Donors must be between the ages of 17 and 79, weigh 110 pounds or more and provide some form of identification. Please know the names of any medication you have taken in the last 30 days, this will help your donation move along more quickly.

"It takes approximately 48 hours to process a unit of blood, so that it is ready for a patient to receive," says Ann Phillips, Community Relations Rep. "We simply can't wait for an emergency to happen and then give blood. The blood already has to be on the shelf in order to help the patient."

Just a reminder to their regular donors...if you donate four times during 1999, you are eligible to enter the "Race to the Millennium" drawing for a big screen TV. If you have any questions or comments please call Ann Phillips at 1-800-756-0024.

Coke County Library news

The Coke County Library has received a new shipment of audio books. There are several young adult titles including: *Black Beauty*, Sewell; *Capt. Grey, Avi*; *Missing May* (a Newbery winner), Rylant; *Jeremy Thatcher Dragon Hatcher*, Coville; *Winnie the Pooh*, Milne; *Emma*, Austin. Also there are adult tapes by Danielle Steel, Mary Higgins Clark, Dick Francis, Tom Clancy and Belva Plain. The recent *Everyone is Entitled to My Opinion* by David Brinkley is also available.

The Story Hour graduation will be held at 10 am in the Mini-Park on Tuesday, April 27.

A faithful patron of the library has agreed to review books she has enjoyed. The reviews will appear on a reasonably regular basis. Following is a review of Marne Davis Kellogg's book, *The Tramp*.

In this book we investigate a murder with Lily Bennett, U.S. Marshal. The victim is the wealthy patron of a repertory company, and he is a nasty man, so we don't mind. Might even want to give him a whack ourselves. The repertory company has lots of quirky characters who could have done it. The rule of thumb in investigating murders is to follow the money. In that case, is it the manager or is it the over-endowed conniving sec-

retary? None of these people would I want on my front porch.

This was a fun book to read. I liked living Lily Bennett's life for a few hours, but now I have questions. Who carried all that gold, and if you are a peace officer and must carry a gun, where do you carry your gun while wearing an evening gown? As jewelry?

Property tax exemptions available for disabled veterans

Veterans with a service-connected disability may reduce their property taxes by filling out a simple exemption form at the Coke County Appraisal District office. The percentage of disability determines the size of the exemption. It ranges from a \$5,000 to a \$12,000 deduction from the veteran's property value.

Chief Appraiser Patsy Dunn explained the following persons are eligible for the applications: a disabled veteran; a surviving spouse of a deceased disabled veteran, as long as the spouse remains unmarried; a surviving minor child of a deceased disabled veteran, if the veteran's spouse does not survive the veteran and if the child is both under 18 and unmarried; a surviving spouse of a person killed while on active duty, whether the spouse has remarried or not at application time; and, a surviving minor child of a person killed while on active duty, if the child is both under 18 and unmarried.

Any eligible person who has not received this exemption must apply by April 30. "But, if you received the exemption

in 1998, you do not have to reapply in 1999," Mrs. Dunn said. An applicant may claim the exemption on only one piece of property, such as a home or any other property the applicant owned on January 1. The applicant must be a Texas resident to qualify.

Obtain an application form and more specific information from Coke County Appraisal District in the Courthouse, Second Floor, West, at Robert Lee, or call 453-4528.

Special guests were the bride-elect's mother, Mrs. Gayla Cox, and the prospective groom's sister, Lori Renfroe, both of San Angelo.

I wish to Thank the Citizens of Coke County for their kindness, consideration, and all the kind deeds that happen only in a rural county during the illness and death of my Father. I always knew you were special people, but during this time you have certainly proven it again. I will not attempt to name any names as there were too many and not any one act or deed meant more than the other. You will all remain special to me the rest of my life.

APRIL IS CHILD ABUSE PREVENTION MONTH

Tips for Parents and Families

Choosing Child Care

Here are some suggestions to help both first-time and experienced parents choose child care.

People - Watch the staff with the children. Listen to their voices. Are they patient? Do they seem to enjoy the children or just tolerate them? Do they offer the children choices or do they tell them what to do? Are they enthusiastic or sound bored? Do they threaten or say "no" often?

Place - Look around. Are there places to build, read, do art, move, climb, sit all cozy, or read in? Is there room to move about without running into others? Is the place well lit, clean, fresh-smelling, too noisy, too quiet, or too wild? Are there good play areas and interesting, safe equipment. Is there grass, shade, sand, or place to ride on toys?

Things - Look at things that are there for your child to use. Do they look safe and in good condition? Is there a good variety? Do these things look interesting or challenging? Are there things that would be fun to feel, see, hear, and smell? Are there enough items so that children won't have to wait for a long time? Does the outdoor area have things to ride or climb on or dig with?

Put Yourself in Your Child's Shoes - Try to imagine what the child-care facility would look like through your child's eyes. Try to get a feel for a program. If you have chosen a facility, make follow-up visits to keep updated on changes in staff and environment.

Child Care in Texas - All Texas child-care providers are supposed to complete a criminal history check and are checked against a child abuse and neglect database. If the facility you are visiting does not have a certificate from the Child Care Licensing division of the Texas Department of Protective and Regulatory Services (PRS), then it is possible that the facility is operating in violation of state law.

RLISD sets date to take daughters to work

The Take Our Daughters To Work Day (TODTWD) program is promoted annually nationwide by the Ms. Foundation for Women. This day provides an opportunity for school districts to extend plans for career investigation activities.

Nationally, the TODTWD is the fourth Thursday in April each year. Because this date is immediately before the spring administration of the TAAS, local school districts have been given the option of selecting an alternate date.

Robert Lee ISD has selected Thursday, June 10, 1999, as the recognized date for TODTWD. Parents and students are encouraged to participate in this worthwhile activity.

Graduation events for RL school

Baccalaureate services will be held on Sunday, May 16 at 8 pm in the auditorium. 8th Grade graduation will be held on Thursday, May 20 at 8 pm in the auditorium. High school graduation will be held Friday, May 21 at 8 pm in the auditorium.

RL Elementary Accelerated Readers

On Thursday, April 15, the students from Robert Lee Elementary School who had reached their Fifth Six Weeks Accelerated Reader Goal or had moved up one or more reading levels were treated to a trip to Robert Lee State Bank. The students went to the bank in three groups: Kindergarten-Third Grade, Fourth Grade, and Fifth and Sixth Grade. Each group was greeted warmly at the bank by bank employees. Mr. Stephen Myers presented each student with a crisp, new \$2 bill as the student's name was called. The students in each group gathered around Mr. Myers for a picture which we hope will be in the newspaper in a few weeks. The Fourth Grade group had a special guest on the bank trip, their PAL, Melanie Johnson. Each student is proud of the \$2 bill.

The students who have attained the Accelerated Reader Honor Roll for the fifth six weeks, are:

Shannon Health System accepting scholarship applications

Shannon Health System is accepting applications for the Margaret Shannon academic scholarship to be awarded June 1.

The scholarship program was initiated in 1997. Two \$500 scholarships are awarded annually, one for the fall semester and another for the spring semester.

"These scholarships are designed to provide educational funding for students pursuing careers in health care. They honor our benefactor, Margaret Shannon, who, with her husband, J.M., were ardent supporters of higher education and who were committed to providing health care for the citizens of this area," said Jo Vaughan, Shannon Health System marketing director.

To qualify, students will be enrolled in one of the following educational efforts:

- as juniors or seniors in a college-level allied health science degree, such as a bachelor of science in nursing or pharmacy;

- in an accredited technical or vocational school leading to certification in an allied health field, such as LVN, medical records, radiography or respiratory therapy;

- in graduate studies, such as medical doctor, doctor of osteopathy, physician assistant or health administration.

Students need to be enrolled for at least nine semester hours, maintain a 2.5 grade point average overall and 3.0 in major courses, and be residents of Shannon's 19-county service area, which includes Brown, Coke, Coleman, Concho, Crockett, Howard, Irion, McCulloch, Menard, Mitchell, Nolan, Pecos, Reagan, Runnels, Schleicher, Sterling, Sutton, Tom Green and Val Verde counties. Additionally, applicants will be required to provide a college or technical school transcript and write an essay describing their perceived role in the medical field, why they chose such training and other pertinent information.

"The Shannons were a conservative pioneer family who believed in helping their neighbors," Vaughan said. "These scholarships are another way the Shannons' legacy continues to assist the citizens of our area in achieving goals and better lives."

Deadline for entry is May 15. The scholarship winner will be named Dec. 30. For more information or an application, call Shannon Marketing at (915) 657-5064.

Robert Lee VFD news

By Marian Thompson, Secretary

Eleven members of the Robert Lee Volunteer Fire Department met at the station April 19 at 6 pm. The group worked on the trucks until 7 pm, when they stopped for the regularly scheduled meeting. President Keith Eubanks presided.

The minutes were approved as read. The treasurer's report wasn't available. Keith reported that he thought the department didn't get the grant that had been applied for. Chief Rick Drennan reported Bud's findings on the cost of new radios for the fire trucks. It was moved and approved that they order the radios.

A discussion followed on the recent fire on the Sterling Highway and the hazards caused by the terrain and the lack of communication due to faulty radios in the trucks. The assembly approved having the clutch adjusted on the 6 by.

The Forest Service has a generator for the department and five sets of bunker gear. The equipment is in Lufkin and Pat Percifull and Robert Sanders will go and pick it up Wednesday.

The meeting was adjourned at 8 pm and the men went back to work on the trucks until 9 pm.

Everyday Herbs

You have probably been hearing a lot about herbs lately. They are on the news and in the papers, on store shelves and maybe even in your doctor's office. Herbs have been proclaimed to do everything from soothing your mood, to improving your memory, to helping your weight like magic! Although some herbs may have some medicinal value, we would like to remind you of something that herbs have been proven to do for many years. Something that has been overlooked as late. That something is making your food taste delicious!

Herbs are a wonderful way to flavor your food. Cooking with herbs can help you reduce the amount of salt you use, or even eliminate it. Herbs such as rosemary, basil, tarragon, dill, parsley and thyme can help you lower the sodium in your diet, fight cancer and make your dining delicious.

Dried herbs have a higher concentration of flavor than fresh, so use only one third the amount of fresh herbs called for in recipes. Store in air tight containers in a dry and dark place such as a kitchen cabinet. They do not need refrigeration. Mark the date and replace dried herbs after three to six months because they lose their flavor over time.

Never use herbs? Here are some helpful tips.

- Select brightly colored fresh herbs that are not limp or yellowing.

- Wash stems and leaves in cold water. Drain well and pat dry with paper towels.

- Chop herbs on a wooden board with a heavy, sharp

knife.

- Store washed or chopped herbs in an air tight container or resealable plastic bag in the refrigerator for up to a week.

- Or place washed herbs as you would a bouquet of flowers in a pitcher of cold water and let stand at room temperature for a day.

- Freeze fresh herbs that have been washed and dried by placing separately on a baking sheet and freezing until stiff, then transferring to a resealable bag.

- Dry fresh herbs by tying sprigs together and hanging upside down inside a paper bag cut with holes. This way, any leaves that fall will be caught and the color of herbs, which can be bleached by exposure to light, will be preserved.

- Or dry by arranging herbs in a single layer between two sheets of paper towel. Microwave on low for one to two minutes and let cool.

COUNTRY AGENTS NEWS

by Tommy Antilley
Coke County Agent

Tomatoes are big items in local gardens

If you are still weary of those exorbitant tomato prices since the winter freeze, you may consider growing your own tomatoes.

Growing tomatoes in the backyard can be a fascinating and rewarding venture, but it can be frustrating, too. A sickly tomato plant that produces few, if any fruit, certainly doesn't help anyone's gardening spirit. Whether you're growing tomatoes for the first time or as an old pro, you may profit from some useful advice on avoiding some common pitfalls.

First, don't grow tomatoes unless they can receive sunlight for at least six hours a day. Tomato plants placed between tall shrubs, under trees or between buildings simply will not produce a good tomato crop.

Second, good soil is essential for good growth and high yields. Often, poor soil can be improved with liberal amounts of organic matter and proper fertilization. A dark, heavy clay or even a fine sand can be improved by working 3 to 4 inches of organic matter into the soil where the tomatoes are to be planted.

To raise a few tomato plants, prepare a space at least 2 feet square for each plant. The soil should be worked to a depth of at least 12 inches. Liberal amounts of organic matter and a small amount of fertilizer such as 10-20-10 or 12-24-12 should be mixed into the soil.

The key to growing tomatoes successfully is choosing the right variety of tomatoes. Select varieties that resist many of the common diseases. A few varieties most suited for our area include: Celebrity, Big Set, Merced, Bingo, Spring Giant, Fantastic, Carnival, or the small fruited Small Fry Hybrid.

Transplants should be planted somewhat deeper than they were originally growing. Plants growing in peat pots or peat blocks should not be removed, but rather the entire container should be planted. Sometimes it is helpful to break the

bottom of the pots, but avoid damaging any of the roots.

When setting tomato plants in the garden, use a starter solution to assure adequate fertility during the early stages of growth. Starter solutions can be purchased at local garden centers, or can be made by mixing one to two level tablespoons of a complete garden fertilizer in a gallon of water. About one cup of the starter solution should be applied in the plant hold prior to planting.

For best results, transplants should be set in the garden on cloudy days or late in the afternoon. The plants should be protected from adverse conditions such as high winds or excessive heat for a week or so after transplanting.

Almost all tomato varieties should be staked, trellised or caged for best results, any method is good if it keeps the fruit off the ground. Tomatoes that are allowed to contact the soil often develop fruit rot.
