THE TRAILRIDERS RIDE AGAIN

Heirarchy of The Trail Riders includes: President, Bob Whitaker, Vice-president, Joe Yant; and two of the directors, "Bull" Minnick and O. W. Vannette

Comtemplating her latest muddy landing, Julie Vannette shows determination to stay on during the morrows ride.

Newcomers to Seminole

A WELCOME to the NEWCOMERS with R. H. FULTON CONSTRUCTION COMPANY. Their office and yard is located on the Seagraves highway at the former Freeman Tractor Building.

Out of the 225 employees, approximately 35 families have moved to Seminole. The majority of the employees have located here, but some are still residing in Kermit, Andrews, Hobbs and Seagraves.

They report that the Construction crew will be in Seminole two to two and one-half months. They moved about a mile a day on the pipeline, depending on the weather.

We hope that your stay in Seminole will be a pleasant one.

Mr. and Mrs. Henry Williams came over and played 42 with Mr. and Mrs. Harry Hughes. These people really do enjoy each other.

Me, Mrs. Opal Hughes had been ill and have not gotten in but little news.

Mrs. Lena Castleberry came out and spent the night with her son and family, L. V. Castleberry. This was such a pleasant time.

Fairview people send their deepest sympathy to Mrs. Dennis Knight and family. May God send his deep and comforting hand on this dear family.

I visited Mrs. E. C. Nix this morning. She is an old friend of my Grandma Medlin and she was in Grandma's Bible Class in Lamesa in the

A MUST FOR FIRST GRADERS

Parents of first graders are reminded by school officials that a birth certificate and a record of immunizations are necessary for a child entering the first grade this fall. Immunizations required for beginners by local Board policies include smallpox, diphtheria, whooping cough, and polio. Parents should secure a statement from their doctor, or health department, that these immunizations have been completed.

Parents may secure a birth certificate for their child from the county clerk of the county in which the child was born, or from the Bureau of Vital Statistics in the state capitol. Children must be six years old on or before September 1, 1967 to be eligible to attend school this year.

Seminole was host last night to a group of West Texas Trailriders. The Trailriders left this morning via houseback to ride to Denver City where they will be taking part in the Rodeo. The groups will ride in the parade and in the Grand Entry. They will also take part in a Barbeque, which is being planned in their honor. The Trail

The Trailriders began arriving in Seminole Tuesday afternoon. They came from several towns, including Odessa, Monahans, Big Spring, Andrews, Kermit, Denver City, Snyder and Lubbock. Also with the riders are several Seminole riders. The oldest rider in the West Texas group is a spry 70 and the youngest a lithe 5 year old.

The West Texas Trailriders numbers 312 members and they're always looking for new members. A water tank and a chuck wagon are part of the standard equipment for the group's activities.

The President of the organization is Bob Whitaker of Odessa. There are 12 directors. They call Odessa headquarters.

Each year this group rides 118 miles from Andrews to Pecos. This year the ride took 4 days. Riders from Seminole on that trip were Ray and Ricky Strickland, Dan Gatewood, and Mike Barrnett.

Five year old Julie Vannatta on Smokey won a trophy for youngest rider, though she had tough competition from Tony Patton who is only five months older. Both of these outstanding young horsemen rode every step of the way.

On Labor Day, a 10 mile ride is planned from Big Spring to Moss Creed Lake. The Trailriders intend to camp there for the night, returning to Big Spring the next day.

Currently, The West Texas Trailriders make five rides annually, but are considering a sixth.

PEANUT ACREAGE SALE AND LEASE

Representatives McMillan of South Carolina, O'Neal of Georgia and Hagen from Georgia, introduced bills in the House that if passed would authorize the Secretary of Agriculture to permit at his discretion the owner and operator of any farm to sell or lease any or all of his peanut acreage allotments under the Agriculture Adjustment Act to any other owner or operator of a farm or to transfer such allotments to another farm owned or controlled by him. These Bills also were to give the effect of transferring the acreage history and market quota.

The House Agriculture's Sub-Committee on oil-seeds and rice held hearings on HR 6383 and related bills on June 22, 1967. The sub-committee on June 23, 1967, recommended a clean bill to the House. By clean bill, we mean the introduction of a new bill.

The clean bill (HR 11222) was introduced on June 28, 1967 and referred to the Committee on Agriculture. The Committee on Agriculture considered the new bill, HR 11222, on July 18, but took no action at that time. On July 31 the House Agriculture Committee approved lease or sale of peanut acreage allotments within a county.

The Committee also put a limit of 50 acres that could be transferred. The bill would operate for the 68 and 69 crop years. (Not much help for Gaines County. Ed. 's note)

AID TO US?

All over the nation, states are struggling with the problem of bringing their budgets within their income. The alternative is more debt unless higher taxes are to be levied, and the people are emphatically opposing increased taxes. During boom years, tax receipts have been high

and public money has been spent like water. Now, as the boom has been "cooled", it becomes a case of debt, economy or higher taxes.

The federal government is in the same position, but according to official statements, there will be little or no easing of domestic social expenditures in the face of mounting

war costs. So, get ready for more debt, higher taxes or both, and more inflation.

Nothing has been said about what will happen when the tax consumers outnumber the tax earners. With economy out the window one wonders if the countries we have aided will have a foreign aid program for us.

AGRIBUSINESS SHORTCOURSE SLATED FOR BROWNFIELD

There is going to be an Agribusiness Shortcourse at Brownfield, Terry County Park Party House at 7:30 p. m. to 9:30 p. m. on Tuesday, Wednesday and Thursday, August 1, 2 and 3.

This is for all farmers, ranchers, homemakers and businessmen. The keynote speaker for this event is Mr. Kenneth Wolf, who is economics agribusiness specialist with the Texas Agriculture Extension Service. John Seibert, who is the Extension Area Farm Management Specialist and Coordinator of the South Plains Development Program, will also lead the discussion.

Topics to be discussed in the 3 day session includes business expansion, management of the labor force, selling a service, credit and the customer and managing a managers time. We hope anyone who is interested in this course will attend one or all three nights.

Mrs. Sid Johnson, Sr. of Hobbs, New Mexico was involved in a minor car accident Monday afternoon. Mrs. Johnson is the mother of Sid and Steve. Steve reported that his mother was bruised up, but no serious injuries.

Q & A

Q. -- How should a person set up a palette with oil paint?

A. -- The color can be laid out on the palette in any number of ways convenient for painting. However, once an arrangement is arrived at, you should keep the colors in that order. Having a definite place for each color on the palette establishes the habit of being able to locate the desired color automatically, with a minimum amount of fumbling.

Q. -- Can you use a house painter's brush for oil painting?

A. -- Yes, for covering of large areas, backgrounds and rough toning work at the preliminary stages of a large canvas, the house painter's brush is a time saver. The one inch will be found best for these purposes. A softer hair brush of the same width will be found ideal for applying retouch and final coats of varnish.

THE BIRDFARM

In the vicinity of Kill Devil Hill, near Kitty Hawk, North Carolina, on the 17 of December, 1903 the Wright Brothers made the first powered manned aircraft flight in history. The airplane has proved to be the most modern improvement in weapons in 20th century. It has practically revolutionized warfare, providing combatants with a fast, highly mobil platform from which to launch various types of missiles, bombs and gunfire. The most highly developed application of the airplane is the modern attack aircraft carriers.

Early in the history of the airplane, the various navies of the world realized it's advantages as a weapons systems. At first it was thought that the best application of the airplane was the seaplane, which could be carried aboard ship, then launched and retrived in the sea itself. It was soon found, however, that the seaplanes of that era were no match whatsoever for the land planes and an effective means was sought to carry land planes on ship. The answer was the aircraft carrier.

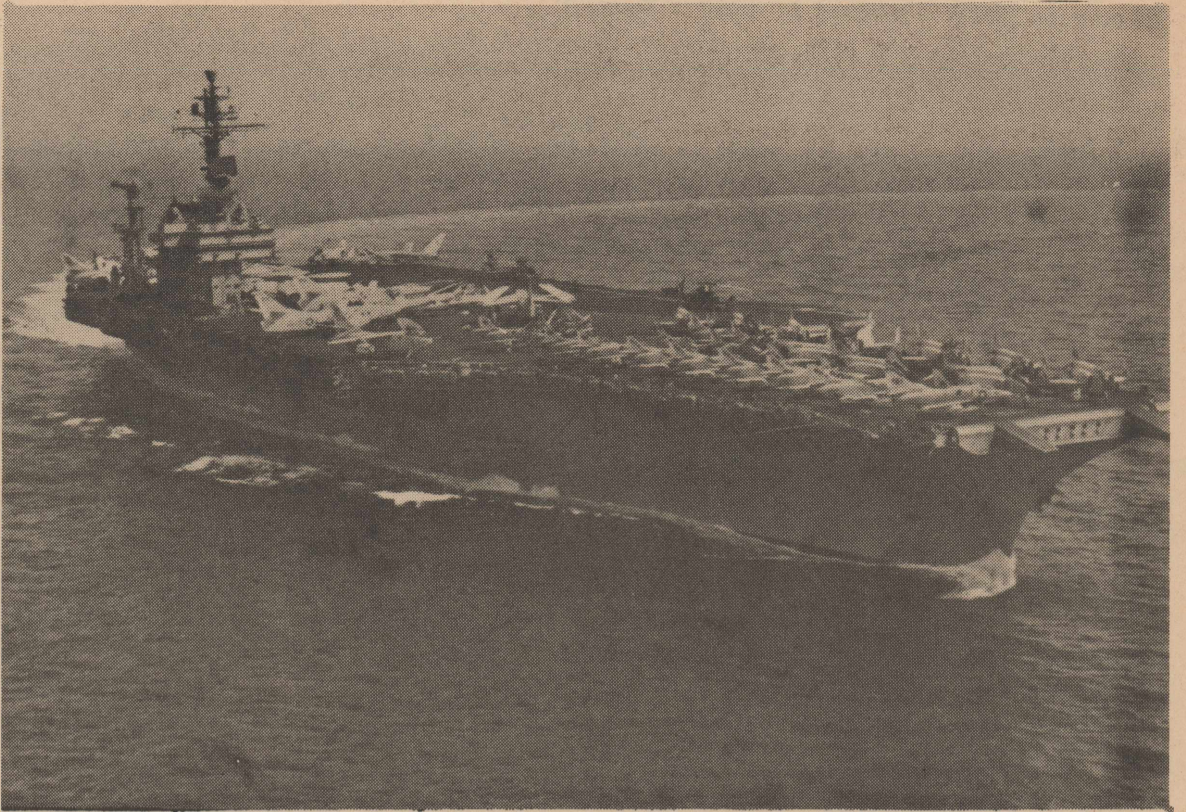

The first "Bird Farm" was a British ship, the HMS Argus. Launched in 1917, she stood alone until the commissioning of the USS Langly, in March 1922.

During the First World War, and the years between many objected to the carriers and subjected them to battleships. They were used primarily to wound and slow enemy ships, which could then be sunk by the capital ships when they arrived on the scene. Even in World War II, in the Atlantic Theater, the aircraft carriers continued to carry out this role. In the Pacific, however, the Bird Farms quickly showed what they were capable of as a mobil airfield from which to launch and retrieve aircraft.

At Pearl Harbor, on the 7th of December, 1941; at the Battle of Midway, June 7-8, 1942; and Leyete Gulf, October 23-26, 1944, the carriers proved their ability to reach out over the horizon, and strike a crippling blow against the enemy.

The superiority of the Aircraft Carrier lives in its mobility. Capable of remaining at sea for extended periods of time, the Bird Farm provides an airbase that can roam almost 70% of the earth's surface at will, because that much of our world is navigable water. It's aircraft, the hot operational jets of today's Navy, because of their ability to fly high, fast and far, can utilize this base to strike far inland on any continent. They can, in fact, reach any spot in the world. Again, the carrier is valuable as a stratigic weapon in that it can literally lose itself in the world's oceans, becoming at times and at it's commanding officers mere wish, almost impossible to find, giving it advantage over land bases, because you can't destroy a target that you can't find.

Today they still fly from Kitty Hawk, but not Kitty Hawk, North Carolina. Today, flight operations are conducted from the Super-Carrier, USS Kitty Hawk, CVA-63. At 80,000 Tons, 85 aircraft, and 5,000 men, Kitty Hawk represents one of the world's strongest weapons systems and a considerable percentage of our nations tatical and stratigic strength. Off the coast of Vietnam, she and her sister ships, flying an easy schedule far short of their total capabilities, are holding the Viet-Cong down, keeping them pinned and making it impossible for them to attack in full force. By striking and destroying the supply routes that feed his men, by daily attacking his power plants and airfields the Navy's Super carriers, are curtailing the enemy's war potential and making it very difficult for him to continue his aggression.

The USS KITTY HAWK, is an 80,000 ton "BIRDFARM". It is 1046' x 273', has a crew of 5,000 men and carries 85 PLANES.

SEMINOLE BOYS ATTEND MET TRYOUT CAMP

The New York Met try-out camp at Andrews was held this past week-end. It came to an end Sunday afternoon when more than 35 players participated in an all-star game before a large crowd under the direction of Red Murff.

Mike Shain was one of the 35 players on the all-star team.

Other cities represented on the all-star team, which was chosen from 150 players were Monahans, Alpine, Kerrville, Post, Lubbock, Andrews and Lamesa.

Murff was highly pleased with the crowd and after the nine inning game was completed he complimented the entire 35 players and said that they were as fine a group as he had seen anywhere in the United States.

FOLKS & Facts

Mrs. Ernest Foote and her sister, Mrs. Mattie Hilburn of Greenville, left today for Colton, California to visit relatives.

Miss Suzette Sherrill of Ft. Stockton is visiting her grandparents, Mr. and Mrs. C. V. Singleton this week.

Mr. and Mrs. Roy Eudy, Tom and Mary spent the week of July 18-24 visiting with Mr. Eudy's father and sister in Paris, Tex. They enjoyed fishing while gone - - Mrs. Eudy especially enjoyed fishing - - she caught the most!!

Mrs. Don Melton, Greg and Teri of Levelland, were in Seminole last week. They brought Sara Jane Smith home. She had been a guest in the Melton home. Margret will be teaching the 6th grade in the Levelland Schools and Don is associated with South Plains College.

Mrs. Lydia B. McKinny and Mr. and Mrs. Joe McKinney were in Abilene over the week-end where they attended the Savell family reunion.

Mr. and Mrs. B. C. Norton, Nila, and Dee left yesterday for DeLeon, Texas where they will attend the Peach and Melon Festival.

Mr. and Mrs. Rayford Bates, Teri and Joe Don returned home Monday after vacationing this past week in Missouri.

Mr. and Mrs. W. E. Ogle and Beverly, Danny and Darlene are vacationing this week in the Big Bend area and in Arizona.

Some people will never learn anything, for this reason, because they understand everything too soon.

Mark Greene, son of Mr. and Mrs. Harmon Greene underwent minor surgery last Friday in Lubbock. The Greene's returned home Sunday and Mark is doing fine.

Mr. and Mrs. Roy Riley, Nerissa, Cynthia and Roy, Jr. vacationed last week in Rotan and Hamlin with their parents, Mr. and Mrs. Dallas Neal and Mr. and Mrs. J. L. Kennedy. They went on to Six Flags Over Texas and stayed in Arlington over night.

Mrs. Gertrude Farrar and Pam and Mr. and Mrs. Claude Sellers and Carrie spent several days vacationing and fishing last week near Logan, New Mexico, at Uata Lake. Also on the trip was Mrs. Farrar's mother, Mrs. Max Hudgins of Vernon. Mrs. Hudgens had been in Seminole for several days. On Wednesday evening the group was eating out when a sudden strong wind hit and blew their supper away. They ran for their tent and had to hold it down to keep the wind from taking it also. The only other misfortunes experienced by the group was Vickie and a bout with her water skies and Mrs. Farrar and her sunburn and finding someone brave enough to tell Mrs. Hudgens that they wanted her to leave her fishing spot so they could come home. Young Mark Sellers stayed in Amarillo with his aunt and uncle, Mr. and Mrs. Emmitt Poyner and family. The group visited in Amarillo with the Poyners. They also stopped by Lubbock to visit Mrs. Farrar's brother, Mr. and Mrs. Ralph Hudgens and family. Mrs. Mae Hudgens stayed in Lubbock with her son and family.

AROUND TOWN

Welcome to all the newcomers around town. We're glad to have you and we hope you'll decide to stay a long time. --- Barry Norton was hurrying to get ready to take off on another trip with royalty. Queen Nila said when she came in the News office, "We're going to leave in a few minutes --just as soon as Daddy gets his head combed." ---Heard about a child who was playing "Nurse". Her Daddy was busy reading the paper and she kept saying "Now--this won't hurt a bit!!" as she pulled up his pant leg-- then suddenly she gave one big fierce shot with a straight pen---It seems Summer is swiftly wanning --and school is almost here--can't help beginning to be eager for football start. ---Happy Birthday, yesterday to such a nice

LETTER HOME FROM THE TRAVELING FOLK OF SEMINOLE

Dear Gang:

Normally a son in a far away place would not write his mother and tell about the hula-dancers. I wish my mother could have been here and seen the Hawaiian girls. Frances received an invitation from one of the ladies she goes to school with. (Her sister helps with the group and sings.)

We boarded the bus (Army) in downtown Hilo, rode 30 to 40 miles away to the crater area where all branches of the service have a retreat for armed personnel. We traveled out with the singers and dancers. The singers sang most of the way out there. I thought they would be pooped out by the time the program came on but that was not the case. The four women singers turned out to be mothers over half of the 8 dancers.

Who puts out all this dope about the grass-skirt dance? The only one we saw was on a five year old. The others, all girls, danced by courses of 3, 4, and seven at a time. They were dressed in such pretty full length muumuus, some red, some yellow, some white, and all were pretty. The four senior girls looked to be 16 or 17 years old. The 3 junior girls looked to be 11 or twelve, and then the little one.

It was such a nice, decent family affair. The singers each played a uke or a guitar. The songs were so pretty, some we could understand and some we could not. The dancers were so slow and graceful. I must have expected some wild, exotic, fast movements but such was not the case.

After the last act, the leis worn by each on the program was given away. One girl, that I had been making eyes at, (11 years old) gave us two and rushed back to the singers and got two from them so all four in our family got one. (Also the traditional kiss).

The program lasted one hour - then we boarded the bus for the return trip of 45 minutes.

The first thing they did was divide the bus up into two groups and started out singing again. (They reminded me of our family of years gone by when we sang so much together). And they sang first, 'Old McDonald Had a Farm', 'Row, Row, Row your Boat', and many, many, more. I sure wish Mother could have been here.

Yes, they asked us to go again. Yes, we are going Friday night.

The Walter Woods

The only grass skirt I've seen - 5 years old and beautiful. All of these are real Hawaiian Hulas and nothing like we expected.

Give me a man that is capable of a devotion to anything, rather than a cold, calculating average of all the virtues.

- Bret Harte

FRESHMAN FOOTBALL PRACTICE BEGINS AUGUST 9th

The Seminde Freshman football season will begin on August the 9th with the issuing of football shoes to all freshman accoring to freshman Coach Bill Hicks.

Two a day workouts beginning on the 14th of August will be at 8:30 in the morning and at 6:30 in the afternoon.

The freshman will play a ten game schedule this year opening on Saturday the 9th with Denver City at the local field. Other opponents of the freshman will be Brownfield, Lame-sa, Seagraves, Andrews, Kermit, and Levelland.

Coach Bill Hicks said that he expected between 34 and 40 boys to report for football and that any boy who would like to play should come by the Junior High Gym on the 9th of August.

Coach Hicks suggests also that all boys should begin to run and get in shape no later than the 4th of August.

Who doth no evil is apt to suspect none.

Mrs. Hughes, this one is yours. The girl-friend is 11 years old and a beauty. The lesson was for FREE.

NEWS RELEASE

U.S. Department of Health, Education, and Welfare

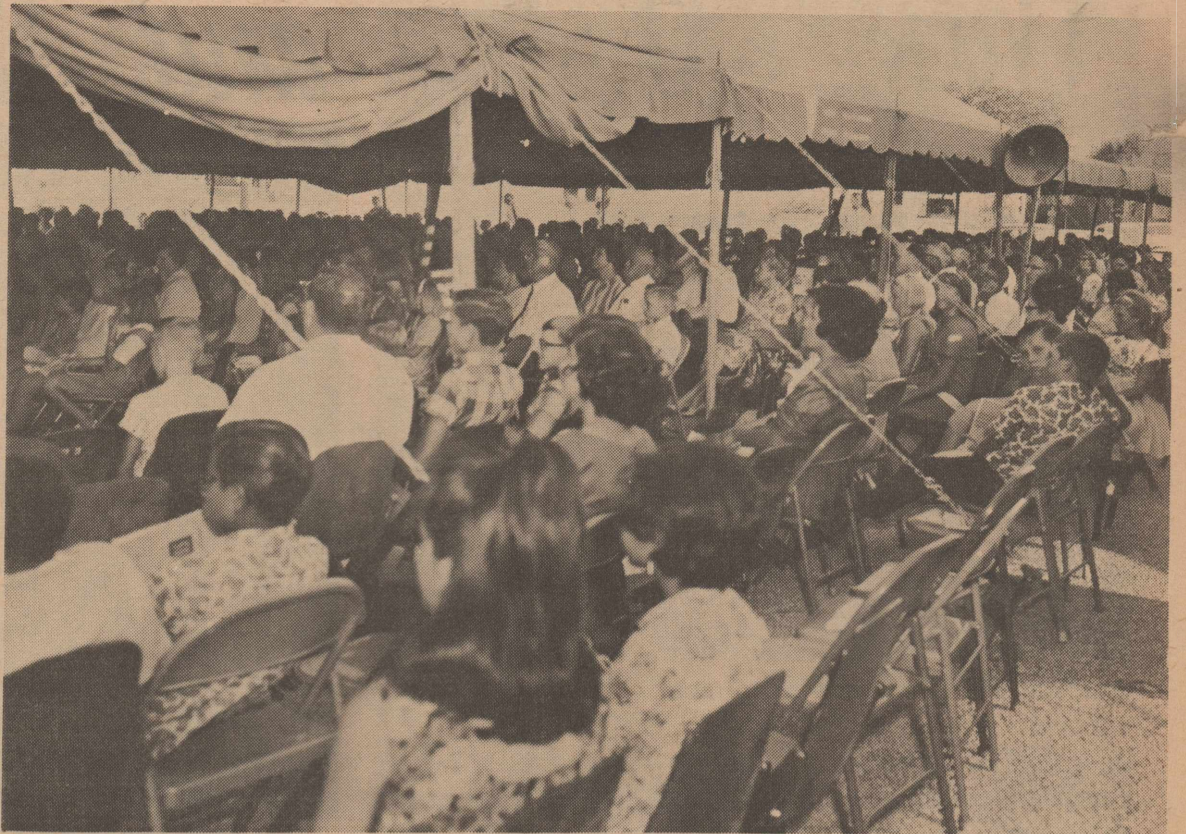

H. P. Thomas, Odessa social security district manager, reminded farmers and crew leaders today that they should keep records on all farm hands who work for them. A tax report (Form 943) of wages paid farm workers covered by social security is due by January 31 of each year.

A farm worker's wages must be reported if -- he is paid \$150 or more in cash wages during the year, or he works on 20

or more days in the calendar year for cash wages figured on a time basis.

The crew leader is generally the employer of the crew members and must keep records of the earnings of his crew unless he has a written agreement with the farmer stating that he is the employee of the farmer. In this case, he and all of the crew members are employees of the farmer.

A booklet explaining the above points in detail may be obtained from any social security district office or Internal Revenue office.

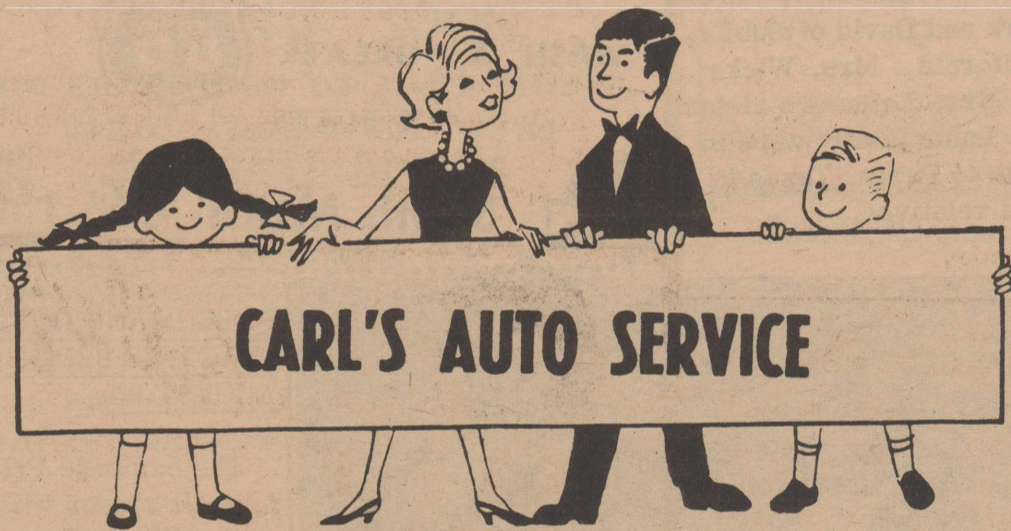

Shown above is a part of the overflow crowd at last weeks City-Wide Revival. A similar effort is planned for Seagraves next week (August 6-13). The Rev. Ed Robb will be doing the preaching and Mr. and Mrs. Gene Moore will be in charge of the music. Photo. courtesy of Roberts Studio

Sara's Stories

by SARA JANE SMITH*

THE FIREPLACE THAT DIDN'T HAVE A CHIMNEY

One time there was a fireplace that didn't have a chimney. The men who built the house just forgot to build a chimney. Some people moved in that house. One day it was real cold and the people built a fire. But the smoke wouldn't go out. The house got filled with smoke. The people found out that there wasn't a chimney so they got a chimney put in. Then it was all right.

The End of Sara's Story.

News from TEXAS FARM BUREAU

WACO--(Spl)--More than 425 high school juniors and seniors from 150 counties are expected on the Baylor University campus, August 8-11, to participate in Texas Farm Bureau's Fifth Annual Citizenship Seminar.

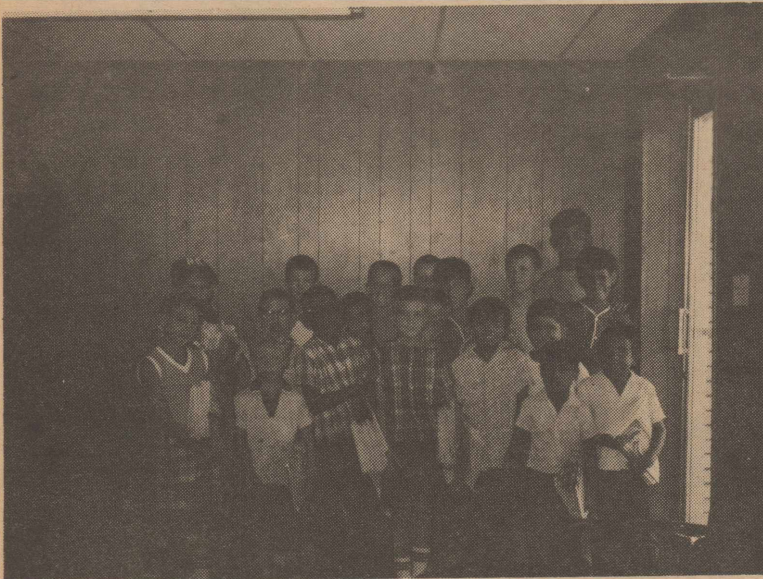

Purpose of the Seminar is to convey to students a better understanding of the American system and way of life. Emphasis is placed on the economic, moral and social aspects of the American society that were envisioned by our forefathers in our Constitution and Bill of Rights.

The seminar faculty will include five well-known lecturers. They are Dr. C. L. Ganus Jr., president of Harding College at Searcy, Arkansas; Dr. C. L. Kay, vice president of Lubbock Christian College; Melvin T. Munn, writer and commentator of "Life Line"; John Noble, author of "I Was a Slave in Russia," and "I Found God in Soviet Russia"; and W. Cleon Skousen, former FBI agent and now editor of "Law and Order," a national crime magazine.

An added feature to this year's program will be the appearance of several young inmates from the Texas Department of Corrections who will tell of their past experiences.

County Farm Bureaus will sponsor or co-sponsor with other local organizations attendance of their representatives at the school which is coordinated by the Texas Farm Bureau. Chartered buses will provide transportation to and from Waco.

Attending from Gaines County will be Andrea Hand of Loop, Chris Wicker of Seagraves, and Skeet Doss of Seminole.

Kill flies like magic!

Your best attack against disease-carrying flies this spring and summer is a combination of Purina Fly Killers. Here's how to use 'em:

Put Purina Fly Bait and Purina Fly Checkers in alleyways, near manure, in sunlight wherever you find flies.

Spray Purina Dairy Spray on your cows at milking time. Dairy Spray kills and repels hornflies, stable flies.

Use Purina Dairy Oiler Insecticide in a backscratcher set up in your barnyard. Let cows protect themselves!

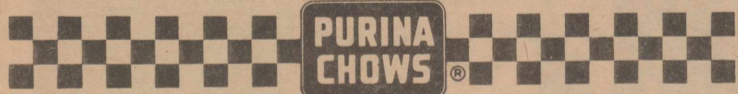

Purina Spray & Dip or Purina Malathion Spray gives long-lasting protection against flies when you spray barns.

BOOKS
OPEN NEW HORIZONS

"Menfreya in the Morning" by Victoria Holt

Set in Cornwall at the turn of the century, this is the story of wealthy Harriet and of her marriage to Bevil Manfre, handsome, dashing, foud of the ladies, and heir to the historic mansion, Menfreya. Old loves and new doubts cloud Harriet's life when the mansion becomes the scene of dark doings, and menacing legends indicate that she will be the next to die.

"Forgotten Pioneer" by Harry Golden.

With warmth and understanding, Mr. Golden tells of the old-time pack peddlers who walked the countryside from the earliest beginnings of our country until the mid-1920's. This book is a rare work of Americana, full of charm and human interest.

"Ben-Gurion" by Robert St. John

The fascinating personal and political story of Ben-Gurion, whose name has become synonymous with modern Israel. He is almost certainly on of the outstanding world figures, more written about than most kings, princes, and heads of state. A man of great humanity, much loved by his people. Has millions of admirers but a few close friends. He walks his often dark path alone.

"Tell no Man" by Adela Rogers St. Johns.

A novel of contemporary American life in which a young, successful businessman enters the ministry and endeavors to live and act according to the precepts of Christ. All the pressures of his social background, the dismay of his beloved wife, his own doubts and disillusion along with the complex and confusion of 20th-century mores, add to his ordeal.
