## Small Grain Production Meeting set

Production of small grains in Coke County is extremely important to the overall production of our farms and ranches. Proper field preparation, species selection, variety selection, fertility, weed control, etc. all are very important to the production potential of your land.

There will be a Small Grain Production Meeting held on Thursday, August 3, beginning at 7 pm, in the Robert Lee Rec Hall sponsored by the Coke County Cooperative Extension office. The program will be presented by Dr. Billy Warrick, Cooperative Extension agronomist. Billy will cover field preparation; fertility requirements; forage vs grain or combination of both; variety selection; wheat, oat or triticale for forage; insects, weed, diseases.

With several long range forecasters predicting good fall and winter moisture this year, proper production of small grains could be very important to producers.

### Letter to the Editor

I have to agree with Mr. Gray. I grew up in Robert Lee and I can remember very well when the City Hall had only one person working in it and I can very well remember when Mrs. Havins would have only 1 person that would come in and help her

for a few days a month. Now they have computers and that should make the work easier. Robert Lee hasn't grown since the 1960's. To be honest the city has diminished in size. In fact there were at least six families that left the area when school let out.

Going back several years before, I can remember when one man did all the city maintenance, from digging up water leaks to patching streets to running the water treatment plant. Now all I see is city pickups all over town and from time to time I see a backhoe running up and down the streets. I've been around equipment all my life and I have yet to see them accomplish anything running down the street.

As for the water, if anyone says that they like it, then in my opinion they have lost their sense of taste. I know it would be economically impossible to do reverse osmosis on the water, but I do know that it could be filtered a little better. It's terrible that we have to go buy water to drink because the water that comes out of the tap taste like salt and leaves deposits and stains on everything that it touches. If it

**Bat Cave!** Fern Havins Park is now the home to a bat habitat for Mexican Freetail bats. These bats are the most common for this area. The habitat was built by Noel Gregston and is a part of the Great Panhandle/Plains Wildlife Trail. For more details, see page 8 of this issue of the Observer/Enterprise.

stays in a container for awhile it smells and leaves a mess. It seems to me that we are paying for water more than once: example we pay for water from the city then we have to buy water that has been filtered and cleaned so we can have water to drink. I know one person that had a filter system to his house and have helped him change filters almost every day. If the water is so good why do the low rent houses have R.O. systems in them. As far as the sewer goes, it looks to me like we may have to go back to "out houses", cause it's going to cost too much to flush.

I know that when times get lean and income is not meeting outgo, I have to tighten my belt and make cuts to make ends meet. If the city were to run as a business and

have to satisfy customers, there would be a lot of changes. After all, is that not what the principal of government is based on, to serve the people that it governs.

The sewer and water rate increase is just the tip of the iceberg. Taxes are too high for the services we get in town and in the country. Fees are too high, water, sewer, and trash, for examples. Streets and roads are getting worse. There are fewer services provided by the city at a much higher cost. In my opinion, there is a gross mismanagement of man-hours and resources.

Lastly, if "we" meaning Robert Lee and Coke County do not find some way to get business and jobs in to this area we will end up like

Silver. Without growth this town will die and it's well on its way now. The few that are left here are having to shoulder the burden of those that were here and left. The people on fixed incomes are having enough problems now, how can they be expected to shoulder any more? Unfortunately some may be having to make choices between food or medicine and now this added expense is thrown on them. I have to say, I'm not on a fixed income, I'm on a broke income.

Respectfully  
Leroy Casey

**Roberts Family Reunion!** The family of Newman Ferguson Roberts gathered over the 2006 4th of July holiday weekend. The reunion was hosted by the family of Daniel David Roberts.

**Roberts family reunion held**

Over the 2006 Fourth of July holiday weekend, the family of Newman Ferguson Roberts met together for a family reunion. Present were the remaining children of N.F. Roberts, Ethel Roberts Gardner and Oliver Henry Roberts. Ethel was accompanied to the reunion by her son Darrel Drennan and her niece Melissa Zermeno (the daughter of Louva Roberts Huntington, now deceased). Oliver was accompanied by his wife Dorothy, son Stanley Roberts and grandson Donnie Roberts.

The reunion was hosted by the son of Davis Yarborough Roberts (eldest son of N.F. Roberts, now deceased), Daniel David Roberts, his wife Ruby, daughter Darlene Rene Roberts, son Nathan David Roberts and wife Connie Roberts, daughter Connie Roberts Willson and husband Brent Willson, daughter Gail Roberts Evans and husband Greg Evans. Present were some of the great-great grandchildren of N.F. Roberts: Kevin Roberts (son of Nathan) and wife Trisha Roberts; Keith Willson, Marlee Evans, and Maryn Evans. The daughter of Davis Y. Roberts was present, Stella McKenzie, accompanied by her daughter Deleata Sutton.

Another son of N.F. Roberts, Todd Roberts (now deceased), was represented at the reunion by his son Charles Ladell Roberts, accompanied by his wife Martha and son Michael Roberts and his wife, Micki. Honored cousins at the reunion were the children of Powell Roberts (brother of N.F. Roberts, now deceased). Present from this family line were daughter Christine Roberts Murtishaw, her daughter Lea Beyerlein,

another daughter Edna Jean Roberts Gillet, and Powell's youngest son Weldon Wayne Roberts and his wife, Nettie Bob.

The family arrived at the X Bar Ranch in Eldorado, Texas, on Saturday, July 1, for a family dinner. On Sunday, July 2, the family was led in a family worship service by Brent Willson in the morning and joined together for a BBQ in the early afternoon.

Many of the family members took a field trip to some of the old family homesites on Monday, July 3. The family made a brief stop in San Angelo. Davis Y. Roberts attended school at Ft. Concho in the early 1900's. On past visits when D.Y. was living, he would fondly remember playing on the sundial that was located in the middle of the fort grounds. The family visited the community of Valley View and the Valley

View Cemetery, south of Robert Lee, which was the final resting place for Chandler Yarborough Roberts (father of N.F. Roberts) and his mother, Julianna Ferguson Roberts (grandmother of N.F. Roberts). Chandler and Julianna (wife of David R. Roberts who was killed during the Civil War) were the original family members that came from Walker County, Alabama to Texas in the 1800's. Many of the family had fond memories to share of the Valley View and Wildcat Communities. Oliver was born at the family home on one of the creeks off of Valley View Road.

After visiting Robert Lee, the family proceeded to Bronte, Texas, (which was the childhood home of Daniel and Stella) for a visit to the cemetery and a picnic at the Bronte City Park. After

### Millican places at State Horse Show

The 44th annual 4-H State Horse Show was held this week at Taylor County Coliseum in Abilene, Texas. Coke County 4-H member, Lance Millican, competed against 300 ropers in the Tie-Down Calf Roping. Millican placed 1st in the first go round and 8th overall in the finals.

### Simple steps can control asthma

Air pollution. Pollen. Cold weather. Stress. For those with asthma, any of these factors could be the trigger for the next attack.

Some of the strongest asthma triggers are in the home, such as dust mites, cockroaches, mold and tobacco smoke. Fortunately, taking some simple steps can reduce exposure and the chances of another attack.

"Allergens in the home can trig-

ger allergy and asthma symptoms throughout the year and be the cause of chronic asthma symptoms," said Sandra McMahan, M.D., assistant professor of internal medicine with the Texas A&M Health Science Center College of Medicine. "Some asthmatics have seasonal flares of asthma due to pollen or outdoor molds, which may be intensified by a priming effect from year-round indoor allergy."

Dr. McMahan suggests removing trigger sources as best as possible. For dust mites, keep humidity low; remove wall-to-wall carpeting; encase mattresses, box springs and pillows in airtight, zippered plastic or allergen-proof fabric covers; wash all bedding weekly in hot (at least 130-degree Fahrenheit) water and dry in a hot dryer; and vacuum weekly with a HEPA-filter vacuum.

To avoid animal dander, remove pets from inside or at least out of bedrooms; wash pets weekly; remove carpet and use a HEPA-filter vacuum; and use a HEPA air cleaner. Steps against cockroaches, responsible for the greatest increase in asthma morbidity, include blocking areas where they can enter the home; repair leaky faucets; use a professional exterminator; put away pet food bowls; and wash dishes immediately and keep the kitchen clean.

For mold, decrease moisture and humidity; improve ventilation through vent fans; and clean with a solution containing 5 percent bleach and detergent.

Your doctor also can help you figure out what specific asthma triggers may affect your family and proper remedies.

"Avoidance of allergens that are known to trigger asthma in an individual may result in decreased frequency and severity of asthma, decreased dependency on rescue medicines, decreased work and school absence, and decreased long-term complication of chronic asthma," said Dr. McMahan, a physician at Scott & White Hospital in Temple.

**...Roberts Reunion**  
(Continued from Page 8)

leaving Bronte, the family proceeded to Goldthwaite, Texas, which was the birthplace of Davis Y. Roberts. The family traveled 10 miles northeast of Goldthwaite, to the Caradan community which is the site of the Mount Olive Primitive Baptist Church, the Mount Olive Tabernacle and the Mount Olive Cemetery. The family was met at the cemetery by distant cousin, Jack Burkes and his wife Beverly, who still own property near the church. The church was built on lands formerly owned by either Dr. S.F. Roberts or Chandler Y. Roberts. N.F. Roberts married Lydia Ford Callaway, the daughter of Jefferson Davis and Mary Elizabeth Callaway who were charter members of the church. Mary Elizabeth (Lizzie) was credited with submitting the name for the church. The highlight of the whole trip was the brief visit the family had with Ms. Minnie Graves (another rather distant cousin). Before leaving Goldthwaite, the family stopped by Minnie's home to present her with a T-shirt commemorating the 2006 Roberts Family Reunion. The family, tired from traveling, was refreshed after observing the energy that Ms. Minnie exhibited during their brief visit.

The family spent July 4 back at the X Bar Ranch in Eldorado. Family members participated in a ladder golf competition, which was won by Donnie Roberts; made pipe cleaner figures representing their favorite family members at the reunion; had water gun and water balloon fights; and took time out of their play schedule to honor past family members who served in the military by having a prayer and a 21 gun salute (with their water guns). The day was completed by a fireworks display conducted by Connie and Brent Willson in honor of July 4 and their son, Keith's, 18th birthday.

A fine time was had by all family members. Plans were made by the family to have the next reunion in three years at a yet to be determined location. Family members headed for home on Wednesday morning, July 5. For more information about the Roberts family, you may contact Darlene Roberts, 2801 Countiss Drive, Corpus Christi, Texas 78410-1807 or [droberts@stx.rr.com](mailto:droberts@stx.rr.com).

**Fern Havins Park home to bat habitat**

Fern Havins Parks is now the home of a bat habitat. The Bat House is one-of-a-kind designed for the most common bat to this area, the Mexican Freetail, and will provide an effective and environmentally friendly way to reduce the mosquito population in the park and help prevent the spread of West Nile Virus. This habitat will provide a safe and environ-

mental way to draw the bats out of areas within the City where bats have been found in homes, offices, and buildings in the downtown area.

Bats are a protected species and mosquitoes make up a significant portion of their diet. Bats can capture more than 1,200 mosquitoes in a single hour and can also help control the populations of beetles, mots, leafhoppers and insects that are actually dangerous to humans.

Fern Havins Park is one of five locations of the Caliche Loop designated on the Great Panhandle/Plains Wildlife Trail Map. The bat habitat was built by Noel Gregston and was performed by the City of Robert Lee as part of settle of an enforcement action brought by the Texas Commission on Environmental Quality and was a cooperative effort with the Caliche Loop Bird and Wildlife Association.

**Registration for ACT exam set**

The next ACT test will be administered on September 16, 2006. College-bound high school students who wish to take the exam must register by August 18-the deadline for having the registration postmarked. There is a late registration postmark deadline for August 25, but an extra fee is charged for late registrations. Students can register online at

[www.actstudent.org](http://www.actstudent.org), or registration forms can be picked up at high school guidance counseling offices.

The cost is \$29 for the traditional ACT and \$43 for students who choose to take the optional ACT Writing Test. Some colleges require a writing score but many don't, so students should find out the requirements of prospective colleges before registering for the exam. Virtually all U.S. colleges and universities, including all Ivy League schools accept ACT scores.

**Connect to Customer Choice**

AS THE ELECTRIC DELIVERY COMPANY that has been serving south and west Texas for over 90 years, AEP Texas knows a thing or two about energy conservation. While we no longer sell electricity or send out monthly electric bills, we recognize this is going to be a long, hot summer.

Since AEP Texas and its 1,700 employees are directly connected to the many communities we live in and serve, we'd like to share some information on how you can help manage your electric bills through active retail choice and where you can go for additional help if need be.

One of the best ways to lower higher electric bills is to shop around for a less expensive retail electric provider (REP). Finding different offers can be done quickly and efficiently.

- 1) Visit the Public Utility Commission of Texas (PUCT) electric choice website at [www.powertochoose.org](http://www.powertochoose.org). If you don't have access to a computer, you can call the PUCT's Electric Choice hotline at 1-866-PWR-4-TEX (797-4839).
- 2) Use the information you receive to contact different REPs to collect more information on various services and offers. Also contact your current REP at the number listed on your electric bill for other offers that may be available. Ask about contract terms and prices and be sure to look at the REPs' Electricity Facts Labels to make a good comparison.

**Need some help?**

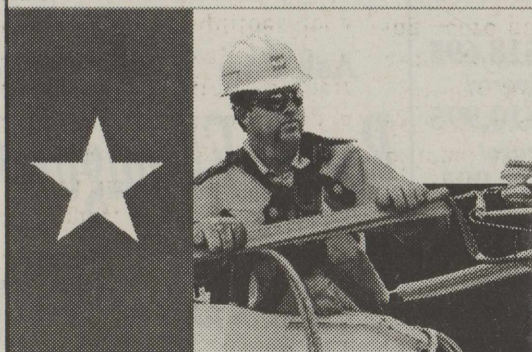

Customers having trouble paying their electric bills and wishing to avoid disconnection should discuss their concerns with their current retail electric provider. All REPs are required to offer deferred payment plans to eligible customers who express an inability to pay. REPs also offer balanced billing plans, which allow eligible customers to pay an average amount each month year-round.

Additionally, many community action agencies may be able to help with electric bills or energy efficiency programs. For more information, contact the Texas Department of Housing and Community Affairs (TDHCA) at 1-800-525-0657, e-mail at [info@tdhca.state.tx.us](mailto:info@tdhca.state.tx.us) or visiting one of the following websites.
