Coke County Pageant gearing up

Some pretty strange things have been happening in the county lately. Folks are starting to cut long sticks with forks in the end of them. Cowboys have started polishing up their gear and somebody said they spotted a nest of Indians on the city lake dam at sunset yesterday.

Well, these things only seem strange to newcomers in these parts. The rest of us recognize the first gatherings of the "Rabbit Twisters". There's a lot of work to be done this year so plan to be at the Mountain creek Amphitheater on Monday, July 7, at 8 pm to see how you can help. We need cowboys, Indians, singers and lots of people to help offstage. Come join us and let's make this the best Rabbit Twister pageant ever. Everyone is welcome.

Fort Chadbourne Days coming

The Annual Fort Chadbourne Days, sponsored by the Bronte Chamber of Com-

merce, will be held Saturday, June 26. Many of this year's events will be focused on Fort Chadbourne itself, with guided tours to the fort, an artifacts display, and a dance and dinner at the fort.

Other slated events include a softball tournament, a fishing rodeo sponsored by Texas Parks & Wildlife, a three on three basketball tournament, and a ranch rodeo. In addition, the traditional parade, auction, arts & crafts & food booths, music, and live entertainment will also take place.

Most of this year's events will be in or around the Bronte City Park to ensure plenty of shade, space, and activities. The Bronte Chamber is seeking individuals, groups, or organizations to participate in or volunteer to help with the festivities. For more information please contact Kay Gothard at 473-6246.

27. Judge Walker talked to the City Manager, David Maddox. He stated that he didn't know that they were against the seismic work as much as they didn't understand it. He suggested that Judge Walker talk to Mayor Jay Lawrence to let him know how much the seismic work would mean to Coke County. With the Court's permission, Judge Walker will speak with him.

Judge Walker presented the Court with the Trapper's Report.

The Court tabled the report on the Industrial Committee at this time.

No action was taken on private road work.

Kristy Roe, Tax Assessor/Collector, informed the Commissioners that in order to get their exempt plates, she would need vehicle numbers on any equipment that they drive on the road.

Commissioner McCutchen reported they were still working on Lake Dam Road.

Commissioner Burns made a motion, seconded by Commissioner Rawlings to pay the bills. The motion carried.

A budget workshop followed. After the workshop, Commissioner Burns made a motion to adjourn. The motion was seconded by Commissioner Percifull and carried.

It's important

Although women should get an initial mammogram by age 40, it's especially crucial for older women to have regular screenings because the risk of developing breast cancer increases with age. Women ages 40 or above should have annual screenings, because early detection is a key factor in successful treatment.

Medicare will pay for an annual mammogram for eligible women.

COUNTRY AGENTS NEWS

Don't Throw Brush Control Dollars Out the Window

Whoa! Not so fast. Sure, it's starting to rain and temperatures are bumping 90, but it's still too early to leaf spray mesquite and control prickly pear according to a seasoned researcher. "It's not time to effectively spray either of these pests," said Dr. Darrell Ueckert, Texas Agricultural Experiment Station range researcher.

Ueckert and Dr. Allan McGinty, local Extension range specialist, are the fathers of the popular Brush Busters techniques that tout individual plant control using the most effective, safest and most economical methods available. In Texas alone, Brush Busters was the method of choice for mesquite control on over 600,000 acres of rangeland and pastures in 1998 alone.

"I've been getting a lot of calls from ranchers just itching to start their brush control projects now," said Ueckert. "It's obvious that some have forgotten the all important 'window of opportunity' that can make or break a brush control project. For leaf spraying mesquite, whether by hand or plane, that window starts once all the mesquite leaves turn a dark green, and the soil temperature is at least 75 degrees at a foot to 18 inches deep - any time before that and you're wasting money - if you're interested in

killing mesquite."

Ueckert said now is also the worst time to control prickly-pear with herbicides, because the plants are moving carbohydrates upward to produce new pads and flowers. Herbicides applied too early won't be carried down to the crowns and roots, a necessary step for good cactus control.

"The best time to aerially spray pricklypear is in the late summer through fall after the new pads are mature and the fruits turn dark red," said Ueckert. Hand spraying pricklypear with Brush Busters methods can be done year round, but it's most effective with late summer-early fall treatments.

"It is a great time to treat cedar (juniper) using the Brush busters cedar leaf spray or cedar soil spot spray methods," said Ueckert. "These treatments can be used year-round, but they are most effective if some rainfall is received within two or three weeks after treatment. May and June are normally our two best rainfall months in this area.

"So, landowners, if you're after mesquite or pricklypear, better wait until the time is right or you may well be throwing food money out the window, and I'm sure it won't be the window of opportunity, either."

For further information on brush control methods or Brush Busters techniques call the Coke County Extension office at 453-2461.

Skywarn news

By Marian Thompson
The Coke County Sky Watchers had a very busy week, with storms in our area almost every evening.

Wednesday the spotters were called out at 10:30 pm to watch a line of severe storms headed for Robert Lee, Bronte and Blackwell. At 11:40 pm Robert Lee had cloud to ground lightning, heavy rain and wind of 45 to 50 mph, with gusts to 60 mph. This storm gave us 4 1/2 tenths of an inch of rain, by my rain gauge.

Thursday they were called out at 5:45 pm. Nickel size hail was reported on the north side of Robert Lee. The Wildcat area reported winds of 30 mph. Dime size hail in town and golf ball size hail at the north end of the dam. By 6:30 the culverts were full. We were under a flash flood warning. This storm left us with 4 tenths of an inch of rain.

Friday the weather service had them watching a storm 3 miles east of Robert Lee and 9 miles west of Bronte, coming parallel with highway 208. There was a lot of thunder and cloud to ground lightning. By my gauge, this storm gave us 8 tenths of an inch of rain. After midnight they were called out again as another line of storms was headed our way from Sterling County. We had thunder and lightning but the storm dissipated before it got here.

Sunday afternoon the skies were black in our area and the storms, again, dissipated before they got to us.

On Monday at 5:43 pm they were called out again with a tornado warning for all of the Concho Valley. Sterling City was hit with severe storms with large hail and several tornadoes were seen. Our

spotters were at various points, and the Tom Green spotters followed this storm to Silver. Robert Lee was spared this storm as it moved northeast into Nolan County.

Monday Bud Thompson, Keith Eubanks, and Darrell Sowell toured the weather station in San Angelo.

Coke County Library News

The flags are flying at the Coke County Library to mark the beginning of summer reading. The slogan is "See You at the Library This Summer." School-age readers have already been in to check out the new books. Some parents are getting into the swing of things, too.

Readers may post a list of the books they have read on the summer reading board. The lists are for the students to have at the end of the summer as a reminder of books read. Each 7-12th grader is eligible to put his or her name in the Tasmanian Devil tumbler once for each book returned. A drawing will be held each week for a prize from a local merchant. There will be a treat-of-the-week for all readers during the summer.

The summer reading program is an informal program. There is no competition and students are welcomed to check out books at any grade level.

The intrepid book reviewer presents Anne Tyler's Saint Maybe this week. The book was made into a tv movie shown last winter.

When his older brother and his brother's wife die within a few months of each other and leave three small children, a nineteen year old boy decides to raise the children himself.

This book is about his in-

volvement in a cult religion and how the religion allows him to raise these children and justify his life decisions. I did not like the choices this man made nor did I like the end of the book. Neither the religion nor the children gave him any closure. He did not find any comfort or absolution. Maybe that is how life is, but this book had not a spark of joy or satisfaction that would have given him meaning for all the sacrifice. The author had a good story, but lost interest.

We have a great library. Come visit and check out a book.

H. Keith Morris and Mixy M. Morris

Morris joins mission board

Mr. H. Keith Morris, Jr. and Mixy R. Moreno Morris have joined the more than 4,500 Southern Baptist International Mission Board workers sharing Christ in 126 countries among 336 ethnic people groups. The Morrises were among 76 people appointed by the International Mission Board May 25, 1999 during a service at Spotswood Baptist Church in Fredericksburg, Virginia.

He was reappointed as a missionary by the board. From 1992 to 1997 he was an International Mission Board missionary in Panama. From 1997 to 1998 he served at the Baptist Spanish Publishing House in El Paso, Texas, through the International Mission Board's International Service Corps (ISC)--a four to 24-month assignment to meet priority needs.

The new missionaries will fill diverse job assignments from starting churches to using student work, community development, education and business as tools of ministry.

In 1998 International Mission Board missionaries helped lead 333,034 people to Christ. They and their overseas partners started

4,223 churches and reported more than 4.4 million members in 46,833 churches overseas.

As missionary associates the Morrises will live in Miami, Florida, where they will work with the Baptist Spanish Publishing House in El Paso, Texas. The Baptist Spanish Publishing House provides books, Bibles, tracts and Christian literature in Spanish to 70 countries. They will work in literature distribution and promotion and be responsible for the book deposit, "Casa Bautista/Miami," covering Florida, the Caribbean and the east coast of the United States.

Since 1998 they have been serving in Florida through the International Mission Board's International Service Corps, working with the Baptist Spanish Publishing House. They are members of Cornerstone Baptist Church in Coral Springs, Florida.

Born in Waco, Texas, Keith Morris is the son of Harry and Dannie Morris of Mount Vernon, Washington. His parents were North American Mission Board missionaries in Washington, where his father was the director of missions

for the northwest area. He is now retired.

Keith was once the pastor of the First Baptist Church in Bronte. He considers Bronte, Texas, his hometown and First Baptist Church there his home church. South Main Baptist Church in Houston also was influential in his Christian growth.

He received his bachelor of arts degree from Baylor University in Waco and the master of arts in communications degree from Southwestern Baptist Theological Seminary in Fort Worth, Texas.

Before his appointment he was an ISC worker in Mexico and Panama.

Born in Colon, Panama, Mixy Morris is the daughter of Gumercindo and Luisa Moreno of La Chorrera, Panama. While growing up she also lived in La Chorrera and considers it her hometown. She considers First Baptist Church of La Chorrera her home church. Christ the Only Hope Baptist Church in La Chorrera also was influential in her Christian growth.

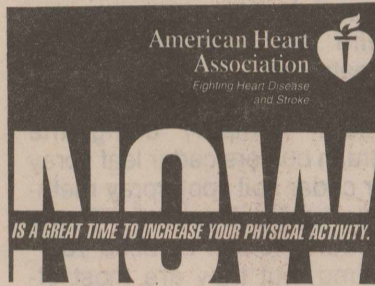

She received the bachelor of science degree from

Escuela Secundaria P.P.S., in La Chorrera and the diploma in hotel management and tourism from the Merchant Marine Occupational School in La Chorrera.

She was an ISC worker with her husband at the Baptist Spanish Publishing House and a secretary for the National Prayer Commission with the Panama Baptist Convention.

The Morrises will go to the International Mission Board's training center in Rockville, Virginia, in July for orientation before returning to Miami.

With nearly 16 million members, the Southern Baptist Convention is the largest evangelical denomination in the United States, and the International Mission Board is the largest evangelical missionary-sending agency.

Bronte City Clean-up Week slated

A city-wide clean-up has been set for June 7-12. City employees and inmates from Carlsbad will begin picking up tree limbs and lumber Monday, June 7. Items to be picked up must be placed curbside no later than the morning of June 7. Residents are encouraged to trim any tree branches/limbs that are currently hanging too low over the street or that have the potential for becoming a problem as the summer goes on.

Inmates will begin mowing and cleaning at the cemetery as soon as all the tree limbs are picked up.

On Saturday, June 12, B.F.I. will make an extra run to pick up household items and trash. No tires, batteries or appliances containing freon can be picked up. If you have an air conditioner or refrigerator/freezer to dispose of, call City Hall for information on how to prepare these appliances so they can be picked up.

Contact Pat or Lori at 473-3501 if you need more information about Clean-Up Week.
