Offer On-Base Classes

Please accept my enrollment in the course(s) checked below, at no cost to me:

Beginning Algebra English
 American History Radio Repair
 Mechanical Drawing Others (not listed)

Name No. school yrs. completed.....

Orgn. Phone.....

Classes in a number of high school subjects are slated to begin 15 September, the education office announced this week. The classes, under the supervision of civilian instructors will be conducted on the base, at absolutely no cost to the participating airmen.

Among the courses offered are beginning algebra, American history and English, plus a number of technical subjects such as radio repair and mechanical drawing. Funds have been allocated for as many as four classes, and fifteen to twenty enrollments will be necessary to make up each class. Classes will be conducted in the four subjects with the greatest number of enrollments.

Each class will meet twice weekly for approximately two hours. The education office advises airmen interested in OCS or Aviation Cadets to enroll in those courses which will assist them in passing the GED tests necessary for qualifying for those programs. Airmen who have already taken a GED test and failed one or more phases are advised to enroll in classes reviewing those phases before taking the test again.

Those interested in enrolling may do so by checking the courses of their choice on the accompanying coupon, or by writing-in any desired course not listed, in the space provided. Just sign and return the coupon to the Information and Education office in building T-421.

All interested airmen are urged to act immediately, due to the necessary time required to obtain text books and instructors. For further information phone extension 574.

BIG MONEY FOR BIG IDEAS came to Jack M. House, Shreveport, shown receiving congratulations last week of Col. Gregory F. Keenan, acting base commander at the time. House received a \$250 award, the largest made for civilian suggestions since the re-activation of the base in 1948. Also commended were, left, Dalton Neugent, Brownfield, who received \$43.91 for a suggestion regarding a mounting tube from engine suspension and Francis E. McWilliams, San Benito, \$36.47 for a rod and flat iron bender" device. In the background is the cowling assembly modification devised by House which brought him the outstanding cash award.

Officer Promotions frozen by Strict '53 Appropriations Bill

HQ, ATRC — Second lieutenants can still change the gold to silver but all other officer promotions are frozen solid by the fiscal '53 appropriation bill. While there appears to be no hope for a thaw in the first six months of the new fiscal year, USAF is working hard to ease the situation after that.

The freeze of officer promotions to the rank of captain and above was made necessary by the "Davis Rider" (Rep. Glenn R. Davis, R., Wisc.) to the money bill. Strict dollar and grade ceilings were written into it.

Still hopeful that some relief from the restriction will be obtained, Hq USAF plans to convene promotion boards as previously scheduled. Those officers selected will be put on recommended lists for future promotion "as vacancies occur and as legislative restrictions permit."

Medical, dental, and veterinary officers can still be promoted to the rank of captain. Previously eligible for promotion after 12 months active duty, these officers must now serve a minimum of 20 months before being eligible.

In a message to all commanders describing the promotion situation, Lt. Gen. Laurence S. Kuter, USAF DCS/Personnel, said that "the Air Force is making every effort to restore a promotion program which will guarantee an opportunity for those advancements which they (officers) have earned and richly deserve.

Meanwhile, the House Armed Services Committee may study and recommend less restrictive legislative legislation for the second half of fiscal '53.

Hold M&S Follies Monday Evening at 01st Maint. Hangar

A big hour and a half M&S Follies will be held in the 3501st Maintenance hangar Monday night at 2000 hours.

The fifteen-act show was conceived by members of the M&S Group to "develop esprit de corps and higher morale" according to Lt. Walter Kerbel, commanding officer of M&S.

All military and civilian personnel and their friends and families may attend. Attendance is expected to be approximately 1500 people.

Following the show, there will be a dance. Also free refreshments will be served.

Arrangements are under the direction of the first sergeants of each squadron in the Group headed by M/Sgt. Grady Williams of the 3501st Maint. squadron.

NCO Wives Meeting Changed to Tues.

The NCO Wives club social meeting, originally scheduled for Monday, 25 August, has been changed to Tuesday, due to conflict with the M&S Group Follies Review. The meeting begins at 1930 hours at the NCO Mess, club officials said in announcing the change.

Each of the members is urged to bring a friend or two for an evening of games promising fun and prizes.

Reservations for the barbecue to be held in September should be made as soon as possible by contacting Mrs. Grace Conners, extension 245.

Coin Collectors Meeting Tonight at Base Library, T-421

Ever wonder as to the origin of that ancient or foreign coin you perhaps carry as a good luck piece?

Then you'll want to attend a meeting of coin collectors and potential enthusiasts to be held tonight at the base library, building T-421, beginning at 2000 hours.

Robert E. Medlar, a base auditor and an ardent coin enthusiast, will lecture before the group and show his own and several other coin collections from this area. He will answer any questions and offer suggestions to those interested in furthering their collections.

The base library will be closed for an hour to all except those attending the meeting, Mrs. Helen Fuller, librarian, said in announcing the get-together of hobbyists. All base personnel, as well as civilian visitors, are invited to attend what promises to be an interesting and informative meeting.

Promote 33 on Supplement List

Thirty-three Reese airmen welcomed an additional stripe through a supplemental promotion list which followed the first bi-monthly boosts published last week.

The largest group to be promoted numbered 29 new airmen first class.

Hugh F. Whaley, 3502nd Maintenance squadron, upped to staff sergeant, was the only NCO on the orders.

Newly-made A/1C's are: Donald E. Doyle, James J. Frale and Biago A. Fatoni, Hq, M&S Gp; Bobby G. Harnsberger, Zebbie R. Holley, Nathan G. Jones and Charles L. Sears, 3501st Maintenance squadron; Richard A. Ayres, Paul L. Brasacchio, Homer V. Brinson, John S. Hoffman, Patrick G. Kel-

ley and James T. Nichols, 3502nd Maintenance squadron.

Victor Christiano and Herschel L. Robinson, Supply squadron; Jarmon A. Freudiger, Motor Vehicle squadron; Dolphus R. Smith, Hq Sq Sec. PTGp; Leon M. Brown and Leo E. Hall, Hq Sq Sec. PTW; Robert P. Belinchak and Frank B. Hoenig, Installations squadron.

Donald L. Washum and Richard L. Peaslee, Hq Sq Sec. ABGp; Leon Bobbitt, Gerald Dunn and Harvey E. Baker, Food Service squadron; and Robert W. Beasley, Reginald M. Franklin and Jeff D. Sanders, Medical group.

Promoted to airman second class were Joseph R. Ferraro and W. B. Riley, 3502nd Maintenance squadron and Pedro L. Iriarte, Hq Sq Sec. PTW.

OFFICERS AND DIRECTORS of the Reese Credit Union met last week with a federal examiner for an audit of the Reese Union. They are left to right: M/Sgt. James H. Rogers, credit committee, Capt. Alfred J. Ashton, director, Mrs. Ellen Reifers, office manager, Miss Ruth L. Allen, secretary-treasurer, Howard C. Fox, Federal Credit Union examiner, Jack M. House, president, J. F. Reeves, supervisory committee, Capt. Clifford B. Hunter, supervisory committee and Erwin L. Irwin, director. (Photo RAFB Studio).

Federal CU Examiner Finds Increase of \$12,204.34. . .

Credit Union Fund up to \$41,054

An increase of \$12,204.34 in money available for loans through the Reese AFB Federal Credit Union was noted by Howard C. Fox, of the Federal Security Agency, who made an audit of the union here recently.

Fox's last audit in November of last year, the Credit Union had \$28,850.44. Since that time the figure has jumped to \$41,054.78. Although the Credit Union board

of directors marked the increase as "sizeable" during a meeting last week with Fox, federal examiner, they added that it could be much more considering a potential membership numbering approximately 3500. All Reese military and civilian personnel, as well as their dependents, are eligible to become members and are urged to consider the advantages offered by the union.

Mr. Fox reported that the Credit Union is being operated very efficiently. Loans are being made for every purpose under the sun, so to speak; furloughs, vacations, doctor bills, marriages, automobiles, automobile insurance, etc.

The Credit Union is owned and operated by the members. Officers are elected at the annual meeting of members in January of

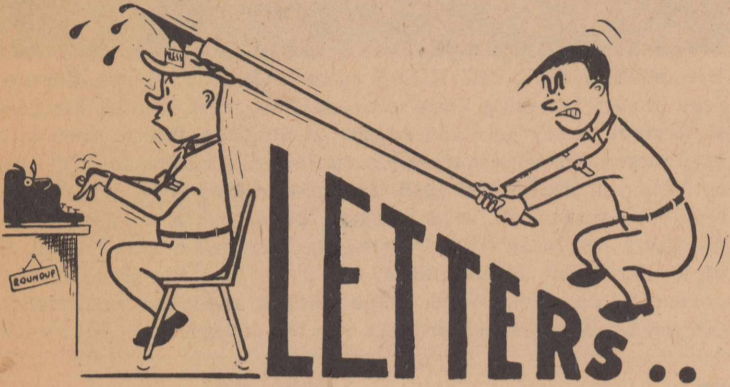

(Continued on page 3)

THE ROUNDUP

The ROUNDUP is a civilian enterprise published every Friday in the interests of military and civilian personnel of Reese Air Force Base, Lubbock, Texas. Local news appearing here may be reprinted without obtaining specific clearance. News, features, photographic and art material are solicited from personnel of the Base but publication depends on availability of space and general news value as judged by the publisher. Every effort will be made to return rejected material but no responsibility can be assumed beyond the exercise of due care in expediting return. Opinions expressed herein are not necessarily those of the United States Air Force.

AFPS material appearing herein may not be reprinted without written permission of 'Armed Forces Press Service.'

Your Chapel

When the Lost Battalion met in Lubbock on VJ Day, 14 August, we were reminded that seven years have gone since the end of the "World's Greatest War." To our POW's in Japan and Germany in 1945 there was rejoicing, for they now had liberty.

They days of torture, hunger, humiliation, eating of fish heads and rice and more rice had ended. Along the march of labor camps were crosses and stars of David marking the resting place of those who died for lack of medication, jungle diseases, dysentery, and brutality. Many did not see the day of liberty. Each year a memorial service is held by the Lost Battalion to pay respect to those who did not come back.

In our report to our hero dead of all ages, we must remember the gift of our life gives us great responsibilities to live for the things men have died for. With one-third of the population of the world still enslaved by tyrannical forces, we realize our task is far from complete. We must be confident that men of all ages do not long submit to exploitation.

Our dedication to help nations work for liberty is sound and God favored. The real strength of liberty lies within ourselves as we exercise the virtues necessary for good citizens. When we have dedicated ourselves to love God and our fellowmen, then we walk in liberty and help others to find it.

St. Paul tells us, "Where the Spirit of the Lord is, there is liberty." Our nation is founded on the idea, "God is the Author of liberty." With confidence we can dedicate the destiny of our nation, if God continues to be the foundation of political and international action. "In Thee we trust" is a living and working principle for us who have the gift of life. Let us remain dedicated to the principles of freedom for which our hero died.

ALVIN A. KATT,
 Chaplain (Maj.) USAF
 Wing Chaplain.

"Wot's for chow?" I hollered at Rollo Knutsen the other day because he always eats before I do.

"Potatoes Au Gratin," Rollo answered, tugging in an effort to loosen his GI belt, "and roast beef, and cole slaw and . . ."

"Potatoes Ugh Rotten? I winced.

Then Rollo did a funny thing. Instead of bringing up a more familiar subject—like whether we should spend the rest of our chits at the NCO now and have a good time or spend them slowly and suffer all month—he looks me in the eye and says:

Wot's with you, anyhow? Don't you know when you make a crack like that, especially in the chow hall, you're only showing what a dummy you are?"

I was speechless.
 "Suppose every guy that stumbled through the chow line made a funny remark about the food, making the cooks think it was worse than week-old fish heads and rice?"

"But I was only . . ." I started. Rollo kept talking. "I been thinking . . . about how the other guy feels when you make some worthless criticism of his job. Like the other day I was painting in the section and this guy what outranks me by one skinny stripe walks in and tells me who do I think I am Rembrandt and who don't I get a broom to paint with it's even sloopier and things like that.

I'm so mad see, I can't even think up an answer before the jerk is gone, so I gets to wondering how often I done the same thing.

"Oh, I'm not very bright, and heck knows I'm not a very good painter . . . but here's one thing I can say. When you go 'round making with the wises like that, you're hurtin' no one but YOU!"

Rollo," I pleaded, "It's me, Dusty."
 Rollo kicked at an empty pack of butts on the ground. "Well, you're no different from the rest of the guys I gotta live with."

"But I was only kidding awhile

ago." I protested.
 "Okay," he answered, "so I blew my top. But I meant what I said, anyway."

He took a playful swipe at my chevrons with one fist and pushed me toward the chow hall with the other hand.

"No offense, pal, I'll see you after chow," he grinned.

I walked on alone, and began to ponder. "The guy must be off his nut . . . but he's right about a lot of things."

One of the boys in the squadron was washing his car. "Looks real nice Svbody," I waved.

Joe smiled.
 I smiled.
 Maybe Rollo's got something after all.

KADET KORRAL . . .

Dad Can Build Planes, But Youngsters Fly 'Em!

Since the day aviation had its beginning, the pilot has been a glamorized, idolized, and daring personality to most people. There was hardly a kid that grew up who didn't stop to look up when an airplane flew over, or sit beside the municipal airport watching, and wondering what it would be like to fly. Some of them even built their own sail-planes, unpredictable as they are, so they might know the thrill of flying.

During World War II, we saw strides in aviation development and production in this country unmatched by any other country in the world. But it would all have been for naught had it not been for the widespread interest and

enthusiasm aviation received from the kids of the country. The old men could build them but only the young ones could fly them—and they did.

We're in practically the same situation now as we were a dozen years ago—but a little bit better off. At that time we didn't have the equipment to fight a war. We have that now. What we don't have now are enough young men with a yen to fly higher and faster than those pilots of a dozen years ago would have dreamed possible.

If the time comes again when we need hot pilots, don't count completely on the veterans of the last scrap—they ain't as young as they used to be.

"WHAT DO YOU THINK?" . . .

"Wow!" - General Opinion of Marilyn

Probably the most talked about young lady in the U. S. today is movie star Marilyn Monroe.

Riding high on the crest of a near-fantastic publicity wave, M. M. is without doubt one of the most frequently seen, talked about and read about women in America.

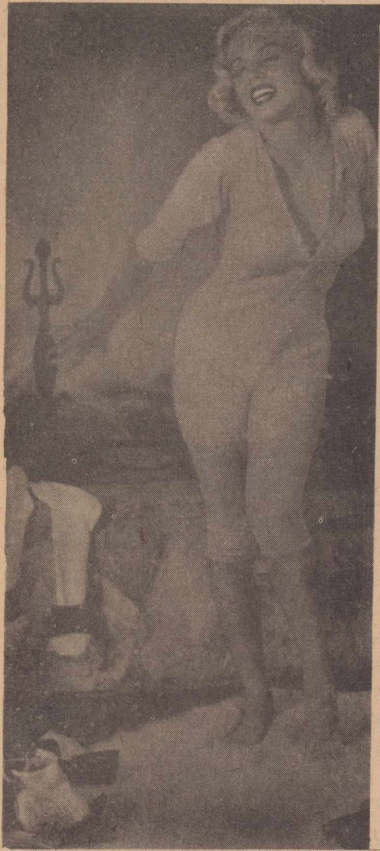

Helping her own cause by offering sexy interviews; iez., "What do you wear to bed, Miss Monroe?"—Answer, "Channel No. 5," and "What did you have on when the now famous calendar picture of you was taken?"—Answer, "The radio"; the lady in question is also proving one of the top box office draws of the year.

Since Miss Monroe, who is rumored to be getting clubby with Joe Dimaggio, is taking her place right beside the Korean war on the nation's newspapers, The Roundup decided to see what RAFB personnel thought about her. Here are their answers.

Second Lt. J. P. L'Angelle, CO of Hq Sq section, PTW: "Comparing Marilyn Monroe with another old favorite, Jean Harlow, gives Miss Monroe a decided edge, I think. She has it all over Jean Harlow for glamour and sexiness. M. M. is better looking and she has more talent. You can say that Marilyn Monroe is better built without fear of getting any contradiction from me. Jean Harlow was thinner, I think.

A-2C Samuel T. English, distribution center: "Marilyn Monroe—aaaaaaagh! She is every serviceman's dream of what his girl back home is like after he's been away about six months. I believe her popularity is due to her having a lot of it, and not being afraid to show it. Incidentally, please don't quote me but if you have to, my middle name is Thornton."

A-C Leon M. (for Red) Brown: "There's no comparison between Marilyn Monroe and Rita Hayworth. Marilyn Monroe's way ahead of her and besides, Rita H. is get-

This Week's "Subject" . . . MARILYN MONROE

ting a little old. I'd take a voluntary bust back to corporal so that I could get on KP if we had somebody like her here for a pusher. Besides that—Marilyn and I have something in common, we sleep with the radio on, although I pass on Chanel No. 5."

Earlene Berry, Civilian worker in the PX—"I don't know about the glamour angle, but I think Rita Hayworth's a better actress than Marilyn Monroe. She (M.M.) certainly has a terrific publicity agent, though, and I think that's one of her biggest assets. Of course, she has the ability to play up her sex appeal. I liked her a lot better when she had long hair as she did in one of her earlier pictures with Groucho Marx."

A-2C Joe Svoda, 3500th Underground Balloon Detachment: "Mar-

ilyn Monroe, huh. I got the thing cased, pal. I got the answer. The babe's got something men like. That's the story in a nutshell, if ya' know what I mean. I think she's the greatest thing since near-beer, pal. Don't get me wrong. I'm all for her, like I say. I saw her picture on that calendar, pal, and I knew right away—she's got something men like. Yes, sir, pal."

College offers Scholarships

CHICAGO — Illinois Institute of Technology announced this week that it will grant 100 scholarships, valued at one-half tuition, to veterans entering the Institute in 1952-53 under the new "Korean GI Bill."

The new Illinois Tech scholarships are valued at \$162.50 per semester or \$324 per year. They will be awarded to students entering the day division of the Institute in either September, 1952, or February, 1953, according to Dr. John T. Rettaliata, Illinois Tech president.

The scholarships will be for one year, but may be renewed for additional years providing a student's academic performance is satisfactory. Total potential value of the 100 scholarships is \$130,000.

The new Korean GI Bill, signed by President Truman 16 July, provides that veterans will pay tuition out of their government allowances. The Illinois Tech scholarships will reduce those payments by one-half.

The new scholarships will be awarded on the basis of previous academic records (high school or college) or on performance in Illinois Tech's entrance examination.

The Office of Admissions of the Institute will handle contacts with veterans applying for the scholarships, Dr. Rettaliata said.

PERSONAL ATTENTION is given to a member of his review arithmetic class by F. A. Followill, principal of Friendship H. S. in Wolfforth, Texas, during one of the group study classes held on-the-base last year. Similar courses are scheduled to begin again on 15 September.

Limit Shipment of Household Effects

HQ, ATRC—A 9,000-lb. limit has been set on shipments of household goods at government expense, according to a TWX received from Hq., USAF. The new limits were made necessary by the Fiscal 1953 appropriations.

Pending further clarifications by the Per Diem Board in Washington, ATRC officials interpret this to mean that shipments of household effects for field grade and general officers are restricted

to the new limits. Weight limitations on the effects of junior officers and NCO's remain the same as before.

Shipments of professional books are not included in the new limitations and can be shipped in excess of the maximum weight allowances. Packaging and crating weights, too, are in addition to the 9,000-lb. limit.

Register for Base School 2 September

School on the base for children over five but under six years old will get under way with registration on 2 September. Facilities are available for a maximum of thirty students, and tuition will be \$15.00 per month payable in advance before the tenth of each month.

The Roundup of SPORTS

West Zone Tourney Here This Week

The Air Force West Zone Tournament was held here at the base this week and ended yesterday. Five bases have entered the double elimination contest. Walker, Reese, Kirkland, Holloman, and Biggs Air Force Bases are competing.

The winner of this tourney will go to the Southwestern Zone Tournament to be held at Connally AFB.

Results were received too late for in this week's ROUNDUP, but they will appear in next week's paper.

Duffers, Attention!

The big two-day base golf championship tourney will start tomorrow morning at 0900 hours.

First-day's play will be 18 holes and the finals will be played a full 36 Sunday.

3501st Cops Intra-mural Title

Stracner Leads Mates to 2 for 3 Over Cadet "A"

By A/2C Bob Rooker

Riding the strong arm of pitcher Jewell Stracner, the 3501st Maintenance squadron squeezed out the Cadet A team in the finals of the Intra-Mural Softball play-offs last week two games out of three to cop the base title.

The 01st squad trounced the cadets 17-1 on the opening night of the finals. Although losing pitcher Vern Finch limited the winners to six hits, he issued 10 walks and was the victim of sloppy fielding by his mates. The maintenance men produced some excellent base running and chalked up nine stolen bases. Stracner stopped the losers with seven hits.

Big guns in the maintenance attack were first baseman Chuck Riley, who banged out a triple and a single in three times at bat, and catcher Dick Tucker with one hit and four runs batted in. Jewell Stracner helped his own cause with three RBI's and one hit.

Cadets Catch Up

The cadets had to make up a

AFTER WINNING the base intra-mural softball league play-offs, the 3501st Maintenance squadron team gets together for one last picture. In the front row left to right they are: Jonn Voogd, short stop, Dick Tucker, catcher, Don Snyder, third base, and Troy Counts, second base and outfield. Back row left to right: Roy Ketchum, outfielder and catcher, Chuck Riley, first base, Roy Garrison, second base, and Jewell Stracner, pitcher. Absent when the picture was taken were Jack Garlington and Al Jarrett. The 01st squad beat the Cadet A team two out of three games in the finals of the Shaughnessy play-offs to cop the base title.

four run deficit in the second game for an 11-8 win to keep alive its hopes of a play-off victory.

Jack Garlington and Chuck Riley stole home to lead the 3501st in its big four-run first inning of

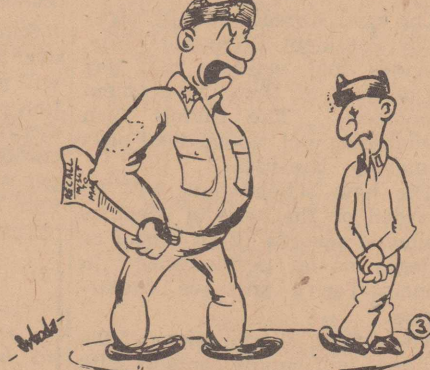

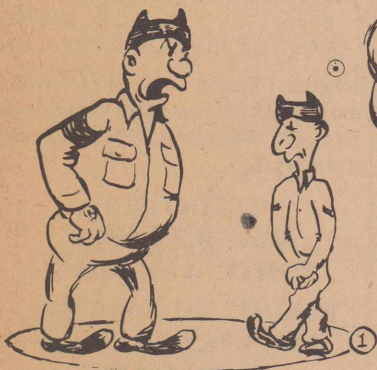

game number two,

The cadets were held scoreless until the third and then exploded for two runs. Poor fielding by the 01st let the cadets push six men across the plate in the fourth inning to go ahead 8-4. Three more in the fifth made sure of a win for the future flyers.

In a last effort to pull the game out of the fire, consecutive singles by Dick Tucker, Don Snyder, and Jack Garlington produced four runs for the 01st.

Winning pitcher was Vern Finch and Jewell Staacner was tabbed with the loss. Both gave up nine hits.

Gene Lischenski led the cadets at the plate with two hits, and Don Snyder collected three hits and three RBI's for the losers.

Good Substitutin'

When Jewell Staacner took the mound for the 3501st Maintenance in the finals of the Base Intra-mural Softball Shaughnessy play-offs last week, he pitched and won his first game this year. The next night he hurled again and lost because of poor fielding by his mates, but came back the following night and pitched his third straight game. He won it 4-3. Stracner was not scheduled to go for the 01st, since the regular moundsman was on leave.

Classes may not begin at Frenship public school on 1 September, as originally announced, but on the following day, J. F. Reeves, base education officer said Wednesday.

Such a change will also set ahead a day or two the pre-registration schedule. Persons concerned should watch the Daily Bulletin for results of the Frenship school board meeting this week.

and A-3C William G. Stanka, East St. Louis, Mo. 3502nd Maintenance.

Capt. John L. Boehm, Oklahoma City, Okla., and 2d Lt. Carl L. Trippi, PTGp.; 2d Lt. Ronald E. Enderson, Washington, Ohio, Hq. Sq. PTW.; 2d Lt. Clyde L. Grimm, Jr., Oak Park, Ill., AB Gp.; 2d Lt. Stanley T. Smith, Kinston, N. C., M&S Gp.; and 2d Lt. James A. Hollingsworth, Edna, Tex., unassigned.

Last Game Well Played
In contrast to the first two games the rubber tilt was well played in all respects. Good fielding and pitching were dominant all through the game.

For the third straight night Stracner took the mound and gave up only five hits for his second win, 4-3.

Again the 3501st got away to a flying start and pushed across three runs in the first inning. Tucker walked. Don Snyder singled him to third and stole second. T. C. Counts then blasted his first home run of the play-offs into right field.

Both teams then went scoreless until the fourth inning. In the first half of the frame, Garlington walked. Two wild pitches sent him to third and Roy Kitchen hit into right field to bat in what proved to be the winning run.

The cadets came back in the bottom half to make three tallies on a walk, single by Doy Doss, and home run by Bale.

Seventh Inning Score

The seventh inning produced the typical "story-book" finish. Lischenski hit the first ball Stracner pitched over the center fielder's head. Garlington retrieved the ball, threw to shortstop Voogd. He whirled and threw to Tucker at home who tagged the runner for the out. Tucker then ended the game with a good catch of a foul ball.

Gene Lischenski was credited with the loss.

The cadets reached the finals by downing the Student Officer nine two games straight 16-4 and 11-1. The 3501st earned its berth by defeating Installations 11-1 and 9-3.

Has YOUR Car Passed the State Inspection?—Deadline 6 Sept.

When the Texas Inspection law goes into effect 6 September, all personnel with automobiles registered on the base must have an official inspection sticker displayed in the lower right corner of the windshield.

This applies to all out-of-state as well as Texas-licensed automobiles, 2nd Lt. Howard F. Kemsell, ground safety officer, said in reminding car owners of this obligation.

A new ATRC regulation, 32-3, governs the state car-inspection policy. Soon to be effect is wing regulation 125-4.

Only twelve working days remain before the Texas law goes into effect.

LAFFS

(By Armed Forces Press Service)

A nervous man walked into a grocery store in a small town and said, "I want to buy all your over-ripe vegetables and stale eggs."

"Oho," said the grocer. "You must be going to see the new comedian at the theatre tonight."

"Please, not so loud," said the man, looking around warily. "I am the new comedian!"

"What funny names these Korean towns have," remarked a man from Schenectady as he read a Poughkeepsie newspaper while on his way to Hackensack.

"My husband would never chase after another woman. He's too fine, too decent, too old."

Recruit, after physical: "Well, Doc, how do I stand?"

Doctor: "I don't know . . . it's a mystery to me."

A psychiatrist saw another psychiatrist racing down the street

with a couch on his head. "Why the couch?" he called after his hurrying colleague.

The hurrying one replied breathlessly: "House call!"

Exasperated wife: "I knew I was marrying a blooming idiot, but I didn't think you were a perennial."

...KFYO-ABC: Last week we reported a repeat broadcast of the "Frank & Jackson Show" to be aired at 10:30 p. m. Monday nights. Since that time "Time For Defense" has returned to the airways and will be carried in the 10:30 spot. Frank & Jackson's airing will be heard Saturday afternoon at 3:00, and in case you haven't heard it, you're missing thirty minutes of pure insanity, recorded and transcribed, from the Nation's Capitol.

"Time For Defense" boasts a report from overseas units of all Armed Forces, Giving first-hand evidence of what's going on in the world with a definite effect on YOU, as members of the service.

On these Saturday mornings you happen to be enjoying the "Sunday Schedule," tune in to "The Eddie Fisher Show" which naturally stars (by tape from the Far East Theater) Pfc. Eddie Fisher. Musical additions here and there are accompanied by the U. S. Army Band. Airtime: 10:30 a. m. Tomorrow evening at 6:15 tune

Anne Burr, heard as Gloria, a beautiful but insidious menace in CBS Radio's "Guiding Light" daytime drama, came to radio after gaining success on the Broadway stage.

in for a quarter hour of the western-pop music of Jake Miller and his band.

An after note from KFYO-ABC announces that "The Jazz Corner" tonight at 11:00 p. m. will continue with the Volume 1 edition and into the Vol. 2 session of the Woody Herman Carnegie Hall Concert of 1946. Jazz lovers will enjoy hearing "The Herd" and some of the great stars of the time such as "Flip" Phillips, the late Sonny Berman, Bill Harris, Pete Candoli, Chubby Jackson, Don Lamond and, of course, Woodrow, himself.

KCBD-MBS: A special from Mutual in Lubbock for tomorrow afternoon at about 3:30 is the "Story of GOC." "GOC" is Ground Observer Corps and the USAF takes a tape from the GOC station tracing a sighter plane via its network of communications all the way to the Jet-Interceptor base. The AF reporter continues the program with an interview during which the entire set-up is explain-

LISTENING ENRAPT to storyteller Mrs. C. A. White were more than a dozen children who attended the first story hour session in the base library Monday morning. Another in the tales-for-tots series will be held at 0930 hours this Monday, with Mrs. J. Floyd Dunn reading for the youngsters. Mrs. J. F. Reeves, of the library, is shown at the right of the picture.

ed and the need for additional civilian observer posts is pointed out.

Tomorrow night from 9:00 to 10:00, music lovers can enjoy the "Chicagoland Music Festival" from Coldier's Field in Chicago. This 23rd annual festival stars soprano Rise Stevens and baritone Louis Sudler.

Tonight sports (football) enthusiasts can head the play-by-play coverage of the Oil Bowl game from Wichita Falls. The annual battle pits the high school all-stars from Texas against the HS stars from Oklahoma. Game airtime is 7:55 p. m. Local Westerner players, of course, will be in the tilt.

Sunday's "MGM Theater of the Air" at 9:00 p. m., stars Jessica Tandy in William Thacker's "Vanity Fair."

KSEL: For those who yen for country music of Hank Thompson, tomorrow morning at 8:00 begins a 14-week series of quarter hour shows with Hank and all the Brazos Valley Boys.

More highlights from the local spots of either entertainment will appear here next week. See you then.

JACK.

Nero was an accomplished performer on one type of bagpipe, says the National Geographic Society.

Ease OCS, A-C Requirement

HQ, ATRC — A high school level GED is now your ticket to Officers' Candidate School or Aviation Cadets. A high school diploma is no longer necessary. A passing grade on the GED test will do.

These new entrance requirements to a career as an officer in the United States Air Force should make it possible for many airmen to earn a commission.

Other requirements remain the same. Any unmarried airman, a U. S. citizen between the ages of 19 to 26½ is eligible to make application. Contact S/Sgt. William O. Milam or S/Sgt. Peter W. Bolash at the base AC/CO Board, building T-221 for your application or further information.
