Turkey Season

The Spring Rio Grande turkey season will open on Saturday, April 2, and remain open through Sunday, May 1. Spring turkey hunting is a favorite of many since matching wits with the wily birds can be an artform.

Calls are almost a must for a good spring hunt, along with camo, and lots of patience.

Hunting hours are one-half hour before sunrise to one-half hour after sunset. In addition to a valid Texas hunting license, a \$5 turkey stamp must be purchased and attached to the license. Regs state that hunters may take three turkeys per license per year. The 1993-94 license tags state "fall or spring", either sex in fall and gobblers only in the spring. Also all license tags must have the date cut out rather than marked or scratched. The beard must remain on the turkey until it reaches its destination and is processed.

According to the Texas Parks and Wildlife Department, the season looks good for our area. No dramatic drop off or increase has been noted. Texas has the largest turkey population in the United States. Estimated Rio Grande turkey population alone is 600,000 (the species seen in our area of the state).

Hunters have an obligation to know their hunting regulations. This information can be found in the 1993-94 Texas Hunting Guide available free wherever sporting goods and licenses are sold.

Great Texas Trash-Off

It's time to take out the trash in Texas.

On Saturday, April 9, some 95,000 Adopt-a-Highway and Keep Texas Beautiful volunteers will help ready the Lone Star State for another colorful wildflower season by participating in the ninth annual "Great Texas Trash-Off". This event, which is part of the Texas Department of Transportation's "Don't Mess with Texas" anti-litter campaign, is considered the largest one-day cleanup in the nation.

This year, TxDOT is adding a new twist to the event by encouraging all Texans to kick the habit for at least 24 hours in observance of Trash-Off day.

In Coke County, 5 Adopt-a-Highway groups; Adult Protective Services, First National Bank in Bronte, Robert Lee FHA/FFA, San Angelo Food Service, and Texas Com-

merce Bank will scour state roadways for litter.

Adult Protective Services, San Angelo Food Service and Texas Commerce Bank are located in Tom Green County but their adopted highway is in Coke County.

For the fourth year in a row, Trash-Off sponsor Coca-Cola is providing volunteers with Texas-sized garbage bags. Last year marked the largest Great Texas Trash-Off in the history of the Don't Mess with Texas campaign, with 85,000 volunteers picking up more than 7 million gallons of litter across the state. That's enough garbage to fill the beds of 17,000 pickup trucks.

Since the Don't Mess with Texas and Adopt-a-Highway programs were launched in 1986, the state has seen a 72% decrease in roadside litter.

Bike-A-Thon

St. Jude Children's Research Hospital has announced plans for the Robert Lee "Wheels for Life" Bike-A-Thon. Mrs. Janie Nazier will serve as coordinator of the event on 4/23/94 8:30 - 11:30 and encourages all residents to support this important community effort.

St. Jude Children's Research Hospital, founded in 1962 by the late entertainer Danny Thomas, is the largest childhood cancer research center in America in terms of the number of patients treated and treatment success. Funding for the treatment and research programs conducted at St. Jude Hospital comes primarily from public support of events such as the Bike-A-Thon.

This year's Bike-A-Thon poster child, seven-year-old Shauna Richters, represents all of the patients treated at this world-renowned pediatric research and treatment facility. Shauna was diagnosed with Wilm's tumor, a malignant growth of her left kidney, in December 1990. Shauna is in remission from her cancer and completed her chemotherapy (anti-cancer drugs) in June 1991. She is doing well and returns to St. Jude Hospital every six months for check-ups. Shauna celebrated her last chemotherapy treatment with a present she had eagerly looked forward to: a new bike.

All residents and businesses are encouraged to lend

Bronte School News

Nicholas Arrott attended the Hugh O'Brian Youth Foundation Leadership Conference on March 11-13 in Dallas, Texas. Each year the students in the sophomore class are given an opportunity to apply to participate in the conference by submitting an application which includes three questions regarding leadership that must be answered by each applicant. The applications are then reviewed by the program committee and one participant is chosen to attend. All expenses except personal spending money and travel to the seminar in each state, are provided by HOBY.

Nicholas is the son of Nick Arrott and Susan Williams, both of Bronte. He is a member of the Student Council at Bronte High School serving as Parliamentarian. Nicholas also participates in football, basketball, and golf. It's great to know that young people like Nicholas will be running our businesses and cities in just a few years. These young people are the promise of tomorrow and HOBY provides these students with an opportunity to interact and discuss present and future issues in education, business, and government.

The following Elementary band students stayed after the concert band performances to perform individually for a judge of a solo or duet. The following is a list of these students: Nicholas Casares, and Shaylon Arrott. They performed a snare drum duet and was rated a I. George Tomes performed a trumpet solo and a piano solo and scored a I on both events. Heather Randazzo performed a piano solo and scored a I. Henry White performed an Alto Saxophone solo and received a I. Rosa Rodriguez performed a Clarinet solo and received a I. Valene Butler performed a Clarinet solo and scored a I. Brooke McCutchen performed a piano solo and received a I. All of these students are to be commended for a job well done. The Cisco judges were very impressed with all of our students.

The students acted "way beyond their years" in their discipline management on and off the bus. HEALTH NOTES

Floss Facts

Flossing is not one of the more attractive aspects of personal grooming, but flossing is credited with reducing plaque and bacteria levels around teeth and gums and it is key for preventing or halting adult tooth loss. A study at the State University of New York at Buffalo shows the mechanical act of floss is more important than the kind of floss you use.

Dr. Sebastian Ciancio and his colleagues in the Department of Periodontics, compared a traditional waxed nylon floss and a new type of floss designed not to fray while flossing. The reduction in the plaque was pretty much the same in both groups of participants. The non-fraying type of floss was reported easier to use, but it generally costs two to three times more than waxed nylon floss. It is not the kind of floss you use, but the act of flossing itself that helps prevent gum disease. Thus, you could apply a popular advertising slogan to flossing. "Just do it."
