Investigating officers tools and equipment on the back porch that indicated he had been cleaning the gun at the time of the accident. The body was found a few minutes after the accident by Allen Morris, who had fed some stock in a field nearby and stopped to visit with Mr. Cobb. Justice of the Peace G. W. Piland returned a verdict of death by accidental gunshot wound. Funeral for Mr. Cobb was held at the Rockdale Community Baptist Church at 2 p. m. Wednesday, with the Rev. M. D. Rexrode, pastor of the First Baptist Church,

and Minister Guy Harris of the Christian Church officiating. Interment was in Willow Cemetery under direction of Holden Funeral Home. Mr. Cobb was born Jan. 5, 1917,

in Haskell County in the Cobb community, which was named after his grandfather. He was married to Patsy Ruth Pate of Haskell, Oct. 13, 1949.

He was a member of the Rockdale Baptist Church and the Has-kell VFW.

Mr. Cobb entered the Navy in December of 1941 and served until

November of 1945. He had served on the Haskell County Commissioners Court for three terms, from 1947 to 1952. He was a farmer-stockman at the

time of his death, He is survived by his wife, Mrs.

Pallbearers were cousins of the deceased: Carlton (Brooks) Middleton, S. G. Cobb Jr., Clifton Cobb. Bob Posey Jr., Jay New-comb, Rudolph Middleton, Gentry Middleton and Hal Cobb.

Dale Condron Is Guest Speaker at Rotary Club

The average individual does not realize the importance of making a will, Dale Condron, Haskell attorney, told members of the Ro-tary Club at their regular meeting and luncheon Thursday at noon in the Texas Cafe.

In a highly informative talk, the guest speaker explained the community property law and its bearing on the disposition of property. He also deaft with other statutes, and the various types of wills, along with a brief review of the state and federal inheritance tax regulations, probate laws, and fices as in the past. other rules applicable in the disposition of estates.

Kay Culberson, talented High School student, was guest pianist at the meeting, and was accompanist for the club sing-song.
Other guests at the meeting and luncheon were W. O. (Bill) Holden of this city and Newton Starnes of Stamford, and visiting Rotarians A. H. Wair of Graham, J. L. Hill, Hubert Bradshaw, K. K. Francis, Jim West, and Cleburn Huston of Stamford.

An All-Important Election

Residents of Haskell will have an opportunity next month to vote on a proposition which will have an all-important bearing on the future of Haskell and its trade territory,

The occasion will be the confirmation election to be held June 17 in all towns comprising the North Central Texas Water Authority-Haskell, Rule, Rochester. Knox City, Munday, Goree and Seymour. Locally, all qualified voters who are residents of Haskell,

will be eligible to vote. Only question on the ballot will be whether Haskell joins in the North Central Texas Water Authority, or not. No bond issue nor tax matter is involved in the election. A

favorable vote to confirm Haskell's membership in the NCT Water port, La. Authority will permit this city to join with its neighbors in developing jointly a solution to the municipal water problem, When the member towns in the water authority are deter-

mined (in the June 17 confirmation election) a definite program for development of the Miller Creek reservoir project can be undertaken. Cost of the project has been estimated at \$6.5 million dollars for the completed system serving the seven towns in the district. The

cost would be defrayed by a bond issue of \$6.5 million dollars, the bonds to be retired by revenue from the sale of water and a small ad valorem tax.

However, the bond issue will be in a separate election, and after the confirmation election on June 17.

By voting for confirmation of Haskell's membership in the NCT Water Authority, Haskell voters will be taking advantage of an opportunity to share in the benefits of an almost unlimited supply of water for all domestic and municipal needs

Searching for Bargains

Stretching a dollar as far as it will go is good business practice, a trait well worth cultivating by everyone. However, it is difficult to understand the person who spends two dollars to stretch one.

Every community has a sizeable number of penny-conscious shoppers who will travel from twenty to fifty miles in search of a bargain. Such buying is usually unwise and wasteful. The cost of the trip is likely to run higher than any fancied savings. Also, a careful check of local stores would often reveal that a better price could be obtained here at home

We can not question the loyalty or good intentions of local citizens who rush off to larger cities to make major purchases. They believe that they are practicing sound economics. And they may work, or "travel." have some reason for their actions.

For, quite often our local people know more about the goods available in the metropolitan stores than they do about the goods in Monday night which was enjoyed kell. Texas." the stores here at home because of the extensive advertising originating in the larger trade centers.

Retail advertising from larger cities is constantly coming into every community in the form of catalogs, circulars and in regional newspapers. When local merchants do not counter the out-of- Thomas, Cecil Weaver, Bernice town advertising, it is natural for some shoppers to believe that the Weaver, Opal Weaver, Annie Woolsey, Nora and Dora Thomas, and services they seek can not be obtained locally

Despite the aggressiveness of distant competition, the local merchant has a distinct advertising advantage-the local newspaper. No advertising medium used by non-local retailers covers our trade area so thoroughly and at such low cost as your local newspaper.

For that reason, before the local retailer becomes too critical of out-of-town shopping, he should ask himself if he has given his potential customers enough shopping information to keep them at

Our Own Iron Curtain

If there were deliberate plans being carried on to promote socialization of industry in the United States they couldn't be more effective than the interpretation of the Internal Revenue Act which would deny electric companies the right to charge advertising and publicity used to protect their business, to operating expense.

If this can be done by the Internal Revenue Service with electric companies the process can be extended to any industry seeking to defend itself against political plans to substitute government ownership for private ownership of property. The ruling would naturally not apply to tax-exempt government agencies which compete with private business. This is pretty much like tying a man's hands so his adversary can beat him to death.

It is unthinkable that in a free country free enterprise should be subjected to punitive tax interpretations which leave it and freedom of expression subject to bureaucratic whims,

By indirection this would tend to control the press by discouraging the use of informative advertising.

If such rulings can be enforced here by a government bureau, we have little excuse to talk about the iron curtain and its control of

People, Places, and Things By A. PATE

Members of the Senior Class of '58, who spent the weekend in St. Louis on the annual Senior Class Tom Davis, former County Attrip, had one of their greatest torney, but now of Camp Traivs, thrills when they attended the big league game between the Cardinals and the Dodgers Saturday. And, mindful of their ambassa-(we have an idea Don Pennington

dorial role, some of the Seniors was one) got in a good plug for their hometown via Announcer being enacted in a number of Dizzy Dean. We have no idea how they managed it; but the Seniors got word to Diz that Haskellites were watching the game. As a re-TV viewers and listeners heard Diz call to a fellow announcer.: "Hey Buddy, we have some folks here from way down in Has-

The big league games was one of several highlights of a wonderful and never-to-be-forgotten event in the life of every Senior making the trip. We hope to have a detailed account of the trip later.

"housekeeping touch" impart ed by women is to become apparent in Haskell's business section as the result of suggestions and work done by two women directors of the Chamber of Commerce Mrs. Ramia Lee Frazier and Mrs. Artie May Burkett, assisted by a third woman, Mrs. W. R. Johnson,

of C. manager. Under their plan, each of the vacant buidings on the square will be assigned to a local business concern for one month periods. Merchandise of the concerns will be displayed in the show windows of the vacant buildings, and the sponsoring concern will be re sponsible for keeping the building front clean and attractive.

Fred Quattlebaum, who returned to Haskell recently after living in Kansas for 18 years, thought he was leaving the wheat country when he came back to this part of

However, he's beginning to have his doubts, in fact, if present prospects mature he thinks Haskell County will equal some of the best wheat producing areas in Kansas this year. Looks like another 1919 to Fred, who remem bers the boomtime wheat harves that year when he drove a Model T truck 16 to 18 hours a day. "I've tackled a lot of tough jobs since Joe Taylor and Miss Eunice Mc- then, but it seems that hauling wheat in that Model T truck was the hardest job I ever had." he

Quattlebaum recalls another incident in his truck driving days, back in the winter of 1918, when he almost froze to death. He and he almost froze to death. He and another young fellow were returning from Stamford with a truckload of groceries. A heavy snow had fallen, making it impossible to see the bed of the graded road. About 9 p. m. the truck slipped into a ditch and stalled. The open cab of the truck offered no protection from the freezing. no protection from the freezing cold, so Fred decided to walk the Wichita Valley railway tracks in-to Haskell, while his companion elected to stay with the truck.

Fred made it about midnight and a searching party went to bring in his companion. When they arrived, the man was found slumped over a fender of the sumped over a fender of the truck. Fortunately, neither of men suffered any ill effects from the exposure. But their T model truck had a busted block and radiator, Fred recalls.

Continued rains which have crea "June flood" before the wet

More recently, a devastating flood was recorded on June 8. 1930, when between eight and 10 inches of rain fell within a period of several hours. Three persons were drowned in Miller Creek northeast of Haskell, and heavy property loss resulted here. Near ly all sections of town were flooded, and bales of cotton stored on gin yards near where the foot-ball field is now located floated in some instances as far as the present Fairgrounds.

Install the All Electric HEAT PUMP

COMPLETE YEAR-ROUND AIR CONDITIONING IN ONE UNIT

The All-Electric Heat Pump provides complete automatic "comfort conditioning" for your home the year around, using only air and electricity. The same unit that cools your home also heats it. It also removes excess humidity and filters out dust and pollen. Because only air and electricity are used, the Heat Pump provides maximum cleanliness and complete safety.

Here's How It Worl The Heat Pump operati

uses the basic principle theating and cooling i matter of moving heat one place to another. In winter the Heat Por extracts heat units from o side air (even if it is to ing) and pumps warm into your house. In sun the heat pump reverses it automatically and operative any refrigerated air a ditioner - it takes the b out of the house and pur it outside. Call or come to see us a

There's plenty to see in Texas, wherever you may roam on a holiday jaunt or on a vacation trip. Clockwise from the lower left hand corner, some of the impressive sights to see in Texas are: The Big Bend. some of the most striking scenery in the state; Guadalupe Peak, highest point in Texas at 8,751 feet; the Palo Duro Canyon, camping grounds for Indian tribes in frontier days; East Texas oil fields,

biggest of them all; the 570-foot San Jacinto Monument, commemorating decisive battle of Texas history; Gulf Coast Beaches, some of the finest in the world; the Alamo, "Cradle of Texas Liberty," and in the center of the state, Texas Longhorn Cavern, biggest cave in the state and third largest in the world, one of Texas' most spectacular natural wonders. Sightseeing is fun in Texas.

Tourist Business In Texas at Peak Record in 1957

Austin, Texas-Visitors to Texas spent more money and stayed around longer spending it in 1957 than during the previous year, so indicates the Tourist Industry re-port released by the Texas Highvay Department today.

D. C. Greer, State Highway Engineer, pointed to statistics in the report which show that expenditures per person per day jumped to \$8.22 in 1967, as compared to \$7.71 in 1966. "Moreover, the typical tourist extended his visit to 6.3 days in 1957, as against 5.9 days the previous year," Greer

The report defined tourist dollars as new money earned else-where and brought into the community where it is spent and re-spent into the local business spent into the local business cycle. Specifically, tourist dollars to the the tune of \$531 million made music in Texas cash registers and jingled in the pockets of Texas jeans last year. This whopping amount was cleared from tourists traveling by automobile. Greer pointed out that this was an impressive increase over 1956's intake of \$379 million. The report says that approximately \$98.9 million was spent also in 1957 by tourists visiting Texas by air, rail, bus and ship.

Largest part of the tourist dollar in Texas is spent for food, lodging, and car upkeep. To serve those basic needs, the report estimates, 25,320 established businesses with 102,265 employees are

nesses with 102,265 employees are required. The final figures are increased many times when the retail stores, amusement spots, gift shops, and other places where the remainder of the tourist dollar is spent are considered.

Tourists themselves provide the records from which the Highway

Department obtains the statistics in the annual Tourist Industry Rein the annual Tourist Industry Report, Greer remarked. Survey cards, to be completed and mailed back after the visit in Texas, are given tourists stopping at the Department's seven Highway Travel Information Bureaus located on major highways entering the state. Last year the Bureaus played host to 174,000 such out-of-town guests.

CARD OF THANKS

We wish to express our sincere appreciation to the doctors, nurses and friends for the many kindnesses extended to us during our recent stay in the hospital. Your thoughtfulness will always be gratefully remembered.—Mrs. J. L. Seets and family. 21p

Selling of modern accident in-surance in the U.S. did not begin until 1864.

You have reached a very important day in your life. From now on decisions and responsibility will weigh heavier upon your shoulders.

May your goals be high and your success continued is our wish.

a FORD with Air Conditioning

costs less than many medium-priced cars

Depend on Ford to find a way to bring air conditioning within reach of nearly every new car buyer

If you ever have said, "Some day I'm going to own a car with air conditioning"... here is the most welcome news in a long while: A comparison of manufacturers' suggested retail delivered prices shows that a 58 Ford with air conditioning costs less than many medium-priced cars without it! So why wait?

Your Ford Dealer is ready now to show you just how pleasant . . . how comfortable . . . how fatigue-free your summer driving can be in an air-conditioned Ford. No matter how high the temperature soars, you'll ride cool and comfy as an arctic polar bear!

Something else you'll appreciate almost as much as Ford's air conditioning is its spirited performance. Ford offers you a Thunderbird-powered V-8 engine that is new from oil pan up . . . new from machined combustion chambers to silentworking hydraulic valve lifters. It's the Thunderbird's own V-8 so naturally it gives the Thunderbird's own special brand of V-8 skedaddle-up to 300 horsepower-worth of it!

Just team this V-8 with Ford's all-new Cruise-O-Matic Drive transmission and you'll get as much as 15% better gas mileage. It's like getting back 15¢ on every gas dollar!

So add it all up: low-cost air conditioning, Thunderbird GO, thrifty operation. Can any other car offer you so much real value? Then why not see your Ford Dealer today? He'll show you how to stop perspiring and start living!

There's Thunderbird magic in every

Take the wheel... get the Swept-Wing feel!

You spend a lot of time in your car-driving to work, shopping, taking trips. How your car rates on the road is important to you. So all we ask before you invest in a new car is this: Come in and take a "road rate" drive in a Swept-Wing 58

Dodge. Really compare it thoroughly on every count. We honestly believe it rides better, handles easier, responds quicker than any other car you've ever driven. But we'll leave the verdict entirely up to you. You be the judge.

YOU BE THE JUDGE! THINGS TO NOTICE IN THE SWEPT-WING 58:

The feel behind the wheel-You feel different because you sit differently. Low and snug and secure, completely in control, almost a part of the car.

The view around you—The glass area is tremendous. The visibility is outstanding in every direction—front, sides, rear.

The ease of push-button driving -Once you try Dodge Push-Button Torqueflite you'll never be happy with outmoded lever types. Ladies love it.

A ride that's a glide—There's no sway on curves, no dip at stops. Torsion-Aire is standard equipment, too.

This power steering is different-No power steering is like Dodge power steering. It works full time, yet leaves you the feel of the road.

Horsepower and stopping power-You get up to 320 hp. You get new-design Total-Contact Brakes,

Farmers Union President Explains Plan For Individual Farm Quota on Cotton

chester areas recently heard according to Dickie. Those who Alex Dickie. President of the ask the farmers to produce more Texas Farmers Union, discuss and sell for less are ignoring bafarm problems and legislative out-

farm problems and legislative outlook.

"Of particular interest to farmers of this area is a bill now being considered by the House Agriculture Committee concerning cotton. This bill would give the cotton farmers two alternatives."

and sell for less are ignoring basic economy facts, published by the Department of Agriculture this year, which show that through the years a 1 per cent overproduction of any commodity has resulted in an 8 per cent decline in price. Dickie pointed out that no other industry, has attempted to solve cotton farmers two alternatives. neither of which is any good' its problems through increased Dickie declared. One alternative production and price cutting. He of the bill is to hold price supports for 1959 at the present rate now producing at 52 per cent of 75 to 90 per cent of parity, but would cut the acreage from 17.6 million acres to approximately 14 mous profits. The auto industry million acres to approximately 14 million acres, which would amount million acres, which would amount and many others have simply ad-to approximately a 20 per cent justed their production to the de-cut in aggregate to the individual mand, and maintained the same producer. The other alternative is to a retain the present 17.6 million acres, but to take a cut in price supports to 65 per cent of parity. This would mean a cut in l support price to the producer of \$30 per bale in 1959, he pointed out. Dickie urged that farmers oppose both alternatives of the bill. Dickie explained that the plan advanced by the National Farmers Union would give individual production cuotas to each farm present and are almost too nugiving each farmer his pro rata share of the national or domestic narket, the export market, and a normal carryover. This would entub a small cut in production, but ruld compersate the producer parity of income support rate of 48c per pound on cotton In order to encourage exports tion for others, we simply think and discourage the expansion of that farmers are entitled to the nthetics, this plan would allow cotton to be sold on the open market at world prizes, and the difference between this sale price and the support rate of 48c pe pound would be paid to the pro-ducer in the form of a compensa-tory payment. Dickie pointed out that such a plan has been work-

proposed for the mining industry for five different metals.

The farmers of this county will never solve their problems until they learn to produce what they

ing for several years for the wool industry, and has recently been

PLYMOUTH SAVES YOU MONEY ON GAS... MOBILGAS ECONOMY RUN VICTORY PROVES

New "Fuel-Saver" Choke that helped clinch title 4s standard equipment on all Plymouth V-8s

Pound for pound, Plymouth uses less gasoline than either of the "other two" cars in the low-price "3"! This was proved beyond doubt when a 1958 Plymouth V-8 was officially declared winner of the low-price car competition in the 1958 Mobilgas Economy Run. Plymouth's competitors also entered cars with 6-cylinder engines (supposedly more economical) but Plymouth beat every car in its class-V-8s and 6s alike!

This title-winning Plymouth is exactly the same Belvedere V-8 with TorqueFlite Automatic Transmission that you can buy right off your Plymouth dealer's floor.

These tests prove that every Plymouth has built-in economy features not found in the "other two". For in-

stance—one of the most important factors in Plymos smashing win is the new "Fuel-Saver" Choke that you at no extra cost on all Plymouth V-8s. This ing device employs a triple-stage vacuum piston and a thermostatic element to reduce the amount of fuel use in warming use in warming up the engine. So it can save you more on short-distance drives—the kind most peoples

Among the many other savings Plymouth gives yethe \$140 you save on standard-equipment Torsion Ride. The "other two" charge up to that much esta their best suspension systems.

So if you are dollar-conscious, better hustle out talk terms and trade with your Plymouth dealer. Her your business, and he'll go all out to get it!

Weinert Cemetery Association To Be Reorganized

Acting upon an invitation from the Weinert Study Club, a group of interested Weinert people met at the community center to discuss the possibilities of reviving the almost dormant Weinert Cemetery Association. Representatives from three clubs, as well as the association, the city and community at large were present for the

meeting.
The forming of the Cemetery Association was to have been a project of the Study Club for the sites. coming club year, but upon investigation it was found that there is were quickly made to revive and now may disappear in a month or re-instate the association to its former activity, so that the "City annua grasses that show up early

for the future were freely and a nominating committee was selected to continue work on the

city; Mrs. Preston Weinert. Weinert: R. S. Sanders, president of the Lions Club; Douglas Myers, representing the community at large; Mrs. M. W. Phemister, president of the Study Club; Mrs. Henry Vojkufka, who is serving as project chairman for the Study Club; Clyde Mayfield, president of the Weinert Cemetery Association, and Preston Weinert, secretary treasurer of the association.

Proper Utilization Improves Grassland Agent Martin Says By Frank Martin

The rains that have fallen this year have produced a good cover on the pastures of the California Creek and Wichita-Brazos Soil Conservation Districts. Most of this cover consists of annual vegetation such as rescue grass, little barrey, and weeds, however, Texas winter grass, Canada wild rye and other winter grasses are making good growth on bottomland

Farmers and ranchers should be cautious about stocking rates. one already in existence. Plans The lush green growth that is seen of the Deceased' can be a beau-tiful place of pleasant memories. in the spring make good graz-tiful place of pleasant memories. Problems of the past, and plans make their seed and die out early leaving the warm season perennial cussed at the informal gathering, grasses to carry the grazing load. This year appears to be a good

year for improving the native grasses on our pastures, however Those attending the meeting good grassland management is were Mayor W. B. Guess of the essential to get this improvement even in good years.

The warm season grasses, such as buffalo grass, blue grama, and side oats grama just starting their grow! The food used to make this growth is taken from the plant food stored in the root system of the pant. The plant will grow from this stored food until it produces enough leaf surface to manufacture its food and support new root growth. If these plants are grazed off as soon as the new leaves begin to appear the plant will be severely damaged, and a short drouth during the summer may kill it. Grass must have leaves to manufacture food in order to develop a good root system. If a good root system is not produced, grass is easily killed by overgrazing or short dry periods.

When only about ½ of the an-

nual growth of native grasses are grazed off, the root system of the plant can contnue its development without injury to the plant.
When more than ½ of the leaves are removed the root growth of the plant stops and the plant is weakened.

To properly manage his range-land, a farmer or rancher should be able to recognize the better grasses that grow on the type of soil available. Grazing should be controlled to prevent overuse of the better grasses. This will allow the best grasses to increase and produce more vegetation which will produce more beef. Short periods of deferment during criti-cal growing periods will help to improve range condition and in-crease plant vigor.

Farewell Gathering Honors Retiring

on Wednesday evening, May 14, greetings and presented with hosfor a farewell get-togther for Rev. and Mrs. A. L. Eubanks.

In observance of G. A. Focus cerps are cooperating in the pro-Week the Junior G. A.'s and the Intermediate G. A.'s rendered a very informative program. Guest speaker on the program was Miss Christina Ozuna from Haskell.

After the program Sammy Grif-fith presented Bro. and Mrs. Eu-banks a love offering from the church. Everyone enjoyed home made ice cream and cake. Ninety-

Brother Eubanks is retiring from the ministry because of ill health. They plan to live in Wichita Falls.

CARD OF THANKS

tion for all that was done for us during the darkest hours of our life in the loss of our loved one. We are grateful for every deed and act in our behalf, for the comforting words and messages and your prayers, for the beautiful flowers, for the food brought

Haskell I.O.O.F. Lodge No. 525 will hold open house Thursday. May 29 at 8:00 p. m. at the lodge hall. Refreshments will be served and a program of entertainment is being arranged.

Members of the lodge, the Rebekahs and friends are invited to

HERE FROM ABILENE

W. A. Nelson of Abilene, former resident who still has city and farm interests in Haskell and vi-cinity, was here Monday on busi-ness. Mr. Nelson says he agrees with some of our local forecasters in their estimate. in their estimate that grain pros-pects at the present time are equal to the banner year of 1919.

Prince Albert, consort of Brit-ain's Queen Victoria, died of ty-phoid fever in 1861.

Alberta, a province in Canada, was named in honor of one of Queen Victoria's daughters.

These are but a few of the high-lights of 50 years of 4-H in Texas. They and others wil be portrayed by 4-H members when they bring to the stage of the G. Rollie White Coliseum on the evening of June 10, their birthday cake with 50 candles. Miss Lucille Moore, extension recreation spec-ialist, is in charge of the pa-geant.

Rainbow Sewing Club Met May 20 with Mrs. Pearsey

The regular meeting of the Rain-bow Sewing Club met May 20 in the home of Mrs. Pearsey, with all 14 members and two visitors tral Ward School has been set for present. The house was called to order by the President Sallie Pat-Commencement Exercses will be terson. Flossie Rogers had charge of the sing-song. The secretary, Mrs. Peavy, had roll call and read the minutes of the last meeting. Old business was discussed also new business.

A party with bingo was plan ned for the near future. Thought for the day was given by Sue Peavy. Mrs. Johnson won on needlecraft. The helpful hint box Robert R. King, Supt. of Haskell | Peavy. Schools guest speaker. Invocation was opened and Mrs. Edwards name was drawn for the lucky prize. A specal song was rendered by LaVerne New, Mae Smith Maude Viney and Sue Peavy, Recreation activities were directed by LaVerne New.

Next meeting will be in the home of Mrs. Pitman. Refreshments were served. Visitors were Mrs. McGuire and Mrs. Smith.

Mrs. Pearl Carter, Former Resident, Dies in Odessa

Mrs. Pearl Carter, a former resident of Haskell for several years, died Saturday, May 17 in an Odessa hospital after suffering a heart attack.

She had been living with a son, George Carter, an employe of the Odessa American. They lived in Haskell several years ago and Mr. Carter was employed by The Haskell Free Press. Mrs. Carter was a member of the Baptist Church. Her husband preceded her in death in 1941.

Funeral for Mrs. Carter was held at 2 p. m. Monday in the First Baptist Church at Crowell, and burial was in the Crowell Cemetery.

Mrs. Carter is survived by two

sons, George Carter # Odessa, and J. T. Carter of Abilene, traveling auditor for West Texas Utilities Company.

Courtney Hunt In Abilene Hospital For Eye Surgery

Courtney Hunt, prominent Haskell businessman, ex-Mayor and former State Representative, is a patient in Hendrick Memorial Hospital in Abilene, where he underwent eye surgery the first of the week.

Mr. Hunt is making satisfactory progress toward recovery, but because of the delicate nature of the operation, will probably be hospitalized for some time. Friends may send cards and letters to him at Room 689 in Hendricks Hos-

Horatio Alger wrote more than 50 books about poor boys who

Notice To Owners of Dogs

Dr. D. L. Ballard, Veterinarian, will be at the City Fire Station from 9 a. m. until 1 p. m. Wednesday, May 28, for the purpose of vaccinating dogs against Rabies.

A charge of \$2.00 will be made for the Rabies shots, and there will be an additional \$1.00 City Dog Tax required in compliance with the City Ordinance passed recently.

All dogs brought to the Fire Station for vaccination must be on leash and under control of owner at all times while waiting for the vaccination.
