THIS IS WHERE TOMORROW STARTS

A new "inner car" gives you a NEW KIND of FORD for 1957!

Coming October 3rd

On Wednesday, October 3rd, Ford Dealers throughout the United States will unveil a new kind of automobile!

Cars are involved in every American's life. News of a new kind of car is the biggest kind of news to millions of Americans.

The Big New Kind of Ford is that kind of news . . . a car totally new in design from crest to trunk lock.

This completely new automotive package will sell at the traditionally low Ford prices.

This makes possible a new high standard of such honest-to-goodness value that it actually increases the purchasing power of your automobile dollar.

When you see it, other cars will look out of date, because . . . This is Where Tomorrow Starts . . . with a Big New Kind of Ford!

The New Kind of Ford is the fullest, most eloquent expression of Ford's special personality—the youthful grace, the whiplash action—and the reputation for durability known wherever there's a road.

To all this we have added true elegance—a kind of elegance never before seen in the low-price field. To make a car truly elegant, you must start deep-down inside.

The New Inner Ford
The Inner Ford—the car you cannot see—is a very remarkable structure. Its frame is actually a cradle. Side members extend almost the full body width; they serve not only as supporting members but as concealed side bumpers of immense strength.

The New Ford Body
The new Ford body is a triumph of engineering in steel. The doors close with the solid finality of a bank vault. Even the door-lock button has been moved up front—easier for you to reach, but out of the children's reach.

All these features were engineered to give you a solid new kind of comfort.

The New Ford Ride
The New Kind of Ford sits six people as no other low-priced car has ever sat them

—six elbows wide in each seat, with deep space around each one of six knees. And above all that space, there's that room to spare for all six passengers.

The 1957 Ford rides low, solid, with a firm, deep road-holding feel. Yet it's a light-hearted, flight-hearted ride—this car is responsive, nimble, agile, with a proud easy movement.

The New Ford Choice
Ford offers not only one, but two sizes of cars . . . each on its own extended wheelbase . . . each with its own body shell . . . each with its own styling.

First, the two Fairlane Series on a 118-inch wheelbase. The Fairlane 500's come in 5 body types, a four-door sedan, a two-door sedan, a two- and four-door Victoria with no center pillars, and a convertible coupe. The same body types (except for the convertible) are available in the Fairlane Series.

Second, two Custom Series mounted on the 116-inch wheelbase chassis. In the Custom 300 Series, a four-door and a two-door sedan are distinguished from the Custom models by more luxurious inter-

riors and elaborate trim. The Custom Series also includes a Business Sedan.

Beyond all these, you also have the choice of five Station Wagons—the famous glamour cruisers that are the champions in this field!

The New Ford Look
That low, low cradle-span frame means a low, low car. The Fairlane 500 is only ten feet eight inches from road to roof! The Custom is just over four feet nine inches tall.

The new Ford is not only low—but long. Ford gives you more than 17 feet of elegant length in the Fairlane Series, a whole inch more in the Custom. It's a nice kind of long just to look at it. It's high priced in every way except price.

The New Ford Performance
You can have up to 245 wonderful Thompson subcompact horsepower in any Ford model. There's a moderate—and really moderate—extra charge for this engine of 101 cubic inches with its 4-barrel carburetor.

For "Six" lovers, we've got the 144hp Mileage Maker Six. Whether you choose Six or V-8, the going is great!

Here is where your own tomorrow starts. It starts at your Ford Dealer's showrooms, October 3.

These are the best Fords of our time. They are the first symbols out of the new automotive age that is beginning for you.

This is where tomorrow starts—at your Ford Dealer's.

This is when your tomorrow starts—October 3rd.

Come in and see us for the Big New Kind of Ford!

Carl Fischer Returns from Fishing Trip In Canada; Says Grain Damaged by Rain!

Carl H. Fischer, well known Haskell farmer and ardent sportsman who likes to fish and hunt where he has plenty of room, returned last week from his annual summer jaunt into Canada.

Accompanied by a nephew, Eugene Fischer of Abilene, the two men traveled by automobile more than 2,000 miles to Flin Flon in Manitoba, Canada, where they spent the greater part of three days fishing in Cranberry Portage Lake, described by Fischer as a "sportsman's paradise."

"We didn't get to put in a single full day fishing, because it was snowing and raining a big part of the time, and we had a time keeping warm and dry," Fischer declared. However, their catch was good, amounting to more than 200 pounds of wall-eye and Northern Pike and lake trout. Their smallest fish was a two-pounder and the largest a 20-pounder, Fischer reported.

The lake where they fished was near a mining town owned by the Hudson Bay Company, 500 miles in the interior of Canada. "It took three days of steady driving to get there, and that long for the return trip—but was worth it," the Haskell man declared.

The Haskell farmer, naturally interested in farm crops along the way, reported heavy rains in the wheat belt along the Canadian border. "They have the best crops in history but 80 per cent of it has not been harvested because of excessive rain. Some of the farmers I talked to feared they might lose their crop if the rains didn't let up soon," the

drouth-conscious West Texan reported.

Teachers on Program at Joint Local P-TA's Oct. 2nd

Mr. Grubbs appeared on the program at the Classroom Teachers workshop held in Portland, Oregon. He has done extensive research on the problems vital to Texas teachers. He is well qualified to speak on the subject announced.

Miss Johnson is past president of the Abilene Association, and is at present their Legislative chairman. She has made a study of the Merit Rating System, and will be able to discuss this subject well. Miss Johnson is teaching Biology in Abilene High School.

The three teachers will form a panel to discuss the subject chosen by the program committee for this first meeting. In the discussion they will endeavor to discuss frankly with the parents the problems so vital to the teaching profession and to offer suggestions on how "We, the People, May Support Our Teachers."

Amendment No. 4 will be discussed. The passage of this Amendment is very vital to the future of our schools in Texas. Parents can support the amendment in November by going to the ballot box and casting their vote in favor of the amendment.

The Evils of Unions, and the Evils of the Merit System of Rating will be discussed frankly with the parents.

Several other subjects close to the hearts of teachers will be presented to the parents. It is necessary for the welfare of our children and the future of our schools for patrons of the school to know and understand these problems, and then work with the teachers for the betterment of our schools.

After the discussion there will be a period for questions and answers. Panel members will endeavor to honestly answer all questions. We hope all parents will attend and feel free to discuss these vital issues.

After the program, there will be a social, "A Get Acquainted" period. Every parent in Haskell is urged to attend this meeting to hear "How You May Help Support the Teachers in Haskell," and not only Haskell, but our State and Nation.

Mental Health is Program Topic For Study Club

A program of the progress made in the field of mental health was given by Mrs. Joe Williams when she spoke on "Do Cows Have Neuroses?" before the members of the Progressive Study Club, Thursday in the Homemaking Cottage.

In answering her own question, "Do Cows Have Neuroses?" Mrs. Williams stated, "No, in general, they do not. However people do." She stated that, to know oneself, was once a luxury, but now it is a necessity. Mental health is an inner stability, peace of mind and emotional health. Mental illness is an illness and needs medical help, said Mrs. Williams.

Much progress has been made in the field of mental health, emphasized Mrs. Williams, but the reason there are no more cures than we now have, is because, "Mr. and Mrs. John Q. Public have neglected these institutions. We have made step-children of our mental hospitals." In concluding, she reminded members that it is almost an impossibility to make an adult mentally ill if he has had normal family relationships as a child.

During the business session preceding the program, two new committeemen were elected to the nominating committee. They were Mrs. W. O. Holden and Mrs. W. H. Pitman.

Others on the program were Mrs. Dugan Starr who spoke on "Meet Yourself" and Mrs. W. C. Johnson with the meditation on world religions, Judaism. Refreshments of cookies and lemonade were served by the hostesses Mrs. S. W. Flournoy and Mrs. H. T. Wilkinson.

Rosalee McCall In Austin College Leader's Group

Rosalee McCall, 304 N. Ave. E. was among more than 70 student leaders who were at Austin College, Sherman, early to welcome new students in orientation activities.

She is secretary of the Austin College Student Association and is the daughter of Dr. R. K. McCall of Haskell.

The Orientation Committee members arrived Sept. 13 to make final plans for a week of activities for new students.

Approximately 130 freshmen and 20 transfers arrived Sept. 20 to begin the college's 107th year. Their busy first week included a dinner for them and their parents, counselling and placement tests, a picnic at nearby Lake Texoma and the college's first football game of the season Sept. 22 with Southeastern State Teachers College of Durant, Okla.

Registration for new students began Sept. 24, for upperclassmen Sept. 25.

Another member of the orientation committee from Haskell is John Duncan, 506 N. Seventh St., son of Mr. and Mrs. Belton Duncan.

HERE FROM DENVER CITY

W. C. Allen and son, Jesse Allen, of Denver City, spent several days this week visiting relatives and friends. W. C. Allen, ex-sheriff and former City Night-watchman here, moved to Denver City last summer. Jess Allen has been engaged in business in that city for a number of years.

SPENDS WEEKEND WITH PARENTS

Franky Don Mullins, who is attending John Tarleton State College, Stephenville, was home for the weekend visiting his parents, Mr. and Mrs. Raymond Melton and family.

Roughage Program In State to Be Reappraised

The volume of approved applications for assistance under the Texas Emergency Roughage program has exceeded the estimates of demand made when this program was negotiated to the extent that it has become necessary to reappraise the actual cash requirements. This information was received this week at the office of Wm. E. Lawson, FHA supervisor.

The agreement between Secretary Ezra Taft Benson and Gov. Allan Shivers provides for an allocation of one million dollars of Federal funds for the roughage program. Funds available to the U. S. Department of Agriculture to finance roughage programs must be allocated among all disaster designated states where such a program is needed.

Walter T. McKay, Texas State

Director of FHA, has been instructed by K. L. Scott, director of Credit Services, U. S. Department of Agriculture, to immediately instruct all FHA county offices in the designated areas to withhold further approvals of roughage purchase certificates. The county offices are authorized to continue to accept and hold on file applications for assistance under this roughage program, but are instructed to take no action on these applications and to make daily reports on the tonnage requirements covered by such applications to Mr. McKay's office.

McKay has been asked to solicit the assistance of the Texas USDA Drouth Committee and the office of the Governor in making a careful reappraisal of the demand for assistance under this Emergency Roughage program including financial requirements.

Scott stated that in keeping with the policies and the desires of Sec. Benson, the department will continue to work closely with Gov. Shivers and leaders in the State and give all assistance possible to drouth stricken farmers and ranchers in Texas.

Starting to Build? Then Insure Today

Anybody who starts to build anything should get "builders risk" insurance the day he starts.

It protects you against loss of a partially built building by fire or lightning. A workman's torch, a loiterer's cigarette, a brush fire or a bolt of lightning may wipe you out before you even get started.

And, though you have a bona fide contractor who has provided for payment of employees' compensation, you should also have liability insurance to protect you against accidents to members of the public.

(Continued from page 1) officers requested that a watch be kept on roads north of that city for the suspect and a description of the wanted man was given.

Officers credited the apprehension of Martinez shortly afterwards to the quick thinking of a Rule Negro, Grady Hughes, about 50.

Hughes was in the City Hall, and after hearing the description of the armed man, the Negro drove to his home in North Rule, near the cotton oil mill and a placed a shotgun in his car. Driving to a cross road leading onto the Rule-Jud highway, Hughes saw Martinez walking a short distance away.

Hughes brandished his shotgun and hailed the Latin American, who raised his hands and indicated he wanted to give up.

Luckily, Sheriff Warren Frazier of Aspermont, driving toward the scene of the shooting, saw the two men and also recognized the wanted man. Sheriff Frazier stopped and took Martinez into custody, notifying other officers by radio. Martinez offered no resistance and surrendered his loaded revolver to the officer.

Brought to the Haskell jail, Martinez was questioned by officers and District Attorney Royce Adkins concerning a motive for the slaying.

Martinez admitted shooting Mrs. Luna, and later gave a signed statement to District Attorney Adkins in the presence of Sheriff Pennington, Constable Denson and other officers. Martinez reportedly claimed that the woman and her husband owed him \$10 which they had failed to pay.

The district attorney and officers were assisted in questioning Martinez by G. W. Archer, U. S. Border Patrolman from San Angelo who was working in this area the first of the week.

The case was referred to a 39th District Court Grand Jury Tuesday morning and the murder indictment against Martinez was returned at 4:30 p. m. Tuesday. District Attorney Adkins said he would seek an early trial of the case.

Martinez told officers his home was in Duvall County and that he has a family there. His wife is a sister of the slain woman's husband, officers were told.

He talked freely in broken English to officers following his arrest and accompanied them to the slaying scene, leading them to the place where he had emptied the shells from his .38 caliber pistol and then reloaded the weapon. Sheriff Pennington said three empty shells cases and one loaded shell were found at the spot.

Asked by officers if he wanted his family notified, Martinez shrugged and answered "Me no care," apparently unworried about the murder charge pending against him.

Mr. and Mrs. Luna and their family came from Kingsville to the Rule section in July, officers were told.

Funeral rites for Mrs. Luna were held at 4 p. m. Wednesday in Pinkard Funeral Chapel in Rule, conducted by Father R. A. Goddard, Catholic priest of Stamford. Burial was in Rule Cemetery.

Mrs. Luna is survived by her husband, Alfredo; four sons, Julio, Alfredo Jr., Armando and Juan; a daughter, Anna Maria; her mother, Mrs. Manueto Madrano of Kingsville, and several brothers and sisters.

VISITING IN WEINERT
Mrs. James Hudgins and Paula Ann of Odessa are visiting Mrs. Hudgin's parents, Mr. and Mrs. R. W. Herricks in Weinert.

Paint Creek . . . Community News

MRS. GENE OVERTON

It would be fun to see the central part of Paint Creek from the air these days, and see the shiny metal roofs of the new chicken houses. Tom Ballard, Dale Middlebrooks and Paul Fischer have finished their chicken houses, and are ready for the baby chicks. Paul's house is 35 feet by 107 feet, and he will receive 1200 baby chicks the first week in October. Mr. Ballard and Dale will receive theirs later on. They buy the baby pullets and the roosters are furnished them by the hatchery. They have their market for the hatching eggs guaranteed, and all they do is all the work, and believe you me, raising 1200 baby chicks can be lots of work. But hatching eggs brings lots of money, so there is compensation.

Mrs. Walter Nanny, who has been a patient in the Haskell Hospital for the last four or five weeks is much improved, and will be able to return home soon. During her stay in the hospital she underwent surgery for the removal of a gall stone.

Harvey Terrell has been quite ill in the Stamford Hospital since his surgery. He had stomach surgery. But he is much better now.

The Methodist Church closed their "weekend" Revival Sunday night with three additions to the church by baptism. Arvie Bergstrom, Gene Bounds, and Beverly Jean Kuenstler all united with the church. Rev. V. P. Morrison of Strawn preached for the revival, and Rev. J. E. Thompson led the song services. Everyone enjoyed the services, and there were many visitors from Haskell and from people in the community who are members of other denominations.

Mr. and Mrs. W. S. Cox and Mr. and Mrs. Glenn Walton took their daughters, Helen Jean and Glenda to Denton Sunday where they enrolled in N. T. State College for the fall term.

Little Doty Earles was able to return home from the hospital last weekend. She had spent three days in the hospital suffering with strep-throat.

Mrs. J. C. O'Neal, Mrs. Dan McRae and Mrs. Gene Overton were in Haskell Thursday afternoon for the meeting at the court house of the County TB Association. Distribution of the TB Christmas seals was discussed. Mrs. W. P. Trice is the county chairman.

John Hise is home from the plains where he has been running a combine in the maize harvest.

Mr. and Mrs. Raymond Grissit of Lubbock were week end visitors with her parents, Mr. and Mrs. Raymond Bounds and Gene. Mr. and Mrs. Morris Maynes, Mr. and Mrs. Bill Griffith, Bro. and Mrs. A. L. Eubanks and Sammy Griffith attended the Baptist Worker's Conference at Weinert last Friday.

Friends who have been asking about the condition of Carol Tolver who was injured when a truck hit his bread truck and struck the door against him in Avoca the other day will be glad to learn that he regained consciousness late Friday afternoon. He had a slight concussion and a deep cut on his left temple and one arm was deeply cut, requiring stitches. He also was bruised and skinned pretty badly, but except for the headache, and soreness, he is feeling much better.

Mr. and Mrs. Homer Livengood and son spent last week end with his brother and family, Mr. and

Mrs. Earl Livengood at Abernathy. They said the crops between here and Abernathy were wonderful. Some of the maize will make 6000 pounds or better. Imagine!

Mr. and Mrs. Nelson Crouch and son Jansco from Lorenzo spent three or four days with Mrs. Crouch's sister, Mrs. Ver-nay Howard and family.

The Cub Scouts of Pack 48 and their parents met in their September Pack meeting last Monday night. The program was directed by Lem Ivy, Pack Master and after a song fest, a stunt by the Dens, showing their hand-work and several games, Ver-nay Howard, the Advancement chairman, gave the Wolf rank award to Billy Patterson and Eddie Dawson McKeever.

Mr. and Mrs. Morris Haynes and son William recently spent the weekend with their son, Morris, Jr. and family in Fort Worth. Morris, Jr. is to be the billing officer for the Baptist Seminary this year. Well, I guess not an officer. That's what we called them in the army, but he is to find housing for the Seminary personnel, like billeting officers found houses for us in the army. He also has had some of his cartoons accepted by a magazine. It is a publication for county sheriffs and think Morris is to furnish 8 or 10 cartoons for this magazine every month. This is all besides his regular job.

The junior football boys went to O'Brien last Tuesday night and were defeated 30-13. They vow they'll do better this Tuesday against Matison—we'll see.

Mr. and Mrs. Brooke Early with their daughter Alice entertained a group of the young people last Friday night with a picnic supper and a party at their ranch home in the southeastern part of the community.
