

A remark was made at a banquet recently that should be some food for thought for everyone in our town, not just the chamber, Rotarians, Lions, industrial foundations and other such organizations. As an individual, had you ever given thought to the idea that you and you alone might bring an industry into our area, or that a careless remark on your part might send that same firm elsewhere? Don Greve, chairman of the board of Sequoyah Industries, said before his company made a move into a new territory, they sent investigating teams into towns which were being considered. These teams may be well dressed men and women or they may be wearing workclothes and driving an older model pickup. When they stop in a filling station or cafe they may ask little questions such as, "this looks like a nice town, are the people here friendly? Is the town split wide open with jealousy or do the people work together to try to make this a better place to live?" Your answers to these questions may have a big bearing on the future of our town. We feel that some of the civic organizations should prepare a list of hints which might be passed on to the young man who attends your car at the station or to the waitress at the cafe. A little talk with the owners of these business institutions might impress them with the importance of customer relationship. What do you think of that idea?

The article above is from the Broken Bow News, Broken Bow, Oklahoma.

Saw a good friend in Lamesa a few days ago and he told me the following story.

"Walter, I saw this report a few days ago, a confidential report on your town, my town and other towns in the area. In 1990 Seminole is projected as having above 20,000 people based on the following reasons, (maybe not in order): 1. reasonably priced land and a lot of it, 2. irrigation, 3. fruits, 4. vegetables, 5. railroad and 6. low taxes."

Let's practice what Broken Bow, Oklahoma is practicing; friendliness, keeping our town decent and clean and maybe the 20,000 plus will swell to 30,000.

I knew your dad and his brothers. We went to the Buffalo School house together. We cut post oak trees and split the logs to have benches to sit on. Also the school house was built out of post oak trees. I knew your mother too.

Be all you can be - READ

Mrs. M. E. Ikard is shown gathering books from the Auto-Page Book Return on the square. The books are picked up each morning and during the summer months, there are as many as 100 picked up daily. Use the library during National Library Week, April 20-26. "Be all you can be - READ."

National Library Week will be observed April 20-26th. Be all you can be. Read. Families who make reading a part of their home life are wise families. They have long ago discovered the special joy that comes of sharing interest--of knowing that books in the home can bring pleasure and growth.

There are no limits to the mind that has been enriched by good reading habits, by access to books--from childhood on. And National Library Week reminds us that we can't afford a nation of non-readers.

In our society we depend on all our citizens. We need people who are alive to new ideas... who value their past... people who are preparing themselves now for a satisfying future. That's why books in our homes, and our community's libraries are so important, and never more so than in today's changing world.

No matter what your age, your tastes, or your special needs, there is something of value for you, at the Gaines County Library. Stop by today--browse around--and take the family with you. Be all you can be. READ.

The Junior Study Club donated a compact strip projector to the Gaines County Library. Shown presenting it to Mrs. Dale Winks, Library, is Mrs. Ken Willis, president of the Study Club.

The "Prima" is a unique, compact film strip projector that is truly "lendable". Absolutely safe and silent, designed not to damage film. It is foolproof, easy to operate, assuring proper use.

The Junior Study Club will also be assisting the County Library next week during National Library Week by handing out brochures and book marks, telling the location, and hours of the library, and giving information concerning the services rendered by the local library.

Rain, Rain

The best rainfall of the year distributed from nearly 2 inches to 4½ inches throughout the county. The rain began Thursday night, accompanied by a thunder and lightning storm, and fell Friday, Friday night and Saturday morning.

The rain was general throughout the county and farmers were heard to say, "Just perfect. We

won't have to water to plant. It was a wonderful rain."

GROWERS TO VOTE ON TRANSFER OF COTTON ACREAGE ALLOTMENTS OUT OF THE COUNTY

Growers in all upland cotton producing counties will vote during the period May 5 through May 9 on whether to permit the transfer of 1970 cotton acreage allotments to farms in other counties by sale or lease.

If in any county at least two-thirds of the growers voting favor the transfer, growers of that county will be permitted to transfer their allotments by sale or lease to farmers in other counties within the same State. (Any lease agreement filed with the county ASC committee between June 1 and Dec. 31, 1969, where an allotment is transferred within or outside a county, will, if approved, be honored by the committee for the number of years specified in the lease.) Allotments may not be shifted to other States.

Where approved by at least two-thirds of the growers voting in the county, transfer of allotments to other counties will be permitted during 1970. The transfer of allotments is authorized in the Food and Agriculture Act of 1965. This Act, as amended, and the authority to transfer allotments expires at the end of 1970.

The May 5-9 referendum on this question will be the fourth to be conducted by mail. Ballots will be delivered to all cotton growers of record in counties holding a referendum next month. Officials said a mail vote has proved to be more convenient for growers, rather than having to appear in person at their polling place, particularly during a busy season. To be counted, all votes should be in the office of the county Agricultural Stabilization and Conservation Committee before the close of business on May 9 or be postmarked by midnight May 9.

VAUGHAN, CUSTER GET NEW POSITIONS

Texas Farm Bureau President Sidney Dean of Victoria has announced that Gerald Eugene Vaughan of Katy has been employed to be in charge of the TFB livestock marketing program beginning April 21.

Roy Custer of Terrell, TFB field representative in Northeast Texas, has been named assistant to Vaughan.

Vaughan, 35, is presently an order buyer for the Hygrade Food Products Company, Inc., a position he has had for four years. He buys for the Company's Houston plant.

Cliff Laywell, executive director of TFB, said, "We will be operating as a commission company."

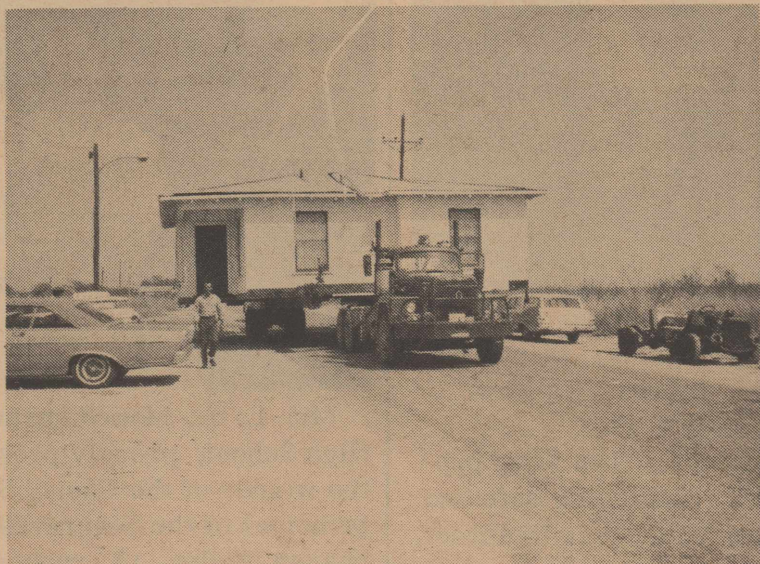

"Details of the TFB livestock marketing program will be announced and outlined in late April," he added.

Vaughan received the B S degree in agriculture from Texas A&M University in 1962. The following year he earned a Master of Science degree in beef production, minoring in nutrition. He has also managed a feed lot and worked in the nutrition field related to feedlots.

"This experienced livestock buyer and feeder comes highly recommended by his associates in the cattle industry, and by Texas A&M University officials," Laywell said.

Vaughan, who will live in Waco, is married and the father of three children.

Custer, 43, graduated from Texas Tech in 1950 with a BS degree in animal husbandry. Before joining the TFB staff in 1957, he was a fieldman for a farm magazine and a radio farm director. Custer is married to the former Paula Hoffman of Lubbock.

OATS AND RYE ON DIVERTED ACREAGE

There has been some question from farmers regarding the service charge made for checking oats and rye allowed to mature on diverted acres. As you will remember in 1968, the regulations stated that small grains on diverted acres must be grazed out, clipped or incorporated into the soil not later than May 1. We were concerned over this because of the value of keeping diverted acres in close sown crops in this wind erosion area. We were granted relief after appealing to the State Committee, but it was granted on the following grounds. That a farmer applying in writing for permission to leave this crop on the land past May 1 and that we check these areas to see that none of them had been harvested. The cost of the checking work was to be charged to the farmer. We accepted the change on this basis as a farmer could keep his acreage of small grain on diverted land and allow it to seed back and avoid having to reseed every year. The cost of getting the area checked is very small compared to the cost of reseeding this area each year.

CERTIFYING ACREAGE

A farmer should be very careful when certifying crop acreages this year as penalties for overstatement or understatement are very severe. Cotton acreage is especially dangerous because many people this year will seed 100% instead of 65 to 95% of their allotment. An error in measurement may cause a farmer to be subject to program payment deductions, marketing quota penalties and not be eligible for loan privileges. If in doubt, be sure to apply at the County Office for measuring service.

Killer Tornadoes

NEW YORK—Tornadoes took the lives of 116 Americans in 1967, the Insurance Information Institute reports. In the last 50 years, 9,300 deaths have been attributed to tornadoes.

DOCK STRIKE SUBJECTS AGRICULTURE TO ECONOMIC HAZARDS

Texas Farm Bureau President Sidney Dean of Victoria said that agriculture should never again be subjected to the economic hazards of a dock strike.

The president of the 110,000 member TFB said corrective legislation is needed.

"We in agriculture, as the innocent third party, cannot afford to have our foreign markets cut off for prolonged periods every time the union contracts come up for renewal," Dean said.

The TFB leader said the recent 101-day strike was already causing severe economic hardships in agriculture when it was settled last weekend. Dean sent telegrams to the entire Texas delegation in Congress on March 21 requesting their assistance in settling the strike.

Many Congressmen responded by saying that they were urging the mediators to get together again. The mediators did meet again on March 27, and agreement was reached on March 30.

Dean said that while settlement has relieved the immediate shipping problem, the terms of the settlement will hurt agriculture.

"The featherbedding provisions, particularly in regard to container loading, will work to price our commodities out of world markets," the TFB president said. "The work stoppage had already forced many foreign buyers to seek supplies elsewhere. The added costs of using American ports will further hurt our chances to export farm products abroad. We in agriculture are particularly concerned about this because we now export from 20 to 25 percent of our production. A drop in exports will cause a glut in the domestic market."

NEWS Editorial

I know some people, a man and wife, who have reared four children and they're all either geniuses or near geniuses. I know they are because the parents have told me.

The same people bought their house at a much better deal than anyone else. Their car gets better gas mileage than any of their friends' cars, all the furniture in their house was bought at strictly wholesale - they said so!

I want to say a word in appreciation of all us people that have children with just average intelligence, who make average grades, have average jobs, make an average living, drive average cars and get an average gas mileage and make only average purchases.

These are the people who lead average lives and thank goodness, have only average problems! I've noticed that way above average wage earners have worse stomach problems, consult a psychiatrist more often, and have very little time to be with family and children. Now the couple that has a way above average size house is usually the couple who is looking for a bigger house, more imported furniture and needs extra garages or carports.

Thank goodness, the good Lord gave most of us about what we can manage. Children not too smart for us to cope with, the average sized automobile that we can buy gas for, a house not too big that we can still pay taxes on, and surrounded by friends who are smart enough to put us down if we try to get too wise.

I like to know those average kind of people who have a healthy respect for the law, feel responsibility for their children, love their wives and husbands, God fearing, honorable, respectable and kind. I like them because they work, get to know you, and speak to me.

I want to be one of those average people (maybe a little above average) just COMMON FOLK!

DON MANSELL ATTENDS TEXAS CATV CONVENTION

Don R. Mansell of Seminole Cable TV will attend the 1969 Convention of the Texas CATV (Cable Antenna Television) in Dallas April 16-18. More than 400 cable system owners and operators from Texas and surrounding states are expected to register for the three-day meeting.

In addition to the Convention's regular attendance, the Mid-America CATV Association will meet this year with the Texas CATV Association. The Mid-America CATV Association is comprised of cable system owners and operators in Oklahoma, Kansas and Missouri.

The program of the Texas Association's Ninth Annual Convention will range from sales success stories, new cable program sources and the rebuilding of cable systems to national and state affairs including legislation and regulation pertaining to the cable television industry.

A record number of manufacturers will exhibit new CATV products, equipment and services.

Cable television has grown nationally from only 70 systems serving a total of 14,000 subscribers in 1952, to an industry today with over 2,200 cable systems with more than 3,500,000 subscribers. In Texas alone, there are some 200 operating cable systems serving approximately 200,000 subscribers.

Seminole Cable TV was established in 1959 and now serves more than 1,000 homes in the Seminole Area.

ALL UNITS OF GOVERNMENT WILL BE LIABLE for tort claims for personal injury (except school districts) under the provisions of HB117 by Dickson which has already passed the House and received Senate approval this week. Although numerous attempts were made to reduce the coverage and further limit the amount of recovery, little material change was made in the bill by the Senate. It adds another dimension to the cost of local government, and how much it costs will have to wait on experience.

Ruby Watson just saw her phone ring!

(Saw her phone ring?)

Ruby has difficulty hearing. A powerful lamp which flashes when the phone rings lets her know someone is calling. And a volume control switch on the phone receiver makes it possible for her to hear and carry on a normal phone conversation. This is one of many devices we've developed to help the handicapped make full use of telephone service.

If we can help a member of your family, let us know.

We may be the only phone company in town, but we try not to act like it.

HOLLIS J. MOSELEY

Dear Editor:

On January 29, 1969 there appeared in Section II of your paper an article on Wright School as it was in 1929.

Shown in the picture was Hollis Moseley. Thinking that the course of his life might be of interest to some of your readers, I am writing this letter.

In 1939 Hollis moved to California. That same year he married Gladys Shepard of Missouri. A few years later a daughter was born to them. In July of 1943 he went to work for Montgomery Ward of Oroville. He has spent the majority of his twenty-five years of service for them in the plumbing and building materials section. In addition to this, Moseley owned a grocery store in Forestown, near Oroville. He has also been an active member in the Olive Hill Missionary Baptist Church for a number of years.

Sincerely,
Maryetta Keck
(his daughter)

The above letter from Maryetta Keck was accompanied by a copy of a merit scroll, edged in silver, from Montgomery Ward to Mr. Hollis J. Moseley with the following citation:

"Congratulations, Mr. Hollis J. Moseley, and thank you for the 25 years of loyal service you will complete on August 23, 1968. Wards is proud of you and your achievements."

LIBRARIES ENCOURAGE LOCAL CITIZENS

With the theme, "Be all you can be - READ", the libraries in the school and the court house encourage local citizens during library week to avail themselves of good reading materials. The high school library reports that on June 1, 1968 a total of 9588 books, 723 filmstrips, 28 record albums, 211 single records and 67 transparencies were in the library. Added to date have been 651 books, 43 filmstrips and 13 single records.

Bound magazines make up a total of 345 volumes. The National Geographic magazine dates back to 1943 Reader's Digest dates back to 1946.

Besides selection, classification, cataloging, and circulation of library materials, the library staff also processes and circulates all the classroom sets of English materials for the non-graded English program.

The daily average circulation of library materials was around 75 books a day for the first semester of school. Daily average circulation, including English materials, is around 115 books per day.

Some of the unusual requests are: 1. Materials for a student whose father wanted to pass his citizenship test to become a U. S. citizen. 2. Books for my mother to read. Primarily, the library attempts to support all areas of the curriculum.

A reading card is kept for each student in the school. For four years, a student can check to see what titles he has checked out of the library. The borrower's card also enables the library staff to give intelligent reading guidance for each student, not just the students who are personally known to the staff.

Library assistants for the High School are Julia Martinez, Brenda Allen, Janie Riojas, Mary Zuniga, Robert Castleberry, Connie Moore, Linda Routh, Randy Harris, Elaine Driver, Rolf Stone, Beverly Forbis and Jimy Ruthart. Marva Freeman assists in the Junior High School Library.

Mrs. Janelle Sullivan has been the librarian since 1962. Since that time, over 4000 books have been purchased, processed, and circulated. Mrs. Juanita Morgan has been the library clerk since 1964.

Selection of materials is based upon: 1. Suitability for age level 2. Need in curriculum 3. Recommendation by authorities for age and grade level 4. Recommendation by teachers.

If in doubt, materials are ordered on approval and then checked by the librarian and teacher whose classes will be reading the material.

The average cost of each book is \$5.00. The investment in materials and equipment in the library would be over \$60,000.

"Q. Some person was asking for the Indian version of the 23rd Psalm. I know it started out 'The Great White Father above a shepherd Chief is. I am His and with Him I want not.' But I do not know the remainder of it. Will that give you a lead? C. W. S.

A. After querying several missionaries to the Navajos, Action Line received the desired copy from Mrs. Elton Kline of the Navajo Missions Inc. in Farmington. It starts as you said and continues in part: 'He throws me a rope and the name of the rope is love and He draws me to where the grass is green and the water is not dangerous... Sometimes he makes the rope into a whip but afterwards He gives me a staff to lean on... He puts His hand on my head and all the tired is gone... Afterwards I will go to live in the Big Teepee and sit down with the Shepherd Chief forever.'

TERI HASSELL

Set Nuptial Vows

The engagement of Miss Teri Hassell and Brent H. Fullerton, son of Rev. and Mrs. Paul Fullerton of Abilene, has been announced by her parents, Mr. and Mrs. Howard Hassell of Seminole.

A June 2 wedding is planned at the First United Methodist Church in Seminole.

The bride-elect is a senior at Seminole High School. The prospective bridegroom, a 1968 graduate of Seminole High School, is a freshman pharmacy major at Angelo State College in San Angelo.

SOUTH SEMINOLE BAPTIST CHURCH OBSERVES YOUTH DAY SUNDAY

Sunday, April 13th was Youth Day at South Seminole Baptist Church. A team from Hardin Simmons University conducted both the morning and evening worship services and directed a fellowship following the service Sunday night. Directing the music was Richard Ross of San Angelo and Jack Graham of Fort Worth brought the messages.

Praise loudly, blame softly.

PHEBEAN SUNDAY SCHOOL CLASS MET

The Phebean Sunday School Class met April 14 in the home of Mrs. Bennie Baggett. Mrs. Gordon Cobb gave the devotional, "Two for Daily Lives."

Mrs. Gibbs Phillips led in prayer.

Refreshments of sandwiches, nuts, mints, coffee and hot tea were served to Mmes. Bud Kuykendall, Gibbs Phillips, Dave Anderson, Gordon Cobb, Wayne Dolloff, M. C. Hobdy, L. F. Hyatt, M. K. Ikard, E. C. Payne, C. D. Wickson, John Beall and J. W. Young.

Mr. and Mrs. Ronald Weaver of Petersburg visited their son and family, Mr. and Mrs. Gary Weaver Sunday.

STUDY CLUB HOLDS

REGULAR MEETING

The Seminole Study Club met at their club house, 910 S. W. Ave. B., on Wednesday, April 9, at 4:15 p. m. for a program on "Conservation." Hostesses for the afternoon were Mrs. Zelma Wells and Mrs. J. W. Kennedy.

Refreshments were served from a table covered in an ecru lace cloth and decorated with an arrangement of aqua and white flowers. Sandwiches, cookies, and mints were served. Coffee was poured by Mrs. Wells.

Flowers were also on the speakers table where Mrs. W. D. Hart, president, presided for a business meeting.

Mrs. H. L. Nixon gave the invocation.

Mrs. Lillian Gilmer, program chairman, introduced the speaker, Mr. Calvin Holcomb, Gaines County Agricultural Agent. Mr. Holcomb introduced his assistant, Mr. Dink Wilson, and the Gaines County Peach Queen, Miss Martha Lawrence.

Martha told of her pleasant experiences this past year as queen and said she was looking forward to May 3, 1969, when a new queen will be chosen from a selection of ten girls who are now juniors in Seminole High School.

The pageant here will be conducted similar to the state pageant, she said, so the contestants will know what to expect.

Mr. Holcomb commented on the peach industry in Gaines County, stating that there are between 2,000 and 2,200 acres of trees in the county. He said C. B. & K. Industries have purchased the Norman and Wolff Orchards and future production looked favorable.

Mr. Wilson assisted Mr. Holcomb as he gave a slide program with most informative comments on "Water Conservation." The slides showed that weeds, mesquite, cedar brush and sage sap water needed for grass, crops, and for return to underground. Associations are being formed to help provide more money and means to clear and restore land economically. Some trees should be left for wildlife and beautification, but worthless brush should be reduced, the speaker said.

Examples were shown in slides where dry springs run again when water was given a chance to seep down and not be allowed to evaporate and to be used up in needless roots and brush.

Eighteen members and one guest, Mrs. Harold Peeler from Shreveport, Louisiana, Mrs. T. F. Lindley's sister, were present.

The next meeting will be April 23 at 4:15 p. m. at the club house. Mrs. Russell Jones will present a music program. Mrs. Raymond Golden and Mrs. Bud Winks will be hostesses.

Sue Morris of Lubbock visited her parents, Mr. and Mrs. A. E. Morris, over the weekend.

Wednesday at 7:00 p. m. the missionary organizations of South Seminole Baptist Church had a Hawaiian Luau in the Fellowship Hall of the church. Mrs. Harold Stone was in charge of the program which included members of the G. A. s and R. A. s. Shown are some of the Sunbeams as they sit together during the program, a mission study of Hawaii.

We moved from Brown County in 1912 and have lived in Seagraves since 1934. My name is Edward Patton Ribble.

I knew one of their younger sisters. She married Ed Crane that lives southeast of Brownwood and an older sister married Newt Scott near Commanche."

"Yes, Mr. Ribble said, "I've been down the ole Chisholm Trail, not as a cowhand, but I saw one herd come down old Step Creek that was 6 or 7 miles long. This was the same trail that went down Mills County and San Saba County and run north at the county road.

In 1918 I traded for 496 acres of land 3 miles from Old Florey Station and then bought land in Seagraves.

I've had my share of hard knocks, but I read in a magazine one time that laughter was always good

medicine and costs nothing."

In a note to Woodenfoote he said :

Susan Godbold, Senior Girl Scout of Marfa, Texas is shown with Kim-et Earl, Cadette Girl Scout and daughter of Mr. and Mrs. Dale Earl, Mrs. Charles Sherrill and daughter, Sheri of Ft. Stockton at the Singleton Funeral Home Sunday afternoon. They had attended the Permian Basin Girl Scout Spring Council Meeting held at the Gaines County Park.

Miss Godbold, daughter of Mr. and Mrs. Roy H. Goldbold is a Junior at Marfa High. She has been a scout for nine years and encourages all girls to participate in scouting.

Susan will be going to Greece this summer on a Juliet Lowe Exploration trip. She leaves New York July 8th and will be gone a month. They will be studying ancient mythology, art, modern government, economics, education and crafts. Before returning home they will visit Athens, Corinth, Emycena, Rhodes, Crete, and the Greek Isle. They will return to New York August 14 for evaluation.

Ten scouts from Oklahoma, Colorado, Texas, West Virginia, New York, Wisconsin and Massachusetts will be making the trip. Susan sent in an application for this trip and before being accepted she had two interviews, one council and one regional.

Mrs. Sherrill and her daughter, Sheri, Charlsa and Suzette are active in scouting at Ft. Stockton. Mrs. Sherrill is Neighborhood Chairman and a Cadette leader.

Sheri is a first year Senior Scout and will be a counselor in training at Mitre Peak this summer. Charlsa is a Cadette and Suzette, a fly-up Brownie. Mrs. Sherrill will be going to Seattle, Washington in October as one of the seven delegates from the Permian Basin Girl Scouts for National Conference. Mrs. Sherrill, Sheri, Charlsa and Suzette are the daughter and granddaughters of Mr. and Mrs. C.V. Singleton of Lubbock.

HOLDS MEETING**

Participating in the program last Thursday night for the Seminole Hospital Auxiliary were Rev. L. A. Harper, who gave the invocation, and Mrs. Fred Farrar, who gave the welcome and presented the guests.

A yearly report was given by Lois Floyd, treasurer, and in her report pointed out that for the past year a total of \$6235.31 was spent by the auxiliary in the updating and materials bought for the hospital, with larger items being a duplicator, an adding machine, a mixer and a \$300 nurse's scholarship.

Jameil Aryain, local businessman, made an outstanding talk on the 7 windows or the Jesus of Nazareth. The 7 windows were

1. Father forgive them.
2. Verily I say unto thee, today thou will be with me in Paradise.
3. Woman, behold thy son.
4. My God, my God, why hast thou forsaken me?
5. I thirst.
6. It is finished.
7. Father, into thy hands I commend my spirit.

"In some measure", Mr. Aryain went on to say, "the Pink Ladies serve like the Master of Nazareth."

CHAMBER OF COMMERCE ACCEPTS INVITATION

The Seminole Area Chamber of Commerce has accepted an invitation extended by Governor Preston Smith to participate in the 2nd Annual Governor's Conference on Industrial expansion to be held May 7th.

Chamber president, Charles Ray, made the announcement today and stated that Governor Smith has called the special conference to explore ways to assist the expansion of local industries throughout the state. Major areas of discussion include the state's legislative climate for growth, foreign markets as a source of growth, new techniques for finding industrial prospects, new techniques for finding new markets for local industry, financing industrial growth and solving manpower training problems.

Nationally known industrialists and industrial developers will take part in the program which features five concurrent panel seminar sessions designed for local manufacturers and community developers. Governor Smith will host the conference and deliver a major address. A highlight of the conference is a dramatic triple-screen film presentation portraying the expansions of five Texas companies in 1968.

COMMISSIONERS COURT

The Commissioner's Court met April 14 and approved the treasurer's quarterly report for the first quarter of 1969. Chester D. Browne was appointed commissioner to sell cemetery lots for the county.

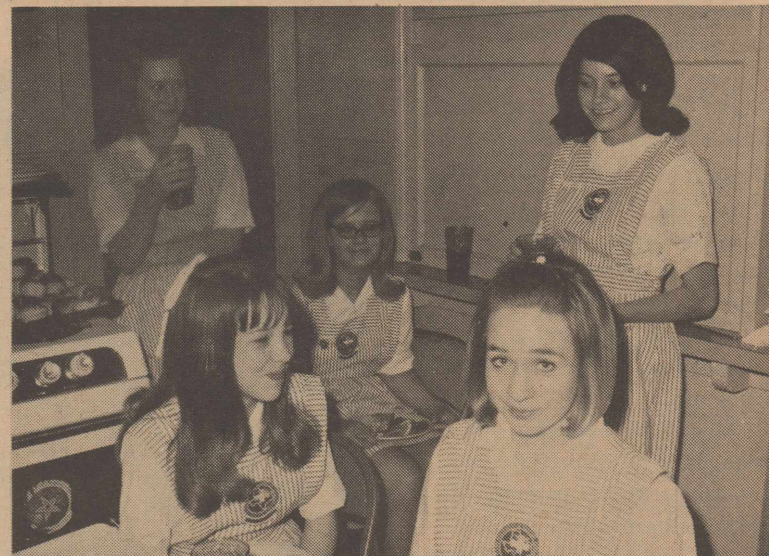

Mr. W. M. Noble from Brownfield was employed as appraiser for the right of way purchase on U. S. 180 from Seminole to the State line. The estimated cost was \$6750.00. There were no other estimates received by the court.

In other court action Kerr Construction Company from Lubbock was awarded the bid of \$65,189.00 on the proposed asphalt seal coat on county roads. The next low bidder was Jake Dial with \$71,478.17. Four other companies bid on the job ranging upwards to \$81,588.60.

FOUR GENERATIONS and first trip to Texas for Kenneth B. Snider, III. Tra, his GREAT-GRANDMOTHER, Mrs. L. S. Ivy; GRAND-MOTHER, Mrs. E. B. Baker and mother, Mrs. Kenneth B. Snider, Jr., enjoying being together after three long years. The Sniders returned to the states March 29 after being stationed in Germany for 3 years. Kenneth received his discharge from the service upon their return to the States.

EDITORIAL

Are you a letter writer? If not, you can become one. The people I enjoy hearing from the most are not the people who write me the longest letters but the people who insert a joke, tell me how much they like their husband or wife, how the neighbors are, how much it rained and everyday things. I'm not too interested in receiving a letter running down our government, our community, or my kinfolk. I know enough about all them.

If you want to be a real influence in the world, write a letter. Maybe you think you're just an ordinary person but write, in your own handwriting, and tell someone or anyone about something they've done well and an ordinary person becomes a teller of great truths. Write a letter of appreciation to your mother, a favorite friend, or an adult child. I guarantee an answer.

You may think you're just an ordinary person as far as freedom is concerned. You'll be surprised how ordinary people can produce extraordinary results. Write your senator, in your own handwriting. Write your representative, write your congressman, write your president. You'll be surprised how much influence you'll have and what results you'll receive. I've never written a one that I did not receive an answer. Write your banker. Thank him for the last loan, instead of fussing about the interest rate. If he gets over the shock, he'll be in a good mood the next time he sees you. Write a serviceman. It will reward him for that day.

Sincere letters reestablish old friends, make love flame anew, influence and make grandparents happy. But most of all, get in the habit of writing. As the years come and go you can visit with anyone you care to spend time with. Write and mail that intended letter today!

TAU UPSILON CHAPTER MEETS IN ANDERSON HOME

The home of Mrs. Jerry Anderson, 612 S. W. 11th, was the scene of the Pledge Ritual and business meeting for the Tau Upsilon chapter of Beta Sigma Phi on Monday evening at 7:30. Initiated in the Pledge Ritual were five new members, Mmes. Mike Atwood, Jimmy Inman, Wayland McCullough, Roy Riley, and Ron Scheuren. Following the ritual, the business meeting, presided over by the president, Mrs. Jerry Anderson, was held.

The chapter received a vocal record from Mr. Walter W. Ross, founder of the sorority, sending best wishes on the sorority's 38th anniversary. The 38th Founders Day will be celebrated on April 25 with a banquet and dance.

Mrs. Bill Adams, ways and means chairman, reported on the chapter's garage sale and said all the remaining items were donated to the youth center for their garage sale.

The program on literature, taken from the outline Happiness, was given by Mrs. Wayne Stokes and Mrs. Jack Combest. Mrs. Stokes gave a short talk on some of the history of literature and Mrs. Combest gave two poems, "Hold Fast to Your Dreams" by Louise Driscoll and "There's No Indispensible Man" submitted by Kay Mathis.

Mrs. Anderson and co-hostess, Mrs. Bill Adams, served colas, coffee, nuts and date crunch bars from a table laid with a beige linen cloth and centered with a crystal bowl of yellow roses and a gold candle.

Attending were Mmes. Mike Atwood, Jimmy Inman, Wayland McCullough, Roy Riley, Ron Scheuren, Bill Adams, Jerry Anderson, Gail Barnett, Jack Combest, Garland Foshee, Bob Harlan, Herman McReynolds, Jimmy Owens, Monte Paxton, and Wayne Stokes.

AROUND TOWN
By Jackie Squires

Last Monday morning I walked into the office and saw a very distinguished looking gentleman sitting behind Mr. Woods' desk. He looked up and said, "Are you Jackie Squires? You always end your column with I'll be seeing you around town, so I came all the way from Ft. Worth just so you could see me." That was my introduction to Uncle Ward Collier, Mrs. Woods' uncle. A more personable gentleman I've yet to meet. Later in the afternoon I missed him and asked where he had gone. I was told he walked from the office to the Woods' home on 19th St. That's quite a jaunt even for a kid and Uncle Ward, shall we say is in his winter years. When he returned later that day I said, "Did you really walk all the way to 19th St.?" He replied with, "Heck no, I jogged part of the way." Uncle Ward, hurry back because I'll be looking for you Around Town--- Judy Bugher giving her high school girls a work out on the baseball field Monday. --- R. L. and Doris Hunt with Aunt Bernice over from Loop Sunday. Love those Loop folks. --- George Cristy practicing his "putting" Sunday afternoon in his yard. He looked like a pro to me, bet he could shoot 200 any day. --- Betty Cohn at Jordan Furniture complaining John is making her a weekend golf widow. Oh well, Betty, it could be worse. He could have taken up sky diving. --- Don Moore burning the midnight oil Tuesday night trying to get everyone's income tax ready to mail by the 12 p. m. deadline. --- Various ones were seen rushing

Honored last Thursday night by the Seminole Memorial Hospital Auxiliary were members of the Commissioners' Court: Judge and Mrs. Chester Browne, Commissioner and Mrs. A. C. Stanley, Commissioner and Mrs. B. C. Norton and Commissioner and Mrs. Robert Matthews. Mrs. Pauline Farrar said, "These are our other bosses and nice to work with."

CHARLIE MIDDLEBROOK, GRADUATE STUDENT OF ACC

Thoughtless parents and teachers have long taught children that they should not try to be something that they are not. This teaching is thoughtless because it says something other than what is actually meant. Certainly hypocrisy is wrong. But is it hypocritical to try to be something (something better) than we are at a particular time? Just as certainly not. Hypocrisy is to act like something you are not even trying to be. A Christian is not free from sin; but this does not mean he is not trying to be. In the meantime he acts like a Christian, not like a sinner. So we ought to always try to be what we are not.

Placing this thesis in the context of the present discussion we can divide the world's people into two very general groups. We can call the members of two groups simply "big people" and "little people." Little people are those who are content with themselves as they are. Big people are those who see not only what they are, but also what they could be, or would like to be, and are striving to be bigger than they've been.

Of course we all ought to want to be Big People. Hardly anything good can be said of the other group. And interestingly, though we all probably consider ourselves to be "big" we can all think of others whom we would consider to be "little". Disregarding what you think of yourself, what do others think of you? Are they right?

A great danger in approaching the problem of making "bigger" people of ourselves is that we might be governed by a false scale of values. Many people who think they are "big" are in reality "little" because they are pursuing unworthy goals. And there may be many "big" people whom we think are "little" because we fail to recognize the value of their accomplishments. There is not room in this discourse for a discussion of real values, but to stimulate thinking. You might scale the following according to value: wealth, social prominence, reputation, sacrifice, service, character. Be honest.

One characteristic of "big" people is that they read. They read writings of real value. There is a valuable truth in the current slogan, "Be all that you can; READ." But here is a place where value judgments are important. Much writing is not worthy reading. Those who read many meaningless novels and detective stories waste their time. They would do as well (or probably better) to sit and twiddle their thumbs. Good books, and magazines etc. should be carefully chosen. Of course much attention should be given to reading the Bible. Its value is universal. Beyond that each person should arrange his value scale (and good scales may be different), and choose his reading accordingly. As the mind grows the person grows.

What kind of person are you? Honestly evaluated would you be a "big" person or a "little" one? It is reasonable to assume that there are more "little" people than "big". Hell will have a greater population than Heaven. In this short discourse we have mentioned only one avenue of growth: reading. There are other things equally important that there is not room to discuss. Through common sense any person can determine other traits of "big" people. Do so and strive to be all that you can.

EXPERIENCE

When you are married there's one thing to do
If you're a peace-loving man
And family jar is distressing to you;
Fall in with things she will plan.
If she asks in to dinner some folks, you detest,
Just smile and be pleasant--you'll find it is best.

If she gets up a family picnic some day,
Which you'd rather she wouldn't, no doubt,
Don't try to persuade her you can't get away,
That good old excuse is worn out;
It is better without any fuss to give in,
Just carry the baskets she'll hand you, and grin.

If to dances or operas or lecture on art
She proclaims her intention to go
Don't argue against her--get ready to start,
Say yes when she's looking for no.
If you want to keep peace with the one of your dreams,
Go where she wills howe'er painful it seems.

For most of us married men, early or late,
From experience learn to submit
We martyr ourselves when the wife makes a date,
And do what we don't like a bit
For the sake of sweet peace we have ceased to protest,
We fall in with her plans for we've found it is best.

SEMINOLE AREA CHAMBER OF COMMERCE

WORKS TOWARD ADDITIONAL TOURIST DOLLARS

The Seminole Area Chamber of Commerce is one of 24 in the Panhandle-Plains area participating in a group program designed to bring additional tourist dollars to the communities working together in the program, it has been announced by Charles Ray, Chamber of Commerce president.

The promotion is the largest area tourist information program ever set up through the cooperative efforts of individual chambers of commerce. It has increased five times in participation since its inaugural last year by 5 communities. The Area Development Department of Southwestern Public Service Company designed the program and presented it for approval to each of the participating communities.

The program is built around a "Land of Coronado" theme and will use outdoor advertising, window cards and table cards to acquaint tourists with the attractions of the area.

53 outdoor advertising boards located along the major highways of the area are the principal tourist information sources in the plan. The boards will contain a welcome to Texas, suggest a stop at the next participating community for further tourist information, highlight area attractions, and pinpoint things to see and do in the communities supporting the promotion.

The window cards for display in motels, service stations and eating places will have complete information on all area tourist attractions including those in the Seminole area. The same information will also be found on the table cards for restaurants and cafes.

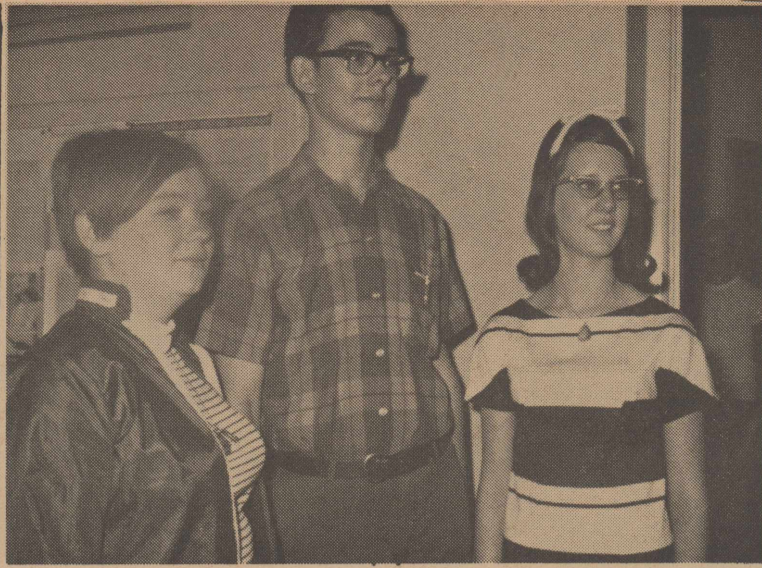

"If 9 tourist cars a day stop in our community overnight, the economic gain is the same as adding a \$100,000 a year industrial payroll. And, the tourist dollar is a 'new' dollar, one that otherwise wouldn't find its way into the community. It is estimated that between 20,000 and 25,000 tourist cars pass through the Panhandle-Plains region daily, so the prospects are there," Ray said.

Although the basic promotion features the use of outdoor advertising, Ray said that he was hopeful that those businesses which are direct beneficiaries of the new tourist dollars would use other advertising media to supplement the program.

"It seems to me if we had a special tourist section in area newspapers frequently during the vacation season and radio announcements on accommodations available in the community were broadcast, we'd have a well-rounded program going," Ray said.

The outdoor signs will be on display from May until September, the major tourist months.

"People in this part of the country are noted for their courtesy and friendliness. If we get tourists to stay in our community, can tell them about our area attractions, and give them some southwestern hospitality, they'll tell their friends, and we'll enjoy repeat business. A new dollar, like the tourist dollar moves, on the average, seven times before it leaves the community, so there is benefit for all in this type of program," Ray concluded.

First place winners in the District 2-AAA Interscholastic League Literary Contest held in Monahans Friday were Laren Holler, on the left, Girls' Persuasive Speaking, Mickey Williams in Girls' Informative Speaking; and not shown Mark Thompson in Boys' Persuasive Speaking. Shown in the center is Stanley Wood who tied for second in typing.

Seminole High had three first place winners in the District 2-AAA Interscholastic League Literary contest held in Monahans Friday. Winners, all three in speech events, were Laren Holler in Girls' Persuasive Speaking, Mickey Williams in Girls' Informative Speaking, and Mark Thompson in Boys' Persuasive Speaking. Next competition for these students will be in the regional meet in Odessa Saturday.

In addition to the winners, David Thompson finished second in Boys' Informative Speaking and Stanley Wood tied for second in typing. Wood will also be eligible to advance to the regional eliminations.

Seminole placed fifth in school totals in the district meet with 44½ points.

Spring cleaning is as good a time as any to give your home a complete safety-check, the Insurance Information Institute advises. During the winter months, a considerable amount of rubbish may be accumulated.

While weeding out the clutter from useful articles, it's a good idea to check your appliances. Are any cords frayed, plugs cracked or sockets loose? If so, it's time for immediate replacement.

Then check the appliances for operating efficiency. If you get a shock, or the appliance is faulty, regard these as urgent warnings.

About 70 per cent of the 2.9 million building fires during the last three years were residential fires, the I. I. I. points out, adding that about one fire in every six starts from power-consuming appliances, faulty wiring or other electrical malfunctions. Rubbish, while not a source of ignition, is an excellent fuel for blazes which can wipe out an entire dwelling.

A yawn is at least an honest opinion.

WHO LOST THE GAME ?

Behold, a baseball team went forth to play a game of baseball. Just as the umpire was saying, "Batter up," the catcher for the team arrived. The center fielder and the second baseman came stomping down on to the field in the middle of the second inning.

The first baseman did not come at all, but sent his regrets and said he had to stay at home and fix dinner for visiting Uncle Jim. The third baseman likewise failed to show up, having been out late the night before and desired to sleep late that day. The left fielder was visiting another ball game across the city. The short stop was present but had left his glove at home and stated that he would rather not take too much of an active part today.

Verily, then the pitcher went into the box, he looked around to see his team mates, and lo, his heart was heavy when he saw the empty places. He was further discouraged when the coach told him that the right fielder was not coming because he disagreed with the way he threw the ball.

The game had been announced and the visitors were in the stands; there was nothing to do but pitch. The pitcher did his best to put one over the plate, but for some reason, He could not find the groove.

Soon some of his team mates began to ride him for his wild pitching, and wild boos were heard from the stands. At the close of the game the home team, (what there was of it) was disgracefully beaten.

This game caused much discussion and when the rest of the team heard about the defeat they were angry and called a board meeting. They decided to hire a new pitcher. Surely it was his poor pitching that had lost the game, and the reason their attendance was not increasing and cash receipts were low.

The team is now looking forward with much more enthusiasm--their new pitcher came well recommended. But who really lost the game?

INDIANS DEFEATED

The Seminole Indians had victory within their grasp in their first district 2AAA baseball game only to see the Kermit Yellowjackets score 4 runs in the last of the 6th inning to lose 5-4.

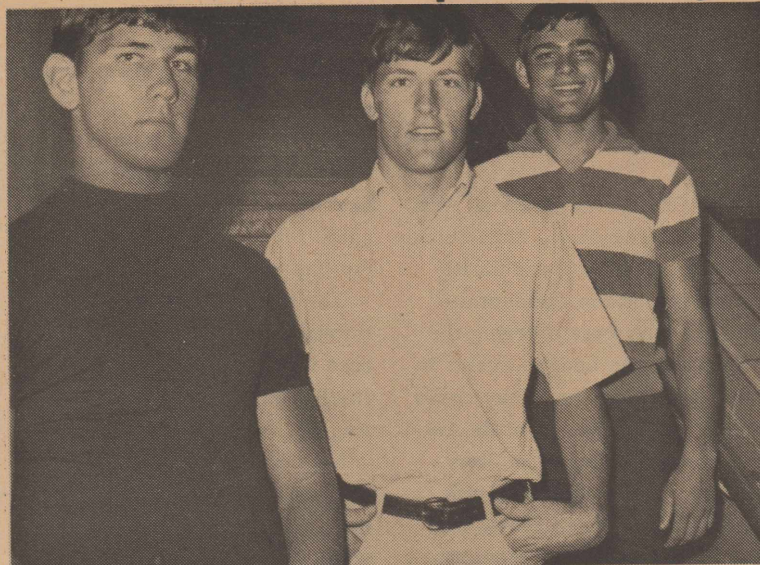

The Indians scored their runs in the 3rd inning on only 1 hit by C. J. Danley after Kermit pitching gave up 5 bases on balls. The Indians are 0-1 in district play after a miserable pre-district schedule of 1 win, 11 losses.

Ramon Villalva deserved a better fate as he only gave up 4 hits in the 5-2/3 innings he worked.

C. J. Danley got the only hit for the Indians. Seminole's next home game will be Eunice at Seminole 4:30 on Saturday.

NOTICE

All people who are interested in Red Cross are urged to be present at the Court House Thursday at 7 p.m., April 24th for a planning session. Mr. Charles Fodor, 2906 21st St. of Lubbock, Texas is our new Field Director.

TRACK MEET - SATURDAY

In the District 2-AAA Track Meet last Saturday in Fort Stockton Dennis Briggs, on the left, threw the shot 56'4" to claim second place. Steve Jones was third - 55'5". In the Discus Dennis was outstanding upping the old record 169.2 to a tremendous throw of 181-10½.

In Pole Vault Mike Walker, center, took second place behind David Bradley of Pecos with 13 feet each with Bradley nosing him out with only one miss, Mike had 2.

Vance Thomas, on the right, placed first in the mile with 4:47.3. Other track members that placed were Calderon in the 440 Yard Dash and Steve Jones 3rd in Discus.

In team scoring, Andrews was first with 113, Pecos - 111, Kermit - 93, Monahans - 89, and Seminole 5th with 79 points.

In the Jr. Division Ricky Partain - 2nd - 880 Yard Run; Seminole placed second - 440 Relay; Jerry Thomas - 1st - 440 yard Dash; 1st 100 yard Dash; Baker, third; Barry Willis - 2nd - 120 yard Hurdles; Jerry Thomas - 1st - 220 yard Dash; Randy Harris - 2nd.

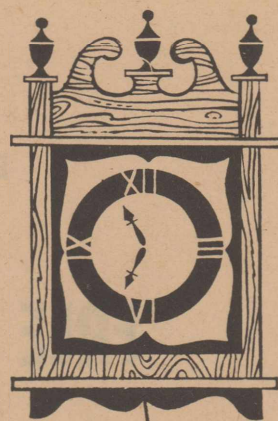

Seminole was second in the mile relay. Haller was 1st in shot put, Frank Gady - 2nd; Gene Sims - 1st - pole vault; Bill Hearne - 2nd; Jerry Thomas - 3rd - Broad Jump.

Monahans in team scoring edged out Seminole 164-152.

SEAGRAVES NEWS BY MRS. E. G. THORNTON

Mr. Charles A. Johnson, Mrs. Eddie Ruth Andrews, Miss Shirley Winsett and Mrs. Grace Smith accompanied the elementary students who were entering the Interscholastic League events in Wink last Saturday. They came home very happy. Cynthia Ammons won first place in Story Telling. Jim Andrews, Cindy Mitchell and Julian Flores won first place in Picture Memory. Sherri Shelley and Ruth Taylor won first place with the entire team of five students making 100% each. Mike Smith and Tammy Townsend won first in Oral Reading. This year will come to a close with many happy memories for the elementary school.

The junior high students were accompanied by Mr. Herb Williford, Mrs. Reasonover and Mr. Bob Andrews. The number of points won by both elementary and junior high schools gave the school the trophy. Good work, folks. We're proud of YOU ALL.

Mr. and Mrs. Royce Harvey were visiting in Brownwood over the weekend. Mrs. Harvey is the former Jane Teal and her parents were former Seagraves residents before moving near Brownwood.

Mr. and Mrs. Tom Garrard and Mr. and Mrs. Claud Heame were having dinner in Seminole Sunday night.

Farmers, gardeners and flower lovers are smiling over the rains received Friday and Saturday. Some folks said their rain guages measured 3 inches. These wonderful plains will spring out now with the coming of the sunshine after the abundant rains.

Mr. N. A. Moore, Mrs. W. L. Willingham, Sr. and Mrs. C. W. Holly are hospitalized in the local hospital.

Mrs. Joe Grimes' mother who lives in Lovington, New Mexico, has been hospitalized but is home now and still very ill. Our prayers go out to you, Agnes, hoping your mother will soon be on the road to recovery.

Folks, the deadline was Tuesday night at midnight for the filing of your income taxes. We hope all good citizens remembered!

Mrs. Kenneth Hart was mentioned in the Avalanche-Journal Bowling News as being No. 7. How about that, Nadyne?

Mrs. Flossie Pillow is up and about now after having surgery on her hand and a pin removed from her hip a few weeks ago. We are so glad to see your smiling face, Flossie.

Seagraves is still smiling over the One-Act Play winning first place for their school. This gives them the right to appear at the district meet in Lubbock. The Cultus Club went in a group for their regular Tuesday meeting and watched the play as they performed for the judge. It was a fine performance, reported the Cultus Club members. Sara Willingham and Dan Hulse were chosen on the all star cast. Fine work, young people! Those folks who did not have an oppor-

tunity to see the play on Tuesday may see it at the district meet and also boost this GREAT CAST of performers.

Mr. Red Turner is back at work after being hospitalized from sheer exhaustion. Take care, Mr. Turner, and let this not happen again.

The Houston Astros boosters throughout town were happy to note that they came out with the final count - Astros 5 and Los Angeles 2. Hurrah!!!

Miss Jan Fariss, daughter of Mr. and Mrs. Nick Fariss of Lockney, was killed accidentally when she fell from a horse while on an outing with a church group from Lockney at Ruidoso, New Mexico. The aunt is Mrs. A. O. Petty of Seagraves and other relatives are Mrs. Kay Faulkner, Mrs. Don Berry, Mrs. Kenneth Hart and Mrs. Ross Jones. Funeral services were held at Lockney in the Baptist Church. Jan was 15 years old, a member of the Longhorn band and the F. H. A. of Lockney.

The meeting being held in Denver City this week at the Church of Christ is being attended by many interested folks from Seagraves.

Mr. and Mrs. C. R. Holt, Mr. and Mrs. R. C. Smith, Miss Shirley Winsett, Mrs. Nita Wilder, Mr. and Mrs. Garland Eastman and Nickie had dinner at the Holiday House in Brownfield last Friday night.

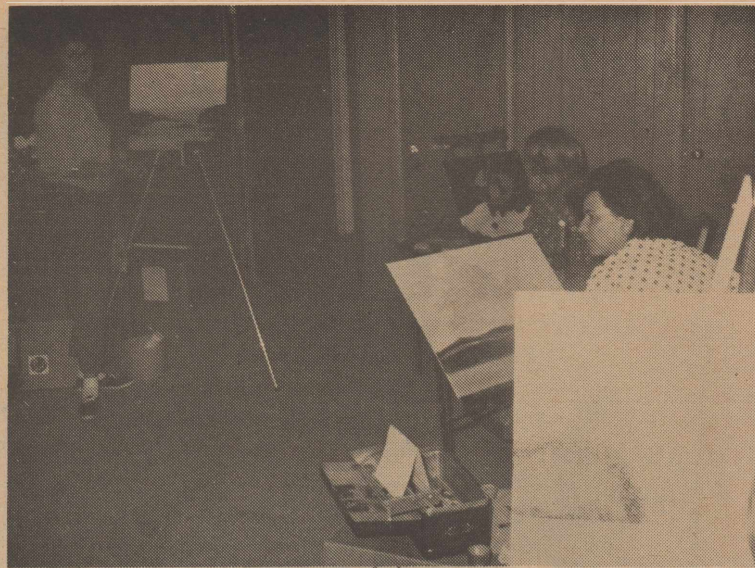

Mrs. Melba Estep was visiting her friends, some of the local teachers, and Mr. Johnson on Friday.

Miss Donalita Cooksey will remain in Big Spring to be near her mother who is in a rest home there.

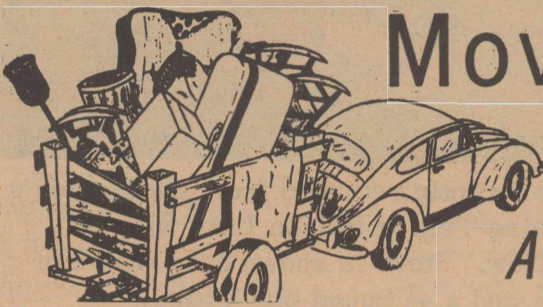

We were happy to see a former Seagraves boy, Reggie Stark's, picture on the front page of the Avalanche-Journal last week. He was standing by a new guard rail which was being placed on the highway near Tokio for safety first purposes.

Mrs. Rayford Fowler, now living in Brownfield, was seen at the Wilson's Greenhouse, selecting some plants. She is an avid iris grower and she and Mr. Fowler belong to the Iris Society in Lubbock. Come more often, Bertie!

Nothing dries sooner than a tear.

Art students of J. D. Keel of Seagraves shown at their easels are Shirlene Presley, Morine Quisenberry and Ruby Lewis. Other students are Katie Whitaker, Norma Jackson, Pat Watkins, Evelyn Peoples, and Elinor Harvey.
