Repairing Neatly and Promptly Done.
One of the best Shoemakers to be found has just been employed and will do all kinds of work in his line promptly and in the best manner at prices to suit the times.
Call and leave your orders.

It appears that Land Comr. McGaughey has been gouging the state a little.

COMMISSIONER MCGAUGHEY should go, willingly, if he will, but if not willingly then, with a boost. This at least.

Col. Elliott F. Sheppard editor of the N. Y. Mail and Express died on last Friday. He was a stalwart republican, but worst of all, a persistent villifier of the south.

TEXAS caught one good persimmon the otherday in the appointment of Chas. B. Stuart, Esq., of Gainesville to the federal judgeship over the Indian territory.

If Lieut. Perry succeeds in finding the north pole he can, on his return to the haunts of men, enter politics and knock the big persimmon every time.

The state fair will be held at Dallas the coming fall from Oct. 14 to 29th inclusive. The FREE PRESS would like to see Haskell county represented there by a good exhibit.

The Kansas legislature has another sensation, a very rotten one. Wholesale bribery and bribe taking is charged on the part of many members.

PRESIDENT CLEVELAND is solid on civil service reform and nepotism. It became known to him that a certain applicant for a federal appointment was a distant relative of his and he refused to further consider his application.

JUDGE COCKRELL has appointed his daughter to be his private secretary, under the recent law allowing gaggensmen \$100 a month for pay of a private secretary. This is a little piece of nepotism that comes near home to us. There are not many Cleveland's.

The Crosby County News is claiming the discovery of an extensive coal bed in Crosby county, to work which, a strong company has been formed. On the contrary the state geologist emphatically states that there is nothing in the shape of coal in Crosby except a little lignite of poor quantity.

AN editor is a man who is liable to grammatical blunders toothache, typographical errors and loss of memory, and usually he has ninety seven thousand people watching to catch him tripping. He is a man of sorrow, acquainted with grief and poverty, and is liable to go hungry for a long period. And yet the woods are full of people who have a desire to become editors.—EX.

It has been decided by the management to hold the Dallas fair again this fall. It should receive a liberal support from the people of Texas as it is unquestionably of great benefit to every section of the state, especially has it afforded to Northwest Texas a valuable means of advertising itself. The Free Press hopes to see Haskell represented by a good exhibit this fall.

FOR the equipment of one of the scenes to be used in the "MacKaye Spectatorium," at Chicago during the World's Fair, the Columbia celebration company has imported from Jamaica, W. I., five car-loads of the flora of the tropics. This will be used in the scene representing the landing of Columbus.

THE United States now claims rank as the fifth naval power of the world, being surpassed only by England, Russia, France and Italy, standing in the order named. Four years ago we held only twelfth place. If improvements continue at the same ratio we will be able in two or three years to lick anything that rides the ocean, and a squall of the American eagle will make Europe quake.

TEXAS is coming to the front with the Jersey cow. M. Lohrep, Marshall, Texas, in Texas Farm and Ranch, reports a seven days test made with two Jerseys on his farm. One of them yielded 24 1/2 lbs. 13 ozs. milk from which was made 16 lbs. 11 1/2 ozs. of butter, and the other 250 lbs. 7 ozs. milk from which was made 17 lbs. 11 ozs. butter in the week.

You get fifty-two issues of the Texas Live Stock and Farm Journal a total of over three thousand columns of good substantial live stock and agricultural news for \$1.50. You can get the same and this paper one year for \$2.00 cash! Isn't this a bargain? We take subscriptions.

The grand jury of Throckmorton county in their report as published in the Times state that they returned twenty-one bills of indictment. They admonish the merchants in regard to the common practice among them of violating the Sunday law by selling goods on that day, also, some of the doctors for a too loose practice in giving prescriptions for intoxicating liquors in violation of the local option law, intimating that the law will be enforced in future.

A leading stock journal asserts that the principal beef supply of the country must eventually come from the farms, instead of the range. This means stock farming, which, intelligently conducted, is the most satisfactory, surest and most profitable business a man can engage in. No country is superior to northwest Texas for this business, and the farmer who shapes his affairs in that direction will be the successful man of the country.

Persons who are subject to attacks of bilious colic can almost invariably tell, by their feelings, when to expect an attack. If Chamberlain's Colic, Cholera and Diarrhoea Remedy is taken as soon as these symptoms appear, they can ward off the disease. Such persons should always keep the Remedy at hand, ready for immediate use when needed. Two or three doses of it at the right time will save them much suffering. For sale by A. P. McLemore.

Turf Field and Farm: No matter how brutally the horse is punished, how excruciating the pain inflicted upon him, he suffers it all mutely. He does not cry out, bellow or yelp as any other animal does, man included, but by reason of his fine organization he suffers even more acutely. This character of the horse should be remembered at all times, and his unvoiced protest against abuse should be to his keeper the most pathetic appeal for kind treatment and humane consideration.

My wife was confined to her bed for over two months with a very severe attack of Rheumatism. We could get nothing that would afford her any relief, and as a last resort gave Chamberlain's Pain Balm a trial. To our great surprise she began to improve after the first application, and by using it regularly she was soon able to get up and attend to her house work. E. H. Johnson, of C. J. Knutson & Co., Kensington, Minn. 50 cent bottles for sale by A. P. McLemore.

The more Chamberlain's Cough Remedy is used the better it is liked. We know of no other Remedy that always gives satisfaction. It is good when you first catch cold. It is good when your cough is seated and your lungs are sore. It is good in any kind of a cough. We have sold twenty-five dozen of it and every bottle has given satisfaction. Steadman & Friedman, druggists, Minnesota Lake, Minn. 50 cent bottles for sale by A. P. McLemore.

To Home Sakers.

There are thousands of people in the old states wanting reliable information about Texas, especially about the great small grain region. There is no other way to get such information as good as a few months' reading of the local papers. Select the locality which you want to know about and then subscribe for the paper published there for four or six months, and through its weekly reference to farming operations, crops, stock, fruits, vegetables, the schools, churches, society events and the doings of individuals and the business notices, advertisements, etc., you will acquire a correct knowledge of what its products are, price of land and other property, the status of its society, schools and churches and the business, manner and customs of its people—a knowledge that it would require weeks of residence to acquire. Haskell county is situated in the heart of the wheat region and is unsurpassed as a small grain country, for stock raising or anything else that can be raised or produced (and they are many) in northwest Texas. Send 50 cents and get this paper four months, or 75 cents and get it six months. Address THE FREE PRESS, Haskell, Texas.

BASS' PRAIRIE DOG POISON!

Cooley Bros., of Jones County, Scalped 1866 dogs with \$5.00 worth of

Bass' Prairie Dog Poison. You can do as well.

BASS BROS.

An Improvement on "Old Grimes."

"Old Grimes is dead, that good old man. We never shall see him more. He used to wear a long blue coat. All trotted by before." But he left a son who bears the name of the old man here. He sells dry goods and other wares. And keeps a first-class store. He's honest like the old Grimes. And much more enterprising. He keeps right square up with the times by liberal ADVERTISING.

Every community, town and city has one or more "Young Grimeses." They are the successful, broad-gauged, wide-awake, "get up and get there" and never get left business men of the world. Why do they succeed? Ring up the News ad-man and he'll tell you all about it.—Dallas News.

Haskellites, take a pointer and hunt up the FREE PRESS ad. man.

EVERY stockman and farmer in Texas should subscribe for and read at least one live stock and agricultural paper. In this connection we desire to state that we have made a clubbing arrangement with the Texas Live Stock and Farm Journal by the terms of which we are enabled to offer that most excellent journal in connection with the FREE PRESS at only \$2.00. These two papers if taken separately would cost \$3.00. The advantage therefore, of accepting our clubbing rate will at once become apparent to all. We hope our readers will take advantage of this liberal offer and send us their subscriptions at once.

Success in Life.

Foreston Herald. Say, young man, there is one thing you cannot do. You can't make a success in life unless you work. Better men than you have tried it and failed. You can't loaf around street corners and saloons, smoke cigars, tell foul stories, drink whisky and sponge on someone else without making a failure in life. You must learn a trade or get into some honest business. If you don't you will be a chronic loafer, despised by all, producing nothing—simply making yourself a burden on your parents or the State. There is no place in the world to-day for loafers. The ripe fruit is all at the top of the tree. You must climb to get it. If you wait for it to fall at your feet, you will never get it. Smarter men will jump up and pluck it all. Move. Do something, no matter how small. It will be a starter. Help yourself and others will help you. Toil, grit, endurance—these are the requisites. Wake up and see what you can do.

THE CITY MEAT MARKET,

HASKELL, TEXAS.

CALL ON **W. W. FIELDS & BRO.**

New Building on West Side of Square.

STAPLE and FANCY GROCERIES.

They propose to keep constantly stocked up with fresh and choice goods, which they will sell as low as such goods can be sold in this market.

They will buy all kinds of **COUNTRY PRODUCE** and pay best market prices for same.

GIVE THEM A CALL.

THE HASKELL NATIONAL BANK,
HASKELL, TEXAS.
A General Banking Business Transacted. Collections made and Promptly Remitted. Exchange Drawn on all principal Cities of the United States.

A. H. AGAN, Proprietor.
Is now filled with all modern appliances for the execution of first-class work. Family Groups, Round-ups, etc., a Specialty.
See a sample at Post Office or call at Gallery East of the Hotel, Haskell, Texas.

ARE OF HIGH DEGREE.

DAMES OF CHICAGO'S GREAT UNIVERSITY.

They Are All in the Front Rank of American Education—Why Do Women Cry for More Rights Than They Have?

ALICE FREEMAN PALMER. These women must necessarily be in great measure self-trained, and yet they are able to take their places and ask for no odds.

The facility has been chosen from the field of the world, and five of its members are women. The first fellow appointed was a woman. There are to be more female accommodations for women than for men.

The physical training given to the women students differs radically from that given men by Mr. Stagg. The object is to make a perfect woman—not a half man. The outdoor exercises are tennis and boating in Washington Park and the lake.

Mrs. Zella A. Dixon, in charge of the University Libraries, is equipped with all the new methods of the modern librarian. This work requires today a special training in bibliography, technical, cataloguing, etc.

Like all women and men who have been pronounced successes in any vocation which calls for large contact with people, Mrs. Palmer first attracts by her personality and then holds by her attainments.

She represents American possibilities—and probabilities. She was born the daughter of a small farmer in Broome County, New York.

Three years after her graduation Miss Freeman went to Wellesley College simply to take the classes in history. Now Mrs. Palmer has the "historical mind."

Like all women and men who have been pronounced successes in any vocation which calls for large contact with people, Mrs. Palmer first attracts by her personality and then holds by her attainments.

During her stay at Wellesley Miss Freeman's influence was a real and personal thing to every pupil who came under her care.

Mrs. Palmer comes as a lecturer on history, really in that twelve weeks she is making a visitation of inspiration, as she is a living illustration of the ends of a thorough education.

During Mrs. Palmer's absence the head dean of women is Miss Marion Talbot from Boston and Wellesley College.

Miss Talbot is a graduate of Boston university, where her father is dean of the school of medicine. Her mother is a well-known Massachusetts woman, a leader in various educational societies.

Miss Talbot worked for three winters with this new association. The members all studied household sanitation, and a little book was written upon this subject by some of its members.

THE FARM AND HOME.

THE PROBLEM OF PROTECTING HAY STACKS.

A Variety of Covers—Fences and Fence Rows—Five-Handed Bees—More Clover—Farm Notes and Home Hints.

Protecting Hay Stacks. Forty-five years ago, in Illinois, I was covering stacks with slough grass. Thirty-five years ago I was doing the same in Page county, Iowa.

Some years since Professor Sanborn sent out cards asking a great many Missouri farmers as to their estimate of what per cent. of the value of the hay that was stacked out of doors was lost by the weather.

For a long time I had been wrestling mentally with the problem of how to protect stacks. Had sent for documents to two parties advertising stack covers. Their covers were all heavy and quite costly.

Last summer I concluded to try covering my stack of clover hay with muslin costing five cents per yard, a small rack containing four and a half man. I built my stack carefully and made it quite sharp on top.

Except in two places where the covers were misplaced by the wind, my hay is in perfect condition, just as good as if it had been in a barn. Two of my stacks are standing untouched.

DE. ALICE FOSTER. university was Miss Myra Reynolds, the daughter of a Baptist minister in Pueblo, Col. She took her degrees at Vassar and was for some time a professor of English literature at Vassar.

There are several other women followers of distinction. The following are senior and junior, one paying \$200 a year and the other \$300. Each fellow has some duties, such as library assistance or class-room work.

But the women who have been gathered together here are for the most part women who do not depend upon any specialty for distinction, but are women who could take up any department of life and fill it with credit.

A Marine Palace. While the railroads have been making great preparations for the World's Fair the lake lines have not been idle. The best evidences of this are the huge steel and iron bridges across the Calumet River in the city of South Chicago.

THE MANITO. put in position as rapidly as the force of 100 men can do it. When the steamer slides down the ways into the Calumet in April it will be christened "The Manitowish."

His Last Job. The dying fish occasioned some instructions that the line should show upon the shaft raised or her grave. "Man wants but little here below."

THE PARIS CONCIERGE

IMPORTANT FUNCTIONARY IN DOMESTIC LIFE.

He is a Monarch Who Both Rules and Reigns and Makes It Pretty Pleasant for Those of His Subjects Who Rebel.

The rapidity with which apartment houses are taking growth and spreading in America is remarkable. Nearly all the large European cities owe a great deal of their palatial apartment houses, and particularly in this case of Paris, where private residences are each year growing more rare, as they are crowded out by huge structures forming under one roof homes for hundreds.

The first or ground floor, fronting the street, even in the case of the most modern apartments, is used for stores. Inside the court are from one to four doors, opening on different stairways. The first of these doors from the porte cochere is the loge of the concierge—he who rules with despotic power often those committed to his charge.

When a tenant engages rooms he is expected to pay his dealer a dien, which translated and robbed of its coating of rich sentiment means from three to ten dollars according to location.

Various Grains Sown Together. There are the same reasons for sowing the various kinds of grains together, or peas with oats, when they are intended for feeding purposes, as there are for mixing our grass seeds.

Farm Notes. It is a mistake to spread manure over too much surface. Use good oil with machinery when and where it is needed.

Home made manure is the best that can be used and every farmer can make more or less of it. On the majority of farms the acreage to grass and clover can be materially increased with benefit.

Home Hints. Silver "pushers" are now bought for children, to replace those made of bread, which most of us remember from nursery days.

AN UNTOLD STORY.

How the Tramp and His Prosperous Fellow Veteran Met and Parted.

He was an old man, gray-haired and wrinkled. And he was a typical tramp, too—dirty and slovenly and appearing as he were constantly on the alert looking for a kick or a blow.

They stared at each other for a moment, when the handsome gentleman pulled out a plethoric pocketbook and handed it over to the tramp. The latter's face changed color just a little, as a wave of blood flowed up under the dirt, but he took the pocketbook, opened it, took out one bill from a large bundle of them, put it into his trousers pocket—he had no coat or vest—handed the other bills and the pocketbook back and slightly inclined his head.

There was a heart story back of it all, but even when the donor sat down beside me and sighed I could not bring myself to the point of intruding upon his privacy.

After a few minutes he roused himself as from a trance and saw me gazing at him with an interest that he could not conceal, and as he sprang to his feet at the calling of his train, he passed by me going out the door and remarked:

Engulfed. Although American gentlemen have the reputation in Europe of allowing the female members of their families to do much as they please, they have not the name of possessing the quality which the Frenchmen call gallantry. They are not makers of compliments.

The Little Girl's Query. The small daughter of a certain charitable family has been told frequently that Satan finds work for idle hands. The other morning one of the tribe of tramps called with the usual story of woes.

NAMES KNOWN AFAR. Dr. Wyeolbyck, president of the society for the study of inebrity in London, is 100 years old.

Aligator's Teeth. There is a large trade in alligator's teeth in the South, for they are treasured as mementoes by tourists.

A Professional Father. Fathom—Well, doctor, how do you find my neighbor, Skeamer, this morning?

Civil Servant Salaries. The salaries paid to persons in the civil service of the United States amount to \$90,000,000 annually.

Strawber—Well, I have made up my mind to propose to her. Singlerly—You are not going to do it in those trousers, are you?

Drowning Him Out. Strawber—Well, I have made up my mind to propose to her. Singlerly—You are not going to do it in those trousers, are you?

Merits of Five-Handed Bees. I will tell you what I like about the five-handed bees, says a writer in the American Agriculturist.

THE FARM AND HOME.

THE PROBLEM OF PROTECTING HAY STACKS.

A Variety of Covers—Fences and Fence Rows—Five-Handed Bees—More Clover—Farm Notes and Home Hints.

Protecting Hay Stacks. Forty-five years ago, in Illinois, I was covering stacks with slough grass. Thirty-five years ago I was doing the same in Page county, Iowa.

Some years since Professor Sanborn sent out cards asking a great many Missouri farmers as to their estimate of what per cent. of the value of the hay that was stacked out of doors was lost by the weather.

For a long time I had been wrestling mentally with the problem of how to protect stacks. Had sent for documents to two parties advertising stack covers. Their covers were all heavy and quite costly.

Last summer I concluded to try covering my stack of clover hay with muslin costing five cents per yard, a small rack containing four and a half man. I built my stack carefully and made it quite sharp on top.

Except in two places where the covers were misplaced by the wind, my hay is in perfect condition, just as good as if it had been in a barn. Two of my stacks are standing untouched.

THE MANITO. put in position as rapidly as the force of 100 men can do it. When the steamer slides down the ways into the Calumet in April it will be christened "The Manitowish."

His Last Job. The dying fish occasioned some instructions that the line should show upon the shaft raised or her grave. "Man wants but little here below."

Merits of Five-Handed Bees. I will tell you what I like about the five-handed bees, says a writer in the American Agriculturist.

THE PARIS CONCIERGE

IMPORTANT FUNCTIONARY IN DOMESTIC LIFE.

He is a Monarch Who Both Rules and Reigns and Makes It Pretty Pleasant for Those of His Subjects Who Rebel.

The rapidity with which apartment houses are taking growth and spreading in America is remarkable. Nearly all the large European cities owe a great deal of their palatial apartment houses, and particularly in this case of Paris, where private residences are each year growing more rare, as they are crowded out by huge structures forming under one roof homes for hundreds.

The first or ground floor, fronting the street, even in the case of the most modern apartments, is used for stores. Inside the court are from one to four doors, opening on different stairways. The first of these doors from the porte cochere is the loge of the concierge—he who rules with despotic power often those committed to his charge.

When a tenant engages rooms he is expected to pay his dealer a dien, which translated and robbed of its coating of rich sentiment means from three to ten dollars according to location.

Various Grains Sown Together. There are the same reasons for sowing the various kinds of grains together, or peas with oats, when they are intended for feeding purposes, as there are for mixing our grass seeds.

Farm Notes. It is a mistake to spread manure over too much surface. Use good oil with machinery when and where it is needed.

Home made manure is the best that can be used and every farmer can make more or less of it. On the majority of farms the acreage to grass and clover can be materially increased with benefit.

Home Hints. Silver "pushers" are now bought for children, to replace those made of bread, which most of us remember from nursery days.

Ripe bananas put up in cans with condensed milk make a nutritious food for those who like the flavor. It is said to keep as well as any other canned product.

Hard sauce for puddings: Stir to a cream half a cup of butter and one cup of fine sugar; when well mixed add two teaspoonfuls of lemon juice and some grated nutmeg.

Eggs whipped and diluted with milk are more quickly digested than when taken unchanged from the shell. Hard boiled and fried eggs require three and one-half hours for digestion.

Health is one of the greatest blessings a mother can bestow upon her children, and to establish it she must be careful to regulate their habits of eating, sleeping, bathing and, indeed, every other act pertaining to their physical well-being.

The good nurse should certainly be a woman of tact, in order to honor the harmless whims of her patient rather than irritate him by martinettiish methods. One of the most objectionable habits of the indiscreet nurse is that of rehearsing her sick room and hospital experiences to her patient. Like a wise physician, the discreet nurse says little and never talks "shop."
