S-D Day Can Be Milestone in Traffic Safety

December 1 can be a milestone in the constant fight against traffic accidents and their resultant deaths, according to one of the top traffic safety officials in this area.

manding officer of District 3 of

comprises the 13-county region with headquarters at Abilene. Captain Morahan pointed out that Dec, 1 has been designated nationally as S-D (Safe Driving Day) by Presidential proclama-tion and that Gov. Shivers has issued a similar state-wide proclamation calling upon the citizens of Texas to join in a co-

fic safety. The head of the local area patrol reminded motorists that stirct observance and obedience of the traffic laws will assure a 24-hour period without traffic accidents on that day but, more importantly, it can set a pattern for year-round safety on the

operative effort for greater traf-

streets and highways. "S-D Day can be a milestone in the constant fight against traffic accidents and their resultant deaths," Captain Morahan said, "by showing, through cooperative effort of every motorist and every pedestrian, that the tragic loss of human lives and property is not an inevitable evil which must be tolerated."

Story in Current Post Deals with Texas Land Scandal

The Texas land scandal might be the first multi-million dollar theft in history to be conceived as a piece of legislation that re-quired the approval of the people, Craig Thompson observes in the current (November 12) issue of The Saturday Evening Post.

ues, "the only victims are the taxpayers, including all those whose votes made it possible."
Thompson's article, "Those
Texas Scandals," says the case would set a precedent if Representative John J. Bell is convicted and faced with the question of whether he worked to get the law passed in order to set up the swindle.

The observation is made that the question may never be satisfactorily answered, but the fact that it can be raised is seen as evidence that the land scandals stand unique among big swin-

In the Post article, Thompson tells that Bell has testified that the land program was conceived and written by James Bascom Giles, commissioner of Texas' General Land Office, who was sentenced to prison for theft and

Bell, it is related, worked for the program's adoption, by referendum, as a constitutional amendment. Then, as a state senator, he sponsored the law necessary to make the amend-

ment operative. "But now that he is under indictment for sharing the profits of those who turned this veterans' benefit into an unparalleled larceny," Thompson comments, "his motive has become suspect."

The magazine's comprehensive report on the land fraud tells the parts played by Roland K. Towery, the Cuero newsman who won the Pulitzer prize, and Wiley L. Cheatham, DeWitt County attorney, and the whole incident is referred to as the most explosive scandal in Texas since the impeachment of James E. (Pa) Ferguson in 1917.

Thompson reports that fixing the precise amount stolen will take a long time. However, the topmost estimate at the time of writing was \$10,102,001.

Applications Being Taken for Jobs in Highway Patrol

The Texas Highway Patrol is accepting applications between now and January 1 for appoint-ment as State Patrolmen.

Col. Homer Garrison, Jr., Director of the Texas Department of Public Safety, said that stateexaminations would be given in January and that successful candidates would begin training at the Austin headquarters of the DPS in April. Base pay of a Patrolman, after schooling and a six months probationary period, is \$315

Applications may be obtained by writing to W. J. Elliott, Chief, Texas Highway Patrol, Austin; or by visiting the nearest Patrol District office.

Cotton Acreage 200,000 Acres

The U. S. Department of Agriculture Friday cut Texas' 1955 cotton acreage allotment by 200,-000 acres under the 1955 figure. The department, announcing from Washington the allotments

for 21 states, allowed acreage expansion in five states but set Texas 1956 allotment at 7,410,-893 compared with last 'year's allotment of 7,612.779 acres. The states given increases were Arizona, California, Florida, Illinois and Kentucky. Of these, only Arizona and California are

major cotton producing states. The law also sets up a procedure whereby state allotments are apportioned among counties and county allotments among farms. Farmers will get notice of their sahre before the Dec. 13 referendum in which they decide whether there will be market-ing quotas for the 1956 crop.

All funds received in the name of the Boy Scouts of America are disbursed in accordance with a clearly defined policy. Ac-counts of all receipts and expenditures are made public annually in a report to Congress.

The case of the missing housewife

There's a roast cooking to perfection in the electric range. Ice cream is being made - in the refrigerator. Coffee is percolating. The children's play clothes are being washed clean as new. But there's no one in the kitchen!

One clue solves the case — electricity. It works automatically - Mother doesn't have to stay in her kitchen. Right now, she's attending a P.T.A. meeting. And when she gets home, the dinner will be ready, the laundry done.

Another clue - electric servants work for low wages costs only a few cents a day for the average family. Isn't it by far the biggest bargain in your family budget? The men and women in your electric service company are constantly working to keep it that way.

Next Sunday, Nov. 13, will be laymen's day at St. Paul's Luth-eran Church, and a layman from the congregation will speak at the regular morning worship hour. Last Sunday Dr. Haterius of the Bethel Lutheran Church conducted services at St. Paul's at 9:30 a, m, in the absence of the pastor, Rev. Wendel, who attended the homecoming at Texas Lutheran College at Seguin with Mrs. Wendel. Mr, and Mrs, Herbert Nier-

dieck, accompanied by their son Roy, and James and Sara Lehrman attended the homecoming at Texas Lutheran College at Seguin last week end, James and Sara visited their sister. Margie, who is a student there.

Mr. and Mrs. A. C. Knipling. accompanied by their daughter Dorothy, and her guest, Mrs. Ehler of Wilson, and Gloria Lammert of Old Glory, attended homecoming at Texas Lutheran College at Seguin.

Fed Steers Lower, Cows Steady at Ft. Worth Monday

Movement of cattle and calves was again of moderate proportions at Fort Worth Monday but Northern markets and the Cornbelt reported heavy runs of cattle and hogs and fat cattle weakened, At Fort Worth slaughter steers and yearlings were weak to \$1 lower. Cows and bulls ruled setady with last week's close, Calves were about steady, with high grades and culls firm, and the between grades weak.

Comparative prices: Good and choice slaughter steers and yearlings \$17-\$20; odd head higher; common and medium \$10-\$16.50; fat cows \$9-\$11 and canners cutters \$6-\$9.50. Bulls \$9-\$12; odds to \$12,50. Good and choice slaughter calves \$15-\$17; cull, common and medium \$8-\$14. Stocker steer calves \$19.50 down; stocker steer yearlings \$18 down; stocker cows \$8-\$12.-75, latter price for springer cows and a few with baby calves, the cows averaged 930 lbs. at \$12 .-75, the calves about 100 lbs.

Another day of more than 100,-000 hogs was chalked up by the 12 major markets Monday. At Fort Worth prices were steady to 25 cents lower on butchers and packing sows. Top hogs sold for \$14-\$14.25; and sows at \$11-

last week end with his son and Big Production of Meat Predicted Next Year

Copies of the report of the feed survey committee of the American Feed Manufacturers Association received in Fort Worth last week called for continued high level feeding and meat production.

The committeee of experts from agricultural colleges all over the country included such authorities as Dean Darlow, Oklahoma A&M and Dr. I. W. Rupel of Texas A&M.

They predicted cattle population and feeding about the same next year as in this one. This fall's pig crop was 11 1-2 per cent above a year ago, and a l per cent gain in 1956 spring pigs was seen. Broiler production next year will be up 6 per cent. Turkey production will be up per cent. Milk production will be up slightly, dairy cow population up 1 per cent. Sheep production will continue to rise, especially because of more farm flocks. Laying hens will average 3 per cent lower than this year. Period covered by these findings is October 1, 1955, September

Reserve Trainees May Apply for Officer Rank

Austin, Texas-Young men entering the Army Reserve and completing six months of active duty training may later become eligible to apply for a commission as a second lieutenant in the U. S. Army Reserve, Texas Military District headquarters has been informed by the Department of the Army.

Such personnel must first meet the requirments of attaining the grade of sergeant while satisfactorily participating in reserve training after completing their initial six months training per-

second lieutenants must com-plete appropriate Army extension courses. The applicant must be between the ages of 18 and 28, and be physically, morally and professionally qualified for the appointment. A board of officers will make recommendations as to qualifications of those seeking appointment.

New Sweep-ahead styling New Sizzle to match

What you see pictured here is Buick for 1956— and from the gleam of that "V" grille to the sassy slant of the tail fins, you can see it has no equal for gorgeous good looks.

But what you see from the curb is fully matched by what you feel at the wheel-and that's gospel.

For this Buick gets its zoom from a mighty 322cubic-inch V8 engine lofted to a new record high in power and compression—and from a spectacular new advance in Variable Pitch Dynaflow.*

What's new in the '56 Dynaflow is this: in the first inch of pedal travel-and not with wide-open throttle-your Buick moves from standstill to cruise with silk-smooth, instant and certain getaway.

But comes a sudden need for safety-surge action to get out of a tight spot - and you floor the pedal to switch the pitch of this airplane-inspired transmission. Instantly and smoothly, you're at full-power acceleration - a thrill beyond words.

There's a lot more we could tell you about these great new Buicks-about brilliant new interiors, a superb new ride with a safer "sense of direction," and new safety features everywhere you look.

But the best way to get the whole story of the best Buick yet is right at the wheel of one of these '56 beauties. So drop in this week and do just that.

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century-optional at modest extra cost on the Special

CARD OF THANKS

We are truly grateful to the good friends who did so much for us during our recent sorrow. May we take this means of saying thank you for the many comforting expressions of your friendship and sympathy. We are especially grateful to the doctors and members of the hospital staff, to the ministers, to those who brought food to our homes, and for everything that was done in our behalf.— The Gordon Family,

Birth Certificate

Yes, says State Registrar W. D. Carroll. Futhermore, the new birth record will bear no evidence of the adoption.

If the mother and father of an illegitimate child marry after the birth, can a new birth record be issued showing the child to be legitimate?

Again yes. These and other facts of life and death will get a thorough going-over December 1-2 when city and county registration officials and vital staticians gather in seminar at the Texas State Department

Invitations to attend have been mailed to all registration offi-cials in cities of 10,000 or more, to all health unit directors, and to all county clerks in counties of more than 25,000.
