

## AROUND REESE

Major Irwin L. Ungerleider has assumed the duties of wing adjutant succeeding Major William S. Hale who has been reassigned to Headquarters Squadron, 3500th Maintenance and Supply Group.

Personnel of Reese are cordially invited to attend a pictorial presentation of films taken recently in Palestine. They will be shown tonight at 2000 hours Mr. E. F. Weber of Oklahoma City, at the First Methodist Church, Broadway at Avenue N in Lubbock. Mr. Weber will give a descriptive speech with the films.

Since Armed Forces Day is being celebrated in Lubbock on 22 May, it is requested that all military personnel who attend church there wear their uniforms to call attention to their branch of service on this particular Sunday dedicated to the Armed Forces.

A salute to the 3500th Training Squadron (Military) which is the only squadron on the base where the men have a 100% \$10,000 insurance coverage.

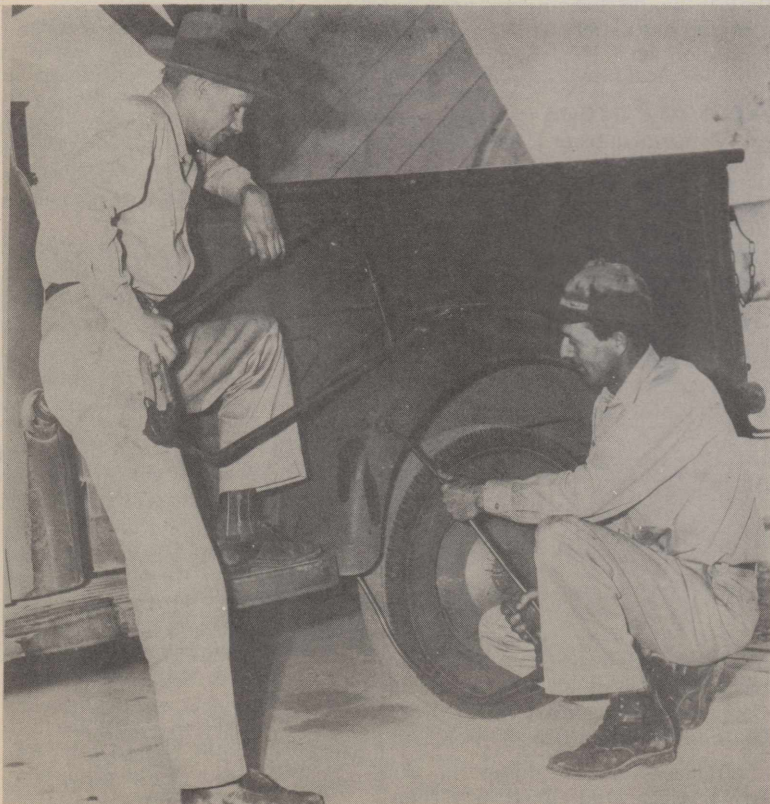

New "fledglings" have arrived this week in the homes of Master Sergeant and Mrs. G. L. Thomas, a son; Staff Sergeant and Mrs. Johnnie Durosco, a daughter; Captain and Mrs. W. M. Estes, a daughter and Master Sergeant and Mrs. Louie Fester, a son.

Recent rains have given the base that greenish spring appearance. But a pat on the back is in order to the men of Air Installations who kept the grass and trees green with daily watering until the rains appeared. They are doing an excellent job of keeping the base in tip-top shape.

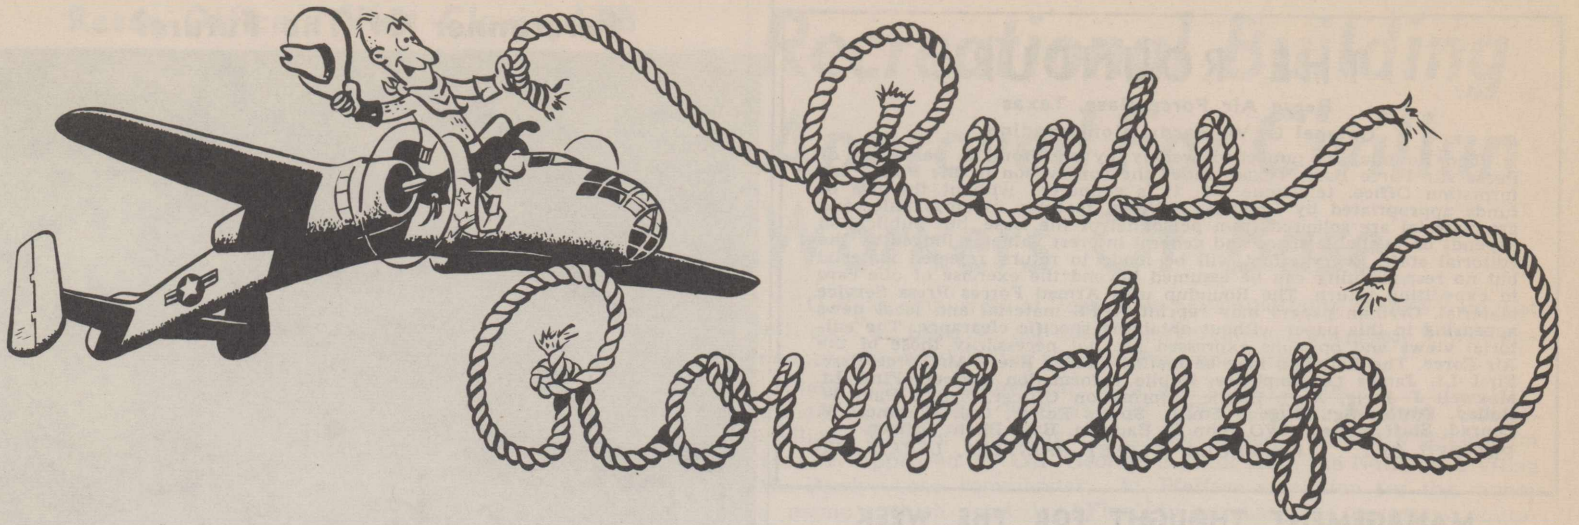

### First Legion Dance Saturday Evening

Saturday nights will no longer be dull for Reese's airmen! Starting this Saturday a juke box dance, sponsored by LSO, will be held for them from 2030 to 2400 hours at the American Legion Hall's ballroom, 910 Texas Ave. Another dance is also scheduled for the following Saturday, 27 May. There will be no charge for the dance and Hub-ettes will be the hostesses. Married couples are also invited. Refreshments will be served.

### Civilian Personnel Win Award

Two civilian workers in the motor pool repair shop, Mr. Arless L. Prather (left) and Mr. Edgar A. Dunlap, demonstrate the practicability of their new invention, for which suggestion they recently received an 80 dollar check. (Photo by Cpl. Conrad)

# Armed Forces Day Monday

## Unification In Operation

Demonstrating that unity in the Armed Forces is a reality instead of a "pipe-dream" are these three members of the different branches of service who are stationed together at Reese, and at the Naval ROTC in Lubbock. They are (l. to r.) 1st Lt. Richard H. Brownley, USA maintenance and repair officer for Company A, 809th Engineer Aviation Battalion; Lieut. John E. Rugic USN, officer in charge of naval reserve training in Lubbock; and Lt. Col. John W. Jones USAF, assistant executive officer at Reese. (Photo by Cpl. Conrad)

## Motor Pool Employees Invention Saves Base Money, Man Hours

Two civilian employees of the automotive maintenance section

of the motor pool, Edgar A. Dunlap and Arless L. Prather, recently invented a new device to pound out dents in fenders. They submitted information on their new sheet metal dent remover under the suggestion program, for which they will receive an \$80 award.

It is estimated that through the use of their unusual gadget an average of one and one-half hours per day per man could be saved. Since the automotive maintenance section employs three sheetmetal workers, approximately 1100 man hours per year could be saved. Using 1100 manhours at the hourly rate of \$1.48 as a basis, a total (Continued on Page 2.)

## New Weather Aid Is Under Construction

A 75 foot radar tower to house a radar storm detector is under construction by workers under the supervision of the Oklahoma City Air Material area. The tower, of metallic construction, is being built near the south control tower.

A metallic hut will be mounted on it in which will be located a radar scanning unit. The radar storm detector is used to find, follow and measure the paths of thunderstorms and precipitation areas.

The unit will be operated by weather observers and forecasters from a console located in the weather station.

## General Bradley Will Address Residents Of South Plains At Rosenthal Park

The first annual Armed Forces Day will be celebrated Monday in Lubbock with Reese Air Force Base, Army, Naval units, civic and veteran's organizations joining together to honor the men and women of the Armed Services. Highlighting the day's celebration will be an address by General Omar N. Bradley, chairman of the Joint Chiefs of Staff, at 2000 hours in Rosenthal Park.

## Reese Takes Over Clovis Air Base

Reese AFB took over official jurisdiction of Clovis AFB, New Mexico last Friday, 12 May. The Base which was a replacement training unit center for B-24's and later became a B-29 base during the war, will be used as an auxiliary landing field.

Colonel George W. Pardy, base commander, expressed himself "as satisfied with the adequacy of Clovis AFB to the needs of our pilot training program."

At the present time a detachment from Reese, consisting of one officer, one NCO, and eight civilians fire-fighters, are on duty at Clovis. Captain Tarlton B. Stabler is CO of the detachment.

The base has been under the jurisdiction of the Strategic Air Command on a standby basis. It is also used by the city of Clovis as a municipal airport.

With the addition of the Clovis base, the use of the Lubbock municipal airport is solved, Colonel Pardy stated, except for some future emergencies, such as weather conditions at Clovis.

A parade at 1000 hours will open the day's program. Units will start marching from Broadway and Avenue F, Lubbock and proceed westward on Broadway.

Civic clubs of Lubbock will honor General Bradley at a barbecue to be held at Rosenthal Park at 1830 hours. Tickets for this event are available at the squadron orderly rooms, Public Information Office and Training and Operations office in Wing Headquarters.

In connection with Armed Forces Day the city of Lubbock will dedicate its new administration building at the Municipal airport Monday afternoon.

The three services of the Armed Forces will have a series of static displays adjacent to the Naval Reserve Training Center on College Avenue in Lubbock. Displays will be open from 1230 to 1830 hours on Sunday and from 0800 to 1200 hours on Monday.

A formation of 18 B-25's will fly from here over Littlefield, Amarillo and Plainview, Texas, tomorrow. The base will have one B-25 on static exhibit at Hale County Airport, Plainview, tomorrow.

Equipment for the static display (Continued on Page Two)

## Flying Instructors At Reese

These members of Flight E, Section II, have the job of finishing the training of aviation cadets assigned to Reese for multi-engine pilot training. They include, (l. to r.) Capt. Russell E. Kline, 2nd Lt. Jay L. McDonald, 1st Lt. Maurice M. Kersey, and Capt. Robert Tyrrell Jr. Those in the back row include (l. to r.) 1st Lts. Norman J. Fowler, James Muehlenweg, Ralph H. Wilhite, Lyle F. Palmer, Robert B. Bailey, and Harry L. Wharton. (Photo by Cpl. Conrad)

## THE ROUNDUP

Reese Air Force Base, Texas  
Colonel G. W. Pardy, Commanding

The Roundup is published weekly by and for the personnel of Reese Air Force Base, Texas, under the supervision of the Public Information Office, telephone 179. It is supported without the use of funds appropriated by Congress. News, features, photographic, and art material are solicited from personnel of the Base, but publication depends on available space and general interest value as judged by the editorial staff. Every effort will be made to return rejected material but no responsibility can be assumed beyond the exercise of due care in expediting return. The Roundup uses Armed Forces Press Service material. Civilian papers may reprint AFPS material and local news appearing in this paper without obtaining specific clearance. The editorial views and opinions expressed are not necessarily those of the Air Force. The Roundup may be mailed outside Reese Air Force Base. First Lt. James O. Umphries, Public Information Officer, First Lt. Maxwell J. Ihrig, Ass't. Public Information Officer, S/Sgt. Paul W. Holley, Editor, Sgt. Eugene Smith, Sports Editor, Cpl. Clarence W. Conrad, Staff Writer, CWO John P. Baucum, Base Photo Officer.  
PRINTED BY WEIMHOLD, OFFSET PRINTERS, LEVELLAND

### MANAGEMENT THOUGHT FOR THE WEEK

"Good ideas are possessed by more than a few. Consideration must come before implementation. Whose ideas do you consider?"

## KADET KORRAL

### ANOTHER ESTES TO CONTENT WITH

Class 50-B did not by any means steal the show on Friday, 12 May 1950. Seems that day was very popular for the starting of careers. In the home of CAPTAIN AND MRS. ESTES, the fair sex took over in the form of an 8 pound ½ ounce girl named ELIZABETH ESTES. In behalf of all the Cadets, we offer our sincere congratulations. Incidentally Captain, we were informed by an outside source, that they are "cheaper by the dozen."

### ARE WE LOOKING FORWARD TO THIS?

Did anyone get the final count of the WEDDING CEREMONIES that took place in the BASE CHAPEL, Friday? From the information we were able to gather, 50-B (That is, several members of that extinct class) decided to hold their own OLYMPIC DIVING CHAMPIONSHIP. As the Chaplains fired the starting gun, each couple took their turn at the altar, and plunged into the SEA OF MATRIMONY.

It may be an old fashioned idea, but we still think it PAYS TO ADVERTISE. Come on you gentlemen on the entertainment committee, lets get the notices out where everyone can see them and incorporate a little "word of mouth" advertising. Our "dear" CADET CLUB has only gone from 1st to 35th place on the Base Improvement list! LET'S GET WITH IT!!

### CLASS 50-C

Our boy KLOPP, holder of the distinguished title, "Command Pilot" of the sack, went sailing off for San Angelo last weekend. It couldn't be that he went to the "Mohair capitol of the world" just to show Dorothy the three stripes he's now sporting!

"Flaps" HILTON would like to know just why the dogs all think he is a rabbit. His ears aren't that big, and he always eats a carrot before he goes "night flying."

There seems to be quite a collection of "smouldering boulders" in Flight "G." All but one or two have passed their instrument checks, and MR. WILKE, rather than waste all that ime, passed his in just a little over FIVE hours!! (Hot?)

### CLASS 50-D

"Hey gimmie a back-pack," is what the boys at the parachute "shack" are hearing from 50-D. Monday morning they shook the "Terrible-halfdozen" and traded it in for the "Big-twobits" and found out that "sea-level stop" is a lot farther up on the throttle quadrant. There is also a few more than 550 horses in those engines boys.

We see that 50-D men also are attracted by the Mohair Capitol! "Lover boy" COHAN would have made it last weekend but he had to fly Saturday afternoon and missed his ride. We are now waiting to see if 50-E will also make weekend trips to the "fair" city.

### CLASS 50-E

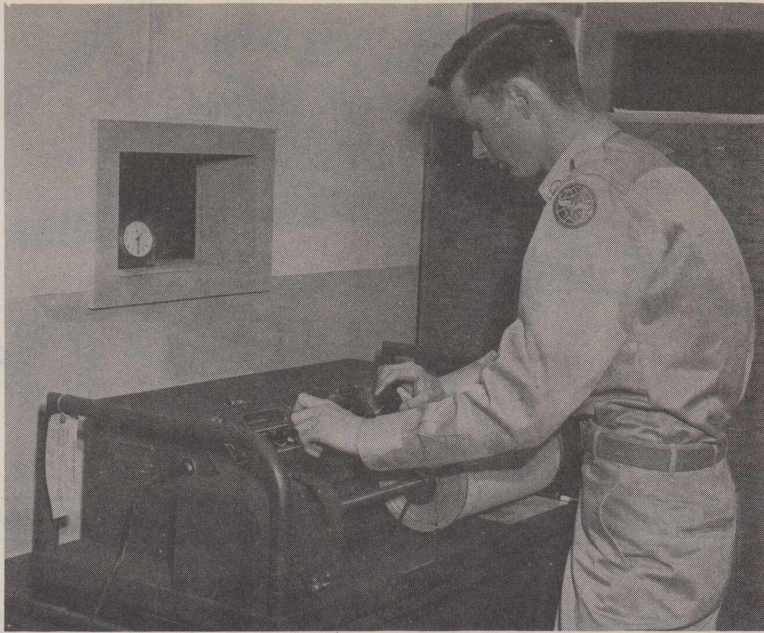

Welcome to Reese Air Force Base. You "lucky" boys!! Just because you arrived along with this nice fresh rain, don't let it disillusion you. CLASS 50-D arrived right after the beginning of a beautiful dust storm, and it was three days before it cleared sufficiently for us to see and meet our roommates. All-in-all, you won't find it too bad. Of course there aren't any women, grass, whiskey, or interesting things to do on weekends, but what do you expect? Here's our hand in a warm welcome, and we hope your mission here will be accomplished. Good luck and happy turbulent flying to "y' all".

### Tippitoons

"ARE YOU SURE, PRIVATE?"

## Forerunner Of The Future?

Corporal Joe L. Tyson, weather observer at the base weather station, adjusts the control switch on a facsimile transceiver. This machine records maps and other weather data transmitted from the centralized Weather Station in Washington, D. C. Other bases about the country are receiving the same information at the same time.

(Photo by Cpl. Conrad)

## Weather Station Has New Facsimile Setup

Printing presses and newsboys may soon be obsolete! "The newspaper of tomorrow will bring you news and pictures of events as they happen by a new medium, similar to the facsimile transceiver now in operation at the base weather station," predicts S/Sgt. Harriman E. Lolley.

Sergeant Lolley, who is a teletype and facsimile transceiver mechanic of the 1900-6 AACSS Squadron, backs up his prognostication by pointing out that the facsimile machine now in use at Reese will transmit or receive a page of copy 12 by 18 inches in 20 minutes.

"Colored copy may be transmitted," he added, "but all reproduction is in black, white, and intermediate shades of gray. Received copy is recorded either directly or chemically treated paper or photographically in either negative or positive form."

Electrical signals received by the facsimile receiver are ampli-

fied and serve to actuate a recording mechanism which makes a permanent record, spot by spot, on the recording paper on the synchronized receiver drum until the complete original picture or copy are reproduced.

Synchronization is obtained by constantly driving both receiving and transmitting drums with synchronous motors operating at identical speeds. This is due to the phasing magnet in the receiving machine which is synchronized to the transmitting machine.

For example, all weather stations (Army, Air Force, Navy, and civilian) daily send in their weather observations to Washington, D. C., where the data is compiled. A composite map of prevailing weather conditions is then in turn transmitted by Washington, D. C., to all weather stations, including Reese, by the use of facsimile transceivers.

Such a machine may soon become a reality. With improved manufacturing techniques this machine may in time be sold in mass volume and be within reach of the average householder, so that it would become as popular a household article as the radio or television set.

### Armed Forces -

(Continued from Page One)

plays at the Naval Training Center is being furnished by the Air ROTC, Army ROTC, U. S. Navy, 132nd Field Artillery Battalion, Texas National Guard and Reese Air Force Base.

The display will include small arms, dummy ammunition, howitzers, cut-away airplane engine, weather station display, electronics equipment, the recoilless rifle and other equipment used by the Armed Forces.

### Local Lawyer Talks To Holy Name Group

Casey Charness, Lubbock attorney, addressed 40 members of the base Holy Name Society at a Communion breakfast in the NCO Club on Mother's Day.

Mr. Charness, a major in the Army Organized Reserve Corps, addressed Holy Name members on the subject of "motherhood" and Father Frank J. Gilchrist, Catholic chaplain, made a few brief remarks on the subject.

## DIVINE SERVICES

**PROTESTANT**—Regular Sunday services: Morning Worship at 1000 and 1100 hours, Base Chapel. Sunday School in Annex Building T-31 at 1000 hours. Midweek Evening services, Prayer, and Bible study on Wednesday at 1900 hours.

**CATHOLIC**—Sunday Mass at 0900 and 1215 hours, Base Chapel. Weekdays; Mass at 0720 hours. Confessions before all masses and Saturdays, 1900-2000 hours. Evening devotions on Tuesday at 1930 hours.

**JEWISH**—Services held in the Base Chapel at 1200 hours each Thursday. Services are conducted by Rabbi Kerman of Lubbock.

**PROTESTANT CHOIR PRACTICE**—Each Thursday evening at 1900 hours in Base Chapel.

**CATHOLIC CHOIR PRACTICE**—Each Tuesday evening at 2000 hours in Base Chapel.

**CHAPLAINS**—Lt. Col. James M. Becker (Protestant), Capt. Jared A. Walker (Protestant), and 1st Lt. Frank J. Gilchrist (Catholic).

## "YOUR CHAPEL"

"Be Slow To Speak"

It is always risky for any of us to talk about anyone else but we must take the bull by the horns and mention the fault that most of us discover upon examining our character. The Lord must have realized how difficult it would be for us to keep our speech charitable because one of the last things He told His Apostles we "love one another." We are not so liable to show our hatred or lack of consideration for each other in actions because we are liable to courts of law for those actions but with our tongues we can sometimes inflict just as much damage.

Verbal damage done by the tongue can all be catalogued as gossip but we had better break it down into classes. There is first of all what we might call detraction. This takes place when we repeat to someone who did not already know, the fault of another. We might think this is not bad, because after all it did happen. But by applying the Golden Rule we find that we don't want others to broadcast our faults so we should forget the faults of others that we witness. Another way in which we can evidence lack of charity is by calumny. This is more malicious than the other because when we are guilty of calumny we lie about facts to injure a person's character.

The evil in gossip, be it detraction or calumny, is that we have harmed a person's character or good name. It is interesting to note that soon after protecting life and the family, God protects character by insisting "Thou shalt not bear false witness against thy neighbor."

Our good name is a valuable possession, not to be compared with silver or gold or material holdings of any kind. Ours we guard jealously, others we should protect as much as possible.

The story teller is usually an odd person, one who knows little good but remembers faults with the tenacity of a genius. We are all guilty to a certain extent. We are tempted to mention the latest "dirt." An easy way to check ourselves is to realize that when we are wrong we are liable to be victimized by another gossip just as we are harming someone by repeating true faults or inventing false ones.

FRANK J. GILCHRIST  
Chaplain (1st Lt.) USAF  
Ass't Wing Chaplain

A recent engineering survey has shown that there are seven miles of pavement on Reese Air Force Base. Quite a stretch to cover on foot.

## Ways Of Acquiring A High School Diploma Explained

(Editor's note: This is a third in a series of articles prepared by AI and E personnel concerning educational opportunities available to airmen and officers.)

How does the individual go about obtaining a high school diploma through the AF Educational Program?

Last week it was brought out that each individual trying to qualify for high school graduation through the AF Educational Program: successful completion of the USAFI high school level GED test the successful completion of USAFI correspondence courses in high school level subjects. Both are subject to the prior approval of the high school principal from which the diploma is desired.

The first is the easiest although it is not always the most desirable. It involves only about 10 hours of work on the individual's part. Personnel with some high school in most cases can pass this test.

Personnel with no previous high school or equivalent experience are usually advised to undertake some correspondence work before undertaking the test, usually in English or mathematics. The high school level GED test can be taken only twice. If an individual fails any part of the test he must undertake further study in the part failed before he is permitted to retake the test.

This is accepted by most state departments of education as a basis for awarding the service man a high school diploma or certificate of equivalency.

There are however some limitations to their acceptance of the test. Usually the individual must be at least 20 years of age, meet the deadline date set from the time of his entry into service and in all cases his class must have already graduated from high school.

Next week will take up the second method of acquiring a high school diploma through USAFI courses on a high school level.

## Military Chorus Has First Meeting Today

An all military chorus is being formed here and will hold its first rehearsal in the Service Center tonight at 2015 hours.

The chorus will be under the direction of Corporals Mike J. Dunn and Al Schultz. It is being formed to provide entertainment for those who like to sing and also at later dates to give concerts on the base.

Military personnel interested in singing are asked to attend tonight's meeting.

As tonight's meeting is the first one, Corporal Schultz stated that it will be an organizational one.

## Reese Officers Visit Clovis AFB

Thirteen officers from Reese AFB flew to Clovis AFB, New Mexico, on 11 May to meet city officials there and make provisions for the base's reactivation. They are seated (l. to r.) Colonels George Blase, George Pardy, and Hugh Wallace. Those standing are Maj. Clarence Lollar, Lt. Clyde Smith, Maj. Jay Stansbury (SAC), Mr. Wm. Lassiter, Fire Chief E. A. Stewart, Col. Galen Price, Lt. Maxwell Ihrig, Maj. Joseph Stulb, Capt. James May, and Maj. Lee Lambert.

(Photo by Cpl. Conrad)

## Graduation Speaker Says These Are Most Perilous Times Known

"You are living in the most perilous times the world has ever known," Dr. William H. Alexander warned the 54 aviation cadets, their relatives, and members of the Reese complement who attended the graduation ceremonies held in the Base Theater last Friday morning.

Dr. Alexander, pastor of Oklahoma City's First Christian Church and Republican candidate for senator, pointed out that the great Albert Einstein recently told him that he didn't know what weapons would be used in World War III but that he did know that in World War IV men would be fighting with sticks and stones.

He compared the present position of the United States to a train, loaded with high explosives, going madly on its way at 90 miles an hour with a cliff ahead, while the government, uncertain where it is going because the windows are blacked, keeps piling on fuel in the form of money.

In a more optimistic note he added that despite these perilous times and the new scientific inventions of destruction the great things of history have always belonged to the people who had great ideas and used them.

The doctor based his talk, "Open Windows," on the theme that Americans today must open their windows toward Athens, representing religion; and toward Damascus, representing the right decisions in life.

"To cure the world's present ills, we need intelligent thinking, not prejudice or wishful thinking. We must agree on the great issues — the fatherhood of God, brotherhood of man, and the infinite worth of human personality. The spirit of Christ must be revived!

He told the newly commissioned officers in conclusion, "You are the guys who'll make God's dream come true. In a great tradition to protect the liberty that is fast leaving our world, you are its hope!"

Chaplain Frank J. Gilchrist gave the invocation at the beginning of the program, which was followed by a brief address by Col. George W. Pardy, base commander.

After the principal address given by Dr. Alexander, Capt. Ramon R. Milton administered the oath of office to the graduating class, and wings and diplomas were then presented. Captain Clyde W. Bradley, Jr., CO of the 3500 Tng. Sq. (Mil.), read the roll of graduates.

## Merchandise Order Office Opened By Women's Clubs

The Women's Club and NCO Ladies Auxiliary are sponsoring a special merchandise order department in the Thrift Shop to aid military personnel here to obtain various items of merchandise from local and out-of-town merchants at a discount.

This new department of the women's clubs opened today. All profits derived from its operation will be used to defray the operating expenses involved and to finance welfare work at Reese.

Armed Forces personnel on active duty here are eligible to make purchases through the merchandise order department. AGO cards and Class A passes will be used to identify the purchaser and their dependents must have their husbands identification with them to take advantage of this new service.

All purchases made through the merchandise order department will be on a cash basis. If items desired are not listed in the catalogue every effort will be made by personnel of the department to obtain them for the purchaser.

The office, located in the Thrift Shop, is open Mondays, Wednesdays and Fridays from 1000 to 1600 hours.

Mrs. R. S. Buckley is chairman of the merchandise order department and succeeds Mrs. R. H. Weatherford who has worked for two months with her committee to set up this new service for the convenience of military personnel of the base.

## Recreational Building Approved For Civilian Workers Of Base

Civilian employees at Reese now have a building of their own that will soon be fixed up and used for recreational purposes, it was announced this week by the Civilian Personnel Office.

Plans for the renovation and utilization of Bldg. T-58 as the civilian welfare building were recently approved by Col. George W. Pardy, base commander, in a memo which stated: "Fine! Fine! Approved. Hope they get this off to a flying start."

The civilians working on the base were organized into a Civilian Employees Association 3 February as a start in getting along with their social activities here which are to revolve around Bldg. T-58.

The building will provide a meeting place for civilian employees to be used for breaks, a place to eat lunch and to meet socially after work hours. It has been noted that a large number of civilians working in Field Maintenance and Consolidated Supply bring their lunches and have no suitable place to eat their lunch.

It may also be used by Field Maintenance or other activities as needed during working hours for foreman and safety meetings. The Board of Directors of the Civilian Welfare Association will use the building for regular and special meetings and for special committee meetings such as Blue Cross

## Hit-Run Victim Is Flown To Walter Reed Hospital

A motorcycle accident victim, Pvt. James B. Spivey of the 809th Engineers, was put aboard a C-47 Wednesday afternoon in a stretcher to be taken to Walter Reed General Hospital at Washington D. C. for further treatment. Three nurses, two of whom were student flight nurses from Randolph AFB's aviation school of medicine, accompanied him as medical attendants.

Private Spivey was seriously injured Sunday afternoon, 7 May, at Plainview, Texas, when he was struck by a hit-and-run driver and thrown 89 feet against a tree and then on the rebound was thrown against another tree.

He was then taken to the Plainview hospital where he underwent a spinal operation to remove pressure resulting from a back injury which had caused a paralysis from the hips down. Next he was taken to the Station Hospital for treatment.

The Civilian Welfare Association plans to submit a request for a grant from the National Civilian Welfare Association for the money to purchase the necessary equipment and supplies to set up the program.

Plans for the renovation of the building call for covering the open side walls with beaver-board, celotex or other available suitable material. The ceiling will be painted and the floor, when the funds are available, will be covered with asphalt tile. Curtains will be placed over the windows and a cold water drinking fountain will be installed.

The work required to accomplish this renovation will be provided by civilian employees during off-duty hours or at times during duty hours as officials of the base deem possible.

## Engineers Finish Platform Project

The engineers of Company A, 809th Engineer Aviation Battalion, have completed the loading platforms in the Quartermaster Area and advanced several others projects, including the real and installed property survey, past the halfway mark, Captain George A. Patrick, company commander, announced this week.

Five new loading platforms at the warehouses were built and five others were completely rebuilt. The property survey team by Wednesday had completed 50% of the base's buildings and Captain Patrick stated that when this job was completed seven of the men would be sent to Sheppard AFB to do the same type of work.

A survey of the location of the proposed taxi-way has been completed and work will begin immediately upon the receipt of construction materials. In the meantime a detachment of 15 men are at work clearing the brush away in the areas adjacent to the three runways.

Work at the Abernathy auxiliary field has been halted temporarily until the sand, used in the runway surfacing, is hauled in. Plans are in operation now to let the contracts for the purchase of the sand. It is estimated that at least 11,000 cubic yards of sand will be needed to complete the job.

## History In The Making

Students in the American History class study their textbooks during an interval in classroom work. The class, one of several sponsored by the Base TI&E Office in conjunction with Operation Bootstrap, is held twice weekly under the direction of Mr. Mack Steger, principal of Frenship High School. The students include (front row, l. to r) PFC David Robinson, Cpl. William Miles, Sgt. Webster Lewis, M/Sgt. John Wilman and M/Sgt. James Farmer. (Back row, l. to r.) Pvt. Ray Clement, Cpl. Coley Scott, Pfc Horace Aycock, M/Sgt. James Elders, M/Sgt. James McClendon and Mr. Steger the instructor.

## Hey Mister, What's This For?

Like a bunch of the famed "Gremlins" these Cub Scouts literally invade every nook and cranny on one of the T-6's parked out on the ramp. Accompanied by Pack Fathers and Den Mothers, the Cubs, from Lubbock, Abernathy, Plainview, and other West Texas towns, toured Reese, visiting points of interest about the base.

## NCO CLUB

TONIGHT, 19 May—Bingo at 2030. \$25 door prize.  
 SATURDAY, 20 May—Dance at 2000.  
 SUNDAY, 21 May—Informal dance at 2000. Music by Base Orchestra.  
 MONDAY, 22 May—Ladies Auxiliary meeting and open house.  
 TUESDAY, 23 May—Open house and dinner music by Four Dusters.  
 WEDNESDAY, 24 May—Free Juke Box Dance at 2000.  
 THURSDAY, 25 May—Open House.  
 Breakfast is served from 0700 to 0900, lunch from 1100 to 1300, and supper from 1700 until closing.  
 Free coffee on Saturday and Sunday mornings until 1100.

## OFFICERS' CLUB

TONIGHT, 19 May—Cocktail hour. Two for the price of one. 1700-1900 hours. Free seafood and refreshments from 1630-1830 hours.  
 SATURDAY, 20 May—Informal dance. Music by Base band, sponsored by Maint. & Supply Group. 2100-0100 hours.  
 SUNDAY, 21 May—Open house.  
 MONDAY, 22 May—Open house.  
 TUESDAY, 23 May—Bingo at 2000.  
 WEDNESDAY, 24 May—Women's Club Coffee. All members. Entertainment. 1000 hours.  
 THURSDAY, 25 May—Card night. Bridge prizes. 2000 hours.

## Strrrrrrrrrrrrrriike!

Mrs. Mary Derbonne takes a swing at the ball during one of the Reesettes' practice sessions. The team is composed of members of airmen's families. The other players include (l. to r.) Mrs. Eddie Bosko, Miss Mattie Mae Rudy, Mrs. Charles Twiner, Mrs. W. I. Thompson, and Mrs. Rita Taylor. (Photo by Cpl. Conrad)

### By Armed Forces Press Service

**FOOTBALL'S "fair catch" rule has been discarded.**  
 The football rules committee gave very little publicity to this change in the playing code after its January meeting at Pinehurst, N. C., and many coaches are as yet unaware of the details.

Now the safety man, on a punt, has two options instead of three, as formerly. He may elect to (1) catch the punt, or (2) let it hit and roll free.

Previously, if tacklers covering the kick were bearing down uncomfortably close, the safety man could raise a hand—the "fair catch" signal—and protect himself. In this case the ball was put in play at the spot where he caught it.

**The receiver's only protection now is that he cannot be hit by the opposition until the ball reaches him. Once the ball touches him, however, he is at the mercy of the opposing ends and tackles rushing downfield to cover the punt.**

The Chicago White Sox have one of the most unique pitching staffs in major league baseball history. No fewer than six of their eight top pitchers are left-hand flingers.

But that is not the oddest or perhaps the hottest item about the Jack Onslow-managed Chicago Chicago is still carrying 10 infielders, six of them shortstops and first basemen, on its roster; and a young Venezuelan up from the Fort Worth club, one Alfonso "Chico" Carrasquel, who has thrown the whole infield situation into chaos.

Chico, who speaks no English and who hit Texas League pitching for .315 last season—his first year north of the border—promptly beat the aging Luke Appling out of the shortstop job early this spring. Luke had been playing that spot for 19 years with the White Sox and has a major league batting average of

# 'Bipp' Baer Crowned Lightweight Champ Of ATR Command

Bipp Baer of Reese was crowned lightweight champion of the Air Training Command and Ernest Bruce received a trophy for runner-up in the featherweight division at a banquet held Sunday, 14 May at Lackland AFB following the boxing bouts in which fighters from all over the Command participated.

## Golf Driving Range Opens For Play

The project officer for the base golf course and driving range, Capt. H. C. Showers, announced this week that the driving range will open tomorrow at 0900 hours. Thereafter the range will be open on Saturdays from 0900 hours until 1700 and on Sundays from 1300-2000, to military and civilian personnel of the base.

Captain Showers also announced that the range would not be open during the evenings of the week unless there was a great demand for it.

Clubs, tees, and golf balls are available at the Club House on the range. The charge for the balls will be 25 for 15c.

Captain Showers was aided in the project by Sgt. J. C. Taylor, Sgt. S. R. MacLenden, Sgt. Dave Herrin, Sgt. Donald C. Johnson, Sgt. Lee P. Heimer, and Cpl. Howard L. Hendzora. The latter three drove the heavy equipment used in setting up the course.

The Golf Course is coming along satisfactorily, he announced, and the greens will begin to show up in about two or three weeks. However, the tentative plans doesn't call for the opening of the course in the early fall. All support including labor and financial have been supplied by the Officer's and NCO Clubs.

## Reese Boxers Bring Back The Bacon

Cpl. Ernest H. Bruce, (left) and Sgt. Richard "Bipp" Baer proudly display the trophies they won in the Training Command Boxing Bouts held recently at Lackland AFB. Baer was crowned lightweight king of the Command while Bruce was runner-up for the featherweight title. He was beaten by last year's Training Command champ. (Photo by Cpl. Conrad)

Baer came through to win the lightweight title after a series of upsets through the Central Area bouts and the Training Command tourney. He didn't win the Central Area title but went to Lackland as runner-up where he was defeated by Benny Barry of Lackland. Barry was later disqualified and Baer given the fight. Bruce won every one of his fights from the Central Area to the Lackland Finals where he was dicsioned by Al Muckerson of Lackland.

The trophies were awarded to the winners at a giant banquet that was held at the first three grades club with Col. Malcolm N. Stewart acting as host and presenting trophies to winning teams and individuals. The Central Area had the most championships while Lackland acquired the most points as an individual base.

The bouts opened on Wednesday night, 10 May, with over 4,000 fans in attendance to watch the seven bouts that were staged. The Southern Sports Area took the lead with four wins in the opening night. Bruce advanced to the semi-finals when his opponent, Nace Hicks of Mather AFB, was unable to fight. Benny Barry of Lackland dicsioned Bipp Baer in what was called one of the fastest fights of the evening.

On Thursday night, the Central Sports Area took a three point lead on the rest of the field with six wins.

Fighters winning championships were Vincent Garza of Chanute in the flyweight division; Tony Maiorana of Lackland, bantamweight; Al Muckerson of Lackland, featherweight; Bipp Baer of Reese, lightweight; Felix Giboney of Scott, Welterweight; Johnny Sorral of Lackland, middleweight; Lawrence Melton of Scott, light-heavyweight; and Johnny Veal of Scott, heavy-weight.

The final standings for the bases were, Lackland, 11; Scott, 8; Chanute, 5; Sheppard, 2; Reese, 2; and Williams 1. The Central Sports Area gained 17 points while the Southern copped 11, and the Western took 1.

**New York (AFPS)**—Two tackles from the Pacific Coast have been signed by the New York Giants of the National Football League. They are Bill Austin of Oregon State and John Sanchez of San Francisco. Both played with the Polo Grounds club last season.

**Providence, R. I. (AFPS)**—Gregory G. (Gus) Zitrides, Brown University line coach for four years, has taken over as head football coach to succeed Charles A. (Rip) Engle, who resigned to become head mentor at Penn State.

### NOTICE

**Beachcombers of the 3500th Maintenance and Supply Group invite all shipwrecked survivors and tropical tourists to their Beachcombers Ball tomorrow night in the Officers' Club starting at 1930 hours. The evening will open with hors d'oeuvres and a buffet supper. Following the supper there will be dancing to the music of the Base Orchestra. A skit portraying certain well known characters of Reese will be offered by producer and director Captain George W. Wehling.**
