Football season begins tonight for Bronte and Robert Lee teams

by Hal Spain

Even if it doesn't feel like fall quite yet, football season is here, and both Bronte and Robert Lee open the 2003 season tonight. Bronte will travel to May, with Robert Lee hosting Cross Plains in the season opener for both clubs.

Bronte and Robert Lee are in the same district again this year (15-1A), along with Miles, Sterling City, and perennial powers Roscoe and Roby. This year's county championship will again be played the final game of the regular season on November 7.

We talked with both head coaches this week, first year head coach Steve Gunter for Robert Lee, and Rocky Rawls, at Bronte, to get their comments regarding the upcoming season.

Bronte had just one pre-season scrimmage this year, with the Horns hosting Garden City. Coach Rawls stated that the scrimmage went really well, and the

coaches were very pleased with the way the Horns performed.

The Steers had two pre-season scrimmages, with Rotan and Baird. Coach Gunter thought the Steers started out very tentative on offense against Rotan, but seemed to get better and more aggressive as the scrimmage continued. Overall, he felt the Steers have to establish some consistency on offense. They played pretty well for the first time out defensively, but they need to improve. The Steers came out of the Baird scrimmage with some lessons on how to be aggressive. "Offensively, we couldn't establish anything because of our failure to pick up their stunts and blitzes. However, I did see some improvement in two or three spots on the offensive line. I would like to see us connect on a long pass. We have been able to get open for the past two weeks, but failed to connect. Defensively, we gave up a big

play early, but the fumbles we had offensively gave them great field position and they were able to take advantage of it. We played decent on defense, but we can get better," stated Gunter.

As to injuries, Coach Rawls indicated that some of the Bronte players were a little banged up. Coach Gunter stated that the Steers' injury situation is not too bad going into the season opener with Cross Plains. Omar Saucedo will be out for the first game, and Cole Flanagan has a bunched-up shoulder, but should be ready for tonight's contest.

Asked about major strengths and weaknesses of this year's clubs, Coach Rawls stated that his twelve seniors on this year's squad, along with nine lettermen returning on offense and defense were the major strengths. He also cited the club's senior leadership and experience. The main weakness of this year's club is a lack of speed.

Coach Gunter responded that he thought this year's team "is going to be very inexperienced, especially in our offensive line. I do feel like we have some potential with this group. Our strength is going to be with our backs, because we do have good speed there and some experience. We do not have a lot of depth in any area right now."

Both coaches indicated that Roby and Roscoe have to be considered the main contenders for the district title right now, with Coach Gunter stating that Roby has to be the favorite right now because of the way they finished last year and the number of players they have returning. He also indicated that Roscoe won't be quite as strong, but will be very competitive.

Concerning their outlook for the upcoming season, Coach Gunter felt that how quickly the Steers adapt to a new system would be key for them this year. He also stated that the Steers have some inexperienced players that have to step up for them this year, and he thinks they will. "We do not have a lot of depth; so we must stay healthy and avoid the injury bug." Coach Rawls stated that this year's club has a good work ethic, and they are excited about the upcoming season.

Dove season opens in Coke County Sept. 1

by Joan Davis

As a portion of the Central Zone of Texas, Coke County will celebrate dove season opener on Monday, September 1. Was that day set to coincide with Labor Day so we wouldn't have to call in sick to hunt? Dates for season are Sept. 1 - Oct. 30; the late season will be Dec. 26 - Jan. 4, 2004. The bag limit remains at 12 birds. Shooting hours are 30 minutes before sunrise to sunset.

Very little change was made in hunting and fishing regulations and rules for the 2003-2004 seasons other than license fees. The first thing on the agenda should be to

purchase the license for your needs. Be sure and tell the clerk where you purchase you will be hunting migratory birds (HIP certification). This is only for tracking statistics, but it must be on your license to hunt doves. The white-winged dove stamp will be needed also because they are now a common part of our kill in the area. Pick up a copy of TPW Outdoor Annual and read-read-read.

The major violation I see hunters commit is a shotgun not plugged back to 3 shells. You probably hunted quail last with your gun unplugged, but the game wardens will not accept that excuse. I think we developed a habit (because doves have been scarce for years now) of piling our birds up together. Don't do it - keep them with you as proof of your bag limit.

In a hunter's 12-bag limit, he may have mourning doves, white-winged doves, and white-tipped doves (white-fronted), all in combination but not more than 2 white-tips. You may also take the new-to-the-area ring necked doves but as a freebie and not part of your bag limit.

Hunters cannot bait for doves or hunt over an area that has been baited (like turkey or deer feeders). You may hunt over ag crops or where feed has been cut.

A few good tips for hunters - don't wear white or light colored clothing, these birds are sharp-eyed; watch for fire ants - you may be standing in a hill of them (they will also cover your dead birds up quickly) - retrieve them immediately; and watch for rattlesnakes - they have been bad all summer.

Methodist Revival set

First United Methodist Church of Bronte will hold a revival September 7-10. New Pastor of Bronte United Methodist Church, Rev. Carol Fiero, will lead the services.

The services will be held at 7 pm each night. Congregational singing is planned for each evening. Everyone is invited to come for a great time of singing together, fellowship and renewal.

Mr. Allen was born in Robert Lee, Texas. He graduated from Robert Lee High School in 1946 and Texas A&M University in 1951.

He joined the U.S. Army in 1952 and served at Ft. Sam Houston, Ft. George G. Meade in Maryland and in Korea during the Korean War. He returned home to go into the ranching business in Coke County, but due to the drought conditions of the 1950s, was forced to go to

work for his father, Gerald C. Allen, at the Robert Lee State Bank.

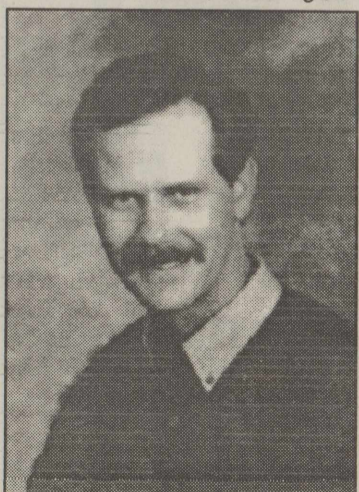

Mr. Allen began work at the bank in April 1955 as a teller. He said his dad told him he would have to train for six months without pay and "then when I did get paid, it was two-thirds less than what I was making in the Army. I wondered for 30 years if I had done the right thing. However, I know that I did. I feel very fortunate to be in banking."

In January 1959, Mr. Allen was made a Vice President and

Ensor named TEC west regional director

Marvin Ensor, Tom Green County agriculture and natural resource agent, has been tapped for the position of west regional program director for Texas Cooperative Extension.

Ensor, a Bronte native, said initially when he approached his family about the job, they did not want to move but on finding out they would remain in San Angelo, the family was excited. He will be headquartered at the Texas A&M Ag and Resource Center north of San Angelo. His region will include extension districts 6, 7, and 10.

Although much of his work will be similar to his current duties, it will also be a challenge. He expects to be involved with wildlife management and development habitat in that field.

The position he is leaving with the Tom Green County extension is expected to be filled before fall.

Local FCCLA officers attend training in Austin
 Family, Career, and Community Leaders of America officers, Ashleigh Kelly, State Vice President of STAR Events from Bronte, and Lindsey Roe, Region II Vice President of Projects and Region II Vice President of Community Service from Robert Lee, attended officer training in Austin, Texas this summer June 8-13. The advisor from Bronte is Linda Farrington, and the advisor from Robert Lee is Sheri Millican. At officer training, they planned the State and Region FCCLA meetings for 2004, as well as learned their duties of office. Later, they were two of the 300 Texas delegates who attended the 2003 FCCLA National Leadership Meeting, July 5-12, 2003, in Philadelphia, Pennsylvania.

Sheri Millican (right), Family and Consumer Sciences teacher at Robert Lee High School, recently attended the State Professional Development Conference for Family and Consumer Sciences Teachers in Corpus Christi. At the annual banquet, Sheri received two honors. She was awarded the State and Region II Family and Consumer Sciences Teacher of the Year. Nancy Dunlap, President of the Family and Consumer Sciences Teacher Association of Texas, presented Sheri with her awards.

Representing more than 21,000 delegates throughout the nation attending the four-day conference. Throughout this FCCLA National Leadership Meeting, members were motivated and recognized at general sessions, explored ways to prevent teen violence, strengthened their leadership skills, and carried out the youth developed theme "FCCLA Wants You - Accept the Challenge!"

The organization celebrated 58 years of building strong leaders in our families, careers and communities as members experienced a meeting that unfolded into a dramatic atmosphere where leadership, quality and good work go hand-in-hand. Ample entertainment combined with thought provoking content dominated the week while attendees explored why leadership and service should be celebrated.

The Texas members also enjoyed tours of many historical sites, such as, the Liberty Bell, Independence Hall, and the new Constitution Center. They also experienced an exciting trip to New York City. Texas members developed a plan of action for the state and will implement it when returning to school in the fall. Family, Career and Community Leaders of America is a career and technology student organization for family and consumer sciences education students in junior and senior high schools. This youth centered organization is the only career and technology student organization that has the family as its central focus and is an

Lindsey Roe and Ashleigh Kelly

integral part of the family and consumer sciences curriculum.

Which Business Retirement Plan is Right for You?

If you run a small business, you've got no shortage of concerns: cash flow, marketing, the ebb and flow of the economy - you name it. In fact, you have so many issues to ponder, you might find it hard to take the time to choose a retirement plan for your business. And yet, it's worth the effort - because the right plan can offer the opportunity to make your life a lot easier in the days when you don't have so much to think about.

Fortunately, there's never been a better time for small-business owners to choose a good cost-efficient retirement plan. In recent years, new tax laws have made it easier for you to pick a plan that can help you save for retirement and, if necessary, attract and retain quality employees.

The most common types of retirement plans offer tax-deferred growth of earnings, the ability to make tax-deductible contributions and a variety of investment options. Beyond sharing these traits, though, small-business retirement accounts differ in contribution limits and other factors. Let's look at a few of these plans: **Plans for self-employed (no employees)**

Owner-only 401(k) - When you establish an "owner-only 401(k)," you can put in up to 25 percent of your compensation in a profit-sharing plan, plus \$12,000 (in 2003) as 401(k) contributions. If you're 50 or older, you can even put in an extra \$2,000 to your 401(k). (You can't contribute more than \$40,000 per year if you're under age 50 or \$42,000 annually if you're 50 or older.) Furthermore, both the 401(k) and 50-and-over "catch-up" limits will be increasing over the next several years, so you'll be able to

put away even more money for retirement. Plus, you can transfer more retirement plan assets - such as profit sharing and money-purchase plans - into your owner-only 401(k).

SEP - IRA - For 2003, you can put in the lesser of \$40,000 or 25 percent of your compensation to your SEP-IRA. Eligible compensation is capped at \$200,000. You can set up a SEP IRA for your business with a minimum of paperwork. And you won't have to file any annual reports on the plan, such as the Form 5500, either.

Plans for business owners with employees

Simple IRA - As you can deduce from its name, a SIMPLE IRA is easy to set up and inexpensive to administer. In 2003, employees can contribute up to \$8,000 to their SIMPLE IRA. Your business is generally required to match your employees' contributions up to three percent of their salary, unless you decide to put in two percent of each eligible employee's compensation. If you choose the matching option, you can reduce the match to between one and three percent in two of every five years.

Safe Harbor 401(k) - By following some specific guidelines, you can set up a Safe Harbor 401(k) - a plan that offers the same features of a traditional 401(k), but without the burdensome non-discrimination testing required to identify excessive contributions by highly compensated employees. (Employees' contribution limits are the same as those described in the "owner-only" 401(k). The key benefit of the Safe Harbor 401(k) is that you, the business owner, can contribute up to the annual dollar amount (in 2003 that's \$12,000, or \$14,000 if 50 or older) regardless of how much your employees contribute.

Any of these plans can help you meet your long-term goals of saving for your retirement outside the value of your business. But to fully diversify your holdings and build even more resources, you will also need to save and invest outside your retirement plan. So, meet with your investment representative and tax advisor to choose a plan that's right for you - but don't stop there. When it comes to funding your retirement, it's hard to save "too much."

Taxpayers paying their fair share

Business owners who may have escaped taxation on the value of all or part of their business personal property assets will soon have an opportunity to avoid omitted property taxes for 2001 and 2002, provided they act before December 1 to ensure the assets are correctly valued and assessed for 2003.

Business owners, unlike homeowners, are assessed not only on

Recent storms damaged this tree in the 100 block of West Barclay in Bronte. At presstime, Bronte had received approximately 3 inches of rain.

the value of their real property, but also on tangible personal property owned or held by the business and used for the production of income. These taxable business assets include inventories, furniture and fixtures, machinery and equipment, computers, vehicles, vessels and aircraft.

A business is required to annually render its personal property to the appraisal district in which the property is located. However, since Texas law heretofore hasn't provided a penalty for failure to render, a number of businesses, both in Coke County and throughout the state, haven't filed renditions.

The rules change on January 1, when a new rendition law takes effect with monetary penalties for filing late or for not filing at all. The new law also provides civil penalties of up to 50% for filing a false rendition or deliberately evading the personal property tax. In some cases, criminal sanctions for fraud may also occur. Untaxed assets discov-

ered in the 2004 rendition process could be back assessed as omitted property for the two prior years.

However, thanks to an amnesty provision Texas lawmakers included in Senate Bill 340, businesses can avoid the risk of a back assessment by filing a special amnesty rendition with the appraisal district during a 90-day window that opens September 1 and remains open through November 30, 2003.

The appraisal district this week is mailing a letter explaining the changes in the law, as well as a special amnesty rendition form, to all business owners in Coke County. Copies of the form are also available at the appraisal district office, in the Courthouse.

The rendition law was changed by the 78th Legislature to ensure that all taxpayers pay their fair share, and the burden doesn't fall the heaviest on homeowners and the owners of other real property.

known as Band Boosters, serve the elementary bands as well as the RLHS Stompin' Steer Band and are planning another year of contests and activities.

The RLHS band program is working hard under the direction of Brad Roberts. The Stompin' Steer Band has been working throughout the month of August. Even before school started, band members were perfecting their music and marching at the practice area adjacent to the band hall. Now 29 members strong, the high school band is looking forward to another award winning year. Comprised of a majority of junior high musicians, the band has brought spirit and determination to athletic events as well as performing with excellence at contests throughout the area.

The Robert Lee Elementary bands have also excelled and are building toward a future in the high school band and beyond. All of these hard working groups deserve the support of the school, the community, their families and friends. If the "RL Band Parents" will work as hard as these students and their director, Mr. Roberts, the 2003-2004 school year will be outstanding. So mark the date on your calendar - Tuesday, September 2, 2003 at 6:30 pm.

Youth and tobacco

Did you know that nicotine is as addictive as alcohol, cocaine, and heroin? Cigarette smoking is the most common form of drug addiction and it causes more death and disease than all other addictions combined.

It is also proven that the younger a person starts to smoke the more likely they are to become addicted to nicotine, and 40% of teenagers who smoke daily have tried to quit and failed.

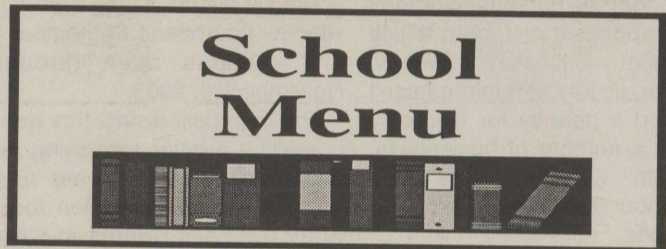

If you haven't started - stay smart. If you already smoke and would like to quit, there are places to get help. For more information, call the Mesquite Country Council on Alcohol and Drug Abuse (325) 235-8955.

Final date on NAP told

The final date to purchase a NAP policy on any small grain for grazing in our county is September 1, 2003. There can be no late-filed requests so producers need to come by the office and pay the \$100.00 before it's too late. This is on your small grain grazing crop.

Also, a reminder that September 1st is the final date to purchase crop insurance on your small grain. Don't forget, call your agent today.

For more information call us at 453-2751 or come by the office.
