

Mrs. R. M. E. Hughes gave this recipe for making lye soap. She didn't have to look in her book or at a recipe but stated loud and clear: 5 pounds grease, 1 gallon water and 1 can lye. Now, that could be Babbitt's or some other kind of lye. After the lye had eaten up the grease particles and it had been boiled, 3 gallons of water was added as it began to cool.

Following is the recipe given on the can of Babbitt's Lye. Slowly empty contents of this can into 2½ pints of cold water in iron or enamel utensil. (USE ONLY iron or enamel.) Stir occasionally till dissolved. Allow to cool. Boil waste kitchen grease in double its volume of water to free from salt. Skim off SIX pounds of clean grease. Allow to COOL but not solidly. Pour LUKEWARM LYE solution into LUKEWARM GREASE, stirring thoroughly for 15 minutes. Pour into metal mold or tight wooden box. Keep in a WARM place two days, then cut into cakes.

It was a great relief to hear your mama say "You can quit stirring the soap!" There's nothing, no nothing, that smells as clean as a fresh pot of lye soap and it takes quite an artist to cut the soap to the bottom in a clean movement of the arm with a knife to make them uniform and then to push on the bar next to you and slide it up the other side of the black kettle.

Why, lye soap could get clothes whiter and cleaner than any soap of its day. It was said that lye soap killed the dandruff, cured the scabbies, stopped kids from scratching the itch, got rid of the ringworms and stopped the spread of impetigo. If you washed your face with the lye soap you learned not to peep but washed your face thoroughly before opening your eyes again.

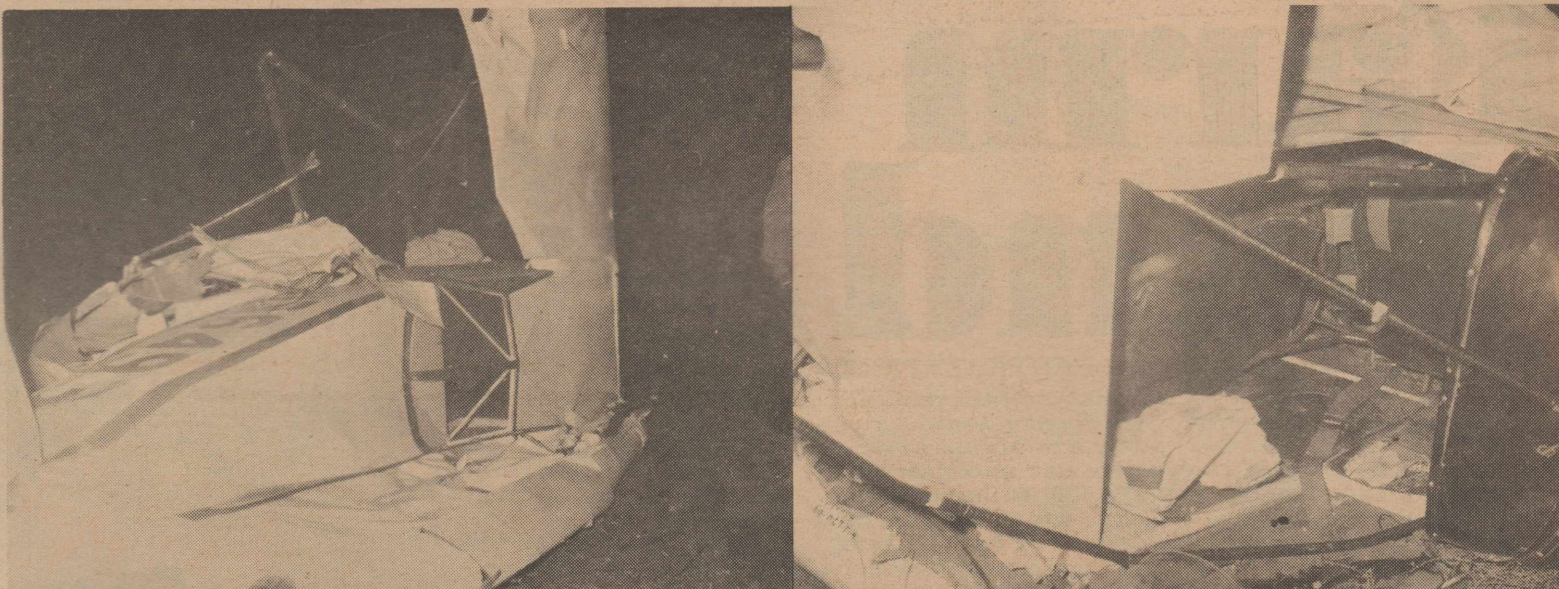

A year or two ago I was going through my mother-in-law's garage in Ballinger, Texas and found a gallon crock jar with ten pieces of dried up lye soap. I will let you smell of it for 10¢ a smell, wash your hands with it for two bits or sell you a small (very small) bar for \$1.00. It's good, it's well recommended and was made by a professional.

Every boy ought to have as a part of his education a chance to help do the family wash on a rub board with a good bar of lye soap and an oversized black kettle to punch the clothes in. Hands were never so clean, clean clothes never appreciated any more and short hair a great pleasure after using an abundance of lye soap.

I'll tell you, people would go a lot cleaner today and hippies would be non-existent if their mother had ever taken a big wash rag, soaked it in hot water, bathed it in lye soap and scrubbed elbows, ears and neck. After this sort of treatment any boy learned to keep his own neck clean, to keep short hair and decent looking knees and elbows.

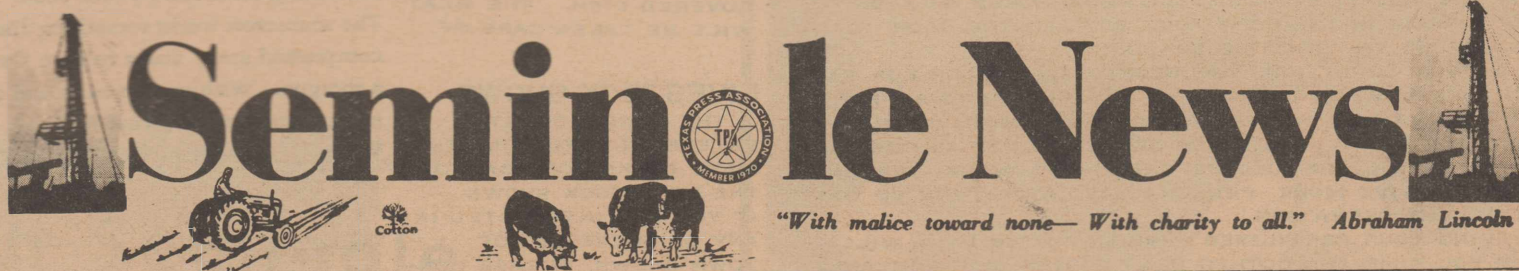

We've come a long way in soaps, in recipes and boys, but basically what it took to make good soap still makes good soap.

PLANE CRASHES IN LOOP

Perry Morris, age 56, remains in critical condition Tuesday after being injured in his airplane at the crash site in Loop. The accident occurred just east of the intersection in Loop with the plane falling in the highway right of way. Eye witnesses stated that the plane got in trouble when it evidently stalled at low altitude, spun out, hit a high line and came to its final rest on the right wing. Picture #1 shows the plane looking into the rear window. Picture #2 shows the cockpit where Morris was pinned in.

The windshield had to be removed before Morris could be removed. He was transferred to Methodist Hospital in Lubbock after being taken to Seagraves. The plane had been rebuilt by Orville Fleming and Morris. Don Fleming had flown the airplane to Seagraves from Kansas City two years ago. Morris, a mechanic for Adami Motor Company in Seagraves, had been flying for a number of years.

OIL COMPANIES CONTINUE SUIT

Oil Appreciation Day -

Oil Appreciation Day was held last Wednesday. Gaines Countians are most fortunate for the tremendous amount of oil reserves and the production of oil in this county. Last Wednesday businessmen, farmers and oil people met at the Seminole Community Building for lunch and an oil program.

Jim Kent, sales representative for the Western Company of Denver City, presented a program at the noon luncheon. He told about oil on Alaska's North Slope. Mr. Kent said the discovery of oil on the North Slope of Alaska is one of the great adventure stories of our time, it is a story that has great significance for every American, because North Slope oil may play a major role in helping to supply our energy needs for the remainder of this century and beyond. Alaska is our 49th state and a land of breathtaking beauty and stark desolation. It is our northern and western-most state. It is by far the largest state, yet it is the smallest state in population. Anchorage is the largest city with a population of about 120,000 people. Early in September, 1969 more than 40 oil companies bid for the right to search for oil on Alaska's North Slope. When the bidding was over the state was richer by 900 million dollars.

The North Slope is a 150 mile long strip of land located 275 miles north of the Arctic Circle where temperatures plunge as low as 70 degrees below zero. In the Arctic winter the Tundra (surface) is frozen and covered with snow; in the summer months the Tundra becomes a sea of mud that impedes all activity. Enormous amounts of petroleum exist on the Slope. The start of commercial petroleum industry in Alaska dates back to 1957 when oil was discovered on the Kenai Peninsula and the Cook Inlet. Alaska is the 8th leading state in petroleum producers. However, oil from the Slope may not reach the market before the mid 1970's.

The Slope is located 400 miles north of Fairbanks. Supplies have to be flown in from Fairbanks. It takes 10 million dollars to set up and drill one well. American producers would not be incurring these enormous expenses if there were not a ready outlet for their petroleum in the lower 48 states.

CON'T ON PAGE 3

Three oil companies, the Atlantic-Richfield Co., Inc. in Pennsylvania, Amerada division of Amerada Hess Corp., Inc. in Delaware, and Mobil Oil Corp., Inc. in New York State, all three granted to do business in the state of Texas, notified Mrs. Claudia S. Jordan, District Clerk, to follow through on their restraining suit against county officials. The law firm of Stubbsman, McRae, Sealy, Laughlin and Browder, in a letter of November 5, 1970, stated to the district clerk, re. 6127, "Please place this case on the jury docket. You will find enclosed the check of this firm in the amount of \$5.00 as payment of the jury fee." Signing for the firm was Harold Feldt.

The suit is in the interest of restraining and in joining the tax collector, Mary Baldwin, the commissioners court, made up of four commissioners, and Chester Browne, County Judge, from collecting taxes because (they contend) of their failure and refused to equalize the tax burden.

In a letter dated September 10, 1970 Judge Truett Smith stated on the temporary restraining order. "... It is my opinion that the evidence preponderates in favor of the Board of Equalization and other defendants and that they acted legally, and that Plaintiffs' Application for Injunction should be refused and denied...."

HAVE YOU CONSIDERED FALL FERTILIZATION?

WITH THE GRAIN SORGHUM HARVEST COMPLETED AND COTTON HARVEST WELL UNDER WAY, COUNTY AGRICULTURAL AGENT CALVIN D. HOLCOMB, SUGGESTS GIVING SOME THOUGHT TO NEXT YEAR'S FERTILIZER USE PROGRAM.

RESEARCH CONDUCTED BY TEXAS A AND M UNIVERSITY, TOGETHER WITH FARMER EXPERIENCE, STRONGLY SUPPORTS THE PRACTICE OF FALL FERTILIZATION FOR NEXT YEAR'S CROPS. FALL APPLICATION IS ESPECIALLY ADVANTAGEOUS ON THE HEAVIER IRRIGATED CLAY LOAM SOILS.

NO APPRECIABLE LOSS OF APPLIED NITROGEN IN THE FORM OF AMMONIA OR AMMONIUM CARRYING FERTILIZERS CAN OCCUR THROUGH LEACHING AFTER SOIL TEMPERATURES DROP TO 50 DEGREES. TEMPERATURES ON NOVEMBER 3 WERE SLIGHTLY BELOW THIS LEVEL AND WILL NOW DECREASE RAPIDLY.

PHOSPHORUS AND POTASH CAN ALSO BE FALL APPLIED TO ADVANTAGE AHEAD OF LAND PREPARATION, ADDS HOLCOMB. THIS ASSURES INCORPORATION INTO THE SOIL SO THAT THE RELATIVELY IMMOBILE PHOSPHORUS WILL BE DEEP ENOUGH IN THE ROOT ZONE TO FEED THE CROP THROUGHOUT THE GROWING SEASON.

WEATHER CONDITIONS ARE GENERALLY BETTER FOR FALL APPLICATION WHEN THE SOIL IS DRY ENOUGH TO SUPPORT HEAVY EQUIPMENT WITH LESS HAZARD OF SOIL COMPACTATION. ALSO, THE FERTILIZER DEALER IS NOT AS RUSHED NOW AS HE WILL BE JUST BEFORE THE PLANTING SEASON, SO HE CAN GIVE MORE PERSONALIZED ATTENTION TO YOUR PARTICULAR OPERATION.

HAVING YOUR FERTILIZER APPLIED IN THE FALL WILL SAVE YOU TIME AND BOTHER NEXT SPRING, PARTICULARLY IF THE SEASON IS WET. IF THE SOIL IS DRY, FALL APPLICATION WILL CONSERVE MOISTURE FOR PLANTING.

IF YOU HAVE DOUBTS AS TO THE KIND AND AMOUNT OF FERTILIZER NEEDED, HOLCOMB SUGGESTS COME BY HIS OFFICE FOR INFORMATION ON SOIL SAMPLE COLLECTION AND MAILING. THE \$2 SPENT ON A SOIL TEST NOW COULD MAKE A REAL DIFFERENCE IN YOUR CROP YIELDS IN 1971.

REPORT FARM ACREAGE AND OWNERSHIP CHANGES TO COUNTY ASCS OFFICE

TROY MARTIN, CHAIRMAN OF THE GAINES COUNTY ASCS COMMITTEE, SUGGESTS THAT NOW IS A GOOD TIME FOR FARMERS TO BRING UP TO DATE FARM RECORDS WHICH ARE MAINTAINED IN THEIR GAINES COUNTY ASCS OFFICE.

RECORDS ARE KEPT ON FARMS PARTICIPATING IN GOVERNMENT PROGRAMS ADMINISTERED BY ASCS. A FARMER WHO WAS IN ANY PROGRAM IN 1970 AND WHO HAS BOUGHT, SOLD, LEASED, RENTED OR OTHERWISE ACQUIRED OR DISPOSED OF FARMLAND SHOULD VISIT HIS COUNTY ASCS OFFICE TO REPORT THE TRANSACTIONS. THE ASCS COMMITTEE CHAIRMAN COMMENTED THAT PREVIOUS FARM LEGISLATION IS EXPIRING AND CONGRESS IS EXPECTED TO TAKE UP PROPOSED NEW FARM LEGISLATION WHEN IT RECONvenes IN NOVEMBER. "WHATEVER FARM PROGRAMS WE HAVE, FARMERS WILL WANT TO BE SURE THEIR FARM RECORDS ARE ACCURATE AND COMPLETE WHEN THE PROGRAMS GO INTO EFFECT," MARTIN SAID.

COUNTY ASCS OFFICE ARE REQUIRED TO KEEP RECORDS ON ACREAGE OF ALL FARMS WHERE OWNERS OR OPERATORS PARTICIPATE IN ANY ASCS-ADMINISTERED PROGRAM. THESE INCLUDE PROGRAMS FOR FEED GRAIN, WHEAT, COTTON, AND PEANUTS.

THE COUNTY ASCS COMMITTEE CHAIRMAN SAID THAT IF A FARM IS CONSTITUTED DIFFERENTLY NOW THAN IT WAS WHEN THE FARMER BEGAN PROGRAM PARTICIPATION, AND IF HE HASN'T YET REPORTED THE CHANGE, HE SHOULD DO SO AS SOON AS POSSIBLE. ALSO, IF A FARM HAS CHANGED OWNERS OR OPERATORS IN THAT PERIOD, A REPORT SHOULD BE MADE TO THE COUNTY ASCS OFFICE.

TROY EMPHASIZED THAT CHANGES IN THE OPERATIONS OF FARMS NEED BE REPORTED ONLY BY FARMERS PARTICIPATING IN ONE OR MORE FARM PROGRAMS ADMINISTERED BY ASCS.

"Perhaps the reason so many write 'XMAS' is because its Founder is the unknown quantity in so much of our modern celebration of the day."

FARMERS TAX GUIDE

The 1971 Farmers Tax Guide will be available at your County Agent's office, as well as all the Internal Revenue Service offices, within a few days. If you are one of that vanishing breed of Texans that still till the soil for a living, you had better pick up a copy and start plowing through this year's tax problems. You may be interested in a copy even though you simply live on a farm, work for wages or a salary, and farm for food--and maybe a little profit. Actually the Farmers Tax Guide is as valuable for the city dweller who owns a farm and does his farming through the windshield of his car as it is for the on-the-farm dweller. The price is right--it's free.

THE SCARECROW

Scarecrows come dressed in many different shapes these days. In the background can be seen sacks of peanuts and peanut fields. The scarecrow works something like this, a bottle of gas, a timer, a compressed area, and a release through a horn. It makes a noise like a shotgun. With one on each end of a field the would be thieves (ravens) are scared away.

Gaines County also made a healthy crop of pi-melons this year.

OIL CONT. FROM P. 1 Domestic demands have enabled the industry to grow strong and the nation is becoming relatively self-sufficient by spurring the search for new domestic sources. Experienced drillers can make as much as \$30,000 a year. The intense cold of the Slope can freeze exposed flesh in a minute. Though it severely hampers their movements, well dressed roughnecks must wear two sets of underwear, insulated boots and overalls, wool and leather mittens and face masks. Even then, sometimes operations are shut down because of severe cold weather. Plans have been announced to lay a pipe line from the Slope to the ice free port of Valdez.

Mr. Kent continued by pointing out the S. S. Manhattan traveled the fabled Northwest Passage on a historic 4,500 mile journey from the East Coast of the United States to the Slope of Alaska. He said the discovery of new oil sources has not kept pace with this increasing demand. The present level of 13 million barrels of oil per day is expected to reach 26 million in the 1970's. Ten years ago we had a 13 year supply of proven reserves, today we have only a 10 year supply and the oil production in 1970 in the U. S. will be on a down grade in the lower 48 states. That is the significance of the North Slope to the Nation, and those are the dimensions of the challenge facing the U. S. oil industry today.

People who cook with pride cook with GAS. Mrs. Cecil Burke does.

Some of the world's best cooks are found in the kitchens of America, and they give themselves every cooking advantage, like gas range cooking.

Good cooks like Mrs. Burke and nine out of 10 professional chefs agree that precise temperature control makes the difference in good cooking, and with gas you get exactly that. Gas also gives immediate response and constant temperature, so important in oven cooking.

So, give yourself every advantage and cook with gas. Remember, people who cook with pride cook with gas.

Here's one of Mrs. Burke's favorite recipes.

JEWELLED CHEESE PUFFS

Mrs. Cecil Burke, 2426 Walnut, Amarillo

- | | |
|---------------------|-------------------|
| 2 cups sifted | 1/4 teaspoon salt |
| all-purpose flour | 1 cup butter |
| 2 teaspoons | 1 package (8-oz.) |
| baking powder | cream cheese |
| 2 tablespoons sugar | 2 eggs, beaten |
- Preserves or jelly

Sift together dry ingredients. Beat butter and cream cheese until fluffy. Add beaten eggs and beat well. Blend into sifted dry ingredients. Chill dough one hour. On lightly floured board, roll dough 1/4 inch thick. Cut individual rounds with floured biscuit cutter. Make an impression in center of each round with thumb. Fill imprint with preserves or jelly (about 1 teaspoon). Bake on an ungreased baking sheet in moderate gas oven (375 degrees) for 15 minutes or until delicately browned. Serve warm. Makes about 24.

City Council

The City Council met Monday night and voted to have a radio installed in the new trash haul truck.

2. A. C. Bowden, a water engineer from Lubbock, met with the council and explained carefully the water table, equipment, future plans, condition of wells and sand condition. He told the council that previous planning had been good. He was authorized by the council to draw up specifications for new pumping equipment and size lines for the new water well being added to the system.

3. The council voted to send Ruby Frost to Corpus Christi this weekend to a tax school.

Information From Social Security Office

BY DOROTHY FEAZELL

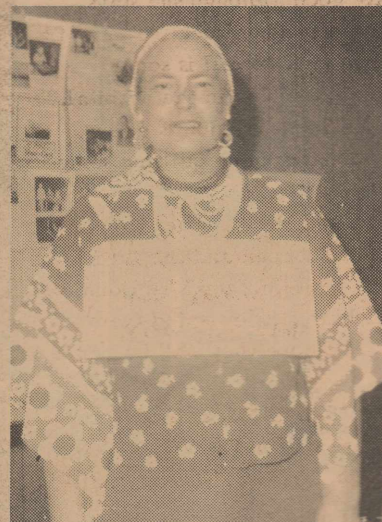

FARMERS AND RANCHERS IN THIS AREA SHOULD BE SURE TO APPLY FOR MEDICARE DURING THE THREE MONTHS BEFORE THE MONTH THEY REACH AGE 65, EVEN IF THEY CONTINUE WORKING.

YOU DON'T HAVE TO RETIRE TO ENROLL FOR MEDICARE BUT YOU MUST APPLY WITH YOUR SOCIAL SECURITY REPRESENTATIVE AND PROVIDE HIM WITH ADEQUATE PROOF OF YOUR AGE.

SINCE MEDICARE IS ADMINISTERED BY SOCIAL SECURITY, THE SAME EVIDENCE IS NECESSARY FOR APPLYING FOR MEDICARE AS THAT IS REQUIRED WHEN YOU APPLY FOR SOCIAL SECURITY BENEFITS.

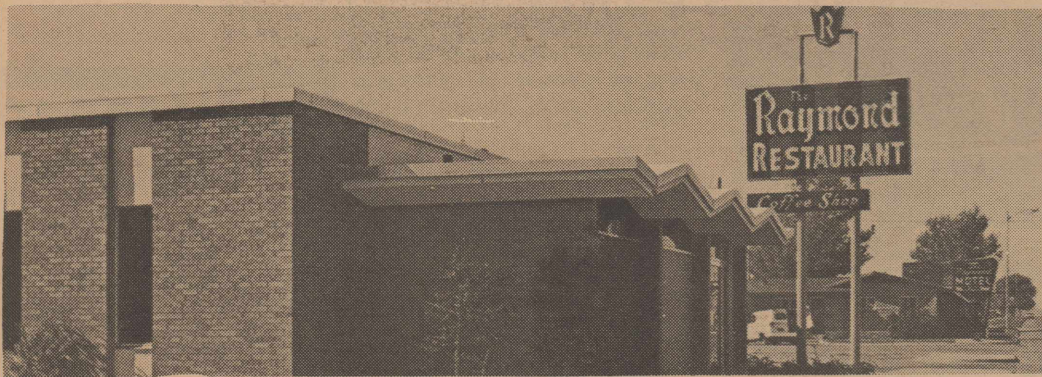

THIS EVIDENCE INCLUDES PROOF OF YOUR AGE (SUCH AS YOUR BIRTH OR BAPTISMAL CERTIFICATE), PROOF OF YOUR MOST RECENT EARNINGS (YOUR 1969 INCOME TAX RETURN AND W-2 FORMS), AND YOUR SOCIAL SECURITY CARD. MANY FARMERS AND RANCHERS 62 OR OVER MAY FIND THEMSELVES ELIGIBLE TO RECEIVE SOME SOCIAL SECURITY MONTHLY BENEFITS, EVEN THOUGH THEY CONTINUE WORKING, IF THEIR NET YEARLY PROFIT IS LOW.

SCHOOL HAPPENINGS

About thirty band students enjoyed a field trip to Lubbock last Saturday to see Texas Tech win over T C U. They all went by bus accompanied by their director, Mr. Jess Lancett. They all enjoyed a big lunch at Furr's Cafeteria and then on to the football game.

This week is a busy week at school as the students take test to close out the second six weeks of school.

There will be no school for students at Loop Friday, Nov. 13. The teachers will attend a TSTA meeting in Midland on that day.

Several judging groups along with their advisor, Mr. J. E. White, attended judging contest held in Brownfield last Thursday. The results of the contest have not been announced yet.

Carla Todd, Lynn Hand, Jackie Aldridge, Tina Bingham, Brenda Smith and Beverly Owens accompanied by their coach, Mr. Fred Hamilton and wife, Ann, all attended the Flying Queens Basketball Clinic Saturday in Plainview.

There were demonstrations by the Queens in the morning and the afternoon was spent viewing four games between some of the States outstanding high schools.

The group left at 8:00 a.m. and returned to Loop at 10:00 p.m. A good time was had by all and the girls seemed to have picked up some good lessons from having seen some very outstanding individuals perform.

The High School basketball girls chalked up two victories last week against O'Donnell. The "B" team won with a final score of 48 for Loop to 19 for O'Donnell.

Rhonda Smith was high point for the Longhorns with 33 points, Liz Caughron second with ten points, Delilah Young had 3 and Vicki Halbrooks had 2 points.

The "A" team also came out victorious with a score of 43 for Longhorns to 37 for O'Donnell.

Kay Bingham was high scorer for Loop with 33 points followed by Pam McKenzie, 5 points; Kathy Noble, 4 points and Jackie Nail, 1 point.

The games this week were played at Loop Tuesday night beginning at 6:30. Both "A" and "B" team girls will play against Wilson. Results next week.

The Loop High School "B" team football scored at 14-6 VICTORY over the O'Donnell's "B" team last Thursday night.

Eddie Sepeda scored on the first play from scrimmage with a 45 yard run for the Longhorns. Extra points were made by a run made by Jim Schooler.

Later in the first quarter, after O'Donnell had managed a score, Sepeda returned the kick of 65 yards for another touchdown.

The ten boys who played for Loop did an outstanding job,

especially on defense.

Eddie Sepeda, Jim Schooler, Mike McKenzie, Craig Ancinec, Johnny Frasier, Ricky McConal, and Jackie Newton all played well.

There was no "A" team football game last week. This Friday night the Longhorns will play on their home field against Sterling City beginning at 7:30. This will be the last home game of the season and the next game November 20th will be at Gail which will complete the football for 1970.

4-H NEWS

Several from the Loop 4-H Club plan to attend the annual awards banquet in Seminole this Saturday night at 7:00 o'clock. The leaders and club members who turned in record books will receive their year pins and special awards will also be presented. The banquet will be different this year in that tickets for the meal will not be required. Each family attending will take a covered dish and Loop families are ask to furnish salads. Each family is urged to attend even if your child does not receive an award.

The cooking group led by Mrs. Edith Davison met on Monday afternoon after school in the Home Economics room. They learned how to prepare milk shakes and Ritz crackers for a snack. Those attending were Dean Smith, Sherry Chaffin, Dana Ancince, Amy Forshee, Melissa Perez, and Terri Lowe. Visitors were Penny Scott and Cerise Ellyson.

NAMES IN THE NEWS

Mrs. Nina Ingram attended funeral services in Lubbock for her brother-in-law, Mr. James Earnest Dodson. Burial was in Idalou Cemetery.

Mr. and Mrs. Johnny Merritt spent a few days at the lake fishing last week but not much luck or no big fish stories to tell.

Mr. and Mrs. Vester Smith are in Dallas this week attending Farm Bureau meetings. Elzora Davis from Ackerly is here staying with their children while they are in Dallas.

Mr. and Mrs. Jimmy Caughron from Lubbock were visiting at Loop this week-end with his parents, Mr. and Mrs. Paul Caughron and Liz.

John Owens was treated and released with stitches in the top of his head after he cut a gash when he raised up under the cotton stripper.

Mr. and Mrs. J. E. White have returned from Houston where they attended funeral services for Mr. White's brother-in-law, Mr. O. K. Dean who died suddenly with a heart attack.

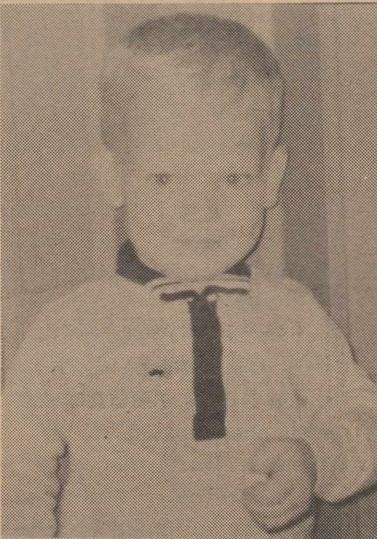

Stella Chitwood visited her daughter, Mrs. Marjorie Walker and family in Denver City last week and is spending this week in New Deal with another daughter, Mrs. Freda McNew and family.

Visiting this week-end with Jenny Jo Schooler and Jim were two nephews, Vincent Ellyson from Lenora and Pete Childers from Seminole.

Cindy Smith, who has been on an extended visit with her grandparents, Mr. and Mrs. Roy Smith of Dublin, was home

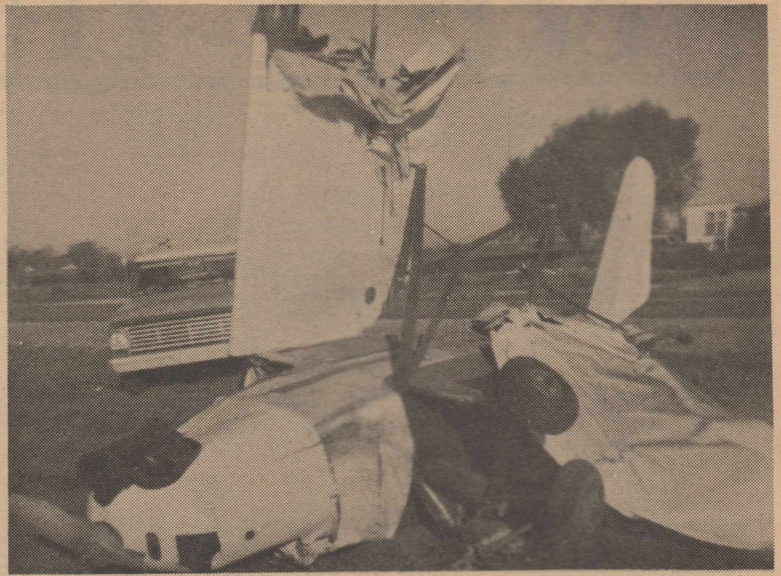

over the week-end with her parents, Mr. and Mrs. Dwight Smith.

Visiting this week-end with Mr. and Mrs. Elroy Boedecker and family was Mr. and Mrs. Garland Sams, Jerry and Kenneth Sams. Mr. and Mrs. Garland Sams are Mrs. Boedecker's parents from Lockney and Kenneth and Jerry are her brothers from Lubbock.

"YOU CAN'T KEEP A GOOD GUY DOWN" was sure true in little Jimmy Owens case. Notice the Vacation Bible School button pin he is holding - this is the one he accidentally swallowed last Friday morning. He was rushed to Seagraves Hospital and then on to Lubbock for surgery to remove it from the esophagus. He remained very calm and collective during the whole ordeal. Jimmy is the little son of Mr. and Mrs. John Owens and he will be two years old in December.

John and Linda would like to Thank everyone for their deep concern and help during that very exciting day for them.

PLANE CRASH LESS THAN 1/2 MILE EAST OF LOOP ON MONDAY EVENING ABOUT 6:00 O'CLOCK - Several residents observed the plane crash into the high line wires. Pilot and only occupant of the plane was Perry Morris of Seagraves. The plane was owned by Morris and Orville Fleming of Loop. Mr. Morris was carried by ambulance to Methodist hospital in Lubbock. It left Loop residents and surrounding area without electricity for about three hours.

Chosen as "LINEMAN of the WEEK" was Bill Hearme, senior letterman, for one of the best job of blocking all year. He made 8 unassisted tackles and assisted on 6 for a total of 14 and intercepted one pass. He started the year as a fullback but finally got back to his first love, the line.

Receiving honorable mention were Jim French, senior, for his best effort on offense and Rick Partain, senior, for his excellent job on defense.

Gary Don Ray, junior letterman, was chosen as "BACK of the WEEK" for his outstanding job on offense as a blocker and ball carrier and for his good overall effort. He carried 11 times for 67 yards and scored 1 touchdown. He started the year as quarterback, moved to halfback, then to wingback and when Jim French got hurt, played the fullback position.

KERMIT

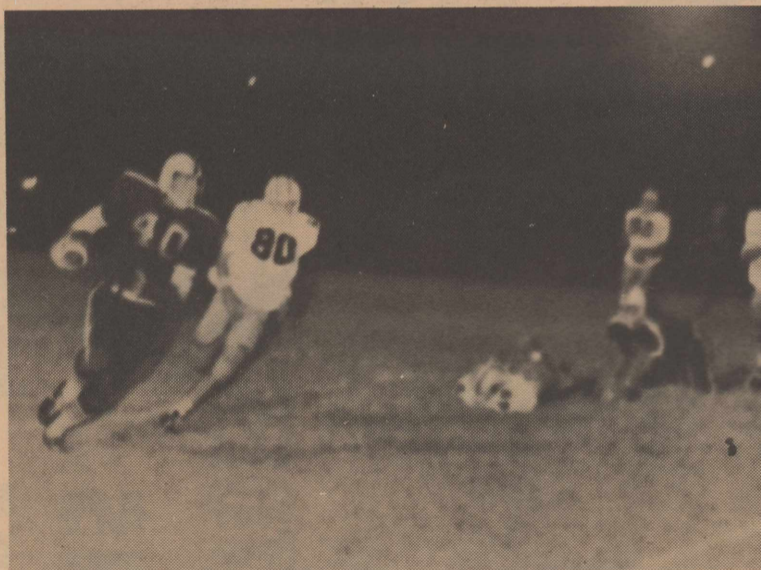

6

"You're all mine," says Rick Partain, #61.

Donald Roberts, on a punt return, shook loose once, he shook loose twice and he set up the play that led to the touchdown.

Kermit's big #40, John Bounds, at 196, goes for the touchdown against Seminole.

Oops, you're in the wrong place to start a fight, you're surrounded by Indians.

It didn't look too important at the time. Donald Roberts calmly kicked an extra point with 1:57 remaining in the 2nd quarter, but the point after touchdown proved to be the margin of difference and Seminole eked out Kermit, 7-6, last Friday night. It didn't look too important when Joe Dunlop, the quarterback from Kermit, tried the 2 point conversion on a pass play to Cook, his end, but it spelled the difference between a win and a loss.

Lloyd Barker, the dependable senior halfback, stuck his hand into the pass play and broke it up. Not an Indian felt worse about the close ballgame than Gene Sims did. He's been known this season to go onto the circular track and haul in a pass 20 yards out of bounds. With 8 minutes to go in the half, Roberts, on a sprint out pass, dropped a floater over the defender's head and it trickled through the arms of the senior end. (It was just too easy to catch.) He was standing in the end zone at the time.

In the 4th quarter, the Indians had a 50 yarder touchdown play called back on an infraction. One dropped, one called back and the Indians were back to that one point play. Sims was also the victim of this play as it was his fine run that was called back.

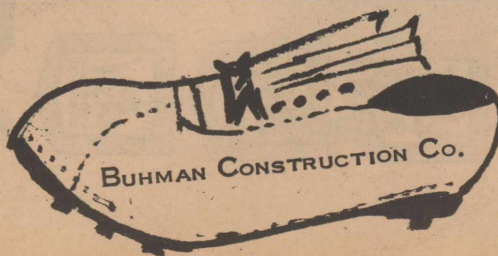

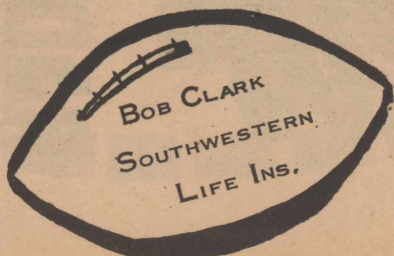

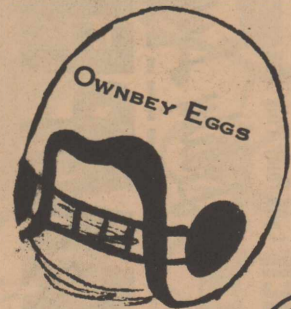

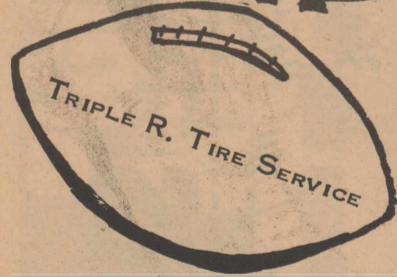

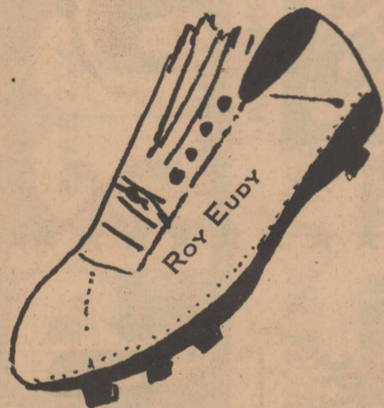

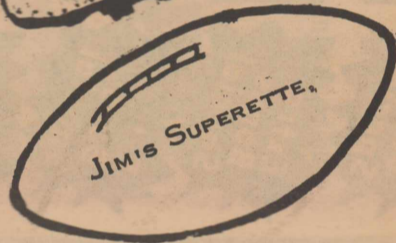

The scoring went something like this: Roberts hauled in a punt near the 50 yard line and with that slow moving long stride, returned it half the distance to the goal line. It was Jim French's time to star. He got 5 yards, he got 7 yards, he got a first down on the 3 yard line. The Indians made $\frac{1}{2}$ yard, they made 2 yards and then they got a penalty. With 4th down and 1 to go Gary Don Ray made the tally.

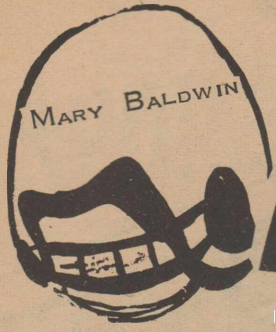

The 3rd period it was the Yellow Jackets' turn. Big John Bounds, a 196 pound halfback and a fine prospect, broke through the line and scored from 56 yards away. It looked like the Indians then were in for a hard night of it as they went for a 2 point conversion only to have it fail and lose the ballgame.

Everett Haller, although crippled, and Rick Partain, the senior guard, went after the Yellow Jackets on defense and removed their stingers. It was an outstanding ballgame for the Indians who saw the breaks go against them, but still managed to win by the narrow margin. The win gave the Indians 4 for the season, 3 losses and a tie. It was their first district win against 2 losses and a tie.

KICK-OFF TIME!

8th GRADE

The Seminole 8th grade Warriors smelled of defeat for the first time last Saturday morning in Kermit. They were playing the only team that ever defeated them in the 7th grade.

Midway in the first quarter Kermit broke through the line and scored from mid-field. The 2 point conversion was good and the 8th grade was trailing for the 1st time during the year. The brave Warriors went to work. After taking the kickoff they were 60 yards away from the promised land and with 7 minutes to go in the half they went in to tie the score up, the big plays being a 10 yard gainer by Mike Nelson and a 10 yard romp by Pete Hicks, the quarterback, for the T. D. It was Nelson again for the 2 point play and at the half it was tied 8-8.

It was a see-saw battle through most of the 3rd quarter with Frank Gutierrez picking up good gains, Mike Nelson picking up good gains and also Pete Hicks. It was Nelson for the touchdown with 1:56 remaining in the period and Nelson again for the point after to make the 3/4 mark read 16-8.

Enough could not be said about the defensive unit of the 8th grade. Anthony Hemp-hill caught them behind the line on at least 3 different occasions. Leland Sheets and Mark Nichols were power houses on tackles. They refused to give up another T. D. Mike Bell intercepted them, Pete Hicks intercepted them and played a strong linebacker position. Mark Nichols intercepted them.

It was sweet revenge in the 4th quarter as Nelson broke on a 50 yard gainer and got the points after, to up the Warriors' advantage to 24-8. Mark Stone, the new quarterback, took a new team to the field and drove them immediately 35 yards for the final touchdown, with Frank Gutierrez carrying. Charles Dawson hustled in the points after. Final score Seminole 8th 32, Kermit 8.

The B-team scored on a sprint out pass last Thursday night against Kermit and tied the ballgame at 7-7 but could not hold on as they were finally swamped in the 3rd quarter, 13-41. The B's looked good on their drives, fumbling once on the 2 yard line that could have put them ahead in the 2nd quarter.

The Kermit B's also intercepted two times, turning them into touchdowns for 25 yards and 15 yards. It was a much closer ballgame then the score indicated. In the 2nd quarter the B's punched out their 2nd touchdown on a sustained 65 yard drive with 1:20 to go in the period. In the 4th quarter Flud made an outstanding run on 4th down and 2 to go, only to have it called back on one of many infractions.

Two Kermit lads seemed to be more interested in fighting than in playing football. It was a good rough and tumble ballgame with fumbles and interceptions leading to the B's downfall.

7th GRADE

The Seminole 7th looked thin on their sideline last Saturday in Kermit in comparison to the Kermit 7th. Kermit had 66 boys suited out, Seminole approximately half that amount and the final score proved too many boys and too many points, Seminole 7th 20, Kermit 7th 42.

On a double reverse play Kermit got things moving and scored the 1st touchdown with 2 minutes remaining in the first period. Seminole fumbled and Kermit did it again, to make the score read 12 points in their favor. Seminole offense failed to click. Kermit took over and made the halftime read 3 touchdowns plus a 2 point play, 20-0.

In the 3rd quarter Dee Norton, quarterback, finally got his ball club moving when he carried 3 times himself for a total of 39 yards. Ronny Hudson carried the final 3 yards for the T. D. with his brother Lonny carrying for the 2 point play and made the score 8-26.

In the 4th quarter Dee Norton passed to Greg Bingham for 14 yards, score reading 14-26. Dee Norton scored the 3rd touchdown for the 7th on a reverse play and kept the ball and ran 47 yards for their 3rd T. D. Each time the 7th kicked to Kermit, they broke loose for a touchdown. Final score Seminole 7th grade Warriors 20, Kermit 42.

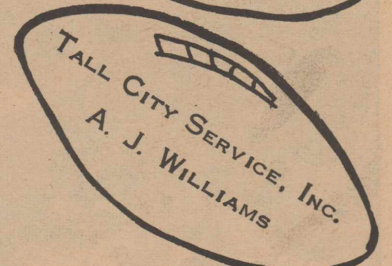

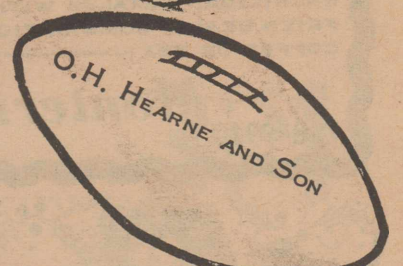

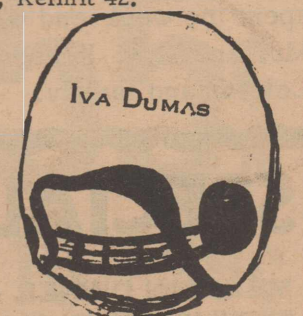

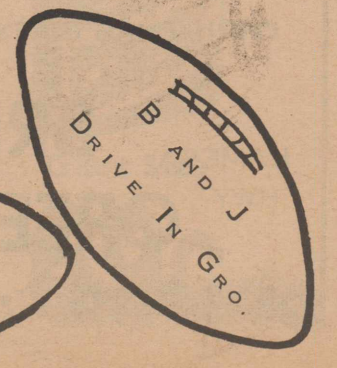

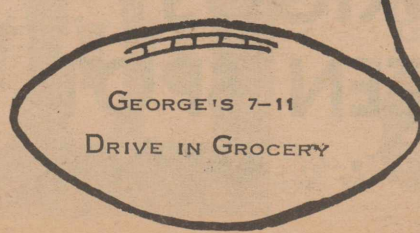

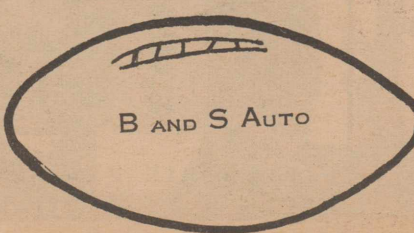

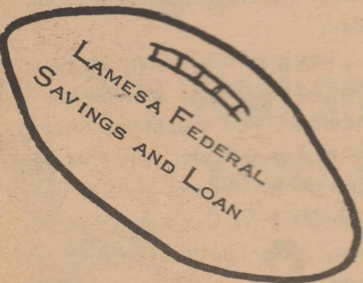

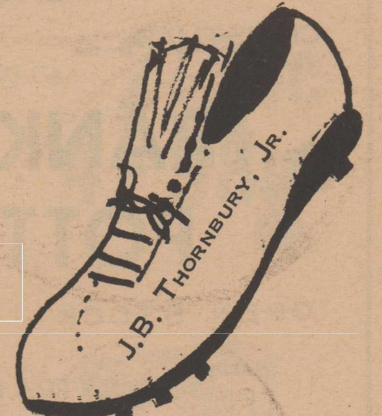

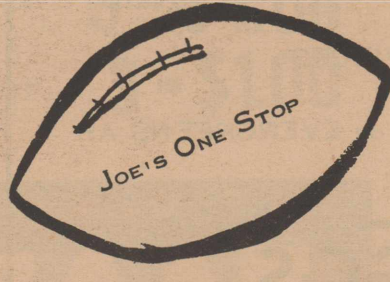

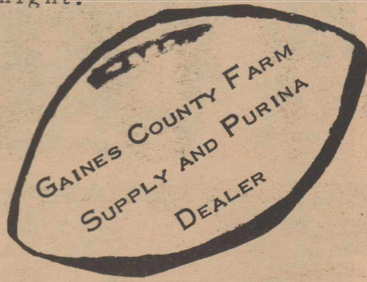

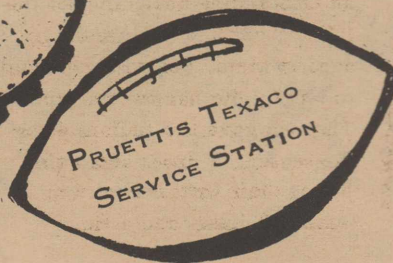

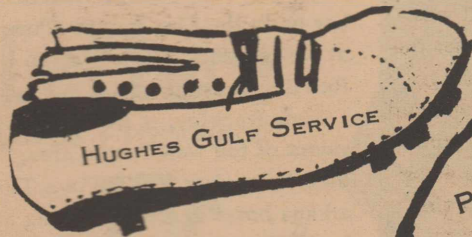

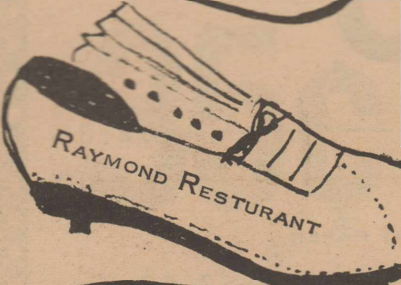

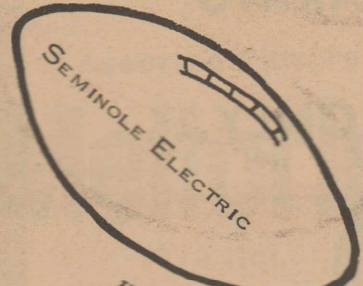

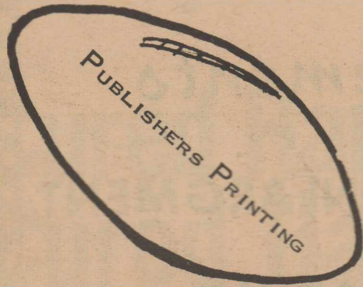

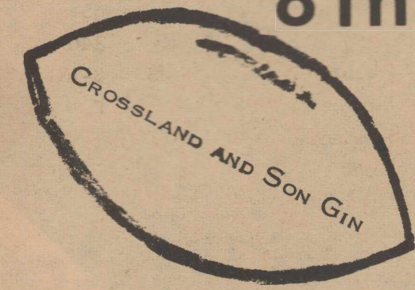

Wade Johnson, 71, and Bernie Almadova, 85, played an outstanding game on defense last Thursday against Kermit.

How would you like to read nothing but good news in a newspaper? A man in California by the name of Bailey has started such a paper and calls it the Aquarian Times. He prints just the good news. For instance, the stock that went up on the stock market, never the stock that's down, births, no deaths. I sincerely hope Mr. Bailey makes a go of his paper and has a lot of subscribers who just appreciate the GOOD NEWS. Selling newspapers sometimes is like listening to gossip, you never want to hear the good things about someone, but your ears perk up when they start telling a little dirt. Maybe Mr. Bailey's idea will catch on throughout the country and there won't be as many tragedies if they aren't publicized as much. Like one of my favorite popular songs says, "Let There Be Peace on Earth and Let It Begin With Me," we might just have good news to report.

Andy Kelley, Gabriel Rios and Mrs. Anderson are shown with ceramics and pottery, finished and unfinished.

To learn techniques in new Arts and Crafts media, Mrs. Anderson attended a workshop in American Handicrafts at Tandy Leather Shop. Four activities were of special interest - oil painting on leather, paper mache on wood, tooling leather professionally, and metal art for Junior High level. Mrs. Anderson and her students recently completed a treasure chest which looks like metal, but is made of paper mache.

Gary Wicks is shown at the wheel in the foreground as he shapes the piece of pottery to be put in the kiln. Another wheel can be seen on the next work cabinet.

Mr. and Mrs. B. C. Norton and Dee spent the week-end with their daughter, Mr. and Mrs. Kenneth Kremenak and John Mark in Portales, New Mexico.

ONE MILE NORTH OF TOWN AT GOODPASTURE GRAIN

An Investiture ceremony and rededication ceremony was held Monday night, November 9, at the M. S. Doss Scout Center for Girl Scout Troop 419.

The program opened with the flag ceremony. The Girl Scouts made their rededication pledges for their Girl Scout laws, promise, slogan and motto by candlelight.

Refreshments of brownies, cookies and lime sherbert punch, made by the Girl Scouts, were served to the parents, friends and members of the troop.

Members of the troop attending were Cristy Woodruff, Valerie Earl, Kay Jobe, Vanessa Freyberger, Julie Mantooh, Pam Brewer, Kelly Brown, Delma Escabedo, Jeri Holmes, Nancy Cato, Ginger LaRue, Beckey June Robinson, Kristy Webb, Karen Busby and Terry Bingham and their leader, Mrs. Shirley Earl.

Every shape and every color scented candle can be seen with these three students, Jolene Nelson, Billy Landrum and Margaret Posey, in the junior high Arts and Crafts class.

Candle making has been an interesting project in the Seminole Junior High A & C classes. Students purchase the candle wax and add stearic acid, scent and colors. A candy thermometer is used to determine temperatures of wax. The wax we use melts between 143°-150°.

We pour candles, when wax is cooled to 120° to 125°. "Wicking Up," a method used in getting the wick in the center of the candle, is very important. If poorly done, liquid wax will flow through the mold and will not form a candle. While "wicking up", each candle mold must be greased with cooking oil, or forgotten the mold fails to release the candle!

The most creative projects in Junior High are done in ceramic clay. Each pupil learns to make a pinch pot, a coil, and a slab or fold-over. After the students have learned these creative techniques, one of the oldest machines for pottery - the wheel - is introduced. The directions titled, "Throwing by the clock" teach placement of the hands using a clock face for reference. Mrs. Anderson's class at this time looks like P. E. classes, moving from side to side, placing each hand in special positions. Balance of body on pressure point insures a good pot. The body parts must work together to dictate which way the clay will go - we call it "control your clay rather than letting your clay control you".

After the creative clay and wheel-thrown pieces are thoroughly dry, they are stacked into the kiln. There are two electronically controlled kilns in the Arts and Crafts room which turn off automatically, when the pre-set temperature is reached. The temperature must be gradually increased from 0° to 500° then it is turned on high. Greenware is fired to 1625°, bisque with glaze at 1825° and glass at 1325°. Thus the students in junior high are learning the same procedures for firing ceramics that are used in industry. Did you know the Corning Glass Works is producing Pyroceram (a type of ceramics) for the nose cone of guided missiles?

Leather, the popular material for clothes this year is being used for apache boots, belts, and other small leather articles, by special groups in the first and second year classes.

Second year students learn to pour slip into plastic molds. This technique is completely different from creative clay experiences. While the casting slip remains in the molds, the plastic gradually absorbs water from it, a shell is formed against the plastic. Each student watches closely and when the shell is 1/8" to 1/4" thick, the excess slip is poured out. Six films on ceramics will be shown to the art classes during the month of November.

Probably some of the best rodeos that's ever been pulled off by cowboys were not held where the public could see them. Lonnie Freyberger in this picture was up on 'Done Gone' and he said "and I thought he was (done gone) too." He was riding the horse in 1923 at the Long Lazy S Ranch, 20 miles south of Lamesa at Ole Sulphur Corral. The horse was fence rowing. Although the horse was fence rowing, notice the cowboy with one hand in the air and the right spur hooked in his shoulder. Sometimes when the horse was trying his hardest he would bawl and take on like a crazy cow.

There was no time in a cowboy's life that he dreaded like being thrown off in front of the other men at the beginning of the day when he had roped out his first mount and was topping him out.

School Board Meets

The School Board will meet November 19 at 7 p. m. and will visit with grades 1-3 in the primary building. One room each will be set up for them to visit, also the library and the nurse's station.

2. Trampolines now on hand were discussed and the selling of them.
3. The board accepted recommendations made to the Textbooks Adoption Committee. Subjects for which books were adopted are: Grades 1-6, mathematics and art; Grades 1-3, music; Grade 7, life science; Grades 7 and 8, homemaking and general shop; Grades 9-12, literature III and IV, English composition I and II, related math I, algebra I and II, chemistry I, world history, agriculture I, II, IV, general shop I and II, metal working, and French II.
4. Sandra Mayo was employed in the primary cafeteria to replace Pat Cox who had resigned.

SUPERINTENDENT'S REPORT:

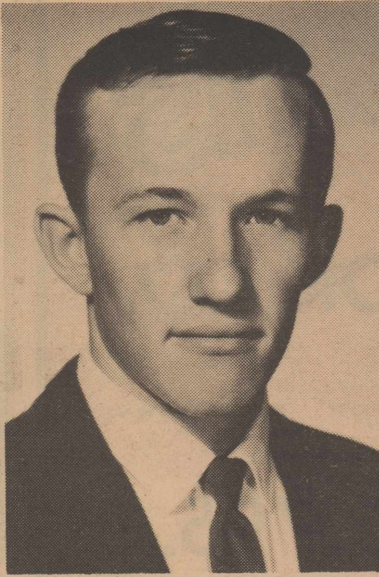

Mr. Bramlett, school superintendent, reported that Don Ashley will return to his junior high math teaching assignment on November 23, 1970. Mrs. Geneva Young has been the substitute teacher while he was on four months active duty with the National Guard.

The stereo which was donated by the Booster Club has been installed in four rooms at the field house. Stanley Basham has personally installed a stereo tape unit in the activity bus on a temporary basis.

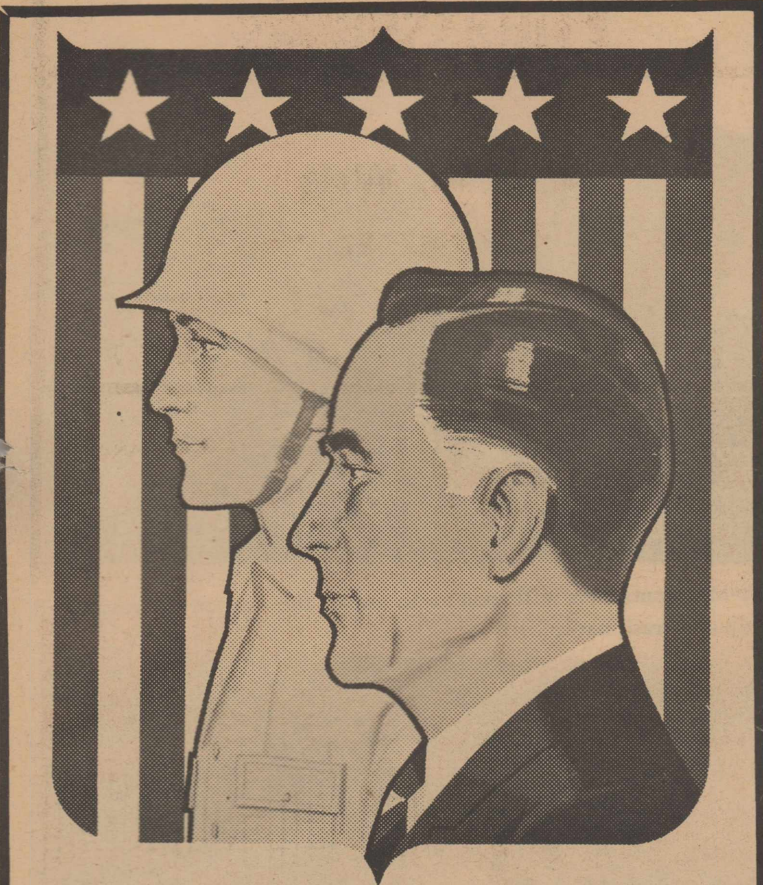

School will be dismissed Friday, November 13, so the professional staff may attend the District TSTA meeting in Midland.

Also reported by the superintendent, three oil companies are furthering their suit against county officials. This means that \$500,000 of school funds will be tied up, enough on hand to pay through December.

Our enrollment on November 6, 1970 was 2094, compared to 2107 on November 7, 1969. Kindergarten enrollment is 15 at the present time.

DEAN RICHARDSON OF AMARILLO GRADUATED FROM THE DEPARTMENT OF PUBLIC SAFETY IN AUSTIN FRIDAY, NOVEMBER 6TH. DEAN IS THE SON OF MR. AND MRS. H.T. RICHARDSON, HOBBS HWY, AND IS A GRADUATE OF SEMINOLE HIGH SCHOOL. HE IS MARRIED TO THE FORMER CORKY FARRAR AND THEY HAVE TWO DAUGHTERS. THEY WILL RESIDE IN AMARILLO UNTIL HE IS ASSIGNED TO A TERRITORY. MRS. RICHARDSON'S PARENTS, MR. AND MRS. JOE PATTIE, ATTENDED THE GRADUATION EXERCISES.

A Day Dedicated To World Peace

1918 - Veterans Day - 1970

Fifty two years have passed since the original Armistice Day or Veterans Day (as it is now called) ... Fifty two years and many wars since the day in 1918 when "the war to end all wars" ended. We commemorate the anniversary of this day with the belief that peace will prevail and wars will end; with the hope for mutual understanding between nations and good will among all peoples; and with a sincere tribute to those who have valiantly fought for our country.
