Dear Editor:

Go to Mars! Why not preserve life on Earth? There are a number of nuclear submarines resting on the ocean floor. With their nuclear power and nuclear missiles decomposing a little every day. How long before radiation will permeate the ocean and the atmosphere. They are out of sight and out of mind to our elected officials. We (and the whole world) should be concerned about our safety

and that of coming generations. We need to try and recover the nuclear devices and if we cannot, we can try to contain them. There is a way.

Reminds me of the cowboy who took a nap in the shade of a tree. When he woke up a rattlesnake was coiled up on his chest. He said he knew if he moved the snake would bite him so he just went back to sleep. When he awoke the snake had crawled off. Guys, this snake won't crawl off.

Bivins, Sonnenberg in all-state choir

BHS Juniors Melissa Bivins and Lee Sonnenberg, members of the First Baptist Church of Bronte, participated in the Texas Baptist All-State Youth Choir which met at Baylor University in Waco, July 24-31.

Nearly 400 students from throughout the state of Texas gathered for a week of intensive rehearsals and a concert under the direction of Dr. Hugh Sanders, Choral Director at Baylor University.

On Sunday, the choir was divided into four groups which led the worship services in various Waco area churches. Each group moved to a different church for the evening services.

Monday, July 31, the entire choir, and the Texas Baptist All-State Band presented a stirring concert in the Ferrell Center at Baylor University.

Students were selected to the choir or band as a result of auditions held in Jan. and Feb. and upon recommendation of their pastor or music director.

The concert was attended by parents and friends as well as church music leaders from throughout the state who were in Waco for the Texas Baptist MusiConference.

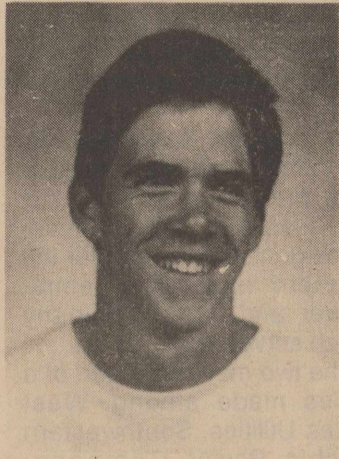

Marilyn Bivins, Nina Bivins, Bruce, Fran, and Lynn Sonnenberg, and Dale and Ida Lee Ellis attended the concert. Christy Bivins from College Station, Mary Lou Fuller of San Angelo, Ronnie, Kreta, and Robyn Lee of Waco were also in attendance.

Carolyn Long, of Robert Lee, whose daughter Lin was a member of the choir last year, was a sponsor for the All-State Choir group during their week in Waco.

Youth Congress

An enthusiastic group from First Baptist Church recently enjoyed a week at Youth Congress at Heart of Texas Baptist Encampment on Lake Brownwood. Under the direction of youth Minister Mills Caraway, the group excelled in the many sports activities during the week capturing First Place trophies in volleyball and boys basketball, as well as bringing home the Second Place trophy in all-around competition. The youth presented the trophies to the church in the Sunday morning worship service, July 23rd.

Those attending from Bronte included Julie Blair, Kim Blair, Brandi Thomas, Melissa Bivins, Vanessa Halstead, Kelly Webb, Elaine Moore, Nathari Barnett, Gary Blair, Heath Stewart, Jim Bob Thomas, and Shannon Hoffman. The group reported experiencing a great time of growing both spiritually and as friends.

Lucketts travel to Alaska

Bill and Diane Lockett flew to Anchorage, Alaska, last week for a visit with Pat Oglesby's daughter, Cathy Dimaria and her family. While they were there Tony, Cathy, Christina, Tonilyn and Carrie took them on several sight-seeing trips in and around Anchorage.

One day they drove to the Chugach National Forest and viewed the Portage Glacier. Another day they went north out of Anchorage to Eagle River and saw the red salmon go up stream to spawn. The salmon were much larger fish than the Lucketts had expected. Also, to the north, a small town called Eklutna was a most beautiful sight for the Coke County couple. At Eklutna there is a Russian Orthodox Church with its native Spirit Houses...houses built over the graves of the native Indians.

The group picked vegetables in the Mat-Su Valley; as well as, fed the Musk Ox and reindeer. It was here the Lucketts hiked up Hatcher Pass and viewed Independence Mine State Historical Park.

South of Anchorage the Dimarias and Lucketts panned for gold at the Crow Pass Gold Mine and went on to Alyeska Resort and Ski Area. Mt. Alyeska is 3,939 ft elevation; the unique thing about Mt. Alyeska is that it starts at sea level. On the way to Alyeska the group witnessed an unusual sighting of three moose, ten Dall sheep, and a bald eagle.

Early one morning the Lucketts chartered a small plane and flew over some

mountain ranges, ice fields, oil platforms, Turnagain Arm where tides are 30-plus feet and got a rare view of Mt. McKinley. The pilot flew low over some duck huts, moose, Beluga whales and an 1,800 year old glacier.

Bill and Diane were impressed with all the beautiful scenery. The fact that the sun does not set for 84 straight days in parts of Alaska and only shines an hour or two a day in the winter is an indication that Alaska is truly a unique place. Bill wants it known that while he was there the temperature hit an all-time high...76 degrees.

TP&W sets new season

The Texas Parks and Wildlife Commission, in a public meeting in Austin last week, reduced the white-tailed deer bag limit in some counties for the 1989-90 hunting seasons and authorized a longer spring turkey hunting season for 1990.

All the proposed changes were discussed in public hearings across the state during May, and the new regulations will go into effect Sept. 1.

The general white-tailed deer season was set for Nov. 4, 1989, through Jan. 7, 1990, in most of Texas. In all or portions of 28 South Texas counties, the whitetail season is Nov. 11, 1989, through Jan. 14, 1990. The special late antlerless-only season for Angelina, Houston, Nacogdoches (south of State High-

way 7), Polk, Trinity and Walker Counties was shortened and set for Oct. 21-29.

The spring turkey gobbler season was lengthened by approximately one week. The dates are April 7-May 6, 1990. In the portions of East Texas where a spring season is authorized for turkeys, the season also will open April 7, but closes April 22. A spring season was also authorized for Jackson and Matagorda Counties.

The mule deer season for Panhandle counties was set for Nov. 18-Dec. 3. The Trans-Pecos season is Nov. 25-Dec. 10. As in the past, the mule deer bag limit is two mule deer, no more than one buck, antlerless by permit only.

Archery season for mule and white-tailed deer is Oct. 7-Nov. 5.

WTU names Elmore, Connors to posts

West Texas Utilities Company has selected William R. Elmore for the new position of vice president for business development. The announcement was made by Glen D. Churchill, WTU's president and chief executive officer. Elmore at present is

vice president and east Texas division manager for Southwestern Electric Power Company.

In addition Lawrence B. Connors, corporate secretary and director of accounting and finance for WTU, will become general manager for the northern region of Central Power and Light Company which serves south Texas.

The two moves are part of a series made among West Texas Utilities, Southwestern Electric Power Company, Central Power and Light Company and a fourth electric operating utility, Public Service Company of Oklahoma. The four companies are subsidiaries of Central and South West Corporation, a Dallas-based public utility holding company.

According to Churchill, the changes were made to broaden the experience of executives within the companies. He said the companies expect to make additional changes in the future to develop other managers.

As a result of the changes, which are effective August 1, Elmore will move from Longview, Texas to Abilene. Connors will move from Abilene to Victoria.

Elmore has been in his present position with SWEPCO since 1986. He joined the company in 1969 as a residential sales representative. He later worked in commercial sales, as local manager at Pittsburgh, Texas and as administrative assistant in the east Texas division. He also served as assistant division manager and then division manager in SWEPCO's Tex-Ark division.

He holds a bachelor of science degree in business administration from Louisiana Tech University and is a graduate of the Program for Management Development at Harvard University. He and his wife Norma have three children.

Connors has held his present position at WTU since 1985. He previously worked as controller, assistant controller and assistant to the controller. Before joining WTU in 1976 he had worked for Arthur Andersen & Co. for three years.

The four utilities involved in these changes serve nearly four million people in Texas, Louisiana, Arkansas and Oklahoma. WTU's service area extends from the Red River to the Rio Grande River.

NOTICE OF ORDINANCE

Dilapidated - Hazardous - Substandard Buildings
 Notice is hereby given pursuant to the terms and provisions of Section 52.01 of the Local Government Code, Texas Statutes, that the City of Bronte is considering the adoption of an ordinance regarding dilapidated, substandard, and hazardous buildings within the city limits of the City of Bronte and authority to give notice of demand of repair or demolition and in the event there is no compliance, the right of the City to proceed to demolish buildings and impose a lien upon the property. The proposed ordinance creates a Building Standards Commission which will review properties on a semi-annual basis and make recommendations to the City Council as to existing substandard, dilapidated, or hazardous buildings which are unfit for human habitation and/or create a danger to the public health and welfare. The ordinance defines various criteria for ascertainment of dilapidated or substandard buildings as to particulars of the residential property, lot, and condition of the same. The ordinance states that a recommendation will be prepared and submitted to the City Council at which time the City Council will give notice to the owner of the proposed demand for repair or demolition. A public hearing will be scheduled to determine whether the City should order the repair or demolition and how long should be given to occur.

The ordinance further states certain rights of rehearing in the event demolition is required. Additionally, notice is provided to the owner of the property in regard to the actions of the City.

The ordinance states further that in the event repair or demolition is not completed, the City may act to demolish the same and may impose a lien upon the property to the extent of expenses incurred in demolition. The ordinance specifies parties authorized to file the lien claim as well as releases at times of reimbursement.

A copy of the ordinance may be obtained at the City Hall, City of Bronte, Bronte, Coke County, Texas.

Chewable tablets may cause Dental Health problems

People who attempt to ward off the common cold by munching on chewable vitamin C tablets could be damaging their teeth.

The ascorbic acid in vitamin C has been associated with dental erosion in the past, but the problem has become more acute with increased sales of extremely high levels of the vitamin in chewable tablet forms.

The chewable vitamin C tablets that contain megadose levels of the vitamin may present possible dental health problems according to latest research.

A recent American Dental Association report indicated

that the acidic level of three 500-milligram chewable vitamin C tablets, when dissolved in distilled water, about equals that of stomach acid.

While saliva has a certain buffering effect, it can provide only limited protection when there is daily direct contact between ascorbic acid and teeth.

When people attempt to chase the common cold, vitamin C cough syrup which clings to the teeth also is not recommended, since it may cause dental problems.

It is recommended that persons who use chewable vitamin C tablets on a regular basis should check with a dentist for any signs of dental problems.

WTU names SA manager

Joe Emberger has been named manager of the San Angelo district of West Texas Utilities Co. He will replace current district manager Don Revell on August 1 when Revell will go on medical leave. The change was announced by Don Welch, WTU's vice president for customer service.

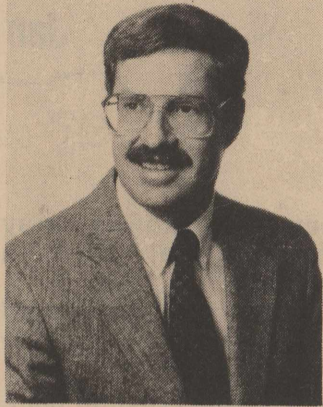

Emberger has been manager of the company's electric system construction and maintenance operations which is based in Abilene. He has served in various engineering positions in that area since joining the power company in April 1979.

The Kentucky native completed high school in Russellville, Kentucky. In March 1979 he graduated from Georgia Institute of Technology with a bachelor's degree in electrical engineering. While in college he worked as a cooperative student for General Electric and Georgia Power Co.

Emberger is a member of the Texas Society of Professional Engineers and the Ancient Order of Hibernians. His wife Tracy is training director for the state's Mental Health-Mental Retardation regional center in Abilene. They have a one year old son -- Joey, and are expecting their second child.

Don Revell will be leaving with almost 41 years of service to WTU and its customers. He joined the company in 1948 in the meter department, and progressed through technical and customer service operating areas until he became local manager in Abilene in 1974. Following promotions to assistant district manager and then district manager in Abilene, he transferred to San Angelo to manager district operations in 1978.

A native of Abilene, Revell completed high school there before joining the navy. Following military service he began his long career with WTU. He has been active in community organizations in San Angelo, including service in community organizations in San Angelo, including service on the Chamber of Commerce, and the Rotary club. He has been on the board of directors of the West Texas Rehabilitation Center in San Angelo and San Angelo Industries and on the Adopt-A-School advisory board. He has been on the board of directors of the West Texas Industrials Association. He also has been on board of directors of the First United Methodist church in San Angelo. Don and his wife Pat, vice president of personnel at Texas Commerce Bank, have two daughters.

Joe Emberger

As district manager Emberger will supervise all customer service activities for the utility in area towns, communities and rural areas. Those include San Angelo, Ballinger, Bronte, Eden, Eldorado, and Junction. In addition Menard, Miles, Robert Lee, Sonora, and Sterling City are in the San Angelo district.

WTU serves over 178,000 customers in 52 counties in central and west Texas. Its service area stretches from the Panhandle and Red River in the north to the Big Bend of the Rio Grande River in the south.
