## Voters urged to cast ballots Tuesday

Early voting in Coke County is up slightly from previous years. This is due in part to the fact that East Coke County now has an early voting booth in Bronte. Another contributing factor could be attributed to the interest in the

### East Coke County Hospital District reorganizes

The East Coke County Hospital District met Wednesday, October 23, to reorganize after the recent resignations of Board President LeDrew Arrott, Administrator Pam Stokes, and Director of Nursing Services Augusta Lee.

New officers of ECCHD are President Ed Cumbie and Vice President Royce Fancher. Charles Sonnenberg will continue as Secretary. L.O. Clark, the first administrator for Bronte Nursing Home, was contracted as Interim Administrator until such time as a permanent administrator can be hired. He will assume duty on November 21. Until that time, Assistant Administrator Keith Fletcher will be acting administrator.

The Board is currently seeking a new Director of Nursing Services but as yet has not hired anyone for the position.

Precinct 2 Commissioner's race.

According to County Clerk Ettie Hubbard, as of presstime Wednesday, 254 ballots had been cast by walk-in voters. A total of 40 mail-in ballots had been received in the office. The total number of early ballots was running close to the 300 mark that Hubbard had been hoping to receive.

Of interest (and some confusion) to Precinct 2 voters will be the fact that in addition to Democratic candidate Royce Lee, Republican Candidate Luis Charles and Independent candidate Sid McGinnis, there will be two write-in candidates vying for the position of commissioner. Wendell Lee and Wayne McCutchen are the two write-in candidates running for the position. Their names will not appear on the ballot. On the far right side of the ballot is a blank area. Voters wishing to vote for

either candidate must physically write-in the name of the candidate they choose to vote for.

Folks wishing to write-in the name of candidates vying for the presidential race must use the same method as stated above.

The general election will be held Tuesday, November 5. Polls will be open from 7:00 am until 7:00 pm. All registered voters are urged to make their voice heard on election day.

### Area rainfall totals

County rainfall totals varied from 1.60" north of Bronte to 4" in the Maverick area. Robert Lee and Bronte each received 2.10", while folks in the Edith area reported 2.60". Other lake area residents reported up to 2.85".

### Gospel Singing set for Sunday

The regular monthly community gospel singing will be Sunday, November 3, from 2-4 pm at the Central Baptist Church in Bronte. Everyone in the area is invited to come and enjoy this fellowship time together.

### Poinsettia reminder

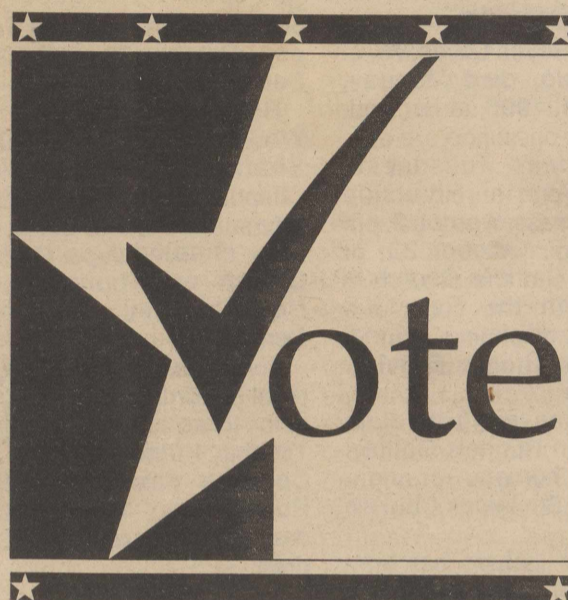

Attention 4-H members. If you have poinsettia orders please be sure to turn them in as soon as possible. We need to know the final count in case additional plants need to be ordered.

### CCRC meeting

The Coke County Roping Club will meet at 7 p.m. Wednesday, November 6, at the Bronte Arena. The purpose of the meeting is to clear our 1996 business and set dates, etc., for 1997.

### RL Open House

Open house for downtown Robert Lee businesses is scheduled to be held Tuesday, December 3rd. Any business in Robert Lee that wishes to participate in the event should contact Billy Kelly at the West Texas Utilities office. Time is running out, so be sure to get in on the fun!

## Public meeting slated

"As a result of the 1996 Farm Bill the Coke County Soil and Water Conservation District (SWCD) with headquarters in Robert Lee, along with 3000 other SWCDs in the nation, has been given the charge to lead the way in developing programs and initiatives to improve soil and water resources at the local level," said Wilbern Millican, chairman of the SWCD.

"After years of applying top-down program management approaches in federal conservation programs, the new 1996 Farm Bill establishes a locally driven process, coordinated by conservation districts, to guide the state and nation's agricultural conservation efforts. It provides tremendous opportunities for local people to become involved in assessing local resource needs, setting priorities, developing conservation policy, providing technical support, accepting program applications and approving conservation plans upon which cost-sharing will be based," Millican added. According to Millican, the process deals with developing a list of priority areas and concerns for the long range Farm Bill program for Fiscal Year 1998 and beyond.

To enact the Farm Bill on the local level, the Coke County SWCD, in partnership with the USDA Natural Resources Conservation Service, will conduct a work group meeting with its conservation partners and interested persons or

organizations on November 7, 1996 from 7:00 to 9:00 pm in the Courtroom of the Coke County Courthouse.

The purpose of the meeting is to conduct a local conservation needs assessment; establish local priorities and make program recommendations on what problems the SWCD should address in future years. Local recommendations will then flow to the state level where the district's various technical issues, resource priority areas and program policies will be reviewed and integrated into a state, regional and national program.

"We are optimistic about the opportunities the new Farm Bill offers because Congress is seeking our leadership to assist our community in carrying out a cooperative, locally driven, incentive-based conservation program that wisely invests public resources to protect local natural resources," said Millican.

### Courthouse closing

The Coke County Courthouse will be closed Tuesday, November 5th, due to the general election. Business will resume as usual Wednesday morning, November 6th.

### Tennyson Community Gathering slated

The Tennyson Community Gathering is slated for Saturday, November 2. A pot luck supper will begin at 6:30 pm.

Robert Lee's Storytime spooks prepare to fill their pumpkins and sacks full of candy given by local businesses Tuesday, October 29. The trick-or-treat trip is an annual event for the County Library Storytime children.

**WCCNH honors Gloria**  
 It's not often that a facility such as a hospital or nursing home employs a person for 25 years. October 10, 1996, marked such an occasion at West Coke County Nursing Home. Residents and staff were joined by city residents for a reception honoring Lucy Gloria for 25 years continuous service to the nursing home and hospital district.

Judge Jackie Walker read a proclamation declaring October 10, 1996, as Lucy Gloria Day in Coke County. She then presented Lucy the framed declaration.  
 Roger Alexander, Administrator, was joined by Mary Bessent, president of the board of directors of WCCNH, in presenting Lucy with an engraved silver plate commemorating the occasion and a silver plated photo album.

Joining Lucy for the party were her children and grandchildren, Ray, Sally and Kimberly Gloria; Jr., Ruth, Jamie and Gina Luna; Richard Gloria; Kathy and Amber Perez. All are residents of Robert Lee.  
 A cake featuring red roses and pearl trim served as a centerpiece for the lace covered serving table. Cookies and punch were served to those present.

A large "card" (a colored sheet) was hung on the wall for signatures and messages from friends and co-workers.  
 Lucy received many pretty cards along with lots of hugs and good wishes from the crowd.  
 WCCNH directors attending the reception were Mary Bessent, Linda Burns, Bill Gibbs, and Winton Milliff.  
 Lucy Gloria was born in Brady, Texas, and lived there until she married Jesse Gloria

Robert Lee resident Lucy Gloria is presented a declaration of Lucy Gloria Day by Judge Jackie Walker and a silver platter by nursing home administrator Roger Alexander in recognition of her 25 years of service to West Coke County Nursing Home.  
 Ms. Gloria was honored at a special reception held Thursday, October 10, at the nursing home.

in 1944 and they moved to Robert Lee. Jesse worked for the hospital district and nursing home for 16 years.  
 Lucy started work for the hospital in housekeeping, moving to the kitchen staff and then to a nurses aide position.  
 Two of her daughters, Kathy Perez and Ruth Luna, also work for WCCNH. Kathy began as an aide, then moved

to med aide ward clerk and is now in charge of medical records. She has worked for WCCNH for 16 years. Ruth began work as an aide 4 years ago. Another daughter, Irene Olivas, is an LVN at Baylor Medical Center in Dallas. Sons, Richard and Ray, both work for G.T.E. in San Angelo.  
 We're proud of you Lucy. Keep up the good work!

**Shannon Health System Welcomes Bob Wilkins, P.A.-C**

Shannon Health System is pleased to welcome Bob Wilkins, a certified physician assistant who is now providing health services at Family Health Center of Bronte in conjunction with Dr. Rick Peck.

Bob is a graduate of the University of Texas Medical Branch in Galveston where he received a bachelor of science degree in physician assistant studies. He holds an associate degree in paramedic technology from Austin Community College and a bachelor of science degree in radio, television and film production from the University of Texas at Austin.

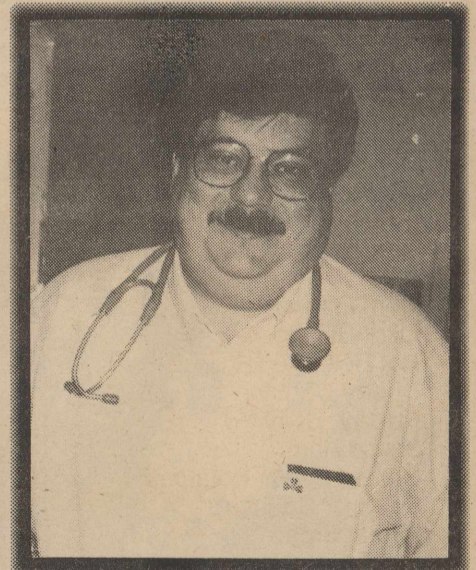

Born in Calgary, Alberta, Canada where his father was working at the time for an oil company, he has lived in Texas since he was five. Bob is a former paramedic who has worked as a physician assistant across the state, most recently in Junction and Menard. His interests include computers and his collection of limited edition lithographs of New Orleans.

# ROBERT LEE SCHOOL NEWS

## Steers drop district game to Eagles

by Bill Burns

The Steers went to Sterling City last Friday night and collected their second loss of the season. It was a tough loss because it will likely keep the Steers out of the playoffs.

I'm proud of these Steers, even though they lost the game, because they dug deep within themselves, showed strong character and discipline to almost pull out of

a 21 to 0 deficit at the halftime. Any team or team member could look at the odds of winning against odds like that and quit, but not one member or coach of this team gave up. If you are not a quitter, then you are a winner, and Steers, you are winners.

### 1st Quarter

The Steers kicked off to the Eagles to start the game. The Eagles made 4 yard in three plays and had to punt to the Steers. Gilbert Torres made nine yards on the first carry for the Steers. The next play there was a Steer fumble and the Eagles recovered. The Eagles made four first downs on the way to their first TD of the night.

The Steers had a field goal attempt, but it sailed wide. Jerrod Pitcock recovered a

fumble for the Steers.

### 2nd Quarter

The Steers could not get things going their way, and gave up the ball on another fumble. The Eagles scored 2 more times, and took a 21 to 0 lead at halftime.

### 3rd Quarter

The Steers returned to the field for the second half ready for battle. They held the Eagles to 56 total yards while gaining 86 yards for themselves. Michael Pentecost got an interception for the Steers. Jerrod Copeland had a twelve yard TD run for the Steers and Bobby Joe Longoria kicked the extra point.

### 4th Quarter

The Steers held the Eagles to 60 total yards, while the Steers gained 132 yards. The Eagles scored on a five yard TD run. The Steers came back and scored on a 17 yard TD pass from Eli Boxell to Rocky Coates. Longoria kicked the extra point. Copeland scored for the second time on the night with a 3 yard run. Longoria again kicked the extra point and the game ended Steers 21 - Eagles 28. **Good Job Steers.**

### RL JV goes 1-1

by B.J. Bessent

On October 17, Robert Lee Steers JV played the Bronte Longhorns JV. Behind the blocking of Jeremy Eaton, Brandon Van Huss, Justin Brickey, Daniel Cates, Jeremy Ortega, and Bill Torres the Steers won 14-0.

B.J. Bessent scored first on a short run. Bessent completed a pass to Jesse Marshall for the two points. Then the Steers scored on a run by Andrew McCabe. This thrashing of Bronte made the Steers proud.

Last week the Steers took on a tough Sterling City team. In the first half the Steers couldn't get on the scoreboard, but Sterling City did. In fact, Sterling City jumped to a quick 14-0 first half lead.

In the second half Andrew McCabe scored on a short run. Matthew Pitcock tossed the ball to Justin Francis for the extra two points. Final score Steers - 8, Eagles - 14. **Good game Steers!**

4-H members went all out for this year's Pumpkin Contest. Entries were extremely creative and some were even a little scary.

### RL ISD school board meets

The Robert Lee ISD school board met in regular session on October 22, 1996, at 6:30 pm in the high school library. All members were present. The following business was conducted:

- Minutes were approved and bills were paid.
- In open forum several items were discussed.
- Auditor Carol McDonald presented the 1996 local annual audit report. The audit report was approved.
- George Grim updated the board on the plumbing renovation.
- The 1996 tax roll was approved.
- The bid for a new 1997 12-passenger van was awarded to Ben Bessent Chevrolet.
- The 1996-97 local textbook committee was approved.
- Early dismissal days for Nov. 26 and Dec. 20, 1996

and May 22, 1997 were approved.

- Dates for future board meetings were set.
- Adjunct faculty members Tommy Antilley and Jan Yanez were approved for 1996-97.
- The 1996-97 budget was amended.
- Localized TASB Update 52 was distributed.
- Principals and superintendent gave reports on the school year.

The next regular board meeting will be held on November 14, 1996.

### Dogies defeat Sterling City

The Robert Lee Dogies defeated the Sterling City Junior High team 30-0 last week in only the second home game of the season. No details of the game were available at press time; we hope to have complete details of the game next week.

# BRONTE SCHOOL NEWS

## Horns slide by Irion County Hornets

The Bronte Longhorns and Irion Co. Hornets met in Bronte for another Friday night of excitement.

The first quarter of play remained scoreless for both teams, as several goal line drives threatened.

In the second quarter David Wilson scored on an 11 yard run. Wilson totaled 120 yards for the night. The Beck kick was good to make the score 7-0.

A third quarter field goal of 20 yards by Kale Beck answered Irion County's 2 yard run and score, putting Bronte in the lead, 10-6.

Bronte kicked another 21 yard field goal in the fourth quarter, giving Bronte the 13-6 win.

Besides their great kicking game, the Longhorns dominated in passing with 122 yards to I.C.'s 1 yard passing, and turnovers 3-1.

Other stats include 38 total rushing yards for Irion County and 53 for Bronte. Michael Blair passed for 60 yards and Kale Beck came up with 62 yards. In rushing, Beck went for 13; Martinez rushed for 10; Wilson stacked up 29; and Beam added 1 to the total of 53.

Coach McCutchen commented on what a great job Blake McKee did punting after just being moved up from JV. He said he felt the team did great after such an emotional game last week. He said he felt the defense was effective the first half and played like they were tired the second half.

This win put Bronte at the top of District 7-A with a 5-0 record and 7-0-1 for the year. The undefeated Horns are gearing up for a trip to Christoval this Friday.

### Shorthorns defeat Irion County

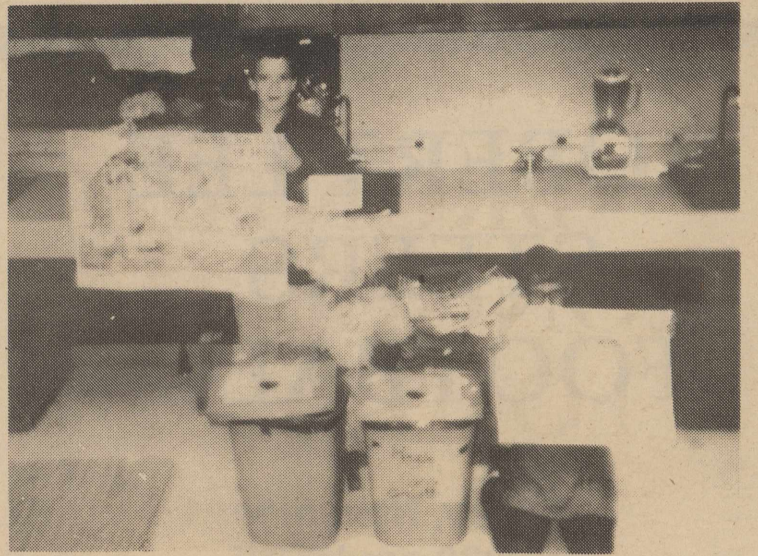

The Bronte Shorthorns won 14-0 at Irion County Thursday. Several players played in new and different positions. Way to go, Shorthorns!

### Br. JV wins close one

Bronte's Junior Varsity team won 14-12 with a last minute touchdown and a 2 point conversion. Should've been there and done that - it was exciting.

### CCJJCC to meet

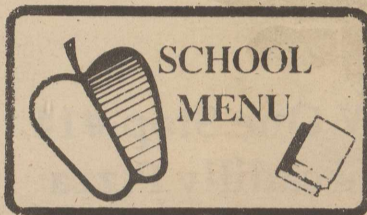

The Coke County Juvenile Justice Community Council will hold its regular monthly meeting Monday, November 4, at 6:00 pm in the First United Methodist Church in Bronte.

Bronte students Kevin Woolridge and Cory English help with the recycling of plastic 6-pack rings and aluminum cans during a recent project at Bronte Elementary.

Bronte students (l-r) Shannon Van Vleck, Mauragan Bullard, Christina Galvan, and Tessie McMullan use a computer to access weather reports and type letters in their Science Enrichment class.

When You Write In

*Wayne McCutchen*

As

**Coke County Commissioner Precinct 2**

You Are Voting For  
A Candidate With

*Honesty • Integrity • Ability*

*• Full Time Commitment &*

*• A Strong Desire to see Coke County prosper.*

I want to thank all of you who took time out of your day to talk to me and I want to apologize to all those I missed visiting with. I realize this race for commissioner has presented the citizens of Precinct 2 with a difficult decision to make. All of the candidates have valid qualifications and because we are a small community, most of us know all the candidates. However, you must decide which candidate you think will do the best job overall. Because of this being an unexpired term without a primary election, my name will not be on the ballot. If you choose to vote for me, you will have to write in my name on the line provided. I appreciate the extra effort and support of your vote. Your confidence in me will not be misplaced. Thank you.

### Bronte students reach higher through science

Bronte students are embarking on exciting and memorable learning adventures in Science. At the end of the journey, several unique opportunities await - to be authors on the internet; to create a legacy of Texas resources as seen through their eyes and creativity; and most importantly, to interact with others about the wonders of where they live, their cultural heritage, natural resources surrounding them, and issues about which they care deeply.

The Science Enrichment class is learning about soil and water conservation as well as recycling different materials, such as plastic six pack rings, aluminum cans, xeriscaping, and making recycled paper with old newspapers. They are deeply involved with planning an "Outdoor Learning Center" that can be used by K-12 for various classes. Grants are being written to help fund this activity.

The 8th grade class has ventured into a project sponsored by the Texas Parks and Wildlife Department called "Exploring Texas." They are researching the wildlife, plant life, geology, water quality, weather, and cultural heritage of Coke County. They are compiling a wealth of knowledge, some of which has not been researched for Coke County specifically.

The students have kept weather reports for Bronte from the start of school. The amount of rainfall and the pH of the rain will be taken to

### Lady Longhorns clinch playoff berth

This past week, the Lady Longhorns played a long, hard-fought match with Water Valley for the district championship. Everyone played their best and gave an all-out effort, but came up short on the scoreboard, 12-15, 16-14, and 12-15.

Then the match with Miles on Saturday became crucial as a win for the Lady Longhorns would clinch second and send them into the playoff race. It was a patient, yet deliberate game and the Lady Horns were able to come away with the win, 15-9, 15-8.

Even with two district matches to go, the Lady Longhorns will go into post season play. The Bi-District match will be against Grandfalls Saturday, November 9, at a site and time to be announced.

Austin October 30 - November 2 during CAST - Conference for the Advancement of Science Teaching. It will be entered in the convention computer along with other classes from around the state.

Two goals have been developed for these projects. The students exploring their environment will have a deeper understanding and appreciation for the diversity of Texas environment and culture. Researching issues such as these will help develop citizenship skills, the ability to face difficult issues, responsibly research positions, and impact the community, and then apply critical thinking skills to evaluate attitudes, recommendations, and action plans.

Hopefully, our students will understand their world better and become "environmentally literate."

### Appraisal District regulations detailed

The Texas Legislature enacted the Property Tax Code in 1979 and for the first time created county-wide appraisal of property for ad valorem taxation. This function was assigned to appraisal districts pursuant to Chapter 6 of the Code.

The appraisal district is governed by a five-member board of directors which is elected by the governing bodies of the county, cities, and school districts located in the appraisal district. The number of votes a unit has is determined by the amount of the unit's tax levy in proportion to the total tax levy of all the voting taxing units. The members may not receive compensation for service on the board, but are entitled to reimbursement for actual and necessary expenses. Specific responsibilities of the board of directors are:

- (1) appointing the chief appraiser;
- (2) contracting with other appraisal offices, taxing units, or private firms to perform appraisal functions;
- (3) adopting annual budgets for the operations of the appraisal office;
- (4) determining a method of financing the annual budgets based on cost allocation among taxing units;
- (5) purchasing or leasing real property, as well as constructing improvements, to establish the appraisal office;
- (6) ensuring preparation of annual audits by certified public accountants;
- (7) selecting a financial institution to deposit funds

through bid solicitation;

(8) entering contracts for appraisal functions, and for all expenditures in excess of \$5,000 complying with the competitive bidding requirements established by law;

(9) being a necessary party to lawsuits brought by property owners concerning appraisals;

(10) approving the appointment of the agricultural advisory board;

(11) appointing the members of the appraisal review board and increasing the size of said board membership when necessary; and

(12) administering the district office in any other manner required by law.

The board of directors has no responsibility for setting tax rates, appraising property, adjusting appraisals, granting or denying exemptions, or any other matter directly affecting the value of property.

The Coke County Appraisal District Board's regular meeting date is on the third Monday of each month at 7:30 p.m. in the office of the district at 710 Austin Street in Robert Lee.

Mr. and Mrs. Hervey Garringer were honored by their children, grandchildren and a host of friends on the occasion of their 50th Wedding Anniversary. The celebration was held October 5, 1996 at the Full Gospel Assembly in San Angelo.

## TWO GOOD MEN, BUT WITH BIG DIFFERENCES

### Rick Rhodes?

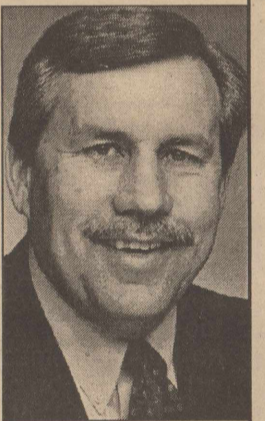

He says he is a conservative but he supports Bill Clinton and Victor Morales, and he backed Ann Richards for Governor.

Rhodes supports Clinton's gun control and has received big campaign gifts from labor unions and support from campaign organizations funded by trial lawyers.

### Troy Fraser is a Proven CONSERVATIVE.

Troy Fraser is different. He thinks like us. He was born in Abilene and he grew up in a farming community, where he learned a healthy respect for hard work, personal responsibility, and the importance of keeping your word.

Troy is a businessman who led the effort to balance two state budgets with no new taxes while in the State House. He supports protection of personal property and underground water rights, supports your right to bear arms, and he wants to reduce your property taxes.

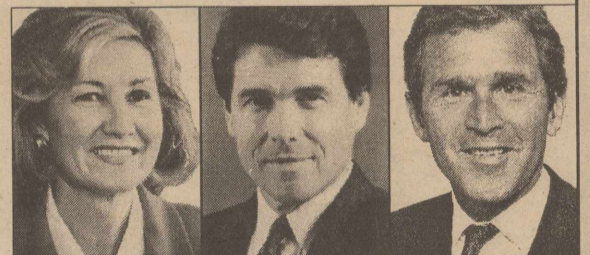

In the Texas Senate, Troy Fraser will work for:

- Welfare reform, reduce dependency on government, and discourage illegitimacy;
- Strict penalties for violent juvenile crime;
- Tougher action against violent adult criminals;
- Property tax relief with no state income tax;
- Strict term limits for elected officials;
- Reduced spending and lower taxes; and
- Local control of schools.

Along with the support of Governor George W. Bush, Senator Kay Bailey Hutchison and Agriculture Commissioner Rick Perry, Troy Fraser has been endorsed by the political action committees representing:

- the Texas Farm Bureau,
- the National Federation of Independent Business,
- Texans for Lawsuit Reform, and
- the Texas Association of Business and Chambers of Commerce.

**TROY FRASER. TRADITIONAL TEXAS VALUES. PROVEN CONSERVATIVE LEADERSHIP.**

**Pumpkin: An American Tradition**

Do Americans have a penchant for pumpkin? You bet! Over 145,000 tons of the luscious, golden orbs are processed each year in the U.S. (that's equivalent in weight to 644 Statues of Liberty).

An overwhelming majority of that tonnage is harvested and processed by Libby. Each day during the harvest and packing season, (late August-September), Libby processes enough pumpkin to make more than a million pies -- pies that will be a part of traditional holiday meals throughout the country.

Libby's Famous Pumpkin Pie Recipe, considered by many home bakers to be the definitive pumpkin pie recipe, has appeared on every Lib-

by's Pumpkin label for more than 3.5 decades.

**Pumpkin Trivia Quiz**

1. Pumpkins are part of what vegetable family? Squash
2. Where is the "Pumpkin Capitol of the World"? Morton, Illinois, where nearly 45,000 tons of pumpkin are harvested each year.
3. In what country did Halloween Jack-O-Lanterns originate? (A) United States (B) Spain (C) United Kingdom (D) France (A) United Kingdom, where it was believed that the eerie light cast by these hollowed-out, carved lighted pumpkins would ward off evil spirits.
4. What year was canned solid pack pumpkin introduced in America? In 1929, Libby, McNeill and Libby introduced canned solid pack

pumpkin.

5. The very first pumpkin pies ever made were baked similar to the ones we enjoy today -- a pumpkin filling inside a pastry crust. True or False? False. In New England, the earliest pumpkin pies were made by cutting off a slice from the top of the pumpkin, taking out the seeds and filling the cavity with milk, spices and honey, maple sugar or molasses. Then the top was replaced and the whole pumpkin baked.

6. Only a small amount of additives are contained in Libby's canned, solid pack pumpkin. True or False? False. No sugar, salt, artificial flavorings, coloring, preservatives or any other additives are found in Libby's canned pumpkin.

7. How many calories are there in 1 cup of solid pack pumpkin? 80 calories

8. Pumpkin contains a very large amount of an important nutrient. Which is it? (A) vitamin D (B) vitamin A (C) vitamin E (D) calcium (E) potassium (F) protein Vitamin A (It also contains many other valuable nutrients such as

potassium, Vitamin C, riboflavin, calcium, protein and thiamine.)

9. What variety of pumpkin is processed for "America's favorite" canned pumpkin? Dickinson

10. How many pumpkin pies will be home-baked using canned solid pack pumpkin this Thanksgiving? 88 million, according to Libby.

Hardin-Simmons University.

**Br. Christmas celebration plans underway**

The Bronte Merchants Association began planning for the community's annual Christmas celebration at a recent meeting. The holiday event is scheduled for Saturday, December 7, with many special activities to be held that day.

November 4 is the big day that all hometown shoppers can begin to register with participating merchants for a chance to win the "Holiday Shopping Spree" to be given away by the merchants.

Each \$3 spent with participating merchants will be entered in the drawing to be held Saturday, December 21st. Merchants hope this year's drawing will be even bigger and better than last year's!

Any merchant wishing to participate in this Holiday Shopping Spree give-away should contact Shirley Denton at Joni-Lyn's as soon as possible with their cash donation.

More information will be coming in future papers about the parade, evening program, and other activities.

The Miss and Mrs. Bronte contest will be held again this year. Divisions are Little Miss Bronte (ages 3-7), Jr. Miss Bronte (ages 8-12), Miss Bronte (ages 13-18), and Senior Ms. Bronte (age 55 and over).

Anyone wishing to participate in this contest should go by Main Street Market or Margaret's Flowers and pick up entry forms and revised rules for the contest.

Watch the Observer/Enterprise for more exciting news about the fantastic holiday season coming to Bronte and don't miss a thing!

**TX Public Employees Chapter 98 to meet**

District 7 Highway Chapter No. 98 of Texas Public Employees Association (TPEA) will hold its Annual Meeting at the Texas Department of Transportation District Office, 4502 Knickerbocker Road in San Angelo, on Monday, November 4, 1996 at 6:00 pm.

Purpose of the meeting is to nominate and elect officers for the 1996-1997 year, discuss membership growth, the annual Christmas Party, fund raising activities, and other items of interest to the chapter.

All members of Chapter 98 are encouraged to attend this meeting. State employees from other agencies who are interested in TPEA are also invited to attend the meeting.

**Pumpkin Contest**

Eight 4-H members entered the Pumpkin Contest held October 25, 1996. The pumpkins were carved, painted or decorated resulting in some very imaginative characters. First place went to Misti Brothers, 2nd place - Clay Antilley and 3rd place - Rebecca Rawlings, Kyla Milligan, Cara Eaton, Shannon Honse, Cassidy Wink and April Cowart. The pumpkins were displayed during the Fall Festival October 26.

*Are you considering retiring in the near future?*

### Fluids aid in increased job performance

You've probably seen the commercial: an Adonis-like construction worker thirstily drains a can of Diet Coke, oblivious to the crowd of women avidly watching from a nearby office.

What most don't realize is, a busy day in any working environment can cause an employee to neglect the most basic of necessities - fluids.

"Simply keeping yourself well-hydrated with any beverage will allow your body to run more efficiently," says Robert Jackson, M.D., a general internist at The Methodist Hospital in Houston. "Water is the most abundant component of the human body, and the brain is 75 percent fluid."

If you're not replacing what you lose through respiration and perspiration, you'll feel it eventually. Dry mouth is the first symptom, followed by headache, then, if you're really dehydrated, tiredness or crankiness.

It's not always easy to tell if you're getting enough liquids. Usually, by the time you feel thirsty, you're already somewhat dehydrated. But, Jackson offers a quick way to find out.

"The better hydrated you are, the clearer your urine," he says.

Fortunately, staying well-hydrated is easier than ever, with refrigerators in many offices and lighter beverage packaging.

Tap water is the easiest and cheapest and, except in areas with high amounts of sodium and calcium in the water supply, is as healthy as any of the bottled version. The only advantage to bottled water,

Jackson says, is taste. However you prefer your water, try to drink at least eight glasses a day.

Over the long workday, many people look for more of a boost than water alone can provide. The energizing effect of caffeine has made coffee and cola staples around any office. Jackson says it's okay to drink up, since the evils once attributed to coffee - such as coronary troubles - haven't been proven conclusively. "There's no good scientific evidence that shows that drinking coffee is harmful," he says. In fact, another popular source of caffeine, black tea (the variety used in most iced tea) has been shown to reduce the risk of stroke in men. Because caffeine is a strong stimulant, though, Jackson suggests limiting yourself to the amount your body can tolerate.

If you're looking for a decaffeinated energy surge, fruit juices and sugary, caffeine-free sodas temporarily increase energy - and most juices have the added benefit of vitamins.

After physical labor, sports drinks like Gatorade and 10-K are some of the best ways to refresh and recharge without caffeine or a lot of sugar. Now available in a variety of flavors, they replace electrolytes and potassium better than any other beverages.

In the end, Jackson says, "it doesn't matter what you drink, as long as you drink something. Maintaining good hydration is the most important thing."

For more information about Methodist's services call (713) 790-3333, or visit our site on the world wide web <http://www.methodisthealth.com>.

### CRMWD lake report

Lake elevation at O.H. Ivie Reservoir as of Oct. 28 was recorded at 1543.33 feet. Surface and bottom temperatures were both 69.5 degrees F. The main body of the lake appeared clear, while the upper end was murky.

Fishing activity and conditions remained slow during the past week, with the cooler weather being the major factor.

Anglers after crappie and channel catfish had good results. Fishing at night, crappie were hitting minnows at the main lake and midway up creeks. Channel and blue catfish were caught over baited holes in the main lake and up the Colorado River arm of the lake. Best baits used were shad, live, stink, and blood. For most species of fish, it seemed that optimum water depths were between 10 and 30 feet.

Black bass went for plastic worms in deep water, and spinner and crank baits in the shallower water. The small-mouth bass were found mainly along rocky areas at the main lake and points, where plastic worms and deep diving crank baits performed well. Night fishing for white bass using minnows produced fair results. Some white bass were landed while trolling along the main lake and points.

On trotlines set at the main lake and midway up creeks, yellow catfish were lured to hooks baited with live baits. No walleye catches were reported.

### Protect eyes during sports

Are you ready for the game? Don't forget protective eyewear.

"Sports are a significant cause of eye injuries," said Dr. Bowes Hamill.

Eye injuries are most common in basketball and baseball, where a foreign object - such as a finger or a fast ball - can come into contact with the eye.

He said most sports-related eye injuries could be

prevented with protective eyewear, which costs between \$15 and \$25.

But do not think any old glasses will do.

"Sunglasses and prescription lenses are not designed to be protective eyewear," said Hamill. "You need to have protective glasses that are designed to withstand impact."

He recommends goggle-type protection for basketball and shield-type protection for baseball.

### WINK INSURANCE AGENCY

Life\*Commercial

715 Austin - 453-4551

### Public Notice

Pursuant to Tex.Rev.Civ.Stat. Ann. art. 1446e, § 5.08 (1996) Lone Star Gas Company and Lone Star Pipeline Company, Divisions of ENSERCH Corporation, and ENSAT Pipeline Company (collectively referred to as "Applicant") hereby give notice of intent to change the city gate rate of Lone Star Gas Company established by Order of the Railroad Commission of Texas in Gas Utilities Division Docket No. 3543.

Applicant proposes a Monthly City Gate Rate Calculation (MCGRC) to replace the rate approved in GUD 3543. The MCGRC recovers the costs of purchasing, storing, and transporting gas to the city gates, including an adjustment provision to recover the carrying cost of working gas in storage. Applicant also proposes transportation and storage rates for city gate deliveries with tracking clauses to recover fuel and lost and unaccounted for gas.

The proposed effective date of the change is November 29, 1996. The change is a major change, and will result in an increase in annual revenues of approximately \$24.2 million or 4.8 percent (4.8%). The customers affected are the 1.3 million residential and commercial customers in Texas served by Lone Star Gas Company under the rates established by the local regulatory authorities in the municipalities and the Railroad Commission in the environs areas.

A statement of Intent to make such change has been filed with the Railroad Commission of Texas in GUD 8664 and is available for inspection at the Commission's office in Austin, Texas and at the offices of the Applicant in Dallas, Texas.

Texas Senate

Paid for by Rick Rhodes for Texas Senate, Rick Rhodes Treasurer

## Dole, the Man for the Future

Dole, a combat veteran, who supports a strong defense is more competent to be Commander-In-Chief than a man with no experience and who avoided the draft until there was no danger of his having to go. Read on through for the way Clinton leads.

Dole can be depended upon to support Social Security. He, we believe, can stop the Social Security Funds being used for other things than they were intended. He supports Medicare. In one day, reports from three senior citizens' organizations came. They support Dole. Dole opposes the Clinton Health Plan or any similar plan.

Dole believes in Peace Through Strength. With so much fighting in so many places, much turmoil everywhere and so much uncertainty in what was the Soviet Union, America should be very strong.

Trust Dole to oppose the Gay Bill of Rights. It may be the most dangerous and threatening thing we face. Information from different sources indicate that it is.

The proposed Gay Bill of Rights is not a bill of rights at all. It would create a license for adults to have sex with small children which here-to-fore has been regarded as child abuse. Homosexuals are pushing hard for it and Clinton has promised to sign it.

The United Nations Rights of the Child law would mainly stop parental oversight and authority over our children. You know that the U.N. is composed of many nations, large and small, with governments very different from ours, but each one having the same voting power as the U.S., i.e. one vote.

With some advocates of legalizing drugs and with a man that has been imprisoned for his connections with drugs that Clinton has pardoned and let loose to join in any kind of drug activity, we submit that our kids are safer with Dole as President.

Dole opposes Washington government or the N.E. A. dominating our schools. He advocates more parental authority and closer to home leadership. He is for freedom of choice of schools and some reductions in taxes for those who do not choose public schools. We believe Dole agrees that the quality of education is not determined by the money spent, but by the subject matter taught. We need to free colleges of the politically correct idea and of the harassing of students who do not conform to it. We need to keep the founding fathers and national heroes in our textbooks. We need to stop teaching sex and "how to" in our schools. We need to stop assuming all teenagers and many children are sexually active, handing out condoms and falsely calling that safe sex. We need to decentralize the authority over all these things. We need to bring authority over our schools back to the state or preferably to parents and good teachers they select.

Our parents were well-educated and extremely well-informed. We need freedom of choice in how we educate our children, even to continue to home school them.

The Clinton Health Bill, if it had passed, would have been a disaster. Hillary and her helpers spent many hours and wrote many pages behind closed doors and came up with a proposal for the President to appoint seven people to help him take over and run our health care. In effect, it was a grab for power over, perhaps, one third of the national economy. The plan was to provide for a patient to ask for permission to go to a doctor, to ask for an appointment, to wait for one with whatever doctor the government approved. Clinton proposed to keep trying for a similar bill. He and Hillary, when asked on television if a person would have as much choice (as we do now) of a doctor, said "Yes." Hillary said "More." This is not true.

The economy was much better under Reagan and Bush, according to records.

Don't trust the poles as reported as 2 digits difference. Our information from several sources that the election will be very close. Think carefully. This is the most important one of this century.

Pd. Pol. Adv. by some Robert Lee Republicans

## Vote '96

by Tony Garza

Texas Secretary of State

You get your ticket weeks in advance. Your seats are never as close as where you really wanted, but that makes little difference. After all, your ticket not only means you see the action, it guarantees you're a part of it. Then you notice some prime seats where no one will sit. Who gets a ticket to a big event and then opts not to use it?

In attendance-keeping, they are known as the "no-shows". People who buy tickets and then for some reason don't attend. No-shows can prevent an event from touting itself as an official sell-out. For that reason, you'll hear boos, hisses, and cat-calls when the number of no-shows is announced at some sporting events.

In many respects, Texas elections vary little from this scenario. You get your voter registration card (your ticket) weeks in advance. Most of us are never as close to the political action as we'd like, but on election day that makes little difference. Our vote makes each and every one of us a vital part of the action.

And like any big event, organizers always hope for 100 percent turnout (a "sellout, if you will) on election day. However over the years, the political arena has been anything but full. Empty seats are easy to find.

So where are the "boos" for the no-shows on election day?

Let's face it. Booming the election day no-shows is no longer fashionable. Yes, it's certainly chic to complain about "the system", but taking an active role in changing it? That's for the other guy to worry about. The right to vote, once a patriotic duty, has become as important to some people as a weekend chore that never seems to get done. "Yeah, yeah. I'll do it -- if I get around to it."

With 1996 being a Presidential election year, that fact alone should be enough to spark voter interest across our state. And considering Texans will also have the final word on one U.S. Senate seat, all 30 Congressional seats, all 150 seats in the Texas House and approximately half the seats in the Texas Senate, you can understand why 1996 is viewed as a significant election year -- and why voter participation is as important as ever.

However if a 20-year trend holds, more than a quarter of the registered voters in Texas will opt to sit out this Presidential election year. In hard numbers, that's more than two and a half million people. Since 1976, voter turnout in the November General Election has surpassed the 70 percent mark only once. As Secretary of State, that's a trend of voter apathy that disturbs me.

Upon being appointed by Governor George W. Bush, my goal has been to continue the strong legacy of my immediate predecessors in the area of voter registration. Secretaries of State including Jack Raines, George Bayoud, John Hannah, and Ron Kirk have all worked to assure ev-

ery Texan eligible gets the chance to register to vote.

Passage of the National Voter Registration Act has made registration a relatively simple process. A record 10,540,678 Texans are registered to vote this election year, representing approximately 77 percent of the eligible voting population. With registration made easy, the challenge is now on assuring those registered to vote will show up at the polls.

The answer to voter apathy has proven elusive. Feelings of isolation from government, negative campaigns, the overwhelming number of elections have all contributed to the problem. All have added to the perception, "What does it matter?"

If you are concerned about how state and federal government utilize your tax dollars, your vote is crucial. If you consider jobs and the economic future of our children a priority, your vote is significant. In 1996, as in every election, your vote still matters.

Democrat or Republican, Libertarian or Independent: your political affiliation is not the issue. What matters is that you let your voice be heard on election day. The sounds that resonate from the ballot box are ones that cannot be ignored in Washington, in Austin, in county courthouses or in city halls.

Your voter registration card is your ticket. The political arena has plenty of seats. With so much riding on the outcomes in 1996, it's time we start booing the election day no-shows again.

## Poems wanted for contest and anthology

Sparrowgrass Poetry Forum is offering a grand prize of \$1,000 in its new "Distinguished Poet Awards" poetry contest. Thirty-four other cash awards are also being offered. The contest is free to enter and open to everyone. Anthology purchase may be required to ensure publication, but is not required to enter or win the contest.

Poets may enter one poem only, 20 lines or less, on any subject, in any style. The contest closes January 31, 1997, but poets are encouraged to submit their work as soon as possible. Poems entered in the contest also will be considered for publication in the Fall 1997 edition of *Treasured Poems of America*, a hardcover anthology to be published in August 1997. Prize winners will be announced March 31, 1997, and all prizes awarded promptly.

"Our contest is especially for new and unpublished poets seeking a forum that enables them to share their work," says Jerome P. Welch, Publisher. "We are looking for sincerity and originality in a wide variety of styles and themes. Many of our contest winners are new poets with new ideas."

Poems should be sent to Sparrowgrass Poetry Forum, Dept. N, 609 Main St., P.O. Box 193, Sistersville, WV 26175-0193.

Q: Which Texas Judge was rated "Best-Qualified" by an overwhelming 89% in this year's official State Bar Poll?

**Judge Jimmy Carroll**  
Chief Justice, 3rd Court of Appeals

THAT'S BECAUSE JUDGE CARROLL BELIEVES IN:

- A TOUGH, NO-NONSENSE APPROACH TO DANGEROUS CRIMINALS
- UPHOLDING THE HIGHEST ETHICAL STANDARDS AT ALL TIMES

Judge Carroll's name will appear in the middle of your ballot, immediately after your state representative candidates.

"I have been honored to serve on the Court of Appeals. My commitment to the people of Texas is the same now as it has always been: to exercise fairness, integrity, and strict independence on the Court. I hope you will cast your vote for me on November 5."

*J. Carroll*

COUNTRY AGENTS NEWS

by Tommy Antilley  
Coke County Agent

**Backgrounding program often valuable marketing tool**

Weaning and shipping stresses both calves and their owners. Backgrounding calves - one way to add profit while shipping calves this fall is to lessen stress.

Mike Mallett, Lampasas County Extension Agent, and Bill and Flo Ladyman have just completed an on-the-ranch comparison of feeder calves. The study's two objectives are: 1) to determine feeder calf shrinkage sold immediately after weaning and 2) to evaluate management strategies to reduce feeder calf shrinkage.

"The average Texas cowherd numbers less than 50 cows," said Mallett. "The typical small producer sells calves directly off the cows. Shrinkage can run as high as 10-15 percent.

Management strategies aimed at reducing weight loss can only increase pay weights and improve gross income."

Mallett and the Ladymans used 15 randomly picked fall-born calves (Oct. 15 to Nov. 3) for the study. The calves were weaned and divided into three groups. The calves were weighed at the ranch immediately after weaning to determine the off-cow weight.

Five head were randomly chosen and sent to the local commission company. The remaining ten calves were vaccinated with an intranasal respiratory complex, fed five pounds of a medicated-receiving ration per head per day, and given hay and water in a small trap.

The calves were turned into a 100 acre pasture one week postweaning. The five-pound-per-day supplementation was continued until sale day.

Two weeks postweaning, a second group of five head were randomly selected and delivered to the local commission company. The last five calf group was sold four weeks postweaning.

"The first group, those sold six-and-a-half hours after weaning, averaged losing 16 pounds a head," said Mallett. At \$29/cwt., they lost about \$8.00 per head to shrinkage, but incurred no vaccine or feed costs.

"The group two calves actually lost money. Their pay weight was 8.2 pounds

heavier on average, but the vaccination and two-week feeding period was greater than the market value of the added gain (cost of the 8.2 lb. gain was \$1.30 per pound)."

"Holding cattle for 28 days postweaning proved to be the profitable option. Calves in group three were 46 pounds heavier than group one. The 46-pound gain was acquired at an economically feasible cost of 41 cents per pound. Group three averaged \$54/cwt, so the producer made 13 cents per pound on the 46 added pounds (\$5.98 per head)."

Mallett said postweaning preconditioning programs work best when high quality pasture is available. He also advises that the preconditioning period be at least 21 days, otherwise the added weights often fail to yield significant weight gains compared to off-cow weight.

"We found that the small producer can effectively manage the shrinkage incurred during the weaning and marketing process," said Mallett. "I do advise anyone considering such a venture to first consider the condition of his calves, medicine and feed costs and potential returns."

**Euterpean Club meets**

The Euterpean Club of Blackwell met October 17 in the fellowship hall of the United Methodist Church.

Myrtle Thompson, president, conducted the business meeting. Lillie Burwick, secretary, read minutes from the last meeting.

Earlene Alexander of Margaret's Flowers and Gifts of Bronte gave the program. Earlene covered and decorated boxes with material, ribbon, and beads. Members enjoyed covering and decorating their own boxes.

The hostess for the evening was Rosemary Ten Eyck, and co-hostess was Sue Sweet. The fellowship hall was decorated beautifully for Halloween. The refreshments were delicious with the Halloween theme.

Other members attending were: Jean Bell, Betty Cole, Hulene Conradt, Mary Lee, Linda Waits, Juanita McRorey, Dona Sanderson, Margaret Stout, Sharon Taylor, Bobbie Varnadore, and guest Heather Sanderson.

**Vets Day celebration to be held**

The Second Annual Veterans Day Celebration will be held Saturday, November 9, 1996, from 11:00 am until 1:00 pm. The event is sponsored by the Permian Basin Vietnam Veterans Memorial Committee and will be held at the Permian Basin Vietnam Vets Memorial, 9931 Wright

Drive, Midland International Airport.

For more information, contact John Philbeck at 682-0461 or 559-6836.

**Personal**

Don and Lillian Dence are here from Hemet, California, visiting their daughter, Donna Keele, and her husband, Randle. They have been to see their grandchildren and great-grandchildren that live in Big Lake and Odessa and

watched their great-grandson, Trey, play football in Big Lake Thursday, October 24. At the same game, great-granddaughter Lindsey was in the pep club.

Randle and Donna have kept her parents busy building a brick bbq for them. Lloyd Nolan of Bronte has been visiting with his grandparents, also. They all hope to get a little fishing done in the next few days.

This well is to be drilled to an approximate depth of 5420 feet.

PURSUANT TO THE TERMS of Rule 37(h) (2) (A), this application may be granted administratively if no protest to the application is received. An affected person is entitled to protest this application. Affected persons include owners of record and the operator or lessees of record of adjacent tracts and tracts nearer to the proposed well than the minimum lease line spacing distance. If a hearing is called, the applicant has the burden to prove the need for an exception. A protestant should be prepared to establish standing as an affected person, and to appear at the hearing either in person or by qualified representative and protest the application with cross-examination or presentation of a direct case. The rules of evidence are applicable in the hearing. If you have questions regarding this application, please contact the Applicant's representative, Stephen Johnson Regulatory Specialist, at (915) 688-7875. If you have any questions regarding the hearing procedure, please contact the Commission at (512) 463-6718.

IF YOU WISH TO REQUEST A HEARING ON THIS APPLICATION, YOU MUST FILL OUT, SIGN AND MAIL OR DELIVER TO THE AUSTIN OFFICE OF THE RAILROAD COMMISSION OF TEXAS THE ENCLOSED NOTICE OF INTENT TO APPEAR IN PROTEST. A COPY OF THE INTENT TO APPEAR IN PROTEST MUST ALSO BE MAILED OR DELIVERED ON THE SAME DATE TO APPLICANT AT THE ADDRESS SHOWN ABOVE. THIS INTENT TO APPEAR IN PROTEST MUST BE RECEIVED IN THE RAILROAD

COMMISSION'S AUSTIN OFFICE BY December 6, 1996. IF NO PROTEST IS RECEIVED WITHIN SUCH TIME, THE REQUESTED PERMIT WILL BE GRANTED ADMINISTRATIVELY.

## Get your flu shot the week of Nov. 4 at the Family Health Center of Bronte

Monday through Thursday  
1:30 - 4:30 pm  
Friday - 9:30 am - 11:30 am  
**473-6003**

Flu shots are \$4. Medicare will cover the fee for those eligible, and we'll file the paperwork. You just need to bring your Medicare card.

Who should take a flu shot?

Any person who wishes to reduce the chances of getting the flu, in particular otherwise healthy persons 65 or older, nursing home residents and people with chronic medical conditions. Patients under 12 years should see their doctor.

### Do sports creams work?

Sore muscles may benefit from sports creams, but not for the reason you might think.

"The heat generated during the process of applying it probably helps more than the cream itself," said Dr. Lon Castle, a clinical instructor at Baylor College of Medicine in Houston.

Castle said that the mind's ability to hasten the healing process may contribute to the feeling of relief. If you truly believe the cream works, you may derive some benefits.

Contrary to popular opinion, however, the creams do not penetrate the muscle.

"The compounds in these creams, such as menthol for example, provide a tingling sensation in the uppermost layer of the skin which may produce some sense of relief," he said.

The best advice is to apply ice immediately after an injury to reduce swelling.

Castle adds that heat can be useful at times such as early in the morning, when soreness and stiffness can make it hard to get moving.

VOTE FOR

# SID MCGINNIS

COKE COUNTY COMMISSIONER PRECINCT #2

November 5 is drawing near and the commissioner's race will be over for another two years. This is the remaining two years of Bill Lockett's term and because it is a short term, gives the voters an opportunity to evaluate the commissioner, seeing if he can carry out his responsibilities as promised. At the same time, the new commissioner can learn the details of the office and be prepared to do an even better job, if re-elected.

I have tried to visit with each of you during the campaign but am finding it difficult to catch all 680 of you at home in such a short period of time. However, some of the voters that I have visited have talked about specific issues and have had questions of concern. I would like to take this opportunity to address some of the more frequently discussed topics and let each of you know where I stand and what I hope to do as your commissioner.

**Question: Are you honest?**

**Response:** I could tell you yes and let it go at that, but I feel you deserve a better answer than that. In this campaign, I have tried to tell you the whole truth about myself and my past. I have not tried to give you a false impression just to gain votes. There are no half truths and I have not omitted any facts that are important to you and this campaign.

**Question: Are you a good business man and can you manage money? Specifically, can you manage our tax money?**

**Response:** I have worked for other companies most of my life. Until 1981, my duties primarily involved technical work. However, in 1981, I began working for Occidental Exploration and Production Company. Part of my job description (for my department), was to develop and adhere to a budget. After setting up the budget, I was required to monitor cost and select trends in spending that emphasized efficiency while staying within the budget. Prior to working for Occidental, I was self-employed, operating an electrical service company with an office in Winters. This company did well but in 1979, an injury kept me from working and I closed the business rather than go bankrupt. Times were lean but eventually I was able to return to the work force and it was at this time that I worked for Commissioner Bobby Vaughn and Coke County. Because of these experiences, I learned a lot about fiscal responsibility and am now able to apply these lessons to my farming and ranching operation.

In response to managing taxes; the budget for this fiscal year has already been set and the new commissioner will need to follow it. He will have to make the most of what is available. I think this will involve exploring ways to make our work crews more efficient and reduce expenses such as fuel cost.

**Question: What can you do to make the county roads better?**

**Response:** This was the most common question. When I worked for the county in 1980, the same question was asked. One of the problems we had then, as now, are the materials from which the roads are made. In precinct #2, there are roads made of sand, gravel or caliche. Each of these materials react differently to road use, moisture, and temperature. Without going into too much detail at this time, each road would have to be evaluated and the proper mixture of ingredients put down. This would not mean that your road would stay in perfect condition, but it might be possible to extend the life of the roads through careful management. Counties around us seem to have good roads most of the time. We could also consult with them and compare techniques to determine the best ones to apply in our district.

**Question: Do you have enough experience with government policy and procedure to be a commissioner?**

**Response:** I have had the normal exposure to government rules and regulations in the U.S. and I have dealt with government policy for self employed persons and farmers. As an international worker, I also have had to deal with foreign government policy with regard to my work with Occidental. This includes dealing with strikes, unions, mayors, (we supplied power for a town of 25,000 people in Columbia), and governors in the Amazon Territories.

**Question: What do you think about the competition between East and West Coke County?**

**Response:** I have been aware of the competition between the two regions since the first day my boys entered Bronte schools. Most of the competition is healthy and normal. I think the Precinct #2 commissioner needs to be able to work well with the others to facilitate the wellbeing of the entire county.

**Question: Are you going to be a full time commissioner?**

**Response:** I will be a full time commissioner

**Closing Comments:** Because this is a serious political race for a position in our county government, I feel compelled to discuss some points that I consider of importance to our county. As commissioner, I would like to keep the line of communication open to all constituents within the precinct. I would like to explore ways to make our county road crews more productive and to better utilize our available man hours. Taxes are on the rise at all levels of government. Our county must be able to continue serving the community without increasing the tax burdens of our citizens. We need to work toward creating an environment that will encourage new homes and business. If a successful restaurant can be built in the middle of a pasture in Runnels county, then we should be able to build Coke County into a more successful community.

If you want a commissioner that will do a professional job,  
who has a good work record, is honest and will do his best to  
serve the citizens of Precinct II, vote for

**SID MCGINNIS THE QUALIFIED CANDIDATE**

Pd. Pol. Adv. by Sid McGinnis

**5 biggest lies told to consumers**

National Consumers Week began October 20th and concluded October 30th. Here is a list of the Postal Inspection Service's "Hit Parade" of the 5 biggest lies told to consumers. These are the most often complained of scams that the postal service is aiming to eliminate through strong enforcement and prevention campaigns.

1. "You are a guaranteed winner of one of five valuable prizes!" This scheme wants you to fork over big bucks to buy chemically inert vitamins, a cheap home security alarm system or contribute to a bogus charity before you get the booby prize. The only winner here is the scammer.

2. "This chain letter is perfectly legal!" Everyone receives this pitch sooner or later, but does anyone really get rich by participating? Once you've paid for copying, postage, and a mailing list, this one of life's big losers. Also, chain letters are a form of lottery and are illegal when sent by mail.

3. "Stuff envelopes at home and earn BIG \$\$\$!" If it were this easy, we would all be home stuffing envelopes. Typically, the person making this offer is going to sell you a "plan" to do exactly what he's doing. Save your money.

4. "We have millions of dollars available from the Nigerian national Petroleum Company to share with you, all we need is your bank account number!" This scam, once aimed at business owners, is now targeting consumers. If you believe this one, you'll believe in the tooth fairy.

5. "You've been selected to receive a fabulous vacation!" Nothing quite matches the allure of travel to exotic and romantic destinations - especially free or deeply discounted travel. Instead of the vacation of your dreams, however, these offers lead to our worst nightmares - scheduling problems, shabby hotels, non-existent cruises and fly-by-night airlines. And you thought all you had to worry about was losing your luggage. How about losing your shirt?

**SS: 61 years and still working**

August 14 marked the 61st anniversary of the signing of the Social Security Act - legislation that now touches the lives of nearly every American. More than 90 percent of all workers are in jobs covered by Social Security, and one in every six Americans receives a monthly Social Security benefit.

When he signed the Social Security Act on August 14, 1935, President Franklin D. Roosevelt said, "We can never insure one hundred percent of the population against one hundred percent of the hazards and vicissitudes of life, but we have tried to frame a law which will give some measure of protection to the average citizen and to his family..."

His words held true. Since then, the Social Security program has grown to include survivors and disability bene-

fits. About 43 million people receive monthly benefits, with over 68 percent of the money going to 26.4 million retired people. Over 21 percent of the money is paid to 12.5 million children, spouses, widows, and widowers who receive benefits because a worker in their family has retired, become disabled, or

died. And over 10 percent is paid to four million disabled workers.

But as important as it is, Social Security was never intended to be the sole provider of a person's financial security. Instead, Social Security is intended as a partial replacement of wages lost because of retirement, dis-

ability, or death.

It's easy to get an estimate of the Social Security retirement, survivors, and disability benefits you would get. Dial the toll-free number, 1-800-772-1213, to ask for a Form SSA-7004 (Request for Personal Earnings and Benefit Estimate Statement).

The toll-free number responds to requests around the clock, including weekends and holidays. You'll get your statement within four to six weeks after you complete and return the request form to Social Security. You may also request the benefit statement from Social Security Internet server (<http://www.ssa.gov>).
