

HOWDY PARADS!

THE ROUNDUP

SATURDAY, MAY 16, 1953

HURLWOOD, TEXAS VOLUME IV

NUMBER 27

Visitors To See Reese 'Tigers' In Aerial Show

Demonstrating versatility of the B-25 aircraft, used in multi-engine pilot training at Reese, is the Reese "Tiger" team which today gives to visiting citizens a view of just how this type of plane is and can be used.

The team and formation plan was organized last August to show Student Officers and Aviation Cadets arriving here the maximum performance obtainable with the B-25 in formation maneuvers.

Weather permitting, the "Tiger" team will carry out several maneuvers, all of which are intended to show the ease with which the aircraft can be operated and how versatile they are.

The flyers expect to pass over the field with only one of the twin-engines operating, to make speed runs, bursts (up and out in different directions), to fly in close formation (almost wing tip to wing tip), and to give complete simulated support to the artillery from Fort Sill on the ground, as if in battle. There will be precision maneuvers throughout, and the pilots of the planes will be in constant radio communication with the speaker's stand on the ground, as well as with the control tower.

Returned veterans of the Korean conflict are pilots and co-pilots of the four B-25's which make up the formation. Pilot of the lead ship is 1st Lt. William J. Newton, Korean veteran, with 1st Lt. Z. D. Strickland as co-pilot. Ship No. 2 has Capt. William Woodrum as pilot, Capt. Douglass R. Wood as co-pilot. Both are Korean veterans. Capt. Edward E. Holtkamp is pilot of No. 3 aircraft, with 1st Lt. William A. Rapp as co-pilot. Plane No. 4 has Capt. Robert Strouse as pilot, Capt. William Schlosser as co-pilot, both Korean returnees. Captain Schlosser, motivation officer of the 3500th Pilot Training Group at Reese, is the officer in charge of the team.

Another Trip To Carlsbad Scheduled For Base Men

Another trip to Carlsbad Caverns has been scheduled by personnel services 24 May.

The bus will leave the service club at 0700 hours. Only military personnel in uniform will be permitted to make the trip. Reservations may be made at the service club.

Armed Forces Day Prayer

Prepared by The Armed Forces Chaplains' Board

O God who teachest mankind by word and example the ways to true peace—

Inspire the minds of all our leaders with the wisdom to bring about a peace according to Thy designs.

Strengthen the wills of our fighting men and women lest in the pursuit of their vocations they succumb to the temptations to rejoice in the power of material might and gain over true righteousness.

Enlighten the minds of those in positions of responsibility to an awareness of Thy Commandments which must be the basis for a true peace.

Touch with Thy outstretched hand of forgiveness the souls of tyrants who would, by abandoning Thy teachings, lead us to disaster.

With humility and sincerity, do we beg Thy blessings on all those throughout the world who strive to bring about a peace which can be gained by Thy leadership. Amen.

General Twining, 52-A Graduation Speaker, New AF Chief of Staff

Gen. Nathan F. Twining has been named to succeed Gen. Hoyt S. Vandenberg as Air Force Chief of Staff by President Eisenhower last week.

The new Air Force head, who formerly served as vice chief of staff, will be remembered by Reese personnel when he spoke during the graduation exercises of class 52-A and personally pinned the silver pilot's wings on his son, 2nd Lt. Richard G. Twining, a student officer in that class.

Also pinning wings upon a son that day was famed E. V. "Captain Eddie" Rickenbacker, World War I hero and president of Eastern Air Lines. His youngest son, William F. Rickenbacker, also received his commission as second lieutenant in the USAF.

The top-level changeover will become effective June 30 when General Vandenberg completes his second term as Chief of Staff. He requested the shift. General Vandenberg is 53 years old and has had more than 34 years of military service.

To succeed General Twining as vice chief, the President has nominated Lt. Gen. Thomas D. White, who now is deputy chief of staff for operations.

LOST THE CHILDREN?? SEE SPEAKERS' STAND!

Spectators at today's festivities whose children become separated from them in the crowd, should first contact the speaker's stand where lost children will be taken initially.

In the event that children are not claimed at the stand, they will be taken to Bldg. T-61 where aid station personnel will take care of them until their parents come for them.

THE END THAT ROARS many unwelcomes to the enemy. Looking down the business end of a 105 mm howitzer will give you an idea of what to look for in the Vehicular Display section on the ramp. Four of these 105's are on display and will go through their paces this afternoon when members of Battery "A," 602nd Field Artillery Battalion go into action. Fort Sill Photo

All Services Show Might For South Plains' Guests

Today marks the fourth annual observance of Armed Forces Day in this country. It also marks the day for saluting the members of the Armed Forces for their constant devotion to the job they are sworn to complete.

But even more than these it's a day for all of Lubbock and South Plains citizens to find out, for themselves, just what their Armed Forces have in "the poke" to

maintain the peace of the world... to find out the reason for this year's celebration theme... "Power for Peace."

All Branches Present

Reese officials have arranged an all-around show to include displays and demonstrations representing the power of the Air Force, Army, Navy, Marines, and various reserve units.

Commencing at 9 this morning when the main gates open, and visitors pour in to view the spectacle, the Armed Forces plan a day of showing the reason behind that theme. The big show will actually get underway at 11:30 this morning with an official luncheon at the Officers' Club.

Accident Costs Drop Mishaps Decrease, Proud Record Set

As a result of the emphasis placed on accident prevention by organizational commanders and supervisors ground accident losses at Reese has decreased considerably for the first four months of 1953 as compared with the same period in 1952.

Staff Sergeant Joseph J. Lopez, Ground Safety technician, commended all personnel for their tireless efforts and splendid cooperation which they have taken to achieve this over-all improvement in the safety record.

Although the number of fatalities is the same for both periods (one), the ground accident cost for '53 was \$40,582 as compared with \$64,441 for '52.

Total days lost for '53 was 21 as compared with 961, 28 disabling injuries as compared with 60 in '52. The greatest improvement has been in the traffic injury category which totaled \$3693 for '53 as compared with \$37,635 for the same period last year. This is indeed a record to be proud of.

A complete schedule of events listing the exact times and sequence of appearance may be found on Page Four.

The Army Reserve Corps, the Naval Reserve, the Air Force Reserve, the Voluntary Air Reserve Corps Training Unit, the Marine Corps Reserve's special 40th Infantry company, plus the Veteran's of Foreign Wars and the American Legion will have their training apparatus, weapons and equipment displayed for the public in one hanger (Bldg. T-70), just south of the special parking area.

To See Radar Team

Out on the ramp itself spectators will get close-up views of the vehicles and equipment needed by Clovis AFB's 729th Aircraft Control and Warning Squadron radar team; the Fort Sill, Okla., Battery "A" (105 mm howitzer) on the 602nd Field Artillery Battalion; the crash and fire trucks of Reese's own fire department; and the Texas National Guard Unit from Lubbock.

Past the speaker's stand to the south the aircraft of the Air Force and the Navy will be inspected. The familiar T-6's, T-28's, and B-25's; the T-29, navigational trainer; the C-45 and C-47 cargo ships; the T-33 jet trainer plus the B-29 from the Air Force. The Navy's F6F, "Hellcat" and AD, "Skyraider" will also be shown.

Combat Films Shown

After the quick trip of things to see on the ramp, spectators may stop in at the base theater to see actual combat and training films of all branches of the service. Then over to the Department of Training Aids to see the work done by base draftsmen and artists in the forwarding of the training mission.

Completing the circle, the next stop might be at the Synthetic Trainer department to see how future pilots learn the rudiments of "blind" flying on the ground in the Curtiss P-2 Synthetic Training ships.

Refreshments On Ramp

In order to get back on the ramp for the big show at one o'clock there will be two refreshment stands located at each side of the (Continued on Page 3)

THE ROUNDUP

The ROUNDUP is a civilian enterprise published every Friday in the interests of military and civilian personnel of Reese Air Force Base, Lubbock, Texas. Local news appearing here may be reprinted without obtaining specific clearance. News, features, photographic and art material are solicited from personnel of the Base but publication depends on availability of space and general news value as judged by the publisher. Every effort will be made to return rejected material but no responsibility can be assumed beyond the exercise of due care in expediting return. Opinions expressed herein are not necessarily those of the United States Air Force.

AFPS material appearing herein may not be reprinted without written permission of Armed Forces Press Service; 641 Washington St., New York 14, New York.

CO Extends Greetings

Serving the people of the United States today are powerful and united units of defense, working diligently and constantly for peace of the world. Today at Reese Air Force base, citizens of West Texas, New Mexico, and Oklahoma are permitted to see some of the weapons and the might which are carrying out the vigil for peace. Visitors also include relatives and friends of the young men who are graduating from training at this station today.

You who are visiting Reese will see clearly why the slogan: "Power for Peace" has been selected for Armed Forces Day of 1953. You will see colorful and impressive displays, on the ground and in the air. You will be proud, we feel sure, of what you see—proud of your nation, proud you are a citizen of it.

I welcome you to Reese Air Force Base today, to the station named for the South Plains' hero, 1st Lt. Augustus F. Reese, Jr., of Shallowater, who died fighting to bring world peace. I welcome you in behalf of all the services (the Army, Navy, Air Force, Marines, Texas National Guard, various reserve units, and veterans organizations) who are cooperating in making the 1953 Armed Forces Day most memorable for you.

All members of each unit which has united to bring you today's displays and ceremonies hope you enjoy every minute of your stay on the base and that you thrill as you watch the artillery, parachute drop, flights of jet and conventional type aircraft, and witness the ground displays.

Today's ceremonies are for you—each of you. Again, welcome—and enjoy your visit with us. We are all very happy to have you.

C. P. WEST

KADET KORRAL ...

Cadets To Give Aid In Today's Activities

Reese AFB has a big day planned for the visitors from Lubbock and the surrounding area today when the gates open on Armed Forces Day. It will also be a big day for the Cadet Corps, as approximately 150 aviation cadets will participate in events during the open house.

As soon as the gates open at 0930 the cadet area and the cadet club will be open to the public. All visitors are cordially invited to inspect the cadet area at any time during the day.

Atlanta, Ga. (AFPS)—Jack Bishop didn't get a scratch in two years of overseas duty, but the day after he returned home he was confined to bed with one foot in a ceiling sling. He tangled with a tricycle ridden by his three-year-old son, Michael.

AKARD SPECIALIZED EMPLOYMENT
Sweetbriar Bldg.—1210 Ave. J
DIAL 5-6476

At 1230 a Wing review will take place at the Parade Ground in which eighty aviation cadets will participate.

Along with members of the Air Police, 50 cadets will act as AP's and guides during open house activities.

Along with all the doings of the day, 53-C-2 will receive their wings at ceremonies on the flight line. Major General Maurice Saunders, (retired), father of former aviation cadet Saunders, will address the class. As a salute to the class and to Reese visitors, B-25 and T-28 aircraft will fly over the field in formation.

During graduation ceremonies, 2-Lt. Stephan Kovach, 53-C-2, will receive the Outstanding Aviation Cadet award sponsored by the Daughters of American Colonists. This award is presented to the qualifying cadet of each class, throughout the Air Training Command.

Other than plans for Armed Forces Day, there isn't much doing in Ye' Old Koral. 53-George reports in on the 18th though, which will put the cadet corps here at Reese back to full strength.

And on June 22, members of the Air Force Reserve Officer Training Corps (AirROTC) will report to Reese for a four week encampment as part of their training. They will be housed in two barracks of the cadet squadron.

This is it for this week. Will be around next week to give out the latest scoop from the four (or is it five) corners of the Kadet Koral.

Your Chapel

Armed Forces Day is a display and demonstration of the military power of the Air Force, Army, Navy and Marines of the United States. It is also an accounting of our preparedness, which is sought by the American people. Each of us have been given, first by God, then by our country, a responsibility to perform our tasks faithfully according to the "talents" entrusted to us. Our democracy is only a value as it is experienced by each man and woman in our country, even as our armed services are expressions of individual service. Actually we live in a world of our own at Reese and the routine work we accomplish may not appear great in national defense. It is difficult to see that this world of Reese AFB is expanded and united into a common good, which is worth living for and dying for.

We are learning that the only satisfying way of life is service to others. There is no task more gratifying to a man than to know he is defending the homes of America against the enemies who would destroy it. The searching question on this day of display of our stewardship is, "how much have we contributed to our jobs?" God demands the best of our time and efforts, our country has the right to our fullest service and our fellow men look up to us for security. Have we personally been "weighed in the balances" and found wanting? Have we "goofed off" on our jobs? The answer, as our tasks, is individual.

Armed Forces Day is also a time for humility hand prayer. The first defense of our country has been and remains, "In God we trust!" Whatever we contribute in man power, weapons and skills is nothing, if we do not serve on "God's side." History has stalked through the debris of those cities, whose people were careless of where they put their trust. Our strength, still remains not "in chariots and horses," but in "Our father's God, to thee, Author of liberty." Make Armed Forces Day one of prayer, asking Almighty God to bless us individually to perform our tasks well in service of our country, to bless our nation with wisdom to serve God, and to give us strength to repel aggression wherever it may occur and where it is our duty to assist the cause of God and Freedom.

Novena and Benediction 6:30 p. m.

Thursday

Legion of Mary 8:00 p. m. Thursday

Choir Rehearsal 8:30 p. m. Thursday

PROTESTANT SERVICES:

Bible School (all ages) 10:00 a. m.

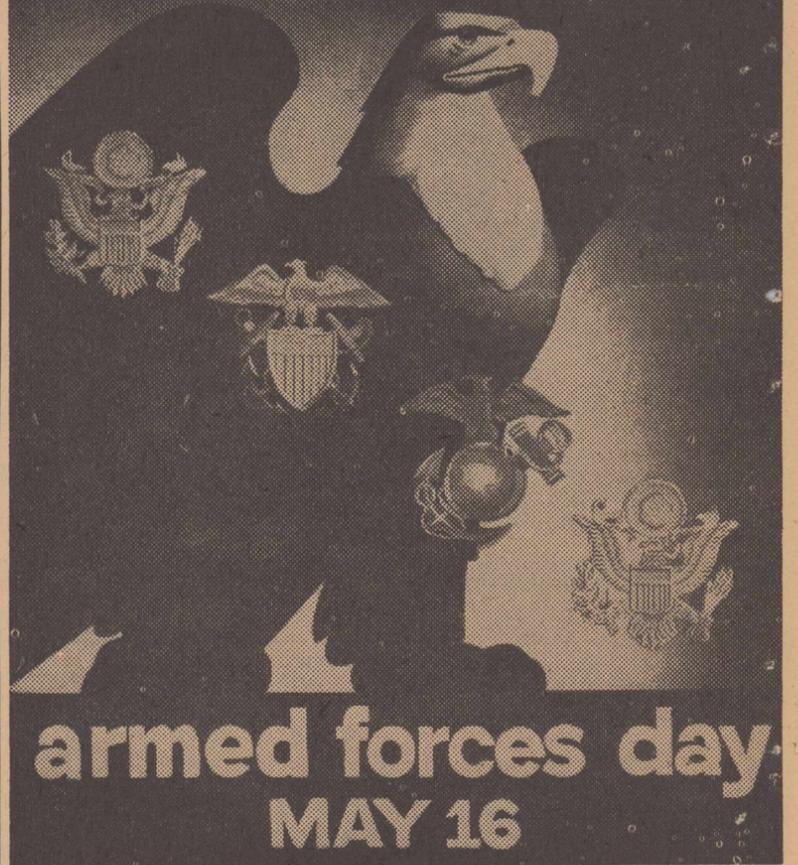

Morning Worship 11:00 a. m.

Ladies Christian Fellowship luncheon 1:00 p. m. Tuesday, 19 May in Chapel Annex with Mrs. D. F. Klutsenbaker as hostess

West Point, N. Y. (AFPS)—The pistols that Gen. George Washington carried during the Revolutionary War have been presented to the U.S. Military Academy's historic Museum.

The two pistols, still in good firing condition although more than 200 years old, were presented to the Academy by Clendenin J. Ryan, prominent N.Y. business executive.

POWER for PEACE

It's A...

7 May

Boy, Michael C., 6 lbs. 10½ oz., to T-Sgt. and Mrs. Howard Naegle.

8 May

Girl, Terry Lee, 6 lbs. 4 oz., to 2nd Lt. and Mrs. Emmett Niblack.

11 May

Boy, John R., 6 lbs. 6¼ oz., to S-Sgt. and Mrs. Neil Peters.
Boy, Stephen, 6 lbs. 15 oz., to A-1C and Mrs. Alan Rogers.

12 May

Boy, Mark B., 7 lbs. 11¼ oz. to A-1C and Mrs. Leonard Jordan.
Girl, Danna Lee, 7 lbs. 5½ oz., to 2nd Lt. and Mrs. Robert Richardson.

CORRECTIONS

Last week's column made two little mistakes (little did we say?) With all apologies we correct: Capt. and Mrs. John Pollock's baby was 60 pounds lighter than stated.

Rumor claims that 2nd Lt. Maurice Wells had some assistance in giving birth to little Mark. After careful calculations we come up with the solution — Mrs. Wells helped out.

Annapolis Will Graduate Second Largest Class

Annapolis, Md. (AFPS)—The second largest class in the history of the U.S. Naval Academy is scheduled for graduation this June.

A total of 926 midshipmen are in the class. The only larger class in the 108-year history of the school was in 1946 when 1,046 men were graduated.

The largest number of midshipmen in the current class from a single state is 76 from Pennsylvania. Running close behind are New York with 75 and California with 70. There are representatives in the class from every state except New Mexico, and from Alaska, Puerto Rico, Philippine Islands, Greece, and Peru.

First Lt. Augustus F. Reese, Jr., of Shallowater, Tex., was killed in action at Cagliari, Sardinia, on May 14, 1943, while flying a P-38 Fighter plane on a volunteer mission from a base in North Africa.

His objective — to destroy an enemy railroad supply train. In his endeavor to successfully complete his bombing and strafing mission, Lieutenant Reese was enveloped in the explosion from his unerring attack.

In honor of this gallant flyer who displayed such heroic courage that day in Sardinia, Reese Air Force Base was named. And it is fitting that the name should be carried on as a living memorial and as a constant inspiration to the men who leave upon graduation to defend the same principles for which Lieutenant Reese died.

Dear Mrs. Shea:
Is an AF wife whose husband is on TDY expected to participate in the OWC?

Certainly, as an associate-member, if the club constitution allows. Presidents, secretaries and spotters of OWC should be alert in inviting young wives and wives of retired officers, also AF widows to participate in the Club activities. Most AF wives without their husbands are lonely and feel like the proverbial 'fifth wheel' socially, so it is customary in most Clubs for a cordial written invitation to be extended.

Where does an AF wife write to find out how to go overseas to join her husband?

She doesn't! Under no circumstances should you write to the Chief of Staff of the USAF, your Congressman or your husband's C. O. Your husband makes application through the proper channels at the proper time for you to join him.

Do most AF bases have their own elementary schools for children?

'A-F' Day Events Cont.

Continued from Page 1)

speaker's stand with hot and cold drinks, hot dogs and ice cream. Rest rooms have been provided in Buildings T-60, 61, 62, 70, 72, and 92.

Then, comes the big show from the speaker's stand emcees. The flyovers, the introductions of each event on the schedule, the talk between ground and aircraft, the artillery demonstration, and the entertainment from the guest star and Reese's own champion tumbling team, the "Trojans." (Man, that's a mouthful, but it's all there for you to see.)

This visit should convince even the most skeptical that the Armed Forces have the punch — the training — the equipment to deliver the goods, if they have to. Everyone will see why this year's Armed Forces Day celebration shows off what the services have — in truth — "Power for Peace."

Usually, if they are permanent bases.

Is it considered rude to refuse an alcoholic beverage when attending a party?

Certainly not.

Do you think the AF doctors are of the same quality as civilian doctors?

Yes, most of our AF doctors were civilian doctors and many will return to civilian practice when their period of service expires.

Education Survey Shows 54 Percent High School Grads

Have you completed your high school education? A recent survey made by the Education Office revealed that 44 per cent of the bases enlisted personnel have less than 12 years of schooling, 54 per cent have finished high school or passed the GED test, two per cent have graduated from college.

To all those men who have not graduated from high school we want to tell how little effort you must put forth to reach your goal. And don't forget how much you gain.

Listed below are the steps you must take:

1. Apply for the High School level GED Test at the Education Office, Bldg T-421.

2. Complete the test, which includes five parts each part taking approximately two hours.

3. If test is passed, results are recorded on Form 20, Air Force recognizing you as a high school graduate.

4. Many local high schools or state education agencies will honor successful completion of the High School GED by issuing a diploma or equivalency certificate.

We of the Education Office are sincerely anxious to assist any man interested in finishing his high school education. It's an opportunity that could bring you only advantages. We hope to see many of you in the near future.

Base Control Tower Helps Marine Jet

On the evening of 10 May at 2130 hours the Reese control tower picked a distress signal from the pilot of a Marine F-9 Pantherjet who had lost his course in the foul weather.

The AACs men on duty advised the pilot that their VHF-DP was

on "training status" and still unchecked. However within 17 minutes the lost aircraft was guided to Reese and landed without difficulty.

The men who successfully brought the plane in were A-1C James D. Maze, A-2C Stanley Wheeler and A-3C Francis Mason.

"OVER THE FENCE"

By A-1C Jim Sunderland

Brooklyn and the Yankees have convinced all contenders by now that it will take maximum efforts on the part of any team expecting to wrest a pennant from them. At the present time the Phillies and Braves appear to have the best chances in the NL, Chicago and Cleveland supplying the challenge in the AL.

We still feel that just one more top-flight pitcher will boost the White Sox into serious flag contention. Lane is trying hard. The Phils also need a front line pitcher to spell their "big three." Murry Dickson is their quest, Eddie Waitkus the bait. But so far, no deal.

Those Braves are amazing.

Drawing large, enthusiastic crowds, the team is acting like a real pennant threat. If the rookie pitchers can continue at their present pace, Grimm's crew could pull the biggest surprise since Preacher Roe's last safe hit.

We are still looking for some big trades though rumors are becoming harder to find. There are several teams that cannot afford to stand pat.

Deviating from baseball, we'll interject a very unauthoritative statement regarding Friday night's fight. While hoping that old Jersey Joe can pull an upset, we'll bow to a hunch that Marciano will win by decision. Ought to be a great scrap. Which reminds us: when will Lubbock get its TV relay station? Soon we hope.

Back to the diamond and a glance at the top minor leagues. Rochester, Toronto, and Montreal are tied for the IL lead. Indianapolis and St. Paul are on top in the American Association; Seattle and LA lead the PCL; Birmingham is alone in their Southern Association lead.

The following "sluggers" have been shunning the home-run department: Hodges (1), Berra (2), Dropo (1), Ed Robinson (1), Kiner (3), Rosen (2), Sauer (1).

Campanella acts like he's trying to worm his way into the Hall of Fame. Besides his ten homers and 40 runs batted in, he is batting nearly .400, and leads the league in runs scored.

In closing, we will join the many who salute the little professor, Dominic Dimaggio, who recently announced his retirement. A consistent .300 hitter, and one of the game's greatest center - fielders, Dom, though always in Joe's shadow, leaves his mark as one of the most brilliant performers of the last decade.

Ground Safety Office Helps Prevent Accidents

The Ground Safety division at Reese maintains and directs the Ground Safety program and maintains liaison with non-military and Government agencies to assist in controlling off-base accidents.

At present, this is being accomplished through the Citizens Traffic Commission, Texas Department of Public Safety, and the AAA, as well as other civic organizations. Provisions are made for appreciation and commendation to lower echelons for outstanding safety achievements.

Conducting safety inspections and accident investigations, issuing emergency orders to prevent possible accidents, and providing technical assistance are all an integral part of the Accident Prevention program.

Engineering plans are reviewed for safe construction and changes recommended when necessary. The Wing Commander and other commanders are informed as to the cause of accidents, and are recommended corrective action to prevent recurrences.

At present "Operation Supervisor" is in effect which is another effective accident prevention training and promotional device. The project, which is signed by Gen. Hoyt G. Vandenberg, now retired, recognizes the supervisor as the key to the accident prevention program.

This has always been true, but heretofore proper supervisor recognition had been lacking. The safety responsibilities of the supervisor are defined and safety instruction are also included.

The mission of the Wing Ground Safety division is to promote safety and to reduce the number of preventable ground accidents for the conservation of manpower and material at this base.

The basic elements of the Wing Commander's policy pertaining to the Ground Safety program include:

1. An aggressive campaign of safety indoctrination, designed to reach all personnel and make them safety conscious.
2. A thorough review and analysis of accidents at the end of each reporting period be accomplished.
3. Continuing detection and correction of hazards to prevent accidents before they occur.
4. A complete safety education program which will include training, publicity, and posters.
5. Formulation of a Wing Ground Safety council which will be responsible for the effectiveness of the Wing Safety program as well as formulating safety policies.

Ground safety, being a staff agency, is only authorized to advise and recommend; consequently, the accomplishment of safe operation is the responsibility of line activities.

NCO wives' notes

By Mrs. Frances Wallace

The NCO Wives held their monthly business meeting 11 May at 1930 in the NCO Club. Hostesses were Mrs. Emile Hicks and Mrs. Marion Daly.

Door prizes were won by Mrs. Nancy Courtney, and the travel prize was taken by Mrs. Doris Jackson.

After business was discussed, refreshments were served and games played. Prizes were won by Mesdames Mary Dale, Mildred Gordon, Vicky Burton, Gracie Connors and Nancy Courtney.

Congratulations to A-1C and Mrs. J. Jordan on a baby girl born 10 May at the Base hospital. Also congrats to S-Sgt. and Mrs. Henry Harrison for a baby boy.

Mrs. Vivian Shearer is convalescing from chicken pox. The club wishes her a speedy recovery. We missed her at the meeting.

T-Sgt. and Mrs. J. C. Breeland are vacationing in New Orleans, La.

T-Sgt. and Mrs. Ray Garrison are on vacation to visit the parents in Tennessee.

The Club is having a Bar-B-Que and Western dance for the members and their husbands 25 May at the NCO Club. Call Mrs. Mary Dale, phone 728, for reservations.

When a fellow breaks a date, he usually has to.

When a girl breaks a date, she usually has two.

Washington: First in war, first in peace, and fifth in the American League.

Artillery to Show Power

Personnel of Reese and residents of the 'South Plains' area will get a first-hand view of how the artillery of the Army works today when the four 105 mm howitzers of Battery "A", 602nd Field Artillery Battalion from Fort Sill go into action at 2 o'clock on the far edge of the ramp.

As in the past observances staged at Reese, the 4-gun battery will demonstrate barrage fire at a specific target with simulated effects marking their strikes. This year, in addition, the Fort Sill team has brought along an L-19 liaison plane for use in coordinating an air-to-ground fire mission.

Fort Sill Men Arrive

Five officers and fifty enlisted men made the trip from their Oklahoma Post as a training march, leaving Fort Sill yesterday morning at 7 o'clock and arriving here at 8 o'clock last night.

Their equipment, which will be displayed on the ramp prior to the time for actual use, includes ten trucks of various sizes, the four howitzers and the L-19.

Old Campaign Veteran

The 602nd Field Artillery Battalion was constituted the 26th of April, 1942 and was activated July 20, 1942, at Camp Carson, Colorado. The battalion first saw action in the landing on Kiska in the Aleutian Islands as a 75 mm mule pack howitzer unit.

Later it was sent to Italy, fighting in the Rome-Arno Campaign. In the invasion of Southern France

it was landed by glider and later reverted to a mule pack unit with the 421st Field Artillery Group. While with the 421st, the battalion saw action in the Alps where it remained until March, 1945.

Unit Guards Ike's HQ

Before being returned to the United States, it acted as guard battalion for General Eisenhower's headquarters. The battalion was inactivated December 22, 1945, at Camp Kilmer, N. J. During the period of active duty, the battalion participated in two theaters of combat and earned five battle streamers: Aleutian Islands, Rome Arno, Southern France, Rhineland and Central Europe.

On January 31, 1949, the battalion was re-designated the 973rd Field Artillery Battalion in the Organized Reserve Corps and was activated as such on January 24, 1950 at Muskogee, Oklahoma. On September 20, 1950, it was re-designated the 973rd Armored Field Artillery Battalion. It was withdrawn from the Organized Reserve and made Regular Army as the 602nd Field Artillery Battalion on November 28, 1951. The battalion was activated into its present mission at Fort Sill, Oklahoma, on December 27, 1951.

Most gals are possessed of magic. They can make a slim fella look 'round.

Admitting ignorance is the first step to knowledge.

Where You're Always Welcome

Library Called 'Finest' in Air Force Base Officials Prepare for ROTC Camp; 200 Cadets Are Expected

To the casual visitor, Building T-421 appears similar to other typically drab and uninteresting barracks at Reese. Whatever the exterior looks like, the building houses one of the finest and most attractive small libraries to be found in the Air Force.

There can be no mistaking the opportunities offered here, whether an airman's interest is in education or in pure relaxation. Almost every type of book, periodical, and newspaper is available.

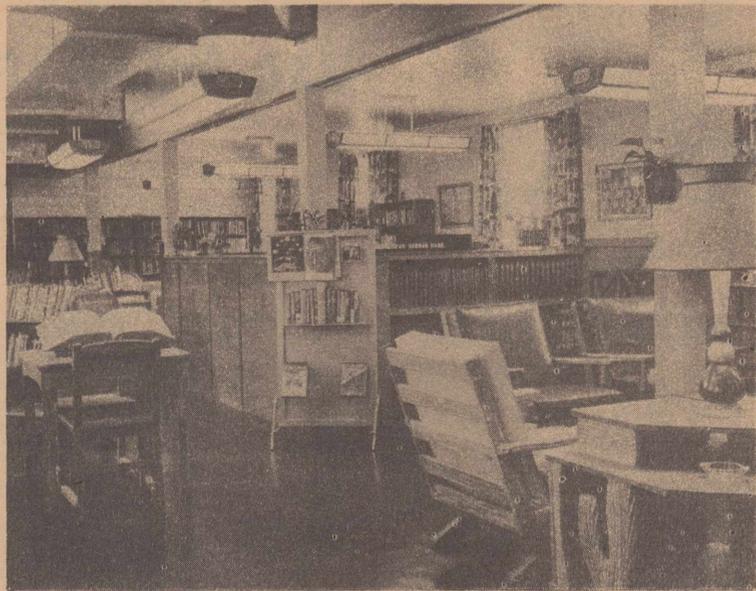

Over 10,000 volumes are maintained with a constant stream of new books filling the shelves. Sixty-nine different magazines provide base personnel with excellent material for reference and enjoyment. Comfortable reclining chairs and florescent lighting add to the ease with which one may use these facilities.

Among the fiction section many currently popular books such as "Old Man and the Sea," by Hemingway, "Desiree" by Selinko, and "East of Eden" by Steinbeck are available.

Non-fiction books covering almost every subject are offered. Religion, mathematics, sports, music and art, biographies, psychology, English, sociology, history, mechanics, politics, and science are among the many subjects.

For those who desire to further their education USAFI and GED texts are available, as well as professional military books for officers.

Over 1000 persons visit the library each week, records indicate. Many must check through each day for clearances. In addition to normal duty hours the library is open in the evenings. The base can be justly proud of these fine facilities.

PLEASANT SURROUNDINGS make reading and studying in the base library an easy task. Furnished with attractive chairs and tables in secluded alcoves, the library provides base personnel with ideal conditions for gathering reference material or just "plain relaxing." Photo by A-2C Richard L. Alf

Two hundred AFROTC students from seven colleges and universities will commence a four-week encampment here at Reese 22 June for the purpose of preparing themselves for future Air Force reserve commissions. The summer session supplements institutional phases of training.

The men will receive indoctrination in the various phases of AF activities to develop insight into the vast problems of leadership and management constantly faced by officers.

The camp will be headed by Lt. Col. Edward J. Culleton, wing comptroller, and assisted by Lt. Col. Clifton A. McClelland, Texas Tech Air ROTC, as training officer. Adjutant for the bivouac will be Capt. Robert N. Flournoy of Texas Tech.

Other officers assigned are Capt. John H. Baumgardner, Texas Tech; Maj. Frank D. Covell, University of Minnesota; Maj. Paul A. Eisman, Uni. of Minn.; Maj. Wayne Hall, South Dakota State College; Capt. Ural G. Weatherby, Yale University; and Capt. Ray S. Everhart, Coe college.

The camp commander conducted an initial meeting of key base personnel and the ROTC training officer on 28 April to discuss the proposed training program as provided by ATRC. Included in the schedule, and one of the most important phases, will be "aircrew and aircraft indoctrination training."

Each student who volunteers for an aircraft flight will receive 30 minute of "stick time" in straight and level flight accompanied by trained instructors.

Other phases to be covered are leadership, drill and exercise of command; weapons and marksmanship; physical training; and visits to various base activities.

The AF Reserve Officer Training Corps units, sponsored by 187 colleges and universities, furnish approximately 80 per cent of the total annual AF officer input.

This year's students will come to Reese from Louisiana State Uni-

versity and A&M college, Iowa State college and A&M Arts, State University of Iowa, University of Wisconsin, University of Arkansas, University of Kansas and University of Tulsa.

HOT AIR

"... And I need one airman third class for permanent latrine orderly!"

Milady's Memos

By Mrs. Peter L. Coffield

The Officers Wives club entertained Thursday afternoon with a business luncheon. Mrs. John P. Harney, president, presided over the affair.

The dining room was centered with a large Maypole entwined with roses. Streamers that connected to tables around the pole were held in place with roses. The speakers table was centered with a floral arrangement of snapdragons and roses.

Senior hostess was Mrs. W. R. Wright, assisted by Mesdames Robert R. Wilkins, Robert V. Weiland, Richard L. Druhot, Leroy P. Hansen, and Miss Sherry Hansen.

Favors were presented to Mrs. R. J. Halsworth, Mrs. Wyman J. Smalley, and Mrs. C. M. Roberts.

Informal dances were held on Friday and Saturday nights at the Officers Club. Music was furnished by Bob Lamont and his orchestra on Friday night; and by the Bernie Howell trio on Saturday night.

Visiting with Lt. Col. and Mrs. Richard L. Boulware were Col. and Mrs. Robert W. West from Parks Air Force base in California.

Guests of Lt. Col. and Mrs. William O. Miller were Mr. and Mrs. Ray Rummons from Sherman, Tex. Also visiting the Millers were Col. and Mrs. V. Seeth of Los Angeles, Calif.

Attending the opera in Dallas this week end are Mrs. Maury Hill and Mrs. Merle Bratton. They plan to see "Rigielletto."

Lieutenant Col. and Mrs. John P. Harney have recently returned from a short vacation of sightseeing in El Paso where they attended the Bull fights in Jaurez and and toured the Carlsbad Caverns.

Visiting with 1st Lt. and Mrs. Donald Thrasher is Mrs. Thrasher's sister, Beverly Jordan of Albuquerque, N. M.

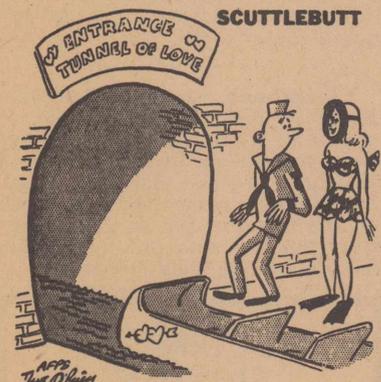

A gambler's funeral was well attended by his professional cronies. "Our friend Rocky isn't really dead," the speaker intoned. "He's just sleeping."

From the rear of the room came a voice: "I've got 100 bucks that says he's dead!"

Anita Ekberg, 20, who won a visit to the U.S. by capturing the title of Miss Sweden of 1951, has cashed in on her accomplishment. A movie talent scout spotted her and signed her to a seven-year contract

Capt. Canio F. Palladino, adjutant of the 3500th Medical Group, has received orders to report to Camp Stoneman, Calif., June 24 for assignment to the 315th Air Division in the Far East.

 Service Club — Game night.
 NCO Club — Open house.
 Officers Club — Womens' Club Program tea, 1330 hours.

HERE 'N THERE

WITH JACK

Since this is a big day of a sort for men of the base, there are some sort of special things to take in come this evening — if you're not too tired from tramping up and down the ramp looking over all the displays.

Of note for members of the NCO Club is the one-nighter of the Joy Caylor all-girl orchestra. The dance itself has been listed as a semi-formal affair, which means the dress for the evening may range any where from the ordinary to full dress — for both the guys and their gals. It's a chance to see if last year's formal attire still fits, too.

The Caylor group, according to all previous reports, puts forth some very danceable sounds from its nine pieces. The boss-lady, Joy is billed as "Queen of the Trumpet," and from the information available to us, truly lives up to her title. All nine gals, we're told, fall into the category of (and we quote from the press release) "young, lovely, talented girls." Let us know!

Over at the "O" Club the Base Dance Orchestra stands forth with Gary Garner at the baton (?), playing for what is termed an "informal dance." Session lasts from 9 p. m. till 1 a. m.

Town's festivities ae all wrapped up in the ABC Rodeo doings at 8 p. m. at Jones Stadium. Audie Murphy is the star man listed, but the word is out that the whole show is well worth the price. The nine-year-old gal who handles the Roman hurdle act excels. Frankly, we have a hard enough time just sitting on a horse, let alone standing up AND jumping hurdles. (Gulp!)

Although this has nothing to do with today's celebration, music lovers of the vicinity should sit up and take notice of the up-coming South Plains Symphonette, to be held in Levelland, May 19th.

The Symphonette is made up of all the top-flight musicians of the area, including William R. Harrod, conductor of the Lubbock Symphony, who will take the first violin chair, and Russell Cothran of Whiteface, who formerly was concert master for the San Angelo Symphony.

This initial concert will feature as soloist, mezzo-soprano Ellen Jane Poch of Atlantic, Iowa, a youthful vocalist who is rapidly gaining recognition for her outstanding ability. Miss Poch has appeared in "Tree Grows in Brooklyn," "Student Prince," "Carousel," "Wizard of Oz," and "Call Me Madam" as a member of the girls' chorus with the Dallas Starlight Operas.

The concert will also mark the first Levelland appearance of Victor King as conductor. Mr. King, manager of Levelland's KLVT, has received a Ph.D. in Musicology from the National Conservatory in Prague, Szechoslovakia, and was formerly music director for Muzak and M-G-M records division and was staff conductor for the ABC Radio network in New York City.

ABC listeners will probably recall the series of programs from 1942 to 1946 called "Music in the Air," which featured Nadine Connor and Milton Cross along with the King orchestra.

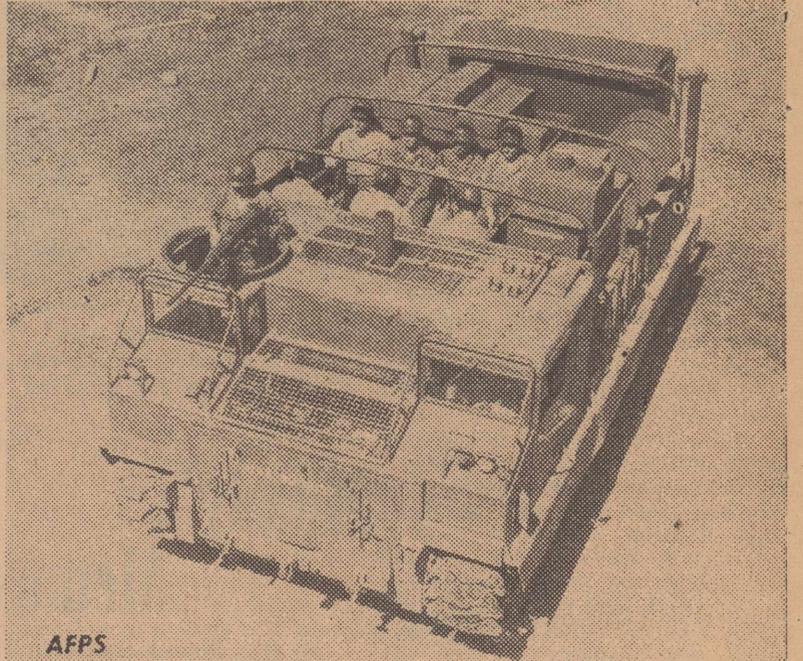

New AA Gun:

'Skysweeper' Gun's Tractor Also Doubles as Bulldozer

By PFC. RICHARD E. SNOW
 (AFPS Washington Correspondent)

Washington (AFPS)—A fast-moving, quick-turning cargo tractor has been revealed as the prime mover of the Army's new 75-mm Skysweeper anti-aircraft weapon.

The M8E2 can hit a top speed of 40 mph. The Ordnance

AFPS

Corps' versatile tractor weighs 22 tons and can double as a bulldozer.

In line with an Ordnance policy of standardization of vehicles, the M8E2 has the same basic chassis as the Walker Bulldog light tank.

The Skysweeper's tractor can tow it across swamps and small trenches. It also takes the weapon up or down grades up to 60 per cent.

The tractor mounts the Skysweeper's electric generator which supplies power through its cable attachments to operate the nearby gun mount.

For self-protection, the M8E2 carries a .50 cal. machinegun mounted directly above the assistant driver who operates the weapon. The assistant also looks after a set of dual controls and a radio.

When used to haul artillery—it can also pull the 90mm anti-aircraft gun, the 155mm gun, or the eight-inch howitzer—the cargo tractor carries the weapon's ammunition, supplies, equipment, and crew.

The versatile tractor can mount a scraper blade and act as a bulldozer. Often, it may have to level ground for the placement of the Skysweeper.

In addition, the M8E2 carries wrecker and stake-body kits. The

All-in-all it would appear that Levelland is going to have a magnificent night of wonderful music in store for those who attend this initial concert next Tuesday night. For those who care for music of all types, here's a chance that shouldn't be by-passed. Tickets, by the way, are available in Levelland or by writing Orlin Brewer, c-o The Levelland Daily Sun Times.

latter converts it for general-purpose hauling.

Ordnance officials are quick to point out one of the most outstanding features of the tractor—

its interchangeability of parts with other members of the light tank family.

Sixty-six of its major components are interchangeable. Costs are thus cut down and time saved in the procurement of parts for quick repair jobs.

Clarksburg, Mass. (AFPS)—

Knowing fishing season was to open and it's a losing battle every year, school superintendent David Malcomb ordered classes to begin at 10:30 a.m. rather than 8 o'clock on the opening day so the youngsters got two and one-half hours fishing out of their systems.

No Flying Involved:

Air Force Develops Device For Training Bomber Crews

Baltimore (AFPS)—A revolutionary new bombardment and navigation training device which does not involve actual flight has been developed by the Air Force, according to Hq. Air Research and Development Command here.

Potted Pretty

AFPS

Designed and built by the American Machine & Foundry Company, this development offers several training advantages, such as increased safety because of the reduction of flying time required, more utilization of training time by using the device on a shift basis, and reducing expenses by releasing aircraft and personnel for other duties.

Known officially as the AN/APQ-T1, the device is an ultrasonic radar trainer. While still on the ground, air crews become familiar with flight problems including targets anywhere in the world. In addition to employing the same instruments used in aircraft, the trainer records the competence of the person using it.

The machine operates on the principle that there is a ratio of 200,000 to one between the speed of electromagnetic waves in air and the speed of ultrasonic waves in water. Thus when a reduced scale terrain contour map is submerged in a tank of water, it is possible to simulate radar flight by moving an ultrasonic transmitting and receiving apparatus over the area.

The flight motion necessary is simulated by the movement of the radar antenna by the instructor. In all respects except speed, the sound pulses behave like radar pulses. They strike the terrain and are reflected back to the trainee's screen. Such effects as ground-based radar beacon signals and enemy jamming can be introduced by the instructor.

Bombardment training begins as the plane approaches the target area. On the bomb run the instruments show a view corresponding to what would appear during an actual flight. When the bomb release is pressed, the device automatically computes the path the bomb would take if actually dropped at that point.

This trainer is designed primarily for training of aircraft observers possessing a 10-year experience level as bombardiers, navigators and radar specialists. It will enable one man to become proficient in the duties of all three, thus assisting in decreasing the size of air crews.

How does your garden grow?—In May, just fine, says NBC's saucy little Terry Duhaime.

"Dad, give me a dime."
 "Not today, Junior."
 "I'll tell you what the ice-man said to Mom this morning."
 "Here, son. Quick, what did he say?"
 "He said, 'Lady, how much ice you want today?'"
