Air Force. Both their parents, Mr. and Mrs. J. F. Isbell and Mr. and Mrs. A. C. Pierson, have been concerned since first news came of the rebelion in Iraq. Communications with the Baghdad embassy were disrupted by the rebels military coup, and no direct information has been received from Col. Isbell.

Wednesday morning Mr. Pierson received the following telegram from Congressman

"State Department officials advise according to information received yesterday (July 15) all official Americans in Baghdad are safe. They are seeking to keep in close touch and have heard nothing to the contrary as of now. I have also appealed to the Air Force for assistance. Will keep you advised of any information available in Washington."

Col. Isbell and his family had been scheduled to return to the U. S. early in August. His parents are Mr. and Mrs. J. F. Isbell of Haskell. Abilene Newsman **Guest Speaker** At Lions Meet

"People will continue to get bigger and bigger while our money gets smaller and smaller." predicted A. C. Greene, staff writer for the Abilene Reporter-News as he talked on what the future has in store, at the meeting and luncheon of the Lions Club Tuesday at noon in the Texas Cafe.

Accompaning the guest speaker to Haskell was Frank Pruitt, circulation manager of the Abilene newspaper, who was a guest at the meeting. During the business session, Lions voted to hold the club's annual "Broom Sale" during the latter part of August.

Greene, mixing humor with scientific logic, said that automobiles of the future would probably be operated by tape control, similar to punch card systems used in offices. "We'll probably have our

bodies rebuilt at age 35 in the not too distant future, with plastic hearts and synthetic lungs, and subsist on concentrated tablets instead of food.

'Letters will be written by simply talking into your type-writers, and instead of tele-phones we'll carry individual communicators around with us," he forecast with tonguein-cheek.

Brighter Farm Prospects

With harvesting of one of the county's best grain crops in history completed, farmers have much to be grateful for in that prospects at the present time are bright for a bumper maize and cotton crop.

Although many things can happen to blast the present prosperous outlook, the prospects for top yields of both cotton and maize were never brighter than at this time, in the opinion of farmers and business men. Although one good crop year cannot compensate for the

economic loss suffered by the farmers in this section during the prolonged drought, bumper grain and row crops would go a long ways toward geting the farmer back on an even keel. And the biggest boost to brighter business prospects in every line from banking to house painting is for continued

weather conditions favorable to agriculture, That is true because when the farmer prospers, business

prospers in Haskell County.

It Could Be You

When you see a fire engine go roaring by, you may wonder for a second or two "can it be headed for my house Then you dismiss it from your mind. You might not be so complacent if the figures on fire losses were placed before you in big red letters.

During 1956, there were 865,561 reported fires in communities of 2,500 or more population which means that a fire started every 37 seconds.

Almost everything you own, from a house down to a dishpan, costs twice as much today as it did a comparatively few years back.

In most cases, even though you are carrying double the insurance you carried 15 years ago, you would still be out of pocket in replacing the things destroyed by fire. Your best protection is to see that every possibe hazard around your property is reduced to the minimum. It is cheaper to call in an electrician or plumber to make needed repairs and replacements than it is to call the fire department.

An Ad In The Paper

One of the most valuable tools that has been used for combatting the current recession is the advertising power of home town newspapers. At the end of every production line stands the consumer, and national prosperity is but the sum total of local prosperity.

In thousands of communities all across the country beeditorial comment encouraging people to buy in their own neighborhood or in the own home town and as a result of newspaper advertising programs undertaken by local merchants, local retail sales, the pulsebeat of national prosperity, have been Fork. much encouraged.

An ad in the local paper has always been the mark of a successful business and the experience of recent months has only served to prove the point.

Re-Elect Kalph Yarborough U. S. Senator

It has been a tradition of the Democratic Party for all time to elect for a second term a candidate that has made good. Senator Yarborough has made good. He has proved himself to be a Statesman of outstanding ability. He commands the confidence and respect of the entire Senate, both REPUBLICANS and DEMOCRATS. His work is outstanding and reflects credit to himself, and to the STATE OF TEXAS.

Senator Yarborough is a Christian Gentleman. This is the highest compliment that can be paid to any man. He is known to ask for Divine Guidance each day before going into his work. His many worthwhile accomplishments are proof that his prayers have been answered.

The worst thing his opponents can say against him is that he is supported by Labor. It is against the LAW for any Labor Union to contribute to a Political Campaign. Individual members have however, made donations of \$1.00 as individuals. Senator Yarborough has not, and would not accept one dime from CIO or AFL.

Small Businesses, Farmers, Ranchers, the Laboring Man have in the past, and are now contributing to Senator Yarborough's campaign.

Those who call themselves DEMOCRATS, but vote for the RE-PUBLICAN NOMINEES HAVE NOT CONTRIBUTED A DIME TO HIS CAMPAIGN. Through their treason they are trying to wreck the Democratic Party from within. Their treason delivered Texas Electoral Vote to the Republican Nominee.

The Republican Administration has been a complete failure. During this Administration, America has "LOST FACE" throughout the world.

The President is untrained, inexperienced and wholly unqualified for the HIGH OFFICE. The President and Mr. Adams (who does his thinking) and whom he admits "HE NEEDS", have brought America into a most embarassing situation. RUSSIA IS MAKING THE MOST

Is it possible that the highest seat in our Nation except the Presidency, is to be sold to the man or organization with the most money? What incentive is there for a young man to prepare himself for public life when he must spend a million dollars or more to be elected Governor of Texas, or to the Senate of the United States, or else join with the Machine, and be owned and controlled by the Machine?

Will Texas voters crucify Senator Yarborough, a real Christian Gentleman, and send Bill Blakley, the self-styled cowboy, who said HE HAD NO QUALIFICATIONS FOR BEING A SENATOR AND WOULD NOT RUN, to the Senate? Bill was correct, he hasn't one qualification for Senator.

Blakley was absent one-fourth of his 102 days in the Senate. He failed to vote on 30 per cent of issues up for Roll Call during his time in office.

His bill for office help ran over \$10,000 for the 102 days he was Senator - although large amounts of mail remained unanswered when Yarborough arrived to take over the office.

WILL YOU TRUST, AND SEND TO THE SENATE A MAN WHO CLAIMS TO BE A DEMOCRAT THIS YEAR, BUT IN 1952 AND 1956 VOTED THE REPUBLICAN TICKET, AND CONTRIBUTED TO DELIVERING TEXAS' ELECTORAL VOTE TO THE REPUBLICANS?

A VOTE FOR SEN. YARBOROUGH is a vote for the Farmer. He has proved to be their friend.

A VOTE FOR BLAKLEY is a slap in the face to every Farmer of every product. He is against a subsidy for the farmer, but for a subsidy for HIS BRANIFF AIR LINES, who received \$1,043,000 in 1957, and has received more than seven millions since 1952.

A VOTE FOR SEN. YARBOROUGH is a vote for the 0LD PEOPLE'S PENSION. Senator Yarborough is trying to get an increase by the Government when matched by the State would mean an increase of \$10.00 per month.

A VOTE FOR BLAKLEY is a vote against OLD AGE PENSION. He is against any measure, or group that is matched by State and National Government.

A VOTE FOR SEN. YARBOROUGH is a vote to retain and increase Social Security.

A VOTE FOR BLAKLEY is a vote against SOCIAL SECURITY. He says the people should support the Government, and not the Government the People. REPUBLICANS in the Roosevelt and Truman Administration said it was "TAKING AWAY FROM THE THRIFTY, AND GIVING TO THE NOT THRIFTY."

A VOTE FOR SEN. YARBOROUGH is a vote to retain REA and to make them loans to progress.

A VOTE FOR BLAKLEY is a vote against REA. The Machine supporting Blakley are against REA, and are trying by every means to deliver TENNESSEE VALLEY AUTHORITY, and other REA PROJECTS to their own powerful power companies at a small percent of their cost. THEY CALL THIS FREE ENTERPRISE.

A VOTE FOR SEN. YARBOROUGH is a vote to retain Vocational Education in our schools.

A VOTE FOR BLAKLEY is a vote against VOCATIONAL EDUCA-TION. He is against any subsidy to our schools.

BLAKLEY WILL NOT DO! IT IS SHOCKING TO LEARN THAT ONE OF BLAKLEY'S INSURANCE FIRMS PAID "FEES" TO THREE STATE SENATORS WHO WERE MEMBERS OF THE SENATE IN-SURANCE COMMITTEE. TWO OF THEM SERVED AS CHAIRMAN.

It is obvious that Blakley won't do. He would not be a good representative of Texas in Washington. His firm thought it was all right to pay "FEES" to State Senators; WOULD HE ACCEPT "FEES" AS A U. S. SENATOR?

At this time BLAKLEY and his Insurance Companies are being investigated by the FEDERAL TRADE COMMISSION FOR USING MISLEADING ADVERTISING.

Fortunately Texas Has A Far Better Choice .

May I have just one minute of your time to solicit your vote and influence in behalf of my candidacy for the office of County Clerk of Haskell County.

I have tried to contact each of you but for the ones I have been unable to see and for the benefit of you who do not know me personally, I wish to state that I have been living in Haskell for the past 25 years. I was hired by the Farmers &

Merchants State Bank of Haskell and was in their employment until it was sold to the Haskell National Bank in 1947. Then I became associated with the firm of Marlow Tractor & Implement Co. For the past three years I have been farming.

I am asking for your support and I believe that I am well qualified to serve you in an efficient manner as your County Clerk.

My family consists of two daughters and two sons.

I am seeking public office for the first time and I want you to know that your support will certainly be appreciated.

Sincerely yours,

Voters Reminded Of Absentee Balloting Rules

Voters who cannot come to their regular voting place on election day are reminded that they should procure an absentee ballot from the office of the County Clerk.

Election laws specify that election officials will not be permitted to carry ballots to houses or hospitals for voters unable to come to the polls. However, ballots may be taken from the polling place by an official when the voter is unable to leave his car after being transported to the place of voting. Persons who find it neces-

sary to vote absentee ballots should keep in mind that deadline for mailing ballots and applications is July 22. After that date no ballots can be mailed out and voting at the county clerk's office is prohibited. All ballots voted by mail must be in the office of the county clerk by 1 p. m. Saturday, July 26.

Landowners In Plains Area **Benefitted**

Over one and one-half million dollars is being paid to landowners in the Plains area of Texas through the Great Plains Conservation program, according to Lynn Pittard, extension assistant soil and water conservation specialist.

This is a voluntary program which applies to 98 counties in the Plains area, says Pittard. It provides cost-share assistance for any approved soil and water conservation practice. Operators may receive up to 80 per cent assistance, de-pending on the practice. Con-tracts are signed for 3 to 10 years duration.

Pittard points out that most any practice dealing with soil or water conservation will be approved. Some of the practices now underway are re-seeding to grass cultivated land that is actually unsuitable for cultivation, brush control, stubble mulching and deferred

Since the program started in late February, he says 303 contracts, including 565,814 acres, have been signed. This means that payments averaged

\$2.85 per acre. The Soil Conservation Service handles the administration of the program. More information about it may be obtained from local agricultu-

Blakley Story Is Typically Texan

FURNITURE - TV

The typical American story is of the poor boy who made good through his own efforts. This is the story of Bill Blakley, born in a covered wagon while his parents were on their way to homestead in Oklahoma territory. He has some a long way tory. He has come a long way in 59 years. Said the Austin American-Statesman, when William A. Blakley announced for the Sensta:

for the Senate: boy; he was a crackerjack bank clerk; he was an exceptionally good accountant and lawyer. We have an idea that he is going to be a refreshing, able political candidate. He would make a great United States Senator."

Vote for Bill Blakley on July 26 — an able man whose only ambition is to serve all of Tex-

To Precinct 4 Voters and The People of Haskell Co.

With only a short time remaining until the First Primary Election, I want to express my appreciation for the privilege of serving as your Commissioner in Prec. 4 during my first term, and at this time to solicit your continued support in re-electing me for a second term

I can truthfully say that I have enjoyed working with and for the people of Precinct 4 and Haskell County, as well as with all members of the Commissioners Court and other county officials. These relations have been friendly and cooperative at all times.

I have tried to serve Precinct 4 and the county as a whole to the best of my ability during my first term. I realize that I have made some mistakes, both on road work and in the Commissioners Court, but I have tried to profit from these errors n judgment. In every instance I have tried to do my own thinking and do what I considered best for all concerned.

Concerning our Precinct Roads: With the men, money and equipment available, I have done everything possible to maintain and improve the roads and bridges throughout the precinct. In doing this the roads serving school bus routes and churches have been given first consideration. During the wet winter months we could not keep the roads in perfect shape during the worst periods of weather but we did the best we could.

The suggestions and advice of residents and taxpayers in Precinct 4 has been welcomed at all times, and their help and cooperation has made possible a large share of the workk that has been done.

In devoting all of my time to the job as your Commissioner, I have tried to make it a full-time proposition and the taxpayers and residents of the precinct are the best judge of what has been accomplished.

Today, Precinct 4 has equipment as good as any precinct in West Texas, making it possible to build roads more efficiently and economically. During my first term, I am proud of the fact that we have built approximately 20 miles of gravelled roads in all parts of the precinct, with no community or section being favored over another.

There may be some who have criticized this effort to improve the precinct road system, but most of this criticism comes from those living on the pavement who are not interested in anyone else having a better road

In asking the voters of Precinct 4 for a second term, I want to pledge my continued efforts to get more and more farmers and landowners "out of the mud" by continually improving our precinct roads and believe I can do this work more efficiently as a result of the experience and knowledge gained during my first term.

As all of you know, I have no outside interests, farming or other business, making it possible for me to devote all of my time to the job of County Commissioner. Further, I would like to add that I am satisfied with the salary and consider it a privilege to serve the people of Prec. 4 in the responsible capacity given me. I consider it my duty to to work for the best interests of every resident and taxpayer in the Precinct without partiality to any community or

I would further respectfully point out that I have no relatives on the Commissioners Court nor in the employ of the county.

I wish to pledge you a continuance of my past policy as your Commissioner, and to earnestly solicit your vote for a second term on the basis of my record.

> \$29,794.76 Net Gain in Assets

The above figures are taken from the County Auditor's records. Value of the equipment owned by Precinct 4 can be verified by any machinery dealer.

This net gain in assets of almost \$30,000 during my first term does not take into account the value of more than 20 miles of roads gravelled, nor the numerous permanent bridges installed and the other maintenance work done.

Now, if the people of Precinct 4 desire to stop all road and bridge maintenance, etc., just in order to be out of debt, it could be done. Your equipment could be sold, all indebtedness (including the \$15,000 carry-over from 1954) could be paid and the precinct would still have approximately \$30,000 left.

Personally I do not believe this is what the masses of people in Precinct 4 want.

Sure-footed Man Serves Texas

The colorful language of the ranch and trail seems to fit Bill Blakley, who made his start in life as a working cowhand. He still rides and ropes with the hands on his ranch at roundup time.

Speaking of Blakley's service as U. S. Senator in 1967, the Dallas News said: "... If he was as unassuming as an old boot, it was nevertheless a well polished boot that never wobbled or wandered from its purposeful path. For this man Blakley is a surefooted man who knews exactly where he stands and what he believes."

Texans will vote to return William A. Blakley to the Senate on July 26 because he truly represents the spirit, traditions and views of all Texas.

LABOR SUPPORT Some labor union leaders and members are Republicans; some are Democrats. John L. Lewis and the Miners' Union consistently supported Eisenhower and Nixon. Jimmy Hoffa and Dave Beck are Republicans and consistently supported Eisenhower and Nixon, with their votes and with their contributions. So did their whole tough Teamsters' Union as a national organization. So did William Blakley. So did Dr.

Cadenhead.

NEVER MIND THE PAST - WHAT OF THE FUTURE?

Hoffa and Beck will support Nixon for President in 1960. So will William Blakley. So will Dr. Cadenhead. Why shouldn't they? They have all voted for him and contributed money to his campaign the only two times they had a chance. And they criticize every Democrat who may be nominated, accusing them of being dominated by the N.A.A.C.P. But they never criticize Nixon, who is a member of the N.A.A.C.P.

IF YOU WANT THE REPUBLICANS TURNED OUT OF WASHINGTON, VOTE FOR RALPH YARBOROUGH. HE WILL HELP YOU DO IT.

IF YOU WANT NIXON AND THE REPUBLICANS TO STAY IN WASHINGTON FOR EIGHT MORE YEARS AFTER 1960, VOTE FOR WILLIAM BLAKLEY. HE WILL HELP YOU DO IT-BY BOLT-ING AGAINI, EITHER TO THE REPUBLICANS OR TO A THIRD PARTY.

Just incidentally, why is Dr. Cadenhead so incensed at labor unions? He belongs to the doctor's union. Both unions are charging us too much.

WILL APPRECIATE YOUR SUPPORT FOR RE-ELECTION AS

COUNTY TREASURER

Wit hthe approach of the July 26 Primary in which I am seeking re-election to a second term as County Treasurer, I take this opportunity of expressing my sincere thanks for the loyalty and support of the people of Haskell County. During the time I have served you as County Treasurer I have at all times done my best to perform the duties of the office honestly, capably, and cheerfully.

I am deeply grateful to each and every person who has encouraged and is supporting me in my race. I appreciate your support and encouragement to the fullest

The duties of the office have kept me in the courthouse during most of the present campaign, and although I would like to see each of you personally, this is impossible-so I take this means of soliciting the consideration and support of the voters of Haskell County.

C. L. (PAT) LEWIS

Your County Treasurer

TO THE PEOPLE OF PRECINCT NO. 4

I am deeply grateful for the consideration and encouragement given me in my first campaign for a public office—that of Commissioner in Precinct No. 4. It has been a real pleasure to meet and talk with people in the precinct.

It has been impossible for me to see all of you and I am asking you to consider this as a personal solicitation for your vote on July 26. If elected I promise to devote all of my time and all of my efforts towards making a good Commissioner.

Simple First Aid Suggestions for Treating Burns

First aid treatment for burns should not be eliminated, even though many doctors now treat severe burns by leaving them open and un-medicated, the editors of Changing Times report in their June issue.

The open treatment is only used in hospitalized, severe cases. Only a doctor should decide what method is indicated. Before the doctor arrives. here is the recommended pro-

cedure fo rtreating a burn:
1. If the wound is dirty, gently pour a solution of warm water and mild soapsuds over it. Rinse with clean, warm water. If clothing is stuck to the burn, do not pull it away. Cut away the cloth around the wound and soak what is left with the soap and water solu-

2. Close the wound against air as quickly as possible, particularly if the burn has opened the skin. For very small, light burns a coating of ointment may be sufficient, but for any except the least serious use this method: Spread petroleum elly or a burn ointment on a sterile mandage-ont on the wound itself-and apply to the

Lacking sterile gauze, use a piece of sheet that has been recently washed and ironed. In an emergency you can substitute baby oil, mineral oil or cooking oil for petroleum jelly, but don't use butter. Most butter contains salt which may irritate the burn, and it is harder to clean of fthan liquid

if possible, tie bandage snugly against the wound. The pressure and the exclusion of air will ease pain as well as keep out germs. If you are unable to tie the bandage on, wrap the patient in a sheet. But don't load on blankets. Give aspirin for pain relief.

Remember that deaths within the first day or two after a severe and extensive burn are caused by shock, so part of your treatment should counteract this assault to the system. Dissolve one teaspoon of table salt and a half-teaspoon of baking soda in a quart of water and get the patient to drink as much as he can. This will help replace chemicals lost from the body as a result of the burn.

AN OPEN LETTER TO JERRY HOLLEMAN PRESIDENT, TEXAS AFL-CIO DELEGATE-AT-LARGE, DOT

Dear Mr. Holleman:

Do you really mean what you said publicly last Sinday?

Do you really mean that successful men shouldn't have anything to do with our public affections should be turned any public affect should be turned any public affects. Washington? Do you really mean that our public offices should be turned over to men who

never made a success of their own careers?

Do you Mr. Holleman?

That is what you were saying in your attack on Senator Blakley. You were saying that it w feetly all right for union leaders in Washington, New York, Cleveland, Pittsburgh and other cities to pour money into Texas to elect a man of their choosing. You were saying that the ingman is against success.

We can't believe you know the workingman, sir. We don't believe you know Texas either

All of us are young Texans. We have just graduated from our Texas Colleges. Our parents are ingmen and women. We know they want us to be successful—and we want to live up to their tations and justify their many sacrifices to help us attain college educations.

Nobody else but you ever told us success was wrong, Mr. Holleman. Men like Bill Blakley built and built America. Along with many, many others, he has helped keep Texas growing and p ing. You and many of your fellow union leaders might not even be here in Texas if it had me for business leaders like Bill Blakley.

While Mr. Blakley has been building, what has your candidate been doing, Mr. Holleman? Since most of us were only a year old he has been running for office and he hasn't yet rece

majority of the votes, on his fifth attempt—in a special election where there was no run-off out of every three Texans voted for his opponents.

Mr. Holleman, your candidate has a record of failures unequalled in Texas.

If you expect young people to follow your leadership, Mr. Holleman, do you really mean them that a long record of failure will win more for them than a record of outstanding succe Mr. Holleman, your organization is quick to criticize Mr. Blakley for being a success in h What about the AFL-CIO's own record in business?

Would the hundred thousand members of the unions who lost their life's savings because the the word of AFL-CIO's leaders on ICT stock agree with you that business success is bad?

Mr. Blakley has been successful in business, Mr. Holleman, while your organization has been to the biggest failure in Texas history. You attack success, Mr. Holleman, from a record of failure. Which leadership do you think ?

young and old want to follow? Your kind or the kind offered by Bill Blakley? The kind of Texas we want is the kind of Texas our parents helped to give us. We want to that way for ourselves and our children. We don't want the conditions which the political

bosses have created in other states, Mr. Holleman. We like what we have here-a chance to good-just as Bill Blakley has done-and we believe he is the man who can help us do just That is why we are supporting him and will continue to do so. For he is the dream-come-true we and every other Texas boy and girl have had since we were a year old-when your can

began running for office. We believe that Bill Blakley will be the kind of Senator who will make every Texan, including Mr. Holleman, be proud to say "I am a Texan."

We are proud to be Texans and we're going to be even prouder when Mr. Blakley goes backto ington. And you can be sure he's going, Mr. Holleman, because you just can't fool enough! enogh of the time.
