure. This practice has given residents in the high places some water every day, as well as those who are located in low areas. Every means has been resorted to this summer to avoid the condition experienced last summer when we were out of water most of the time and were forced to ship water into Baird at high costs. August is half gone and the severe heat wave will soon be over. Everyone is asked to save water in all ways possible and help make the supply last through the summer.

## BELLE PLAIN TEACHERAGE AND GARAGE TO BE SOLD

Acting upon petition from the citizens of the Belle Plain community, the school board of the Baird Independent School District, meeting in regular session recently, voted to sell the teacherage and garage to the highest bidder.

All bids must be submitted in writing to the Board of Education, Baird Independent School District, Baird, Texas, in care of A. H. Pritchard, Superintendent, on or before Saturday, September 4, 1948.

These buildings must be removed from the present location by the purchaser within a reasonable time.

The school board reserves the right to reject any and all bids.  
B. L. Russell, Jr., Secretary. 2tc.

The father is principal of the local grammar school.

## A NEW PAVED STREET

The Highway Department is giving Baird a new paved street with the heavy machinery being put to work from the traffic light east to highway 183. The street will be used for a detour while Highway 80 is being re-routed through the city.

With this new pavement, Baird could pave a north-south street or two and have many blocks of pavement at a minimum of expense. The paved street will add a great deal to the appearance of our town.

## COOKED FOOD SALE

The Rainbow Girls will have a cooked food sale Saturday morning at ten o'clock at Earl Johnson Motor Co. Come and buy some of the delicious food on sale here.

## Just 'Round About

As we walked up and down the street \* \* \* R. D. Williams was up from his Putnam ranch swapping greetings with those he met on the street \* \* \* Clyde White seemed to be having some difficulty with a bumped fender, an occurrence that turns up quite frequent on our main street. It is just now and then that the driver who bumps another car on the street will stop and admit the error \* \* \* Jimmie Settle, band director, was receiving some mighty fine compliments on the Baird band that was organized only last year and hit the jack-pot in contests at the end of the school year. Mr. Settle reported that the band should make even greater advancement this year in their new band hall. The hall will be air-conditioned and a splendid place for the members to work on their music. There's just one thing badly needed to complete the band's set-up and that is a piano. Surely there is someone in Baird who has a piano they would let the band use. If you have a piano to loan or sell at nothing down and nothing by the month, call Mr. Settle. He would be real proud to hear from you \* \* \* Stopped one fellow to ask him for some news to go in the paper. We have always thought that words were made only to say nice things about people, so the stuff he uttered is thusly omitted \* \* \* Lee Ivey's new home is rearing its head over the horizon and will surely be a beauty spot in the hills east of town \* \* \* The only comments heard on the street regarding the water district election express satisfaction and the desire for the plan to be carried on to a full lake of water. Folks can't say the Baird people are not in favor of improving their town; not after 361 votes for and only 83 against the district. Baird people have proven themselves to be loyal to their home town and true to their friends and neighbors by their actions to create the water district. While they are helping themselves, it is true that they are helping their friends and their town. Baird people are traveling the royal road to achievement. They are resolute, valiant and tireless in their quest. They have realized that to put off until tomorrow what should be done today will find them no more prepared than they are now. Step by step, we are keeping abreast with progress.

## BIRTH ANNOUNCED

Mr. and Mrs. H. B. Terry Jr., announce the birth of a son, H. B. Terry III, born Sunday at 5:30 p. m. at Callahan County Hospital. The new arrival weighed seven pounds, four ounces.

**PROFITABLE POULTRY**

September 15th is the closing date for receiving entries in the Texas Farm and Home Egg Laying Contest, sponsored by the State Poultry Council, and supervised by extension poultrymen of Texas A. & M. College, and county agricultural and home demonstration agents.

The contest is state-wide, open to all poultry producers (except R.O.P. breeders) who own and manage 100 or more hens of not more than two breeds or varieties.

The objectives of the contest are to get higher egg production in Texas poultry flocks, to demonstrate the value of record keeping in the poultry business, to put poultry production on a sound basis, to demonstrate the advantages of good feeding, breeding and management, and to market eggs on a quality

basis when it is possible to do so. If these objectives are reached, extension poultrymen say, the contest will have been a complete success.

Each contestant will be visited by either the county agricultural or home demonstration agent between September 15 and October 15 to get everyone off to a good start. The contest ends July 31, 1949, and prizes will be awarded to the top 15 contestants.

For complete details of the contest, contact county agricultural or home demonstration agents.

**COLD PRIORITY**

The refrigerator is one of the coolest items around the house these hot, sunny days. And it's a good thing, too, because it keeps food fresh and wholesome, if the food is put in the refrigerator properly.

Maybe you didn't know there was a proper way to put things in the refrigerator, says Mrs. Bernice Claytor, extension home management specialist of Texas A. & M. College. Some people just put things in and shut the door. However, here are some ideas on the proper way to store food.

The coldest spot in the icebox is nearest the freezing cabinet. This is where the most perishable foods go — such foods as fresh and cooked meats, poultry and fish, meat broth, gelatin dishes, milk, milk and egg dishes like custard and cottage cheese. These foods need a temperature of around 40 degree F. or slightly colder.

Take a look at modern refrigerators. They are built to store these foods near the freezing compartment. Tall shelves for milk bottles are beside the unit, and a meat compartment is just underneath. Keep perishable foods covered, and uncooked meat loosely covered or taken out of its wrapping and put in the meat compartment of the icebox.

Don't crowd foods too closely together because this will cut off the circulation of the cold air around them. Let cooked food cool to room temperature before putting it into the refrigerator. "Put it into the refrigerator as soon as it cools," Mrs. Claytor says. "You don't want to leave it out any longer, for it may spoil."

Mr. and Mrs. Dale Glasson and Mr. and Mrs. Terrell Williams recently visited points in East Texas and Louisiana, spending several days in New Orleans. Mr. and Mrs. Glasson also visited relatives in Gorman and Austin.

### STATISTICS OF TYPHUS THIS YEAR

Statistical information compiled by the State Department shows a total of typhus fever cases in 1948. During the week of July 17-24, seven new cases were reported, one-half the year median of fourteen cases of July 24. The disease reaches its peak in the month of August, Dr. Cox, State Health Officer, reports.

a five year period from 1947, typhus fever has

been responsible for 273 deaths. The death rate has been reduced from sixty-three in 1943, to thirty in 1948.

"Typhus fever as we know it in Texas is transmitted by the fleas of infected rats," Dr. Cox said. "It can be controlled by the simple expedient of consistently maintaining a program of rat poisoning, rat trapping, and rat proofing."

Typhus fever is marked by a severe headache, chills and fever. A reddish mottling appears on the skin, and a hacking cough develops. The headache is the outstanding symptom because of its severity. Illness may last from 5 to 14 days.

The greatest outbreak of typhus fever, or Brill's Disease, was in 1941, when there was a total of 733 reported cases.

The Health Officer added that it was a sad commentary on our position as the most health minded nation on earth if we allow the disease to flourish when the means for its control and eradication is right at hand.

### T & P EAGLE GOING INTO OPERATION

Dallas, Texas, Aug. 2 — Texas and Pacific Railway announced today its Texas Eagle would go into operation August 15, after having put new passenger cars into service as fast as they came off the production line beginning last February. That means more comfortable traveling and accelerated service for T&P passengers between El Paso and St. Louis via Ft. Worth and Dallas and applies to passengers going through to New York.

Chester G. Hayes, traffic vice-president, said present plans call for the Louisiana Eagle between Ft. Worth and New Orleans to be inaugurated in September.

The Diesel-electric powered blue and silver trains replace the Sunshine Special on the trans-Texas run. Of the total 48 new cars, all but a few mail and baggage cars will be in service by the time the Texas Eagle begins operating.

Hayes said greater acceleration of schedules is illustrated by the eight-hour saving which will be effected over existing schedules on the westward run between St. Louis and El Paso. Departure from St. Louis on that train will be at the same time, 5:30 p. m., as the present Sunshine Special. But instead of arriving in El Paso at 6:45 the second morning, it will arrive at 10:15 p. m. the night before.

Business people in Ft. Worth and Dallas are going to be able to get a full day's work done before boarding the Texas Eagle for the East. Departure from Ft. Worth is set at 5:15 p. m., compared with the present Sunshine Special departure of 5:50 p. m. From Dallas, it's 6:15 p. m. v 4:50 p. m. present leaving time. Arrival in St. Louis will be at 8:15 a. m. 15 minutes earlier than at present.

### FIRE PREVENTION

(This is the third of a series of articles by the Baird Volunteer Fire Department in the interest of Fire Prevention).

Here is a very important matter that demands the attention of every citizen: When a fire alarm is sounded, it is the duty of every volunteer fireman to respond, whether it is a big fire or a false alarm. Most of these men live in different parts of the city and respond to the alarm in their private cars. It is not only their duty but it is essential that they arrive at the scene of the fire, in order to help extinguish the fire, it is not essential for you, as a sightseer, to get there ahead of the equipment. There is nothing smart nor practical in you as a sightseer, getting ahead of the trucks or cars carrying firemen, you are only hindering the boys in their honest efforts. So please, be big enough to control your desire to get there first, and fair enough to extend this much cooperation by keeping in your place when a run is being made in answer to an alarm. For your information it might be well for you to look up the laws relative to pulling into the curb when a fire alarm is sounded, also the matter of attempting to pass a fire apparatus responding to an alarm; and also a state law as to how many blocks you must stay behind fire apparatus responding to an alarm. Well, it's just like this, we love you all and we are willing at all times, day or night, hot or cold, to try to save the property, and lives if necessary, of the citizens of Baird, all alike, rich or poor, old or young, but we do believe that we should be given a chance to serve as efficiently as possible. We have been having to put up with too much unnecessary and uncalled for traffic congestion in the past which has caused undue delays, and while we have made numerous appeals for volunteer cooperation, so far, it has failed to materialize, so this is just a friendly and timely warning, the last one we expect to issue on this subject. The State Highway Department has assured us of their cooperation and when you check over the above mentioned laws, I think you will be more anxious to help "Keep the way clear for the Fire Department."

It might be a good idea to discuss this matter with all the family because if you are not driving the car, the kids may be, and of course you would have to pay the fine.

Our department is not perfect, by any means, we are just volunteers. Our equipment is not exactly the latest, and our town is not the biggest, but we are equal to any our size. We have a good town, we have good city officials, we have a good fire department and we certainly have good citizens, so let's all work together and keep our good fire record.

In all sincerity, we are anxious to serve our town and community as firemen and citizens and we thank you for your cooperation.

The Baird Volunteer Fire Department.

### NINE BAIRD STUDENTS AT HARDIN-SIMMONS

Abilene — Nine persons from Baird are attending the final six weeks term of summer school at Hardin-Simmons University, it has been announced by Alton B. Lee, registrar.

Baird residents taking advantage of the short summer terms are Mrs. Frances Clinton, Alvin A. Davis, Ann Hardy Dunwoody, Mrs. Cleora Nichols, Granvel L. Pierce, O. L. Rogers, James B. Settle, James F. Tarver and Katie Lou Walker.

Only a three weeks term beginning August 20 remains before students register on September 15 for the 1948-49 school year, 57th in the history of Hardin-Simmons, oldest institution of higher learning between Fort Worth and Los Angeles, and third largest Baptist school in the world.

### "THE NOOSE HANGS HIGH" STARS ABBOTT & COSTELLO

It is commonly accepted as a fact that people in show business are among the most open-handed of humans.

Famous stars earning thousands of dollars weekly often play as many as five benefits a week. Entertainers are among the largest donors to charities. During the war, show business gave freely of its time and talent to entertain members of the armed forces both here and overseas.

To help a fellow member in show business is normal procedure, and it often pays off like money in the bank. The most recent example of this unwritten reciprocal aid pact was put to work during the filming of "The Noose Hangs High," the laugh-filled mirthquake co-starring Abbott and Costello, and opening at the Plaza Theatre Sunday and Monday.

Some years ago Benny Rubin was scratching a meager living from a sustaining radio program in New York. Benny, once a vaudeville headliner, was slipping. Then Abbott and Costello arrived in New York and appeared on Benny's show, without guest artist fees. As a direct result, the program got a sponsor and Rubin started up the

ladder again and eventually became a motion picture director.

When Abbott and Costello started "The Noose Hangs High" Rubin turned down two directorial offers to repay an old and never-forgotten debt. He served as dialogue director and gag man on the hilarious new comedy.

John Ferguson of San Diego, Calif., is visiting his sister, Mrs. Myrtle Berry, and other relatives in Clyde and Eula.

Dr. and Mrs. M. C. McGowan and little daughter, Carol Lynn, are vacationing in New Mexico and Colorado.

## MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR

COMPARE the values; compare the prices; and you'll choose Chevrolet! For to compare the values is to know that only Chevrolet brings you the Big-Car riding-smoothness of the original and outstanding Unitized Knee-Action Ride... the Big-Car performance and dependability of a world's champion Valve-in-Head engine... the Big-Car beauty and luxury of the enviable Body by Fisher... the Big-Car safety of Fisher Unisteel Body-Construction

and Positive-Action Hydraulic Brakes... plus many another major quality advantage still not available in any other motor car in its field. And to compare the prices is to know that Chevrolet prices are the lowest in the field... and that Chevrolet value continues to be the highest in its field! That's why Chevrolet is America's No. 1 car; that's why it's the car for you!

**FIRST in Riding-Smoothness!** You just can't beat the genuine Unitized Knee-Action Riding Ride for real riding-smoothness—real travel luxury—over any and all kinds of roads; and, remember, this famous "Knee-Action" ride is exclusive to Chevrolet and more expensive cars.

**FIRST in Thrills with Thrift!** There's nothing like Chevrolet's world's champion Valve-in-Head engine for thrills and thrift. It holds all records for miles served and owners satisfied. It embodies that extra-sound, extra-dependable Valve-in-Head design, found elsewhere only in costlier cars.

**FIRST in Tasteful Beauty!** You will be perfectly sure of your car's beauty-leadership when you own a car with the world-famous Body by Fisher; and this most desirable of all car bodies—beautiful from every angle, inside and out—is available only on Chevrolet and higher-priced cars.

**FIRST in All-Round Safety!** You and your family will enjoy the triple safety protection of Fisher Unisteel Body-Construction, the Unitized Knee-Action Ride and Positive-Action Hydraulic Brakes—another combination of features found only in Chevrolet and higher-priced cars.

**A JOINT RESOLUTION**  
 proposing an amendment to Section 28 of Article III of the Constitution of the State of Texas, so as to provide for a Board for appointing the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment; providing for issuance of the necessary proclamation by the Governor; and making an appropriation.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Section 28 of Article III of the Constitution of the State of Texas be amended so as hereafter to read as follows:

"Section 28. The Legislature shall, at its first regular session after the publication of each United States decennial census, apportion the state into senatorial and representative districts, agreeable to the provisions of Sections 25, 26, and 26-a of this Article. In the event the Legislature shall at be entitled to receive per diem and travel expense during the Board's session in the same manner and amount as they would

any such first regular session following the publication of a United States decennial census, fail to make such apportionment, same shall be done by the Legislative Redistricting Board of Texas, which is hereby created, and shall be composed of five members, as follows: The Lieutenant Governor, the Speaker of the House of Representatives, the Attorney General, the Comptroller of Public Accounts and the Commissioner of the General Land Office, a majority of whom shall constitute a quorum. Said Board shall assemble in the City of Austin within ninety (90) days after the final adjournment of such regular session. The Board shall, within sixty (60) days after assembling, apportion the state into senatorial and representative districts, or into senatorial or representative districts, as the failure of action of such Legislature may make necessary. Such apportionment shall be in writing and signed by three (3) or more of the members of the Board duly acknowledged as the act and deed of such Board, and, when so executed and filed with the Secretary of State, shall have force and effect of law.

penses incidental to the work of the Board, and the Lieutenant Governor and the Speaker of the House of Representatives shall receive while attending a special session of the Legislature. This amendment shall become effective January 1, 1951."

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held throughout the state on the first Tuesday after the first Monday in November, A. D. 1948, at which all ballots shall have printed thereon:

"For the amendment to Section 28, Article III of the Constitution of Texas providing for a Board for apportionment of the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment."

"Against the amendment to Section 28, Article III of the Constitution of Texas providing for a Board for apportionment of the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment."

Each voter at such election shall mark out one of such clauses on the ballot, leaving the clause expressing his vote on the proposed amendment.

Sec. 3. The Governor of the State of Texas shall become effective at the next succeeding statewide general election. The Supreme Court of Texas shall have jurisdiction to compel such Commission to perform its duties in accordance with the provisions of this section by writ of mandamus or other extraordinary writs conformable to the usages of law. The Legislature shall provide necessary funds for clerical and technical aid and for other ex-

State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this state.

Sec. 4. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated, to pay the expenses of such publication and election.

**HOUSE JOINT RESOLUTION**  
 proposing an Amendment to Article IV, of the Constitution of the State of Texas, by adding a new Section to be known as Section 3a, so as to provide for succession to the office of Governor in the event the Governor-elect dies, or becomes disabled, or fails to qualify, before taking his oath of office as Governor; and providing for the issuance of the necessary proclamation and publication by the Governor.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Article IV of the Constitution of the State of Texas, be and the same is hereby amended, by adding another Section to follow Section 3, and be designated Section 3a, to read as follows:

"Section 3a. If, at the time the Legislature shall canvass the election returns for the offices of Governor and Lieutenant Governor, the person receiving the highest number of votes for the office of Governor, as declared by the Speaker, has died, then the person having the highest number of votes for the office of Lieutenant Governor shall act as Governor until after the next general election. It is further provided that in the event the person with the highest number of votes for the office of Governor, as declared by the Speaker, shall become disabled, or fail to qualify, then the Lieutenant Governor shall act as Governor until a person has qualified for the office of Governor, or until after the next general election. Any succession to the Governorship not otherwise provided for in this Constitution, may be provided for by law; provided, however, that any person succeeding to the office of Governor shall be qualified as otherwise provided in this Constitution, and shall, during the entire term to which he may succeed, be under all the restrictions and inhibitions imposed in this Constitution on the Governor."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this State at a General Election to be held throughout this State on the date provided by law in the month of November, A. D. 1948, at which election all ballots shall have printed thereon:

"FOR the Constitutional Amendment providing for gubernatorial succession in the event the Governor-elect dies, or becomes disabled, before qualifying and for such succession in other contingencies."

"AGAINST the Constitutional Amendment providing for gubernatorial succession in the event the Governor-elect dies, or becomes disabled, before qualifying and for such succession in other contingencies."

Each voter at such election shall mark out one of such clauses on the ballot, leaving the clause expressing his vote on the proposed amendment.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this State.

**AAA NEWS**

By B. B. McPherson

**Grain Sorghum Loans**

Grain sorghum produced in 1948 by Callahan County farmers which grades No. 4 or better and meets other standards is eligible for Commodity Credit Corporation loan. The loan rate for grain sorghum grading No. 2 or better, stored in approved warehouses or in adequate bins or granaries on the farm in Callahan County, is \$2.28 per 100 pounds. Grain sorghum grading No. 3 and No. 4 will be discounted 8 cents and 16 cents per 100 pounds respectively.

Two types of loans on grain sorghum are available: (1) loans covering grain sorghum stored in a warehouse or elevator approved by Commodity Credit Corporation; (2) loans covering grain sorghum stored in bins or granaries on the farm. The loan rate for grain sorghum stored in approved warehouses will be the rate set for the county in which the warehouse is located, and may be different from the rate for this county. Unless warehouse storage charges through April 30, 1949, are paid by the producer, 9 cents per 100 pounds will be deducted from the loan rate. Producers are advised not to pay warehouse storage in advance, since this will amount to some 17 or 18 cents per 100 pounds; whereas only 9 cents per 100 is deducted from the loan for storage. A loan service fee of 1 cent per 100 pounds, or \$1.50, whichever is the larger, is charged on warehouse loans.

The primary requirement on farm storage grain sorghum loans is to have a bin or granary that will afford safe storage of the commodity; protect it from rain, snow, and surface moisture; permit effective fumigation; provide reasonable protection from fire and wind; and provide protection from birds, rodents, and other animals. Farmers anticipating farm storage of grain sorghum should thoroughly clean the bin or granary and spray the floor and walls with a 2 to 5 percent DDD solution. Grain sorghum stored on the farm must remain in storage at least 30 days before a sample is drawn for submission to an approved laboratory for grade determination. Storage must be available to the farmer until June 30, 1949. A preliminary service fee of \$3.00 will be collected at the time the farmer makes application for the loan. The total service fee for farm storage loans will be the larger of 2 cents per 100 pounds, or \$3.00.

Callahan County farmers desiring additional information on grain sorghum loans may contact the County AAA Office for detailed explanation. In view of the fact that the present market price is below the loan rate, each grain sorghum producer is invited to thoroughly investigate the provisions of the loan program before marketing grain sorghum.

The grain sorghum loan program is administered on the county level by the AAA Committee and office personnel. Therefore, any Callahan County farmer wishing a loan on grain

sorghum stored either in a warehouse or on the farm should contact the County AAA Office for assistance in executing loan documents.

Since there is no poll tax assessed for the year 1948 it will not show on the roll for that year, but it will be necessary for any one wishing to vote to pay poll tax when other taxes are paid.

Exemptions must be secured for a person becoming twenty-one after January 1, 1948.

A person becoming twenty-one years of age after January 1, of the year for which the poll tax was levied, may vote without a poll tax.

All persons who become sixty years of age after January 1, 1948, can vote without a poll tax and does not need to have an exemption.

We ask that you call attention to the poll tax when paying other tax.

Office of M.H. (Bob) JOY  
Tax Assessor-Collector.

### COTTON HARVEST UNDER WAY

Based on supply of cotton harvest hands now working in the Upper Rio Grande Valley, H. B. Randolph, Manager of the Texas Employment Commission office at Abilene, stated today that in his opinion the supply of hands for the coming cotton harvest would not be as limited as had been previously expected. Randolph said that reports reaching him from the Valley indicated that need for cotton pickers had been met without undue difficulty so far this season.

The cotton harvest is virtually completed in areas around Harlingen and is rapidly approaching completion at Corpus Christi. Activity is well under way in the vicinity of Houston and Austin, with demand for labor so far being met. Randolph said that his most recent information from these areas showed the following prices being paid on an average: Victoria, \$2.35 per hundred for picked cotton delivered at the gin; Port Lavaca the same price; Taylor, Williamson County, \$2.00 per hundred for picking; El Campo, Wharton

County, \$2.50 per hundred for picked cotton delivered to the gin, the same price being quoted at Wharton and Palacios, Matagorda County.

In explaining the plans being used by the Texas Employment Commission for the routing of needed workers into areas for the cotton harvest, Mr. Randolph said, "All during this year the Commission Offices throughout the Valley have organized crews of farm workers who were used in various seasonal work, such as vegetable harvest, packing shed labor, choppers, bee hands, and cotton pickers. These crews are planning to migrate northward as the harvest progresses and will travel through areas of need as determined by the Employment Commission and to those areas where they have previously worked in the cotton harvest and have agreements with individual farmers to return."

"Throughout the rest of the State the offices of the Commission have lined up crews of workers who will and are migrating to areas of need as directed by the Commission. During the last 30 days, there has been a movement of cotton pickers from North and West Texas to parts of the Upper Valley. These workers will return to their home areas as needed."

To facilitate the proper direction of migratory labor to areas of need, Mr. Randolph said that labor control stations were, or will be, set up at Abilene, Fort Worth and San Antonio. These control stations obtain information from local Employment Commission offices throughout Texas regarding labor needs and supply of hands who will move and direct such workers to Commission Offices where need for extra labor exists.

Directional stations operating on a 24-hour basis are being maintained at strategic highway intersections in the Valley and the Austin and Houston areas to intercept migratory workers and see that they are, to the greatest extent possible, routed to places where demand for their work is known to exist. In talking about plans for handling the cotton harvest locally, Mr. Randolph said that information was currently being gathered regarding number of workers expected to be needed during the cotton harvest, size of crews needed, housing available on individual farms, and other information of this nature which would assist in getting labor into this area and using it to the most advantage during the cotton harvest.

Mr. Randolph urged that farmers place orders with his office for workers at least a week before the workers are actually needed. He also requested that farmers give consideration to rotating the crews from one farm to the other once they are established in the community to assist his office in keeping the workers in the area as long as they could profitably be used.

**Only the Beginning**  
Some of the people supporting proposed "federal aid" to education bills admit frankly that these represent only a beginning. Once the principle has been adopted, they say, increasing amounts could be expected. Those acquainted with the way federal projects grow and grow and grow would naturally expect this to happen. Within a decade the federal government would be carrying the chief burden of public education.

Is this bad? Just to suggest the idea is to show the danger. Decisions of policy for public education would be made on the national level. After such nationalization of the public schools, it would be easy to obtain legislation requiring all students to attend public schools for "national indoctrination" purposes. This is exactly the type of thing we decry in Russia. These were the methods that made millions of school children just like Hitler and Mussolini wanted them.

**How to Control**  
To favor federal aid is to argue for the exchange of our present public school system, with locally controlled public schools operating alongside many private and church related schools, for a nationally financed and nationally controlled educational system. No two ways about it, federal aid would mean undesirable federal controls.

Controls do go along with financial assistance, and our federal government has no record to the contrary. In fact, the Supreme Court of the United States has already declared, in the case of farm subsidies, that the federal government may control that which it subsidizes.

**Political Spoils**  
When we recall powerful influences within our own generation to get political influence into nearly every American institution, it doesn't take much imagination to see federal control of the American school system following any general aid program. We can all remember when, at election time, WPA workers were told: "Remember who your friends are" when you vote.

Dependence upon Washington sets up a political system, super-deluxe model. I would look upon the nationalization of American education, which could be expected to follow federal aid bills, as a decisive step in the development of a totalitarian state. Should America nationalize her education, it is my conviction that full nationalization of industry, distribution, and agriculture would follow within a generation.

**Let's Keep Freedom**  
We must remember that the one nation in the recent war which was able to arm itself against the axis powers was not a socialized state. The one nation that was able to lend arms to its allies was not a socialized state. The one country now being called upon to help all the rest of the world is not a socialized nation. The one nation now providing the greatest educational system the world has ever seen is America.

I am not one of those who believe that in order to remain great we must discard suddenly the methods and principles by which we became great. Two years after England started nationalizing her industries she was forced to vote power to the government to tell her citizens where to work and what to do! We want none of this. But, if we nationalize education through so-called federal aid, we will get all of these ills and more!
