TRISH BALLEW'S 4th and 7th grade History classes look on, as Mrs. Ballew shovels the last dirt around the Shumard Oak tree, planted on Robert Lee School property, in conjunction with Texas Sesquicentennial activities throughout the state.

RL classes plant tree at school

In anticipation of Texas' 150th Celebration the Texas Forest Service has grown and delivered to each of Texas' 254 counties a Shumard Oak for their Sesquicentennial planting projects. The only string attached to the offer is that the trees be planted and dedicated in 1986 on public property.

The Robert Lee Sesquicentennial Committee with the cooperation of the Robert Lee School officials planted their Shumard Oak on public school property where it can be seen by students as well as the citizens of the Robert Lee community.

The Shumard Oak is a member of the red oak family. The largest Shumard Oak in Texas is 120 feet tall and has a trunk circumference of over 15 feet. It grows on the Alabama-Coshatta Indian Reservation near Livingston.

The Robert Lee Sesquicentennial tree planting was observed Monday, March 3, 1986 at 9:15 a.m. Greg Fleming, minister of Southside Church of Christ gave the invocation. Alice Beaty, local committee chairman, welcomed the students of the fourth and seventh grade Texas History classes, school officials, committee members and guests. Brent McPeck, seventh grade student read a poem written by Henry Abbey, entitled "What Do We Plant". During the tree planting ceremony each student put a

shovel of dirt on the tree.

In dedicating the tree Mrs. Beaty said, "Tree planting can have a far reaching effect on community spirit as it promotes civic and social betterment. The spirit of planting a tree is unique in that it looks forward, never backward. May this Oak grow as strong and rugged as our forefathers who fought and declared Texas' Independence 150 years ago."

Rev. Pam Bradford, pastor of Robert Lee United Methodist Church, gave the benediction.

Tree planted at City Hall

Bronte Mayor J. T. Henry and Sesquicentennial Committee Chairman Garry Bivins planted Bronte's oak tree Tuesday morning in front of City Hall.

The Heritage live oak, about 5-feet tall, is one of many Texas Sesquicenten-

nial Oak seedlings distributed by Texas Forest Service to cities celebrating Texas 150th anniversary.

The yellow ribbon is already tied around the oak tree though the tree is not very old. The yellow ribbon symbolizes "welcome".

Overstreet scheduled here

David Overstreet of Marion, Illinois will appear at the Central Baptist Church in Bronte on Wednesday, March 19, at 7:00 p.m.

David travels the U.S. approximately 45 weeks out of the year doing revivals, concerts, crusades, youth camps and entertaining senior adults, nursing home patients and civic clubs. He has been a full-time evangelist for 10 years.

David Overstreet is one of the most unique and versatile full-time evangelists that travels America. His beautiful baritone voice, along with his powerful delivery will thrill all who hear him. There

is not another singer of the gospel in America today who sings as many varieties of religious music as David. His stylings include County Gospel, Contemporary, Southern, Traditional, Classics and, of course, the great old hymns of the church. David accompanies himself with the piano, electric piano, guitar and background orchestration tapes. He sings many of his own songs during his performances, which tell of some of his life struggles of being a former nightclub entertainer.

For more information, contact R.W. Blackmon, pastor of the church, at 473-6111.

Older Worker Week slated

Focusing attention on the importance of meaningful employment for senior Texans, Governor Mark White proclaimed March 9 through 15, as Older Worker Week in Texas.

Older Worker Week is an annual event designed to spotlight the valuable contributions of older Texans as productive members of the State's work force. Representatives of the Senior Community Service Employment Programs, Texas Department on Aging and the Department of Labor joined the Governor in acknowledging that senior workers are among our most important resources.

Senior Community Service Employment Programs employ over 3,000 seniors, 55 years of age or older, who

provide needed services to non-profit organizations; such as senior centers, local school districts, public libraries and municipalities.

"Older workers possess unique skills and capabilities acquired through years of experience and hard work," said Joe Rankin, President, Texas Farmers Union, "and we support both private and public efforts to provide older Texans with gainful employment opportunities." Texas Farmers Union sponsors the State's two largest older worker programs, Green Thumb and the Senior Texans Employment Program.

Coke County Green Thumbers are Zola Hatley, Robert Lee, and Geneva Minnick and Lois Wallace, both of Bronte.

What can we do to help? If you are having any problems with your mail, come in and talk to us. We strive to give A-1 service at all times. A few things which may be of interest to you are: (1) - If you want your Silver or Bronte mail to go direct - either hand it to us at the window or drop it in the local slot. We have a direct sack to Bronte and send Silver mail by Star Route Carrier. (2) We have certified notices and return receipts on our lobby counter so that you can fill them out before coming to the window, thus saving both of us a lot of time. (3) We do not hand out mail to anyone from the boxes. We cannot do this because of the large number of boxes we now have and we can't do it for everybody - so we don't

do it at all. (4) We have a service called "SPECIAL HANDLING" for parcels. If you want your parcel to get special treatment and not get mixed up with other parcels - you can pay a small fee \$1.10 up to 10 pounds and \$1.60 over 10 pounds and your parcel will go in a separate sack from others, thus speeding up delivery. (5) All business mail such as bills and other bundles should be handed to us at the counter and not put through the slots.

It could mean the difference in getting your mail out of town in the afternoon or getting it Cancelled for local delivery as fast as possible. It helps to keep letters all turned the same way so we can cancel them readily. We are here to serve you. Call on us. If we can't help you, we will call in someone who can.

Salinity study set

The U.S. Geological Survey and the Colorado River Municipal Water District are joining in a study of salinity problems along the Colorado River and its substantial tributaries from Lake J.B. Thomas to confluence of the Concho River.

The three-year evaluation will cost approximately \$300,000, which will be shared equally by the agencies. Field work will be done by the USGS through its San Angelo office, and reports will be available.

Water gain and loss investigations will be made on the Colorado, also on major tributaries such as Beals Creek, Elm Creek and the Concho River. Salinity levels will be determined during several specified three-day intervals during summer low-flow stages and winter medium-flow periods.

Water wells within a few miles of the river will be investigated and tested for water levels and salinity. All possible sources of saline intrusion will be explored, including natural salt seeps, discharges from improperly plugged oil wells, disposals, etc.

All field data collection will be directed by Raymond Slade, hydrologist with the USGS in San Angelo. Field personnel will be contacting

land and well owners to take advantage of their knowledge. Anyone desiring additional information may inquire of the USGS at 1409 Knickerbocker Road, San Angelo, Texas 76904, or telephone 915-655-9616.
