Taxes Climb Steadily

Property owners who have seen their tax bills, from the national level down, steadily increasing each year, can hardly be blamed for lack of enthusiasm in accepting the recent pronouncement of the Board of Equalization that a 25 per cent increase in tax valuations of the Haskell Independent School District was of imperative necessity.

However, the need for an "across the board" increase was plainly apparent in the higher operating budget for the current school year, and the fact that valuations of oil property in the district has declined heavily and steadily for the past several years.

Taxpayers may as well face the fact that this situation will continue in the future, and that further increases will eventually be necessary to meet rising costs of maintaining and operating our schools.

These same factors of higher costs apply in an equal measure to our city and county government, where revenue at present tax levels is barely sufficient to meet operating expenses of municipal and county governing agencies.

The recent Legislature saw the necessity of increasing taxes, in the form of higher fees, increased tuition in state schools, etc.

Without a doubt, we believe that both the city and county will be faced with the necessity of increasing tax valuations in the very near future in manner similar to that of the School Board. There is no alternative, since no other revenue source is available for general purposes except taxes.

However onerous a tax increase might be to many taxpayers, a better understanding of the necessity for additional tax revenue can be gained by the individual taxpayer through a study of the budgets prepared each year by the various government agencies.

At the recent public hearing on the School District budget, only three taxpayers attended, aside from members of the School Board!

If thirty, or better still, three hundred taxpayers had been present to study and discuss the budget, their opinions and suggestions would have been helpful to the Board, and welcomed as well. Too, taxpayers would have gained the knowledge of how and for what purpose their school tax dollar was being spent.

The same applies to the city and county budgets. Officials charged with the responsibility of deciding whether tax increases are necessary will welcome the opinions and suggestions of the taxpayers.

We hold the opinion that no school, city or county official desires to spend tax money for purposes or services which do not meet the approval of a majority of tax payers.

For that reason, it is your duty to attend the public budget hearings and cooperate with your elected officials by giving them your opinion.

Special Session No. 72

Special Session No. 72 of the Texas Legislature will convene in Austin Oct. 14.

Throughout the summer there was lively debate as to whether such a step should be taken. Gov. Price Daniel put an end to speculation by setting the date. Purpose of the session, as stated by Gov. Daniel, will be to enact laws in regard to lobby control, representation before state agencies, crime study and water development.

Calling special sessions has been more the custom of Texas governors than not. Of the 71 previously called since Texas became a state, 41 have fallen in the 46-year period since 1911—almost one a year.

With the exception of Beauford Jester and W. Lee O'Daniel, all of Governor Daniel's predecessors in the past 30 years called lawmakers back at least once. Gov. Dan Moody holds the record for keeping the Legislature busy. In 10 months of 1929 and 1930 he called five special sessions.

Runners-up are Gov. Miriam Ferguson, who called four in 1933 and 1934, and Gov. Ross Sterling, who called four in 1931 and '32. Gov. James V. Allred called three in 1935-36 and two more in 1936 and '37.

In those days a legislator had to keep his bag packed.

Fatal Escalator

(Wichita Falls Times)

A motorist involved in an accident while driving 25 miles an hour has good odds of 1 out of 300 of not being fatally injured.

As the speed goes up, the odds are markedly reduced. At 35 miles, one in 115 is killed; at 45 miles, one in 70; at 55 miles, one in 40; and 65 miles, one in 20; and at 75 miles, 15 miles an hour over the daytime limit in Texas, one in eight.

Remember this fatal escalator when tempted to go a little faster.

People, Places, and Things

By A. PATE

Word comes indirectly from Gilbert Smith, Austin attorney, that he will be unable to attend the 1937 Homecoming here next month. Gib's absence will be noted by his many friends, and the Homecoming will not be quite as lively for those who knew the Austin man intimately when he was a student in H.H. S. Gib's friendly, personable manner and persuasive traits were the envy of his classmates and despair of his teachers, at times.

In those days, a summons to the principal's office meant stern discipline was in store for the unfortunate student. Not so for Gib. An infectious grin and flow of flattery which always included some nice things he'd heard his elders say about the principal, followed quickly with a frank admission of some youthful error, real or fancied, and ending with an earnest plea for advice, always got the job done for Gib. Any disciplinary measures the principal had in mind always seemed to vanish.

Gib's friends were, and are, legion. And loyal. After moving to Anson when he practiced law, Gib was elected County Judge. In his first campaign a series of speaking dates was scheduled in the neighboring county. Although not qualified to vote in the Jones County race, Gib's Haskell friends were determined to help with moral support.

At the first rally, Haskell friends were there in force. When Gib started to speak, the cheering section from Haskell went into action. Fired with enthusiasm and er, ah, we'll call it exuberance, they applauded almost every word and gesture of their former classmate.

Following that experience, Gib, always a diplomat, suggested that as a result of their initial effort he felt he had his race "in the bag" and that it would not be necessary to organize any more supporting caravans. Gib was right. He was elected.

The assignment of Highway Patrolmen to Haskell in the recent reorganization of DPS activities, may be incidental to the subject, but there has been a noticeable reduction in speeding on the streets of Haskell during the past ten days.

Walter Viars Felker, 7, is our nominee as Haskell's friendliest and most personable junior citizen, a fellow we predict will make his mark in the world. He never meets a stranger.

Passing through the courthouse the other day, Walter Viars spied Game Warden H. B. Iverson in his trim uniform, gun in holster. Approaching Iverson, Walter Viars remarked, "You're an officer, aren't you?" When Iverson replied that he was a game warden, the query followed: "What do you do?"

The friendly warden explained that his job was to see that people observed the hunting and fishing laws to keep them from killing too many birds or catching too many fish, so there'd be plenty for everyone.

Walter Viars commented proudly, "My Uncle Shady went hunting yesterday and he got 40 birds." The boy had heard his uncle and three companions report they'd got their limit on the previous day.

Had the Civil War not intervened, the first railroad from the East to California might have followed the old Butterfield Trail through this section, Bernard Buie of Stamford pointed out in a talk

Scott's Crossing. Shortly before the outbreak of the Civil War, Northern capitalists were envisioning a railroad to California along the Butterfield route. Buie said. Another historic fact revealed by the Stamford man was that a stone house built west of Fort

Cooper in the 50's by a pioneer cattleman was the westernmost residence in Texas at that time. He added that research would discover many historic points in this area worthy of recognition and which should be appropriately marked.

Mrs. Jewel McLennan is attending the Scoggins Beauty Academy in Abilene.

Eddie Mack Earles, son of Mr. and Mrs. Mack Earles, is working in Monahan's and may attend night classes in Odessa Junior College. If he does that will make 11 of the 15 seniors who graduated attending college. I am sure that is some sort of record. The others have good jobs. Howard Scheets is working for the highway department. Cynthia Russell is bookkeeper at Market Poultry & Egg Co. Clarence Isbell is working in the oil fields at Graham and Martha Stephens married. Fine ambitious young people we have in Paint Creek.

The Paint Creek Methodist Sunday School had a picnic supper at the church on Wednesday evening honoring the three boys who were leaving for college. After supper some films were shown and gifts of stationery were presented. Arvie Bergstrom, Waller and William Overton from the church.

The children of the late Mr. and Mrs. J. S. Grand enjoyed a family reunion at the home of Mr. and Mrs. Russel Grand recently. Present were Mrs. Emma McDonald from Kerrville, her son Robert, his wife and two children from Houston; Mr. and Mrs. John Grand, their son Bud, his wife and two children, and daughter, Barbara; Mr. and Mrs. Jim Dean, their son Jesse, and their daughter; Mrs. Dale Middlebrooks, Dale and Phyllis, Alfred Grand and his children, Helen, Linda, and Mrs. Winfred Andress and two children.

Mrs. Ray Overton Sr. received word last week of the death of a cousin, Miss Naomi Smith of Seattle, Washington. Miss Smith was reared at Avoca and Stamford, and was affectionately called "Pet" Smith. She visited in Paint Creek about three years ago. She was about 65 years old, and died of a heart attack. Burial was Wednesday in California.

Mr. and Mrs. Raymond Bounds have as their guests this week their daughters, Lt. and Mrs. Harry Logan from Victorville, Calif., and Mr. and Mrs. Ray Dean Gressett and Kristi from Lubbock. Mr. and Mrs. Gene Bounds and baby daughter from Stamford were Sunday guests also.

Mr. and Mrs. Roy Overton spent Sunday and Monday in Petersburg visiting Mrs. Overton's sister, Mrs. Catherine Terry. Mr. and Mrs. W. A. Montgomery also went with them and visited Mrs. Montgomery's sister and husband, Mr. and Mrs. Clyde Gordon. They also visited a nephew, Clyde Lynn Gordon and his family in Lubbock.

Mr. and Mrs. Durward Livengood and Mrs. Beatrice Livengood of Kaufman were hosts Sunday to Mrs. Livengood's family as they celebrated the 90th birthday of her father, J. T. Jones. Mr. Jones' birthday won't be until the 9th of October, but he is returning to Kaufman with Mrs. Livengood to spend the winter, and his children near here wanted to have a dinner before he left. Attending were Mr. and Mrs. Jack Jones and family from Abilene, Mr. and Mrs. Charlie Jones and Mr. and Mrs. Ray Jones, from Tokio, Mr. and Mrs. Clyde Lewis and Mr. and Mrs. L. B. Baker from Hamlin, Mrs. Katie Baker from Stamford and the guest of honor.

Mr. and Mrs. Wayne Peiser and son Robbie Dale from Dallas were week end guests of their parents, Mr. and Mrs. Johnnie Earles and Mr. and Mrs. Alton Peiser of Mattson.

Mr. and Mrs. Gene Overton and Mike had Sunday dinner in Rule with Mrs. Overton's parents, Mr. and Mrs. L. W. Jones Sr.

Little Brenda Hisey, daughter of Mr. and Mrs. John Hisey, has been a patient all last week in the hospital with bronchial pneumonia. She has returned home now and is getting along nicely. Her two little brothers, Danny and Don, spent the week with their Grandfather and Grandmother Kuenstler.

Our Vocational Ag. teacher,

Willie Lee Medford, received his Masters of Education degree at the graduation exercises of Abilene Christian College this summer.

Mr. and Mrs. Bill Mickler were in Abilene Monday where Mr. Mickler had a medical checkup at a clinic. He is feeling better. Gene told me the doctor told Bill to play dominoes more often, but I knew that isn't so, or half the men in Paint Creek would have rushed down to that doctor Tuesday for a duplicate prescription.

Freddie and Jimmy Shaw of Midland visited their parents, Mr. and Mrs. Fred Shaw last weekend. The Shaws spent the weekend before last in Fort Worth with her parents, Mr. and Mrs. W. D. Martin.

Mr. and Mrs. Lonnie Bounds were guests Sunday of her parents Mr. and Mrs. Garland Calloway. Lonnie has recently been transferred from Abilene to Haskell where he will be the manager of Perry's Store.

Mr. and Mrs. Jack Alston and son of Abilene visited his mother, Mrs. Emma Alston, Chester and Lindburg, last week. They all went to Houston and visited relatives there.

Football is in the air, and we have had two games so far. Friday, Sept. 6, the team and pep squad and a few fans drove half way up in the Panhandle to Bula where the boys played in a driving rainstorm. It rained about 3 inches just before we got there, and I'll bet it rained another inch during the game. The ball was slick and muddy, the players were muddy and the game was a mess. When we could see them through the rain, both teams looked as if they were pretty good clubs. The score was 16-6 in favor of Bula.

Then last Thursday we played on our own beautiful grass on a beautiful moonlight night and the beautiful score was 32-26 in our favor. The team is young and inexperienced with not one of them ever having played a full game in his life. Coach Morrison has every boy in high school except two, coming out for football. Roy Petrich will be out for some time because he broke his collar bone in the Bula game and it is in a cast. This coming Thursday we play Mattson here.

Coach Raughton has one of the best Junior clubs Paint Creek has had in years. They have grown so much, and have learned to block and tackle better. They played Mattson last Tuesday winning 26-0, and the play O'Brien this week here.

I had thought when my typewriter had to go to A&M, I would retire from this news gathering business. But you Paint Creekers are getting spoiled to have some news in the paper instead of getting it at church and the ball games like you used to. So many of you asked me to keep on, that Mr. Clark found this old typewriter for me. I don't think it likes me much, and it doesn't spell any better than my old one, but it beats writing news in long hand, so keep me posted about your company and comings and goings, and I'll write it down.

CARD OF THANKS

We wish to extend our deepest thanks to all those who have given of their time and money during my illness. The cards and flowers are also greatly appreciated. May the Lord bless each of you.—Mr. and Mrs. Claud Linville. 38p

Farm operators who have not
filed a claim may obtain Form
2240—the reporting form—from
local county agricultural agents or
Internal Revenue Service offices.
Bates points out that claims will
be checked for accuracy and
claimants, therefore, should be
certain that figures are correct.
Sufficient records should also be
kept to verify the claim, he adds.
Claims should be submitted to the
same district Internal Revenue
office to which the tax returns are
sent.
The legislation which makes
possible the refund was passed
by Congress in the spring of 1956.
