#### Annual Pinkerton Whitman Reunion Slated Saturday

All former residents of Pinkerton and Whitman are invited Six Persons Named in 12 Indictments to bring their families and picnic baskets to the big annual re-union which will be held in the Returned by Grand Jury Friday American Legion building, Has-kell, at 5 p. m. Saturday, May 5.

Cards have been sent to many of the former residents and a large attendance is expected at the event. The old fashioned gettogether was inaugurated in 1954 and it was voted to make the event an annual affair, to be held on the first Saturday in May each year.

No set program has been an-nounced. Rather, the evening will be spent in visiting and renewing acquaintances. The two rural communities no longer exist, but were once thriving rural centers. Midway community is located where Pinkerton was established and it was the residents of this city who initiated the event.

Registration for the reunion will begin at 5 p. m. with the picnic lunch spread later in the

I just absorbed some of According to Mr. Pippin, it's no easy thing to get that novice license, though he made it with the first try. In order to get it, he says, you must be able to transmit 13 words per minute in Morse Code and build a transmitter. Also there is a written est which must be passed.

The first, second and third grades of Paint Creek went by bus Monday afternoon to Abilene where they did their Story Book Ball program on the Kalvin Keewee program. They must have been pretty good, at least have been pretty powerful, because they blew out a transmitter before they finished the program. Really the storm was responsible for the transmitter going out. and many parents were disappointed because the program went off before their boy or girl appeared. Maybe we'll go back and finish it sometime. The camera men and the producer, and Mr. Kettleman seemed to enjoy it a great deal. They let the boys and girls go on with the show even when the power was off. It was quite an interesting exper-ience for the children. TV does something for one's ego, and though they were not as much at ease as when we did the show for their parents, they still did a

real good show. Monday night the Junior 4-H girls who are sponsored by Mrs. Paul Fischer had a short pro-gram where they displayed the blouses they had made. Box 583 Haskell, Texas Bill Ratliff Enters Race for District Attorney

Bill Ratliff, practicing attorney in Haskell for 23 years and a former District Attorney, an-nounced this week as a candidate for District Attorney of the 39th Judicial Disrict, subject to action of the Democratic primary.

Mr. Ratliff said he would have a formal statement to the voters in the four-county district at a later date.

The Haskell lawyer, junior member of the law firm of Ratliff & Ratliff in this city, was appointed District Attorney of the 39th District in April, 1952 to serve the unexpired term of John H. Banks, resigned

In accepting the appointment, Ratliff said at the time that he was accepting the assignment as District Attorney as a service to the people of the 39th District, but that he would not be a candidate for the office. Two candidates had announced for the post previous to Bank's resigna-

Mr. Ratliff has been a resident of Haskell since boyhood. After completing law school he was admitted to the bar and began the practice of law here in 1933 as an associate with his father, the late Judge L. D. Ratliff, Sr. Mr. Ratliff served as City At-

torney of Haskell for several years, and was a member of the board of trustees of the Haskell School District four years, serving as secretary of the board

two years. His wife is the former Margaret Grant of Abilene. They have four children. Paula, Gloria, Leah and William Grant.

In announcing his decision to seek the post of Distrct Attorney, Mr. Ratliff said he planned to make an intensive campaign throughout Throckmorton, Kent, Stonewall and Haskell Counties.

#### New 1956 Highway Travel Map Now Available

The new 1956 edition of the Official Highway Travel Map is now available, D. C. Greer, State Highway Engineer, announced in Austin today.

The map has many new feaures and contains a wealth of information on Texas, Greer said. Most of the topographical relief was removed from the map last year so that more essential information can be read easily and quickly. The growth of the Texas Highway System at the rate of about 3,000 a year has made it necessary to gradually remove some of the less important information to make room for the increased mileage, he said.

Youth Leads the Way in 4-H Club Work" is the title of a new Texas Agricultural Extension Servce bulletin. Prospective 4-H members and their parents can get from the bulletin a clear understanding of what 4-H club work is and how it operates. Enrolled members and leaders will take pride in the publicaton. It is available from the offices of local county extension agents.

#### Center Point H-D Club Observing National Week

April 29 through May 5 is National Home Demonstration Club Week and Mrs. Clyde L. Bland of the Center Pont Club has summarized the services of The home demonstration clubs to women of the rural areas. Social

I like the social advantages. We farm women have too few opportunities for social contacts with other women. The club gives us the chance to see others. We also have recreational meetings in which the entire family takes

Educational

The work of the club is very educational. We have demonstrations each month whereby we Bearn new and better ways of doing things. Outstanding speakers and specialists come to us for county wide meetings. Leadership

club is good ground for leadership. Leaders get the demonstrations from the agent and bring them back to the members and non-members. Progressive

It helps us to get out of a rut when we see and hear others demonstrate better ways of doing

Fellowship

The fellowship with others in our our meetings, federation meetings and achievement day is definitely worthwhile. On these occasions we make new friends and renew our ties with old

Citizenship The ideals for which the club stands tend to make us better citizens. One is not apt to repeat the club collect without thinking what it means and perhaps striving a little harder to live up to it.

Charity We develop charity by contributing to worthwhile local, national and international relief funds sponsored by the club.

Artistic The club helps artistically by teaching us ways of remodeling and improving our homes, landscaping our grounds, and by bringing us the latest fashions and information on better grooming and personal appearance.

The clubs are open to all women interested in learning new practices in homemaking. Center Point Club was one of the first clubs in the county to be organized and still has an active charter member in the person of Mrs. J. F. Jeter.

#### Josselet HD Club Reviews Active Work Program

In connection with National Home Demonstration Club Week April 29-May 5, the reporter for the Josselet Club has prepared an interesting review of the ma-jor activities of the organization during the past year. The report:

The Josselet Home Demonstration Club has been very active this year. The two main demonstrations for the year are on Living Rooms and Foods. So far demonstrations have included the making of draw drapes. Funiture Arrangement, the family break-fast and the freezing of vegetables. Some of the programs lat-er in the year include Jury Duty, Flower Arrangement, Furniture Refinishing, Civil Defense, Salads for Summer and many more.

An extra event the club took

part in was the advance dress-making school. Ten members made a dress in these classes. These members modeled in the county dress revue and also modeled for the other club members and families. These dresses were very pretty and expensive look-

#### Blondie, Affectionate Lioness, Gives With Kiss for Eager Cub (Reporter)

#### By CHARLENE WHITE Dear Boss:

We can pass out of this vale of tears any day now. We have lived life to its fullest. We have been kissed by a lion. Before we besmirch our reputation, let us hasten to add that it was a lady

Blondie was just passing through Haskell Thursday afternoon with her boss Charlie Hipps, Graham cable tool contractor when they decided to stop for a hamburger for Charlie and a stretch for Blondie. The young lion has probably seen all kinds of double takes in 2 years and 8 months. but we like to think ours a little different as we walked past a station wagon and glanced in to

see a lioness lazily gazing at us. We dashed into a nearby cafe to ask in true reporter fashion. just what the heck was going on. Mr. Hipp introduced himself and, accustomed to all the turmoil, very graciously answered our wide-eyed questions like, "Why in the blue-eyed world would anyone want a lion for a pet?" He answered vaguely, don't know. I always like dogs

We found out in a hurry that Blondie was no ordinary, run of the mill pet lion. No sirree, she is a televison star rivalling J. Fredd Muggs in fame. She has appeared with Garry Moore on "I've Got a Secret," with Steve Allen on "Tonight," "The Ted Mack Show" and many others. The "secret" when she appeared with Garry Moore last September was that Garry had slept with the 225 pound lion the previous night. The panel, understandably didn't guess the secret. "That Garry is a swell fellow," enthused Mr. Hipp. "He and Blondie took to each other right away. She learned to comb burr haircuts with her tongue and she started to lick Garry's hair. His eyes went clear to the back of his head," he

laughed. "Steve Allen didn't get a chance to pet her and it's just as have made a new door in the studio," he mused. Having safely braved the terrors of the jungle at a pet shop a couples of weeks earlier, we scoffed at such cowardly display and nonchantly scratched her behind the ears. That's when she got affectionate.

She likes it. Mr. Hipp said he got Blondie at the Dallas zoo when she was only 7 weeks old. The zookeeper warned him he would have to Senator and Mrs. David Ratliff. bring the animal back when she

was 18 months old as she would get vicious. He goofed. Blondie displayed no emotion other than boredom as she patiently walked up and down the street carrying Haskell small fry perched on her back. "She loves children We just came from Old Glory and the school kids swarmed around her pulling and petting She didn't mind a bit," he said.

"It's all a matter of getting them early enough and instilling good habits into them. It's not lion's nature to fight man. As a matter of fact it was a year before I could convince Blondie not to be afraid of people!" He laughed. "I don't think she knows she's a lion. I took her back to Dallas to see her mother and father and it nearly scared her to death. She thinks she's people and I don't think I should tell her any different."

The animal eats 6 pounds of raw meat a day and 8 pounds in the winter. The Hipp's let run loose like their dogs, who incidentally, get along fine with her. The Graham oil man said he had a little trouble getting accomodations at first when he had to be away from home overnight, but nevertheless Blondie frequents many of the best places Like the Henry Hudson, N. Y. or the Texan, The Mayflower and the fabulous Western Motel. "The only trouble is, I can't get any sleep for people coming in to see Blondie," he complained.

soluble Ammo-Phos fertilizer than from common mixed fertilizer.

MAKE THIS EASY TEST

Place one-half teaspoonful of the fertilizer you are now using in a glass of water. Then place a similar quantity of Ammo-Phos in another glass of water. Stir both mixtures for several minutes. Notice how water soluble Ammo-Phos goes into solution while the mixed fertilizer collects at the bottom of the glass. Even if left for several days, the ordinary mixed fertilizer will not dissolve completely.

#### Textbook Inventory Completed in Five Rural Schools

was recently completed in the ru-ral high schools of O'Brien, Weinert, Mattson, Paint Creek, and Sagerton, announces Miss Jessie Vick, County School Su-perintendent. The inventory was taken by the superintendent with the assistance of the teachers in each school.

The inventory is a new proce-dure for Haskell County as the dure for Haskell County as the county office was not required to handle the textbooks for rural high schools until this year, said Miss Vick. Previously each rural superintendent kept his own textbook records and requisitioned the new books the school needed. The books no longer needed were The books no longer needed were sent to Austin, she stated.

Last year the county office was required to assume all the text-book records and keep a com-posite record for the county schools. Also a composite requisi-tion of new books must be made for all these schools. All new textbooks are to be returned to the state depository from the county office.

The county superintendent r ports that last summer 65 cartons of new textbooks were re ceived about 35 or 40 cartons and sacks of old books were sent in to the state office. The latter included books which had expired after use in the schools from 5 to 7 years, others were worn out, but not expired and the entire event had been very alill others were in excess of county needs.

It is estimated that some 15,-(60 textbooks were accounted for that the entire student body might in the county superintendents' have the opportunity to hear a office last summer in the trans- speaker in the field of his vocafer of the records and in handing of the books that came

Opinions of the students concerning Career Day, 1956, were reflected by June Cook: "I went to the business section and I feel that I learned several interesting points, such as the oppotunities and salaries in that field. They also explained what 1 might get from a college as opposed to a business school. It was all very informative." John Darnell: "I think the speakers were very good sports and answered all our questions. I learn-ed a lot and I just hope it's as good next year." Efficiency of Haskell's Fire Department Shown in Subduing Stubborn Blaze

If every citizen of Haskell able to subdue flames which had could inspect at first hand the spread between the ceiling and damage caused by fire in one of roof of the entire structure. One damage caused by life in one of the largest buildings in the business section Saturday morning, they could fully appreciate the efficient work done by firemen in subduing the stubborn blaze.

It wasn't a spectacular fire for the handful of spectators who were attracted downtown by the department of the entire structure. One of the inspectors said: "I don't believe any department in the larger cities could have done a more efficient job of fire fighting."

Key factor contributing to the efficiency of the volunteer fire were attracted downtown by the alarm a few minutes before 4 a. m. They saw billowing black smoke pouring from windows on the second floor, but little flame

Firemen saw that, too, and morning. more. They saw the threat of an entire business block swept by

Also demonstrated was the loyalty of the volunteer organifire unless it was controlled in a zation, with every member of the department except those who were out of town responding to the alarm.

Haskell people time after time have shown their appreciation of the local fire department. In turn, the volunteer organization is providing the type of fire protection which merits praise.

Taxpayers also can appreciate the fire department from the financial standpoint. Cost of roundthe clock fire protection for the year ending March 31, 1956, was about 50 cents per hour-

Total cost of operating the fire department for the last fiscal year was \$4,430.28. That sum included salary of a paid fireman, supplies, insurance, telephone, repairs, etc.

## Ford Trucks Cost Less!

Ford costs start low. Ford costs stay low...

Certifled studies show Ford Trucks last longer than any of the other four leading makes

Compare Ford model for model with any other truck line and you'll find that, based on factory-suggested list prices, Ford has more models priced under competition than any other line.

But low initial cost is only one of the reasons why Fords cost less. Take resale value-it stays high, thanks to the demand for used Ford Trucks. Take operating costs -no other trucks give you the dependability of Ford's rugged chassis design with the gas and oil economy of a modern Short Stroke engine. Only Ford gives you a Short Stroke engine, V-8 or Six, in every truckand at no extra cost.

Ford Trucks cost less to maintain because they last longer. This is a fact certified by independent life insurance experts. There are plenty of reasons why. Ford Pickups, for example, have the highest combined front and rear axle capacity in the half-ton field. Ford Heavy Duty engines have sodium-cooled valves that last up to five times longer because they run up to 225 degrees cooler.

When you take everything into consideration, you'll agree it costs less to own a FORD Truck. Before you buy any truck, see your Ford Dealer.

#### Nation's Housewives Favor Return to "Old Family Way of Life" in Homes

back-to-the-kitchen trend he consensus of opinions at a meeting of 103 of the nation's housewives, in Washington, D. C. April 23-25 according to Mrs. W. P. Ratliff of Haskell.

Mrs. Ratliff, accompanied by her husband, was one of the representatives from Texas at the Congress called Housing Administrator Albert M. Cole to find out what the women of the country didn't like about the American

She says the whole thing started in the middle of a sandstorm as do most things in West Texas. She was watching the "Home"TV show and heard them tell about the letter writing contest. So she sat down and told them exactly what she thought and promptly forgot about it.

About a week later, Edward Dee, regional director for the FHA asked her to come to Fort Worth to make arrangements for the trip. "I didn't dream that they would have TV cameras there. Mr. Dee said he didn't tell me over the phone because he was afraid it would scare me away. I told him he was so she declared.

It was a real thrill to meet women from all over the nation," said Mrs. Ratliff. She went on to say that although the women from the other sections differed in climate, styles of homes and many other things, they nonetheless all agreed that the "old family way of life" should be stressed more in modern living. "It was also brought out," she said. "that it would be better to have the schools and churches smaller and closer together. In the schools with 2,000 or more children, potential leadership is destroyed

One of the more exciting excursions of the trip was the tour of the White House and an intro-

#### Indians Win Two, Drop One, During Past Week

HHS Indians entered two wins and loss in the books in high school conference baseball play during the past week, being edg-ed 2-1 by Rotan, while shutting out Anson 6-0, and topping Hamlin 8-6 here Tuesday night.

In games this week, the Indians travel to Merkel Friday night, then host Rotan here Tuesday night. With their 4-1 season record, an Indian win over the strong Rotan team would give Coach McClung's Redskins a top in the conference race.

In the loss to Rolan, Indian scored in the first frame, and the trons Club. game went overtime until Rotan tallied the winning counter were Starr and Richard Spinks. Indian moundsman Jerry Larned allowed only one hit in leadng ire Tribe to a 8 i win over Anson Friday night. Big guns for the Redskins were David Josselet with two doubles and a triple in four trips, and Cliff Spinks with two doubles in three times up. Larned marked up six

In Tuesday night's 8-6 defeat of Hamlin, the Indians used Starr for four innings, with Spinks relieving in the last three. Starr's four-bagger in the first with three on started Haskeil's scoring, then Gary doubled in the second to score three teammates, and the Indians racked up another in the fourth. Jerry Larnest worked behind the place for the Tribe.

#### \$529 Raised for Salvation Army In Fund Drive

The Salvation Army Fund Drive has netted \$529.46 since the campaign began over two weeks ago. reports Wix B. Currie, secretarytreasurer for the Haskell County Service Committee.

Sagerton community contributions totaled \$41.86; Mattson, \$61.75 and Irby, \$29.15. Nineteen workers in the city of Haskell have reported in. The goal for Haskell is \$1,000 with no goal being set for the county.

The local Salvation Army com mittee will carry on a local welfare program with funds derived from the drive to provide food, clothing, and help for needy children to remain in school. Also Salvation Army relief teams are among the first on the scene in case of disaster.

Other services include home for unmarried girls at San Antonio, summer camps for privileged children and mothers, men's social centers that provide household furnishings for families who are burned out and the work in fighting loneliness in public and veteran's hospitals.

The local committee headed by Courtney Hunt, Alfred Turn-bow, Wix B. Currie and Rex Felker, urges everyone to give as much as possible to the Sal-vation Army fund drive, the first in Haskell County.

#### **Tourists Spent** \$412 Million in State Last Year

"A check on the 1955 Texas Tourist Industry" was released today in Austin by the Texas Highway Department. The survey shows that 9.9 million out of state tourists visited Texas last year, an increase of 1.2 million persons over 1954.

In cash value the tourist industry ranks next to the state's annual coton crop, with cotton listed at \$700 milion and tourists at \$412 million for the year just

"Texas has been slow to realtourist industry as a source of cash income," D. C. Greer, State Highway Engineer stated, "but the steady rise of out of town visitors since the end of the war indicates that people in other states are becoming increasingly aware of the state's many attractions as a vacation spot.'

Annual tourist expenditures in 1950 were set by the Department at 276 million. By 1955 this figure has increased \$136 million. Dur-Bob Williams, new resident of ing the same period the number of tourists had increased from 8

Tourist of 1955 spent \$7.53 daily for food, lodging April 28. and other expenses. "We believe this daily expenditure for a vacation is substantially less than is necessary in some of the other 'big' vacation states thus allowing out out of state visitors to stay with us longer and see more of Texas," Greer said

The seven Highway Department Travel Information Bureaus located at the state line were able to increase the itinerary of out of state visitors by assisting in planning and routing trips to include points of interest through-

out Texas, Greer said. In addition to this direct counseling of travelers, the bureaus and the Austn office during 1955 answered a total of 356,506 requests for information on Texas rom potential visitors.

"In spite of the limitations imposed on us," Greer stated, "we in the Highway Department are doing everything to bring Texas to the attention of vacationers from other states. We believe that we have only begun to tap this source of direct cash income, and in years to come we expect to see tourists move ever higher on the scale of top Texas industires.

The Department also takes advantage of every opportunity to furnish out of state newspapers and magazines with photographs and stories on Texas, Greer con-
