### 55 ALIVE

Mature driving is:

Eight hours of classroom instruction that refine existing skills and develop safe, defensive driving techniques. Produced by the American Association of Retired Persons (AARP) and conducted throughout the country in two half-day sessions. 55 ALIVE teaches preventive measures to use when driving that save lives. We believe strongly in the individual and community benefits that come from this course.

This course will be taught on Monday, January 23rd and Tuesday, January 24th from 1 to 5 pm at the Bronte Senior Center by an AARP volunteer, Bill Sohn. If you are interested in this course call the Center at 473-6471 or 473-2166 and let us know you are interested. You save 10% on your liability insurance for a three year period. There is a small fee for this class.

### CPR class offered

West Coke County EMS will hold a certified CPR class Sunday, February 5, 9:00 am to 5:00 pm. This class is an American Heart Association Class and those completing the class will receive a certification in CPR. The class will meet all of the CE hours in the cardiac contact area of the requirements for re-certification of all EMS personnel. The class will also meet pre-requisite requirements for anyone desiring to take ECA or EMT classes.

A basic EMT class is being planned for Robert Lee in the near future. The public is invited to attend.

It is estimated that one out of every four people in the United States will be in a situation where knowledge of

High School Senior Laura Thomas is adding a new breed to the Bronte FFA Livestock program this year - emus. Gary and Jerry Davis of 8 Oaks Big Birds south of Bronte have donated an emu for Laura to raise as her FFA project.

She will be showing "Tall Boy" at the TEA Annual Convention, June 2 & 3, 1995, at Southfork Ranch in Plano. Laura is the daughter of Danny and Roenna Thomas and plans to major in Animal Science.

CPR could be used to save a life. There is a fee for the course. In order for us to ensure adequate staffing, we ask that you register early if possible. Contact Mary Bessent or Jeanette Jacobs at 453-2632 or 453-2492 to pre-register.

### RL to vote on expanded calling

Robert Lee telephone users will soon have the opportunity to decide on ELC - Extended Local Calling. This is a telephone service that allows residents to call and receive calls from San Angelo without being charged long distance fees.

Should local GTE customers approve this plan, all calls to and from the ELC approved city, in this case, San Angelo, will be billed as local calls for a monthly fee. Current plans call for a mail-in ballot to be sent to area subscribers to vote on the Extended Local Calling recommendation. If approved by local residents, ELC, when operational, will allow telephone users access to and from San Angelo without dialing "1" before the number.

### EMS purchases new building

The West Coke County EMS has recently purchased a new facility to house the ambulance and to serve as a

training facility. The building was purchased from Jimmy and Beverly Bell. The training room will meet the newly state mandated training facility requirements for all EMS organizations. The building is located on the corner of Highway 208 and 8th Street, across from the post office.

The City of Robert Lee purchased the former EMS facility from Bill Allen. The Robert Lee Volunteer Fire Department will occupy the building. The West Coke County EMS is very proud of their new building and invites everyone to stop by for a tour. An open house and barbeque are being planned in the near future. The regular monthly EMS meeting will be held Tuesday, January 24, at 5:15 pm at the EMS building.

### RL Cub Scout Banquet

The Robert Lee Cub Scout Blue and Gold Banquet will take place on Wednesday, February 15, from 7:00 pm till 8:30 pm in the small rec hall at the county park in Robert Lee.

The banquet will be a pot luck affair with each cub and his parents bringing a covered dish. Awards will be given to the cubs during the program. Everyone in the community who is interested in the scout program is urged to attend and share in this event.

The officers for the 1994-95 Robert Lee High School Beta Club are: Jeremy Fluhmann, Treasurer; Jaclyn Waldrop, Secretary; Heather Milligan, Vice-President; and Lee McCown, President.

These are new members for the Robert Lee High School Chapter of the National Beta, a club that recognizes honor students. **Correction**

In the January 13, 1995 issue of The Observer/Enterprise, Lucile Bryan reported that the oldest visitor to Bryan's Barn during December's visitation was Mr. Estes B. Roberts of San Angelo, age 90 years. That has been checked out to be a mistake. The winner of that category was really Mrs. Alta Bilbo of Robert Lee, age 93. Alta received her loaf of home baked bread and an apology, both of which she graciously accepted.

Lucile also failed to mention the attendance to The Barn in the last two weeks of visitation. Average nightly attendance was approximately 300 visitors. Average attendance the first part of the month before publicity increased was only 60 persons per night. This, Lucile says, proves, "it pays to advertise."

**Letter to the Editor**

Dear Editor,

I have an open question to the general public - taxpayers, in particular.

Do you know how many of your tax dollars are actually spent in Coke County? Goods and services available here in the county are often ignored, and our tax dollars are spent elsewhere - such as Tom Green County, or other parts of the state, and sometimes even out of state.

As a Coke County business owner, and taxpayer, it is very discouraging to see MY tax dollar go outside Coke County.

What goes around comes around with taxes - the more money a business owner makes, the more he increases his inventory, improves his business building, improves his home - all of which means that he in time will PAY more taxes, which leads to more money that can be put in the local economy, and it goes on and on...

I think that it's time that we as taxpayers expect some logical explanation to our tax dollars being spent outside the County. Do these out-of-county businesses pay Coke County taxes (or hospital district or school or city taxes)? Not likely! Then why do we spend our tax dollars with them?

The amazing mystery about this entire situation is that these board members and office personnel that have jurisdiction of the spending of these tax dollars are folks who are undoubtedly taxpayers themselves, and some of them may possibly be business owners as well.

Interesting? Perhaps - but it seems kinda discouraging!

Just sign me as a Hometown Business Owner

## Letter to the Editor

Dear Editor,

This letter is written in support of actions taken by the Bronte School Board at the last two board meetings.

The Bronte school has been and is in good financial shape. We've got good teachers (the very best) and good programs and classes for our students.

The problem has been because of very poor public relationships within the school personnel and also with the public. We need and we must demand that we have both a good administration and also good public relations in our school.

For the board members who still have their heads in the sand and refuse to believe the situation is as bad as it is, now you have the perfect opportunity to search out for yourselves what is really the truth. I know you'll be highly enlightened if you'll only make the effort to do so.

Signed,  
A Concerned Parent

After the ceremony, Kary Rawlings, Presbyterian Minister, was the speaker. She related past childhood experiences that had to do with poems and books. One book that was especially meaningful to her as a child was "Caddie Woodlawn". However, she emphasized that the most important book was the Holy Bible.

Other guests present for the luncheon and program were Terry Myers, Mike Hartman, Ray Barnett, and Jeff Schoenfield.

**HEALTH NOTES**

**Older And Fit**

Some twenty years ago, when researchers at the University of Florida Center for Exercise Science began their study of men over forty, they were trying to determine whether physical activities that were considered dangerous to the hearts of older men really were. The researchers reported to the American College of Sports Medicine that aging itself did not increase the risk of coronary heart disease.

Runners are susceptible to the same age-related problems that nonrunners could face, such as arthritis or injuries, but their aerobic capacity was reduced only to the extent that their exercise was reduced.

What the researchers found surprising was that despite consistent aerobic training, muscle mass seems to naturally decrease at the rate of about three pounds per decade unless weight training is done routinely.

**Letter to the Editor**

Dear Editor,  
What is integrity? Webster defines integrity as "moral soundness or uprightness". Integrity, that is, great sincerity, honesty, virtue, strength of character, that elusive quality by which a man or woman is known, seems to be in short supply. Do we no longer strive to do a job excellently for the sole purpose of feeling that personal pride in a job well done? Must we be patted on the head and given a reward, or simply do a barely adequate job only because we fear getting caught and reprimanded?

As Americans, should we not value integrity and teach it to our children as a way of life? We must leave our children a legacy of honesty, morality, and a burning desire to be the absolute best they can be, or we will see our babies poorly motivated, poorly educated, with little direction to their lives. Should we not demand integrity in the workplace, at school, at home, of ourselves for their sakes? Should not teachers, parents, politicians, preachers, every man, follow this precept?

Then, and only then, our children will see the kinds of positive adult role models they can trust and emulate. Remember, our children are our future; let's not short-change them!

Carolyn Allen

Jack and Betty Friend of New Braunfels were overnight guests in the home of Bobby and Jeffie Roberts of Robert Lee. They, also, visited Ettie Hubbard, District and County Clerk, at her office.

The group attended the annual Eastern Star School held in San Angelo, January 11-12, 1995.

**—Counselor's Comments—**  
by Vicky McCutchen

Wanting to attend a select college after high school requires a student to plan, beginning as early as the 8th grade. In my last article, the 9th grade was covered, which included the criteria for a student to attend that select college. This week we will cover the 10th grade and some tips for success.

In the 10th grade, a student should take biology or chemistry, if biology has already been taken. A student should continue with a second course in the same foreign language. In math, taking geometry and more algebra is important because an accelerated pace will interest the best colleges. Many students in the 10th grade will take the Preliminary Scholastic Aptitude Test (PSAT) to find out how they do with this kind of test, even though more juniors take this test than sophomores. Taking the PLAN (Pre-ACT) test in the 10th grade will help students to find out how they perform on this kind of test. By the 10th grade students should be talking with their parents about college and possibly visit some local colleges, even if they really aren't interested in them. This will give them a sense of size and atmosphere. By studying hard in English classes, students will practice the writing skills that will be extremely important in any career they choose. It makes no difference how talented a student is in a sport, the band, or in an interest group, poor grades will stand out on that high school transcript. Each college a student applies for will request a copy of their high school transcript,

which includes all of the classes taken in high school beginning with the 9th grade. This transcript includes each semester grade and the number of credits or units earned. The ranking and the grade point average will also be included.
