County Property Inventory Voted By Commissioners

For the first time in years, and possibly the first time in the Council Grants county's history, a complete inventory of all property owned by Haskell County will be taken Jan. 1. County Commissioners voted Tuesday in regular session.

To be inventoried will be all road machinery and equipment, cars, trucks, tractors, trailers, material, etc., cwned by the various precincts. Also, all office equipment, typewriters, office machines, etc. After the original inventory is compiled, additions and changes will be made as needed in keeping the inventory up to date.

All books in the county law library will be stamped to identify them as county property, the Commissioners also decided. New edition of the Commissioners' Guide Book was distributed to each Commissioner, with copies also going to the County Judge and the County Hospital Administrator trator.

After discussion, Commissioners voted to retire approximatey \$8,000 in outstanding road mahinery warrants held by the Haskell National Bank. Although the warrants do not mature until sometime in 1957, payment now will result in an appreciable inerest saving. Payments will be from balances in the Farm-Mar-ket and Lateral Road funds. Sales of Savings Bonds Show Gain In October

During October of this year, Texans increased their purchases of Series E Savings Bonds, J. M.

of Series E Savings Bonds, J. M. Crawford, chairman of Haskell County Savings Bonds Committee reported today. Sales of the popular E bond increased 3.4% over the same month in 1955.

Total sales of Savings Bonds for the first ten months of this year in our county amounted to \$367,-086, while sales in Texas were \$160,301,508 for the same period, Chairman Crawford continued. Bonds bought in Haskell County during October totalied \$35,336, he reported.

During this season of giving, I would suggest a gift which keeps on giving . . . United States Sav-ing Bonds. You can make gifts of Series E Savings Bonds with ab-solute assurance that they will continue to appreciate in value for a period of up to 19 years and 8 months when they will be worth 80% more than you paid for them. Meanwhile, they have a cash-in value of cost, plus accrued interest, at any time after the first sixty days," Mr. Crawford advised.

Post Office Will Help USDA Survey State Livestock

Nearly 40,000 cards will be left at random in rural mail boxes throughout the state this week. When filled out by farmers and ranchers and returned, these cards will help V. C. Childs, Texas Statistician, Agricultural Marketing Service, determine how many livestock are on Texas and ranches.

Mr. Childs lauded the U.: S. Post Office and rural mail carriers for their cooperation in making this annual survey.
"With this help, we're able to

get an accurate picture of our state livestock holdings," Childs

Every farmer or rancher who VISIT PARENTS gets a card is urged to fill it out as accurately as possible and return it promptly.

"The more we get, the more reliable our estimate will be" Mr. Childs pointed out.

This survey is the basis for the state and national inventories of livestock and poultry on farms as of the first of the year. It in-cludes cattle, calves, milk cows, hogs, sheep, goats, horses, mules, chickens and turkeys.

Also, the survey provides the basic data for the estimates of pigs and sows farrowed during the June-December period and intentions to breed for January-June farrowings in 1957.

More Money Due For Research and TB Control

AUSTIN, Texas - Recognizing research advances which have drastically cut the national TB death rate, members of the Texas Tuberculosis Association's research committee have set aside \$1500 to stimulate further study and research on TB control in

Dr. Daniel E. Jenkins of Houson, head of the committee, believes that scientists may be on the threshold of new discoveries which will reduce the great number of TB cases still persisting. The US currently has 1,200,000 cases, both active and inactive, needing either actual treatment or medical supervision. Of these, 250,000 are not under treatment and are exposing others in their communities.

"In 50 years of fighting the disease, we've found the answers to many problems," asserted Dr. Jenkins in discussing the haifcentury siege of tuberculosis by TB associations. "But medical research is often frustratingly slow. The tuberculosis problem in Texas is very large in comparison with many other states where the disease has been more completely controlled.

"Despite money allotted to re-search each year from Christmas Seal funds," he continued, "here in Texas we feel that we need to set up a fund especially for research in the state. It's a 'baby' fund, of course, but doctors on the research committee hope that it will be a nucleus for donations from local tuberculosis associations or medical endowments.

Letters were today directed to medical and pre-medical schools over Texas, inviting would-be recipients of the \$1500 to apply to the research committee of the Texas TB Association in Austin. Research may be current or proposed, either in the basic sciences or aions clinical, sociological or public health lines.

Plan Safety in Decorating the Christmas Tree

Speaking from his Austin office, J. O. (Jim) Musick, General Manager of the Texas Safety As-sociation, issued a word of cau-tion to Texas, today, regarding Christmas tree decorating safety. "Accidents at Christmas time

always seem so much more tragic," Musick said. "This is especially true if the accident results in a fire that costs a family their home; maybe serious injury to one of the family." Musick pointed out that most of

this type of accidents is easily preventable, if only a few common sense precautions are taken. As an example he listed the fol-lowing eight rules which he considers "musts" in safe decorat-

ing:
1. Keep tree outside until time

2. Place tree away from all heating units. 3. Use non-flammable decora-

 Never use candles near tree.
 Make sure light sockets and wiring are in good condition. 6. Anchor tree, at top, with wire to prevent it from falling. 7. Turn off tree at bedtime or

when away from home. 8. Dispose of tree safely; never burn in fireplace.

"Remember," he concluded. "It takes less than 60 seconds for the average tree to burn completely. so make your Christmas a bright one, but with happiness—not with

Tuberculosis patients report that it is not easy to accept treatment which, even with wonder drugs, is based on rest and being taken care of. In these days of "do it yourself" philosophy, it's difficult even for the sick to allow others to wait on them.

Treatment for one case of TB costs nearly \$15,000 which is more than most patients can afford to pay. Much of this financial burden is placed on the shoulders of the taxpayer.

U. S. Taxpayers could save approximately \$600,000,000 a year if TB could be finally conquered. Christmas Seals concentrate on TB prevention. When you buy Christmas Seals, you save future dollars and future human suffering.

say "Hello" but was too far away to hear anything said as the man and woman taiked. Then he heard four shots and saw Mrs. Luna fall to the ground. "She did not say anything, just hollered" the interpreter quoted De Leon as saying. Martinez then started running toward a pasture, putting more ammunition in his pistol ning while running from the scene De Leon related.

Testimony of the four witnesses to the shooting was substantially the same, to the effect that Marrinez came to the field and after talking briefly with Mrs. Luna, fired four shots from a pistol. One of the bullets struck the woman in the last breast. None of inderstood anything said by tinez, they to tifted.

Mrs. Aureli Dabosoue, vounger sister of ! Luna, who was me on the mornat the Luna ing of the sl ving, testified that she accompar her sister in a car to Rule for medical aid. Mrs. Luna died a few minutes after arriving at Rule. The injured woman was unable to talk from the time she was shot until she died, Mrs. Delbosque testified. Alfredo Luna, husband of the

victim, told the jury that Martinez was his brother-in-law and the two families had been well acquainted for years. He said that prior to the killing, Martinez had loaned them, Mr. and Mrs. Luna, \$30 and that \$20 of the sum had been repaid. Luna told the jury he and his wife were the parents of five children, the oldest 14 and the youngest five years.

On cross examination by the defense counsel, Luna denied ever having knowledge of intimate relations biween his wife and the defendant Martinez.

Martinez, on the witness stand in his own defense, claimed that

he shot Mrs. Luna when he feared his own life was in danger. He testified to having had intimate relations with her over a period of years. Martinez related to the jury that on the evening prior to the killing, his life had been theatened when he found Mrs. Luna and another man together. He did not know the man, Martinez testified.

Martinez told the jury that on the morning of the slaying he had gone to the field where Mrs. Luna and her husband were working. to collect the \$10 they owed him before returning to Kingsville. He shot Mrs. Luna in a fit of fear and jealousy when she re-minded him of the theat made by her companion the night be-fore to kill him (Martinez).

Jesus Martinez, 30, Air Force veteran, and son of the defendant, told on the witness stand of having remonstrated with Mrs. Luna over her clandestine affair with his father, in an effort to break up their relations.

Testimony of witnesses was oncluded at 4:00 p. m.

Mayor Emphasizes Citizen's Role in Traffic Safety

"Haskell has declared all-out war on traffic accidents, but our declaration will be a futile gesture unless every citizen backs up this declaration with positive action." In these words Mayor Walling today laid the responsibility for success of the Back the Attack on Traffic Accidents program squarely at the door of the

individua, citizen. The program, which was launched locally by the Mayor's procamation, is a nation-wide effort by the National Safety Council to stem the rising traffic accident toll. It calls for complete mobilization of law enforcement agencies, safety organizations, and the entire citizenry, starting in

December. More than 38,000 persons were killed in the nation in traffic ac-cidents last year," Mayor Wall-ing said. "And there is strong indication that this year's toll will set an all-time record." He said the Haskell police department has swung into action with a steppedup enforcement program.

But I hope there will be little need of these enforcement measires." Mayor Walling said.

Christmas Parade **Attracts Largest** Crowds in Years

One of the largest crowds in years thronged Haskell's business section Saturday afternoon to witness the annual Christmas Parade officially opening the holiday

Helping to swell the overflow crowd was an estimated 2,000 fans and visitors here for the Rochester-Gorman bi-district foot-bail game which ended a few minutes before the big parade got underway.

Highlight attraction in the parade for the throngs of children was Santa Claus and his reindeer, with the Rochester, Haskell and Gorman high school bands providing parade music.

Adding color to the gay Christmas procession were decorated floats representing a number of Haskell stores, together with attractive school floats, all carrying out the Christmas theme. Candy for Kiddies

Immediately following the pa-rade, Santa Claus pressed into service members of the Lions Ciub to help distribute Christmas stockings filled with candy which were given to children as they filed through the courthouse cor-

PROCLAMATION

WHEREAS, the nation's traffic toll is approaching a record high of 41,000, and

WHEREAS, immediate and positive action must be taken in the face of this mounting traffic toll to make every American conscious of the necessity of safe driving on highways and city

WHEREAS, the cooperation of all motorists and pedestrians with traffic activities of public officials is needed to provide efficient and safe traffic movement; and WHEREAS, the Traffc and Transportation Conference

of the National Safety Council, composed of organizations and groups concerned with the reduction of traffic accidents, has developed plans to enlist citizen support for stepped-up official activities for traffic safety through a nation-wide BACK THE ATTACK ON TRAFFIC ACCIDENTS Program:

NOW, THEREFORE, I, J. E. Walling, Mayor of the City of Haskell do hereby proclaim the month of December, 1956, as the opening month of BACK THE ATTACK ON TRAFFIC AC-CIDENTS and call upon citizens to support officials, take part in organized traffic safety efforts and conduct themselves in a cautious and safe manner, both driving and walking, in order to curb the shocking traffic toll.

Furthermore, I ask citizens to consider the four main influences on the usually high December traffic toll: speed too fast for conditions, drinking and driving, extended darkness, and pedestrian errors. Each citizen is urged to exercise the proper restrain upon his personal conduct during this holiday season, and to back the official stepped-up traffic safety program in Haskell, Texas.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Haskell to be affixed.
