## RL Baptist to host blood drive

In an effort to help stave off a summer blood shortage, Robert Lee Baptist Church will host a blood drive Saturday, June 13, from 10:00 a.m. until 2:00 p.m. in the Fellowship Hall.

Donors that want to make an appointment may contact Becky Ross at 453-2415. Appointments are not mandatory, but help keep donor flow smooth and will be taken before walk-ins. Donors are reminded to bring a positive form of identification, such as a driver's license or blood donor card. Donors are also asked to know the name of any medication they have taken in the past 30 days.

The blood drive will be conducted by United Blood Services of San Angelo, and representatives say the need for blood is always present.

"Summer is a particularly critical time for the blood supply," said Angie Tyson, UBS Community Relations Representative, "Many of our regular donors are busy or out of town, so our blood supply dwindles. Unfortunately, the need for blood stays as constant as ever."

Donors must be at least 17

years old and weight at least 110 pounds. A donor must also be well and healthy at time of donation.

Because blood does expire after a time, UBS must draw around 325 units a week to supply and replenish the 18 hospitals in its service area.

"UBS San Angelo is merely the steward of the community blood supply," Tyson said. "If we experience a shortage, it's actually the patients and the communities that suffer."

You may call 915-653-1307 or 800-756-0024 for additional information.

**Davis travels to  
Europe**

Nadine Davis of Abilene and her cousin, Debe Reed of Comanche, Oklahoma, recently enjoyed a trip to Europe where they spent four days in Paris followed by four days in London. The pair joined a tour from Abilene Christian University.

Outside of Paris, the tour took them to Versailles, traditional residence of the French monarchy. Elaborate furnishings and antiques were breathtaking.

Another favorite stop was the Louvre in Paris where the travelers viewed the famous Mona Lisa painting and many other well known artworks and paintings.

The Eiffel Tower was enjoyable as was a tour boat down the colorful Seine River and its banks.

The average French population owns no automobiles. Travel is either on foot or on the Metro (subway).

Leaving Paris, the group traveled by train through the tunnel under the English Channel to London.

The Crown Jewels display in England was a big attraction as well as the tower of Big Ben, the London Bridge and the Tower Bridge. Buckingham Palace and the changing of the guard was also a high point of the tour plus Westminster Abbey. The group had free time to travel about the cities on their own and the cousins chose to see

several stage productions in London.

Both cities have beautiful sculptured gardens and large historical statues are everywhere.

The all-day flights to and from their destinations left them with jet lag on their trip but they declared it was worth it. However, they were glad to see DFW airport.

# BRONTE SCHOOL NEWS

## Final Point Club celebrations held

Tuesday, May 19, 1998 was the last celebration of the Point Clubs for this school year at Bronte Elementary.

25 pt. club students were invited to a special read-in in the school cafeteria. Teri Johnson read a book to them and the students enjoyed spending their time snacking and reading. These students were B.J. Bilbrey, Kyler Lee, Terrah Macon, Mason Jackson, Cory Glover, D.J. Acevedo, and Ty Mackey.

60 pt. club students were once again treated to a movie and popcorn after lunch. These kids were Angela Arant, Jonathan Marrs, Anthony Vivian, Chase Hoyt, Nicole Reed, Everick Boalts, Ariel Coalson, Prescilla Lara, Riley Coalson, Matthew Luna, Garrett Fiveash, Jessi England, and Samuel Rawlings.

125 pt. club students spent time helping once again with the Pre-K, Kindergarten, and 1st grade classes. Lunch was a weenie roast at the park with Mrs. Howell's Kindergarten class. Then the afternoon was spent with the Pre-K and 1st grade classes. These special helpers were Chris Brown, Salena Soto, Roy Flores, Diane Womack, Alonzo Martinez, Christopher Guzman, Micah Duke, Gracie Garcia, Rebekah Beauchamp, Philip Rawlings, Cody Lee, and Morgan Fields.

200 pt. club activities included a sack lunch instead of yummy corn dogs from the cafeteria and then, Reading Olympics. These are games that we play outdoors and then the real challenge comes when we go inside to use our brains in a battle of the books competition. 200 pt. club students included John Basquez, Ashley Torres, Megan Gibbs, Casey Harris, D.J. Brittain, and Emily Austin.

300 pt. club celebrated with a sack lunch outside during lunch and then these kids got to spend the entire afternoon at the park. These hard working kids were Lora Martinez, Blaine Dyess, Gus Saunders, Calli Johnson, and Natalee Reed.

And finally the 375 pt. club included Lillian McMullan, Savannah Martinez, Jesse Herold, Rebecca Rawlings, Ariel Marrs, Romana Hoover, Estephanie Flores, and Ashley McCutchen. These eight students along with 5th grade teacher, Pat Lee, and Cindy Tomes were taken to lunch at El Ranchero to enjoy a delicious meal. These kids also got to spend their afternoon playing at the park.

It was a great year for reading this school year. Many students have already learned the joy of reading a book. Hopefully each year there will be a few more recruits. Our goal is to promote reading as a life-long sport. A person is never too young or too old to give it a try!

**Library news**

Camp Read-a-Lot is off to a good start at the Coke County Library. Students K-6 keep a reading log and receive bear paws on their reading certificate. Certificates will be presented at the opening assembly at school. There will be a picnic in the park at the end of July for all participants.

Students in grades 7-12 are eligible for weekly drawings for beverages at various merchants in Robert Lee. For each book returned, students put their names in the pot for a drawing which will be held each Friday morning.

New adult fiction is being added regularly. If this 100+ degree weather is good for anything, it's good for staying in front of the air conditioner to read.

Library hours are Tuesday and Friday, 8 am until noon; Wednesday, 8 am until 4 pm; Thursday, 1 pm until 5 pm.

### CRMWD officials host tour

Information submitted by:  
Mel Robinson

John Grant, General Manager of Colorado River Municipal Water District, and C. L. Wingert, Assistant Manager of CRMWD, recently hosted a tour starting at the Colorado City low flow salt diversion located in the Colorado River northwest of Colorado City.

Present for the tour were Rep. Robert Junell; Steve Brown of San Angelo; Ken Peterson, Texas Natural Resource Commission; Sam White, CEO Champion Technologies Inc.; Richard Campbell of Champion; Nancy Sullivan, Mitchell County Economic Development Board; Mel Robinson and Elizabeth Dill of Lake Spence.

The low flow diversion consists of a monitored pool in the river, a pumping station and an evaporation pool. When the chloride levels in the monitored pool exceed 500 parts per million (ppm) water is pumped into the evaporation pool. This is a balancing act of removing as much as possible while keeping the evaporation pool from overflowing and recontaminating the river. Some of the salt water in the evaporation pool is

sold to oil companies to be used in secondary recovery wells.

John Grant agreed that while the main responsibility of the CRMWD is the quality and quantity of water for their customers, they have a responsibility to the property owners around Lake Spence. Rep. Junell stated that the CRMWD has a problem in perception by the lake residents. These perceptions, right or wrong, were at the bottom of the CRMWD troubles with the residents. The way to combat misconceptions is with wide dissemination of facts. The CRMWD should inform the people of actions to be taken and the reasons for those actions. He added the lake people are reasonable and will be able to understand the problems facing the CRMWD.

John Grant stated the extra demand brought on by the hot dry weather required the bringing on line of the Lake Spence pump station. This will help meet the requirements of Midland and Odessa.

The tour broke up with Rep. Junell and others attending a briefing at the Coltex Refinery clean up site west of Colorado City.

After lunch, Lake Colorado City Park Rangers, Texas Department of Corrections Officers and Nancy Sullivan carried the group to the proposed site of construction of 16 new cabins. Mark Fambro of TFWF briefed on the site and the construction material to be used. Rodney Cooper, TDC, said by using convicts to do the labor, costs could be minimized. Nancy Sullivan added that Mitchell County would take the responsibility for the "dirt work." The state park has approximately 175,000 visitors each year. This is a boost for the Colorado City economy. Rep. Junell asked the players to get together and submit a detailed list of material, staffing and associated costs to his office. George Bell, Regional Director of TFWF out of Waco also attended.

The tour then headed to Lake Spence. First stop overlooked the lake on the north side near the dam. Here Laura Pedersen of the Sunshine Gardens joined the group to help present a local business person's view. Sam White, of Champion and a property owner, stressed adversarial relationships between the lake people and CRMWD are not needed. John Grant restated the commitment to Lake Spence property owners and the businesses that rely on tourists brought in by the lake but emphasized maintaining the quality of water was an important responsibility. Lake Ivie has over 500,000 acre/feet of water and Lake Spence has less than 100,000 acre/feet. It was stated that since Ivie catches water from the Concho River, Oak Creek and others, it appears Spence could store some water for recreation and tourism versus storing so much in Ivie. Mr. Grant commented the CRMWD would take that into consideration. Rep. Junell, having listened to the discussion, pushed for a commitment from the CRMWD for a 10 foot rise in the level of Lake Spence,

then later on we can shoot for an additional 5 feet. This would balance out the storage, help prevent Lake Ivie from being overfilled which necessitates release of precious water and renew tourism and property values at Lake Spence.

John Grant agreed to this commitment with leeway to take care of extraordinary circumstances and to manage the chloride levels.

Jeffie Roberts escorted the Robert Lee Elementary 3rd graders to the Coke County Courthouse and Robert Lee City Hall to further their education about local government. The children are shown with the County elected officials and with City officials.

### Elementary students tour Courthouse and City Hall

Jeffie Roberts took the third grade classes of Robert Lee Elementary to the various offices of the Coke County Courthouse and City Hall. The classes had already studied about county and city government in Social Studies. Mayor Kelly Nichols and City Secretary Kay Torres explained the duties and responsibilities of City Council members as students sat around the long rectangular table in the big, padded chairs of the City Hall.

A Mock County Court was held that included all students and county officials. This court situation was the favorite part of the tour. The following elected officials explained their jobs to the students: County Clerk Ettie Hubbard, Judge Jackie Walker, Tax Assessor-Collector Kristy Roe, Treasurer Phelan Wrinkle, Sheriff Mike Harris, and Chief Appraiser Patsy Dunn. County Agent Tommy Antilley also explained his job.

At the end of the tour, students were treated to cold lemonade, cookies and popsicles. They thoroughly enjoyed and appreciated every part of this educational field trip.

### Summer Stains

Of course, summer has no monopoly on soil but barbecues, picnics and other outdoor events seem to offer a breeding ground for spills and stains. With this in mind, The Soap and Detergent Association would like to offer some tips on removing common summer stains.

As a general rule, treat any stain immediately. To increase the chances of removing it, pre-treat it before it has dried. Use a pre-wash stain stick or stain remover, liquid laundry detergent, or a paste of powder laundry detergent and a bit of water. Test first for color fastness at a seam allowance or other inconspicuous area. Launder the entire garment, using detergent and a bleach that's safe for the fabric.

Here are some special hints for special stains. *for grass stains, heavy mud stains and dairy product spills:* pre-treat or soak in a product that con-

tains enzymes. Soak for at least 30 minutes - longer if the stains are old.

For *beverage stains* (including coffee, tea, soft drinks, wine and alcoholic beverages), sponge or soak the stain in cold water, then pre-treat and launder. If safe for the fabric, use liquid household bleach (sodium hypo-chlorite), otherwise use color-safe bleach. For older stains, try pre-treating or

soaking in a product containing enzymes.

*Mildew stains* should be laundered, using liquid household bleach, if safe for the fabric, or soaked in color-safe bleach and hot water. If the mildew infestation is severe, the fabric may be damaged beyond repair.

For *mud stains*, let the stain dry, then brush off as much residue as possible. For light

stains, soak in liquid laundry detergent or a paste made from powder laundry detergent and water. Do-it-yourselfers will find water-based *paint* easy to remove IF you do it before the paint dries. Rinse the wet stain in warm water, then launder the object. For oil-based paint and varnish, use the solvent recommended by the paint manufacturer as a thinner. If not available, use turpentine.
