

I visited another government office yesterday and the last people in the world who I intend to lose faith in is my government and its authority and its representation of me and for me.

But please, when I come into your offices, make out like I'm welcome. The office was not created so you could have a job; it was created so you could wait on me. The reception clerk said something like this, "what do you want?" There were eight or ten people at or near their desks. I was the only customer there. I was told to wait.

Shortly a man came by, looked on the list, and waved me back to another desk, without introduction. This form was pulled, that form was pulled and still another form was pulled. We filled out forms like mad for a period of fifteen minutes. Questions were asked; the interview finished. I was still the only customer in the building.

There were several things that I observed. 1. The man at the desk next to where I was sitting was telling someone over the telephone that he needed an exact birthdate on him; that he had three different ones in his file. 2. Another man had cut a crossword puzzle from a paper and was working it - laying inside a folder of work.

But there were some outstanding features about the office. All the desks matched, all had better chairs than we have in our office, better filing cabinets and better kept floors. All they lacked was attitude.

If you came through the front door of this office and were not received with anymore enthusiasm than a lot of government offices it would indeed be sad for the owners. It would make no difference whether you met Bettie Wilson, Madeline Shelton, Pattie Phillips, Jackie Squires, or Rose Arezola.

No doubt, everyone in the office has their problems. No doubt, some of them are insurmountable. I'm also amazed at how some of the ladies "keep their cool" under certain circumstances. But they do and I'm glad.

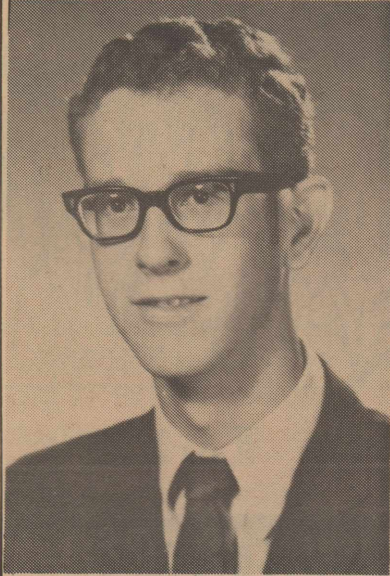

The cost of being pleasant is not only inexpensive, it develops a good attitude. con't p. 3

CLEAN UP CAMPAIGN UNDERWAY

Honor Students

DAVID THOMPSON

LYNDA JANIS

The Valedictorian and Salutatorian of Seminole High School for 1969 were named Monday, May 12, by V. N. Keyes, the high school principal.

The Valedictorian is John David Thompson, III, son of Mr. and Mrs. John D. Thompson of 312 SW 10th Street of Seminole.

David has an outstanding record throughout his school career all of which has been in Seminole and was selected to the highest honor on the basis of his four years in high school. In the four years he has earned 490 grade points. con't p. 3

BANK OFFERS PRESENT LOCATION TO CITY

The Seminole State Bank last Monday made an offer to the city to sell their present structure plus posting machines, no longer in use, and other equipment for \$42,500.00. The advantages the location would have, were pointed out, if area residents were in agreement on its purchase.

1. A place of safety for records. The city, for years, has needed real fire protection for existing records.
2. The drive-in area at the back could be used for the Justice of the Peace and the City Police working with that office. This would make room for another fire unit that the city must buy to comply with fire regulations for a city this size.
3. Adequate meeting space for council and guests would be realized. (No doubt, the present bank building would be a good buy for the city and would alleviate some of the problems facing the city council.)
4. The city could not build a new building for twice the amount of money herein mentioned. con't p. 3

What a wonderful way to kick off a campaign. The readers of this paper have seen the picture of this building from time to time over a two year period. This is the third Clean Up Campaign this paper has helped in. Hurray for the city for getting permission, thanks to the owners for giving permission, thanks to Seminole residents for wanting to get something done about this kind of property and thanks to the Seminole Volunteer Fire Department for burning it down.

In all probability fifty old buildings and houses have been moved, torn down or burned. We hope that other property owners will join in the Clean Up Campaign starting May 18th and get rid of unsightly buildings, houses, cars, excess dogs and weeds from lots.

Jack Jordan, the painter on top of the building and owner of Jordan Furniture Company, along with Willie Tubbs, employee, are in the spirit of the Paint-Up, Clean-Up Campaign. Reeves Cothes said, "After 50 years, the Chamber of Commerce owes Jack Jordan a "special thanks."

The three buildings on the west side of the square will also receive a new canopy.

SOIL STEWARDSHIP WEEK IS A NATIONWIDE OBERVANCE

Soil Stewardship Week, a nationwide observance which places emphasis on man's obligation to God as stewards of the soil, water and other related resources, is being observed locally, May 11-18, according to Roy Wicker, Chairman, Gaines-Andrews Soil and Water Conservation District.

This year's observance with the theme "Confronting the Issues", underscores the responsibility which each citizen has in dealing forthrightly with current issues involving stewardship of renewable natural resources. The local conservation district and some 3000 companion districts throughout the nation along with their State and National Associations are sponsoring the event for the 15th consecutive year.

Confronting today's issues in this complex world is certainly a problem. To begin with, there are more people. More and more people are now living in cities or their suburbs. In the U. S. the attitudes toward natural resources, as toward so many other values, are changing. People are becoming more particular about resource uses.

With more people in more places imposing steadily greater demands on the limited supply of natural resources, it becomes more and more apparent that action must be taken. Waste and erosion must be avoided along with fouling, disorder and ultimate shortage.

Three-fourths of the land making up the nation's contiguous 48 states is privately owned. With the land are all the interrelated resources of timber, game, fish, wildlife and much of the water. Clearly, this is where the biggest and most difficult job of conservation and resource development must be performed in the future.

The men and women entrusted with leadership of America's 3000 conservation districts are turning the corner to new areas of broader resource service to entire communities -- in addition to agriculture. The counties, towns and cities of the U. S. are confronting increasingly difficult problems of community service and protection for the environment. These are critical tests for local government. Conservation districts, along with the public and private organizations associated with them, must use their combined resource knowledge to establish a more effective town-country partnership for the common good.

To make the needed continued progress in resource conservation, a combined effort is needed. The issues which confront the people of the nation must be considered to modernize the policies and devise new systems for more effective resource management.

Tuesday night the News Staff received a call from some boys at INDIAN LANES and they asked if we would take a picture of a snake. Inquiring if it would be there the next day, the boy said "Yes, but us boys that caught it won't be." So - off we go, not realizing there would be a LIVE SNAKE - holding it is Kem Hughes. Other boys and girls pictured are Ronnie Aten, Judy, Gary and Wesley Smith, Renee and Pam Raper and Lee Anna Barson. Needless to say, the Photographer didn't get too close.

All of her school career has been in the Seminole Schools, also. During the four years in high school on which her record is based, she ran a close second with 478 grade points.

Lynda was: President of National Honor Society and Spanish Society, Parliamentarian of Student Council, Secretary of Future Teachers of America, Member of Library Council and Golden Arrow, Voted the Girl Most Likely to Succeed, Received the Medal of Excellence in Spanish 1968. She will attend Texas Tech (liberal arts).

BANK OFFERS cont. from p. 1

In other action Mr. Arnett, from South Texas Construction Company, pointed out a public hearing would be necessary by June 9. The council passed City Ordinance #120A, calling for such a hearing.

Mr. D. W. Folmar, the rodent man, asked for \$50.00 to buy extra poison. The council voted their okay.

A reciprocal ordinance from Terry County and Brownfield was accepted so their fire department would be relieved of any responsibility in case of an accident while fighting a fire in Gaines County.

Dogs and cats continue to plague the city and city employees. It was pointed out that city ordinances protect neighbors and the city from dogs on the loose. Please keep yours up, the council asks.

Delinquent city taxes were discussed and whether or not to enter into the same agreement the county has for collecting same. Councilman Bart Walden pointed out that in hot weather the seal coat would be lost from our streets unless maintained and gravelled. They have begun to bleed.

Mayor Wright made new appointments, leaving Ed Pullam Commissioner of Police, Raymond Patton - Fire and Youth Center Commissioner, Karl Don Hughes - Sanitation Commissioner, Bart Walden - Water Commissioner and Bill Webb - Streets and Property Commissioner.

The meeting lasted two and one half hours.

opes into a way of life. No wonder a friend of mine said to me a few days ago. "The Post Office Department was charging us \$4600.00 a month for service. We've now contracted it out for

\$3500.00 a month. Faster service, saving money and besides that they asked for our business." Now, isn't that a switch?

Are we going to continue in the same direction with the Post Office Department and it end up like our railroad?

I did not say that every government office was lazy, lax-a-daisy-cal, and inefficient but I am saying too many are! I want you to know when people pass through our front door they're honored guests, they're customers, they'll be waited on, smiled at and if possible, sold something.

Last Monday night Mrs. O. J. Pierson, Sr. looked out in her backyard and discovered her yard light was missing. After reporting it to the sheriff's office

and Southwestern Public Service Company she was telling her son Jimmy, who works for Southwestern Public Service Company, about it. Jimmy, looking sheepish, told his mom he had picked her light up to work on it. --- Well - that's a son for you.

Hello Seminole News,

Since I've lived in Canton, I can hardly wait until I receive the 'Seminole News', and when I saw my little granddaughter's (Leslie Ann) picture on the Bag Page I almost flipped. I don't know why you didn't put it in COLOR. Ha! You wouldn't happen to have some extra copies---I might pass out a few down here. Ha!

Thank you. Enjoy the 'News' so much.

Miss Lowrey, a student at Texas Tech in Lubbock, was on her way home to Odessa. She apparently went to sleep, left the road on the right hand side, travelled 1200 feet and rolled over twice.

The car was a total loss. Miss Lowrey was taken to Sem-

inole Memorial Hospital by private car where she received emergency treatment and was transferred to an Odessa hospital. Her condition was not believed serious. She had her seat belt on, according to Patrolman Kenneth Selman, which was what saved her.

VINCE GAGE

After nearly eight years absence from McAdoo Chevrolet, Vince Gage is returning as a part owner and manager. Vince Gage and Bill Adams, previous manager, issued the following statement. "We will continue to give good service for customers of McAdoo Chevrolet."

Adams, who recently resigned as president of the Seminole Area Chamber of Commerce, will be associated with a dealership in Stanton. He especially wants to thank the people of Seminole for being so nice to him and his family. "Business opportunities presented themselves elsewhere that I felt it best for me to move. We're leaving with mixed emotions."

James Parks, sales manager, will be associated with a dealership in Dallas, Texas.

Mr. Gage originally started working for McAdoo November 9, 1956, opening his own place of business in March, 1964. He and his wife, Virginia, reside at 407 S. W. 18th St. They have two sons, Jamie, 10 and David, 15 and one daughter, Paula, 12.

There are 47 students in the 2nd grade at F. J. Young Elementary School; 30 Anglo and 17 Latin.

2 Car Wreck

Two wrecked cars near the railroad right of way south of Seagraves. In the background can be seen the railroad crossing, W.H. Griffith, sheriff's deputies, Jerry Osborn from Seagraves and Hamilton Bell. (Mr. Bell had just had his hat stolen by the sheriff.)

At 4:28 P. M. last Friday Lee Boyd Voigt, age 43, a car dealer from Carlsbad, New Mexico, wrecked two cars at the railroad crossing south of Seagraves. He was driving a 1965 Buick Riviera and was towing a 1962 Chevrolet. Both cars had been bought in Lubbock and were in transport back to Carlsbad.

The train, according to M. M. Tumlinson, railroad engineer, was stopped on the east side of the highway to let traffic go by. They crossed over the highway, going west toward the carbon black plant. The engineer, after passing over the highway, saw the two cars coming. He report-

ed further that it looked like he applied brakes on the car being driven, the cars jack-knifed, turned over, broke apart and ended up facing north, the direction from which they were traveling. Neither car reached the railroad right of way.

Voigt was admitted to the Seagraves Hospital for observation and later released.

(This story is being run to encourage Seminole and Seagraves residents to beware of the two railroad crossings. So many times a track seldom used is much more dangerous than one with many trains on it.)

Last Friday at 1:30 A. M., Marvin Deverle Frazier, age 43, from Midland, ran off the road .4 mile west of Seminole on U. S. 62. Mr. Frazier, a petroleum engineer for K. K. Amini Petroleum Company, was driving a 1968 Plymouth sedan. He apparently went to sleep, ran off the road and travelled 700 or 800 feet. The car did not overturn. Approximate damage to the car was \$890.00.

Mr. Frazier received emergency treatment for facial cuts and bruises at Seminole Memorial Hospital but was not hospitalized.

Mrs. W. N. Grigg and her daughter, Mrs. Blackie Hargrove, of Lubbock were in Seminole Sunday to be with their daughters and sister, Mrs. Almeda Gady and Mr. and Mrs. Charlie Rawland.

SUMMER SCHOOL CLASSES BEGIN JUNE 2

Keyes, sometime during the period of May 12-19. If as many as 10 sign up for a course, then that course will be offered in summer school, providing that a teacher is available. If there is not enough demand to have the course requested, the deposit will be refunded.

Summer school for credit will be open to high school students and to eighth grade students who will be in high school next year. Prerequisites for courses will be the same as during the regular school year.

Summer school classes will start on June 2 and continue through July 18 during which a minimum of 70 class hours of instruction will be given. The actual schedule will be announced after it is determined what courses will be offered. In the past classes have generally been from 8 a. m. to 10 a. m.

Perhaps you might be interested in knowing that very soon -- maybe by this coming October, Seagraves will be heard from in more than one way-- Oh! I know you readers know that Our Pride of the Plains (band that is) put us out in front for our class--but this is something that probably will interest the old, the young and the teenagers-- what? We will be having catfish from the farms of Mac Pemberton and Mr. Sanderson. These two fine men have stocked their ponds with catfish and we are eagerly awaiting the signal when we will be able to purchase some. I believe it is their plan to sell these fish to the public. Good luck, Men!

How about the Johnsons making headlines? Mr. Chat Johnson and Mr. Red Johnson, who work for the elementary school, were the winners of the door prizes which were given at the meeting of the Gaines County Teachers in Seminole last Monday evening. Those receiving the beautiful flowers were made happy too. Thanks go to the decorating committee and all those who made the last meeting for 1968-1969 year a happy occasion.

Mother's Day was an honorable occasion for all those who would pause to show love to their mothers. Mrs. Nita Wilder spent the weekend in Midland with her son and his wife. It has been said by those of old, "God could not be everywhere so he invented Mothers."

Mr. and Mrs. Gene Riggs and Mr. and Mrs. Kenneth Hart won first place in couples league in bowling in Seminole. Each received individual trophies. Mrs. Hart received a pin for a 200 game, a high game trophy in her class, a trophy for most improved bowler and Mr. Riggs received a trophy for the high series. This brings to a close the bowling for the season. On May 24, Seagraves Co-op team, composed of Mmes. Kenneth Hart, Sue Billings, Joan Billings, Kathy Moore, Ethel Taylor, will bowl in Lubbock in a Reddy Kilowatt Tournament.

All the daughters of Mrs. Kathryn Petty met

in her home to help her celebrate Mother's Day. Lovely gifts were given and a lovely dinner served.

Mr. Ron Edmondson had surgery in San Angelo and Mrs. Edmondson was absent from her class on Monday.

The Seagraves Women's softball team played in Denver City Monday night. The game was 18-11 in favor of the Seagraves women players. S. M. Francis is the manager.

Mrs. Jerry Oliver and Craig were visiting friends and relatives on Sunday. They both live in Plainview. They were in church on Sunday with their daughter, Mr. and Mrs. Dwight Franklin and baby daughter.

The entire fifth grade of the elementary school spent Friday at the Gaines County Park. This is an annual affair and was heartily enjoyed by the 93 fifth graders and their teachers. Mr. Chat Johnson, the elementary principal, ate lunch with the group and returned to work at school. Mr. Requil Smith helped Mr. Durham umpire the baseball games. A sack lunch with plenty of drinks and food galore was enjoyed by the group.

Mrs. Bonnie Arnold and son, Alan, were visiting in the home of Mr. and Mrs. R. Smith on Wednesday evening. Alan is a student at Rice and he and his mother live in Denver City. Mrs. Arnold is an LVN at the Yoakum County Hospital.

Mr. N. A. Moore passed from this life and was buried on Saturday. We regret his passing and our sympathy goes to his family and friends.

The Junior-Senior Banquet was held in the community building on Saturday night. Pretty girls and handsome gents could be seen entering the building.

Mr. Ken Cullum is enjoying his release from the Armed Forces. He has been stationed in California until his release. His wife is finishing her schooling and will graduate in May from A.C.C. She will teach in the Lubbock School system for the coming year and Ken will attend Texas Tech. Ken was visiting in Seagraves on Saturday, looking up his friends and acquaintances he knew when he lived here. Ken was wounded in Vietnam

and was awarded the Purple Heart. Ken's parents live in Lepanto, Arkansas.

Many fine people from Loop attended church services here in Seagraves during a series of meetings at the Twelfth Street Church of Christ. Among those were Mr. and Mrs. R. L. Hunt, Mr. and Mrs. Charlie McConnell, Mr. and Mrs. Owens, and Mr. Charlie Bob Hunt.

Mrs. Lucy Sansom had her sons and their wives for Mother's Day. Mr. and Mrs. Larry Sansom and also Mr. and Mrs. Monty Sansom visited on Sunday.

Mrs. Bill Newsom has returned home from a visit in Artesia, New Mexico.

Mrs. Anne Brashears from Dilly, Texas is still with her sister, Mrs. Jo Nell James Danny and Wayne. Mrs. James lost her husband, Mr. Arden James, several weeks ago. We hand Mrs. Brashears a big thank you for staying with Jo Nell and the boys until school is out. These are lovely people and we are so happy Mrs. Brashears is able to do this. Greater

love hath no man than to help those whom he loves.

Here's a great big news flash. About 15 students at the State University College in Plattsburgh, New York are challenging other students throughout our country to help clean up public highways. This group spent six hours in a drizzling rain to collect three truck loads of junk in a five mile stretch from our public highways. Would some of our young men and women like to accept the challenge and clean up a larger strip of our highways? This group cleaned a five mile strip of road near New York City. This is something to think about!

Mrs. Charles Johnson is substituting for Mrs. Kay Faulkenberry in the first grade. Mrs. Faulkenberry has adopted a precious baby girl.

Mrs. Bessie Williams was admitted to the hospital in Lubbock Tuesday for a series of tests. Mrs. Gene Osborn accompanied Mrs. Williams to Lubbock. We will hope only the best for Mrs. Willaims.

A FEW WORDS TO MY MOTHER: ON THIS 1969 MOTHER'S DAY

A store bought card,
I wait too late to find,
But what if I did?
Well, at least it would rhyme.

So let me try and tell you,
Or try to give you an idea,
Of just how much I love you,
And exactly from my heart,
I feel.

I could search the whole world
over
And never could I find,
Such a wonderful woman,
And dear mother of mine.

You did so much for me
To see I got raised,
And for you, my mother,
There's not enough praise.

These twenty-four years we
have had,
Really, from birth, to now,
We always stayed together,
And only the Lord knows how.

You have always taught me,
The wrong from the right,
With a secret prayer to God,
To keep me in his sight.

You have done so much for me
Too much to even say,
But for all this, I love you
Even more and more, every
day.

POWDER PUFF GAME THURSDAY NIGHT

Seminole High's mighty legions of female footballers take to the field again Thursday night in the fifth annual powder puff gridiron extravaganza. Featuring the Senior-Freshmen Mod Squad against the Junior-Sophomore Pink Panthers, the game is set for Wigwam Stadium with kickoff time at 7:30 p.m.

Both coaching staffs were optimistic on the eve of battle with Mod Squad mentors Steve Jones, Lavern Bennett, and Frankie Calderon stating, "We'll run 'em off the field." Seemingly unimpressed, the Pink Panther staff of Danny Whisenhunt, Tommy Harrell, and Bill Hearne snorted in reply, "They haven't got a chance."

Reports indicated that both squads had gone to a simplified offense after early efforts at the pro set, the winged T, and similar sophisticated offensive lineups had met with disaster and produced a scattering of casualties. Veteran observers were predicting a "three yards and a cloud of dust" offensive attack by both aggregations.

No information is available on the respective weights of either squad as this is a closely guarded secret and all questions on this angle of the game were met with icy coolness by both coaches and players. Speed seems about equal.

Whooping it up and leading cheers on the sideline for the Mods will be Mike McDonald, Dennis Briggs, Tommy Shuler, and Lan Locker. Whipping the crowd to a frenzy across the field, will be their opposites, Tinker Nolen, Bobby Whippo, Farris McDonald, and Mike Houston.

A high point of the festivities will be the presentation of kings and attendants for each team. The Pink Panthers will present Jimmy Kite, with Steve Hatly and Rus Mabry as attendants. For the Mod Squad, King Bruce Williams will reign, with Bill Ray and Dwain King attending.

There is no charge for the game and the public is invited.

THE LAST TIME A TRAIN RAN THROUGH SEMINOLE

Last week the news asked readers to give information concerning the last time the train ran through Seminole. Mrs. Hugh Castleberry called last Friday and gave the following information: "No there were no bridges on the Northwestern Midland track. They built the dump up through the draws and the last train ran in 1920. Mr. Castleberry had been to El Paso; he rode the train to Midland and on out to old Florey." She went on to say that they bought the old Florey town site in the 30's after having moved to Seminole in 1912. Andrews always claimed that Florey was in Andrews county, but when the boundry lines were established it was in Gaines County.

That Florey in those days had a combination post office and store with the living quarters in the back. There was the depot, 4 houses and the school house.

The depot now sits south east of Seminole on the Hughes place on the east side of the road. It was rebuilt into a dwelling. At old Florey today, the well is still being used with the windmill tower. About all that is left is the foundation of the school house. "The school house served as the center of community affairs. Beside a school it was used for Sunday school and church, picnics and candidate speaking.

"That Kind of Marriage"

But it was not the clothes they wore that impressed me most. It was the forced front, the strained expressions, the general air . . . this is something we must go through with, and the sooner the better. That bold, brave front that couldn't be hidden, even if the bride had worn a Neiman-Marcus gown, the groom a \$200.00 tux and they had all arrived in a Cadillac convertible.

Some preachers would not perform ceremonies under these circumstances. While I wouldn't for a moment condemn them for not doing so . . . I couldn't do anything else.

So I led them through a ceremony. I admit my usual wedding remarks just didn't fit this situation. I'll have to admit I did a little preaching. I tried to prepare them in five minutes for a lifetime of marriage. I spoke of the responsibilities of a husband and father and a wife and mother. So there we stood . . . a couple of frustrated kids, hearts filled with fears and questions . . . a set of heart broken parents . . . and a preacher feeling helpless, knowing perhaps too much about what was ahead for them. I prayed that God would be with them and help them to build a home all could be proud of.

I could not help but wonder if perhaps they were not more sinned against than sinning. What could the parents of both have done to prevent this? Had they taught them that love is the most patient thing in the world? Had they failed to teach Larry that true love doesn't demand the unlawful thing? Why had Louise not been taught that real love resists and controls and restrains. But now it was too late for these lessons had been neglected . . . to teach what live, love and sex is all about, or Larry and Louise had neglected to listen.

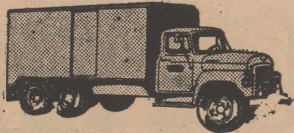

Have you ever been to a dry-eyed wedding? This was one. Few are the weddings at which some tears are not shed. Usually the bride sheds a tear of joy. Her parents often shed tears of joy mingled with a little sadness. Yes, people cry for two reasons, extreme joy or extreme sorrow and occasionally a gentle mixture of the two. BUT THERE WERE NO TEARS AT THIS WEDDING! And I know why. You see, after people cry so much the tears just refuse to come anymore. This message was written in the faces of the wedding "party". The tightness around the eyes, the drawn look of the cheeks, the redness, the set of the jaw, the tense lips, . . . they told the story . . . I will not cry . . . I must not cry . . . I cannot cry ANYMORE!

They tried so hopefully to make something beautiful of the occasion. Yes, they would like to have it in the preacher's study . . . as if it were some holy place that would impart an air of dignity to the proceedings. If they only knew how often bitter regrets poured forth mid uncontrollable sobbing . . . if they only know how often the preacher could only pray for a strengthening of the distressed and utter the words of the Master . . . Go thy way and sin no more. The minister's office is not always a place of refreshment to the righteous . . . so often it is the resort of the downcast.

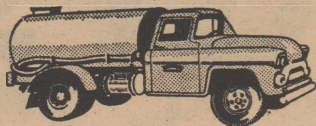

It, too frequently, is a place where tales are told . . . tales of tragic indiscretions, broken dreams, mutilated aspirations, lost self-respect, scarred lives on parade. con't next week

Provide Ashtrays: Empty Them Often

Are there smokers in your house? Do your friends smoke when they visit you?

Unless you want to risk a serious fire, says the American

Insurance Association, you should see to it that there are plenty of ashtrays, and big ones, too, in every room in the house.

Empty them often, the Association adds, but make sure all fire is out first.

Make emptying ashtrays your year-round Spring Clean-Up job. It will help keep your home fire free.

AROUND TOWN By Jackie Squires

I'm relinquishing my column this week to Mr. Lennox Norton. I know you will enjoy his observations of Seminole.

Now I don't claim to be as pretty as Jackie Squires and I don't get AROUND TOWN as much as she does, but over a period of several months I have pretty well covered Main Street and a few out-lying areas. Therefore, I decided to accept an invitation to report on some of my observations as a guest columnist. Ladies, first; no matter where you see them their hair seems to be freshly coiffured and they are dressed as for a party and I do believe all those ladies from Loop must be pretty --- Then there is the coffee hour that can come anytime and several times between 8 a.m. and 6 p.m. Now my digestion places me in the "Sprite" crowd but the fun is still there. The kidding about getting fat, grandchildren, fishing, age, and tall stories with a little business thrown in makes the coffee go pretty fast - Getting a second and third cup of coffee without having the waitress add another 15¢ to your bill--- My wife getting lost in Seminole after 17 years in New York (Seminole is bigger than you thought.) I notice she found all the dress shops very quickly though. --- Seeing a couple of Tornados one afternoon - frightening, but I guess no more destructive than the average evening commuter trip home from New York. --- Walking in to see the County Judge without going through a battery of secretaries --- Having store managers smile and speak when you come through their door --- The Lions Club's Miss America Pageant". Some of them looked beautiful until those two pretty high school girls came in. Then you could see the difference. --- No bother with parking meters -- Sack boys at the grocery stores --- Buying a vinegar pump at Mrs. Walter Dearing's garage sale. I'll bet I have the only one in town. --- Those good lunches at the school cafeterias, those good lunches at the Lions Club, those good hamburgers everywhere--- Filling station operators who clean out your floorboard --- Mayor Wright's appraisal of my engine trouble and his advice which saved me \$30.00---Overnight parking in the city park for trailers. I haven't used it yet but it sure is a friendly idea. --- Having my own drinking glass assigned to me at the News office --- Being introduced as Walter Woods' "lawyer" and getting "promoted" to "judge" by Charles Shelton. --- Having a press card in my wallet --- These are all lofty attainments for a proof reader on a weekly newspaper --- Visiting with the congenial Mr. and Mrs. Joe Webb up at Seagraves. --- The colorful Miss Hausenfluke and her many singing groups. She seems to have a different group for each day of the week. ---I could go on but this is enough to show there's a lot
