one who helped in any way with the blood mobile and every donor, also those who tried and were not accepted. We appreciate all that has been done in any way, some we don't even know about. So again a very big THANK YOU.

The Ben Whites NOTICE

Football boys, grades 9-12, will have their physicals next

I'll tell you, these big cities have everything and Houston, Texas is no exception. "Not all of that is fog, " my brother said. "The fog collects the smog and each tiny particle of moisture is a particle of black material." They've got the traffic galore, exchanges by the dozens, four, five and six levels, shopping centers, duplexes, tri-plexes and town houses by the thousands. I've never seen anything like it. And speaking of shopping centers, we visited one that the inside mall was two blocks long. There were courtesy coffee bars, even a courtesy donut bar.

And then you've got to hear about this nut bar. "How many different kinds of nuts do you sell?" the attendant was asked. "Thirty-eight different kinds and if you'd like to try any of them, I'd be happy to give you a sample." I ended up buying about \$2.00 worth. But, have you ever thought about eating any kind of nuts after getting samples of 38 different kinds?

And just think, there was butter toffee almonds, French fried almonds, barbecued almonds, just plain almonds and four other kinds in the almond class. Have you ever tried any salted soyetts? (Soybeans, of course.) How about some squash seeds? If you don't like plain squash seeds, how about salted squash seeds, fried squash seeds or barbecued squash seeds?

I'll tell you, there's never a bird had a better time than I had at the nut bar. This oughta make you jump - pumpkin seeds, HIGH SCHOOL salted pepitos, and of course there was peanuts fixed in a jillion different ways. You could have them salted, baked, buttered, with chocolate- bitter or sweet or cheese covered peanuts. Whoever heard of such?

There were just plain pistachios, white, red and salted, and collasal natural cashews - king, medium or small, cheese flavored almonds, Brazil nuts and pecans. Who would want to ruin a pecan by making it barbecued or butter toffee peanuts?

There were many more - like filbert and pignolia. All of you've heard of sunflower seeds but the two block long Northwest Mall was loaded at the nut bar and if you think all the nuts had been fried, refried, covered, baked and were inside of that nut bar, you're mistaken. Some of the people going up and down oughta been covered with something. Con't on page 2

August 4, 1971

TOO MANY WRECKS Back-To-Schoo

Superintendent James Bramlett announced to the school board on Tuesday that the teachers will be here in two weeks and the students in three weeks. This year's summer was cut short when teachers were placed on a ten month schedule. The Seminole School calendar reads something like this: August 18, 19 and 20 will be the teacher in-service days, with school opening August 23. Labor Day will be observed on Monday, September 6.

In school board action at a special meeting yesterday with board members, Horace Jones, Joe Smith, Rayford Bates and Leon Foote, present, Mrs. Bobby Phillips (Pattie) was recommended by John C. Golmon, principal and the superintendent and was employed. Mrs. Phillips will finish classes August 17 at Texas Tech where she will receive her BA degree. She was employed as a third grade teacher, but it was pointed out the possibility of moving a teacher or two around to another position. The Phillips family moved to Seminole four years ago where Bobby is pastor of the South Seminole Baptist Church. They have two children, Wesley and Vickie.

Football boys, grades 9 through 12, will have their physicals next Sunday.

SEMINOLE SCHOOLS PRE-REGISTRATION SCHEDULE

Grades 1-6, August 12-13, 9 a. m. - 3:30 p.m. Grades 7-8, New Pupils Only, August 17, 9:00 a.m.

Grades 9-12, August 16, 9:00-12:00, Seniors; 1:00-4:00, Juniors; August 17, 9:00-12:00, Sophomores; 1:00-4:00, Freshmen.

Pupils unable to pre-register may enroll on the first day of school, August 23. Kindergarten pupils will also enroll August 23, at 9:00 a.m. in the Primary Building.

Registration Of Brands

A legal notice is being run this week placing all ranchers and owners of livestock on notice that brands will have to be registered every ten years to remain with that owner. Heretofore when a brand had been registered in the county clerk's office, it could never be used in the county by anyone else. Beginning next August 30, all brands will have to be registered and on what part of the animal it will appear or be marked. Under the new law, after that period of six months, any unrecorded brand will be made available to the first person applying. If ranchers or farmers or other owners have extensive operations covering several counties, the brand will have to be registered in each county. The new law also states that livestock cannot be branded in a county if that brand has not been registered.

In years past, county clerks had to make a search of all records to see if a brand had ever been registered similar to or like the present applicant's brand. Brand inspectors, cattle inspectors and sheriffs departments jobs will be made easier when a brand has to be registered every ten years. It seems that cattle rustling or thefts would slow down as the country becomes inhabited in the west, but such is not the case. Trailers, trucks and good roads have increased cattle theft. (Also very few are hung that are caught.)

BAND PRACTICE BEGINS AUGUST 9

Band Director Sam Robertson announced today that rehearsals for the Indian Band will begin Monday, August 9, in the Seminole High School Band Hall and will continue through Friday, August 13.

Rehearsals will be from 6:00-9:00 p.m. each day except Wednesday when the time will be from 5:00-7:00 p.m.

Students new to the system who want to enter the band should contact Mr. Robertson at the band hall any day this week, or report to the first practice session Monday night.

Robertson reminded all band students that white socks, white shoes and white gloves are needed for marching. The lace-up type white tennis shoe is rec-

The annual broom sale for the Lighthouse of the Blind will be conducted by the Noonday Lions Club on August 26, 27 and 28.

Students who will play schoolowned instruments should report between 9:00 a.m. and 12:00 noon, or between 5:00-5:45 p. m., Monday to check out these instruments.

Uniforms will be issued from 9:00 a.m. -12:00 noon on the following schedule: Monday, August 9, seniors; Tuesday, August 10, juniors; Wednesday, August 11, sophomores; Thursday, August 12, freshmen. Uniforms will be issued at the band hall.

The band will not rehearse during the week of August 16, but will resume practice on the first day of school, August 23.

Two cars destroyed.

Last Monday at 2:35 p.m. two cars were demolished when a driver failed to yield right of way on two paved county roads 15 miles northwest of Seminole. The accident occurred 4 miles south of the Midway Gin, or just north of the Glen Fleming farm. Mrs. J. E. (Verna Darlene) Aldridge, Hobbs Highway, was headed north in a 1968 Ford and was struck by a 1969 Chevrolet driven by Edwin Lewis Autry, 35, from Denver City who failed to yield right of way while traveling east. Neither driver was seriously injured but both vehicles received extensive damage.

In another accident at 11:35 p. m. last Friday on South Main six people were sent to the hospital after a two car accident. Gloria Ralls Rose, 22, driving

a 1971 Ford, was turning to the right on South Main when struck from the rear by a 1963 Ford driven by Ernest Gerald Ward. Mrs. Rose sustained injury to her right arm while her husband, Delmer Rose, 32, received a broken collarbone. Tonya Sue, 2 year old daughter, received a possible concussion and neck injuries. All three were sent on to the Andrews Hospital. Two other children of that family were treated and released locally. Ward, 26, received severe head lacerations but was reported yesterday as in good condition.

Ward's address was given as Route I, Montalba, Texas. He apparently was driving at a high rate of speed and was cited by Highway Patrolman Phil Upton for failure to control speed.

Police Report

8-1-71 Red and white Chevrolet trying to kill kittens at Community Building.

8-1-71 Bicycle stolen - 1301 Avenue J.

7-29-71 Disturbance reported - people were just singing.

7-29-71 Disturbance at H & D parking lot reported.

7-29-71 Someone reportedly trying to break in residence on S. W. 15th Street.

7-29-71 S. W. Avenue E - subject drunk and trying to beat up on everyone.

7-29-71 Subjects trying to sell stolen rings (How many, many times has this been tried?).

HOW'S THIS ONE FROM FT. WORTH - Blanche Keyes' sister-inlaw was offered a set of silver at the antique shop she manages. "This sure looks like my set of silver." She called her husband at work. He goes home to check - sure enough - it was her set of

7-29-71 7:39 p.m., lost child at Miller's Mobil - Police notified-7:44 p.m., owners found.

7-30-71 A request was made to officers to make Mr. -. -. ----give her her baby.

7-29-71 Irrigation well battery stolen from J. P. Bingham. 7-29-71 Cow hit 10-15 miles South on Andrews Highway.

7-30-713 small horses on highway one-half mile north on Seagraves Highway.

7-30-71 Three white face cows on highway 8 miles East. 7-30-71 Four more calls on stock on Brownfield Highway.

In other police action for the week - 6 minors were charged with possession of liquor - one with consuming. 2 were picked up on warrants. 3 drunks, 1 theft over \$50.00. One 64 year old indecent exposure. One aggravated assault and one distribing the peace.

The underground cable of the telephone line is being moved west of Seminole. Note the side boom and the ditching machine as they are getting ready for the widening of U.S. Highway 62 west. An irrigation system can be seen adjacent to the work.

100% takeover of Minimum School Foundation Program by the State was defeated in the House. - From A SHORT REPORT by Rep. E. L. Short.

PLANT COVER CROPS NOW

Farmers in the Gaines-Andrews Soil and Water Conservation District are being urged to use available soil moisture to plant cover crops on land not protected by growing crops. Due to the dry conditions that have existed during the spring and summer, thousands of acres in the district have not been planted. Personnel of the Soil Conservation Service state that this land will be highly susceptible to wind erosion this winter if some type of cover is not provided.

By using quick-growing forage sorghums, farmers may possibly get a cover crop started and have the opportunity to get the land protected before frost. All crop residues grown should be left on the soil surface throughout the winter and early spring for erosion control. These crops may be either drilled or planted in rows. SCS personnel state that it is most urgent to plant the crops as soon as possible to utilize the moisture from recent rains.

If a summer growing crop is not planted, small grain may be used used as a cover crop for this winter. The recommended date to begin planting small grains is August 15.

For additional information on establishing cover crops contact the local office of the Soil Conservation Service.

CON'T FROM P. 1

And if you think some of those nuts in that nut bar looked unappetizing, you should have seen some of those hairy apes and those mannequins with that faraway look in their eyes.

Well, so much for the nut bar. I'd like to say a lot more.

Notice to Long Distance Telephone Users

Effective September 1, the charges for long distance calls within the State of Texas will be changed as follows:

- Rates will be reduced on most station-to-station calls dialed direct, without any operator
- New one-minute initial period calls will be introduced, at low night rates, for station-tostation calls dialed direct without operator assistance between 11 p.m. and 8 a.m.* This will make it possible to call anywhere in Texas for 22¢ or less.
- Time periods when the various customer dialed rates are effective will be the same as those for interstate calls.
- Rates will be increased on all person-toperson and station-to-station calls requiring operator assistance in any way, except as noted below.*

*Where direct dialing is not available, the customer dialed rate will be charged for station-to-station calls from non-coin phones, on which the caller furnishes the area code and number, and the call is charged to the telephone from which it is made.

AN ACT

Effective August 30, 1971 relating to the recording and rerecording of livestock brands and marks; and declaring an pergency.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. (a) This Act shall apply to every county in this State. In all the counties, each owner of any livestock mentioned in Chapter 1 of Title 121 of the Revised Civil Statues of 1925 shall within six months after this Act takes effect, have his mark and brand for such stock recorded in the office of the county clerk of the county. These owners shall record the marks and brands whether the brands and marks have been previously recorded or not.

(b). The owner shall have the right to have his mark and brand recorded in his name who according to the present records of the county first recorded the brand and mark in the county, or in event it can not be ascertained from the records who first recorded the brand and mark in the county, then the person who has been using such mark and brand the longest shall have the right to have the brand and mark recorded in his name.

(c). After the expiration of six months from the taking effect of this Act, all records of marks and brands now in existence in the county shall no longer have any force or effect and after the expiration of six months, only the records made after this Act takes effect shall be examined or considered in recording marks and brands in the county.

Section 2. All brands and marks registered under the provisions of this Act shall be reregistered every 10 years in the manner prescribed in Section 1 of this Act.

Pierce and children Tammy and Billy, Jr.

P.C.A. NEWS RELEASE

Area farmers and ranchers borrowed more than \$21\frac{1}{2}\$ million from Lubbock Production Credit Association during the first six months of 1971, according to Alton Strickland, president. This figure represents an increase of more than \$900,000 over the same period last year.

Texas' 34 Production Credit Associations loaned more than \$448 million the first half of 1971, an increase of \$33 million over the same period last year.

Lubbock PCA has offices in Lubbock, Brownfield, Levelland, Ralls, Seminole and Tahoka. The Association makes agricultural loans in Cochran, Crosby, Gaines, Gaiza, Hockley, Lubbock, Lynn, Terry and Yoakum Counties.

"Don't put off until tomorrow what you can do today." This is is an old adage that I am passing along to disabled people under age 65 who expect to be unable to return to work for twelve months or more.

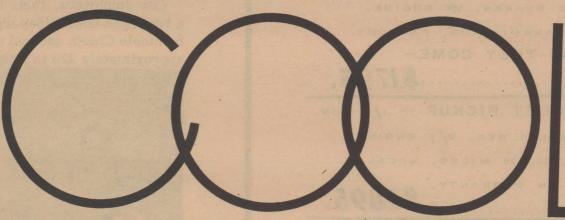

A person does not have to need help to qualify for monthly social security checks. You may be a home maker who has become unable to work outside the home. You may be a youth or the head of a household. Social Security is an insurance and and the individual need is not a qualifying factor. If you are not sure whether or not you have enough work credits, ask someone at your social security office.

Even though there is a sixmonth waiting period after the disability begins and a current medical report is normally needed four months after onset of disability, you can apply the day you become unable to work or any day after. An early application means a first check on time if you qualify.

If you are unable to work, today is the time to apply.

formula for

FREE AIR AND ELECTRICITY

Formula suggests positive results and that's what you're looking for in air conditioning. The successful formula for COOL is free air and electricity. Electric air conditioners are as dependable as your electric refrigerator, can be easily serviced by your neighborhood dealer, and cool your home or business no matter the outside temperature . . . even when the thermometer hits 100 degrees or more. Insist on the correct formula for cooling success.

HAVE YOU EVER SEEN A HUMMINGBIRD'S NEST?

Woodie Bice asked "Have you ever seen a hummingbird's nest?"
Believe it or not, he had one at his back window with two baby hummingbirds in it. Hummingbirds' nests are difficult to locate and difficult to watch because as the babies grow up in their three weeks in the nest, they flatten the nest out so they can be pushed aflight at the proper time.

In 1646 one writer was quoted as saying the wren was the least of all birds but when the new world was found approximately 300 species of the hummingbird were found. If you want to find out more about hummingbirds, call Mrs. Dale Winks at the Gaines County Library. The nest starts out, so the library book says, at 3/4 inch in width with two eggs being laid of $\frac{1}{4}$ inch in length. The largest hummingbird in Cuba measures up to 8 inches in length while the largest ones in our area measure about $2\frac{1}{2}$ inches long.

Nests are dainty cup shaped affairs built of plant-down and spider webs and covered, externally, with bits of other material which makes them appear like a natural portion of the support on which they rest. The material is held together by saliva of the birds. The young are hatched naked, have short bills at first and remain in the nest for two or three weeks. Over two weeks are required to hatch the eggs. The tiny hummers are hatched naked and for a week or ten days are very weak and puny. They are fed on a mixture of nectar and small insects.

The male does guard duty nearby but rarely if ever visits the nest. His mate performs all the duties of housekeeping from the beginning to the end. Hummingbirds are terrible fighters and as Woodie says, "they give the cats around here a fit." Hummingbirds have been known to fight each other, fall to the ground and come to, only to rise and strike again. They hit like paired bullets and fall again. (Editor's note: Because of the

Section II Seminole, Gaines County, Texas

Editoria

by Lou Birdwell

While many of Seminole's 1971 graduates are admiring newly turned around class rings, the time to go off to college is near. The last weeks of August and the enrollment in college is not only an experience for the new student but for his parents as well. Fathers learn and wonder why their daughters need from 25 to 30 pairs of shoes. It is the greatest show on earth to see a father juggling his daughter's shoe boxes up to her new room.

August is also the month mothers begin teaching their sons and daughters the finer arts of washing, ironing and hanging up clothes. An art most boys just as soon ignore.

College is here and two mothers of roommates meet. If this meeting should take place in any other place than a dorm room, one would have the impression these women were top rate interior decorators, for this is the moment mothers are planning the color scheme, bedspreads, curtains, towels, etc.

Finally the parents leave but not till after delivering last minute instructions. At this moment the roommates are alone to talk and fill out their room inventory sheets. A word to the wise: Take time and fill out this form to the "Nth" degree. The reason is that if you overlook a damaged part of your room you could very easily be charged for it (taken out of your room deposit) in the spring when you leave.

It is the author's opinion that people from the same town should not be roommates. Even though you may be best of friends, part of college is meeting and living with people from other parts of the state and nation. Friendships made during the freshman year are usually the most lasting friendships made during your college career.

Because you will living with a stranger or even a good friend for the next nine months, there are certain details that need to be discussed and worked out your first day at college. Roommates need to sit down and discuss the guidelines they will live by. The upkeep of your room is a most important topic. One guy I knew in college enjoyed molding his own chess sets, leaving the room with the smell of a blacksmith shop. Another guy had a complete set of barbells, including a bench (centrally located in the room) for bench pressing. Even though these things are handy, they can be very aggravating to a roommate after a few months.

Discussion with your roommate concerning study hours is of importance - whether or not the radio, TV or hi-fi is to be played, whether visitors should be invited in. Of utmost importance is a feeling of mutual consideration between roommates.

At college one has lots of free time so it is very important to learn to budget this time. This time may be used to study between quizzes instead of cramming a few days before.

Men and women who go to large colleges often make the statement that their profs do not have the time to help students. The first class meeting, be sure to take down your prof's office hours and meet with him when you have a problem. I have yet to meet a prof who was not ready and willing to help a college student, if only the student was ready and willing to help himself. Each prof is required to keep office hours in which he may aid the student. Take advantage of these hours and meet your prof out of the classroom. Who knows, these visits could and can give a student a few badly needed points at the end of a semester.

Another help in college is to join a club that is sponsored by one's major department. This club will help the student in obtaining a better understanding of his major, out of the classroom. Don't just attend college, but become active in, and participate in different activities. Good lucks

About the author: Lou Birdwell is a 1970 graduate of Texas Tech University. While at Tech, he was president of Weymouth and Murdough Halls, Texas representative to the National Association of College and University Halls Convention at Penn State University 1968 and at California State University 1969, 1970 Finance Department Representative to Student Advisory Council for the School of Business. Presently he is managing the 4-L Ranch in western Gaines County.

NEW TELEPHONE RATES SEPT. 1

DALLAS--An adjustment of long distance telephone rates, which features a new reduced rate for Direct Distance Dialing and increased rates for operator-assisted calls within Texas, was announced today by Southwestern Bell.

Scheduled to go into effect September 1, the adjustment should increase gross revenue by about 2 per cent, or \$15 million annually. H.D. Schodde, vice president for Southwestern Bell operations in Texas, said the after-tax result will be an increase of \$7 million in net operating revenue. "That amount should assist the company in maintaining its earnings in the range of 5.3 per cent on the value of its property in Texas," Schodde said.

The new rates represent the first major long distance rate increase in the state since 1955. The company reduced rates \$6 million annually in 1967.

Schodde said the adjustment closely parallels a trend by AT&T and other operating telephone companies to place increases on calls which require operator assistance, and provides a reduction for station-to-station calls which customers can complete themselves. "It costs us more to provide operator assistance, "Schodde said," so that's where we're placing most of the increase. On the other hand, customers who dial their own station-to-station calls should have the benefit of a reduced rate."

Schodde emphasized that the estimated two percent increase in company revenues was based on present customer calling habits. "If customers dial more of their calls, the increase would be less," he said.

In addition to the new reduced rate for Direct Distance Dialing, the adjustments also call for the introduction of a one-minute initial rate period (rather than three minutes) on "night" Direct Distance Dialing; new rates for all operator-assisted -- station-to-station and person-to-person -- calls during all calling periods; and establishes rate periods (day, evening, night and weekend) and DDD calls which are the same as now in effect for calls going outside of Texas.

Two holidays -- Labor Day and July 4th -- also have been added to the list of days on which reduced rates apply for DDD calls.

We've been able to avoid making an adjustment on intrastate rates due to improved technology," Schodde said. "However, the high cost of borrowed money and increased operating costs, including taxes and wages leaves us little other choice now than to place the new rates in effect. We hope customers will take advantage of the reductions which we're offering in this package to keep their individual costs as low as possible."

Comparing previous rates with those which will go into effect September 1, Schodde pointed out that an evening three-minute station-to-station call under previous rates for a distance of 300 miles would have been 85 cents. The same call under the new customer dialed rate would be 66 cents. Schodde also noted that a call after 11 p. m. anywhere in Texas would cost 22 cents or less under the new one-minute initial rate period.

Under previous rates, a three-minute person-to-person daytime call up to 300 miles would have been \$1.70. Under the new rates, the same call would be \$2.30.

The new DDD rate will be available in towns which are not equipped for DDD when station-to-station calls are placed by providing the operator with the Area Code and complete telephone number, and when the operator is not required to provide any additional assistance.

Lonnie Freyburger, left, son of Mr. and Mrs. Jim Freyburger, and Gary Wayne Roberts, son of Mr. and Mrs. E. L. Roberts, have been attending the Ft. Smith, Arkansas Auctioneering School. They successfully completed the course of study in auctioneering. They will continue their training under Kenneth Bozeman, a well known auctioneer from Lubbock, Texas.

FUNERAL SERVICES HELD FOR MRS. BRITTON'S FATHER

Funeral services for D. D. Dickenson, 92, father of Mrs. Joe Britton, were held Friday at 3:00 p.m. in Abilene.

Mr. Dickenson, who has been in ill health for some time, died Wednesday. He and Mrs. Dickenson celebrated their 70th wedding anniversary last December.

Survivors other than Mrs. Britton are his wife; two sons, Carrol of Abilene and Curtis of Sweetwater; a daughter, Mrs. Alton Burleson; three sisters, one brother, ten grandchildren and 27 great-grandchildren.

Mrs. Mary Jo Kennedy attended the funeral of her uncle,
Marion Stout, in Albuquerque,
New Mexico Tuesday.

FORMER SEMINOLE RESIDENT BURIED FRIDAY

Funeral services for Jack Floyd Jones, 56, of Monahans were held Friday at 2:00 p.m. in the First Baptist Church with burial in the Monahans Cemetery.

Mr. Jones, a former Seminole resident, was pronounced dead on arrival at Ward Memorial Hospital last Wednesday from an apparent heart attack.

Survivors include his wife, Macy; two sons, Billy Ray of Mesquite and Jimmy Floyd of Lubbock; a brother, two sisters and two grandchildren.

CRAFT OPEN 10 A.M. - 6 P.M.

IDEAL BARBER SHOP

to the EDITOR

Dear Editor:

Thought it was about time to let everyone hear from Ben. He is feeling fine, seldom stays at the center anymore. He is on the machine on Tuesdays and Fridays. The other days he can do as he pleases as long as we can be reached in case they get him a kidney. Right now it is a matter of killing time and waiting on a kidney. So far he is keeping his spirits up pretty good.

It is awfully hard to find something to keep him busy. But most weekends the nephew tries to take him somewhere. One Sunday we went to the museum and zoo in Houston. Last Sunday we all went fishing. Didn't catch a thing.

Oh, yes! Ben's sister is doing fine. She is back at work. Says she has to move a little slower right now but that is all.

It is pretty down here but this family is ready to see some of our ole dry dead country. Maybe it won't be too much longer.

> Sincerely, Mrs. Ben White

SERVICES FOR LOCAL RESIDENT'S SISTER HELD

Funeral services for Mrs. Emily Lydia Harrell, 70, sister of Raymond Anderson, Rt. l, will be today at 11:00 a.m. in the First Baptist Church at Stanton with burial in Evergreen Cemetery.

A resident of Stanton 47 years, Mrs. Harrell died Monday in a Big Spring Hospital following a lengthy illness.

Survivors other than her brother include a son, two sisters, four grandchildren and three great-grandchildren.

Doug Wood, evangelist; Garland Martin, singer; Peggy Robertson and Karlene Eastman, all from Hardin Simmons; are shown with a group of young people from South Seminole Baptist Church at the youth revival which was held last week.

Gaines County Farm Supply

PURINA HEALTH PRODUCTS

Gaines County Farm Supply was purchased in 1965 by its present owners from Mr. Virgil M. Briggs. The farm store employs ten people: Melvin Luna, Melvin Fleming, Gary Fitzgerald, Jimmy Fitzgerald, Hazel Huffman, Pearl Stanley, Nolan Sweatt, Delton Mills, Leon Foote and Tommie Foote.

The specialty of the store is Purina products, handling all kinds of Purina feed, mixes and health products for farm animals. The past few days the entire organization has been busy trying to fill the demands of sudans, canes and fast growing feeds to plant behind the late coming rains. Their main supplier is Yield King from Hunt Seed Seed Co., Inc. in Lubbock. Besides garden supplies, tools and seeds, the establishment sells fertilizer, Oxidental being the main brand. A complete line of riding gear is maintained - ropes and other leather goods for horses. Three brands of dry dog food is carried -Purina, Imco and Sport Club. They also sell the following chemicals - Treflan, Plantain and Docthal.

Nolan Sweatt is the equipment manager and salesman for New Holland and Allis Chalmers. He points out that New Holland has an outstanding line of having equipment and grinding equipment. The farm store is directed by its manager and a partner Leon Foote.

Around Town Jackie Squires

It's getting so congested around our house lately it's hard to find a parking place. I remember JEAN HELTON saying not long ago she bet the neighbors thought they were running a used car lot around their house, with each of her grown children having their own car. Now it's the same at our house, with the family car, a pickup (wrecked), PAM'S car, CHARLES' company pickup and the latest addition, GARY'S car, and, if you please, an old '63 Chevy they are working on in the back yard. Neighbor PORTER FITZGERALD asked me Sunday if we had a license for running a used car lot and GEORGE CRISTY said he thought we just had been having an awful lot of company lately. Every time I leave for work I have to awaken someone to have them move their car so I can leave. You've always heard you can tell a rich Okie from a poor one by the number of mattresses he carries on top of his car. Well, I can sure show you some "Car Poor Okies" and I mean that literally. When you think of buying tags, stickers, insurance, gasoline, garage bills, etc. for five vehicles, man, that leaves you poor. Oh, well, I predict to ever get the atmosphere free of pollution we'll eventually revert back to the horse and buggy then all we'll have to worry about is a feed bill and

GRANNY EVELYN HENSON shopping at MARYKAYS with her one and only granddaughter, KIMBERLY and daughter, GLEN-DA KIRKIEN, who is visiting from Abilene.

Our boss W. W. said before he left for the Lions Club meeting Tuesday that MARCUS CROW has even quit throwing things since he was appointed judge. (Bet the other Lions wish they would appoint W. W. to a dignified position so he would behave.)

GINGER BUZAN attended the new trend release at Jessie Lee's School of Beauty in Lubbock Sunday afternoon. The new fall trend in hair styling is the "Rickety Rack", a long fluffy cut which Ginger described as "going every whicha-way."

MRS. J.B. DYESS, SR.back at RAY'S after taking a months vacation visiting friends and relatives in Oklahoma, Arkansas, Missouri and Louisiana. CHARLES RAY was glad to have his helper back.

The A. L. PAYNES and the TERRY STARKS out Monday for an evening stroll.

BILL FLEISCHER'S parents, MR. and MRS. STANLEY FLEISCHER from Sierra Vista, Arizona came for a visit recently, the object being to take their granddaughter, JAMIE, home with them. They did and now BECKY and BILL think eight hundred miles is too far away for their baby.

Look out for me because I'll be seeing you AROUND TOWN.

Folks & Facts

Bob Keyes visited Mr. and Mrs. V. N. Keyes and JoAnn last week. He is attending the Texas Coaching School in Ft. Worth. Bob will be moving to Graham where he will be an assistant coach.

LUBBOCK FIRE MARSHALL GUEST AT LIONS CLUB

A. C. Black, fire marshall? from Lubbock, Texas, spoke to the Noonday Lions Club yesterday and pointed out the big advantage the city of Seminole has over a lot of other towns of its size, its good fire record and it has a 10% reduction in cost of insurance. Other towns have as much as a 15% add-on, making the rate 25% less than many other towns. (Lubbock has a 10% add-on.)

He went on to say that last year \$270 billion was lost in fire, 13,000 lives with 67% being younger than 12 years. "How many homes have a fire drill? How many of you know to roll off the bed if you smell smoke, stay close to the floor and try to plan a course of action? One day in the United States without a fire would support the war in Vietnam," Mr. Black said.

He also pointed out that 51% of businesses that burn out either close out forever or reopen in another location. The key rate, or cost of insurance. in any town has to do with the fire record, availability of water, the fire department, the police department and amount of machinery. The city of Seminole officials, the police department and the volunteer fire department are to be congratulated because of past history concerning fires and the good rate extended to citizens of this city.

TAX REPRESENTATIVES HERE

Tax representatives from
Atlantic Richfield Co., Amerada Division of Amerada Hess
Corporation and Mobil Oil Co.
visited in Seminole last week
and are to be back in Seminole
today to discuss with the local
commissioners court their suit
concerning taxes and re-evaluation.

700 SOUTH MAIN

Mrs. Mary Jo Kennedy can be seen with a group of travelers from the United States as she walks by the famous wailing wall in Jerusalem. The man in the foreground is Charles Baucaum of York, Nebraska and is a nephew of Mrs. Millett Vuicich of Seminole.

758-5574

Mary Jo Kennedy with a headdress from Egypt or Israel poses with many maps after rreturning from an extended tour. Mrs. Kennedy left Seminole on July 4 and flew from New York to Moscow on July 7. From Moscow the tour she traveled with went to Cairo, Egypt. Other major cities visited included Nicosia, Tel-Aviv, London, Athens, Rome and Jerusalem. She arrived back in Seminole August 1.
